With only a few minutes of the jury's discussion dealt. In settling that point the twelve men accepted Mrs. Patterson's story. They also accepted her story of the shooting—that she fired after her husband had struck her and knocked her to the ground and that her previous experiences with him in this respect led her to believe that she was in imminent danger of death or great injury.

Mrs. Patterson spent a restless

Journal yesterday, assuring a capacity attendance this afternoon. Because of this it is urged that the children call as soon after 9 o'clock this morning as possible for the tickets. There will be free tickets for all of them. Beginning promptly at 9 the tickets will be given out at the Morning Journal office.

## TIZ-For Sore Feet

Tired, Aching, Swollen, Smelly, Sweaty Feet? Corns, Calluses or Bunions? Use TIZ. It's Sure, Quick and Certain.

You Will Enjoy Using TIZ. The Most Pleasant Remedy You Ever Tried and Moreover It Works.

At last here is instant relief and a lasting permanent remedy for sore feet. No more tired feet. No more aching feet. No more swollen, hot, smelly, sweaty feet. No more corns. No more bunions. No more calluses, no matter what ails your feet or what under the sun you've tried without getting relief, just use TIZ.

TIZ is totally unlike anything else for the purpose you ever heard of. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudates which cause sore feet. Powders and other remedies merely clog up the pores. TIZ cleanses them out and keeps them clean. It works right off. You will feel better the very first time it is used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. TIZ is for sale at all drug-gists 25 cents per box or direct if you wish from Walter Lather Dodge & Co., Chicago, Ill.

night, finding but little sleep. From her cell window she looked across at the jury room and as long as the lights were burning she kept her eyes fixed on the spot where twelve men were deciding her fate. And when finally the lights were extinguished she did not know whether their work was done or yet to do. Her brother and sister stayed with her until midnight, when she retired.

In the morning, however, her composure returned. She sat calmly in her cell, talking with members of her family and with a few newspaper reporters who dropped in during the long wait, but only in the most indirect way spoke of what might be in store for her.

When the jury left the court house for breakfast she pressed her face against the window of her cell and watched them until the last man was out of sight, and again, when they returned she stood at the window saying "Oh, you dear men—if you would only look up."

Mrs. Patterson after gathering a few articles which she had kept in the jail, was driven from the jail in an automobile to the hotel where her parents are stopping. Her Thanksgiving is to be all that she has said it would be from the day of her arrest. Tonight Mrs. Patterson is with her parents at the little hotel at which they have been staying since they came from Sandovai, Ill., to be with her during the trial. Of her plans she had little to say.

"I don't know myself," she declared. "I haven't had time to think what I shall do. My father is anxious to take me back to Sandovai at once but I cannot leave Denver for a few days at least. There's my baggage to be arranged about and several other matters of business. I'll be here for a few days at any rate and beyond that I don't really know myself. What is going to happen."

She was sitting on the edge of her bed, kinship-clad, the picture of health and energy. Not a trace of the ordeal through which she had passed was evident—she was just like a school girl at the beginning of a holiday.

"Guess what we did?" she asked, "when we left the jail my mother and father and brother and sister and Mr. Hilov, they all came. We went straight into the hotel. I had a great, long thirty-mile automobile ride, and oh, but it was good to be in the open and free."

"And when we got back what a dinner I ate. You know I haven't eaten much for the last few months, and just a wisp of a smile came to the corner of her mouth."

Of the trial itself and of her feelings there she said she would not say a word. "I'll tell you," she said, "I don't really know myself. What is going to happen."

"Only four hours ago—but, see, I'm tired enough for home to come," and she pointed to a note or more of telegrams that littered the bed. "From all parts of the country. Some from friends and others from people I don't know. It was nice of them, don't you think?"

"Truly I don't know what I'm going to do," she went on when the conversation was brought around to the subject of her plans again.

"The stage? Not valuable, possibly not that—I think that would be cheapening and degrading—but if I could get a part—even a tiny little part in a good company, a really first-class company, I think I should like it. But all that's most indefinite. Truly, I don't know what I'm going to do."

Mrs. Mary K. Patterson, the mother of the dead man, who came from her home in Chicago to testify for the state at the trial, listened to the reading of the verdict. As she left the court room she put her hands to her ears to shut out the cheering of the crowd.

"I did not come for revenge, but to see justice done," she declared, "but this brand of justice is a disgrace to Denver. I shall leave tonight."

"It is a travesty on justice," was Special Prosecutor Horace G. Benson's laconic comment.

Hold First Executive Session on Swing Around the Circle; Visit Kalamazoo and Grand Rapids, Mich.

[By Morning Journal Special Leased Wire.] Grand Rapids, Mich., Nov. 29.—The western governors' special arrived in Grand Rapids this afternoon. President Clements of the Grand Rapids board of trade, acted as official pilot for them from Kalamazoo.

On the way from Kalamazoo the governors went into executive session, the first of the trip. One of the results was the adoption of the following Thanksgiving proclamation:

"On this, the eve of the day set apart by the president and the chief executives of the states for thanksgiving and prayer, the undersigned western governors, on a tour of the east to extend the greetings and good will of those they represent to their brethren in the older states, congratulate the people of the nation upon the many blessings received and enjoyed by them during the past year."

"The soil has yielded bounteously of its treasures, neither war nor pestilence has taken its grim toll of the numbers; education and morality have made noticeable progress; material comforts have multiplied and social citizenship has made decided advancement and commercial activity and industrial growth have become more pronounced and extended."

"With so much to be thankful for a grateful people should make the morning indeed a day of thanksgiving on which praise should be freely offered to Him from whom all good and perfect things come."

The proclamation was signed by Governors Norris of Montana, Vessey of South Dakota, Hawley of Idaho, Burke of North Dakota, West of Oregon, Elbert of Minnesota, Carey of Wyoming and by Lieutenant Governor Fitzgerald of Colorado.

The western governors left on their special train at midnight for Detroit, following a ten hours' stay in Grand Rapids, during which they were entertained by the entire city.

Tonight they were guests at a banquet. Former Governor Brady of Idaho told of the purposes of the trip and several of the governors spoke briefly.

Today the members of the party inspected the manufacturing plants here. Governor West of Oregon was one of the speakers.

**TOLEDO PLANS BIG DAY FOR EXECUTIVES**

Toledo, O., Nov. 29.—Preparations for the reception of the western governors to this city tomorrow afternoon were completed tonight.

A party of business men will go to Detroit tomorrow morning and accompany the governors' special here. Automobile rides, visits to the Toledo Yacht club and the Country club after which a buffet luncheon will be served in the rooms of the Toledo Commercial club will be the entertainment provided.

**ANOTHER CHAPTER OPENED IN EDDY WILL SUIT**

Alleged That Interest On a Trust Fund Is Being Used in Violation of Law to Maintain Litigation.

[By Morning Journal Special Leased Wire.] Milwaukee, W. H., Nov. 29.—The attention of the Milwaukee courts is being attracted by the case of Mrs. Mary Baker G. Eddy, founder of the Christian Science church, for the benefit of her grandchildren, being used in whole or in part for the maintenance of litigation looking toward the setting aside of a regular class of Mrs. Eddy's will.

The trustees claim that this alleged use of the money is in violation of the terms of the trust. The bill charges that the money is being used to assist Mrs. Eddy's son, George W. (Glover of Lead, S. D., and her adopted son, Dr. Ebenezer J. Foster-Eddy of Waterbury, Vermont, in their efforts to have the courts declare invalid the residuary clauses of the will which left property valued at \$2,000,000 to the First Church of Christ, Scientist, of Boston, and to have this residue distributed among the next of kin.

Remains of Jose Sanchez Who Lost His Life October 6 Taken From Rio Grande Near Palomas Hot Springs.

[Special Correspondence to Morning Journal.] Elephant Butte, N. M., Nov. 29.—The body of Jose Sanchez, an employee of the Elephant Butte construction gang, who was drowned on October 6, was found Sunday afternoon a mile below Palomas Hot Springs and six miles from the point where the unfortunate man fell into the Rio Grande the day of the fatal accident. The body was discovered in a pool of stagnant water which had formed at the side of the river during the recent high water. It was so badly decomposed as to be almost unrecognizable. The widow of the dead man was sent for and on her arrival at Palomas she positively identified the body at the inquest as that of her husband. Burial took place Monday in the Palomas parish cemetery.

The death of Sanchez occurred while he was walking along the bank of the swollen river with a companion. The bank had been undermined by the high water and suddenly gave way, precipitating him into the swift current. Rescue was impossible and the body was swept away. Efforts at the time to find the body proved unavailing. The dead man was a former resident of Las Cruces.

**Ball For Employees at Dam.**

Saturday the largest ball ever held in southern New Mexico will be given here, when the reclamation services officials will entertain the 1,400 employees at work here at a grand ball. Since there is no hall here large enough to accommodate such a crowd, three separate halls will be used. The recreation room in the administration building and the two mess halls will be converted into temporary ball rooms for the occasion.

Magnificent Fowl From Rhode Island Farm to Grace Taft Table at the White House Today.

[By Morning Journal Special Leased Wire.] Washington, Nov. 29.—The forty-pound Rhode Island turkey that is to grace the Thanksgiving table at the White house tomorrow arrived in Washington today. It was taken to the kitchen of the executive mansion and the chef began to plan a dinner with the turkey as the star attraction.

The managers of an "apple show" now in progress here will send the president some of the finest apples to be seen at the exhibition.

There will be few guests at the White house dinner. Robert and Charlie Taft, the president's sons, will not be home from school, but Miss Helen Taft will have several girl friends here to eat Thanksgiving dinner. The president will attend the Pan-American Thanksgiving mass.

**PASSENGER STEAMER APPEALS FOR AID**

Victoria, B. C., Nov. 29.—Although several vessels answering the distress call from the little passenger steamer Tees, which struck a rock early today, should have reached the scene of the accident tonight, no word has been received by the wireless stations ashore concerning the steamer's condition.

The silence of the Tees' wireless is taken by officials of the Canadian Pacific railroad, owners of the steamer, to indicate that the dynamo are flooded and the wireless rendered useless. The officials here are without information concerning the exact position of the Tees, but are hopeful that she is inside the sound in a sheltered position. Long stretches of reef lie outside and wireless dispatches report high winds there today. The number of passengers on the Tees is not known.

**ITALIAN GOES INSANE AND COMMITS MURDER**

San Jose, Cal., Nov. 29.—John Karso, an insane Italian, drove his wife and two children from their home late today, and then overloading himself in a shed, opened fire on passers-by. His first bullet killed Mrs. Lena Blase, a neighbor.

Well equipped with arms and ammunition, Karso stood off a posse of police and sheriff's deputies for more than two hours. Dynamite was used ineffectually in an attempt to dislodge him and finally the shed was fired by a deputy sheriff, who crept up to it unnoticed in the gathering darkness.

When the flames had consumed the shed the charred body of Karso was found with the top of the head missing. It is believed that he shot himself.

Attorneys Spar as to What Procedure to Take in Investigation of Alleged Bribery Plot.

[By Morning Journal Special Leased Wire.] Los Angeles, Nov. 29.—Three trials and a grand jury investigation was as far as the known possibilities of the McNamara murder trial had reached when court adjourned today for a Thanksgiving as the participants might see fit to spend.

One more spokesman accepted as to cause was the fruit of the day's court proceedings in the case of the people vs. James R. McNamara. He is A. W. Stewart, a humorous farmer, who came from Logansport, Ind.

Bert H. Franklin, chief of the special investigators employed by counsel for McNamara, was arraigned on a charge of bribery of a salesman, with Henry T. Gage, former governor of California and United States minister to Portugal as counsel, pronouncing the effort to have an immediate preliminary hearing to be a political plot and threatening to leave the case. He obtained an extension of two days instead of the ten for which he asked.

The trial of H. B. Connor, A. B. Maple and F. Ira Bender, accused of having attempted to dynamite the Hall of Records, is set for December 11, and either a special or a regular grand jury may be summoned soon, probably will be asked to investigate further into the Franklin case.

A rumored spat between District Attorney J. D. Fredericks and Frank R. Willis, acting presiding judge of the superior court of Los Angeles county, over a special grand jury which Fredericks said he expected to have called, did not materialize because no application for such grand jury was made. Fredericks said later that he would wait to see how soon the regular 1911 grand jurors ordered by law were drawn.

In any event Superior Judge Dayton, the presiding judge now in Chicago, probably will be back in Los Angeles before application need be made, and Judge Willis will be relieved of any responsibility in that direction.

Judge Willis is opposed to the grand jury system, preferring the filing of information by the district attorney, on the ground that this court's records, extending over twenty-seven years, shows an amazingly small number of convictions on grand jury indictments.

District Attorney Fredericks favors them because they enable the state to probe further than they can otherwise.

The arraignment of Franklin on a charge of having bribed George N. Lockwood, an unsummoned juror, attracted more interest than anything else. Attorney Gage was retained as Franklin's counsel this morning and when Assistant District Attorney W. Joseph Ford asked for a formal hearing Friday, Gage protested vigorously.

"In that event the defendant will have to get other counsel," he declared. "I came into this case only this morning. I have other duties. Tomorrow is a holiday. I never have been treated with so little consideration before in my life."

"We do not ask counsel for the defense to have a full hearing at that time," replied Ford.

It was reported that this preliminary hearing was desired as affording information which would justify the calling of a grand jury at an early date.

On the other hand, Attorney Gage pronounced it was an effort to prejudice the election prospects of Job Harriman, attorney for the defense, who is a candidate for mayor on the socialist ticket at an election to be held December 6.

"A man does not turn croak in a night," was Franklin's comment on his case.

He declared that he believed Fredericks and investigator Samuel L. Browne, who arrested him, each did his duty as he saw it, but was deceived by some plot of which he was ignorant.

A. W. Stewart, the spokesman passed today, is the tenth man accepted as to cause by both sides, eight of these already being sworn jurors.

C. D. Hubbard was executed because of his disbelief in capital punishment as were F. E. Balderson and H. D. List. Isaac S. Carter, who said his opinions in connection with the case were formed by personal inspection of the wrecked Times building, was executed on the ground of bias, as was Dr. J. H. Martin, whose son was at one time a reporter on the Times. Court adjourned until Friday.

**FIVE MEXICAN SUSPECTS LIBERATED AT LAREDO**

Laredo, Tex., Nov. 29.—Five of the eight men who have been confined in the guardhouse at Fort McIntosh for complicity in the Reyes movement to foment a revolution in Mexico, were liberated today by the military authorities, but were immediately taken in charge by the immigration officials and will be given a trial to determine whether they surreptitiously entered the United States.

Captain Juan Mirego, an ex-captain in the Mexican army, one of the principal witnesses against General Bernardo Reyes, was released on \$1,000 bond. His two companions, unable to give bond, have been removed to Corpus Christi, where they will be held in jail.

CANVASSING BOARD STILL HARD AT WORK

Adjournment Over Thanksgiving Day After Task of Sorting the Returns Is Finally Completed.

[Special Dispatch to the Morning Journal.] Santa Fe, N. M., Nov. 29.—The canvassing board today again put in the entire session sorting the returns from the recent election and many remarkable discoveries of carelessness and incompetence by election officials were made.

As a result of the board's work today it is apparent that six precincts in New Mexico failed to hold an election at all. Two of these are in Roosevelt county, one in Eddy, one in Elmore, in Socorro county, one in Ewing, in Taos and another, which is unnamed, in McKinley county. Some thirty precincts, scattered generally throughout New Mexico, failed to make any returns to the secretary as required by law and ninety others made returns that were unsigned, improperly signed or otherwise defective. It is believed, however, that the officials of the missing precincts and of those making defective returns, will be compelled to make proper reports without seriously delaying the canvass.

When adjournment was taken tonight the board had completed the sorting of all the returns on hand and on Friday the board will take up the work of canvassing the returns of the various counties alphabetically, commencing with Bernalillo.

No session will be held tomorrow on account of Thanksgiving day.

A considerable number of the candidates and politicians interested in the count are still in Santa Fe and rumors of senatorial candidacies and combinations are the order of the day. Candidates, possible and impossible, are suggested hourly, and it is said that there is considerable betting on the result in the legislature.

One enterprising saloon man here has secured a large blackboard on which is posted the names of some thirty candidates and odds running all the way from 100 to 1 to even money are offered against the various candidates with even more liberal odds on combinations where the better is required to name both the successful candidates.

Among the candidates whose names are posted are Governor Mills, A. B. Felt, W. H. Gillenwater, Charles Springer, Charles Spies, Felix Martinez, W. D. Murray, Miguel A. Otero, B. F. Pankey, E. C. De Baca, H. B. Ferguson, Nellie R. Field, A. Jones, J. D. Hand, G. W. Field, E. W. Johnson, T. B. Catron, Thomas Burns, H. O. Burrum, Elfrigo Baca and W. H. Andrews.

**GAYNOR OUTLINES IDEAL AMERICAN NEWSPAPER**

New York Mayor Urges Restrictions Usually Favored by Persons Who Are Ignorant of the Business.

[By Morning Journal Special Leased Wire.] New York, Nov. 29.—To a series of questions propounded to him on the subject, Mayor Gaynor issued an extended statement today outlining his idea of an ideal American newspaper.

"A newspaper should show that there is a gentleman in control of it," he said.

"A newspaper should be true, its motives fair."

"If the facts are not known an editorial should not be run."

"Expressions of opinion should be confined to the editorial columns."

"Headlines should be accurate and introductions stripped of verbiage."

"All articles should be signed."

"The news columns should be non-partisan."

"Readers do not want all the testimony in divorce trials and sensational criminal cases."

"A decent, well bred official should not be cartooned as a ruffian and a loafer."

"No influence from advertisers should control news or editorial columns."

## RUSSIA DEMANDS RESIGNATION OF SHUSTER

Persia Not Inclined to Comply With Czar's Ultimatum, Which Also Carries Heavy Indemnity.

[By Morning Journal Special Leased Wire.] Teheran, Nov. 29.—Russia's ultimatum has been delivered to Persia. Russia demands the instant dismissal of W. Morgan Shuster, the American treasurer-general of Persia, whose administration of the department has resulted in the present complications and indemnity for the expense incurred in sending Russian troops to Persia.

Should the dismissal of Mr. Shuster not be carried out within forty-eight hours, Russian troops will march on Teheran and the additional expenses will be added to the indemnity. It is stated confidently that the national council will not comply with the demands. Mr. Shuster, in an interview today, said the cancellation of his contract rested entirely with the Persian national council.

Whatever may be the feeling of the Persian people in the present affair—and it is said to favor Shuster—Persia is helpless before the Russian Czar. In some quarters it is expected that the Russian action, which is looked upon as an affront offered to American prestige, will be resented by the United States, as Mr. Shuster was recommended for the position he holds by the state department at Washington.

**COLDEST WEATHER IN FORTY YEARS AT SANTA FE**

Thermometer Recedes to Eight Degrees Below Zero; Much Suffering and Loss of Livestock as Result.

[By Morning Journal Special Leased Wire.] Santa Fe, N. M., Nov. 29.—The coldest November temperature with one exception ever recorded by the weather bureau in the past forty years at Santa Fe, was registered last night when the temperature fell to eight degrees below zero. This morning at 6 o'clock it was still one below and there is much suffering in consequence and heavy loss on the ranges, the temperature being thirty degrees below the normal of the past forty years. Fortunately today was sunny with the temperature rising rapidly.

**Presidential Primary.**

Sacramento, Cal., Nov. 29.—At today's session of the lower house of the legislature now convened in extraordinary session, Assemblyman Young introduced a bill providing for a presidential preference primary in California. May 8, 1912, is fixed as the date for the first primary. The measure has the support of dominant republican and democratic state leaders and seems assured of passage.

## New Mexico and Arizona Elevens Clash on Traction Park Field This Afternoon

Players Representing Respective Universities in Superb Condition and Football Contest Is Expected to be Greatest Ever Played in the Southwest; Referee's Whistle Blows Promptly at 2:30; Indications are Good For Record Breaking Crowd; Fair Weather Is Assured.

Local enthusiasm was running high last night after the final workout of the U. N. M. football team for the game this afternoon at 2:30 at Traction park between the team representing the University of New Mexico and the Cactus youths of the University of Arizona. The local boys are fit and should put up the game of the year.

A good-sized crowd of football fans witnessed the final workout yesterday afternoon on University field, but much to their sorrow, they were excluded from the final private talk given the players by Coach Hutchinson in the gym last night.

Tired and sleepy, and not very vigorous as to the outcome of the game the athletes retired early last night and slept well, which according to Coach Hutchinson, is one of the sure signs of good work on the following day.

Arizona Eleven Arrives.

With fifteen men in his squad, Coach Ship and his manager arrived with the Arizona boys this morning on the northbound El Paso train. The

ated in the center of the field at Traction park that those who occupy them can get a good view of the game from start to finish. The west end of these bleachers will be known as the New Mexico section and here the cheering brigade under command of

R. F. Hutchinson,  
Coach U. N. M. Football Team, 1911.

John Weyliff Miller will send out their yell of encouragement to the home team. Closely associated with this Varsity cheering brigade will be a company of high school cheerers led by the cheer leader who so greatly helped the local high school in their games during the season.

The automobile section of the spectators will be on the north side of the gridiron. Here numbers of alumni and former students of the Varsity will gather to urge the Silver and Red boys to victory.

The gridiron has been under a stiff course of preparation for the game. The heavy clinkers have been removed and the field has been lined better than ever before. The gridiron proper has been wired-off at a distance of five feet from the side lines on each side, and at a sufficient distance from the goal posts to make it perfectly safe. A sufficient number of officers has been provided to keep everybody except those allowed on the gridiron proper outside the wire.

Mer. F. N. M. Football Team. The latest half-back in the Southwest.

pulling in at 5:05 but the football players were allowed to sleep until after 7 when they turned out and took a light breakfast. The Arizona fellows look every bit as fit as the New Mexico men and a splendid game should result. Coach Ship had charge of the football work of the Cactus boys for more than two years.

The present team, which contains only three of the men who met New Mexico at Tucson in 1909, is somewhat better than the New Mexico men, but from accounts received they are not so fast. They have, however, a reputation for playing a clean, heady game. Huges, the quarter, and Rollins and Underhill played against New Mexico on the occasion of the last interstate contest. The Arizona backfield has a reputation of successfully breaking up nearly every forward pass that has been tried against

Calhoun, Half-back; Mudgett, Center, U. N. M.

For the first time in football history in Albuquerque, an attempt will be made to play a game without the interference of the crowds. This has been a handicap heretofore, and the Varsity management has decided that it shall not be a handicap this time.

In order that darkness may not interfere with the contest, the time of calling the game has been fixed at 2:30. Referee Johnson will blow his whistle at that hour and the game will begin if there are only half a dozen spectators.

The chief weather prophet has promised fair weather for today, which assures a good turnout and a fine exhibition.

## VARSITY IS IN NEED OF FUNDS FOR ATHLETICS

President E. McQueen Gray Issues Statement Setting Forth Actual Conditions; Contributions Are Desired.

In a communication to the Morning Journal printed herewith, Dr. F. McQueen Gray, president of the University of New Mexico, sets the athletic situation at the university clearly before the people.

It is the ardent wish of the students of the varsity to continue Coach Hutchinson in charge of the athletics of the school on the bill because of his intimate knowledge of all branches of sport, football, baseball, basketball and track. This can only be made possible by a united support behind the authorities of the varsity. Athletics are a necessary portion of every modern college work, and it confidently expected that the next session of the legislature will make an appropriation for the university of sufficient size that a regular coach can be retained.

Since taking hold of the football team at the university this fall, Coach Hutchinson has developed a splendid body of young men out of the green material that first showed up on the gridiron. Not only have they increased in size and weight, but their mental faculties have also been developed. The same men can now hardly be recognized as the candidates for the football team who first appeared.

President Gray's Letter.

University of New Mexico, Office of the President, Albuquerque, New Mexico:

November 29, 1911.

To the Editor, Morning Journal.

\$2.50, Roy McDonald.  
\$2.00, R. Schrieber, E. B. Crisly.  
Total: \$161.50.

On behalf of the athletic activities, which, if properly conducted, are as necessary and valuable a feature in college life, I desire to thank these donors who have sent in contributions. At the same time I feel it right to state that a much larger sum is yet needed in order to meet the absolutely unavoidable expenses of athletics in a town where game receipts represent but a small portion of the cost of a game and a territory where the distance between the various institutions is so much greater than they are in more thickly populated districts. I therefore respectfully urge all who have not yet subscribed and who can conveniently do so to send in a donation to the athletic fund.

Yours respectfully,  
E. McQUEEN GRAY.

Bronson Wins Over Howell.

Indianapolis, Nov. 29.—Ray Bronson of this city, leading in every round after the first, won handily from Tommy Howell of Philadelphia in a thirteen-round bout here tonight.

## ENTRANTS IN GRAND PRIZE RACE AWAIT THE STARTER'S GUN

Savannah, Ga., Nov. 29.—With the course in better shape tonight than had been expected and even better conditions promised for tomorrow, entrants in the Grand Prize automobile race to be run Thanksgiving day over a course of 419 miles except to make faster time than they did a day or two ago. Intermittent rains had softened the roads in some places, but tonight temperature below freezing has eliminated that serious danger in automobile racing.

Sixteen cars are expected to start tomorrow, among the drivers may be Bob Burman. Burman was at the wheel today and did the seventeen mile course in sixteen minutes which was considered good, under the conditions.

## THEY'RE OFF TODAY AT TERRAZAS PARK TRACK

Big Race Meet of Winter in the Southwest Opens at Juarez; Weather Ideal For Opening Card.

By Morning Journal Special Leased Wire. Juarez, Mex., Nov. 29.—With ideal weather conditions and a fast track promised, the third season of winter racing will be ushered in at Terrazas park, 104; John Griffin, Sparkette, Chills, 105; Napa Nick, Chapultepec, Rey Hindoo, 108; Pride of Idemore, Mendow, 112.

Second race, purse, 2-year-olds, five furlongs: Don't Say No, Oakland, 105; Free, 108; Vanir, Closer, 112; Calico, Amos, 115.

Third race, selling, one mile: Wick-et, 105; Emma, Round and Round, Maurestania, 110; Gunston, 105; Fred Mulholland, 108; Angelus, Juan, Nyanusa, Wolferton, 112.

Fourth race, Dos Republicas, handicap, six furlongs: Flying Wolf, Napa Nick, 105; Arasse, 113; Irish Gentleman, 115; Harrigan, 117; Round the World, 122; Enfield, 123; Folie Levy, 125.

Fifth race, selling, six furlongs: Bahonda, Butterball, 102; Incelton, 104; Bob Farley, 106; Emma G., 107; Lady May, 108; 108; Doncaster, Daetylis, 109; Whining Widow, 110; John H. Sheehan, Annual Interest, 111; Ozer, 112; Fern L., 113; Autumn Rose, 117.

Sixth race, selling, one mile: The Hugs, 105; Dutch Rock, 101; Flor-park tomorrow. Everything is ready to accommodate the vast crowd which is expected at the opening. Judging from the way that racing followers are coming in the present meeting gives every promise of being the most successful winter race meet ever held in the great southwest.

There are at present over 600 horses at the track and they include some of the best thoroughbreds that raced in America last season. With an opening, probably fifteen bookmakers will cut in for the opening day, among them being George Rose, Shelby Oiler, Roy Offelt, Lisle Ham, W. G. Yank, and many others.

Monday will be the off day, until Christmas, when racing will be held every day in the week.

Colonel Matt Wing, in speaking of the present meeting, said he was highly satisfied with the present prospects and that the meeting would run as advertised and might be extended.

Following is the Thanksgiving day card:

First race, purse, five and a half furlongs: Joseph P., Quartermaster, once A, Sam Barber, 103; John Louis, 105; Uncle Ben, 104; Asa, 107; Cross Over, 108; Wood Winder, 110.

At Jamestown, Va., Nov. 29.—The races today were well divided and brought about close finishes. The most decisive victory was in the opening event when Chryst's ran away from her field. The meeting will end tomorrow.

Result:

First race, five and a half furlongs: Chryst, won; Hard of Hope, second; Spring Board, third. Time 1:03 3-5.

Second race, seven furlongs: Brandy won; Hardens Lass, second; Fantasia, third. Time 1:31 2-5.

Third race, mile and sixteenth: The Golden Butterfly, won; Outlan, second; Agnar, third. Time 1:51 3-5.

Fourth race, seven furlongs: Marjorie A., won; Capaise, second; Ben Loyal, third. Time 1:29.

Fifth race, six and a half furlongs: Miss Jonah, won; Troy Weight, second; Double Five, third. Time 1:22 1-5.

Sixth race, mile: O. U. Buster, won; Montgomery, second; Helene, third. Time 1:43.

Columbia, S. C., Nov. 29.—Tomorrow the initial mid-winter meet of the Columbia racing association will open in this city for thirty days. The Thanksgiving handicap at three-quarters of a mile is expected to prove the feature event. It is expected there will be fully five hundred horses at the track.

## WOLGAST STRICKEN UNDERGOES AN OPERATION

Attack of Appendicitis Suddenly Puts Champion on Blink and Today's Bout Is Called Off.

By Morning Journal Special Leased Wire. Los Angeles, Nov. 29.—On the eve of one of the greatest battles of his life and one in which his title to the lightweight championship was held in the balance and for which he had brought himself supposedly to a state of physical perfection, Adolph Wolgast, lightweight champion pugilist of the world, lies tonight in Clara Barton hospital, recovering from an operation for the removal of his vermiform appendix.

The illness of Wolgast came as a bolt from a clear sky. In sporting circles the report was not believed for hours.

"It is another of those tales that always bob up just before a great battle," was the answer all gave. But they were wrong.

Wolgast retired last night after partaking of a hearty supper, feeling as he declared to his manager, in the field, with Wolgast at the training camp in Vernon were his sparring partner, "Hobo" Dougherty, and his manager, Tom Jones. There were three little beds in the room, one for each man. The party retired for the night at 9 o'clock promptly.

At 4 o'clock this morning Wolgast was in the hospital being prepared for the operation.

"At 2 o'clock," said Dougherty, "I was awakened by Ad Wolgast calling me. I jumped up and going to his bed, he told me he was in great pain. I thought it was merely nervousness, due to hard training and possibly some worry over his coming battle with Welsh. I tried to comfort him, but in half an hour he began to grow worse, and I called Jones.

"At 3 o'clock we concluded to call a doctor and see what the trouble was. Jones hurriedly called Dr. Pollard and the doctor came at once. As soon as he saw Ad he said: 'It's appendicitis.'

"That took the wind out of Jones and myself. We asked the doctor what to do and he said to bundle Wolgast up and put him in the automobile and that he would do the rest. We did so and at 4 o'clock Ad was in the hospital."

Manager Jones, as soon as his protégé had been safely placed in a ward at the hospital, started for Venice in an automobile for Mrs. Wolgast and Mrs. Jones. He stopped on the way at Freddie Welsh's training camp and awakened the English fighter and told him the news. For a moment Welsh was dazed, then he said: "Well that's too bad. I certainly hope Ad gets out of this. I don't care so much for the financial loss as I do for Ad. We were always good friends."

On arriving at the hospital Mrs. Wolgast was taken at once to her husband's room, where she remained until 8 o'clock. It was decided that an operation was the only thing that could save Wolgast's life and that if it were performed at once the patient would be assured a speedy recovery because of his fine physical condition and power of resistance.

Manager Jones was acquainted with this decision and informed Wolgast.

"All right, Tom," the champion replied. "All right. I'll go through it, but Tom, none of that sleeping stuff for me. Just tell them to strap me down tight and then go to it. I can stand it."

It was just 9:30 a. m. when a white-capped nurse gently placed a sponge under the champion's nostrils and he was just forty-five minutes before the door to the operating room was again opened. Then the champion was wheeled back to his room and put into bed.

At 2:30 o'clock this afternoon Wolgast came out of the stupor caused by the anesthetic and Mrs. Wolgast and Manager Jones were admitted to see him for a few minutes.

"I feel fine," he said to his wife, "and am all right. I'll be out in a few days."

Dr. Pollard made a statement tonight that the operation was entirely successful and that Wolgast would recover rapidly.

Promoter McCaren announced tonight that he had secured Willie Ritchie, training partner for Packy McFarland to fight Welsh tomorrow and that Ritchie had left San Francisco for Los Angeles.

PHILADELPHIA HAS NO IDEA OF LOSING SERVICES OF DOOLIN

Detroit, Mich., Nov. 29.—The effort of Manager Charles Doolin of the Philadelphia National League baseball club to secure his release so that he might acquire partial control of the Boston Nationals, resulted today in a telegram from President Foeel of the Philadelphia Nationals which Doolin received here. The message stated that Foeel would consider no deal which would mean Doolin's departure. The Philadelphia catcher, who is playing at a local vaudeville theater, has made statements since his arrival here to the effect that he is not satisfied with the salary the Philadelphia club paid him last season.

## McFARLAND PICKED AS WINNER OVER MURPHY

This Afternoon's Bout in San Francisco Between Near-Weightlights to Draw Great Crowd.

By Morning Journal Special Leased Wire. San Francisco, Nov. 29.—Although Harry Tom Murphy will seriously oppose Pack McFarland's championship aspirations when the two near-weightlights face each other in Coffroth's open-air arena tomorrow afternoon, they will turn out in big numbers to witness the scheduled twenty-round exhibition. The cancelling of the Wolgast-Welsh fight at Los Angeles has increased interest in the local event considerably.

McFarland today expressed himself as being keenly disappointed because of the sudden collapse of Champion Wolgast.

The Chicago fighter added that he is in excellent condition; that he easily will make the required 135 pounds one hour before ring time and that he proposes to make short work of his opponent.

Murphy professes to be highly elated because the odds are 18 to 4 against his chances and avers that a big surprise is in store for the McFarlandites. He has trained conscientiously and lack of condition will not figure as an excuse, should the verdict of Referee Harry Foley be adverse.

Weather conditions promise to be ideal.

Promoter Coffroth made the positive statement tonight that the main event tomorrow will begin precisely at 2 o'clock in order that patrons of the game may be home in ample time for their holiday dinners.

## FOOTBALL SEASON ENDS WITH MANY CONTESTS

The football season over the country ends with the games that will be played today. The most important games in the schedule are those between Pennsylvania and Cornell, Brown and Carlisle, Colgate and Rochester, and the Pittsburg-Penn state game.

In the west the secondary schools seem to have the entire linelight. Sewanee game at Nashville is the with most of it centering around the St. Louis-Syracuse game at St. Louis. The south holds far more Thanksgiving games than any other section of the country. The Vanderbilt-Sewanee game at Nashville is the annual struggle between the Methodists and the Episcopalists. This game involves the championship of the south.

The Louisiana-Arkansas and Texas-Oklahoma games will be counted among the big games of the south today.

In the Rocky Mountain region probably the fiercest games to be played anywhere in the country will take place. Denver meets Colorado college, Colorado university tackles the School of Mines, Wyoming is to play the Colorado Agricultural college, and Idaho and Utah go against each other. In New Mexico the University of New Mexico and Arizona tie into each other at Albuquerque.

Considerable local interest centers around the Denver university-Colorado college game, because of the presence of Kenneth Heald, former captain of the University of New Mexico team, as star half-back for the Tigers. Since leaving U. N. M., Heald has grown in weight and stature and is recognized as the best half-back in the Rocky Mountain region. He is the son of Rev. Dr. and Mrs. J. H. Heald of this city.

Stallion Sells for \$15,000.

New York, Nov. 29.—Main Sheet, a 12-year-old black stallion by Director General Pixell, today fetched the largest sum yet realized for a single animal in this year's Old Glory horse sale. He was consigned by Al Thomas of St. Joseph, Mo., and Cobb Brothers of Wellsville, N. Y., for the purpose of dissolving a joint partnership in him. The Cobbs bid him in for \$15,000.

Kennedy Outpoints Palser.

New York, Nov. 29.—Tom Kennedy out-pointed Al Palser in a ten-round bout here tonight. Both men are local "white hopes." Kennedy easily had the early rounds on points, but Palser, with his rushing tired Kennedy.

Kennedy was plainly in distress in the fifth round from the pounding his kidneys and stomach received, but he recuperated and out-boxed Palser until the tenth round. In this round Palser rushed at the bell to try for a knockout, but Kennedy carried the fight to him and with a hard right hook to the head, followed by a left swing to the jaw, and right to the pit of the stomach, caused Palser to cover up.

Palser's weight was announced as 212 pounds and Kennedy's 195.

## ENTIRE CHANGE OF PROGRAM AT GEM

Miss Dorothy Dean and her stock company will appear at the Gem theater today for the first time in this part of the country, accompanied by Fats Blue, the singing and dancing child artist. Don't fail to see this company. This is a Thanksgiving treat for ten cents.

**Years of Suffering****Catarrah and Blood Disease—Doctors Failed to Cure.**

Miss Mabel F. Hawkins, 1214 Lafayette St., Fort Wayne, Ind., writes: "For three years I was troubled with catarrah and blood disease. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarrah."

**RECORD BUSINESS FOR LEARNARD & LINDEMANN**

Popular Albuquerque Music House Reports Many Piano Sales as Christmas Presents; Stock Is Up to Date.

The Christmas business of the Learnard and Lindemann Music House of this city is far in advance of any previous year. The popular choice for Christmas presents for homes seems to be about divided between the Victrola and the interior playing pianos. Yesterday a gentleman from the southern part of the state bought a piano for his wife as a Christmas present, and before he had gotten out of the store another gentleman from another part of New Mexico came in and purchased a Victrola.

The music stock of this popular firm is always kept up to date. There is no stale stuff in Learnard and Lindemann's which accounts for the wide-spread popularity of the house. If you want a fine present for your wife or sister, or if you wish to obtain an ornament and of the same time a most useful and artistic adjunct to the furniture of your home, see Learnard and Lindemann.

**CIVILIANS TO ENTER ARMY AS OFFICERS**

Washington, Nov. 29.—As the result of the invitation of the war department to college graduates to take the examination for appointment as second lieutenants in the army, forty-five civilian candidates who have successfully passed the examination will be appointed to the service, immediately after receiving their commissions the new officers will go to Fort Leavenworth where for a month or more they will be instructed in the manual of arms and field movements.

Among those who passed and will receive commissions are: Walter F. Winton, California; E. A. Lehman, New Mexico; Maxon S. Louch, and George M. Halloran, North Dakota; George A. Sanford, South Dakota; Norman P. Morrow, Texas.

**SIMPLE MIXTURE USED IN ALBUQUERQUE**

Many in Albuquerque are now using the simple buckwheat bark and glycerine mixture, known as Allen's, for the new German Appendicitis remedy. A SINGLE DOSE relieves constipation, soothes stomach and acts on the stomach almost INSTANTLY. This simple mixture antiseptically dissolves uric acid and draws off the poisons and people are surprised how QUICKLY it helps. O'Duffy Drug Co.

**TURKEY DINNERS FOR CONVICTS AT SANTA FE**

Authorities Provide Feast For Unfortunates Under Their Care; Prison Population Increases.

(Special Dispatch to the Morning Journal.) Santa Fe, N. M., Nov. 29.—The prisoners at the territorial penitentiary have not been forgotten in the celebration of Thanksgiving day, the authorities having provided for an excellent feast and every unfortunate in the big prison will sit down to a turkey dinner tomorrow. Over three hundred pounds of turkey, besides other good things have been purchased and it is safe to say that the convicts will enjoy a better dinner tomorrow than many a man who has never transgressed the law.

Among the viands that will be served in addition to the turkey and dressing, will be mashed potatoes, rolls, coffee, mince pie, apple sauce and cigars.

After this delicious repast has been disposed of, the inmates will be entertained the greater part of the afternoon by a minstrel show for which a chosen group of their own number have been practicing for the last few weeks.

As on all holidays the prisoners will be allowed the freedom of the compound during the morning and they may read or write or do what pleases them best in their cells after the show in the assembly hall.

The penitentiary now holds the largest population in its history, some 375 prisoners being registered at the institution, though not all of them are within the walls, as many as possible being employed on road work in different parts of New Mexico. The proper housing of the convicts has become a serious problem for the officers of the institution and while at present all are comfortably and safely cared for, steps must at once be taken to build new quarters.

The new cell house, although completed but a few months ago, is already crowded to its capacity and owing to the fact that the institution is being maintained on an appropriation made three years ago, when the average number of prisoners was much smaller than now, the officers are badly hampered by lack of funds. The annual report of the institution is now in preparation and it is said it will contain urgent recommendations for immediate improvements and enlargements. A modern sewer system is one of the things which the prison badly needs. A feature of the report will be the remarkable showing of the health of the prisoners. At the present time there is not a single patient in the hospital and during the entire year there was probably less than a dozen serious cases of sickness among the inmates and nearly all of those were among men who were brought to the institution in bad physical condition.

In some instances men were brought to the prison in the last stages of tuberculosis. These were promptly isolated and every precaution taken to prevent the spread of the disease, but it is pointed out that the state government should at once take steps to make other provision for the taking care of convicts suffering from this and other dangerous diseases.

**THANKSGIVING EVE OBSERVED BY SOCIETY**

Elks' hall room was thronged last night for the dance given by the Woman's Catholic order of Foresters. In the banquet hall adjoining a card party progressed and there was amusement for every age and inclination.

Dancing, however, was the real feature of the evening with excellent music and seemingly many were fond of the pastime. At the same time a dance was given at the Masonic Temple, the Masons and their friends celebrating Thanksgiving eve with merriment.

Tonight the Elks will entertain at a dance, the big hall room of the Elks building being the scene of the festive occasion. This is to be the last annual open dance of the Elks, when many who do not wear the Elks' head will be on hand to see the fun.

**COMMITTEES NAMED TO HAVE CHARGE OF EVENT**

Slow Progress of Official Calendar Makes Earlier Date Impractical; Ball to be Brilliant Social Affair.

(Special Dispatch to the Morning Journal.) Santa Fe, N. M., Nov. 29.—At a conference held here today between Governor-elect W. C. McDonald and Mayor Arthur Seligman it was agreed that the inauguration of the new governor should take place, not earlier than January 1, 1912. Mr. McDonald is anxious for as much time as possible to arrange his private affairs before coming to Santa Fe to assume his duties as head of the state government and this reason, together with the unexpectedly slow progress of the official calendar, is responsible for the fixing of the ceremony at a date later than at first proposed.

Committees of prominent residents of the capital have already been appointed and the work of preparation will be taken up vigorously and at once. A meeting of the executive committee and the chairman and the vice chairman of the various sub-committees is called for tomorrow afternoon. Following is a list of the officers of the different committees in charge of the various details of the affair:

Finance—Arthur Seligman, chairman; M. A. Otero, vice chairman. Arrangements—R. P. Ervin, chairman; J. H. Crist, vice chairman. Publicity and Printing—Charles M. Stauffer, chairman; A. J. Loomis, vice chairman.

Refreshments—Ladies' committee, Mrs. S. Spitz, chairman; Mrs. R. J. Palen, vice chairman. Men's committee, H. D. Moulton, chairman; Frank Butts, vice chairman. Decorations—Ladies' committee, Mrs. Nathan Jaffa, chairman; Mrs. J. L. Seligman, vice chairman. Men's committee, A. M. Bergere, chairman; H. H. Dornan, vice chairman.

Railroad—H. S. Lutz, W. D. Shea, H. A. Comer. Music—J. L. Seligman, chairman; Henry Alfred, vice chairman. Grand Marshal—Fred Muller. Master of Ceremonies—A. S. Brooks.

**HUSBAND AND WIFE COMPLETE 8,000 MILE HIKE**

Mr. and Mrs. Dwight H. Woolf of Kansas City, Kan., Break All Records For Long Distance Walking.

(By Morning Journal Special Leased Wire.) Kansas City, Nov. 29.—A walk of 8,000 miles will be finished by Mrs. Stella Woolf, said to be the champion woman long distance walker of the world, and her husband Dwight H. Woolf, when they arrived at their home in Kansas City, Kan., tomorrow. They left Oak Grove, Mo., thirty miles east of here this morning on the last leg of the trip, and are spending the night at Independence. The last two days the Woolfs have walked over snow-covered highways.

The present hike started at San Antonio, Tex., thirteen months and a half ago, the couple going to Atlanta, Ga., then to New York, where they turned their steps toward home. Previously they made two other walking tours and have covered a total of 16,200 miles on foot.

"When you get into a rut, walk out," said Woolf today, as he explained that he took up walking in order to get the outdoor life, which his physician two years ago, said he must have. At that time Woolf was a music dealer. His health was poor and the doctor told him he would have to get out in the open or die.

"Let's walk," suggested his wife. "For I'm going alone."

With them went the family pets, Dolly, a faithful pony, which has drawn a cart carrying their baggage on the long marches, and Don, an intelligent dog.

The Woolfs have eaten in the open. Since leaving San Antonio they have spent but twenty-one nights out of 411 with a roof over their heads.

**TEACHERS' ASSOCIATION CONDEMNS FRATERNITIES**

Denver, Nov. 29.—The Colorado State Teachers' association before adjournment today adopted resolutions declaring emphatically against the existence of fraternities in high schools on the ground that they are dangerous and are a hindrance to the intellectual and moral development of the students. The resolutions also endorsed the national educational bill.

Milton Potter of Pueblo, was elected president.

"I am pleased to recommend Chamberlain's Cough Remedy as the best thing I know of and safest remedy for coughs, colds and bronchial trouble," writes Mrs. L. E. Arnold of Denver, Colo. "We have used it repeatedly and it has never failed to give relief." For sale by all dealers.

**COWBOY COMES TO RESCUE AT CLOVIS**

Lassoed Barrel of Gasoline and Drags It From Flaming Building in Time to Save Many Lives.

(Special Correspondence to Morning Journal.) Clovis, N. M., Nov. 29.—Charles Merritt, a cowboy, was the hero of a fire which occurred here yesterday afternoon in the Star bakery and which destroyed that establishment. When the flames were at their height one of the employees called the attention of the firemen to a barrel of gasoline standing near the rear entrance of the burning building. The firemen decided that it would be too dangerous to attempt to enter the building and remove the stuff, and there was imminent danger that it would explode and scatter the flames and endanger the lives of the fire fighters and spectators. At this juncture Merritt made his appearance and learned of the perilous situation. Quickly mounting his horse, the cowboy, who had just rode in from the range, unrolled his lariat and deftly lassoed the barrel, then pulling up to his bronco he quickly hauled the barrel into the open and the cheers of the spectators. Merritt's presence of mind and coolness undoubtedly saved much property and possibly averted death or serious injury to some of the fire fighters.

**MEMBERS OF RED CROSS TORTURED TO DEATH**

Special Dispatches From Tripoli Give Harrowing Account of Alleged Atrocities By Savage Turks.

(By Morning Journal Special Leased Wire.) Paris, Nov. 29.—Special dispatches from Tripoli give a harrowing account of the finding of mutilated bodies of the Italian members of the Red Cross society. They apparently were tortured to death in various revolting ways.

An Italian who had escaped by hiding for three days in a ditch, pretending he was dead and witnessed the mutilations, declared that Turkish officers and women were present. Five Italians were buried alive up to their shoulders and allowed to starve to death.

**TURKS PREPARING TO MAKE FRESH ASSAULT**

Malta, Nov. 29.—Many fierce attacks have been made by the Turks and Arabs on the Italian position at Deria and Tobruk, according to telegraphic reports. The losses on both sides approximate 1,500. The Italian forces apparently have advanced beyond the range of the naval guns.

Ennet Bey has taken up a position opposite Benghazi with 15,000 infantry, 1,500 Turks and thirty machine guns.

**ANNUAL MEMORIAL EXERCISES OF ELKS SUNDAY**

Albuquerque Lodge No. 461 to Mourn For Absent Brothers; Special Program at Local Theater.

The annual memorial services of Albuquerque lodge No. 461, B. P. O. Elks will be held in Elks' theater Sunday afternoon, terminating at 2:30 o'clock. The Rev. Dr. W. E. Warren, archdeacon of St. John's Episcopal church, will deliver the memorial address.

In addition to the memorial address, the program provides for the opening of the services by an overture by the Casanough-Pubermeyer orchestra, following the invocation. There will also be a violin solo by Bruno Deekmann and vocal numbers by Mrs. E. L. Bradford, Mrs. Vernie George and Mr. Charles Andrews.

Memorial day—an event in the calendar of the B. P. O. Elks, on the first Sunday in December of each year—is an occasion especially set aside for paying tribute to the "absent brothers." It has come to be recognized by the public generally as one of the most beautiful customs followed by any of the fraternal bodies of America. There are numerous of these "absent brothers" of Albuquerque lodge, to whom memory a tribute will be paid this year.

The committee in charge of the memorial exercises comprises the following members of the lodge: Byron S. Ives, Thomas F. Keleher, Jr., John R. McManus, Louis J. Benjamin, John Lee Clarke, B. O. Jaffa, Herbert Asellin, L. C. Bennett and Ralph Dunbar.

**QUESTIONS ASKED OF WICKERSHAM FOR GALLERY**

Attorney General Target For Questioning Bee at Conclusion of Address in New York Y. M. C. A.

(By Morning Journal Special Leased Wire.) New York, Nov. 29.—A voice from the balcony at the conclusion of an address by Attorney General Wickersham in the auditorium of the West Side Young Men's Christian association tonight called out the question: "Will the Sherman law be amended or repealed?"

The attorney general paused before replying: "I am neither a prophet nor the son of a prophet."

Laughter and applause greeted the declaration.

Another voice sang out: "Do you think amending or abolishing the 'holding company' system would relieve trust conditions?"

"In my opinion," said Mr. Wickersham, "the 'holding company' system is the greatest enemy to the destruction of monopoly ever devised by the wit of man."

Another voice: "Does the attorney general think competition will be restored?"

"Yes,"

"Do you think the same conditions will exist under those conditions as are noticeable today?"

"I hope not. That will depend on the vigilance of our friends."

These quotations fairly outline a questioning bee which followed an extemporaneous address by the attorney general, Mr. Wickersham said that the one most vital political problem today was simply this: "Shall the government have power over all, or shall a group less than all have power over all?"

**CHICAGO SHOWS NO MERCY TO MURDERERS**

Chicago, Nov. 29.—The seventh man to be found guilty here of murder and sentenced to severe punishment within two days was today ordered imprisoned for twenty-five years. He was Charles Moy, 26 years old, proprietor of a Chinese restaurant, who killed Carl Johnson, a patron, when the latter poured some tea in a sugar bowl.

There are now ten men convicted of murder in the Cook county jail awaiting execution of sentence.

PREMIER YUAN SHI KAI IS HOPEFUL

Promises That Crisis in China Will Be Past in Eight Days; Foreigners Face Boycott By Rebels.

(By Morning Journal Special Leased Wire.) Peking, Nov. 29.—The foreign legations here have received printed circulars purporting to be from revolutionary origin, threatening to boycott the merchandise of any nation making a loan to the government.

Premier Yuan Shi Kai today informed a member of one of the legations who visited him that the crisis would be terminated in eight days; as he is endeavoring to obtain a loan, his statement may mean that he expects to be successful.

Yuan Shi Kai is showing a desire to conciliate the rebel provinces. It is believed he will safeguard the constitution.

No private or press telegrams are permitted to leave Hankow. Only government and consular telegrams are forwarded.

Military dispatches from Hankow say the strength of the rebel army is decreasing. Sun Nan troops on the rebel side have refused to attack and 5,000 rebel recruits in the province of Hu Peh have become insubordinate and shot their officers.

**UNITED STATES HOLDS TROOPS IN READINESS**

Washington, Nov. 29.—The United States is keeping in readiness at Manila an expeditionary force of from 500 to 2,500 soldiers for immediate dispatch to China for the purpose of protecting foreigners and to keep open railway communication between Peking and the sea.

This is not to be considered an intervening force for either side, declares the state department, but is merely the United States' part in complying, together with the other powers signatory to the Boxer protocol, with the provisions of that document.

The order for starting the troops awaits only the word from American Minister Calhoun at Peking. Mr. Calhoun was today instructed by the department to convey to his diplomatic colleagues now in the Chinese capital that the United States had this force ready and that it will be sent immediately on notification that the council of the foreign secretaries at Peking thinks that they are needed. Hence the announcement of the state department that the force from Manila might reach 2,000 men. It is possible the army transport Sherman which has been ready to sail for San Francisco with the Seventh infantry since November 13, and the transport Thomas which is due at Manila next Friday with the Fifteenth infantry, will be kept in the Philippines. It was the plan of the war department to have the Sherman come home as soon as the Thomas arrived in Manila. Each transport will accommodate about 1,000 men.

**CABLEGRAM REPORTS MISSIONARIES SAFE**

Boston, Nov. 29.—An unsigned cablegram from Nohon received today at the headquarters of the American Baptist foreign mission society said: "Ning Yuen Fu safe."

This was interpreted by the officials of the society as meaning that the society missionaries at Ning Yuen Fu the Rev. and Mrs. Robert Wells, and of Newton Center, Mass., and Dr. and Mrs. J. C. Humphreys of Philadelphia, from whom nothing had been heard since September 1, had reached Nuan Fu in safety.

Washington Senator Severely Arraigns Taft's Administration and Urges Nomination of Progressive.

(By Morning Journal Special Leased Wire.) Minot, N. D., Nov. 29.—A severe arraignment of President Taft's administration was made by Senator Poinexter of Washington, who fired the opening gun in the LaFollette campaign here tonight.

Mr. Poinexter accused Mr. Taft of violating his pledges to revise the tariff downward, or attempting to read progressive republicans out of the party, or punishing progressive senators and representatives by withholding patronage, and of being unduly solicitous of the welfare of trusts and combinations of capital.

Senator Poinexter said he had been punished personally by the president for advocating progressive legislation.

The recall of Minister Crane from China, the treaties with the Central American republics and the Ballinger incident were condemned as unprogressive. He made a strong plea for the nomination of Senator LaFollette.

## TRADING ON BOSTON WOOL MARKET LESS ACTIVE

FAIR INQUIRY FOR ALL GRADES REPORTED

Tariff Talk Enters Very Little Into Calculations of Dealers and Outlook Is Considered Remarkably Promising.

(From the Boston Commercial Bulletin.)

Trading in the Boston wool market as a whole this week has been less active than it was a week ago, although in one or two instances, as is usually the case, houses report a better demand for their stocks this week than previously made subject to approval. There has continued to be a fair inquiry for wool in the market, however, and while it is likely that manufacturers took care of their needs fairly well during the last buying movement, it is evident that their requirements were not fully covered on certain lines but since there is a distinct and natural aversion on their part to paying higher prices, if it is possible to help it, the advance that has been made on certain grades of wool, although only slight, has had the tendency to hold up trading more or less, quite aside from the expected lassitude that usually follows a buying movement.

The demand for fleeces, particularly for quarter-blood and below has been steady and prices on these grades are decidedly firm with some dealers holding for prices above the current market in the expectation that the market will come up to their ideas of value for fleeces in the near future. In fact, lots of wool that has been held in the fleece sections of the middle west at what has hitherto been considered very high prices are said to have been taken up by eastern dealers and mills during the past week or two at a cent advance over previous asking prices.

Buyers are watching the openings in the foreign primary markets very closely and to all intents and purposes the market is showing a decided tendency at the present writing towards a higher level. Advice from Buenos Ayres are somewhat conflicting an advance of a farthing all around being called in one instance but apparently there has been no change in the market values ruling there since our last report.

In Australia the situation is undeniably stronger at the moment. Good 64s are quoted as high as 77 cents in Geelong, while inferior wools are still obtainable at lower figures, perhaps as low as 73 cents. For 56s the market is quoted at 59 cents and for 16s 52 cents is asked.

In England the market is holding steady at the higher level of prices noted last week, while the situation on the continent is reflected in the buying which has been going on for continental account in Australia.

Prospects and Prices. The outlook for the market is generally considered fair by the trade. Tariff talk enters but little into the discussions of "the street" as to the future, although the question of tariff revision is by no means ignored. The trade is for the moment, however, busily engaged in taking care of present mill requirements and have had ample business to occupy their attention for a time. Moreover, there seems to be a very general impression that, upon the present basis of values, there is little or nothing to be feared from congressional legislation. Consequently there is little reason for shading prices.

The business of the week appears to have been largely along the line of foreign requirements and while the supplies of certain classes of wool, which have been most in demand of late and have constantly been thinning, with a consequent strengthening of values.

Territory—Demand for territory wools has been principally for so-called clothing wools suitable for French combing and sales of these wools have been fairly good this week. Some original tags have also been sold and inquiry for staple wools is becoming more frequent.

Fine staple is generally held in the market at 21 cents or about 50 cents clean, although there are holders for dead fine wool at a secured cost of 52 cents. Sales have not been made at the higher figure according to all advice. A lot of about 50,000 pounds is reported at the lower level.

In the original bags, the following lots are said to have been sold. About 100,000 pounds of original Montana at prices ranging from 17 to 20 cents, estimated to cost clean about 52 to 55 cents; about 50,000 pounds of original Wyoming at prices varying from 14 to 18 cents, or approximately 50 cents clean.

A lot of three-eighths Utah wool is reported sold at 21 cents for about 25,000 pounds.

In fine and fine medium clothing wools in the grease a few hundred thousand pounds have changed hands generally in the range of 1.90 to 2.20.

PHILADELPHIA WOOL MARKET. There was a large demand for original as well as territory wool. The business was confined to a few large houses who are carrying the largest amount of this grade of wool. Some of the sales reported were made after careful sample tests had been made to ascertain not only the secured cost but also the top test which is considered the closest test which can be made. This is due to the fact that the manufacturers are working on very

small margins of profit and are obliged to take every possible precaution. There was also a fair call reported for all grades of unwashed fleeces, including fine unwashed delaine fleeces. Two large New England and one large New York worsted mills were represented in the market during the past week and the total sales of all grades, made to local and nearby carded woolen mills was also much larger as compared with the sales reported for the preceding week. The recent cold weather has been favorable for the coming heavy weight season in overcoatings, cloakings, blankets and underwear and heavy goods in general in clearing the shelves of both the wholesale clothier and the retailer and will encourage them in placing larger orders this coming season with the manufacturers.

Territory Wools—There was a larger demand for territory wool, especially fine and fine medium, wools are gradually becoming depleted and while the sales made have been largely at the same clean cost as has been obtained for the past few weeks, we find some instances where fine and fine medium and 1-2 blood Wyoming territory is getting scarcer and the sellers are holding for some advance. This is due to the steady demand for fine medium territory which has been noticeable since the light weight men's wear and dress goods season opened. This class of wool is used extensively in 2-4s, fine worsted yarn. The prices thus far paid have been much lower in comparison than 4s. Australian side quotations on this latter grade are equal to 70c, duty paid, while fine medium territory staple wool is held at a range from 56 to 80c, clean, which some large houses claim shows a clean cost of one cent higher as compared with prices at which some of this grade was offered within the past two weeks. This latter price applies to some very choice grades of territory which have been held above the general market for some time past. Fine medium territory wools bid fair to be well cleaned up before the close of the light weight season. The general market quotes fine staple territory at 55c clean; fine clothing territory, 1 to 52c; fine medium territory, 55 to 56c; fine medium clothing territory, 50c, and medium, 48 to 50c. Some original lots of territory were sold at a grease price of 15 to 16c while graded territory sold at 18 to 20-1-2c. Instances were noted where some large houses' total sales of territory wools, up to the middle of this month were 500,000 to 750,000 and even about 1,000,000 pounds of territory alone, outside of the sales of fleeces, wools made by the same houses. The increased demand has been due largely to the practically the substitution of domestic territory wools and fleeces in place of the large amounts of fine Australian and New Zealand wools as well as South America cross breeds which were formerly used in our light weight men's wear and dress goods, with the exception of the limited amount which remained in bond which has been consumed in the custom tailor and ladies' tailor made suit trade. It is estimated by our best informed wool merchants, who handle domestic as well as foreign wools, that there has been a falling off of over one-half of the amount of fine wool of the first class as compared with previous years and one-fourth below the average of the past ten years' importations of all grades of foreign wool. When we consider that the population of the United States in the same period has materially increased, the strong position of domestic wool becomes more noticeable.

Had it not been for the "tariff bugaboo" which has practically eliminated speculation, the demand for goods would have been much larger and our mills would have run much nearer to their full capacity and our estimated consumption of both foreign and domestic wool would have been about 550,000,000 pounds. The year of 1908 was the nearest approach to consumption to this amount of wool when it was estimated that we used about 600,000,000 pounds. Today, many of our large mills on some grades of goods are running overtime and wool is being consumed very rapidly for the last three months of 1911 and it is predicted that we will have reached when this year closes, the average consumption as has prevailed for the past ten years. Some of our merchants are already seriously considering whether or not it will pay to import foreign wool as the amount in bond is very light and to hold such wool in bond, should the tariff be reduced, would permit it to be sold at the reduced tariff rates, as our domestic values must increase if the volume of business increases at the proportion of the past few months. President Taft has already declared that all tariff revision downward must be made on the basis of the difference in labor cost of production, which is to be ascertained for his guidance by the tariff board. The evidence thus far collected by this board, it is claimed by those who have been privileged to examine the evidence, has firmly convinced them that the president, to be consistent with his former declaration of principles can not consent to so large a measure of reduction as the country at large has been led to expect. If legislation is passed and voted by the president as being unsatisfactory according to the deductions obtained by the report of the tariff board, the president will veto the legislation of this coming session, with regard to schedule "C" if he does not compromise the congressional view. It is hoped that the tariff board has made an exhaustive review of not only the cost of production by the manufacturer but will also follow the subject further by going into the cost of the manufacture of the garments and the prices paid by the consumer, as the profit is largely obtained beyond the wool man and the manufacturer of the fabric, and the country is awaiting the report of this latter feature with greatly increased interest as the time draws near for the re-assembling of congress.

CHICAGO WOOL MARKET. The manufacturers are certainly in a better frame of mind as to the present and the future of the woolen goods trade and now that they are getting some new business as well as reorders for their production there

is a willingness on their part to increase their holdings in wool which is fully appreciated by our wool merchants who will be pleased to offer some choice selections.

While the sales for the week were not as large as was anticipated still there is no complaint on the part of the dealers for secured wool was sold to the extent of 2,375 bales and of territory fleeces 934,196 pounds were shipped out and in the machine brushed pulled wool 587,498 pounds were wanted.

It is in the line of domestic fleeces where the sales fell short of the usual business accomplished, as only 23,500 pounds of the unwashed and 54,200 pounds of the semi-bright fleeces changed hands last week.

## FINE ATTRACTION IS TRAVELING SALESMAN

Company Presenting Saturday Night's Attraction at Elks Is One of Best on Road; Comedy With Plot.

There are few professions, or modes of business life, or even methods of artistry, which have not been idealized by the diligent, searching playwright into stage puppets which, either through caricature or exaggeration, are evolved into comedy roles whose chief reason for existence is a mission of laugh production. The lawyer, doctor, banker, baker, the tradesman and even the newspaper reporter are well known stage types, but "The Traveling Salesman," the new comedy by James Forbes, author of "The Chorus Lady," is probably the first play to take the "drummer," the man who sells goods on the road, and turn him into the most important character of a footlight performance.

Of course the traveling man has been seen in a great many plays, but either in a minor role or in a character so exaggerated that it is scarcely recognizable. But Mr. Forbes, who became famous as a creator of unique stage characters through his never-to-be-forgotten Patricia O'Brien of "The Chorus Lady," has succeeded admirably in reproducing on the stage a real, live traveling salesman who is neither exaggerated nor caricatured, but who is nevertheless supremely funny at all times. His Bob Blake as played by Don MacMillan is a familiar type to all who have traveled about much. He is a large, good-natured, glib-tongued, prosperous-looking road salesman, ever ready for a sale or a flirtation, and he goes on his cheerful way through the play, leaving behind him a trail of laughter.

"The Traveling Salesman" is now in its third year and the audiences that turn out to welcome the play are limited only to the capacity of the various theaters. The company presenting "The Traveling Salesman" in this city and in addition to Don MacMillan has some of the best farcical actors in the country in its make up. "The Traveling Salesman" comes to the Elks' theater on Saturday night.

## MELROSE ANXIOUS TO LAND SUGAR FACTORY

Business Men Organize and Secure Promise of Promoter to Hold Contracts For Land in Escrow.

(Special Correspondence to Morning Journal) Melrose, N. M., Nov. 28.—The people of Melrose are setting down to real business along advanced lines in their effort to land the proposed sugar factory.

At a mass meeting at which they heard the report of the committee which had waited on Mr. Munday, the promoter, and secured the agreement to hold the contract in escrow here till it was shown that Melrose could not land the factory before he counted the land in on a factory at any other place, the citizens perfected their permanent organization.

T. B. S. Denby, United States court commissioner, was elected president of the association; L. D. Beckwith, editor of the Melrose paper, was made secretary; and J. E. Love, treasurer. It was voted to organize a bureau of organization and it was instructed to secure and maintain an office. Earl Holman was selected as office man. On this committee with him are Judge Denby, Dr. B. M. ## CARTER IS PLEASED WITH GROWTH OF MOOSE

Southwestern Organizer Says Local Branch of Order Will be One of Strongest in This Section of Country.

W. H. Carter, deputy supreme organizer of the Loyal Order of Moose,

who has been in Albuquerque for some time on business connected with the installation of a lodge of the order here, is much pleased with the outlook and is confident that the lodge when organized will be one of the strongest in the southwest.

"The order," said Mr. Carter yesterday afternoon, "is enjoying a healthy growth all over the section which I represent. The lodges in Tucson, Phoenix, Prescott and other Arizona towns have all surpassed expectations of their organizers. Ray, Ariz., is one of the latest towns to be placed on the map of Moosedom with a lodge of 154 charter members. In Tucson a new \$50,000 club house is to be built before the end of the year."

"In New Mexico, as well as in Arizona, the order is in a flourishing condition. At Alton, where a lodge was recently installed, the business men are making a strong and united effort to secure the location there of the proposed national home for aged and infirm members. A committee representing the order is now in the west seeking a suitable location for its institution, which, according to the present plans, is to cost in the neighborhood of a quarter of a million dollars. The Boston business men propose to see to it that the advantages of their town are properly set forth to the committee and as an additional inducement they will offer the committee a suitable site free of all cost to the order."

Mr. Carter is devoting his entire time to the institution of the Albuquerque lodge and has already received a sufficient number of applications to secure the success of the organization.

## THE UNITED STATES AND CANADA.

The Canadian parliament is in ses-  
sion, and Premier Borden and for-  
mer Premier Laurier are "at it" in  
sharp style. One of the subjects of  
discussion is the rejection of the  
reciprocity pact with the United  
States which Mr. Laurier seems to  
fear has impaired, or may impair,  
the good feeling long existing in this  
country toward Canada.

The defeated statesman is mistak-  
en, says the Washington Star. There  
has been no such effect, and none  
such is likely. We have appraised  
matters at about their proper value.  
As a fact, the Canadians are not  
alone in their excitability in cam-  
paign times over questions, imaginary  
or real, of national pride. Appeals,  
shrewdly made, on that score work  
with us to a marked degree. Tell  
the average American that a policy  
under discussion would not only in-  
jure the country's trade but threaten  
its political integrity, and if in the  
flurry created he is impressed, he is  
certain to vote against that policy.

Some bitter things against the  
United States were spoken by the  
conservative spokesmen during the  
reciprocity campaign. They repre-  
sented us as a rude and crude peo-  
ple, powerful in numbers and wealth,  
but unscrupulous in action and dan-  
gerous to know too intimately. The  
Canadian electorate was told that  
the trusts had us by the throat, that  
everything was for the rich and  
against the poor, and that only an  
armed revolt could bring about the  
change demanded.

The talk was severe and absurd,  
but we had brought the charge on  
ourselves. There was American rap-  
acidity as authority for every word  
spoken across the border. When we  
are in a tussle among ourselves over  
policies we indulge in the wildest ex-  
travagance of speech. No word ever  
uttered against this government by  
any foreigner anywhere has exceeded  
in violence words of condemnation  
uttered by Americans themselves.

It is quite unlikely that reciprocity  
with the United States was killed in  
Canada by the recent result at the  
polls. The subject is bound to come  
up again, and the next time it will  
be shorn of the annexation boggy.  
Surely that trick cannot again be  
turned. Something else of an absurd  
character may be attached, but not  
that the second time.

We need not doubt that Canada  
will follow with interest the tariff de-  
bates of the coming session of con-  
gress, and carefully note whatever  
may be said or done. The Payne  
law, if successfully tackled, will be  
revised in only a few schedules, but  
much may be drawn from what is  
done to them to indicate what re-  
vision when fully carried out will  
mean to all outsiders as respects  
American markets. It will be of es-  
pecial importance to a near neighbor,  
whose hope is with us, to study our  
latest figures and conditions in all  
their bearings.

## MICAWBER'S CREED.

In all the long list of notable char-  
acters added to the epic figures of  
fiction by the creative imagination of  
Charles Dickens, there is none more  
clearly outstanding, more definitively  
individual, than the insupportably  
cheerful personality of Mr. Micawber.  
Micawber, who was always waiting  
for something to turn up. The little  
boy said: "A pessimist is a person  
who looks at your feet, and an opti-  
mist is a person who looks at your  
eyes." Mr. Micawber always looked  
up and forward; he saw the sunrise  
when there wasn't any, and he never  
knew when it was raining. No gloomy  
prognostications could disturb his  
settled mental equanimity. To be  
sure, in the present dark hour, Mrs.  
Micawber was reduced to the level of  
a pitiable household drudge, and the  
children were hungry, out at heel and  
elbow; but the future was always radi-  
ant, and the father and ostensible  
provider of what his creator would  
have called "great expectations."

There is a lesson for all of us in the  
character and career of Mr. Micawber.  
It is not that with lackadaisical  
improvidence we should sit idle all  
day long, expecting by some happy  
turn of the wheel of fortune to find  
ourselves suddenly enriched or  
glorified. But the moral is that we  
should, as the Scotch song says,  
"Whistle o'er the lave of it," and  
keep up a blithe courage when things  
look their blackest and "hope deferred  
maketh the heart sick." Let us,  
like Wilkins, the incurably cheerful  
one, continue with pugnacious obsti-  
nacy to hold fast to the belief that  
something will turn up. The veil  
that is over the future is not merely  
to hide from us a dismal prospect of  
plans that miscarry and cherished  
dreams that are blighted in the in-  
ception. There are many delightful  
surprises in store for us, and hap-  
piness that we have not imagined. It  
is of no use to repine over our present  
infortunes; let it be better for soul  
and body to believe and to act upon  
the theory that "the best is yet to  
be."

That a regular telephone service is  
about to be established between Lon-  
don, England, and Geneva, Switzer-  
land, is an even more striking illus-  
tration of the development of telepho-  
ny than the fact that President  
Riley of the Santa Fe will conduct his  
immediate important business this  
winter over the telephone between  
Santa Barbara and Los Angeles. The  
England-Switzerland service is made  
possible by a new type of submarine  
cable between England and France,  
which has proved most successful.  
The new cable has, at regular inter-  
vals, induction coils which counter-  
act the electro-static resistance of the  
wire. At the first test a satisfactory  
connection was made between London  
and Geneva, a distance of 569 miles,  
by way of Paris, and, later, connec-  
tion was made with Bielefeld by way  
of Paris and Bielefeld. It is hoped later  
to extend the radius to 800 miles.

can he get a trial? Suppose he is  
guilty; can the state punish a crime?  
At the foundation of our system of

cused is entitled to a speedy and im-  
partial trial as a matter of right—  
are we finding that we cannot do  
justice?"

In Mexico we find Diaz dismissed

## THE SERVICE THAT SATISFIES

Manager Bryant, of the Bryant  
Parcel Delivery and Messenger Ser-  
vice, feels thankful enough this morn-  
ing to speak about it. He says that  
his business, since it was started last  
May, has gradually increased until  
he now has three wagons and nearly  
a dozen messengers, with enough  
business to keep all hands on the  
jump. He thinks also, from the pat-  
ronage he is receiving, that the pub-  
lic greatly appreciates the efficient  
service that his force gives.

Manager Bryant is making special  
preparations for the holiday rush.  
He will have plenty of extra messen-  
gers and wagons to handle all classes  
of business promptly. Phones 101  
and 102 will bring messengers of  
wagon without delay.

There is little danger from a cold  
or from an attack of the grip excep-

this never happens when Chamberlain's

remedy has won its great reputation  
and extensive sale by its remarkable  
cures of colds and grip and can be  
relied upon with implicit confidence  
for sale by all dealers.

## GOOD ROADS AND GOOD SCHOOLS

R.F. ASPLUND  
in "New Mexi-  
co Good Roads"

While consideration of business,  
pleasure, convenience and ease of travel  
and transportation are urged as  
arguments for better roads, parents,  
schools officers and teachers cannot  
fail to see decided advantages for the  
children and the school. Good roads  
are good schools should go together,  
and it can be shown that where a  
good school spirit exists, the roads  
leading to the school house are usual-  
ly good.

The most convincing evidences of  
a successful school are regularity and  
punctuality in attendance of all pupils  
of school age in the community. If  
there is irregularity and tardiness, it  
is in a greater or less degree due to  
bad weather and bad roads. Where  
good roads exist the attendance will  
be much better even in bad weather.  
New Mexico has a compulsory school  
law requiring the attendance of all child-  
ren the whole school term. But this  
law cannot be fully and justly en-  
forced until we have a good school  
house for the children to go to and  
good roads for them to go over. In  
New Mexico, children often go almost  
incredible distances to attend school  
over sandy or rocky roads, a little at-  
tention to highways would make the  
road to learning at least a little  
easier.

One of the forward movements in  
rural education is that of the consoli-  
dation of schools. This, in brief, in-  
volves the union of several districts  
in maintaining one good graded cen-  
tral school instead of half a dozen or  
more ungraded, unsanitary, neglected  
one-room district schools. Such a con-  
solidation involves, also, in most cases  
the transportation of pupils at public  
expense. The extent to which this  
movement has grown is seen in the  
report of the United States depart-  
ment of agriculture issued a year ago.  
"Consolidation with its attendant  
function of public conveyance of pupils  
is now a part of the rural school  
system of thirty-two states. Eighteen  
hundred wholly, and not less than two  
thousand partially, consolidated  
schools attest the remarkable adapt-  
ability of this system to the peculiar  
needs of agricultural communities." While  
the organization of such schools does  
not depend on good roads, it is  
easy to see the benefit of having roads

## CURRENCY REFORM WILL PREVENT MONEY TRUST

### TO TAKE CONTROL FROM WALL STREET

Business Men of Whole Coun-  
try at Last to Have Banking  
System Equal to That of  
Foreign Nations.

[Special Correspondence to Morning Journal]

New York, Nov. 29.—That the Wall  
street of the future will be something  
differing considerably from that of  
the present day, so far as its activi-  
ties as the money center of the coun-  
try are concerned, is a fact which is  
becoming more and more apparent  
here, as a result of the awakening of  
business interests all over the country  
to the need of monetary reform. The  
American business man is generally  
regarded as the shrewdest and most  
up-to-date in the world; yet for more  
than twelve decades he has been con-  
tent to look upon the one business on  
which all others rest—that is our  
banking system with its vital func-  
tion of preserving credit—as one to  
be considered only by experts and the  
great moneyed powers. The belief  
has been strongly fostered that cur-  
rency problems are too complicated  
and too delicately adjusted to be  
solved by the average business man  
and Wall street has retained serene  
control. Up to a very recent period  
there has been as little of a general  
understanding of such terms as elastic  
as there was in 1892 of the famous  
shibboleth "16 to 1," when it is no  
exaggeration to say, there were many  
persons who actually believed that  
the establishment of this ratio would  
give them sixteen dollars for each  
one they then possessed.

At last, however, the money lords  
of Wall street are face to face with  
the realization that their power is to  
be taken from them. The awakening  
of the business men generally to the  
truth of the statement recently made  
that ours is the worst banking system  
in the world means the downfall of  
the Wall street money dynasty. And  
no one realizes this better than Wall  
street itself. From business men,  
manufacturers, farmers in all parts of  
the country has arisen an overwhelm-  
ing demand for currency reform.  
Perhaps this is due to the money  
panic of 1907, which would have been  
impossible in England, France or  
Germany, or perhaps to the growing  
realization that those countries, be-  
cause of the existence of banking  
systems far superior to that of this  
country are free from panics. Of per-  
haps it is due to an ever-growing re-  
alization of the inherent weakness  
of our system. Whatever the cause,  
however, the demand is loud for re-  
form which shall give to this coun-  
try through the medium of a central re-  
serve association that greatest guar-  
antee of credit and financial security  
—that is elastic currency.

As things stand at present our cur-  
rency system is the most inflexible in  
the world—which is to say that it is  
least adapted to the fluctuating needs

of business. A glance at a chart of  
our national bank note circulation  
shows that it is indicated by a steady  
rising line with practically no fluctua-  
tion. The amount does not rise and  
fall with the needs of business. The  
line showing the circulation in Can-  
ada, however, resembles a series of  
elongated saw teeth, one for each  
year with the apex always occurring  
in November. That is the time when  
the crops are being harvested and  
moved and when money is needed for  
this purpose. To meet this need Can-  
ada's elastic currency proves as ade-  
quate as does our in elastic system  
prove inadequate.

Elastic currency in its simplest  
terms may be defined as the system  
which furnishes money—or rather  
credit—to meet the fluctuating needs  
of the business world. The fact that  
rates running as high as fifty, and  
even 100 percent could not obtain  
money in the panic of 1907 shows  
how inflexible our present system is.  
As a matter of fact the existing bank-  
ing system in this country is admir-  
ably constructed to furnish an abun-  
dant of currency or credit when  
there is no particular demand for it  
and to make it almost impossible to  
secure these mediums of trade when  
they are most needed. In addition—  
and this is the factor which has made  
the Wall street money ring so long  
powerful—the present system is a cor-  
dial invitation to speculation. When  
money is easy, as the saying goes, and  
there is little demand for it, banks  
throughout the country forward their  
deposits to New York banks in order  
to secure the two percent interest of-  
fered. Under normal or nearly nor-  
mal conditions the wealth of the  
country concentrates rapidly in this  
city. Naturally the banks must make  
some use of this money which will  
provide them a return greater than  
the two percent which they are pay-  
ing for its use and the obvious chan-  
nel is furnished through loans to Wall  
street interests by which money will  
be used for speculative purposes.  
Then as promptly as an increased de-  
mand for credit arises there is an im-  
mediate appeal to New York which  
necessitates the calling of these loans.  
In time of greatest stress such con-  
centrated action in the end spells  
panic.

While the solution of this banking  
and currency problem may seem com-  
plicated in detail, it is extremely sim-  
ple in principle. In fact it has been  
successfully solved by European coun-  
tries which with circulation far small-  
er than ours are nevertheless much  
more secure financially because of the  
existence of an elastic currency. The  
realization on the part of the busi-  
ness public in general of the need of  
an elastic currency is much older  
than the present understanding of the  
best way of achieving it. But it is  
now generally conceded that our  
present position of financial insecurity  
is due to two causes and that we  
can obtain an elastic currency by sub-  
stituting commercial paper for bonds  
and stocks as the basis for bank loans  
as do foreign countries, where panics  
are unknown, and by establishing a  
system of co-operation and mutual  
help among our banks in the form of  
a central reserve.

Ninety-five percent of the business  
of this country is carried on by means  
of credit, that is by accommodations  
extended by banks on certain secu-  
rities, a fact which shows how impor-  
tant an elastic currency which shall  
maintain this credit is. In this coun-  
try, however, the basis of this credit,  
that is the securities on which this  
loan is made by the banks, consist  
chiefly of bonds and stocks. Abroad  
the basis of security consists of com-  
mercial paper running for perhaps  
one, two or three months. It is ob-  
vious, of course, that when financial  
trouble impends money is most in de-  
mand, but the stock secured loans of  
this country make it most difficult to  
obtain just at that time. Abroad these  
emergencies are met by expansion of  
credit, in this country by contraction.  
These loans are increased while they  
are curtailed here, because of the  
different forms of security on which  
this credit is based. Commercial pa-  
per and bank acceptances form the  
main asset of European banks. These  
bills have the widest possible market  
where millions are exchanged daily  
with markings of one-tenth percent or  
one-eighth percent in the interest rate  
without the necessity of scrutinizing  
the paper when the bargain is struck.  
Bills of exchange have been stand-  
ardized, and bankers in all parts of  
the globe know what names or the  
many thousand that appears as en-  
dorsement and acceptors are considered  
as "good delivery" and against which  
names there will be discrimination.  
The daily plus and minus is normally  
regulated in the case of European  
banks by means of larger sales and  
collections of bills receivable or by  
larger investment in these bills. The  
mobilization of the promissory note,  
the system which enables Europe to  
transform bills into bank credits as  
quickly as staples or securities, is the  
explanation of Europe's success where  
we have failed.

This, then, is the machinery which  
the business men of the country have  
come to regard as necessary to the  
achievement of one of the country's  
greatest economic needs, that is, an  
elastic currency which shall forever  
relieve us of the fear of money panics  
and free us from the fear of control  
by a small number of men. This  
realization has been a long time in  
coming principally because heretofore  
when currency matters have been under  
discussion there has been a disposi-  
tion to leave the matter to some of  
the big men in Wall street who usu-  
ally have maintained that the system is  
good enough as it is. They sometimes  
had to suspend currency payments  
under it, but they always got high  
rates for call money during the crop  
moving season and they were long  
headed enough to protect themselves  
against the breaks in the stock mar-  
ket which came with tight money.

It is now apparent, however, that  
the practical business men of the  
country have come to realize that  
they have just as much or more a  
stake in the question of the form  
volume and security of the money of  
the nation as have the bankers, bond  
dealers and Wall street brokers and  
that as the chief sufferers from acute

fluctuations in the currency supply or from money panics they have the right to be consulted in the consideration of financial legislation which has to do with the present inadequate system. It has taken them a century and a quarter to reach this point of view, but from the manner in which they are expressing themselves from all parts of the country there is little doubt that it now cannot be long before their activities will bring about the achievement of a long-desired elastic currency.

## UNION THANKSGIVING SERVICE THIS MORNING

The annual union Thanksgiving services will be held in the Congrega-  
tional church this morning at 10:30 o'clock. An appropriate program has been prepared and it is hoped that the church going friends of the city may attend the service.

All strangers in the city are doubly welcomed to meet in the union people's service.

Special music and songs will enliven the hour and a Thanksgiving ser-

mon will be preached by the Rev. Hugh Cooper, minister of the First Presbyterian church.

Christian Science services will be held in the Woman's club building, corner of Gold avenue and Seventh street, this morning at 11 o'clock. The subject will be "Thanksgiving." The public is cordially invited to attend the services.

## FINANCE AND COMMERCE

## Wall Street.

New York, Nov. 29.—Traders were bullish today and stocks gave way. The pressure on the market could not be attributed to any unfavorable influence from without for the day was barren of events bearing directly enough on security values. Apparently it was the work of professional traders who, taking an advantage of the general reluctance to buy stocks at this time attacked the market. This unwillingness to buy, largely due to the fact that congress is to meet on Monday and that the president's message taking up the trust question is soon to be read. As a result of the heavy selling of the week the short interest is believed to have been enlarged and for a time today it appeared as though the bears had overreached themselves. A quick bull movement after the opening in a number of stocks in which there was a vulnerable short interest sent up prices quickly. But the bulls did not possess sufficient strength to maintain their advantage and the list sold off again. The attack on the market was continued until some of the active issues showed losses of two points or more from yesterday's close. Moderate covering in the last hours reduced most losses.

Call money rose to six per cent today, as compared with 3 1/2 at the close yesterday. This rate is the highest of the year. The sharp advance was not regarded as of special significance since this was the last business day of the month and it was necessary to complete arrangements for December 1 and the dividend disbursements. Closing stocks: Bankers said that with the month and money will become easier and that there is no reason to look for anything in the nature of a stringency. Foreign exchange rates weakened again today. Further small shipments of gold were made to Canada and San Francisco.

## Chicago Board of Trade.

Chicago, Nov. 29.—With black rust reported spreading in the northern portion of the Argentine and with the harvest yield said to be only about eleven bushels an acre in two whole provinces, the wheat market today had a brisk advance. The close was steady at prices varying from 75c to 85c for No. 1 hard winter wheat. The market pointed to a degree of apprehension concerning harvest results in Argentina.

Dispatches coming from official sources confirming the extraordinary size of the shortage of wheat in Russia gave the market a steady tone at the wind up. Between the opening and the close May ranged from 95 1/4 to 99 1/4, with last sales 98 1/4 to 99 1/4, a gain of T. H. Hudspeth of the John F. Worley company, the publishers of the Albuquerque city directory, is in the city assisting the compilation of the 1912 edition of the city directory.

Fred D. Camp, a prominent young El Paso business man, who has been spending the last two months on the Pacific coast, passed through the city last evening en route home to spend Thanksgiving.

There will be a meeting of the board of commissioners of Bernalillo county at the court house on Saturday, at 2 p. m. The board will consider the recent county survey at the forthcoming meeting.

Mrs. Pauline Stern, who passed through this city three weeks ago en route to California overland by automobile, was in the city yesterday, returning to her home in New York. She is returning east by train.

I. O. O. F. is to give a benefit dance for the benefit of the Odd Fellow's home in Roswell Thursday night, November 30. The music will be furnished by Mrs. Nye Martin, assisted by Mr. De Wolf and others.

The Bernalillo County Colored Republican club met last night and appointed an executive committee composed of the following: J. B. Lott, J. W. Rodgers, John Collins, J. C. Chick, J. J. Jackson, Charles Liles, J. Blaine, D. A. Austin, J. Mitchell. The next meeting will be held at the call of the chairman.

The tickets for the Popular State Lecture course are going very rapidly and those who wish season tickets reserved should call on Mr. Tolbert as soon as possible so that reservations may be made before the theater plan is turned over to Mr. Matson. The response of the people to this course is most gratifying and the holders of season tickets are assured of a fine course of entertainments of the highest merit. The telephone number of Mr. Tolbert is 1225 W. All inquiries will be cheerfully answered.

**TOMORROW IS LAST DAY TO PAY TAXES**

With the going down of the sun tomorrow afternoon the last opportunity to pay taxes without a penalty in Bernalillo county will have passed and thereafter a penalty of one per cent will be attached. Should a delay be taken by Mr. Taxpayer until after the beginning of the new year the penalty will be increased to four per cent.

The taxes now due are for the first half of the year 1911, those for the last half of the year not being due until June 1, 1912.

The taxes have been coming in in good shape this year so far and it is estimated that fully 60 per cent have already been paid.

All offices in the court house will be closed today, so that only Friday remains when taxes can be paid without the addition of a penalty.

**German Beer Steins**

Saturday, Dec. 2

We have just received a large importation of the latest and newest designs in German Beer Steins.

The importation is larger than we desired but the price was so much lower, that it enables us to sell them at about half what is usually charged for such goods.

Our store room is limited and we have decided to place these on sale for one day only at Wholesale cost price.

Remember Saturday, Dec. 3rd—  
one day only—Beer Steins at Wholesale cost.

**CONDEMNED MEN JOKE****WITH ONE ANOTHER**

Chicago, Nov. 29.—Four men sentenced to be hanged for the murder of Fred W. Guesow, a truck farmer, joked with each other in their cells in the county jail today. Two others, equally concerned in the murder, but who received life sentences because of their youth, joked because they escaped the gallows. The latter two are only sixteen years old. The others range from 19 to 24 years.

The prisoners, whose trial and conviction was the speediest Cook county records, are Ewald Shulawski, Frank Shulawski, Phillip Sommerling, Thomas Schultz, Leo Schomski and Frank Rio.

**INITIAL MUSICAL FOR SANITARIUM BIG SUCCESS**

Society Out in Force Last Night to Enjoy Benefit Entertainment for the Anthony Cottage Hospital.

The music lovers turned out full force last night for the initial entertainment of the series for benefit of the Anthony Cottage sanitarium and were well rewarded for their trouble and the money spent.

The concert, under direction of Mrs. Mabel Himoe, with Mrs. Ray Boruff as directress of the chorus numbers, was given in Odd Fellows' hall. The program was exception-

ally fine. From the opening number, Grieg's sonata, Allegro from G minor, for piano and violin by Mrs. Himoe and Bruno Diekmann, to the closing chorus, "Daffodils," the program was classical and flawlessly rendered.

Mrs. Himoe, talented and thoroughly trained as a pianist, was heard to superb advantage and her numbers with Mr. Diekmann, who is a really gifted violinist, were delightful. Mr. Diekmann rendered exquisitely d'Ambrosio's "Romance," and was a master of his instrument in the obligato accompaniments.

Mrs. Anderson is also a very clever violinist and especially pretty was the selection in which she played with Mrs. Himoe and Mr. Diekmann. The soloists, Mrs. R. V. Winchester and Mr. Charles Andrews, were each in fine voice and their numbers were well received.

The numbers by the Woman's chorus conducted by Mrs. Boruff were well rendered. The members of the chorus were as follows: Sopranos—Mrs. R. V. Winchester, Mrs. Elizabeth Bradford, Mrs. Robert Pollock, Miss Charlotte Pratt, Miss Mary Anderson and Miss Margaret Franklin. Second voice—Mrs. Roy McDonald, Mrs. Ralph Henderson, Mrs. George Everitt, Mrs. J. O. Schwenker, and Miss Treadwell. Third voice—Mrs. Don Sterling, Mrs. L. B. Miller, Miss Gladys Mandell and Mrs. Fred Woodford. Mrs. Himoe at the piano.

**DEATHS AND FUNERALS.**

Mrs. Ray Vandruft.

Mrs. Ray Vandruft, wife of a well known railway mail clerk, died at her residence 215 West Marquette avenue, yesterday afternoon. The body is lying in state at the home where it can be viewed by friends. The funeral arrangements will be announced later.

Mrs. Vandruft had been a resident of Albuquerque for five years, and in that time had made many friends who will be shocked at her sudden demise. Mr. Vandruft for some time previous to entering the mail service, was connected with the American Lumber company.

**PRETTY CEREMONY UNITES POPULAR YOUNG PEOPLE**

Miss Anna Maud Brown Becomes Bride of Mr. Robert A. Kistler; Wedding Simple Affair.

A pretty home wedding, of interest to a wide circle of friends, was celebrated last evening at 6 o'clock when Miss Anna Maud Brown was united in marriage to Mr. Robert A. Kistler. The ceremony was performed by Rev. C. O. Beckman of the First Methodist church at the new home, 1201 West First avenue, the gift of the groom to the bride.

The interior was lavishly decorated with yellow chrysanthemums and green smilax, the color scheme of yellow and white being carried out in the dinner table decorations at the elaborate banquet served immediately after the ceremony.

The bride's gown was an exquisitely simple affair of organdie and duchess point lace and she was unattended. Preceding the ceremony Mrs. Elizabeth Bradford sang.

Only a small circle of intimate friends witnessed the ceremony. Those included: Mrs. W. H. Ciffield of Holton, Kan., sister of the bride; Mr. and Mrs. M. H. Sablin, Mr. and Mrs. Edward Bradford, Mrs. C. O. Beckman, Mrs. A. S. Stowell, Miss Harriett Saxe and Elizabeth Kistler. Mr. Kistler and his bride are well known here where they have numerous friends. Mrs. Kistler has only lived a year in the city, coming here from Holton, Kan. She is a pretty and charming girl who has made a host of friends since her arrival. Mr. Kistler is connected with the Ferguson-Collister Dry Goods company and has lived ten or twelve years in Albuquerque.
