ALBUQUERQUE WELCOMES GOVERNOR-ELECT W. C. McDONALD THIS EVENING

RATIFICATION MEETING TONIGHT AT ELKS

Albuquerque to Honor Governor-Elect W. C. McDonald and Other Successful Candidates On State Ticket.

DAZZLING TORCHLIGHT PROCESSION FOR OPENER

Following Illuminated Parade Through Downtown Streets There Will Be Reception and Speechmaking at Theater.

A ratification meeting, the like of which has never before been witnessed in New Mexico, will take place in Albuquerque this evening, when the city of Albuquerque, assisted by delegations from other cities and towns in the new state, will combine in honoring Governor-elect William C. McDonald and the other successful candidates on the recently victorious state ticket, and the two members elected to congress. Tonight's affair is to be non-partisan and everybody is invited to join in extending a welcome to those officials who will guide the destinies of the new state during the first years of its existence.

Proceeding the reception which will be held at the Elks theater there will be a procession through the principal streets of the city, participated in by two bands, illuminated automobiles, motorcycles, men on horseback and in carriages and citizens on foot. There will be an abundance of pyrotechnics, red fire and noise, this feature of the celebration resembling the old-time political rally.

Following several days spent in arranging for tonight's big doings the special committee named for that purpose, composed of D. A. Macpherson, Mike Mandell, Ivan Grunfeld, J. Korber and J. E. Beaven, last night announced the personnel of the reception committee, the marshal who will direct the torchlight procession and the line of march.

Following are the prominent Albuquerqueans who will serve on the reception committee:

A. B. McGaffey, chairman, Mayor John W. Elder, and the City Council, Alfred Grunfeld, Jacob Korber, Hon. H. B. Ferguson, M. R. Springer, J. S. Beaven, Jesus Romero, W. H. Gillewater, D. H. Boatright, E. E. Lester, J. B. Herndon, O. S. Marron, B. Ruppel, Summers, Buckhart, D. A. Macpherson, P. E. McCanna, M. Mandell, H. J. Collins, E. B. Hays, M. W. Flannery, A. Fletcher, H. H. Cross, Isaac Barth, J. F. Salzer, H. F. Reynolds, M. U. Vigh, Julius Stahl, A. E. Walker, Rafael Garcia, J. B. Burr, Thomas A. Garcia, W. C. Oestrich, Fred Khan, A. Montoya, M. L. Fox, Policarpo Armitage, Leonardo Hunick, Pitt Ross, W. H. Shackelford, Charles Roehl, John Roehl, O. A. Burtner, J. G. Albright and W. J. Liller.

Captain M. O'Donnell will do the honors as marshal of the parade, and he has issued the following instructions for the formation of the procession: All automobiles and motorcycles will form in line along the south side of the Alvarado hotel and south of First street to Silver avenue at 7:30 o'clock. The mounted men will form south of Silver avenue, also along First street. The torch bearers, who will number 150, will fall in behind the mounted men and following them will come hundreds of citizens on foot.

The line of march will be as follows: From the Alvarado hotel west on Central to Second street; north on Second to Copper avenue; west on Copper to Fourth street; south on Fourth street to Central; east on Central to Second street; south on Second to Gold avenue; and west on Gold to the Elks theater, where the parade will break-up. The speechmaking in the theater will begin immediately thereafter.

Governor-elect McDonald of California, the guest of honor at tonight's affair, accompanied by an enthusiastic delegation of Lincoln county people, will arrive this morning from the south, and will be a guest at the Alvarado. Delegations from other cities are expected in during the day from all parts of New Mexico, swelling the total of visitors to several thousand.

A large delegation from the Pecos valley arrived last night on the first train over the Belen cut-off to get in on the new time card. The delegation was led by Judge W. R. McGinn, attorney general-elect, J. L. Emerson, land commissioner-elect, and O. L. Owen, corporation commissioner-elect of Clovis. At Willard the party was joined by G. H. Van Stone, corporation commissioner-elect.

In the Elks county delegation were J. L. Emerson, M. Cicero Stewart,

Welcome to Albuquerque.

sheriff of the county; D. R. Harkey, A. A. Kaiser, superintendent of schools; A. G. Shelby, A. E. Bailey, county superintendent of schools; elect; W. A. Moore, Dr. W. G. Cowan, W. L. Bishop, H. G. Howard and A. Raymond Seder, a former student of the university, who is now principal of the Carlsbad high school.

In the Chaves county delegation were Sheriff C. L. Ballard, Judge Granville A. Richardson, J. W. Stockhart and M. H. Brashers, V. L. Griffin, county superintendent of schools, Judge H. D. Terrell, O. L. Owen, Judge Charles Dennis and J. W. Buehrer, comprised the delegation from Curry county.

Roosevelt county sent Judge W. R. McGill, W. M. Brace and Judge Sam J. Nixon and Guadalupe county, Felipe Sanchez y Baca.

Captain Fred Fornoff came down from Santa Fe to reinforce the delegation from the capital.

DITCHED TRAIN TO PREVENT FATAL COLLISION

Railroad Towerman's Presence of Mind at Osage City, Kansas, Probably Saved Lives of Many Passengers.

[By Morning Journal Special Leased Wire.]
Osage City, Kas., Nov. 12.—Two engines and the mail and baggage cars of Santa Fe passenger train No. 17, were sent into the ditch here at 2 o'clock this morning, when the towerman at the Santa Fe-Missouri Pacific crossing threw the derail switch to prevent the train crashing into a long Missouri Pacific freight train, which was on the crossing at the time. The lead engine of the Santa Fe train was badly damaged, but no one was injured.

The passenger, a heavy train, drawn by two engines, was behind time and running fast when the towerman, Tom Herzog, noticed that the freight train had run past a signal set to safeguard the passage of the Missouri Pacific train over the crossing. He threw the derail switch and the two passenger engines plowed along with the freight train before they stopped.

Engineer John Foss of the lead engine of the passenger, who had control of the air of the double-header passenger train, declared that the air failed to work and he was unable to stop the train when he saw the signal.

Open Switch Derails Train.
Bismarck, N. D., Nov. 12.—A party open switch caused the coaches on a west bound Northern Pacific train to spread over three sets of track near McKenzie today. No one was injured.

Tampa, Fla., Nov. 12.—Fearing that an attempt would be made to take Lee Armstrong, a negro, who shot two officers at Plant City Friday, out of the local jail, in the company of militia was the order of Governor Gilchrist to guard the jail tonight. Many armed citizens of Plant City are in the city.

MISSING BANKER ASSASSINATED IN CANADA

New Clue as to What Ultimately Became of George A. Kimmel After He Disappeared From Arkansas City.

[By Morning Journal Special Leased Wire.]
Kansas City, Mo., Nov. 12.—Was George A. Kimmel, the missing Arkansas City banker, assassinated thirteen years ago in the wilds of British Columbia? At least the attorneys for Kimmel's sister say they have found a man who will testify that he was present when the banker was shot down in the woods. He says he killed the assassin and then buried both his body and Kimmel's in the same grave.

In a signed statement the man says that Kimmel was decoyed to Canada by a man who asserted he knew where \$40,000 in gold, taken from a Vancouver bank, had been hidden by robbers.

It was given to Frederick H. Bacon of St. Louis and submitted by him to Grant I. Rosenzweig of Kansas City, both attorneys for Kimmel's sister, who is suing for the payment of \$20,000 insurance on her brother's life. The case will be tried in St. Louis.

FOWLER UNABLE TO FLY INTO EL PASO

El Paso, Tex., Nov. 12.—Robert G. Fowler, was unable to make his expected flight into this city today, from Mastodon, N. M., where he was stranded one week ago today, owing to the failure of the railway company to furnish the promised flat car from which he expects to make the ascent. His aeroplane was taken to pieces, moved by hand to the railroad track and rebuilt during the past few days. He is now ready to resume his flight, and as the car offered by the railway company has been promised definitely for tomorrow, he expects to be able to fly into this city some time during the day.

Militia Guards Prisoner.

Tampa, Fla., Nov. 12.—Fearing that an attempt would be made to take Lee Armstrong, a negro, who shot two officers at Plant City Friday, out of the local jail, in the company of militia was the order of Governor Gilchrist to guard the jail tonight. Many armed citizens of Plant City are in the city.

BANKERS CONFER WITH MONETARY COMMISSION

Informal Discussion Had of Proposed Reforms in Currency System at Luncheon Given By Chicago Financier.

[By Morning Journal Special Leased Wire.]
Chicago, Nov. 12.—Informal conferences between members of the National Monetary commission and bankers and other business men of the middle-west who have gathered for the sessions here of the commission took place today to clear up some points brought out in the speeches yesterday of Secretary McVeigh and former Senator Aldrich.

Mr. McVeigh's hostility toward the holding of bank securities by other banks was discussed at a luncheon given by George M. Reynolds, president of the Continental and Commercial Bank of Chicago.

"I think the strictures refer to an eastern banking condition and not to us," said Mr. Reynolds.

Former Senator Money, of Mississippi, said he did not believe the ruling would be incorporated in the commission's report.

"In two months we must make our report to congress," he said. "What the result of that report will be, I dread to think, simply because we must answer just such foolish questions as have been fired at us here by congressmen who consider their main duty to be that of seeking re-election. They have cut short the life of the commission which was doing more important instructive work than any other project in recent years."

The Washington meeting of the commission is called for November 28.

PLANS TO REPARTITION AFRICA AGREED ON

Brussels, Nov. 12.—Reports have been current for some months that a grand repartition of Africa was under consideration by interested powers to which some color has been lent by certain observations by the French premier in the course of a recent speech.

These have taken more definite form and it is reported on good authority that the proposed scheme provides for the withdrawal of Belgium from the Congo which will be divided between Great Britain, France and Germany.

In compensation, according to reports, Belgium is to receive the grand duchy of Luxembourg and the territory along the left bank of the Scheldt, and Holland is to receive counterbalancing colonial concessions. These reports will form the subject of an interpellation in parliament which will re-assemble on Tuesday.

TORNADO WROUGHT TERRIBLE HAVOC IN WISCONSIN

DEVASTATED AREA TWENTY MILES LONG

Revised Estimates Place Dead at Eight; Fatalities Also Occurred as Result of Storms Elsewhere.

[By Morning Journal Special Leased Wire.]
Janesville, Wis., Nov. 12.—Splintered timbers, broken furniture, crumpled rock and plaster, scattered farm produce and dead farm animals littering the ground over an area a quarter of a mile wide and twenty miles long, indicate the tremendous force with which Wisconsin's worst tornado yesterday swept a path through Rock county, killing eight persons, injuring many more and doing damage to the extent of nearly a million dollars.

One of the injured, Albert Schmidt, 14 years old, living near Hanover, will die. His father and two sisters are dead. At least one more may die.

The Dead.
ANTON SCHMIDT, 55 years old, blown from a barn and killed instantly.

ALICE SCHMIDT, 18 years old, daughter of Anton Schmidt, blown across the road and found nearly buried in a field.

REGGIE SCHMIDT, 14 years old, sister of Alice Schmidt, found dead beside her sister's body.

HELEN AUSTIN, 5 years old, instantly killed.

MRS. JOHN CROWDER, MRS. ELIZABETH PROEDE, LEO LENTZ, 16 years old, blown from barn and instantly killed.

AMY KORNH, 8 years old, instantly killed when house was demolished.

Wire service was demolished last night and it was not until today that details of the storm were obtainable. Saturday night the mercury dropped nearly to zero. The tornado organized in the vicinity of Orono, twenty-five miles southwest of Janesville, travelled northeast for several miles and then turned to the east, missing this city by a narrow margin.

Its force was spent near Milton. The greatest damage was done near the point of origin and at Milton.

Of the Schmidt family, residing three-quarters of a mile from Hanover, there is only one survivor. He is Albert Schmidt, the 14-year-old boy. Physicians say he cannot recover. Alice Schmidt and her young sister were in the house when the storm struck. Their bodies were blown across the road, the house being demolished. Anton Schmidt, the father of the boy, Albert, and a tramp were in the barn. The tramp was not injured, says Mr. Schmidt. He was blown through the barn. His body was found in the yard. The boy was buried in the debris and received internal injuries.

Mrs. Elizabeth Proede, a bride of a few months, was instantly killed when the house was carried away. Her husband was in the barn and recovered the body of his wife after the storm passed.

Leo Lentz, 16 years old, was blown from a new barn which he was helping build for James Little, six miles northeast of Hanover. His father, Theodore Lentz, who was also working on the barn, was uninjured.

Near Milton there was one death, Helen Austin, 5 years old, daughter of Alfred Austin, a farmer. Three others were in the house when the tornado struck. Mrs. Austin was seriously injured, but physicians say she will recover. Her sister, Miss Elizabeth Hume, was also badly hurt. Helen's sister, Florence, 20 years old, and her collar bone was broken. The house, a new barn and a garage were smashed to kindling wood.

As usual there were many freakish incidents connected with the storm. At the Douglas farm a buggy was carried into a tree and bent about the trunk, where it hung, the rim of one wheel encircling the front axle. At the home of William Little, a six-year-old, named a cow, owned by the Schmidt farm a hog was put in two by a blow. At this same place a cook stove was carried to an adjoining field, where it was deposited right side up, apparently undamaged and the fire still burning in it.

Two miles north of Janesville, a house and part of a barn were carried into Rock river. All telephone and telegraph poles in the path of the storm were snapped off and wires stretched along the roads.

TWO CYCLOPS VICTIMS AT EASTON, ILLINOIS

Easton, Ill., Nov. 12.—Two were killed and seven seriously injured in a storm which struck Easton, Ill., last night, tearing away telegraph and telephone wires and leaving the tragedy of a storm untold to the world, until tonight.

The Dead.
ELIZABETH PRATER, infant child of Mr. and Mrs. James Prater. Body found one hundred yards from the home, which was demolished.

MRS. ALICE HENNINGER, 75 years old, died of fright when her home collapsed.

The Prater home was the only one in town which was much damaged, and it was demolished, killing the baby and injuring all other members of the family.

Farm houses and barns in the city were toppled over and here the others were injured.

WATCHMAN DIED IN BATTLING WITH STORM

Omaha, Neb., Nov. 12.—One death is credited to last night's storm in this city. The body of P. C. Campbell,

aged 62, for many years a watchman in a department store, was found within three blocks of his home at the time the storm was at its height.

While he was on duty at the time the storm struck, Campbell's body was blown off the roof of a building and he was killed.

BLIZZARD ADDS TO DAMAGE IN INDIANA

Indianapolis, Ind., Nov. 12.—Heavy damage is reported from all over Indiana today as the result of the wind storm and blizzard. Sleet and snow cover the state and since yesterday the temperature dropped 50 to 60 degrees and tonight is hovering around ten above zero. The cold is causing intense suffering among the poor people.

Rail traffic is badly crippled and although the crews have been working on the telephone and telegraph lines over the state all day, communication with many points has not been established tonight.

At Bedford, Ind., and vicinity, the property damage is estimated at half a million dollars. Many of the stone mill sheds were blown down.

In the southern part of the state the storm was severe and practically all communication was cut off. At Shoals the high school and Methodist church, both brick structures, were destroyed. The cold is causing intense suffering to livestock.

PROSPECTOR FOUND FROZEN IN SNOW

Idaho Springs, Colo., Nov. 12.—One death has resulted here since the blizzard visited this locality thirty-six hours ago, during the first twelve hours of which nearly two feet of snow fell.

N. K. Lartigue, 55 years old, a captain in the Civil war, was found buried in the snow five miles west of here, this morning. He had been dead several hours. His body was frozen stiff.

Lartigue had been a miner and prospector for thirty-five years. He walked into Idaho Springs from his prospect hole six miles west Saturday night and started to walk back the same night, braving the storm.

TORNADO VISITS TOWN OF OSWEGO, MICHIGAN

Oswego, Mich., Nov. 12.—Two persons killed, more than \$500,000 in property loss estimated at half a million dollars is the result of the tornado which struck Oswego today.

The Dead.
HARRY CORWEN, aged 29, and his wife, who were crushed to death as they lay in bed.

The storm swept a path more than a thousand feet wide through the center of the city demolishing twenty houses and damaging hundreds of others.

RODGERS IS ALMOST KILLED WITHIN SIGHT OF GOAL

FALLS TO EARTH FROM HEIGHT OF 125 FEET

Though No Bones Are Broken, Birdman is Rendered Unconscious and May Be Seriously Injured Internally.

[By Morning Journal Special Leased Wire.]
Los Angeles, Nov. 12.—An attempted flight from Pasadena to Long Beach by a birdman, Aviator C. P. Rodgers, met with the worst of fates.

At the home of William Little, a six-year-old, named a cow, owned by the Schmidt farm a hog was put in two by a blow. At this same place a cook stove was carried to an adjoining field, where it was deposited right side up, apparently undamaged and the fire still burning in it.

Two miles north of Janesville, a house and part of a barn were carried into Rock river. All telephone and telegraph poles in the path of the storm were snapped off and wires stretched along the roads.

At the Douglas farm a buggy was carried into a tree and bent about the trunk, where it hung, the rim of one wheel encircling the front axle. CRIMINAL TRIAL OF MEAT PACKERS OPENS TODAY

TEN MILLIONAIRES COMPRISE DEFENDANTS

After More Than Nine Years of Investigation Government Will Start Prosecution Under Anti-Trust Act.

[By Morning Journal Special Leased Wire.]
Chicago, Nov. 12.—After more than nine years of investigation by the government the first criminal prosecution of individual meat packers under the Sherman anti-trust act will begin here tomorrow, before Judge George A. Carpenter, in the United States district court. Ten Chicago packers will be placed on trial charged with monopolizing and restraining interstate trade in fresh meats. The penalty which may be inflicted if they be found guilty, is a fine of \$5,000, or a sentence of one year in the county jail, or both. The defendants are:

Louis F. Swift, president of Swift and company, and director of the National Packing company.

Edward W. Swift, vice president of Swift and company, and director of the National Packing company.

Charles H. Swift, director of Swift and company.

Edward W. Tilden, president of the National Packing company.

J. O'Brien Armour, president of Armour and company.

Arthur Meeker, general manager for Armour and company.

Edward Morris, president of Morris and company.

Francis A. Fowler, director of Swift and company.

Thomas J. Heyman, manager for Morris and company.

A special panel of 150 men have been summoned from which to select the jury. Hundreds of witnesses have been called. It is expected that the trial will last several months.

The first action against the packers came in 1903, when Judge Peter S. Grosscup enjoined them from violating the Sherman act. Investigation of charges against the packers followed and on July 1, 1905, sixteen packers and four companies were indicted. Judge Humphrey granted the defendants immunity in 1906.

A new investigation resulted in March, 1910, in indictments being returned against the National Packing company, and its subsidiary concerns, and a bill in equity was filed, asking disintegration of the National Packing company. These indictments were quashed by Judge Kencelaw M. Landis.

A new grand jury empaneled in July, 1911, brought in an indictment against the ten packers. Since then there have been a number of skirmishes in the courts, but up to date, the government has won all of them. All technicalities have been swept aside, the defendants have pleaded not guilty and all that remains is the jury trial.

Most of the government's efforts will be directed to show the purpose of the organization of the National Packing company. The government charges that through this organization packers were able to control the meat industry.

United States Senator W. S. Kenyon will be associated as special counsel with United States District Attorney James H. Wilkerson in the prosecution. Pierce Butler of St. Paul; Barton Courneau of Washington; James H. Sheehan and Elwood Godman, chief assistant district attorneys, will also help in the prosecution.

SUDDEN WEALTH BRINGS TERROR TO POOR MAN

Aged Kansas Recluse Cries Out in Anguish When Told He is Heir to Fortune of Two Hundred and Fifty Thousand.

[By Morning Journal Special Leased Wire.]
Waterville, Kan., Nov. 12.—No joy came to Peter Odell, when he learned today that he was heir to a quarter of a million dollars. He is 81 years old and slowly dying from an incurable disease. All his life he has lived in poverty, earning his daily bread by fishing and doing odd jobs. The thought of sudden riches brought terror to him.

When he was told that his brother, A. H. Odell, has been found dead in Los Angeles, leaving a fortune of \$500,000 to two brothers, the aged fisherman cried out:

"My God! Why should he not live to enjoy it and not leave it to me? I do not know what to do with so much money. I am afraid of it."

"PEOPLE ASK ME WHAT I DO"

**Mrs. Warwick Does Her Work
and Takes Care of Her
Three Little Children
Without Difficulty.**

Kokomo, Ind.—"I had been sick for twelve weeks," says Mrs. Matilda Warwick, of this place, "when I commenced to use Cardui. I was almost dead. I could not sit up, and nobody thought I would get well."

I had three of the best doctors in Kokomo, but they did not help me a bit. I was getting worse all the time, when a lady friend of mine told me to try Cardui. My husband got me a bottle of Cardui, and a few doses relieved my trouble.

If it had not been for Cardui, I believe I would have been dead. Now I am feeling well and strong. I can do my housework, and take care of three little children.

People ask me what I do to have such good health, and I tell them I use Cardui. One of my friends is using it now, and is getting along fine. I will never be without Cardui in my house."

Cardui is a vegetable extract, composed of valuable medicinal ingredients, which build up vitality and strengthen the womanly constitution.

During the past 50 years, Cardui has helped thousands of weak women to health and strength. If you suffer from any symptoms of womanly trouble, try Cardui. It will surely help you.

WOULD-BE CROOKS INSTRUCTED BY MAIL

**Arrest of Youth at Grand Junction
Reveals Existence of Remarkable
Correspondence
School in Indiana.**

(By Morning Journal Special Leased Wire.)
Grand Junction, Colo., Nov. 12.—Somewhere in Indiana there is a school which teaches correspondence how to crack a safe, all kinds of money vaults and slot machines, according to Sheriff Schrader, of Mesa county, who made known the fact today that he has come into possession of books which contain a clever treatise on the construction of safes and every known make of vault for the storing of valuables.

Sheriff Schrader said today that he has been working on the matter for several days and that he is in correspondence with officials in Indiana. He declines to state the name of the city in Indiana where the school is located, but says he will make public all information he has at hand within a few days. He also refuses to give the name of the institution.

Sheriff Schrader arrested Wyatt Bowles, 18 years old, while the boy was in the act of stealing jewelry and cash from a second hand store here on Friday and found in Bowles' pockets the books which the youth said had been sent to him through the mails from Indiana. The boy declined to give any further information regarding the school and refused also to tell what he claimed to know of the conductors of the school, but admitted he had been in close touch with the institution in Indiana for more than a year.

A year ago Bowles was caught stealing \$20 from an office here, and was sent to the state reformatory, but was, on good behavior, a short time later paroled by Judge Shackelford.

Stranded Steamer Refloated.
Kobe, Japan, Nov. 12.—The steamer Minnesota, of the Great Northern Steamship company, which yesterday stranded in the Kurushima passage of Shikoku island, was refloated, arrived here today. The Minnesota was bound from Hong Kong for Seattle.

Auction Sale of the Season

On November the 13th and 14th, beginning promptly at 2:30 p. m. each afternoon, at 414-416 South 3rd street, I will sell at Auction, the elegant furnishings of fourteen rooms. These furnishings consist of everything necessary to furnish rooms well. This furniture is sanitary and up-to-date. Let those that need furniture, save their money and see what it will be an opportunity to buy good furniture cheap. Watch the papers.

GOVERNMENT WILL ACT ON ADVICE OF YUAN

**Trusted Advisor of Chinese
Throne On Way to Peking For
Conference With Regent Regarding
Revolution.**

(By Morning Journal Special Leased Wire.)
Peking, Nov. 12.—Yuan Shi Kai and the government exchanged telegrams this morning. Yuan has agreed to come to Peking to discuss the situation, but he adheres to his resolve not to accept the premiership. He is expected to arrive tomorrow and an audience with the regent has been arranged.

The American legation does not believe Yuan Shi Kai has yet advised the throne to abdicate, as some reports state, but he may do so later. Yesterday Yuan sent a message to the government from his home in Chang Tu Fu. He then proceeded to Cheng Tse on the Pe Han railway, where he conferred with a delegation from Ho Nan assembly, endeavoring to dissuade the delegates from the proposed declaration of the independence of the province which he said would damage the throne's position seriously.

The fact that the man on whom the government depends more than any one else, is coming to Peking, gives a general feeling of relief and hope that he will evolve plans to end the present chaos. It is understood that the court will remain in the forbidden city, realizing that their departure now would be fatal. It is also understood the throne is willing to accept a pension and retire to Jehol, if safety is assured. Prince Ching, the acting premier, does not desire to remain in office, but he continues to support the regent who has no other trusted advisor.

The situation at Kai Feng, Ho Nan province, is serious. The governor's family left for the north last night on a special train. The government remains at Kai Feng, but does not sleep at the Yamen. Foreign refugees who have arrived here from Tai Yuen Fu, Shan Si province, report that no foreigners have been harmed. The governor and his wife and thirty Manchus have, however, been beheaded.

The rebels are maintaining order and the new arrivals say the administration is excellent. The whole province of Shan Si is supporting the movement.

Mukden and Neu Chwang are controlled by defense societies, consisting of troops and civilians. The conditions prevailing in these places practically amount to independence.

AMONG CONFERENCE DEVOID OF RESULTS

Amoy, Nov. 12.—The conference of officials with representatives of the conservative and radical elements for the purpose of determining upon a course of action has failed to reach an agreement. The officials and conservatives proposed a temporary independence, while the radicals favored the surrendering of the city to the revolutionaries. It was argued that Amoy was too weak to stand alone and that foreign power would seize it as soon as it declared its independence. The insurgents are now preparing to take over the government.

Every entrance to the city is strongly guarded and detachment have been posted on the surrounding hills. All precautions have been taken to prevent disorders. There is no American warship here, but the British sloop Rosario has been able to land thirty men. Japanese cruisers are within two hours call by wireless, but their presence is not desirable because of Chinese distrust.

How reports much looting and incendiarism. The Tartar general, at has been beheaded. The revolutionaries have recalled the missionaries from the interior at the request of the de facto government, which says it is not responsible for their lives.

DESULTORY FIGHTING AROUND HANKOW

Hankow, Nov. 10.—(Delayed in Transmission.)—The Imperialists have bombarded Wu Chang without noticeable effect. They have practically abandoned Ten Kilometer Station, because of the effective shooting of the insurgents. Otherwise, conditions are pacific here, except the sniping.

Yuan Shi Kai, is writing to General Li Yuan Hong, the rebel leader, settling forth terms for a settlement, has expressed dissatisfaction with the government at Peking. He urged acceptance of the constitution with a limited monarchy and asked that the emperor be given an opportunity to prove the sincerity of his promises for reforms.

AFTER PNEUMONIA

The severe inflammation which the lungs leave during pneumonia and sore for weeks and even months. Unless properly cared for at this period they hardly ever recover, which is even more dangerous than the first. Light nourishing food, mild exercise, plenty of fresh air and Vinol to enrich the blood should be the treatment to restore strength. Vinol is an delicious cod liver and iron preparation with wonderful restorative and blood building power. We have seen it do so much good that we warrant every bottle sold, giving back the money if you are not pleased. J. M. O'Reilly Co., Druggists, Albuquerque, N. M.

Complete Unofficial Returns of Bernalillo County Vote

MEDLER DEFEATED FOR JUDGE IN THIRD LEGISLATURE

Las Cruces, N. M., Nov. 12.—Complete but unofficial returns from the four counties comprising the Third legislative district indicate the defeat of Edward L. Medler for judge by a majority of twenty-four. John Y. Hewitt carried the county of Otero and Lincoln, while Mr. Medler secured a majority in Dona Ana and Torrance. The race was in doubt until today when complete returns from Torrance county showed that the democratic candidate had secured a majority in the four counties.

**Driven Before Terrible Wind,
Snow Storm is Sweeping
From Atlantic Coast Towards
Interior.**

(By Morning Journal Special Leased Wire.)
New York, Nov. 12.—The storm and cold wave from the west advanced rapidly eastward today on the wings of a gale that reached a maximum velocity of twenty-two miles an hour in this city and did considerable damage.

The eastern edge of the advancing cold wave had reached Vermont tonight and was moving rapidly northward. Reports of snow from points in Pennsylvania and Ohio gave warning of what was expected for east, as the temperature began dropping rapidly, falling thirty-six degrees from a maximum of 68 at 1 o'clock to 32 degrees at about 11:30 o'clock tonight. Telegraph companies lost many wires. Seventeen airplanes were badly damaged when the shed of the Aeronautic Society of America on the Mineola aviation field was blown down.

The lowest temperatures in the eastern section of the country were 20 degrees at 8 p. m. at Pittsburgh and 26 degrees at Buffalo.

TAFT PETITIONED TO OBSERVE GOOD FAITH

New York, Nov. 12.—The American Publishers' association, through John Norris, chairman of its committee on paper, it was announced here today, has sent a letter to President Taft urging that the government show good faith in the observance of the favored-nation clause of twenty-eight treaties with respect to the free importation of pulp and paper when made from unrestricted wood.

Apple Congress Opens Today.

Denver, Colo., Nov. 12.—For the opening day of the American Apple Congress in Denver tomorrow, more than two thousand visitors from about twenty states which have representatives in the exhibits at the auditorium, are already here, and several special trains will arrive tomorrow. Among the states represented thus far are Texas, Oregon, Washington, Utah, New Mexico, California, Iowa, Indiana, Kansas and Missouri. British Columbia has sent one exhibitor.

BIGGEST CROWDS IN HISTORY OF BASEBALL

Attendance Past Season Was 9,770,528; Three Out of Every Four People in Major League Cities Saw a Game.

During the baseball season just closed the national game in the big circuits drew bigger crowds than at any time during the history of the game. Outside of the many thousands of people who crowded to a point of vantage around the National and American league baseball parks and thus viewed the game, 9,770,528 people paid admission to the games. It means that in the ten cities of the United States that support big league teams, with a total population of 12,118,651, three out of every four attended a big league ball game once during the season.

The following is the tabulated statement of the attendance for the season at each of the big league parks:

National League.	
Chicago	972,306
New York	935,602
Philadelphia	613,140
Boston	701,420
Brooklyn	580,460
Pittsburgh	490,070
Cincinnati	480,720
St. Louis	420,720
American League.	
Philadelphia	618,100
New York	602,410
Chicago	502,180
Boston	498,720
Detroit	480,070
St. Louis	420,720
Cleveland	400,000
Washington	380,000

HIGH SCHOOL TEAM RETURNS FROM VEGAS

Tired but happy and exulting in a victory over the heavier class of the New Mexico Normal university at Las Vegas on Saturday afternoon by the score of 17 to 5, the Albuquerque high school football team returned from the Meadow City last night.

They report having had a fine time. Their reception at the hands of the students of the Normal was most cordial. Saturday night the Normalites gave the high school a dance, which was greatly enjoyed.

MY PHYSICIAN SAID IT'S "THE NERVES OF MY STOMACH"

That causes the Gas. Why, I have so much Gas, not alone in my stomach, but all over. I can feel it in every tissue of my body. This is the exact description of thousands and thousands of people.

A new remedy, however, has been discovered, and that is BAALMANN'S GAS TABLETS.

Every bit of Gas from every part and tissue of your body will disappear by taking BAALMANN'S GAS TABLETS for one week.

DO TRY THEM. THEY ARE NOT A DYSPESIA REMEDY. THEY ARE MADE FOR GAS ONLY.

These peculiar tablets are sold for 50¢ a bottle by nearly every druggist. If not in stock tell him to get them for you from his wholesaler, or send 50¢ in silver, stamps or money order to J. BAALMANN CO., 336 Sutter st., San Francisco.

BIG AUCTION

Monday, Nov. 13th, at 10 a. m. I will sell at auction a 4-room house and lot at 1013 N. 5th. A mortgage of \$600 on property can be carried at 8 per cent. Property now rented. Property must sell. A chance to buy a home cheap.

SCHEDULED AT SANTA FE

University of New Mexico Will Meet Normal University in Capital On Thursday, During Teachers' Convention.

The next game that looms ahead of the University of New Mexico is likely to disarrange their schedule, but at the same time not so seriously that they cannot get over it. It was expected that the Varsity would go to the Meadow City to play the Normal university next Saturday. However, the state has been changed and the teams will meet at Santa Fe next Thursday afternoon at the St. Michael's college grounds.

The occasion of the game at the capital is the annual meeting of the New Mexico Teachers' association and the football game has been arranged in connection with some basketball games as a part of the entertainment.

The change in the date was made at the request of Rupert F. Asplund, secretary of the association and assistant superintendent of public instruction under Prof. J. E. Clark. He took the matter up with the presidents of the two colleges and no objection was encountered and the date was made. With the presence of several hundred school teachers from all over the territory the advertising possibilities of the game are great.

Another entertainment feature that is being arranged for the teachers is the presence of the glee clubs of both the Normal university and the Raton high school. The latter organization goes under the name of "Cherzo Club."

BOTH SIDES WANT JURY AS SOON AS POSSIBLE

Defense and Prosecution in McNamara Trial Evidence Spirit to Lay Aside All Technical Quibbling.

(By Morning Journal Special Leased Wire.) Los Angeles, Nov. 12.—"If we can find twelve fair-minded men among the talesmen now being examined, we will accept them without exhausting our twenty peremptory challenges," was the statement today of Clarence S. Darrow, chief counsel for James B. McNamara, on trial for deaths resulting from the explosion, which wrecked the Times building here thirteen months ago.

Attorney John D. Fredericks shares this view, so that with the three jurors already sworn, a lucky combination would be necessary to get a jury within a shorter interval than expected.

It was the first intimation from the defense, however, that it would not attempt to use all the challenges at its disposal, and if an acceptable dozen turned up, it believed now to be imbedded in the record which would give it an appeal in case of conviction. The decision in the state uniformly have held that a conviction could not be set aside on the ground that the defense was obliged to accept biased jurors unless it was shown that it was necessary to accept such jurors when peremptory challenges were exhausted.

Attorney Darrow explained that he would rather submit the matter to the care of a fair-minded jury than depend upon a reversal by a higher court on the record thus far made, though he believes there has crept in already on the examination of talesmen, sufficient ground for an appeal. He pointed out, however, that he thought it would be necessary to expect peremptory challenges before a final dozen could be procured.

As far as the state is concerned, the essentials for a jury likewise are fair-mindedness, no previous affiliations, no bias, no prejudice, no partiality, no opposition to the death penalty and a willingness to accept circumstantial evidence.

While the state has not admitted that all of its evidence against the McNamaras is circumstantial, nevertheless it has demanded that jurors shall be ready to convict on circumstantial evidence alone, provided it is convincing "beyond a reasonable doubt."

The circumstantial evidence snags still haunt the case of talesmen. Arthur Gribbling, whose examination will be resumed tomorrow by the prosecution, while willing in most cases to find a verdict of guilty on the evidence, provided it is circumstantial, told the state that he would be very reluctant to find a defendant guilty on that kind of evidence in a murder case. The prosecution is not satisfied that Gribbling has fully explained himself on this point, and the state will interrogate him, briefly tomorrow.

Only seven members of the fifth venire remain besides those in the box now, and the drawing of a sixth venire probably will be necessary before the end of the week. There are approximately six hundred names in the jury wheel.

WINTER WEATHER PREDICTED FOR THIS WEEK

Washington Bureau Forecasts Pronounced Changes With Low Temperatures Throughout Country.

(By Morning Journal Special Leased Wire.) Washington, Nov. 12.—A touch of winter will be felt over practically the entire country this week and there will be many sudden changes in the weather, according to the weekly weather bureau tonight.

"The coming week," says the bulletin, "will be one of pronounced weather changes and low temperatures over practically the entire country. The cold wave that now covers the middle west, will advance rapidly eastward and give the lowest temperatures of the season the first two days of the week throughout the eastern and southern states and abnormally low temperatures will continue in the interior districts east of the Rocky Mountains."

"An extensive disturbance that is now off the north Pacific coast will advance slowly eastward and be attended by the first part of the week by stormy weather in the north Pacific states. It will cross the Rocky Mountains Tuesday, the middle west Wednesday or Thursday and the eastern states the latter part of the week; this disturbance will be preceded by general clearing, warmer weather, be attended by rains in southern districts and snow in northern districts and will be followed by a change to colder weather over the northern half of the country."

DOWN TO SIX ABOVE ZERO AT KANSAS CITY

Kansas City, Mo., Nov. 12.—After falling to six degrees above zero at 8 o'clock this morning, the thermometer gradually rose here today. At 7 o'clock tonight it registered 21. It has been clear all day.

The sudden blizzard of last night and this morning caused householders all over town to turn on their gas stoves and grates and there were more than twenty fires today due to this one cause. The gas pressure is low and many are unable to heat their houses. There is no heat in the street cars, due to a recent breakdown at one of the power houses.

Throughout Kansas and Missouri the temperature is rising and weather observers predict a much warmer day tomorrow. Reports from the western part of Kansas say that more weather was reached there this morning.

COLD WAVE COMING ALONG GULF COAST

New Orleans, La., Nov. 12.—A cold wave along the Gulf coast from Texas to Brownsville, Tex., was predicted by the local weather bureau today. Temperatures will be 24 to 28 degrees in the Louisiana and the Texas sugar and trucking regions Monday morning.

SECOND STORM IS HEADED FOR NORTHWEST

Seattle, Wash., Nov. 12.—The storm which held the Pacific northwest in its grip all of last week had barely passed on to the middle west when another disturbance began to make itself manifest off the north coast. The forerunner of the second storm was felt along the Washington and British Columbia coasts today when a sudden gale sprang up from the southwest and for a time threatened to play havoc with shipping.

The gale lasted only a short time, but it caused much uneasiness among shipping men. The weather bureau announced that a storm which was moving toward the coast from the northwest, was expected to strike the Puget Sound country early tomorrow morning.

Snow fell in Seattle and other northern cities all last night. Trains from the east are arriving from three to six hours late. The depth of the snow varies in the mountain sections, the Northern Pacific reporting two feet at Stampede Tunnel, while the Great Northern has six feet of snow along its line.

CHICAGO COLD WAVE EXACTS DEATH TOLL

Chicago, Nov. 12.—The cold wave and wind storm which swept down on Chicago and the upper lake region following yesterday's record maximum temperature of 74, took a toll of death from this city, both afloat and ashore, according to reports tonight. Two men were reported to death in Chicago today. A fishing party of seven men in a gasoline launch was reported missing and a lumber barge with a crew of seven was torn from its tug and swept across the lake. Its crew was saved.

The two men who were frozen were Thornevald Tomensen and Henry Green. The bodies were found this morning when the temperature was the coldest recorded today. Each is thought to have been stunned by slipping on the ice and to have frozen to death where he fell.

Chicago broke three weather records in the twenty-four hours beginning yesterday noon. The temperature Saturday afternoon was 74, a maximum record for November 11. At 5 this morning the thermometer registered 13, a minimum record, while a third record was a sixty-one degree drop in seventeen hours.

Today the wind blew at an average of forty miles an hour and much damage was done to shipping vessels on the lake were endangered.

Backache, Headache, Nervousness and rheumatism, both in men and women, many kidney trouble. Do not allow it to progress beyond the reach of medicine but stop it promptly with Foley Kidney Pills. They regulate the action of the urinary organs. Tonic in action, quick in results.

J. T. Barker, 2021 No. 16th St., Ft. Smith, Ark., says that he had taken many kinds of kidney medicine, but did not get better, until he took Foley Kidney Pills. No matter how long you have had kidney trouble, you will find quick and permanent benefit by the use of Foley Kidney Pills. Start taking them now. J. H. O'Reilly.

NEWS NOTES FROM NEW MEXICO AND ARIZONA

SANTA FE BOOMS NEW TOWNS ON CORMOR CUT

The Santa Fe railroad is beginning to boom the new towns along the Cormor cut-off. The road bought several thousands of acres of land along the route and the new town will take, and the section traversed will soon be settled with farmers. A dozen or more new towns will be built. Cormor is going to get the benefit of the cut-off in a short time, and will grow at a rapid rate. The railroad is a sure thing. — Springer Stockman.

RATON CONDUCTORS HOLD ANNUAL ELECTION

Raton division of the Order of Railway Conductors met the first of the week and elected the following officers to preside over the order during the coming year: C. C. O. P. Coleman, A. C. C. M. C. Deubler, S. and T. R. F. Purdy; S. C. H. C. Kroner, J. C. A. H. Cecil, L. S. C. W. Burns, O. S. J. P. Downer.

WILLIAMS STILL HOPES TO BECOME DIVISION POINT

Santa Fe engineers say the company is figuring on making Truxton, a siding about one hundred miles west of Williams, a division point. The Postal Telegraph company has had a large force of men moving their line at that point for the past three weeks to make a clearance for trackage and buildings. Work on the new roundhouse at Seligman is also being rushed, and with the track island train, which will soon be using the Santa Fe tracks from a point in New Mexico to the coast, and another through passenger train soon to be put into service by the Santa Fe, helping to swell the enormous traffic, there seems to be a very bright chance for Williams again becoming a division point. — Williams News.

PASSENGER DIES ON TRAIN NEAR FLAGSTAFF

Mrs. Ann McDonald, a passenger on No. 1 died between Winslow and Flagstaff last Saturday of heart failure. She was accompanied by her daughter and sister, Miss Gordon, a trained nurse. They were on their way from Scotland to San Francisco when the lady passed away. The funeral services were held at the Whipple undertaking parlors and the remains entered here Sunday. Miss Gordon and Miss McDonald will remain in Flagstaff a few weeks. — Cocconino Sun.

DEATH INVADERS TWO GALUP HOMES

Early Saturday morning, November 4, 1911, A. H. Smith, a well known resident of Gallup, died suddenly at his home in this city, says the Gallup Republican. Mr. Smith contracted a cold a few days previous, which, however, was not serious, and at the time of his death, he was thought to be improving. He arose from his bed to get a drink of water, apparently feeling better, when he received the summons to his final account. Heart failure is ascribed as the immediate cause of his death. He was employed on the Santa Fe as a brakeman between Gallup and Belen. His body was held here until Thursday morning to await the arrival of a brother of the deceased. His mortal remains left on No. 1 of that day for Los Angeles in which city he was interred.

Superintendent John Jennings, of Gilson, died Saturday at his father's home, after a prolonged illness, dropsy being the immediate cause of his death. He was a young man of promise and worth and was formerly a student at the agricultural college.

John Jennings, Jr., aged 23, son of Superintendent John Jennings, of Gilson, died Saturday at his father's home, after a prolonged illness, dropsy being the immediate cause of his death. He was a young man of promise and worth and was formerly a student at the agricultural college.

John Jennings, Jr., aged 23, son of Superintendent John Jennings, of Gilson, died Saturday at his father's home, after a prolonged illness, dropsy being the immediate cause of his death. He was a young man of promise and worth and was formerly a student at the agricultural college.

This Week's Games to Decide Football Championships

Honors as Between "Big Four" and "Big Eight" Elevens Will Hinge On Outcome of Contests Scheduled For Coming Saturday; Yale and Princeton Clash in East; Minnesota and Wisconsin in West.

Football has reached its semi-final stage. In the middle-west the week-end may set the championship of the "Big Eight" in that section decided, and also may see the championship of the "Big Four" in the east claimed.

The Minnesota eleven, whose uninterrupted succession of victories in the central west has made that team a favorite, meets the strong Wisconsin team at Madison Saturday and if the former wins, the championship of the inter-collegiate conference goes to Minnesota. If the Minnesota team and Wisconsin meets defeat in Chicago a week later, the three teams named will be tied for the premier honors.

The championship of the old "Big Four" in the east will also likely be decided if Princeton wins from Yale next Saturday, as the Tigers already have taken a game from Harvard and Dartmouth however, have been by the smallest margins and the Tigers have twice been tied—by Lehigh and by the Navy. For these reasons and Yale's showing (all against teams which Princeton has not met) Old

show a capacity of 1,000 tons per day, if the machinery, which has been ordered, were installed. It is proposed to increase this development, which is now going on rapidly, so that the capacity in the near future—when the machinery at present to be installed—from the present opening should insure an output of from 2,000 to 2,500 tons per day. Great progress has already been made in this work and it is hoped that it will be complete for the 1,000 tons output on or about the first of the year.

RAILROAD MEN SLUG SUPPOSED SPOTTER

A man who gave his name as J. L. Williams and who says he recently removed to this city in search of work was attacked in front of the Brookhill bar at midnight last night by two men supposed to be employees of the E. P. and S. W. According to Williams' story, he stepped out of the Brookhill bar when an unknown man assaulted him charging him with being a "spotter." No sooner had he broken loose than another unidentified man came along and pretty nearly finished the job which the first assailant called loudly for help and when the police arrived the assailants had disappeared. At first he refused to swear out a warrant but later informed the police he would file affidavit this morning.

Williams says he is not connected with the railroad as a "spotter" or in any other capacity. — Douglas Dispatch.

IMPORTS OF POTASH SALTS

Statement of Commerce and Labor Department Shows Trade Aggregating Million Dollars Monthly.

The recent announcement by the department of agriculture and from other sources regarding discoveries of large supplies of potash in the United States tends interest to a statement prepared by the bureau of statistics, department of commerce and labor, showing that the importation of potash salts is now running at the rate of over a million dollars a month, and has aggregated since 1900 approximately seventy-five million dollars.

While these potash salts enter the country in various forms and thus under various titles, including muriate of potash sulphate of potash, carbonate of potash, kainit, etc., their aggregate import value in the nine months ending with September, 1911, was eleven and one-half million dollars, against about seven million in the corresponding months of 1910 and a little over five million in the corresponding months of 1909, thus indicating a steady and rapid growth in the importation of this class of products. Taking the figures for fiscal years, the total for 1911 was fourteen million dollars, compared with more than twelve million in 1910, less than four million in 1909 and less than two million in 1908.

The principal classes of potash salts imported into the United States are, in the order of magnitude of imports in the fiscal year 1911: kainit, 1,200 million pounds; muriate of potash, 431 million pounds; sulphate of potash, 166 million pounds; carbonate of potash, 23 million pounds; nitrate of potash, or crude saltpetre, nine million pounds; caustic potash, seven million pounds; and all other salts of potash, six million pounds. Measured by value the largest importations during the year occurred in the muriate, six and one-half million dollars; kainit, two and two-thirds million; the sulphate, nearly two million; and the carbonate, three-quarters of a million dollars.

American farms absorb a large proportion of the imported salts, most of which are valueless as fertilizers by reason of their large contents of potash. This is especially true of kainit, muriate of potash, and the sulphate of potash. Nitrate of potash, or crude saltpetre, is chiefly used in the manufacture of gunpowder and nitric acid; caustic potash, in the manufacture of soap; and carbonate of potash, or "potash," as popularly called, obtained largely from the ashes of certain land and marine plants, is used in the manufacture of soft soap, for cleansing purposes, in dyeing, and for the emulsifying of oils; while the chemical and other in-

ALBUQUERQUE NEW MEXICO

HAGERMAN SEES CAUSE FOR REJOICING.

Interviewed at his home in Roswell last week, Governor Hagerman, who played an important part in the campaign just closed, is optimistic concerning the outlook for New Mexico and looks for the immediate opening of an era of prosperity for the new state. Governor Hagerman said: "The men controlling the republican organization of New Mexico have for years used their power shamelessly and ruthlessly and with utter disregard for the wishes of the people. They grew so drunk with power and were so overbearing in their conceit that they believed nothing but their endorsement was necessary to carry a cause or elect a man—no matter how unworthy the cause, no matter how unfit the man. They thought that whenever they—the self-constituted captains of the republican machine—put their label on a man, every republican would swallow him. This sort of thing has worked for a good while, but the point of saturation was reached when they nominated Mr. Bursum for governor. This was too much, and some five or six thousand republicans have rebelled and proved that they would not stand for it.

"While Bursum's nomination was the straw that broke the camel's back, that act in itself was only a culmination of a series of acts extending over many years, all of which showed an utter disregard of public opinion. In the legislature, at the constitutional convention, in the party conventions these men who insisted on the nomination of Mr. Bursum, have for years, through money, intimidation and shameless appeal to party regularly succeeded in maintaining their control. They have been absolutely deaf to the call of the people, utterly destitute of political foresight, and the result is that the people at last aroused—have declared against them with no uncertain voice.

"The people have rescued the new state from the dangers of ultra-conservatism, of reaction and gag rule. They have elected a good man for governor and should give him their support in his efforts to avoid the dangers of conservatism on the one hand and ultra-radicalism on the other. What New Mexico now needs above all things is a calm, dispassionate, honest administration of its public affairs, so that everyone within and without the state may have confidence in the stability and regularity of our institutions.

"Such confidence could not have been secured with Bursum and his crowd in office—it will be with McDonald in office if his friends and party associates accept the moderate, straightforward, business methods which he stands for. I believe a new era of prosperity has started in New Mexico. Let everyone now forget the animosities and bitterness of the recent campaign and join together to make New Mexico one of the best states in the union. I am certainly willing to do this, and I hope everyone else is too."

THE WOMAN JUROR.

Woman has acquitted herself triumphantly at the very point where her critics had been most doubtful. If we have equal suffrage, we have been told, and juries of women, look out for a reign of prudence and petty censorship. Yet it has oddly happened that California's first jury of women had for its first duty to try an editor on the charge (brought no doubt by men) of publishing an obscene and indecent newspaper, and waited only twenty minutes to return a verdict of not guilty. The editor had simply reported in his newspaper the words used to him by a hostile town trustee. Profane speech, decided the jurors, and not indecent, and added that such words were less of a shock in a newspaper than when heard while passing a saloon. "Yet such men are never arrested," said the juror. "They have heard enough of fire on the head of the accused editor, who had been opposed to woman suffrage. Who says that women cannot be magnanimous?"

Occasionally serious delay is encountered because of the necessity of removing a too conspicuous price tag from a toga.

THE NEW MEXICO REVOLT.

The returns from New Mexico come under the head of GREAT NEWS, says the "Rocky Mountain News," of Denver. The smashing of the republican "machine" is as fine as food after famine, soil in the sand or a bubbling spring in the desert. Here was a case where Special Privilege had the people roped, hog-tied and practically blinded. There did not seem a chance in a thousand that the popular revolt would win to the slightest success.

The plutocrats were in absolute control of the constitutional convention. The "federal machine" rolled over all attempts at independence, and framed a document that established a virtual oligarchy. Mr. Taft approved these proceedings with extremist unctious, and enthusiastically urged Arizona to adopt a like constitution. What Arizona did to him is now history.

But when Mr. Taft vetoed the Arizona constitution, he had also to veto New Mexico's for the two were linked. And when the dangerous document was returned to the voters of Arizona, the New Mexico constitution went back with Senator Owen's provision that the people should have another chance to vote on that clause which practically forbade amendment. As a consequence, the "blue ballot," authorizing such change in the constitution, as would make it easy of amendment, was tacked on to the regular ballot.

The "federal machine" lined up solidly against the blue ballot and in support of a "safe and sane" ticket. All the corporation democrats flopped over to them, and money and coercion were used with the utmost lavishness. But the decent democrats and recent republicans fused—they made the people understand—and the people WON!

Never was anything quite so encouraging, for if the people can win in New Mexico, they can win anywhere.

Critics of the higher education as manifested in football and other college athletics should note that a former Princeton football player, as head of the Young Men's Christian association of Pekin has organized a corps of volunteers for the defense of foreigners in that city.

It is quite probable that there will be some changes in the territorial penitentiary about the first of the year. Among other things a regulation is likely to be promulgated which will prohibit convicts from taking part in political campaigns and exercising the right of franchise.

Lexington, Ky., population 35,099; Lawrence and Lowell, Mass., population 85,892 and 106,294, and Salt Lake City, Utah, population 92,777, adopted the commission form of government last Tuesday. This new idea will have plenty of experiment tests to prove its value.

If it takes such intellectual lights as Governor Wilson four minutes to mark a ticket in New Jersey and President Taft seven minutes to mark one in Ohio, the need of a shorter and simpler ballot for the average man is made more impressive than ever.

The annual death roll of 10,396 exacted by the railroad systems of the United States is a national disgrace which cannot be excused by any necessity of pioneering and expansion. The country is still comparatively young, but it is old enough to know better.

In the twelve months ending June 30 last the railroads of the United States killed 10,396 persons and injured 150,159. The war in Tripoli is a small affair to the yearly work of the railroads in keeping down the increase of population.

If the genial Wu Ting-fang lives to be 150 years old, as he once announced he expected to, the story of the present rebellion will form an excellent subject for reminiscences in the latter part of the present century.

The Maine prohibition vote has been finally counted. The Utah has accepted the Mormon silver service. Curzon has bought Tattershall Castle, the election is over, and now we go forward to new issues and Thanksgiving.

It would be interesting to know what the Russian Czar, the German Kaiser and other autocrats think as they read of the disappearance of absolutism in China.

New York banks, backing the National Railways of Mexico, raised just \$13,000,000 the other day wholly regardless of the significance of the first group of numerals.

Edgar Allen Poe has been elected attorney general of Maryland. After one term in office he may be willing to have his raven again "Quoth 'Never more!'"

The ease and grace with which Buffalo Bill has retired from the show business is another example of the beneficial results of long practice.

American voters, even in the absence of the recall, manage to dispense with a number of public servants on comparatively short notice.

A NEW CHICAGO CRIME.

To a professor in the University of Chicago is due the discovery of a new crime, the crime of wearing good clothes. "To be conspicuously well dressed on the streets," says Prof. Alban Hobson of that institution of the higher learning, "is to constitute yourself a menace" to the morals of "the child brought up in the communal atmosphere of the home," who is thereby tempted to steal.

The discovery is important, but whether more so as a contribution to criminology, to sociology or to the philosophy of clothes is a question. There has been a theory that good clothes by increasing the self-respect of the wearer conduced to good morals. The hypothesis, it seems, took no account of their adverse effect on the morals of those not able to afford them.

But if wearing good clothes tempts others to theft, possessing an automobile or exhibiting any visible evidence of wealth beyond that of other people must logically exercise a bad moral influence.

The theory puts a light estimate on American character. It incidentally helps to explain why so little weight now attaches to the public utterances of one class of college professors.

The Providence clergyman who performed the Astor-Porcia marriage ceremony has resigned his ministry and will go into business. If the reports of the fee he received from Astor were correct he will have more than a shoestring to start on.

Rev. Herbert S. Bigelow, of Cincinnati, wants to "make politics as popular as baseball." All he will have to do is to induce everybody to play the game on the square.

The average citizen is coming to bank less and less on any predictions the state committee may make. Both of them were away off in this contest.

The trusts had better be good or somebody will start a movement to have protection for Wall Street lambs included in the wool schedule.

An English critic tells American women that the hoopskirt would "interfere with your rush and bustle." Why drag in the "rush?"

Passing a civil service examination is easy compared to the task of qualifying for a Los Angeles jury.

Chicago is talking of abolishing the "small steak," but that may mean only making the price larger.

Captain Hobson can soon find out what a real yellow peril is like by starting at once for China.

In Lighter Vein

Warned in Time.

A soft answer sometimes disarms. A story is here told of a landlord on the North Shore. A guest, seldom satisfied, came to him and said: "Mr. Smith—that was not the landlord's name." "Mr. Smith, your coffee is rotten." The landlord shook him by the hand. "Thank you, sir, thank you. I haven't had my breakfast yet, and I'll skip the coffee this time. Much obliged."—Boston Herald.

Not Hard to Believe.

A certain lady called up her grocer by telephone the other morning and, after she had sufficiently accosted the man who responded, said: "And what's more, the next order you get from me will be the last I'll ever give you."

"If I probably will, madam," said the voice at the other end of the wire: "you are talking to an undertaker."

Why He Went to College.

"Why did you come to college, anyway? You are not studying," said the professor.

"Well," said Willie, "I hardly know exactly myself. Mother says it is to fit me for the presidency. Uncle Bill says to sow my wild oats. Sis says to get a chunk for her to marry, and pa says to bankrupt the family."—National Weekly.

His Own Medicine.

The druggist had died and his spirit appeared before the golden gate.

"What do you want here?" asked St. Peter.

"I'd like to come in," answered the spirit.

"I'm sorry that we can't let you in to heaven, but we have something just as good that I can cheerfully recommend."—Judge.

Not For Him.

"Look here, Dinah," said Blinks, as he opened a questionable egg at breakfast. "Is this the freshest egg you can find?"

"Now, uh," replied Dinah. "We done got a half dozen laid this mornin' uh, but de bishop's comin' down here in August, uh, and we's avin' all de fresh eggs for him, uh."—Harper's Weekly.

Foolish Question.

The editor of the woman's page was on his vacation and the sporting editor had jumped into the breach.

"Well, what do you think of this?" he snorted as he held up a perfume communication. "Here's a real woman wants to know how to make a lemon tart; just as though a lemon wasn't tart enough already."—Life.

Well Remembered.

Mrs. Knecker—You never remember our wedding anniversary.

MEADOW CITY ELKS LAY CORNERSTONE OF CLUB HOUSE

Impressive Ceremonies Yesterday Marked Initial Step in Construction of Magnificent Edifice to Cost \$30,000.

(Special Dispatch to the Morning Journal) Las Vegas, N. M., Nov. 12.—With impressive ceremonies Las Vegas Lodge No. 408, R. P. O. Elks today laid the cornerstone of their new clubhouse which is to cost \$30,000 and take rank with the most magnificent edifices of this order in New Mexico.

The cornerstone laying exercises were held at 2 o'clock in the afternoon. Exalted Ruler George H. Hanker and the other officers of the lodge conducting the ceremonies. Dr. Frank H. H. Roberts, president of the New Mexico Normal university, delivered the principal address.

In the cornerstone, which was made of concrete and lined with an alight lead box, were placed mementoes of the occasion.

The new clubhouse, which is to be built on the corner of Douglas avenue and Ninth street, within two blocks of the business section of the city, will be an imposing structure of buff brick, following the ancient French style of architecture. It will be trimmed in white stone and further ornamented by a tile roof. Special pains in the plans have been given to comfort as well as luxury. It will be two stories with full basement and gabled roof. The first floor will be devoted to a reception hall, ladies' parlor, drawing rooms, buffet and billiard rooms.

The second floor will include the lodge hall, bed rooms for bachelor members and sun parlor. In the basement will be bowling alley, shower baths, gymnasium and dressing rooms.

Though the oldest lodge in New Mexico, the Las Vegas Elks have delayed constructing a lodge home until they could properly finance such a venture. When completed their clubhouse will be all but paid for, it is believed. The lodge is in the best financial condition, perhaps of any lodge in New Mexico.

The final completion of the clubhouse is scheduled for next spring, when a big housewarming will mark its formal dedication. Members from all over the new state will be invited to take part in this memorable event.

BANQUET IN HONOR OF POPULAR VICTORY

Magdalena Progressives and Democrats Fittingly Celebrate Triumph of Clean Government at Polls.

(Special Correspondence to Morning Journal) Magdalena, N. M., Nov. 12.—The democrats and progressive republicans of Magdalena and vicinity Friday night held a fitting celebration of victory in the recent election. The celebration took the form of a banquet at the Home restaurant at which a number of well-known local speakers made addresses. The speeches were all along the same line and dwelt on the downfall of the gang, which has long ruled in Socorro county and in the state, and on the prospects for an era of prosperity for the new state under the clean government which is guaranteed her as a result Tuesday's battle of the ballots.

Among those who attended the affair were the following gentlemen: all of whom have taken an active part in the fight for good government and the overthrow of ring rule in Socorro county: J. W. Taylor, S. Michaels, John Kane, T. D. Allen, Ben Cox, A. W. Chase, Dr. M. McCreary, Dr. R. A. Thomas, Cole Ralston, W. M. Borrowsdale, E. L. Fortune, the successful democratic candidate for county clerk; J. B. Crusan, E. S. Spindler of Albuquerque, A. L. Danner, E. G. Nickel, T. G. Matthews, E. W. Wodewest, C. E. Moore, O. M. Sakaralson, S. M. Craig, H. W. Hardy, Oscar Rodemann, A. J. Cooley and N. D. Sherman.

The banquet was in charge of the manager of the Home restaurant and was gotten up in a manner that reflects the greatest credit on that popular establishment. Following was the menu:

Martini cocktail, wines, nuts, Oyster stew, fried oysters, fish, roast pork, apple sauce, salads, coffee, cakes and cigars.

A ball followed the banquet which was well attended, and altogether the evening was one of the most enjoyable in the annals of Magdalena.

M'INTOSH POSTMASTER ARRESTED FOR SHORTAGE

(Special Dispatch to the Morning Journal) Santa Fe, N. M., Nov. 12.—Ulrick O. Scher, postmaster at McIntosh, Terrence county, has been arrested, charged with the embezzlement of \$350 of postoffice funds. The discovery that Postmaster Scher was short in his accounts was made two weeks ago by a postal inspector, following a check-up of the McIntosh postoffice.

What the Editors Are Saying.

Ferguson Looks Good.

It will look good to see Hon. H. P. Ferguson sitting in congress from the new state of New Mexico. Ferguson was a delegate in congress from New Mexico during the first term of Mark Smith and they will both be back in the harness, serving real states and having a right to vote.

—Douglas, (Ariz.) International.

An Important Campaign.

The hottest political campaign New Mexico has ever seen is now past, but the Messenger is just commencing another campaign—that of boosting the Estancia valley.—Meriarty Messenger.

A Progressive Hubbell.

The republican candidates have selected an organizer and a progressive in J. Lorenzo Hubbell of Apache county for chairman of the state central committee.—Tucson, (Ariz.) Citizen.

Will Astonish Judge Leahy.

Judge William H. Pope, the present chief justice of New Mexico, will be federal district judge of the new state. C. M. Foraker will continue as United States marshal, and D. J. Leahy will retain his seat as United States district attorney. All good men.—Deming Graphic. The usually well informed editor of the Graphic evidently has overlooked the election of D. J. Leahy as judge of the Fourth judicial district by an overwhelming majority.

One Bad Loser.

For ways that are dark and tricks that are "vain," the New Mexico democrat is original. A more nauseating campaign of slander, vilification and wanton misrepresentation is unknown in western politics. They didn't get enough in rewards to buy soap for a much needed bath.—Eaton Range.

A Wise Old Owl.

At 10 o'clock on Tuesday evening the New Mexican informed Colonel Ralph E. Twitchell and sent out a cipher dispatch stating that McDonald had been elected governor of New Mexico by two thousand majority. At midnight it posted a bulletin in front of the New Mexican office that he had been elected by 2,400 majority. This remarkably quick determination of the result of the election was obtained by comparing the returns from a score of so of scattered precincts with the returns for Delegate Andrews in 1908, and multiplying the result by the number of precincts in the territory. This law of proportion or of averages never seems to fail, even when it comes to judging what seems so fickle a thing as human nature. In the last analysis, it proves that even human nature the world over is of almost mathematical sameness. Later partial returns in the lump from and by counties, which furnished no exact basis for comparison because they failed to give the returns precinct by precinct, caused the New Mexican to waver in its reliance in the result as worked out four hours after the polls had closed on Tuesday, but finally the early calculation has been verified and the law of averages and proportion was again vindicated.—Santa Fe New Mexican.

No Whitewash Shop.

The "bright young lawyer" that the republican newspapers have been trying to pose for the amusement of their readers has been elected judge of the supreme court of the state of New Mexico, and he isn't going to conduct his court as a whitewash shop, either. People will get justice in Judge Hanna's court.—Santa Fe Eagle.

Without Significance.

The New Mexican election so far as the returns to date indicate, is without any extraordinary significance. That Bursum and the state ticket would be defeated was generally believed in advance. There had been for some years opposition within the republican party to the faction of which Bursum was the representative, but it had never seemed worth while to the opposition to organize. Statehood gave it a reason for organization and the progressive-republican-democratic coalition was formed. This was loosely described as a progressive movement when, in fact, it was nothing more than a vigorous protest against ring rule.—Bisbee, (Ariz.) Review.

Tired of Being Bulldozed.

Roswell, N. M., Nov. 9. Editor El Paso Herald: You ask my opinion on the election. The result simply shows. It seems to me that the people of New Mexico are sick and tired of being browbeaten and bulldozed by a few men, who, under the label of republicanism have for years tyrannized over this territory and used New Mexico merely for their own political advancement and private gains. It shows that the people are thoroughly aroused and that they will never again stand for the kind of men who have largely controlled New Mexico during the past ten years. It is distinctly a people's victory, a victory for good government and progressive ideas.

H. J. HAGERMAN.

A Mail Carrier's Load.

Seems heavier when he has a weak back and kidney trouble. Fred Dueron, Mail Carrier at Atchison, Kan., says: "I have been bothered and had a severe pain across my back. Whenever I carried a heavy load of mail, my kidney trouble increased. Some time ago I started taking Foley Kidney Pills and since taking them I have gotten entirely rid of all my kidney trouble and am as sound now as ever." J. H. O'Reilly.

DISCOVERY OF VAST IMPORTANCE TO FARMERS

Unlimited Supply of Potash is Found in West According to Announcement of Secretary of Agriculture.

(Special Correspondence to Morning Journal)

Washington, D. C., Nov. 11.—The secretary of agriculture has made the statement that "we feel sure that we have discovered an unlimited source of supply for all the potash this country can consume. I cannot make public at this time the source of our discovered supply because I have made a special report on the matter to the president. This report will form part of the president's next message to congress. The reported find of big potash deposits near Hollowfield, Md., will if the mines are productive of large quantities, be invaluable to the farming interests of the country." The agricultural department find will in no way clash with this Maryland discovery. The secretary says: "This Maryland discovery is in no way connected with my recent printed statement that the department of agriculture had recently discovered a source of supply of potash in the west."

"My reason for not making public the location of our discovered source of supply can be understood when I tell you that I have made a special report to President Taft on this subject. Precedent and the courtesy of a cabinet officer to the president in such cases would not permit me to make public this matter. We feel sure that we have discovered an unlimited source of supply."

At the same session of congress that made the appropriation for the prospecting work of the agriculture department for potash mines the sum of \$25,000 was given to the geological survey for the same purpose and three of their field experts are now at work in the arid west. Their reports are not yet in, however.

The geological survey today discredited the Maryland discovery stating that the feldspar that was discovered while it contained a great quantity of potash there as yet was no known way of extracting the same and that this source of Maryland potash had been known to them for years and many experiments in extracting the potash had been invented without commercial results.

The Chicago Post says: "Would it not be a delicious bit of international humor should the reported discovery of extensive potash deposits in the west prove true. Here we have been scheming, begging and fighting to get Germany to let us have some of this almost priceless fertilizer. Germany, secure in the belief that she has a 'corner,' has not only put self-preservation first, but put consideration for us a very bad second. With our own deposits of potash at home, we could turn the tables by a few tariff restrictions on German fertilizers." But the main gain on the whole to America from this potash deposit says Professor L. H. Bailey of Cornell, is that there are four indispensable substances in the growth of plants, and that the first is potash, therefore as a renewer of the soil there is no substance that will take the place of this same potash.

Those states of the west and southwest where the discoveries have occurred are to be doubly blessed with a new mining industry and the use of the fertilizer that will lay at their doors.

Coughing at Night

Means loss of sleep which is bad for everyone. Foley's Honey and Tar Compound stops the cough at once, relieves the tickling and dryness in the throat and heals the inflamed membranes. Prevents a cold developing into bronchitis or pneumonia. Keep always in the house. Refuse substitutes. J. H. O'Reilly.

LEGAL NOTICE

NOTICE OF SALE OF REAL ESTATE

Notice is hereby given that on the 9th day of December, 1911, at 2 o'clock p. m., at the south door of the Curry county court house, in Clovis, New Mexico, I will sell at public auction to the highest and best bidder for cash, the following described real estate, to-wit:

The west half of the southwest quarter, southeast quarter of the southwest quarter, and the southwest quarter of the southeast quarter, Section Twenty-eight, Township 8 North, Range 36 east of the New Mexico Meridian.

That said real estate will be sold under and by virtue of a judgment and order of sale issued out of the District court of Curry county, New Mexico, on May 16, 1911 in favor of Eliza E. Roberts, plaintiff, against Thomas T. Hollis, and Allie Hollis, defendants, for the sum of \$546.00, and for the further sum of \$24.60 as attorney fees, and directing that the real estate mortgage held by said plaintiff and sued upon therein be foreclosed by the sale of the above described real estate to satisfy said indebtedness and costs.

POSTAL SAVINGS BANK BONDS

Information Concerning Securities to Be Issued By Government On First of January Next.

Postmaster General Hitchcock has issued a circular letter of interest to depositors in postal savings banks. The postmaster general describes the new postal savings bonds and the manner in which depositors may convert their savings into this form of security. The circular is as follows:

Description of Postal Savings Bonds.—A depositors of the postal savings system may exchange the whole or a part of their deposits on January 1, 1912, for United States registered or coupon bonds in denominations of \$5, \$10, and \$50, bearing interest at the rate of 2 1/2 per cent per annum, payable semi-annually, and redeemable at the pleasure of the United States after one year from the date of issue, both principal and interest payable 20 years from that date in United States gold coin.

Postal savings bonds are exempt from all taxes or duties of the United States, as well as from taxation in any form by or under state, municipal or local authority.

Conversion of Deposits.—Applications for the conversion of deposits into bonds on January 1, 1912, must be received before December 15, 1911, by the postmaster at the depository office where the certificates were issued. The postmaster will supply an application form which must be made out in triplicate. The depositors must endorse and surrender certificates covering the amount of the bonds desired, for which the postmaster will give him a receipt. When the postmaster receives the bonds applied for he will notify the depositor and will deliver the bonds on presentation of the receipt for the certificates surrendered.

The conversion of deposits into bonds at a date less than one year after the certificate began to bear interest forfeit interest on the deposits in the case of withdrawal for any other purpose.

Postal savings deposits converted into bonds are not counted as a part of the maximum of \$500 allowed a depositor, and there is no limitation on the amount of available postal savings bonds which may be acquired finally by a depositor. The exchange is considered as taking effect on January 1, and a depositor who has applied to convert into bonds all or part of the maximum balance of deposit in January, though the bonds may not yet have been delivered.

Postal savings bonds can be procured only by the conversion of postal savings deposits and will not be issued to persons who are not depositors. They may be sold or assigned to any person, however, by the holder, and when a registered bond is assigned a new bond will be issued in the name of the owner.

Registered and Coupon Bonds.—The depositor's application must indicate whether bonds are desired in registered or coupon form. Coupon bonds are preferable for a depositor who intends to hold them for a short time only, and who has ample facilities for their safekeeping. These bonds are payable to bearer, and the title will pass by delivery without indorsement. Interest on coupon bonds is collected by means of interest coupons, which are detached by the holder as they become due.

Registered bonds are preferable for persons intending to hold them for a considerable period, and they differ from coupon bonds in the following respects:

(a) They have inscribed upon their face the names of the persons to whom they are issued.

(b) They are payable only to the persons to whom issued or their assigns.

(c) The ownership of registered bonds can be transferred only by assignment in proper form.

Assigned bonds are assigned by the use of a form printed on the back, properly dated and acknowledged. When the assignment is made by mark, it must be witnessed by at least one person other than the officer before whom it is made. A larger account is opened in the treasury department at Washington with each holder of one or more registered bonds, and when such bonds are assigned they should be transmitted by the new owner to the secretary of the treasury (division of Loans and Currency) for transfer on the books of the department. Registered bonds can not be exchanged for coupon bonds. Coupon bonds may be converted into registered bonds, without charge, at the request of the holder.

Assignment by Minors.—Under the regulations of the treasury department a minor can not assign registered bonds without the consent of a duly appointed guardian or trustee, evidence of whose authority must be submitted. A minor has the right to convert his postal savings certificates into his minority he must comply with this regulation. This difficulty does not exist in the case of coupon bonds, which are transferred by mere delivery.

Payment of Interest on Bonds.—Interest on registered bonds is paid by checks drawn at the treasury department in favor of the registered holder. These checks are sent by mail to the post office address of the holder, and the holder of a registered bond should notify the secretary of the treasury (division of Loans and Currency) of any change in his post office address at least fifteen days before the interest falls due. Checks for interest on registered bonds, as well as interest coupons detached from coupon bonds, are payable on presentation at the United States treasury or at the office of any assistant treasurer of the United States.

States. Interest checks and coupons covering interest on postal savings bonds may be cashed by postmasters under the same conditions as other government paper.

Bonds Lost or Destroyed.—If payment on registered bonds that have been lost or stolen may be stopped by notifying the secretary of the treasury (division of Loans and Currency) at Washington. If coupon bonds are lost the government does not undertake to protect the owner against the wrongful holder, but recognizes the bearer only. The owner has recourse only in such means as he could use to recover any other valuable property. When bonds, either registered or coupon, have been destroyed wholly or in part, or defaced, a claim may be filed with the secretary of the treasury under certain prescribed conditions for their replacement. Such claims will not be allowed for coupons which have been detached from coupon bonds.

Information Relating to Ownership.—United States bonds are issued, transferred and redeemed under certain regulations as the secretary of the treasury may prescribe. Requests by holders for additional information after the delivery of the bonds should be addressed to the secretary of the treasury (division of Loans and Currency), Washington, D. C.

FRANK H. HITCHCOCK,
Postmaster General.

ACTUAL WORK ON SAN DIEGO SHOW

Big Gang Starts Operations On First Building For Exposition Which is to Celebrate Panama Canal Opening.

(Special Correspondence to Morning Journal)
San Diego, Nov. 10.—Without any flourish of trumpets, no confusion and no celebration, a big gang of men and teams began the actual construction of the first building for the Panama-California International Exposition, Monday morning, November 6th. The exposition is to open January 1, 1915, and remain open the entire year, or until midnight, December 31, 1915.

It was in September, 1909, that the first action was taken toward holding an exposition in San Diego to celebrate the opening of the Panama canal to commerce. Since that time the pluck of a city of 40,000 people has been strained half a dozen times. Civic ownership, civic management of public utilities and the greatest building boom ever seen in a city of its size have all come to San Diego as a part of the work of preparation for the exposition.

U. S. Grant, Jr., son of the great general and president, is the president of the exposition. D. C. Collier is director general. Bankers, merchants and capitalists, whose private fortunes amount to over \$60,000,000, are on the board of directors. These gentlemen have guaranteed the cost of the exposition so that construction will proceed without interruption until the exposition is finished and ready for the millions of sightseers who will come to the Pacific coast in 1915.

The general style of architecture is to be of the Spanish-colonial type, the well known and beautiful "Mission" buildings of California furnishing the motive of the architectural composition. The foremost architect in the world in this style of building, Bertram G. Goodhue, is designing the buildings. Frank P. Allen, Jr., the man that built the Alaska-Yukon exposition, is in charge of the construction.

LANDS TO DECIDE FUTURE HOME OF HEIRESS

Chicago Judge Will Pass On Case of Mary Elizabeth Miller, Whom Uncle Claims But Who Aunt Has.

(By Morning Journal Special Leased Wire)
Chicago, Nov. 12.—Judge Keneshaw M. Landis, in the United States district court, tomorrow will decide whether Mary Elizabeth Miller, 11 years old, and heiress to an estate of ten million dollars, will continue to live with her aunt, Mrs. Arthur B. Beighler, or will be sent to live with her uncle, Albert B. Miller, of Cleveland, O.

Mr. Miller, who was appointed guardian of the child by her mother, who died last June, wants her turned over to him. Mrs. Beighler is Miller's sister.

Miss Miller is the daughter of C. J. Miller, a capitalist who formerly lived in Gillespie, Ill., and at Des Moines, Ia. He died in November, 1910.

LEGAL NOTICES

NOTICE OF MORTGAGE SALE.—Whereas, in a certain action, pending in the district court of the Fifth judicial district of the territory of New Mexico, in and for the county of Currie, wherein the Axtina Building association of Las Vegas, New Mexico, is plaintiff, and Mrs. F. LEGAL NOTICE

D. 1911, recovery judgment against the said defendants, Mrs. F. W. Reeve and Fred W. Reeve, in the sum of \$558.85, together with interest at the rate of 12 per cent per annum, from said 7th day of August, 1911, until paid, together with all costs of suit, and

Whereas, it was in and by said judgment decreed and provided, that, in the event the said defendants should not pay off said judgment, within the time provided by law, then the undersigned, as special master, should proceed to sell the mortgaged premises, hereinafter described, for the purpose of making the amount of said judgment, the costs of suit and the costs of said sale, and

Whereas, the said defendants have not paid said judgment, nor any part thereof;

Now, therefore, notice is hereby given, that the undersigned, an special master, will, on

Saturday, December 9th, A. D. 1911, at 10:00 a. m. of said day, at the front door of the court house, in the town of Clovis, Curry county, New Mexico, expose for sale and sell to the highest bidder, for cash, the said mortgaged premises, and each and every part thereof, which premises are described as follows:—

All that part of the lots numbered one (1) and two (2), of block numbered fifty-nine (59) of the city of Clovis, Curry county, New Mexico, as the same is shown by the plat thereof, on file in the office of the probate clerk and ex officio recorder of Roosevelt county, New Mexico, and described as follows: Beginning at a point on the north boundary of lot one (1), forty-six and 2/3 (46 2/3) feet from the northwest corner of said lot one (1); thence east along said north boundary of said lot (1) a distance of forty (40) feet; thence south through lots one (1) and two (2) ninety (90) feet to a point; thence west through lot two (2), forty (40) feet to a point; thence north to the point or place of beginning.

That at said sale the said special master will deliver to the purchaser a good and sufficient deed to the said premises, and the total amount due plaintiff at the date of said sale, exclusive of costs of suit and costs of sale, is the sum of \$582.20.

C. A. SCHREIBER, Vendor & Vendor. Special master, Las Vegas, N. M. Attorneys for plaintiff.

night were General Charles F. Elsiey, Ralph Elsiey, ex-Governor W. T. Thornton, and Hon. Francisco Delgadillo, auditor-elect of New Mexico, all of Santa Fe.

The head lodge of the American Yeoman are going to have a big time tonight with an supper, and an big initiation of candidates. There are some thirty in the class that will be taught how to shoot the sacred arrow, after which the festive supper will be discussed. The meeting will occur in the A. O. U. W. hall.

The regular meeting of the Bernalillo County Bar association, which was to have been held in the Commercial club this evening, has been postponed until Wednesday evening. There are a number of important matters to be taken up at the meeting of the association on Wednesday and a large attendance of the membership is desired.

FEAR LAUNCH WITH SEVEN ABOARD CAPSIZED
ALL TRACE LOST OF PARTY OF FISHERMEN
Severe Storm Raging Over Lake Michigan Probably Resulted Disastrously to Frail Gasoline Craft.(By Morning Journal Special Licensed Wire.)
Chicago, Nov. 12.—Seven men are tonight reported missing as a result of last night's storm on Lake Michigan. They left Chicago Saturday morning for a fishing trip in a gasoline launch and are believed to have been lost. The launch was reported as having passed the life saving station at Evanston, Ill., at 10 o'clock Saturday morning. No word has been received from the fishing party up to tonight.

Mrs. Mary Litz, wife of the fisherman who owned the boat, reported the launch missing. The boat went out every Saturday with a party of fishermen, and returned shortly after nightfall. The police have no information of the names of the party except Litz.

The missing launch was called "The Evening Star." A small vessel similar to the Evening Star was sighted off Waukegan, Ill., yesterday forenoon. At 2 p. m. the same vessel was sighted near the fishing grounds about a mile and a half off shore. The storm was severe. Captain Richard Smith, commander of a Waukegan tug, who saw the launch through his glasses, said the vessel displayed no distress signals, but was in a dangerous position.

The storm on the lake increased toward the end of the day and today was worse than at any time yesterday. If the launch seen yesterday did not succeed in reaching port, winter men here say there is little chance for her safety.

The coal steamer John McWilliams, with six thousand tons on board, was there a mile from Chicago harbor this afternoon. The vessel is said not to be in any danger.

STEAMER SCHOONER ASHORE OFF ASTORIA
Astoria, Ore., Nov. 12.—The steam schooner Washington, lumber-laden from Portland to San Francisco, is in a precarious position tonight near Peacock Spit off Cape Disappointment, just inside the Columbia river bar. It is not known whether the vessel is ashore or lying crippled in rough water.

It is reported here that the Washington carries a number of passengers beside a crew of twenty.

Captain George H. Bailey of the bar tug Tatoosh saw the Washington late today and tried to get close enough to render assistance. Rough water broke the Tatoosh back.

The Port Ganby life saving crew made several attempts to get a line aboard the Washington, but without avail. When darkness set in they were forced to abandon the effort. Another attempt will be made at daybreak provided theebb tide does not break the Washington up before that time.

Marine men here say practically the only hope the vessel has is that she will work ashore during the night on North beach.

The Washington sailed from Portland Saturday night. She carried about 500,000 feet of lumber, a large part of which has broken away and floated ashore. Her permit allowed her to carry thirty-five passengers.

Mrs. Harriman Endows School.
New York, Nov. 12.—Largely through the efforts of Mrs. E. H. Harriman, a fund of \$10,000 a year for five years has been provided to maintain and experimental school for study and administration of public business. The school will be started here, but the scope is intended to be national. Announcement regarding its establishment was made tonight by the bureau of municipal research with Mrs. Harriman probably co-operating.

INSLEY HOMICIDE TRIAL RESUMES THIS MORNING

Prosecution Will Continue Presentation of Its Side of Case; Speculation as to What Witnesses Defense Will Call.

The jurors in the Thomas Insley murder case spent a quiet day yesterday. They had the big court room all to themselves, in fact, they had the run of the entire court house. Three times during the day they were brought to the hall for their meals, and in the morning and in the afternoon they went out for a short exercise walk around Old Town.

The rest of the day was spent by the jurors reading and playing cards and dominoes to pass away the time. Some of them read but care was taken that nothing in the way of newspapers containing an account of the trial was allowed to get to them. They all turned in early.

The trial will resume this morning at 10 o'clock, with the prosecution still being presented. It is not known what witness will be placed on the stand by the territory this morning. It has several more witnesses yet to call before the case for the territory is presented.

What witnesses will be called for the defense is also not known. The attorneys for the defense intimated, however, when the hearing of the testimony was begun on Friday, that it had witnesses who would be called at the proper time.

So far the territory has proved that Higgins was killed in the Insley bicycle store on the evening of March 7, 1911, about 1 o'clock or thereabouts. That his death was caused by a shotgun wound in the head, has also been shown, and that shortly after the homicide, Insley was found in the back of the store, in the dark squinting down with his child near him.

The defense, by a series of cross-examinations has succeeded in getting before the jury a disagreement of the witnesses as to the time of the homicide, a disagreement as to who was the first to go into the store, and who went there first. They have succeeded in keeping out thus far the statements made by Mrs. Insley on the night of the tragedy.

SEVEN-MONTHS-OLD BABE PASSENGER ON AUTO TRIP

Mr. and Mrs. G. R. Hicks of Toronto, Canada, Stop in Albuquerque On Overland Trip to Coast.

With a seven-months-old baby swaying in a little hammock in the bosom of a big Kuehl car, Mr. and Mrs. G. R. Hicks of Toronto, Canada, arrived in the city late Saturday evening after traveling about six weeks, en route to the Pacific coast.

The party will leave some time tomorrow for the south, taking in El Paso before continuing west. It is quite likely, however, that at El Paso the machine will be shipped to Los Angeles and the final lap of the journey made on the train.

The trip has not been made with any idea of breaking records, but just for pleasure. The cold climate of Canada holds out but few invitations for an enthusiastic automobilist in the winter so the trip to the south and west, and the winter will be spent in California.

Our coal is free from rock, slate and dirt. Try a ton and see the difference. Direct Line Coal Co. Phone 29.

DEATHS AND FUNERALS.
David Blaine Thomas.
David Blaine Thomas, a well-known watchmaker, who has been a resident of Albuquerque for seven years, died at his home, 211 South Eighth street, Sunday afternoon about 4:30 o'clock, after an illness of a week's duration.

The deceased leaves a wife and a son two and one-half years old, a mother, Mrs. J. J. Thomas, and two sisters, Mrs. E. L. Medley, and Mrs. C. T. French, to mourn his loss. Three sisters and two brothers also survive, who are residents of Gallup, N. M. The funeral arrangements will be announced later.

THINGS MAY HAPPEN AT GOMPERS MEETING
Atlanta, Ga., Nov. 12.—On the eve of the opening of the annual convention of the American Federation of Labor, President Samuel Gompers tonight predicted one of the most interesting meetings in the history of the organization.

Gompers declined to forecast the action of the convention on any matter more engaging the attention of organized labor.

Mr. Gompers expects to submit his report at the opening meeting.

Although there are approximately two million union men represented at the meeting of the federation, the convention membership is limited to about four hundred. The convention probably will be in session about two weeks.

OHIO AUTO PARTY SPENDS FEW DAYS IN CITY

Ira B. Mackey and Family of Youngstown, O., Arrive in Albuquerque in Big Motor Car On Sightseeing Trip.

Travelling in a big Winton "Six" automobile, Ira B. Mackey, a prominent lumber merchant of Youngstown, O., accompanied by Mrs. Mackey and his charming daughter, Jean, and Mr. and Mrs. Ed. Kelly, also of Youngstown, arrived in Albuquerque Saturday night. The party is not making a tour from coast to coast, neither are they after any records. They are simply taking an automobile trip for the pleasure of it and when they get tired of riding they will ship their machine to a certain point and travel to it by rail.

So far none of the party are tired or give any indication of becoming dissatisfied with the auto tour. Tomorrow morning they will proceed west and take in the points of interest between Albuquerque and Phoenix, Ariz. In doing this they expect to visit the Enchanted Mesa, the Acoma pueblo and the Mormon settlement in eastern Arizona, winding up probably at Globe from whence they will follow the road down the Roosevelt dam into the capital city of Arizona.

On arrival at Albuquerque the party had travelled about 3,250 miles. Most of the trip has been made along the Santa Fe trail, but at times the trail would be left for a side trip. Thus Oklahoma City was visited, as also was Denver, Colorado Springs and Canyon City.

Mr. Mackey in speaking of the trip yesterday said: "When we started out we expected to go through Colorado by way of the main advertised high-line drive in that state, but now we are doubly glad we came this way. Not only has the weather been better than that we encountered on a side trip in Colorado, but the scenery is just inspiring and more beautiful. We have been delighted and amazed at what we have seen."

The journey is being made by easy stages, an effort being made every day to stop at a place that could afford accommodations for the party so that camping out has been avoided.

MILWAUKEE PASTOR FILLS PULPIT OF LOCAL CHURCH

Rev. Mark Wayne Williams Here to Assist Brother in Series of Meetings at Congregational Church.

Rev. Mark Wayne Williams of Milwaukee, Wis., a brother of Pastor H. P. Williams of the First Christian church, is in the city holding a series of special services and assisting his brother in a protracted meeting. The special service started yesterday and were well attended, the net result being eighteen additions to the church for the day, a very gratifying result.

Rev. Mark W. Williams is an interesting and instructive pulpit orator who commands the attention of his audience by the cogency of his reasoning and the force of his logic. He is far from being dry and illiterate, his discourses with beautiful references and word pictures in a striking manner.

The meetings will be continued every evening of this week at the First Christian church at the corner of Gold and Broadway.

A Household Medicine
That stops coughs quickly and cures colds is Foley's Honey and Tar Compound. Mrs. Anna Peizer, 2522 Jefferson St., So. Omaha, Neb., says: "I can recommend Foley's Honey and Tar Compound as a sure cure for coughs and colds. It cured my neighbor, Mrs. Benson, cured herself and her whole family with Foley's Honey and Tar Compound. Everyone in my neighborhood speaks highly of it. J. H. O'Reilly."**NURSEMAID FOILS BURGLARS BY QUICK WIT**

Summons Aid By Telephone as She Sees Two Men Creeping Up Front Stairs at Lewinson Home.

The quick wit of a nursemaid saved the house of Seymour J. Lewinson, at 620 North Copper, from being burglarized last night at about 3:30 o'clock. Mr. and Mrs. Lewinson were at the home of a neighbor, spending the evening, and the nursemaid was attending the children. A slight noise attracted her attention and she heard the front door slam immediately thereafter. Thinking, perhaps Mr. and Mrs. Lewinson had returned, she paid no attention to the noise. Soon after this she saw two strange forms creep up the stairway.

For a moment she considered what she should do, and then hurrying to the telephone called up the house of the neighbors and told them of the strange men being in the house. The burglars heard her talking and made their escape without touching anything in the house.

The police were immediately notified and began a search for the suspects. Their work, however, will be handicapped as no positive description of the men could be secured from the girl.

This is the fourth case of house-breaking in Albuquerque within a week. There has been an epidemic of burglaries during the past month.
