GUNS OPEN ON HAVANA FORTS!

Blockading Fleet Silence the Ca- banas Guns in Fifteen Minutes.

SHELLS STARTLE STRICKEN SPANIARDS.

Atlanta, Ga., April 30.—A special to the Journal from Key West, says: Fort Cabanas, a small fortified town, thirty-five miles west of Havana, was fired upon Friday evening and demolished. Firing began at 6:30, and lasted fifteen minutes. Ten shots were fired from the New York's batteries. The first shot was fired by the Spaniards. The New York and Helena tried to draw fire from the batteries of Havana and Mariel but failed.

About noon the New York steamed up the west coast. Following the flagship at a distance came the Iowa, Indiana, Helena and the torpedo boat Porter and Ericsson. After Havana was passed, where the Helena went in to see what a crash of guns from Morro castle was momentarily expected, the ships, with the exception of the torpedo boat, returned to their station.

Admiral Sampson sent the flagship New York clipping merrily firing up the coast. At Cabanas the Porter and Ericsson pushed ahead. Suddenly there was the roar of a heavy gun, a puff of smoke from the shore, and the little New York boat came hurrying back under lee of the flagship. The officers and men disappeared from the deck of the New York like magic and one six inch gun from the bow belched forth. Another shot from the flagship, one more from shore and the fort guns were silenced. Three six inch shells sufficed.

Five more shots put a quietus on the fortifications. The first shot was fired at 6:30. At 6:35 the New York let go with two six inch shells, one at each fortification to complete the job. There was no answer. Ten minutes later the flagship let go her two eight inch turret guns, and the shrieking shells left a trail of fire early seen in the dark. The New York then put back to her station.

IT WAS A SKIRMISH.

The Gunning Was of No Particular Importance—Merely to Practice Gunners. Key West, April 30.—Incoming boats say that the firing by the flagship New York last night was on Cabanas, a small fort about ten miles west of Mariel. The torpedo boat Porter and Ericsson were scouting on the coast, and the little New York boat came hurrying back under lee of the flagship. The officers and men disappeared from the deck of the New York like magic and one six inch gun from the bow belched forth. Another shot from the flagship, one more from shore and the fort guns were silenced. Three six inch shells sufficed.

MOB IN SPAIN. Consul General Bowen Relates His Exciting Experiences at Barcelona. Liverpool, April 30.—Herbert W. Bowen, United States consul general at Barcelona, is a seaman on the Europa, sailing for New York to-day. To a representative of the Associated Press, Bowen said: "Between April 13 and the night of April 21, eight mobs of over 1,000 persons each, made demonstrations before the consulate. The police with the civil guard usually managed to disperse them. During the morning of April 20, 4,000 people suddenly filled the square in front of the consulate cheering for Spain, and uttering other cries. I managed to push my way through the people until I got my back to the consulate and faced the mob. I had hardly taken up my position when I noticed a man as big as myself (Bowen is about six feet high) pushing through the crowd. He stood beside me. Fortunately the mob had no leader so for a quarter of an hour, we two and the mob each took a turn. Then the police and militia arrived and the mob melted away. I asked the stranger who he was and he replied: I am Norman Harrington, of Chicago. This is my first day in Barcelona. It seems to me as if there will be some trouble for the eagle up there, and I thought I'd take a bit of it."

the cable. Commodore Dewey would very likely avoid Manila and seize first another port, where the insurgents are in great strength and where there are no fortifications to overcome, without battleships or a strong land force.

St. Vincent, Cape Verde Islands, April 30.—The transports and torpedo boats sailed this morning.

Money Market. New York, April 30.—Money on call, steady, 2 1/2% per cent. Prime mercantile paper, 6 1/2%.

Bread Bids. Rome, April 30.—Bread riots continue in various parts of Italy.

HORRIBLE CONDITION. Terrorized, Starving, Sick and Desperate People of Cuba. Santiago de Cuba, April 30.—The Spanish audacity to threaten to kill every man, woman and child in the city, when the blockade began, has been the cause of a horrible condition. The people are starving, sick and desperate.

THE SHIP PARIS! Arrives Safely in New York After Rough Passage. American Squadrons to Combine in the Capture of Havana.

Insurgents of Philippine Islands Capture Important City—Big Battle Imminent. SANTA FE SEEMS TO INCREASE WORK.

New York, April 30.—The American line steamer Paris arrived this morning from Southampton after a rough passage. After clearing land April 22, Captain Watkins shaped his course north, and after a run of thirty miles headed for home, keeping about thirty miles from the coast, the Paris will hereafter be known as the Yala.

Good News for This City. Toledo, Kan., April 30.—Commencing on Monday, April 30, the time of all the shops on the Santa Fe system will be increased fifteen hours this week. This will increase the pay roll 57 per cent.

Insurgents Capture a City. New York, April 30.—A dispatch to the world from Hong Kong says that New Manila has fallen into the hands of the insurgents, and it is reported by the rebel leaders to Hong Kong that the insurgents say they will capture Old Manila within a few days.

War Ships Sail. New York, April 30.—The United States steamers St. Louis and Harvard sailed this morning. Destination unknown.

FLYING SQUADRON. Reported that it will help in the reduction of Havana.

New York, April 30.—A special to the Herald from Washington says: Immediately following the receipt of official information announcing the departure of the Spanish fleet from St. Vincent, sailing on Monday, the greatest secret is observed as to the destination of the flying squadron, but it is generally conceded that the probability points to the immediate junction of the armored vessels under Commander Schley and those commanded by Rear Admiral Sampson, and that the formidable force will be in position, where they can promptly resist the attack of the Spanish fleet either upon the American coast or upon the blockading squadron surrounding the Cuban port.

THE FLYING SQUADRON. Washington, April 30.—It was reported in navy department circles to-day that the flying squadron was about to sail from Fort Monroe. Officials refused to affirm or deny this statement. It is assumed that if the report be true the vessels are to be used as scouts to detect the approach of Spanish vessels.

WILL PROBABLY BLOCKADE. City of Manila Commanded by Sixty Heavy Guns. Hong Kong, April 30.—If the reports current here are correct, the United States fleet has a difficult task. It is said the entrance to Manila bay is commanded by from fifty to sixty heavy guns, well placed, and it will be impossible for the Americans to enter the bay without battleships or the co-operation of a strong land force. Therefore, it is believed, Commodore Dewey will not attempt to charter a steamer in expectation of being able to transport a force to the vicinity of Cavite and capture the strong fortress of Cavite, inside of Manila bay. The cable to Manila is still intact, but the transmission of news regarding military or naval movements is barred.

DESTROYING PARK PROPERTY. The Park association recently had a number of new benches made for the accommodation of visitors to the park. They had no sooner been placed in position than some young men, who are getting ready for a sentence in the county jail, defaced them by whitening and drawing nasty faces.

THE ASSOCIATION TO-DAY PUT UP SIGNS warning everyone from destroying or mutilating park property on penalty of \$25 to \$100, imprisonment in the county jail or both, as provided for by section 10, chapter 15, laws of 1897. A strict watch will be kept, and all violators of this law will be punished to the full extent of the penalty as a warning to other evil doers not to follow in their footsteps.

MORE HORSES. W. F. Magrath's stable of ten runners arrived last night from San Francisco and are now stabled at the Red Barn. They have been racing at "Prize" all winter, and are to-day attracting a great deal of attention. Lee Shaver's string is due here to-night, also from the Oak land track at San Francisco.

POLICE COURT NEWS. W. H. Campbell was run in as a vag last night. He had in his possession a note signed by J. W. Green, marshal of Gallegos, saying he had given him a permission to remain in Gallegos. Campbell explained, when brought before Judge Crawford this morning, that he had agreed to enlist with the company at Gallegos, but when he tried to do so he was rejected for the reason that he was only 5 feet 4 1/2 inches tall, while the requirement was 5 feet 6 inches. He then came to this city. He was given a job.

Glover, who is a careful and painstaking sewer.

For a good story about the muddy, dirty harbor of Havana, where Admiral Sampson's brave sailors are, call on either Ed. Quickel or Ben. Bothe, of the Ziegler Cafe, this evening. They will serve "hookworms" to their friends, and tell you good enough to make the most insipid laugh.

Madam Adelaide, scientific palmist, from New York City, has kindly volunteered her services to the Woman's Relief Corps, and will give an evening's reading on May 6, at 117 Railroad avenue. Come and enjoy a pleasant evening as well as helping out a good cause.

The Woman's Relief Corps of this city will give a "Bazaar" social Friday evening, May 6, from 8 to 10 o'clock, on Railroad avenue, next to Abel's cigar store. Will serve ice cream and cake.

W. J. Wilson, formerly of this city, is here representing the S. D. Kimball Hardware company, of Chicago. Mr. and Mrs. Wilson now reside in Winfield, Kan., as their home.

Mrs. W. M. McCallan, wife of the popular ex-attorney on south Third street, will leave Monday night for Denver, where she will visit relatives and friends.

A cement sidewalk is being laid on the Third street side of the Donohoe Hardware company's store in the new Arroyo building.

It will be "hook worm" and "hook worm" at the popular Ziegler Cafe this evening, and the latter will be served at free lunch.

ALBUQUERQUE, — APRIL 30, 1936

POLO, late Spanish minister at Washington, has gone to Canada to escape the draft.

This town thinks it has a genuine kick on the count of local military operations.

The horrors of war are profoundly deplored by the applicants for postoffice, who are not able to see the president.

Taking the advice of this paper's Winnow correspondent, the Mail of this week is unusually bright and will be appreciated by its readers.

New York harbor is almost in a state of siege. It is thoroughly mined and now no vessel will be permitted to pass in between sunset and sunrise.

The latest critics of Captain Luna's troop took good care not to offer their services to the country. The hero who voluntarily enlists is more of a patriot than the man who is too cowardly to fight except with his mouth.

The old flag has never been unfurled except in the cause of human liberty and progress, and with 75,000,000 patriots beneath its folds to make good its challenge to barbarism and inhumanity it will still "make tyranny tremble."

The wording of President McKinley's call for troops was almost identical with that of President Lincoln, and it seems to be quite as effective. The spirit of patriotism is as strong in the citizen of 1936 as it was in the citizen of 1861.

The report of the year's work of the Salvation Army in Great Britain has been published, which shows the scope of the usefulness of that organization in its home field. The army has 301 different institutions in the United Kingdom under the control of 1,473 officers.

It might be well to inform the eastern ten cent novel reader that there are very few cowboys in New Mexico. There isn't one in a hundred miles of this city, and the only specimens ever seen here was at a fair several years ago, when they were brought in as curiosities.

A CABLEGRAM says that Gen. Woodford asked an Irish gentleman, who was a fellow traveler, to explain to the officers in Spanish that he had placed Moreno, his secretary, under the protection of the British flag. This shows how fortunate it is to always have an Irish gentleman convenient when any Spanish is to be spoken.

Spain will lose, in the Philippines, a greater possession than Cuba. The group of islands numbers over 600, and the largest contains 40,000 square miles. Four months of rain give the tropical vegetation much luxuriance, and trees 300 feet high are common. The population is 9,000,000, or more than five times that of Cuba.

The story that the Omaha exposition had been postponed on account of the war has been promptly denied. It is the intention to go on with the show, and it is hoped that the expected interruption of travel to Europe will cause a greater number of Americans to visit Omaha, where the resources of the Trans-Mississippi will be displayed.

The example set by John Jacob Astor, Theodore Roosevelt, William Astor Chandler and other young men with large possessions should be instructive and emulative. These men are filled with ardent patriotism, and they offer not only their personal services but of their abundant means to assist the government at the present time.

Is intelligence a detriment to the soldiers? The effort to raise a regiment of cow herders gives color to the contention that ignorance is heroic. The average cow puncher in New Mexico and Texas is no more intelligent than the brutes in his charge, and his bravery is principally noted in the imagination of the eastern ten cent story writer.

The plan to replace the Maine with a battleship built with the specifications of the school children of the country, and to be called Young America, has been adopted in the majority of the cities of the Union, and the idea is still spreading fast. There are over 20,000,000 children between the ages of 5 and 15, and over 15,000,000 are enrolled in the public schools. It is quite probable that the vast sum of \$2,000,000 will be raised.

RELIABLE NEWS SERVICE.
The Associated Press, of which THE CITIZEN is a member, is the greatest news agency in the world, and its system for gathering and disseminating news is so perfect and reliable that its service is accepted in the present crisis, by the departments at Washington, as auxiliary to the official reports from the government's agents on land and sea. The As

sociated Press relies for its existence upon the support of about eight hundred of the leading daily newspapers of the United States. It has a reputation to maintain and cannot afford to send out any except perfectly reliable information. But there are numerous little special news agencies in the country, entirely irresponsible, as has been demonstrated during the present war excitement. These little special agencies sell their wares to whoever will buy, and their wares usually consist of sensational rumors, which are invariably contradicted by the facts.

WHY SANTA FE WAS SELECTED.
The New Mexican says: Governor Otero, being of the opinion that the best interests of all concerned, demanded that the place of rendezvous for the New Mexican volunteers be at the capital of the territory, exerted himself and procured the designation of this city as such place of rendezvous, formal enrollment and muster in of the volunteers to form the four companies of riflemen, which is the quota to go from this territory. He desired to have the organization made and perfected under his personal supervision and believed on account of the fact that the abandoned military post of Fort Marcy could be utilized and the counties of northern New Mexico more easily reached by rail from this city, that the rendezvous should be established here; this was done on yesterday by Secretary Alger on the governor's recommendation, as an official dispatch published elsewhere in these columns shows.

VOLUNTEERS FOR THE WAR.
The first city troop of volunteers for the war left last night for Santa Fe. Capt. Luna in two days enlisted sixty-two volunteers, and they will average in manhood with the volunteers from other localities, being from all the different avocations. This office sent three of the recruits, and they are intelligent, manly men. At the depot, when the train left, there were tears and sad farewells and loving signals. It is hoped all the boys will pass muster, and in the war with Spain prove that they are American soldiers in every sense of the term.

FREE PEOPLE.
Insurgents and rebels are the terms that should no longer be applied to the forces that are fighting for freedom in Cuba. The action of the United States government has raised them to the dignity of a free people, and the Spaniards, instead of being the rightful occupants of the island, are usurpers, whom the United States proposes to oust from the occupancy of a country that they can no longer govern in peace. The erstwhile insurgents are now fully entitled to be called the Cubans.

THE HAVANA NEWSPAPERS want the red and gold cross of Spain planted on the dome of the capitol at Washington, so that the nations of the world may contemplate it in amazement. This feat would be a world astonisher and the Spaniards are urged to make the attempt.

WHATEVER this war may amount to, it is going to teach us one or two things that we ought to have known without an object lesson. We already realize that we ought to have built a navy and constructed the Nicaragua canal in time of peace.

With the young men going off to war by every train and no leap year till 1947, the 1898 maiden would be very said indeed were it not that the bicycle season is at hand.

THE printers in this office who left positions paying them \$15 per week to volunteer as private soldiers, certainly can not be accused of a mercenary spirit.

This country now has powder to burn, but the blowing up of powder mills is a piece of extravagance that should be stopped.

It is evident to the people of this city that Delegate Ferguson has no influence at Washington.

Free Pills.
Send your address to Dr. E. Buckles & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy to take and are particularly effective in the cure of constipation and sick headache. For malaria and liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by living tone to the stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold by J. H. O'Reilly & Co., druggists.

WHAT THE EMPLOYEES ARE DOING.

Phil. Blum, at Winslow, has resigned his position on the Santa Fe Pacific and gone to Los Angeles.

W. J. Stansberry, of Cerrillos, came to Albuquerque this week and has secured employment in the railroad yards here.

Dr. E. B. Shaw, the physician and surgeon in charge of the Atchison, Topeka & Santa Fe hospital at Las Vegas, was in Raton on professional business.

The interior of the waiting room and office of the Flagstaff depot of the Santa Fe Pacific railroad company has been in the hands of the painters this week.

Harry W. Snyder has resigned his position in the railway shops at Raton and moved his family to Chanute, Kansas, on account of the ill health of Mrs. Snyder.

Hon. W. M. Oliver, agent of the Atchison, Topeka & Santa Fe at Raton and ex-mayor of that city, returned to his duties restored to health after a few weeks recreation in southern New Mexico.

John Dugan, who disabled more ball players while he was in the box than any pitcher in the west, went to Bellemont Monday to accept a position with the railroad company, says the Flagstaff item.

Dudley S. Dean, for years chief clerk to Superintendent J. E. Hurley, resigned his position Tuesday night last and left Las Vegas Friday morning for his old home, where he will enter the naval service in the war with Spain. That is patriotic.

George Brooks, the colored man who dubbed Martin L. Dies, a Santa Fe brakeman, last February, was tried in the district court at Las Vegas Thursday. The jury returned a verdict of assault to kill, after being out about six hours. The penalty is from one to ten years in the penitentiary.

The Santa Fe has announced that from and after April 26th it will refuse to grant free storage on shipments at any of its stations which are not removed by the consignee from depots and warehouses within three days. Charges will be made, the minimum charge for any one shipment to be 10c.

Last Saturday a series of changes in the Santa Fe service of interest to Cerrillos people took place. Jack Quick, assistant at Wabash station, was transferred to Rowe as night operator. Ollie Colver, assistant at Cerrillos, was transferred to Wabash. Mr. Schmitt was transferred from Rowe to Cerrillos and is night operator at that point. Walter Miller was made assistant at the Cerrillos depot.

The Lordburg Liberal says: There was a head-on collision at Aden between the third section of the train carrying the soldiers and a west bound freight train. It was said the soldier's train was a little ahead of time and got past the switch and into the freight train. A tramp riding on the front train was killed, but none of the soldiers were hurt, although some of the wagons were broken up.

There was a serious accident near Manzanera, a few miles west of Wilcox, the other day. A helper engine was coming down the hill a few moments in advance of a freight train. The helper was traveling at its usual rate of speed, when the engineer heard the whistle of the freight engine behind him, warning him to get out of the way. He pulled out, but could not travel fast enough and the freight engine struck the helper. The collision broke the cowcatcher on the front engine, which fell, and striking the ground, threw the engine off the track, also several of the following cars. Engineer Frank North was instantly killed and Fireman E. L. White injured. At first it was thought that White would die, but he is getting better. The helper engine was thrown off the rails, came to a bridge, where it was on one side mounted the guard timber, ran on that for a while and then went outside and nearly off but managed to keep on the tie till it got off the bridge, where it stopped. The flange of the wheels cut the bridge tie within two inches of their end, which is about as close as an engine could come to going into an arroyo, and not go in.

Mrs. A. Invern, residing at 720 Henry street, Altos, Ill., suffered with severe rheumatism for over eight months. She was treated by friends, and was treated by the physicians, but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her. The 25 and 50 cent sizes for sale by all druggists.

The surprise of all.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Rans could do nothing for her. It seemed to develop into a fatal consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from the first dose, and a half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this kind of work. Try it. Free trial bottles at J. H. O'Reilly & Co's drug store.

THE LIBRARY BALL.

A Delightful Affair Held at the Opera House Last Night.

Once again the ladies of the public library gave one of their delightful dances, which proved to be a big success. They had prepared a very pleasant entertainment, which commenced at 9 o'clock. Mrs. W. Y. Walton had drilled a number of her small pupils in several pretty dances, the first being a waltz, in which the following little people took part: Misses Marie Perkins, Irene Hopkin, Josephine and Ada Campbell, Isabelle Spencer, Edith Walker, Lolita Hunsing and Stella Luthy, and Masters Cortez Quickel, Harry Halloway, James Wroth, James and Eddie Perkins, Lloyd Sturges, Isaac Singer and Frank Springer.

Next on the program was a recitation, "The Corpse's Husband," by Master Elwood Albright, which brought forth great applause, and he responded with "A Judge's Opinion of the War."

The following four couples then danced very prettily "The Lancers": Irene Hopkin, Josephine and Ada Campbell and Lola Neher, and Masters Milton Lasser, Cortez Quickel, Rob. Hopkins and Harry Halloway.

Miss Ada Campbell then sang in a sweet voice "The Dove Song," and in response to ensure sang a negro melody.

The stately minuet was then danced by Misses Josephine Campbell, Josephine Clouthier, Marie Perkins and Lola Neher, and Masters Eddie Perkins, Frank Springer, James Wroth and Cortez Quickel.

The program was finished by a Spanish dance from Miss Eloise Ylstraar, which was very pretty.

Then the dance began with music from Miss Hawthorne and Prof. Di Mauro, which was kept up for several hours.

Supper was served during the entire evening, and every one present will long remember the Library ball of last evening.

Alger's Order.

The following is the order transferring the camp of instruction from Albuquerque to Santa Fe:
