VERY DULL NEWS  
FROM THE FLEETS!

Hard to Locate Foxy Cervera, Even  
Sampson or Schley.

THE MOLE ST. NICHOLAS BATTLE A FAKE.

New York, May 23.—A dispatch to the World from Kingston, Jamaica: Direct Santiago de Cuba advises as the appearance of the Spanish fleet off that port compelled four American cruisers, bombarding it, to retire.

On entering the port, Admiral Cervera discovered that when the Americans returned in force his fleet would have been trapped, as only one ship at that time could pass the channel, so his ships quickly sailed and went out, purposing to try and catch the American ships separated, if possible, or at any rate give Sampson a battle on the open sea. The Spanish fleet went northward.

(Copyright by Associated Press.)  
St. Thomas, D. W. L. May 23.—The British steamer Albatross, Captain Farrant, which arrived at Porto Rico on May 6 from Mottel, Scotland, reached this port from San Juan de Porto Rico yesterday morning. The reports that an American cruiser captured a Spanish bark six miles north of San Juan Saturday morning. The prize was towed north.

The Spanish cruiser Isabel II, while at San Juan, fired on the British steamer Roth, which arrived at Porto Rico after the bombardment. It is reported that the Spanish ship fired on the Roth, which was loaded with coal, with the intention of crippling her and thereby preventing her departure. Officers of the Isabel II claim the firing was the result of an accident.

The Uniforms Changed.  
Mampa, Fla., May 23.—The time honored blue uniform of the army is being replaced here by a more sombre gray.

Coal Supply.  
Washington, May 23.—Naval experts believe Admiral Cervera's squadron is rapidly exhausting its coal supply, and that, as many ports are now closed against it, the Spanish squadron will not be able long to elude our fleets, unless it gets coal at sea from coilers.

Bottoms to be Cleaned.  
The Ships of Sampson and Schley to be scraped by divers.

Emphatic Denial.  
Washington, May 23.—At the state department an emphatic denial was made today, on any other nation that made protest against the Havana blockade.

Going to the Front.

HEAVY CANNONADING  
Gave Rise to Rumors That the Squadrons Had Met.

New York, May 23.—A dispatch to the Herald from Mole St. Nicholas, Hayti, says: Frequent reports resembling heavy cannonading, heard at Windward passage on Friday afternoon and Saturday, gave rise to a rumor of a naval engagement in progress between the squadrons of the United States and Spain.

It has been impossible to learn whether a naval battle actually took place.

BRITISH STEAMER CAPTURED.  
Supposed to be Trying to Enter Havana Harbor and Taken in.

Key West, May 23.—The British steamer Ardenmore, Captain Dana, came in to port this morning in charge of an ensign from the auxiliary gunboat Ocoela, which seized the Ardenmore yesterday off Caryfort light, because she was supposed to be trying to enter the Havana harbor. She was here several weeks ago with a cargo of cattle for Havana harbor, having been turned back by the blockade fleet. The Ardenmore, which is chartered by James S. Ward & Co. (New York) and Havana mail steamship company, then proceeded to New York, unloaded the cattle and cleared for Nassau and Mexican ports, including Vera Cruz. She stopped at Nassau on the way south and when captured yesterday was far out of her course, it is bound for Vera Cruz.

Key West, May 23, 1:15 p. m.—The British steamer Ardenmore, captured by the Ocoela, was released this afternoon by order of Commander Remey.

ORDERED RELEASED.

Key West, May 23, 1:15 p. m.—The British steamer Ardenmore, captured by the Ocoela, was released this afternoon by order of Commander Remey.

THEY WILL SAIL.

But It Is Not Known for Certain in What Direction.  
New York, May 23.—A dispatch to the World from Cadix, says: It is stated positively that the Polaris, Carles V., three trans-Atlantic steamers and two torpedo boats are about to sail for the Philippines. However, they are quite as likely to go west as east.

A SHORTAGE OF COAL.

Likely to Bring the Spanish Fleet Within Fighting Lines.  
Washington, May 23.—It is said by those best acquainted with the naval situation that a decisive fight may occur within the next few hours, or may not occur for several days, possibly weeks.

At the same time the authorities believe that Admiral Cervera's fleet may be plan for any considerable time. The main reason for this is that the Spanish ships have made great inroads on their coal supply.

SUPERINTENDENT MERRILL HERE.

Came in From Bland Last Night and Will Remain a Few Days.

Superintendent L. L. Merrill, of the Albatross mine at Bland, is in the city and will remain until the injunction against the company, the Cochiti field mining company, is tried.

The company caused water pipe to be laid from the mine to Peralta canyon and the injunction is being enforced by Messrs. Ostrander, Conrad and others refusing the company the use of the water, the plaintiffs claiming the use of it for domestic purposes.

Mr. Merrill says that the cyanide mills at the Albatross mine are about completed and work is going on in the building of the tanks. The machinery for the crushing mill is on the grounds awaiting the enclosing of the mill by the steel siding.

The mill will be in operation in about two weeks, says Mr. Merrill.

London, May 23.—The St. James Gazette says: In the foreign market this morning, several leading dealers were said to be in possession of advance news of the forthcoming announcement of a Franco-Spanish alliance, hence the rise in Spanish 4s.

It is currently reported that the recent speech of Marquis Salisbury and Joseph Chamberlain in the House of Commons, in which they referred to West Africa, but to this impending alliance against which Chamberlain's allusion to an Anglo-American alliance was intended as a counter-blast.

NATIONAL CAPITAL.

Seniority in Promotions Favored the War Measure.

Washington, May 23.—A senate communication was received from Secretary of War Alger, together with the draft of a bill providing for gradual increase in the number of officers of the corps of engineers, and promotions shall be made by seniority.

Allison called up the war revenue measure. He announced that the pending question was upon an amendment offered by McNary, of Louisiana, removing the proposed corporation tax from certain classes of corporations, which were said in name only. He added the reading of the bill had been completed and an agreement reached, first, to consider the amendment providing for the excise taxes on persons, firms, companies and corporations. That amendment, Allison thought, ought to be disposed of before the remaining parts of the bill are taken up.

Miners Perished.

Bargains In Shoes

We hear the expression used constantly. So much so that in nine cases out of ten it really has no significance in connection with facts. A bargain in shoes represents standard of value at the right price and at the right time. Buy a good article and you will get satisfactory wear out of it. Buy a cheap article and it will keep you on the jump to duplicate. Turn over a new leaf and buy an honest shoe at an honest price. This is the kind of value we offer you. A RAT in a trap is worth two at large. The Cuban waters appear to be full of holes for the Spanish boats to slip into.

SOME women are hard to please. They hardly get a wedding dress before they are looking up material for a divorce suit.

THOSE who have predicted that the end of the century would see a general war, probably had no thought that America would begin it.

MONROVIA has its finger on the Klon-dike. It is reported that the \$25,000,000 in gold ready to come out is the property of about 100 men.

If you have anything to sell it is known. Advertising is the life of trade. That patronage which is not worth going after is not worth having.

This is reconstruction in reality—the union of hearts as well as of hands. Under such glorious conditions how could our country be other than successful?

THAT naval battle of the century is making a stage wait, but if Sampson gets at them right he will be expected to give a performance that will please the audience.

THE American Israelite, published at Cincinnati, Ohio, states that there were eleven Jewish sailors on the Maine, destroyed in the Havana harbor, by Spanish treachery.

"The girl I left behind me" may wear on her breast a button from the coat of her brave boy in blue but her seat in the theater is by the side of the fellow in black who did not go.

The game of hide-and-go-seek which has been going on for some days in West Indian waters doubtless affords abundant amusement for European nations which are accustomed to fighting.

GOVERNOR TANNER of Illinois is probably one of those who can see good in everything—even in war. The present hostilities have tended to divert public attention in another direction.

If this enlistment epidemic continues to spread among the society young men in the east, the "summer girls" at the seaside resorts will probably be compelled to fall back on that old reliable stand-by, the hotel clerk.

THE reason there is so much complaint from subscribers of newspapers, is not getting their papers regularly, is the fact of poor distribution at the postoffice where the papers are sent. We often have samples of such poor work here.

JUDGE C. W. CHURCH of Maricopa county, Arizona, is a candidate for the position of Indian agent at the Sacaton agency, vice H. J. Cleveland, deceased. Judge Church was agent at Sacaton from 1890 to 1903, inclusive, under President Harrison.

WALTER WELLMAN, the newspaper correspondent, is now on his way in search of the north pole. As he is not connected with one of the "yellow journals," we are reasonably assured that there is no danger of his "lighting the Spanish fleet."

A MASSACHUSETTS bank defaulter who decamped the other day left a detailed statement of his shortcomings to be handed to the local officials. Such thoughtful consideration of his employees' conveniences was admirable and touching in the extreme.

THE National Intelligence says: "It is announced that the war department is unable to get flags sufficient for the service. Since the destruction of the Maine, at least ten millions of flags have been sold. This has brought on a bustling famine, and prices have advanced."

INTERNATIONAL boycott is proving very effective against our pro-Spanish allies across the seas. More than a hundred years ago the American spirit of retaliation by non-intercourse was most forcibly shown. The capacity for such things has not died out with the reign of the Paris gown.

THE sensational part of the war has about come to a close. Correspondents will no longer be given carte blanche to give the plans of campaign either by sea or land to the enemy as well as to the public of this country. The serious business of war seems to have begun and no doubt from now on it will be so conducted.

CAMP surgeons now attribute a large proportion of the physical defects among rejected volunteers to the bicycle, various from the use of the wheel being a prevalent ailment. The army examiners will be much less particular if the time should unfortunately arrive when the compliment of volunteers is

much below army requirements. Meanwhile, it would be interesting to have some data as to the physical condition of the members of the various bicycle corps that have been organized in the regular military establishment. The wheel riders of the United States will be slow to believe that they are not as physically capable of enduring the hardships of camp life as the average volunteer from behind the tap counter of the office desk.

THE San Diego, Cal. Vindicator, in an editorial of recent date, says: "It is said the city superintendent of schools has an intensely loyal fan on him since Admiral Dewey smothered the lights of the Spanish fleet and that he refuses to eat eggs for the fear they are laid by black Spanish hens, and that his night robes are made out of American flags, and that he always looks under his bed before retiring for fear a Spanish assassin is hid away there to raid him in the dark. Now this is important if true, and the Vindicator hopes it is true, and that the professor will 'Remember the Maine' and use his influence and authority in having a day set to take up a contribution for the 'American Boy' fund to replace the lost Maine."

ADMIRAL CERVERA, who leads the Spanish fleet that has reached the American side of the Atlantic, must be taking time to get that jaker out of his sleeve as sails around in the Caribbean sea while all our war fleets hasten to shut him up there so that it will be impossible for him to get out for supplies or without a fight. He has lost east with the naval world by his maneuvering in the shape he has, and evidently he does not realize the position he has got into. Had he struck for Havana boldly instead of Martinière he might have stood some show of getting through Sampson's lines.

EDWARD BELLAMY, the noted author of the socialistic works, "Looking Backward" and "Equality," died at his home in Chicopee Falls, Mass., yesterday morning. Mr. Bellamy was 45 years old and was the son of a Baptist preacher. Stricken with consumption, he sought relief at Denver last fall, but after spending the winter on a ranch near that city, and failing to find relief, he returned to his New England home to die. Mr. Bellamy's "Looking Backward" had a million readers scattered throughout the world.

An exchange truthfully remarks: "How many readers of the newspaper think of the charity that has been exercised in this publication? The newspaper prints only the news of the bright side of the world, with possibly an occasional tint of the dark side. If the newspapers published all they knew regarding their respective communities, their papers would easily sell at five dollars per copy, even if the editor did have to lay out in the woods till the excitement was over."

ADVISERS from Fort Worth state that a firm in New Mexico lately borrowed \$140,000 on twenty thousand head of cattle, says the Tombstone Prospector. Similar transactions are reported from other parts of New Mexico and a number from the Texas Panhandle. These transactions tend to show that the rigor of the money market, so far as cattle are concerned, has been greatly relaxed.

THE American navy on the Pacific coast, which is under the command of Rear Admiral Mink, consists in all of sixteen vessels of all classes. The monitors Monterey and Monadnock are the most formidable. The first-class battleship Wisconsin and the torpedo destroyer Farragut are under construction at the Union Iron works and will be completed in a few months.

**Mrs. Crumprcher Dying**

It will be a great shock to the many friends of Judge and Mrs. Crumprcher to learn that the lady is lying close to death at her home on West Copper avenue, though her illness and weakness have been feared a fatal termination of her trouble for some time. Mrs. Crumprcher has been an invalid for the past year and a half, and she has only been in the last week that her sinking became particularly noticeable. Her physicians are of the opinion that she will not survive the day or, if she does, will not survive the night. Mrs. Crumprcher has been afflicted with a complication of diseases.

**"The Cottage City."**

The building boom inaugurated at Winslow during the past winter still continues at that enterprising little town. It is estimated that about \$100,000 worth of the progress of Winslow and the number of new homes erected during the past year.

Several new frame cottages now under course of construction might be added to this number, and Thies & Lawler have contracts for additional dwellings as soon as they can give them attention.

I. Conover has been the plastering contractor for most of the buildings that have been erected in Winslow.

Buildings accommodating a bakery and a plumbing establishment have lately been built, and a store by William Beck, came in from southern New Mexico on a day's visit to her husband, has returned to Albuquerque.

Nelson A. Week, the capitalist and big lumber merchant of Wisconsin, now of Chicago, came in from southern New Mexico last night and stopped over at the Sturges European. He will continue north this evening.

Mrs. A. C. Week, wife of the popular pastor of the Lead avenue Methodist church, will leave one evening this week for Cleveland, Ohio, where she will visit relatives and friends during the summer months.

The May evening devotions at the Catholic church, which have been largely attended, will close with the month.

**They Differed from Each Other.**

A crowd gathered last evening at the corner of Railroad avenue and First street, to witness a passage. It differed between John Thirion and "Professor" Columbus, the tailor at the Indian school. The two got into an argument while discussing the recent murder of Mrs. Thirion by her husband and his subsequent justifiable killing by the sheriff. The argument led to a scuffle, and one or two policemen got mixed up in the row, which made the affair all the more interesting to the spectators. Marshal Ford came along and ended the dispute by arresting Thirion, the tailor having disappeared in the meantime. Thirion was afterwards released on his own recognizance.

Justice Crawford this morning came to the conclusion that both of the leading participants were heartily ashamed of their behavior after a night's sleep in meditating, and let them down easy with a five dollar fine.
