MAY BATTLE ON HIGH SEA

Conditions Now Indicate That the Navies Will Settle the Matter.

FIFTY MILES APART

Russian and Japanese Fleets May Come in Conflict at Any Time—A Fateful Encounter.

London, April 8.—The sudden shifting of the interest in the war from the land to the sea and the apparently imminent prospects of a fateful battle between the Japanese and Russian squadrons in the China Sea have revived all the interest shown here in the earlier developments of the struggle in the far east. It is taken for granted that Admiral Togo's ships, which were reported to be in the neighborhood of Singapore in the middle of March, are still in that vicinity and the report from Penang, on the west coast of the Malay Peninsula, that twelve Japanese ships were seen steaming ahead of Russian warships, is interpreted to mean that the former are scouts sent out by Admiral Togo to get in touch with the Russians and when that object has been accomplished to retire on the main body of the Japanese squadron. The reports about the number of the Russian ships vary, but at any rate over thirty-five battleships, cruisers, colliers and torpedo boats have passed the port of Singapore. The two naval forces were this afternoon only about fifty miles apart and may be in touch at any moment.

Russian Fleet in Malacca Straits.
Penang, West Coast Malay Peninsula, April 8.—Two steamers which have arrived at Penang report sighting a large Russian fleet in the straits of Malacca. It included 25 transports and was steering towards Singapore. The steamer Kumsang reports having sighted twelve cruisers, presumably Japanese, steaming some distance ahead, evidently a Japanese scouting squadron. There is much excitement here and at Singapore over anticipation of a naval engagement in Malayan waters.

Thirty-Seven Miles Apart.
Singapore, April 8.—The Russian fleet has been sighted, headed apparently for the Durlan straits, 37 miles south-southwest of Singapore.

3:10 p. m.—The Russian fleet is passing, steering northeastward.

Chinese Fleet Puts to Sea.
Hong Kong, April 8.—In consequence of the appearance of a fleet in the Straits of Malacca, the Chinese squadron is preparing to put to sea. The armored cruiser Sutlej leaves today for Singapore and the first class battleship Ocean and a cruiser will follow.

No Official Confirmation.
St. Petersburg, April 8.—4:30 p. m.—Intense interest was aroused here today by the announcement that Admiral Rojestvensky's squadron was passing Singapore but the admiralty does not admit that it has received any official confirmation of the report. In fact, officials have observed unusual reticence for some time about the movements and intentions of the squadron. At Russia's hopes of changing the fortune of war are staked upon this issue and for some time the admiralty has declared that only peace could intervene to prevent the final trial for mastery of the sea. Unofficial information also indicated that Rojestvensky intended to pass through the straits of Malacca. Some doubt is expressed here as to whether the Russian squadron has yet reached a point so far on the journey.

Linevitch Again Gets Busy.
St. Petersburg, April 8.—A dispatch from General Linevitch to Emperor Nicholas under today's date says: The battle at Tientsin, April 7, lasted twelve hours. The enemy's losses were heavy from our artillery and rifle fire. Our casualties were five killed and thirty-six wounded. On April 5th our outposts, after a fierce fusillade, pushed back the Japanese outposts to Tai Pin Lin. Our infantry the same day occupied the village of Koukouseki after dislodging the enemy. Japanese retreated precipitately.

Rojestvensky Is at Singapore.
St. Petersburg, April 8.—The admiralty has just received official advices from Singapore confirming the arrival of Rojestvensky's squadron off that port.

DESPERADO IS TAKEN TO RATON.

Special to the New Mexican.
Raton, N. M., April 8.—G. W. Franks, the noted desperado and train robber who was an accessory with McGinnis in the robbery of the Colorado & Southern train near Folsom in 1899, was taken yesterday from Trinidad to Raton by Sheriff Marion Little. Franks stands indicted in Colfax County on the charge of murder, but has until now evaded capture and been at large for the past six years.

NEW MEXICO BUILDINGS.

NEW PUBLIC SCHOOL AT SANTA FE.

JAP CLARK IS CAPTURED

The Murderer of Deputy Sheriff James M. Chase is Taken Into Custody at Capitan.

STORY OF THE FIGHT

J. C. Gilbert, Who Was With the Murdered Man at the Time of the Shooting, Tells the Tale of How the Trouble Started—Many Shots Fired.

Special to the New Mexican.

Colora, N. M., April 8.—Jap Clark, one of the murderers of Deputy Sheriff James M. Chase, of Torrance, is in the custody of the officers at Capitan. Dr. Laws, of Golden, dressed a wound in Clark's leg said to have been inflicted by Chase.

Eye Witness Tells the Story.
In connection with the above telegram the following letter, which was received by Captain Greet, of the El Paso police force the day after the shooting, is interesting, telling as it does the story of the affair as seen by one who was directly concerned:

"Torrance, N. M., April 5.
"Captain Greet, El Paso, Texas.—In regard to the telegram I sent you last night, will say that Jap Clark and W. A. McKean came to this town yesterday for the purpose of killing Chase and myself.

"They tried to shoot me first, but were prevented by bystanders. Chase and I were over to the depot when they found him and began to pick a racket. He told them he did not want to fight and they followed him about two hundred yards when Clark shot at him. He (Chase) then began shooting and they both emptied their six shooters. McKean was holding a man with his gun to keep him from helping Chase, or, rather, prevent him from doing anything.

"After the pistols were shot empty Clark and McKean ran to a saloon nearby and got their 30-40 rifles and began shooting at Chase. When about the third or fourth shot had been fired Chase fell. He died in twenty minutes after he was shot.

"After the shooting the two men got into a buckboard buggy and as they drove off I fired five shots at them, but did not know that I hit them. I was using a 30-40 U. S. Information has reached here that Clark was shot in the right thigh and was bleeding to death.

"The shooting grew out of the fact that Chase and I were witnesses in felony cases against both men. The cases were to come up at the next term of court.

Yours,
(Signed) "J. C. GILBERT."

SIMLA FEELS THE EARTHQUAKE.

Vice Regal Lodge Is Declared Unsafe and Lady Curzon Has Narrow Escape.

Simla, April 8.—The vice regal lodge has been declared unsafe as a result of the earthquake and Lady Curzon, wife of the viceroy, and her children have been moved into houses situated within the lodge grounds. Lady Curzon's bed room was considerably damaged. The shocks have ceased and the residents of Simla are reassured. Investigation shows that the damage to the vice regal lodge is so extensive that repairs will take several months. Lord and Lady Curzon, however, probably will be able to occupy the southeast wing during the season. Lady Curzon's sitting room, as well as her bed room, is badly damaged and it is considered her ladyship had a narrow escape from injury.

To Work on Scenic Highway.
Assistant Superintendent R. C. Garrett, of the Territorial Penitentiary, is making the necessary preparations to send a detachment of 25 convicts to Las Vegas end of the Scenic Highway across the Pecos Forest Reserve. It is not yet known who will go in charge of the men but it is likely that Chief Clerk W. D. Newcomb will be selected for that duty. Another detachment of 25 men will soon be sent to recommence work on the Santa Fe end of the Scenic Highway.

THE PRESIDENT IN FORT WORTH.

The Departure of the Train Practically Ends the Public Part of President Trip.

Fort Worth, Texas, April 8.—President Roosevelt arrived here this morning after an uneventful trip from San Antonio.

When the President's train entered the station an enormous crowd was on hand and gave him a hearty welcome. The committee entered the President's car and formally welcomed him to Fort Worth. Then, at the head of a parade he was driven to a large square facing the Texas & Pacific station. President Roosevelt was everywhere received with enthusiasm. When he reached the square he delivered a brief address. The train then left for Vernon, Texas. With the departure of the President from Fort Worth the public part of his trip may be said to have ended. He will reach Fredericks some time this afternoon and will spend several days on his hunting trip. The telegraph office at Fredericks has been enlarged to keep the President in touch with Washington and other points.

SANTA FE WILL HAVE DOUBLE TRACK.

It is understood in railroad circles that the Colorado division of the Santa Fe Railway between Denver and Pueblo will be double tracked this summer. The Denver & Rio Grande is also contemplating the double track system between the same points. The probable reason for this action on the part of the Santa Fe is that it has a joint track agreement with the Colorado & Southern between Pueblo and Denver and the added traffic over this particular section of the road will necessitate a double track.

TO PRESERVE OLD RUINS

Government Withdraws From All Disposal Lands in Northwestern New Mexico.

VALUABLE EVIDENCE

Of Prehistoric Civilization to Be Protected From Desecration—Located in the Chaco Canon, Near Navaho Reservation.

The U. S. land office in this city on Thursday received a telegram from the department at Washington ordering them to withdraw from all disposal the following vacant and unappropriated public lands: Township 21, ranges 10 and 11; section 12, township 20, range 8, and section 32, township 21, range 12, all north and west. The land so ordered withdrawn comprises 70,400 acres in the Santa Fe land district of New Mexico.

This withdrawal is made for the purpose of protecting prehistoric ruins in Chaco Canon in the northwestern part of the Territory, the land lying close to the Navaho Indian reservation.

The lands thus withdrawn are described as being of no use whatever for agricultural purposes. This withdrawal is made entirely to protect from desecration those most valuable evidences of a former civilization. In the territory withdrawn from homestead, or other forms of entry, there are some thirteen principal prehistoric ruins, the most notable being known as pueblo Bonito.

MESCALERO INDIANS AFFLICTED.

Meningitis Has Broken Out in the School at the Agency in New Mexico.

Washington, D. C., April 8.—Meningitis is evidently not a microbe that discriminates. A report has reached the Indian bureau from the southwest announcing that the disease has broken out in the school at the Mescalero Indian Agency in New Mexico. Superintendent Clark, of the agency, reports to Washington that three deaths have occurred at his school, directly traceable to meningitis, and that a fourth pupil is lying at the point of death. Commissioner Leupp at once decided that in order to check the disease and prevent danger of infection it would be wise to order the Mescalero school closed for at least thirty days, and such an order was wired Superintendent Clark yesterday afternoon.

MAN MURDERED IN FRISCO IS IDENTIFIED.

San Francisco, April 8.—Positive identification has been given to the remains found Wednesday night at Vallejo and Powell Streets on Thursday afternoon off Mieggs wharf, when Peter Concello called at the morgue and declared the mutilated body was that of his half brother, Biaggio Villardo, an Italian laborer. Concello tells a mysterious story of the disappearance of his brother, whom he saw for the last time three weeks ago. He also gives information which the police believe will lead to the speedy apprehension of the murderer.

FOUR HUNDRED KILLED OR INJURED AT MADRID.

Madrid, April 8.—Four hundred persons were killed or injured today by the collapse of the new water reservoir in course of construction. Fifty bodies have already been recovered. Troops sent to the spot are engaged in helping the sufferers and recovering the dead bodies.

A SHOOTING AT TRINIDAD

Ex-County Treasurer John Fox is Killed by Joe Johnson, a Desperate Character.

SHOT FROM BEHIND

Murdered Man Was Sitting in the Post-office When the Dead Was Committed—Town in an Uproar.

Special to the New Mexican.

Trinidad, Colo., April 8.—At 1:45 o'clock this afternoon Joe Johnson shot and killed John Fox. Fox was sitting in the postoffice reading a letter when Johnson entered and without warning fired a shot from where he was standing behind his victim, the bullet entering at the right ear and passing entirely through the head. Mrs. Mary Alton was present when the crime was committed and witnessed the whole affair. Johnson gave himself up but he refuses to make any statement as to why he did the shooting. John Fox, the murdered man, was very popular in Trinidad and the town is in an uproar. He was formerly treasurer of the county.

Joe Johnson, who was one of Senator Casimiro Barela's body guard during the last campaign, is a desperate character.

MYSTERY OF DENVER DISAPPEARANCE IS CLEARED UP.

Denver, Colo., April 8.—George Wilder, a Denver pioneer and former wholesale grocer, leaped from the deck of the Mallory liner Chonca into the sea on the night of April 5th. This news reached Denver in a dispatch from Key West today. Wilder, who was 84 years of age but vigorous in mind and body, disappeared from Denver about two weeks ago. No trace of him was discovered till day before yesterday when his daughters received a letter from him at Galveston saying he was about to take the steamer for Key West, but would not arrive there. The letter said he was tired and worn out and thought he would put his body "where there would be no inquest save shark's."

COLORADO ROADS CUTTING RATES ON THE SLY.

AFTER YEARS OF LETHARGY

The Church of Russia Awakens to Knowledge of Shackles of Bureaucracy.

CLERGY TALK FREELY

And the Revolt Against the Tyranny of Administration is Arousing Immense Interest.

St. Petersburg, April 8.—The revolt against the tyranny of church administration is attracting immense attention. The clergy are now speaking their sentiments as openly on religion as are the liberals in the political field. The intimate connection between the movements for the regeneration of the church and the reorganization of the state is set forth in a strong letter printed this morning and ascribed to "High Ecclesiastic" in which the writer says: "The church as the living idea is inextricably bound up with Russian life and when the Russian public realized that they could no longer exist without breaking the shackles of the bureaucracy the church awoke from 200 years of lethargy and its first murmur was that it was the universal right of every thinking Russian to do his task with freedom." The writer hails the days when the church, freed from state control, will devote itself to religion and not to politics.

Boycott on Vodka and Tobacco.
St. Petersburg, April 8.—Polish workmen and revolutionaries have found a new way of trying to embarrass the government by organizing a boycott of vodka and tobacco for the double purpose of saving the money of the poor and of reducing the revenue of the state.

BRIEF BITS OF NEW MEXICO NEWS.

Employees of the American Lumber Company at Albuquerque have organized a fire department.

Today at El Paso a gun shoot was held which was participated in by the gun clubs of Alamogordo, Silver City, El Paso and Douglas, Arizona.

Weldon, the 13-year-old son of Mr. and Mrs. S. E. Best, of Roswell, last week tipped over a tea kettle of boiling water and was severely burned about the chest and arms.

The bridge which has been asked for by the people of Chaves County to cross the Pecos River near Dexter or Hagerman can not be built for a long time. The money will have to be raised by a special levy, the first half of which can not be collected before next winter. So that even should the county commissioners grant the petition it will be almost a year before the structure can possibly be completed.

Charles Richard on Thursday took the body of his mother, who died at Las Vegas last Monday, to Hutchinson, Kansas, where interment will be made.

The people of Hagerman want to be incorporated and so petitioned the county commissioners of Chaves County this week. The petition asks that the commissioners call for a vote on the matter, but the board has not yet delivered its answer.

There are but six cases on the civil docket for the coming term of the Chaves County district court which convenes at Roswell on next Monday. Three of these are all that will require a jury.

LAND WILL BE RESTORED TO ENTRY.

About six weeks ago Jay Turley, chief engineer of the San Juan Canal and Development company, wrote to Professor F. H. Newell, Chief of the United States Reclamation Service, protesting against the withdrawal from entry of public land on the south and east of the Las Animas River, in connection with the La Plata Reservoir project. Mr. Turley sent a copy of his letter to Mr. Newell to Division Superintendent Henderlinder, U. S. R. S., in Denver and Mr. Henderlinder replied that if the subject was referred to him that he would report in favor of restoring the lands in question to public entry. Since returning to Santa Fe, Mr. Turley has received a reply to his communication to Mr. Newell, which says that the matter had been referred to Mr. Henderlinder. This means that in all probability the land under discussion will be restored to entry.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

PATRIOTISM SHOULD COMMENCE AT HOME.

It is noted from dispatches dated Chicago, New York and other American cities, that the American portion of the Japanese loan of \$150,000,000 was quickly taken up and that Chicago's \$15,000,000 was taken up in less than five hours.

Can it be patriotism that induced American investors to crawl over themselves to invest in the bonds of a belligerent nation? Or is it the savage in man, showing his appreciation for the victor? Certainly American patriotism could be exemplified to a much higher degree, through other more humane avenues. However, perhaps it is purely business, that the investment was made for profit, but are there not other avenues of investment in America, that would be both profitable and patriotic to American investors? There surely are.

Consider the grand results that could be attained by employing this vast sum in the upbuilding of this nation; in the creation of wealth, happiness and civilization.

The great Southwest, with its hundreds of opportunities, in as many different branches of industry, all waiting the magic touch of capital to unfold its mighty power of productive wealth, thus adding to the nation's resources and giving to patriotism and national citizenship the greatest impetus that the people of this day have ever witnessed.

If profit be the object, the resources of the Territory of New Mexico alone, are sufficient to offer thrice the profit that will ever be derived from the purchase of Japanese bonds. The great mineral industry of this Territory is yet in its infancy, the vast storehouses of wealth lying hidden in the mountain vaults of this golden wilderness have only been scratched. Ah, you say, "mining is a gamble!" Certainly not more so than the uncertainties of war.

Honest capital, intelligently directed in the development of the mineral resources of this Territory will return safe and magnificent profits, but if timidity prevents one from entering this line of industry he is invited to investigate the industry of stock-raising and especially of cattle and sheep in this great Territory.

Fifteen millions of dollars invested in the up-building of the newly opened up and wonderful Estancia Valley, a valley unexcelled even by the valleys of the famous Nile, with an average rainfall of from ten to fifteen inches and an underflow of artesian water that comes to within ten to twenty feet of the surface, if intelligently directed and if such crops, cereals, fruits and livestock as those best adapted to this latitude were grown, would produce twenty or even fifty times the profit to be derived from a four and a half per cent. bond.

Think of the homes that this vast sum would build in a new and prolific valley. Think of the wealth that would be added to the nation's storehouse, but distance lends enchantment and perhaps New Mexico is too near the commercial centers of this great nation. Perhaps it is too well supplied with the trans-continental lines and north and south connecting links. Too accessible; can it be possible?

The investors of America are asked to investigate the conditions of this vast Territory, its climate, its productiveness and its position. Attention is called to the great possibilities here offered, to invest in a new, rapidly growing country, where the investor does not only reap the profits of production from year to year, but the increase in the value of the land and growing stock is a hundred fold greater than the same industry can offer in the thickly populated eastern states of the Union.

It is but thirty-six hours ride from Chicago to the very center of this wealth producing Territory. Turn your eyes to the Southwest where the people are wholly engaged in producing wealth, where your efforts will pro-

mote peace, prosperity and happiness at home.

THE FORMATION OF STATEHOOD LEAGUES.

In accordance with a call issued by a number of Albuquerque citizens, a meeting will be held in that town this evening for the purpose of forming a Statehood League. The movement may be one in the right direction and again it may not become so. It is noticed that the call for the meeting contains the names of some very good men, but there also appear in that call the names of men whom the people of this Territory have learned to distrust for well-known and weighty reasons. It is the right and privilege of the citizens of Albuquerque or of any other section of New Mexico to form Statehood Leagues or to do anything in the line of forming political clubs or associations for such purposes as they may desire, but it is also the right and privilege of citizens who do not care to uphold such movements or to oppose them, to do so. The New Mexican has been first and foremost in the advocacy of Statehood for New Mexico for over 40 years and proposes to keep in the van of that movement until success is attained. It has been and it is today a single statehood paper and proposes to keep on in that line as long as there is any chance for success. There is at this time no necessity and no hurry for the formation and work of Statehood Leagues. The Fifty-ninth Congress will not meet until next winter and no matter what sort of a Statehood bill Congress will pass, joint or single, no Statehood election can or will take place until November, 1906. The question of the formation of Statehood Leagues and commencing work at this time should be carefully considered before active work is begun. To many patriotic and good citizens it looks as if it would be well to leave well enough alone for the coming summer at any rate and commence work with the beginning of the session of the coming Congress.

COUNTY RECORDS SHOULD BE FREQUENTLY EXAMINED.

The presiding judges of the several district courts of this Territory should instruct grand juries carefully and diligently to examine county records and accounts. Semi-annual inspections of these accounts and a full report made to the presiding judge of each district and published for the information of the people and tax payers are bound to do great good. A case in point is the condition of the financial records of Sandoval County. Had these been carefully examined during the past two years by grand juries and had reports of these investigations been made public, the bad and unsatisfactory condition of the records would have been discovered quite early, proper steps would have been taken to have them kept correctly and according to law and the shortages discovered would in all likelihood never have occurred. Competent men on each jury should be appointed at every court term for the purpose above stated and careful examinations of county records and county finances should be made. Incompetency, incorrectness, acts of dishonesty found and shortages should be promptly reported to the courts and indictments found against the offending officials, who should be held responsible.

Such conduct on the part of the courts and district attorneys would certainly improve the financial and business administrations of several of the counties, where such seems to be necessary. The New Mexican respectfully, but very earnestly, calls the attention of the judges of the district courts to this very important matter.

THE EXPECTED COMING TRUE.

"The Bureau of Immigration announces through its daily publication in Santa Fe, that it has been sending copies of the expensive volume, 'To the Land of Sunshine' to the Arizona newspapers. What is the Bureau of Immigration trying to do? Maybe it expects to convince Arizona that it is not in the land of sunshine."—Albuquerque Journal.

The Albuquerque Journal has become obtuse of late. It does not care to see any good in any direction, except it benefit the money lenders and money changers who own the paper. The supplying of correct information concerning New Mexico, to Arizona newspapers, by the Bureau of Immigration, is not the kind of work that appeals to the Journal. That paper cares little for what is good for New Mexico. The success of the money making schemes of its owners is about all it cares to consider and to support. In the very nature of things but very little for the public good can be expected from such a paper and the expected is coming true in this instance.

The Department of State has just published documents showing that Emperor William is the most persistent and the leading apostle of the open door in the markets of the world and that it was he who inspired President Roosevelt and Secretary of State Hay to insist upon the open door in China. There is no objection to the open door policy if William will refrain from asking for an open door for German trade in the United States. The Republican party is pledged to keep that door tightly shut against all comers from the outside. In the meanwhile, however, let us have the open door to China, to Morocco and even to Germany, which latter should not be refused, if Emperor William is consistent in his views.

SUBSIDIZING THE KANSAS NEWS-PAPERS.

The New Mexican told this week how the Russian autocrats are beginning to realize the power of the press and have established news bureaus at Berlin and at Paris. The American autocrats are aroused by the same fact. The Standard Oil Company is subsidizing the country press of Kansas by placing with it advertisements of the virtues of the Rockefellers and their trust creations and paying for them at ten cents a line, or three times as much as the average Kansas weekly gets ordinarily for its advertising space. In consequence, Kansas has cooled down considerably and the Standard Oil Trust will in due time have matters going its own way again, even with Governor Hoch, a country newspaper publisher, in the executive chair. Fortunately for the future power and reputation of the press, it is not as venal as the purchase of the Kansas country press seems to indicate. There will always be papers that are fearless and unpurchasable in what they consider right and the love of fair play of the average man is such that he will subscribe, read and be influenced by the fearless newspapers, when he only has a sneer and disdain for the press that wears chains even if they are golden.

According to the Colorado papers, President Roosevelt, although ostensibly on a hunting trip, will do mighty little hunting in the Centennial State. The only game that he would dare to hunt legally at this time is mountain lion, bear and wolves. The Rocky Mountain News says that there are no wolves in Garfield County, that bear are still hibernating and that the snow is much too deep in the mountains to make lion hunting possible. Some one should drop the President a private line and tell him that if he wants any real lion and bear hunting he should come to New Mexico, where within thirty miles from Santa Fe he can find all the game he can take care of. But then, perhaps, the hunting story is only a ruse and the President wants to escape merely for a month from being hunted by office seekers, by whom he is considered legitimate game.

It is difficult to tell beforehand and sometimes afterward what factors go toward achieving a political victory. Colorado Springs is normally a strongly Republican city and yet, this week, it elected as mayor a Democrat, who was not in Colorado when he was nominated, took no part in the campaign, did not spend a cent to have himself elected and was at Grand Rapids, Michigan on election day and will not return to Colorado Springs in time to take the oath of office but must do so in Michigan. It is easy to analyze the average voter but when it comes to foretelling what the aggregate of voters will do on election day, all rules of mathematics and politics frequently fail.

The city of Chicago has a little coal oil inspection law of its own but the Standard Oil Company has thus far refused to pay the inspection fee on naphtha and gasoline, claiming that naphtha and gasoline are not products of petroleum. The city has filed a suit for \$40,000.00 against the Standard Oil Company for refusing the fee, but it is very probable that it will lose the suit and will have to pay the costs in addition. This is interesting in view of the fact that the Democratic papers jumped upon the Thirty-sixth Legislative Assembly for excluding naphtha from the provisions of the coal oil inspection law passed by it.

Dr. Charles E. Chadsey of the Denver public schools, declares that two-thirds of the school children in the United States ignore all laws of hygiene; that one-third are ill or defective; that 300,000 have adenoid growths in their noses; that 150,000 are deaf; that 300,000 have defective sight; that 12,000,000 have bad teeth; that 100,000 are stutterers and that 200,000 have chronic headache. If Professor Chadsey has sized up the crop of youngsters correctly then the advocates of race suicide should have their way until parents and public authorities have learned how to take care of children.

Kaiser Wilhelm, the war lord of Europe, says that Germany wants only "the open door in Morocco." The Kaiser will do well to remember this in times to come. Should Germany want any more than that in Morocco, the possibilities are that it will have to deal with the navies of England and France. Should this ever happen, the result is not doubtful. Italy and Spain, of very necessity, would have to slide with England and France, should strife over Morocco arise.

LOVE
Often leads to poverty. No real woman ever sold her heart for the luxuries of life. But many a woman who has gladly faced poverty for the man she loved, may well doubt her wisdom when pain becomes the mate of poverty. If she were rich, she thinks, she could find a way of cure. Dr. Pierce's Favorite Prescription is within the reach of every one. It lifts the burden of pain which weighs down those who suffer from womanly diseases. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"You have my heartfelt thanks for your kind advice to me," writes Mrs. Geo. Fletcher, of 104 Victoria Avenue, Galt, Ontario. "I was troubled with catarrh of uterus for over a year. The doctors said I would have to go through an operation, but I commenced to use Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' also his 'Lotion Tablets' and 'Antiseptic and Healing Suppositories.' Now I am completely cured, after using six bottles of Dr. Pierce's medicines. I am glad to say my medicine has made me a new woman."

Weak and sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets are easy and pleasant to take. A most effective laxative.

CURED CONSUMPTION.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1 at Fischer Drug Co.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but that this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by all druggists.

GIVES HEALTH, VIGOR AND TONE.

Herbine is a boon for sufferers from anemia. By its use the blood is quickly registered and the color becomes normal. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50c at Fischer Drug Co.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

THE BEST COUGH SYRUP.

S. L. Apple, ex-Probate Judge, Ottawa Co., Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c, \$1.00, at Fischer Drug Co. pany.

For a Weak Digestion.

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefited by their use. They only cost a quarter. For sale by all druggists.

INVALUABLE FOR RHEUMATISM.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Degnan, Kinsman, Ill. 25c, 50c and \$1.00 at Fischer Drug Co.

Keep your bowels regular by the use of Chamberlain's Stomach and Liver Tablets. There is nothing better. For sale by all druggists.

TERRITORIAL BOARD OF OSTEOPATHY.

The Law Creating the Same as Passed By the Thirty-Sixth Legislative Assembly of New Mexico.

In response to more than a hundred letters from people all over the Territory the New Mexican today publishes in full the bill which passed the last session of the Legislature, becoming law, and creating the Territorial Board of Osteopathy. The bill as passed follows:

"Be It Enacted by the Legislative Assembly of the Territory of New Mexico:

"Section 1. The governor of this territory shall appoint a board within ten days after the passage of this act and biennially thereafter, and shall fill all vacancies.

"This board to be known as the Territorial Board of Osteopathy and shall consist of three legally qualified resident practicing osteopathic physicians, each of whom shall have been actively engaged in the practice of osteopathy in this territory for at least one year prior to their appointment, and shall serve for a term of two years, and until their successors shall have been duly appointed and confirmed by the legislative council.

"Section 2. Said board of osteopathy shall elect a president, secretary and treasurer, and shall have a common seal, and its president and secretary shall have power to administer oaths.

"Said board shall hold meetings in the City of Santa Fe, in the capitol building, in the rooms provided for it by the capitol custodian committee, on the first Monday in April and September of each year, and such other meetings as may be deemed necessary; and shall issue certificates of qualification to all applicants who meet the requirements of this act.

"Section 3. Said board shall create no expense exceeding the sum received from time to time as fees as hereinafter provided.

"Section 4. The fees coming into the treasury of said board shall be paid out upon warrants of the president and secretary thereof in payment of the compensation and expenses of said board in carrying out the provisions of this act.

"Section 5. Said board shall make such rules and procedure for the regulation of all matters of applications and hearings before it as it may deem advisable.

"Section 6. Any person who at the time of the passage of this act, shall be actually in the practice of osteopathy in this territory, shall be entitled to receive such license upon making application to the board at its first regular meeting and paying a fee of five (\$5.00) dollars and satisfying the board that he was lawfully engaged in the practice of osteopathy in this territory at the time of the passage of this act.

"Section 7. Any person before engaging in the practice of osteopathy in this territory, after the passage of this act, shall, upon the payment of a fee of (\$25.00) dollars, make application for a certificate to practice osteopathy to the board of osteopathy, on a form prescribed by the board, i. e.,

"1st, Evidence of good moral character; 2d, preliminary education equal to a high-school diploma or teacher's certificate; 3d, the name of the school or college of osteopathy from which he or she was graduated, and which shall have been in good repute as such at the time of issuing of their diploma, as determined by the board; 4th, the date of their diploma and evidence that such diploma was granted on personal attendance and completion of a course of study of not less than three full terms of nine months each in three separate years: Provided, however, That the board may in its discretion receive applications for the examination from osteopaths who have graduated from a reputable osteopathic college of not less than two years' course and furnishing evidence of field practice of not less than one year, and such other information as the board may require. And such applicant shall at the regular meeting of the board, submit to an examination in the following branches, to-wit: Anatomy, physiology, chemistry and toxicology, pathology, gynecology, obstetrics, hygiene, dietetics, surgery and theory and practice of osteopathy and such other subjects as the board may require.

"The person receiving said certificate shall have same recorded in the office of the probate clerk of the county in which he or she intends to practice, and shall pay a fee of one dollar and fifty cents (\$1.50) and the record shall be endorsed thereon. In case a person removes to another county to practice, the holder shall record his certificate in like manner in the county to which he or she removes.

"Section 8. Any person practicing osteopathy within the territory without having obtained the certificate herein provided for, or contrary to the provisions of this act, or who, for the purpose of obtaining such license, shall falsely represent himself or herself to be the holder of a diploma as herein provided, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than fifty dollars nor more than one hundred (\$100.00) dollars or by imprisonment in the county jail for a period of not more than ninety days for each and every offense.

"Section 9. This act shall take effect and be enforced from and after its passage and all acts and parts of acts in conflict herewith are hereby repealed."

SANTA FE

A. H. MERRITT.

"Tired in the Morning"

This condition is unnatural. A healthy person gets up in the morning well rested, feeling fine and ready for the day's work.

If you get up in the morning tired, it simply means that your nerves have not rested and their restlessness has not allowed you to rest in the healthy, normal way.

"Tired in the morning," "Run down," "All worn out"—these signs are the warnings—they mean that your nerves need attention.

You must feed some new power to your nerves.

That is just what Paine's Celery Compound does. It feeds new power to the nerves and builds them back to healthy strength.

It makes new Nerve Force.

It makes new vitality and makes life worth living.

That is just why for the past 18 years Paine's Celery Compound has been the most universally used tonic in the world.

A. H. MERRITT'S EXPERIENCE WILL PROVE VITALLY INTERESTING TO THOUSANDS.

"Two years ago I had a nervous disorder that completely prostrated me. I couldn't sleep, and would lay and toss about all night, arising in the morning more tired than ever, head heavy, eyes dull and every bone and muscle aching. I tried to get along without calling in a doctor, but was finally driven to it. He treated me for some time, but with no perceptible improvement in my health. Some one recommended your Paine's Celery Compound. The change it effected in my system was noticeable almost instantly. I gradually took on flesh. The 'all-gone' feeling left me. In less than six weeks I was fully recovered from what looked to me like an everlasting sickness. I feel actually grateful to you, as my health to-day is a testimonial of what your medicine can do. Yours very truly,"—A. H. Merritt, 32 Muelo Hall Building, Boston, Mass., Feb. 12, 1904. Bandmaster First Regiment Band, Heavy Artillery, M. V. M.

Try Paine's Celery Compound to-day. Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once.

The patient feels this at once and gains confidence by it.

The stronger nerve forces have begun to once to make each organ of the body do the work that nature expects of it.

Two days' treatment with Paine's Celery Compound will prove its marvelous power.

For over 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this world has ever known, Prof. E. E. Phelps, of Dartmouth University.

All reputable druggists recommend and sell Paine's Celery Compound.

An attack was annoying me just before I went to Ireland's Pharmacy for Doan's Kidney Pills. It was perhaps not as aggravated as some in the past for I had been laid up unable to work for a week at a time but be that as it may the treatment with Doan's Kidney Pills radically disposed of the said attack."

After "La Sanadora" Has Been Used by Thousands of People With Great Success, the Praises of the Wonderful Medicine Which We Herewith Publish, Bear Witness to Its Merits.

Territory of New Mexico,
County of San Miguel.

I, Juan Ignacio Baca, do hereby make this declaration under my oath: For the period of three years I had been afflicted by Malaria Fever, and my sufferings were such that I was unable to do any kind of work, or attend to my business. I procured and used many patent medicines without deriving from any of them any benefit to my health, and having lost all hope of recovering my health, it was my good fortune to meet the excellent good lady, Mrs. Emilie M. de Delgado, of this city, who kindly recommended me the use of "La Sanadora" for my case, and she herself gave me the medicine according to directions, and it resulted in a complete restoration of my lost health. After three days that I had been using the medicine, I felt so well that thereafter my energy to move returned and my health is excellent. I always keep at home this wonderful medicine, and it is a great satisfaction to me to know that its use in any kind of similar diseases, shall always prove a blessing. And I recommend all persons suffering to avail themselves of this medicine, assuring them that they will find the desired relief.

I, Millard F. Davidson, make this statement under oath for the benefit of all sufferers as I have suffered. This present winter I caught a bad cold and had pains in my chest and a severe cough. I thought I was surely going to have pneumonia. I tried different remedies, but none relieved the pain or stopped the cough. I heard several people recommend Sanadora so I tried it and in less than two days was well and able to attend to business. Since then I have called others' attention to this remedy, and without exception they have been cured. It does what is claimed for it.

This is to certify that I am a resident of the County of Lincoln, Territory of New Mexico, that I have suffered with scrofula trouble for four

years and have sought in vain for a cure, both with doctors and prepared medicines, blood purifiers, etc. Nothing seemed to do me good. I was prevailed upon to try Sanadora some three months ago, which I did and I believe now I am completely cured. When I began taking this medicine I had breaking out on my body and sores which have now entirely disappeared. I feel first rate and can recommend Sanadora to anyone who is troubled as I have been.

LA SANADORA CURES!
ONE OF CURE:

Hedges, San Diego, Co., Cal., July 12.
Romero Drug Company,
Las Vegas, New Mexico.

Dear Sirs:—

My wife has been afflicted with Rheumatism and Neuralgia for a long time, and before writing to you, she had used a great many so-called remedies without apparent benefit. Realizing the fact that unless she obtained relief soon her disease would get the best of her and develop into something more serious. I commenced to search for some reliable remedy, and thanks to God I saw the advertise-

ment of "La Sanadora" in one of our Spanish papers and decided to give your remedy a fair trial, which, I am pleased to say, has proven satisfactory.

"La Sanadora" has entirely cured my wife of these diseases and she now feels like a new woman. I can truthfully say that "La Sanadora" has given her relief after all others have failed. I feel so thankful for the good "La Sanadora" has done for my wife that I consider it my duty to add my testimony to that of others who have been cured by your wonderful remedy "La Sanadora." If any one doubts the truth of this statement, let him or her write to me and I will tell him or her just what "La Sanadora" has done for my wife.

Thanking you very truly,
PROFESSOR A. J. MONROY, M. A.
Deputy Clerk of the Supreme Court of San Diego Co., California.

From the Optic, July 27, 1903.

Juarez City, State of Chihuahua, Mexico, November 23d, 1903.
Romero Drug Company,
Las Vegas, N. M.

Gentlemen—This letter is for the only purpose of informing you of the following facts:

Since the 7th of the present month I have been suffering from a very severe cold, to such extent that for two weeks I could not sleep, during which time I tried different medicines to seek relief but all in vain. Accidentally I noticed in one of the newspapers to which I am a subscriber, an advertisement of your preparation, "La Sanadora," and having read the same carefully, I sent for a bottle of that medicine, and as soon as I took the first dose according to directions given, instantly I felt great relief, the fever and all pains I had been suffering having disappeared and I could regain my sleep, having passed the night pleasantly, and today I feel in good spirits having regained my usual good health. As I cannot fully correspond the benefit received from the effects of so invaluable medicine, I hasten to send you these lines as a testimonial for publication, recommending "La Sanadora" to all those suffering from the effects of colds.

Yours very truly,
MELITON CONCHA,
Leader of the Chihuahua Band.

Lincoln, New Mexico, Feb. 8, 1902.
Territory of New Mexico,
County of Lincoln.

I, Patricia Miranda, a resident of Lincoln, New Mexico, upon my oath make this the following statement: That about the first of the year 1901

I became sick with stomach trouble, which soon ran into diarrhoea and dysentery. I was treated by a doctor here and also at Fort Stanton for eight months at an expense of over one hundred and fifty dollars. I also tried a number of different patent medicines, but got absolutely no relief. My weight was reduced during this time from one hundred and sixty pounds to one hundred and twenty pounds, and I had got into such a reduced condition that I could hardly walk and could do no work at all. I had lost all hope of ever being cured but upon the recommendation of Aragon Bros. & Co., doing business here, I made a trial of Sanadora and used it as directed. The first bottle gave me relief and by the time I had used the third bottle by stomach was well and my diarrhoea had stopped, but I continued taking the medicine until I used six bottles in all, and now can say I am completely cured and have gained back my regular weight. I feel it my duty to testify to what Sanadora has done for me, and so make this affidavit.

PATRICIO MIRANDA, (X) His Mark.
Witness: B. H. MOELLER.

Subscribed and sworn to before me this 8th day of February, A. D. 1902.

CHURCH WORK IN SANTA FE.

Professor J. A. Wood spent last Sunday in Las Vegas at the ordination in to the work of the Baptist ministry of Rev. Harry H. Treat and Rev. Manuel Crespin. Mr. Treat becomes pastor of the First Baptist Church of Las Vegas.

The Ladies' Aid Society of the First M. E. Church is planning an Easter sale to be given the Saturday before Easter. Goods will be displayed in the church parlors and the public should bear the date in mind—the 22d instant.

The Christian Endeavor Topic for Sunday evening is "What Does Christ's Life Show Us About the Father?" John 14:6-24. Mrs. Allen R. McCord and R. J. Crichton are the leaders of the evening and an interesting program has been arranged—6:45 p. m., First Presbyterian Church.

The kindly sympathy which has been shown Rev. and Mrs. J. L. Shively in the loss of their daughter Myra, has been so universal that they wish to extend heartfelt thanks to the community. The death of his beautiful girl has come to a large number of the people as almost a personal loss.

The annual church meeting of the First Presbyterian Church was held on Wednesday evening, instead of prayer meeting. Reports were heard from the various societies connected with the church, which showed a prosperous condition generally.

At St. John's M. E. Church (First) the pastor, Rev. J. L. Shively, will preach morning and evening the coming Sabbath. Morning services at 11 a. m., theme "The Christian's Possessions," evening theme, "Right Living,"—services at 7:45 p. m. A cordial welcome to all.

The Ladies' Aid Society of the First Presbyterian Church met at the home of Mrs. F. P. Owen on Palace Avenue, on Friday afternoon.

The Junior Endeavor Topic for Sunday afternoon is "The Story of Nabad and Abihu." Lev. 10:1-10. This is a temperance lesson and Miss Alberta Kerr will lead the meeting.

Sunday schools meet at the several churches at 9:45 a. m., and though the hour is a little early for Sunday morning a slight effort will get the children ready. This should be done by all the families of the city, the results are worth the effort.

Rev. George F. Sevier will preach as usual at the First Presbyterian Church next Sunday morning and evening. The public is most cordially invited.

The pastors of this city are still hoping that they will be able to secure the services of some of the noted evangelists for a brief period this spring. The excellent work being done at Deming by Evangelist Smiley brings the matter close to home.

MARRIAGE LICENSE LAW.

The new marriage license law requires probate clerks to post three copies of the new law in conspicuous places in each precinct. The New Mexican has printed the law neatly on card board and is now ready to fill orders in English or Spanish at fifty cents for each poster. Probate clerks should enter their orders immediately as the law goes into effect on April 14, 1905.

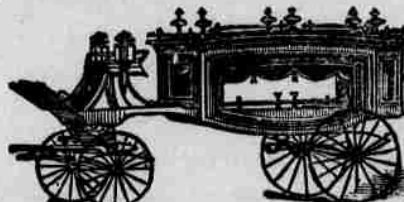

MONEY'S DIGEST.

The New Mexican Printing Company has made arrangements with the publisher of Money's Digest of the New Mexico reports to sell the same at the reduced price of \$6.50, delivered in any part of the Territory. This price will hold good only for a limited time in order to reduce the stock so as to pay for the publishing of the book. This price is subject to withdrawal without notice, cash to accompany each order.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the "New Mexican."

STRONGEST IN THE WORLD.
THE EQUITABLE LIFE ASSURANCE SOCIETY.

Men plan, men dream dreams, men see visions. And the dreams are shocked into realities. The visions vanish into general frustration. The nicest scheme of economics tumbles into domestic chaos. Your policy in the EQUITABLE will prove an asset in all times of need. See to it that you get it into force and keep it in force.
