JAPS TO BE VICTORIOUS

Ex-Captain Richmond P. Hobson Gives His Reasons for So Thinking.

RUSSIA HAS ADVANTAGE

In Number of Battle Ships, But Mikado's Navy is Swifter and Better Handled—Compared With United States.

Alexander City, Ala., April 15.—Ex-Captain Richmond P. Hobson, sizing up the probable outcome of the naval battle which is now imminent in the far east, said today:

"From reports of the fleets I estimate that the Japanese will possess an advantage in material ranging between 25 and 100 per cent; the Japanese in drill and morale possess an overwhelming superiority in efficiency, a superiority probably approaching that of the Americans over the Spaniards; therefore I look for an overwhelming Japanese victory.

"An analysis of the composition of the two fleets shows that the Russians have advantage in battle ships of 20 per cent; therefore the logical tactics for them would be to maintain a compact formation throughout. If handled with efficiency, these battle ships would probably break any formation of the Japanese and would have a good chance for a victory of moderate proportions. The superiority of the Japanese in speed would prevent any Russian victory being great or overwhelming. The Japanese have a great advantage in speed, not only inherent in the ships, but doubtless enhanced by the inevitable condition of the hulls of the Russian vessels. Therefore, the Japanese tactics would logically be to repeatedly outflank the Russian formations and cripple individual units of the Russian fleet, then isolate them and finally break up their formation and destroy them singly.

"Having a large number of torpedo vessels, there would be a great opportunity for Japanese dash and daring in the use of them with vessels to give the coup de grace to the crippled and demoralized Russian battle ships. In the matter of lessons learned and inference to be drawn it should be borne in mind that the battle ship superiority is in weak hands, while the armored cruiser superiority and speed are in skilled hands."

NOTHING DOING IN EAST.

Russian Squadron Has Not Yet Met With Admiral Togo's Ships.

St. Petersburg, April 15.—No further news has been received regarding the squadron commanded by Vice Admiral Rojestvensky, but the impression continues that he is steaming towards the Island of Formosa with the intention of giving battle if Admiral Togo accepts the challenge.

May Delay Departure for North. Hong Kong, April 15.—A telegram received here from Saigon suggests that the Russian squadron possibly will go north before he end of April.

UNDER ADDITIONAL BOND.

Mrs. Chadwick Is Admitted to Bail in Sum of \$5,000—Does Not Affect Other Case.

Cincinnati, O., April 15.—Mrs. Cassie L. Chadwick, who had been convicted and sentenced to prison for ten years on the charges of procuring money by false pretenses, was today admitted to bail in the sum of \$5,000 by U. S. Circuit Judge Lorton. She is already under heavy bonds in other cases and the \$5,000 is additional and in no way affects these other cases.

Total Amount of \$52,000.

Cleveland, Ohio, April 15.—J. P. Dawley, chief counsel for Mrs. Chadwick, stated today that the \$5,000 bond named by the circuit court of appeals at Cincinnati for the release of his client, was in addition to the \$47,000 fixed here by the U. S. district court and county criminal court. The total amount required is therefore \$52,000. When asked if surety to this amount would be furnished, Dawley declared he could not discuss the question at the present time.

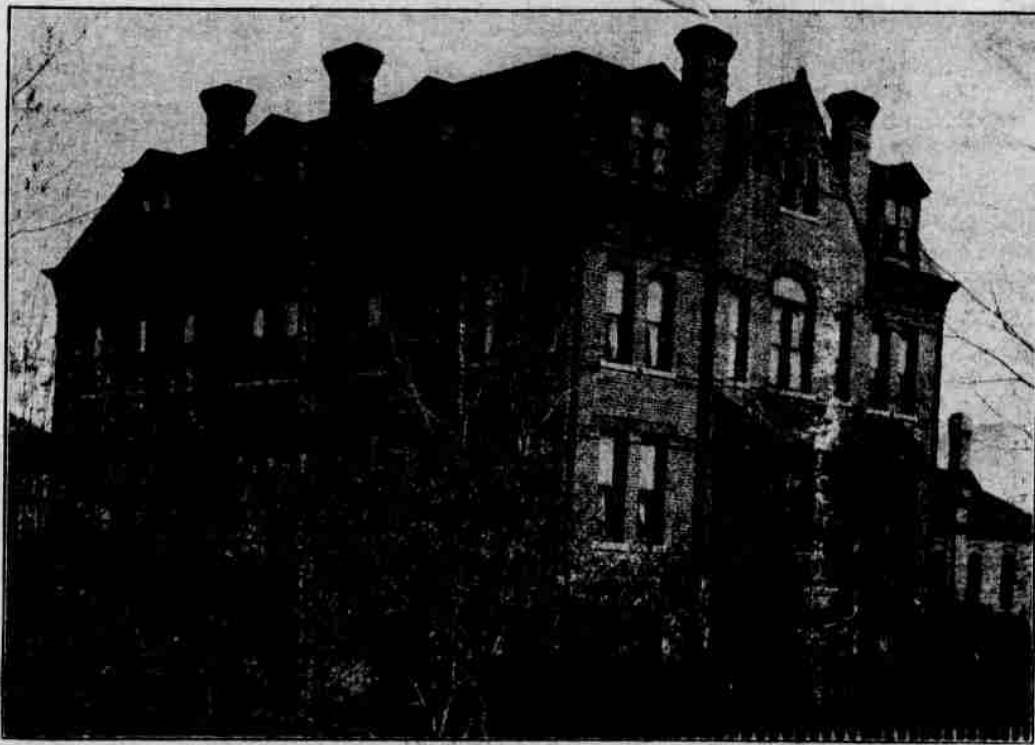

PRIVATE BANK CLOSES DOORS.

Owosso, Mich., April 15.—The private bank of M. L. Stewart & Company, of this city, one of the largest private banking institutions of the state, closed its doors today. The deposits have been estimated at more than half a million dollars. No statement was given out.

GENERAL JOHN PALMER DIES OF OLD WOUND.

Albany, April 15.—General John Palmer, former commander-in-chief of the G. A. R., died in his home in this city today.

SUICIDE AT MINING CAMP

John Champion Sends a Bullet Through His Heart at Jarilla, N. M.

HAD BEEN GAMBLING

And His Losses Made Him Despondent—Several Members of Family in Room When Deed Was Done—Circumstances Peculiar.

Special to the New Mexican.

Jarilla, April 15.—At 6:30 yesterday morning John Champion, a resident of the Jarilla mining camp, ended his life. According to the story of the members of his family, all of whom claim to have been in the room he sat bolt upright in the bed, and without a word of warning, placed a revolver to his chest and sent a ball crashing through his heart.

The wife and several children of the deceased and three other women, all members of the family, were in the room when the act was committed and all declare that they had no warning of what was being done till the shot was fired, and all this is regarded as rather peculiar.

The deceased was known to have lost considerable of his wages in gambling and is also said to have had domestic troubles, which had caused him to appear rather downcast for some time.

An investigation is being conducted.

This rash act in this quiet little camp has caused much excitement.

CITY TO ENFORCE ORDINANCE.

Owners of Dogs Must Secure a License and Tag or Their Pet Canines Will Be Killed.

The ordinance providing for dog license and the payment of a fee of one dollar and twenty-five cents has of late been sadly neglected. A great many people who own dogs have not made even a pretense of paying up. The council has finally taken action upon the subject and commencing on Monday, April 17th, the ordinance will be rigidly enforced, and if owners of canines fail to secure a license, the number of dogs in the Capital City will rapidly decrease. For the convenience of the tax payers, City Clerk Montanier will arrange to have such fees paid, and receipts and tags furnished, at the office of the Mayor, in the Schuman Building.

NEGOTIATIONS ARE OFF.

Teamsters' Union at Chicago Unable to Agree With Montgomery Ward & Company.

Chicago, April 15.—Infuriated teamsters attacked a caravan of Montgomery Ward wagons at Kinzie and West Water Streets today, dragging the non-uniform driver from the box. The police rescued him after a desperate fight. When the strike leaders emerged from the peace conference with Mayor Dunne, President Shea, of the Teamsters' Union, said: "Negotiations are all off so far as I am concerned. We will not come back again until the Mayor sends for us."

MUZZLE OF GUN

ON IOWA BLOWS OFF. Washington, April 15.—A telegram from the chief of staff of the North Atlantic Squadron received at the navy department today, states that the muzzle of one of the eight-inch guns on the Iowa blew off yesterday during target practice. No one was injured.

IN SPECIAL PULLMAN TRAIN.

President Roosevelt Will Ride Over the Narrow Gauge Portion of Denver & Rio Grande.

Pueblo, April 15.—The official announcement of the itinerary for President Roosevelt's return trip from New Castle, as given out by Major S. K. Hooper, general passenger agent of the Rio Grande shows that the President will be taken over the narrow gauge portion of the Rio Grande in a special narrow gauge Pullman train prepared especially for him. This route will take him through some of the wildest scenery in the state.

Left for Camp Roosevelt.

Glenwood Springs, Colo., April 15.—President Roosevelt's special train arrived here at 7:30 this morning and five minutes later left for New Castle, twelve miles west of this town, where the President's party mounted horses which were in waiting and started for Camp Roosevelt, which is high up in the mountains about 27 miles south of town.

Much Hand Shaking.

New Castle, Colo., April 15.—President Roosevelt and party arrived here at 7:50 this morning and awaited more than two hours for official mail before starting on his hunt. During that time, the President shook hands with the majority of the four hundred inhabitants of the town. The party was photographed and the President made a brief address.

The utmost precaution was taken to insure the President's safety on his trip over the Colorado Midland last night, but near Basalt there was a slight accident. The first car of the special hit a rock that had slid down to the edge of the track. No damage was done. Dinner was served in the dining car here and at 11:20 the party mounted horses and were off for camp.

CHURCH SERVICES AT PENITENTIARY.

Special services will take place Sunday afternoon in the chapel of the Penitentiary, at which time the Rev. George F. Sevier, pastor of the Presbyterian church, will deliver an address. Vocal selections will be rendered by Miss Walter and Mr. Bennett, Miss Florence Packer accompanying.

SALT RIVER DAM MAY BE SAVED.

Phoenix, April 15.—The dam in the Salt River at the head of the Arizona canal, which began disintegration yesterday, is holding together better than expected. According to late reports only three hundred feet of the structure had gone out and the river is falling considerably.

THE SANTA FE STRIKE SITUATION.

A number of boiler makers and helpers and apprentices, employed in the shops of the Santa Fe at Raton have struck, in sympathy with the strikers in Topeka. It is also reported that a number of the boiler makers in the shops at Las Vegas will join the movement.

BOND FURNISHED FOR APPEARANCE.

The preliminary hearing of Hugo Getz, charged with attempted assault, was heard this morning before Justice of the Peace Jose Maria Garcia. The defense did not present any testimony and Getz was bound over to the next grand jury in the sum of \$500, which he furnished.

GUN PLAY IN MISSOURI.

Poplar Bluff, Mo. April 15.—Three men have been killed in a pitch battle ten miles west of here, as the result of a land quarrel. The dead are H. S. Adams, Wm. Heich and Riley Henson. The circuit clerk, L. M. Henson, a brother of Riley who witnessed the shooting but declined to give any particulars, has been arrested.

THE OFFICIAL STORY TOLD

Of a Diplomatic Complaint From Mexico to the United States.

WAS SETTLED FOR \$500

Satisfaction Was Wanted for Injuries to Eulogio Zambrano Through Arrest By Rangers in Texas.

Washington, April 15.—The failure of a Mexican citizen to obtain satisfaction from the authorities of Comar County, Texas, for personal injuries suffered in that county, evoked serious complaints to the Washington government, against the Texas authorities, and caused Secretary Hay several months ago to offer, out of the federal treasury the sum of \$500 to Mexico in satisfaction of its official claims for damages. The story is told in the official correspondence published at the state department today.

Eulogio Zambrano, a Mexican citizen, pawned a rifle in Brownville, Texas, belonging to a citizen of that town. He was arrested and while being carried to the jail, it is claimed, attempted to escape and was shot by Private McKenzie, of the Texas Rangers. The Mexican consul reported that Zambrano was tried and sentenced without any account being taken by the court of the wounds inflicted by McKenzie, but the Judge told him in passing sentence that light punishment was given because he had been wounded. This statement, in the opinion of the Mexican government, afforded ground to insist that the wound was unwarranted. In a note to Secretary Hay the Mexican Ambassador at Washington entered a formal complaint against the Texas authorities on account "of the slight respect they usually evince for the lives of Mexicans residing on this side of the border," and asked for indemnity in behalf of Zambrano. The five hundred dollars offered by this government was accepted and the incident closed.

MEXICO THE GATEWAY.

Hundreds of Undesirable Immigrants Seek Admission to the States by Wading Rio Grande.

Washington, D. C. April 15.—Hordes of undesirable immigrants are pouring into Mexico in the hope of evading the United States boundary guards. The department of commerce and labor is informed that they are coming over on the new American steamship line, established a few weeks ago and operating between Trieste and Vera Cruz. Chinese in large numbers are also entering Mexico. The undesirable are wading across the shallow Rio Grande River at isolated spots and are making their way into the west and central west, where it is hard to locate them.

GREGORY PAGE RESIGNS.

Chairman of Republican Central Committee of McKinley County Gives Up His Position.

McKinley County has no chairman of its Republican Central Committee, Gregory Page having sent in his resignation to the secretary. Mr. Page's action has caused considerable surprise among his friends as none of them knew that he had any idea of giving up the position. He gave no reasons whatsoever for his action.

PROSPERITY IN SOCORRO.

Great Development Along Agricultural and Mining Lines—School of Mines Gets Fine Library.

Special Correspondence of New Mexican.

Never before in the history of Socorro have conditions been so favorable as they were during the past winter and up to the present time for a successful and prosperous year. The majority of the farmers have so far had sufficient rain for all agricultural purposes. The fruit up to date has not been injured by the frost and this means much to Socorro, as there are within a radius of six miles of it over 340,000 bearing fruit trees and about 230,000 grape vines, besides the many small fruits. Wheat looks fine, alfalfa is nearly a foot high and garden truck is well advanced. The home market is now being supplied with radishes, spinach, lettuce and greens. Grass is growing rapidly on the ranges and stock of all kinds passed through the winter in good condition. Socorro is extremely healthful.

Some ten or twelve families have recently moved in from the western part of the county and the existence of the Mounted Police will add several families to the town. There is not an empty house in the place and a number of citizens are contemplating the erection of several modern cottages. Business is good and the merchants are all making money.

The mines in this vicinity are being exploited more and producing heavier than for many years in the past. The probabilities are that the owners of the Kelly group of mines will build their smelter in Socorro. Socorro is a strong competitor for the National Fraternal Sanitarium. It has the water, the land and the location, superior to any city in the great southwest.

Famous Library Comes to Socorro.

Through the efforts of President Keys, of the School and Dr. G. K. Gilbert, of Washington, D. C., the New Mexico School of Mines has come into possession of the famous library of mining, geology and philosophy, belonging to the late Major John W. Powell, who for fifteen years was director of the United States Geological Survey, and was for many years one of the pioneer scientific explorers of the West.

The library consists of several thousand volumes, many of them very rare and all of great practical value in mining. Among them is a complete set of Major Powell's own voluminous writings. The collection is especially well represented by books on the mineral resources of the Rocky Mountain region and the great southwest. These will be of great value to all citizens of New Mexico, and especially to the students of mining and geology interested in the mining industries of this part of the country. New Mexico in general and the School of Mines in particular are very fortunate in the acquisition of so valuable a library.

The name of Major Powell will ever be associated with the daring and dangerous trip down the Grand Canon of the Colorado River in the early seventies, and the exploration of this and neighboring regions, including parts of New Mexico. Much of his scientific work was done in the southwest and some of the greatest discoveries in modern geology were made in this region. Scarcely less important have been the discoveries relating to the ore deposits and their influence upon the mining industries.

Under Major Powell's direction the United States Geological Survey rapidly developed into the most important factor in the advancement of the mining industry in this country. After a decade and a half, Major Powell resigned geological work to take entire charge of the American Bureau of Ethnology, the work of which has been largely in the southwest deciphering the history of the early races. This post he held until his death, two years ago. A score of bulky volumes attest the activity with which the work was carried on.

It therefore seems especially fitting that the library of this famous man, who had so much to do with this great southwestern country, should find a permanent home in New Mexico.

Particularly appropriate is it that such a library, on what must always be our greatest industry, should go to the School of Mines, where it must ever remain one of its most treasured adjuncts.

PICTURED IN THEIR COFFINS

Russian Imperial Family Are so Depicted in Weekly Paper.

VERY SKILLFULLY DONE

The Half Tone is Said to Be Work of Students Employed on News—Causes Great Sensation.

St. Petersburg, April 15.—Quite a sensation was caused this morning by the appearance in Neva, the most widely circulated illustrated weekly in Russia, of a half-tone picture representing the Imperial family, including the empress holding the heir to the throne, and in the background of the picture showing the shadowy outlines of the Emperor, Grand Duke Sergius, Grand Duke Alexis, the Dowager Empress, the heir to the throne and practically all the living members of the Ramonoff family lying dead in coffins. The work is so skillfully done that in the shadows in the drapery behind the Imperial family is discernable only with great difficulty. The publishers disclaim any previous knowledge of the shadowy figures. The culprits, who were students employed on the paper have not yet been located.

M. Witte Is Disheartened.

St. Petersburg, April 15.—M. Witte, President of the committee of ministers, has definitely decided to give up all work and go abroad. The last straw was the Imperial rescript addressed to the Interior Minister Boulganin, creating a special commission to discuss the questions relating to the peasant tenure of lands and the abolition of the peasant commission over which M. Witte presided. Emperor Nicholas took this step without even apprising M. Witte of his intentions. Members of the Witte Commission were actually at work Tuesday evening and woke up yesterday to find the commission out of existence. Witte attributes the emperor's act to a court intrigue directly aimed at himself, and has informed his friends that he was completely disheartened and discouraged, no longer able to endure the humiliation upon him, and that he would leave all and go abroad for a time.

Putliff Iron Works Closed.

St. Petersburg, April 15.—The Putliff iron works have been closed. A notice on the gates says the shutdown is due to the unreasonable demands of the men, the threatening of officials the frequent interruptions of work and the disregard for rules.

A GENTLE HINT TO EIDSON.

A. R. Gibson, of Sunmount, Sends a Letter to the President of the National Fraternal Association.

Mayor A. R. Gibson, one of the proprietors of the Sunmount Tent City, has sent a letter to W. R. Eidson, president of the National Fraternal Association, which contains a gentle hint to that gentleman as to where the most favored spot in the southwest is situated for the location of the Fraternal Sanitarium. The letter explains itself and is published verbatim, as follows:

Santa Fe, N. M., April 14, 1905.

Hon. W. R. Eidson, President National Fraternal Ass'n., St. Louis, Mo.

Dear Sir: We beg to inclose herewith a copy of our Sunmount booklet, which is a copy of the third edition published. We should be pleased to have you read the matter contained therein, especially as it refers to Santa Fe climate, and the record of one hundred and seventy-seven people who were guests at our out-door sanitarium during last year.

We hope you will find something in the publication that will interest you. The water proposition, together with the lack of dust and sand-storms, as well as a lack of mosquitoes and insect pests appealed to us in the location of Sunmount. We believe no other place in the Territory offers these advantages, and we feel warranted in saying that no other location in the Territory has shown results that have been attained at this place.

No one is better able to judge than those who have been guests of the place and have enjoyed these conditions.

"Always warm in the sun! Always cool in the shade!" which appears as a sort of trade mark in all of our literature, is substantiated by facts at the resort. Yours truly, SUNMOUNT TENT CITY, By A. R. GIBSON.

JOHN L. IN THE FIELD.

Tacoma, Wash., April 15.—John L. Sullivan, former champion, and Charley Mitchell, champion boxer of England, are matched for a twenty-round bout. The bout will likely occur in Tacoma.

WHY THE NEW MEXICAN IS CALLED A "BLACKMAILER" BY THE ALBUQUERQUE JOURNAL.

"The latest attempt in this line has been made within the last few days upon the American Lumber Company of Albuquerque, which is one of the most important and valuable of all the industrial enterprises of New Mexico, and which ought to be encouraged in every proper way by all those who are interested in the prosperity of the Territory. The Santa Fe concern is now setting up a howl to the effect that this company ought to be made to pay more taxes. This incident shows that the professional holdup is ready to embarrass or even destroy the best interests of the Territory if he can only get any blood money out of it."

In the above paragraph, in a recent issue, the Albuquerque Journal desires to charge the New Mexican with being a blackmailer. The facts are these: The New Mexican was informed, by an Albuquerque correspondent who is reliable, that the assessment of the American Lumber Company for the year 1904 was fixed at \$20,000, while it is a well known fact that that company has at least ten times that amount of taxable property at or near Albuquerque. The company is capitalized at \$8,000,000, of which it is reported over \$6,000,000 of shares have been sold and it is said that the stock today is away up in the eighties. The American Lumber Company did not come to New Mexico for the benefit of the dear people or to help Albuquerque. Its organizers came to this Territory because they found a large tract of land which they purchased at very reasonable rates and which they returned for taxation at a ridiculously low rate. They considered the situation and found it profitable for themselves to locate at Albuquerque. Incidentally that city is benefiting by this location and the New Mexican is glad of it, but when the Albuquerque Journal or anyone else talks of injury to that corporation because the New Mexican suggests that it should pay fair and equitable taxes, the Journal, or anyone else who does so, talks against the best interests of the people and in favor of the gigantic corporation that is looking out for no one but itself and in its own interests. For this the New Mexican does not blame the corporation; it came to New Mexico to make money and it is perfectly right in looking out for itself, but the officials of Bernalillo County should see to it that this gigantic company, regardless of the howls of the Albuquerque corporation sheet, pays taxes in accordance with law and as equitably and fairly to other tax payers as is possible. The New Mexican published an editorial on this subject which the Albuquerque corporation sheet calls blackmailing. The editorial is herewith republished:

"The New Mexican is informed that the American Lumber Company had on hand in its yards in Albuquerque on March 1st, last, 400 car loads and more of manufactured lumber. This is a nice bit of property for taxation and would materially help to increase the taxable valuation of Bernalillo County upon the tax rolls for the present year. This is up to the assessor of the county; after him the county commissioners should attend to it; after them, the territorial board of equalization should look into it. If not, why not? The American Lumber Company is a big concern and came to New Mexico for the purpose of making money. This, the New Mexican understands, it is doing and this paper is glad of it. At the same time, the company should pay fair and reasonable taxes for the protection of the laws which it enjoys and for the privilege of doing a well paying business in the Territory. The people of the Territory have been fair with the corporation and the corporation should be fair to the people in its tax returns."

The New Mexican does not know a single stockholder or official of the American Lumber Company, and has never had any correspondence or intercourse with any one of them, direct-

ly or indirectly, or communicated with any of them. The editorial was written for the sole purpose of calling the attention of the Bernalillo County assessor to the amount of assessable property upon which the American Lumber Company should be assessed and made to pay taxes. The action of this paper was for the good of the entire people of the Territory. Right here it certainly ran counter to the objects and aims of the Albuquerque corporation sheet, which paper, like a wounded wolf attacked in its lair, commenced to snarl, howl and endeavor to bite, but being on the wrong side, as it is usually, the attacks of that paper on the New Mexican will prove unavailing. If the sentiments expressed in the New Mexican's editorial are black-mailed, then let it be so! The Journal can rest assured that the New Mexican will keep up this fight until the American Lumber Company pays the taxes it ought to for the support of this commonwealth and the privileges it enjoys under the government. Some good has already been done by the New Mexican in this respect. This paper is informed that the American Lumber Company has condescended to make a return of \$100,000 for the present year, which of course is quite different from \$20,000 as returned last year. The New Mexican stands by the people in this respect as in all others. If it finds that corporations and rich people are not making a fair or equitable return, it will say so and that without asking the permission of the Albuquerque corporation sheet.

Right here, in fighting for unjust, unfair and low taxes for corporations located in Albuquerque, the Albuquerque Journal makes a fight for itself as the following facts will prove:

For the year 1904 the Democrat Publishing Company, the owner of the Journal, filed a tax return to the amount of \$6,500. The assessor raised this amount to \$9,500 which was sustained by the county commissioners and which finally stood. That was about a year ago. During the year which has just elapsed, some machinery, the New Mexican believes, has been added to the plant of the Democrat Publishing Company. This may have amounted to several thousand dollars. A few weeks ago, this paper has learned, the price put upon the Journal plant by the company was \$80,000. Do you see the connection? A year ago, according to the management of that paper, the plant was worth \$6,500; the management dared make no contest when the assessor raised it to \$9,500; today the plant of the company is held at \$80,000. The 1904 assessment returned by the company is evidently considered by the Journal as the right thing, but people who know anything about it consider last year's return of \$6,500, as made by the company, as about one-eighth or one-seventh what it should have been. It will be interesting to note what the company's return for the present year will be. The New Mexican wishes to be fair in this matter. It will be well satisfied if the return be made at the rate of one-third of what the plant was priced at a few weeks ago, but it is dollars to doughnuts that nothing of the kind will be done; but should it come to pass that the Democrat Publishing Company will return its plant at one-third of the selling price, this paper will promptly give due credit. It cares not a whit about the Journal or its editorial attacks but if its efforts can bring about fair and just assessments in the cases of corporations like the American Lumber Company and the Democrat Publishing Company, it will be glory enough for one year.

The resolution passed by the Board of Trade last evening anent the lands owned by the city, is in the right direction. Santa Fe would be considered rich were it located in the East, and merely on account of the lands belonging to the city. Some day, which should not be so very far away, considerable of that land will be brought under ditch and cultivation. Even now, there are many parcels of land within the city limits that have considerable value as building lots and of which the city is the owner. As soon as the Santa Fe Grant is platted and the city knows what lands it really owns and what lands belong to private owners, than the matter of the city deriving revenue from its land can be taken up.

Judging by cable dispatches concerning the Russian fleet in the Chinese seas, the admiralty at St. Petersburg seems to believe that Admiral Togo does not know what he is doing. The Russian Naval officials at the capital seem to be slow at learning. Experience does not help them any. They ought to know by this time that in all probability Admiral Togo is fully informed on the movements of the Russian fleet and is expecting to give battle where he will have the advantage.

Whatever induced the recent Bernalillo County grand jury, after finding about fifty indictments against saloonkeepers for selling liquor to minors and then making an endeavor to recall them from the custody of the court and report them as "no true bills," will make an interesting tale, which, when the particulars are all in, may be published black on white. The particulars are being gathered, slowly to be sure, but they are coming in.

Secretary of War Taft seems to hold "the lid" in Washington down pretty well. To be sure, he weighs enough.

RAILROAD FREIGHT LEGISLATION UNDER THE PRESENT ADMINISTRATION.

The question of the regulation of freight rates is before the people and will not be settled entirely until it is settled right. Railroad managers and railroad investors are coming to the conclusion that as railroad freight legislation is bound to be enacted in the near future, it had best come while Theodore Roosevelt is president. In this conclusion they are right and they had best act upon it. Discussing this question the Kansas City Star says that so well informed a financial newspaper as the Wall Street Journal warns the railroads that they may make up their minds that a government rate regulation law will be enacted at the next session of Congress. Moreover it points out that the president has promised in the event of the enactment of such a statute to appoint a commission which for ability, courage, integrity and freedom from sinister influences shall be the best to be obtained in the country.

On the strength of this promise and of its knowledge of Mr. Roosevelt's character, the Wall Street Journal believes that investors may be assured that their rights will be respected while the public will be protected against discrimination and other abuses.

This confidence in the president's fairness felt by the leading commercial newspaper is undoubtedly shared by a majority of conservative investors. But perhaps they have not yet fully appreciated the gain to them and to the country arising from the fact that so radical a step as that contemplated in rate regulation is to be taken under the guidance of a man who is committed to the square deal.

It might be possible, perhaps, to stave off action by Congress along this line for two or three years more. But it is bound to come finally—and it might come under a president in whom Wall Street would feel far less confidence than it reposes in Mr. Roosevelt.

The provisions of the coal oil law, concerning inspection and regulation of traffic, will go into effect Monday. The New Mexican will keep a close watch for the dire and awful results which the Albuquerque Journal and other yellow sheets in the Territory prophesied would result from the active operation of the statute.

President Roosevelt is in Colorado. He might add to the pleasure of his western trip by paying Santa Fe and its adjacent mountains a short visit. The people of Santa Fe will be very good to you, Mr. President, if you will honor them with your presence for a few days.

Governor Otero and the promoters of the alleged "Joint Statehood Non Partisan League," of Albuquerque, do not agree. The Governor knows the people of New Mexico better than do the promoters of the League scheme. The latter are simply for themselves and for their own interests.

While the Chicago city government is wrestling with the municipal ownership of railroads, the teamsters of the Windy City are giving it a taste of how to prevent transportation with teams by a serious strike. Chicago is never happy except when in the line of publicity.

The Clark grand jury law, enacted by the recent legislative assembly, among other good results, it is hoped will insure better juries. Score another good point for the 36th Legislative Assembly.

EASY WORK

"Love lightens labor," the saying is true. But even love cannot lighten labor or make it easy for the woman who is in constant suffering from inflammation, bearing-down pains or other womanly diseases. The one thing that can make work easy for women is sound health, and Dr. Pierce's Favorite Prescription is the thing that will give sound health to sick women.

Dr. Pierce has so much faith in his "Prescription" that he offers to pay \$500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which he cannot cure. All he asks is a fair and reasonable trial of his means of cure.

"I suffered from female weakness for five months," writes Miss Belle Hedrick, of New Putnam Co., W. Va. "I was treated by a good physician but he never seemed to do me any good. I wrote to Dr. R. V. Pierce for advice which I received, telling me to take his 'Favorite Prescription' and 'Golden Medical Discovery.' When I had used the medicines a month, my health was much improved. It has continued to improve until now I can work at almost all kinds of housework. I had scarcely any appetite, but it is all right now. Have gained several pounds in weight. Dr. Pierce's medicines have done wonderfully well here. I would advise all who suffer from chronic diseases to write to Dr. Pierce."

"Favorite Prescription" makes weak women strong, sick women well.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper-covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by all druggists.

CURED CONSUMPTION.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. There was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1 at Fischer Drug Co.

For a Weak Digestion.

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefited by their use. They only cost a quarter. For sale by all druggists.

THE BEST COUGH SYRUP.

S. L. Apple, ex-Probate Judge, Ottawa Co., Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c, \$1.00, at Fischer Drug Co.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

GIVES HEALTH, VIGOR AND TONE.

Herbine is a boon for sufferers from anemia. By its use the blood is quickly registered and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50c at Fischer Drug Co.

INVALUABLE FOR RHEUMATISM.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Degnan, Kinsman, Ill. 25c, 50c and \$1.00 at Fischer Drug Co.

Keep your bowels regular by the use of Chamberlain's Stomach and Liver Tablets. There is nothing better. For sale by all druggists.

BILLS THAT BECAME LAW

The New Mexican herewith continues the publication of a list of the bills passed by the Thirty-sixth Legislative Assembly and which have become law either by Governor Otero's signature or by limitation. The laws come in the order of their approval and the publication of the list will be continued until completed.

CHAPTER 129.

An Act to prescribe the manner of describing money in indictments. A. C. B. No. 36.

The act makes it sufficient for indictments to describe money simply as "money" without specifying particular coins or notes.

CHAPTER 130.

An Act repealing certain provisions of Council Bill No. 60, approved March 6th, 1901. H. B. No. 201.

The act repeals the provisions of the above act regarding penalties for those allowing animals to trespass upon private lands and water rights.

CHAPTER 131.

An Act to amend section 6 of chapter 81 of the Acts of the Thirty-fourth Legislative Assembly, entitled "An Act to provide a method of procedure in the administration of estates of deceased persons, to define the duties of administrators and executors, and providing a method of appeal from probate courts to district courts, and for other purposes." Approved March 21, 1901. C. B. No. 106.

The act provides that in case of refusal of an executor or administrator to bring suit or defend suit for the benefit of the estate he represents or any persons claiming interest therein, any person thus interested, pending the application for removal of the executor or administrator, may apply to the district court for an order allowing him to institute or defend such suit in the name of the executor or administrator, and the court may order such executor or administrator to allow the use of his name in the prosecution or the defense, whether an application for his removal is pending or not and may require petitioner to give sufficient bond.

CHAPTER 132.

An Act fixing the times of holding district courts in Bernalillo and other counties. C. B. No. 144.

The act provides that district court shall convene at Albuquerque on the third Mondays of March and September; at Los Lunas on the first Mondays in March and September; at Bernalillo on the first Mondays in May and November; at Gallup on the third Mondays in May and November; and at Estancia, on the first Mondays in June and December.

CHAPTER 133.

An Act to amend section 3299 of the Compiled Laws of New Mexico of 1897, relative to garnishments. A. C. B. No. 103.

The act provides that a person garnished may recover costs and expenses from the plaintiff in case on non-suit and in case nothing shall be found due from the defendant to the plaintiff. In case the garnishee does not appear or shall refuse to confess the matter alleged and the plaintiff shall recover judgment then said garnishee shall pay the costs and \$3 attorney's fees. In case the garnishee delivers up all the goods and chattels of the defendant in his possession, the costs and expenses which shall have accrued shall be paid out of the proceeds of the property attached.

CHAPTER 134.

An Act in reference to property sold for taxes. C. B. No. 145.

The act provides that in case any property old at tax sale shall be bid in by the county, the duplicate certificate shall be sold by the tax collector to any person who shall pay the face value thereof with accrued interest and if such cannot be sold at private sale within three years then it shall be sold at public auction to the highest bidder for cash. No fees shall be paid to the assessor, collector or district attorney under this act until the money shall be realized by the sale of the certificate.

Notice for Publication.

Department of the Interior, United States Land Office, Santa Fe, N. M., April 11, 1905.

Notice is hereby given that on May 17th, 1905, the following plats will be filed in this office: townships 5 and 6, ranges 7, 8 and 6, all north and east; and that on or after the above date the land office will be ready to receive applications for entry in said townships.

CHEAP RATES TO NEW YORK.

The Mexican Central has recently placed on sale tickets to New York and return going via the Mexican Central to either Vera Cruz or Tampico; thence via the famous Ward Steamship Line to New York. The return will be by rail over any line to El Paso. The entire trip covering thousands of miles, Havana, Cuba, and its famous Moro Castle, Newport and a dozen of the largest cities of the United States, can be made for \$122.50. A more delightful trip cannot be planned as stop-over privileges are allowed and the tickets are good for one year from the date of sale. The trip includes the City of Mexico, the "Paris of America." Further information can be secured by addressing A. Dulohery, Commercial Agent, El Paso, Texas, or W. D. Murock, Assistant General Passenger Agent, City of Mexico.

CHARLES F. CAMPBELL.

Do You Know Good Healthy Sleep?

A healthy person sleeps a healthy sleep when tired.

When you find that half the time you can't sleep in the same old healthy way then it is time to take care of your nerves.

Tired nerves won't let you sleep well and won't let you feel well. They are sick; they demand attention and they won't let you alone until they get it. No prescription has ever been formulated that produced such wonderful and rapid results in building up tired nerves as Paine's Celery Compound.

Sleeplessness is simply one of the many warnings that tired, sick nerves give. Feed them with Paine's Celery Compound and you will build them back to their real strength and find again that good, healthy sleep,—which should come as natural to-day as it did in childhood.

You can take Paine's Celery Compound once a day, or once a month, or four times a day, according to your need; and when the medicine has done its work and your system is again running in the complete harmony of true health, you can cease taking the medicine, and you will not miss it. The reason is that Paine's Celery Compound is a real food for the nerve. It feeds and strengthens the entire nerve fabric.

The force sent out by healthy nerves is nature's stimulus, to keep all the organs of the body working well.

It is by restoring the nerves and making new Nerve Force that Paine's Celery Compound works all its wonders.

Health, vigor, determination, courage—in fact, all that makes life worth living depends upon healthy supply of nerve force.

Paine's Celery Compound makes new Nerve Force, it revives the old force and makes new. It not only does this, but by strengthening the nerves that control all the organs of the body, it cures the real cause of headaches, neuralgia, rheumatism, malaria, and the many diseases coming from a run down condition of the nerves.

Two days' treatment with Paine's Celery Compound will prove its marvelous power.

It braces you up and you feel its marvelous effect almost instantly.

A case of extreme nervousness and lack of good healthy sleep is told by Charles F. Campbell.

"I would jump at my own shadow. I suffered so from extreme nervousness. Every spring my condition was worse than the previous year. I was completely fagged out from loss of sleep, and a nervous wreck. Something had to be done or I would surely have gone crazy. A member of my family had taken your Paine's Celery Compound, and just for luck I took a dose of it one day. The details of my own cure would take too much time to relate, but it is sufficient that I consider that dose brought luck indeed. I am better physically and mentally at this moment than I have been since boyhood."

"I beg to remain, yours respectfully, C. F. Campbell, 253 Washington St., Boston, March 18, 1904."

For 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world. Several years ago the formula was sent to every registered physician in the United States. It is constantly prescribed by physicians.

Think for a moment what this means and remember that Paine's Celery Compound is the prescription of one of the most famous physicians America has ever known—Prof. E. E. Phelps, of Dartmouth University. Paine's Celery Compound is recommended and sold by all reputable druggists everywhere.

M. R. Otero returned last evening from Albuquerque, where he had gone to accompany his wife and daughter, Mrs. Solomon Luna, as far as Lamy on their trip east. Mrs. Otero and Mrs. Luna expect to be gone about a month and will visit a number of the principal cities.

Superintendent Clinton J. Crandall, of the United States Indian Industrial School, who has spent the last week at the Chocili and Santo Domingo Pueblos, returned today. Mr. Crandall had a busy time of it settling disputes over land and to get trespassers off the reservations of these Pueblos.

Mrs. S. M. Ashenfelter and her daughter, Mrs. Percy Wilson, both of Silver City, have gone east. Mrs. Ashenfelter will attend the convention of the Daughters of the American Revolution in Washington on Monday as a delegate from the Silver City chapter of that society. Mrs. Wilson is visiting friends in Kansas City.

Hon. L. Bradford Prince left this morning for an eastern visit of several weeks. He will be in Chicago a day or two on business and will then go to Washington, where, on the 19th instant, he will attend the triennial convention of the Sons of the Revolution, as delegate from the State of Colorado. He will then go to New York.

Mr. and Mrs. A. B. Renahan entertained on Thursday evening with a ml-carem Dutch lunch. Those present were Acting Governor and Mrs. Reynolds, Surveyor General and Mrs. Llewellyn, Mr. and Mrs. G. A. Fleming, Mrs. A. George, Miss Bright, Miss Alonzo and Messrs. Bayer, C. C. Catron and R. C. Gortner. An enjoyable time was had.

Dr. and Mrs. C. N. Lord informally entertained the Gapers' Club at their Palace Avenue home on Thursday evening. Light and liquid refreshments were served and a very enjoyable evening was had by those present. Mrs. C. N. Lord is the president of the club, Mrs. L. Seligman is the vice-president, and J. N. Zook is secretary and treasurer.

Yesterday was the anniversary of the birth of Professor R. W. Twining, principal of the High School, and the pupils in his department worked up a surprise party in honor of the event, which was held at the Presbyterian Manse. The surprise was in every way successful. About thirty young people were present and the evening

was pleasantly spent with games. Refreshments were served and Professor Twining was presented with a number of presents, which he of course highly appreciates as mementoes of the regard of his pupils.

Adjutant General A. P. Tarkington returned yesterday afternoon from Roswell, where, with Captain W. S. Valentine of the Fifth United States Cavalry, he inspected Company B of the First Regiment of Infantry of the New Mexico National Guard. There were present for inspection three commissioned officers and 28 men of the company.

Mrs. Gilbert Scudder, of Huntington, Long Island, arrived yesterday from Engle, where she has been for the past six months with her mother, Mrs. W. G. Ritch, widow of the late Governor Ritch. Mrs. Scudder will remain here for a week arranging the books and papers of her late father, these being very valuable and many. Mrs. Scudder spent her girlhood here while her father was Secretary and Acting Governor of the Territory and with her husband left in 1887 for Huntington, which has since been her home. She has many good friends in the city and finds herself quite at home.

At last! Santa Fe is now to have warmer weather and it will make its appearance tomorrow. The forecast is fair tonight and Sunday and warmer Sunday. Colorado will be treated the same way, no partiality being shown. The maximum temperature yesterday was 54 at 5 o'clock in the afternoon and the minimum was 31 at 5:40 in the morning, the mean for the day being 42. The relative humidity was 55 per cent, and the temperature at 6 o'clock this morning was 32 degrees.

Nathan Salmon, the progressive merchant of this city, has been given the contract to furnish the uniforms for the members of the Mounted Police force. The new uniforms are of gray cloth and tailor made. They have already been received, together with the hats and other accessories. Mr. Salmon secured the contract because of his reputation as the very best tailor in the Territory and he will furnish suits of which the force will be proud. Not only has Nathan Salmon a reputation for being the best tailor and fitter in New Mexico, but his store also enjoys equally as good reputation for always keeping nothing but the best goods in all lines. You are assured of courteous treatment, honest values and a guarantee of satisfaction whenever you buy anything of Mr. Salmon.

MINES AND MINING.

OTERO COUNTY.

Ores and Minerals in a recent issue gives a complete write-up of the Jarilla District. It says in part:

The Jarilla range rises abruptly at a point midway between the Organ and the Guadalupe mountains, in Otero County. The range has a total length of twelve miles and is probably four to six miles wide, and an altitude of 5,200 feet above sea level. The entire range is mineralized. The placers on the east extend into the plains that sweeps westward to the Rio Grande. The predominant minerals are copper and gold, silver and iron, with mines of turquoise and garnets.

The most important enterprise in that section is the work now being carried on by the Southwest Smelting and Refining Company, composed of St. Joseph and Kansas City, Missouri, capitalists. This company is developing a tract of a thousand acres of ground in the richest section of the Jarilla mountains. From the placers owned by the company thousands of dollars have been taken, and from the lode mines \$80,000 have been extracted in the course of development work. The placers lying on the east slope are estimated to contain several millions of dollars; they contain gold running about \$3 per yard. This placer was undoubtedly fed by the Nannie Baird vein, a rich gold-bearing lead that yields from \$8 to \$20 per ton in gold and from one to three per cent in copper and about one ounce in silver.

The country so well mineralized is of lime, traversed by northwest and southeast dykes of porphyry, in turn cut at right angles by north and south diorite dykes. The ore occurrence is under and southwest of the diorite, mineralization having taken place between the diorite and the lime in one place, and the porphyry and lime in another, at a distance not so far removed from the junctions of dykes. Where the occurrence is on the porphyry and the dykes, the ore is found on the north wall southwest and under the diorite. The heaviest mineralization is in the north and south vein system.

As one crosses from east to west the value in gold decreases, the value in copper increases, until at a point where the Lucky mine is located, just a mile from the Nannie Baird shaft house, a rich copper proposition has been developed.

The Lucky shaft has been sunk to a depth of 300 feet and is developed also by an adit tunnel run in on the first level; the shaft follows the pitch of the vein, the drifts being broken, four and one-half by seven feet in the clear, without any indication of having encountered either wall. In the bottom level the character of the ore is turned to a sulphide, the copper occurs as malachite and azurite, bornite and chalcocite, covellite, chalcocite and cuprite. The ore contains from \$2 to \$6 worth of gold per ton, about six per cent copper and five ounces of silver.

Further to the west there is an iron deposit that may well be likened to a mountain of mineral. The ore occurs in great reefs, measures from twenty to three hundred feet in width, and runs from sixty to seventy per cent in iron and carries from \$1 to \$3 per ton in gold. The amount of almost pure lime that abounds is almost inexhaustible.

A smelting plant to be erected this summer will have a daily capacity of 200 tons which will be further increased to 400 tons before the end of the year. The smelter site lies east and north of the Lucky, on the side of a hill and just above a natural reservoir. Water for the smelter is developed from the mines which is obtained as the shafts reach the level of the desert that sweeps away to the east.

The mineralized district is reached by railroad tracks built from Jarilla Junction, a few miles away, and which forks into two spurs at Jarilla station proper, one branch running to the ore bins of the Nannie Baird to the east, and the other following the gulch to the bins of the Lucky to the west.

The Nannie Baird property is developed by three shafts, one vertical and two inclines, as well as by numerous holes along the trend of the vein and open cuts from which ore has been shipped to the El Paso smelters. The upper shaft follows the ditch of the vein for a distance of 750 feet, in ore the entire distance; another shaft to a depth of 260 feet in ore, from the bottom of which a winze was sunk 60 feet in ore. A vertical shaft 50 feet in depth in ore and an open cut on the crest of the hill 100 feet in length, and from all of these openings the average value of the ore exposed was \$20 per ton in gold and one to three per cent in copper, with a trace of silver.

Just below the Nannie Baird to the east lies the rich placer in which test shafts have been sunk to a depth of 40 feet to reach bed-rock. In this placer three men took out \$150 in eight hours. Just above this placer to the south-east lies the Little Annie claim, from which eleven tons of ore were shipped that were settled for on the basis of \$400 per ton in El Paso. A drill hole sunk 250 feet west of the Nannie Baird disclosed rock that yielded gold values the entire distance, and at that depth a flow of water was encountered that rose 160 feet in the hole.

The Lucky shaft just west, has opened up a large amount of ore. There is a substantial shaft house, a gravity tram to the bins below, and an immense tonnage blocked out ready for shipment. A tunnel could be run in on the ore from the flat below and

may be followed to the shaft for a distance of several thousand feet. This vein has been opened on the surface, traced and developed by open cuts and shallow shafts for a distance of 6,000 feet; it varies from ten to fifty feet in width, and is one of the strongest and richest in the district.

Other mines of importance in the district are: The Lincoln and the Seven-Come-Eleven, located west of the Lucky, which have been leased and bonded by the Southwest Company to the Lincoln Copper Mining Company of Kansas City, which concern is now shipping ore in car-load lots to the El Paso smelters. The price named for the transfer of this patch of ground, some fifty acres, is \$200,000.

Just south of the Lucky lie the mines of the Amarillo Mining Company, east of this the Three Bears, with shaft down to a depth of 500 feet, several hundred feet of lateral development work, operated by a steam hoist and working two shifts; still east of this, on the edge of the plains, the Alice property operated by Messrs. Downs and Culver, of Jarilla, is down to a depth of over 200 feet, exposing bodies of rich ore.

The Southwest Company also contemplates the building of a pipe line from the Sacramento river to Jarilla, a distance of eight miles for furnishing water to the placer which sweeps from the crest of the hill, near the Nannie Baird and the Little Annie, to the plains. The company owns the townsite of Jarilla, as well as the general store.

BACK GIVES OUT.

Plenty of Santa Fe Readers Have This Experience.

You tax the kidneys — overwork them—

They can't keep up the continual strain.

The back gives out—it aches and pains;

Urinary troubles set in.

Don't wait longer—take Doan's Kidney Pills.

Santa Fe people tell you how they act.

Hilario Sandoval, painter and paper hanger, San Francisco st., says: "Any one engaged in my calling requires a good sound back and if that part of his anatomy gives out or is weak, lame and aching for six or seven months, he cannot perform the ordinary day's work without great discomfort. My backache never compelled me to stop work, but to say the least it was decidedly irksome when in the acute stage. Gradually as I continued the treatment with Doan's Kidney Pills procured at Ireland's drug store the aching ceased and in a comparatively short space of time totally disappeared."

After "La Sanadora" Has Been Used by Thousands of People With Great Success, the Praises of the Wonderful Medicine Which We Herewith Publish, Bear Witness to Its Merits.

Territory of New Mexico,
County of San Miguel.

I, Juan Ignacio Baca, do hereby make this declaration under my oath:

For the period of three years I had been afflicted by Malaria Fever, and my sufferings were such that I was unable to do any kind of work, or attend to my business. I procured and used many patent medicines without deriving from any of them any benefit to my health, and having lost all hope of recovering my health, it was my good fortune to meet the excellent good lady, Mrs. Emilie M. de Delgado, of this city, who kindly recommended me the use of "La Sanadora" for my case, and she herself gave me the medicine according to directions, and it resulted in a complete restoration of my lost health. After three days that I had been using the medicine, I felt so well that thereafter my energy to move returned and my health is excellent. I always keep at home this wonderful medicine, and it is a great satisfaction to me to know that its use in any kind of similar diseases, shall always prove a blessing. And I recommend all persons suffering to avail themselves of this medicine, assuring them that they will find the desired relief.

JUAN IGNACIO BACA.

The above was made under oath this 19th day of January, A. D. 1904.

J. P. CONKLIN.

Territory of New Mexico,
County of Lincoln.

I, Millard F. Davidson, make this statement under oath for the benefit of all sufferers as I have suffered. This present winter I caught a bad cold and had pains in my chest and a severe cough. I thought I was surely going to have pneumonia. I tried different remedies, but none relieved the pain or stopped the cough. I heard several people recommend Sanadora so I tried it and in less than two days was well and able to attend to business. Since then I have called others' attention to this remedy, and without exception they have been cured. It does what is claimed for it.

This is to certify that I am a resident of the County of Lincoln, Territory of New Mexico, that I have suffered with scrofula trouble for four

years and have sought in vain for a cure, both with doctors and prepared medicines, blood purifiers, etc. Nothing seemed to do me good. I was prevailed upon to try Sanadora some three months ago, which I did and I believe now I am completely cured. When I began taking this medicine I had breaking out on my body and sores which have now entirely disappeared. I feel first rate and can recommend Sanadora to anyone who is troubled as I have been.

LA SANADORA CURES!
ONE OF MANY:
Hedges, San Diego, Co., Cal., July 12.
Romero Drug Company,
Las Vegas, New Mexico.

Dear Sirs:—
My wife has been afflicted with Rheumatism and Neuralgia for a long time, and before writing to you, she had used a great many so-called remedies without apparent benefit. Realizing the fact that unless she obtained relief soon her disease would get the best of her and develop into something more serious. I commenced to search for some reliable remedy, and thanks to God I saw the advertise-

ment of "La Sanadora" in one of our Spanish papers and decided to give you my remedy a fair trial, which, I am pleased to say, has proven satisfactory.

"La Sanadora" has entirely cured my wife of these diseases and she now feels like a new woman. I can truthfully say that "La Sanadora" has given her relief after all others have failed. I feel so thankful for the good "La Sanadora" has done for my wife that I consider it my duty to add my testimony to that of others who have been cured by your wonderful remedy "La Sanadora." If any one doubts the truth of this statement, let him or her write to me and I will tell him or her just what "La Sanadora" has done for my wife.

Thanking you for your kindness, I remain yours very truly,
PROFESSOR A. J. MONROY, M. A.
Deputy Clerk of the Supreme Court of San Diego Co., California.
From the Optic, July 27, 1903.

Juarez City, State of Chihuahua, Mexico, November 23d, 1903.
Romero Drug Company,
Las Vegas, N. M.

Gentlemen—This letter is for the only purpose of informing you of the following facts:

Since the 7th of the present month I have been suffering from a very se-

vere cold, to such extent that for two weeks I could not sleep, during which time I tried different medicines to seek relief but all in vain. Accidentally I noticed in one of the newspapers to which I am a subscriber, an advertisement of your preparation, "La Sanadora," and having read the same carefully, I sent for a bottle of that medicine, and as soon as I took the first dose according to directions given, instantly I felt great relief, the fever and all pains I had been suffering having disappeared and I could regain my sleep, having passed the night pleasantly, and today I feel in good spirits having regained my usual good health. As I cannot fully correspond the benefit received from the effects of so invaluable medicine, I hasten to send you these lines as a testimonial for publication, recommending "La Sanadora" to all those suffering from the effects of colds.

Yours very truly,
MELITON CONCHA,
Leader of the Chihuahua Band.

Lincoln, New Mexico, Feb. 8, 1902.
Territory of New Mexico,
County of Lincoln.

I, Patricio Miranda, a resident of Lincoln, New Mexico, upon my oath make this the following statement: That about the first of the year 1901

I became sick with stomach trouble, which soon ran into diarrhoea and dysentery. I was treated by a doctor here and also at Fort Stanton for eight months at an expense of over one hundred and fifty dollars. I also tried a number of different patent medicines, but got absolutely no relief. My weight was reduced during this time from one hundred and sixty pounds to one hundred and twenty pounds, and I had got into such a reduced condition that I could hardly walk and could do no work at all. I had lost all hope of ever being cured but upon the recommendation of Aragon Bros. & Co., doing business here, I made a trial of Sanadora and used it as directed. The first bottle gave me relief and by the time I had used the third bottle by stomach was well and my diarrhoea had stopped, but I continued taking the medicine until I used six bottles in all, and now can say I am completely cured and have gained back my regular weight. I feel it my duty to testify to what Sanadora has done for me, and so make this affidavit.

PATRICIO MIRANDA, (X) His Mark.

Witness: B. H. MOELLER.

Subscribed and sworn to before me this 8th day of February, A. D. 1902.

CHURCH WORK IN SANTA FE.

The ladies of the First Presbyterian Church gave a very successful social at the home of Mrs. Walker, Grant Avenue, on Thursday evening. Miss Walter and Mr. Bennett sang, Mrs. Wood played several selections, games and conversation aided in passing the time and a bountiful supply of dainty refreshments completed a very enjoyable evening.

The Easter sale which the Ladies of St. John's M. E. Church will give on the 22d instant promises to be excellent. The doors of the church parlors will be thrown open to the public at 10 a. m. Fancy work, household necessities, home cooking table, cakes, candles, etc., etc., will be on sale at very reasonable prices.

The people of Albuquerque were favored with an opportunity to hear Robert McIntyre at the Lead Avenue M. E. Church on Thursday evening. He gave his well known lecture "Buttoned Up People." It would be a great treat to Santa Fe people if the churches here would have an occasional lecturer of merit such as Dr. McIntyre.

The New Mexican's policy of "sticking steadily at it" is going to bear fruit in a series of evangelistic meetings to be held early in May under the direction of Rev. Dr. Frances E. Smiley and his assistant singer, W. P. Hanson. Dr. Smiley was formerly in charge of one of the principal churches of Denver and is not unknown to many people here, who will be pleased to hear that this noted evangelist is to come to this city.

The Woman's Home Missionary Society of the M. E. Church held a very interesting meeting at the home of Mrs. Davis, on Montezuma Avenue, on last Tuesday afternoon. New interest was shown in the work of Home Missions.

The Junior Endeavor topic for next Sunday afternoon is "The Strangers in Our Land." Lev. 19:33. Thelma Stephens will lead the meeting.

The Woman's Home and Foreign Missionary Society of the Presbyterian Church will meet at the home of Mrs. Creighton this (Saturday) afternoon, and an interesting program will be given.

Services at St. John's M. E. Church by the Pastor, Rev. J. E. Shively, as usual next Sabbath morning and evening. Morning theme, "A Woman's Costly Offering"; evening theme, "The Sign of the Scarlet."

Church work throughout the Territory is flourishing, along with other things—catching some of our prosperity. Scarcely a week passes without a new church being begun, or being dedicated. The growth in the Territory is most gratifying, and some of the older ones are showing new spirit.

The Christian Endeavor topic for next Sabbath evening (6:45) at the Presbyterian Church, will be "Glorifying God in Our Recreations," 1 Cor. 10:31; Ps. 16:5-11. The leaders will be Professor Wood and Miss Cerna Bael.

Sunday Schools of the city are gradually growing in numbers and interest. They all meet in the forenoon at 9:45.

Junior League will be resumed at the M. E. Church next Sabbath afternoon at 2:30, after a vacation (enforced by sickness in the pastor's family) of several weeks.

At the First Presbyterian Church Rev. George Sevier will preach morning and evening as usual.
