ALBUQUERQUE, NEW MEXICO, WEDNESDAY AFTERNOON, MAY 25, 1898.

NUMBER 187.

"COOPED" UP IN SANTIAGO HARBOR!

The Spanish Fleet Reported to be Practically Surrounded.

BATTLESHIP OREGON OFF FLORIDA COAST.

New York, May 25.—A special to the Herald from Washington says: Spain's flying squadron will fly to no longer. Its races in Cuba, its destruction or capture is considered by officials here as merely a matter of time. Before the harbor are the armor plates of the American navy ready to give battle to Admiral Cervera's men of war. At present, they poke their noses out of the channel leading to the sea. Official advice, announcing these to be the positions of the opposing fleets, were received at the navy department last night from the commander-in-chief of the American fleet operating in front of the harbor. These advice enabled the authorities to deny emphatically the reports that an action had occurred in Windward passage.

RAMPSON AND HURLEY.

They are within reach and will starve out the Spaniards.
Key West, Fla., May 25.—Commodore Schley and Rear Admiral Sampson are believed to have Admiral Cervera within reach, and if the Spaniards are in Santiago harbor, they can be blockaded and starved out. A single heavy American vessel can hold the harbor's narrow exit, through which the Spaniards could emerge only singly.

A Big Army.

Washington, May 25.—The president has issued a proclamation calling for 75,000 more volunteers. This will make the total army strength, 280,000 men.

KEY WEST CHIMES.

An Old Machinist Murdered—A Sailor Fatally Injured.
Key West, May 25.—James D. Dorsey, 65 years of age and an old-time Florida expert machinist, was found murdered this morning. He received a considerable amount in wages last night, and was undoubtedly murdered for his money.
William Carney, a sailor of the United States auxiliary gunboat Albatross, was probably fatally injured last night, while intoxicated, by negroes.
The people are demanding martial law, there being inadequate police protection here.

BEATEN WITH A "BILLY."

A California County Treasurer's Experience With Robbers.
Madison, Cal., May 25.—County Treasurer Krohn was found unconscious in his office shortly after midnight. He had been beaten about the face with a "billy" or sandbag, but not fatally wounded. The safe was empty. About \$400 in silver and a few gold pieces were scattered on the floor. The body was found in a room which he usually occupied when he was alone.

MINING THE HARBOR.

The Spaniards of San Juan are Far From Being Licked.
New York, May 25.—A dispatch to the Herald from St. Thomas, D. W. I., says: Private advice, which reached United States Consul Hanna from Porto Rico, show that new mines are being laid in the harbor of San Juan. The torpedoes are being laid in the exact spots occupied by our vessels during the bombardment.

OPINIONS OF EXPERTS.

It Would Cost Many Lives to Attack the Enemy in Santiago Harbor.
Washington, May 25.—Navy department officials, accepting the view that Cervera is in the Santiago harbor, are of the opinion he is likely to remain there for weeks or months. A study of the defenses of the harbor and the topographical features convinced the experts to undertake to carry the place by storm from the sea and to attack the fleet under protection of the forts, would involve a great loss of life on our part as to be entirely unwarranted.
"I give the Spanish squadron three months' lease of life if they are in Santiago harbor," said a prominent naval officer. He explained that long before that time the town, which probably will be cut off entirely by the insurgents and perhaps by United States troops, will be practically starved, but the military and naval forces, appropriating all food supplies, would hold out long.

Will Be Cut to Pieces.

Washington, May 25.—It is expected that the last cable connection between Cuba and Madrid, will be cut to day.

AN EXCITING TRIP.

The Oregon Was Ready, However, to Meet the Spanish Fleet.
New York, May 25.—A special to the Evening World from Havana, Fla., says: Lieutenant A. B. Davis, of the battleship Oregon, came ashore there last night. "Our race," said Lieut. Davis, "was most exciting, especially after we left Bahia, for we then knew that there was a possibility of interception. Captain Clark, however, kept his little fleet in constant readiness, and had we run into the Spanish fleet, we would have been heard from. At 2:45, Secretary Long said that no word had been received regarding the bottling of the Spanish fleet at Santiago. Yet he says he fully credits the press dispatch and has reason to believe that Admiral Cervera is cooped up at Santiago, with Schley on the outside.

REACHES THE FLORIDA COAST—BOTTLED THE SPANISH FLEET.

Washington, May 25.—Secretary Long has received an official dispatch announcing the arrival of the battleship Oregon at Jupiter Inlet, Florida.

DECLINED TO BE INTERVIEWED.

Jupiter, Fla., May 25.—The Oregon left here at 4 o'clock this morning. Knigh Johnson came ashore for orders, but declined to be interviewed.

REPORT CORRECT.

Cape Verde Fleet "Bottled" in Santiago Harbor.
Port of Prince, Hayti, May 25.—The report of the arrival of the Spanish fleet at Cape Verde, of Cuba is correct, but it has been impossible to obtain any details.

INTEREST TO NEW MEXICO.

House Passes Bill Granting Certain Lands to the Territory.
Washington, May 25.—Lacey, (Iowa), from the committee on public lands, has introduced a bill to grant certain lands to the territory of New Mexico for common schools, colleges, university, charitable institutions, public buildings, irrigating and Rio Grande river improvement purposes. The bill is intended to convey partial grant lands to which the territory will be entitled under the act of Congress, giving the territory in advance the benefit of the land, which its people would enjoy certainly some time in the future. The bill carries more than 1,500,000 acres.

TRANQUIL AT MANILA.

Foreigners Will Be Protected, Should the Insurgents Make Their Hold.
London, May 25.—A dispatch to the Times from Hong Kong to-day says: Manila is tranquil. The foreign residents are all well and are not disturbed by the protection of foreigners in any emergency. Aguinaldo, the insurgent leader, landed at Cavite on May 19. The fact that the insurgents are without firearms is delaying the proposed attack on the garrison at Manila.

SITUATION UNCHANGED.

The Blockade of Cuban Harbors Almost Perfect.
On Board Associated Press Dispatch Boat Wanda, off Havana, May 24, via Key West, May 25.—The situation on the blockade from Cardenas, east of Matanzas, to Mariel, west of Havana, remains unchanged.

SEÑOR POLO'S VIEWS!

Before Leaving Canada he Told a Few Facts.

Muster of Volunteers—Another Call for 75,000 Men.

The Pennsylvania Volunteers Reach San Francisco, and Royalty Received.

THE BLOCKADE OF CUBAN COAST.

New York, May 25.—A special to the World from Quebec, says: Señor Polo, before sailing from Quebec for Europe, confided to a friend the original intentions of Admiral Cervera's squadron. It appears the Spanish fleet, being acknowledged unable to meet the American armada, was to avoid it, and cause all the damage it could to American commerce. Polo succeeded in making satisfactory arrangements for coaling the fleet, but the agreement was broken owing to American influence with the coal owners.

THE SPANISH FLEET CANNOT ESCAPE WITHOUT BEING DESTROYED.

Washington, May 25.—There seems no longer any doubt that the Spanish fleet in the Santiago harbor, is hemmed in by Commodore Schley's squadron and that escape is almost, if not quite, impossible. The members of the cabinet are not willing to state the exact position of Sampson's fleet, but do say it is acting in concert with Schley and can come to his relief at any time.

NO LONGER ANE DOUBT.

The Spanish Fleet Cannot Escape Without Being Destroyed.

Washington, May 25.—There seems no longer any doubt that the Spanish fleet in the Santiago harbor, is hemmed in by Commodore Schley's squadron and that escape is almost, if not quite, impossible. The members of the cabinet are not willing to state the exact position of Sampson's fleet, but do say it is acting in concert with Schley and can come to his relief at any time.

205 WEST RAILROAD AVENUE.

MILLIONS OF MONEY FOR A MOMENT OF TIME.

Or words to that effect, was the offer of a dying monarch. You'd give quite a little yourself for an extra minute when your train vanishes from one end of the station while you enter the other. You blame the watch. Better bring it to and see if there's anything serious the matter, or whether cleaning won't cure the trouble. Experts do the work and it is guaranteed. Perhaps the trouble with your watch is the need of a new one—here's the place to get it.

ALBUQUERQUE, N. M. — MAY 25, 1908

Let the good work of raising flags go on.

PREPARE yourself for a big territorial fair the coming fall. Let some one start the ball rolling.

The saddest result of the war up to date is the awful growth of skepticism among newspaper readers.

War has no terror for the man whose life is engaged in the annual spring house cleaning.

ALTHOUGH the United States is in a war with Spain, the fact must not be overlooked that a territorial fair must be one of the attractions for the coming fall.

Up to today no new sign of patriotism has arisen to replace in quietude those who stirring airs of a "Hot Time in Old Town Tonight" and "All Cows Look Alike to Me."

SAGASTA may be able to turn a defeat into a victory in the eyes of the Spaniards but he cannot turn stones into bread and just now the Spaniards need bread fully as badly as they need a naval victory.

BOYCOTTS seem to be in order now-a-days. The El Paso Herald jokingly says: "Some of our leading citizens have determined to boycott the international street car line because the cars are propelled by Spanish mules."

It appears that the Philippines produce vast quantities of the finest indigo in the world. But their entire product would hardly give Spanish prospects a deeper shade of blue than they show today.

Official statistics indicate that last year's crop of wheat, corn and oats in this country sold for \$1,077,000,000. This it appears that the money power has its headquarters in the nation's grain fields.

AMERICAN newspapers at least have displayed a remarkable ability to put themselves on a war footing on short notice. Anything so it is a war picture, a ship, a map or a portrait of an officer goes now and the people cannot get too much of it.

TESLA has written an article on "How I Can Disable Any Warship Afloat," which goes to show that his typewriter is keeping a close second to Blauvelt's. Tesla is certainly the greatest destroyer—on paper—who ever permitted a fleet to operate in perfect safety.

JUDGING from the reports printed in yellow-hued newspapers it would be well to discharge the naval strategy or war board at once and give the job to imaginative correspondents. Their remarkable forecast about things to happen is only equaled by the failure of the happenings to materialize.

In the Blue and Gray Legion of Chicago there are 400 Swedish-Americans and 400 British-Americans. Many of them are said to have seen service in Europe. The national prefixes are sometimes useful, but a naturalized citizen is a plain American, entitled evenly with him of the manner born to the proud distinction.

MILES AND MILES.
A correspondent asks what relation knots, nautical miles and ordinary miles bear to each other.

A knot and a nautical mile are one and the same thing. They are the sixteenth part of a degree of the equator, or the length of a "minute."

Each degree is very nearly 69.16 of our common land miles (each of which contain 5,280 feet), and by taking 1.60 of this we find a knot to be 6,076.7 feet.

This is about 1.16 of a common mile—or practically 1.16 common miles.

Whenever we read of sea distances, such as that the Oregon has 2,400 miles yet to go, the knot, or nautical mile is meant.

METHODS FOR GATHERING NEWS.
Newspaper readers are now getting some insight into the costly and dangerous methods whereby the Associated Press gathers news in the enemy's country. It is an interesting fact that the association had its birth in the effort to get news fifty-one years ago.

"On to Mexico!" from Vera Cruz made people wild for news, but it came provokingly slow in those anti-telegram days. To secure quick service from New Orleans to New York, in transmitting news from Vera Cruz, carrier pigeons, very useful in those days, were tried in relay. The service was unreliable. Three New York papers then pooled expenses and started a pony express route from New Orleans. Two other papers came into the pool later, and then the embryo association consisted of the Sun, Herald, Tribune, Journal of Commerce and Courier, and Knicker. The last named paper died, the New York Evening Express was

admitted to membership, and the Times and World were born into the association. These seven papers for many years managed the concern as a close corporation, deriving large profits from the sale of news. The newspaper renaissance evolved the modern Associated Press with its splendid equipment for gathering the daily news of the world. THE CITIZEN takes the Associated Press news, and dishes it out to the readers of southern New Mexico and western Arizona twenty-four hours in advance of any other paper published down this way.

FATIGUES REASONING.
It is said that the clearing house in New York contains more gold than can be stored in its vault.

Our exports of merchandise, manufactures and agricultural products exceed anything ever known in the history of the country.

There is hunger in Europe because the price of American wheat has reached a high figure. There is complaint that this is due to the manipulation of American speculators.

This may be true, or it may be due to economic causes which enable the speculators to hold what they possess, as speculators never were assisted before.

Touching the condition of affairs in Europe the London Leader says:

English corn is now higher than for many years. In France there have been threatening and mutterings of trouble, in Spain there are bread riots and in Italy there are barricades, turning business-revolution, in fact—the part of the people who are unable to get bread and who think it better to die by a bullet than to starve. The very thrice-mentioned because bread is so dear. Other people pay for Letter's experience now. But there is a greater question than that involved—which has been brought into broader relief possibly by the operations of young Mr. Leiter, of Chicago, and possibly by other causes, and that is, if Europe is cut off from the food supply it obtains from the United States, conditions are brought about there which threaten to disintegrate thrones and change the form of other governments.

Mr. Leiter's performance may be variously regarded. At this moment it is not necessary to discuss the morality of his acts or consider whether he, unaided by extraneous causes not to be controlled by individual effort, has been able to manipulate the price of wheat.

The main point is, that without the agricultural products of the United States, Europe will suffer and many will starve.

Yet it is held that European statesmanship is so purblind that it will close its American markets to European consumers.

CAN COUNT ON SUGAR.
"Nowhere else does the principle of protection to native industries promise as much as in beet sugar," says the Philadelphia Manufacturer. "Although the international excitement has turned men's minds for the time being from nearly all thought of the victories of peace and has filled them with impetuosity to get rich out of powder, projectiles, surgical instruments and wooden legs, the sugar beet is something we can count on for the future. There can be no possible utility in our continuing to help keep the Germans and Frenchmen on top of the earth by paying them to raise our sugar for us when we can do it as well on our own broad domain. This is one of the chief of the industries for which we need protection, and we fortunately have it in the law of 1897. We require nothing more in relation to this branch of production except peace and tranquility, which are factors that no industry can long afford to be without."

THERE'LL be more ready money in the country tributary to Albuquerque this fall than ever before in its history, and the merchant who reaches out after that trade, and is prepared to fill all orders, will reap a golden harvest. So place your advertisements in THE CITIZEN.

THE deepest lake in the world is Lake Baikal, in Siberia. In some parts it is 5,291 feet deep; its length is 207 miles, with an area of 22,000 square miles. It is the largest lake in Asia, and the sixth largest in the world.

LIBERIA is the only more or less civilized country where clocks are almost entirely dispensed with. The sun rises exactly at 6 a. m. and sets at 6 p. m. throughout the year and is vertically overhead at noon.

THE telegraphic fader again got in his work on the papers in the report of a naval battle off Haiti. And this in the face of the fact that the naval authorities in Washington had posted several denials.

Many Curious Inventions.
The officials of the patent office say that they have never been so bothered as during the present fiscal year by applicants for patents whose claims upon investigation prove to have neither novelty nor merit, and which are simply crazy quackery to speak. But among all people who investigate, and are susceptible of conviction by proof, there can be no doubt that Hostetter's Stomach Bitters is one of the finest tonics and regulators of the stomach, liver and bowels in existence. Nervous subjects, the bilious and malarious, indigestion, the aged, delicate infirm and convalescent find in this medicine a most reliable auxiliary of health and preventative of disease.

Clicks Against the Government.
In a recent issue on the first floor of the Armijo building are posted a number of gentlemen, whose business it is to investigate the claims of sufferers from Indian depredations in the territory, dating back nearly fifty years.

Judge Lowell Loughery represents the claims department at Washington, and he has something to say, George A. Lalonde is interpreter, Dr. James H. Sutherland, notary, and Eugene McKirby as stenographer.

The testimony secured by Mr. Loughery will go to Washington, there to be passed upon by the board of claims.

There are now forty-five claims against the government before the agent, and he will doubtless remain here a month yet, ascertaining facts about them.

The suits are brought against the government for damages, because, by the terms of the treaty between the government and the Indians, the latter are wards of the former and the government is supposed to be responsible for the actions of the red men.

The claims range in amounts from \$800 to \$30,000.

WHEN NATURE.
Needs assistance it may be best to render it promptly, but one should remember to use the most perfect remedy only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Company.

NEW MEXICO NEWS

SANTA FE.

From the New Mexican.
Mamuel B. Otero, son of Mrs. A. M. Borge, came home from Albuquerque Sunday night, where he had been attending school at the U. S. Military Academy.

Santa Fe has a parrot that talks in three languages—Spanish, English and Italian. The bird belongs to Felix Papp, George and William Parsons returned home from Las Vegas Sunday night, where they had been in attendance at the marriage of their niece, Miss Edith Butler, to Fred Houston.

Miss Lora Wain, of Providence, R. I., arrived in the city Saturday evening and registered at the Palace. She will remain in the city some time, visiting Miss Annie W. Creelman.

J. B. Sanchez, superintendent of the Methodist mission schools, left Monday morning on a tour of inspection to northern Colorado and the Apache reservation schools.

Miss Lora Wain leaves for her home in La Porte, Ind., where she will spend the summer. Her many friends in this city sincerely regret her departure, and trust her absence will not be prolonged beyond the early fall.

Clerk of the District Court A. M. Borge is in receipt of a letter from J. H. Crist, who is now in Mexico, stating that he is in possession of the papers in the case of Jose Maria Bernal vs. Marcelino Bernal, divorce proceedings, and asking that the court grant ten days' extension of time in which to appear with the papers. As Attorney Ortiz made no objection, the time will be granted.

Mrs. Trinidad Hacia died Monday morning, at 4 o'clock, at her residence on Santa Fe street. She was born in Santa Fe in 1856, and was the wife of Francisco Hacia. She leaves two children—Hilario Hacia, who has been teaching school in Springer during the past three years, and Emilia Hacia, a young girl of 17.

LAS VEGAS.

From the Optic.
J. Biehl has been appointed sexton of the Masonic cemetery.

Mrs. J. W. Ziliars is confined to her bed, suffering from an attack of neuritis.

Col. R. E. Twitwell returned Monday morning from Socorro, where he spent the past week attending to legal business.

Rafael Romero came down from the kingdom of Mora, Monday morning, and left on the afternoon train for Albuquerque.

Jesús Bermudez has the distinction of being the first sheep owner to arrive in Las Vegas with wool, arriving Monday morning with several wagon loads of the fleece, from Lincoln county.

Ex-Senator Stephen C. Dorsey, favorably known in New Mexico, passed through Monday morning from the west, his destination being New York. Senator Dorsey has just sold a group of mines in California, from which, it is said, he cleared up over one million dollars.

Stephen Maxson, father of Mrs. Chas. C. Robbins, an old-time resident of this city, but who had been residing with a son in Kansas City for the past two or three years, returned Saturday evening for an indefinite sojourn among old-time friends.

Mrs. L. L. Wilson, sister of Mrs. John C. Brownmeyer, met with a painful and quite serious accident on Saturday evening. While irrigating in the back yard, she slipped and fell on her left arm, in juring it quite seriously, necessitating the attendance of a physician. She has been confined to her bed since, but is resting easy to-day and is doing as well as could be expected under the circumstances.

GALLUP.

From the Gleaner.
J. M. Kimer completed his grading contract on the W. A. Clark mine switch, last Wednesday.

Born to Mr. and Mrs. Fred Finger on Wednesday morning, a daughter. Mrs. Finger is progressing nicely.

Miss Katherine Doughty has been confined to her room for several days with an attack of la grippe. Her place in school has been temporarily taken by Mrs. Richards.

The Old Fellows have made arrangements for the burning of 100,000 bricks for their new hall and work on them is progressing at the Crown Point yards.

Mrs. S. L. Barnett left on Tuesday evening for Albuquerque, in which city she and Mr. Barnett will in the future reside.

The W. A. Clark mine is a scene of great activity these days. Development above and below is being pushed, and a fine plant will be the result when work is completed.

Mr. La Croix has moved this week into the store lately occupied by the New Mexico Supply company. He has received and inventoried a large stock of goods this week.

J. J. Williams, the blacksmith and carriage smith, has moved into the J. R. Smith shop on First street, where he will have more room to handle his increasing business.

Miss Georgiana Russell is the recipient of a beautiful watch. The gold case is elegantly engraved and set with diamonds. Presented by Mr. and Mrs. Klade.

J. E. Holmes, of THE ALBUQUERQUE EVENING CITIZEN, was in town on Monday and Tuesday, and increased by his visit the circulation of the paper he represents. THE CITIZEN is invaluable in these days of exciting war news, reaching us ahead of any other paper with latest news by twenty-four hours.

ROSWELL.

From the Register.
Miss Lily Robinson was suddenly called to her home at Roswell, La., by the serious illness of her mother.

C. H. Sparks, who has been very low for a couple of weeks, is still in a dangerous condition.

Otto Hedegren struck a thirty gallon flow of water on the place he recently purchased of Tom Casler. He found this water at a depth of 200 feet, and is going on hoping to find the second flow at about 400 feet.

R. L. Wilky is carrying on experiments with several kinds of grass seed with a view of discovering the grasses best adapted for forage in this locality. Not that he has anything against alfalfa, but

If there is any other kind of a forage plant that will equal or surpass it, he is going to find it.

Robt. Kellahin, auditor of the Roswell Land and Water company, expects to leave for a three months' visit with his parents and relatives in Edinburgh, Scotland. He will stop in Philadelphia for a day or so, and is booked to leave New York, June 1st, on the steamer Teutonic.

C. B. Willingham left for Dallas, Texas, He and Mrs. Willingham are there to attend the commencement exercises at Oak Cliff college which take place next week. Their daughter, Miss Ada Mae Willingham, is among the list of this year's graduates of that institution. Miss Lulu also accompanied her father to Dallas.

Buckley's Arnica salve.
The best salve in the world for Cuts, Bruises, Burns, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by J. H. O'Reilly & Co., Druggists.

Drowned in the San Juan.
Clyde White and Adam Webster found the body of a man in the San Juan river on the Albert White ranch near Jewett, last Saturday. The justice of the peace being sick, Dr. C. H. Hittell took charge of the body. The body was evidently that of the man who was drowned at Fruitland about a month ago. From papers found on the body, the man's name was J. G. Geller, and he had been working for the Rocky Cliff Coal Mining company at Gallup. There was a watch and three chains, also a horse, saddle and bridle left by the deceased.

Millions Given Away.
It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the poor. The proprietors of the proprietary of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine, and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases, Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on J. H. O'Reilly & Co., Druggists, and get a trial bottle free. Regular size 50c, and \$1. Every bottle guaranteed, or price refunded.

THE SAGASTA AGENCY.
Several Applicants for Vacancy Caused by Mr. Cleveland's Death.

The death of Hon. H. J. Cleveland, agent at Sagasta, has again thrown that valuable agency open to competition. There are several applicants, among whom are Frank Judge C. W. Crouse, W. W. Wall and Dr. Bull. There are said to be several others. The candidates have already begun an active canvass. Judge Crouse and Mr. Wall were candidates before the appointment of Mr. Cleveland. Judge Crouse was strongly indorsed. Besides his record in the department as agent at Sagasta during the Harrison administration, he had the personal indorsement of ex-President Harrison and other prominent men. The office pays a salary of \$1,800 besides perquisites amounting to about \$600, so that altogether it is a desirable billet.—Phoenix Republican.

Wanted.
MADAME NORMAND, CLAIRVOYANT, Palmist and Magnetic Healer, can be consulted on all affairs of life. Give love and lucky charm. Will call at residence; no extra charge. 116 1/2 South Third street, up-stairs.

Beauty is Blood Deep.
Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartics, keep your blood and keep it clean, by stirring up the liver and driving all impurities from the body. Begin to-day to get rid of bile, blood, blotches, blackheads, and that sticky complexion by taking Cascarets—beauty for ten cents. All druggists, satisfaction guaranteed, 10c, 25c, 50c.

Executor's Notice.
In the matter of the estate of the late Don Manuel Mirabal, of San Rafael, Valencia county, New Mexico. All interested are notified that on the 4th day of April, 1898, the undersigned was by the probate court of Valencia county, N. M., duly appointed executor of said estate, and did at once qualify in the premises, and that therefore all persons having claims against said estate must present them for allowance within one year from such appointment. All persons knowing themselves to be indebted to said estate are requested to at once settle the claim. Claims may be presented to the undersigned at San Rafael, N. M., or to H. S. Raley, the attorney for the estate, at his office in Albuquerque, N. M.

NOTICE TO CYCLISTS.
THE SIMS SADDLE, FOR COMFORT, HEALTH, DURABILITY AND STYLE, is superior to any other and costs less money. Agency at the old town postoffice, on the plaza.

According to the newspapers, an Ohio husband became the happy father of seven children not long ago. Of the seven, all lived but one. It is to be hoped he laid in a supply of Chamberlain's Cough Remedy, the only sure cure for croup, whooping cough, colds and coughs, and so insured his children against these diseases. For sale by all druggists.

New line of White Empire fans just received at the Economist.

SMA L SAVINGS COUNT

A life policy taken at the age of twenty-four, secures to a family fifty times the amount of its annual premium. The protection begins the moment the first premium is paid. If you put your money in a savings bank it may take many years to accumulate a comparatively small sum. Assure your life, and if you should die tomorrow your family will have more of an estate than you could save during a long series of years.

Many good companies But only one BEST—

CUDDY'S DIAMOND SOAP

Explanation on each wrapper—the best laundry soap—for sale by all grocers.

It will be a great shock to the many friends of Judge and Mrs. Crumpacker to learn that the lady is lying close to death at her home on West Copper avenue, though her intimate acquaintances have been fearing a fatal termination of her troubles for some time. Mrs. Crumpacker has been an invalid for the past year and a half, though it has only been in the last week that her sinking became particularly noticeable. Her physicians are of the opinion that she will not live the day out, or, if she does, will not survive the night. Mrs. Crumpacker has been afflicted with a complication of diseases.

Simpser last fall for the spring and sum-

mer trade have just arrived and persons

in need of footwear can get the latest

styles at greatly reduced prices at his

store.

Nothing has been heard at the sheriff's

office of the condition of John Conners,

the island saloon-keeper, who was stabbed

sight weeks by Eugene Smith, since the

latter came notifying the sheriff of the

assault. Smith has probably been bound

over by the local justice, Sam Young, to

await the result of Conner's injuries and

has secured a bail.

W. H. Meyer, the inspector of the de-

partment of justice at Washington, who

has been here the past few days, looking

over the books of the local federal offices,

leaves to-night for Socorro, to take up

the same labor there. Mr. Meyer found

everything here so far as he has looked

over all right, in ship shape and will so re-

port to his superiors.

In another section of to-day's CITIZEN

appears a notice of Chas. McDonald,

clerk of the school board, in regard to

the school tax. It would be wise not, while

you have the dollar in your pocket, to

walk up to the "captain's" office and li-

quidate your indebtedness, thus avoiding

a suit.

Perhaps you never bought clothing,

underwear and furnishing goods from

us. It will pay you to investigate our

prices and see if you do not save 25

to 50 per cent on clothing store prices.

To be had only at the Golden Rule Dry Goods
