BLOODY BATTLE
AT SANTIAGO!

Rough Riders Lead the Advance of the American Army.

Many Killed and Wounded Storming the Spanish Entrenchments.

OUR TROOPS STEADILY ADVANCE ON THE FOE.

(Copyright Associated Press.)
Siboney, July 1, 8 p. m., via Playa del Este, (Delayed in transmission).—At this hour fighting still continues. The entire reserves of the American army have been ordered to the front at once, apparently with the intention of forcing our way to Santiago. The troops advanced early to the city, but the fortifications are very strong. Our losses are heavy. An officer from the field estimates our killed and wounded at over 1,000 men. Shells, supposedly from the Spanish fleet, did heavy execution among our troops. During a lull in the fighting an impressive incident occurred. The 31st infantry was out in front and suffering from the fire, but the men sang "The Star Spangled Banner," and the wounded joining in the singing.

(Copyright Associated Press.)
Siboney, Province of Santiago de Cuba, July 1, 9 p. m., via Playa del Este, (Delayed in transmission).—At this hour, 9 p. m., fighting has practically stopped. It will be resumed in the morning. Our troops gained several breastworks. The wounded a barbed wire fence eight feet high.

OPENING OF THE FIGHT.
New York, July 2.—A special to the Evening World, dated El Paso, Cuba, near Santiago, noon, by way of Playa del Este, July 1, says: "The first artillery fight of the campaign has just been ended by silencing a Spanish battery. The wounded are still being picked up as this dispatch is hurried away."

General Lawton's division bivouacked near El Caney last night without fires. At 7 o'clock this morning there was a sudden "boom." It was the first shot from Capron's battery fired to avenge the killing of his son. Promptly the Spanish began to answer the challenge from the fort and trenches.

At 7:15 Grimes' battery opened on the Spanish troops to the right of the San Juan blockhouse.

The common powder used by our troops smoked and was a fine target for the Spanish field battery, which was probably served by Admiral Cervera's marines, judging by the accuracy of the aim. While our smoke gave the enemy our range guns could not locate the enemy's guns, which used smokeless powder, except approximately. But satisfied as to the Spanish position our men worked like mad. The Spanish fire gradually slackened and in less than an hour ceased altogether. Battery A, Second artillery, deserves great credit for the victory, for it was a case of blindness against sight.

The battery's losses, the officers state, are as follows:

Killed—Underwood, private; Helm, private.

Wounded—Heary, George C., first sergeant; Vette, sergeant; Cornford, sergeant; Keene, corporal.

THE BATTLE OF SANTIAGO.
The battery was supported by the Rough Riders, about 100 Cubans with a Hotchkiss gun, a detachment of the Tenth cavalry and a squad from Company C, Second cavalry.

Most of the Spanish shells flew low over the crest of the battery's position and exploded. Through them the Rough Riders had about ten wounded, among them Lt. Chaplain, whose left elbow was smashed. The Cuban leader, Gonzalez, reports that the Cubans lost twenty killed and wounded. The details of General Lawton's losses have not arrived.

Heavy firing has been heard for three hours. It seems to indicate a strong American advance. There is no artillery firing from El Caney, only scattering shots came from San Juan, which has a slope of fifteen feet in a hundred. Both divisions are really in battle. The day is clear and a moderate breeze is blowing.

CUBANS WIN VICTORY!

Spanish Force in Cuba Defeated by the Insurgents.

Russia, Germany and France May Try to Get into the War.

Gen. Pando, With Six Thousand Spanish Troops, Arrives at Santiago.

CAMARA'S FLEET IN THE SUEZ CANAL.

New York, July 2.—According to advices received by the Cuban Junta, General Diaz, in command of the Sixth Cuban army corps in Pinar del Rio, had recently a battle with the Spanish troops in the western part of the province in which he came off victor, taking a great number of prisoners. The Spanish loss was heavy, while the Cubans lost less than fifty men.

After the battle half the company of soldiers from the Spanish garrison marched into the Cuban camp with arms and ammunition and offered their services, giving as a reason for their desertion ill treatment on the part of officers and insufficient food.

General Diaz has about 5,000 soldiers well armed and equipped and a large number of reconnoitred without arms. The food is very scarce. The Spanish spies caught in the Cuban camp were shot.

It Would Be a World's War.
Berlin, July 2.—Correspondent Associated Press is informed that Germany, France and Russia have reached an agreement to interfere in the Philippines when hostilities cease, to prevent the United States or Great Britain from gaining possession of the whole of the islands.

GALL OF GERMANY.
Berlin, July 2.—When the war is over an international congress will be proposed, similar to the Berlin congress of 1878, to settle all questions connected with the war. All the great powers will be invited to join, including the United States and Spain. It appears certain that Germany will demand a slice of the Philippine Islands, or other compensation in the far east.

BRITISH VESSELS.
Washington, July 2.—The following was received this morning:

"Siboney, via Playa del Este, July 1.—Adjutant General, Washington: I fear I understand nothing to day's casualties. A large and thoroughly equipped hospital ship should be sent here at once to care for the wounded. The chief surgeon says he has no more room for more medical officers. The ship must bring a launch and boats for conveying the wounded."

Wants Europe to Intervene.
Paris, July 2.—The Matin says that the queen regent of Spain desires the intervention of Europe, and would "willingly sacrifice the throne for a peace which is imperative in the interests and for the honor of Spain."

TERRIBLE BATTLE.
Storm of Shot and Shell All To-Day at Santiago.

Washington, July 2.—The president and secretary of war, through a private dispatch coming from the battlefield, learn that the engagement was resumed this morning and has continued all day. The wounded are coming in rapidly, and indications point to heavy losses. The rough road does not indicate a decisive result in any direction.

In Deep Suspense.
Washington, July 2.—The deepest suspense existed throughout military and official circles as the day progressed and word came from Santiago. At 3:30 o'clock nothing was forthcoming as to the situation on the field.

PANDO'S ARMY.
His Army Has Not Tried to Reach Santiago.

(Copyright Associated Press.)
Monte Ray, Jamaica, July 1—9:30 p. m.—A Cuban messenger from the insurgents near Manzanillo, province of Santiago de Cuba, landed here by day from the train and brought the intelligence that the Spanish troops, numbering about 8,000, which left Manzanillo on June 24 to march to Santiago, were called back by the Spanish army. It appears that Pando was not with the troops as reported. He is in Havana. The relieving army, the Cuban says, was supplied with food, and the roads were almost impassable. The artillery could not be dragged along with them. Thus getting to Santiago in time to succor the garrison there appeared impossible, hence the recall of his troops.

No Official Information.
Washington, July 2.—War department officials are not in possession of this hour (11:45 a. m.) of any information to show that fighting at Santiago was resumed today, but they believe such to be the case.

Canara's Fleet Coming.
London, July 2.—Lord's agent at Port Said, telegraphing at 1:30 p. m. today, says that the Spanish fleet is anchored outside of Egypt and engaged in sailing.

Spanish Colliers Return.
Suez, July 2.—The Spanish colliers which entered the canal yesterday arrived here today.

Copper.
New York, July 2.—Copper, 10 1/2.

James Lewis Dead.
Last night, at about 8 o'clock, James Lewis died at his room on West Railroad avenue after a long illness. He was a consumptive, and returned to this city from southern Arizona about a year after residing here several years in the early days of Albuquerque. He was about 45 years of age. The remains were turned over to Undertaker Strong, and the funeral will take place at the undertaking parlors at 7 o'clock to-morrow evening.

Lost.
Open-work rubber foot mat, off wagon between city and Fairview cemetery. A liberal reward will be paid for the return of the same to R. Montfort, undertaker.

Major Ernest Meyers, who was out west on business, returned to the city last night and called at this office this afternoon. He intended to present Capt. Hornadillo with two fine double-action self-cocking revolvers, when he leaves for the front—"you know."

Chas. Matamor, the popular flour miller, and wife, who were on a visit to the Omaha exposition and friends in Iowa, returned home last night. They report having had a most enjoyable time.

being him home. The latter station in Capt. Gridley had been ill several weeks before the fight and arose from a sick bed to assume his duties and that he remained on duty continuously, suffering from rupture, so aggravated that frequent hemorrhages occurred.

When informed that the hemorrhages were serious in death, Captain Gridley, with unshaken fortitude, replied: "The battle of Manila killed me, but I would do it again if necessary."

All Chicago Papers Suspended.
Chicago, July 2.—All Chicago news papers suspended to-day on account of the strikers' strike, in defiance of an agreement that none will be published until all can be published promptly.

Pettigrew Speaks.
Washington, July 2.—Pettigrew resumed his speech upon the Hawaiian annexation resolutions, begun ten days ago.

SAN JUAN HEIGHTS.
Spanish Forts Stormed and Taken by American Troops.

New York, July 2.—A copyrighted dispatch to the Evening World, dated "In the field, two miles from Santiago, July 1," and edited from Playa del Este, says: San Juan heights have fallen, and the way is now opened for the advance on Morro castle. It was a glorious victory, but very dearly purchased. The place was the strongest Spanish outpost, well fortified and valiantly defended. The position was an excellent one. San Juan will be steep, and no artillery battery was located on it. It was also occupied by barracks and other buildings, but the American troops stormed the heights, and Spanish works are in their hands and they do not count the cost.

As I write our troops are swarming up the hill and covering it like ants, and the Spaniards are demoralized. The fighting has been the hardest kind and our troops suffered severely, but the enemy's works are in their hands and they do not count the cost.

El Caney is also ours. The general advance which began at 3 p. m. has been successful all along the line. After driving the enemy out of El Caney, the troops took possession of the village, and destroyed the Spanish forts by which it had been defended. The Spaniards fled into the city of Santiago where they now are. Losses on both sides were heavy. A burning Spanish shell almost annihilated an entire company of our troops.

TRAIN ROBBERY.
Suspect Men Rob a Texas Pacific Passenger Train.

St. Louis, Mo., July 2.—A special from Omaha, Neb., says: Deputy Sheriff General Manager Thorn, of the Texas & Pacific railway, to-day made the following statement about a train robbery on his road, near Stanton, last night: "Six robbers, all masked except the leader, largest of our 3 without exception at 10 o'clock last night, ten miles west of Stanton, on the shaded plains, between Colorado and Texas rivers, one of the most desolate spots on the line. The robbers covered the engine crew with Winchester, cut the express car loose, forced the trainmen to move it into a side track and then blew it up with dynamite. Nobody hurt, but the car was wrecked, the cars and baggage being blown out. The robbers then blew up the train through express safe, wrecking it badly and damaging the contents. What money was in the safe they took, and mounting their horses they rode away to the southwest."

Have no way of knowing what the express carried, but the amount may have been large and it may have been small. This, however, is not the reason why railroads make the heaviest money shipments. We are informed that three pursuing parties are after the robbers. Two started from Midland and Stanton. A larger posse started toward the capture of each and the state of Texas will duplicate the reward. The officials of the Pacific Express company desire to make prize money much more than the robbers secured. A rumor places the amount all the way from ten to fifty thousand dollars.

Volunteers examined and accepted for

service in the United States volunteer cavalry, at Santa Fe, Thursday morning, July 4, 1918. Present, James M. Pierson, Isaac B. Moore, Jeremiah H. Hunsman, Frank Lowe, James Lewis, George F. Feltus, Gordon R. Feltus, George F. Murray. This makes a total of 10 "rough riders" accepted under the New Mexican of Thursday's issue. On yesterday, the commanding officer of the company, Lieutenant Hunsman, received instructions to furnish a firing squad of ten men for the funeral ceremonies of the late Francis Lewis. These instructions were not complied with, some of the men declined to do this duty. It is therefore considered best to disband the company in its entirety. Captain Matthews, of the company, has not been in the city for several weeks and Lieutenant Hunsman and Hunter have tendered their resignations, which, however, have not yet been accepted."

Dr. H. M. Smith, of Las Vegas, has been appointed first lieutenant of the New Mexico battalion of volunteer infantry, by Governor Otero, says the New Mexican. He was telegraphed at noon Thursday to report at once in Santa Fe, as he will be placed on duty in the medical examination of the recruits for the battalion. The board of medical examiners reported favorably upon the qualifications of both applicants before them, namely, Dr. Smith of Las Vegas, and Dr. Hunsman of Santa Fe, and Dr. Smith was selected.
