## CABLES CUT CONNECTING CUBA!

The Island is Now Entirely Isolated  
from the World.

### SHELLING OF GUATANAMO FORTIFICATIONS.

(Copyrighted Associated Press.)

On board Associated Press dispatch boat Dantless, off Santiago de Cuba, Wednesday night, June 8, via Kingston, Jamaica, Thursday, June 9.—The communication between the island of Cuba and the outer world was severed yesterday. The Kingston-Santiago cable was cut Monday. The Maribhead, Yankee and St. Louis cut the Haytian cable running into Guantanamo bay yesterday. The ends were buoyed and Rear Admiral Sampson can re-establish communication with Washington direct.

The Maribhead also engaged and drove a Spanish gunboat into Guantanamo harbor and shelled and reduced the antiquated fortifications. The insurgents cooperated on the land side. The place is being held until troops arrive. It is contemplated to establish a general base here.

The Cubans are active, and arms, ammunition and supplies for them were landed by the Swannet yesterday in great quantities. The insurgents and Spaniards fight daily.

The Maribhead, on Monday, when insurgents pressed forward west of Santiago, shelled the Spaniards, who fled to the mountains, checking the path followed with dead and wounded.

Santiago is on the verge of starvation. All food has been seized for the army and navy. The troops and sailors are on half rations.

Rear Admiral Sampson has officially declared that his purpose in the bombardment of Santiago was to clear the way for troops, and the object has been attained.

He personally commanded Kinsign Palmer for approaching within 150 yards of the Spanish batteries at night, and learning that the Spaniards were retreating guns.

The admiral sent the Vixen with a flag of truce to the entrance of the harbor yesterday, offering to exchange for Lieutenant Hobson and his party, some prisoners taken from a prize of the Maribhead off Cienfuegos. Admiral Cervera considered the matter all night, and sent word to-day that he was powerless to act. He referred the matter to the military governor and the latter in turn referred it to Captain General Blanco. A long delay is probable.

SIGHTED BY A GUNBOAT.  
Key West, June 9.—A government tug from Cardenas joined the American fleet off Havana yesterday, bringing messages for Commodore Watson from the auxiliary gunboat. This was to the effect that on Tuesday night the gunboat sighted four vessels, thought to be a battleship, two cruisers and a torpedo boat, between Salt Cay and Padre del Cruz light.

The gunboat followed them and when within speaking distance hoisted the private flag signal and the strangers answered with three masthead lights, which was not the required signal. Immediately thereafter they put out all their lights. The gunboat cruised after the strangers two or three miles, once approaching within 2,000 yards, but eventually abandoned the chase and reported to the nearest ship of the United States fleet. After a while then sent to Commodore Watson's letter to government tug and the latter in turn to Key West.

The commander of the gunboat which followed the four vessels, says he is satisfied that they were Spanish warships eluding trying to get into Havana or lying in wait for transports. The affair, however, is involved in doubt. The British cruiser Talbot left Havana Tuesday and may be one of the vessels sighted.

Spain is said to be calm.  
Madrid, June 9.—Bad news from the Philippine Islands caused a deep impression here. The country is calm, but there is a latent feeling of dissatisfaction which is only repressed on patriotic grounds.

To Enable Soldiers to Vote.  
Washington, June 9.—A bill to enable volunteer soldiers to participate in the congressional elections was taken up in the house to-day. A number of amend-

ments affecting the method of voting and the return of votes with a view to preventing fraud were incorporated.

Spanish Newspapers are Violent.  
Madrid, June 9.—Newspapers are printing violent articles demanding that responsibility for the political situation be determined. Political circles express themselves as quite satisfied that the powers will not permit the United States to hold the Philippines.

CRUISER CHARLESTON.  
This Warship Will Retain the Ladrones Islands.  
San Francisco, June 9.—The Evening Post will say to-day that the cruiser Charleston will not go to the Philippine island immediately, but that her destination is the island of Guahan, in the Ladrones group, controlled by the Spanish, which are about 1,500 miles from Manila and 3,500 miles from Honolulu. The chief city of Guahan is exceedingly well fortified for such a small place, and affords one of the best harbors and coaling stations on the Pacific. About six months ago the fortifications were strengthened by the Spanish to present a formidable resistance in case of attack.

The Post says that the United States will seize the group and use the island Guahan for a Pacific coaling station in addition to any others that she may seize in the future. The Charleston, the Post continues, was ordered to wait at Honolulu for the first fleet of transports that left this city and take the ships to the Ladrones.

It is asserted that the artillery which went on the Peking was really intended to garrison the forts at Guahan, and after quiet is restored and the islands are under the control of the United States, the Charleston will, with the transports, go to Manila.

It is said that the Monadnock will not stay at Honolulu, but will proceed to the Ladrones, and there remain as a permanent guardian of the interests of the United States.

Issued a Pardon.  
Washington, June 9.—The president to-day granted a pardon to Captain John D. Hart, now serving a sentence of two years for engaging in a filibustering expedition to Cuba.

TORPEDOES FOUND.  
The Spanish Torpedo Boat Destroyer Made Its Escape.  
(Copyright Associated Press.)  
Off Santiago de Cuba, Saturday, June 5, p. m., via Kingston, Jamaica, Monday, June 6, p. m.—The firing by the New York and New Orleans, briefly reported last night, was directed against a Spanish torpedo boat destroyer, probably the Furor or Pluton. The character of the enemy was not definitely known until next day when the torpedo boat Porter found two loaded torpedoes floating off the shore. Neither had been discharged, and one sank and the other was hauled on board the Porter. It exactly fitted the description of the torpedoes carried by the Pluton and Furor. It is believed that the torpedo boat destroyer escaped. She was seen by the New Orleans when too far away to do any damage and the heavy fire must have driven her back. When the New York arrived she would have time to sink along the shore and back into the harbor.

No News.  
Cape Haytien, June 9.—9:35 a. m.—Up to this hour there has been no cable communication with Santiago, and no further news from any source has been received from the American fleet.

River Rising.  
Kansas City, June 9.—The Missouri river in this section has reached the danger line, occasioned by the recent heavy rains and is still rising slowly.

Reinforcements for Sampson.  
Washington, June 9.—It is believed that the first reinforcements for Sampson's fleet arrived to-day off Santiago. These are 800 marines under command of Lieut.-Col. Huntington, who sailed

three days ago from Key West on the steamer Panther.

They are intended, not for distribution among the fleet but as a landing force pure and simple. Though no official confirmation has yet reached the navy department of the newspaper reports that come from Sampson's fleet to the effect that he had landed marines at Caimanera, and that they are in possession of strategic strongholds on the hills near by, naval officers here are inclined to accept as accurate the reports. They feel pride in the fact that the navy through its marine adjutant earned the distinction of being the first to occupy territory in Cuba.

Officials here express belief that the troops have already sailed from Tampa, but no one in authority or advised of the facts will make the statement publicly.

Cable Interrupted.  
Port au Prince, Hayti, June 9.—No news has been received this morning from Santiago, and it is said that cable communication is interrupted.

WILL INVESTIGATE.  
Senator Lodge Offers a Resolution to Investigate Lobbying.  
Washington, June 9.—In the senate this afternoon a lively discussion sprang up over a resolution offered by Lodge for investigation of the distribution of money paid under the claim of the Methodist Book Concern South. It is claimed that lobbyists get 35 per cent. of large amount of the claim, although congress had been assured that agents would get no part of the money. Several southern senators denounced payment to lobbyists.

Rebellion in China.  
Hong Kong, June 9.—It is announced in a dispatch from Canton that a rebellion has broken out at Chow Chow Pa, province of Kwan Tung. The rebels captured the city, killed the magistrate, his wife and others and burned the city of Yamen. Troops have been sent to the scene of the outbreak.

Serious disturbances have also broken out at Ning-Po, province of Che Kiang.

BRITISH SECRETARY BANISHED.  
Porto Rico Authorities Claim that He Gave Information to Americans.  
New York, June 9.—A copyrighted special from St. Thomas, Danish West Indies, reports that Macias, the governor general of Porto Rico, has been banished from the island. Walter Betts, secretary of the British consulate at San Juan, after subjecting him to fifty-six hours imprisonment and grossly mistreating him, British Consul General Crawford has banished the affair to his government. Betts was accused of revealing Spanish military secrets to the agents of the United States.

The day after the bombardment at San Juan by the ships of Admiral Sampson, General Macias escaped an extensive system of mines to be installed in the harbor in anticipation of a return of the ships and subsequent bombardment.

Although the greatest care and secrecy were observed by the Spanish in mining the harbor the details of the work were conveyed to Consul General Hanna. He is now making an extensive report to the navy department.

In some way General Macias learned this, and as the British consul has been guarding American interests at Porto Rico ever since the withdrawal of Hanna, he at once suspected that Kogelshiem had conveyed the news to the United States officials. He promptly summoned thirty British subjects before him and put them through a searching examination, after which several were sent into prison for twenty-four hours.

Up to Secretary Betts, General Macias visited most of his wrath. The British official was accused of having revealed the military operations, and was dragged off to a dungeon. There he was kept fifty-six hours in face of the protests of Consul General Crawford.

When the released Betts was presented with his passports, and he left for St. Thomas.

The military plans of General Macias were not disclosed to Hanna by British officials or subjects, but by trusted officers attached to Macias' staff.

STILL IN THE CITY.  
W. L. Trimble Talks About Coughlin and His Famous Stages.  
W. L. Trimble, who came to the other day from the Coughlin mining district, is still here, and honored THE CITIZEN office with a pleasant call this afternoon.

Mr. Trimble has a contract for hauling the ore and mill machinery of the Coughlin Gold Mining company, (Albuquerque people), and states that his work, in accordance with contract, is progressing finely.

He also stated that the Albuquerquians are determined to develop their extensive properties thoroughly, if not hampered and harassed by unnecessary legal complications and technicalities, and when they get down to solid work the future of the golden district will at once be solved.

Mr. Trimble also stated that travel to the famous Sulphur hot springs is starting out nicely, his four-horse stage carrying a list of six passengers to the resort on last Monday. These stages are made for mountain travel, and the scenery from blind to the sulphurs, over the Trimble route, cannot be surpassed anywhere in the United States.

The Conrado Gonzales, mentioned in THE CITIZEN of yesterday afternoon in connection with the Jose Romero y Ruiz shooting, is not the popular and well-known Conrado Gonzales, of this city, who is the son of an ex-congressman, who is Los Corrales, now deceased. The man, who is keeping out of the clutches of Sheriff Hubbard, is Conrado Gonzales, alias Manuel Garcia y Romero.

The report comes from Rocky Ford, Colo., that hail stones fell in that section yesterday, killing calves and other small stock. "Hail stones large enough to kill a calf," will probably hereafter take the place of the old stand by expression, "as big as a hen's egg."

A feast of San Antonio, out in the Sandia mountains, will take place next Monday, and the people of the little mountain village are preparing to entertain a big crowd of visitors.

Owing to the inclemency of the weather the opera, "Kismet," will be repeated on Monday, next, at popular prices—50 cents for reserved seats.

Reserved seats only fifty cents for "Kismet" next Monday night. Secure your seats early. There will be a big rush.

Judge J. W. Crumpacker is expected to return from the east this evening.

## SPANISH WARSHIPS!

They Run the Blockade and Enter Havana Harbor.

President McKinley Favors the Annexation of Hawaii.

New Mexico Granted Several Thousand Acres of Public Land.

SPANISH SPIES TO LEAVE CANADA.

Key West, June 9.—Persistent rumors, credited by naval officers of high rank here, are in circulation to the effect that three Spanish warships forced their way into Havana harbor. One report says that one battleship and two cruisers entered.

SUSPICIOUS SPANISH SHIPS.  
Key West, Fla., June 9.—Four suspicious looking vessels, thought to be Spanish warships, are or have been attempting to elude the blockading squadron off Havana.

WAR REVENUE BILL.

Compromise Bill Agreed Upon by the Conference Committee.  
Washington, June 9.—The conferees on the war revenue bill concluded their work at noon to-day, but declined to report their agreement to either house until all the amendments can be printed. This, it is believed, can be done by 1 or 2 o'clock.

The committee decline to give out any terms of the agreement in advance of the report to the house. It is known, however, that the senate silver coinage provision was retained, though in modified form.

The compromise provides for the coinage of \$1,000,000 a month instead of \$4,000,000 as provided in the senate bill. It is estimated that at the rate provided it will require about five years to coin the silver in the treasury.

The amount of bonds was also compromised, being placed at \$400,000,000.

The differences between the two houses on the tobacco tax were adjusted on the point of taxing the stock on hand by inserting a provision for tax additional to that already paid of three cents a pound on stocks of 1,000 pounds and more since the 14th of April. There was also a compromise on the size of the packages, the smallest packages being 1½ ounces.

TO BE ANNEXED.  
President McKinley Determined to Secure Hawaiian Islands.  
Washington, June 9.—The president has in contemplation, according to a senator who was in consultation with him to-day, the submission of a special message to congress calling for the immediate annexation of Hawaii as a military necessity. According to this senator the message will be delayed a few days to await the action to be taken by Speaker Reed and the committee, but it is likely to go in early next week.

New Mexico Granted Lands.  
Washington, June 9.—In the senate the house bill making certain grants of land to the territory of New Mexico for educational purposes was reported by the committee on lands and passed.

Spanish Spies.  
Montreal, Que., June 9.—Word has been received here from Ottawa that a messenger left there with the notice of expulsion from Canada of Lieut. Carran and Senior Du Bose, recently attached to the Spanish legation at Washington.

Presidential Nominations.  
Washington, June 9.—The president to-day sent these nominations to the senate: Volunteer army—Major General, Warren Kiefer, Ohio; brigadier general, John P. S. Gobin, Pennsylvania.

Miss Cisneros Married.  
Baltimore, June 9.—Miss Evangeline Cisneros was married here to-day to Carlos F. Carbonel, who assisted in her rescue from the prison at Havana.

Come to Grief.  
According to the El Paso papers, J. L. Whitten has been bound over to the grand jury, down that way, charged with burglary and larceny. Whitten is the fellow who conducted the Silver City Eagle for Proprietor Loomis on the "rule or ruin" plan, and took advertisements and circulated the Eagle "free of all costs" in many cases, just to "do up" the Enterprise and Independent of Silver City. Loomis was absent from his business the other day most of the time, and Whitten finally conducted the Eagle to the graveyard. He knew nothing about the printing business, although he considered himself thoroughly capable of being a "college graduate" back in the east.

Remanded to Jail.  
This morning at 10 o'clock, Justice Duran rendered his decision in the Joseph Metzinger case. Metzinger was remanded to the county jail, there to await, without bonds, the action of the grand jury.

Trains Delayed.  
The Santa Fe Pacific train from the west, eleven hours late, arrived in the city this morning at 10 o'clock. The delay was caused by the ditching of a portion of a freight train at Winslow.

The other trains north on the Santa Fe, were both nearly two hours late last evening, caused by a washout near La Junta.

Five Dollars Reward  
and no questions asked for the safe return of case and surgical instruments picked up on Gold avenue. Leave at Compositum Pharmacy.

OPERA "KISMET."  
Had Weather Keeps Back a Big Attendance—Will be Again Presented.  
The opera "Kismet" was reproduced at the opera house last evening, and while the audience was not as large as on the previous evening, the play was rendered as well, if not better.

The play, which came up late in the afternoon and continued until after 8 o'clock, no doubt was the cause of the small but very appreciative audience last night.

Immediately after the last scene the company of "amateur stars" appeared before the footlights, and had their pictures taken in a group by Photographer Voorhes.

Mrs. Blackley informs THE CITIZEN that, at the request of many who were unable to attend either of the performances given, she has concluded to present "Kismet" for the third time in Albuquerque, and has selected Monday night, June 13, tickets are on sale at O'Reilly's drug store.

Money for Train Handicaps.  
The telegraphic news editor on the globe-trotter has an idea that the small iron safes, handled down this way by the Western Union company, are worth tampering with by train bandits.

In a recent dispatch from this city, in reply to the expressed request taken by the Belden brothers when they dynamited the safe, the globe-trotter news editor has the amount \$700,000, when it should have been \$7,500.

The latter figures are still in doubt, but the Socorro Advertiser, in its account of the power's pursuit from that county, says "that a money package wrapper was picked up showing that it had contained the sum of \$2,500, and that the men were forced to abandon the silver money they were carrying, about \$400, where they killed Vigil and his men, and it is tolerably certain that the Indians got it."

The exact amount taken by the daring bandits cannot be known until the Wells, Fargo Express company is ready to give out the news, which date is at present unknown.

Henry Carpenter, the warrior of Tijeras canyon, drove to-day and was noticed in consultation with Commodore Kent. He stated emphatically that the Rio Bravo Spanish fleet is actually "bottled up" in Anahuac harbor, and that the battleship Leger will soon commence the bombardment of the entrance fortifications as soon as the commodore transmits his flag from the Bavaria Hop. It is "Captain Carpenter's opinion that the Rio Bravo fleet cannot get away unless in a wavering condition, for the seaborne under the commodore are manned by the best gunners.

The little six-year-old Virorio Garcia, the boy who was shot at the neck at the time the O'Bannon child was killed by the ruffianly Ruiz, has had to contend with the measles since being confined to his bed by the shot that nearly extinguished the flame of life. Dr. Hupis is giving the little fellow the best of attention, and he has about recovered from his wound and the disease. The boy will, in all probability, always have a stiffened neck and have his head turned to one side as a result of being wounded.

There is happiness at the Las Moras ranch, about thirty-five miles from this city. Mr. and Mrs. David Farr are revealing in the innocent smiles and cute prattling of a fine baby boy, which arrived on Monday night. Mr. Farr, the happy father, is a brother of William and Joseph Farr.

Debut of the season was the opera of "Kismet," given last Tuesday and Wednesday nights. It will be repeated next Monday night at popular prices.

A complete line of bottled meats and delicacies for luncheons and picnics, at Bell's.

ADMIRAL SAMSON is smashing things in Cuba.

ADMIRAL DREWY will soon have a big army to back his gallant fleet.

NEW MEXICO has a most creditable exhibit at the Omaha exposition.

It is reported that the insurgents in the Philippines have taken the city of Manila.

TEXAS will have no timber in fifteen years if the present rate of cutting, 1,000,000,000 feet a year, continues.

For the eleven months ending May 31, the United States treasury receipts show an increase over 1907 of over \$60,000,000.

The coast of Cuba is being planted with American shells. The crop will be a profitable for the island, with free institutions.

The senate has passed a bill providing for the appointment of two matrons for every volunteer regiment to mend and wash clothes.

The Rand district, South Africa, produces more than \$5,000,000 in gold monthly, the average yield of the ore being about \$10 per ton.

The Sacramento Chief, published at La Luz, N. M., has greatly improved in general appearance, and is now a neat weekly newspaper.

It has been the design to recruit the regular army with 60,000 men, but so far the attempt has been a comparative failure, and it is reported from Washington that it is regarded doubtful if 40,000 can be added to the present force.

The territorial republican central committee should be called together by Chairman Bartlett and arrangements made for a vigorous campaign. The republicans can win a complete victory next fall if the party is organized in each county.

Under the call for 75,000 men this territory will not get a chance to furnish volunteers. The announcement is made, however, that thirty-five men are wanted for the Roosevelt regiment from this territory, and the men will be enlisted at Santa Fe.

The celebrated Anaconda mine, Montana, yielded but an average of 4.64 per cent. copper last year in its vast output. There is higher grade copper properties than that in these parts, which, with development, would undoubtedly prove as valuable as the Anaconda.

The rainy season on the Florida coast may now be said to have fairly commenced. The rainfall is simply enormous, but the ground, dried like stone by a drought that has lasted eight months, readily absorbs the water as it falls, and but little discomfort is experienced by the soldiers.

An eastern paper says "it is interesting to know just at this time that in the United States senate there are twelve senators who served in the Union army and twelve who served in the confederate army. There are fifty-seven representatives who served in the Union army and thirty who are ex-confederates."

ONE of the San Francisco banks has already made preparations to open subscriptions for the popular loan of \$300,000,000, for which war bonds are to be issued. This is right. Give the people of the country a chance to subscribe for these bonds and they will all be taken in less than thirty days without the aid of syndicates and heavy capitalists.

The officers of the Territorial Fair should be selected and active preparations for the fall exhibition should begin. The war with Spain is virtually over, the end is in sight. In a few weeks Cuba and Porto Rico will be taken. Spain has exhausted her resources. The closing up of the skirmish will not affect things in New Mexico. Therefore let's have the biggest fair ever held and get in shape for the good times to follow the war.

THE Philippine islands are very rich in forests and contain many valuable woods, mostly unknown even by name in the rest of the world, says the Scientific American. There are said to be thirty-two tinctorial woods, giving the entire series of colors and shades. Among the valuable ones is the ebony, and the magkano is said to be absolutely indestructible by rot. The forests generally remain intact in the interior, except for Luzon, where they have been extensively thinned out.

ADVANTAGEOUS ALLIANCE.  
Great Britain and the United States, if they should conclude to set together, could benefit not only themselves but the rest of the world. The New York Independent puts it forcibly: "The virtue

nations of the earth are five, the grown, strong nations, the nations that are trying to develop civilization. They are the United States, Great Britain, Germany, Russia and France. The development of the world is in their hands; and the best of them, the two that have the highest ethical ideas with their civilization, that can do most and best for the world, are Great Britain and the United States. These two nations, if they will only work together, can put their veto on the rest of the world. They are the best of friends, they make no untangling alliances and do not need to; but if they can only understand each other they can control the world's history. They ought to do it."

THE four new coast defense monitors authorized by congress will have but one turret. Their armor will be eight inches of steel, draught eleven feet and speed at least twelve knots. They will be much faster and lighter than the present double turret and cost less. Each must be built for \$1,250,000, exclusive of armament, which includes two 11-inch guns.

THERE are a number of newspapers, principally in Colorado, that devote their entire editorial pages to criticizing the conduct of the war. These papers have become so accustomed to growling that the habit has become chronic. They can not point to a single mistake by the army or navy of the United States since the war began.

NEW YORK harbor is now protected with ten-inch guns with disappearing carriages and carrying eight miles. It is believed that it will now require something more than a single Spanish cruiser to enter the harbor and batter down the city.

SWITZERLAND, although she spends only one half million dollars yearly on her army, can turn out 100,000 trained men in two days in case of need, and has a reserve of 100,000 more, as well as a militia of 270,000.

THE war correspondent of THE CITIZEN at Tampa writes that his company were without rations for twenty-four hours on arrival at that place. The New Mexico troops are all well and anxious to go to Cuba.

THAT LONDON Standard who tried to start a Spanish loan, and went broke to the extent of several million dollars, will have few sympathizers in this country.

#### COURT OF PRIVATE LAND CLAIMS.

June Term began Tuesday—Ancon Colorado Grant rejected.

The court of private land claims met Tuesday morning at 10 o'clock with Chief Justice Reed, Associate Justices Murray, Fuller and Stone, United States Attorney G. M. Reynolds and all other officers present, says the New Mexican.

The business of the session was begun by taking up case No. 193, involving title to the Ancon Colorado grant of 800 acres in Bernalillo county, made in 1808, and claimed by Roman A. Baca et al. The court rejected the claim; George Hill Howard attorney for claimants.

In case No. 224, the Juan Estevan Garcia de Nolasco grant in Santa Fe county, Andres Garcia et al., claimants; Catron & Gortner, attorneys; R. C. Gortner presented a petition for rehearing.

In case No. 76, the hearing of objections to the survey was set for Thursday, June 16. The survey in question is that of the Canada de los Alamos grant, claimed for 148,962 acres in Bernalillo county, J. W. Ackers et al., claimants; J. H. Purdy, attorney.

In cases Nos. 24, 30 and 43, mandates from the United States Supreme court were presented, dismissing the appeals taken from the court of private land claims. This action settles the title to the following grants: Dona Ana Bend colony grant, made July 8, 1849, for 29,323 acres, Numa Raymond et al., claimants; S. B. Newcomb, attorney; Casa de Riano or Piedra Lumbre grant, made in 1806, for 48,000 acres in Rio Arriba county, Antonio Martinez et al., claimants; G. H. Howard, attorney; Polvadera grant, made in 1843, for 35,000 acres in Rio Arriba county, Frank Perez et al., claimants; J. H. Purdy, attorney. These three grants were confirmed by the lower court, and an appeal taken by the government to the United States Supreme court. Court then adjourned until 2 o'clock in the afternoon.

#### WHAT THE EMPLOYEES ARE DOING.

Engineer Fall Whitney has resumed work.

The Santa Fe Pacific railroad is making many marked improvements in its roadbed.

Engineers Boyd, Whiting, Kames and Koon, of Las Vegas, are off duty, on account of sickness.

A. K. Fraser, who was at the Albuquerque hospital for some time, is again in the service of the railroad.

The rush on the road is still keeping up, owing to the heavy shipments of cattle, sheep and general freight.

Machinist Lou Webb acted as drum major for the newly organized band in the Decoration day parade at Las Vegas.

Night roundman J. E. Allen and family, of Las Vegas, will leave soon for Fort Wayne, Ind., on a visit to relatives.

Fireman Schock and Buck had their preliminary examination on time card by Trainmaster F. C. Fox at Las Vegas for promotion.

Ex-Conductor Fred Bacon has returned to the territory from the Klondike, where he spent the winter and got a good deal of experience.

The family of F. C. Nash came up from Albuquerque yesterday and hereafter he will not be so lonesome on evenings, says the Raton Gazette.

Engine 922, which was in the collision near Albuquerque a few days ago, is having the necessary repairs made at the shops at Las Vegas.

John Dundas, of Raton, is now in the Santa Fe hospital at Las Vegas. He found the bicycle even more dangerous than the bucking broncho.

Machinist Mike Smith, formerly of Albuquerque, who has been under treatment at the Las Vegas hospital for a few weeks, is rapidly improving.

The railroad shops at Albuquerque and San Bernardino have floated the stars and stripes to the breeze. What's the matter with Needles? asks the Eye.

A railroad man remarked Saturday that he was willing to bet half his life that division headquarters would be re-established at Williams within thirty days, says the News.

James Sweeney got back from Albuquerque Saturday and on Monday resumed his old place as yard foreman. He thinks Raton is much the better place to live, says the Gazette.

A freeman in a terminal yard has been suspended twenty days for carelessness in allowing a car to be switched in a side track that failed to have a rider to control it, which caused minor damage.

John Patterson, in charge of ten laborers, left for Rio Rico the other day, where they will be employed on the building of new bridges on the Santa Fe Pacific railroad for contractors B. Langtry & Sons.

Charles Todd, a civil engineer, who was formerly on the Santa Fe Pacific, and who has recently returned from a Mexican trip, has again accepted a position with the railroad company at Williams.

The boiler washers at this point are having a semi-rest, owing to the fact that the engines running south will be washed at Albuquerque until after the completion of the new turn-table, says the Optic.

J. P. Kiernan, of Raton, has been appointed general inspector of car electric light batteries, and hereafter will travel all along the Santa Fe line. Mr. Kiernan is a skilled electrician and is worthy of his promotion.

An engineer of this division has been suspended fifteen days for carrying excessive air pressure which caused wheels under train to slide flat. Engineers are responsible for carrying over seventy-five pounds on freight, and eighty pounds on passenger engines.

Fireman George Still, who is firing engine 746, one of the Lamy pushers, has been granted a fifteen-day lay-off, which he expects to put in an outing in the mountains, accompanied by his family. Fireman George has been assigned to Still's engine during his absence.

T. F. Underwood has been appointed master mechanic at Winslow for the Santa Fe Pacific; George W. Smith has been appointed superintendent of machinery, and John Keener, who has been in the company's service at Topeka, has been placed in charge of the shops at the Needles.

The Maricopa & Phoenix railroad company, under the management of B. F. Porter, is doing valuable work on their road bed and bridges, which will be kept in the best possible condition. Already new ties have been placed under every bridge between Phoenix and Tempe and the bridges repaired, and the work of driving new piles for all the bridges between Tempe and Maricopa has been completed.

The Atchison, Topeka & Santa Fe hospital "Gospel wagon," with six patients, went up to Trout springs Friday, being the Optic. They brought home nine nice speckled trout and one dead cyprin. The doctor looked like it had been drugged. The patients were all on special diet at the hospital and could not eat fish, so the doctors got the fish, with the compliments of the patients. P. S.—This Oyster is a conductor and he runs on the Lamy branch of the Santa Fe.

The railroad employes of San Marcial have been following the news of flag-raising by the patriotic sections of the Santa Fe train and shop forces at the chief points on the system quite carefully. Now they are planning to cut off all efforts in this line, and the arrangements are well advanced to raise the tallest staff and give to the breeze the biggest banner of all.

Somewhere near the shops the location will be chosen and the time elected for the event, and the accompanying ceremonies is some suitable hour of Monday, the 4th day of July.

#### SANTA FE.

From the New Mexican.  
Hon. W. B. Childers, United States attorney, arrived from Albuquerque to attend the sessions of the United States district court.

Grand Chancellor L. A. Skelly, of the order of Knights of Pythias of the Grand Domain of New Mexico, will make an official visit to Santa Fe today.

From the New Mexican.  
Hon. W. B. Childers, United States attorney, arrived from Albuquerque to attend the sessions of the United States district court.

Official visit to Santa Fe today No. 2, Knights of Pythias, on Wednesday, June 15. Mr. Skelly will be accompanied by F. D. Michael, deputy district organizer of the Kadosnow rank, Knights of Pythias.

Patrick Lynch, the veteran Elizabethtown mining operator, is visiting Santa Fe friends. He registers at the Claire. Mr. Lynch reports matters progressing nicely on the Red Bandana properties and the mill steadily grinding in high grade gold ore. A recent cave-in in the tunnel slopes brought down 200 tons of first class ore, which the mill is now working on. The cave-in showed the vein to be fourteen feet between walls.

In the district court, sitting within and for the county of Bernalillo, and during the absence of Associate Justice Crumpler, Judge McFie Tuesday granted an appeal in the case of the Mountain Electric company vs. George H. Miles et al. from the lower court to the territorial supreme court. Johnson & Finkel, attorneys for plaintiffs.

H. E. Fox, the Albuquerque jeweler, accompanied by his wife, E. H. Fox, of Des Moines, Iowa, and J. C. Fox, and wife, of Atchison, Kan., visiting relatives, were here taking in the sights of the ancient city.

#### LAS VEGAS.

From the Optic.  
Frank Brown, who has been a frequent visitor at the county jail, and who succeeded in getting bondmen, about a year ago, jumping his bonds and leaving for Arizona, returned to the city Monday and was arrested Tuesday morning, his bondmen turning him over to the county authorities for safe keeping.

P. J. Towner, cattle inspector for Colorado, Kansas and South Dakota, reports as inspected and passed by him, at this point, during the month of May, 75,533 head of cattle, 8,935 sheep, and 498 horses, a total of 82,964 head. For May, 1907, the number of cattle inspected was alone 105,191.

Chester Stowe, a carrier boy on the Optic some twelve years ago, but now a married man and a resident of Fort Worth, at present visiting his mother in this city, says that George Biss, an old-time railroader here, is doing well in Fort Worth, where he has a railroad job; while McKevitt, a former Santa Fe printer, also known here, is foreman of a large job printing establishment in that city.

#### LA BELLE.

From the Crescent.  
The fishing season has opened with a rush—two parties with complete camping outfits are already representing La Belle on the Costilla.

J. W. Brown is looking after his mining interests at Sulphide, where recent developments has proved that one of two low grade prospects have sufficient quantity of ore to make producers.

The Hematite Mining company has made a trial run and succeeded in separating practically all the gold from the rock, but has met with some little difficulty in taking the gold from the solution.

#### NEW CAVALRY TROOP.

Hon. W. S. Hopewell Commissioned Captain of Troop A by Gov. Utero.

#### EXECUTIVE OFFICE.

Santa Fe, N. M., June 8, 1908.  
Whereas, At the town of Hillsboro, in the county of Siera, territory of New Mexico, more than thirty six men have associated themselves together for the purpose of forming a troop of cavalry of the National Guard of New Mexico, and have applied to the governor and commander-in-chief, through the adjutant general, to be organized as such.

Now, therefore, I, Miguel A. Otero, governor and commander-in-chief of said territory, by virtue of the power and authority in me vested, do hereby declare the troop of cavalry of said territory, and the same is hereby attached to and made a part of the First Squadron of the First Regiment of Cavalry of the New Mexico National Guard, and I do appoint W. S. Hopewell, of the said town of Hillsboro, captain of the said troop, and he shall be respected and obeyed accordingly.

Done at the executive office, this 6th day of June, 1908.

An eminent clergyman has prepared comparative tables showing the amount of money left for benevolent purposes by legislators in the United States during the past three years. He finds that the bequests for 1897 are \$1,000,000 in excess of those of 1896. In the former year they were \$1,000,000 and in 1897 more than \$1,000,000. Beneficence has other forms than that of money. Great remedies are among the most precious of riches. From next autumn this is Hostetter's Stomach Bitters, a most effective remedy for and preventive of malaria. Equally efficacious is the bitters in cases of dyspepsia, indigestion, constipation, nervousness, biliousness and loss of appetite and sleep.

**NEW MEXICO DISAPPOINTED.**  
Objects to Being Left Out Under the Second Call.

A special dispatch to the Denver Republican from Santa Fe, under date of June 7, says:

The report that New Mexico is one of the territories which has been debarred by the war department from furnishing any more volunteers for the army is causing vast dissatisfaction, not only among the territorial officials, but throughout the entire territory as well. Numerous organizations in New Mexico have been gotten ready for the second call and were in a condition to respond instantly to a proclamation from the governor, and this territory's quota could have been started to the field in less than a week. The reported news that New Mexico is not to be called upon by the war department is causing great disappointment.

familiarity with the stage. The same  
can be said of Herbert Howells, who  
was the "Chevalier de Brabant." Both  
of these gentlemen are newcomers, but  
they are at home as footlight attractions.

Owing to the many school attractions  
and the opera "Kralinka," the latter be-  
ing reproduced at the opera house last  
night, the board of education failed to  
get up a quorum for a meeting last  
night, but there will be a meeting for  
the coming Monday night, when the  
pertaining question, "Who will be the  
next school superintendent?" will be de-  
cided.

Prof. J. E. Owen, late of the Agri-  
cultural college; Prof. J. E. Smith, of  
the city high school, and several outside  
professors are applicants for the posi-  
tion.

The other day THE CITIZEN gave a list  
of the school teachers who had or would  
soon leave on their summer vacations.  
Those leaving this evening are as fol-  
lows: Miss Katherine Field will visit her home in  
Kansas City, and Miss Nellie Booth will  
visit her relatives and friends in Indiana.

Miss Fannie Nowlin and Miss Emma  
Hunting will also go east this evening;  
the former to her old Missouri home,  
while Miss Hunting will be her guest  
during the summer months.

H. E. Anderson, of Bland, the senior  
member of the firm of Anderson & Jones,  
proprietors of "The Lobby," is in the city,  
and is registered at Sturges' European.  
Mr. Anderson states that Bland is all  
right, everybody feeling good, and the  
future of Bland, with the Cochlitz mines  
as a background, is assured.

Pretty little Helen D. Snyder, daughter  
of Mr. and Mrs. Karl A. Snyder, has  
branched out as a very promising news-  
paper publisher. She issues every day,  
on her paper, the Albuquerque  
Daily News, and it gives all the war  
news, taken from the bulletins posted at  
this office.

Louis Hunting, the well-known retired  
merchant of Los Lunas, returned there  
to day, after a pleasant visit in the  
city.

DEATH OF MISS MINNIE JOHNSON.  
Came Here From Waterford, Wis., About a  
Year Ago—Consumption the Cause.  
The death occurred last evening of  
Miss Minnie Johnson, aged 31 years, a  
close friend of her sister, Miss Leona John-  
son, in the Hotel Highland building.  
Miss Johnson contracted pneumonia at  
her home in Waterford, Wis., about three  
years ago, and this disease weakened her  
lungs so that she was a ready prey to the  
terrible disease—consumption. She went  
to California, but receiving no benefit,  
her sister, who runs the Hotel Highland  
restaurant, brought her here about a  
year ago. Another sister, Annie, came  
in from Wisconsin to attend her and the  
stricken one received every care the two  
sisters could give her. It was all to no  
purpose, however, and the young woman  
slowly faded away. She was up and  
about yesterday and her death last even-  
ing was without pain. The remains were  
embalmed by Mrs. O. W. Strong,  
wife of the undertaker, and will be taken  
to the old home at Waterford, where the  
body of the body is cremated by the  
aged father, the only other member of  
the family now living. Miss Annie  
Johnson will go to Wisconsin with the  
body.

I. O. O. F.  
There will be a meeting of Harmony  
Lodge No. 17, I. O. O. F., this evening at  
5 p. m. All members are requested to be  
present, as there will be business of im-  
portance and also election of representa-  
tives to Grand Lodge. Visiting brothers  
welcome. E. L. Medler, Recording Sec-  
retary.

Call for Bids.  
The Odd Fellows of Gallup, N. M., will  
receive bids for erection of a two-story  
building at Gallup. Plans and specifi-  
cations at office of E. F. Kenney, 54  
top. Bids will be opened on June 17.  
For further particulars apply to P. A.  
Stimpkin, Gallup, N. M.

The county commissioners have ad-  
journcd. They listened to a few com-  
plaints during their brief session, but  
concluded to hear no more until they  
meet as an equalization board on the  
first Tuesday in July. Applications for  
reduction of taxes were quoted as  
follows: A certificate of redemption was  
issued to C. K. Cray for lot 9, block 25,  
New Mexico town company's original  
townsite. The clerk was also instructed  
to notify the collector to issue a certifi-  
cate for delinquent taxes on lots 19 and  
24, block K, Mandell's addition. A re-  
duction of \$2500 was made on W. A.  
Maxwell's assessment. It having been  
discovered that he had been assessed  
twice on the same property.

The smile on the face of the popular  
druggist, J. H. O'Reilly, broadens as the  
days pass. Something is about to happen  
that will please him more than becoming  
major of this beautiful city, and that is  
the return of Mrs. O'Reilly and two  
bright boys from Kansas City, where they  
have been visiting for some months.

As stated in these columns yesterday  
afternoon, the exercises of the seventh  
annual commencement of the New Mex-  
ico university will be held at Grant's  
opera house this evening. The address  
to the graduating class will be delivered  
by Rev. Greenburg.

G. C. B. Culley, the secretary of the Al-  
buquerque gentlemen's driving associa-  
tion, has arrived in the north of England  
where he will spend the summer on the  
estate of his brother, Rev. Father M.  
Culley. The latter visited here about a  
year ago.

Alex. Bowie, the general manager of the  
Caledonian Coal company at Gallup,  
came in on the delayed passenger train  
from the west this morning. He is here  
to take in the commencement exercises  
of the university at the opera house this  
evening.

C. K. Newhall, clerk to the ex-receiver  
of the Albuquerque National bank, and  
Frank McKee, cashier of the First Na-  
tional bank, will depart to-morrow eve-  
ning for Dallas, Texas, where they will  
attend a Masonic convocation.

Harry Clark, a young man who has  
been filling the position of clerk at  
O'Reilly's drug store for the past eight  
months, has returned to his home in St.  
Louis, Mo., where he has a place with his  
old employer.

Dr. G. A. Wall, the well-known oculist,  
is introducing around to-day F. T. Wood-  
ward, the fuel inspector for the Santa Fe  
railway. He will continue south to El  
Paso to-morrow morning.

Mrs. Margaret Bigelow, who conducts a  
confectionery and fruit store on Rail-  
road avenue, is enabled to be about again  
after a severe illness.  
L. P. Curtis is in the city on his regu-  
lar monthly collecting tour for the Col-  
lier Publishing company.

## The Things You Will Need.

WE WANT the trade of all the men, as well as the women and children; and we're winning  
success at it as easily as a summer cloud drops rain. The public knows this. They ap-  
preciate the efforts which this store is constantly making to give them a bigger dollar's worth than they  
can get elsewhere. We ask that no assertion made by us should go unchallenged. Apply the test  
at any time and you'll find us prepared to back up our promises. We've made it possible for your  
dollar to do extra duty on these lots:
