GOVERNMENT PUT ON DEFENSIVE BY INDICTED PACKERS

Counsel For Accused Captains of Industry Launch Attack On Constitutionality of Sherman Anti-Trust Act.

FILE APPLICATION FOR HABEAS CORPUS WRIT

Fight Immediately Resolves Itself Into Argument of Law Which Supreme Court of United States Must Decide.

[By Morning Journal Special Leased Wire.] Chicago, Nov. 14.—The indicted Chicago meat packers, by precipitating today a federal court decision on the constitutionality of the Sherman anti-trust law, when they surrendered themselves into custody and asked for a writ of habeas corpus, merely took steps necessary to carry the fight before the supreme court of the United States without cost or delay of a trial, it was announced today.

Government attorneys taken unaware, were cut off from much of the results of their own investigation into the meat packing inquiry by the sudden move of the packers. Instead of a trial to be supported by evidence carefully brought together, the fight for a time at least, must be conducted purely as an argument of law.

The fight thus becomes not a question of fact as to the guilt or innocence of the packers, but a plain attack upon the validity of the Sherman law, by placing each individual or corporation on a standard of its own, built upon its previous public acts, took away from individuals the possibility of knowing how their acts were to be viewed by a jury in the light of reason, that this security of definition of what constituted crime was contrary to the sixth amendment of the federal constitution.

In short, the petition, the attorneys say, charges the supreme court interpretation in ordering the dissolution of the American Tobacco company and the Standard Oil company. Only an adverse decision to the packers' contention by the United States supreme court will give the government attorneys an opportunity to use the material they have gathered for the prosecution.

In the meantime the trial scheduled for Monday of next week, undoubtedly will be postponed, pending the decision of the higher courts on the question.

Attorney John S. Miller, who as chief of counsel for the packers, conducted the court move, characterized the Sherman law as a "net" large enough to catch all possible defendants, and leaves it to the courts to step in and say who rightfully can be detained and who set at large.

Of the ten packers indicted, all but J. Ogden Armour, were temporarily in custody while the habeas corpus petition was being heard. The nine were:

Louis Swift, president Swift and company; Edward P. Swift, vice-president Swift and company; Chas. H. Swift, director Swift and company; Edward Tilden, president National Packing company; Arthur M. Stork, general manager Armour and company; Edward Morris, president Morris and company; Francis Fowler, director Swift and company; Thomas Heyman, director Swift and company.

The petition for habeas corpus contained little matter except the packers' argument before Judge Carpenter when they sought to have the indictments quashed and later arguments against the court's decision. Along this line the petition said: "The constitutionality of the alleged transactions complained of in the indictments will depend entirely upon a particular jury's view of the facts, and the unreasonableness of the particular case; it will depend upon any standard erected by the law, which may be known in advance, but on one that may be created in the whim, prejudice or arbitrary view of a jury."

There is no set standard fixed, or applied to be exact to guide the jury in the case of the alleged transactions complained of in the indictments will depend entirely upon a particular jury's view of the facts, and the unreasonableness of the particular case; it will depend upon any standard erected by the law, which may be known in advance, but on one that may be created in the whim, prejudice or arbitrary view of a jury."

Violations of the fifth and eighth amendments to the constitution are charged. It is charged that the act attempts to establish as a crime acts not criminal, but civil in their nature.

INDEPENDENTS ASK PRIVILEGE OF INTERVENING

New York, Nov. 15.—The independent tobacco interests will make a motion in the United States district court tomorrow to be permitted to intervene in the case of the Standard Tobacco trust and become parties to the suit in which the decision of the circuit court has not yet been entered, although the judges have not yet rendered their decision. It is understood that the independent tobacco interests are submitting the American Tobacco company.

ALLEGED MONEY TRUST WILL BE INVESTIGATED

Washington, Nov. 14.—The existence of a "money trust" is to be inquired into by democratic leaders of the house of representatives.

One of the first matters to be taken up will be the resolution of Congressman Lindberg of Minnesota, providing that the speaker appoint a committee of investigation, composed of nine members. The purpose of the resolution does not contemplate opposing the work of the monetary commission, but is based on the promise that the present system of money exchange and credit appears to "entail on the people enormous losses, due principally to speculation, gambling and manipulation which are not necessarily incident to a natural commerce."

DEMOCRATS PLAN SOME SWEEPING CHANGES

Determined to Change Date of Inauguration of President and Alter Official Term of Session of Congress.

[By Morning Journal Special Leased Wire.] Washington, Nov. 14.—Determined efforts to amend the constitution, changing the date of the inauguration of the president and vice-president of the United States from March 4 to the last Thursday in April, and altering the official term of the session of congress, is to be one of the features of the Sixty-second congress which will assemble in regular session next month.

A resolution introduced by Representative Henry of Texas last summer will be taken up by the house committee on judiciary soon after congress convenes.

Besides changing the date of the inauguration the resolution provides for the elimination of the short session of congress, fixing the second Tuesday of January as the date of the commencement and termination of the official terms of senators and representatives.

Representative Henry, author of the resolution, said today that the coming session was an auspicious one in which to make the change, because if the amendment is adopted, it could be voted on by the legislatures of all states within two years and become a law before the presidential campaign of 1916.

LEGAL BUREAU GETS DOWN TO BUSINESS AT SANTA FE

Steps to Be at Once Taken to Investigate Complaints of Election Frauds and Institute Prosecutions.

[Special Dispatch to the Morning Journal.] Santa Fe, N. M., Nov. 14.—The legal bureau created by the democratic state central committee at its meeting in Albuquerque yesterday, was organized here this morning.

Hon. O. S. Harbo, in charge of the bureau, and his corps of assistants, will at once take up the work of safeguarding the interests of the various candidates on the state ticket and will at once investigate and report on all cases of fraud or irregularities reported.

It is understood that Mr. Harbo will tomorrow call on Secretary Jaffa and ask that officer, if consistent with his official duties, to inform the democratic committee as to just what reports have not yet been sent in their reports and to give such other information relative to the recent election as is within his power.

Men have already been sent to several of the counties with instructions to ascertain why precinct reports have not been forwarded, and steps have been taken to secure evidence on which to base prosecutions where intimidation and irregularities at the polls have been alleged.

Reports from the democratic headquarters today to the effect that McDonald had carried that county by a majority of 53 votes, but that the balance of the democratic state ticket had been defeated in that county by majorities of 75.

PROPOSED LOAN MEANS RUIN OF HONDURAS

New Orleans, La., Nov. 14.—"The proposed loan through the Morgan interests which Secretary Knox has thrust upon Honduras, probably is intended to aid and develop the country, but if this loan is effected, it will mean ruin for Honduras," declared Juan E. Paredes, former special minister of the Honduran government to Washington, appointed to negotiate the Morgan loan of \$10,000,000.

BONDS OF POSTAL BANKS SELL BELOW PAR

Trustees Take Prompt Measures to Maintain These Securities at Their Full Value; To Invest Themselves.

[By Morning Journal Special Leased Wire.] Washington, Nov. 14.—As the result of the first sale of postal savings bank bonds in New York recently, at the low rate of 92.5, the trustees of the postal savings banks are considering the adoption of prompt methods to maintain the securities at their face value.

They will announce their willingness shortly, it is explained, to invest in these bonds at par the thirty percent of postal savings deposits which the law places at their disposal for investment "in bonds or other securities of the United States."

This, it is pointed out, would virtually insure 100 cents on the dollar to the holders of these bonds at any time during the twenty-year life of the securities.

The low price for which the first bond was sold created surprise in government financial circles. If 92.5 could be accepted as a criterion of the market value of the investment, the trustees believed the success of the postal savings system would in large measure be placed in jeopardy.

While the bonds are as good as gold at maturity, it would hardly be expected, it is said, that there would be any extensive investment in them if there were a probability that in case a holder had to surrender them before the expiration of twenty years he would lose seven and one-half percent of his principal.

If the thirty percent at the disposal of the trustees should be insufficient at any time to maintain the parity of outstanding bonds, it is pointed out that the law authorizes the president to direct the withdrawal of sixty-five percent of all but five percent of the remainder, for investment in bonds or other securities of the United States, when in his judgment the general welfare and interests of the United States so require.

The postal savings bank law authorizes the secretary of the treasury to redeem United States bonds subject to call and re-issue them to the postal savings bank trustees up to the thirty percent they are authorized to invest. The only bonds of this character now outstanding are United States 3s, and before the postal savings banks, situation developed, it had been generally understood that the trustees would invest in these securities.

In buying the postal savings bonds, which bear only 2-1/2 percent interest, the postal savings investment would lose one-half of one percent. This, it is argued, is significant comment on the maintenance of the parity of the postal savings bonds.

UNABLE TO VERIFY RUMORS OF NEW UPRISING

Party of Reyes Followers Said to Have Started For Mexican Border Fails to Show Up at Laredo.

[By Morning Journal Special Leased Wire.] Laredo, Tex., Nov. 14.—So far as can be ascertained tonight a party of followers of General Bernardo Reyes, reported to have left San Antonio last night for Laredo to be near the border in anticipation of a revolutionary outbreak in Mexico, has not reached this city. Railroad men say they know nothing of the coming of the party.

Rumors of purchases of horses, arms and ammunition by Reyesistas have been without confirmation and have met with denial from the reputed source of supply.

That a large number of political refugees are making this city their headquarters, however, is a fact. In many instances they are political and personal friends of General Reyes and they give as an explanation of their presence their known adherence to Reyes and the fear of persecution therefor.

So far as can be ascertained no troops have been moved from Monterey toward Laredo.

REYES MAY CONFER WITH ROMULO CUELLAR

San Antonio, Tex., Nov. 14.—Madeiristas today made the assertion that General Reyes in a few days would proceed to Brownsville, Tex., there to meet and confer with Romulo Cuellar, an avowed enemy of Madero, and avowed enemy of Madero, and active in opposing the Madero government, but this statement, General Reyes denied.

Human Conductor Still Alive

Duluth, Minn., Nov. 14.—David Carlson, who lives after having come into contact with 15,000 volts of electricity at the Great Northern Power company's plant, is making a desperate fight for life. He is fearfully injured and there appears to be only the slightest hope for him.

The chief electrician in charge concerning the case said today that probably no human being ever before "took such an amount of electricity and lived."

PREMIERSHIP TOO UNCERTAIN TO SUIT YUAN SHIKAI

"Strong Man" of China Will Accept Important Portfolio Only On Condition That He Be Guaranteed Fixed Term.

OFFICE'S INSECURITY MAKES HIM HESITATE

Revolutionists Favor Him For President of Republic and He May Advise Emperor and Cabinet to Abdicate.

[By Morning Journal Special Leased Wire.] Peking, Nov. 14.—While the imperial government is endeavoring to force the premiership on Yuan Shi Kai, China's "strong man," in his various conferences today with the prince regent, the acting premier, Prince Ching, and other members of the nominal cabinet pointed out the insecurity of that office, the retention of which depends upon the caprice of the national assembly.

Yuan Shi Kai, if he accepts the premiership, desires a fixed term of office, and he so stated to the regents. But he must obtain this through the national assembly as an edict would be likely to arouse suspicion. It is considered possible Yuan Shi Kai may be considering the alternative of a republic and may himself recommend the abdication of the emperor. He reports that the rebel leader, General Li Yuan Heng, said he would not recognize him as a Manchurian premier. In his opinion it would be desirable to conduct the revolution most of which are giving the strongest evidence of a desire for peace. The complete constitution already promised would testify the good intentions, except for the fear that Manchu intrigues would begin immediately after arrangements were laid down.

One of the prominent members of the national assembly today informed a prominent legation attaché that although the assembly had committed itself to a constitution under the Manchurian dynasty, a majority would prefer to reorganize the government on the lines of a republic.

The president of the Ta Chang government bank has fled from the city. The vice president, Chang Chin Tao, who was recently in Europe, in connection with a currency loan, and the president of the bank, who had been in the province at Shanghai, the various branches of this government bank have been confiscated. At only one or two treaty ports were the deposits saved by hasty transfer to foreign banks.

The consular dispatches from several places, however, hold their place. At New Chang foreigners are organizing a defense league. A Hankow dispatch says the imperialists there are deserting steadily, some becoming rebels while others are proceeding northward with their loot.

5,000 AMERICAN TROOPS HELD IN READINESS

Washington, Nov. 14.—For the last fortnight, under orders from the general staff, General Bell, commanding the Philippine army, has had between 5,000 and 6,000 American soldiers gathered at Manila and near by points ready for instant embarkation for duty in China as soon as word should come from the state department to proceed.

The transport Sherman due to have sailed from Manila for San Francisco several days ago is being held at Manila. In addition there is the horse boat Warren and the inter-island transport Escam, available for the short cruise with troops between Manila and Shanghai or Tien Tsin.

There is also in Manila harbor at present one of the largest merchant liners engaged in the Pacific trade which could readily be chartered, so that General Bell would have no difficulty in embarking 5,000 troops within twenty-four hours.

Another independent republic has been set up in China, according to American Consul Fowler at Chee Foo, who reported today to the state department that the former government of the province at Shantung, Sun Hao Cho, has been selected as head of the republic of Shantung, which yielded to the revolutionists without a struggle.

On twenty-four hours' notice, Captain Knapp, the naval hydrographer, today produced an excellent map of China, showing the location of the American and foreign warships in the different ports. There are altogether 112 foreign vessels of various types in Chinese waters.

England stands first with thirty-one vessels of various types from the great battleship Montague of 14,000 tons, down to submarines. Numerically France comes next with twenty vessels, but as these include a large number of extremely small craft, the French tonnage is not nearly so formidable as the American naval representation of nineteen vessels.

Germany has fourteen ships, Japan thirteen, Russia eleven, Portugal two, and Austria and Italy one each.

Convict Labor Leader Paroled

Carson, Nev., Nov. 14.—J. W. Smith, formerly a leader of the Industrial Workers of the World, convicted with John Preston, of having murdered John Silva, a restaurant keeper, at Goldfield, during the labor troubles there four years ago, was paroled at a special session of the board of pardons here today. Preston's application for a parole was denied.

EMASCULATION OF ANTI-TRUST LAW OPPOSED

President Taft Not Inclined to Sanction Any Amendments to His Pet Statute; Favors Federal Incorporation Act.

[By Morning Journal Special Leased Wire.] Washington, Nov. 15.—President Taft is not inclined to approve any amendments to the Sherman anti-trust law, unless it becomes apparent that congress will not pass a federal incorporation act. The president indicated this today.

Mr. Taft is anxious to have some legislation to clear up the situation for business men but he made it plain that he preferred to see the changes in the regulation of commerce accomplished through federal charters which would provide for corporations certain defined limitations. He let it be known that should that prove impossible he would endorse amendments to the Sherman law, pointing out specifically what big business may do.

It is the president's idea that if the Sherman law be amended it should define specifically what constitutes offenses against it. Crushing of competition, combinations to ruin competitors, to raise prices, or other acts of the kind, should be specifically named in his opinion.

President Taft also believes that the amendments if made should be framed so as to make it unnecessary for the government to prove that a combination which has come to operate in restraint of trade originally was intended for that purpose, as is now the case.

There would be considerable risk in any attempt to amend the Sherman law, the president has been told, and it is believed he shares this view. He has made it plain, however, that he will not resist the legislation. The members of the cabinet today advised the president to make his message short and he adopted their view.

After the cabinet meeting today the president indicated that recommendations for trust regulations in his message to congress would be along these lines. A bill will be prepared, said the president, merely recommending the legislation. The members of the cabinet today advised the president to make his message short and he adopted their view.

WITNESSES FORCED TO INFORM LORIMER

Evidence Introduced at Present Senatorial Investigation Indicating State's Attorney Was Willing Party to Perjury.

[By Morning Journal Special Leased Wire.] Chicago, Nov. 14.—Questions as to whether H. J. C. Beckmeyer, a state representative who confessed to having accepted a bribe for his vote to elect William Lorimer as United States senator, had not been induced to confess by threats, were asked by Elbridge Haney, counsel for Mr. Lorimer, before the sensational investigating committee today.

Patrick J. Keely, a policeman who was detailed in charge of witnesses during the trial of Lee O'Neil Browne, former minority leader in the legislature, on a charge of bribery, testified that he escorted witnesses about Chicago and that it was his understanding that he was to "get them drunk so they would talk freely."

On such an occasion, he testified, Beckmeyer had said he had received money for voting for Lorimer. He testified he got Beckmeyer in such a condition that the latter did not remember what he had said before the grand jury which investigated the Browne charges.

At another time he described taking Beckmeyer to a certain place where he ever had a photograph in possession of the state's attorney showing Beckmeyer at this place, and did you hear Beckmeyer was shown this photograph to intimidate him into testifying? Attorney Haney asked.

"Yes, I heard about such a photograph, but I never saw it," the witness replied.

"Do you mean to say that you thought the state's attorney was a willing party to perjury?" Senator Keely asked.

"I know it," Officer Keely replied.

JUDICIAL APPOINTMENTS SLATED JANUARY 1

Washington, Nov. 14.—President Taft will wait until January before naming a successor to the late Associate Justice Harlan on the supreme bench.

Three or four other judicial appointments will be made at the same time, including a successor to Circuit Judge Peter Grosscup of Chicago, resigned.

Requests from Indiana, asking recognition for that state, are being received at the White House.

GOVERNOR WILL NOT GRANT BEATTIE RESPITE

Richmond, Va., Nov. 14.—After a brief conference today with counsel for Henry Clay Beattie, Jr., under sentence of death for wife murder, Governor Mann announced that his decision in the matter would be made public early tomorrow.

While the governor declined tonight to indicate what action he would take, a careful review of today's events indicated that there would be no commutation of sentence and slim chance of a respite.

Beattie is sentenced to die in the electric chair on November 24. An affidavit purporting to be signed by Paul D. Beattie, a cousin of the murderer and the witness upon whose evidence the jury largely based its verdict which subsequently was repudiated by Paul Beattie, was shown to Governor Mann. It was not filed with him until the fact that he did not ask that the papers be left, was accepted as indicating that he had made up his mind.

WEALTHY FARMERS FACE TRIAL FOR TARRING WOMAN

Sensational Kansas Case Begins at Lincoln Center; First Blood Won By Defendants; To Ask Change of Venue.

[By Morning Journal Special Leased Wire.] Lincoln Center, Kan., Nov. 14.—First blood in one of the most sensational criminal cases in the history of Kansas, the case of the state against nine wealthy farmers of Shady Bend, accused in connection with the tarring of Miss Mary Chamberlain, a 19-year-old "schoolmarm" of Shady Bend, went to three of the defendants today, when Judge Grover, in the district court, quashed, on a technicality, the information on which the men were arrested.

Before the defendants could leave the court room, however, they were re-arrested, on new information furnished by the county attorney and their hearing will be resumed tomorrow. Then the defense has announced, application will be made for a change of venue on the ground that a fair trial cannot be had for the accused men in Lincoln, Ottawa, Ellsworth or Saline counties. The entire district has divided into two sides, one upholding the tarring, the other declaring it a "stain upon Kansas."

Everett G. Clark, J. Fitzwater and Watson Scranton, the three defendants, were known by almost every one in the crowded court room today. On the night of August 12, last, Miss Chamberlain, while driving with an escort, was taken from the vehicle by a body of armed men at a lonely point in the road, near Shady Bend. She was carried to a nearby field where her clothes were torn from her body and, while the leaders commanded her to leave the neighborhood, pitch was poured over her body. The assault is alleged to have been suggested to the mob by the wives and sisters of Shady Bend who, according to Miss Chamberlain, were "jealous" of her popularity with the young men of the village.

Subscriptions were started by Miss Chamberlain's friends to prosecute the alleged members of the mob.

LEWIS BORROWED MILLION DOLLARS ON PAPER

St. Louis Promoter Gets National Bank of Commerce in Bad By Testimony Before Congressional Committee.

[By Morning Journal Special Leased Wire.] St. Louis, Nov. 14.—How E. G. Lewis borrowed \$1,000,000 on paper from the National Bank of Commerce of this city and capitalized his University Heights Realty and Development company without the actual transfer of a dollar of money or property, was related by Lewis today to the congressional committee which is investigating his \$3,000,000 damage claim against the government.

It was all a paper transaction, according to Lewis, and he told it only in outline, responding when asked for an explanation, "It's too deep for me, you'll have to ask a banker."

The committee decided that the proper broker to call would be J. A. Lewis, cashier of the National Bank of Commerce, who Monday testified that the bank never loaned Lewis \$1,000,000, and could not under the present laws have loaned today more than \$700,000—one-tenth of its capital stock. It was decided to recall Mr. Lewis.

E. G. Lewis produced at today's hearing three drafts, two for \$340,000 each and the third for \$320,000, which he said would substantiate his statement.

QUARTER MILLION DOLLAR FIRE OCCURS IN DETROIT

Detroit, Mich., Nov. 14.—Fire which threatened the business district broke out early tonight on the fourth floor of a wholesale concern on Jefferson avenue. The blaze for a time was second control and a blizzard hampered the firemen.

After two hours fighting the firemen succeeded in saving costly adjoining buildings and getting the blaze under control. It is estimated the loss will reach \$250,000.

REPUBLICANS NOW CLAIM SUPREME COURT, CLANCY AND SARGENT

Land Commissioner and Two Members of Corporation Board Likewise Insisted On By Party Managers.

CONCEDE DEFEAT OF STROUP AND MIRABAL

Governor, Lieutenant Governor, Treasurer and One Corporation Commissioner Allowed the Democrats.

[Special Dispatch to the Morning Journal.] Santa Fe, N. M., Nov. 14.—Republican state headquarters here this evening issued a statement purporting to be the result of a complete unofficial canvass of the vote in the recent state election.

According to the figures presented the republicans have elected the state auditor, the attorney general, the commissioner of public lands, the entire supreme court and two members of the corporation commission and one member of congress. There are several apparent discrepancies in the figures presented, one being that the compilation is based on a return of 1,580 in Valencia county, while the official returns from that county as compiled by County Clerk J. M. Luna show a majority of only 1,451 for the republican ticket there. No attempt is made to account for the difference in the total vote for governor and that for other officers on the state ticket, the vote for governor in every instance being considerably larger than that of other officers.

At the headquarters of the democratic committee the claims of the republicans are scoffed at and those in charge insist that the table presented is based in many instances on unverified estimates and that when the full returns are in they will show substantial majorities for every candidate on the democratic ticket.

However this may be, the figures presented are interesting in what purports to be the first tabulation of results based on any kind of returns from all of the election precincts. Following is the tabulation as given out by the republican managers:

For Governor—	
McDonald	30,011
Bursum	27,143
Democratic majority	2,868
For Lieutenant Governor—	
Deluca	28,293
Martinez	28,109
Democratic majority	189
For Secretary of State—	
Liter	28,215
Romero	27,813
Democratic majority	404
For State Auditor—	
Delgado	27,778
Sargent	28,349
Republican majority	571
For State Treasurer—	
Marron	28,539
Mirabal	27,817
Democratic majority	722
For Attorney General—	
Clancy	29,008
McGill	27,492
Republican majority	1,516
For School Superintendent—	
White	28,169
Stroup	28,102
Democratic majority	67
For Land Commissioner—	
Ervin	28,617
Emerson	27,981
Republican majority	636
For Supreme Justices—	
Parlor	28,264
Roberts	28,594
Wright	28,434
Hanna	28,050
Dunn	28,104
Burkhart	28,019
Average Republican majority	377
For Corporation Commission—	
Arnold	27,576
Williams	28,032
Groves	28,126
Owen	27,612
Marston	26,886
Nash Stone	27,423

WALSH ESTATE SUED FOR \$42,000 BY DOCTOR

Washington, Nov. 14.—Dr. Charles F. Wainwright of New York today filed suit in the supreme court of the District of Columbia against the American Security and Trust company, executor of the estate of Thomas H. Walsh of Colorado and Washington, for \$42,000 for medical services during the last illness of Mr. Walsh.

The doctor's bill was for \$50,000 but he received \$8,000 on account. Counsel for Dr. Wainwright asserts he devoted his whole time to Mr. Walsh for three months to the exclusion of all other practice.

Militia Officer Tuberculosis Victim

San Francisco, Nov. 14.—Word was received here today of the death in Phoenix, Ariz., last night of Colonel Walter N. Kelly of this city. Tuberculosis contracted after long service with the First California Volunteers in the Philippines was the cause. Col. Kelly commanded the First California Volunteers during the earthquake and fire.

## Our Agencies Dot the Earth

Schlitz was brewed first in a hut over sixty years ago. Now our output exceeds a million barrels a year. Our agencies dot the earth.

More and more people every year are demanding Schlitz—Schlitz in Brown Bottles.

In our brewery we spend more on purity—in time—in skill—in money—than on any other cost in our brewing.

We scald every tub, keg and barrel—every pipe and pump—every time we use it. We wash every bottle four times by machinery. Even the air, in which the beer is cooled, is filtered.

If you know what we know about beer, you would say, "Schlitz—Schlitz in Brown Bottles."

## HIGH SCHOOL PLAYS VARSITY - NORMAL INDIAN SCHOOL SATURDAY GAME IN SANTA FE TOMORROW

Football Championship of Albuquerque to Be Decided in Game Between Two Fast Teams On Local Gridiron.

The interscholastic football championship of Albuquerque, will be decided next Saturday afternoon, when the football teams of the United States Indian School and the Albuquerque high school meet at Traction park. Both these teams have shown good work this year and both have defeated the Menaul school team. The Indians have taken the Menaul scalp twice this season, while the High School has done so once. There is a great deal of interest in the outcome of the game on that account.

The Albuquerque High School football team has been making a fine showing this year. So far they have won every game they have played except the practice games against the Varsity, which they were not expected to win.

Coach Alton has fashioned the best team out of the material at his command, ever representing the High School here. He has taught the boys more about football than they thought they could learn. In fact more than they knew existed and he deserves credit for it.

Should the High School beat the Indian School on Saturday, they will remain in this section. They have won every game played this year except the one against the Agricultural College's first team. They have beaten the second college team decisively, and cleaned up every high school in their section.

The same is true of the Roswell high school with regard to the Pecos Valley. The Albuquerque high will be able to down the El Paso high. One thing is certain, both teams will put up a game for blood and it would be the best game of the year.

All this, however, draws nothing from the Indian School-High School game. Both crowds will be out in force and a good game will unquestionably be seen.

## RADICAL REFORMS FOR AMATEUR ATHLETICS

New York Organization to Revise Constitution and Change Its Policy So As to Make Professionalism Impossible.

(By Morning Journal Special Leased Wire.) New York, Nov. 14.—Reforms of a radical nature in the policy and constitution of the Amateur Athletic union will be proposed at the annual meeting on December 14 in New York.

A conversation of the amateur spirit fostered by the A. A. U. is the aim of the proposed reforms and the elimination of the athlete whose services practically are bought, by means of inducements which are of the same moral effect as fees.

Two rules, in particular, will be proposed. One will provide that an athlete who leaves a club affiliated with the A. A. U. must remain unattached for two years before he will be eligible to membership in a different club.

The second provides that a university or college student may not belong to any other club than that of his school.

"The object of these rules," an officer of the union said today, "is to remove the scandal threatening the Amateur Athletic union every now and then. There is no denying that when a small club develops a good athlete there is a rush by the great and wealthy organizations to make him a member of their club."

"This means professionalism in a veiled form, since it gets clubs bidding against each other and encourages the athlete to lend himself to the organization making him the best offer. It prevents the small club that brought him out, from profiting by it. This condition is found in purely athletic clubs as well as in colleges, and it is the condition we desire to have stamped out. The new rules are designed to make it impossible."

## AUTOMOBILE PARTY IS Mired FOR SIX HOURS

Youngstown and Toronto People Get Stuck West of City; No Gasoline Between Here and Nation Ranch, 168 Miles.

To be stuck in the mud not five miles from Albuquerque on a clear day is a misfortune, but to have to work in getting out for six hours is no joke. This happened to J. E. Mackey, and party of Youngstown, O., who in a big Winton "six" car left for the west yesterday morning, intending to make it to Laguna by night. They were accompanied on the trip by George H. Hicks and Mrs. Hicks of Toronto, Canada, in a Kissel Kar, in which a little hammock is swung on the tonneau, for little Miss Hicks, aged seven months, who is traveling from the great St. Lawrence river to the Pacific coast.

The two machines, with Colonel D. K. B. Sellers acting as escort, started south along the Barajas road yesterday morning shortly before 8 o'clock. After crossing the Barajas bridge the whole outfit got stuck in a mud hole that was so deep it came almost up to the chassis of the machines. It took a two-hour team, with block and tackle, six hours to extricate the machines from the mire.

After getting out, Colonel Sellers led this road, which is the Western official road, and found a road that led almost directly west after leaving the Barajas bridge between Dickinson's two-story adobe house and Zierets red barn. The new road was sandy but free from mud and water. The mud hole, which caused the trouble yesterday morning is about a mile and a half down the main road from the Barajas bridge.

As president of the New Mexico Automobile association, Colonel Sellers yesterday announced that there was no gasoline on the western road between Albuquerque and Nation's Ranch. The distance between the two places is 168 miles, and a supply of gasoline must be taken on at Albuquerque to last until arrival at Nation's Ranch.

## JUSTICE HUGHES TURNED DOWN \$100,000 BEQUEST

New York, Nov. 14.—It was discovered today that Joseph Pulitzer's will which was filed for probate today contains a provision for the payment of \$100,000 to Justice Hughes of the supreme court of the United States, if he accepted service as one of the trustees and executors of the estate, this sum to be given in lieu of commissions. Justice Hughes renounced the bequest on the ground that public duties would prevent him from qualifying as a trustee or executor.

The four trustees of Mr. Pulitzer's two newspapers, the New York World and the St. Louis Post-Dispatch, will receive lump sums of \$50,000 each in full of commissions, according to the terms of the will. These trustees are George L. Rives, J. Angus Shaw, Judge Harrington Putnam and Fred N. Judson.

**Coughing at Night**  
Means loss of sleep which is bad for everyone. Foley's Honey and Tar Compound stops the cough at once, relieves the tickling and dryness in the throat and heals the inflamed membranes. Prevents a cold developing into bronchitis or pneumonia. Keeps the ways in the house. Refuse substitutes. J. H. O'Reilly.

## LOW RATE GRANTED FOR NEW STATE SPECIAL

TRIP TO CHICAGO AND RETURN TO COST \$56.30

Already Forty New Mexicans Have Signified Intention of Joining Pilgrimage to National Irrigation Congress.

To date some forty New Mexicans have signified their intention of joining the special train which will go in the New State Special to Chicago to attend the Nineteenth Irrigation Congress, December 5 to 9, and it is now believed that the 100 passengers required in order to run the train will be secured.

The train to leave Albuquerque on December 2nd and it is proposed to stop one day in Kansas City with other brief stops at important towns en route. The train will consist of baggage car, diner and the necessary standard Pullmans.

The Santa Fe has made a round trip rate of \$56.30 for points from Albuquerque south to which is added 28 Pullman fare. From Las Vegas north the round trip rate is \$56.40 and 28 Pullman fare. The tickets have a thirty day return limit and as the special train party will break up after arriving at Chicago the members of the party may return whenever they please, thus making the trip not only a pleasant one, but convenient for those having business to transact or friends to visit in and around Chicago.

Inquiries are coming in to the bureau of immigration from all parts of the state regarding the special and there is every reason to believe that the requisite number of passengers will be secured. However, the time is very short and all arrangements must be completed not later than November 22. Therefore, every one who expects to make the trip should notify the bureau of immigration, Albuquerque, N. M., immediately in order that proper arrangements may be made for accommodation.

The Nineteenth National Irrigation Congress will be the most important session in the history of the congress. It will attract the attention of the entire country and New Mexico, the new state, going to the congress with a big delegation in a special train will secure a volume of beneficial advertising that could not be secured in any other way.

Chicago will be a pleasant place to visit during the irrigation congress. There will be the usual holiday attractions, the annual Chicago Land Show will be under way as will the International Live Stock Exposition. It will be a trip worth taking and to take it in the New State Special and as a delegate to the National Irrigation congress will do much to let the people of the country know about New Mexico.

The two men were arrested at Willard on Saturday by Immigration Inspector Myron H. Brown of this city, who had been tipped off by Inspector Reynolds at Amarillo, that the two were headed this way. He located them without much trouble and brought them here where they were lodged in the county jail.

## BIG CHIEF BENDER STAR FIELDING PITCHER

Premier Twirler of American League Participated in Thirty-One Games Without An Error; Tannehill Led at Short.

(By Morning Journal Special Leased Wire.) Chicago, Nov. 14.—Fielding honors among pitchers of the American league went to Chief Bender of the Philadelphia club, according to the official figures of the 1911 season, announced tonight by President Ban Johnson.

He played in thirty-one games without an error, with a percentage of 1,000. Walsh of Chicago, accepted 186 chances, having 159 assists and 27 put-outs, the largest number of any American league pitcher.

He finished twelfth with a percentage of .959. Tannehill of Chicago, led the shortstops. He made only twenty-nine errors in accepting 642 chances.

Stovall of Cleveland, is the real leader among the first basemen, although Zelder of Chicago, tops the list. Stovall's percentage is .987.

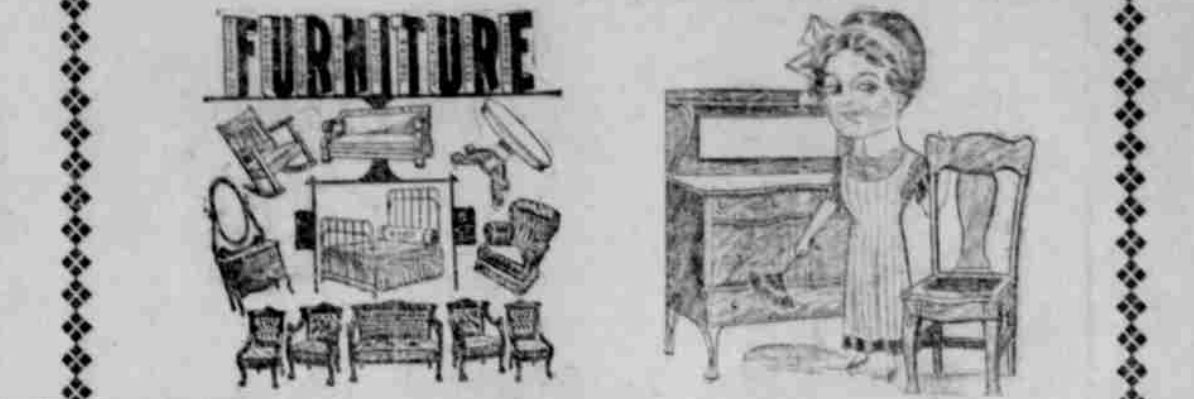

McConnell of Chicago, leads the list of second basemen, but Collins of Philadelphia, probably is the real leader, as he handled 697 chances and made only 24 errors.

Sullivan of Chicago, was first among the catchers. Although Turner of Cleveland, leads the third basemen, Baker of Philadelphia, finished with a better record. Baker took part in 148 games, whereas Turner played in only 92.

Philadelphia led in team fielding, with Chicago second.

**A Mail Carrier's Load**  
Seems heavier when he has a weak back and kidney trouble. Fred Duennen, Mail Carrier at Atchison, Kan., says: "I have been bothered with kidney and bladder trouble and had a severe pain across my back. Whenever I carried a heavy load of mail, my kidney trouble increased. Some time ago, I started taking Foley's Kidney Pills and since taking them I have gotten entirely rid of all my kidney trouble and am as sound now as ever." J. H. O'Reilly.

## OUT FOR THE DUST?

That is, do you want to make money by saving it? Then come here for your Household Furniture, and you will be money in the pocket, at the same time that you get the best qualities, chosen from a large assortment. Pleasing remarks are reaching us daily almost, from satisfied customers. The reason is that all our Furniture is exceptionally well designed and strongly built, so as to ensure durability, and our prices are always very moderate for this quality of goods.

## CHINAMEN MINUS PAPERS ORDERED DEPORTED

Two Crafty Celestials Fall Into Clutches of Federal Immigration Inspector at Willard With Disastrous Results.

Kong Pok and Hong Lim Wo, two almond-eyed citizens of the Flowery Kingdom, were taken before United States Commissioner H. R. Whiting yesterday morning and after examination on a charge of being unlawfully in the United States, were ordered deported to China, from the port of San Francisco.

The case was prosecuted before the commissioner by Chief Chinese Inspector Joseph H. Wallis, and Charles A. Brand, Chinese interpreter, of El Paso, did the official talking for both sides.

The two men were arrested at Willard on Saturday by Immigration Inspector Myron H. Brown of this city, who had been tipped off by Inspector Reynolds at Amarillo, that the two were headed this way. He located them without much trouble and brought them here where they were lodged in the county jail.

The testimony in the case disclosed that the men, although they claimed to have been born in the United States, were smuggled across the border at El Paso. They then started on their journey into the interior. They first went to Toyah, in Reeves county, Texas, and later made their way up the Pecos valley to Clovis. While at Roswell they learned of the presence of an inspector at Amarillo and decided to start over the cut-off for Willard, and thence up the New Mexico Central to Kennedy, thus avoiding Albuquerque.

## JOURNAL READERS NEED NOT HAVE BAD STOMACHS

Indigestion, Dyspepsia, Gas and All Stomach Distress Will Go Five Minutes After Taking a Little Diapiesin.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Diapiesin, and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery is at your drug store, waiting for you.

These large 50-cent cases of Pape's Diapiesin contain more than sufficient to cure any case of Dyspepsia, Indigestion or any other Stomach trouble.

**Noted Musician Dead.**  
Elin, Ill., Nov. 14.—Mrs. Joseph Hecker, widow of Professor Hecker, former bandmaster of the Prince of Wales' Eighty-second Regimental band, and prominent in musical circles in Illinois, died at her home here today.

## BRYAN TO BECOME RELIGIOUS EVANGELIST

Chicago, Nov. 14.—William Bryan announced today he was going into politics with renewed vigor but that he would keep away from the world, by angle of political machinery, and devote himself to cultivating a religious factor in the striving for office.

"I do not expect to take any less interest in politics in the future," said Colonel Bryan, "but intend going deeper into the religious end, and believe it will be better."

"The church has had a monopoly on religion too long. I am against monopoly of any kind. It is a religion is a good thing, for competition means prosperity; each religious belief has its duty to perform."

He was speaking before the Winona Assembly of the Presbyterian church. Before his talk \$15,000 was pledged toward the assembly's work.

**Zapata's Brother Killed.**  
Cuautla, Mex., Nov. 14.—Eugenio Zapata, brother of Emiliano Zapata, is reported to have been killed in a battle near the Hill of Aguas, which began at 11 o'clock last night. It is believed the casualties were few.

## STIMSON TALKS ON PANAMA CANAL PROBLEMS

OPERATION CONCERNS SECRETARY OF WAR

Cabinet Officer Urges Regulation of Rates By Commerce Commission; Opposes Government Owned Steamers.

(By Morning Journal Special Leased Wire.) Kansas City, Nov. 14.—With Champ Clark, speaker of the house, Henry L. Stimson, secretary of war, and Judson L. Harmon, governor of Ohio, as their guests of honor, the Commercial club here tonight commemorated with a banquet the 117th anniversary of the consummation of the John Jay treaty.

Because of the presence of Secretary Stimson and his chief of staff, Major General Leonard Wood, the banquet was military in character. All officers and their aides appeared in the full dress of the service.

"Problems of the Panama Canal," was the subject upon which Secretary Stimson spoke. He pointed out that work is progressing rapidly on the big waterway and that its completion is not far distant. At a result of this state of affairs, he said, many problems are to be solved in the near future. Among those he mentioned were:

What to do with the operating force when the canal is completed; how to operate the canal and exercise control over the surrounding zone; what tolls shall be charged vessels using the canal.

Secretary Stimson said he favored giving the Interstate Commerce commission power to regulate the rates. Mr. Stimson further said that he opposed the establishment of a line of government-owned steamers to ply the canal.

Champ Clark's subject was "Thomson Hart Benton," whom the speaker styled the "Great Missourian."

Governor Harmon's address dealt with the John Jay treaty. He did not touch on present day politics.

Secretary Stimson, in dealing with the problems presented by the approaching completion of the Panama canal, took advanced ground in favor of subsidies to American shipping using the canal and for its administration as a military adjunct. He called attention to the fact that although there will be water enough in the canal to float small boats throughout its length by the close of the rainy season which commences next May and while the canal will be fully ready for ocean traffic, through our own neglect no provision has been made for its operation. As soon as the canal is completed the president's authority over it will cease unless congress comes to the rescue. A great economic efficient force of employees to disintegrate, when so much of it will be needed for the permanent operation of the canal.

Then there is the problem of creating a permanent organization or gov-

ernment to operate the canal and to control the zone. The country is worthless for agricultural purposes; mostly a tropical jungle or low rocky hills and it is preposterous to think of it ever forming a basis for an American farming settlement. This fortunate condition affords an opportunity for the creation of an organization for the almost sole purpose of opening and shutting the lock gates and protecting them in time of trouble; it is not a question of educating or of uplifting a dependent people and there is no reason for introducing all the complex checks and balances of a self governing community. The secretary declared that at the bottom the canal presents a military problem. For defensive purposes it will double the capacity of our fleet and to have it blockaded at a critical moment in our national life, either by design, might be quite as disastrous as having twenty of our battleships sunk at sea. The temptation which that fact imposes upon any nation with whom the United States may be at war must never be lost sight of. Correspondingly its military effectiveness will make it a powerful ally in assuring a maintenance of peace.

The secretary alluded to the sanitary problem and declared that only a continually vigilant exercise of the administrative power could insure us against possible contagion, as this strip of land was notorious for 400 years as a plague spot of the Americas. In the operation of the canal the president should be given a free hand, using such forms of administrative government as he may desire. What is needed is a method flexible enough to meet the new and uncertain problems which are bound to arise.

Touching the important question of tolls, the secretary pointed out that the Panama canal would have at least three great competitors, the Suez canal, the Tehuantepec route and our own transcontinental railroads. The amount of commerce that will use the Panama route will be determined largely by the question of tolls. If a dollar a ton of freight per thousand miles represents the toll consumption of the freight steamers, every dollar charged as tolls for the canal will neutralize a thousand miles of the advantage in distance which the Panama route may have over any competitor. There should be an administrative body or officers with power to fix tolls and to change them to meet changing trade conditions and competition.

Touching the rights of the United States to pay tolls on American vessels using the canal, Secretary Stimson had not the shadow of a doubt. He said there would be no violation of our treaties or any evasion of them and no doubt as to the right of the United States both legal and moral to subsidize its shipping passing through the canal. Under the treaty with Great Britain the rules of the Suez canal were to govern and in that case it had never been considered a violation of the rule of neutrality for a nation to pay the tolls upon the vessel flying its flag. Substantially every European government using the Suez canal pays such subsidies, fully or partially equivalent to the full tolls. When the Panama canal is opened the vessels of all of our marine competitors who use it will be in receipt from their governments of sums of money either given them directly to pay their tolls, or applicable in their discretion to such use. Therefore, said the secretary, it was perfectly clear that the United States had the right to appropriate to the vessels paying the same, the sums paid into its treasury by those vessels in the form of canal tolls.

## LONG AND SHORT HAUL CLAUSE HELD VALID

COMMERCE COURT RENDERS OPINION

Decision Applies to Transcontinental Rate Cases and Results in Issuance of Temporary Injunction.

(By Morning Journal Special Leased Wire.) Washington, Nov. 14.—In the majority opinion of the commerce court, formally handed down today in the transcontinental rate cases, it is held that the long and short haul provision of the Interstate Commerce act is constitutional. Judge Archibald concurs in the issuance of a temporary injunction of the orders of the Interstate Commerce Commission, but in his opinion holds the long and short haul provision to be invalid.

The commerce court reached the conclusion that the cases involved in the present proceeding afforded the best opportunity for a decision of the long and short haul provision of the act to regulate commerce. It was realized that that question eventually would have to be fought out before the United States supreme court.

In the formal opinion prepared by Judge Mack, the commerce court not only agrees with the Interstate Commerce Commission that the long and short haul provision, is constitutional, but that it would be unconstitutional "as an unlawful delegation of power" if no standard were given to guide the exercise of the commission's discretion in granting authority to depart from the rule forbidding a lesser rate for the long than for the short haul in the same direction and over the same line.

By an exhaustive examination of the entire law, however, the court reaches the conclusion that it is, the duty of the commission to exercise its discretion to establish a lower rate for a longer haul than for a shorter, if the conditions in its opinion warrants such action.

The court points out that the orders of the commission which are enjoined "do not establish absolute rates, for either the long or short haul, but they do establish a relation between any long haul rate that a carrier may put into effect and the short haul rate, determining that from zone one, the western short haul rate shall not exceed the long haul rate, and that from zones two, three and four, the short haul shall not exceed the long haul rate by more than seven per cent, fifteen per cent and twenty-five per cent respectively.

"Insofar as the commission attempts thus to determine the relation of the long and short haul rates, irrespective of absolute rates, it goes beyond any authority that has been vested in it, for it is not in the power of the commission to say that 100 per cent or 101 per cent, or a given percentage of a less than reasonable rate, to the coast is necessarily a maximum reasonable and non-discriminatory rate, from the same point of origin to an interior point.

"The practical effect of the commission's order is either to compel a blanket rate from the entire coast to the entire west, or to prevent the carriers from getting all the business which they now secure without loss by making rates which enable merchants to meet market competition.

"In a word, unless some through business is given up, the effect of the orders would be to put Spokane and other interior points on an equality with Seattle and other Pacific coast points, at least from zone one—a position to which they would not be entitled under all circumstances in view of their relative locations, the former four hundred miles more or less in the interior, the latter on the coast."

Judge Archibald in an opinion concurring with the majority of the court as to the propriety of the granting of temporary injunctions against the orders of the commission, which he holds "were clearly valid," says: "I cannot see my way to go beyond this and declare the fourth section valid, on which, if anything is to be said, my opinion is to the contrary."

Final determination by the commerce court of the question whether the temporary injunction granted shall be made permanent, probably will not be reached for several months.

## SEVENTEEN PRISONERS MUTINY; TWO ESCAPE

Kansas City, Nov. 14.—Seventeen prisoners working in a stone quarry in the outskirts of Kansas City, Kansas, mutinied today and after a revolver fight with their guards, two of them escaped.

Only two guards were on duty.

After an exchange of a dozen shots, N. T. Thompson, one of the guards, overcame all the prisoners, save two negroes, who escaped into the woods.

French Countess Detained. San Francisco, Nov. 14.—Countess Marguerite de Rougemont of France, who arrived here today on the steamer Marlborough from Tahiti, was ordered by immigration officials into detention at Angel Island until the identity of an infant child that had been brought with her could be established.

In her declaration to the customs officials the Countess is said to have referred to the baby as her son. After being questioned, however, she is said to have told the officials that she was not the mother of the infant.

More than a year ago the Countess de Rougemont filed suit for divorce against H. W. Ehler, who is now residing in this city. Shortly afterward she left for Tahiti.

## THANKSGIVING LINENS

The planning of the Thanksgiving feast includes the Linen Service, does it not? Just now we are offering every wanted sort of Table Damask and Pattern Cloths, with Napkins to match, at decisive price savings. They are fresh from the bleach-greens of Ireland—beautiful qualities and designs. Linens that will be a pleasure to add to one's linen chest. Special prices on these and on every item in our Linen Section will continue throughout the week. We solicit an inspection

Ferguson & Collister

## BURGLARS CAUGHT TEN MINUTES AFTER CRIME

Special Officer C. E. Hinds Establishes Record By Arresting Youthful Thieves Who Rob Albuquerque Pool Hall.

To arrive in a strange city, to burglarize a store, perhaps two, to be arrested, bound over to meet the action of the grand jury under bond and to be committed to the county jail, forms a series of unusually thrilling events to be crowded into twenty-four hours, yet that is what happened to Lorenzo Romero and Juan Chavez.

One came from Winslow and the other from Glendale, arriving in Albuquerque Monday night about 8 o'clock. On their own confession they robbed the cash drawer in the Smoke House, a pool room and bowling alley between First and Second streets, at 208 West Gold avenue, 10 minutes after the proprietors left Tuesday morning, and now they are the guests of Don Jesus Romero in the Casa Condado in Old Town.

Early yesterday morning Special Officer C. Hinds picked up two suspicious looking fellows in the alley between First and Second streets, back of the Japanese Pool hall. They were taken to the city jail and when searched had \$2.86 between them, mostly in nickels and dimes. This seemed peculiar and they were held as suspicious characters.

When Warren Hayward went to the Smoke House yesterday morning he found the cash drawer had been robbed, that the thieves had broken in by cutting the glass in the back door.

He immediately notified the police, who told him of the men in custody. Charles Osterhout, the other partner was called and he remembered two strange young Mexican boys hanging around the pool hall Monday night while a pool game was in progress, and until the place was closed. He described them. His description fitted and with that they were immediately taken before Justice McClellan, where both confessed to robbing the Smoke House. They were bound over to await the action of the grand jury in the sum of \$250 each, when they could not give.

There was also reported yesterday morning to the police a burglary of the store of Benjamin Brothers on Central avenue. The burglars adopted the novel plan of getting on the roof of the building and letting down some sort of a grappling hook through the skylight, directly over the suit racks below. They only ob-

tained one coat, however, by this means.

While it is thought that the same fellows committed both burglaries, the proof against them in the case of Benjamin Brothers store is not very strong.

Since the present grand jury is not discharged, but merely in recess, it is likely that if enough cases accumulate another session will be had and the young burglars indicted and given a speedy trial.

## EX-GOVERNOR PRINCE PRESIDES OVER CONGRESS

Denver, Nov. 14.—A great industrial demonstration in the form of a parade in which scores of gaily decorated floats participated, was the feature of the apple show here today. Tonight a military tournament and a horse show in the gigantic arena at the auditorium, attracted thousands of visitors.

The second annual session of the American Apple Congress opened today. President L. Bradford Prince, former governor of New Mexico, calling the first one hundred delegates to order with the sound of a gavel made from an apple tree, planted in New Mexico, three hundred years ago by the Franciscan monks. Work today was devoted to the routine of organization.

## VESSELS THROUGH CANAL WITHIN TWO YEARS

New Orleans, La., Nov. 14.—Vessels will be allowed to pass through the Panama canal before the official date of the opening which has been set for January 1, 1915.

This information is contained in a letter received today by Leo Bentley, of the commission on immigration from Major F. C. Rogers, of the United States corps of engineers at Washington. Major Rogers says:

"I am directed by the secretary of war to inform you that while the official date of the opening of the canal has been set for January 1, 1915, it is the intention to allow vessels to utilize the canal just as soon as practicable. Present indications seem to bear out the opinion previously expressed by the chairman and chief engineer of the Isthmian Canal commission that this can be accomplished during the latter half of 1915, although it is too far in advance at this time to fix any definite date.

"Shipping interests will, however, be advised as soon as the commission feels assured that vessels can be passed without unnecessary delay."

Notice of Stockholders Meeting. Notice is hereby given that the regular annual meeting of the stockholders of the Home Bank & Loan Company of Albuquerque, N. M., will be held at the office of the said company, Room 2, Stern building, Albuquerque, N. M., at 3 o'clock p. m., Monday, November 20, 1911.

Attest: W. M. F. A. GIERKE, Secretary.

## GOOD OFFICES OF UNITED STATES NOT SOUGHT

State Department Has Heard Nothing From Either Italy or Turkey Indicating Their Desire to Terminate War.

(By Morning Journal Special Leased Wire.) Washington, Nov. 14.—The state department has heard from Turkey or Italy nothing that would suggest an extension of the good offices of the United States to terminate the present war since the notification from the Italian government of the annexation of Tripoli.

That notification was accompanied by an intimation that the good offices of one of the signatory powers of the

Hague convention would be welcomed. As it was conditioned upon the acceptance as a fact of the annexation of Tripoli, the state department did not feel free to move in the matter for any such overture by the United States to Turkey would fall within the category of intervention, which the state department has positively refused to undertake.

Dispatches received from Tripoli at the Italian embassy today say that a battalion of Turks attacked the Italian troops yesterday, but was repulsed, leaving five dead on the field, including one officer.

The Italians reported two wounded. A second assault was repulsed by the Italian troops without loss of life.

Today the Italian man-of-war Barado shelled Fort Alfonsa on the western coast. At Benghazi, Derna and Tobruk, where new troops have arrived, the situation is reported as unchanged.

ALBUQUERQUE NEW MEXICO

## RESULTS FROM THE ROAD.

Here is a fact which must have impressed every reader of New Mexico newspapers:

Scarcely a day passes now that the papers of El Paso, Las Vegas, Santa Fe and Albuquerque do not chronicle the arrival of a party of parties of automobile tourists from some other state. You cannot have failed to notice this. The automobile parties have come from Boston, from New York, from Chicago, from all parts of the east and the central west.

These people are really seeing New Mexico. They get more than a fleeting glimpse from a Pullman car window. They get right into the country, into the best of our scenery, into the best of our farming districts. They are able to say, when they return home, what New Mexico really is.

The number of these automobile tourists is increasing right along. The fact should teach the lesson of good roads to every community. In the Sunshine State, the scenic highway, still uncompleted, has brought New Mexico beneficial advertising in publications of all classes having national circulation. Some of the best of the high class magazines have described it. Motor publications have given it much space. It has been worth every dollar it has cost up to this time, in advertising alone.

If results like this can be obtained by the merely preliminary work which has been done, what may we expect when the state is cross sectioned with modern, well kept highways, and when every one of our magnificent mountain ranges is opened by good, automobile roads to tourist travel?

The community in New Mexico that fails to join in the good roads movement is a drag upon the commonwealth, and is blind to its own best interests.

## NO OVER-OCEAN DIRIGIBLE TRIP.

It is announced that Vaniman will not undertake to cross the Atlantic with his dirigible balloon this year. This is doubtless a wise decision. The experiment of driving a great gas bag across more than 2,000 miles of ocean would seem to be about as hopeless and useless as anything that has yet been undertaken in the way of aerial navigation. The chances of success are at best slender. There must be calm weather for several days without interruption. The balloon must work perfectly, the engines functioning without slip, and there must be no fog. Even when this combination is secured the trip would stand as a mere novelty of no practical importance, for even in the light of amazing advances in aviation during the last five years it is still inconceivable that the dirigible can be developed to commercial uses. Its presentation of a great surface to wind resistance renders it susceptible to derangement and causes it to be the least trustworthy of flotation devices save for the single purpose of remaining aloft without power. Despite the persistence of Zeppelin in Germany the gas bag cannot be regarded as an efficient mode of air navigation.

"The most important thing is to find a wife," says Dr. Woods Hutchinson of New York, "and it really doesn't matter so very much who she is. Ninety-nine women out of a hundred are good, so there should be no great difficulty for any young man to find a wife good enough for him." Apparently Dr. Hutchinson thinks that all a man wants in a wife is goodness.

A Farmington man saved tobacco tags enough to get a fine rocking chair. His wife, who has no sense of economy anyway has flung it out that for the money which he spent for tobacco he could have purchased a new bedroom suite, a range for the kitchen, a parlor table and a rug for the living room and hall."

A very special dispatch informs us that by "industriously shining boots" undergraduate girls in Wellesley college have just added \$6 to a fund that students and graduates are raising for a \$100,000 clubhouse on the campus. We can figure out that \$6 means 120 shins, but what puzzles us is: where did the boots come from?

## THE PRESIDENT IN JOINT DEBATE.

An unexpected joint debate came off the other day at Pittsburgh between President Taft and Congressman Martin W. Littleton of New York on the burning question, What shall be done with the Sherman law against trusts? Mr. Taft's position is well known. He would leave the law as it stands. Mr. Littleton's plan still remains vague, and although he announces himself in favor of repealing the statute, he had nothing but glittering generalities to offer when the president asked him what substitute for the present law he proposed.

Apparently Mr. Littleton desires a complicated code specifying and prohibiting this, that, and the other line of conduct. This is the sort of thing that delights the lawyers. It supplies opportunity for endless evasion, confusion and complication. As Mr. Taft said:

The Sherman law has been on the statute books for twenty years, and has been construed, and construed, and construed, and finally by the supreme court. The two decisions last spring, in my judgment, give it definite meaning that any combination in restraint of trade with the purpose of controlling prices and stifling competition is a violation of the statute.

Men know whether they intend to stifle competition and control prices, and all that is necessary in a court of law is to prove the combination and the intent. That is all that is needed for the enforcement of any criminal statute.

That is to say, the Sherman law supplies a rule of general application from which the court can infer the nature of the act and whether it is in restraint of trade. Mr. Littleton on the other hand proposes to describe and catalogue specifically the acts prohibited. The certain result would be a lawyer's riot of special pleading and barren technicalities.

## ELFEGO SLIGHTLY ANGRY.

Hon. Elfego Baca, editor of La Opinion Publica and defeated candidate for congress on the republican ticket, believes he has been made the victim of the double cross, at least Mr. Baca gives evidence of this belief in the last issue of his valuable newspaper. According to Mr. Baca, his running mate, former Governor Curry, did not exactly tote fair in the recent campaign. In a leading editorial, on the first page of La Opinion, the editor-in-chief says his respects to the governor in the following peevish language:

"George Curry, candidate for representative in congress and the entire republican ticket, it is expected, will be elected, because this friend of ours belongs to all parties.

"His work in the last campaign was marvelous. He was a democrat among the democrats; he was a republican among the republicans, and he was a progressive among the progressives. In the so-called American towns in Eddy, Chavez, Roosevelt and Curry counties he even sought to raise the race issue, saying it would be well to vote for him and Ferguson in order to prevent a native New Mexican from going to congress.

"His work was especially for Curry, so that if he goes to congress no party will have the right to claim him. He will serve there as the joker in a poker game. Those who are familiar with the game of poker know what this means. God only knows what kind of a record he will make in Washington, for he, himself, doesn't know."

"The trouble with me is," said Uncle Joe Cannon as he was seeing New York preparatory to setting sail for the canal zone, "that I don't know what to do with myself between midnight and bedtime." Down at the Panama canal he can put in his time keeping cool.

The Chinese emperor and the royal prince have taken refuge in the Forbidden City, which is being hurriedly prepared for attack. Perhaps the little emperor thinks that all the din of bugles and drums is just a celebration to amuse him.

Telling about some recent fighting in Tripoli, the Italian minister of war cables: "Tooth by tooth our soldiers fought. The oppression passed like a scythe over the battlefield. Blood met by blood." General Sherman used fewer words.

Lord Shelton Douglas says he has run across many persons who have told him they have met men who were using his name and title. But why? Lord Shelton hasn't done anything to make his name and title particularly enviable.

Tolstoi's estate is to be bought by the peasants' bank, and the land will be divided among his peasants. This would very probably delight Tolstoi were he living, and there is no reason to suppose that the peasants will object.

Oscar Underwood says he is not a candidate for president, and does not expect to be. But, of course, the democrats may insist on nominating him; the party has only a dozen or so of active aspirants already.

Departing just slightly from the usual trend of his talks, Dr. Wiley says that good cooking is the surest cure he knows of for the divorce evil. But how is one to know that he is picking a good cook?

Dr. Elliot's belief that aviation is demoralizing is obviously tinged with prejudice. The chances are that the doctor has never found out what aviation is like, by personal experience.

An Italian trial seems to be an emotional and impulsive thing; yet the courts cannot be charged with proceeding in a hasty and off-hand manner.

At any rate, the war is not costing Turkey much financially as compared with the heavy strain upon Italy. That is a rather negative satisfaction for the Sultan, but it is something.

It is interesting to note that the women who are fighting for the right to vote are much more conspicuous in public affairs than the women who have it.

The Italian general Canova, complains that the Arabs shot his soldiers from behind. But didn't the Italians drop bombs on the Arabs from above?

The New Yorker who gave a bad check to pay for a banquet to Gaby Desya should have drawn at sight on ex-King Manuel instead.

Numerous emperors have discovered that the most difficult thing they have to do is to effect a graceful abdication.

Treating the Arabs as brigands sounds easy until the question of paying a ransom comes up.

The soda water bill in this country where it flourishes as in no other in all the world, is \$329,660,000.

## OFFICIAL NOTES FROM ANCIENT CAPITAL

Directors of American School of Archaeology in Session at Governor's Office; Notaries Appointed.

(Special Correspondence to Morning Journal) Santa Fe, N. M., Nov. 14.—Governor William J. Mills is presiding ex-officio today at the meeting of the board of directors of the School of American Archaeology in his office at the capital.

### Notaries Appointed.

Governor Mills has appointed the following notaries public: J. C. McBee, Artesia, Eddy county; Anna B. Diener, Springer, Colfax county; J. W. Schnell, Artesia, Eddy county.

### For the Treasury.

Territorial Treasurer Rufus J. Pallen has received the following sums for the treasury: W. H. Merchant, treasurer of Eddy county, \$205.13; George Page of McKinley county, \$379.99; Game and Fish Warden Thomas P. Gable, \$329.25; Frank W. Cheney, attorney general, refund, \$15.05.

### Board of Education.

The territorial board of education will meet Wednesday and E. McQueen Gray, president of the New Mexico university, will be here Wednesday evening. Dr. W. E. Garrison, president of the New Mexico College of Agriculture and Mechanic Arts will not be able to be here for the meeting as he is in Columbus, Ohio, attending a meeting of the presidents of agricultural colleges.

### Mounted Police Matters.

The mounted police have received word that Roman Cordova has been arrested at Costilla, Taos county, on the charge of attempting to assault a 12-year-old girl.

Through an error it was stated Saturday that Joseph Fresquez was arrested in Colfax county by Mounted Policemen O. F. Lambert, and that Fresquez then jumped his bond. It appears that he jumped his bond before being arrested by Mounted Policemen Lambert and that was why he was re-arrested. He now is in jail at Raton.

### New Company Incorporated.

The articles of incorporation were filed today by the Southwestern Mining and Development company, which is incorporated at \$2,500,000 with its office in New Mexico at Anapra, Dona Ana county, and H. A. Keyser is its agent. The company still maintains an office in El Paso, Texas. The capital stock consists of 25,000 shares at \$100 each and the company begins business with \$3,000 capital, consisting of thirty shares, subscribed to by thirty El Pasoans, each owning one share. The company will do a general mining and real estate business.

### Applies for Admission.

The Bankers Life company of Des Moines, Iowa, today applied to the Insurance department for admission. This company is a continuation of the Bankers Life association, which was upon the assessment plan, the new company becoming a full fledged mutual company upon the legal reserve basis.

No recent event in life insurance has attracted more wide-spread attention than the move of the Bankers Life association in going upon a legal reserve basis and amending its charter to be known as the Bankers Life company for that purpose. The old contracts are to be kept apart and in force under the provisions of a long governing, and no liens are to be placed on them to give them a legal reserve basis.

### Postal Changes.

The following postal changes are announced for the southwest: Robert S. Ross has been appointed postmaster at Fort Hancock, El Paso county, Texas.

Irene O. Carroll is appointed as postmaster at Armo and Henry T. Lavell, at Balmorhea, both in Reeves county, Texas.

from Blanco to Astec changed to Belmont at Turley.

Cecil H. Johnson is the new postmaster at Sawyer, Valencia county, New Mexico, and Darryl V. Winn is the new postmaster at Hanover, Curry county, New Mexico.

Theron H. Greene has been appointed as postmaster at Bellevue, Gila county, Arizona.

### Land Report for October.

Major Fred Miller, receiver of the Santa Fe land office, has made his report for the month of October showing that land business had not fallen off. The report is as follows:

Original entries 45; average 6792.49 acres; money \$689. Entries "Act. February 19," 14; acreage 3061.32; money \$249.81. Entries "Act. June 22, 1910," 6; acreage 881.35; money \$88. Final entries 44; acreage 581.35; money \$58. Final entries 44; acreage 6240.63; money \$260.88. Soldiers additional entries 1; acreage 49; money 18. Mineral applications 1; acreage 11; money 10. Testimony fees, \$15.12. Cancellations, 14. Commuted homestead entries, 18; acreage 2536.07; money \$2544.97. Excesses 2; acreage 18.39; money \$22.98. Isolated tract sales 3; acreage 246.34; money \$215.88. Original desert entries 1; acreage 49; money 10. Final desert entries 4; acreage 596.07; money \$596.07.

## In Lighter Vein

### Something in Clothing.

A strapping German with big beads of perspiration streaming down his face was darting in and out the aisles of a Philadelphia department store.

His excited actions attracted the attention of all the salespersons, and they hardly knew what to make of it. A hustling young man of the clothing department walked up to him and asked, "Are you looking for something in men's clothing?"

"No," he roared; "not men's clothing; women's clothing. I can't find my wife!"—Lippincott's.

### Plainly Visible.

The conductor rang the bell twice, then gave the cord a violent single jerk, and the car stopped in the act of starting. A woman of 250 pounds got aboard, breathing heavily and filling the platform with her presence.

"Excuse me, ma'am, I didn't see you," said the conductor.

"Don't you think you had better consult an oculist?" she asked.—Newark News.

### Encore.

One day Mark Twain was being shaved by a very talkative barber and was forced to listen to many of his anecdotes.

The barber had to stop his razor, and when he was ready, brush in hand, to commence again, he asked: "Shall I go over it again?"

"No thanks," drawled Mark. "It's hardly necessary, I think I can remember every word."—Everybody's Magazine.

### Some Undertaking.

The official undertaker of a small Michigan town was driving through the county on one of his regular missions. A woman came out to the gate of a farm yard and hailed him.

"I don't seem to recall your name, madam," he said.

"That's funny," she said. "It ain't been more'n a year and a half ago since you undertook my first husband."—Saturday Evening Post.

### Too Much for Elizabeth.

Little Elizabeth and her mother were having luncheon together, and the mother, who always tried to impress facts upon her young daughter, said:

"These little sardines, Elizabeth, are sometimes eaten by the larger fish."

Elizabeth gazed at the sardines in wonder and then asked:

"But, mother, how do the large fish get the cans open?"—Lippincott's.

### A Dubious Compliment.

Dobby was showing off his baby. "Think he looks like me, Slithers?" he asked.

"Well—no," said Slithers, looking at the youngster critically. "He's a queer-looking little cuss, but I shouldn't go so far as to say that he looks like you."—Judge.

### A Possible Clue.

"I wonder where all the Smiths come from?"

"Well, there's a Smith Manufacturing company in our town."

### FACTS FOR THE CURIOUS.

A collapsible boat, invented by a Frenchman, can be folded to carry in an ordinary suitcase.

Toads are sold at \$1 a dozen in Paris, being bought by gardeners to be used as insect destroyers.

Contrary to the generally accepted idea, the amount of nicotine in the average cigar is negligible.

It is believed that \$100,000,000 is a low estimate of the value of eggs produced annually in Russia.

A rotary grater to be clamped to a kitchen table is a finger saver that an Ohio woman has patented.

For coughing, dryness and tickling in the throat, hoarseness and all coughs and colds, take Foley's Honey and Tar compound. Contains no opiates.—J. H. O'Reilly.

### Germany Seeks More Territory.

Frankfurt-on-the-Main, Germany, Nov. 14.—The German ambassador to Spain, Prince Von Ratibor, and the Spanish minister of foreign affairs, Marquis Garcia Prieto, held a conference at Madrid yesterday according to the Frankfurt Zeitung, the subject under discussion being the cession of Spanish Guinea to Germany.

## VALUABLE PRIZES IN CORN GROWING CONTEST

Las Cruces Boy Wins Blooded Holstein Bull For Excellence of Product; Big Yield in Mesilla Valley.

(Special Correspondence to Morning Journal) Las Cruces, Nov. 14.—Prof. Conway, head of the extension department of Agricultural college, El Stewart and A. Williams, the judges selected to judge the corn grown by the boys in the corn growing contest, met and judged the corn and awarded the prizes. There were twelve samples in the contest.

The first prize was won by Ralph Will, a pure bred Holstein yearling bull offered by the Agricultural college. Kenneth McClellan, Carl Barnett, Fred Barnett, Richard Ford and Paul Ford, won prizes. Their prizes were a cultivator, a Tamworth boar, broadcast seeder, \$2 in cash and \$2 in cash.

This contest was started last spring by Prof. H. H. Shutz. The conditions were that boys entering the contest must use seed furnished by the experiment station. The corn was judged for quality and yield 80 percent 20 percent was allowed for notes taken by the contestant.

The idea of boys' corn growing contests is not a local one, but a plan hit upon by agricultural experts of national fame who realize that boys must be encouraged if our agricultural interests will be developed properly by the coming generation. Hundreds of these contests are held every year in every part of the United States where corn is grown.

The results obtained in boys' contests are almost unbelievable. Some boys have grown three times as much corn per acre as his father. In the first place he selects the best seed; he then prepares the ground thoroughly; he cultivates frequently and, by doing every thing well, he reaps a large crop of choice corn. Some of the boys entered their corn at the Mesilla Valley fair and won prizes.

The corn crop of the Mesilla valley for 1911 averaged 40 bushels per acre. This is 14 bushels more than the "corn belt" produces. The experiment station experts believe that this amount can be increased several bushels. By interesting the boys early in life they will devote their attention to securing large crops. After corn cultivation is worked up, wheat, oats, fruits and vegetables will be added to the contest.

## ANOTHER WRECK ON FIERRO ROAD

Santa Fe Officials May Order Rebuilding of Branch Line Owing to Frequency of Smash-Ups.

(Special Correspondence to Morning Journal)

Fierro, N. M., Nov. 12.—Another wreck of fifteen heavily loaded cars occurred here yesterday, but no one was injured. This is the third wreck during the past two weeks.

Some of the big Santa Fe officials were here a day or two ago investigating the frequency of wrecks on this end of the road, and it was determined, so it is said, that the road bed will be put in first class condition and mogul engines be substituted for the small ones now in use. The grade here is very heavy and the small engines are not able to hold back a train of loaded cars, and

## MOHAIK GROWERS IN SESSION AT SAN ANTONIO

Silver City, N. M., Nov. 12.—Secretary K. O. Baker and W. A. Heath, of the National Mohair Growers' association, have reached here from San Antonio, Texas, where they attended the annual meeting of the association. They report a large attendance and much good was accomplished for the benefit of the mohair growers and in the interest of the organization. The tariff on mohair was discussed and Judge J. McCarty, of Dublin, Texas, was selected to go to Washington when congress meets to present the views of the association on the necessity of segregating mohair from wool and putting it in a class by itself with a tariff of twenty-five cents a pound.

## LARGE DEMAND FOR LITTLE STICKERS

Bureau of Immigration Fairly Swamped With Applications For Unique Advertising Slogan.

The New Mexico Bureau of Immigration is fairly swamped with applications for the unique advertising stickers bearing the New Mexico state seal and the slogan recently adopted by the bureau, "New Mexico the Sunshine State."

These stickers can be attached to the letter heads and envelopes of mail matter sent to the east, west, north and south and strikingly call attention to the new state.

More than 15,000 of the stickers were sent out from the Bureau of Immigration office yesterday and the requests for them are being filled as rapidly as possible.

Anyone desiring to use the stickers may obtain a supply by applying in person to the bureau or by addressing Bureau of Immigration, Albuquerque.

You can save money as well as your good health by drinking

## FINANCE AND COMMERCE

## Wall Street.

New York, Nov. 14.—Prices drifted slowly toward a lower level during most of today's trading in stocks. At no time was the movement abrupt and a late rally reduced the losses largely, so that at the close changes for the most part were small.

The rally apparently was based on the recent order of the commerce court granting a temporary injunction in the Inter-Mountain freight rate cases, the text of which was made public today. Much was made of the restrictions laid on the interstate commerce commission regulation of rates and the long and short haul clauses.

Railroad stocks were bought heavily on the publication of the court's order. Union Pacific rose nearly two points. The whole market improved moderately.

The bears found ammunition earlier in the day in the court decision of the Missouri supreme court against the International Harvester company. When the decision was announced the stock broke 5-8 points.

The coal roads were again prominent. Lehigh Valley touched 131 1-4, equaling its high price for the present movement. St. Paul again showed weakness and United States Steel lagged behind.

Early in the session London sent over buying orders amounting to perhaps 25,000 shares, taking United States Steel, Amalgamated Copper, Union Pacific, Reading and Rock Island on the recession in this market. Later London was a seller. Closing stocks:

## Chicago Board of Trade.

Chicago, Nov. 14.—Predictions that the Argentine crop will reach more than 50,000,000 bushels in excess of the bumper yield of 1907, bewildered wheat speculators today and put a stop to an up-tune here in the market. The close was within a shade either way from last night's figure.

In corn the outcome was a net advance of 1-2¢ to 3-4¢; oats finished unchanged to 1-8¢ higher and hog products the same as 24 hours previous to 10¢ below.

The basis for raising estimates on the Argentine output was a belief that the acreage had been calculated far too low, although figured at an increase of nearly one-sixth over 1907. News of this sort seemed to act as a wet blanket on prospects for a material advance in quotations.

Nevertheless scattered commission sources absorbed all pit offerings, resisted every raid, and brought the market back from each decline. One reason was that winter wheat receipts in the southwest were small, presumably owing to recent rough weather and low prices combined. December and January contracts between 92-1-4 and 92-3-4 and with last sales 92-1-2 and 92-5-8, a net gain of a shade.

Corn developed strength on account of small receipts and light country offerings. December ranged from 63-1-8 to 63-7-8, closing steady 3-4¢ up at 63-7-8. Cash grades were firm. No. 2 yellow was quoted at 73-1-2 to 74¢.

Purchasing by a group of local dealers made a better market for oats despite fair sales from elevator sources. High and low levels touched by the December option proved to be 47-3-4 and 47-1-2, with the close 47-7-8, just the same as last night.

With the run of a third more plentiful than for the corresponding day a year ago, provisions showed a tendency to drop. Tonight lard had sunk 5 to 10¢, and other products tumbled from last night's figures to 7-1-2¢ decline.

## The Metal Market.

New York, Nov. 14.—Standard copper quiet; spot and November \$12.20; 12 1/2¢; December and January, \$12.25 to \$12.40; February, \$12.30 to \$12.45. London, quiet. Spot, 56 1/2¢; 45. Futures, 57 1/2¢. Arrivals reported at New York, 110 tons. Custom house returns show exports of 12,151 tons so far this month. Lake, \$12.62 1-2 to 12-5/8; electrolytic, \$12.62 1-2 to 12-5/8; casting, \$12.25 to 12.50.

Lead, firm; \$4.24 to 4.30 New York; \$4.10 to 4.15 East St. Louis. London, 15 1/2¢; 3d. Spelter, quiet; \$6.30 to 6.50 New York; \$6.25 to 6.50 East St. Louis. London, 26 1/2¢; 3d. Antimony, dull; Cookson's, \$8.00 to \$12 1-2. Bar silver, 46 1-4¢; Mexican dollars 56 1-2¢.

## St. Louis Spelter.

St. Louis, Nov. 14.—Lead steady, \$4.15; spelter, strong, \$6.40.

## St. Louis Wool.

St. Louis, Nov. 14.—Wool unchanged; medium grades, combing and clothing, 20 1-2 to 21¢; light fine, 15 to 16¢; heavy, fine, 12 to 15¢; tub washed, 26 to 29¢.

## New York Cotton.

New York, Nov. 14.—Cotton closed very steady and from 10 to 12 points net higher.

## Boston Wool Market.

Boston, Nov. 14.—The volume of new business in the wool market shows a falling off with values holding steady and in favor of the seller. Transfers of some size are reported in medium fleeces and territory wools still maintain a strong position with considerable trading in Montana clips in original bags.

Some good transfers have been made in unwashed Ohio Delaines and Texas twelve-month stock, while the demand for Michigan half-blood is moderate.

Pulled wool is in moderate demand. Quotations: Scoured basis—Texas fine, 6 to 3 months, 45 to 47¢; fine 12 months, 51

"YOUR MONEY BACK IF YOU WANT IT."

begun arrangements for their annual ball on the night of January 1, 1912, in the spacious ball room of the Elks building. The W. O. W. promise that this year's event will be one of the social successes of the winter season and it is expected to far eclipse any of their previous dances. Programs of elaborate design, suitable for souvenirs are to be given out, the appointments will be first class and the music the best that can be secured in the city.

The Non-Sectarian Benevolent society is looking after the welfare of a 15-year-old boy for whom the society has secured employment. However, the salary is not sufficient to enable him to support himself and the society is desirous of finding someone who will give the boy room and board for a month or six weeks until he can find a position that will pay him a living wage. The boy is entirely dependent upon himself for his living and is anxious to work. Anyone who can assist the boy should communicate either with Mrs. Klock or Mrs. Ray.

**BODY OF WM. COLLISTER BROUGHT TO ALBUQUERQUE**

The body of William Collister, Santa Fe section foreman, who was run down and killed by a train Tuesday morning, was brought to Albuquerque last night on train No. 9, accompanied by his son, William Collister. The body will be held here pending the arrival of Mrs. Collister, wife of the unfortunate man and their two small children, from the east. They are expected to arrive here Friday when the funeral arrangements will be announced. Interment will be made in Albuquerque. Besides the widow, Mr. Collister leaves five children, Thomas Collister, of Gallup, N. M.; Mrs. H. H. Harrison and William Collister, of Albuquerque, and Charles, aged 14 and Florence, aged 7, who resided with the parents at Gallup. Deceased, who was 44 years of age, was well known in Albuquerque, having resided here for a number of years prior to taking up his residence in Gallup.

**SERIOUS DISORDERS AT TORREON NOT IMPROBABLE**

Torreon, Mex., Nov. 13.—Diplomats at the capital have been requested by the consular representatives here to urge the federal government to afford additional protection for foreign interests.

The carillon now numbers 380 men and it is thought it will not be able to suppress any serious disorder, the occurrence of which is considered not improbable as the result of the strike which began yesterday. Today the street car company was forced to stop operations on account of its inability to man the cars; almost all the bakeries are closed; practically all construction has ceased and the three largest factories are idle. The number of strikers is estimated at 5,000. The streets are patrolled by police.

**Murder Trial Suddenly Halted.**

Golden, Colo., Nov. 14.—At the request of the defense which claims it has located an important witness in New York and asked for time in which to bring him to Colorado, the trial of Mrs. Angelina Garamone, accused of murder in Denver's "Little Italy," and who was brought here from the state penitentiary at Canon City, where she is serving a term for forgery, to stand trial for the murder of Mrs. Maria Lacharrie, today was postponed to December 12. The case was originally set for next Tuesday.

Shoemaker Man Suggests Simple But Effective Plan For Advertising Resources of the New State.

Leo H. Boydston, a real estate man at Shoemaker, N. M., has written to the Bureau of Immigration, suggesting a plan for advertising New Mexico which is so simple, effective and so inexpensive that it is worth agitating in every district in the new state. The Shoemaker man points out that fully 50 per cent of the population of New Mexico has come here in comparatively recent years from other states. Of this he estimates that fully one-half have come from country districts, from farms or small towns where daily or weekly newspapers are published. This part of the population is still well remembered "back home" and a letter to the back home paper would be welcomed by the paper and printed with eagerness.

This would be especially the case right now, when New Mexico is just entering the union. We have just had our first state election and nothing but the president's proclamation remains to complete statehood. It is the time of all times to let the folks "back home" know about the Sunshine state.

If every man who recalls the name of the weekly or small daily paper "back home" will write that paper a letter telling about our admission to the union, something of the great resources of the new state, and with particular reference to the resources and attractions of his own district, the result would be thousands of columns of newspaper space, reaching hundreds of thousands of people, and forming in the aggregate, an advertisement that could not be purchased at any price.

The Bureau of Immigration for some time has been mailing out large numbers of news letters to small newspapers throughout the country. Many of these letters are printed, but many are passed by. Those that are printed are by no means as effective as the personal letter, signed by a man whom the readers of the small paper "back home" know personally.

Remember that weekly paper "back home"—how you need to read every word in it each week, how eager the paper will be to get letters from former residents who have moved to new fields, and how eager the home people were to read those letters.

Every man in New Mexico who remembers such a newspaper "back home" can do his share and a big share to help advertise the new state.

Write the letter to your "back home" paper right away, while the subject of New Mexico's admission to the union is fresh in the minds of the people throughout the country. The "back home" paper will print it gladly. This is a work in which every man and woman who recalls such a paper "back home" can help.

If any information is desired for your letter about the resources of New Mexico, write to the Bureau of Immigration, Albuquerque, and it will be sent by return mail.

If you need a carpenter, telephone Hesseiden, phone 377.

**ALBUQUERQUE TO HEAR FAMOUS PIANIST**

Signor Fabbrini, Foremost Italian Performer, to Appear in Concert at Elks' Theater December 27.

Of interest to the music lovers in this city, is the announced appearance of Giuseppe Fabbrini, the world famous Italian pianist, in concert at Elks' theater, the evening of December 27. This recital will be given for the benefit of the New Mexico University Choral club and it is through Miss Egey, head of the musical department at the University, and a former pupil of Mr. Fabbrini, that the distinguished pianist has been prevailed upon to come to Albuquerque. An Italian by birth and raising, Fabbrini is called Italy's greatest pianist. He is a Martucci pupil, also of Liszt and Chopin and graduated with high honors from the Royal Conservatory at Naples where, after his graduation, he was four years professor of piano, harmony and composition. He recently he has come to America, being engaged by the Minneapolis School of Music as a teacher of piano, harmony, counterpoint and composition. Fabbrini is well known in Europe, having toured Italy, France, Germany, Russia and Egypt, with great success.

**INTENSE INTEREST IN PARADISE OF MAHOMET**

Appearance of Grace Von Studdiford Promises to Be One of Most Notable in Annals of Elks' Theater.

Interest is manifest in the coming of Grace Von Studdiford in the Parisian comic opera bouffe "The Paradise of Mahomet." Through the elaborate production, straight from the Herald Square theater, New York, with the original cast will not show in this city until December 7, already the local theatergoers are planning to give liberal support to the notable theatrical event.

The name, Grace Von Studdiford, will recall to many her brilliant success in "Red Feather" in which she toured the west and had the entire western theatrical world entirely to her feet because of her truly great performance as the star Albuquerque was not fortunate enough to be included in the former western trip of the famous prima donna and the management of Elks' theater is to be congratulated upon securing the attraction for this season.

The New York press has declared that "The Paradise of Mahomet" was the best vehicle that America's foremost prima donna has ever had. It has only to approximate in excellence "Red Feather," in which Miss Von Studdiford bewitched the theatrical world to make it a red letter event of the season in every city where the beautiful light opera is staged. That the play will receive the patronage that its merits deserves in this city, goes without saying.

**BAND BIG FEATURE OF MINSTREL CARNIVAL**

Musical Features of Richard and Pringle's Aggregation Said to Be Best Ever Brought to Albuquerque.

A big feature with Richards &amp; Pringle's Georgia Minstrels, who come to the Elks' theater on Saturday evening, November 18, is the band and orchestra; the former under the direction of that wizard of the trombone, Fred Simpson, justly styled "The Black Prince," and the latter under the leadership of Frank Anderson, who received his musical education in Munich.

There is something peculiarly haunting about Negro melody and voices. Who can sound the depths or fathom the strange sweet pathos of their voices? Or the weird, indelible something in the harmony they produce with their instruments? One moment it is like the moan of lost souls, the next a a lightness and gaiety that would set all the world dancing. For natural unpolished harmony they have never been approached by the white musician.

If you wish to hear the songs of the southland, rendered as only the Negro can render them; if you wish to turn back history's pages and see the Negro as he sported midst the cotton and the corn in ante bellum days, you should by all means attend the performance given by this company.

If you buy from the New State Coal Co. you get good coal and 2,000 lbs. to the ton. Telephone 35.

Burglaries Operated in Storm. Boulder, Colo., Nov. 14.—A heavy snow storm that swept over this place last night proved a good cloak for burglars who operated successfully in six different homes. Considerable money and jewelry was secured.

ANY of you young fellows who haven't yet worn or seen the Shape-maker model from

**THANKSGIVING DAY PROCLAMATION.**

November 30th, the last Thursday of November of the present year, according to the usual custom, has been set apart by the president as a day of thanksgiving and prayer.

During the last year New Mexico has had much to be thankful for. Opportunity rains have fallen over the greater part of our area, so that as a rule bountiful crops have rewarded the toil of the husbandman; fruit trees and gardens have produced plentifully, and our herds of cattle and flocks of sheep have increased largely in number and cattle have brought exceptionally high prices. During the year we have been free from epidemics and plagues and the health of our citizens on the whole has been good.

History has been made during the last twelve months. A constitution for the government of New Mexico has been adopted; state officers have been elected by the people at an election marked by quiet and good order, and in a few weeks the officers so chosen will assume the reins of government.

Now, therefore, I, William J. Mills, governor of the Territory of New Mexico, in accordance with the usual custom, do hereby proclaim Thursday, November 30th, A. D. 1911, to be Thanksgiving Day, and a legal holiday in the territory of New Mexico. The observance of this day is strictly an American custom and it should be observed by all. Schools will be closed and the people generally when they can do so should attend places of worship and give thanks to the Almighty for having safely brought our country through another year for having given us as a people so many comforts and blessings.

Done at the executive office this 10th day of November, A. D. 1911. Witness my hand and the great seal of the territory of New Mexico.

By the Governor:  
NATHAN JAFFA,  
Secretary of New Mexico.

Banks Favor Alrich Plan. St. Louis, Nov. 15.—Public hearings by the sub-committee of the National Monetary commission came to an end today with the close of the second day's session in this city.

Leading local business men appeared before Congressman Creeland of New York, chairman of the sub-committee, and his associate, former Congressman Bonyne of Denver. Chairman Creeland is authority for the statement that the committee found bankers throughout the country mostly in favor of the general ground-work of the so-called Alrich plan.
