## MANY LIVES SACRIFICED

By the Blowing Up of a Boiler in a Shoe Factory at Brockton, Mass.

### RECOVER FORTY BODIES

But Only Two Hundred and Fifty Out of Four Hundred Employees Are Accounted For.

Brockton, Mass., March 20.—Within an hour after six hundred or more employees at the R. G. Grover Shoe Factory had begun work today the boiler blew up in the factory engine room, wrecking that section of the building and starting a fire that destroyed the ruins and spread to other buildings nearby. Owing to the nature of the accident and the speed with which the flames seized upon the collapsed section, and the attendant excitement, an accurate estimate of the loss of life is impossible. It was understood that upward of 200 persons were at work in the departments near the boiler room and the first indications were that hardly one could have escaped. Later, however, it was learned that about fifty were unaccounted for and it is believed that many of them must be dead or injured. At 10:30 it was believed that the fire was under control and the financial loss is estimated at \$200,000.

**To Obtain Accurate Statement.**  
Brockton, March 20.—Fire Marshal Boyden stated that the reports made to him up to noon indicate that the list of dead might reach fifty. Lists of employees in the different departments of the factory have been posted at the fire station and calls have been sent out to every person who escaped so as to indicate the fact on the list. In this way it is hoped an accurate statement of the dead can be obtained. Twenty-five bodies have been taken from the ruins up to 11:30.

**Bodies Horribly Mutilated.**  
Brockton, March 20.—Up to 1:40 p. m., twenty-five bodies have been recovered. In a few instances fragments of clothing furnished the only means of determining whether the remains were those of men or of women, or any possible clue to their identity.

**Probably 100 Lives Lost.**  
Brockton, March 20.—At 2:30 p. m., thirty-five bodies had been removed from the ruins. None have been identified. The list of injured at this hour numbers upward of fifty. An official of Grover County expresses the opinion that at least one hundred persons will be found to have lost their lives.

**150 Employees Unaccounted For.**  
Brockton, March 20.—At 3:15 the searchers had recovered forty bodies and were at work almost in the center of the ruins. Up to that hour two hundred and fifty of the 400 listed employees had been accounted for.

### SOME WEDDINGS IN THE TERRITORY.

Last week Ira Tomerlin and Miss Laura Slaughter were married by Justice of the Peace Chapman at Deming. Both parties live in that city.

The same justice also officiated at another marriage on Wednesday, the contracting parties being Francisco Cardon, of Las Cruces, and Miss Flora Calderon of Deming.

At the Grumbles ranch ten miles west of White Oaks, on Thursday, Charles Miller and Miss Ollie E. Grumbles were united in marriage.

Last week at the home of the bride's mother in Las Cruces, Miss Helen Worden and Oscar Wood were married, Rev. Davis, of the Episcopal Church, officiating. The wedding was a quiet one only the relatives and a few friends being present. After the ceremony Mr. and Mrs. Wood left for Hatchita, Grant County, where the groom is engaged in business.

### BEEF TRUST TO BE INVESTIGATED.

Chicago, March 20.—Government investigation of the "beef trust" began today. Judge Otis Humphrey, of Springfield, administered the oath to the venire of jurymen whose names are kept secret for three weeks by an official order from the U. S. district attorney's office. Much information bearing on the specific instances of the alleged violation of the Sherman anti-trust law is said to be in the hands of the federal prosecutor. The independent packers, headed by Schwartzchild and Sulzberger, have engaged to submit evidence tending to show the manner in which the smaller packers have been forced to follow the dictation of the so-called "Big Five."

### HIGH WATER PREDICTED IN THE ALLEGHENY.

Pittsburg, March 20.—The water stage in the Allegheny River early today was 25 feet and rapidly rising. Preparations for a flood are being made, as a stage of thirty feet or more is predicted.

## LEGISLATIVE ECHOES

Miss Phoebe Elwell, stenographer during the recent session in the House, has returned to her home in Albuquerque. The members of the House presented to Miss Elwell before her departure a handsome cut glass berry bowl, of which she is very proud.

Cornelio Sandoval, who represented Sandoval County in the Assembly, was one of the quiet members of the House of Representatives but was attentive and careful. He was a steady attendant and, generally speaking, voted on the right side. Personally, he was very popular with his colleagues, as he is both courteous and obliging.

The legislative manual for 1905, prepared by Secretary J. W. Reynolds, is a very valuable and instructive book. It contains a great number of items, much information concerning New Mexico, and is of value especially to the corporation lawyers and to all having business interests in the Territory. The 500 copies which were printed for the secretary are going like hot cakes and good ones at that. One hundred copies have already been distributed to members of the Assembly and to territorial officials. It will take about 200 copies to supply county and city officials and the remaining 200 copies will be sent to libraries and to newspapers. The New Mexican has printed a few extra copies which are for sale at this office.

Celestino Ortiz, who represented this county in the House of the recent Assembly, and who was a member of the House steering committee during the last days of the session, aided materially in securing the appropriation for the territorial institutions located here and also for the Orphan's School, the Sisters Hospital and the Woman's Board of Trade of this city. He worked hard and assiduously for the benefit of this city and county and is entitled to much credit. The bill authorizing the superintendent of the penitentiary to transfer sufficient brick to the Woman's Board of Trade in this city for the building of its library, failed in the last days of the session, although Mr. Ortiz made strenuous efforts to secure its passage. Mr. Ortiz was certainly faithful and loyal to home interests.

### BOTH SHOT DEAD.

Two Men, Who Held Up a Saloon at Lordsburg, Are Killed By Deputy Sheriff McGrath.

Deputy Sheriff Herbert McGrath of Lordsburg, who on Saturday was appointed a private of the territorial company of mounted police, with two deputies, on Friday night of last week shot and killed the two men who held up the saloon of Hardin and Jochin at Lordsburg on last Thursday as related in the New Mexican of Saturday. Neither of the two dead men has been identified. They had gotten as far as Separ, Grant County, where they put up at a lodging house, asking the proprietor to call them early enough for Southern Pacific train No. 10 for El Paso, Texas. They were awakened by Deputy Sheriff McGrath and upon resisting arrest both were shot dead. Eight hundred dollars, the amount of money they had secured by lining up fifteen men in the Lordsburg saloon, were found in the clothing of the bandits. One of the men was about 30 years of age and the other a few years younger.

The bulging pockets of the men, who looked like tramps, had awakened suspicion and the proprietor of the lodging house at Separ notified the Lordsburg authorities of his suspicions. Deputy Sheriff McGrath and two other men boarded a freight train and at Separ entered the room where the two robbers were sleeping. As McGrath called upon them to surrender they pulled their guns. Before they could fire both of them were dead from bullets from the officers.

### VENEZUELA GOVERNMENT MUST "BE GOOD."

Washington, March 20.—The French cable complications have reached a crisis and Minister Bowen has informed the state department that the French minister at Caracas, by instructions from his government, has notified the Venezuelan government that there must be no further proceedings on its part towards a cancellation of the company's franchise or interference with its property. Bowen further reports that two French warships have been ordered post haste to Venezuela to act in accordance with the instructions of the French minister. These are the Julien de Gravierre and the Duplex, now in the Caribbean Sea.

### PRESIDENT TO CALL EXTRA SESSION OF CONGRESS.

Des Moines, Iowa, March 20.—Senator Allison is authority for the statement that President Roosevelt will call Congress in extra session on October 1, months in advance of the regular session, for the purpose of considering the railroad rate investigation.

## MEN OF THE HOUR IN NEW MEXICO

JUDGE GRANVILLE PENDLETON.  
Representative From San Juan County in the Thirty-sixth Assembly.

Judge Granville Pendleton, of Aztec, San Juan County, has just finished his third term in the House of Representatives from the Counties of Taos, Rio Arriba and San Juan. He is a native of Kentucky, a radical Republican and one of the leading men of northwest New Mexico. He located in Yuma County, Colorado, in 1886, and was the first county judge of that county, serving from 1888 to 1891. He was then elected district attorney for the Thirtieth District of Colorado, serving seven consecutive years for the Counties of Logan, Phillips, Sedgewick, Washington and Yuma. During these seven years he convicted and had sentenced to the Canon City penitentiary 71 criminals, the best record made for convictions, considering the size of his district, of any district attorney in Colorado at that time.

When the political land slide came in the Centennial State in 1896 and Bryan carried the state by 134,000 majority, Judge Pendleton held his district more strongly for McKinley than any other section of Colorado. He supported McKinley and the gold standard in the face of overwhelming defeat and, having two years yet to serve at that time as district attorney, he completed the term, going out of office in January, 1898. He refused to again be a candidate and, preferring to change locations rather than to change his politics, he left Colorado and located in San Juan County, New Mexico, where he was elected to public office as soon as he had been in the Territory long enough to be entitled to recognition.

During the last nineteen years Judge Pendleton has been sixteen years in public office in Colorado and New Mexico, never having been defeated for a nomination or election. He is 50 years old and is in the prime of life. During the session of the assembly which has just adjourned he was chairman of the finance committee, the most important committee in the House, and was also a member of the committees on judiciary, railroads, privileges and elections, and rules. The last week of the session he was made chairman of the steering committee in the House and had principal charge of all bills that became laws through the recommendations of that committee.

He was practically the leader of the House and one of the strongest men in the Thirty-sixth Legislative Assembly. Being one of the three members who were serving a third term made him familiar with the work. Speaker Carl A. Dalles and Representative Cristoval Sanchez being the other two third-termers. These three members are the best of friends and stood together on almost all bills and matters, their mutual support making them a great power in the Assembly. Judge Pendleton is a big hearted, whole-souled fellow, kind, generous, courteous, and with an amiable disposition that makes friends for him of

all those with whom he comes in contact. He is a born leader, able, daring and intrepid, and was one of the most active and strenuous men in the Assembly, being recognized as the hardest worker and the busiest man of the session. He is a persistent and insistent fighter when occasion requires, and as he was the most able and eloquent orator of the House he commanded the attention and respect of both the members and the spectators whenever he spoke. While he was one of the most fluent speakers of the session he talked but little, but when he did talk he said something worth hearing and worth remembering, and what he said always carried weight. He never filibustered or wasted time. Judge Pendleton is neither selfish, egotistic or "stuck on himself," but he moves right along in the even tenor of his way, doing things in a manner that gains him the respect and confidence of all who know him. He is strictly honest, open, frank and fair. When he worked for measures he worked hard and out in the open and when he fought measures he fought hard and openly and everyone knew where to find him.

No county in New Mexico was better represented than San Juan. Judge Pendleton ranks among the able and influential public men in the Territory. He is incorruptible and his character is above reproach. While he asks for but little for himself, although he always gets that for which he asks, he is the hardest worker in the Territory for his county and his people and it is known far and wide that, as a member of the Bureau of Immigration to which position he has just been reappointed, he has done more for his county and for its general advancement than all other agencies combined. Judge Pendleton has so pushed and advertised the great and rich natural resources of the beautiful and fruitful San Juan country that he has made it famous, and at this time capital is pouring in, railroads are being built, coal mines are being opened, government reservoirs are being surveyed, and the county is now more prosperous than any other in the Territory. For the past six years he has been devoting his whole time, his energy and his money to advertising the many and various advantages offered by San Juan County, until now it has become known far and wide, not only in New Mexico but out of it and all over the country, that San Juan is one of the best counties in the west and that Judge Pendleton is the active, moving, progressive man who has placed it in the calcium light of publicity and prominently before the public view. San Juan County should be proud of its representative and champion. Its people are not likely to find another man who will do for them what he has done or who will command the confidence and influence which he commands both at home and abroad.

### FIRST BATTALION SCOUTS

Washington, March 20.—The first battalion, Philippine Scouts, on duty at Fort Thomas, Kentucky, have been ordered to report at San Francisco for embarkation on the transport Thomas, which sails for Manila, P. I., on March 23d.

### RETIRED AS REAR ADMIRAL.

Washington, March 20.—On March 1st Captain J. A. B. Smith, engineer-officer at the New York Navy Yard, will be retired with the rank of rear admiral. He has had sixteen years of service at sea and over twenty-one years of service on shore.

## COLORADO AGAIN AT IT

Denver, March 20.—Senator Campbell today introduced a concurrent resolution calling on Attorney General Miller to institute quo warranto proceedings against Mayor Speer and all other Democratic officials elected at the spring election. The resolution sets forth that flagrant and extensive frauds were committed in the city election last May. "John W. Springer was undoubtedly elected mayor of Denver," said Campbell. A combination of certain Democrats and Wolcott Republicans will try to force the resolution through both Houses. How the "Peabody" Republicans, many of whom opposed Springer in the spring election, will vote has not developed.

### DECIDED IN FAVOR OF THE RAILROAD.

Two colored girls got on a Santa Fe train at Albuquerque last week to go to El Paso. On the same train were a number of Indian school children, whom the conductor had been told to watch to see that they did not get off the train at some of the stations and go back to their villages. The conductor accordingly locked the doors of the car and kept them locked. Upon arriving at El Paso the two colored girls filed suit against the road for \$10,000 damages. The case came up for trial in the Pass City on Saturday and was decided in favor of the railroad company.

### LOSE BOULDER STRUCK PASSENGER TRAIN.

On Saturday of last week while the Denver & Rio Grande passenger train for Santa Fe was coming down the steepest part of Barranca Hill, a large boulder, loosened by the recent rains, came crashing down the hillside and struck the tender of the engine, partly crushing it. The train was two hours late on that account in arriving in this city. Had the boulder struck the engine or the passenger car the accident would probably have been a more serious one, as the train was just along the edge of the high cliffs overlooking the Embudo Valley.

### EXPRESS MESSENGER PRUET ASSAULTED IN CAR.

Chattanooga, March 20.—Mal Pruet, Southern Express Company messenger on the train leaving here for Memphis early today, was assaulted in his car at Lookout Station by Will Thomas, a former messenger. Thomas claims the assault was the result of personal difficulty but Pruet says that robbery was the motive. Pruet was struck on the head with a piece of timber and is now in the hospital. He states that two money packages and a package voucher are missing. After striking Pruet, Thomas applied the emergency brakes and jumped from the train. He was captured later and is in jail here.

### PIERCED BY BOULDERS AND BADLY BATTERED.

Block Island, R. I., March 20.—The steamer Spartan, of the Boston and Philadelphia Steamship Company's line, which ran aground on the west side of the island yesterday, while on her way from Providence to Philadelphia, was subjected to a fearful battering during the night from a heavy gale and at dawn today it seemed impossible to save it. Captain Briggs and four of the crew are still on board and in danger of their lives. The Spartan went ashore at high tide and several large boulders pierced her bottom and stove a large hole in her forward compartment.

### THE STEAMER CEDRIC HAS TEMPESTUOUS CROSSING.

New York, March 20.—More than three and a half days behind her best record for voyage, the big White Star Line steamer Cedric came into port today after the most turbulent trip of her career. From the time she was outside she encountered heavy weather. The force of the gales was terrific and at times assumed gigantic proportions with tremendous seas. At times the seas broke more than twenty feet higher than the Cedric's bridge and were estimated to be sixty feet high from hollow to crest. Among the passengers was Jabez White, the British pugilist, and his manager, Charles Mitchell.

### FORMER GOVERNOR ADAMS GETS WARM WELCOME.

Pueblo, Colo., March 20.—When former Governor Adams arrived in this city he was given an ovation in the form of a welcome to his home. An immense crowd met Governor Adams at the train and escorted him to a stand in front of the Union Station, where he delivered a short address. After the address the governor and his wife were taken to a carriage banked with flowers and drawn by about one hundred enthusiastic citizens, in which he was taken to his home. A brass band headed the procession. It was by far the most popular demonstration ever accorded to any man in the history of the city.

## ANXIETY CONTINUES

Russians Are Uniformed As to Safety of General Linevitch's Army.

### IS A RACE NORTHWARD

Appearance of Japanese Column Parallel With Line of Retreat Causes a Rout.

St. Petersburg, March 20.—Anxiety regarding the fate of General Linevitch's forces continues, the main danger being from the Japanese columns which are hurrying northward along the great trade route, twenty miles west and parallel with the line of retreat. The heads of these columns were officially reported to be passing Fakomen, thirty miles northwest of Tie Pass, on Friday. Their appearance doubtless hastened the Russian retreat which may now have literally become a race northward. Complete details of the losses of the battle of Mukden are not yet available at the war office but the reports thus far received indicate that 120,000 men were killed, wounded or made prisoners, and about eighty-five field guns were captured. Almost every siege gun, it is affirmed was removed.

**Japs Occupy Kaiyuan.**  
Washington, March 20.—The Japanese legation today received the following cablegram from Tokio: "At 4 a. m., March 19, our detachment occupied Kaiyuan, twenty miles north of Tie Pass. The enemy afterward attempted a counter attack but were repulsed. The enemy burned the bridges on the main road south of Kaiyuan and also destroyed part of the railroad bridge. A number of Russian guns were found buried near Mukden."

**Linevitch Makes a Report.**  
St. Petersburg, March 20.—A dispatch from General Linevitch, dated March 19th, 9 p. m., says: "Commander of the second army reports that he has had no further fighting. No reports have been received from the first or third armies. I have inspected the troops which arrived from Russia. They are in excellent spirits and health."

**Kuropatkin's Nerves Shattered.**  
St. Petersburg, March 20.—General Kuropatkin is proceeding to Irkutsk where he may stay a short time before proceeding to St. Petersburg, as his nerves are badly shattered.

### EFFORTS BEING MADE TO RESCUE MINE VICTIMS.

Fire Creek, W. Va., March 20.—The second rescuing party which was organized yesterday to enter the Rush Run and Red Ash mines, to recover the bodies of twenty-four men who are believed to have been killed by the two explosions Saturday and yesterday morning, were able to enter the mine this morning. The first rescuing party entered the mine yesterday morning and had gone two thousand feet when they were overcome by the second explosion. A second rescue party reached this point in the mine today and preparations have been begun to remove the bodies.

### THE FLOOD SITUATION THROUGHOUT ARIZONA.

Bisbee, Arizona, March 20.—The flood situation in this section is still very serious. The El Paso & Southern Railroad is operating between Fairbanks and Benson on the Southern Pacific tracks; the Gila Valley & Globe Northern is operating not at all; the Arizona & New Mexico is again shut out at Clifton; the Cananea road is entirely blocked, and the Santa Fe and the Southern Pacific are running their trains greatly behind schedule time. The Maricopa-Phoenix line is also out of business.

### SOUTHERN PACIFIC TRAIN NARROWLY ESCAPES WRECK.

Last week some careless individual used a number of heavy fish plates to assist him in getting his wagon over the Southern Pacific Railway tracks near Deming, and then went off and left the plates on the track. The engineer on Southern Pacific passenger train No. 9, discovered the obstructions just in time to save his train from being wrecked.

### DENVER ELECTION OFFICIALS MUST SERVE SENTENCE.

Washington, March 20.—The U. S. Supreme Court today denied a motion for writs of habeas corpus in the cases of Peter Miller and Thomas Shepperd, the two Denver election officials who were sentenced to terms of imprisonment by the Supreme Court of Colorado, on charges of violating the orders of the court in connection with the November election.

### COLORADO TO HAVE EIGHT HOUR LAW.

Denver, March 20.—The Stephen eight hour bill passed the Senate on third reading today. It now goes to the Governor.

## JUDGE CAMPBELL'S APPOINTMENT AS ASSOCIATE JUSTICE OF ARIZONA.

Concerning the recent appointment of Judge J. H. Campbell formerly a resident of New Mexico and for the past four years a citizen of Arizona to be associate justice of the Supreme Court of Arizona, the Daily Tucson Star says:

"Yesterday the President sent the name of J. H. Campbell to the Senate for confirmation as an associate justice of the Supreme Court of Arizona. The appointment has been looked for because of Mr. Campbell's activity in securing the passage of the bill creating the fifth judge for Arizona; because of his friends near the appointing power; because he was endorsed by the members of the Supreme Court of Arizona, the governor of the territory, the entire bar of his home district, and because Judge Campbell is accepted by those who ought to know whereof they speak as well qualified for the duties of the office to which he has been appointed. Judge Campbell has been a resident of Tucson about four years. He came here from New Mexico. He had been for some time in the service of the department of justice at Washington in the pardon department, as well as an examiner of marshals, clerks and other officials under the jurisdiction of the department.

"For the last three years he has been assistant United States district attorney, which duty called him to all parts of the territory, giving him an experience and acquaintance which will add to his value on the bench, both of the District and Supreme Court.

"Judge Campbell will make an acceptable judge and will reflect credit upon himself, the appointing power and the bench, for he is a citizen of sterling character."

## AGUA DIENTE OR COCAINE, OR BOTH?

The Albuquerque Citizen is again in tantrums. Whether its antics are produced by too much agua diente or cocaine, the New Mexican does not know, but it looks as if both agencies were the cause of some of the effusions which recently have appeared in the columns of the paper, as no sane or safe person could have possibly written them. In Thursday's issue, the paper says, concerning the Thirty-sixth Legislative Assembly:

"This is happily for the taxpayers the last day of the New Mexico legislature. It has won the title of being the very worst body of legislators in the history of the Territory. The Territorial treasury has been deliberately looted; useless offices have been created and salaries of territorial and county officers have been increased. The most shameless extravagance has characterized the acts of a majority of the Assembly. Taxes will be increased materially, and everybody who pays taxes certainly know that they are already excessive. The Republican party will have to bear the odium and disgrace of this wholesale robbery. The people are patient but there is a limit to human endurance, and surely their burdens here in the way of taxation and robbery and graft have reached the limit."

The trouble with the rot is that the paper does get into the hands once in a while of people who are not acquainted with New Mexico affairs and who may believe the false accusations and untrue fulminations in the article.

The seating of James H. Peabody as Governor of Colorado, his subsequent resignation, and the succession of Lieutenant Governor J. F. McDonald, is a wholesome rebuke to the Democratic election thieves, but it does not bring much glory to the Republican party nor to the Centennial State. The best that can be hoped for is that Colorado will henceforth have political peace and that in the future election frauds by either party will be made impossible.

## IRRIGATION AND THE NAVIGABILITY OF STREAMS.

The Kansas-Colo-irrigation case has brought out this much, that the navigability of the Arkansas River is not in the least affected by the use of the waters in the river for irrigation. One engineer, who is an authority upon water measurements in rivers, testified upon oath that in his opinion a dam constructed in the Arkansas River as far east as Wichita, Kansas, that would impound all the water above Wichita for irrigation purposes in Kansas and Colorado, would not at all affect the navigability of the Arkansas River. The same fact had been established in regard to the Rio Grande in the Elephant Butte controversy, and yet there were people at El Paso who knew better, who maintained that the navigability of the Rio Grande had been affected injuriously by irrigation in New Mexico. The absurdity of their contention did not prevent the frustration of the projected dam and reservoir building at the Elephant Buttes by a private company. Fortunately, the Reclamation Service has now undertaken that work and will not be hampered by law suits as was the private corporation. Nevertheless, it is well to establish the fact, that as a rule, water used for irrigation does not affect the navigability of any stream in the United States.

## WOULD THERE BE A WAY TO GET RID OF THEM?

The city administration should get a move on in the matter of having brick sidewalks and crossings constructed on the principal business streets and residence avenues of the town. The city board of education should be compelled to put down brick sidewalks in the Fort Marcy Addition on Palace, Lincoln and Grant Avenues. The town must be improved and must be made healthy and clean, if it is to grow and prosper. The people who hurt the city of Santa Fe more than anything else combined, are the tax dodgers and street corner knockers, who make it their business to abuse any man or woman working for the benefit of the town and who are opposed to anything that might prove of benefit to it. It is a bad state of affairs and it is a pity that it exists. They are loud mouthed and virulent in their evil talk. Would there were a way to get rid of them. In such case, this city would be greatly benefitted by their absence. In the words of Judge A. L. Morrison, "there would be many a dry eye after them."

## NEWSPAPER MEN IN OFFICE.

In appointing Peter V. de Graw, fourth assistant postmaster general, President Roosevelt has again demonstrated his leaning toward journalists. Among the persons filling the higher positions in the national service, almost one-half have seen newspaper service or have done literary work. There are two reasons for this. A man who succeeds as a newspaper man is generally well rounded out and is apt to succeed in political and official life. The second reason is that party success these days depends more upon the man with the pencil than upon any other agency, including money and silver tongued oratory, and naturally to the men who do the successful political work ought to go the most desirable political offices. Part of President Roosevelt's success in public life is due to the friendship of newspaper men. No matter how strong, how capable, how great a man may be, unless the newspapers tell of his deeds, his greatness will be known to but a small circle and his strong qualities will be of little effect in pushing him into elective office.

## BUSINESS RULES IN POLITICS.

President Roosevelt has declared to party leaders that wherever there was not an acceptable Republican in a strongly Democratic community, he would appoint a Democrat to office rather than name an irresponsible man from his own party. In other words, he will place the welfare of a community above that of party. In the same connection, the President has declared that he will not adhere to the eight years terms of office rule rigidly. It will only be followed where the service of the office holder has been indifferent, where there has been no improvement under his administration of the office, where the man has become a mere barnacle instead of an active worker. These are sound business principles and there is no good reason why they should not be observed in politics as well. It is merely in another form the natural law of the survival of the fittest.

A. W. Pollard of Deming, recently appointed district attorney for the County of Luna, will make a good prosecuting officer and a safe advisor of the Board of County Commissioners. The creation of that county into a separate district attorney's district is a good thing and the Legislative Assembly did well in creating it. The people of that section are well pleased with Mr. Pollard's appointment and that they have a prosecuting district of their own, as expenses in criminal cases will be saved, and as prosecutions will be more prompt.

It is reported from Central Asia that Russian troops are moving towards Afghanistan and that the English sphere of influence in that section is to be invaded. It strikes one that for the present Czar Nicholas has his hands full in Manchuria.

The state of Colorado has several lecturers in the field for the purpose of advertising its climatic resources and scenic beauties. These travel through the country, deliver addresses and use stereopticon views of Colorado scenery for illustrating their lectures. This plan is doing fairly well, but is not as good as if advertising were done by the distribution of illustrated and well written pamphlets describing the resources and attractions of the Centennial State. In addition, the travelling advertising agents cost a great deal more money than would the proper kind of literature and they cannot do nearly the good that the latter method would accomplish.

The main consolation to health seekers in New Mexico these rainy days must be that the weather is cutting up worse capers elsewhere. For every inch of rain that has fallen in Santa Fe since New Year six inches have fallen in California, Pennsylvania or Florida and three inches in Arizona, and for every cloudy day here there have been several cloudy days elsewhere. Besides, the rains have been of vast benefit to New Mexico's industrial interests, while elsewhere they have done more damage than good.

Almost a score of the best paid employees of the beef trust have found it convenient to take sudden vacations and trips to Europe. They had been subpoenaed to appear before the United States grand jury at Chicago which convenes next Monday and had a sort of an inkling that they might be asked questions that would not embarrass them but the whole packing combine. However, there will be other ways to take the starch and the water out of the beef trust.

The New Mexican is glad to acknowledge receipt of a copy of a new Greek newspaper just started in Boston. However, right here this paper is humble enough to say that its knowledge of modern Greek is very limited and that it has about forgotten all the ancient Greek it ever learned. An honest confession is good for the soul.

Two thousand Armenians have been killed lately in the Caucasus by fanatic Mussulmen. The Caucasus country is under the dominion of the Czar but as long as Oyama kills Russians by the tens of thousands little attention will be paid to the massacre of two thousand Armenians who rely upon the Czar for protection.

"The members of the Board of Regents and the officials of the territorial hospital for the insane are to be congratulated upon the outlook for the institution as a result of the liberality of the legislature."—Las Vegas Optic.

New Mexico's yellow newspapers will howl corruption and boodle even in this case. The nature of the brutes.

The Japanese battle cry is still "we are from Port Arthur." They are advancing so rapidly beyond Mukden that within six weeks or two months, it may be "We are from Harbin."

General Kuropatkin has been superceded and Czar Nicholas has made another mistake. He should have remembered the homely adage not to swap horses while crossing the stream.

General Kuropatkin's retirement brings one relief. He will no longer "regret to report."

Santa Fe County must have a new jail and that before the end of the year 1906.

## Growing Old

Ought not to mean growing weak and feeble. It does not mean weakness or feebleness for those who eat with good appetite and sound digestion. It is of the utmost importance that old people should retain the power to digest and assimilate food which is the sole source of physical strength. When age brings feebleness it is generally because of the failure to assimilate the nutrition contained in food.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and enables the perfect digestion and assimilation of food. It invigorates the liver and promotes general physical well being. "It is with gratitude we acknowledge what Dr. Pierce's medicine has done for grandmother's good, in fact it has cured her," writes Miss Carrie Ranker, of Perryburg, Ohio. "We had doctor with several physicians but found no relief until Dr. Pierce advised her what to do. She has taken only three bottles of 'Golden Medical Discovery' and is entirely well. She suffered with pain in kidneys, bladder and liver for ten years, and her limbs were swollen with dropsy so bad she could hardly walk. My grandmother's name is Mrs. Caroline Heunen, her age is 71 years. I will gladly answer all letters of inquiry."

Sick people are invited to consult Dr. E. V. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential.

Dr. Pierce's Pleasant Pellets regulate the bowels.

The New Mexican can do printing equal to that done in any of the large cities. Our solicitor: Every piece of work we turn out. Try our work once and you will certainly come again. We have all the facilities for turning out every class of work, including one of the best binderies in the west.

## PROPER TREATMENT OF PNEUMONIA.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and that by giving Chamberlain's Cough Remedy, the threatened attack of pneumonia may be ward off. This remedy is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia and have always gotten the best results." Sold by all druggists.

## GIVES HEALTH, VIGOR AND TONE.

Herbine is a boon for sufferers from anemia. By its use the blood is quickly registered and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middleborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50c at Fischer Drug Co.

## CURED CONSUMPTION.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1 at Fischer Drug Co.

## INFLAMMATORY RHEUMATISM CURED.

William Shaffer, a brakeman of Denison, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." For sale by all druggists.

## It's So Easy

It's easy enough for a salesman to have you slip into a suit, take you before a mirror, pat you on the back, and say: Did you ever see anything fit so perfectly? Look at the way that collar hugs the neck; how well the shoulders set! " &c., &c.

## Perhaps

But how about the wear of the fit? Depends upon the tailoring. What is to hold that collar in place or to keep those shoulders in shape?

So don't go altogether by appearance; judge by what you know of the reputation of the store.

Ever since I have been in the clothing business I have stood and we shall continue to stand back of every piece of clothing I sell to the end.

## MINOR CITY TOPICS

Six guests are booked to arrive at Sunmount this week, three of whom come from California.

The Plaza restaurant will be open for business tomorrow. The place has been remodeled and furnished.

The concert by Professor Perez' First Cavalry band at the Plaza yesterday afternoon drew a good crowd and was much enjoyed.

The morning report today at the U. S. Indian School here shows 344 pupils. This number taxes the institution to its utmost capacity.

The Board of Penitentiary Commissioners was in session today and awarded the contracts for penitentiary supplies for the coming six months.

Santa Fe Lodge No. 259, Fraternal Union of America, will hold its regular meeting tonight at the K. of P. hall at 7:30 o'clock. Visiting brothers will be welcome.

Santa Fe trains No. 3 from the east and Nos. 2 and 10 from the south and west will not arrive until this evening. A stub train came in at noon, bringing mail from Lamy and Albuquerque.

The store room in the Kahn Block formerly occupied by S. Spitz, the jeweler, and which was damaged by the fire last month, is being repaired and put into good condition. As soon as the repairs are completed Mr. Spitz will move his stock back.

Gibson & Dow began today the construction of seven hundred feet of sidewalk at the Sunmount Tent City. The accommodations for the season's business will be largely increased and a general improvement in the character of the resort will be made.

The city authorities should awaken and see to it that brick street crossings and sidewalks are constructed on the principal streets and avenues. Sidewalks from the Santa Fe and Union depots on Montezuma and Manhattan Avenues are especially necessary.

The Santa Fe Central train, due here yesterday afternoon, did not arrive until five o'clock this morning. The delay was caused because of the fact that heavy travel made the Rock Island train nine hours late and the Central waited at Torrance to make connections.

Visiting cards, engraved and printed, a specialty at the New Mexican office and at the very lowest possible prices for good work. Leave your orders at this home printing establishment, which has a heavy pay roll weekly, the money paid out going to the merchants of the city and aiding business materially.

Miscreants have been desecrating the Manderfield vault in Rosario Cemetery and a reward of \$25 is offered for the detection of the party or parties who are the offenders. Large pieces have been knocked off of the vault and the guilty parties will undoubtedly be caught and a severe penalty meted out to them.

The drill of the artesian well at the U. S. Industrial Indian School is down 950 feet and is in wet sand, which is considered a good indication. Gus Mulholland, the contractor, is in Albuquerque for the purpose of getting some necessary parts of machinery, which have become worn, at the foundry in that town. As soon as he returns, work on drilling will recommence.

The ladies of Sunmount were delightfully entertained last Saturday afternoon by the Misses Elizabeth Tristram and Jennie Allen. The occasion was a St. Patrick's Day thimble party, postponed on Friday on account of the snow storm. "Camp Erin" was artistically decorated in green banners bearing the shamrock. The afternoon was spent in needlework, games and story telling. Five o'clock tea and dainty cakes were served, the tea being real Irish tea brought by Miss Allen from Ireland. The afternoon closed with the singing of "God Save the King" and "America."

### TO CONNECT WITH A NEW MEXICO ROAD.

House Bill No. 364, which is before the Colorado General Assembly, provides for the construction of a road across the Centennial State to connect with El Camino Real in New Mexico. The Business Men's Association of Pueblo has determined to push this bill through and has sent a committee of five to Denver to use its influence in having the same passed.

### WHITEMAN CASE POSTPONED.

Will Come Up Tuesday Morning—Valdez Gets Penitentiary Sentence—Other Notes.

The territorial District Court for Santa Fe County convened this morning at 10 o'clock, Judge John R. McFie, presiding, and A. M. Bergere, clerk, at his desk. The territorial petit jury was empaneled and sworn, and then excused until 2 o'clock this afternoon. Francisco Delgado was sworn in as stenographer, Mr. Wrightsman being still ill. The following business was transacted during the forenoon:

Territory vs. Manuel Gonzales, charged with assault, arraigned, pleaded not guilty and case continued.

Territory vs. Carlos Blummer, indicted for carrying deadly weapon, arraigned, plea of not guilty entered and case continued.

Jose Valdez, indicted for assault with intent to kill, upon arraignment pleaded guilty, and was sentenced to the penitentiary for two years.

Agustin Trujillo and Simon Jimenez, indicted for resisting an officer, through their counsel waived the reading of the indictment and pleaded not guilty.

Cleofes Jimenez and Jose Antonio Jimenez, indicted for an assault with a deadly weapon, upon being arraigned pleaded not guilty.

Edward Nichols, now serving a term for robbing the U. S. postoffice at Lamy, indicted for burglary, at the instance of the prosecuting officer the case was dropped from the docket, with leave to reinstate.

Climaco Trujillo, indicted for an assault, was arraigned, pleaded not guilty, and at his request the case was continued.

The late adjutant general, W. H. Whiteman, appeared before the court with his counsel, T. B. Catron, and N. B. Laughlin, and waived reading of the several indictments against him, and pleaded not guilty to each of them, asking for a speedy trial upon the merits. Owing to the absence of the present adjutant general the case was postponed until tomorrow morning. There being eight indictments against him his counsel asked that they be consolidated, as all were similar, in order that one trial might dispose of all of them. The district attorney opposed the consolidation but the court suggested in view of the fact that the several indictments were similar acts against one fund, the district attorney should select for trial the case which he deemed the strongest against the defendant, and let the others abide the trial of that one case, but the district attorney earnestly opposed any such suggestion.

The four indictments found some years ago against William M. Berger, for libel, while he was running his weekly, the Capital, were dismissed, the recent libel law having repealed the provisions of the statute under which these indictments were found.

The following criminal appeal cases from justices of the peace were disposed of: Territory vs. Martin Medrano, the judgment of the lower court affirmed, and the same order entered in the cause of the Territory vs. Martin, Territory vs. Oratio Ortega, Territory vs. Casimera E. de Blea, Territory vs. Julian Baca, and Territory vs. Attilano Gold. In the case of the Territory vs. Casimera T. Cortez, the appeal was dismissed.

The following city appeal cases were on motion of the city attorney, taken up, and the sentence of the court below in each case affirmed. City of Santa Fe vs. Attilano Gold, two cases; City of Santa Fe vs. Eleutario Muniz, City of Santa Fe vs. Oliver Tucker, and City of Santa Fe vs. Pablo Padilla.

### WEATHER BUREAU EMPLOYEES MUST WAIT FOR PAY.

A mail car was burned in Maryland last week which had on board the pouches from Washington containing the checks for the payment of the western Weather Bureau employees for February. The government will not replace a lost or destroyed check short of six months from date of issue, so all the Weather Bureau employees in the west will have to wait until August before they will receive their pay for last month. One pouch only was saved from the car, it being the one for Lincoln, Nebraska, and the weather men there received their checks all right.

### "THE SURVEYOR'S SOLILOQUY."

An Ex-Cowboy Wants to Find the Missing Verse of a Song Which Bears the Above Title.

If any readers of the New Mexican can supply the verse which is missing from the song, "The Soliloquy of a Surveyor," which is printed below, they will convey a favor to the writer of the following letter:

Santa Fe, N. M., March 20, 1905.

Editor of the New Mexican:

I notice in a recent issue of your paper a poem by Will C. Barnes, relating to the "cowboy." I have heard it before, and I punched cattle myself from the latter '80s to the spring of 1895, over the divide in southern Idaho and in northern Washington. But when I left the stock business and became connected with a civil engineering corps in 1897, I heard the lines enclosed herewith. I learned them and have many times since sang them for my own satisfaction when alone, and for the entertainment or molestation of others, as the case may be, when in company. However, there is one more verse which I did not learn and I wish you would kindly publish these lines, so that if any one knows the other verse, he may supply the same to oblige an "ex-cow puncher," i. e., a "used-to-wuz."

P. S.—I know a "maverick" yet when I see it.

The Soliloquy of a Surveyor.

Tune—"My Bonnie Lies Over the Ocean."

Last night as I lay on the mountain,

I gazed at the stars in the sky,

And wondered if every surveyor

Could find that sweet bye and bye.

Chorus—

Run back! Chain back! Blaze back

the line all the way—

Line back! Flag back! For those trav-

eling the proper way.

The path to that bright mystic region

Is narrow and dim, so they say,

But the road that leads down to perdition

Is staked out and blazed all the way.

Chorus—

They say there's another big contrac-

tor

Who'll hire all who come his way,

To pave and broaden that roadstead

That leads from the realms of day.

Chorus—

Often take observation on Polaris,

Run the line true all the way—

Blaze along and build proper corners,

And when in "camp" he will pay.

Chorus—

Doan's Ointment brings relief and cure.

Is endorsed by Santa Fe people. C. M. Conklin ex-city clerk, of San Francisco street says: "There came to my notice sometime ago a case of hemorrhoids, commonly called piles. They were of the bleeding protruding variety and itched intensely. Doan's Ointment came to the notice of the party afflicted and was procured at Ireland's Pharmacy and a course of the treatment given. The first application soothed and a continuance of its use for some time longer radically disposed of that far too prevalent plague."

### THE SANTA FE WANTS NO DRINKING EMPLOYEES.

It is claimed that a number of the recent wrecks on the New Mexico division of the Santa Fe Railway have been due to the fact that the trainmen concerned were drinking men. Seven employees were recently discharged and more are slated. The men say that no reasons were given for this action on the part of the company and they claim that it is due to the work of spotters, who reported that they drank.

I, Juan Ignacio Baca, do hereby make this declaration under my oath: For the period of three years I had been afflicted by Malaria Fever, and my sufferings were such that I was unable to do any kind of work, or attend to my business. I procured and used many patent medicines without deriving from any of them any benefit to my health, and having lost all hope of recovering my health, it was my good fortune to meet the excellent good lady, Mrs. Emilie M. de Delgado, of this city, who kindly recommended me the use of "La Sanadora" for my case, and she herself gave me the medicine according to directions, and it resulted in a complete restoration of my lost health. After three days that I had been using the medicine, I felt so well that thereafter my energy to move returned and my health is excellent. I always keep at home this wonderful medicine, and it is a great satisfaction to me to know that its use in any kind of similar diseases, shall always prove a blessing. And I recommend all persons suffering to avail themselves of this medicine, assuring them that they will find the desired relief.

I, Millard F. Davidson, make this statement under oath for the benefit of all sufferers as I have suffered. This present winter I caught a bad cold and had pains in my chest and a severe cough. I thought I was surely going to have pneumonia. I tried different remedies, but none relieved the pain or stopped the cough. I heard several people recommend Sanadora so I tried it and in less than two days was well and able to attend to business. Since then I have called others' attention to this remedy, and without exception they have been cured. It does what is claimed for it.

This is to certify that I am a resident of the County of Lincoln, Territory of New Mexico, that I have suffered with scrofula trouble for four years and have sought in vain for a cure, both with doctors and prepared medicines, blood purifiers, etc. Nothing seemed to do me good. I was prevailed upon to try Sanadora some three months ago, which I did and I believe now I am completely cured. When I began taking this medicine I had breaking out on my body and sores which have now entirely disappeared. I feel first rate and can recommend Sanadora to anyone who is troubled as I have been.

**LA SANADORA CURES! ONE OF MANY:**  
Hedges, San Diego, Co., Cal., July 12. Romero Drug Company, Las Vegas, New Mexico.

Dear Sirs:—

My wife has been afflicted with Rheumatism and Neuralgia for a long time, and before writing to you, she had used a great many so-called remedies without apparent benefit. Realizing the fact that unless she obtained relief soon her disease would get the best of her and develop into something more serious. I commenced to search for some reliable remedy, and thanks to God I saw the advertise-

ment of "La Sanadora" in one of our Spanish papers and decided to give you my remedy a fair trial, which, I am pleased to say, has proven satisfactory.

"La Sanadora" has entirely cured my wife of these diseases and she now feels like a new woman. I can truthfully say that "La Sanadora" has given her relief after all others have failed. I feel so thankful for the good "La Sanadora" has done for my wife that I consider it my duty to add my testimony to that of others who have been cured by your wonderful remedy "La Sanadora." If any one doubts the truth of this statement, let him or her write to me and I will tell him or her just what "La Sanadora" has done for my wife.

Thanking you for your kindness, I remain yours very truly,  
PROFESSOR A. J. MONROY, M. A.  
Deputy Clerk of the Supreme Court of San Diego Co., California.  
From the Optic, July 27, 1903.

Juarez City, State of Chihuahua, Mexico, November 23d, 1903.  
Romero Drug Company, Las Vegas, N. M.

Gentlemen—This letter is for the only purpose of informing you of the following facts:  
Since the 7th of the present month I have been suffering from a very se-

vere cold, to such extent that for two weeks I could not sleep, during which time I tried different medicines to seek relief but all in vain. Accidentally I noticed in one of the newspapers to which I am a subscriber, an advertisement of your preparation, "La Sanadora," and having read the same carefully, I sent for a bottle of that medicine, and as soon as I took the first dose according to directions given, instantly I felt great relief, the fever and all pains I had been suffering having disappeared and I could regain my sleep, having passed the night pleasantly, and today I feel in good spirits having regained my usual good health. As I cannot fully correspond the benefit received from the effects of so invaluable medicine, I hasten to send you these lines as a testimonial for publication, recommending "La Sanadora" to all those suffering from the effects of colds.

Yours very truly,  
MELITON CONCHA,  
Leader of the Chihuahua Band.

Lincoln, New Mexico, Feb. 8, 1902.

Territory of New Mexico, County of Lincoln.

I, Patricio Miranda, a resident of Lincoln, New Mexico, upon my oath make this the following statement: That about the first of the year 1901

I became sick with stomach trouble, which soon ran into diarrhoea and dysentery. I was treated by a doctor here and also at Fort Stanton for eight months at an expense of over one hundred and fifty dollars. I also tried a number of different patent medicines, but got absolutely no relief. My weight was reduced during this time from one hundred and sixty pounds to one hundred and twenty pounds, and I had got into such a reduced condition that I could hardly walk and could do no work at all. I had lost all hope of ever being cured but upon the recommendation of Aragon Bros. & Co., doing business here, I made a trial of Sanadora and used it as directed. The first bottle gave me relief and by the time I had used the third bottle by stomach was well and my diarrhoea had stopped, but I continued taking the medicine until I used six bottles in all, and now can say I am completely cured and have gained back my regular weight. I feel it my duty to testify to what Sanadora has done for me, and so make this affidavit.

PATRICIO MIRANDA, (X) His Mark.  
Witness: B. H. MOELLER.

## "American"—2 in 1—Twin Freezers

Freezes Two Flavors of Ice Cream or an Ice or Sherbet and Ice Cream at One and the Same Time, in One Freezer.  
SOMETHING ENTIRELY NEW—NEVER DONE BEFORE.

Sizes: 2 3 4 6 8 10 11 12 15 20-qt.

A freezer to make two flavors at one time has been wanted ever since ice cream became so popular. In families some members prefer one flavor, others another; some prefer ice cream, others can only enjoy a water ice or sherbet, so some had to be dissatisfied no matter what was made in the old style freezer. Much time and ingenuity have been spent in trying to devise some means to freeze two flavors at one time, but without any practical results. Now that it is an accomplished fact, one wonders why it should have been so long delayed, when it is so simple.

In the American Twin Freezer the can is divided in two parts by a vertical partition, which projects above top of can and bears against the can lid, so that during freezing nothing can pass from one side of can to the other. The dasher has a central shaft which fits in the groove of the partition. This dasher carries two sets of scrapers, one set fitting in one side of can and the other set in opposite side. Obviously the one cannot be turned as in old style freezers, because of the partition.

It is therefore swung forwards and backwards, and this movement is produced by a rocking motion of the crank. One scraper of the set in each half of can scrapes when can moves in one direction, and the others in opposite direction. The scrapers are so arranged as to be held automatically against side of can, so that the frozen particles on can are scraped off positively and continuously. The rocking movement of crank is regulated in its length by stops on either side, thus controlling the backward and forward motion of can so that the scrapers reach from one corner of can partition to that on opposite side.

Outside of the special feature of making two flavors at one freezing, there is another important advantage in the American Twin Freezer, which will be greatly appreciated, and that is the more comfortable and much easier crank movement. It is very much less tiresome than turning a crank round and round as in the old style freezers; in fact, the tiresome feature entirely disappears. One can sit in a chair with freezer alongside and rock the crank to and fro without discomfort or undue exertion, a feature that will be appreciated in hot weather, when frozen desserts are most in demand. Although two flavors are frozen at once and with less exertion, no more time is required than in old style freezers.

The American Twin Freezer is past the experimental stage. A large number have been in practical use during the past summer in hands of buyers of jobbing houses and others. While severe tests and criticism of freezer were invited, the results have been altogether favorable, as indicated in extracts from some of many letters received.

## OFFICIAL MATTERS.

Secretary in Attorney General's Office Edward C. Burke, who came to this city last summer from Pittsburg, Pennsylvania, and who during the recent campaign was a clerk at territorial Republican headquarters, has been appointed private secretary to Attorney General George W. Prichard and assumed the duties of his office today. Mr. Burke is a very competent clerk and remarkably swift as a typewriter. He had had much experience in clerical duties before coming to this Territory and is fully competent for the new position.

**Commission Signed.**  
President Roosevelt on Saturday signed the commission of Jerome Martin of Garfield, Dona Ana County, as register of the United States Land Office at Las Cruces, and Secretary of the Interior E. A. Hitchcock has forwarded it to Mr. Martin.

## NEW ARTIFICIAL LAKE FOR NORTHERN ARIZONA.

Flagstaff, March 20.—This town is within a few miles of what will doubtless prove the largest clear water lake in Arizona. It is the dam constructed by the Arizona Lumber and Timber Company last fall, adjoining the ice caves at Clark's Valley, eight miles from Flagstaff. The dam is now filled with water to a depth of 28 feet and is a very pretty sight. The dimensions are as follows: Total length 1,014 feet; width 751 feet; height 38 feet; capacity, 4,533,000 gallons. The reservoir will soon be stocked with at least 15,000 black bass. This lake will prove of great benefit to stock owners, insuring them a big supply of water for their stock.

## EDDY COUNTY IS

**AHEAD OF SANTA FE.**  
The Eddy County grand jury last week visited the jail of that county and have reported to Judge William H. Pope that they found it in good condition and very neatly kept. The prisoners, however, claim that they do not get enough to eat, and the jury recommended that as long as the prisoners are employed on public work they be given three meals each day. The grand jury also recommends that economy be practiced in the expenditure of public funds; that the compulsory school law be enforced; that the Sunday games of various kinds be stopped, and that the law against the carrying of deadly weapons be more rigidly enforced.

## NURSERY COMPANY

**BEATEN IN COURT.**  
In Eddy County last week a jury decided against the Stark Bros. Nursery Company in a suit brought to recover the sum of \$3,500 which the company claimed was due to them for trees delivered to F. G. Tracey in 1893. Mr. Tracey, while not denying that the trees were delivered to him, did claim that they were not what he ordered and not what the company represented them to be, and the jury gave him the verdict.
