PLENTY TALK NO ACTION

Senate Leaders Again Fail in Plan to Name Statehood Conferees.

MORGAN DEFEATS IT

Bailey Changes Over to Jointure and Teller Now Favors One State for Oklahoma and Indian Territory.

Washington, Feb. 24.—Efforts to harmonize the differences over the statehood bill continued fruitlessly in the Senate today. There seemed to be a disposition on the part of the friends of two states to accept a compromise permitting Oklahoma and Indian Territory to come in and compel the other territories to wait. When it was proposed today it was insisted that the House would not agree. The disposition of the Senate to debate the adoption of a report to form two states of the four territories will, it is feared, prove fatal to the adoption of any statehood bill at this session.

Red Hot Cross Fire.

Washington, Feb. 24.—Shortly before noon today Senator Beveridge was recognized in the Senate to renew his motion for the appointment of conferees on the joint statehood bill. There was at the time no objection to the motion, but Senator Teller said he would desire fifteen minutes to state some facts which had recently come to his attention regarding conditions in Indian Territory. Senator Bailey asked that time for the convening of the Senate be postponed five minutes.

"I object," said Senator Daniel sharply. "Then," responded Senator Bailey in like manner, "I shall vote for the bill as it passed the House. I have opposed the annexation of Arizona to New Mexico, but I will no longer allow any vote of mine to stand in the way of justice to 1,500,000 people in the interest of 300,000 elsewhere."

Sensor Teller then proceeded. He announced he would interpose no opposition to a conference, but that he should feel at liberty later to object to an action contrary to the wishes of the Senate. He added that most of his time for the past few weeks had been largely given to service on the committee on Indian affairs and that information gained there had been of such character as to convince him that the best course to pursue in the interest of the people in that territory is to annex it to Oklahoma and admit the two territories as one state. This, he thought, should, under circumstances, be done as speedily as possible.

Teller considered three minutes before time for the Senate to convene. The chair announced it was his original intention to appoint Messrs. Beveridge, Dillingham and Bate as conferees on the part of the Senate and was proceeding to say that on account of Dillingham's absence he would substitute Nelson's name when Morgan asked if a motion to appoint conferees had been put. The chair said no, and was putting it when the hands of the clock pointed sharply at the noon figures.

"I desire to be heard on that motion," said the Alabama Senator. This meant the motion must go over and caused manifest disappointment to the friends of the bill. The hearing of the Swaine impeachment case was then resumed.

Will Work Overtime.

Washington, Feb. 24.—The Senate committee on Interstate Commerce today agreed to report a resolution asking that the committee be authorized by the Senate to sit during the recess of Congress and take testimony for the purpose of preparing some measure for the regulation of railroad rates. The resolution provides that the full committee or a quorum of the committee shall meet immediately after the adjournment of the present session of Congress or thereafter at the convenience of the committee and report to the next session.

House at Work.

Washington, Feb. 24.—After passing a number of bills, the House sent the Panama Canal bill as amended to conference and began the consideration of the sundry civil appropriation bill.

MIGHTY CAREFUL ABOUT A JURY

Chicago, Feb. 24.—The special grand jury by Federal Judge Kohlsaat to investigate the meat trust was drawn today. The law requires that the names of the members of the jury be spread on the records. This will not be done, however, until a few days before March 20, when the grand jury will meet, as it is desired to keep the names secret as long as possible. It is said that the government wishes to examine the record of each man.

CASSIE IS RATHER COY

Cleveland, Ohio, Feb. 24.—Mrs. Cassie Chadwick when placed on the stand in the bankruptcy proceedings in her case today before Referee Remington, refused at first to be sworn. After a consultation with her attorneys, she finally consented to take the oath. She was then asked her name. She refused to reply to this or any other questions that followed.

LEGISLATIVE POINTERS

Councilman Martin's bill introduced yesterday authorizing territorial institutions to use funds derived from the leasing of public lands granted them by Congress for permanent improvements is a measure containing very wholesome provisions if the bill passes. This is a time for construction of permanent improvements at these institutions and the boards of regents of several of them have asked for authority to use the cash now in their funds for such purposes. Under congressional enactment this can be done if authorized by the Legislative Assembly. Mr. Martin's bill is intended to give such authority and its provisions will be speedily taken advantage of by the institutions in question.

Judge Granville Pendleton, the energetic representative from San Juan County, has been telling members of the Assembly of the fine quality of the "apple jack" and peach brandy made in San Juan County. He told them it was the best and the purest made in the country and as delicious and as sweet as the glances of the prettiest woman imaginable. The members, knowing his usual energy, would like him to display some of it by getting a jug or two of the celebrated "apple jack" and the magnificent peach brandy that they might sample it and judge for themselves. They do not doubt that Judge Pendleton is absolutely correct in his statements and that he has not overdrawn them, but having minds and palates of their own, they would like to try these beverages and satisfy themselves. It is said that Judge Pendleton has been quite successful in getting members of the Assembly to act favorably upon measures he has introduced by visions of fine, round, fat pot-bellied demijohns filled with the fluids which he says are better than the nectar and ambrosia of the Ancients. If these demijohns do not materialize soon, the judge may not have as easy a time in passing measures as he has enjoyed during the past six weeks.

KILLED OVER KIDNEY STEW

New York, Feb. 24.—William McGee, an ex-soldier and a former resident of Texas, who claims to be the only member of Custer's force to escape the massacre of that command on the Little Big Horn, has been placed on trial here on a charge of killing Frank Mitchell last December. McGee boarded with Mitchell and the men quarreled over the proper way of conducting kidney stew. Mitchell was stabbed with a kitchen knife and McGee surrendered to the police upon learning of his death.

SOMETHING ON SOUTH OF HAU

Mukden, Feb. 24.—A Russian raiding party under the command of Colonel Slensmidt completely destroyed with explosives the bridges south of Hau. The dam south of Haicheng, about ten miles east of New Chang, was destroyed on February 21, blowing up seventy feet of it. Justified Russians.

St. Petersburg, Feb. 24.—The decision of the North Sea commission has not yet been officially made public here, although it is understood it has already been communicated to the foreign office and admiralty. The prevailing impression from foreign dispatches is that the decision justifies the Russians firing on the trawlers. Another version comes from Paris, from private sources, to the effect that the commission found firing not justified and fixed the responsibility on Admiral Rojestvensky.

COMMITTEE YET INVESTIGATING.

The committee that is in the south-west to look over the sites offered for the Fraternal Sanitarium was at El Paso on Wednesday, having missed its connection over the Texas & Pacific for Carlsbad. It spent the day in the Pass City where it was entertained and shown several sites available for its purpose. Carlsbad, Artesia and Roswell will be visited, after which the committee will return to El Paso and from there go to Alamogordo, Santa Rosa and Tucuman, returning home to St. Louis via Dalhart.

GIGANTIC ENTERPRISE

Twelve Mile Tunnel Connecting Two Nations Completed After Seven Years' Labor.

THE PIERCING SIMPSON

Burrows Through the Alps Between Switzerland and Italy and Cost Those Two Governments \$15,000,000.

Gondo, Feb. 24.—The Piercing Simpson tunnel, through the Alps, was completed at 7:20 this morning. The work was commenced in 1898. The meeting of the two boring parties (Swiss and Italian) was signalled throughout Switzerland by the ringing of bells and salutes by cannon. Many unexpected obstacles were encountered in the progress of the work, the most serious being the hot springs which threatened to wreck the whole enterprise and the temperature of which at one time rose to 131 degrees Fahrenheit.

The Piercing Simpson tunnel is regarded as being one of the greatest achievements of the age. The length of the tunnel is about twelve miles. The Swiss and Italian governments jointly financed the undertaking, share and share alike at a cost of \$15,000,000.

SUPREME COURT AGAIN AT WORK

The Territorial Supreme Court met this morning at the Capitol in adjourned session. There were present: Chief Justice W. J. Mills, of Las Vegas; Associate Justice John R. T. S. Wright of Clayton, was admitted to the bar. He signed the roll and was administered the oath.

The court took a recess of an hour during the afternoon to hear the Chaves memorial addresses of the Council.

TULAROSA MAN'S TERRIBLE DEED

El Paso, Texas, Feb. 24.—In a jealous rage Julian Valles shot and killed his wife at Tularosa, New Mexico, and then blew out his own brains. He leaves a baby two months old.

NEW FOREST RESERVES

Assistant of the Bureau of Forestry Here Gathering Data to That End.

NURSERIES PREPARED

By This Plan the Reforestation of Denuded and Burnt Mountain Slopes Will Ultimately Be Accomplished.

New forest reserves may be created in New Mexico and Arizona in the near future. In the past two years much work has been done along this line and the plan is to be further prosecuted. In order that fresh and adequate data may be procured to that end Clyde Leavitt, assistant of the Bureau of Forestry of the United States Department of Agriculture, is in Santa Fe at this time. He arrived in this city from Denver, Monday, registered at the Claire and proceeded at once to the absorption of facts in the land office, preliminary to taking up the examination of lands for such new reserves as may, in the wisdom of the department, be created. As fast as funds are available to project the plan new reserves will be established in all western regions where the protection of forests is most important for the conservation and regulation of stream flow.

The vital dependence of irrigation upon forestry is now fully recognized and both miners and stockmen are awakening to a realization of the benefits to be ultimately derived from a conservative management of forests and from the judicious regulation of the range industry. The recent action of Congress in transferring the administration of federal forest reserves to the Bureau of Forestry guarantees a business administration, the main object of which will be the greatest good to the greatest number on a basis that will endure.

Plan of Nurseries.

During the summer past Mr. Leavitt was in charge of the establishment of forest nurseries in the Pike's Peak reserve in Colorado. This work has been inaugurated by the Bureau of Forestry for the purpose of reforesting the denuded and burned slopes in the reserve with tree species native to that region. Three nurseries have been prepared in the reserve and a considerable amount of tree seeds has been collected and sown in them. The young tree resulting will be cared for in the nurseries for two or three years, according to specie, and then transplanted upon the slopes where protection for the water shed is most needed. Seeds will be sown during each successive season and a permanent succession of trees for reforestation will thus be provided for.

Activity is General.

Work similar to this is being carried on in California in the San Gabriel forest reserve and on the Dismal River forest reserve in Nebraska and will be extended into other states as rapidly as circumstances will permit. Ultimately it is hoped in this manner to make a partial restitution for the immense damage done by forest fires in New Mexico and that the value of the mountain streams for irrigation may be thus preserved and extended.

MEN WILL RACE FOR BIG PURSE

An agreement has been entered into between J. E. Lacombe of this city and F. W. Knight of Alamosa, Colorado, for the pulling off of a foot race at Alamosa on March 15th. Maximino Lucero, of Mora, is being backed by Mr. Lacombe, and will run against E. L. Powers, who is backed by Mr. Knight. The distance will be 100 yards for a stake of \$3,000. The backers of the foot racers have deposited the sum of \$1,500 each in banks in their respective towns and an exciting time is anticipated. The race has aroused much interest and a number of sports in the Territory and in this city will attend. Lucero is now in Santa Fe and will commence training at once for the event.

TWELVE HUNDRED CHILDREN ESCAPE BURNING BUILDING.

New York, Feb. 24.—Fire which started in the New York Juvenile Asylum at One Hundred and Seventy-sixth Street and Amsterdam Avenue today spread so rapidly that it was soon beyond the control of the emergency fire brigade of the institution. There were 1,200 children in the building at the time, but fifteen minutes after the fire had started it was believed all had escaped.

AN AWFUL ROW

New York, Feb. 14.—After the riots at Batu 300 corpses were counted in the streets according to a Times dispatch from Paris. The dead are said to have been largely Armenians.

LEGISLATIVE ASSEMBLY

HOUSE.

Afternoon Session—38th Day.
(Continued from Yesterday.)
The House was called to order at 3 o'clock by Speaker Dalles. Every member was in his seat when the roll was called. Reading of the journal was dispensed with.

INTRODUCTION OF BILLS.

House Bill No. 113, by Mr. Wilkerson, An Act relating to the apportioning and valuation of lands and for other purposes. Referred to the committee on judiciary.

House Bill No. 114, by Mr. de Baca, An Act providing for the appointment of boiler inspectors by the Governor. Referred to the committee on territorial affairs.

House Bill No. 115, by Mr. Vigil, An Act providing for the raising of salaries of the probate clerks in different counties. Referred to the committee on finance.

House Bill No. 116, by Mr. Hannigan, An Act providing for the construction of a dam at Elephant Buttes. Referred to the committee on irrigation.

BILLS ON THIRD READING.

The committee on agriculture and manufactures reported Council Bill No. 28, recommending that the substitute be passed. The substitute was ordered to take the regular course and was referred to the committee on agriculture and manufactures. It relates to the use of brands on live stock.

The committee on finance reported House Bill No. 83, by Mr. de Baca, An Act providing for the compensation of county officers and for other purposes, recommending that the bill be not passed. Upon a vote the bill failed to pass.

The committee on judiciary reported House Bill No. 85, by Mr. Williams, An Act regulating the salary of sheriffs in counties of the third class, recommending that it be passed. The bill passed.

BUSINESS ON SPEAKER'S DESK.

Council Substitute for Council Bill No. 41, An Act providing for the apprehension of fugitives from justice. Referred to the committee on finance.

POLICE WANT MORE MONEY

Warsaw Peace Officers Plan to Strike While the Iron is Hot.

CAN'T LIVE ON WAGES

Present Salaries Are So Inadequate That Patrolmen Are Almost Entirely Dependent Upon Outside Graft.

Warsaw, Feb. 24.—Police of this city threaten to strike for higher pay. They constitute an independent force paid by the city and at present receive six dollars per month and uniform. Police subsist chiefly on money obtained from other sources. They will present formal demands for increased pay to the chief of police tomorrow. Military occupy the gas works, employees of which threaten to strike tonight.

A policeman was shot and killed by a student in the disturbance at Vienna railroad station today. The police attempted to disperse the great crowd and arrested the student. The mob tried to rescue him and a policeman drew his sword, whereupon a student shot him and disappeared in the crowd.

Strike at Ironworks.

St. Petersburg, Feb. 24.—Strike has broken out afresh at the Poutloff Iron Works and all the men walked out today. The troops have again been requisitioned to patrol the Poutloff zone.

Captain on Trial.

St. Petersburg, Feb. 24.—Grand Duke Vladimir, commander of the military district of St. Petersburg, has issued an order for trial by court martial of Captain Davidoff, of the Seventeenth Battery, First Regiment of Horse Artillery of Guards, and three other officers and three men of the battery, in connection with firing in the direction of Emperor Nicholas of a charge of case shot at the ceremony of the blessing of Neva.

Another Railroad Strike.

Moscow, Feb. 24.—The employees of the Moscow-Kazan Railroad struck today as they had not received the management's reply to their petition. The men, however, decided not to interfere with the military trains, but other trains will not be allowed to leave. Troops are guarding the railroad station.

DUDLEY PRAISES NATIVE CHILDREN

W. E. Dudley, the efficient principal of the Spanish schools at Alamogordo, was in the city today. Mr. Dudley states that the attendance at the schools is the largest ever seen in the history of the town. The enrollment of Spanish children is over 85 per cent of the scholastic proportion of the town. In no case, Mr. Dudley states, has he had to have recourse to the compulsory education law in order to reach this proportion. He has gone into the homes and shown the people the necessity of the children learning the English language, and in almost every case the parents have signified their willingness to leave their children in the schools. Fifty per cent of the Spanish scholars have not missed a day since school began in September. Children who, six months ago, knew only a few English words and but a part of the alphabet, have already been promoted to the Fourth grade. Children who, at the beginning of school, did not know an English sentence, are today using English in their play. With the present rapid growth of Alamogordo it will be necessary to soon enlarge both the American and the Spanish schools.

Alamogordo is improving rapidly. Last month the pay rolls of the various business concerns were larger than they have been at any time since last June. The citizens are energetic, loyal and progressive, and they are confidently looking forward to the establishment of a smelter in their town. Alamogordo has a population of about 4,500, and owing to its accessibility to the coal fields and to its railroad facilities, it promises to make, not only a good town, but one of the best in the Territory. There are ten churches in the town, representing all denominations. The handsome new Episcopal Church was dedicated on last Sunday with appropriate ceremonies.

Mr. Dudley says that the Blind Asylum is very closely related to the interests of every citizen of Alamogordo and they are all hoping for an appropriation to soon be made which will allow of its completion. The institution will receive the moral and material support of Otero County. Otero County's new officials are proving themselves very efficient and are meriting and receiving the hearty endorsement of the citizens.

THE PROPOSED PUBLIC ROADS LAW.

The provisions of the bill for a new system for the maintenance and repair of highways and public roads in the Territory and for the construction of new ones prepared by Councilman J. Leahy are carefully and well thought out. They make a radical change and in every instance it seems one for the better, when compared with the present inefficient and uncomprehensible statute. Mr. Leahy in his bill provides for the creation of three road overseers' districts and for the appointment of a road overseer in each district by the county commissioners. These officials are to have charge of the road work within the limits of their respective districts and a poll tax as now, is to be levied and work required from all able bodied citizens and from those owning teams. The road overseers are to work under the direction of the county commissioners for such times as may be required by the latter and are to receive a salary not to exceed five dollars per day. The bill contains forty-one sections and in many points seems to be admirable. Probably the greater objection to it will be the maximum salary which will be paid as it would seem dangerous to give county commissioners the power to employ three road overseers at \$5 per day for every day in the year. Otherwise the bill looks good and its enactment would be a vast improvement upon the road law now in force and which is never enforced except for the benefit of the road overseers, who receive \$50 per annum for doing nothing.

AFTER THE POOR LOBBYIST.

The following bill has been introduced in the Missouri legislature but it is dollars to doughnuts that it will not become law, at least not that kind of a law that is made to be enforced: "If any person or persons pay or offer to pay, or receive money or other compensation, directly or indirectly, for the purpose of securing the passage or defeat of any measure by the general assembly, or if any person employ paid agents for the purpose of giving information of any action which may be taken by the general assembly, in order that said information may be used for the purpose of securing the passage or defeat of any measure by the general assembly, he shall upon conviction, be fined not exceeding \$5,000 or be confined in the county jail not exceeding twelve months, or by both such fine and imprisonment."

Of late years the residents on the upper Gila, although comparatively few in number, have felt the need of a public school building. At a meeting held last week it was found that sufficient money for that purpose could not be raised by taxation and therefore a subscription list was opened. At the meeting \$600 were subscribed and in a few days \$1,000 had been secured in addition to the offer from five persons who each promised to donate two acres of land favorably located for a site for the new school building. When one remembers that these people are by no means wealthy, then so much greater the credit to a handful of New Mexico citizens who are willing to dig into their pockets to erect a substantial public school building for their children.

An American concern will build in Cuba, the biggest sugar mill in the world. American capital ought to turn its attention to sugar mill building in New Mexico. The Reclamation Service promises to bring under ditch 750,000 acres of land in New Mexico during the next ten years and 500,000 acres of that, at least, will be the finest sugar beet land in the world. There ought to be a future for beet sugar in this Territory.

Nine new cardinals are to be named by Pope Pius X. in the near future, but none of these will come from the United States or Great Britain. Uncle Sam is a power everywhere else in the world except at the Vatican, but there too his day will come by and by.

A GOOD SUGGESTION AS TO DISTRICT ATTORNEYS.

Councilman J. Leahy is of the opinion that it would be conducive to the good government of the counties and better for the administration of justice were district attorneys given the power to appoint assistant district attorneys in counties of their districts outside of the one in which they reside. He says that under the present statute, district attorneys are required to attend meetings of boards of county commissioners, regular and special and this provision of the law cannot be carried out in districts composed of more than one county, as regular meetings of boards of commissioners fall upon the same days and special meetings in different counties are very often held on the same day. It is certainly a wise provision of the law that district attorneys should be present at the meetings of county boards. This cannot be carried out under present conditions, but were Councilman Leahy's plan adopted, the district attorneys could meet with the county commissioners in his own county and his assistants with those of their counties in his district. No additional costs or fees would be required as the district attorneys, under Councilman Leahy's plan would be required to arrange for the pay and the expenses of their assistants. The idea seems to be a good one and is certainly entitled to careful consideration. Mr. Leahy should prepare a bill embodying his views and present it at once to the Council for action.

THE LIBEL LAW WILL DO GOOD.

The yellow sheets of the Territory are still protesting against and denouncing the provisions of the new libel law. But the law will stand nevertheless and it will be enforced. Public sentiment favors it and the courts will carry out its provisions and heed public sentiment, should cases under it arise. The dirty vituperations, the unjust attacks and false accusations which have been the rule of late in the New Mexico yellow sheets, have brought about the enactment of the law. Its provisions are not as strong as those of the common law, but they will prove strong enough to do good. Right here, it is well to remember that a few years ago, the editor of this paper brought a libel suit against the Las Vegas Optic, then under Democratic control and procured a criminal indictment against the editor who wrote the libelous article concerning him. The editor was compelled to plead guilty and was given a sufficient fine. The civil case was compromised, the paper paying all costs and attorney's fees and a sum of money. The instance did good and improved the moral tone of the territorial press. Another example may have to be made soon again. Should it be necessary, it will be done, never fear, no matter how much financial backing the paper of offending may have. After all corruption funds furnished by rotten corporations cannot always undue the cause of justice.

The Albuquerque board of education has adopted resolutions which give a gentle warning to public school teachers of the Duke City not to attend dances, theaters and card parties. All that remains to be done is to put the teachers on a diet of bread and water and to place them into a uniform of sack cloth and ashes and there will be little danger that the Albuquerque board of education will not get all that is coming to it in return for paying a munificent salary of \$50 a month for nine months in the year to its pedagogues. There is nothing like the simple life for the man or woman who teaches.

That rotten corporation paper, the Albuquerque Journal, is dissatisfied with the provisions of the law which provides for the paying of expenses for maintaining the jail of Bernalillo County. This is up to the representatives from that legislative district and county. They wanted the measure and fought for it strenuously. They evidently do not care a snap what the Albuquerque corporation sheet wants or does not want. The people outside of Bernalillo County and of Albuquerque have very little interest in the measure.

The New Mexican as a "territorial institution" is doing the people great good. This has been the case for over forty years and Providence willing will continue to be so for many a long year, except that "territorial institution" will be changed to "state institution," when the proper time arrives. The people here know when they are well off and are more level headed and sensible than such papers as the Albuquerque Journal controlled absolutely and solely by corporation interests, give them credit for.

Crown Prince Friedrich Wilhelm and his fiancée are having the same lovers' quarrels that often mark the course of courtship among his plebeian subjects. A little love and a lot of youthful foolishness make the whole world akin.

Success devotes a column of nonpareil to discussing the question who was the greater soldier: Napoleon the Great or Cromwell? A more timely subject for debate would be: "Who is the greater financier, John D. Rockefeller or Thomas F. Lawson?"

UP TO DELEGATE RODEY.

Delegate Rodey pathetically telegraphed Tuesday last that, although he had done his best, statehood was probably dead for this session. In that dispatch he also said that Arizona will not allow the bill to come to a vote even with the Foraker amendment. Delegate Rodey is the man who is the most to blame for this state of affairs. If a year ago he had paid attention to the desires and wishes of the people of New Mexico and worked for single statehood and upon the platform on which he was elected by the greatest majority any candidate for delegate ever received, a different state of affairs would now exist and the chances are that the bill granting single statehood to this Territory would have been law but having the thumb of the joint statehood speculators and real estate boomers of Albuquerque and thinking that he had a United States Senatorship from the joint state of Arizona in his pocket, he threw the interests and desires of the people of New Mexico to the winds and went in with the gang which endeavored to rob the people of this Territory of what is justly, equitably and fairly theirs, namely single statehood. He is reaping as he sowed. This would be of but small consequence were it not that New Mexico, also thereby suffers.

The fight between the people and the Standard Oil Company has commenced in earnest. The result is not doubtful, and New Mexico has joined the list, the first step having been the passage of the bill providing for the inspection of coal oil in this Territory. The few corporation papers, as the Albuquerque Journal and the like, have bitterly opposed this measure and are denouncing it now, but the people are on top.

The Texas oil fields are petering out. Spindle Top, near Beaumont, which at one time had wells producing each 10,000 barrels of oil per day does not produce as much altogether at present. The Sour Lake field is about exhausted and the Batson field is nearing that point too. After all, a thousand square miles of fertile farms beat anything else, be it oil, gold, steel mills or sanitarium when it comes to permanent growth and prosperity.

It may be a pointer to New Mexico local option advocates to be told that the Texas local option law has been made inoperative by the Texas state court of criminal appeals which handed down an opinion this week that drummers for liquor houses outside of Texas can solicit for and deliver liquor in unbroken packages into Texas local option precincts. The local option law that will stand the test of time and the courts has not yet been devised.

Arizona is suffering from a spasm of virtue. The legislature will lay the interdiction upon every form of gambling and the mining camps will be dreary wastes of dullness hereafter if the proposed law is enforced. Even Nogales will not be able to muster more than half a dozen murders a year to its credit until this wave of virtue has subsided.

The Albuquerque Citizen says that the Albuquerque Journal is a rotten corporation hiring and the Albuquerque Journal retallies by saying that the Citizen is a graft and boodle sheet. The opinion is growing among the people that these papers are about right in this instance. There is no one to oppose their opinion of each other.

The cold weather and snow have tied up 75,000 cars of freight in the east and 50,000 cars in the west. This is one of the losses that a hard winter brings that is not often taken into consideration but that means more than mere discomfort, at least to the railroad men and the consumer who in the end must pay for the losses.

Oklahoma has a very stringent libel law, more stringent than the new one of New Mexico. Yet, newspapers seem to flourish in the sister territory and corruption is having as hard a time of it as in commonwealths which are more lenient toward the character assassin and the professional newspaper blackmailer.

Emperor Nicholas, the II., stays close at home. He cannot be blamed. He does not care to expose himself to the fate of his uncle, Grand Duke Sergius, and be blown to pieces. In his case, discretion is the better part of valor.

In speaking of a revival, the Artesia Advocate says: "Despite the cold and snow, seven souls were saved." Whether this is an anti-climax or not—but then the New Mexican never comments upon religious topics.

ATTENTION BUSINESS MEN.

Bankers, merchants and business men generally should bear in mind that the bindery of the New Mexican Printing Company manufactures the best books, such as journals, ledgers, cash books, day books etc., in the southwest, at the lowest possible prices and in first-class shape. Loose leaf ledgers a specialty. Satisfaction guaranteed. Write or call at the New Mexican Printing office for samples

Will be paid by the World's Dispensary Medical Association, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Secord, Esq., of 15 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not for a long time bear any solid food in my stomach; felt melancholy and depressed. Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

A man can succeed and be strong if he heeds Nature's warnings. When there is indigestion, loss of appetite, ringing in the ears, dizziness, spots before the eyes or palpitation of the heart; any or all of these symptoms point to weakness and loss of nutrition. Dr. Pierce's Golden Medical Discovery is the medicine to turn to.

"Golden Medical Discovery" contains no alcohol and is entirely free from opium, cocaine and all other narcotics. It is strictly a temperance medicine.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

The "Common Sense Medical Adviser," 1008 pages, in paper covers, is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

HOUSE BILL NO. 97.

Introduced by Hon. B. G. Lynch, Feb. 16th, 1905; read first and second time by title, ordered translated, printed, and referred to Committee on Roads and Highways.

AN ACT

To Repeal Section Eight of Council Bill No. 19, Enacted by the 36th Legislative Assembly of the Territory of New Mexico.

Be it Enacted by the Legislative Assembly of the Territory of New Mexico:

Section 1. That Section 8 of Council Bill No. 19 of the 36th Legislative Assembly of the Territory of New Mexico, entitled an act empowering cities and towns to build street crossings and to assess the cost thereof against property owners is hereby repealed.

Sec. 2. This act shall be in full force and effect from and after its passage.

HOUSE BILL NO. 100.

Introduced by Hon. Carl A. Dalies, Feb. 21st, 1905; read first and second time by title, ordered translated, printed, and referred to Committee on Counties and County Lines.

AN ACT

Referring to the Salaries of County Commissioners of the Counties of the Second and the Third Class.

Be it Enacted by the Legislative Assembly of the Territory of New Mexico:

Section 1. That Chapter 25 of the Session Laws of 1899 of the Territory of New Mexico being "An Act to amend section 5, 8, 13 and 4 of an act entitled "An Act to provide for the compensation of County officers and for other purposes," approved March 18th, 1897, be amended as follows:

In the sixth line of section 3 strike out the words "In Counties of the second class \$300.00 per annum;" and insert in lieu thereof, "In Counties of the second class \$400.00;" In the seventh line of section 3 strike out the words "In Counties of the third class \$200. per annum;" and insert in lieu thereof, "In Counties of the third class \$300.00."

Sec. 2. This act shall be in force and effect from and after its passage and all laws in conflict herewith are hereby repealed.

HOUSE BILL NO. 101.

Introduced by Hon. Cristobal Sanchez, February 21, 1905; read first and second time by title, ordered translated, and printed and referred to Committee on Territorial Affairs.

AN ACT

Providing for the Offering of Rewards by the Governor and Serving Requisitions.

Be it Enacted by the Legislative Assembly of the Territory of New Mexico:

Section 1. In cases of murder or other felony, when the person or persons accused of the crime shall have eluded arrest or escape from custody, or for any other reason shall be at large, and the sheriff of the county in which the crime was committed and the judge holding the District Court in said county, shall certify to the Governor that in their judgment it is necessary to secure the apprehension of the accused persons, that a reward should be offered for such arrest. Then in that case the Governor of the Territory shall be authorized to issue his proclamation offering such reward for the apprehension and delivery of the accused as he shall deem requisite and necessary, not to exceed in any one case two hundred and fifty dollars (\$250.00).

Sec. 2. For the purpose of carrying into effect the provisions of the above section, there is hereby appropriated payable out of the miscellaneous fund of the Territory, the sum of five thousand (\$5,000.00) dollars, in each fiscal year, and the Auditor of public accounts is directed to draw his warrant against said fund on the Territorial Treasurer in favor of the person entitled to such reward upon his presentation of his account therefor, duly verified and approved, and ordered paid by the Governor.

Sec. 3. For the purpose of defraying the expenses of executing requisitions upon the governors of other states and territories of the Union and extraditions upon the authorities of foreign governments, as now provided by laws of the United States, and of this Territory, for the rendition and extradition of criminals escaped from this Territory the sum of two thousand (\$2,000) dollars annually is hereby appropriated, payable out of the miscellaneous fund of the Territory upon warrants drawn by the Auditor upon the Territorial Treasurer, after such accounts shall have been presented, itemized and verified by the claimant to the Governor of the Territory, and approved by him, and ordered to be paid as now provided by law.

Sec. 4. All laws and parts of laws in conflict herewith are hereby repealed and this law shall take effect and be in force after thirty days from its approval by the Governor.

PLAN IMPORTANT PUBLIC MEETING

Historical Society's Members and its
Friends to Meet Monday Eve-
ning at the Capitol.The public meeting of the New Mex-
ico Historical Society to be held next
Monday evening in the Capitol, bids
fair to be one of much interests.Among other features will be the
following: Address by Judge A. J.
Abbott on "The Pueblo Indians, Their
Ancient Government and Objections
to the Burden of Citizenship;" Hon.
Nestor Montoya, "The Navaho Squaw's
Promise;" Mrs. W. H. Bartlett, "The
Chaleco Dance of the Zuni Indians;"
Hon. Carl A. Dalles, Hon. Amado
Chaves and others on the life of
Colonel J. Francisco Chaves.R. E. Twitchell and Hon. Amado
Chaves on subjects of their selection.
President Prince will speak on the re-
cent acquisitions of the society, in-
cluding the Vigil papers. A number
of members of the legislature have
promised to be present and address
the meeting.The meeting is open to every one
and the public generally is invited to
attend. The society will be glad to re-
ceive new members.

NO USE FOR CELESTIALS

Eight Chinamen who intended to
sneak across the boundary from Mex-
ico and make their way to points in
New Mexico, were caught in the act at
El Paso, Texas. The Rio Grande is
somewhat swollen and the Celestials
in trying to swim across the stream
met with unexpected delay that was
their undoing. Federal officials ar-
rested them and took their photo-
graphs. They will be sent to San
Francisco for deportation. The pris-
oners had arrived from China only re-
cently and there was wild consterna-
tion among them when they were com-
pelled to face the camera which they
thought was some deadly instrument.

COPPER KING'S HUGE EVENING

At the banquet tendered Colonel W.
C. Greene, the Arizona copper king, at
El Paso, Texas, on Wednesday eve-
ning, gold pieces were pelted at the
waiters and toward midnight the revel-
ry reached a high pitch. Whenever
the band stopped playing Colonel
Greene and his friends sang jolly
songs and kept time with their feet.
The banquet was one of the most ex-
pensive ever given at El Paso.It is an admitted fact that real es-
tate, financial men and merchants all
say that quickest and best results are
obtained by advertising in the "New
Mexican."

MINOR CITY TOPICS

Fine Santa Fe weather is again asserting itself. Today was as nice a spring day as could be desired.

Santa Fe lodge No. 2, I. O. O. F. will meet this evening in regular weekly meeting at 7:30 o'clock at Odd Fellows' Hall on San Francisco Street.

Miss Jessie Richardson, daughter of Mr. and Mrs. George Richardson, of Alamogordo, was married at the home of her parents, on Monday evening to Frederick Lloyd.

On Monday evening last a reception was given to the Right Rev. J. M. Kendrick, bishop of the Episcopal church of New Mexico and Arizona at the home of H. J. Anderson at Alamogordo.

The Santa Fe Hook and Ladder Company cleared quite a neat sum at their dance at the opera house on Wednesday night and the boys contemplate another dance in the near future.

It is likely that the Masons will meet for the time being in Odd Fellows' Hall, if a dispensation from the grand master can be obtained until arrangements for a new Masonic Hall can be made.

Theodore Roosevelt Armijo, the two year old son of Mr. and Mrs. George W. Armijo, was suddenly overcome yesterday with convulsions and was for several hours near death's door. The little one is still a very sick child.

Train No. 10 on the Santa Fe was several hours late today and the branch train that made connections at Lamy did not leave here until 1 o'clock. Train No. 2 was reported several hours late and will not arrive until this evening.

Tucumcari is to have a second national bank to be known as the Quay County National Bank. The capitalization is to be \$25,000 and the bank will open its doors on June 20 for business. S. C. Pandolfo, formerly of Las Cruces, will probably be the cashier.

Yesterday one of the fine horses owned by Julius Gerdes was severely kicked on the shoulder by another horse in the stable. A wound several inches in length on the animal's shoulder, was sewed up by W. H. Kerr and it is not believed that the horse will suffer any permanent injury.

Many persons who yesterday made unfavorable comments on the condition of San Francisco Street between the plaza and Don Gaspar Avenue simply did not understand. You see it is to be paved with asphalt and what the people thought a lake of mud was merely the cement which hadn't dried. Carry the news to Mayor Gibson.

There's no accounting for tastes. Last week a woman who is traveling in the west with her husband issued a final decree against El Paso on account of the altitude, saying it was so high she positively could not live there. They came to Santa Fe at her urgent solicitation and she says this altitude pleases her exactly and is not a bit too steep.

At 7:30 o'clock this morning an alarm of fire was turned in from the Masonic Hall. The fire which had been smoldering in the building since the blaze of last Sunday had broken out afresh under the stairway and gained considerable headway, but was soon extinguished. However, had it started in the middle of the night the result might have been disastrous.

There is a small lake of beautiful mud in front of the Wheelock property on Palace Avenue. There is no sidewalk there and the people who reside in that house are compelled to wade through thirty or forty feet of the finest of mud to reach the pavement. Had the city administration enforced the ordinance compelling property owners on Palace Avenue to put down sidewalks as it should have done and had it not made exceptions to favor a few property owners who are able to put down sidewalks, but would not do so, this state of affairs would not exist on that street. Primary

ly the city administration is to blame and secondly, of course, the property owners. Were no one else injured, this would not matter much. But as such occurrences are bad for the general good of the town and keep travelers, tourists and healthseekers away it is a bad condition, which should be remedied promptly. This is very likely too much to ask for under the present city government, which it is claimed, is reform from away back. The disgraceful condition of the streets seems to prove this claim.

ALLAN LEAVES LAS VEGAS OPTIC

The Las Vegas Daily Optic of last evening makes note of the withdrawal of L. R. Allen from the Optic Company of which he has been the business manager, his interest having been purchased by several Republicans of prominence.

An Interesting Article.
Will C. Barnes, secretary of the Territorial Cattle Sanitary Board, has a very interesting article in the last number of the Breeders' Gazette upon a topic of much interest to cattlemen, that of the secession of the American Live Stock Association from the National Livestock Association.

Las Vegas Lady Dies.
Mrs. W. F. Sparks died at Las Vegas after a lengthy illness. The funeral was held this afternoon.

Divorce After Twelve Years.

Celso Avila seeks for a divorce from his wife Refugia Aragon de Avila, suit having been brought in the District Court for San Miguel County. They were married a little over four years ago. Similarly, Rosana Farin de Montoya seeks to have the bonds of matrimony dissolved that tie her to Lisandro Montoya, whom she married twelve years ago.

Popular Girl to Wed.
Miss Lena Varela, daughter of Gregorio Varela of Las Vegas, and Raymond Romero son of Eugenio Romero, collector and treasurer of San Miguel County, are to be married in the near future.

Visiting Churchmen.
Father Pinto of the Jesuits at El Paso and Father Brunner also of the Jesuits of Trinidad, who are occasional visitors to Santa Fe, are at Las Vegas for a few days visiting the Jesuit brethren in that city.

Rev. A. P. Morrison, of El Paso, superintendent of the English missions of the Methodist Episcopal Church, is at Las Vegas holding quarterly conference.

MINES AND MINING.

Sierra County.

Renewed interest is being manifested in the placers at Shandon in the Caballo foothills skirting the Rio Grande in Sierra County, the discovery of which in the fall of 1903 created considerable excitement. These placer claims have been practically dormant for over a year on account of the locators holding back, waiting for some one else to do something for them. Time settles a great many things, and with time the Apache Canon placers are about to become active producers of gold. A new town has been laid out on the Rio Grande above the mouth of Apache Canon, which in every way is better suited for a permanent settlement than Pittsburg, the old locality. It is called Shandon, has a postoffice, a justice of the peace, constable and its quota of saloons. The gold that comes from Shandon is called "Irish gold." It is purer than any of the other placer gold of the southwest. The output from the Shandon gold field during the past year averaged \$1,000 per month. The gold was mostly obtained by native miners who owned the richest surface ground and were the closest to bedrock. The gold was mostly obtained by the blowing process, the mouth serving as the blowpipe.

The Parker Brothers of El Paso, by purchase, secured several hundred acres of placers in Trujillo Gulch and are at present putting up hydraulic machinery for the purpose of ground sluicing a portion of this gulch. The foundation for the machinery is now being built, all being solidly set in cement. The anchor boats to hold the pumps and other appliances are completed and anchored in the Rio Grande awaiting the arrival of the machinery. A six-inch pipe is being laid to the reservoir, two miles from the river. It is calculated that with the triplicate pump now being installed, enough water can be thrown into the reservoir above the placer grounds every twenty-four hours to furnish abundance of water for an eight hour run. Quite a number of teams and men are at work at present. Within six weeks the plant is to be in full operation.

Goss Brothers of Salt Lake City, Utah, have obtained a bond and lease on 640 acres of ground belonging to the Silvas. The Salt Lake people will pump and will operate the placers on an extensive scale.

Otero County.

The Alamogordo marble quarry which is supplying the fine specimens being used in the blind asylum at that place is turning out large quantities of marble. The product of this quarry is greatly in demand in Kansas City, St. Louis and other eastern cities and the company is making arrangements to erect a plant at Alamogordo of sufficient capacity to supply the demand. The quarry has been opened up for a distance of 1,700 feet and the ledge is about 75 feet in height. The marble polishes fine and is quite similar to the valuable Italian product.

Dr. P. H. Moffit, who has opened several mining claims in the Sacramento Mountains near Mayhill is showing specimens of ore that besides carrying gold, silver and copper, carry uranium in commercial quantities.

J. A. Hood of Birmingham, Alabama, has bought an interest in the Spooner-Boatwright-Blakeley copper prospect east of Alamogordo. If the promises of the prospect hold out, a smelter will be built at Alamogordo to treat the ore.

Rio Arriba County.

The Bromide and Headstone districts make their chief claims to recognition on account of their copper ores, which are mostly sulphide. The Pay Roll claim of the Keystone-Bromide Mining Company, at the two hundred and fifty foot level, shows a vein of sulphide copper ore twenty feet in width averaging between \$30 to \$40 per ton. The ore also carries gold. The Tampa, Strawberry, Sardine, War Eagle, Independence, Whale, Sixteen to One, and Hutchison claims also make a very good showing in copper ore. In the Gold Pan, the Danbury Group, the Red Frissure, and other claims, the gold values exceed the copper but still they are valuable as copper properties. The Sixteen to One and the Hutchison claims carry greater values in silver than in copper. Nevertheless, copper is found on every claim, ranging in value from two per cent to twenty-nine per cent, of the ore and the veins vary in width from a few inches to ninety feet. Some exceptionally rich copper glance, oxidized copper and native copper have been found in the Sixteen to

Have been suffering from Impure Blood for many years, having Boils and other Eruptions. Having heard of S. S. S. I decided to try it, and am glad to say that it has done me a great deal of good. I intend to continue to use it, as I believe it to be the best Blood Medicine on the market. Cleveland Tenn W. K. DETERS.

For over fifteen years I have suffered more or less from Impure Blood. About a year ago I had a boil appear on my leg below the knee, which was followed by three more on my neck. I saw S. S. S. advertised and decided to try it. After taking three bottles all Boils disappeared and I have not been troubled any since. NEWARK, O. G. FERTIG 114 W. Jefferson St., Louisville, Ky.

Newark, Ohio, May 23, 1903. From childhood I had been bothered with bad blood, skin eruptions and boils. I had boils ranging from five to twenty in number each season. The burning accompanying the eruption was terrible. S. S. S. seemed to be just the medicine needed in my case. It drove out all impurities and bad blood, giving me permanent relief from the skin eruption and boils. This has been ten years ago, and I have never had a return of the disease. MRS. J. D. HAPPY RESULTS.

Have Made Many Santa Fe Residents Enthusiastic.

No wonder scores of Santa Fe people grow enthusiastic. It is enough to make any one happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Santa Fe by Doan's Kidney Pills.

Manuel Montoya of Canon st., says: "Eight months ago and for a year and a half previous to that my back ached continually. If there was any time when a change was noticeable it was during wet and rainy spells when possibly the aching increased. Doan's Kidney Pills procured at Ireland's Pharmacy effectually stopped the aching and what to me is considerable more importance and value, during the last eight months there has not been a sign of a recurrence."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by all druggists.

HEALTH.

Means the ability to do a day's work, without undue fatigue and to find life worth living. You cannot have indigestion or constipation without its upsetting the liver and polluting the blood. Such a condition may be best and quickest obtained by Herbine, the best liver regulator that the world has ever known. Mrs. D. W. Smith writes: April 3, 1902: "I use Herbine, and find it the best medicine for constipation and regulating the liver I ever used." Price 50 cents. Fischer Drug Company.

Supplies for Notaries Public for sale by the New Mexican Printing Company.

Grave Trouble Foreseen.

It needs but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electro-Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by Fischer Drug Co. 50 cents per bottle.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's Jew Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. As a protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. BUCKLEN & CO., Chicago, Ill., and Windsor, Canada. For sale by Fischer Drug Company.

MINES AND MINING.

(Continued from Page Six.)

One, Strawberry, Elliott and Big Four claims. In the Headstone district, the gold predominates over the copper but the latter is also an important factor. The Red Jacket, Buckhorn, Croesus, Jaw Bone, Sidney, Mineral Point, Big Mogul, Hidden Treasure, Freeport, Emerald, Good Hope, Wild Duck and others, show good copper values in addition to gold and with depth they will undoubtedly prove to be very rich in copper.

Santa Fe County.

The Golden Cement Company, a New York concern, is completing a \$10,000 concentration plant near the camp of Golden to treat the cement and conglomerate of the placers. These beds are about ten miles square and 500 samples gathered indiscriminately from different depths in various parts of the field yielded from 50 cents to \$201.30 in gold per ton. The process to be used is a dry concentrating method and is claimed to yield from \$1.50 to \$2 per ton profit from gravel carrying \$3 gold per ton. The mill is to concentrate three hundred tons every twenty-four hours into five tons of concentrates, which are to be shipped to the El Paso smelter. The placer ground is composed of gravel, lime, alumina and silica. The company intends to manufacture Portland cement from the tailings, by utilizing the large deposits of lime rock in the Sandias nearby. Only three men will be required to operate the concentrator but thirty-six men will be given employment, including the shovelers, as three shifts are to be run.

When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by all druggists.

ITCH—RI FORM.

E. T. Lucas, Wingo, Ky., writes, April 25, 1902: "For ten to twelve years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable; I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me completely and permanently. Since then I have used the liniment on two separate occasions for ring worm and it cured completely. 25c, 50c and \$1.00 bottle. Fischer Drug Co.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Malaria, Bright's Disease of the Kidneys, Rheumatism, Neuralgia, Consumption, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, lodging and bathing \$2.50 per day; \$4 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address
