## SPANISH FLEET STILL DODGING!

## No Battle To-Day Between the Op- posing Hostile Squadrons.

### CADIZ FLEET TO ATTACK ATLANTIC SEABOARD.

New York, May 19.—A dispatch to the Tribune from Washington says: As far as known the three American squadrons concentrated off Cuba are still maintaining a blockade of the north coast, and guarding the southern approaches to the Yucatan passage at the western end, and the Windward passage at the eastern end of the island.

No encounter with Admiral Cervera's vessels is looked for within two or three days, nor is it yet apparent that the Spanish commander will risk a battle except under conditions which he can himself determine.

The Oregon, if she left Bahia at the time reported in the press dispatches, has not yet had time to make the run from Bahia to Barbados, and is probably still steaming north somewhere off the Guianan coast. There is good reason to think that the big battleship will report ultimately to the navy department, not from Key West, but from some harbor much higher up the Atlantic coast.

Not at Porto Rico.  
St. Thomas, Danish W. I., May 19.—The Spanish squadron was not at San Juan de Porto Rico when the steamer Rodriguez left there at noon, and there has been no information received here of its subsequent arrival.

NOT CIVIL.  
This Dispatch is Most Probably a Falsehood.

Madrid, May 19.—It is announced in a dispatch from Havana that the German warship Gier, has arrived there. The dispatch adds: "She did not salute the American squadron neither with guns or flags, but paid the usual salutes to the forts here and her captain landed and visited Captain General Blanco, Admiral Manterola and the president of the colonial government."

A Fleet Sighted.  
New York, May 19.—A dispatch to the World from Kingston, Jamaica, says: A telegram from Port Morant, dated 4 o'clock, May 18, states that the light house keeper at Morant point, the extreme end of Jamaica, reports a number of large steamships, apparently warships, going northward at a tremendous speed in the direction of San Juan de Cuba.

PEERY POLO.  
He Secures Coal for a Fleet to Attack New England Coast.

London, May 19.—A dispatch to the Star from Montreal published to-day, says: Senior Polo y Beruabe has secured by cable a coal depot near St. Pierre, Michigan, a French colony on the south coast of Newfoundland, at which the Cadiz squadron will coal, previous to attacking the Atlantic seaboard of the United States, while the Cape Verde squadron commanded by Admiral Cervera draws off the squadrons commanded by Admiral Sampson and Commodore Schley.

Cruiser Charleston.  
San Francisco, May 19.—On account of a trivial accident to its condenser the Charleston put back to Mare Island today for repairs, and will not get to sea for two days.

FLEET SIGHTED.  
Nine Warships Sighted Off Coast of Nova Scotia.

Hullfax, N. S., May 19.—A report just received from Galeson Cove, west shore of this province, says that nine warships were sighted off Indian Island near Cape L'Anse-au-Loup this morning, heading in a southerly direction.

The Grand Army.  
Washington, May 19.—More than fifty regiments of the volunteer army either have started for or reached the mobilizing point to which they were directed to proceed by the secretary of war. The volunteers mustered to date number 95,900 men.

German Gunners for Cadiz Fleet.  
Chicago, May 19.—A special to the Journal from Washington says: Infor-

## DEATH OF GLADSTONE! England's Greatest Statesman Falls Gently to Sleep.

All Europe Mourns the Death of the Good Old Man.

Tornado Sweeps Over Upper Mississippi River Valley.

GREAT LOSS OF LIFE.

Hawarden, May 19.—Gladstone's death occurred at 5 o'clock this morning. The tolling of the Hawarden church bell carried the sad tidings to every sorrowing home in this vicinity.

The family was summoned at 2 a. m., owing to the perceptible sinking noticed by the medical watchers. From that time until Gladstone peacefully passed away, no one left the death chamber. The only absence was little Dorothy Drew, who tearfully complained that her grandfather did not recognize her.

MOURN FOR GLADSTONE.  
London, May 19.—The deepest manifestations of grief are seen throughout the country. The flags are half-masted, bells tolling, shades drawn, and in the public galleries here the pictures of Gladstone have been draped with crepe.

The queen and Prince of Wales sent touching expressions of condolence to the widow. Details from the great English statesman show that his end was the most peaceful imaginable. There was no sign of pain or distress. Mrs. Gladstone clasped her husband's hand and occasionally kissed it, while Rev. Stephen Gladstone read prayers and repeated hymns. The nurse meanwhile bathed the brow of the patient, who showed gratitude, murmuring "How nice." Then came a gentle, almost imperceptible cessation of life in the midst of the son's prayer, and the weeping family slowly fled from the room, taking Mrs. Gladstone, who was induced to lie down and soon slept quietly.

The last word spoken by Gladstone was "Amen," when his son, Rev. Stephen Gladstone, recited the Hymn.

Very many telegrams of sympathy are arriving at Hawarden.

President Faneu telegraphed condolences.

TERrible TORNADO.  
Death and Destruction in the Track of the Storm.

Antigo, Wis., May 19.—A tornado swept across of buildings at this place last night. The list of killed and wounded, so far as known, is as follows:

Ignatz Bar, unmarried, killed. George C. Sheldon, fatally injured. Dr. F. L. Drake, arm broken. Mrs. Alex. McMillan, injured seriously. Miss McMillan, back injured. Mrs. Hiram Ward, arm broken. Frank Billings, leg broken; amputation necessary. Mrs. Frank Linski, injured internally. Many others are reported slightly injured.

REIN AT ROCKFORD.  
Rockford, Ill., May 19.—Eleven people are known to be dead and two score badly injured as the result of the destructive cyclone which swept over De Kalb county last night. The storm came from the southwest and was from 300 to 400 feet wide. It levelled everything in its path, demolishing hundreds of farm-houses and barns, killing much live stock.

The storm was the severest in Stillman valley, where it wrecked fifteen buildings, two churches and the depot. The telegraph and telephone wires are badly affected.

The list of the dead and injured as far as reported in this section are: Michael Nelson, Mrs. M. Nelson, Julia Nelson, the six-month-old son of Mr. and Mrs. Nelson, all of Stillman Valley; William Reese, Marion; Thomas Mullens, Adeline; three children of Mr. and Mrs. John Mass, Coreston; Schmitt, Adeline; Mrs. Frank Chieheleher, Pawpaw.

Severely injured: Two-year old daughter of Mr. and Mrs. Nelson, both legs broken, severely hurt, will probably die.

Eugene Warrington, aged 87 years, died at the room on North First street at 9 o'clock this morning from consumption. Undertaker Strong took charge of the remains. He came here about six weeks ago from Marion, Ohio, and a telegram has been sent to his mother there asking what disposition is to be made of the remains.

J. Parker Whitney, the Boston capitalist, who is interested in mining and stock raising in Colorado and New Mexico, is in the city, and has his name on the Sturgis European register. Mr. Whitney was also a claimant of the Coghlin land grant which was given to him by the government some time ago.

H. D. Johnson, the architect, was at Helen Tuesday on business, returning to the city that evening. He stated that there is considerable sickness at and around Helen, and some of the cases are contagious diseases.

To borrow—\$2,500 on improved Albuquerque business property. Apply to H. W. Bryan, First National Bank building.

Mrs. S. D. Lucas and daughter, Miss Arnette, will leave this evening for Spokane, Wash.

The railroad men in California have started a fund to build a battle-ship for the government.

Tons of crackers for the army are being baked, each cracker having on it, "Remember the Maine."

Gov. Otero is too busy to pay any attention to the ill-natured criticisms of the territorial democratic papers.

There are many indications that a European combination is being formed against the United States and Great Britain.

The situation of the fleets in the West Indies is a strong argument in favor of fast armored cruisers for the United States Navy.

PRESIDENT MCKINLEY'S opposition to recognizing the insurgent government as a preliminary to war has been fully justified by events.

ONE of the new government army contracts is for 25,000 gallons of vinegar. Are they going to pickle the Spaniards as well as kill them?

WITH a sale of 10,000,000 flags since the war broke out it is probable that the bunting trust also experiences difficulty in restraining its emotions.

GREAT BRITAIN has as many war vessels in Asiatic waters as France, Russia and Germany combined, and they are far more modern and powerful.

"WEYLER'S chickens" is the name which the Havana people, in grim jest, give to the vultures that watch the dying agonies of starving reconcentrados.

THE new development of wireless telegraphy will soon make it possible to explode submarine mines two miles off shore without any cable connections.

IF the war between the United States and Spain shall be prolonged beyond a few months it will have the effect of greatly increasing the tobacco export trade of Mexico.

THE restoration of Independence hall, Philadelphia, has progressed so rapidly that it is expected the formal opening of the historic structure can be held on the Fourth of July.

THE Swiss government has made an extraordinary appropriation of \$15,000,000 for the construction of a tunnel through the Simplon. The mountain is 11,124 feet in height.

WORD comes that most of the Cubans whom this war was started to help are already starved to death, but they are the last people Spain will ever starve on the American continent.

THE German squadron on the China station will next summer be composed of the Kaiser and Deutschland, and three second, two third and one fourth-class cruisers, carrying a total of 5,184 men.

THIS war is proving an instrument of education in the past wars. Two months ago four men out of five could not have told whether the Cape Verde Islands were off the coast of Africa or in the China sea.

IT is reported that the Seventh New York (which refused to go to the front because of fear of being contaminated by contact with other troops) will be used in Central Park to go against the spears of grass now forming.

THE United States is a wonderfully resourceful nation, as is shown by the rapidly with which orders for army supplies are filled. Tents, blankets, shoes, overcoats and other clothing are supplied in enormous quantities on short time orders.

WHEAT exports continue unexpectedly heavy, both from the Atlantic and Pacific. During the past week the Atlantic exports were 3,500,442 bushels, against 1,898,742 last year, four included, and Pacific exports of 376,249, against 300,147, making in two weeks 5,901,200 bushels, against 3,506,284 last year.

THAT wonderful free silver drama, "The Curse of Gold," by means of which barometers were to revolutionize the politics of the country, has proved to be a total failure. "The Curse of Gold" company is bankrupt. Cause—overwhelming interest of the American people in the affairs of 1898 and general indifference to ancient history.

CHAMBERLAIN'S SPEECH. The sympathy of Great Britain, government and people, has been with the United States in this Spanish war from the very first. The sympathy has been

strengthened until it may now be called part of the policy of the great British empire. The fact has become more and more apparent and reached an authoritative declaration when Joseph Chamberlain, secretary of state for the colonies in the present British cabinet, spoke thus at a public meeting in the city of Birmingham:

"The time has arrived when Great Britain will be confronted by a combination of powers and our first duty therefore is to draw the resources of the empire into close unity, and our next to maintain the bonds of permanent unity with our kinsmen across the Atlantic."

"There is a powerful and generous nation," said Mr. Chamberlain, "speaking our language, bred of our race, and having interests identical with ours, and having as far as to say, that terrible as war may be, even war it is, it would be cheaply purchased if it is a great and notable cause, the stars and stripes and the union jack should wave together over an Anglo-Saxon alliance." (Prolonged cheers.)

For several days past the dispatches from Washington have contained intimations that a second call for volunteers might be issued in the near future. Late advices state that the president's second call will probably be for 100,000 volunteers in addition to those already called out. This will place in the field an effective force of about 300,000 men all told.

The greatest statesman of the century died yesterday in England. Wm. G. Gladstone passed away at a ripe old age, and all the world will do reverence to his memory. The people of Great Britain are better because of his many good works. His stood by and for the people in every crisis, and deserves a monument as the greatest man England ever produced.

It is reported from London that Germany will endeavor to gain possession of the Philippine Islands by guaranteeing Spain's war indemnity to the United States. It was added that in the furtherance of this scheme Germany will be assisted by the bombardment of Cavite have been encouraged by their government to put in claims for heavy damages.

THE Los Angeles Times notes that Wheeler and Wilson are two of our new generals. There is reason to believe, too, that their work will not rip, ravel, sag or the knee or sag at the seat. They are old boys at the business.

If the president needs more troops, he should call for 50,000 negro volunteers. Foreign experts say that no finer body of troops could be found than the colored regiments of the regular army at Tampa and Key West.

IOWA was visited by a destructive cyclone yesterday. Many lives were lost.

MADE MANY DEBTS.

THE Exit of a Mining Man Who Enjoyed High Life.

L. R. Britton, who operated the Swallow mine in the Castle Creek district for some months past, has disappeared, leaving behind, it is said, a number of creditors in Phoenix as well as near the scene of his operations. The exact amount of his indebtedness is not known, but that which accrued against the Swallow mine is about \$1,300. Britton came here from Denver, representing that he had plenty of money. He took a bond on the Swallow and while operating it made debts, it is said, right and left. His principal backer was B. M. Morrison, of Denver, editor of Morrison's Mining Laws, who forwarded considerable money at intervals. This Britton used for his own personal gratification. His last engagement was played in Phoenix just before he left for parts unknown and as a result a prominent hotel keeper is holding his baggage.

When last heard from, Britton was said to be somewhere in California. —Phoenix Gazette.

Beats the Klondike. Mr. A. C. Thomas, of Margoville, Texas, has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from cancer, and was accompanied by his wife, who was absolutely cured by Dr. J. H. O'Reilly & Co.'s New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost \$100 a bottle. Asthma, bronchitis and all throat and lung affections are quickly cured by Dr. J. H. O'Reilly & Co.'s New Discovery for Consumption, Coughs and Colds. Free at J. H. O'Reilly & Co.'s drug store. Regular size 50 cents and \$1. Guaranteed to cure or price refunded.

Johnson Dies. James Johnson, who was injured in the Santa Fe Pacific freight wreck near El Rito last Saturday, and brought to the hospital here, thence taken to the St. Vincent's hospital at Santa Fe, died Monday night. He was buried Tuesday afternoon at 2:30 by the sisters. Johnson was heading his way home to Baltimore, Md., and was crushed by boxes of merchandise in the car he occupied, when the wreck occurred. His death resulted from internal injuries.

## ARIZONA ARTICLES!

WILLIAMS.

From the News. The railroad pay car was in town Monday. About \$2500 was distributed among the local employees.

P. G. Hildison, a young newspaper man from Phoenix, arrived Sunday to accept a position on the News. Williams was favored with a most exhilarating summer temperature Monday. The thermometer registered 63 degrees in the shade. Sunday night the mercury descended to 28 degrees.

Phil S. Farmer, the jolly and enterprising young representative of the Economical dry goods store of Albuquerque, is in town. He finds no trouble in showing goods, and scarcely less trouble in displaying them.

It is reported that small-pox has broken out again at Bellemont, and that the quarantine has been re-established. The yellow flag is said, again flies from one of the isolated pest camps. According to the report there is only one case at present.

PRESCOTT.

The flags donated to the children of the Sisters' school by the citizens of Prescott will be formally presented and raised at the school on next Sunday afternoon. Rev. Brown, of the Prescott Episcopal church, has received his commission as chaplain in the cavalry regiment and left for San Antonio. Rev. Brown has many friends in Prescott, who will regret his departure and wish him well in his new field of labor.

The bustling, busy, lively mining camp at San Maria, celebrated its first wedding on Sunday, May 15. The principals to this important event were W. H. Spaw and Miss Rita Beckman. The ceremony which joined the couple as man and wife was performed by Justice of the Peace John Roberts in the presence of a few friends of the couple. The affair was celebrated appropriately by the residents of the camp.

Charles F. Donaldson is actively, though quietly, engaged in enrolling names for another company of volunteers. In case of a second call by the president, he has a list already of nearly half of the required number. Mr. Donaldson is a veteran of the war of the rebellion.

ARIZONA AT LARGE.

Alex. Armstrong, of Arizona, who went to Alaska to find his fortune, is reported to have met his death by drowning. A baby born in Mesa on the day of Dewey's great victory, in honor to that great commander, the child has been named "Dewey."

Mrs. A. St. John Gaylord, of Mesa, received a check for \$3,000 from the Woodmen of the World, in which order her husband was insured.

The young son of Attorney G. W. Swain, of Tombstone, is seriously ill from eating wild berries. The youngster was very low for a time, but is now slowly on the mend.

Paul Smith, of Tombstone, met with an accident which nearly cost him his big toe. He was carrying his gun—a small B-B—with the muzzle resting on his toe. In some way he unwittingly pulled the trigger and the bullet took away the fleshy part of the big toe, making a painful wound.

H. W. Haiseld, of Yuma, on Friday, made the first shipment of apricots for the season. Twenty-five boxes were shipped to Los Angeles and various points in the territory. The fruit is good size, thoroughly ripe and juicy, with an excellent flavor, and as it is the first in the market of the United States, brings a fair price.

An independent military company consisting of thirty-five patriotic citizens of Yuma, was organized there Friday evening for the purpose of offering their services to the government in any capacity during the present war. The following officers were elected: Captain, O. H. Willard; first lieutenant, Mottford Windsor; second lieutenant, C. J. McCard; first sergeant, George Sexsmith.

The territorial land commission settled the long contested Wolfly claim amounting to something over \$6,000, by issuing to the holder, John A. Black, of Tucson, territorial bonds for the amount.

Judge Ling says the Tucson people are fairly bubbling over with patriotism and jubilation over the success of American naval commanders.

The Florence Tribune records the death of a three-year-old Mexican child from the effects of being stung in the pit of the stomach by a scorpion, dead following half an hour after the stinging.

WILLIAMS.

From the News. The railroad pay car was in town Monday. About \$2500 was distributed among the local employees.

P. G. Hildison, a young newspaper man from Phoenix, arrived Sunday to accept a position on the News. Williams was favored with a most exhilarating summer temperature Monday. The thermometer registered 63 degrees in the shade. Sunday night the mercury descended to 28 degrees.

Phil S. Farmer, the jolly and enterprising young representative of the Economical dry goods store of Albuquerque, is in town. He finds no trouble in showing goods, and scarcely less trouble in displaying them.

PASSED FORGED CHECK.

Juan Candelaria Bound Over to Grand Jury—Other Police News.

Juan Candelaria, a man who has been employed by W. H. Matson, was arrested yesterday afternoon charged with passing a forged check for \$6.50 at the Golden Rule Dry Goods store. The check was signed with the name of W. H. Matson, and was one of his blank checks.

Candelaria had his hearing before Justice Crawford this morning. He pleaded not guilty, and then W. H. Matson and J. A. Weinman gave their testimony.

Mr. Matson testified that he was called into the Bank of Commerce yesterday afternoon and shown the forged check, which he immediately recognized as one not issued by himself, because he always wrote his checks with an indelible pencil and this was written with an ordinary pencil. He had, however, made out a check for this amount payable to Juan Candelaria.

He immediately returned to his office and found that three check blanks had been torn out of the rear of his check book.

J. A. Weinman testified that the defendant came into his store at about 6 o'clock Tuesday evening and purchased a pair of overalls for 75 cents for which he offered him the forged check in payment, which he accepted and returned \$5.50 in change. He sent the check, with others, to the bank yesterday morning, and yesterday afternoon he was notified that the check was no good.

Candelaria simply testified that he received the check from Mr. Matson.

The court bound him over to the next grand jury and fixed his bond at \$250.

The forgery was quite a skillful piece of work and no one believes that it was done by Candelaria, who can hardly sign his own name. Nevertheless he is guilty of passing the check and certainly knows from whom he received it, which he has so far refused to divulge.

OTHER MATTERS IN COURT.

Sofre Alexander was summoned before the court to day for having violated the ordinance. The marshal testified that Mr. Alexander had been warned, so he was fined \$2 for his neglect.

Marshal Forsyth was called from his warm couch at about 5 o'clock this morning to umpire a family fight between Jennie Hayward and her husband, Richard Hayward. The contest was made about equal by Mrs. Hayward having in
