THE MARTIN RELIEF LAW

An Attack Upon Its Constitutionality Argued Before Judge John R. McFie Today.

IMPORTANT POINTS

An Effort to Enjoin the Territorial Treasurer and Auditor From Carrying Into Effect Its Provisions—Will Be Taken Under Advisement.

In the District Court of the First Judicial District for the County of Santa Fe, Judge John R. McFie in chambers at the Capitol today heard the case of Thomas B. Catron, plaintiff, vs. William G. Sargent, as auditor of public accounts, and J. H. Vaughn as treasurer of the Territory of New Mexico. The plaintiff seeks to make permanent the injunction recently granted temporarily by Judge McFie against the defendants, enjoining them from carrying out the provisions of the so-called Martin Flood Sufferers' Relief Law and an amendment thereto passed by the 36th Legislative Assembly, and with the provisions of which the readers of the New Mexican are familiar. The case is probably the most important that has come before the court in many years, for it involves questions of much wider application than simply to the issue at present before the court.

The plaintiff, as a taxpayer of New Mexico, and representing himself, attacks the constitutionality of the act, averring that it is ultra vires, that is, beyond the powers of the legislature of the Territory; that it is in contravention of the Springer Act of Congress, and a part of the Organic Act of the Territory, which defines the objects for which a Territory may incur indebtedness and limits the amount of indebtedness that may be incurred to one per cent of the total taxable property in the Territory as shown by the last general assessment. The plaintiff avers that the present indebtedness of the Territory is already two per cent of the value of taxable property and that therefore any increase of that indebtedness is void. The plaintiff also maintains that the Martin Flood Sufferers' Relief Law is special and local legislation within the meaning of the clause of the Springer Act prohibiting such legislation, because it taxes all twenty-five of the counties of the Territory for the benefit of only thirteen counties and four designated communities and draws arbitrary boundaries within which alone the law is to be applicable. These objections are also raised to the amendment to the Martin Flood Sufferers' Relief Law, which in addition, it is maintained, confers upon territorial officials discretionary and other powers which are properly only within the province of the legislative body. The plaintiff also avers that the enforcement of the act will lead to excessive litigation on part of taxpayers resisting its provisions. These are the main points in the pleadings of the plaintiff, which cover seventeen paragraphs.

The defendants, represented by Judge A. J. Abbott and Assistant Attorney General E. C. Abbott, in their rejoinder admit the allegations of thirteen of the paragraphs, but deny those of four of the others, covering the main questions of law that have been raised besides having plaintiff admit that he may be mistaken in his averment that Territorial Treasurer J. H. Vaughn had already signed the bonds authorized to be issued under the act, an averment which the plaintiff denies, but which he waived, confining himself entirely to questions of law and none of fact, therefore making the taking of testimony unnecessary. The points denied by the defense are that the legislation in question is in contravention of the Springer Act; they deny that it is local or special; that it is ultra vires and that it will cause much litigation.

Judge A. J. Abbott opened the argument, maintaining that the act falls within the first exceptions of the Springer Act, in that it meets a casual deficit caused by the legislature creating a Flood Sufferers' Relief Fund as it had the power to do and appropriating \$50,000 therefrom, and that the one per cent limitation of the Springer Act does not apply to debts incurred for the specific exceptions mentioned in that act, that is, to meet casual deficits in the revenues; to pay the interest on the territorial debt and to suppress insurrection or provide for the public defense. The limitation, he argued according to the plain intent of the Springer Act, applied only to indebtedness incurred for public and permanent improvements. He also sought to show that legislation to relieve suffering caused by unforeseen calamity is within the province of the legislature. Incidentally, he argued that the assessment of the Territory represents only from thirty-three to fifty per cent of its taxable wealth.

To question the power of the legislature to legislate as it did to relieve the flood sufferers of last fall, is to question the very powers necessary to the existence of a commonwealth, was the contention of Judge Abbott. As to the question of the legislation being local or special, the defendant maintained that this was not the case and cited the opinion of the Supreme Court of the Territory in the case that arose over the removal of the county seat of Colfax County from Springer to Raton, and in which Judge McFie wrote a very exhaustive and learned opinion. The plaintiff maintained that if a legislature has the right to delegate its powers to others to make the distribution of moneys provided for the relief of the flood sufferers it certainly had the right to make that distribution itself by designating where it was to be disbursed and under what circumstances.

After Judge Abbott had concluded his argument a recess was taken until this afternoon at 2 o'clock when Mr. Catron made his argument.

Mr. Catron, in his argument, maintained that the words "casual deficit" in the Springer Act are not an independent provision, but must be read and construed with the exceptions immediately following and refer only to casual deficits in paying the interest on the territorial debt, to suppress insurrection, or to provide for the public defense.

He also maintained that the Martin Law was local and special, in contravention of the Springer Act; that there was at least one county, that of Chaves, which the legislature itself admitted in subsequent legislation, in a similar situation as the thirteen counties sought to be benefited by the Martin Law, and he also said that Bddy and other counties not provided for had suffered in a similar manner. The plaintiff also argued that the tax to be levied under the Martin Law was not for a public purpose, but for a private purpose; taking private property from all the taxpayers, to bestow it for private purposes upon a special class. Of course, if the tax falls, the Act also falls. Mr. Catron quoted very extensively from authorities and was still arguing as the New Mexican went to press.

It will probably be some time before Judge McFie will hand down his decision, as the questions of law that have been raised are very important and quite a number of authorities are being cited that will be examined at length before a decision is made.

MUCH SNOW IN THE RIO GRANDE WATERSHED.

The snowfall report of the Colorado section of the climate and crop service of the U. S. Weather and Crop Bureau for the month of March shows that the snow in nearly all sections of that state was above the normal. In the Rio Grande watershed, which furnishes part of the water for the Rio Grande, the fall was more than double the normal. On the slopes of the Sierra Blanca the snow covers the tree tops, and from all sections of that watershed the report is that the snow will be late in melting and that late floods may be looked for.

Russian "Lecoq" Makes Important Arrests at St. Petersburg of Terrorists.

A ROMANTIC FEATURE

Two Niece of Governor General Trepoff Converted to Assassination Doctrine and Attempt to Murder Their Uncle.

St. Petersburg, April 18.—Gradually many interesting details surrounding the recent arrest of a band of about a dozen Terrorists are leaking out. The capture, which is regarded as of importance, was accomplished by Kashovensky, who was dismissed from the Russian secret police several years ago on account of his connection with Philippe, the spiritualist who created a stir in court several years ago, and went to Paris to live. He is known as the Russian "Lecoq." Governor General Trepoff, upon his appointment as Governor General of St. Petersburg, induced Kashovensky to return to St. Petersburg and within two weeks the detective had captured the whole band which had been operating here under the direction of a central organization which apparently had headquarters in Switzerland. Alfred Henry McCullough, the man who was killed on March 11 by the accidental explosion of a bomb at the Hotel Bristol and whose real name was Bauman, was one of the chief Terrorists and had charge of the manufacture of bombs, and Kallief, who killed Grand Duke Sergius, also belonged to the same group. Among others captured was Madame Ivanovitska, the sister-in-law of the Russian author. She was involved in a plot to assassinate Emperor Alexander II. for which she was sentenced to Siberia but afterwards escaped to Austria. Perhaps the most romantic feature is the fact that Mlle. Leontieff converted the two nieces of Governor General Trepoff, Mlle. Trepoff and Princess Denisheff, to the doctrine of assassination, and after the arrest of her mother, Mlle. Trepoff actually attempted the life of her uncle, firing two shots at him, both of which missed. Thereupon the two girls attempted suicide but were unsuccessful. The family has since tried to make it appear that the girls' acts were the result of a mutual pact for self destruction, both being in love with the same man.

THE "BAD MEN" WILL BE FORCED TO VACATE.

The Mounted Police force of the Territory, which was assigned to duty Saturday, will immediately proceed to take steps looking to the driving out of the numerous "bad men" who have infested this Territory. When the New Mexico force begins to drive them from the north it is expected that a number of important arrests will be made, as there will be the Mexican Rurales on the south and the Arizona Rangers on the west to hem in the outlaws and effect their capture.

THE COURT FUNDS ARE RUNNING LOW.

Owing to the fact that the court funds in Bernalillo County are running low it is more than probable that the present term of the county criminal court will come to an end this week. However there will be a large court fund for the September term and it is expected that all the cases on the docket can be disposed of at that time.

CHANGE OF VENUE.

Granted to Alleged Murderers of the Late Colonel J. Francisco Chaves.

Special to the New Mexican. Roswell, April 18.—The United States court for the Fifth Judicial District met here yesterday. The territorial court for Chaves County was also organized. A change of venue was granted by Judge William H. Pope to Domingo Valles and Rosario Luceras de Cordova, charged with the murder of the late Colonel Francisco Chaves, to Bernalillo County.

ILLEGAL SALE OF LIQUOR ON WITHDRAWN LANDS.

A great many complaints have reached the director of the geological survey in Washington that the illegal sale of liquor on lands withdrawn for irrigation projects was seriously interfering with the work throughout the west. It is unlawful for settlers to allow the sale of liquor on their homestead filings and the department has issued a circular warning settlers who have granted this privilege that they would lose their land. The general land office will refuse to issue patents to any entryman who has violated this law.

COURT HAPPENINGS IN SAN MIGUEL COUNTY.

In chambers at Las Vegas, Judge Mills, in the matter of the assignment of Philip H. Doll, revoked the order to sell goods at auction, and allowed the assignee to sell the goods and accounts for \$1,750 cash. Judgement was rendered against Trinidad B. Baca for the sum of \$737 for taxes due. A divorce decree pro confesso was granted to Matilda Maestas Jaramillo, wife of Placido Jaramillo on the grounds of desertion and adultery. The case was from Union County.

FEDERAL COURT DECISION AFFIRMED.

In the case of J. Warder against the city of El Paso, the United States Supreme Court has affirmed the decision of the federal court. Warder claimed that half of the city, under the old Spanish grant, really belonged to him, but the flood waters of the Rio Grande had carried the property into United States territory. The Federal Court decided against Warder and the Supreme Court has affirmed this decision.

HIGH GRADE ORE.

Being Taken From the Parson's Mine in Lincoln County—Three New Mills to Be Installed.

Special to the New Mexican.

Capitan, Lincoln County, April 18.—There have just arrived at this station three complete Huntington mills of 50 tons each per 24 hours. These mills will be loaded on wagons immediately and hauled to the well known Parsons mine at the head of the Bonito, about 25 miles from here. The Parsons mine has been worked off and on for 20 years and is now again becoming prominent. The Eagle Mining Company which owns this property has since December last had in constant operation an Elzass mill of 50 tons capacity for 24 hours, and has found that this mill did so well and that the returns were so satisfactory that the best interests of the company demanded an increase of working facilities, hence the ordering of the three Huntington mills which are now en route to the Parsons mine. The ore body is one vast mass of a huge mountain side and runs higher than great bodies of ore in the celebrated Treadwell on Douglas Island, Alaska. The ore is quarried by immense blasts from open cuts in the mountain side and transported in cars to the upper stories of the mill in which it is automatically moved and, without farther handling, the tailings are discharged and the gold value saved. The gold taken from this mine is of exceedingly high grade, running from \$18.50 to \$19.50 per ounce. This property promises to equal, if not surpass in magnitude, any of the great low grade gold propositions of the world.

FOR BUREAU OF ETHNOLOGY.

Professor Hewett Will Investigate Archeology of Jemez Plateau—Headquarters in Santa Fe.

The Las Vegas Optic says: "Professor Edgar L. Hewett, formerly president of the Normal University, arrived in Las Vegas from Washington, D. C., this afternoon accompanied by Mrs. Hewett.

"Mr. and Mrs. Hewett, after a visit at the home of Mr. and Mrs. J. G. McNary, will proceed to Santa Fe, which will be Mr. Hewett's headquarters during a six months archeological trip. The gentleman is sent out by the Bureau of Ethnology to make a full investigation and report on the archeology of the Jemez plateau. This includes several famous districts, among them the famous Pajarito park, the Rito de Los Frijoles, made known twenty-five years ago by Bandeller, the Abiquiu district, the Jemez district and the almost unknown ruins of the Gallinas bad lands southwest of Tierra Amarilla."

The bakers claim they will fight along this line if ten hours are not granted them on May 1st, when the present agreement expires.

Dr. Astler is a brother of Charles Astler, of this city, and was here a few days ago on a visit.

BETTER DEMAND IN WOOL MARKET.

Boston, April 18.—A better demand for foreign grades has been the feature of the wool market during the past week. Domestic wools soured, on market, are also showing some speculative demand.

VIOLATION OF NEUTRALITY

Japanese Government Claims That France is not Observing the Law.

NO NEWS FROM FLEET

The Russian Admiralty Has Heard Nothing From Rojstvensky—Two Steamers Near Manila.

Tokio, April 18.—In discussing the presence of vessels of the Russian second Pacific squadron at Kamranh Bay on the east coast of French Indo-China, the papers all insist that Russia is using French territory for a base and that France is not observing neutrality. Jiji Shimpo (newspaper) says, "Japan must regard its neutrality as completely ignored and Japan will not be obliged to respect its neutrality. The violations of neutrality in distant ports (like Madagascar) are not important, but when close to the zone of war it is impossible to view them with the same leniency." The paper further declares that France is lending to Russia sufficient assistance thus actually joining issue with Russia against Japan and it is now necessary for Japan to notify Great Britain and obtain her co-operation, according to the terms of the Anglo-Japanese alliance. Other papers publish statements to the same effect.

Rojstvensky Silent.

St. Petersburg, April 18.—No news from Admiral Rojstvensky was received at the Admiralty today.

Are They Japs or Russian?

Manila, April 18.—Two unknown steamers have anchored in Lingayan Bay, Island of Luzon, about 130 miles north of Manila Bay.

France Denies Japs' Insinuation.

Paris, April 18.—The French government has taken every precaution to secure the observance of neutrality in French waters in Indo China. To this end instructions have been sent to M. Beau, governor general of Indo-China, again calling his attention to the regulations concerning the observance of neutrality as issued at the outset of the war. These are identical with the neutrality rules in force during the Spanish-American war. It is believed that Admiral De Jonquieres, commander of the French naval forces at Saigon, in proceeding to Kamranh Bay where a part of the Russian second Pacific squadron has been seen, is following out the governor general's instructions.

RECEIVER SELLS ASPHALT.

And the American Company Asks That It Be Restrained Till Case is Settled.

Washington, April 18.—Counsel for the American Asphalt Company appeared at the state department today to urge the government to take action to secure the restoration of the company's property to the hands of its agents, pending a final decision of the question now before the Venezuelan courts. Asphalt lake is now in possession of the receiver appointed by the Venezuelan court, which is mining asphalt and selling it, and it is asked that it be stopped, until the case is legally determined.

NO WORD FROM THE PRESIDENT.

No information received since Roosevelt started on Bear Hunt Three Days Ago.

Glenwood Springs, Colo., April 18.—It has been three days since President Roosevelt started on his bear hunt and no word yet received by Secretary Loeb. This is not considered strange for the President announced before the farewells were said at Newcastle that he would not be in any hurry to communicate unless he had something of importance to send. Secretary Loeb said today that a courier from the camp will not arrive until tomorrow.

VOTING MACHINES COMING.

Voting machines are becoming familiar to American voters and it is but a question of a few years when they will be adopted in all progressive and go-ahead states, especially in those where honest elections are desired by the people. Concerning the use of such machines, in a recent city election in Detroit, the Colorado Springs Gazette remarks that from every city where voting machines have been given a fair test comes praise of their full ability to perform the work required of them. This was the case in New York in the election last fall and again in the spring elections in the smaller cities. At the recent city election in Detroit they were given a thorough trial, with what results may be judged by the following editorial from the Tribune, of that city:

"Lack of familiarity with the voting machine and the undue size of the voting list in some of the precincts caused delay in the operation of the machines. It is to be deplored that any one lost his vote from this cause, but the machines are built to vote with as great a rapidity as is possible under the crude paper ballot system, and familiarity can be easily gained. But where the machine lost a citizen his vote because of lack of capacity to care for a large precinct, it saved another his vote by its precision. One citizen who took an unnecessarily long time registering his choice on the machine finally yelled out that the machine would not work. 'Then you are trying to vote for seven judges,' answered the inspector, which proved to be true. Had the citizen been using the paper ballot form he would have lost his vote, for the paper form does not 'refuse to work' until it is rejected by the counting board.

"It was claimed for the machines that they will not lie, that they yield the returns immediately, that the voter cannot spoil his ballot, that they cannot be stuffed, and that no counting board nor recount is necessary with them. All these claims have been substantiated. Against them there stands ignorance of their simple use. Where the precincts are large a division should be made or two machines provided. Mere smallness of precinct, length of time consumed, or lack of familiarity can be remedied easily and will be remedied. For the voting machine must come, and the sooner the voter learns its use, why, the better for the voter."

At the next general election, to be held in November, 1906, the voters of Colorado will decide on the Cornforth law which authorizes the use of these machines in the Centennial State. If adopted it will become operative immediately, and the machines will be given their first trial in the next spring election. They have many advantages, but greatest of all is the fact that by their use, dishonesty would be rendered almost impossible. This alone is sufficient reason for their adoption.

President Roosevelt is enjoying himself on a bear hunt in the mountains of western Colorado. He might successfully round out this enjoyment with a few days' hunt in the Santa Fe Mountains where he will be certain to kill bears and mountain lions. If the President cannot extend his trip to this section this year, the people of this city extend to him a hearty invitation to do so in the year 1906 about this time. They promise him first class sport and their promise will hold good.

A man from Maine has bought the county seat of Montezuma County, Colorado, the little town of Cortez. He held bonds to the amount of \$200,000 issued by the town and as he received neither interest nor principal he bought in the town at sheriff's sale paying \$3,000 for the whole outfit. What he will do with his purchase is not announced but it will likely prove a white elephant of which he will eventually be glad to be rid.

THE SANTA FE LAND GRANT SHOULD BE SURVEYED.

In case satisfactory arrangements can be made, the city will order a complete survey of the Santa Fe Grant which is much needed. Since the enactment of the law by Congress, in 1900, which authorized the city government to issue deeds to those who had occupied land for ten years previous to the passage of the act, there have been a great many quit claim deeds given by the city. Many deeds have not been placed on record as they should have been and the holders of such who have not had their instruments recorded are liable, under provisions of the law, to forfeit their rights. It is essential that every deed up to this time executed by the city be recorded. The proposed survey will show only the lands covered by deeds of record and a failure to record such will result in expense to the owner in proving title, which can be done by this survey which will be made official. Mayor Gibson, who is negotiating for this work, states that it is impossible to know who the parties are holding deeds unless all instruments are recorded.

During the past year, no deeds have been executed by the city except such as have been approved by the city attorney, who, after an examination of the records, found the titles to the land involved to come within the law.

It is to be hoped a complete survey of the city grant will be made. There is a constant demand for an official map of this city and the Santa Fe Grant and the revenue derived from the sale of an official plat ought to pay the expense of preparing such record.

Occasionally, a merchant says: "I would advertise more extensively but times are hard and the poor people are the majority in Santa Fe." And yet, if Santa Fe were peopled by Carnegies it would not be a better field for advertising than it is today. All men are created equal in their sensitiveness to printer's ink and even a J. Pierpont Morgan can consume but a relatively negligible quantity of potted pork or calico. There is much to assume the mediocrity of the average man in the revelation thus afforded him of his own importance. If you have a store and want to sell your stock, advertising will bring just as good results in Santa Fe as it does in New York. Let any grocer advertise today that he will give away a pound of sugar tomorrow to every comer and he will be astonished to learn that a well placed advertisement reaches every man, woman and child in Santa Fe within three days' time. It depends altogether on what is advertised and not upon the wealth of the reading public.

Dr. William Osler who advises the chloroforming of all men over sixty years of age is at present in Canada advising the Canucks upon the question of race suicide. He says: "Something should be done to stop the loss of the mothers of the country. There are two ways. One is to tax bachelors. At 25, the man who has not a family to support ought to be helping the other man, and such a tax would be a reasonable and rational political measure. The other is to levy an export tax of \$100 on every girl who leaves the country. She is worth more than that and it would pay the nation to give as much as \$1,000 to the family to keep her at home."

The fruit crop in northern Missouri and Kansas has been killed by recent frosts. New Mexico fruit trees will have to bear abundantly to meet the demand this fall for apples, pears, plums and other fruit if the Missouri-Kansas reports are true. Thus far, the outlook indicates that this will be the banner fruit year in the history of the Territory and the shortage elsewhere will make prices good. The man who has invested in fruit trees is apt to get good financial returns in addition to the shade and beauty which every tree brings to his home. Property owners in Santa Fe can do nothing better for the town and incidentally for themselves than to plant trees.

Active work on the Eastern Railway of New Mexico, has commenced. This is good news. Too much of this kind of news, concerning railroad building, cannot be had in New Mexico for years to come. What this Territory and future Sunshine State need is about 5,000 miles of railroad in active operation within its boundaries. When that has come about, the regulation of local railroad traffic will not be a very difficult matter.

A careful perusal of the daily and weekly papers of Arizona does not seem to indicate any material change in the sentiment concerning joint statehood in the sister territory. It seems that the organization of the Albuquerque "Non-Partisan Statehood League" has not scared the editors of the sister territory an iota. Strange but true!

It is reported that Rockefeller's charitable inclinations are seeking new fields and that he may endow the state of Kansas for the purpose of enabling it to build independent regencies.

The Socorro Chieftain hits the nail on the head when it says: "Let us work for single statehood first. If we find that we cannot get that, then it will be time to consider an alternative."

A REMARKABLE PEACE MONUMENT.

Argentina and Chili seem to be in earnest about their promise to maintain the peace in their part of South America. Recently a monument of Christ was unveiled at an elevation of 14,000 feet on the boundary of the two nations, inscribed as follows: "Sooner shall these mountains crumble to dust than Argentines and Chileans break the peace which, at the feet of Christ, the Redeemer, they have sworn to maintain." On the other side of the base are the words: "Peace on earth, good-will to all men!" The monument cost \$100,000 which was raised by public subscriptions in the two countries. Yet, too much reliance cannot be placed in the vows graven into stone by Chili and Argentina. It was not so many years ago that one, Czar Nicholas of St. Petersburg, summoned a peace congress and submitted to it a plan for eternal and universal peace. This same Nicholas is now waging in Manchuria the bloodiest war of the century. Promises of nations are often of less weight even than promises of politicians.

The Albuquerque Journal in its last Sunday issue asserts that the New Mexican said that it was worth \$80,000. This assertion is of the general character of the fake news generally contained in the columns of the Journal. What the New Mexican did say was that the management of the Journal asked \$80,000 for the plant, good will, etc., and that in the opinion of the New Mexican, for the good of the public, the Journal should return the plant for assessment purposes at one-third what the management valued the plant. Were the management to do this the people of Bernalillo County would be subject to congratulations. The New Mexican cited the fact that in 1904 the management of the Journal placed the valuation of the plant for assessment purposes at \$6,500, which sum was raised, and that very properly, by the assessor to \$9,500.

If any newspaper or citizen of this Territory dares to insinuate that any Albuquerque institution or property owner should make a fair and honest tax return or should be fairly and equitably assessed by the assessor of Bernalillo County, then in the opinion of that Bombastes Furioso, the Albuquerque Journal, it or he is a "black maller and an enemy of the people." The money sharks and trust corporations, whose mouthpiece the Journal is, are to be allowed to do as they please in tax matters and make as unfair and dishonest tax returns as they choose. The plain people in every section of the Territory should be compelled to make tax returns at a full valuation of the property they possess. That is the motto of the Journal.

Life to the tax dodger is becoming more and more burdensome in New York. The Empire State is enforcing a bran new mortgage tax of five mills on every mortgage that is recorded and which makes an unrecorded mortgage void. This tax will produce an annual revenue of \$2,500,000 and while it is less than the personal tax on mortgages, which it replaces, yet, it cannot be sworn off as are personal taxes. But, somehow, the millionaires continue to prefer Fifth Avenue to New Mexico, in which Territory they might swear off personal taxes to their heart's content and never be bothered by a mortgage tax. No amount of leniency to tax dodgers has ever brought prosperity to any community even if its name is Albuquerque.

That the Albuquerque Non-Partisan Statehood League was organized for a non-partisan purpose sounds like the story that comes often from St. Petersburg that Russian detachments have surprised Japanese troops and that all of the latter have either been "sabered" or "bayoneted" and that no Japs remain to tell the tale. The promoters of the Non-Partisan Statehood League and the Russian war and navy department correspondents have evidently drank deeply of the cup from which Ananias and Sapphira drank many, many centuries ago.

The Albuquerque Bombastes Furioso, otherwise known as the Albuquerque Journal, has filled its editorial columns of late with abuse, false charges, and lies concerning the New Mexican, and this simply because the New Mexican "gave away" a few facts concerning an Albuquerque tax dodger or two, and the corruption of a grand jury, and made apparent that the pet scheme of the Journal, the Non-Partisan Joint Statehood League, was a fake.

The beef trust has raised the price on all meats three cents a pound, probably to make up the expense of its employees who had to go to Europe to escape being summoned before the U. S. grand jury at Chicago.

Baby Costs Too Much

When the price paid is the mother's health and happiness. The father doesn't realize as he romps with the child what years of wifely suffering must be set against the baby's laughter.

Chronic invalidism is a high price to pay for the painful joy of maternity, yet it is at such a cost that many a woman becomes a mother. Such a price is too much because it is more than nature asks.

By the use of Doctor Pierce's Favorite Prescription maternity is made practically painless, and a quick convalescence is assured in almost every case.

"I am pleased to give my testimony and wish I could find words strong enough to induce other sufferers to use Dr. Pierce's Favorite Prescription."

writes Mrs. Wesley Guy, of Kemptville, Ont., Box 6. "For eight years after my little boy was born I suffered with female weakness, also soreness in ovaries, especially on my right side, and pain in back. Was so miserable sometimes did not know what I was going to do. Tried several doctors but derived no benefit until I began using Dr. Pierce's Favorite Prescription. It only used four bottles, also some of Dr. Pierce's Antiseptic and Healing Suppositories when I felt like another person. I recommend Dr. Pierce's medicines to all my friends. If anyone wishes to write me I will gladly answer."

Dr. Pierce's Favorite Prescription contains no alcohol and is entirely free from opium, cocaine and all other narcotics.

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss; therefore, accept no substitute.

Dr. Pierce's Pleasant Pellets regulate the bowels.

GIVES HEALTH, VIGOR AND TONE.

Herbina is a boon for sufferers from anemia. By its use the blood is quickly registered and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and happy activity results. New life and happy activity results. Mrs. Belle H. Shirrel, Middleborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbina. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50c at Fischer Drug Co.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

THE BEST COUGH SYRUP.

S. L. Apple, ex-Probate Judge, Ottawa Co., Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c, \$1.00, at Fischer Drug Co. only.

For a Weak Digestion.

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefited by their use. They only cost a quarter. For sale by all druggists.

CURED CONSUMPTION.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. He was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1 at Fischer Drug Co.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by all druggists.

INVALUABLE FOR RHEUMATISM.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Degnan, Kinsman, Ill. 25c, 50c and \$1.00 at Fischer Drug Co.

Keep your bowels regular by the use of Chamberlain's Stomach and Liver Tablets. There is nothing better. For sale by all druggists.

GERTRUDE JENKINS.

New Strength—

Increased Vigor.

It is easy to get into a run down state and stay that way and forget what real health is. We never appreciate real health when we have it.

After feeling all run down, nervous and tired out, month after month, most people simply hope against hope that they will feel better soon.

Instead of trying to do something to help themselves feel better, they depend on hope.

The only way to really help yourself is to get new strength and increased vigor.

Win back your right to feel strong and well every day.

A well person ought to wake up with a laugh every morning.

Health, vigor, determination, courage—in fact, all that makes life worth living depends upon a healthy supply of Nerve Force.

Paine's Celery Compound builds up the supply of Nerve Force, it revives the old force and makes new. It not only does this, but by strengthening the nerves that control all the organs of the body, it cures the real cause of headaches, neuralgia, rheumatism, malaria, and the many diseases coming from a run down condition of the nerves.

Gertrude Jenkins allowed herself to gradually sink into nervous prostration, one of the final states that tired, abused nerves reach. Her experience is valuable to all those who feel "run down," "tired out" and are not helping themselves to get back to real health.

"Paine's Celery Compound cured me of nervous prostration when I was so weak and used up that I had to lie down part of each day. The doctor advised me to go away and take a vacation to build up, but I could not give the time or money. Paine's Celery Compound built me up within two weeks—my headaches disappeared, my appetite returned and the aches and pains gave way to new strength, life and increased vigor. I enjoy perfect health to-day and used less than five bottles of Celery Compound, so know by experience how valuable it is."—Gertrude Jenkins, 714—63d St., Chicago, Ill. (Member Ladies of the Maccabees.)

"Nervousness," "nervous prostration," "nerve decline,"—that run-down, worn-out feeling,—nine times in ten are simply the result of prejudice, carelessness, or ignorance.

Prof. Phelps, of Dartmouth University, was the first physician to enunciate the principle which to-day is recognized as one of the foundations of the science of medicine,—the great enlightening truth, that the nerve system rules all the body's health.

He sought and found the food that builds up and restores the nerves—his celery formula, which has become famous as Paine's Celery Compound—the celebrated nerve vitalizer and tonic.

Paine's Celery Compound is giving New Nerve Force to thousands every day by feeding and restoring the nerves to their full strength. It never fails to build up the run down system to full, ruddy health.

Two days' treatment proves its marvelous power. It braces you up. You feel better at once.

Sick headache, palpitation, dizziness, and heart-burn are usually relieved by a single dose of Paine's Celery Compound.

For over 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world.

Remember this,—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

City Alderman George Anton returned from Espanola yesterday, where he had been on business. He says that everything is looking fine, that there is plenty of water and the farmers are rejoicing over the outlook for a record-breaking yield.

MAY BE WRONG MAN.

It is Possible That the Man Confined in the Raton Jail May Not Be Ed. Franks.

The man who is confined in the jail at Raton on the suspicion that he is Ed Franks, a member of the Black Jack Ketchum gang, may not be the man wanted, after all. He claims that his name is Ervin McManus and that his home is in Woodward, Oklahoma, near which place he has a small ranch and some cattle, and Saturday he received a letter from his mother, who resides at the latter place, addressed "Ervin McManus," and she evidences great concern about the trouble into which he has fallen.

He refers the officers of the law to any business man of Woodward to prove the fact that he has continuously lived in the vicinity of that place for the past five years.

Inasmuch as no one can be found to identify the prisoner as a member of the former Black Jack gang, he will probably be released.

McManus has the appearance of being a rather tough character, though Sheriff Littrell, of Colfax County, says he is a mild speaking man, and straightforward in his statements, and it is possible that his looks may belie him.

FIFTY YEARS IN THE SISTERHOOD.

Fifty years ago Sunday, Sister Mary Pauline, a member of the Sisterhood of Charity, entered the ranks of the Sisterhood. She has been in Albuquerque for the past thirty-five years and is lovingly known by many people, both young and old. She celebrated this fiftieth anniversary of her entrance into the Sisterhood by quietly receiving her friends at the St. Vincent's Academy. Her career has been one of especial interest in the Territory. She was a member of the party of Archbishop Lamy, which came over the old Santa Fe Trail to Lamy in 1870. She has been in Albuquerque ever since and has performed many deeds of kindness and charity.

TWO ROSWELL HOMES DESTROYED BY FIRE.

General Manager S. B. Grimshaw, of the Santa Fe Central, is entitled to lay claim to being the king of grafters. He

has a tree in front of the door to his room that he is very proud of and with which he takes considerable pains. There are now appearing upon this one tree the largest variety of fruit that has ever been produced even by the most improved methods of horticulture. There are apricots, peaches, apples, prunes, raisins, dates, oranges, lemons, peanuts, pecans, English walnuts, and even chickens. Mr. Grimshaw takes great pride in his tree and every morning before breakfast he takes a spade and digs around the roots in order to keep the soil mellow and in good condition. What might have resulted in a serious runaway about 5 o'clock yesterday afternoon turned out to be but a slight commotion and caused very little damage. The meat cart of Birchhoff & Ortiz was standing in front of the market. The horse had in some way gotten the bridle off and it fell against its forelegs, scaring it so that he started to run. The bridle kept hitting it and frightening the animal. It turned onto the sidewalk just above Fischer's drug store, collided with a telegraph post, overturned the cart and itself, and was captured, lying almost on its back in the middle of the sidewalk. Several other horses standing near by this time become excited and it was with some little difficulty that they were kept from stampeding. No one was injured and the only damage done was a broken shaft and badly torn up harness.

KILLS GERMS OF CATARRH.

Hyomel Goes to the Root of the Disease and Makes Astonishing Cures.

Catarrh cannot be cured by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live in the air passages and increase and multiply.

Hyomel is the only scientific and thorough way to cure catarrh. Killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and effectually drives from the system all traces of catarrhal poison.

Thousands of testimonials have been given as to the astonishing cures made by this remedy.

Mrs. Le Rendu, 76 Western Avenue, Cleveland, Ohio, writes: "I believe Hyomel saved my life. I am better now than I have been in thirty years. Many doctors, both in England and France, treated me for catarrh, but I was not cured until I used Hyomel."

Probably the strongest evidence that can be offered as to the powers of Hyomel to cure catarrh is the fact that A. C. Ireland will agree to refund the money if you say Hyomel has not cured you.

The complete Hyomel outfit costs but \$1.00, consisting of an inhaler, dropper and sufficient Hyomel to last several weeks. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then extra bottles of Hyomel can be obtained for 50c.

Company G, First Regiment New Mexico National Guard, at Albuquerque intended to have a carnival in the Duke City in May, hoping thereby to pay off the indebtedness on its armory, but the merchants of the city, thinking that such an occasion at that time would be detrimental to the best interests of the city, have decided to raise the amount necessary on the armory with the understanding that the carnival be called off.

WOULD KICK AND SCREAM

Baby's Awful Suffering from Eczema—Could Not Hold Her—Tore Face and Arms Almost to Pieces—Grateful Mother Says:

"CUTICURA REMEDIES SAVED HER LIFE"

"When my little girl was six months old, she had eczema. We had used cold creams and all kinds of remedies, but nothing did her any good; in fact, she kept getting worse. I used to wrap her hands up, and when I would dress her, I had to put her on the table, for I could not hold her. She would kick and scream, and when she could, she would tear her face and arms almost to pieces. I used four boxes of Cuticura Ointment, two cakes of Cuticura Soap, and gave her the Cuticura Resolvent, and she was cured, and I see no traces of the humor left. I can truthfully say that they have saved her life, and I should advise any one suffering as she did, to give Cuticura a fair trial. Mrs. G. A. Conrad, Lisbon, N. H., Feb. 7, 1898."

FIVE YEARS LATER

Mrs. Conrad Writes

"It is with pleasure that I can inform you that the cure has been permanent. It is now six years since she was cured, and there has been no return of the disease since. I have advised a lot of friends to use Cuticura in all diseases of the skin."

Instant relief and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, the great skin cure. This is the purest, sweetest, most speedy, permanent, and economical treatment for torturing, disfiguring, itching, burning, scaly, crusted and pimply skin and scalp humors. Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per box of 60). Ointment, 50c.; Soap, 25c. Potter Drug & Chem. Corp., Boston, Sole Props. Send for "Cuticura Skin Book."

LET THEM TELL IT.

The Public Utterances of Santa Fe Citizens Are What Count. Publicity Is What the People Want.

Let them tell it.
Let the public speak on the subject. It means better understanding. Means less misery in Santa Fe. Means confidence in a good thing. Home endorsement counts. Easier to believe your neighbors. Than strangers in a far-away town. Every box of Doan's Kidney Pills Is backed by home testimony. Kidney disorders—urinary troubles—Are on the decrease here. Doan's Kidney Pills are Relieving backs and curing citizens. It is their daily work. Here's a case in point.

Alberto Garcia, ex-police officer of San Francisco st., says: "When a man has attacks of backache for four or five days at a time and those attacks extend over a period of two years, he must arrive at this conclusion, he is subject to some form of kidney complaint. In my case other symptoms plainly indicated that I required a medicine to strengthen my weakened kidneys, and allay inflammation of those organs. This led me to go to Ireland's Pharmacy for Doan's Kidney Pills. They certainly helped me a great deal and tided me over the last attack. If others occur, I now know how to stop them in the incipient stage."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.
