## THE SURRENDER OF SANTIAGO!

City, Forts, Munitions of War and  
25,000 Spanish Troops Taken.

WATSON'S FLEET SOON TO SAIL FOR SPAIN.

Washington, 9:30 a. m., July 16.—The  
war department has posted the following  
bulletin: "Before Santiago.—Spanish  
surrendered. Particulars later."

### WHERE THEY MET.

Scene of the Surrender of the Spanish  
Army.

(Correspondence of Associated Press.)

Wheeler's headquarters before Santiago  
July 16, via Kingston.—The prelimi-  
nary arrangements for the capitulation  
of the Spanish forces in east Cuba  
were agreed to and signed under a picturesque  
cave-tree, half way between the lines,  
shortly after 10 o'clock. At the outset a  
high occurred owing to a misun-  
derstanding of what was said at a  
personal interview between Shafter  
and Tola. Our interpreter  
translated the language. Tola has  
given Gen. Shafter, Major and Wheeler  
ostensibly to understand that Captain  
General Blanco had consented that the  
commissioners should have plenary  
powers to negotiate terms of surrender  
to be binding on both parties. Some-  
thing was said about notification to the  
Madrid government, but Shafter insisted  
that the capitulation had been actually  
agreed to, and that no further consent  
of the Madrid government was required.  
When the commissioners met shortly after  
2 o'clock in the afternoon those in behalf  
of Gen. Tola (Gen. Escario, Lieut. Col.  
Fortan and Robert Mason, British vice-  
consul) combated at once that the capitu-  
lation had actually taken place. The  
consent of Madrid, they insisted, was  
still necessary, but at the same time  
they claimed strongly that it would be  
forthcoming.

Tola, who directed the negotiations on  
his own behalf, said that he never had  
been overruled by the captain general.  
Still, he added, until Madrid sanctioned,  
Santiago had not capitulated. All this  
was extremely unsatisfactory to our  
commissioners, who clung tenaciously to  
the understanding Shafter had received  
earlier in the day. Finally, with the  
question of whether the Spanish  
forces had actually surrendered still  
open, the commissioners proceeded to the  
consideration of the preliminaries. Cap-  
tain Miller had drawn thirteen articles of  
a general nature and some were submit-  
ted to Tola personally. He made a  
strong appeal that the word capitulation  
be used instead of the harsher term sur-  
render, and that his army be allowed to  
march out, the officers with their arms  
and the men with small arms. He said  
the army of 25,000 men was sent to  
Spain, only on the terms of the  
surrender.

Tola further remarked that he  
expected our commissioners, as repre-  
sentatives of a brave and chivalrous  
people, would not insist on the  
army or make it appear that he was in  
embarrassed. As brave men, his soldiers  
deserved to go home with honor. They  
simpler yielded to superior force, and  
would prefer dying to going home  
without their honor. Our commis-  
sioners could not resist the  
appeal, but said it lay beyond the terms  
laid down by our government and they  
could only recommend the matter to  
Washington. At 4 o'clock Tola returned  
to the city to consult with Blanco.  
Tola and the Spanish commission re-  
turned at 6:30 saying they desired still  
further change in the phrasing of the  
articles and suggested postponement  
of negotiations until morning. This  
General Wheeler firmly declined. There-  
upon a recess was taken until 10:30.

At that hour the articles were again  
gone over in detail. Various changes of  
verbiage, which tended only to effect the  
sound of the terms without affecting the  
sense, were proposed by the Spanish and  
our commissioners accepted practically  
all. Shortly after midnight Wheeler  
suggested that the good faith of the  
Spanish side be tested. All the  
articles were then read, and  
each commissioner in turn asked  
if they were satisfactory. When they  
replied in the affirmative, General  
Wheeler asked them to affix their signa-  
tures. This they appeared reluctant to  
do, and then all signed. The commis-  
sioners separated to meet again at 2:30  
this morning.

The present municipal authorities are  
to continue in control of the city until  
the Spanish troops are embarked. The  
Spanish troops from other parts of the  
province are to be embarked at the near-  
est port.

While there is only a remote chance of  
the government at Madrid upstaging  
everything at the last moment, such an  
event is still recognized as a possibility.  
However, our plans are being prepared as  
though the campaign was over. Shafter's  
headquarters are to be moved probably  
to-day to the high ground north of the  
city, where the whole of our army will  
be encamped after Santiago is evacuated,  
pending the possibility of its embarka-  
tion for the island of Porto Rico. The  
troops landed at Siboney, but not brought

up are to be sent back on board the trans-  
ports immediately. Which American  
troops will remain here as a garrison has  
not been decided on. There is some talk  
of garrisoning Santiago with several  
regiments from the southern states,  
which are understood to be at sea at pre-  
sent. The condition of the city of San-  
tiago seems dreadful, with filth and  
filth everywhere. There is much sick-  
ness among the Spanish soldiers, due to  
bad and insufficient food. Our commis-  
sioners have just gone into the city to  
meet the Spanish commissioners.

Found a Cable.

Off Santiago, via Playa del Este, July  
16.—The last cable from Santiago was  
received this afternoon by the anchor of  
the Massachusetts near Aguadulce, just  
as the surrender of Santiago was an-  
nounced. It has been decided to buy  
the cable for future use and not to cut  
it.

INVASION OF SPAIN.

Watson's Squadron to Sail at Once for the  
Coast.

New York, July 16.—A special to the  
Tribune from Washington says: The  
"Baiting Squadron" is expected to start  
for the coast of Spain on Saturday and  
reach the Canaries about August 1.  
After two days spent under the lee of  
one of the unfortified islands replenish-  
ing the bunkers with fuel, the fleet as-  
saults on Spain, scarcely two days dis-  
tant, will be promptly made. If the  
last of the Spanish resources, repre-  
sented by Canaris's fleet, cannot be  
sunk, the American fleet will quickly  
display in the Mediterranean. The fleet  
as now constituted includes two of the  
best battle ships in the navy, the Oregon  
and Massachusetts, the protected cruiser  
Newark, the auxiliaries Yankee, Dixie  
and Yosemite, with six colliers and a  
supply ship. The Oregon has become the  
flagship. The colliers carry 25,000 tons  
of the best coal—a sufficient quantity to  
steam the fleet all the way to the Philip-  
pines and half way back.

The departure of Watson's fleet will  
leave the Iowa, Indiana, Brooklyn, New  
York, Texas and Virginia as armored ves-  
sels under Admiral Sampson's command  
direct to batter down the fortifications of  
Porto Rico, and the cruisers Columbia,  
Minnesota, San Francisco, New Orleans,  
Detroit, Montgomery and Marchioness to  
shell the landing place for disembarka-  
tion of the army of occupation under  
Gen. Miles.

The authorities are confident that an  
entire army corps will be landed on Porto  
Rico before "The Baiting Squadron"  
reaches the Canaries, and the acquisition  
of Manila will be completed almost  
simultaneously with Watson's move-  
ment to the Philippines. That these two  
blows following so quickly upon the sur-  
render of Manila, which will prob-  
ably occur next week, will compel Spain  
to sue for peace, hardly admits of the  
slightest doubt.

LETTER FROM GEN. TOLA.

He Wants His Soldiers to Go to Spain  
With Their Arms.

Washington, July 16.—The war depart-  
ment has posted the following:  
"Santiago, July 16.—The war depart-  
ment has posted the following: The  
following letter has just been re-  
ceived:

Santiago de Cuba, July 16.—To His  
Excellency, Commander in Chief, of the  
American Forces—Excellent Sir: I am  
authorized by my government to capitu-  
late. I have the honor to so ap-  
prise you and to request that you desig-  
nate the hour and place where my repre-  
sentative shall appear to compare with  
those of your excellency's official articles  
of capitulation on the basis of what has  
been agreed upon to this date in the  
times. I wish to manifest my desire to  
know the resolution of the United States  
government respecting the return of the  
army as to note on the capitulation. I  
also, the great courtesy of your graces  
and return for their great generosity  
in allowing me to return to the peninsula  
with the honors the American army to do  
them the honor to acknowledge dutifully  
decided.

(Signed) JOSE TOLA,  
Com'd'g General Fourth Army Corps.  
To Gen. Shafter, Commanding American  
Forces.

Victim of the Maine.

Baltimore, July 16.—Lieut. John  
J. Blandin, officer of the deck on the  
Maine when destroyed in Havana harbor,  
died here to-day. His death was the  
result of the shock to his nervous system.

Commissioners Appointed.

Washington, July 16.—The president  
has appointed the following commis-  
sioners to meet similar commissioners on  
the part of Great Britain and Canada for  
the purpose of adjusting the relations  
between the United States and Canada:

Senator Gray of Delaware, Representa-  
tive Dingley of Maine, John A. Brown  
of Iowa and John W. Foster of the Dis-  
trict of Columbia.

General Miles Will Command.

Washington, July 16.—It is said that  
Gen. Miles himself will command the  
Porto Rican expedition, aided by Gen.  
Brooks. The troops will be landed near  
San Juan, with an ample supply of field  
artillery, and will force their way into  
the rear of the town, while the fleet will  
dash into the harbor and attack the  
front.

New China Party.

Canton, July 16.—Leading members of  
the new China party are assembling  
from all parts of the world to aid in the  
rebellion against the present govern-  
ment of China.

Enlists Zola Again.

Paris, July 16.—Emile Zola to-day re-  
turns to the attack in the Dreyfus case  
by publishing an open letter on the sub-  
ject to Premier Ribot in the Aurore.

HATED TO SURRENDER.

Spanish Officers Hugged to Retain Their  
Sword-Arms.

(Copyright Associated Press.)

Before Santiago, July 15, via Kingston,  
Jamaica.—The Spaniards this morning  
are still haggard with the stress of  
capitulation. They now claim there has  
been no surrender, and allege that the  
work of the commissioners is entirely  
preliminary and that he raised by the  
government at Madrid in order to be  
effective. This is clearly bad faith and  
not in accordance with Gen. Tola's rep-  
resentation to the United States. Cap-  
tain General Blanco had authorized the full  
surrender of his forces.

The commissioners in the meantime  
have concluded arrangements of terms  
covering evacuation, entirely to the  
province of Santiago. They have been  
signed by both sides and now await ap-  
proval at Madrid. Meanwhile the two  
armies remain in the trenches.

Shafter said this morning, referring to  
the situation: "The Spanish claim that  
the surrender must be confirmed by Ma-  
drid. I refused to consider any such con-  
dition, for the surrender was complete  
and ordered by Governor General Blanco  
and was made by Gen. Tola. This morn-  
ing Gen. Blanco sent me a letter in-  
forming that the Spanish soldiers be per-  
mitted to take their side arms back to Spain.  
I refused to interfere with the presi-  
dent and if possible arrange for a return  
of their arms to the prisoners after they  
had surrendered them."

Peace Proposition.

Madrid, 9 a. m., July 16.—Several news-  
papers say that the Spanish government  
has agreed peace negotiations with the  
United States through the French am-  
bassador there.

PEACE PREDICTIONS.

What the President May Demand of  
Spain for War Expenses.

Washington, July 15.—In view of the  
renewed reports that the French am-  
bassador at Washington, M. Cambon, had  
opened peace negotiations or inquiries  
relative to the possible terms of peace, it  
can be stated authoritatively, after in-  
quiry at the French embassy, that no  
negotiations or inquiries of any char-  
acter, relative to peace, have been made  
officially or unofficially direct or in-  
direct by the French ambassador. It is  
gathered from high members of the admi-  
nistration that the president is disposed  
to be moderate in demands and while re-  
serving all that the United States is fairly  
entitled to exact from a nation in Spain's  
distressed condition, is not dis-  
posed to embark in a world-  
quering enterprise and insist upon the  
restitution of remote territories that  
would be inadvisable to us. In other  
words, unless there is an overwhelming  
demand on the part of the American  
people for the adoption of such a course,  
it is not believed that the president would  
insist that Spain should return to her  
colonial possessions. It is felt that  
as a minimum demand he would be  
content with the acquisition of Porto  
Rico, an admission of the independence  
of Cuba, a coaling station in the Philip-  
pines, with a provision for a protectorate  
over the islands, and a moderate in-  
demnities.

DISPATCH FROM SENTER.

He Gives the Details of the Surrender of  
the Spanish Army.

Washington, July 16.—The war depart-  
ment has posted the following:  
"Headquarters, near Santiago, July 16.—  
To Adjutant General United States  
Army: The following details of the  
capitulation include all the forces  
and war material in the described terri-  
tory. The United States agrees, with  
reference to the transport and embarka-  
tion of the Spanish troops in the district to  
the kingdom of Spain, the troops, as far as  
possible, to embark at the nearest por-  
t. The United States will retain the arms  
and retain their side arms, and officers and  
men to retain their personal property.  
The Spanish commander is authorized to  
take military articles belonging to the  
surrendered district. All Spanish forces,  
known as volunteers and guerrillas, who  
wish, may remain in Cuba under parole  
of honor, as to the fact that several  
thousand surrendered, and by Gen. Tola  
to be about 12,000, against whom a shot  
has not been fired. The return to Spain  
of troops in this district amounts to  
about twenty-four thousand according to  
Tola.

United States Volunteers.

Spain Is Getting Meek.

Madrid, July 16.—It is said in con-  
nection with the Spanish suggestion of leav-  
ing the question of the future govern-  
ment of Cuba to be decided by a plebi-  
scite of its inhabitants that Spain would  
unreservedly accept the decision given  
in this case.

For Charity's Sake.

James Moore, wife and four little  
children, one an invalid, arrived in the  
city last night, and as the wife pleaded  
charity, the family was given lodging  
by the authorities at the Rialto hotel  
on First street. Col. Major  
Clancy and Marshal McMillan have  
interested themselves in their case, and,  
if the man as well as, he can secure work  
at the Albuquerque foundry, he claiming  
to be a moulder, or core maker. The wife  
and children were sent here from Santa  
Fe by the Ladies Aid society, the busi-  
ness catching up with them the best he  
could.

P. R. Harrow has returned from Las  
Vegas, where he went to assist Mr.  
Springer, of the territorial commission,  
on irrigation and water rights, in  
gathering data for the commissioner's  
report to the next legislature. He will  
leave to-morrow night for Ojo Caliente,  
where he will render similar service to  
Antonio Joseph.

GOLD FROM ALASKA!  
Million Dollars in Gold Dust  
From Dawson City.

"Seapy Smith," a Noted Colorado  
Confidence Crook Is Killed.

Governor McCord Appointed Colonel and  
N. O. Murphy Governor of Arizona.

PRESIDENTIAL MESSAGE TO THE ARMY.

Victoria, B. C., July 16.—The steamer  
Collage City, which touched here on its  
twenty-ninth voyage from Dawson City,  
with about three-quarters of a million dollars  
in gold dust and drafts. Editor Shipley of  
the Ensign News, who came down on  
the Collage City, says the year's output  
of the placer mines of Dawson is about  
\$30,000,000, three-quarters of this being  
the output of two big trading companies,  
the Standard City of Seattle and the  
this morning from Alaska with eighteen  
million dollars in gold dust and  
drafts. The city of Seattle brings the  
news that the town of Shagay has been  
placed under martial law.

HAGGLED OVER THE TERMS.

Hard to Satisfy the Spanish Commissioners  
About the Surrender.

Copyright Associated Press.

Playa del Este, July 15 (delayed in  
transmission).—The commissioners ap-  
pointed by General Shafter and Tola to  
arrange the details of the surrender of  
the Spanish forces in eastern Cuba are  
still hard at work, and probably their  
labors will not be completed before to-  
morrow. Though the understanding was  
that no concessions would be granted  
with the exception of allowing the  
officers to retain their side arms, the  
Spanish commissioners have been rais-  
ing many objections to the proposed ar-  
rangements. The Spanish officers wish  
to have their men march out of the  
trenches with their arms, which they  
also insist are to be boxed up and shipped  
to Spain with the prisoners. This, of  
course, has been refused. There is also  
much argument about the surrender  
of the city. The Spanish commissioners  
insist that the city should be handed  
over to the United States. The United  
States commissioners, however, insist  
that the city should be handed over to  
the United States. The Spanish commis-  
sioners, however, insist that the city  
should be handed over to the United  
States. The United States commis-  
sioners, however, insist that the city  
should be handed over to the United  
States. The Spanish commissioners, how-  
ever, insist that the city should be  
handed over to the United States. The  
United States commissioners, however,  
insist that the city should be handed  
over to the United States. The Spanish  
commissioners, however, insist that the  
city should be handed over to the United  
States. The United States commis-  
sioners, however, insist that the city  
should be handed over to the United  
States. The Spanish commissioners, how-  
ever, insist that the city should be  
handed over to the United States. The  
United States commissioners, however,  
insist that the city should be handed  
over to the United States. The Spanish  
commissioners, however, insist that the  
city should be handed over to the United  
States. The United States commis-  
sioners, however, insist that the city  
should be handed over to the United  
States. The Spanish commissioners, how-  
ever, insist that the city should be  
handed over to the United States. The  
United States commissioners, however,  
insist that the city should be handed  
over to the United States. The Spanish  
commissioners, however, insist that the  
city should be handed over to the United  
States. The United States commis-  
sioners, however, insist that the city  
should be handed over to the United  
States. The Spanish commissioners, how-  
ever, insist that the city should be  
handed over to the United States. The  
United States commissioners, however,  
insist that the city should be handed  
over to the United States. The Spanish  
commissioners, however, insist that the  
city should be handed over to the United  
States. The United States commis-  
sioners, however, insist that the city  
should be handed over to the United  
States. The Spanish commissioners, how-  
ever, insist that the city should be  
handed over to the United States. The  
United States commissioners, however,  
insist that the city should be handed  
over to the United States. The Spanish  
commissioners, however, insist that the  
city should be handed over to the United  
States. The United States commis-  
sioners, however, insist that the city  
should be handed over to the United  
States. The Spanish commissioners, how-  
ever, insist that the city should be  
handed over to the United States. The

ALBUQUERQUE, — JULY 16, 1898

The Santa Fe company will erect locomotive shops at Topeka to cost \$300,000.

The new first-class battleship Wisconsin will be ready to launch in November.

GEN. LEE will leave with his troops in a few days to take possession of Porto Rico.

The Cubans will not be put in control of any of the conquered territory in Cuba.

SHERIFF GABRIEL has dispersed a desperate gang of murderers in Dona Ana county.

The Spanish commander at Santiago made a hard fight, but finally was forced to surrender on the terms proposed by the United States.

In yellow fever the Spanish army has a more dangerous foe to pit against than the more troops than all their battleships and fighting forces on land and sea.

EVERY American apparently favors the acquisition of Porto Rico. Most of those who opposed Hawaii's annexation want the United States to take and hold Porto Rico.

THE annexation of Hawaii did not cause a ripple on the international pond. There has been a wonderful decline in the European tendency to interfere with American affairs.

THE "head money" to be paid by the United States government to the officers and sailors who destroyed Cervera's fleet will average \$100 for every man on the ships of the enemy.

BASED upon an estimated population of 14,222,000, the per capita circulation at the beginning of July was \$24.74. This is an increase of \$2.17 as compared with last year at this time.

IN the Fourth of July festivities in the United States thirty-one persons were killed and one hundred and thirty-seven were injured. The giant firecracker is more deadly than Spanish battleships.

THE Oregon alone fired 1,776 shells into Cervera's fleet at Santiago, quite enough to have sunk the squadron had it ventured to overland the big battleship on its way from the Pacific to Key West.

ONLY one newspaper in Venezuela favors the United States as against Spain, and that paper is edited by an Englishman and is for circulation among the English and American residents of that country.

THE controversy as to who shall pay the war taxes on packages carried by the express companies promises to be speedily settled by the courts. Test cases have been taken into the courts in Chicago and Topeka, Kan.

THE Cerrillos Rustler pays an eloquent tribute to Clay Green, the color-bearer of Capt. Muller's company of Rough Riders, who was killed at the battle of Santiago while gallantly leading his company in the bloody charge up San Juan Heights.

KEEP your griefs and troubles to yourself. Every one has full share of vexatious events in the journey through life without having to hear the life of others; and the pardoning of personal griefs is prima facie evidence of weak character. Brace up and try to cultivate a cheerful disposition.

THE war revenue law is rapidly turning money into the United States treasury. In the first eleven days of July, instead of two Sundays and one holiday, the government revenues were \$15,139,000, as compared with \$10,268,000 in the first eleven days in June, including only one Sunday.

THE increase of gold coin in this country as given by Bradstreet's has been \$141,800,000 and the increase in silver coins and silver certificates has been \$42,000,000. The cry of two years ago for more money is being answered by the changing commercial and financial demands.

THE work of coloring the silver seigniorage, which was provided for in the war revenue measure, has been divided between the New Orleans and Philadelphia mints. The New Orleans mint has already coined \$2,500,000 worth of silver dollars, and from this on will strike off between \$500,000 and \$1,000,000 every month until the seigniorage is exhausted. The Philadelphia mint will coin the balance of the monthly installment required under the act.

THE ARMY BALLOON. The German army is in possession of a balloon that can be steered in any direction. This wonderful machine was launched and actually steered against the wind for many miles. It cost \$2,000, owing to an accident to the

Latest Items of Railroad Interest Gathered from our Exchanges.

WHAT THE EMPLOYEES ARE DOING.

Another wire has been put up between La Junta and Raton.

Engineer O'Toole, of Raton, has thrown up his job to engage in a mining enterprise in South America.

Five of the smallest engines on the Raton division have been sent to Kansas to move the wheat crop.

The new line from Alamo Gordo into the Sacramento mountains has been christened the "Cork Screw Branch."

Two brakemen and two firemen have been discharged recently on this division for intoxication and frequenting saloons.

E. C. Ripley, F. A. Taylor and J. S. Leese of the Pease Valley and North-eastern survey corps spent the Fourth in Roosevelt.

Robert Wilburn, who had been running the steam hammer at Raton, left for El Paso to accept a better job in the company shops there.

Engineer Shopper and family, who had been visiting the family of N. J. Shirley, of Las Vegas, have returned to their home at Argentine, Kansas.

The oldtime method of numbering the engines on the back of the tender is being recommended and this old style is being adopted on the entire system.

Owing to the dullness of business at this season of the year, engine 740, one of the Lamy pushers will be taken off the hill until the fall rush begins.

Foreman Gibbons, of the Las Vegas shops, is figuring on getting a compressed air hoister for the purpose of hoisting machinery to the lathes to be worked.

Samuel Atkinson, right of way man for the Pease Valley and Northeastern railway, has been looking after company interests on the Roosevelt end of the line.

George S. Goods & Co. will have 600 men at work by Monday in the canyon above La Luz, grading and laying track on the Alamo Gordo & Sacramento Mountain railway.

"Work on the road has slackened up considerably in the last few weeks, necessitating the laying off of four crews a few days ago and two more on Monday," says the O'Brien.

M. B. Burns, recently superintendent of the Jerome branch railroad, has moved to Prescott, with his family to reside, having resigned his position with the railroad company.

Under the new revenue war tax act the Atchison, Topeka & Santa Fe railroad will pay for all stamps to be placed on drayage tickets and bills of lading unless duplicate receipts are called for.

Station Engineer Wm. Barnes, of Las Vegas, fell into the ash pit, badly injuring his leg. The accident will probably lay him up for some time. S. A. Winton is taking his place at the engine.

A. C. Campbell, the general attorney of the Pease Valley and Northeastern railway, came up from El Paso last Saturday on business, returning Sunday on the excursion train, says the Roosevelt Register.

By order of Division Master Mechanic C. M. Taylor all engineers are instructed to show on the backs of their tickets the number of pints of valve and engine oil used in making the trip; also the amount of coal used on each trip.

Buchanan & Powers, of El Paso, have been awarded the contract for constructing the bridge on the Alamo Gordo & Sacramento Mountain railway. The line is twenty miles in length and it requires 20,000 feet of bridge timber.

The Bank of Howland had \$5,000 in currency in the safe that was robbed on the Texas and Pacific railway last week thirty-five miles from Big Springs. The first falls on the express company. On Tuesday the bank received that amount in gold from the American National bank of Fort Worth.

The first division of the new road to the summit of the Sacramento mountains and into the magnificent timber belt in that region will be completed by September 1, as a large force of men and teams is engaged in the work and General Manager John A. Kiddy is pushing the work with great energy and vim.

The Optic says: F. M. Jones and son Frank, who are employed in the civil engineering department of the Santa Fe, left on 17 for Silver City, where they are working on the Santa Clara branch, which is now being built to the Santa Clara mining camp and which is joined onto the main line of the Santa Fe some sixteen miles below Silver City.

On the 1st of the month the Santa Fe began running the big bi-wheel wheel locomotives on the passenger train between Raton and La Junta. The drivers on the new engines are seventy-three inches in diameter, and the locomotives are guaranteed to pull heavy trains at the rate of seventy miles an hour on a first class track. To quote the expressive language of one of the conductors, "The new engines make the old ones look like weak charms."

Recognizing the general thirst for information as to matters military, the Oskaloosa Herald has compiled the following brief "soldiers' dictionary":

An army is three corps.

A corps, three divisions.

A division, three brigades.

A brigade, three regiments.

A regiment, three battalions.

A battalion, three companies.

A company, one hundred men.

The above figures represent averages, and are subject to change.

Major generals will command corps and divisions.

Brigadier generals, brigades.

Colonels, regiments.

Major, battalions.

Captain, companies.

A lieutenant colonel is a vice colonel—that is, he takes the place of the superior when absent. The adjutant and quartermaster rank as lieutenants, and are appointed by the colonel. The surgeon ranks as major and the assistant surgeon as captain. Chaplains rank as captain.

Your Friends in the Army or Navy. Do you want a picture of their ships, or the cities they attack? You can secure all this and more by purchasing the newly issued series of portfolios (in fifteen parts) entitled, "The American Navy, Cuba and Hawaii." **AMERICA'S GREATEST Medicine is Hood's Sarsaparilla.**

Which absolutely Cures every form of Impure blood, from The pimple on your Face to the great Scrofula sore which Drains your system.

Thousands of people Testify that Hood's Sarsaparilla cures Scrofula, Salt Rheum, Dyspepsia, Malaria, Catarrh, Rheumatism, And That Tired Feeling. Remember this And get Hood's And only Hood's.

HIS WOUNDS PROVED FATAL.

Deputy Sheriff Kearney a Victim of the Lee-Gilchrist Fight.

Deputy Sheriff Kearney, who was wounded in the fight with Lee and Gilchrist, described in THE CITIZEN, yesterday afternoon, died at La Luz Thursday morning.

Clinton Llewellyn, a son of Captain Llewellyn, of the New Mexico Rangers, was one of the sheriff's posse. He reports that after Kearney was wounded he endeavored to draw his pistol with his left hand for the purpose of killing himself, presumably on account of his great suffering or in order not to embarrass his associates in the conflict.

After the battle, Alice, Kearney's daughter, who is now in the hospital, stated that her father's wounds were not mortal, but that he died of the shock of the fight.

It seems that Kearney's father, Charles, and his brother, Henry, were the best of friends to the Lee-Gilchrist fight.

1. Because it affords almost instant relief in case of pain in the stomach, colic and cholera morbus.

2. Because it is the only remedy that never fails in the most severe cases of dysentery and diarrhea.

3. Because it is the only remedy that will prevent bilious colic.

4. Because it is the only remedy that will cure epidemic dysentery.

5. Because it is the only remedy that can always be depended upon in case of cholera infantum.

6. Because it is the most prompt and most reliable medicine in use for bowel complaints.

7. Because it produces no bad results.

8. Because it is pleasant and safe to take.

9. Because it has saved the lives of more people than any other medicine in the world.

The 25 and 50-cent sizes for sale by all druggists.

Remember for the Copper Zinc Company.

A. W. Tenny, president of the Copper Zinc Mining company, whose mines are located near Silver City, has returned from Chicago, where he had a consultation with other officers and directors of the company. The result was that the company will begin the erection of a 200-ton concentrator mill at the company's copper mine. An order for 100,000 pounds of machinery and tools for the new mill was placed with the Gates Iron Works of Chicago. Mr. Tenny states that work on the new mill will be pushed as rapidly as possible.

"Last summer one of our grandchildren was sick with a severe bowel trouble," says Mrs. E. L. Gregory, of Fredericktown, Mo. "Our doctor's remedy had failed; then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief." For sale by all druggists.

Highest Cash Price Paid.

For furniture, stoves, carpets, clothing, trunks, harness, saddles, shoes, etc. Agents, 117 Gold Avenue, next to World Express Office. See me before you buy or sell.

A Child Enjoys.

The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use; so that it is the best family remedy known and every family should have a bottle.

Manufactured by the California Fig Syrup Co.

Our main underwear is manufactured by one of the leading manufacturers in the country. Full cut, well sewed, and sold on their merit, at exceptionally low prices. Rooming House.

Save money and buy from the stock of druggists' samples at the Economical—a little of everything among the lot; one-third off regular prices.

Best concentrated lye, four cans for 25 cents, at A. Lombardo's.

**DR. PRICE'S CREAM BAKING POWDER**

A Pure Grape Cream of Tartar Powder. 40 YEARS THE STANDARD.

Have been and will be fighting. Also excellent portraits of Dewey, Sampson, Schley and Lee. All pictures accompanied by full explanatory text and maps. Single parts ten cents; full set \$1.50. Call on Santa Fe ticket office.

Opening up the Philippines. When the new order of things is established in the Philippine Islands, there is likely to be a great rush to United States' latest possessions. There will be a scramble for wealth similar to that which occurred when the Klondike goldfields were discovered. No matter what business a man is engaged in, he thinks more of his purse than of his health, but wealth is worthless without good health to enjoy it. Dewey's stomach and bowels are cured by nearly everybody. High and poor are cured by it of constipation, dyspepsia, general debility and morbid habits. Women who are nervous, men who are overworked, people whose nights are sleepless, should take these wonderful Bitters if they wish to be cured.

UNABLE TO AGREE. The Insurance on the Schumann Stock Not Yet Settled.

Edward Henry, of Las Vegas, has returned to his home. He is the last of the insurance adjusters who were called here to adjust the loss by the Schumann fire, to leave the city. The adjusters and Mr. Schumann were unable to agree on the amount of insurance to agree on the loss carried over to him. Mr. Schumann believes to be due him or what steps he will pursue to get what he believes to be right.—New Mexican.

BOARD OF EDUCATION. Makes School Levy of Five Mills.—Prof. Smith Re-Elected Principal.

The board of education held a meeting last night, with all members present except Trustees Rankin and Fox. As announced by THE CITIZEN a few days ago, Roy McDonald officiated as clerk pro tem. In the absence of his brother, Charles McDonald, the regular clerk of the board. Applications for the position of clerk were tabled indefinitely and Roy McDonald all was chosen to fill the position until his brother returns.

A communication was received from Prof. Wood of Las Vegas inquiring as to the number of copies of the new territorial course of study was required by Albuquerque. It appeared, however, that Prof. Wood had added a high school course of study not authorized, so his communication was laid over until the next meeting.

All the teachers chosen for the coming year were reported to have accepted with the exception of Prof. U. Francis Buff.

The teachers' committee recommended that Prof. J. S. Sweeney be re-elected principal of the high school and the principal of the school be re-elected. The committee reported that they were not prepared to report on the assignment of teachers owing to the fact that Prof. Hickey had not arrived yet. He is expected to come July 19, when a meeting of the board will be held for the purpose of making the assignments.

The board decided on a special tax levy of 5 mills on the property in the school district for school purposes.

The building committee was instructed to ascertain the cost of calculating the walls and ceilings of the school rooms.

The board then adjourned.

Incorporation Matters. Articles of Incorporation of the Albuquerque Road Telegraph and Telephone Company were filed in Secretary Wallace's office. The incorporators are William F. Powers, of Albuquerque, N. M.; Benjamin Brooks, of Denver, Colo.; J. H. Hickey, of Omaha, Neb.; and Anthony L. Corbett, of Trinidad, Colo. The objects of the incorporation are to build, equip and operate a telegraph and telephone line between the city of Albuquerque and the town of Grand; to build, equip and operate telegraph and telephone lines at any place in the territory of New Mexico, and to control, construct, maintain, buildings, machinery and fixtures necessary to carry on the business of the company. Capital stock, \$100,000, principal place of business, Albuquerque, N. M.

SALT DOES DAMAGE. Drippings from Refrigerator Cars Injure Railroad Work.

The Master Car Builders' association has taken up the investigation of an apparently trivial subject, but one nevertheless of vital importance to railroad interests, namely, the damage caused by the salt water drippings from refrigerator cars. Many of the railroad officials in different parts of the country in charge of track and bridge work are co-operating with the association's committee to devise a method of preventing this damage, which is quite serious. The salt water comes from refrigerator cars loaded with dressed beef.

In such cases the mixture used for cooling purposes is composed of ice and salt from a per cent to 11 per cent. One refrigerator car will probably produce about 200 gallons of brine in 24 hours. The committee has examined a number of suggested schemes and has recommended a very simple device, which consists merely of running pipes from a reservoir beneath the floor of the car, and into which the salt water is led in such a way that the salt water will be conveyed to the middle of the track and there discharged.

The cost of this device will be comparatively small, and the salt water falling on the ties can do practically no damage.

Awarded Highest Honors—World's Fair, Gold Medal, Midwinter Fair.

**AMERICA'S GREATEST Medicine is Hood's Sarsaparilla.**

Which absolutely Cures every form of Impure blood, from The pimple on your Face to the great Scrofula sore which Drains your system.

Thousands of people Testify that Hood's Sarsaparilla cures Scrofula, Salt Rheum, Dyspepsia, Malaria, Catarrh, Rheumatism, And That Tired Feeling. Remember this And get Hood's And only Hood's.

HIS WOUNDS PROVED FATAL.

Deputy Sheriff Kearney a Victim of the Lee-Gilchrist Fight.

Deputy Sheriff Kearney, who was wounded in the fight with Lee and Gilchrist, described in THE CITIZEN, yesterday afternoon, died at La Luz Thursday morning.

Clinton Llewellyn, a son of Captain Llewellyn, of the New Mexico Rangers, was one of the sheriff's posse. He reports that after Kearney was wounded he endeavored to draw his pistol with his left hand for the purpose of killing himself, presumably on account of his great suffering or in order not to embarrass his associates in the conflict.

After the battle, Alice, Kearney's daughter, who is now in the hospital, stated that her father's wounds were not mortal, but that he died of the shock of the fight.

It seems that Kearney's father, Charles, and his brother, Henry, were the best of friends to the Lee-Gilchrist fight.

1. Because it affords almost instant relief in case of pain in the stomach, colic and cholera morbus.

2. Because it is the only remedy that never fails in the most severe cases of dysentery and diarrhea.

3. Because it is the only remedy that will prevent bilious colic.

4. Because it is the only remedy that will cure epidemic dysentery.

5. Because it is the only remedy that can always be depended upon in case of cholera infantum.

6. Because it is the most prompt and most reliable medicine in use for bowel complaints.

7. Because it produces no bad results.

8. Because it is pleasant and safe to take.

9. Because it has saved the lives of more people than any other medicine in the world.

The 25 and 50-cent sizes for sale by all druggists.

Remember for the Copper Zinc Company.

A. W. Tenny, president of the Copper Zinc Mining company, whose mines are located near Silver City, has returned from Chicago, where he had a consultation with other officers and directors of the company. The result was that the company will begin the erection of a 200-ton concentrator mill at the company's copper mine. An order for 100,000 pounds of machinery and tools for the new mill was placed with the Gates Iron Works of Chicago. Mr. Tenny states that work on the new mill will be pushed as rapidly as possible.

"Last summer one of our grandchildren was sick with a severe bowel trouble," says Mrs. E. L. Gregory, of Fredericktown, Mo. "Our doctor's remedy had failed; then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief." For sale by all druggists.

Visitors to Albuquerque are invited to  
the lodging at the Railroad avenue  
house. Everything neat and clean; prices  
reasonable. The Railroad barber shop

## Our Annual Midsummer Sale

FROM TO-DAY, until further notice, we will offer our entire stock of summer goods at prices to set them moving. This is not a money making sale for us, directly, but we believe it to be. In our interest by closing out this season's goods at cost, or even below cost, in order to get a fresh stock for the coming season. One of the members of our firm is going to the eastern markets within a few weeks, and new goods will begin arriving within a month. We need room, and we need above all, MONEY. The Almighty Dollar will be number one in our store within the next few weeks, and that is saying a great deal. Don't let below prices mislead you as to quality. There's not an article mentioned that isn't worth almost double. You will agree with us when you see the goods.

**LAWNS, ORGANDIES Etc.**

Lace stripe Lawns, worth 12½¢ per yard . . . 7c
