THE SURRENDER OF SANTIAGO!

The Details of the Great American Victory in Cuba.

STARS AND STRIPES FLOAT OVER SANTIAGO.

Washington, July 18.—The war department has issued the following bulletin: "Santiago de Cuba, July 17.—Adjutant General United States Army, Washington: I have the honor to announce that the American flag has been hoisted on the city of Santiago in the presence of an immense concourse of people, perfect order being maintained by the municipal government. The distress is very great. There is not a single person in town and scarcely any yellow fever. A small garrison and 200 women left by Cervera have surrendered to me. The obstructions are being removed from the mouth of the harbor. Upon coming into the city I discovered a perfect entanglement of defenses. Fighting as the Spanish did the first day, it would have cost 5,000 lives to have taken the city. Battalions of Spanish troops have been depositing their arms since daylight in the army, over which I have a guard. Gen. Toral formally surrendered the plaza and all the stores at 9 a. m. SHAFER."

WILL COLLECT REVENUE.
City of Santiago, Cuba, Will Pay United States Revenue Taxes.

Washington, July 18.—The United States will take immediate steps to collect customs revenue at Santiago as a war contribution. It is not improbable that a government customs office will be opened there and ready for business as early as to-morrow. This action will be taken pending final settlement of the question of the status of Cuba after the close of the war. Secretary of War and Assistant Secretary Howell are busily engaged today going over the customs schedules in force in the Spanish rule. The new rate will follow the Spanish closely those in force in Cuba and make no discriminations in favor of original citizens of any foreign country, including the United States. Any inconsistencies and excessive levies, however, will be corrected as soon as possible.

MORRO CASTLE.
The Old Spanish Fortress Losers Its Flag Today.

Under Morro Castle, harbor of Santiago, July 17, the flag flew. At 10 o'clock this morning the Spanish flag was lowered from the cliff crowning the heights upon which the Morro Castle stands. The lowering of this flag, as well as the hoisting of the American flag, were witnessed by a large number of Americans, troops on the shore and by the Brooklyn, New York, Vicksburg and Vassar, lying within a few hundred yards of the harbor entrance. Almost immediately after the flag was hoisted, steam launches commanded by Lieut. Brown and Palmer entered the harbor, pointing as far as the firing stations of the submarine mines. These mines were judged not to be so formidable as expected and later in the afternoon were all exploded under the supervision of the Vicksburg. It was seen that two mines had been exploded at the time of the entrance of the submarine into the channel. Six or seven minutes in the harbor and the Spanish garrison was taken as prisoners to the army and navy. The Spanish garrison Alvarez had already been taken possession of by a prize crew from the New York. The vessel lies at the other end of the harbor, Santiago proper.

Soon after noon Commodore Schley, with Capt. Cook, of the Brooklyn; Lieut. J. B. Sears, flag lieutenant; Lieut. R. W. Wells, flag secretary, and three invited correspondents of the Associated Press, went into the harbor on a steam launch, which moved slowly in order to make close observations of the Spanish forts and batteries.

Every one expressed satisfaction at the fact that Morro Castle was not demolished by the bombardment. Capt. Cook saying: "We need not be so anxious about the Morro as an object lesson, and Americans are rather slow to run a bluff." The old fort stands on a bluff, terrace fashion, from the waters edge to the cliff there are numerous caves formed by the action of the waves and in the superstructure are not a few caves made by the navy's projectiles. It would appear, however, that only one battery was knocked to pieces, while the queer little sentry boxes, dating back to the sixteenth century, escaped almost intact. Morro Castle is the only imposing fortification in the harbor and it is so only in appearance since not a gun is mounted upon or on the crumbled walls. In fact, all the batteries marked on the map were in ruins, in some cases the masonry was so shattered that the masonry was in ruins. These were the ones which poured such a bitter fire into the Merrimack.

Directly east of Morro castle, on the

and were moored near the wreck of the United States battleship, seeming to float over the ruin caused, while people at Havana shouted themselves hoarse, fired myriads of bombs and begged unceasingly of what the formidable cruisers of Spain would do with the United States navy should a fight ever be possible. "Surely," remarked Lieut. Commander Wainwright, of the Gloucester, formerly of the Maine, "This avenges the Maine."

Speaking of the military victories of July 1 and 2 and the naval victory of July 3, Schley said seriously: "The victories may seem not only to deprive Spain of her colonial possessions, but bring about a change of frontiers in Europe. Spain cannot get terms now which she might have had two months ago. What can she hope for in six months more of such warfare? When the gods destroy their first make mad."

Fever smitten.

New York, July 18.—The following telegram was received to day at Red Cross headquarters from Miss Clara Barton: "We will go in with navy and then discharge the Texas immediately. All points fever smitten. Do not send immune persons for us to care for. Lower and pure are recovering. No possible cause of alarm." It would seem that doctor and Mrs. Lamer and nurse have been taken down with yellow fever.

Met With an Accident.
New York, July 18.—The Evening World's Red Cross correspondent telegraphs: "Yacht Red Cross, with doctors, nurses and full supply of medicines, which left Saturday for Santiago, returned in crippled condition. When seventy miles away her tank burst. The supplies and doctors will be transferred to the first transport leaving."

INVASION OF PORTO RICO.
Gen. Brooke's Army of Occupation Ready to Sail.

Washington, July 18.—Gen. Brooke had another conference to day with Secretary of War, with reference to preparations for the Porto Rico expedition. Gen. Brooke reports that his army is now ready, and it is believed that they can be embarked within a fortnight. It is understood that Newport News will be the port of departure of a larger part of the expedition. The army of occupation is expected to consist of about 25,000 men. Two columns to accompany the expedition are at Norfolk for the purpose of putting light batteries on shore. The other having charge of the work estimated that it would take two weeks more to get batteries together and have them mounted. An order has been given that the work be completed by the end of the month. The light batteries would like to have the ships' boats, but the disposition here is to have the cleaning and repairing done as well as possible by the men on the ships, so that the boats will be in readiness by the end of the week or soon thereafter.

Yellow Fever Cases.
Washington, July 18.—Official advice from Santiago, place the entire number of fever cases at 300 or less. The surgeon general considers the situation less serious than feared.

Miners Strike.
Pana, Ill., July 18.—The attempt to-day to resume the operations by the Pana Mining company with non-union miners was a complete failure, not a miner appearing for work. The Pana company has given notice that it would resume work with non-union miners from Hillsboro. A large force of deputies were on hand to protect any men who might attempt to enter the mine, but the non-union men were intimidated by the crowds in the street. Many arrests were made. A second attempt to resume work is to be made to-morrow. The property by conveying the non-union miners to work in carriages. Serious trouble is expected.

Spain Will Fight to a Finish.
Madrid, July 18.—Defense works are being actively pushed in all Spanish ports. Newspaper assert that the United States intends to demand an enormous indemnity "in order to have a pretext to seize the Philippines as a guarantee."

Spain Will Fight to a Finish.
Schley advised the officer with the few men under his command to go up to the city and surrender as quickly as possible.

Schley then said that he was determined to have a glimpse of Santiago City, and the launch was headed along the west side of the channel, going slowly and sticking to the shallow water, lest some contact mine put an end, as the commodore remarked, "to the pleasure party." Skirting the broad lake like spots in the harbor where the Spanish fleet destroyed two weeks ago day used to be, during bombardments, which marked the channel. Punta Loma was rounded, and distant about two miles the city of Santiago shone out, the central being especially well defined, and the masts and funnels of not a few vessels showing at the wharves.

At that distance Santiago did not show any signs of destruction wrought by the eight inch shells fired on the city last Monday.

Returning to the Brooklyn, Schley expressed his satisfaction at the fact that Morro Castle was not demolished by the bombardment. Capt. Cook saying: "We need not be so anxious about the Morro as an object lesson, and Americans are rather slow to run a bluff." Serious Strike Among the Coal Miners at
Pana, Illinois.

LATEST NEWS FROM MANILA.

San Francisco, July 18.—Official of the Alaska Commercial company, whose steamer St. Paul arrived last night from St. Michael, estimates that the gold output of the Klondike region will be ten million dollars. A letter to the Chronicle from Dawson City, dated June 6th, says: "There is not to exceed twelve or fifteen miles of good proven placer claims in the Klondike district. This ground is principally on Kiderau and Bonanza creeks. Alexander McDonald, the mining king, will realize about \$1,250,000 this season, though he expected to clean up more than twice as much. Many other miners, also, are greatly disappointed."

Arctic Sea Whalers.
San Francisco, July 18.—The Call prints the news that the crews of the whaling vessels at Point Barrow, to whose relief an expedition was sent on the revenue cutter Bear, are in good condition and at no time were they in danger of famine. They owe their lives to the efforts of Charles Johnson, keeper of Point Barrow for the Lichen Trading company, who sent natives out to shoot wild reindeer. The natives killed 700 deer and food was plentiful all winter.

Last Saturday Frank Lot of one of the mail carriers in this city, skipped out, leaving numerous creditors and confiding friends to regret his downfall. Postmaster General estimates that young Lot owes at least one thousand dollars in the city. His downfall is traced to gambling. He was helped in various ways by his friends and associates. Lot was especially kind to him, and every effort was made to reform the young man, without avail. He is now a wanderer on the earth, and will go the way of young men of his class, who swindle friends and think it smart to do up the community in which they reside.

ALBUQUERQUE, — JULY 15, 1918

Two Spanish officers were caught in Mexico trying to invade Texas with an armed force.

ESTIMATES as to the necessary strength of the regular army after the war run as high as 300,000.

THE Americans have remembered the Maine with such vivacity of recollection for the last three months that the Spaniards can now be trusted to remember her for a thousand years.

It was a great day for the American army at Santiago yesterday. The ceremony of taking possession of the captured city and forts was spectacular, and Old Glory was flung to the breeze with appropriate honors.

GOT OTERO has used no political partiality in making military appointments in this territory. Two of the captains of volunteers selected—Fall and Curry—are the democratic leaders of southern New Mexico, and they are right good captains, too.

ONE of the Socorro papers insists that THE CITIZEN clipped a quarter of a column of news from one of its issues, and gave a wrong credit. This must be a mistake. It is a rare thing when a Socorro paper has a quarter of a column of local news.

THE fighting editor of El Republicano is treading on dangerous ground. That paper is making threats about what may happen to the editor of THE CITIZEN. We feel confident that we can whip the whole town of Socorro, if Col. Williams will keep out of the fight.

THE practicability of utilizing balloons in war was demonstrated at Santa Fe, where observations were made by American signal corps officers at an elevation of 2,500 feet and the result telephoned to Gen. Shafter and Admiral Sampson, thus rendering valuable assistance in directing the movements of the land and naval forces against the besieged town.

THE republican newspapers of New Mexico have urged the prosecution of the war with Spain and the prompt enlistment of volunteers from this territory. The democratic papers have criticized the war measures and have done much to prevent enlistments. They are now trying to carry favor with the native people by pretending to be great friends of the Spanish-Americans.

THE completed figures of the foreign trade of the United States for the fiscal year ending June 30, 1918, have just been made public by the statistician of the treasury department at Washington, and they show that this country's exports of merchandise were almost double the imports. The excess of exports, including silver, amounted to \$1,000,000,000. During the year the net imports of gold were \$100,000,000, so that the net trade balance due this country is the enormous sum of \$500,000,000.

MISQUOTES THE CITIZEN.
El Republicano falsifies THE CITIZEN when it asserts that this paper has seen fit to "cast aspersions on Socorro and some of her native population on account of the war." THE CITIZEN has never mentioned the native people of Socorro in connection with the war. It has asked only a few of Socorro enlisted in the volunteer service of the United States in the war with Spain. It was a just criticism. The paper editors would be brave men if that town have shown no enthusiasm in the war.

WILLING TO CRAWL.
After doing everything in its power to discourage the enlistment of volunteers, and using insulting epithets against those who enlisted in Capt. Luna's company of Rough Riders, the Democrat now asserts that the republican newspapers have injured themselves by their zeal in favor of the United States. The plan of the Democrat is to try to win the fall campaign by using the race issue and pretending to be great friends of the Mexicans. In this they will be able to do their past record in the territory; but it will matter little to the leaders of the democracy. In several campaigns in this city the democrats have actually used negro votes by claiming that they have always been friends of the negro. They are willing to creep and crawl, stuff ballot boxes, or do any other disreputable thing to win an election.

SANTIAGO DE CUBA.
With the fall of Santiago one of the old cities in Cuba and the former capital of the island becomes subject to a civilization for which Spanish adventures did so much to pave the way in the sixteenth century. Velasquez discovered the beauties of its harbor and the strength of its fortifications and founded the town in 1514, only eight years after the death of Columbus. It was given the dignity of a city in 1529.

NEW MEXICO NEWS.

SANTA FE.
From the New Mexican.
Geo. L. Wyllie, clerk of the territorial supreme court, will resign his position at the convening of the court on the 20th inst.

Hon. M. C. de Baca, superintendent of public instruction, who has been very ill in Las Vegas for the last few days, is reported as much better.

Vanderhorst Boye, the young son of Arthur Boye, accidentally shot himself in one of his hands Friday morning. The injury is not dangerous.

R. Rosenthal will have charge of the floral decorations for the Martinez Jaramillo nuptials at Tucson on July 27. Nearly \$500 will be spent in decorations alone for this event.

The expenses of Santa Fe county for the quarter ending June 30 last, amounting to \$2,500, were paid in full at the last meeting of the board of county commissioners. Pretty good record this for the republican officials of Santa Fe county.

Mrs. Massie has received a letter from her brother, Dr. James Massie, now acting as assistant surgeon with the troops at Tampa. Dr. Massie states he is ill with malaria, and may be returned to Santa Fe in order to recuperate.

Christian Hall, the efficient head waiter at the Palace hotel, served for five years in the Ninth cavalry under Captain Steadman, recently killed in action in front of Santiago de Cuba, and expresses great regret at the death of his old commander.

Prof. James G. Meadors, superintendent of the New Mexico Military Institute at Roswell, is in the city on business connected with his duties. He impresses one as a bright, active, energetic and educated gentleman and well fitted for the important position he holds.

Antonio Maria Hoybal, who was confined in the county jail charged with assault, wife beating, etc., made his escape by digging his way out of the adobe wall and went to Algodones. Deputy Sheriff Huber traced him from there to a point near Bland and then to San Idelfonso, where he was caught and brought back.

El Senor Don Antonio Maria Hoybal again languishes in the county stocks. Miss Johnson, a young lady from Albuquerque, has arrived at the sanatorium and will remain some weeks.

Mrs. Broglione, of the teachers at the Presbyterian mission school, returned Friday evening from Hanover, Indiana, where she has been visiting relatives.

Judge Frank W. Parker and child, who have been visiting friends in Minneapolis, Minn., during the past few weeks, will reach Santa Fe the latter part of the coming week.

Mrs. James Grunfeld and David Weinman, two of Albuquerque's well known business men, arrived to spend Sunday with their families who are at the sanatorium.

An application for a writ of mandamus has been filed in the district court for Santa Fe county, Manuel C. de Baca vs. Marcelino Garcia, auditor, to compel the payment of \$325.25, as traveling expenses incurred in discharging the duties of superintendent of public instruction.

Friday afternoon, little Miss Anita Bergere, daughter of Mr. and Mrs. A. M. Bergere, celebrated her 11th birthday by entertaining a party of friends. There were present the little Misses Melfie, Ritchie, Seligman, Katherine Chavez, Little Kidney, Edna and Gladys Linsen, Luz, Amalia, and Juanita Sosa.

The Santa Fe Fruit company is proceeding with the admirable mixture of energy and carefulness, which is most important in a new enterprise. There being no one here of experience in that business, they spent some weeks in endeavoring to find the most competent adviser possible, and fortunately succeeded in inducing F. J. Gleason, of Michigan, who has been engaged in the fruit business for seventeen years, to visit Santa Fe, and have now been in consultation with him for ten days.

ALBUQUERQUEANS AT BLAND.
From the Herald.
Arthur Everett, the Albuquerque jeweler, lately spent several days in camp.

Charles Jones, of firm of Anderson & Jones, returned on Sunday from a visit to his family in Albuquerque.

Thomas E. Wentworth, foreman at the Bland mill, went on to Albuquerque yesterday and will return tomorrow.

Wallace Hesselton, the enterprising and obliging president of the Whitney company of Albuquerque, was a visitor to Bland during the week on business.

James Keeler, who had charge of Melini & Kaki's Bland establishment, departed on Tuesday for Old Mexico, to join a friend there who has met with good success in several mining ventures.

LAS VEGAS.
From the Optic.
The last will and testament of the late A. J. Tisdall, of the Bell ranch, was probated.

It is reported that Gross, Blackwell & Co. will build a handsome front to their establishment, to face the new depot.

Word reached the city Friday that Matias Martinez, of La Llerena, N. M., was killed by lightning near the stacked plains, in the vicinity of Fort Sumner, on the 26th of last June.

Mrs. James S. Duncan was the recipient Friday, of a lovely gold nugget sent pin presented to her by a member of Company B, in appreciation of her kindness shown the company while here.

K. Titus, general live stock agent of Santa Fe Railroad company, accompanied by his son, H. K. Titus, who is assistant general agent, and daughter, Miss Myrtle, arrived from Kansas City, and left for the Hot Springs where they go in hopes of benefiting the father's health.

Mrs. Anna Noll, a young lady who was here last winter for the benefit of her health, stopping for a while the Sanitarium, and also for a while with the families of Messrs. Wise and Hogsett, died at her home in Redbud, Mo. She was a consumptive.

Hot Time in La Loe.
There was a hot time in the old town of La Loe last Monday night. A free-for-all fight took place at one of the saloons, and some one nearly killed Bill Howard, a negro. Deputy Sheriff Kearney attempted to quell the row, and in doing so accidentally lost his revolver so off, just missing the head of Silas May.

For Impure Blood

The People Take Hood's Sarsaparilla and are Cured
Sores on Face, Wrist and Body Completely Healed.

"I have been suffering with impure blood for three years. The impurities broke out on my wrist, and my face was full of red marks. I was not relieved by medicine and lost all hope of cure until I took Hood's Sarsaparilla. Since taking a few bottles of this medicine my face is all right and the sores on my wrist and body are healed." ADAM SALAS, Bakersfield, California.

"I was taken with eczema on my hands and feet, which were very badly swollen. I resorted to try Hood's Sarsaparilla and after using three bottles I began to improve. I have taken in all eight bottles of Hood's Sarsaparilla and am now entirely well." JOSEPH COOTLOW, Canon City, Col.

Marvels of the Graphophone.
The Graphophone will reproduce the music of bands, orchestras, church choirs, and operatic choruses, as well as words spoken to it or songs sung to it. It is in fact a mirror of sound. On its cylinders one can catch and preserve the story told by a friend just as he told it, or the song sung by some loved one. It is a hook for sound. The Graphophone is without a rival for entertainment at home or in the social gathering. No other instrument will return so much and such a variety of pleasure for the money. Write for catalogue to the Columbia Phonograph company, No. 723-725 Olive street, St. Louis, Mo.

For furniture, stoves, carpets, clothing, trunks, handbags, saddles, shoes, etc., call at the El Paso depot, with his wife, passed through the city on Saturday night for Washington, D.C., where they will visit for a few weeks.

A good Methodist informs THE CITIZEN that the new pastor of the Lead avenue Methodist church, Rev. J. W. Robinson, will not reach the city for a week or ten days yet. On leaving Omaha, the reverend gentleman and family went to Oregon on a visit to relatives and friends.

On the coming Thursday evening a lawn party will be given at the residence of the Misses Lee on West Copper avenue. Cake and sherbet will be served, and the proceeds to be devoted to the purchase of "articles of comfort" for the volunteer soldiers.

The committee appointed some time ago by the Commercial club to secure pledges of land for the devoted raising of the raising of the sugar beet, will hold a meeting in the near future. It is understood that sufficient land has already been pledged for the purpose.

Our Annual Summer Sale

FROM TO-DAY, until further notice, we will offer our entire stock of summer goods at prices to suit you. This is not a money making sale for us, directly, but we believe it to be, for our interest by closing out this season's goods at cost, or even below cost, in order to get a fresh stock for the coming season. One of the members of our firm is going to the eastern markets within a few weeks, and new goods will begin arriving within a month. We need room, and we need above all, MONEY. The tonight's offer will be brighter in our store within the next few weeks than it has ever been before, and that is saying a great deal. Don't let below prices mislead you as to quality. There's not an article mentioned that isn't worth almost double. You will agree with us when you see the goods.

CAVE IN THE LAVA.

The House of Thousands of Bats—A Very Rich Find. John S. Trimble and H. S. Knight visited W. L. Trimble & Co.'s railway grading camp at Lava, on the Santa Fe, yesterday and returned to the city in the evening. Mr. Trimble states that his firm has the contract to raise and widen the grade between San Marcial and Crocker, a distance of twenty miles, and says that work is progressing nicely. He also gave the information that a short time ago John Kneller, a brother of A. S. Kneller, the general manager at Paraje, discovered several caves in the lava, one of which is several hundred feet in the earth, and is the home of innumerable bats. "The general manager," continued Mr. Trimble, "was on yesterday loading the guano from the bats onto cars, and will ship it to California, where it is worth at least \$18 a ton. It is thought that this one particular cave contains about five carloads."
