THE SENATE
REVENUE BILL!

How the Philippine and the Other Islands are to be Governed.

RAINY SEASON BEGINS IN CUBA.

Washington, May 27.—In the senate, Carter reported from the military affairs committee a bill providing for a second assistant secretary of war, to be named by the president and receive a salary of \$4,000. Passed.

Morgan offered the following war revenue measure:

"Whenever any islands of the Atlantic or Pacific oceans are owned by the United States, or when they are occupied by the civil or military forces of the United States as a result of the war with Spain, or as a necessary means of conducting such war, to be determined by the president as commander-in-chief of the army and navy of the United States, it shall be lawful and within his discretion for the president to appoint a civil or military governor of such islands or any group of such islands, with full authority, under such regulations as the president shall prescribe, not inconsistent with the laws of civilized warfare, to maintain good order and protect the lives and property and domestic peace of the people thereof."

"And there shall be extended over such islands and enforced therein, such parts and provisions of the tax laws of the United States for such islands, whether relating to customs duties or internal taxation, as shall, in the judgment and discretion of the president, be justly applicable to such islands during the existence of war with Spain."

"The currency of the United States, whether gold, silver or paper money, shall be a lawful tender in such islands so owned or occupied in the same manner and to the same extent as they are legal tender in the United States for the payment of all debts, public or private."

"And the provisions of this act that relate to such islands, together with such regulations as shall be made by order of the president for enforcing the same shall remain in force until the same are altered, amended or repealed by act of congress."

Consideration of the war revenue measure was resumed, Tyler taking the floor to continue his speech begun yesterday.

OFFICIAL REPORT.

Sampson's Report of the Battle of Porto Rico.

Washington, May 27.—The following bulletin was posted at the navy department to day. Following is a copy of the report made by Rear Admiral Sampson, concerning the action of the San Juan de Puerto Rico:

"Upon approaching San Juan it was seen that none of the Spanish vessels were in the harbor. I was, therefore, considerably in doubt whether they had reached San Juan and departed for some unknown destination or had not arrived. As their capture was the object of the expedition, and as it was essential that they should not pass to the westward, I determined to attack the batteries defending the port in order to develop their positions and strength and then, without waiting to reduce the city or subject it to a regular bombardment, which would require due notice, to return to the westward."

"I commenced the attack at dawn as it was good daylight. This lasted about three hours, when the signal was made to discontinue the firing and the squadron moved to the northward into the bay of San Juan, when the course was laid to the westward, with a view of communicating with the department at Porto Rico, and learn if the department had obtained information of the movements of the Spanish vessels."

"At Cape Haytien I received word from the department that the Spanish vessels had been sighted off Curacao on the 10th instant."

"As stated in my telegram, no serious injury was done any of the ships and only one man was killed and seven wounded slightly."

STEAM CRAFT.

Several Small Vessels to be Bought to Protect Coast.

Washington, May 27.—The navy department is making ready for the purchase of small steam craft to protect the coast of the United States. They are needed badly for the protection of elaborate mine fields laid at almost all points of the Atlantic coast. The reckless conduct of commanders of vessels entering and emerging from these ports has determined the authorities to deal summarily hereafter with persons who disregard repeated warnings.

CAPTURED PRIZES.

United States Court Decides the Fate of the Captured Vessels.

Key West, May 27.—In the United States circuit court Judge Lockwood rendered decisions in the case of six Spanish steamers seized during the first days of the Cuban blockade. These included the most valuable prize taken since the war began. The Catalina and Miguel Jover

were released, both vessels and cargo. The Pedro, Guido, Buenaventura and Panama were condemned and forfeited. The cargo of the Buenaventura being neutral property is to be restored to the owner. The question of the Panama's cargo is taken under advisement. The owners of the Pedro, Guido, Buenaventura and Panama served notice of appeal.

Has Cervera Escaped.

New York, May 27.—An afternoon paper prints a dispatch from a Key West correspondent alleging as on the best authority that Cervera's fleet left Santiago de Cuba Saturday last. The statement lacks confirmation.

DISPATCHES FROM SHELLEY.

He Sends Cheerful Word to Rear Admiral Sampson.

(Copyright Associated Press.)

Off northern coast of Cuba, May 27.—2 a. m.—At 10 o'clock last night the Philippine ran alongside of the flagship New York. Her light showed that she bore dispatches for Rear Admiral Sampson. The commander of the Philippine showed the dispatches to the New York. Commodore Schley's dispatches were dated off Cienfuegos.

"Absolutely nothing definite can be said," was the reply which Captain Chadwick, of the New York, made to the question as to what had transpired. Since he heard of Admiral Cervera's arrival at Curacao, Sampson has repeatedly said he believed that the Spaniards would go to Cienfuegos or Santiago. When the ships of Schley's division were sailing out of Key West under Rear Admiral Sampson's order the admiral sent this signal to the captain of the Texas: you are going to San Juan, and good luck to you."

Since then Sampson has been cruising around as purely a precautionary measure. He firmly believed that Commodore Schley would battle the Spaniards either at Cienfuegos or Santiago, but took all measures to guard against a possible evasion of Commodore Schley by the Spanish fleet.

ARMY OFFICERS.

Long List of Promotions by the President Sent to the Senate.

Washington, May 27.—The president today sent some 20 promotions to the senate. To be brigadier generals: Col. Robert H. Hall, Fourth United States Infantry; Col. Edwin V. Sumner, Seventh United States cavalry; Col. Peter C. Haines, corps engineer; Col. George Gillespie, corps engineer; Col. Marcus R. Miller, Third United States artillery; Col. Jacob Kline, Twenty-first United States Infantry; Lieut. Col. O'Connell, Eleventh United States Infantry; Lieut. Col. Lloyd Wheaton, Twentieth United States Infantry; Lieut. Col. Arthur MacArthur, assistant adjutant general; Lieut. Col. Henry H. Rogers, Third United States Artillery; Major Joseph P. Sanger, inspector general; Frederick D. Grant, New York, 14th New York volunteer Infantry; Harrison Gray Otis, California; Henry M. Duffield, Michigan; Charles King, Wisconsin; Lucius F. Hubbard, Minnesota; George A. Garretton, Ohio; William A. Lacey, Florida; John A. Wiley, Pennsylvania; William A. Rogers, Massachusetts; William J. McKee, 71st New York volunteer Infantry; Charles Fitzsimmons, Illinois; Joseph K. Hudson, Kansas; Joseph Rish, Lincoln, Iowa.

To be brigadier general—Michael V. Sheridan, United States assistant adjutant general.

DESTROY THE FLEET.

Cabinet Officers Say That Schley Will Destroy Cervera's Squadron.

Washington, May 27.—After the cabinet meeting to day it was authoritatively stated, although the government had no official information on the subject, that there was no reasonable doubt that Admiral Cervera's fleet was in Santiago harbor and that Commodore Schley was on guard at the entrance. It was also stated that any complicated movement against Cuba or Porto Rico would be held in abeyance until the Spanish fleet was either destroyed or otherwise rendered helpless to interfere with our plans in any direction.

LONG IS SHORT ON NEWS.

The Secretary Has No News of the Fleet—Cuban Vessels.

Washington, May 27.—When Secretary Long started for the cabinet meeting to day he was without information in addition to that possessed yesterday as to the

movement of the fleet in the West Indies. It may be stated upon the best authority that it has not yet been finally decided when to begin the Cuban invasion, and as far as Porto Rico is concerned, whether to attempt the occupation at all or not. In other words, plans are in a tentative state, subject to alteration at any moment.

THE BANCROFT IN PURSUIT OF A SPANISH VESSEL.

The Bancroft in Pursuit of a Spanish Vessel.

False Reports About the Warship Baltimore.

Holland Offers to Take His Submarine Boat to Santiago Harbor.

ABERRATION OF HAWAII.

Key West, May 27.—7:15 a. m.—A Spanish steamship, thought to be an auxiliary cruiser, was sighted by the United States warship Wilmington and Bancroft, fifteen miles off Key West last night, and at last accounts was being chased by the Bancroft.

The ship chased by the Bancroft was a three-masted steamer, apparently a merchant man of large tonnage. She had one smokestack. No doubt was entertained of her being a Spaniard, because when the Bancroft put after her she steamed away at full speed.

The Wilmington was coming in here for coal about 3:30 last evening, when between 12 and 15 miles off Key West she saw smoke of a steamer and turned in this direction. About the same time the Bancroft came along and asked the Wilmington if she had seen anything of a three-masted steamer which had chased the auxiliary gunboat Eagle. The Wilmington then notified the Bancroft of a three-masted steamer, and while doing so, the stranger hove in sight and the Bancroft went after her. The vessel headed south-east with the Bancroft going full speed after her. The chase was most exciting when the Wilmington last saw the two vessels.

It is presumed that the Spanish ship, observing the Wilmington's military top, mistook her for a battleship and thought it safe to continue scouting, trading to the Wilmington for speed, but when the Bancroft appeared, the Spaniard wasted no time in trying to get away.

Captain Todd of the Wilmington, has no doubt that the Bancroft will catch the Spaniard. A custom house official here, when he heard the story, said he had seen a strange ship off Key West last night, adding that she was going this morning. Captain Todd is confident that the vessel being chased by the Bancroft is a Spanish auxiliary cruiser on second duty. The Wilmington came in from the blockade and reports all quiet.

HOLLAND'S PROPOSITION.

He Offers to Blow Up Cervera's Spanish Fleet.

New York, May 27.—The Press says: J. J. Holland, builder of the Holland submarine boat, has gone to Washington with Col. C. C. Grey for the purpose of making an offer which, if accepted, would solve the problem how to destroy Cervera's fleet. Holland is willing to undertake to sail his submarine vessel into the channel at the narrow entrance to Santiago harbor and blow up the mines planted there; and, if necessary, proceed into the harbor and deal a few blows at Cervera's vessels.

Holland will give the secretary of the navy terms favorable of his proposal, to obtain a crew of volunteers for the work.

CHASING A CRUISER!

The Bancroft in Pursuit of a Spanish Vessel.

False Reports About the Warship Baltimore.

Holland Offers to Take His Submarine Boat to Santiago Harbor.

ABERRATION OF HAWAII.

Key West, May 27.—7:15 a. m.—A Spanish steamship, thought to be an auxiliary cruiser, was sighted by the United States warship Wilmington and Bancroft, fifteen miles off Key West last night, and at last accounts was being chased by the Bancroft.

The ship chased by the Bancroft was a three-masted steamer, apparently a merchant man of large tonnage. She had one smokestack. No doubt was entertained of her being a Spaniard, because when the Bancroft put after her she steamed away at full speed.

The Wilmington was coming in here for coal about 3:30 last evening, when between 12 and 15 miles off Key West she saw smoke of a steamer and turned in this direction. About the same time the Bancroft came along and asked the Wilmington if she had seen anything of a three-masted steamer which had chased the auxiliary gunboat Eagle. The Wilmington then notified the Bancroft of a three-masted steamer, and while doing so, the stranger hove in sight and the Bancroft went after her. The vessel headed south-east with the Bancroft going full speed after her. The chase was most exciting when the Wilmington last saw the two vessels.

It is presumed that the Spanish ship, observing the Wilmington's military top, mistook her for a battleship and thought it safe to continue scouting, trading to the Wilmington for speed, but when the Bancroft appeared, the Spaniard wasted no time in trying to get away.

Captain Todd of the Wilmington, has no doubt that the Bancroft will catch the Spaniard. A custom house official here, when he heard the story, said he had seen a strange ship off Key West last night, adding that she was going this morning. Captain Todd is confident that the vessel being chased by the Bancroft is a Spanish auxiliary cruiser on second duty. The Wilmington came in from the blockade and reports all quiet.

HOLLAND'S PROPOSITION.

He Offers to Blow Up Cervera's Spanish Fleet.

New York, May 27.—The Press says: J. J. Holland, builder of the Holland submarine boat, has gone to Washington with Col. C. C. Grey for the purpose of making an offer which, if accepted, would solve the problem how to destroy Cervera's fleet. Holland is willing to undertake to sail his submarine vessel into the channel at the narrow entrance to Santiago harbor and blow up the mines planted there; and, if necessary, proceed into the harbor and deal a few blows at Cervera's vessels.

Holland will give the secretary of the navy terms favorable of his proposal, to obtain a crew of volunteers for the work.

BALTIMORE ALL RIGHT.

Spanish Reports Regarding the Warship Baltimore.

New York, May 27.—The World's London correspondent says: A special to the Daily Telegraph from Manila says the United States cruiser Baltimore was wrecked by an explosion on board. She is now lying on the mud at Macabubos.

BALTIMORE ALL RIGHT.

London, May 27.—The stories circulated at Madrid and elsewhere regarding the Baltimore are being greatly exaggerated. The dispatch received at the Spanish capital from Manila apparently referred to the alleged disablement of the Baltimore during the battle of Manila, when a Spanish shell struck her and exploded some ammunition, slightly wounding eight men on board.

HAWAII TO BE ANNEXED.

Washington, May 27.—Senator Lodge offered Newland's resolution for the annexation of Hawaii as an amendment to the war revenue bill. Senator Lodge announced his purpose to press the amendment.

Advocates of annexation express the opinion that the amendment in the end will be accepted, but admit that it will result in delaying the passage of the revenue bill. Incorporating Hawaiian annexation in the revenue bill would of course have the effect of forcing the matter upon the attention of the house. The condition of affairs in the Philippines and the necessity for a stopping place for our ships on their way to those islands is the reason for the present urgency.

Senators Jones, democratic member of the finance committee, expressed an opinion that the Lodge amendment would not be accepted. "It would," he said, "seriously delay the bill indefinitely if passed."

Cervera's Fleet.

Madrid, May 27.—The impartial relations to day that Admiral Cervera is at Santiago de Cuba, which port, it says, possesses advantages over Cienfuegos.

The Volunteer Army.

Chattanooga, May 27.—The volunteer army at Chickamauga now numbers 45,000 men, and continues to grow.

rationally in shutting himself up in the bay. Marc Landry, in the Figaro, may be taken as representing the opinions of most of the naval officers here. He says: "Spain's only policy is to prolong the war without giving a chance for a decisive battle, until the odds for victory are all in her favor. By taking refuge in the bay of Santiago, out of reach of the enemy's cannon, Admiral Cervera has carried out the policy that circumstances rendered it imperative for his country to follow, seeing that by gaining time he enables a junction to be effected with him by the reserve squadron being fitted out at Cadiz."

SEARCHED ENGLISH VESSEL.

Spanish Arrest and Confine Crew of British Vessel Adula.

New York, May 27.—A dispatch to the Herald from Kingston, Jamaica, says: Cadiz advice has been received here from Cienfuegos, Cuba, stating that the Adula on arrival there, was stopped by the Spanish authorities. Search was made and a man found who had gone on the ship surreptitiously.

The Spanish authorities declared that his object was to go to town to carry information to the blockading fleet, and his presence was a breach of the neutrality laws. The ship was seized and Captain Wilkes and the officers of the ship put in confinement. The British consul made protest. It is believed that the person on board was a newspaper correspondent, as the Spanish consul absolutely refused to allow the ship to leave if any reporter was allowed to go.

TESTING GUNS.

Spanish Fleet Trying to Improve in Their Marksmanship.

New York, May 27.—A dispatch to the Herald from Gibraltar says: The warships at Cadiz, including Spain's reserve squadron under command of Admiral Cervera, are busy testing guns and machinery preparatory to departure. Their destination cannot be ascertained. Large quantities of coal continue to arrive at Cadiz.

Rainy Season in Cuba.

Key West, May 27.—The rainy season is getting beginning in Cuba. The fleet of warships and newspaper dispatch boats experienced bad weather during the past week, with frequent violent rainstorms. Off the Cuban coast the weather is pleasant.

FIRE ON A SERGEANT.

Three Supposed Spaniards Try to Assassinate a Guard.

Key West, May 27.—Sergeant Charles H. Richards, on duty at the mortar battery located, a carriage was discovered. The sergeant gave orders to fire a volley into the vehicle. A moment later three men were seen running up the street. Fire was directed upon them, and the suspects escaped apparently unhurt.

A sharp lookout was kept for the fugitives. Soon after midnight at the outside gate, near which the mortar battery is located, a carriage was discovered. The sergeant gave orders to fire a volley into the vehicle. A moment later three men were seen running up the street. Fire was directed upon them, and the suspects escaped apparently unhurt.

AMERICAN ANNEXATION.

The Amendment of Senator Lodge Will Bring the Subject to a Vote.

Washington, May 27.—The Hawaiian annexation question, which has been the subject of so little concern about the senate the past few days, assumed definite shape in the senate to-day, when Senator Lodge and Morgan offered amendments to the war revenue bill bearing directly upon the subject. Senator Lodge's amendment is in the words of the Newland resolution and provides for the annexation of Hawaii as an independent territory. Senator Morgan's amendment is in the words of the Newland resolution and provides for the annexation of Hawaii as an independent territory.

Advocates of annexation express the opinion that the amendment in the end will be accepted, but admit that it will result in delaying the passage of the revenue bill. Incorporating Hawaiian annexation in the revenue bill would of course have the effect of forcing the matter upon the attention of the house. The condition of affairs in the Philippines and the necessity for a stopping place for our ships on their way to those islands is the reason for the present urgency.

Senators Jones, democratic member of the finance committee, expressed an opinion that the Lodge amendment would not be accepted. "It would," he said, "seriously delay the bill indefinitely if passed."

 ALBUQUERQUE, — MAY 27, 1918

Statistics show that there are nearly 100,000 professional beggars in Spain, and the number is not likely to be reduced very soon.

KINGMAN, Mohave county, Arizona, will soon have a new gas plant, an exhibition of advancement on which the town is to be congratulated.

The United States and England are said to own 90 per cent of the coal deposits of the world. If coal is to control war, the Anglo-Saxons are all right.

Medical examiners for the volunteer army report that a large percentage of the rejections have been on account of the evil effects produced from cigarette smoking.

When the Sixth Massachusetts passed through Baltimore recently, it was met with flowers. When the Sixth Massachusetts passed through Baltimore in 1861 it was met with brickbats.

Hawaii is doing all she can to show her interest in Uncle Sam. She has not yet declared neutrality, which means that the boats of the United States can get all the coal and supplies that may be needed.

It is said that 4,300 species of plants are gathered and used for commercial purposes in Europe. Of these 430 have a perfume that is pleasing and enter largely into the manufacture of soaps and soaps.

At least 20 per cent of the volunteers in the three regiments raised in Kansas are school teachers. There is nothing incongruous in the theory that teaching the young ideas how to shoot is a valuable preparation for military service.

Lieutenant Colonel Roosevelt gave every man in his regiment the option of being discharged from the regiment a few days ago if any felt so inclined, but to the credit of the regiment not one man availed himself of the opportunity to free himself from army life.

New Mexico filled its quota of troops under the first call inside of a week. Gov. Otero will have every arrangement made to have the second call for men ready in a few days after the requisition is made. Under the call for 75,000 men New Mexico's quota will be 200 volunteers.

The welcome news is given out that there are to be no soldiers permitted with the army in the present war, but that the regular commissary will supply to the soldier's table at cost such articles as they are likely to need beyond the usual rations and supplies. The soldier system was one of the monstrous abuses of the last war, and its extinguishment is a good thing.

LOSS OF PAPER MONEY.
 The secretary of the treasury was recently directed by the United States senate to inform the senate whether he makes any allowance for the wear and loss of the paper circulation of the government in his treasury statement, or whether he assumes that there is no diminution of the amount of paper money in circulation by reason of wear and loss. Replying to this resolution, Secretary Gage submitted an estimate of the amount of United States paper money that will never be presented for redemption. The total amount of paper money issued, including reserve, amounted to \$6,692,767,333. Of this the amount outstanding is estimated at \$1,168,105,194, showing the large estimated loss of \$5,524,662,139.

RETURN THE FLAG.
 One of the marked changes that time has wrought in northern sentiment regarding the proposition to return the Confederate flag is illustrated by the attitude of Senator Foraker of Ohio. During Cleveland's first term the same suggestion was made. At that time Foraker was governor of Ohio, and his determination, unrelenting opposition to the plan was one of the chief causes of its failure. Now the senator says that "conditions have changed." Political considerations no longer figure in the matter, and he is one of the most ardent advocates that the faded banners of the lost cause be returned to the men who fought so gallantly under them.

EXPORTS TO EUROPE.
 The April exports of merchandise show an increase over those of 1917 of \$21,778,000, or nearly thirty per cent, while the imports of goods exhibit a decrease of \$45,400,000, or nearly forty-five per cent. While, for April, 1917, there was an excess of imports over exports amounting to \$23,673,000, last month the exports exceeded the imports by \$43,502,000, so that the April balance is \$67,175,000 more in our favor than it was last year. For the first ten months of the current fiscal year, our gross exports of merchandise and silver amounted to \$1,172,117,000; our imports of the same items were valued at \$21,052,000, which shows an excess of exports over imports, for the last ten months, amounting to \$1,051,065,000. This balance has been set off to the extent of \$81,479,000 by net imports of gold, which leaves a remaining balance of \$969,586,000 to be liquidated from other sources. The value of returned securities, our interest payments and all the other items combined cannot be supposed to at all approximate these figures; and it therefore follows that, even making extraordinary allowances for the return of securities, a very large unliquidated balance must still remain in this country—certainly not less than \$100,000,000, but more likely a much higher sum.

ADVANCE IN SURGERY.
 In the last twenty years, surgery has made such wonderful advances, it is now confidently declared that it is able to reduce the mortality from wounds 50 per cent of that which obtained during our civil war. Operations now can be performed in the field that would not have been successful even in hospitals in the old days. Experience of recent years indicates that where nine wounded men out of ten would have been buried from a field hospital between the years 1861 and 1865, only four would die in the year 1905, the other six eventually being discharged safe and whole, and in many instances probably in better health than they enjoyed before they were wounded. Then there is another and most important thing to consider. Thousands of men who survived the horrors of the military hospitals during 1861-65 went away with an arm or a leg cut off, who if they had fought in the war of 1905 would not have been diminished for the wounds they received. How many suffered in this manner through the indifference and ignorance of the many surgeons of that time can never be known now, but they must have made an army by themselves.

There will be no recurrence of that in the war of 1865. Though the destructive force of the arms used now are far greater than those used in the civil war, the percentage of deaths will be found to be far lower.

NEW MEXICO NEWS
 Special Correspondence.
 Gallup, May 26.—We are glad to see the face of Will Lynch around among us again. He arrived on Saturday from the east and will take charge of the night yard here.

Mrs. Palmer Kotner and children will leave in a few days for a five months' outing at Santa Monica beach. We are very glad to be able to note a slight improvement in the condition of Walter Foulke this week. He has returned to consciousness and the doctors have great hopes of his recovery.

"Loom" Hatt paid our little city a short visit this week, staying Monday and Tuesday, reviewing our merchants on groceries and other questions of equal interest. The Rev. Octavio Parker will arrive on the first of June from California to take charge of the pulpit of the Episcopal church.

It seems now that chicken pox is going the rounds of the city. Quite a number of little folks are down. L. K. Denmore and John Howie arrived yesterday morning from the San Juan valley, bringing in quite a number of turkeys. Alex. Russell arrived from Scotland yesterday morning and will stay an indefinite time.

Mrs. G. W. Wells rides in from her milk ranch east of town on a wheel. The Amusement company gave two entertainments this week, Tuesday and Wednesday evenings. Their performance was very good, showing moving scenes in the war, and also a great many other things. The "small boy" was, of course, in evidence, and Spanish scenes were hissed and American scenes applauded. They will show again on Saturday evening.

John C. Spear is amusing himself this week on a brand new wheel. Jack Cotton has learned the mystic wheeling art, and is seen springing around town like an old experienced hand. Our old friend Charley Vorhes passed east on last evening's No. 2. Al. Skeels is at his old trade of delivering. He took charge of the Caldonian company's wagon Tuesday morning. Harry Crooks having resigned. Paul Kelly has secured a place at Bell, Colo., and will leave for there to-morrow.

LAND OFFICE BUSINESS.
 Entries of Public Lands and Final Certificates Made the Past Week.
 For the week ending Tuesday, May 24, the following entries were made and certificates issued at the United States land office in this city:

HOMESTEAD ENTRIES.
 San Miguel County.—Andrew Santistevan, 165 acres; Ramon Trujillo, 160 acres; Cruz Garcia, 165 acres; Juanito Uribe, 160 acres.
 Santa Fe County.—Paula Martin, 160 acres.
 Sandoval County.—Sofronio Abeyta, 160 acres.

FINAL CERTIFICATES.
 Sandoval County.—Francisco Gonzalez, 160 acres; Augustin Tenorio, 160 acres.
 Valencia County.—Henry C. Moseley, 160 acres.
 Taos County.—Manuel Martinez, 160 acres; Francisco Martinez, 160 acres.

APPLICATION FOR MINERAL PATENT.
 John S. Kuehn and Robert Hindman, of Albuquerque, have applied for a patent on the Maguire and Miner's Union lode mining claims, located in the Cochet mining district.

COAL LAND PURCHASE.
 Stephen Canavan has bought forty acres of coal land in Bernalillo county.

MINERAL ENTRY.
 Leonard Lewishon has entered the Santa Fe Copper group No. 2, located in the New Mexico mining district of Santa Fe county.

Millions Given Away.
 It is certainly gratifying to the public to know of one concern in the land who is not afraid to be generous to the needy. It is the fact that the proprietors of the Rio's New Discovery for Coughs, Colds, Croup and Whooping Cough, have given away over ten million trial bottles of this great medicine. The satisfaction of knowing that it has absolutely cured thousands of hopeless cases, Asthma, Bronchitis, Whooping Cough, and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on J. H. O'Reilly & Co., drugists, and get a trial bottle free. Regular size 50c, and \$1. Every bottle guaranteed, or price refunded.

Committed Suicide.
 Antonio Sienkiewicz, whose death at Cheyenne, Mich., was announced in these columns yesterday, committed suicide. The news and manner of his death was communicated to his Williams employers yesterday, in the following telegram:

Cheyenne, Mich., May 24, 1918.
 To Police Brothers.
 Antonio Sienkiewicz dead. Committed suicide Saturday night.

Mr. Taylor is Sienkiewicz's attorney, and F. O. Polson has sent word to him for particulars, which will be awaited with considerable interest, as Antonio was well esteemed in this community. What his motive for self destruction could have been can only be surmised. He was of an emotional temperament, and the deed was probably done on a sudden impulse.

Decayed was unmarried. He had a brother in Cheyenne and was distinguished as being a relative of Henry Sienkiewicz, the author of "Que Vadis." He was descended from the Polish nobility, though from his modesty and unassuming ways one would never suspect it.

Antonio Sienkiewicz came here several years ago as an employee of the Saginaw Lumber company, afterward becoming a salesman for Polson Bros., in which capacity he was efficient and faithful. He had many friends, who were shocked at the news of his death.—Williams News.

From the Optic.
 Luciano Gullarri has made a home-stead entry for 160 acres of government land, with the county clerk.

Mrs. Roman Romero, who sustained severe injuries by being thrown from a buggy a few weeks ago, is on the road to recovery.

From the Independent Democrat.
 Mrs. F. A. Anderson has returned from Idaho. The townsite of Alamo Verde will cover 900 acres of land.

Miss Lora Granger has been assigned to a position in Utah. Miss Edith Bowman, accompanied by her sister and two brothers, will leave next week for Clifton, Arizona, to reside.

Mrs. Bowman and the other members of the family will follow later. The husband and father, George R. Bowman, has been in Clifton about six months, and is manager of the Copper company's store there.

THE TIRELESS FEELING
 That the old man experienced while waiting for a decision by the government, has been dispelled by its action.

That Tired Feeling
 That everyone that needs a spring medicine feels, is dispelled by the action on the system of our double compound.

Extract of Sarsaparilla
 We acknowledge no superior as a blood purifier and tonic. Price same as the ordinary, \$1.00.

J. H. O'REILLY & CO

 Albuquerque Bowling Parlors!
 Corner First St. and Copper Ave.

The New Chicago
 Is one of the most resorts in the city, and is supplied with the best and most liquors.

HEISH & RETZLER, Proprietors.
 Splendid Looking Rooms by the day, week or month.

SMA L SAVINGS COUNT
 A life policy taken at the age of twenty-four, secures to a family fifty times the amount of its annual premium. The protection begins the moment the first premium is paid. If you put your money in a savings bank it may take many years to accumulate a comparatively small sum. Assume your life, and if you should die to-morrow, your family will have more of an estate than you could save during a long series of years.

THE EQUITABLE LIFE ASSURANCE SOCIETY
 OF THE UNITED STATES.
 "Strongest in the World."
