VOL. 42.

SANTA FE, N. M., MONDAY, MARCH 13, 1905.

NO. 19.

## DEFEAT IS COMPLETE

**Japs Hotly Pursue Russians and Remnants of Kuropatkin's Army in Danger.**

## MAKES FLESH CREEP

**Picture of the Retreat is Awful—Oyama Holds Magnificent Strategic Position.**

Today's dispatches only confirm the completeness of Kuropatkin's defeat. The Russians are nearing their Tie Pass positions, hotly pressed by the Japanese and St. Petersburg admits that even the remnants of the army are in danger.

### May Be Another Sedan.

St. Petersburg, March 13.—No further news had been received from the front this morning but the magnitude of the catastrophe is now apparent to all here. Where the curtain has been slightly lifted, the picture of the awful retreat makes the flesh creep. The war office admits that the remnants of the army are still in danger. Field Marshal Oyama holds a magnificent strategic position. It is reported that the Japanese flanking columns are in touch above Tie Pass and that there may be another Sedan there. No adequate estimate of the losses has been furnished but with the units on the left still unaccounted for, the killed and wounded already make a total of 65,000. The war office does not even know accurately exactly what units were captured.

### Japs Are Still in Pursuit.

Tokio, March 13.—The army headquarters makes the following announcement: "All our forces have advanced north, pursuing the enemy in all directions and inflicting heavy damage and they have defeated the enemy at various places. Our forces have completely cleared the enemy out of all districts twenty-five miles north of Mukden and on Sunday were still pursuing them. The Russians abandoned countless carts of supplies and ammunition in the district for thirteen miles from the vicinity of Kaolitun, west of the railroad, and sixteen miles north of Mukden. There is no time yet to count them. One Russian officer who was paroled from Port Arthur has been captured."

### Only One Kind of News.

Tie Pass, Manchuria, March 13.—The Russians are reported as nearing their Tie Pass positions. Japanese detachments continue the northward movement from Mukden.

### This is Too Much.

Washington, March 13.—Minister Griscom has cabled the state department from Tokio under yesterday's date, an official report that the Japanese army captured 20,000 prisoners on the 11th. Another report dated today from Tokio reads: The Russian losses amount to over 155,400; 40,000 prisoners; 26,500 dead on the field and about 90,000 other casualties.

**Kuropatkin Reports 50,000 Wounded.**  
St. Petersburg, March 13.—Kuropatkin, in a dispatch that was dated yesterday, says that 50,000 Russians have been wounded during the last few days.

### Russians Want Peace.

St. Petersburg, March 13.—Announcement in the name of the government that a fresh army would be raised and the war continued, and the haughty attitude assumed by Japan may after all be simply a sparring for the position which is to be the prelude to peace. As far as the public here is concerned peace is the only thing talked of. The peace party has been greatly strengthened but the Emperor has not yet decided that he must yield. Many diplomats believe that terms which will be acceptable to both sides are only possible on the basis, not of ordinary peace but more in the way of an alliance which would distinctly define and guarantee the position of the respective powers in the far east in the future.

### Drilling Night and Day.

Port Louis, Island of Mauritius, March 13.—The squadron commanded by Vice Admiral Rojestvensky was still at Nossi Be Island off the north-west coast of the island of Madagascar when the steamer Oxus passed there. It is understood that Rojestvensky intended to remain there until the end of April. The crews of the Russian ships were drilling night and day.

### BANK ROBBERS

**SECURE BIG LOOT.**  
Fremont, Ohio, March 13.—The vault of the Genoa Banking Company at Genoa was blown open by three men, who are reported to have secured \$30,000 cash and \$50,000 of negotiable papers. A posse is in pursuit.

### A PHOTOGRAPH FOR

**THE PRESIDENT.**  
Judge W. H. Pope has sent to President Roosevelt, pictures of the first petit and grand juries of Roosevelt County. The President acknowledged the photographs with thanks.

## SERVICE IS IRREGULAR

New York, March 13.—While the strike is practically over on the Interborough Rapid Transit Company's lines, schedules were more irregular and inadequate today than at any time since last Tuesday. Even in the Subway, where the greatest efforts were concentrated to reach a normal basis, the service today is far from satisfactory. On the elevated lines conditions were at their worst. Even during the rush hours from fifteen to thirty minutes would pass between trains.

### ARE WOEFULLY IGNORANT.

**Just An Instance to Show How Very Little Some People Know Concerning the Geography.**

Dense ignorance concerning the history and geography of their own country seems to be quite a characteristic of the average American. Many letters are received, for instance by the Bureau of Immigration, showing this statement to be a fact. Business men also receive such quite often and every once in a while, even from large business concerns whose managers should know better and who ought to have at least some knowledge of geography and railroad connections in the country. A case in point: An employee of the Cartwright-Davis Company received a letter a few days ago from the N. K. Fairbanks Company, Chicago, Illinois, one of the largest business concerns in the country, showing astounding ignorance on the part of the writer. The letter reads:

"Chicago, March 4, 1905.

"Dear Sir—We are unable to make prompt shipment of rocker No. 291, as our R. R. Guide shows your town to be a pre-pay station. If this is not the case, and there is an agent there to collect the freight charges, kindly so advise us on the back of this letter. If no agent is there to collect these charges, kindly advise the name of your nearest point to which shipment can be made, collect, and we will be glad to give your order prompt attention.

Yours truly,

The N. K. Fairbank Company, (Signed) R. V. SPALDING,

The Fairbank Plan Department. Santa Fe is the terminal of the Denver & Rio Grande in New Mexico, the initial point and headquarters of the Santa Fe Central, which connects with the great Rock Island System, and an important point on the Atchafalaya, Topeka & Santa Fe Railway. The Santa Fe branch connects at Lamy with the main line of that road, running directly to Chicago. The Santa Fe Central connects at Torrance with the Chicago, Rock Island & Pacific, another of the main trunk lines running into the Windy City. The Denver & Rio Grande connects with the through trunk lines running out of Denver and Pueblo and direct to Chicago. And yet, in spite of all these railroad facilities, a large firm like the N. K. Fairbank Company, which ships thousands of orders each day, does not know that there is even an agent at Santa Fe. Their shipping clerks and order men should be given a course of instruction in the public schools.

### THE JOINT CONVENTION

#### TAKES ONE MORE RECESS.

Denver, March 13.—The Supreme Court was not ready this morning to render a decision on whether or not it will consider the question propounded by the Senate last Friday in regard to the rights of the joint assembly to declare a vacancy in the governorship and what the results would be and especially who would be Governor if such action were taken. On this announcement being made before the joint convention, the latter took a recess till tomorrow morning, by which time it is hoped the court will have arrived at its conclusion, and if it decides to consider the questions, it will have arrived at a decision regarding them.

### FOR DONA ANA

#### FLOOD SUFFERERS.

The Board of County Commissioners for Dona Ana County has determined to allow each precinct the sum of \$120, out of the Flood Sufferers' Relief Fund, under the provisions of the Martin relief law, for the purpose of constructing and strengthening borders for protecting lands under cultivation.

### YAKU INDIAN ROBBERS

#### OVERTAKEN AND CAPTURED.

Culliacan, Mexico, March 13.—A band of Yaku Indians, who recently robbed the Mazatlan stage of \$15,000, was overtaken near Tecuala by the rural police. In the fight three Indians were killed and two captured. Captain Joseph E. Maciel of Acaponeta, was seriously wounded.

### ADMINISTRATOR APPOINTED.

Miss Maria Chavez and W. C. Reynolds have been appointed administrators of the estate of the late Demetrio Chavez, at Las Cruces. Mr. Chavez carried a life insurance policy in the sum of \$36,000.

## CAPACITY IS TAXED

**The New Mexico Military Institute Enjoying a Prosperous Year.**

## GRADUATES' SUCCESS

**Four Have Positions With the Government—Class of 1905 Best and Largest Ever Prepared.**

The New Mexican receives word from Roswell that the New Mexico Military Institute is again enjoying a very prosperous and successful session. This school stands unique among the educational institutions throughout the southwest, in that it is in no sense local. The cadet whose home is in the Pecos Valley, or even in Roswell, receives no favors or benefits over the ones who come from the remotest parts of the Territory. All cadets are required to live in barracks and remain under the personal supervision of the officers at all times.

This institution made a bold stand six years ago when it cut off local students and set out to maintain a strictly territorial school, regardless of the clamor set up by the citizens of Roswell, who wished to patronize it as a local high school. By this system every town and county in the Territory receive equal benefits from the advantages offered by this excellent military training school. For the past three sessions the institute has been filled to its utmost capacity and cadets are at present enrolled from every locality throughout New Mexico.

The regents of the Military Institute are progressive business men and they are doing everything in their power to make and maintain a school worthy of the patronage and support of the people, no matter whether they live in the immediate vicinity of the school or not. The school has no politics and teaches no religious belief. Every religious belief which the cadet brings from his home is held sacred. Its chief aim is the formation of character and the development of mind and body. While it is military in every respect and enforces military discipline at all times, its chief object is not to make soldiers, but to make loyal and intelligent citizens.

The growth of the Institute has been greatly hindered by its lack of more dormitory room, for as the patronage is limited to boarding students and as it is not deemed wise to place more than two boys to a room, accommodations are at present provided for only one hundred and twenty students. During the past two years many applicants have been refused admission on account of limited room. This fact, however, has been of benefit to the school, for it has enabled the superintendent to discriminate in the selection of students and to reject such as were deemed unprepared or objectionable. The discipline of the school is maintained at a high standard and while the military feature is made prominent, it is in no wise allowed to interfere with academic work.

The graduates are well fitted for business life and those who desire further academic or scientific work have no trouble in entering the Sophomore classes of our best eastern universities. Four of the graduates have secured splendid positions with the government soon after leaving the Institute, and all are reported as doing well. George Read of the class of 1902 is a first lieutenant in the Philippine constabulary; Earl Patterson, 1902, and A. A. Rinle, 1904, have good positions as assistant engineers in the Reclamation Service; and T. H. When, of the class of 1904, is assistant secretary of agriculture of the Republic of Cuba.

This session the Institute is preparing twelve men for graduation, all of whom have been cadets for a period of four years or over. This is reported to be the best class, as well as the largest, which has ever been prepared at the Institute and all are watching for their graduation with a great deal of interest. They are a fine lot of manly soldiers, well poised, and show the good results of their military training.

### WASHOUTS INTERFERE

#### WITH SHOP WORK.

About thirty men have been laid off at the shops at Alamogordo, comprising machinists, boiler-makers, helpers and employees from every department. This was on account of the slack in business caused by the continued washouts on the Southern Pacific, which interfered very badly with the traffic of the Golden State Limited on the Rock Island. This makes the Limited from twelve to twenty-four hours late and it, in turn, makes the freights from three to five days late.

## THE FENCE CAUSED IT

**Key Sill and His Wife are Murdered Over Trivial Matter at Denver.**

## HOLDS POSSE AT BAY

**The Murderer, After Holding Off Army of Police is Killed—Two Police-men Wounded.**

Denver, March 13.—George Shissler employed by the Hallack and Howard Lumber Company, yesterday shot and instantly killed his neighbor, Key Sill and his wife and set fire to their house and barn. He then barricaded himself in his own house and seriously wounded Police Surgeon Frank Dullin and Police Captain William Bohanna. For more than two hours he held off an army of police and after between four and five hundred shots had been fired, Shissler was killed.

Shissler and Sill had quarreled over a yard fence, the trouble dating back nearly three years. The men had been to law and Sill had won. Brooding over his imaginary wounds, Shissler worked himself into an insane frenzy and took the law in his own hands. Mrs. Shissler is prostrated and may not recover from the shock. Both of the injured men were doing well this morning and Dr. Dullin, who was the worst injured, is reported to have a chance of recovery.

### THEY SEEMED VERY

#### ANXIOUS TO ELOPE.

New Brunswick, N. J., March 13.—The trial of J. K. Cordova, unfrocked minister and formerly pastor of the Concklin Methodist Episcopal Church of South River, who is charged by his wife with assault and battery and abandonment as a result of two sensational elopements with the daughter of a village blacksmith, was begun here today. Miss Julia Bowne, with whom Cordova eloped, has persistently declined to forsake him and was brought into court today as a witness. The first elopement of the pair occurred last May but they returned to South River soon afterwards. A few weeks ago they again eloped, going to Washington, where they were apprehended and brought back here under arrest.

## LEGISLATIVE POINTERS

S. S. Wrightsman, assistant chief clerk in the House, was not on duty today because of illness.

The gallery of the House was filled this morning with petitioners against the creation of the proposed North View Addition to the city of Santa Fe, as provided in Council Bill No. 112.

The only important territorial office yet to be filled is that of coal oil inspector. The eleven district attorneys are also to be appointed, as well as the members of the Bureau of Immigration and those of the Board of Osteopathy just created by the bill for that purpose. Take it all in all, the work of the Assembly, both in legislation and in appointments, is well in hand and there seems to be no good reason whatever why the Assembly should not adjourn during the afternoon of Thursday next in place of carrying the session late into the night, which has been the case heretofore. Day sessions are always preferable to night sessions, as work in the day time is better done and more carefully considered.

### NO SECTION LINES

#### IN UNITED STATES.

New Orleans, March 13.—An official proclamation has been issued by General Stephen Lee, commander-in-chief of the United Confederate Veterans, paying unlimited praise to Congress for passing the battle flag return measure and to President Roosevelt for signing it. "This action," Lee says, "is fresh evidence that there are now in our grand country no section lines."

One of the largest cattle deals made in Sierra County for some years was consummated last week, wherein H. A. Ringer purchased T. J. Ross's interests in the O 2 and T L C cattle. Mr. Ringer took possession of the property last Tuesday. Mr. Ross still retains large cattle interests in the northern part of the county.

## WEATHER IN CALIFORNIA

## FIERCE WIND BLOWS

**Great Damage is Done to Shipping, Electric Railroads, Telephones and Telegraph Lines.**

Since Saturday noon, rain has fallen at intervals, the precipitation yesterday amounting to 1.01 inches. The storm came from the southwest and was accompanied by a heavy gale, which did much damage to the shipping on the coast. Interurban and city electric lines were the worst sufferers and in many places traffic was suspended. Telegraph and telephone wires are down in many places.

San Francisco, March 13.—Fierce southwest gales, accompanied by heavy rain and in some places by thunder and lightning, which have prevailed over the Pacific Coast since Saturday, reached a climax yesterday, when the wind at Point Reyes reached a velocity of 100 miles an hour. There is no authentic record there to exceed this. The heaviest rainfall was at San Luis Obispo, with 4.28 inches in twenty-four hours. Telegraph and telephone wires are down in every direction but otherwise very little damage has been done, while the rain will be of great benefit to the state.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## PLANT TREES—BEAUTIFY THE CAPITAL.

Tree planting time is here and the year promises to be an unusually favorable one for starting orchards and shade trees. The more progressive towns of the Territory are taking advantage of this fact and Santa Fe should not be remiss in that matter. It would pay to take up a public subscription to pay for trees to be planted along the principal thoroughfares and to have the city take care of them. More shade trees along the streets, on vacant lots and to hide ugly spots, and more orchards, will do wonders toward beautifying Santa Fe. Every property owner has a financial interest in making this city beautiful and should individually see to it that as far as his property is concerned as many trees are set out as he has ground for. The Board of Trade and the City Council should tend to it collectively that as much tree planting is done as their financial means will permit. And not only should trees be planted, but those that have been planted in years past should be given some attention. There is more than one orchard that looks on the ragged edge, that seems to indicate that trees cannot be grown in this section or that its owners are careless. A neglected orchard is an eye sore while a well trimmed and a well kept and watered orchard is a perennial delight. Let us make Santa Fe the beauty spot of the Southwest and the first step toward that end is to set out trees and then to keep them in the best possible condition.

## ANOTHER CHANCE FOR THE ALBUQUERQUE JOURNAL.

"There is a bill before the House to take the power to remove sinful county officers away from the Governor, and place it in the hands of the several county commissioners. Who will remove the commissioners?"—Albuquerque Journal.

There is no such bill before the Assembly. A bill has been introduced to change the power of the filling of vacancies in county offices from the Governor to the Boards of County Commissioners in each county. This bill was passed by the House, but was reconsidered and is now buried in committee, where it will likely remain. Here is another chance for the Journal to set up a deep, long and prolonged howl. The claim should be made by that paper that this bill should be passed because it takes power away from the Governor, who is a tyrant and worse than one of the grand dukes of Russia. This would please the Journal and the enemies of Governor Otero.

## EFFICIENT FEDERAL OFFICERS TO BE KEPT IN OFFICE.

President Roosevelt has put a quietus upon all anti-third term rumors. He has declared openly that good officials will be retained whether they have been in office one term or a dozen terms. He says that Uncle Sam cannot afford to throw overboard tried and experienced officers if they are honest and hard working. While this announcement was made especially in connection with the reappointment of postmasters, it will apply to all branches of the government service. The case of each postmaster and every other official who is a candidate for reappointment will be tried on its merits. If the official has given good and satisfactory service he will be retained; if not he will be superseded. That is plain and satisfactory.

One of the largest single items in the appropriation bill is \$42,000 for the support and maintenance of the territorial insane asylum at Las Vegas. This appropriation is so greatly demanded and so necessary that no one except the tax dodgers, knockers and the yellow papers of New Mexico can and will object to such. These three classes will object to any and everything good and find graft and boodle in everything.

## PASS THE IRRIGATION BILL.

The irrigation bill introduced into the Council by Mr. Martin and into the House by Speaker Daines should not be allowed to fall in this session. Unless it is adopted, it is feared that the reclamation service will not recommend the construction of reservoirs in the Territory and thus New Mexico will get two years behind the procession, which is now moving steadily forward in the arid states and territories and which is being led by the United States Reclamation Service. The provisions of the bill do not prejudice in the least the property owners and acquiesce and ditch systems now constructed and in use. They are to aid the United States Reclamation Service to do its work in this Territory under the United States statutes and in conformity with them, aided by proper territorial irrigation laws. The bill carries an expense for the salary of an irrigation engineer to the amount of \$3,000. If this is objected to, the salary might be cut down somewhat, although any good and experienced irrigation engineer is worth that salary and the present position of locating agent for the United States Land Commission might be abolished and the engineer provided for in the bill under discussion might be entrusted with the duties heretofore performed by the locating agent of that commission. For some time past the latter office has been somewhat of a sinecure and probably worse. It might with great propriety and use be abolished.

## PLENTY OF MINING NEWS GOOD ADVERTISING.

The mining camps of New Mexico do not advertise sufficiently. To the casual reader of newspapers, even in towns like Silver City, which are surrounded by prosperous mining camps. It must seem as if no mining is being done in this Territory or as if mining had played out altogether. It is to the interest of every mining camp, no matter how small or how dull, to have an active correspondent who sends news notes of mining operations to the territorial papers as well as to the mining journals. Arizona, Nevada, Colorado, Montana, and California camps do it and find it pays and New Mexico should profit by their example. The New Mexican will at any and all times publish news items from mining camps. In fact, it has always given especial attention to the mining industry in the Territory and during the past year has printed three to four times more New Mexico mining news than any other paper or journal. This is appreciated by those interested in mining properties and on that account the New Mexican has upon its subscription list more mine owners and capitalists interested in New Mexico mines than have all the other territorial papers combined. It does not take a long argument to demonstrate to the prospector and to the practical miner that for that reason alone it would pay to keep the New Mexican informed of doings in mining camps.

It is not only Santa Fe that complains of poor train service. Silver City lets out a periodical howl that wakes echoes in the Burro Mountains for the same reason, and Phoenix, the capital of Arizona, is even in worse straits than is Santa Fe, which being the only city in the two territories that is the terminal of three railroads, can generally find an outlet even if one or two of its railroads are tied up. At present, the local postoffice is handling all the mail from the Rock Island for southern Arizona points because the Southern Pacific and El Paso & Southwestern are tied up by floods, and from time to time it handles the mails of the other roads which find that Santa Fe is the gateway to every part of the southwest and Colorado on account of its being the terminal of three railroad systems. It is a wonder that Santa Fe does not take advantage of this fact in other respects.

A pleasant fate is in store for Public Printer James G. McNary when he visits Alamogordo. Says the Alamogordo Journal: "Why Mr. McNary! If you ever come down here our women will drown you in the park lakes." And this dire threat because Mr. McNary has been boosting Las Vegas in the Daily Optic for the site of the Fraternity Sanitarium. It is to be feared that the rivalry for the possession of the Sanitarium will yet lead each town to send out an armed force against competitors to wipe them from the face of the earth.

Between the Board of County Commissioners and the City Council, aided by the Woman's Board of Trade and the Board of Trade, improvements and many of them, should be made in this city this year. Sidewalks and crossings should be constructed and another bridge should be built across the Santa Fe River on Galisteo Street. This city must be improved, despite the tax dodgers and the street corner knockers.

President Clark's bill No. 111, "An Act to define the qualifications and regulate the drawing of jurors," contains some excellent provisions and is an improvement upon the present system. The Legislative Assembly should pass it.

The county of Santa Fe needs a new jail and the County Commissioners should levy a tax to build such a one this year.

## THE INSANE OF THE TERRITORY MUST RECEIVE PROPER CARE.

Large additions are necessary to the buildings at the insane asylum at Las Vegas. A bill introduced by Mr. Winters is pending which provides for the issue of bonds in the sum of \$105,000, which bonds are to be sold and the proceeds used for the construction, furnishing and equipping of additions to the asylum in order to accommodate the ever increasing number of those unfortunate wards of the people of the Territory. It is a large sum of money to expend, but it must be done as common humanity and decency require that the insane of New Mexico be properly taken care of in every possible way. The bonds are to bear four per cent and the tax levied for this purpose will be small, but were it greater, the New Mexican would be in favor of the plan. The larger the population of the Territory, the more insane cases will there be to be taken care of. The decent and patriotic citizens of the Territory will not refuse to pay the taxes levied for this purpose. The tax dodgers, the corner knockers and the yellow newspapers of New Mexico, Democratic and Independent, will, of course, oppose. The bill should become law.

A correspondent asks the New Mexican to study the difference between Anarchy and Socialism. As long as the Socialists themselves are unable to give a clear definition of their status and they include under the same name the Reds and the Christian Socialists with doctrines as far apart as the poles, it will be difficult to draw the line that divides Anarchy from Socialism. Economic Socialism, theoretical and practical, may have a definite standing in political economy but only few of those who claim to be Socialists will subscribe even to its most general principles. Of the men sentenced for inciting the Hay Market riots, several claimed to be merely Socialists, but they were as ready to use dynamite and talk revolution as were the reddest of the Anarchists.

The Alamogordo News is to be commended for the courage of its convictions and the nerve and pluck to publish them. Concerning the new libel law, it pertinently says:

"It is now against the law to publish the truth," is the way a peculiar kind of New Mexico journalism comments on the newly created libel law. And one of the main reasons for opposing New Mexico's standstill by some of the nation's foremost statesmen is because we have newspaper men who have no more sense than to publish just such misleading statements as "It is now against the law to publish the truth." We trust, however, that the new libel law will keep New Mexico journalism within a reasonable distance of the truth, if no more."

A bill introduced by Councilman Martinez, to increase the efficiency of the Territorial National Guard has passed both Houses and will doubtless be signed by the Governor. The measure was very carefully prepared and contains many greatly needed provisions for the government, the proper maintenance and discipline of the Guard. It is an important move forward in the right direction, and will do much towards the increase in membership and efficiency of New Mexico's military system. The bill is one of the good measures passed, will redound to the credit of the Assembly and to the benefit of the commonwealth.

Francis E. Leupp, now commissioner of Indian Affairs, is slated to succeed Secretary of the Interior Ethan Allen Hitchcock as soon as the latter has completed the work of bringing to justice those guilty of land frauds in Oregon. Leupp would make the fourth member of the cabinet who is credited with newspaper experience.

Councilman J. Leahy of Raton is the introducer of a number of good bills. He has been quite successful in passing them and has proven himself a valuable member of the Assembly. His district is certainly well represented in the Legislative Council.

Governor Otero from today on is the biggest portion of the Legislative Assembly. Any bill passed and coming to him from that body he may kill by putting it into his pocket and keeping it there until the gavel falls on Thursday next.

But three more days of the Assembly, gentlemen. There is no earthly reason why the work of both Houses cannot be so arranged as to enable the presiding officers to close the sessions at an early hour Thursday evening. If not, why not?

## HURRY UP!

Everywhere one hears that expression "hurry up!" It is a genuine Americanism expressive of the "rush" in which we live. Nothing is swift enough for us. We race against steam and lightning and find them slow. We grudge the time given to eating, and rush through meals as though life depended upon our haste. Life does depend on our haste, but not in that sense. Look at the obituary columns of the papers and see how many prominent men are carried away by "stomach trouble," "acute indigestion" and other related diseases. Their lives have in general been sacrificed to the haste and rush of business which overlooked the fact that food can only nourish the body when digested and assimilated and that the digestive and assimilative processes can't be hurried. Dr. Pierce's Golden Medical Discovery, cures diseases of the stomach and the associated organs of digestion and nutrition. The source of all physical strength is food, properly digested and perfectly assimilated. By enabling the perfect digestion and assimilation of food "Golden Medical Discovery" increases and enriches the blood supply and sends new strength to every organ of the body.

"I was at one time as I thought almost at death's door," writes Mr. J. S. Bell, of Leando, Van Buren Co., Iowa. "I was confined to my house and part of the time to my bed. I had taken quantities of medicines but they only seemed to feed the disease, but I must say that 'Golden Medical Discovery' has cured me, and to-day I am stouter than I have been for twenty years. I am now forty-three years old."

## PROPER TREATMENT OF PNEUMONIA.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and that by giving Chamberlain's Cough Remedy, the threatened attack of pneumonia may be warded off. This remedy is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia and have always gotten the best results." Sold by all druggists.

Don't get excited when you hear people raising a row about what they have to eat, but go to the Bon Ton, where you can get anything from quail on toast to chile and tamales.

I have wished that I had known of it in my husband's lifetime." 50c at Fischer Drug Co.

But how about the wear of the fit? Depends upon the tailoring. What is to hold that collar in place or to keep those shoulders in shape?

## THE BIG FOOT RACE.

Everything in Shape for the Event to Occur at Alamosa, and the Principals Are on the Ground.

J. E. Lacombe and T. P. Gable left over the Denver & Rio Grande this morning for Alamosa, Colorado, to complete the final arrangements for the big foot race which will be pulled off there on Wednesday. Max Lucero, whom Mr. Lacombe is backing, accompanied the two men, and Jo Sandoval, Lucero's trainer, was also one of the party. Lucero is in the pink of condition and there is no doubt in the minds of his backers but that he will win the race, although his opponent is a man of considerable speed. The stake money is \$1,500 a side, and it is expected that at least another \$5,000 will change hands on the outcome of the race. The course will be 100 yards and the time will undoubtedly be close to 10 seconds, and may cut under that.

In order to accommodate any Santa Fe people who may wish to attend this event, the Denver & Rio Grande will on tomorrow make a rate of one fare for the round trip from this city to Alamosa, provided ten or more tickets are sold.

Have your stationery printed by the by the New Mexican Printing Company.

## MINOR CITY TOPICS

For the first time in many days trains Nos. 10 and 2 on the Santa Fe were almost on time yesterday.

Yesterday was a beautiful, sunny day and the concert by Professor Perez's Cavalry Band drew a large crowd.

The rooms of the Republican headquarters have been very tastefully decorated with bunting and United States flags.

Train No. 10 on the Santa Fe arrived at 12:30 o'clock this afternoon and the branch train left at 1:30 o'clock for Lamy to make connections with No. 2 from the west.

An alarm of fire was turned in Saturday evening which called the fire department out to the northeastern part of the city. The conflagration proved to be a large bonfire of some description out on Fort Marcy.

Train No. 9 on the Santa Fe, due at 9:35 last night, did not get in until this morning. The local office knows nothing of the cause of the delay, but it is supposed to have been due to some trouble on the eastern section.

Mrs. Charles A. Haynes will entertain at a musical about the middle of Lent. The program will consist of about fourteen numbers each night, the first night being for married people and the second night for the young folk.

W. H. Goebel, the hardware man, has a new ad on the eighth page in which he talks about the Rambler bicycle. Be sure to read it and then go around to Mr. Goebel's store on the east side of the Plaza and inspect the wheels.

W. D. Newcomb, chief clerk at the penitentiary, is driving about in a new Studebaker rubber tired driving wagon. It is without doubt the swiftest individual tourment in the city and the girls of Santa Fe are waiting for him to take them driving.

Between the hours of 12 and 1 o'clock last night a certain married woman in this city, in an endeavor to locate her husband, broke all the windows on the ground floor of the Normandie Hotel. The police were called, but they arrived too late to do any good.

Mayor Gibson, Marshal Gorman and Engineer Walker are putting in a good share of their time on the breakwater that is being built along the north side of the Santa Fe River between Delgado Street and Don Gaspar Avenue. The work is progressing rapidly and is satisfactory in all respects.

An important meeting of the Board of Education was held in the office of Judge N. B. Laughlin last Friday night, when the property on the Fort Marcy reservation was re-appraised. In many cases the valuation was reduced 20 per cent and some very fine bargains are now offered by the Board. Parties desiring to make profitable real estate investments can get any information desired by calling on members of the Board.

R. W. Barry, conductor on the Santa Fe, and his wife, have the sympathy of their friends in the sad loss which has just overtaken them. Last evening at 6 o'clock death visited their home and carried away one of their eight-months old twin daughters. The little one had been ill for several weeks with congestion of the lungs and all efforts towards relief were in vain. The funeral will be held tomorrow afternoon at 4 o'clock.

Santa Fe Chapter No. 1 Royal Arch Masons will hold its regular monthly convocation this evening at 8 o'clock at Elks' Hall. Visiting companions are cordially invited to be present.

Yesterday the Santa Fe Central Railway handled a shipment of thirteen cars of sheep from Willard to this city. There were 1,300 of the fleecy animals and they were transferred here to the Denver & Rio Grande and taken out over that road this morning on an extra to Monte Vista, Colorado. The run was made in good time from Willard to Santa Fe over the Central and C. P. Jones, the shipper, was high in his praise of this road for the excellent way in which the shipment was handled.

The attention of the readers of the paper is called to the new ad of the Plaza Restaurant, which appears in this issue of the New Mexican. The restaurant is situated in the Catron block and will be open for business on March 20th. The proprietors have come to Santa Fe to make this their permanent home and they intend to run their restaurant upon a plan that will entitle them to the patronage of all the people of the vicinity. Home-made bread will be one of the features and fresh ranch butter and eggs. The intention is to make the Plaza Restaurant a real "home" place for those who have to board. A specialty will be the good home meals served in family style—the kind that your mother used to give you.

### FOURTH CLASS LEFT OUT.

No Provision Made for the Payment of Institute Conductors Under the Conditions of School Laws.

The New Mexican is in receipt of a letter from U. Francis Duff, superintendent of schools of Luna County, calling attention to the fact that in the present school laws there is no provision by which the superintendents can draw upon the general fund for the payment of institute conductors in fourth class counties. The letter follows:

Deming, N. M., March 9, 1905. To the Editor of the New Mexican.

At present there is no provision in the school laws permitting county superintendents of fourth class counties to draw upon the general school fund for the payment of institute conductors. The law provides that county superintendents may set aside for this purpose, in first class counties \$100; in second class counties \$75; in third class counties \$50; but the matter of fourth class counties was overlooked when the statute was made. Now, it is just as obligatory upon superintendents of fourth class counties to hold institutes as it is for first, second and third class counties to do so.

Yours truly,  
U. FRANCIS DUFF,  
County Superintendent of Luna County

WANTED—To buy good second-hand bicycle. Or will trade good watch. Apply New Mexican office.

### U. S. DISTRICT COURT.

The United States District Court for the First Judicial District convened this morning at 10 o'clock, Judge John R. McFie, presiding, and A. M. Berger, clerk, at his desk. A jury was empaneled in the case of the United States vs. Edward Nichols who was indicted at the present term for robbing the Lamy postoffice on the night of February 13, last. E. L. Medler, assistant U. S. attorney is prosecuting, and R. A. Hanna appears for the defense. This afternoon at 2 o'clock, upon opening of the court after noon recess, Mr. Medler, assistant U. S. attorney, presented to the court Hon. W. H. H. Llewellyn, the new United States attorney for New Mexico. Mr. Llewellyn at once took his seat at counsel's table to unite with his assistant in the prosecution of Nichols, then on trial. The Nichols case was still on as we go to press. The case of the United States vs. Benedito Torres, charged with incest, is set for tomorrow morning.

### HOMESEEKERS AT ROSWELL.

Last week another Talmadge excursion of homeseekers arrived at Roswell. There were five crowded passenger coaches. On a sixth coach were 24 homeseekers of the De Freest-Draper excursion. The passengers related a romantic episode which occurred just as the train crossed into New Mexico from Texas. D. W. McNeill of Chandlerville, Illinois, and Miss Estella Killips of Baraboo, Wisconsin, were married by Rev. A. B. Ring of a Presbyterian Church at Chicago. The groom has bought 240 acres at Dexter, Chaves county, and the couple will make their home at that place.

### SENTENCED TO PENITENTIARY.

At District Court at Clayton, Union County, last week, the following were sentenced by Chief Justice W. J. Mills: Julian Perez, five years in the penitentiary for the larceny of a horse; Saturnino Romero, five years in the penitentiary for the larceny of a horse; A. J. Owne, night operator of the Colorado & Southern at Folsom, for embezzlement, one year in the penitentiary; George Oliver, for discharging a pistol in a settlement, sixty days in the county jail.

### ELKS LODGE FOR ROSWELL.

E. A. Cahoon of Roswell who was in Santa Fe last week, had with him the application of the Roswell Elks to District Deputy Grand Exalted Ruler, for permission to establish an Elks' Lodge at Roswell. The permission must be voted on by some New Mexico lodge, most probably the Santa Fe lodge and will doubtless be granted. The Roswell Elks are already preparing for the installation of the lodge at which Elks will be present from Amarillo, Texas, Albuquerque, Santa Fe and other southwestern points.

### SCHOOLS MUST CLOSE FOR LACK OF FUNDS.

The public schools of Roswell as well as of Alamogordo must close down this month on account of lack of school funds. At the latter the school has been kept open this long only through the aid of private subscriptions.

### SORGHUM MILL FOR ANTHONY.

J. F. Hauser will soon begin the erection of a sorghum mill at Anthony. This will be a great addition to Councilman Miller's town. Mr. Hauser will also build a new brick residence in that town and W. C. Geck is to build one for himself in the new addition.

### THE CANNERY AT ROSWELL.

Over \$4,300 has been raised by public subscription to build a cannery at Roswell and the plant is thus assured, for only \$700 more remain to be subscribed.

The heavy rains in southeastern New Mexico have caused a suspension of work on the Hondo Reservoir. The work thus far accomplished indicates that the dam and reservoir will be completed in contract time.

**Three Deaths at Las Vegas.**  
Floripia G. de Ortiz died at Las Vegas on last Friday. She was aged 23 years. Moises Romero died on Saturday morning at the age of 33 years. Mrs. Carnelia Flores de Avila, wife of Genovevo Avila, died on Friday of tuberculosis. She was aged 33 years.

**The Only Flume in Lincoln County.**  
Mrs. J. A. Klammer, of Lincoln County, who recently visited in Santa Fe, has just completed the only flume in Lincoln County and the longest on the Rio Hondo. It is 75 feet long, 6 feet wide and 24 feet above the river. The flume carries water to Mrs. Klammer's Ranch.

**Thrown By His Horse.**  
On Sunday afternoon, Robert Cowan, was thrown from his horse near Springer. The horse stumbled into a hole and broke its neck. Cowan was picked up unconscious but outside of bruises in his face, was not hurt. His fall was so violent that the stock of a gun he was carrying was broken in two.

**Auto-Cars on the Southern Pacific.**  
The G. H. & S. A. division of the Southern Pacific Railroad will experiment with auto-cars to be used in inspecting the road. The first of these cars arrived in El Paso this week, after having made a trip between New Orleans and Houston which was said to be perfectly satisfactory. The cars are run with gasoline, similar to an automobile.

**Thrown From the Train.**  
Mariano Sanchez of Taos, was badly hurt by being thrown from a freight train near Wagon Mound. He attempted to board it but the train was running so fast that he was violently thrown causing painful injuries to his right leg and his back. He was taken to Springer and placed under a physician's care at county expense as he was without means.

**A Ranchman's Sad Plight.**  
Joshua H. Cheney who is the owner of a ranch near Torrance, is under medical supervision at El Paso while conflicting interests seek to get hold of his property. A guardian had been appointed on the ground that Cheney is insane. It is now alleged by relatives of Cheney that he is not insane but only of weak mind and that the guardian is seeking to get hold of the property of the ill man. Legal proceedings will be brought to have the guardianship set aside.

**Government Land Inspector Busy at Alamogordo.**  
Special Government Land Inspector G. C. Clarkson has been quite busy at Alamogordo for the past week, looking after special cases in land matters relative to homestead entries and the like. The entry of Miss Lucretia Jones was up before U. S. Commissioner W. S. Shepherd Wednesday and Thursday. Miss Jones is trying to prove that she has complied with the law in the proving up of her homestead and the government, through Mr. Clarkson, is questioning this claim.

**The Ground Well Soaked.**  
An engineer who has been on the Southern Pacific for twenty years declares that he has never seen the track of the road in New Mexico and Arizona so soft and in such bad shape as at present. It is not safe to run the trains on schedule time and they are all many hours late. The company will probably ballast its entire road bed with gravel to prevent present conditions in the future. For two weeks the Arizona and New Mexico Railroad was unable to run trains the entire length of the line from Hachita to Clifton, owing to washouts.

**Happenings at Zuni.**  
A correspondent at Black Rock on the Zuni Reservation, writes that at present 250 Isleta and Navaho Indians are employed on the construction of the big government reservoir. The new school buildings on the reservation are to be completed on June 1. A meeting house is to be built at Zuni by the Christian Reformed Church of which Rev. A. Vanderwagon is the missionary. He is making many converts. Miss Carrie Wagoner, seamstress at the school, has resigned and has left for her home at Enterprise, Kansas. Within two weeks, the telephone line from Gallup to Zuni will be completed. Owing to melting snow, the Zuni River is a raging torrent. George Pleasant Love, principal of the Zuni Training School, was carried one mile with his horse in trying to ford the river and had to abandon the horse. Three days afterwards he was married by Rev. John Hodgson to Miss Jennie Vanderslick of Durant, Michigan.

## NAGGING PAINS

Newport News, Va., July 22, 1903.  
Last summer while recovering from illness of fever, I had a severe attack of Inflammatory Rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I still continued to take it regularly until I was entirely cured. I now feel better than for years, and I cheerfully recommend S. S. S. to any one suffering from Rheumatism. 4 613 3rd St. CHAS. E. GILDER, ELKRE.

Rheumatism is caused by uric acid or some other acid poison in the blood, which when deposited in the muscles and joints, produce the sharp, cutting pains and the stiffness and soreness peculiar to this disease. S. S. S. goes directly into the circulation, all irritating substances are neutralized and filtered out of the system, the blood is made pure and the general health is built up under the purifying and tonic effects of the vegetable remedy. Write for our special book on Rheumatism which is sent free. Our physicians will advise without charge all who will write us about their case.

## NO REASON FOR IT.

When Santa Fe Citizens Show the Way

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyances of urinary disorders, the dangers of diabetes or kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what a Santa Fe citizen says:  
Pascual Yanni, boot and shoe repairer on the Plaza, residence College st., says: "A man cannot sit on the bench repairing shoes all day unless his back is extra strong. When it is weak, lame and pains continually, it becomes a positive nuisance without mentioning suffering it endures, if working at my occupation was not the primary cause of backache it certainly aggravated it. Much to my surprise and more to my gratification, a course of the treatment with Doan's Kidney Cure procured at Ireland's Pharmacy so washed, purified and strengthened my kidneys that the backache ceased."  
For sale by all dealers. Price 50 cts. Forster Millburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

## CURED CONSUMPTION.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1 at Fischer Drug Co.

## MINES AND MINING.

### San Miguel County.

The Blake mill near Las Vegas is reported to be running satisfactorily on low grade copper ore.

### Santa Fe County.

At the Boston Mine Exchange last week 270 shares of Santa Fe Gold and Copper Company stock were sold at from \$2.25 to \$2.88 a share.

### Lincoln County.

Operations have been resumed on the South Homestead at White Oaks. Work has been resumed on the Old Abe at White Oaks, the damaged machinery having been repaired.

The Parsons mill is running steadily on pay ore. The operation of the plant seems to have passed the experimental stage and the company will probably install more and larger machinery.

### Otero County.

St. Louis, Kansas City and other eastern cities are ordering marble from Alamogordo. The quarry is now opened up for 1,700 feet and the wall of marble stands 75 feet high.

Lee, Stalcup and Rapier have twelve tons of good shipping ore on their copper prospect near Alamogordo. Owing to the heavy rain and the bad condition of the roads from the mine to the El Paso & Northeastern Railway, mining operations have been suspended for the present.

### Rio Arriba County.

The Tusas Peak Gold and Copper Mining Company, which is working the Tampa mine in the Bromide district, now has the deepest shaft in the district, being almost twice as deep as the next deepest mine in that section. They recently superseded their steam drill with an air drill and are about to install a low pressure boiler and a concentration plant. The concentrator is to handle the ores not only of the Tampa but of other mines in the Bromide and adjoining districts.

### Grant County.

S. W. Mattheis has made another shipment from his mine at Lordsburg, to the smelter at Benson, Arizona.

No. 2 shaft on the North American at Lordsburg is going down at the rate of two feet a day and continues in ore the full width of the shaft.

The Silver City Reduction works had to close down again for a few days on account of the bad roads and the impossibility of hauling ore from the surrounding camps.

William T. Stewart, vice president and superintendent of the Golden Cove Mining Company, of Sonora, Mexico, is in Grant County this week examining silver properties in the vicinity of Silver City.

A party of eastern investors, representing the new owners of the Santa Rita mine, which they bought from the Hearst estate, are inspecting Grant County mining properties. In the party are Mr. and Mrs. Louis Hoffman, Mr. and Mrs. H. Ferge, C. T. McElroy, Thomas R. Bently and W. J. Bently, of Milwaukee, Wisconsin.

### Sierra County.

Mr. and Mrs. Lincoln Davis of Chicago, have been in Sierra County the past two weeks. Mr. Davis is interested in the placer claims at Shandon. His company is constructing a dam in the box canon in Apache Canon, which will give them sufficient water to run ten months in the year.

Last week the Union and Esperanza placer claims in the Pittsburg district were transferred by their owners to Parker Brothers who will erect a hydraulic plant. The claims are in Silva Gulch, a tributary of Apache Canon in the foothills of the Caballos. Only a narrow ridge separates the properties from Trujillo Gulch. The new owners will incorporate under the name of the Union-Esperanza Mining Company. The plant, which will be 400 horse power, will be the second hydraulic plant in the district. The geological formation at and around the placers is a red granite, with a rhyolite dyke at and along its contact, which appears to be the source of the gold. The country is seamed with quartz veins but no gold has been discovered in these thus far. Much of the placer gold comes in flakes and with square corners showing that its source cannot be far distant.

### COMFORTS OF TRAVEL.

The porter on the California Limited this winter will be prepared to press a gentleman's trousers while he waits. This is a new wrinkle, introduced for the benefit of fastidious dressers. It isn't absolutely necessary to carry along an extra pair of trousers, either; the porter works while you sleep.
