INVADING ARMY LANDS IN CUBA!

Shafter's Army Meet with no Oppo- sition in Landing.

GREAT ENTHUSIASM IN ARMY AND NAVY.

(Copyright Associated Press.)

On board Associated Press dispatch boat Wanda, Baiquiri Harbor, Cuba, June 23, 5:30 a. m.—At 5 o'clock this afternoon, 6,000 trained American soldiers are camped in and around Baiquiri, and 10,000 more rest on their arms on board the transports ready to join those who have landed as soon as the available launches and boats can carry them ashore. Time, sea and weather were propitious for the invasion. The navy co-operated splendidly, and as the big war ships closed in on the shore to pave the way for the approach of transports and then went back again three cheers for the navy went up from 10,000 throats on the transports, and three cheers rose for the army from ship to ship as troops moved in to take their share in the hazardous game of war, and it was magnificent. Cuban insurgents, too, bore their share in the enterprise honorably and well.

Five thousand American soldiers in mountain fastnesses and dark thickets of the ravines, lay all night on their guns watching every road and mountain path leading from Santiago to Guanatanamo. One thousand were within sight of Baiquiri, making the approach of Spaniards, under cover of darkness, an impossibility.

At 4 o'clock this morning as the Associated Press dispatch boat approached Baiquiri it was seen that many troops had been lying out in the open in the morning. The sun was rising in the eastern sky, touching the mountain tops with patches of light green, revealing a great semi-circle of troops, some close to the coast line, others a mile distant, with their decks crowded with eager, expectant men, impatient to begin the first invasion by our army of a foreign country in half a century.

As the dispatch boat of the Associated Press ran closer in where the New Orleans was lying with her great Armstrong guns trained on Baiquiri, tongues of lurid flames and black smoke were seen rising in the town as the inevitable consequence of war and a sure sign that the Spaniards had gone, leaving ruin behind. The captain of the New Orleans shouted the news to the dispatch boat, adding: "You had better keep off a little; you are in range. They have a rifle on the hill on the eastern side of Baiquiri." This is a steep, rocky hill known as Punta Baiquiri, rising almost perpendicularly at the place indicated. It is a veritable Gibraltar in possibilities of defense. From a staff at its summit, the Spanish flag was defiantly floating at sunset last night, but it was gone this morning and with it the small Spanish guard which had maintained the signal station. Between nightfall and dawn the Spaniards had taken alarm and fled from the place, firing the town as they left. The flames were watched with interest from the ships. Two sharp explosions were heard. At first they were thought to be reports of guns from Spanish masked batteries, but they proved to be the explosion of ammunition in the burning buildings.

A little before 9 o'clock the bombardment of the batteries of Jaragua was begun by the ships of Rear Admiral Sampson's fleet. This was evidently a feint to cover the real point of attack, Jaragua being about half way between Baiquiri and Santiago. The bombardment lasted about twenty minutes. The scene then shifted back again to the great semi-circle of the transport fleet before Baiquiri.

At 9:40 o'clock the New Orleans opened fire with a gun that sent a shell rumbling and crashing against the hillside. The Detroit, Wasp, Machias and Swanee followed suit and soon the hillside and valleys seemed to be ablaze as shot fol-

lowed shot in quick succession, to the wonder of the wild and excited cheering soldiers on the transports.

In five minutes the sea was alive with flotillas of small boats headed by the launches speeding for the Baiquiri dock. Some of the boats were manned by crews of sailors, while others were rowed by the soldiers themselves. Each boat contained sixteen men, every one in fighting trim and carrying three days' rations, shelter tent, gun and 300 cartridges, and ready to take the field on touching shore, where they are called upon.

The firing of the warships, however, proved a needless precaution, as their shots were not returned, and no Spaniards were visible.

Two correspondents of the Associated Press in a small boat joined the first flotilla that went ashore and witnessed the inspiring sight of landing. General Shafter, on board the Segura, closely watched the landing of the troops. Brigadier General Lawton who had been detailed to command the landing of the troops, led the way in a launch accompanied by his staff and directed the formation of the line operation. A detachment of eighty regular infantry soldiers was the first to land, followed by General Shafter's old regiment, the First Infantry, then came the Twenty-fifth Infantry, Twenty-second Infantry, Tenth Infantry, Seventh and Twelfth Infantry, Second Massachusetts regiment and a detachment of the Ninth cavalry.

The boats rushed forward simultaneously from every quarter, in good natured rivalry to be the first to land and their occupants scrambled over one another to leap ashore. As the boats tossed about in the surf breaking against the pier, getting ashore was no easy matter and the soldiers had to throw their rifles on the beach before they could climb up themselves. Some hard tumbles resulted, but nobody was hurt. At the end of the pier the companies and regiments quickly lined up and marched away. General Lawton threw a strong detachment for the night about six miles west on the road to Santiago and another detachment was posted to the north of the town among the hills. The rest of the troops were stationed in the buildings of the iron company. Others were quartered in the deserted houses, while others still preferred to shelter in their tents in the adjoining fields. The morning's fire destroyed the round house, repair shops, and several small buildings.

The town was deserted when the troops landed, but the women and children soon appeared from the surrounding thickets and returned to their homes. Sun-burned soldiers, in slouch hats and service uniforms, quickly searched the buildings and beat up the thickets after landing, in search of lurking foes, and marched into the unknown country beyond at nightfall with the long swinging stride and alert bearing of the old frontier army men, ready to fight the Spaniards, Sioux fashion or in the open, wherever they could be found. The cheers of their comrades still waiting on the transports and of the blue jackets, and the strains of "Yankee Doodle" from the bands on the troopships saluted them as they disappeared from view over the hills of Baiquiri.

The landing was accomplished without loss of life, the only casualty being the wounding of an insurgent on the hills by a shell from one of our ships. He will lose his arm. The insurgent troops at Baiquiri are commanded by General Castillo and are estimated to number one thousand men.

ALL THE TROOPS LANDED.
New York, June 23.—A special dated at Playa del Este, Cuba, to-day, says at 1 o'clock this morning the last of General Shafter's army of invasion had landed at Baiquiri.

May Abolish the Cantons.
Chickamauga, June 23.—The chaplains of nearly all the regiments now camped at Chickamauga Park have begun a vigorous crusade against the regi-

mental cantons, or saloons. If the chaplains can obtain the co-operation of the army officials the cantons will be abolished.

Russian Ambassador.
Washington, June 23.—The Russian ambassador to the United States, Count de Cassini, was formally presented to the president to-day. His speech was exceedingly friendly and cordial. The president's reply was in the same amiable vein.

To Be Executed.
New York, June 23.—Martin Thorne, convicted of the murder of William Guldensuppe, the bath rubber at Woodside, L. I., a year ago, has been condemned to be executed during the week beginning August 1.

LANDING THE TROOPS.
It will Take Several Days to Unload the Supplies and Serge Guns.

Washington, June 23.—The military situation at Santiago, so far as the war and navy departments know, remains precisely as it was at sundown yesterday. The troops are being landed from General Shafter's corps and this landing has not been completed. Neither Shafter nor Sampson have reported since the two cablegrams received last night. It is gathered from these, taken in connection with press reports, that only one landing in the military sense has been made, but naturally, with so large a number of transports to be discharged, the troops have been scattered up and down the beach for several miles.

The cable station is within seven miles of the point where the debarkation is going on. Officials here say this work cannot be completed for several days, although of course the troops without their supplies may be all ashore before that time.

READY FOR A FIGHT.

So Says Gen. Miles of the American Army at Santiago.

Washington, June 23.—General Miles received an interesting dispatch to-day from one of his aide-de-camps, now with General Shafter's army at Baiquiri. He declined to give its text to the public, but said it merely announced that the landing of the troops was made without any casualties whatever and only men found on shore were Cuban insurgents. It is stated that one Cuban was struck by a bursting shell and lost his arm. There were about 5,000 insurgents on hand, well armed and under good discipline. General Miles' correspondence also stated that the troops were in splendid spirits and ready for a fight, "and," said General Miles, "there may be a fight to-day."

House Adjourned.
Washington, June 23.—The house passed some minor bills and adjourned until Monday.

FIGHTING NEAR SANTIAGO.

Madrid, June 23.—News of serious fighting near Santiago de Cuba has been received here. Admiral Cervera cables that the situation is critical. The governor of Santiago admits that the Spaniards have been obliged to retire, but a Spanish victory is claimed.

4 p.m.—The minister of war, General Correa, it is announced, has received an official dispatch from Santiago, announcing that the Americans' attack on Punta Berraco had been repulsed after a hard-fought and bloody engagement.

Punta Berraco is a short distance from Baiquiri, where United States troops landed yesterday. It is near the coast and under the guns of the American fleet, from which it can be judged that it is highly improbable that the army has been repulsed as stated.

Dakota Populist.
Aberdeen, S. D., June 23.—After three hours' hot discussion the populist state convention to-day accepted the conference report allowing the democrats to fill four places on the state ticket and the silver republicans one. The populists nominated by acclamation for congressmen, Knowles and Kelley; governor, A. E. Lee; secretary of state, George Spelling; auditor general, C. D. Palmer; railroad commissioner, W. C. Tompkins.

The democrats will nominate treasurer, auditor, superintendent and land commissioner, and the silver republicans the lieutenant governor.

Cornell Won the Race.
New London, Conn., June 23.—In the university boat race, postponed from yesterday, Cornell won by a length and an eighth. Yale, second, half a dozen lengths ahead of Harvard. Cornell's time, 23:40. Official time: Cornell, first, 23:40; Yale, second, 24:32; Harvard, third, 24:35. Cornell finished three and a half lengths ahead of Yale; Harvard twelve lengths behind Yale. The race was very close during the first half. Yale and Cornell alternately leading.

New London, June 23.—In the Freshmen's race, Yale wins by a length; Harvard second by half a length; Cornell third. Time 10:16.

Big Appropriation for Paris Exhibition.
Washington, June 23.—The conference on the sturdy civil appropriation bill have reached a partial agreement. For the Paris exposition \$450,000 is provided.

Band Reconstituted.
Jefferson City, Mo., June 23.—Richard P. Rand, the noted free silver advocate, who represents the Eighth Missouri district in congress, was today renominated by acclamation by the democratic convention.

Drowned.
St. Petersburg, June 23.—Information has just reached here that during a recent typhoon at Port Arthur, a Chinese torpedo boat destroyer was driven ashore and 130 men were drowned. The Russian warship Sissol Vodka was also damaged.

SITUATION AT SANTIAGO

Spanish Troops in the City on Short Rations.

Cervera's Warships Are in No Condition to Fight.

Rather Thin Story of Admiral Cervera Kissing Lieut. Hobson.

SERIOUS RIOT IN WISCONSIN.

(Copyright Associated Press.)

In Gen. Garcia's Camp, Aurren Deras, Santiago de Cuba, June 23, per Associated Press Dispatch Boat Wanda, via Kingston, Jamaica, June 23.—A Cuban who left Santiago on Monday night, arrived at Gen. Garcia's camp on Tuesday morning with accurate maps of the harbor and earthworks surrounding the city.

The ships of Admiral Cervera have moved from the positions they were in three days ago and now lie in almost a circle, surrounding a small island and light house about half way up the harbor. The cruiser, Cristobal Colon, which is uninjured, lies to the west, commanding the harbor, while the Vizcaya, also uninjured, lies to the east, her starboard battery looking upon the same neck. Both Spanish torpedo boat destroyers are temporarily disabled, one having been struck by fragments of the shells that sunk the Reina Mercedes, and the other having her boiler tubes and engines in course of repairs. The ships have only half supplies of coal, although some coal arrived by overland routes two weeks ago.

The shell that sunk the Reina Mercedes was fired by the Massachusetts. Beyond this loss and quite a large loss of life incident to it, there was little or no damage done. The earthworks were disturbed and one smooth bore gun dismounted on the west battery. Seven new guns are being put up facing the sea, three of which on the west of the harbor are ships guns of six inch rapid fire variety; and automatic guns of four inch caliber. It appears, as being dismounted from ships and mounted on the earthworks surrounding the city. A new line of trenches has been dug about a mile and a half from the city.

The Spanish soldiers known as regular troops are on half rations and no rations or supplies are furnished to the local Spanish forces numbering about 3,000 men. They are compelled to forage. The spirit of discontent is widespread among the Spanish troops, and an uprising in Santiago is feared. There is an absolute lack of drugs in Santiago and finally the crews of the Spanish warships are on half rations.

CERVERA IS EFFUSIVE.

He is Reported to Have Kissed Hobson and His Men.

New York, June 23.—A special to the Press from Albany says: According to a story related by James Meyers of the Dispatch New York in a letter to a friend in Troy, Admiral Cervera kissed Hobson and his associates of the Merrimack for their bravery. Myers wrote: "Hobson and his men fought bravely to cut their way back to us, killing many Spaniards, but the tide was too strong and they were carried shoreward and taken prisoners of war. The Spanish captain of the Cristobal Colon came to this ship bearing a flag of truce and told the admiral that our men fought like demons and killed many Spaniards."

"The Spanish admiral said he never saw such bravery and kissed every one on the forehead. Everybody is admiring the pluck of the Spaniards, as the odds are all against them. By the way, when the Merrimack was going in the harbor to its doom, a big flag with 'Maine' printed on it was on the foremast. The poor Spaniards must have felt sore to see that we never forget."

INSURGENTS AT MANILA.

though the Philippine insurgents have captured all but the inner city of Manila, they are respecting property and refraining from looting. The London agent of the insurgents claims to have information that Gen. Aguinaldo made a compact with Rear Admiral Dewey not to attack the walled city until the Americans arrive, when the Americans and insurgents will co-operate.

Death of a Prominent Merchant.
St. Joseph, Mo., June 23.—Abraham Nave, one of the oldest and wealthiest merchants of St. Joseph, died this morning. He was a partner in the Nave-Mercord Mercantile company's chain of stores in all important Missouri river cities. His fortune is estimated at \$2,000,000.

SERIOUS RIOT.

Workers and Women at Oshkosh Attack Workmen in a Factory.
Oshkosh, Wis., June 23.—A serious riot occurred here to-day as the result of the woodworkers' strike. Several hundred women armed with clubs, rocks and sand and paper sacks of pepper, waited for workmen endeavoring to enter the factory. The police were powerless to disperse the mob and not a man was allowed to enter the factory, even the proprietors being driven back by threats of violence. The plant was ordered closed down and the manufacturers are holding a conference with the city officials.

WOMEN'S CLUBS.

National Federation Holding Interesting Meeting at Denver.

Denver, Colo., June 23.—A double bill feature of the general federation of women's clubs convention was held to-day. Both the Broadway theatre and the Unity church were crowded. The morning session at the Broadway, which was devoted to the "press," was an innovation. Mrs. Horton presided. Miss Mian J. Reynolds was local assistant chairman. Numerous interesting papers were read.

A simultaneous session devoted to "civic clubs and village improvement association" was in charge of Mrs. Cornelius Stevenson, of Pennsylvania. Besides the sessions this afternoon devoted to "phases of economic work in clubs" and "home economics," there are endless receptions. At the instigation of Mrs. W. B. Belknap, of Louisville, Ky., this message was wired to Washington: "To the president of the United States—greeting from the general federation of women's clubs. Assurance of co-operation with you in any emergency." Mrs. Ida Rivenburg, of New Mexico, read a paper on "What literary clubs may do for the improvement of towns and villages."

Senate Proceedings.

Senator Pettigrew, of South Dakota, resumed his speech opposing Hawaiian annexation.

Negro Lynched.

Nashville, Tenn., June 23.—A dispatch to the Banner from Double Springs, Tenn., states that Charles Washington colored, who recently assaulted Mrs. Ward near Mine Lick, was lynched at Mine Lick to-day. He confessed his guilt. The lynching was witnessed by 3,000 people.

A GALLUP SENSATION.

A Merchant of that Town Here Looking for his Wife.

R. F. La Croix, a merchant of Gallup, is in town ostensibly to induce the Albuquerque base ball club to go to Gallup for a game. He has been talking base ball to-day with all the fervor of an enthusiast, while the fact of the matter is he has other troubles weighing heavily on his mind. Mr. La Croix is really here to locate his wife, who ran away from their home on Monday evening, coming to Albuquerque. The name of another man is mentioned in connection with the Mrs. La Croix departure, but whether or not this has any foundation in fact must yet be determined.

It is believed that Mrs. La Croix engaged lodging at a Second street rooming house, but inquiry here revealed the fact that the woman supposed to be she, left during the night of early morning. This woman was a rather pretty blonde, possibly near her thirtieth year. She alighted from the train from the west and accosted an officer, requesting him to show her where she could obtain lodging, saying that she had just run away from her husband. The great, sympathetic heart of the officer went out to her and he located her at the rooming house as stated above, and then she held a further consultation with him and the landlady understood that the policeman was to go out and look up a friend or friends who she wanted to report. He returned two or three times to report his success, but during his last visit the landlady felt uneasy and she doesn't know whether or not her fair guest left with the officer or she went out during early morning alone. Perhaps the officer can explain this when he comes on duty to-night. An advertisement card of another rooming house was found on the dresser in the young woman's room and it is presumed that she went there to engage a room. An effort was made to see the young woman here to-day, but the landlady has been absent and a knock at the various rooms showed that if she was stopping there she was not then in her room.

More Adjusters.

The insurance adjusters are arriving, and besides those who reached the city on Monday and Tuesday nights, the following came in last evening: Clarence Cobb, of Denver, who will adjust the losses for the Traders' and Norwich Union companies, locally represented by Otto Diekmann.

Frank G. White, of Denver, for the Fireman's Fund company, local agents being Metcalf & Strauss.

Last but not least, that old reliable adjuster from Las Vegas, Edward Henry, who has been making regular semi-monthly trips to this city the past year.

These gentlemen are here on business connected with losses sustained in the opera house fire of last Sunday morning.

Odd Fellows' Meetings.

Harmony Lodge No. 17, I. O. O. F., will hold its regular meeting to-night at 7:30 o'clock. To-morrow, Albuquerque lodge No. 1 will have degree work. Members of sister lodges and visiting brothers are cordially invited to attend. A full attendance of the members is desired. Refreshments will be served.

Patriotic Words.
