W. C. McDONALD ELECTED GOVERNOR OF NEW MEXICO; THIS IS WHAT THE PEOPLE DID ABOUT IT

Fairly Complete Returns at Midnight On November 7 Indicate That William C. McDonald, Democratic Candidate For Governor, is Elected By a Majority of From Three to Five Thousand and That the Entire State Ticket is Elected; Bernalillo County Gives Majority of 1,500 For the Democratic State Ticket; Sandoval County Will Go Overwhelmingly Democratic; Las Vegas, San Miguel County, Gives a Substantial Democratic Majority and Rio Arriba and Taos Counties Are Expected to Be Very Close; Owing to the Large Amount of Scratching in the Counties the Returns Will Probably Not Be Complete For Twenty-Four Hours.

REPUBLICAN STRONGHOLDS ARE SHOT TO PIECES; A SOLID DEMOCRATIC VOTE

New Mexico Scene of Remarkable Political Revolution Which Results in Utter Defeat of Old Guard Republican Ticket; Majority for People's Governor Grows as Returns Come in From Outside Precincts; McDonald Carries Home Town Where They Make it Almost Unanimous; Democratic Chairman Claims Election of State Ticket by 4,500 and Says Party Will Control Legislature.

(Special Dispatch to the Morning Journal)
Carrizozo, N. M., Nov. 7.—
William C. McDonald's home town of Carrizozo, which it was declared by Bursum would not give a majority for Mr. McDonald, gives McDonald 201 votes against 42 for Bursum. Carrizozo is celebrating in honor of the first governor of the State of New Mexico.

Mr. McDonald, when interviewed last night at his home in Carrizozo over the long distance telephone stated that he was absolutely confident of his election. Up to midnight Mr. Bursum and the republican leaders still claimed the election of the Socorro man but made no estimates and based their claim on no definite returns.

The election of McDonald is indicated by the remarkable change in the vote in the counties of Sandoval and San Miguel; by the majority of over 1,200 for the democratic state ticket in Bernalillo county and by the solid majorities being rolled up in the democratic counties; Roswell alone giving McDonald and the state ticket a majority of 900 votes.

Reports from Sandoval county indicate it will go almost solidly democratic, Bernalillo precinct being almost unanimous for McDonald. The city of East Las Vegas has turned its normal 500 republican majority of 200 for McDonald. Eddy county will give a solid democratic majority of 1,200.

Early returns indicate the blue ballot will be adopted by a safe majority, the democratic counties voting almost solidly for the constitutional amendment.

Following are the bulletins from the various counties received by the Morning Journal up to midnight:

VOTE FOR McDONALD RAPIDLY BECOMING A LANDSLIDE.
Scattered reports from nearly every county up to midnight, November 7, show that W. C. McDonald is elected first governor of the State of New Mexico, by a majority variously estimated at from 3,000 to 5,000. N. B. Laughlin, state democratic chairman, claims the election of his candidate by 4,500.

MAJORITY FOR McDONALD EXCEEDS TWO THOUSAND
Santa Fe, N. M., Nov. 7.—Returns received here from sixty-six precincts scattered over the state give Bursum, 3,125; McDonald, 5,482. For judges of the supreme court the same precincts give Roberts, 1,426; Wright, 1,434; Parker, 1,348. Democratic judges, Dunn, 1,885; Burkhardt, 1,882; Hanna, 1,882. For the blue ballot, 5,440; against, 2,516.

Torrance.
Moriarty gives McDonald majority. Moriarty, N. M., Nov. 7.—Moriarty gives McDonald 32 and Bursum 13. For the blue ballot 43; against, 19.

McDonald's Majority 4,500, Says Chairman

(Special Dispatch to the Morning Journal)
Santa Fe, N. M., Nov. 7.—N. B. Laughlin, secretary of the democratic state central committee, makes the following statement at 9 o'clock, November 7:
"Based on present information we feel confident McDonald will be elected by 4,500 majority and that the blue ballot has carried by 6,000. The democrats and progressive republicans will have a majority in the legislature."

democratic state and county tickets will run about the same. The vote this year was about 40 per cent larger than ever before in the precincts so far heard from. Twelve precincts cast 1,273 votes, with eight yet to hear from. The blue ballot was adopted by a two to one vote.

Curry.
Clovis, N. M., Nov. 7.—Two out of the eleven precincts in Curry county give McDonald, 153; Bursum, 44. For justices of the supreme court the democratic candidates each received 151; republican, 44. For the blue ballot, 171; against, 21.

McDonald Carries Curry.
Clovis, N. M., Nov. 7.—Late returns show that Curry county will give McDonald a majority of about 625. The blue ballot will carry by 550.

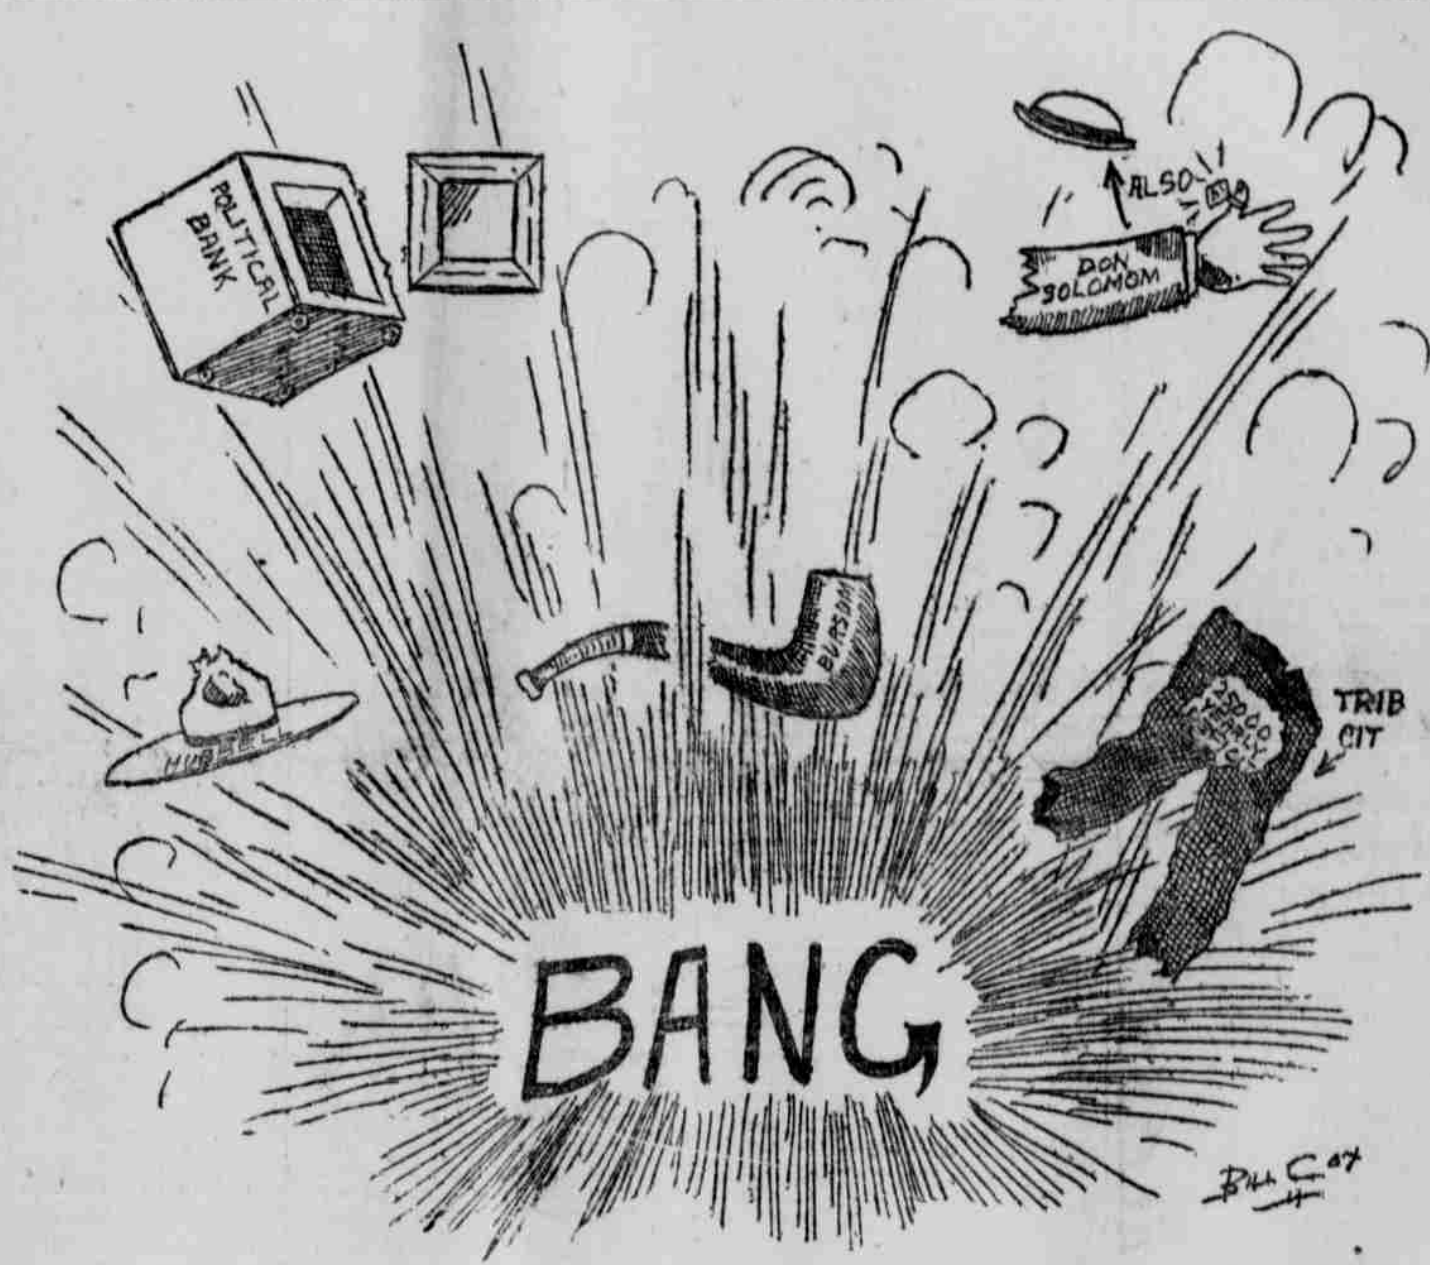

Blue Ballot Carries in Curry.
Clovis, N. M., Nov. 7.—The blue ballot will carry three to one in Curry county.

Sierra.
Hillsboro, N. M., Nov. 7.—Complete returns from precinct 12 give McDonald 23; Bursum, 29.

Sierra County For McDonald.
Hillsboro, N. M., Nov. 7.—Hillsboro precinct, usually strongly republican, cast 165 votes. The count is slow, because of the many scratched tickets. Indications are that Bursum carried the precinct by a bare majority. It is safe to predict that McDonald will carry the county by at least 200. The democratic justices of the supreme court are running ahead of their ticket. It is generally conceded that the democratic legislative

BURSUM CLAIMS HIS ELECTION AS CERTAIN
Socorro, N. M., Nov. 7.—"You may say that I regard my election by a majority of 5,000 as absolutely certain," said H. O. Bursum, republican candidate for governor tonight. Mr. Bursum did not state on what he based his estimate, but professes to be certain of his election.

BURSUM CLAIMS HIS ELECTION AS CERTAIN
Socorro, N. M., Nov. 7.—"You may say that I regard my election by a majority of 5,000 as absolutely certain," said H. O. Bursum, republican candidate for governor tonight. Mr. Bursum did not state on what he based his estimate, but professes to be certain of his election.

The Little Fire cracker Went Off.

ticket will carry by a good majority.

FIFTH JUDICIAL DISTRICT DEMOCRATIC BY OVER 4,300
Roswell, N. M., Nov. 7.—Late returns from Eddy, Chaves, Roosevelt and Curry, the four counties comprising the Fifth judicial district, show a majority for McDonald of over 4,350.

Lincoln.
ENTIRE DEMOCRATIC TICKET CARRIES IN LINCOLN COUNTY
Carrizozo, N. M., Nov. 7.—Carrizozo gives McDonald 201; Bursum, 40. The majority for the entire democratic state ticket in Lincoln county will aggregate 150. The democratic legislative and county tickets are also elected.

Capitan Goes for McDonald.
Capitan, N. M., Nov. 7.—Capitan today cast thirty-one votes, every one of which was for McDonald.

Union.
POPULAR CANDIDATE LEADS IN UNION
Clayton, N. M., Nov. 7.—Three out of the twenty-two precincts in Union county give a democratic majority in excess of two hundred.

Roosevelt.
ROOSEVELT FOUR TO ONE FOR DEMOCRACY
Portales, N. M., Nov. 7.—Five out of twenty-seven precincts in Roosevelt county give McDonald 92; Bursum, 35. For justices of the supreme court the democratic candidates received 97 and the republicans 23.

McDONALD LEADS THREE TO ONE IN ROOSEVELT
Portales, N. M., Nov. 7.—Four precincts out of 27 in Roosevelt county give McDonald 81; Bursum, 25. For the blue ballot, 98; against, 7.

Chaves.
CHAVES GIVES FIFTEEN HUNDRED FOR WHOLE TICKET
Roswell, N. M., Nov. 7.—A partial count of the three thousand votes estimated to have been cast in Chaves county at midnight, indicates a democratic majority of 1,500, not only for McDonald for governor but the entire county and state ticket. The blue ballot has carried in the county by

2,000 votes. The city of Roswell cast 1,618 votes and will give a majority of 900 for the democratic candidates. This is the largest vote in the history of the city. At midnight 456 ballots had been counted in which McDonald received 320, Bursum 109 and Rivera, socialist, 27. Going at the present rate it will be tomorrow afternoon before the count in Roswell is finished. Not a single precinct in Chaves county had been reported in full at midnight.

1500 Majority in Chaves.
Roswell, N. M., Nov. 7.—Out of 3,000 votes cast in Chaves county, democratic headquarters tonight estimate there will be a democratic majority of 1,500 and that the majority for the blue ballot will exceed this figure.

Roswell's Largest Vote.
Roswell, N. M., Nov. 7.—Roswell cast today 1,618 votes, the largest vote in the history of the city. Out of 134 votes counted, McDonald has 99 and Bursum 35. The city of Roswell alone will give McDonald and the state ticket a majority of 900.

San Juan.
SAN JUAN GIVES BIG McDONALD MAJORITY
Farmington, N. M., Nov. 7.—Three of eleven precincts in San Juan county give McDonald 17; Bursum, 94. For judges of the supreme court the democratic candidates each received 145 and the republicans, 165. For the blue ballot, 240; against, 8.

McDONALD LEADS BY ONE HUNDRED IN SAN JUAN
Aztec, Nov. 7.—Three out of eleven precincts give McDonald 157; Bursum, 94. The balance of the state ticket will have about the same majority.

Blue Ballot Winning
Returns at midnight show that out of twenty-six counties, seven give 3,089 votes for the blue ballot, and 1,280 votes against it. These reports are believed to be sufficient indication that the constitutional amendment is going to carry by a wide margin.

Santa Fe.
SANTA FE GIVES SMALL MAJORITY FOR BURSUM
Santa Fe, N. M., Nov. 7.—Three out of twenty-four precincts in Santa Fe

county give Bursum 119; McDonald, 83. The vote on justices of the supreme court is about the same proportion. For the blue ballot, 107; against, 81. Late tonight the republican managers claim the county by 150 majority.

Taos.
Taos, N. M., Nov. 7.—One precinct out of the twenty-three in Taos county gives a majority of 15 for the democratic state ticket. For the blue ballot the same precinct gives 64 for and 51 against.

Valencia.
BURSUM DOES WELL IN KINGDOM OF VALENCIA
Los Lunas, N. M., Nov. 7.—Six precincts out of twenty-four give Bursum, 628; McDonald, 180.

LAGUNA JOINS REVOLT AGAINST RULE OF BOSSES
Laguna, N. M., Nov. 7.—Of the thirty-five votes cast in this precinct thirty were for McDonald and five for Bursum. The balance of the democratic ticket ran with the head. Reports were received here today from Grants that the democratic ballots in that precinct had been stolen. Cerra precinct gave Bursum 64; McDonald, 0.

BURSUM SCRATCHED IN BELEN.
Belen, N. M., Nov. 7.—Early this evening it appears that Belen precinct will be about evenly divided between the republicans and democrats, but that Bursum is badly scratched and will lose the precinct.

BURSUM CARRIES BELEN BY FIFTY-NINE VOTES
Belen, N. M., Nov. 7.—The republican ticket carried in Belen by a majority of 59. The vote: Republican, 226; democratic, 169.

The Same Old Story.
Los Lunas, N. M., Nov. 7.—Two precincts out of 24 in Valencia county, including Los Lunas, on straight ballots, Bursum 207; McDonald 4; for the blue ballot 4; against the blue ballot 96.

county give Bursum 119; McDonald, 83. The vote on justices of the supreme court is about the same proportion. For the blue ballot, 107; against, 81. Late tonight the republican managers claim the county by 150 majority.

Santa Fe Republican.
Santa Fe, N. M., Nov. 7.—Four precincts in the city of Santa Fe give 150 majority for the straight republican ticket. Reports from outside precincts indicate that the county will go about 400 republican.

Quay.
McDONALD RUNS TWO TO ONE IN QUAY COUNTY
Tucumcari, N. M., Nov. 7.—Three precincts out of 34, including Tucumcari, give McDonald 481; Bursum, 247. For the blue ballot amendment, 511; against, 216.

TUCUMCARI GIVES TWO HUNDRED FOR McDONALD
Tucumcari, N. M., Nov. 7.—The republicans concede that McDonald's majority in Tucumcari will be at least 200. The blue ballot has apparently carried throughout Quay county. In Tucumcari the vote stands: For the amendment, 469; against the amendment, 209.

Grant.
REPUBLICANS CONCEDE GRANT TO McDONALD
Silver City, N. M., Nov. 7.—The republican managers tonight concede Grant county to the democrats by a majority of 175, but claim that the city will have a republican majority 125. The democrats insist that the majority for the state ticket will

(Continued On Page 2, Col. 2.)

McDONALD CONFIDENT THAT HE HAS WON
Carrizozo, N. M., Nov. 7.—"I am absolutely confident of my election," said W. C. McDonald this evening. When asked what he placed his majority, McDonald said he did not care to make any extravagant claims, but laughingly said: "You may say that I will have a majority of at least one and that is enough."

McDONALD CONFIDENT THAT HE HAS WON
Carrizozo, N. M., Nov. 7.—"I am absolutely confident of my election," said W. C. McDonald this evening. When asked what he placed his majority, McDonald said he did not care to make any extravagant claims, but laughingly said: "You may say that I will have a majority of at least one and that is enough."

ALBUQUERQUE DEMOCRATIC BY RECORD MAJORITY

Late Returns Indicate the Defeat of the Hubbell Ticket By Vote Estimated at Fifteen Hundred to Two Thousand.

BLUE BALLOT CARRIES BETTER THAN TWO TO ONE

Entire County, Judicial and Legislative Tickets of Progressives Swept to Victory; Rebuke of Hubbellism in Bernalillo Complete.

In the city of Albuquerque and the county of Bernalillo the triumph of the democratic progressive ticket was complete. McDonald for governor and the balance of the democratic state ticket were elected by majorities in excess of fifteen hundred, while the entire county ticket carried by majorities ranging all the way from fifteen hundred to two thousand. The legislative and judicial tickets were returned by about the average majorities of the county ticket, thus insuring the election of Herbert E. Reynolds for judge; M. U. Vissel for district attorney and J. F. Sulzer for state senator. The majorities for the district ticket in Bernalillo county are so large that they cannot be overcome even though the other counties in the districts all go republican, which is highly improbable.

In the city of Albuquerque the triumph of the progressives was even greater than in the county generally. The Hubbell ticket, despite the lavish use of money, herding of voters and other typically Hubbell methods, polled less than eight hundred votes in Albuquerque and the average majority for Captain McDonald and the balance of the candidates on the progressive tickets carried the four city districts by majorities averaging nearly nine hundred.

W. C. McDonald carried the city of Albuquerque by the following majorities:

McDonald plurality
Division 1, Precinct 26 402
Division 2, Precinct 26 224
Division 1, Precinct 12 120
Division 2, Precinct 12 245

McDonald's majority in Albuquerque 991
The fusion county ticket as a rule ran ahead of McDonald's vote.

In Old Albuquerque McDonald received 341 and Bursum 130, giving McDonald a plurality of 231 and Jesus Romero received 337 votes, while his competitor, Mr. McMillin, got 102, leaving a plurality of 284 for Romero.

In the county precincts the vote was fairly close in Rancho de Atlixco, where McDonald won by only one vote, and the county ticket ran very little ahead of the candidates for governor.

REPUBLICANS ARE SHOT TO PIECES

(Continued from Page 1.)

reach 300, but it is admitted that the county ticket is exceedingly doubtful. Three country precincts, Pterro, Whitewater and Leopold gave the republican state and county tickets a small majority. In the last election these precincts gave a large democratic majority. Four precincts out of the 21 in the county give McDonald 91 and Bursum 52. It is believed that the blue ballot amendment was carried by a two to one vote. Eight precincts give McDonald 295; Bursum, 236.

McDonald Carries Grant.
Silver City, N. M., Nov. 7.—Grant county will give a majority of several hundred for McDonald and the entire democratic state ticket. The Grant county ticket will be badly scratched, and the result in the county is in considerable doubt.

Blue Ballot Wins in Grant.
Silver City, N. M., Nov. 7.—The vote up to 8 o'clock tonight in Silver City shows 458 for the blue ballot and 224 against. It is generally believed the democratic ticket will carry the county by a safe majority, although the republicans refuse to concede it. The weather was fine and a full vote was polled.

Widespread scratching of the county and legislative tickets is going to delay the counting and the result will not be known definitely until some time tomorrow. The ballot boxes from the remote precincts will be late in coming in.

Dona Ana.
REPUBLICANS LEAD
IN DONA ANA COUNTY

Las Cruces, N. M., Nov. 7.—Seven precincts out of twenty in Dona Ana county give Bursum a majority of 142.

In the Las Cruces precincts Bursum has a majority of 28 on straight ballots. In Mesilla Park McDonald has a majority of 75.

Thirteen precincts out of twenty in Dona Ana county give the republicans a majority of 161.

The outside precincts are coming in slowly, with indications that the split tickets will give a majority for McDonald and the Blue Ballot. The election of Holt for the state senate is very doubtful.

Sandoval.
McDonald Leads in Sandoval.

Bernalillo, N. M., Nov. 7.—Complete returns from three precincts, including Bernalillo, the largest in the county, give McDonald a majority of 216. The precincts follow: Bernalillo, McDonald, 189; Bursum, 181; Algodones, McDonald, 63; Bursum, 15; La Bajada, McDonald, 19; Bursum, 6.

Otero.
McDONALD CARRIES OTERO COUNTY EASILY

Alamogordo, N. M., Nov. 7.—Four precincts out of fourteen in Otero county give McDonald 295, Bursum 164.

San Miguel.
BURSUM'S MAJORITY IS ABOUT SIX HUNDRED

Las Vegas, N. M., Nov. 7.—At midnight the estimated republican majority in San Miguel county for Bursum was 600 or less. Bursum ran behind the republican county, legislative and judicial ticket from 200 to 250 votes. J. D. Hand's precinct, Los Alamos, gave McDonald 29 and Bursum 22. Precinct 44, Ojitos Erios, gave Bursum 44 and McDonald 16.

Precinct 29, East Las Vegas, gave McDonald a majority of 200. Precinct 3, in West Las Vegas, gave McDonald 20 majority, while Bursum carried Precinct 6, also West Las Vegas 49. The only republican candidate to get a majority in Precinct 28, East Las Vegas, was Judge Roberts, who had the lead by 60 votes.

The entire county ticket, together with the legislative and judicial candidates, will win by about 600 majority. Returns indicate the defeat of the blue ballot amendment in the county. San Miguel county was claimed for the republicans by 1,200.

Revolution in San Miguel.
Las Vegas, N. M., Nov. 7.—Out of 100 votes cast in East Las Vegas, McDonald gets a majority of 200, and the blue ballot carries by a vote of two to one. The remainder of the republican ticket carries by a small majority with the exception of probate judge and one county commissioner.

The old town of Las Vegas gives a majority for Bursum and from 150 to 200 for the remainder of the republican ticket. There is a small majority against the blue ballot.

In view of the fact that the normal republican majority in East Las Vegas is 500, it will be seen that Bursum's prospects in San Miguel county are not the most hopeful.

Close in San Miguel.
Las Vegas, N. M., Nov. 7.—First reports from San Miguel county show that on straight ballots in two out of the twenty-three outside precincts McDonald gets ninety-eight votes and Bursum ninety-two.

Guadalupe.
Lead in Guadalupe.

Santa Rosa, N. M., Nov. 7.—Four out of the twenty-seven precincts in Guadalupe county give Bursum 144; McDonald, 132. It is believed that complete returns will show a majority of between two and three hundred for McDonald. The vote on the blue ballot amendment so far as received is 78 for and 93 against.

Colfax.
PROBABLE MAJORITY FOR BURSUM 100 OR LESS

Raton, N. M., Nov. 7.—Nine precincts out of 29 in Colfax county give Bursum 237 and McDonald 241. The Blue Ballot was defeated in these precincts, 226 to 145. It is estimated that Bursum will carry the county by 400 majority or less. Colfax county was claimed for Bursum by 1,200 or over.

Luna.
LUNA THREE TO ONE FOR McDONALD TICKET

Deming, N. M., Nov. 7.—Two of the eight precincts in Luna county give McDonald 145; Bursum, 48. The tickets are badly scratched and returns will be slow. It appears that Bursum is running considerably behind his ticket.

Bursum Loses Deming Precinct.
Deming, N. M., Nov. 7.—Republican Chairman Ralph C. Ely claims that Bursum will lose Deming precinct by 100 votes. The total vote cast was 652. Both the state and county tickets are badly split and the republicans will probably elect their legislative candidates, the county treasurer, two commissioners, sheriff and school superintendent.

Mora.
McDONALD RUNS WELL IN REPUBLICAN MORA

Mora, N. M., Nov. 7.—Two precincts out of twenty-four in Mora county give McDonald 66; Bursum, 53. For the blue ballot, 94; against, 29.

McDonald Carries Wagon Mound.
Wagon Mound, Mora County, Nov. 7.—McDonald carried Wagon Mound by a small majority. Indications are that he will carry Mora county by a safe majority.

Quay.
McDONALD LEADS BY TWO TO ONE IN QUAY COUNTY

Tucuman, N. M., Nov. 7.—The first reports from Quay county show that in three out of the 34 precincts McDonald 481; Bursum, 247. For the Blue Ballot 509; against, 216.

Eddy.
EDDY COUNTY HELPS SWELL THE LANDSLIDE

Carlsbad, N. M., Nov. 7.—Following are the returns received here up to midnight: Artesia, McDonald, 599; Bursum, 142. Knowles—McDonald, 117; Bursum, 9.

Loving—McDonald, 10; Bursum, 10. Hope went democratic by almost unanimous vote.

The blue ballot amendment carried in Eddy county by about fifteen to one.

EDDY COUNTY WILL GIVE BIG DEMOCRATIC MAJORITY

Carlsbad, N. M., Nov. 7.—Eddy county will give McDonald a majority of from twelve to fourteen hundred out of the three thousand votes cast.

1,200 Majority in Eddy.

Carlsbad, N. M., Nov. 7.—Ten precincts out of thirteen in Eddy county cast 1,270 votes, the total vote being probably 1,800. Bursum is running behind the ticket. The counting is slow and the returns will be late. Local issues have caused much scratching. Groves may carry the county. McDonald's majority in Eddy county is now estimated at 1,200.

Socorro.
DEMOCRATS ELECT COUNTY TICKET IN SOCORRO

Socorro, N. M., Nov. 7.—Eight precincts in Socorro county give Bursum 398; McDonald, 102. The river precincts which have been heard from are strongly republican, while the precincts in the western part of the county are democratic. It may be two days before these precincts are heard from. The indications tonight are that the whole democratic county ticket will have a majority though the state ticket is conceded to the republicans. Judge Mechem for district judge, and John E. Griffith for district attorney, are elected practically without dissenting vote.

TURKS RECAPTURE OF DERVA BAY VICTORY

Official Telegram Says Five Hundred Italians Were Slain; Eighteen Guns and Much Ammunition Also Taken.

(By Morning Journal Special Lensed Wire.)
Constantinople, Nov. 7.—The war office today does not say that Turkish troops have re-occupied Derna, Tripoli. An official telegram from the Derna, however, reports that the Turks won a big victory five hundred Italians being killed and eighteen guns and provisions being captured. The porters against Italy's annexation of Derna has been captured. The porters against Italy's annexation of Derna has been captured. The porters against Italy's annexation of Derna has been captured.

Woman Falls to Her Death.
New York, Nov. 7.—Mrs. Sarah Cordelia Havemeyer, 70 years old, a daughter-in-law of the late William F. Havemeyer, three mayor of New York City, was instantly killed today when she fell to the pavement from a window of her apartment on the ninth floor of an apartment house.

City Election in Pueblo.
Pueblo, Colo., Nov. 7.—Pueblo held its first election under the commission form of city government today. There were 89 candidates and eight to be elected. It is believed that a counting of the votes will not be completed before 4 o'clock tomorrow afternoon.

ITALIANS BEGIN AN ADVANCE AT TRIPOLI
Paris, Nov. 7.—A Tripoli dispatch from Italian sources says that the Italian advance began today. A turning movement was executed and the Hamedieh fort was occupied.

President of American Federation of Labor Opposes Court's Selecting Compensation Commission Members.

Washington, Nov. 7.—Some of the difficulties likely to be encountered in the administration of the proposed workmen's compensation law were emphasized today when President Gompers of the American Federation of Labor took issue with members of the employers' liability and workmen's compensation commission, regarding the awarding of the law to be created.

Mr. Gompers in the main, endorsed the commission's plan for insuring railroad employees against accident, but when he took up the question of administration, he advanced a theory that did not meet the approval of some of the commission. He insisted that the tribunal should consist of three members, one of whom should represent the employers and another the employee while the third should be a physician of standing, chosen by the other two.

The commission has not formulated a provision covering this important part of the law, but Senator Sutherland and Representative Moon indicate a decided leaning toward the selection of award boards by the federal courts.

Mr. Sutherland pointed out that Mr. Gompers' plans would be in effect a system of arbitration. He said the third man of the board would be the arbitrator, while the two others would be mere attorneys for the two sides.

Mr. Gompers would not agree that any one man should have the selection of the arbitrators.

"To confer this authority on the courts is equivalent to saying that the courts are not governed by politics and I am not sure that this is always the case."

H. E. Core, vice-chairman of the joint board of the eastern Pennsylvania lines for the Brotherhood of Locomotive Firemen and Engineers, urged that the entire burden of damages be borne by the railroads. This, he concluded, would force an increase of railroad rates. In the end, therefore, the responsibility would fall on the public, where, according to his theory, it rightly belonged.

SPORTS

GIRLS' BASKETBALL TEAM AT U. N. M.

B. O. Brown Elected Student Manager of Enterprise. Ten Candidates. Hutchinson Will Coach.

With the coming on of the basketball season, the University of New Mexico yesterday organized their girls' basketball team to compete for the championship of New Mexico. B. O. Brown was elected student manager and will immediately begin arranging a schedule of games for the season. Coach Hutchinson will coach the team. He is a first-class basketball coach as well as a football and baseball specialist.

HIGH SCHOOL FOOTBALL PLAYER INJURED MONDAY

Young Calkins, so-called, to distinguish him from his elder brother who plays on the University of New Mexico football team, had the misfortune on Monday evening of a practice game, to break his nose.

As a member of the second team of the High school, Calkins playing end, was fighting for his side against the regular team when his nose came in too hard a contact with another player's shoulder, splitting it cleanly across the bridge.

The wound was dressed and outside of the inconvenience of a bruised face and a bandage over the bridge of his nose, he is getting along nicely.

BAPTIST BOYS IN FAST TEAM

Rev. J. J. Runyan Organizes Two Aggregations and is Looking for Games With Menaul and Indian School.

Rev. Jesse J. Runyan, pastor of the First Baptist church has inaugurated an innovation among the boys of his church by the organization of two basketball teams, one of boys, 14 to 16 years of age, and the other of boys, 12 years old. The boys had their first practice Monday on the vacant lot adjoining the church and the working out of the material, fifteen boys, shows that the squad will furnish at least one first class, husky team.

The boys have paid all the expenses of the proposition and are now looking for some good games with the Menaul school team, the United States Indian school team and others.

PHILADELPHIA HAD BEST SLAB ARTISTS

Chicago, Nov. 7.—The Philadelphia Athletics have been one of the first pitchers in the American league, according to the official pitching averages made public today, and as a matter of fact, the Athletics have three of the first four, Covington of Detroit, who heads the list, having pitched eight games, six of which he did not finish.

Bender, of Philadelphia, officially in second place, is the real leader of the league, with a percentage of 37.3 for 22 games. Plank, with 35.5 for thirty games, is in fourth place, and Coombs, who figured in forty games, is fifth with 30.0.

A Household Medicine
That stops coughs quickly and cures colds is Foley's Honey and Tar Compound. Mrs. Anna Pelzer, 2526 Jefferson St., So. Omaha, Neb., says: "I have recommended Foley's Honey and Tar Compound as a sure cure for coughs and colds. It cured my neighbor, Mrs. Renson, cured herself and her whole family with Foley's Honey and Tar Compound. Everyone in our neighborhood speaks highly of it." J. H. O'Reilly.

INCORPORATE YOUR BUSINESS

Use Kanan's New Mexico Corporation Laws, Rules and Forms, compiled to date.

A useful guide for corporation of officers, attorneys and engineers. You need no other. It has everything in one book.

Post yourself. Avoid expensive mistakes.

All Territorial laws on ALL classes of Corporations; Banking, Building and Loan, Benevolent, Industrial, Irrigation, Insurance, Mercantile, Mining, Railroads, Taxation, etc., with extensive Citations.

The only complete New Mexico Corporation, Irrigation and Mining Code published.

Complete Forms and Rules for drawing and filing all kinds of corporation papers; references, footnotes, by-laws, etc. Territorial Irrigation Rules and Forms.

United States Laws which apply to New Mexico: Carey Act, Irrigation, Mining, Railroads, Taxes; Rules and Forms for securing U. S. Rights of Way, etc.

Useful with or without statedhood.

1 vol., 915 pages, buckram binding.

VARSITY TO PLAY ARIZONA HERE THANKSGIVING

Big Football Game Rescheduled After Meeting of Local Student Body Held Yesterday; Heavy Expense Involved

The University of Arizona football eleven will play the annual Thanksgiving game with the University of New Mexico on the Traction Park gridiron. This latest arrangement was completed yesterday after a student body meeting had been held to consider the proposition. The game was scheduled early in the season, but at the time of the visit of the varsity team to El Paso about the middle of October, Arizona called the game off in order to play Occidental college in Los Angeles.

The proposition of entertaining the Arizona team is a most expensive venture, calling for at least \$1,000. The Arizona team requires a guarantee for expense money of \$700. This big load was, however, cheerfully undertaken by the student body.

The game will be of unusual interest this year as it will be the first one between the two state universities. Two games have been played while the institutions were territorial. One of these was won by Arizona and the other by New Mexico.

The Arizona team while a good one, did not show sufficient class in the game with the Aggies in El Paso to win. If New Mexico wins the Aggies game next Saturday they will doubtless repeat against Arizona on Thanksgiving.

De Oro Beats Wheeler.
Chicago, Nov. 7.—Alfred De Oro, champion three-cushion billiard player, tonight defeated George Wheeler, 50 to 31, in 74 innings in the first block of their 150-point match for three-cushion championship. His average was 676. Wheeler's was 419. High runs—De Oro 3; Wheeler 3. De Oro also made a run of 5. The men will play 50 points tomorrow and 50 points Thursday.

The German Colonist in Africa.

The world at large need not be apprehensive at the prospect of Germany playing a freer hand in African politics. Two-score years and more have removed most of the skepticism about the German's adaptability for colonization. Perhaps he is less imperial in his upbuilding when compared with the French, but the isolation of his colonies forbids vast railroad projects and ocean-to-ocean telegraph lines. In his attitude toward the African native and his methods of fitting him for enlarged opportunities the German deserves the commendation of all good men. A large part of Africa must forever remain uninhabitable for any large white population and its destiny rests in the hands of the native. Without the blowing of horns and the noise of the press agent, the German is training the young African in his own way—and making a pretty good job of it.

The writer has watched the German closely in his relations to these half-wild peoples on the west coast. His administration of government there is largely a matter of temperance and the men from the Rhine country are probably less easily driven into irritability than any other white men. There have been occasional charges of cruelty and oppression, it is true, but the Germans themselves have been quick to call the responsible officials to account. Besides, we should remember that the administrative job in Africa is one of the hardest in the world. The heat and the rains, the location and privations of the white man's life, and the debility that comes from frequent fevers drive the amiability from most men who work within the equatorial belt. Moreover, the official is expected to work miracles with a primitive and sluggish people—and the African is at times the laziest, the stubbornest and the stupidest creature ever fashioned in the form of man.

After observing the white men of many nations at the task of regenerating Africa, one cannot escape a conviction that the German native will rise as high in the scale, if not higher than any other within the same belt. At the same time, were the present writer an African he should prefer to live under the French flag. From "Frenchman and German in Africa," by Edgar Allan Forbes in Review of Reviews.

Mother.
He—I hesitated about proposing to her, because I was in doubt about the attitude of your mother.

She—You needn't have worried about her; she has had arrangements made for the wedding for the last six months.—Baltimore Sun.

Attracted Attention.
"Did Alky make a hit at the literary club?"

"I guess he did. He pronounced 'Les Miserables' in a brand new way, and then alluded to it as Victor Herbert's masterpiece."—Kansas City Star.

Good Reason.
"Why do you suspect him?"

"He promises to make me rich in a year, and yet he's worn the same collar for a week."—Detroit Free Press.

FOOTBALL BRUTAL SPORT SAYS DR. ELIOT

President Emeritus of Harvard Condemns Pugilism and Aviation Along With Popular College Game.

New York, Nov. 7.—Football is better and wiser than the only sport worse than football, according to Dr. Charles W. Eliot's farewell remarks to reporters, as the president-emeritus of Harvard university sailed today for a trip around the world.

Mr. Eliot is sailing as representative of the Carnegie endowment, the aims of which he is to explain to Asiatic countries. The matter of sports came up when an interviewer ventured to ask the distinguished educator what he thought of Harvard's defeat by Princeton.

"I don't take much interest in football," he said.

"Is there anything to your mind worse than football?"

"Yes, aviation. That's demoralizing to the spectators. They don't go to see the aeronaut in flight but with the expectation of seeing him fall and perhaps killed."

RACE RESULTS.

At Latonia.
Latonia, Nov. 7.—The finishes at Latonia today were close and interesting, despite the heavy track.

Magazine won the fourth race by a length from Dequesne and Camel, the latter two being noses apart.

Tom King, a long shot, took the third race from Working Lad after a long stretch drive.

John Griffin II, favorite, won the second, while another favorite, Zim, annexed the first race. Results:

First race, 5 1/2 furlongs: Zim, won; Working Lad, second; Bonnie Chance, third. Time: 1:11 1-5.

Second race, six furlongs: John Griffin II, won; Tolson D'O, second; Horicon, third. Time: 1:17 3-5.

Third race, mile: Tom King, won; Working Lad, second; Bonnie Chance, third. Time: 1:45 4-5.

Fourth race, six furlongs: Magazine, won; Duquesne, second; Camel, third. Time: 1:17 2-5.

Fifth race, mile and 70 yards: Discontent, won; Ed Keck, second; Peter Pender, third. Time: 1:51 4-5.

Sixth race, mile and 70 yards: Sam Barber, won; Edna Collins, second; Lilly Paxton, third. Time: 1:51 2-5.

At Jamestown.
Jamestown, Nov. 7.—The card of six races at the Jamestown Jockey club meeting today was marked by features and surprises. The first heat over this course was run today. Thomas F. Ryan's entry, Dainergfeld, scored the most decisive victory of the meeting.

Summary:

First race, six furlongs: Ben Loyall, won; Ragman, second; Mexoan, third. Time: 1:14.

Second race, 5 1/2 furlongs: Eton Blue, won; Chrysler, second; Wil Wood, third. Time: 1:09 4-5.

Third race, 5 1/2 furlongs: Conney K, won; Alfred, second; Forth Worth, third. Time: 1:09 1-5.

Fourth race, Atlantic Handicap, mile and a furlong: S. Sagor, won; K. Idelweiss, second; Papyrus, second. Time: 1:56. X. Dead heat, only three starters.

Fifth race, seven furlongs: Dainergfeld, won; Wood Boy, second; Gift, third. Time: 1:30 2-5.

Sixth race, mile and a quarter: Michael Angelo, won; Helene, second; Naxos, third. Time: 2:11 1-5.

WELL KNOWN TAOS COUNTY PIONEER DEAD

Virsyville, N. M., Nov. 7.—David M. Pierson, a well-known pioneer of Taos county, died in his wagon while driving to his home, six miles south of Questa. He was living a hermit's life in a mountain canyon where he had built a small house and cleared some ground. At the time of his death, a Mr. Smith from Taos, was in the wagon with him when Pierson fell out over the wheel dead.

During the late 50's, he punched cattle on the range in Canelos county, Colorado, and during 1865 to the end of the war, fought in the Union army. Of late he has given most of his time driving about the country selling pictures.

How England Grows.

A great deal of interest is taken in England in the question of coast protection. The ocean, assailing the cliffs, gradually tears them away, but this very process furnishes a defense for the land by building up long beaches of sand and shingle, which arrest the waves before they can attack the cliffs. An effort is making to prevent, or better regulate, the removal of this material for construction and road building, because in many places its removal has permitted the sea freely to exert its power or erosion.

The Ordinance Survey has ascertained that in the last thirty-five years England has lost 6,640 acres by sea erosion, and gained 45,000 acres through reclaiming land, the existence of which is mainly due to material brought down by the rivers.—Youth's Companion.

Poor Pussy.

A lady who owned a tortoise-shell cat called her grocer up one morning and gave her usual economical order—an order for dried beans, hominy, yesterday's bread and so forth—and she concluded with a request for "1 cent's worth of cat's meat."

The grocer sighed, for this order would have to be delivered three miles away. But as he was entering the items in his order book the lady called him up again.

"Mr. Sands," she said, "oh, Mr. Sands!"

"Yes, madam."

"Mr. Sands, I want to cancel that order for cat's meat. The cat's just caught a bird."—Washington Post.

An Important Invention.

Announcement is made of the perfection of an invention which will widen the scope of long distance telephony immensely. By means of a newly invented instrument, a telephone message was sent over the telegraph wires of the Canadian Pacific railroad from its offices in Montreal to Fort William, a distance of 995 miles. The wire used was an ordinary telegraph wire over which telegraph messages were being sent. David H. Wilson, the inventor, has been at work for seventeen years in perfecting this instrument and the reports from Montreal indicate that his success is complete. Communication with Fort William was quickly established and voices were easily heard.

This invention is the achievement which telephonic experts have been working on almost from the first days of the telephone. The great saving in construction and equipment from the simultaneous use of wires for both telegraph and telephone—experts figure this saving at more than 50 per cent—will mean a cheapening in telephone rates which will greatly increase the use of the long distance telephone as a means of general communication. And as both telegraph and telephone service can be carried on at the same time, the only expense being the installation of the instruments, there will be a commensurate lessening of the cost of operation.

The tests given the device at Montreal were thorough, for they were witnessed by a number of railroad men and capitalists who are interested in promoting the new invention. It is reported that arrangements are being made by the Western Union Telegraph company and the Bell Telephone company for the use of the new device. A similar joint use of the invention is under consideration by the Postal Telegraph company and the Canadian Pacific railroad. The railroads will find the new method of communication and the added facility for direct communication from any point on the line to any other by word of mouth should reduce the possibility of accidents from misunderstanding to a minimum. Mr. Wilson's invention bids fair to be a powerful contribution to commercial equipment.—Rochester Post and Express.

Cypress for Tobacco Boxes.

The suitability of cypress for tobacco boxes has been made the subject of tests for some months by the national department of agriculture in co-operation with packers of plug tobacco and manufacturers of cypress lumber.

Results have been obtained which are announced as highly satisfactory, according to the Manufacturers' Record. The manufacturers of plug tobacco have been large consumers of wood for many years. Owing to the tendency of tobacco to absorb taste and stain from wood when brought in contact with it in the box, much difficulty has often been met in procuring suitable box material.

Sycamore has always been considered one of the best woods for that purpose, but it has become scarce and expensive, and the search for substitutes is active. The tests which have recently been concluded were brought about through the desire of plug tobacco manufacturers to procure satisfactory box material, and on the part of southern cypress mills to dispose of large quantities of short lumber which accumulates at their plants because there is small demand for it.

In size and grade it is such lumber as tobacco box makers use. The mill men furnished the cypress lumber for the tests, and the tobacco manufacturers made the boxes, filled them with tobacco and subjected it to conditions that would bring out any unsuitable properties the wood might have. A tobacco kept for four months in cypress boxes remained sound and in good condition and absorbed no taste from the wood.

The box itself is not considered quite as handsome as sycamore, and it is lighter in weight, an item worth considering when large shipments are made. The chief economy, however, consists in finding plentiful material for boxes, and at the same time providing a market for a class of lumber which heretofore has been in small demand.

Handicapped.

"Yes," said the returned traveler, "the most exciting bit of sport that I recall happened while traveling in Russia. One night when sleighing some ten miles from my destination I discovered to my horror that I was being followed by a pack of wolves. I fired blindly into the pack, killing one of the brutes, and, to my delight, saw the others stop to devour it. I kept on repeating the dose, with the same result, and each occasion gave me an opportunity to whip up my horses. Finally one wolf only was left, yet on it came, with its fierce eyes glaring in anticipation of a good hot supper."

"Why man," said one of his listeners, "by your way of reckoning the last wolf must have had the rest of the pack inside it."

"Ah," said the traveled one, "now I come to remember it did wabble a bit!"—Ideas.

Same Thing.
"When I visited the Grand Canyon of the Yellowstone I realized the insignificance of man. Ever been there?"

"Never. You can get the same sensation by going to a suffragette meeting."—Kansas City Journal.

A Preference.

"Marriage is a lottery," said the ready-made philosopher.

"No, it isn't," replied Mr. Grower. "In a lottery you can lose once and forget it, instead of having to put up alimony."—Washington Post.

She Knew.
Mrs. Knicker—Do you understand baseball?

Mrs. Booker—No, but I understand William's remarks to the umpire: It's the same thing he says at breakfast.—Puck.

The Leading Gold Producers.

While attention has been diverted in a measure to other regions, Colorado during the past few years has gone quietly forward, and perhaps unknown to many, has up to the present time held its place as the leader of the gold production.

The figures compiled by the United States Geological Survey for the year 1910 give Colorado a production of \$26,507,958; California, \$19,712,446, and Nevada, \$18,878,864.

Doubtless when the figures for the present year are compiled it will be found that an even closer tie is apparent between the three principal gold-producing states. There have been several large sales of gold mining property in California during the present year, and extensive plans are being worked out which will result in much greater production next year. For the current year, however, reports would not indicate any very marked increase in gold production.

On the other hand, both Colorado and Nevada have shown greater returns from the established camps with new properties being opened, and in Nevada, particularly, new camps which will add to the total output in Nevada there are a number of properties just entering the list of producers. Wonder, Fairview and Manhattan are each making a great record than in 1910, with prospects much better for the coming year. Other camps are also coming forward with greater records, and in all it is evident that Nevada will show a material advance this year over last.

In Colorado the older camps have shown a marked activity during the present year, while rapid extension of work at properties long idle and the opening of new properties.

During 1910 the Cripple Creek district was, of course, the lead as the principal producing section, with its record of \$1,002,253. San Miguel county comes second, according to the survey figures, with a production of \$2,494,793; Ouray third, \$2,195,847; and Lake fourth with \$1,213,134. San Juan county is credited with \$710,527.

The heaviest increase in 1910 as compared with the previous year was made in the counties of La Plata, San Miguel and Gunnison. For the present year La Plata will show a further increase as possibly will the other two. The greater increase will undoubtedly come, however, from the Cripple Creek district, where the lowering of the water level, through a practical completion of the drainage tunnel, has made possible the opening of new bodies. Gilpin county is also advancing steadily, as are most if not all the gold-producing counties of Colorado.

The race between these three states—Colorado, California and Nevada—will therefore apparently be, as stated, even closer this year than ever before.—Tonopah Bonanza.

Dei Grati Off Canadian Coins.

The words Dei Gratia, the grace of God, have disappeared from the 1911 issue of Canadian coins, and just why this is so seems to be a matter of much mystery. As far as can be ascertained the royal mint in London is responsible for the change.

Although the Dei Gratia seems to have disappeared from the Canadian coinage, the new King George coins in Great Britain retain it. The King Edward coin bore the inscription: "Edwardus VII. Dei Gratia Rex Imperator." The 1911 Canadian coins are stamped "Georgius V. Rex Ind. Imp." There is no sign of the Dei Gratia.

"We get new dies for all our coins every year, and the ones we received this year were lacking the Dei Gratia," said Dr. Reuter, deputy master of the Canadian mint. "We get our dies from the other side, so the mint itself is not responsible for the change."—Ottawa Citizen.

Caution.

Warden—See here! What are you laughing at?

No. 99—Oh, I just happened to remember that I've got a note coming due today.—Puck.

Surprised.

WEATHER BUREAU HAS MADE GOOD PREDICTIONS SAYS JIM WILSON

Washington, D. C., Nov. 7.—Secretary Wilson stated today that every important meteorological change that occurred in the United States during the year was forecast by the weather bureau long in advance. Storm warnings to lake, seacoast and West Indian stations and frost warnings for the sugar, trucking, tobacco and cranberry regions were issued whenever conditions justified. These warnings were given to the hurricanes of September and October, 1910, and a number of testimonials commending the work of the bureau in connection therewith were received. The warnings of the approach of cold waves resulted in the saving of growing crops and prevented injury to many shipments of perishable goods and to farm stock.

There is little danger from a cold or from an attack of the grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by all dealers.

M'NAMARA JUROS FACE PEREMPTORY CHALLENGES

With Box Filled at Opening of Court Yesterday, But Five Remained When Adjournment Came at Night.

(By Morning Journal Special Leased Wire.)

Los Angeles, Nov. 7.—The jury box in the McNamara murder trial was filled today with talemens accepted as to cause and peremptory challenges were exercised by both sides. Tonight but five of the twelve men remained and the defense had reserved the right to challenge some of these in the morning, if it desired. Should it not so challenge, it cannot examine them later on.

This was the second day of the fifth court week of the trial and in its course the defense lost every appreciable point for which it contended. The five men left in the jury box tonight were:

Robert Bain, carpenter, who organized the first labor union in Los Angeles.

F. D. Green, orange grower, who said he had read magazine articles about the case without prejudicing his mind and that he was acquainted with the use of explosives from experience in Boulder, Colo.

Byron Link, a retired mill owner, who said he had no opinion as to the cause of the Los Angeles Times explosion.

Sam Mendelbald, orange grower, also without opinion.

William F. Clark, who said he took sides neither way.

The challenges were exercised alternately, the state leading off with Frank Frakes, a happy-go-lucky rancher from Elizabeth Lakes, who admitted an acquaintance with Attorney Lecompte Davis for the defense.

The defense excused George W. McKee, against whom earlier in the day it had presented five witnesses in an unsuccessful attempt to show that McKee was an unfair juror. McKee is a Scotch-Irish Presbyterian real estate dealer, who said on his examination that he had a fixed opinion that the destruction of the Times was a criminal act and that in this particular he could not be fair and impartial juror. A challenge at that time by the defense was disallowed.

The state then excused M. T. McNeely, a tailor, who as an officer of the tailor's union had assisted in strikes, but said he did not approve of them.

After excusing McNeely, District Attorney John D. Fredericks announced that the state would exercise no more peremptory challenges at this time.

The defense continued, eliminating George W. Johnson, a retired foundry superintendent; Dr. G. S. Case, a retired physician of Pasadena; Walter N. Frampton, a farmer, who said he believed the Times was blown up by dynamite, and A. C. Winter, a builder and contractor who had an opinion concerning the guilt of McNamara, which it would require much evidence to remove.

Points on which the defense encountered adverse rulings today were:

Resistance of the state's challenge against Talemans George W. Morton, on the grounds of "faulty mind," as shown, counsel said, in the fact that he had twice contradicted himself in the course of his examination, which lasted several hours.

Challenge against Dr. Case, preferred by Attorney Morton on the same ground as that leveled against Morton, was rejected.

Effort to impeach Talemans McKee was unsuccessful, the court declaring he was not convinced that McKee had said what the various witnesses credited him with saying.

An effort to fill the jury box after each peremptory challenge was offered was defeated by the state, which cited authorities to show that procedure was contrary to practice in this state. It was said tonight that the defense would excuse one or perhaps two of the five men remaining in the box, but not more.

MUST WORK TO LIVE.

"No; the hard conditions in Wall street have made it necessary for most of the chorus girls who were

RED

It's the Red Blood Corpuscles that Proper Food Makes.

An Ohio woman says Grape-Nuts food gave her good red blood and restored the roses of youth to a complexion that had been muddy and blotchy. She says:

"For 16 years I had stomach trouble, which produced a breaking out on my face. The doctors gave it a long Latin name, but their medicines failed to cure it. Along with this I had frequent headaches, nervousness and usually pain in my stomach after meals."

"I got disgusted with the doctors, stopped them and coffee and short, and quit eating everything but fruit and Grape-Nuts, with Postum for my table beverage."

The headaches, stomach trouble, and nervous weakness disappeared all most like magic, which showed that when the cause was removed and good food and drink used nature was ready to help."

My blood was purified and my complexion became like a young girl's. My weight was increased from 80 to 120 pounds in a few months—good, solid firm flesh, where it used to be soft and flabby."

"I recommended Grape-Nuts and Postum to one of my friends, who was afflicted as I had been. She followed my advice and in a short time was restored to complete health and in about 8 months her weight increased from 100 to 148 pounds."

"Our doctor, observing the effect of Grape-Nuts and Postum in our case, declared, the other day, that he would hereafter prescribe these food products for gastritis." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

BIG AUCTION

Monday, Nov. 13th, at 10 a. m. I will sell at auction a 4-room house and lot at 1913 N. 8th. A mortgage of \$400 on property can be carried at 5 per cent. Property now rented. Property must sell. A chance to buy a home cheap.

PIONEER BAKERY

207 South First Street

THE PROPER COURSE FOSS CARRIES BAY STATE BY REDUCED PLURALITY

Information of Priceless Value to Every Albuquerque Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement will add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statements of nearly residents who have been permanently cured?

Hiberto Baca, Delgado St., Santa Fe, N. Mex. says: "About two and a half years ago I gave a public statement telling of my experience with Doan's Kidney Pills. They completely rid me of pain in my back that had troubled me off and on for months. Whenever I stopped or brought any strain on my loins, I suffered severely and there were various other difficulties which convinced me that my trouble arose from disordered kidneys. It was not long after I began taking Doan's Kidney Pills that every symptom of my trouble disappeared. The fact that I have had no return attack warrants me in expressing my high opinion of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

DISPUTE OVER BLUE BALLOT

Voters in San Jose Precinct Report Judges Refuse to Mark Ballot Until After it is Voted.

Voters in San Jose precinct yesterday found that the judges were not placing their initials on the blue ballot before handing it to the voter, as required by law, but that one judge would mark the ballot after the voter had put his cross on it.

A. C. Heyman of the Rio Grande Industrial school, and others protested, and were told by the judges that they had received instructions to do it that way. It is said that late in the day these instructions were countermanded and the judges began marking the ballots before handing them to the voters.

According to several voters at San Jose it is said to have been only necessary for the voters to go around behind the building where the vote was being taken and get all the Hubbell machine needed.

In spite of this a heavy democratic vote was being cast in that precinct.

HEIRS TO FORTUNE DRAW SHARES FROM HAT

Des Moines, Ia., Nov. 7.—Five envelopes worth some dollars each were today drawn out of a hat in the settlement of the estate of the late J. B. Polk. The drawing took place at the home of one of the testators' sons and five heirs. In their turns, reached into the hat and claimed the envelopes which contained the shares of real estate and other securities.

J. B. Polk was the pioneer street railway man in Des Moines. He came here in the early days and grew up, financially and otherwise with the city from the time it was a village. When he died recently, he left a will which provided his property should be divided into five equal parts, the beneficiaries to be his widow, Harry S. and John Polk, sons, and Mrs. George B. Hippen, and Mrs. A. G. Allen, daughters.

The drawing was suggested by Executor George B. Hippen in order that there might not be complaints afterwards. The deeds to the property are being carried out in accordance with this arrangement.

Coughing at Night Means Loss of Sleep which is Bad for Everyone. Foley's Honey and Tar Compound stops the cough at once, relieves the itching and dryness in the throat, and heals the inflamed membrane, thus preventing the development of bronchitis or pneumonia. Keep always in the house. Refuse substitutes. J. H. O'Reilly.

FOWLER MANAGES TO DIG MACHINE OUT

El Paso, Tex., Nov. 7.—Robert G. Fowler, whose (trans-continental) flight was temporarily interrupted when he landed his machine in the sand between miles west of El Paso Sunday, came to this city tonight by train. A few days of shoveling, Fowler and his co-pilot have been unable to dig out a sufficient runway to permit the machine to ascend. "Typical," he will attempt to raise by ramming the biplane over a ridge of rocks.

Re-Elected Governor Over Frothingham, Republican By From 5,000 to 10,000; His Victory Conceded By Opponents.

REPUBLICANS CAPTURE NEW YORK ASSEMBLY

Kentucky Chooses McCreary, Democrat, as Executive; Kansas Elects Democratic Congressman.

(By Morning Journal Special Leased Wire.) Elections were held yesterday in many states and cities throughout the country, showing varying results with little indication of a widespread wave of public sentiment.

In Massachusetts, Governor Foss, Democrat, was re-elected by a reduced plurality of about 7,500.

The first returns showed marked gains for Louis P. Frothingham, Republican, but these were gradually reduced. Meager returns indicate that other republican candidates on the state ticket are slightly ahead of their democratic opponents.

New York state elected a republican assembly, thus depriving Governor Dix, Democrat, of the support he has heretofore had from a legislature, democratic in both branches. The present New York assembly has a democratic majority of 24. The newly-elected assembly will have a republican majority of upwards of 20.

In New York City (Manhattan and Bronx) the Tammany strength was materially reduced but its candidates for judicial and county officers were elected again by greatly reduced pluralities.

A democratic congressman was elected in the second Kansas district to fill the place of Representative Mitchell, Republican, deceased.

In Kentucky, James B. McCreary, Democrat, was elected governor by a majority estimated at from 20,000 to 40,000. A democratic legislature was also assured which assures the choice of Congressmen Olla James as United States senator from Kentucky.

The first election held in the new state of New Mexico is still in doubt, both republican and democratic candidates for governor claiming victory on meager returns, but odds favoring the latter candidate. Indications which will elect two republican United States senators.

New Jersey elected a legislature which will probably give continued support to Governor Wilson, Democrat, but the legislative majorities are still in doubt.

Early returns from the state election in Maryland were inconclusive as between Arthur P. Gorman, Democratic candidate for governor and Phillips Lee Goldsborough, Republican. On the first meager returns republican State Chairman Hanna claimed the state for Goldsborough, but the returns marked the elections held yesterday and gave that party power in districts where heretofore it had been unable to muster a counting vote.

In Schenectady, N. Y., the socialist elected a mayor and other city officers. In the county board, a majority of the county board, in addition, the assembly district in which socialist assemblyman.

Ohio was another winning ground for the socialists. The returns in a half dozen of the chief cities, in two of which they elected mayors, give them a total today in advance of any previous showing and put them close in order, numerically with the two old parties. In Ohio, where socialist candidates were not elected, radical progressives were returned by the republicans.

Besides Schenectady, Cleveland, Columbus and Dayton were the most favorable cities for the younger party.

In the second Kansas congressional district, where a successor to the late Congressman Mitchell was elected, the socialist made extensive gains.

In several other states among them New Mexico, where socialists had a full ticket in the field, further gains were made.

NEW YORK.

Legislature Goes Republican. New York, Nov. 7.—Returns from all sections of the state on assembly men up to 10 p. m., show that the republicans have regained control of the lower house of the state legislature by a safe majority. The present assembly is democratic by 24 majority.

With but 72 election districts out of 912 to hear from, Tammany leads in the vote for supreme court judges in New York county by about 10,000.

Returns from twenty-two of the thirty-four New York cities electing judges show about an even division.

eleven republicans being elected, ten democrats and one socialist.

Indications with about one-quarter of the vote counted are that the democrats have elected the candidates in New York county from 40,000 to 55,000 plurality.

The World, an anti-Tammany paper, concedes a Tammany victory in New York city by over 50,000.

Republican Mayor in Syracuse. Syracuse, N. Y., Nov. 7.—Edward Schoenbeck, Republican, was elected mayor of Syracuse over Laddington, Democrat, by 14,750 votes to 10,547, a plurality of 4,212.

Albany Re-elects Republican Mayor. Albany, N. Y., Nov. 7.—Early returns indicate the re-election of Mayor James B. McLean, Republican, by a substantial majority.

Republican Mayor in Utica. Utica, N. Y., Nov. 7.—The city of Utica elected a republican mayor by a majority of 350.

Rochester Remains Republican. Rochester, N. Y., Nov. 7.—Mayor Edgerton, Republican, was re-elected today by more than 8,000.

Republicans Clean Up Buffalo. Buffalo, N. Y., Nov. 7.—The republicans made a clean sweep in Buffalo and Erie counties. The principal candidates on the city ticket were elected, the pluralities ranging from 3,000 to 10,000. Six of the nine assemblymen elected are republicans, a republican gain of three.

From a democratic majority of twenty-four, the New York assembly today turned overwhelmingly republican. At midnight all indications point to the republicans in the lower chamber having a majority of fifty. Thus the democratic majorities in both houses, which existed during the first half of Governor Dix's administration will be lacking next year.

In the avalanche, Daniel R. Frisbie, speaker of the present house, managed to hold his seat and Lewis Stuyvesant Chandler, of Dutchess county, is expected to gain by the narrow margin of about 14 votes.

In Greater New York the republicans defeated nine democrats, while in Kings county an equal number of democrats claimed met their fate.

In Auburn, Thomas M. Osborne, one of the organizers of the democratic league, was defeated for mayor by Thomas H. O'Neill, Republican.

Ten vacancies on the state supreme court bench were filled by elections in four judicial districts. Five seats went to democrats and the same number to republicans.

Returns received at midnight from throughout the state on the assembly election indicate that the complexion of the body will be as follows:

Republicans, 49. Democrats, 49. Socialists, 1. This would mean gain of thirty-seven for the republicans and give them a majority of fifty.

Tammany hall's hold on New York City was shaken today in a battle of which local officers were mainly at stake. The democrats successfully defended their ancient strongholds of Manhattan and the Bronx, but by greatly reduced pluralities.

Queens county also stood by the democrats, but the republican fusion candidates made nearly a clean sweep of Brooklyn, probably divided honors in the little borough of Richmond.

A year ago, Manhattan and the Bronx boroughs gave Governor Dix a plurality of 68,389 and elected a democratic supreme court justice by about 22,000. Today, Robert L. Fowler, the democratic candidate for supreme court, carried New York county with a plurality of about 17,000.

The three democratic candidates for supreme court justice in the first judicial district pulled through by 3,000. Francis M. Scott, the fourth justice elected was endorsed by both parties.

The republicans gained eight assemblymen in New York county and will send fifteen members of the body out of the total delegation of 35.

The republican candidates for supreme court justices in the second judicial district were elected with one possible exception. William Willett, Jr., the democratic candidate who was charged with buying his nomination, ran about 8,000 behind Callahan.

The republicans elected a sheriff in Kings county by about 14,000. In 19 out of 23 districts in Brooklyn, the fusionists gained six assemblymen.

VIRGINIA.

State Goes Democratic. Richmond, Va., Nov. 7.—With almost no opposition to the regular democratic ticket, the election today was merely ratification of the primary. Returns tonight indicate that the democrats will have 120 votes in the joint assembly of 140 members.

MISSISSIPPI.

Democratic Victory as Usual. Jackson, Nov. 7.—Except for the unexpected strength shown by James T. Lester, socialist candidate for lieutenant governor, the election today was a perfunctory affair, all democrats being elected. A small vote was polled.

At 2 o'clock this morning, Wednesday morning, the claim is made at socialist headquarters that their candidate for lieutenant governor, James T. Lester, of Jackson, had been elected over the democratic nominee, J. R. Bibo.

ILLINOIS.

Even Break in Chicago. Chicago, Nov. 7.—Returns from half the 1,437 precincts in today's Cook county judicial election indicate that the republicans and democrats divided evenly, the ten superior court judges, and the democrats elected one circuit judge. An election to increase the salaries of judges was defeated.

Local option elections held in 20 small cities and towns in Illinois today resulted in keeping saloons open in most places as heretofore. Little change was noted in the vote.

MASSACHUSETTS.

Foss Wins by 7,500. Boston, Nov. 7.—Governor Foss carried the city of Boston by a reduced plurality. The total vote of the city was:

Foss, Democrat, 49,861; Frothingham, Republican, 28,493.

The total vote last year was: Foss, 52,553; Draper, 27,826.

Mayor Fitzgerald estimated at 7 o'clock that Foss had carried the state by from 8,000 to 8,500.

Returns from 401 out of 1,070 precincts, including Boston complete, give for governor:

Foss, Democrat, 77,863; Frothingham, Republican, 66,263.

Same districts last year gave: Foss, Democrat, 82,679; Draper, Republican, 63,248.

Returns from 867 out of 1,070 voting districts, including Boston give: Foss, Democrat, 101,588.

Provingham, Republican, 97,027. Same districts last year gave Foss, Democrat, 110,428; Draper, Republican, 93,434.

The same ratio if maintained

throughout the state would make the Foss plurality about 8,500.

With two senatorial districts missing and six representative districts embracing thirteen seats to be heard from, the legislature elected stands:

Senate, 25 republicans, 12 democrats, one in doubt.

House, 128 republicans, 87 democrats, one socialist, one in doubt.

Governor Foss issued the following statement:

"The people have said their second great victory over machine rule in spite of the most scandalous hoodlums campaign ever waged in the interest of the state."

Complete returns for governor in the state today give:

Foss, Democrat, 516,422; Frothingham, Republican, 287,183.

Foss' plurality, 229,239.

UTAH.

Citizens' Ticket Won in Salt Lake. Salt Lake City, Utah, Nov. 7.—The election of Samuel C. Clark, candidate for mayor on the Citizens' ticket, over John S. Brantford, incumbent, the "American" party nominee, is conceded tonight at American party headquarters. Park's estimated plurality is given at 3,500.

NEBRASKA.

Nebraska Democrat Succeeds Latta. Omaha, Nov. 7.—Dan V. Stevens, Democrat, is elected to fill the vacancy caused by the death of the late Congressman Latta, Democrat, of the Third Nebraska district.

The republican party made almost a clean sweep in Nebraska today. The only exception of importance was that of Dan V. Stevens, democratic candidate for congress in the third district to fill the vacancy caused by the death of the late Congressman Latta, Democrat. Stevens won over James C. Elliott, the republican nominee by a majority which will exceed 2,000. The democrats claim the possible election of one supreme court judge.

MARYLAND.

Election of Goldsborough Claimed. Baltimore, Nov. 7.—Republican State Chairman J. B. Hanna, claims the state for Goldsborough, republican candidate for governor. His claims are based on small republican gains.

Returns from the first congressional district show that William G. Browning, Republican, was elected to succeed the Henry C. Lonsdale, by from 2,000 to 4,000 majority.

Baltimore, Nov. 7.—The vote on the constitutional amendment designed to disfranchise the negro indicates it is defeated.

At 2:30 o'clock this (Wednesday) morning returns from Baltimore city and the counties of Maryland, show that Phillips Lee Goldsborough, the republican candidate for governor, has a majority over State Senator Arthur P. Gorman, Democrat.

Republicans claim he will have a majority in the state of 5,000, but democrats do not concede this. While they say the election will be close they declare Senator Gorman will be elected by at least two thousand majority.

RHODE ISLAND.

Pothier, Republican Leads. Providence, R. I., Nov. 7.—Returns for governor from 74 out of 154 districts in the state outside of Providence give:

Pothier, Republican, 13,527; Waterman, Democrat, 9,357.

Same districts in 1910 gave: Pothier, 12,598; Waterman, 10,096.

These returns indicate the re-election of Governor Arnold J. Pothier, Republican, by a plurality of between 6,000 and 7,000. With one district out of 104 missing, the vote is:

Pothier, Republican, 37,793; Waterman, Democrat, 30,377.

The republicans gained several members in the next legislature, especially in the senate.

The proposition to have biennial elections, was carried by a substantial majority.

PENNSYLVANIA.

Earle Wins in Philadelphia. Philadelphia, Nov. 7.—Returns from 472 election divisions of the 1,197 in the city give Earle, Republican, a majority over Blandenburg, reformer, of 8,815 for mayor.

These figures point to the election of Earle and the rest of the republican ticket by from 15,000 to 20,000 majority.

Indications at 2:30 o'clock this morning, November 8, are that Rudolph Blankenburg, the democratic-Keystone candidate for mayor, carried the city by about 2,500 majority.

Republican Succeeds Kipp. Towanda, Pa., Nov. 7.—Returns from the fourteenth congressional district indicate the election of W. D. B. Alney, of Montrose, Republican, over Dr. O. H. Rockwell, Democrat, by about 2,000 plurality. The election is to fill the unexpired term of the late George W. Kipp.

KENTUCKY.

McCreary Elected Governor. Louisville, Ky., Nov. 7.—Returns received up to 5 p. m., by the Courier-Journal indicate the election of McCreary, Democrat, for governor, by a majority of about 2,000 over O'Keefe, Shelby county, which gave Bryan 534 three years ago, has gone 10,123 for McCreary.

Democratic headquarters of Louisville and Jefferson county, constituting the fifth congressional district, announced that 150 out of 225 precincts give McCreary, Democrat, 14,422 and O'Keefe, Republican, 19,456.

At 5 o'clock tonight the Herald, which supported the republican state ticket, conceded defeat and announced the only thing in doubt was the democratic majorities.

James Bennett McCreary will occupy the governor's chair after an intermission of thirty-two years, he having been elected to the office previously in 1875. With him on the state ticket will be Lieutenant Governor Edward McDermott.

Attorney General—James B. Garnett.

Auditor—Henry M. Bosworth.

Secretary of State—C. C. Creel.

Commissioner of Agriculture—J. W. Newman.

Superintendent of Public Instruction—Barksdale Hamlett.

Clerk of the Court of Appeals—Robert Green.

For the first time in fourteen years, Kentucky has a majority of democrats on the railroad commission.

supported the republican ticket, conceded McCreary's election by 48,000, but later figures may reduce this estimate.

The returns surprised the most optimistic democrats, most of whom had said the election would be close. The republican majority in the last election was 7,000. The democratic state ticket will go into office more strongly indorsed than has any other ticket in years.

Neither party had a paramount issue. Both stood for county unit local option.

KANSAS.

Democratic Congressman in Kansas. Kansas City, Kan., Nov. 7.—Early returns from the congressional election in the Second Kansas district for the seat made vacant by the death of A. C. Mitchell, progressive republican, indicates the election of Joseph A. Taggart, Democrat, by a small majority.

A light vote was cast. Forty-five precincts out of 371 in the district give Taggart, Democrat, a majority of 400 over Guyer, Republican.

Joseph A. Taggart, a Democrat, was today elected to congress from the Second Kansas district by a majority estimated at 1,200 votes over his republican opponent, U. S. Guyer. Mr. Taggart will fill the unexpired term of the late republican, Congressman A. C. Mitchell. Mitchell carried the district in 1910 by 5,120 votes over John Caldwell, Democrat.

The country precincts in which Mr. Guyer had placed his confidence, rolled up unexpectedly democratic majorities, and when Kansas City, Kan., vote was tallied, the republican managers gave up the fight. Mr. Taggart's election places a non-republican in congress from the second district for the first time since 1896, when a populist was elected.

Mr. Guyer made his campaign on a progressive republican platform. He previously had served successfully as campaign manager for the late A. C. Mitchell, when Mitchell, on a progressive platform, defeated Congressman Charles Scott for the republican congressional nomination.

Mr. Taggart is a lawyer and at present is prosecuting attorney of Wyandotte county. During the campaign William J. Bryan and Speaker Champ Clark delivered speeches in favor of his candidacy.

The socialist and prohibition parties made heavy gains in the district over the 1910 election.

NEW JERSEY.

Pothier, Republican, Re-Elected. Trenton, N. J., Nov. 7.—Returns at midnight indicate that the republicans will control both branches of the legislature next winter. The election is significant in the defeat of a number of men whose election was specifically advocated by Governor Woodrow Wilson in the last few weeks.

MICHIGAN.

Socialist Gain in Saginaw. Saginaw, Mich., Nov. 7.—Socialists scored a victory here today. The republicans elected eleven of the twenty-three commissioners to revise the city charter, while the socialists chose four.

CALIFORNIA.

Sacramento Re-Elects Bard. Sacramento, Cal., Nov. 7.—Indications are that Bard, Democrat, is re-elected mayor by a large plurality over Stuart, socialist, who seems to be running ahead of Sutliff, Republican.

Scattered returns from the regular municipal election in this city today indicate a victory for the municipal conference candidates for supervisors over the union labor nominees. The conference, republican and democratic parties. This coalition was victorious on September 28, when a direct primary resulted in the election of James Rolph to the mayoralty over P. H. McCarthy, union labor, by a majority vote.

Greatest interest in today's results centered in the fight between Ralph Hathorn, conference candidate, and Charles F. Fickert, union labor incumbent, for district attorney. Fickert had led in the primaries, but late tonight returns showed an even race with the result in doubt.

The only other election in California today was at Sacramento, where M. B. Beard, Democrat, was re-elected mayor. Allen Stuart, the socialist candidate, ran ahead of Frank Sutliff, Republican.

OHIO.

Cincinnati Elects Democrat. Cincinnati, O., Nov. 7.—Returns received from one-third of the precincts indicate the election of George J. Karb, Democrat, has been elected mayor by a plurality of about 4,000. Mayor Marshall, Republican, and Alvah Eby, Socialist, are running neck and neck for second place.

These large 50-cent cases of Pape's Diapiesin contain more than sufficient to cure any case of Dyspepsia, Indigestion or any other Stomach trouble.

Office Furniture

Our display of office furniture is better than ever before. We are showing Roll Top and Flat Top Desks, Typewriters and Standing Desks, Office Tables, Revolving Chairs, Arm Chairs and Typewriter Chairs, in either golden oak or Early English. Our prices are the Lowest in this city.

ANOTHER VICTIM IS RELIEVED

Mrs. Hoskins Lost Heart And Gave Herself Up To Die, But is Relieved By Taking Cardui, the Woman's Tonic.

"I am in better health than I have been for years," writes Mrs. Sarah J. Hoskins, from this place, "and I thank Cardui for it."

"I suffered for years with womanly ailments, and at times would nearly cramp to death. My back and right side would nearly kill me."

"I tried everything to get relief, but failed, I lost heart, and gave up hope of ever getting well. Then I saw Cardui advertised, and got a bottle. I was down in bed, but before I had taken two bottles of Cardui, I was up and helping with my work."

"Now I can wash all day and do my house work, with ease. I feel better than I have for years. Since taking Cardui, I have gained more flesh than I ever did in my life."

"I praise the medicine to all my friends, for I believe Cardui saved my life."

If you are weak, tired, worn-out, or suffer from any of the pains peculiar to weak women, such as headache, backache, pains in arm, side, or limbs, or any other symptoms of womanly trouble, you are urged to try Cardui, the woman's tonic. It will help you.

During the past fifty years, more than a million women have been benefited by using Cardui. Ask your druggist.

N. B.—Write to Ladies' Advisory Dept., Chattanooga, Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

MANCHU DYNASTY PREPARING TO ABDICATE

Fall of Peking is Expected,
Making Victory of Chinese
Revolutionists Complete;
Foreigners Will Be Protected.

[The Morning Journal Special Leased Wire.]
Peking, Nov. 7.—The Manchurian
dynasty is expected to fall. There seems
no hope of saving even a nominal
throne.

The provinces north of the Yang
Tze river are now declaring for a re-
public. The only force of Manchurian
troops large enough to cope with the
local situation is in Peking. There are
indications tonight that the capital
will be surrounded before many days
by Chinese soldiers.

Where the court will take refuge
is a question. There are evidences
that the court intends to proceed to
Chang Kian Kow (Kailan).

Troops guarding the route to that
town which lies in Chi Li, 125 miles
northwest of Peking, were expected
to dynamite the tunnel after the
passage of trains bearing the emperor
and his household.

Reports have been received that
Chang Kian Kow is unsafe.

The national assembly is holding
meetings without a quorum but cer-
tain members are endeavoring to
maintain a nucleus.

Ta Lung, vice-president of the privy
council, has taken rooms for his
family in a hotel in the legation quar-
ter. Prince Ching's palace seems de-
serted. It is believed he is in the for-
bidden city.

American soldiers with a supply of
skyrockets were sent to each outly-
ing mission compound tonight.

The legation has advised the
Americans to come into the quarter
or seek other places of safety. A con-
siderable number of foreigners have
fled, but there are many within
the city who are opposed to foreign-
ers.

General Chang Shao-Tsun, who was
appointed by imperial edict as envoy
to proceed to the Yang Tze province
to conclude the peace, has declined
the appointment, saying that he pre-
ferred to remain with his own
troops at Lanchow.

The government proposed today to
send the Peking Tien Tsin railway be-
yond Fong-Tai to prevent additional
troops from arriving. It is said that
the British minister, Sir John Jordan,
protested on the ground that
Great Britain was entitled to operate
the railway in the event of the sus-
pension of service, in accordance with

the Dandruff
GERM

And the Guinea Pig.

When Drs. Lasser and Bishop made
a poultice by mixing scales of dandruff
and vasoline, which was after-
wards rubbed on a guinea pig, they
were contributing to science more
than they knew. The application of
the scales caused the pig to lose its
hair and become bald.

This was merely one of the prelimi-
nary steps which made possible the
discovery of Newbro's Herpicide. After
establishing beyond question the
existence of the dandruff germ, a
remedy was needed to kill this para-
site.

There was nothing which would do
this until Newbro's Herpicide was
placed upon the market. Being the
first recognized remedy for dandruff,
it has long been called the "original
remedy." Herpicide kills the germ,
prevents falling hair and stops itching
of the scalp. Don't take a substitute.
You can always get the genuine arti-
cle.

Herpicide is for sale at drug stores.
Applications may be obtained at good
barber shops.

One dollar size bottles are guaran-
teed.

Send for in postage or silver for
sample and booklet to The Herpicide
Co., Dept. R., Detroit, Mich.

J. H. O'Reilly Co., special agents.

PRESIDENT TAFT KEPT BUSY AT CINCINNATI

He Went to Polls Like Thou-
sands of of Fellow Citizens
and Voted; Delivered Several
Non-Partisan Addresses.

[By Morning Journal Special Leased Wire.]
Cincinnati, Nov. 7.—President
Taft's second day in Cincinnati led
him to the polls like thousands of his
fellow citizens, made him the guest
at luncheon of the Manufacturer's
club, where he said he expected to
come back to Cincinnati some day to
practice law, and gave him an oppor-
tunity to speak on peace and arbitra-
tion to the American society for the
judicial settlement of international
disputes.

Tonight the president was the guest
and principal speaker at the banquet
of the Commercial club. At the con-
clusion of this speech Mr. Taft re-
tired on board on his private car and
early tomorrow morning will leave
this city for Frankfort and Louisville,
Ky.

At the entrance of the Business
Men's club, where the Commercial
club gave its luncheon, the president
met Governor Harmon and Senator
Foraker.

The three chatted for a moment,
and then Mr. Taft, linking one arm in
that of Governor Harmon's and with
the other thrown over the shoulder of
Mr. Foraker, entered the building.

With his ballots all safely tucked
away in the paper box at the polling
place in Ward 2, precinct 34, the
president was in happy vein when he
spoke to the manufacturers.

"I'm glad to see that you lawyers
still are a necessary evil," said the
president. "I am coming back here
myself some day to become a neces-
sary evil. I see a good many well-
favored lawyers here and have no fear of the
future. I am coming back to com-
pete for business with Governor Har-
mon and Senator Foraker."

In music hall, Mr. Taft spoke in
behalf of the proposed arbitration
treaties with Great Britain and
France.

"We ought to use common sense in
everything," said the president. "We
ought to fortify the Panama canal to
keep it for ourselves and to prevent
it falling into the hands of the
enemy."

RIPLEY DISCUSSES DECREASES IN EARNINGS

Due Partly to Less Abundant
Crops and Partly to Employ-
ment of Less Labor Says
Santa Fe Head.

[By Morning Journal Special Leased Wire.]
Chicago, Nov. 7.—Explaining re-
cent decreases in earnings by west-
ern railroads, President Ripley of
the Atchafalaya, Topeka & Santa Fe rail-
road, today issued a statement de-
claring that the falling off in earn-
ings was due partly to less abundant
crops and partly to the employment
of less labor, owing to the reduction
of operating forces by large concerns.

It is futile to expect to regulate
combinations by means of the Sher-
man law of otherwise, according to
Mr. Ripley.

Mr. Ripley said that a central body
controlling rates would be preferable
to state regulation, which often
would conflict with national laws.
He declared that Texas, Iowa and Okla-
homa, and northwestern states, had
an avowed policy of favoring local
merchants in rates regardless of the
interests of the consumer and mer-
chants outside these states.

BEATTIE MUST DIE
IF APPEAL IS DENIED

Richmond, Va., Nov. 7.—Unless the
supreme court of appeals grants a
new trial for Henry Clay Beattie, be-
fore tomorrow evening, the young
man convicted of the murder of his
wife will be removed from the Rich-
mond city jail to murderer's row at
the state penitentiary.

According to a law a man con-
demned to electrocution must be lodg-
ed in the penitentiary fifteen days
before the date set for his death.

The court which has under advisement
Beattie's petition for a writ of
error sits tomorrow but may not give
its decision. If it should not decide
the appeal before the date set for the
execution, that would act as a stay.

Check Forgers Caught.

New York, Nov. 7.—As a climax of
a chase that led to nearly every large
city in the east and middle west, the
police tonight arrested William I.
Schultz Berger, Isidor Weiss and
Charles Carlsen, who are alleged to be
members of a clever and success-
ful gang of check forgers. They
are charged with defrauding various
banks of more than half a million
dollars.

Hotel Men Insulted.

Oklahoma City, Okla., Nov. 7.—A
private car, bringing Denver hotel
men here as guests of the Missouri,
Kansas and Oklahoma hotel men's
association, was searched for liquor
by state officers soon after its arrival
today. No liquor was found.

The visitors are greatly aroused
over the incident, and say they will
adopt resolutions, denouncing such
a reflection on their sobriety and dig-
nity. They are all members of the
Rocky Mountain Hotel Men's associa-
tion.

Priest Killed in Accident.

Seward, Neb., Nov. 7.—Father
Murphy, who for years engaged in a
contest with Bishop Bonacum for
the possession of the Catholic parish
here, was killed this evening in an
automobile accident.

WE DO WHAT WE ADVERTISE

The Golden Rule Dry Goods Co.

Announces Advance Thanksgiving Sale during month of November. A special
value-giving event. Special values and low prices on Dress Goods, Silks, Ready-to-
Wear Garments, Table Linens and Napkins. Opening Day of Sale,
THURSDAY, NOVEMBER 9th, AT 9 A. M.

now at \$2.95

Redfern Corsets

Special Closing out Sale of all High Class
Redfern Corsets, all sizes; values \$3.50 to
\$8.00; choice now \$2.15

MINERS RESCUED FROM CERTAIN DEATH

Six Men Entombed in Drift of
Joplin Mine, Taken Out Alive;
Crowd Prayed While Men
Worked.

[By Morning Journal Special Leased Wire.]
Joplin, Mo., Nov. 7.—Six men en-
tombled in a zinc mine at Oronogo, ten
miles northeast of here, were ex-
cavated for five hours today by a
cave-in which closed the shaft and
cut off all means of escape. Water
rising in the mine was within a few
feet of them, when they were re-
scued. A prayer service was held
when they were removed from the
mine.

The men were working in a drift
130 feet below the surface when a
"hopper," a contrivance used in re-
moving dirt after it is brought from
the mine, gave way and permitted
200 tons of dirt, together with heavy
mine machinery, to fall. The dirt fell
into the shaft, cutting off communica-
tion with the men below.

The hoister men, seeing the weak-
ness of pillars supporting the hopper,
leaped and escaped. In the office of
the mining company, Miss Besse
Spotts, a bookkeeper, attempted to
communicate with other mining
plants in the vicinity, but the drop
of the hopper had broken the wires
connecting the office telephone and
she ran more than a mile to report
the accident. Within a short time a
rescuing force of three hundred men
had assembled at the mine. Teams
were selected to work in relays of
ten minutes, in removing the debris.

After that hour's work an opening
in the pump shaft was made, per-
mitting communication with the en-
tombled men. The rescuers were told
by the imprisoned ones that they were
uninjured, but that the water was
rapidly rising. Cooled by the infor-
mation that the men were alive, the
workmen labored harder and at the
end of five hours a point half way
to the bottom of the shaft was reached.

There a huge rock had choked the
shaft, holding back the other debris.
With its removal with the use of
chains, ropes were lowered to the
men. These they wrapped about their

bodies and they were drawn to the
surface.

Seven hundred persons were as-
sembled and a prayer and song ser-
vice was conducted in gratitude for
the rescue. The men, who a few min-
utes before were at death's door,
joined in the service.

PARIS WOMAN WINS NOBEL CHEMISTRY PRIZE

[By Morning Journal Special Leased Wire.]
Stockholm, Nov. 7.—The Nobel
prize for chemistry has been awarded
to Mme. Marie Sklodowska Curie of
the University of Paris.

Mme. Curie is the chief professor
of sciences in the University of Paris.
She was the discoverer with her hus-
band, Professor Pierre Curie of radium,
and in 1903 shared with him
half of the Nobel prize for physics.
The other half being awarded to Pro-
fessor Antoine Henri Becquerel.
Each of the five Nobel prizes awarded
annually amounts to \$40,000.

Recent announcement was made of
the success of Mme. Curie in produc-
ing plutonium, a new element pos-
sessing a radio-activity superior to
radium.

College Abandons Football.

Fairmont, Ind., Nov. 7.—Fairmont
Academy, a school conducted here by
the Friends church, today decided to
abandon football for the rest of the
season, as a result of the death of
Bruce Adams, whose back was broken
in a game at Alexandria, Ind., last
Sunday.

Fatal Wreck in Oklahoma.

Ardmore, Okla., Nov. 7.—Two At-
chafalaya, Topeka and Santa Fe passen-
ger trains collided head-on at Ar-
buckle siding today, but not a pas-
senger was injured. Engineer Charles
Fitzpatrick was killed and Fireman
A. Hardy was severely injured. A
misunderstanding of orders is said
to have caused the crash.

Sweetening Sour Dish Cloths

One trouble with dishcloths is that
they are hard to keep sweet, but they
can easily be kept in good condition by
washing occasionally in lukewarm water
to which has been added a tablespoon-
ful of Gold Dust washing powder; then
scald, rinse and hang in the sunshine
and fresh air to dry. Cheesecloth, un-
bleached cotton and heavy linen crash
make most satisfactory dishcloths.

Where kitchen utensils become burnt
or very "sticky," pot rings are easiest
to use.

Not to Overhaul Cruiser.

Seattle, Wash., Nov. 7.—The navy
department has decided to revoke the
order recently issued to send the
cruiser New Orleans to the Puget
Sound navy yard for extensive re-
pairs, according to unofficial advice
received here today. The New Or-
leans is now on the China station and
it is understood the gravity of the sit-
uation there makes it necessary to
keep the cruiser in oriental waters.

To Enlarge Fort Snelling.

St. Paul, Minn., Nov. 7.—Major
General Leonard Wood, chief of staff
of the United States army, will visit
St. Paul this winter to inspect Fort
Snelling and arrange its enlargement
to a brigade post.

General Wood, according to a dis-
patch from Washington, plans to send
two additional regiments of infantry
to the local post.

Slow Progress in Hyde Case.

Kansas City, Mo., Nov. 7.—One of
twenty-two ventriloquists examined in
the Hyde murder trial today, only
one, William Weston, qualified as a
juror. He had read of the case, but
had no fixed opinion. The addition
of Weston to the talemenn made
twenty-six in all. Forty more venire-
men have been summoned to appear
tomorrow.

Loan for \$3,000,000 Secured.

Mexico City, Nov. 7.—E. H. Brown,
president of the National Railways of
Mexico, has negotiated a loan in New
York for \$3,000,000 for one year dat-
ing from November 15, according to a
statement issued at the headquarters
of the company today.

HOW WOMEN WEAR OUT.

When a woman wants her husband
to know what because of her time,
she gets him to spend an afternoon
home taking care of the children
while she goes shopping. Even that
little taste of housework convinces
him.

Still, very few men realize how
housework wears a woman out. Women
themselves often don't wake up to
it in time. When a woman feels tired
all day, can hardly drag herself
about, is weak, pale and nervous, she
is sick. She won't admit it but she
is. What she ought to do is to have
a bottle of Vinol, our de-
licious tonic. It has brought the glow
of health and strength back to many
worn-out women here, by building
them up and making them strong.
Vinol must please you—or it costs you
nothing. Try it at our risk.
J. H. O'Reilly Co., druggists, Al-
buquerque, N. M.

You can save money as well as your good health
by drinking

Glorieta Beer

in preference to any other. None more pure and whole-
some.

JUST TRY IT

Phone 57 or 58, and one of our courteous drivers
will have it at your door.

ALBUQUERQUE NEW MEXICO

THE TRIUMPH OF THE PEOPLE.

That W. C. McDonald has been elected governor of New Mexico by a large and gratifying majority is evident this morning and the result of the hardest fought election in New Mexico will bring the profoundest satisfaction to every lover of good government. The election of William C. McDonald means the vindication of New Mexico; it means that she enters the union as a progressive state; she comes into the galaxy with clean hands and starts the working out of her manifest destiny under the most favorable and encouraging auspices.

Probably never in any state has there been so signal a victory for popular government; for the better class of thinking citizens; for the men who put honestly in public office and business administration before party label and who believe that the people should have the management of their own affairs.

The reputation of the old guard and the men who have so long held New Mexico in shackles, is conclusive and complete, stinging and unqualified and it ought to bring its lesson to all republicans. This victory demonstrates that the time is past, in New Mexico as elsewhere, when "party loyalty" and the cry of "regularity" will blind intelligent men to the shortcomings of men who do not represent the party's principles and whose appeal to party loyalty is a delusion and a snare.

Hail to the new state, emancipated, free, ready to take up the privileges and responsibilities of self-government; a state which has set itself right before the nation, which now enters, under honest government and in the hands of the people, upon an era of development and progress and prosperity, which will have been unprecedented in the United States.

The victory has been won fairly and cleanly; the temper of the people is unmistakable; bossism has had the rebuke which it has earned by a generation of injustice and selfishness; and when the republican party again comes up before the people to ask their suffrage it must come as a progressive and reorganized party, brought back to the straight and narrow way of republican principles as enunciated by Abraham Lincoln.

That thousands of sturdy republicans have joined with the democrats to bring about the splendid ending of the campaign just closed, shows that the election of McDonald is a victory won by the people as against the boss-ex, without respect to party lines.

Only by keeping the sovereignty in the hands of the people can New Mexico hope to prosper and to grow. She has made a magnificent start; we believe she will keep it up.

THE PROBLEM OF THE MOSQUITO.

Dr. Doty says that with \$1,000,000 he could rid greater New York of mosquitoes, and his statement is entitled to the credibility which his long experience in anti-mosquito campaigns gives it. Certainly \$1,000,000 would be a cheap price to pay, as municipal expenditures are, for the abatement of a peculiarly annoying public nuisance.

The reappearance of mosquitoes last summer in greater number and with more venomous activity than at any time since the institution of measures to kill them off has served to induce considerable pessimism regarding the effectiveness of preventive campaigns. Yet there remains the example of the government in ridding the canal zone of the pest, and it is not supposable that any sovereign remedy lies in federal methods which is not at the disposal of the state and local authority. But the effectiveness of a purely local campaign of extermination without interstate co-operation may well be doubted.

MANNERS OF COLLEGE BOYS.

President Taft at the University of Minnesota took occasion to rebuke the college boys for their "barbaric yells," which he contrasted with the "graceful hurrahs" of other days. He suggested that "American universities might well devote a little more attention to the study of manners."

The New York World says: The testimony of residents of New Haven would be interesting as to the difference in the degree of vociferation between the "graceful hurrahs" of Yale '73 and the cheers of contemporary college students. Their volume of noise is doubtless now greater because there are more students to cheer. Organized college cheering as it now obtains is a part of the "big-noise" program in and out of colleges which is an inheritance from a previous administration.

College manners might well be improved. But are they radically worse than they were or do they only seem so because there are more students to give foundation to the charge? There was hoodlumism at American colleges a half-century ago and an amount of drunkenness a generation before that which would not now be tolerated by public sentiment.

But is there not a disposition to take the American college boy, with his yells and games and manners and all, too seriously? To the philosopher and the citizen with a sense of humor the study of the "college spirit" affords endless entertainment; and in the aggregation of college youth into a distinctive caste is to be found one of the most interesting aspects of social evolution.

A child's welfare exhibit is another good suggestion for the Panama-Pacific exposition. The welfare of children has received a great deal of earnest attention during the last few years, and an exhibit of what has been done and what it is proposed to do would be instructive and likely to produce many useful suggestions.

That prediction of a European visitor that by the year 1911 American women, because of the style of shoes they wear, will have no little toes, is not likely to disturb anybody. If little toes are not in fashion, what woman will want them?

The theatrical announcements for the winter lead to the impression that the baseball players who have been pulling off vaudeville stunts on the diamond were merely preparing for winter engagements on the stage.

As a little thumb-nail sketch to the agitation for more speed in criminal trials in this country comes the latest guess from Los Angeles that it will be February or later before a jury in the McNamara case is obtained.

China is promised a constitutional government, with not a single nobleman in the cabinet, yet the revolutionists are hesitating—especially those that are safely enmeshed on our own Pacific coast.

Despite what has happened to simplified spelling and the universal peace propaganda, Mr. Carnegie should cheer up. He will soon have an opportunity to testify in the steel trust case.

A scientist has come all the way from Berlin to tell us that there is no immortality. Perhaps he is one of the scientists who gave us those impressive advance descriptions of Halley's comet.

President Taft's Thanksgiving proclamation gave us only thirty days to prepare for a high-cost of living dinner. Think how much he gave the Standard Oil and Tobacco trusts?

They are beginning to discover that the reason the great dam at Austin, Pa., went out in the recent flood was caused by its strange failure to go out several years before.

Women may be able to stop the sale of impure food, but as long as they give teas to so many women they doubt if they'll do it.

Texas and Missouri are wrangling as to which of them raises the most mules, but the state that has Senator Bailey can prove quality if not quantity.

Saving the country having been properly attended to, the people will now resume the prosaic, but highly necessary occupation of earning a living.

When it comes to a showdown, the sovereign people are generally there with the goods, after all.

That "Extra" prediction of the Trib-Cit of yesterday noon, will need considerable revision.

It appears that the citizens of this county are satisfied with business government.

New Mexico certainly could not have had a prettier election day.

It was like taking candy from children.

Back to his beat for the toy marshal.

New Mexico, instead of the bones, has been vindicated.

Sort of a cross between an earthquake and a hurricane.

The vote for the Hon. Stroup was short and snappy.

Irrigation by Pumping

By Peter Cameron

It is truly said that "the great southwest is the home of irrigation and in it leads the world." Evidence is conclusive that the prehistoric dwellers in the Anasazi Cliff houses practiced this means of adding the necessary moisture to what was then, as now, a soil rich in all the properties necessary for the production of the greatest crops that any soil can produce. The entire soil, deficient in rainfall and natural moisture, is forced as its only means of salvation, to adopt some means of artificial irrigation.

Back in the remotest records of what may be termed modern New Mexico, as noted by history and tradition, irrigation has been found to exist but until very recently the practice of the ancients, that of submerging the land by a gravity flow of water from the various rivers and streams, has long been known and followed. Where it has been found impossible to bring water to the land by gravity, it has simply been allowed to remain uncultivated and unoccupied excepting in so far as it has been useful for the raising of sheep and cattle. Dry farming has been tried with but poor success, excepting in year when the rainfall has been heavy, and then the results are not more than about one-quarter of what can be obtained by irrigation.

Modern engineering methods have made possible the entire changing of this order of things and the people of the state are fast taking advantage of the facilities that are placed in their hands for transforming this into the greatest agricultural and great producing state in the union, by pumping the necessary water bearing strata that underlie the surface of the ground at varying depths. The problem is simple, the numerous mountains act as water sheds for the heavy rains occurring therein, the proper soil holds it at a certain depth from the surface of the ground, and science furnishes the necessary means of again restoring it to the surface at the place in which it is required and at a cost which is trifling compared to the results accomplished.

The homemaker, the prospective investor, and the man from Missouri, will naturally ask to be shown the cost of accomplishing all this and the evidence that irrigation by pumping is a feasible, practical and paying proposition and that it can favorably compare with the gravity method.

The pumping of water requires power, the most commonly used sources of power for this purpose are man-power, horse-power, wind-mills, electric motors, steam engines and explosion engines, operated by petroleum products, man, horse and wind power have been eliminated at once from the discussion of power for irrigation as being inadequate, electric power, is only available in close proximity to city electric plants, or other generating sources, steam engines would make a very reliable flexible and handy source of power, but the cost of installation and operation are large and they would require constant attention, these objections have withheld the attention of the engineer from pumping for irrigation during the many years that the steam engine has held undisputed possession of the power field, but during the past few years the advancement that has been made in the explosion engine, which has been mostly brought about by its adoption to the automobile, has shown that type of power generator to be the logical and practical solution of the irrigation pumping problem and with that type of plant we will deal and base all calculations on.

A plant to pump half this amount of water from an equal depth will cost half the amount to operate and practically half as much to install, while doubling the amount or depth will practically double the cost.

A comparison of the cost of pumping the necessary amount of water for raising a crop as shown above with the revenue derived from the enormous crops produced by this fertile soil, amounting per acre, as shown by statistics of the Mimbres Valley, and other parts of the state, to 5 to 7 tons of alfalfa, 2,500 pounds of onions, 1,000 to 1,300 pounds of beans, 200 to 200 bushels of sweet potatoes and other crops and fruits in proportion, will be beyond dispute that irrigation by pumping in New Mexico, is one of the best investments that is in the market today, besides opening up to the prospective settler the means of obtaining a comfortable and well paying home.

The lands that are irrigated by gravity at present are of necessity in the low valleys in close proximity to the rivers, the water naturally is close to the top of the ground, making pumping cheap, and a comparison of the cost of pumping with the cost of obtaining water from the irrigation ditches, will show that not only can the water be pumped as cheaply but irrigating may be done at any time that conditions require it, thus, in many cases saving a crop that otherwise would be destroyed and several times the cost of the pumping plant lost in one season.

A Plea For Playgrounds

Editor Morning Journal:
That Albuquerque needs playgrounds seems evident. Other cities provide these breathing places for their youth for exercise, amusement and to keep them out of the streets and out of neighbors' yards. That whose duty it is to establish and maintain these places may be stimulated to activity, attention is called by the following extracts to what Chicago and Denver are doing along this line of civic activity.

Chicago's Busy Playgrounds.

The proportions of playground work in the big cities are vividly suggested by the figures given in the current report of the south park commissioners of Chicago. During the year they conducted two golf courses, 138 tennis courts, thirty-two baseball diamonds, twenty-five football fields, eleven swimming pools, one lake bathing beach, sixteen wading pools, twenty indoor gymnasia, twenty-two outdoor gymnasia and athletic fields, twelve children's playgrounds and thirteen sand courts. For winter sports there were nineteen skating rinks covering eighty-six acres, and one ice-speeding course.

Denver's Greatest Playground Record for Season of 1911.

Over 100,000 children enjoyed the games and other amusements afforded at the seven supervised playgrounds of the city during the summer vacation months. To be exact the total attendance, at these grounds was 100,971 according to the report of the playground commission submitted to the mayor this week. The total attendance of the different play resorts for June, July and August was as follows:

Berkley	13,571
North Side	8,464
Lincoln	21,020
Globeville	22,175
Neighborhood House	16,825
Montclair	5,315
Total	100,971

The total by months was:
June 18,333
July 39,822
August 42,816

At these playgrounds instructors were on duty and play was supervised for seven days a week throughout the summer. For the fall and winter months the grounds will be supervised only on Saturdays and Sundays.

The school playgrounds, however, will be looked after by the play supervisors and instructors for two hours a day, from three to five o'clock, on five days a week. There will be three general instructors and thirty-five teachers employed in this duty, the teachers to be paid at the rate of \$10 a month extra for their services. The games at the supervised grounds now on will be basketball, indoor baseball and captainball for boys and girls, volleyball for girls, soccer football for boys and battle-axe, dogball, archball and tunnelball for the smaller children.

FRIEND OF THE CHILDREN.

The Brown Bottle

Protects Schlitz Purity from the Brewery to Your Glass

Schlitz in brown bottles costs you no more than common beer in light bottles.

Light starts decay even in pure beer. Dark glass gives protection against light.

All Schlitz is aged for months in glass enameled tanks, so that it cannot cause biliousness. It will not ferment in your stomach.

If you knew what we know about beer, you would say, "Schlitz—Schlitz in Brown Bottles."

Cor. 1st St. and Copper Ave., Albuquerque

Injured gentleman was standing on the ground and the horse in making a desperate lunge after being reined, jerked him to the ground with great force. Mr. Cox alighting on top of his horse, the man was rendered unconscious and it was at first thought the neck was broken and one of the men was sent for a physician. Doctors Mayes and Thomas made a hurried trip to the scene in their automobiles and brought the injured man to the city and he was taken to the Allen hotel and at this time is improving nicely.

FORD AUTOMOBILE AGAIN SMASHING THE RECORD

(Special Correspondence to Morning Journal)
Detroit, Nov. 2.—Following its announcement of 75,000 Ford Model "T" cars for 1912, the Ford Motor company has started breaking records for automobile production. Close to 4,000 Ford cars were made and sold in October. That is the largest business ever known for October in the annals of the motor car industry.

It is practically certain that every succeeding month will show an enormous increase in Ford production over the corresponding month a year ago. There are two reasons for that. One is the big reduction in the price of Ford Model "T" cars, and the other is the unusually healthy state of the motor car business in general.

It is even anticipated that the Ford record of making and selling 4,000 Model "T" cars last May will be beaten before the winter is over, which many regard as the dull season, on account of the tremendous foreign trade which the Ford Motor company enjoys and the wide distribution of Ford cars in the south, the winter months are far from dull at the Ford plant, though they are not as brisk as in the spring.

Battery upon battery of new machines have been installed in the Ford factory for the increased production. Automatic gear cutters of the very latest pattern have been added in large numbers, while special machinery, suggested or designed by Henry Ford, is being put in steadily.

Backache, Headache, Nervousness and rheumatism, both in men and women, mean kidney trouble. Do not allow it to progress beyond the reach of medicine but stop it promptly with Foly Kidney Pills. They regulate the action of the urinary organs. Tonic in action, quick in results.

'MUD HEN' REACHES PHOENIX IS READY FOR BIG FAIR

Special Agent of National Office of Public Roads Has Strenuous Experiences in Arizona Mud.

[Special Correspondence to Morning Journal, Prescott, Ariz., Nov. 6.—After three days' struggle against the elements and one day of fierce battle against flooded arroyos between here and Phoenix, the Ohio "Mud-hen" waded into bright sunshine at Prescott yesterday afternoon bearing Mr. and Mrs. Thomas D. Wilby and Fred D. Clark, driver, fifty-nine days out from New York City, via San Francisco and San Diego.

Mr. Wilby is special agent of the office of public roads, Washington, D. C., and is now "logging" a route from the California coast to New York City, having just completed a "log" from Gotham to San Francisco by the middle west route.

He is furnishing reports and photographs to Washington, showing not only the condition of roads, but communicating to headquarters the status of good road movements in each state.

A further object of the tour is to assist in bringing about the early construction of a transcontinental highway from Los Angeles to Kansas City, via Yuma, Phoenix, Prescott, Flagstaff, Holbrook, Adamsville, thence over the Arizona border to Gallup, Albuquerque and Santa Fe, New Mexico; thence over the Raton Pass, following the old Santa Fe trail through to Kansas City.

"I started on this trip," said Mr. Wilby, "with the idea of laying out and logging a route for the ideal tour of America. If automobilists only knew how to see their own country, we should hear less of the reproachful slogan, 'See America First'."

"My wife has accompanied me because we felt that I could not do the journey which should take in everything of sight-seeing value and interest to both sexes and be undertaken with the least amount of discomfort and fatigue."

We traveled as ordinary train tourists, without special equipment or driver. So far, we have felt no need for carrying outfit or for sacrificing the daily comforts of the ordinary citizen. We have demonstrated that ladies and gentlemen can see the sights of their native land, particularly the wonder spots of Arizona's plateau region to the north, without extraordinary camp equipment.

"Governor Sloan and Territorial Engineer Girard were good enough to discuss with me our plans and I was gratified to learn from these gentlemen, after they had carefully inquired as to the feasibility of the various routes out of California into Arizona, that the road selected by us through Arizona was the one which would be the most beneficial to the state."

Mr. Girard is looking after the party by clearing the road north of Prescott to Flagstaff, via Cherry and Camp Verde. The Wilbys were the guests of the Arizona Good Roads Association, and Mrs. Norris, during their stay in this city. With A. L. Westgard, Mr. Wilby founded the now famous Touring Club of America, in New York in 1909. He has traveled the auto road in Great Britain and on the continent of Europe, where for many years he lived and worked as correspondent of the New York World and the London Leader.

The party will leave the Chamber of Commerce offices at 10 o'clock this morning. They express great hopes for the future of Prescott and say they are especially pleased with the enthusiasm shown for good roads by Mr. Norris, whom they have yet to see as a more active booster.

A Mail Carrier's Load
Seems heavier when he has a weak back and kidney trouble. Fred Duerksen, mail carrier at Afton, Kan., says: "I have been bothered with kidney and bladder trouble and had a severe pain across my back. Whenever I carried a heavy load of mail, my kidney trouble increased. Some time ago, I started taking Foley Kidney Pills and since taking them I have been entirely free of all my kidney trouble and am as sound now as ever." J. H. O'Brien.

PHOENIX IS READY FOR BIG FAIR

Arizona Capital Prepared for Biggest Festival and Carnival Week in History of the Territory.

Phoenix, Ariz., Nov. 6.—Phoenix was brilliantly illuminated last night, the closing of the last week before the seventh annual territorial fair that will be the greatest all-Arizona celebration in date. The decorating committee has done its work well as the wealth of banners and myriads of electric lights testified last night. The streets are yet in an undesirable condition, owing to the paving work in progress, but are in much better shape than a few days ago and by tomorrow morning will be still more presentable. The visitors will have to take the apologies of the city which has done the best it could under the circumstances and with the home people exult in the improvement to date.

The street car system was yesterday placed in a state of temporary repair for fair week and the double track reopened for service. Manager Mitchell says he thinks there will be no difficulty in handling the crowds as he will do all he possibly can. The Southern Pacific will run a mid-day train from the north side and the Santa Fe will run a train to connect with it about 1 p. m. every afternoon to take the south riders and others to the fair grounds, with trains in the evening to bring back the tired throngs, or at least to relieve the pressure on the street car service.

There will also be a multitude of automobiles, hacks and other conveyances plying to and fro. It is understood the request is made that all automobilists in going to the grounds take the Seventh avenue road north from Fifth Points, instead of Central avenue which was used last year, as the Seventh avenue road is in good condition and will not complicate matters at it would by using Central avenue, already quite lively with its normal traffic.

The city is rapidly filling up with visitors from all over the territory. All trains being heavily loaded. The Santa Fe brought in a big contingent of passengers from the north last night. A cavalry squadron of the Sixth cavalry arrived overland from Fort Huachuca yesterday afternoon and is camped on the fair grounds. The regimental band of 55 pieces will arrive on this morning's train, and will furnish music during the week. A half dozen of the mid-way shows, including the captive balloon and De Vonda, the lady balloonist, are already here and the rest of them will arrive this morning.

The exhibition buildings at the fair ground are veritable hives of industry. The department superintendents and tired and busy assistants by the score are engaged in placing the exhibits in the women's, the educational, the women's, dairy and other departments, while the livestock pens and stalls, with the exception of the swine department, are now well filled. Many local stock exhibits will not be brought in until today or tomorrow.

The racing department is of course one of the largest and most interesting. Scores of the world's best horses are in the stables or working out on the track, which is in the pink of condition. Next week will doubtless bring the most notable horse races that Arizona lovers of the sport have ever seen. It will not be confined to harness races either for the run-down will be a feature this year as there are over a hundred of them on the grounds.

Fido and the chickens will be represented in the poultry and pet stock department by many entries of fine stock. The fair is too close at hand to make a repetition of minor details interesting. It is only necessary to say it will be bigger and better than ever before, and the world will know what to expect.

The first big event of the week will be the finish of the Los Angeles-Phoenix automobile race which will occur sometime Monday. Nobody can tell whether it will be forenoon or afternoon, until the big cars that are now plunging across the desert, draw nearer to their goal.

SOCORRO MAN FALLS OVER STEEP CLIFF IN WATER RECOVERING RAPIDLY

John Dobbin met a remarkable and dangerous accident on the mountain last Sunday while on the mountain side with a young man named Hughes, says the Socorro Chronicle. Mr. Dobbin walked to the edge of a cliff, called to his companion to come and see something that had attracted his attention, and immediately toppled and fell over the brink. Young Hughes had to go a considerable distance round to reach the victim of the accident. When he reached the foot of the cliff he found Mr. Dobbin lying unconscious with his face in a pool of water, where he must have drowned in a very few minutes. He was soon revived sufficiently to walk with young Hughes' help to his cabin. He remained there until the next day, when he was brought down to Socorro by Dr. Henry Rolf Brown

FOR SALE.

\$2100.00—Six room modern cottage, east front, Highlands, close in, easy terms.

\$2500.00—Five room modern cottage, Highlands near Central. Splendid condition, all newly painted and papered inside; fireplace, two screened porches. Terms.

JOHN N. MOORE, REALTY CO., FIRE INSURANCE, REAL ESTATE, LOANS AND ABSTRACTS, 214 West Gold Ave. Phone 10.

LEGAL NOTICE

Department of the Interior, U. S. Land Office at Santa Fe, N. M. October 6, 1911.

Notice is hereby given that George W. Hickox, of Albuquerque, N. M., who, on Feb. 13, 1903, made homestead, No. 68790, for SW 1-4, section 34, township 13 N., range 3 E., N. M. P. Meridian, has filed notice of intention to make final commutation proof, to establish claim to the land above described, before A. E. Walker, probate clerk, at Albuquerque, N. M., on the 17 day of Nov., 1911.

Claimant names as witnesses: Mr. Edwin Netherwood, Mrs. Ada M. Netherwood, Jacob Seefelt, Mrs. L. E. Werner, all of Albuquerque, N. M. MANUEL R. OTERO, Register, Oct 12 Nov. 12

FOR SALE—Livestock, Poultry

FOR SALE—A gentle little horse, ride or drive. H. W. Journal office.

GOOD HORSES and mules for rent or sale. Simon Garcia, 1202 N. Arroyo.

FOR SALE—Team of heavy draught horses, with wagons and harness complete. Albuquerque Foundry and Machine Works.

FOR SALE—Two horses broke to work, weight about 1,000 pounds. Inquire 116 W. Gold Ave.

FOR SALE—One car of young mules 3 to 6 years old. Write to Victor Sals, Victor, N. M.

FOR SALE—1000 one and two year old Shropshire rams, all A No. 1 stock. C. E. Hartley, Springer, N. M.

and A. M. Skinner and placed in the hospital. Mr. Dobbin says he has absolutely no recollection of his fall nor of walking to his cabin. The only recollection he has is that he had been suggested that Mr. Dobbin had an attack of vertigo just as he was looking over the cliff. He is now recovering from the effects of his injuries, which were severe enough to disable a less powerful and rugged man much longer.

5,000,000 POUNDS OF WOOL CHANGES HANDS ON BOSTON MARKET

Bradstreet's Review says of the Boston wool market: Transactions during the past week amounted to a little over 5,000,000 pounds making a total of 10,000,000 or 12,000,000 pounds in the past fortnight. This activity is fairly satisfactory, since practically all of the wool sold last week, have been buyers, some of them taking large blocks of wool. Prices are much stronger, though not quotably higher, except in a few instances where the quality has been above the average. Still, bids are being refused daily which would have been quickly accepted two weeks ago. The movement is attributed to the better business being done in the goods market, particularly in respect to the volume of duplicate orders for light-weight men's wear goods, buying indicating the necessity for filling immediate requirements rather than a general stocking up. The sales of fleeces have been heavy of late, with medium grades most active. Half and quarter blood fleeces are said to be in comparatively small supply. Sales of territories are not as large but the movement in these wools is steady and prices are firmly maintained in all quarters. Though the bulk of the foreign wools in Boston is said to be held in bond on manufacturers' accounts, a little more activity is noted in the wools in the open market, with a moderate inquiry for New Zealand cross breeds, of which there are believed to be but two more available lots.

MRS. T. P. GABLE DIES AT SANTA FE

[Special Correspondence to Morning Journal] Santa Fe, N. M., Nov. 7.—Death Sunday night called for her final reward, Mrs. T. P. Gable, wife of Game and Fish Warden Gable and one of the best known and most sincerely loved women of the capital. Mrs. Gable had been sick for some months past, but not until recently was her condition regarded as serious. Mrs. Gable was one of the leaders in society, a member of the Woman's Board of Trade, and other organizations having for their purpose the civic improvement of the city. In her home life, she especially endeavored herself to her family and her intimate friends. No task that had for its purpose the helping of some sick or poor person, was too difficult or too onerous for Mrs. Gable. She was known to everyone in Santa Fe and her death is mourned in the community as a public loss. Surviving her, besides Mr. Gable, is a daughter, Mrs. A. J. Fischer, wife of a prominent Santa Fe druggist.

"YOUR MONEY BACK IF YOU WANT IT."

to the city last night, after attending to his duties as a citizen in that enterprising community.

Mrs. Dan Bibo of Bibo, N. M., is spending a few days in Albuquerque on a shopping expedition.

There will be a meeting of the Women's Relief Corps this afternoon at 2:30, by order of the president, Mrs. J. D. Chamberlin, secretary.

Mrs. James L. Seligman of Santa Fe, wife of a well known merchant, is the guest of Mrs. Amado Chavez, at 501 North Eleventh street.

The Royal Neighbors will meet Thursday afternoon in the Odd Fellows' hall to transact important business. A full attendance is desired.

The Ladies' Aid society of the First Methodist church will give a tea on Thursday afternoon at 3.30 at the home of Mrs. John W. Wilson, 292 South High street.

B. Spears of 1411 North Fifth street, left last evening for Santa Fe to attend the funeral of the late Mrs. Thomas P. Gable, which will be held in that city today. Mr. Spears is a nephew of Mr. Gable.

Mr. and Mrs. George S. Groat of Los Angeles, are visiting Mr. and Mrs. Dahl Holcomb, 423 South Walter street. The Groat's were residents of this city for several years. Mr. Groat is a brother of Mrs. J. E. Bowyer.

Rev. Jesse J. Runyan, pastor of the First Baptist church, accompanied by Mrs. Runyan, left last night for Roswell to attend the Baptist state convention which meets in the Pecos valley city from the 5th to the 12th of this month.

J. E. Greenwalt of Denver, Colo., publicity manager for the Mountain States Telephone and Telegraph company, was in the city yesterday overseeing the splendid service given the public yesterday in connection with the election returns.

**J. LORENZO HUBBELL TO
MANAGE REPUBLICAN
CAMPAIGN IN ARIZONA**

Phoenix, Ariz., Nov. 7.—J. Lorenzo Hubbell, who it is expected will be the unanimous choice of the republican state central committee for chairman of that body and will manage the first republican campaign, has been invited to make the opening speech in Spanish at the big republican rally with which the republican campaign in Tucson and Pima county will be opened on November 11. Mr. Hubbell reached Phoenix today and tomorrow H. S. Corbett, secretary of the county central committee, will leave for the capital city to extend an invitation to Mr. Hubbell in the name of Chairman Hitch. The republican rally here will be preceded by a parade and a moving picture show at the Tucson opera house. The three speakers besides Mr. Hubbell will be Ralph Cameron, delegate in congress, and Hoyal A. Smith, the republican nominee for United States senator, and John S. Williams, the nominee for congress.

It looks today as if Hoyal A. Smith had won his fight for the insertion in the republican platform of his plan for a people's presidential primary modeled on that in Oregon and which the voters of Wisconsin, Nebraska, Iowa and other progressive states will adopt this spring. There was considerable opposition to this plan on the part of conservative republicans, but Hoyal Smith made it clear that if the plank were put into the party platform it would add it to his own platform. Progressive sentiment through Arizona appears to have rallied to its support.

In his speech in Tucson, Hoyal Smith, it is said, will outline in detail the proposed people's presidential primary and his reasons for urging its adoption in Arizona.

The Albuquerque Carriage company is now giving National Trading Stamps with all purchases and repairs.

Wear's Reasoning.
"Dat's a mighty short stup yer smokin' Wear."

**Rosenwald's****NATIONAL FOREST BIG CROWDS HEAR
MEN CONVENE MORNING JOURNAL
BULLETINS**

El Paso Meeting Place of Supervisors and Assistants of Third District; A. C. Ringland to Preside.

A convention of the forest service men of the Third district, of which Albuquerque is the headquarters, will be held in El Paso, in the federal building, beginning tomorrow morning.

District Forester A. C. Ringland of this city, who will preside, accompanied by his secretary, and Assistant Forester R. Rogers, left last night for El Paso.

Between thirty and forty supervisors and assistant supervisors from the National forests in New Mexico, Arizona, Florida, Arkansas and Oklahoma will attend. It is also expected that several of the high officers of the forestry bureau from Washington will be present and deliver addresses.

Among the representatives of the forestry service at Washington who will likely attend will be E. H. Clapp, former associate district forester of this city.

**"INSIDE INN" K. C.
PRODUCTION
TONIGHT**

Joe Bren's Great Musical Comedy to Give Initial Performance at Elks' Theater Tonight. Elks' Theater Tonight.

Tonight is the night. The "Inside Inn" to be presented in Elks' theater under the auspices of the Knights of Columbus will happen with bells.

The final dress rehearsal went through without a hitch last night and the theater-goers are going to have a real treat in the production tonight and tomorrow night. Of the several first shows put on in this city this is to be the best. With an all-star number, specialties and special scenery, it is to be as good as the best road shows.

WANTED.

Experienced Saleswoman (no other need apply.) Apply The Economist.

**15 CAR TRAIN OF
OF ORE WRECKED**

Rolling Stock and Track Badly Demoralized by Derailment On Steep Grade Near Fierro.

[Special Correspondence to Morning Journal]
Fierro, N. M., Nov. 7.—A big ore train, which is to leave here at 7:25 P. M. and going down a steep grade was wrecked by the driving wheels of the engine leaving the rails. The heavily loaded cars followed pushed the derailed engine several hundred feet over the ties, and doubled up two of the big steel ore cars as if they were made of pasteboard. These cars tore up the track and bent the rails as if they were wire. It took all day to clear away the wreckage. No one was injured.**FINE WEATHER AND
INTEREST MAKES
HEAVY VOTE**

Long Lines at Polls at Opening Time and Jam Continues Around Booths All Day.

With an absolutely perfect day and the most intense interest on the part of the citizens, it is believed that practically every voter in the city of Albuquerque went to the polls yesterday and cast his vote. At 9 o'clock in the morning when the polls opened there was a long line of men waiting at every voting place that the streets were blocked. There were many workers in evidence on both sides all day but apparently nearly all the voters had made up their minds pretty well in advance and it is believed comparatively few converts were made at the polls.

With nearly 2,500 votes cast, apparently the entire voting strength turned out in every city precinct and turned out early. The division of two city precincts, with four polling booths greatly simplified the voting and without this arrangement it is morally certain that all of the vote could not have been handled. There was not a particle of disorder in either precinct; the citizens were there for strictly business and knew what they wanted to do. Early in the day it became apparent that everything was going for Mandell, candidate on the democratic ticket for county treasurer was about fifth in the line, and after voting he announced with some pride to the assemblage that he "had killed Andrews vote, anyhow."

While the blue ballot delayed the voting, nevertheless the election officials handled that part of the business as promptly as possible and the voting was steady and fairly expeditious all day.

**WESTGARD PARTY IN
TROUBLE AT THE
RIO PUERCO**

Transcontinental Tourists Had Not Reached Laguna at Eight o'clock P. M. After Nine Hours Out.

The Raymond-Whitcomb automobile transcontinental excursion party left here at nine o'clock yesterday morning in command of Pathfinder A. L. Westgard, bound for the first camp out at Laguna. At eight o'clock last night Laguna reported that the tourists had not arrived and it is presumed that they are having serious trouble at the crossing of the Rio Puerco. A man was sent ahead on a light Santa Fe engine, who arrived at Laguna, and the party took with them a supply of heavy planks to assist in the passage of the treacherous Puerco. In addition to the four cars in the Westgard caravan the Winton Six party also fell in line and will accompany the tourists west.
