SHAFTER'S ARMY AT SANTIAGO!

The Army of Invasion Debarking on the Island of Cuba.

SENATE DISCUSSING HAWAIIAN ANNEXATION.

Washington, June 20.—No doubt is entertained at either the war or naval department that General Shafter's expedition has arrived safely off Santiago by this time. It is believed that the first of the transports arrived here to-day and that the fleet of transports will be in a safe position until Sampson cleared the way for landing. The work of debarking troops will not be one of hours, but rather, days, according to the opinion of army officers.

THE TRANSPORT FLEET.
Kingston, Jamaica, June 20, 2:30 p. m.—The steamers Bowden, Jamaica and Brooklyn arrived here to-day and report having passed in the Windward passage about night twenty-four American vessels headed southward.

HAWAIIAN ANNEXATION.
The Resolution Annexing the Islands Being Discussed in the Senate.

Washington, June 20.—Ten minutes after the senate session opened, Davis, chairman of the committee on foreign relations, moved that the senate proceed to the consideration of the Hawaiian annexation resolution. Davis said it was the purpose of the foreign relations committee to occupy not only the morning hour, but the entire time of the senate in consideration of the question of Hawaiian annexation. The vice president declared the Hawaiian resolutions to be before the senate. He thought the senate ought not to adjourn at 4 or 5 o'clock in the afternoon, but should sit as long as possible in order to facilitate consideration of the resolutions, which ought to be passed at an early date.

Morrill (Ark.) said that if harsh measures were adopted in the beginning by friends of annexation he warned them that it would be necessary to keep a quorum in the senate chamber at all times. "Well, we'll keep a quorum here," replied Frye, "as we ought to do at all times."

Morrill (Vt.) then addressed the senate in opposition to the resolutions. Shortly after Morrill concluded, Jones (Ark.) made the rest of the morning.

REFUSED TO ADJOURN.
Washington, June 20.—At 4:25 p. m., Senator White moved to adjourn. Senator Davis demanded the yeas and nays. It was the first test vote. The vote resulted, yeas 15; nays 44.

CUBAN BLOCKADE.
The Blockading Squadron to be Reinforced at All Cuban Ports.

New York, June 20.—A special to the Herald from Washington says: In accordance with instructions given him, Admiral Sampson will immediately take measures to reinforce the blockading squadron on the safe arrival of the troops at Santiago. With the exception of the battleship Indiana and the torpedo boat which accompanied the troops to the point where they were landed before they were attached to the conveying fleet. After the return of these vessels, about fourteen in number, the authorities say there will be no further danger of blockade runners getting through to Cuban ports.

Returned to Spain.
Washington, June 20.—The war department has received a dispatch stating that the Cadix fleet has returned to a Spanish port.

BLANCO IS BELLIGERENT.
He Will Not Hereafter Recognize a Flag of Truce.

Key West, June 20.—Another government vessel reports that Blanco keeps firing heavy shells at the blockading squadron. On Friday a 12-inch shell exploded dangerously near an American warship.

It is learned from naval officers here that Captain General Blanco has notified the American blockading fleet that he hereafter will recognize no flag of truce, adding that every vessel within the six miles range will be fired upon, whether flying the stars and stripes or the white flag.

Refuse to Exchange.
Madrid, June 20.—Premier Sagasta says nothing has been decided regarding the exchange of the Merrimack prisoners.

SPAIN FOR WAR.
Denial that Peace Propositions are Being Proposed by that Country.

Madrid, June 20.—The newspapers say that the cabinet yesterday discussed the peace tendencies observable in the United States and in certain persons in Spain, but said that Spain will unflinchingly repulse "unworthy conditions" holding that peace is only possible if the conditions are honorable and include

BLOCKADE OF HAVANA

Provisions Reach the City From the South Side of Cuba.

General Merritt Will Sail for Manila July 1.

Gov. Adams Will Visit the Big New Mexico Celebration.

DESTRUCTIVE FIRE IN UTAH.

(Correspondence Associated Press.)
Key West, June 15.—A prominent resident of Havana, who left that place on the 10th instant, arrived here yesterday on his way to New York. His description of the situation in Havana contradicts the widespread reports of famine and suffering. He reports that Havana is practically an open port, as it is not blockaded on its southern approaches. Batabano, on the south side, is only forty miles from Havana, with which city it is connected by rail. Batabano is the landing place for the sale of Pines ferries, and the water between Batabano and the city of Pines being very shallow, no vessel exceeding nine feet in depth and therefore inaccessible to any large craft, has been kept up for the sale of Pines and Yucatan and full cargoes of provisions and live stock have been regularly landed there from steamers, schooners and other sailing vessels, notwithstanding American warships, which rarely, if ever, patrol those waters. The work of transshipping these cargoes to Batabano on flat bottom ferries has been constantly going on since the first of June. It is asserted that over eight hundred head of cattle were landed at Batabano besides large quantities of flour and grain. Corn in large quantities is also brought over. At the outbreak of hostilities it was reported that Havana had sufficient provisions for six months. Since then it is asserted that fresh shipments have been received far in excess of consumption.

POWDER MILL EXPLOSION.
Supposed to Have Been Caused by Emigrants of Spain.

Cincinnati, June 20.—The finishing department of the King Powder company, located at Kings Mills, Warren county, Ohio, was destroyed last night in a manner leading to the belief that it was the work of enemies of the government. The explosion occurred in a building in which was stored a quantity of gunpowder, which had been fired by two men near midnight, one of whom was badly burned and had been apparently dragged away from the burning building by his companion who then ran away in the direction of South Lebanon. The injured man was taken into custody. He is apparently a foreigner, but is not badly injured that he can scarcely talk. The loss is considerable, perhaps \$2,000. This company has the largest stock of gunpowder in the country and is thought to be the reason its destruction was attempted.

GOVERNOR OF COLORADO.
He Will Visit New Mexico and Attend a Celebration.

Denver, June 20.—Governor Adams has accepted the invitation of the Historical Society of New Mexico to attend the commemoration of the 300th anniversary of the founding of the first settlement of white men in New Mexico. The celebration will take place July 13, on the spot in the valley of the Rio Grande, where in 1598 Don Juan de Onate landed with his expedition from the Spanish province in Mexico.

General Merritt.
San Francisco, June 20.—Major General Merritt will sail for Manila on the cruiser Philadelphia, which has just received orders to be ready for sea by July 1.

Major-General Otis will go with the fourth squadron.

THE WAR LOAN.
Small Investors to Have the Preference of the Bond Issue.

Washington, June 20.—Although the amount of subscription to the new 3 per cent loan is not made public, it is officially stated that it exceeds all expectations. This is particularly true of larger amounts. The department wishes it thoroughly understood by the public that even should the whole loan be subscribed for several times over in large amounts, every subscription of \$500 or less will be accepted at once.

Dewey Will Be There.
Madrid, June 20.—The belief is expressed in government circles that Captain General August will ask foreign warships to land detachments to occupy Manila on the ground that he no longer is able to resist the insurgents.

HAVANA BLOCKADE.
Office of Cuban Insurgent Army Brings Important Information.

Key West, Fla., June 20.—A vessel arrived here from the blockade this morning and reported all quiet along the line. She brought a message from the Cuban army and a pilot carrying important dispatches to General Estrada Palma of the Cuban junta from General Alejandro Rodriguez, insurgent commander of Havana province.

The Cubans were taken on board on Saturday from an auxiliary gunboat which picked them up. After leaving the insurgent camp they made their way into the city of Havana.

Sanchez at Johnny Trimble's.
A young lady visitor arrived in town yesterday morning and took up her abode with Mr. and Mrs. John S. Trimble. She brought a message from her coming was expected and she was provided with a wardrobe while preparations were making for her entertainment. She had been in the house but a few hours when Mr. Trimble was called away to the Ilfeld Brothers' fire, and plans for the young lady's future were left to be a subject for discussion later. There will be no haste in "bringing her out" in society, as she seems at present to take but little interest in social affairs, but will remain quietly under the guardianship of Mr. and Mrs. Trimble until the right young man comes along and relieves them of the responsibility. Her name—well, she hasn't been christened yet, and as Grandpa and Grandma A. Trimble and Grandpa George J. Trimble, with numerous uncles and aunts, take an interest in little girl they will have to be consulted on this important question.

In Temporary Quarters.
Ilfeld Brothers, for the time being, have established temporary quarters in the vacant store room of the new Armijo building, directly opposite their old quarters, and their books, papers and goods are being removed there to-day. The public will be advised as to the future plans of the firm, whether they will retire permanently from active business or continue their "Big Store," in a few days.

More Kansas Volunteers.
There were more volunteers from Kansas passed through here Saturday night. A special train reached here at 10 o'clock on its way to San Francisco. The train consisted of seven coaches loaded with 300 healthy, robust lads from the land of the sunflower. Close to 12 o'clock another train conveying 140 men from Tennessee passed through the city, having left Nashville on Thursday evening. The lateness of the hour and their unexpected arrival interfered with the royal reception usually tendered to volunteers passing through the city.

Otto, the eight-year-old son of O. Bachechi, the liquor man, was climbing up a water spout on the Commercial club building on Saturday afternoon when the spout broke and began to swing out from the building with him. Little Otto let go and down he came. It was at first thought that the child was seriously injured, but he suffered nothing worse than a scratched and bruised leg. Otto will be around tomorrow ready to fall off a fence or get run over by a wagon.

ACCIDENTALLY KILLED.
Miner Receives a Bullet that Ended His Life at Thornton.

Thornton, N. M., June 20.—Samuel Grove, Hamilton Palmer and John Sanderson were miners on route from Chama to Bland, when Grove met with an accident that caused his death at Thornton, at 10:30 this morning. Arriving at the cross road from Santa Fe, Sanderson rode ahead. Thinking he was on the wrong road, Grove, after falling to the ground, was struck by a bullet fired, directed Palmer to fire his pistol, Palmer handed the weapon back to Grove, when the pistol struck the wagon, exploding and sending a 45 bullet into Grove's groin, inflicting a fatal wound. His companions brought him to Thornton, and Dr. Palmer of Cerrillos was telegraphed for, but the victim died before the doctor arrived, reiterating that the shot was not to blame. Grove was a widower, 55 years old, had two grown sons, whose whereabouts are unknown. The body will be buried at Thornton. Hamilton Palmer is a boy about 15 years old, and met Grove and Sanderson at Chama.

COLORADO RECRUITS.
Will Pass through Here to Night En Route to Philippines.

Trinidad, Colo., June 20.—One hundred Colorado recruits, under command of Lieutenant Hildwell, bound for the Philippine islands, are on the south bound No. 1 passenger train this evening. Coffee and a great dinner were served them by the citizens of Albuquerque who were highly appreciated by Colorado recruits.

Destructive Fire.
Salt Lake, Utah, June 20.—Fire ignited by a street car destroyed the business district of Park City, a great silver mining camp, on Saturday. A loss of nearly \$750,000 was sustained, while 300 people were rendered homeless. No loss of life occurred.

LARGE MILL BURNED.
The Lous Hunting Grist Mill Destroyed by Fire.

The Lous Hunting three story wooden flour mill, located about midway between Los Lunas and Belen, was destroyed by fire during last night.

The mill was said to be one of the largest in the state, and was equipped with steam or water power. The fire was first seen about 11 o'clock. The report comes that a short time before this a man was seen to run away from the building. It is said that Mr. Hunting carried absolutely no insurance on the building, as it was widely known that he was a member of the insurance company refused to grant a policy on that account. The mill was to have been started up July 1, when an insurance would have been in force. The mill was valued at about \$5,000.

He has Resigned.
A few days ago THE CITIZEN learned of a report to the effect that Capt. C. D. Rogers of the Albuquerque Guards, had resigned, but for certain reasons several members asked that the report be not published at that time. To-day, the news has been confirmed, and the resignation of the captain is now in the hands of Gov. Otero, who is expected to appoint a new captain shortly. Capt. Rogers with his family, now reside at San Bernardino, he being compelled to seek a more favorable climate and a lower altitude on account of his wife's health.

ALBUQUERQUE, — JUNE 30, 1908

SINCE his appointment as colonel, Bryan has captured the popular party.

SANTIAGO is the oldest town in Cuba. There'll be a hot time in the old town this week.

GOVERNOR OTERO has appointed Freeman C. Stevens, of Red River, a notary public in and for Tazoo county.

The American army under Gen. Shafter has arrived at Santiago, Cuba, and things will be lively in that vicinity this week.

It has been decided to keep the exposition at Omaha open on Sunday afternoon and evenings, with prohibition of the sale of liquors and a concert and religious service in the auditorium.

The Spaniards are preparing to burn the town of Santiago, Cuba, and their ships in the harbor at that place. They have the insane idea that this sort of work will injure the United States.

The estate will dispose of the Hawaiian annexation question this week. The resolution should pass in time to give the people of Honolulu ample opportunity to arrange for a big Fourth of July celebration.

A VOTE was taken Saturday evening by a company of Kansas recruits passing through this city, and the result showed five democrats, four populists and all the rest of the one hundred men McKinley republicans. The boys said that Kansas would redeem itself this year from populist rule.

DECORATE YOUR HOMES.
A prominent feature of the coming Fourth of July celebration should be the decoration of both private and business homes. Decorations of this character can be profusely made with a small outlay of money and labor, and their appearance will not only add beauty to the scene, but will lend an inspiration much desired at present.

SPAIN AND CIVILIZED WAR.
The Spaniards pretend that they are greatly alarmed lest the insurgents at Manila, if victorious, should not recognize the rules of civilized warfare. If these Philippine rebels follow the teachings of Spain the people of Manila have indeed reason to tremble. Oppression in peace and cruelty and massacre in war are the maxims the Spanish rule has taught the people of the Philippines, and the latest act of the Spanish authorities to put a price upon the head of the insurgent leader, Aguinaldo, Philip the Second offered and paid a reward for the assassination of that great man, William of Orange, three hundred and eighteen years ago, and the Spanish monarchy of to-day shows that it is still deep in the policies of the middle ages by acting towards Aguinaldo as Philip did towards the great saint hero of the Dutch republic.

A GREAT STATE.
Wisconsin, which has just celebrated its semi-centennial as a state, has a right to be proud of its record. It is now a commonwealth of more than 2,100,000 inhabitants, with many prosperous cities, the largest of which, Milwaukee, is nearing the 300,000 mark. In 1840, eight years preceding its admission to the Union, the territory had less than 40,000 inhabitants; in 1850, when it had been a state two years, it contained over 300,000. It is interesting to see its growth by decades. In 1860 its population was 776,881, in 1870 1,054,670, in 1880 1,315,477, and in 1890 1,680,880. Little of the population is centered in large cities, for the most populous place, next to Milwaukee, is La Crosse, with only 30,000 inhabitants, and at the last census there were only about twenty-five towns with 5,000 or more.

THE WAR NOT SLOW.
For the first time in its history the United States is obliged to equip and embark troops for service in tropical lands beyond the seas. The administration is called upon to send armies to the Philippines, to Cuba and to Porto Rico in rapid succession. Our war department accustomed to the handling of 30,000 troops in peace, is confronted with the necessity of providing organization, equipment and transportation by land and sea for nearly ten times that number. As these soldiers are to serve in the tropics a change of uniform is necessary and different provisions are required. Going into unhealthy climates, sanitary preparations of an extended character are absolutely necessary.

Under such untoward circumstances it would not have been surprising if many weeks had elapsed before any troops were on ship-board; but though it is only two months since war was declared one division of soldiers is at the Philippines and another will embark in a day or two. General Shafter's expedition is at Santiago, and General Lee's is swiftly making ready for Porto Rico. Other bodies

of raw troops are being drilled into shape as rapidly as such a task can be accomplished, to supply forces from which the armies already sent out may be reinforced, or separate armies of invasion formed.

History will say that this work of forming armies out of raw materials was never done so rapidly and so well under the same circumstances. But politics have not ceased to exist. A party system, shrouded by a record of failure in power and by reckless, desperate agitation resorted to in the vain hope of recovering that power, supplies a swarm of pestiferous critics, who are constantly endeavoring to shake the confidence of the people in the wisdom, honesty and courage of the president of the United States, and who will only succeed in heaping up further confusion and disaster for themselves.

THE WAR TAX.
The war revenue bill that has become a law covers a large list for special taxation mostly those handled by capital, and such as are luxuries. The following are the leading features of the bill:

A tax of one-quarter of 1 percent on the gross receipts of the Standard Oil and Sugar Trust companies.

A stamp tax of one cent on sleeping car tickets.

An additional tax of \$1 per barrel on beer, ale and porter.

The issuance of \$400,000,000 government bonds, to bear interest at the rate of 3 percent, and \$100,000,000 of certificates of indebtedness.

An inheritance tax.

A provision for the coinage of the silver dollar in the treasury at the rate of \$1.00 per month.

A tax of ten cents per pound on all tea imported into the United States.

A tax on all adulterated food.

A tax on patent and proprietary medicines.

Tax on banks and money brokers, commercial brokers, custom house brokers and pawn brokers.

Tax on theatres, circuses and professional actors and agents of public institutions.

Tax on tobacco and its manufactures.

Tax on bonds, debenture mortgages, certificates of indebtedness, etc.

Tax on cosmetics, drugs, patent medicines, etc.

LOCAL PARAGRAPHS.
James D. Kakin, Henry Faber, Arthur Everett and Ernest Meyers visited Bland this week on business. Mr. Faber is still at Bland, and may remain there indefinitely.

Dr. H. F. Belmont, the eye specialist, who left Silver City without paying his legitimate bills to the Enterprise of that town, was here last Saturday, but skipped out that night.

The Albuquerque fire department will hold regular monthly company meetings to-morrow (Tuesday) morning, and the men of the various companies would like to see all members present.

Miss Nannie Smith and Miss Clara Gardner, two lady employees of the Indian school, left last night—the former, Lawrence, Kan., the latter for Wisconsin—where they will spend their summer vacation.

Ben. Holmes and wife, who were at San Antonio, Texas, on a visit, came in from the south Saturday night and continued west to Gallup, where Mr. Holmes holds the position of station agent for the Santa Fe Pacific.

Mrs. James Mehan and youngest son returned to their home at El Paso yesterday morning, leaving the oldest boy, Frank Mehan, to remain with his grandparents, Mr. and Mrs. Lou Davis, for a few weeks longer.

Mrs. Joseph Maxwell and Mrs. J. C. Spence, two well-known ladies of Gallup are in the city, and have rooms at the Hotel Highland. Mrs. Maxwell is in poor health, and will place herself under the treatment of an Albuquerque physician.

Andrew J. Johnston, formerly a clerk in the office of Receiver Smith, of the Atlantic & Pacific railway, now with the Santa Fe Pacific and Southern California, was here yesterday and to-day, accompanying the pay car here from the west last Saturday night.

John Jacoby, the United States gauger who was called to make an official visit to the fruit distilleries in the Mesilla valley, returned home last Saturday night. He was a valuable veteran in the "frontier" and yesterday, proving himself a most excellent handler of books and ladders.

Frank Pynchon, W. E. Groves and Albert C. Smith, railroad men, were here yesterday, and took in the opera house fire, expressing the opinion that the fire spread anything less seen out of the "frontier" and yesterday, proving himself a most excellent handler of books and ladders.

A. M. Blackwell, the big member of the wholesale grocery firm of Groves, Blackwell & Co., came in from the north last Saturday night, and was one of the spectators at the opera house fire yesterday. He expressed great regret at the loss of both Mr. Groves and Albert C. Smith, and was very complimentary as to the hard work done by the volunteer fire department.

COCHITI MINING NEWS.
Information Regarding Mining Operations in the Golden Cochiti.
From the Bland Herald.

The assessment work on the Hopewell was begun this morning.

Kearney Tynell and W. K. Meyers are developing the Cross Key, a valuable claim above the Crown Point.

Arthur Kinsell and W. D. McCoy, who were on a visit to Bland last week, have returned to the development of their valuable claims in Peralta canyon.

The Cochiti mining district possesses a limited quantity of sulphide ore of a value sufficient to be profitably produced, and when the proper custom milling facilities are provided there is no question of this camp proving to be one of great richness and stability, which has been proved of all kinds of sulphide ores in such quantities and richness as are found here.

It is learned from Thomas H. Abbott that he has sold his interest in the Little Mollie mine to Edwin M. Clarke, the Chicago real estate man who was recently in Bland, and that the Little Mollie will soon be worked extensively by Mr. Clarke, J. K. Bibb and others. It is expected that a mill to treat the mine's ore will be established in connection with the proposed operations at an early date.

A large flow of water was struck on Tuesday at the 100-foot level in the main shaft of the Albarine and the management is overjoyed. They are especially delighted at the prospect of developing sufficient water in the mine to carry on their operations since in junction was brought against them by the miners of Peralta canyon for drawing on the water supply of Peralta. A large steam pump has been ordered to keep the mine clear of water, as buckets cannot be used for that purpose. The mill and mine work continue busy and is demonstrating the opinion held by one set of experienced mining men in the value of one of the many similar properties of the Cochiti district.

W. L. Trimble's mine continues to haul machinery and material to the Albarine mine and mill. Some idea of the quantity of this stuff already delivered can be formed when it is remembered that ever since the latter part of February an average of six four to ten horse teams, making two to four trips a day, have made daily trips to the Albarine—having loaded. Beside this, there have been many other teams delivering lumber and other supplies to the Albarine, making an amount of building material sufficient to create a great and busy change in upper Colima canyon. Still all is not yet delivered and teams will be kept employed at this work for some time to come, the very heaviest part of machinery remaining to be delivered.

Deaths.
The five-year-old daughter of Jose P. Garcia, Petrolina Garcia, died at 9 o'clock Saturday morning at the residence of her parents in old town. The remains were buried in Santa Barbara cemetery yesterday morning, the funeral occurring at the old town Catholic church.

Yesterday morning, at 8 o'clock, the funeral services over the remains of Mrs. Margaret Barila de Apodaca, wife of Gregorio Apodaca, occurred at the Barila Catholic church and was largely attended, the remains being buried in the Barila cemetery. Mrs. Apodaca died at 10 o'clock Friday night, at the age of 35 years.

Last Saturday evening, at 6:10 o'clock, the pretty three-year-old daughter of Mr. and Mrs. Marco Dragone died, after an illness of a short time with scarlet fever and the measles. The funeral occurred at the residence of the parents, at 4 o'clock yesterday afternoon, Rev. Mandarini officiating, after which the remains were buried in Santa Barbara cemetery.

W. D. Chavez, Rio Arriba county, died at the residence of his parents, at 4 o'clock yesterday afternoon, Rev. Mandarini officiating, after which the remains were buried in Santa Barbara cemetery.

An Army of 250,000
The members of the Equitable Society form an army 250,000 strong—an army that goes forth conquering and to conquer—but not to slaughter. The enemies it conquers are want—distress—and poverty. Instead of making widows and orphans—this great army protects them. It helps the helpless and makes smooth the path of the aged—instead of pulling down it builds up—instead of devastation, prosperity and increase will follow in its train.

This army has recruiting stations all over the United States—and is always ready to receive recruits who can pass the necessary medical examination.

COAL LAND CONTEST.
Right to Purchase Forty Acres Near Moore to be Determined.
For the past nine days Register M. R. Otero and Receiver E. F. Hohart, of the United States land office, have been conducting a contest case from Rio Arriba county. The case is entitled, Carrie E. Freese and Wm. L. Keys vs. Geo. W. Kutz, and the tract in controversy is 40 acres of land, containing valuable coal veins, in the town of Moore. Mr. Kutz made a declaratory filing on the land on March 17, 1897, and on March 11, 1898, filed an application to preclude a grant of the land to the Freese and Keys. The case was set for trial on June 8, 1897, and Wm. L. Keys made the third filing on the land on June 10, 1897.

When Kutz' application for purchase was made, the adverse claimants were notified to appear at the land office in this city and show cause why Mr. Kutz should not be allowed to purchase the tract under the law governing the disposition of coal lands. The other claimants appeared and a hearing on the merits of the claim was held. The evidence was heard. Yesterday afternoon the hearing of testimony and arguments was finished and the case was adjourned until August 2 to allow time for the parties to prepare the entire system, direct evidence, to be appointed by the register and receiver, who is to make such survey to determine the question of the exact location of the land in issue.

The Freese and Keys, who are appearing in the case are Hon. B. M. Head for Mr. Kutz, Hon. Chas. A. Spence for Mr. Keys, and Mr. J. H. Crist for Mrs. Freese.

Sheep and Follies.
W. S. Prager, the New Mexico sheep sanitary board, is in the city. Mr. Prager's home is in Roswell, N. M., and he has just returned from a meeting of the board at Las Vegas. He says there are 5,000,000 sheep in New Mexico, all in good condition. "The price of sheep has advanced 300 per cent over McKinley's time," he said. "And it is needless to say that I am a much better republican now than I ever was."—El Paso Herald.

Court of Private Land Sales.
The hearing of case 170, the Sangre de Cristo grant in San Miguel county, is still before the court, and may possibly be finished to-night.

The survey of the Bernardo de Miera y Pacheco and Pedro Padilla grant in San Miguel county, was confirmed for 11 square leagues. This case is a consolidation of cases Nos. 18, 19 and 207, and the grant is also known as the Canada de las Alamosas—New Mexico.

SALE OF...

Ladies' SHIRT WAISTS

AN IMMENSE STOCK to select from in a matchless as-
sortment of beautiful designs of new colorings and patterns.
We desire to lay Special Stress on the fact that we have not
one Waist in our store which is not made in the very new-
est style and sewed to last. We have Waists from the best
manufacturers in the country only; and do not compare the quality
of our goods with that of any inferior goods now placed before the
public. Our prices we shall always be pleased to hold open to
comparison. It gives us a chance to show how much good, honest
value, as to quality and workmanship, can really be crowded into a
Shirt Waist. We have just received another new shipment of
Waists, and must reduce our stock. We want to do this fast, and
we are making strenuous efforts to attain this end. Hence these
prices:

- Ladies' Percale Waists, worth 65c, now . . . 40c
- Ladies' Percale Waists, worth 75c, now . . . 50c
- Ladies' Gingham Waists, worth 90c, now . . . 65c
- Ladies' Madras Waists, worth \$1, now . . . 70c
- Ladies' Percale Waists, worth \$1.25, now . . . 95c
- Ladies' Madras Waists, worth \$1.50, now . . . \$1.10
- Ladies' Percale Waists, worth \$1.75, now . . . 1.35
- Ladies' Gingham waists, worth \$2, now . . . 1.50
- Ladies' Basket Cloth waists, worth \$2.50, now 1.75
- Ladies' White Lawnwaists, worth \$1, now . . . 70c
- Ladies' White Dimmity waists, worth \$1.50, now . . . \$1.10
