## NO NEWS OF NAVAL FIGHT

But Indications Points to an Engagement in a Short Time.

## JAP STEAMERS HELD

In Port—Another Sign That Hostilities Are Expected to Commence at Most Any Day.

St. Petersburg, May 26.—Nothing further has been heard here of the reported naval battle south of the island of Formosa.

Steamers Being Held in Port. The Foo, May 26.—All Japanese steamers arriving at this port have been ordered held here pending further instructions.

Russian Fleet Assembled at Woo Sung Tsing Tau, May 26.—The whole Russian fleet is assembled near Woo Sung and the German squadron at Tsing Tau is preparing for eventualities.

Cable Line May Be Cut. London, May 26.—The Great Northern Telegraph Company reports the Che Foo-Shanghai cable interrupted. This does not necessarily mean that the line has been tampered with by either of the belligerents.

Rojestvensky Divides His Force. Shanghai, May 26.—There are indications that Rear Admiral Rojestvensky has divided his fleet. Seventeen vessels of the Baltic fleet were anchored at Saddle Islands last night. It is believed that they coaled there, and from that point will proceed north.

May Mean General Land Battle. St. Petersburg, May 26.—The daring attempt of the Japanese, May 23d, to cut the railroad and blow up the bridge over the tributary of the Tung Liao River, twenty miles south of the Russian main line from Kuan Cheng Tsu to Kirin, which towns are now connected by the field railroad, bears a striking resemblance to the blowing up of the bridge over the Kains Kair River, 160 miles north of Mukden, by Major Nanganuma of the Japanese army just before Field Marshal Oyama undertook an advance against General Kuropatkin at Mukden. Another parallel of the raid of May 23d occurred while General Rennenkampf's cavalry recently was working around the Japanese left, south of Fakoman, just as Major Nanganuma's exploit coincided with General Misteheenko's raid on New Chwang in September last. According to reports the raid of May 23d was launched from Mongolia.

British Steamers Detained by Japs. Nagasaki, May 26.—Three British steamers which were loaded with coal at Moji for Hong Kong, have been detained under orders of the government.

Tactics Puzzle the Russians. Gunshu Pass, May 26.—Japanese tactics are puzzling. They give away at the slightest pressure at their center on both the railroad and the Mandarin road. The Chinese explain the retirement to trouble among the reserves, some of whom they say are almost in a state of revolt because the government has not kept its promise to return them to Japan. The retirement of the Japs' center is interpreted by some Russian officers as a postponement of Field Marshal Oyama's offensive plan because of the bad state of the roads, but this view is not shared by all officers.

WIRELESS TELEGRAPH ASSURED. Advice received at Trinidad indicate that the DeForest system will be established soon.

Trinidad, May 26.—That this city will have a wireless telegraph station is practically confirmed by letters just received by local business men from representatives of the DeForest system which is operating in Denver, Boulder and other cities in the west. A unique scheme is said to be under contemplation by the company. It is the establishment of a station on Fisher's Peak and another one on Pike's Peak, communication between the two points to be carried on as a test of the carrying powers of the system. Representatives of the DeForest system are expected to arrive in Trinidad in a short time to make the formal arrangements for the opening of the station.

CORN CONTINUES TO DROP. Today's Market Showed Decline of Six Cents in Addition to Eight Cents Yesterday.

Chicago, May 26.—A fresh break of six cents in May corn followed the eight-cent decline of yesterday and seemingly gives complete evidence of the end of the attempt to corner that product. An additional reason for the drop was the report of liberal receipts. The market was weak at the start, the initial quotation being off three cents at 60 cents. No support was at hand and the price fell to 57 cents.

## TO EXAMINE THE BUMPS.

Union Pacific Employees Will Have Their Fitness for Position Determined By a Phrenologist.

Omaha, Nebr., May 26.—Employees of the Union Pacific Railway are about to have the bumps on their heads determined and interpreted by a phrenologist. It is not because any of the engineers, firemen, conductors, brakemen or clerks want to have a professor finger their bumps, but because somewhere along the line of executive officers of the road is a man who wants to know if every man is suited to his job; hence the phrenologist.

Although notice of the pending examinations was given to the employees several days ago, from the main offices here, the significance of the announcement has just begun to dawn on their minds. Now every one is guessing whether or not he can keep his job. The idea of having this examination made is that if a man is found selling tickets, for instance, with a cranial development which denotes that he would make a better engineer than clerk, his position will be changed and he will be made an engineer.

## BARON ROTHSCHILD DEAD.

Head of Famous Banking House Carried Away at the Age of 78 Years—Much Regret.

Paris, May 26.—Baron Adolph De Rothschild, head of the French branch of the banking house bearing the name of Rothschild, and governor of the Bank of France, died at 4:30 o'clock this morning from acute bronchitis aggravated by gout. The eminent financier had been sinking slowly for many days but there was no apprehension that death was near. The announcement of his death caused widespread regret, for besides his position in the financial world, he was known for his lavish charities, one of the latest being a gift of \$2,000,000 for the erection of workmen's homes. The deceased was born in 1827. He will probably be succeeded as head of the Paris house by Baron Lambert de Rothschild, of Brussels. One of Baron Adolph's colossal feats was the financing of the indemnity which France paid to Germany after the Franco-German war.

## GRANTS MOTION TO RESTRAIN.

Supreme Court, However, Limits Same in the Case of the Mutualization of the Equitable.

New York, May 26.—The motion of Franklin B. Lord which sought to restrain the directors of the Equitable Life Assurance Society from mutualizing the company, was granted today by Justice Maddox in the supreme court of Brooklyn. In granting the motion, Justice Maddox said, after reviewing the facts in the case: "The motion, therefore, is granted, but it is limited to the filing and effectuation of the proposed amended charter, for it appears that such contemplated amendment has been adopted and executed by the board of directors."

## IS IT TO BE A PANIC?

Banks Throughout Country Failing With Alarming Regularity—Latest Is in Ohio.

Washington, May 26.—The First National Bank of Barborton, Ohio, has been closed by the comptroller of the currency on the ground that the bank is insolvent. The capital stock was \$50,000.

Carried Much Doubtful Paper. Barborton, Ohio, May 26.—The First National Bank of Barborton was closed on the recommendation of National Bank Examiner Albertson, who found between \$40,000 and \$50,000 worth of doubtful paper, consisting mostly of long time notes, which it is claimed were carried contrary to the National Banking laws. Much of this paper was against the Barborton Pottery Company, which went into bankruptcy this week.

## REPORT SHOWS A BIG DECREASE IN COLLECTIONS

Washington, May 26.—The monthly statement of the collections of internal revenue shows that for the month of April, 1905, the total receipts were \$17,469,291, a decrease as compared with April, 1904, of \$197,152. For the ten months of the present fiscal year the total receipts were \$193,481,098, which is a decrease as compared with the corresponding period of 1904 of \$616,810.

## COMMENCEMENT EXERCISES WILL OCCUR TONIGHT.

Tonight at the opera house will occur the commencement exercises of the Santa Fe schools. The program will start at 8 o'clock and will not be long, although it will be exceedingly interesting. Professor Hiram Hadley, superintendent of public instruction, who is to deliver the address to the graduating class, is a most eloquent talker and always says the right thing in the right place. The exercises are free to all and the public is cordially invited to attend.

## COUNCIL IS COERCIBLE

Philadelphia Aldermen Being Swung Into Line By The Citizens.

## MAYOR IS CONFIDENT

That Gas Lease Will Not Pass Over His Veto—Other Faction Is Equally Sure That It Will.

Philadelphia, May 26.—It is the general opinion that Mayor Weaver, for the present, at least, controls the situation in his fight with the Republican leaders over the proposed lease of the city gas works. There is much speculation as to what will be the next move and developments today are expected to come from the organization. There is still some talk of impeachment, but some of the "organization" leaders advise against it at this time, as they say it would serve to strengthen the mayor's position with the public.

## Both Sides Working Strenuously.

Philadelphia, May 26.—Both sides are preparing for next Thursday's meeting of the council when, unless something intervenes, Mayor Weaver will forward his veto of the new gas works lease ordinance to both branches. "Organization" leaders have announced that they will have no difficulty in passing the lease over the mayor's veto. Mayor Weaver and his friends are becoming more confident every day that they will be successful in blocking the "organization's" plans and that the veto will stand. In this they have the active co-operation of the citizens of every ward. Extraordinary pressure is being brought to bear wherever a councilman shows signs of weakening. In one instance a committee of determined citizens hunted nearly all night for a member of the select council who was obviously avoiding them. Early in the morning the committee appeared at the man's house, roused him out of bed and, while he stood in his night clothes, read him resolutions and exacted a promise from him to sustain Mayor Weaver. It is claimed that since last Thursday fourteen members have been won over to the mayor's side, and if nine more are won over the opposition will not have the necessary three votes to defeat the veto.

## FIVE CHILDREN DROWNED.

Four Girls and a Boy the Victims of a Cloudburst in Bonito River—Mothers Prostrated.

Roswell, May 26.—Further particulars of the tragedy in the mountains have been received here. The Murray family were in a wagon and were watering their team at the Bonito River in Lincoln County, when a cloudburst descended and swept the entire outfit down the stream. Five children were drowned, four of whom were girls. One girl, Sally Murray, daughter of Mrs. Murray's sister-in-law, landed on a sand bar but was washed away before aid could reach her. Mrs. Murray and her sister-in-law are in a state of collapse from the shock and the physicians fear that both may die.

## ENOUGH RUBBER WEED TO WARRANT A FACTORY

Durango, May 26.—Frank R. Marsh, president of the Western Crude Rubber Company, has completed an investigation into the quantity and quality of the rubber weed in this vicinity and has announced that there appears to be enough of the plant to justify a factory. He intimates that his company will soon begin erecting one to utilize the weed.

## ARE DEMOLISHING DISORDERLY HOUSES.

Warsaw, May 26.—The demolition of disorderly houses by the Jewish socialist organization continued unchecked today throughout the city. Jews and Christians joined forces this morning and are working together to make a clean sweep. Cossacks and gendarmes look on as amused spectators and the police are not to be seen.

## TROLLEY CARS COLLIDE MANY PEOPLE INJURED.

Baltimore, Md., May 26.—W. Steller was almost instantly killed and half a hundred men were injured, several of them seriously, in a collision between two trolley cars returning from Westport, a suburb of this city, early today.

## BOND IN SUM OF \$4,000 IS APPROVED.

The bond of Jesus M. Hernandez as guardian of the minor, Pedro B. Montano, has been approved by the probate court of San Miguel County in the sum of \$4,000, with Pedro Montano, Sr., and M. C. de Baca as sureties thereon.

## OFFICIAL MATTERS.

Bureau of Immigration Literature at Portland Exposition.

The Bureau of Immigration has sent to J. L. Clark, secretary of the Benham Trading Company at Albuquerque, 500 copies of the illustrated booklet of 300 pages, entitled "To the Land of Sunshine", containing information concerning the resources, conditions, climate, minerals and industries of New Mexico, for the purpose of having the same shipped to Portland, Oregon, where the Benham Trading Company will have a large exhibit of Navaho blankets, Indian baskets, Indian pottery, Mexican drawn work, Mexican blankets, Mexican pottery, etc. These 500 copies are to be distributed by Mr. Benham, who will be in charge of the exhibit, to persons who may make inquiries concerning New Mexico and will be given out gratis. Thousands of these booklets were distributed at the New Mexico Building at the Louisiana Purchase Exposition at St. Louis. They were published jointly by the New Mexico Board of Managers of the Louisiana Purchase Exposition and by the Bureau of Immigration and this batch of 500 copies now being sent to Portland will exhaust the edition. The booklet is handsomely illustrated and presents a very attractive appearance.

## Articles of Incorporation.

The following articles of incorporation have been filed in the office of J. W. Reynolds, secretary of the Territory:

The Taos Valley Land Company. The incorporators are N. B. Laughlin, of Santa Fe; Arthur R. Manby, of Taos; Edwin G. Potter, of Minneapolis, Minnesota; Schuyler S. Olds, of Lansing, Michigan, and Jesse B. Levy, of Kansas City, Missouri. The objects for which this company is incorporated are to purchase, settle, improve and cultivate lands; to buy, sell, lease and mortgage said lands; to deal in and breed all kinds of live stock; to raise and sell agricultural products; to mine for all kinds of metals and minerals; to sell and convey any portion of portions of the real and personal property of the company. The capital stock is \$1,000,000 divided into 1,000,000 shares at \$1 each. The principal place of business is Taos, Taos County, and A. R. Manby is named as resident agent. The stockholders are not held liable on account of any issue of stock of said company. The term of existence is 50 years and the number of directors is five. Those who will manage the business of the company for the first year are N. B. Laughlin, A. R. Manby, E. G. Potter, S. S. Olds, and J. B. Levy.

## The Association Beneficencia de Algodones, New Mexico, Bojo los Auspicios de San Juan Bautista.

The incorporators are O. P. Hovey, Andres Vigil, Policarpo Griego, Juan Pablo Gutierrez, and others of Algodones. The objects of this incorporation are for charitable, literary, benevolent and mutual protection purposes of all its members. The officers of the company for the first year, or until removed, are O. P. Hovey, president; Andres Vigil, vice president; Policarpo Griego, secretary; Juan Gutierrez, treasurer.

## Certificate of Incorporation.

The following certificate of incorporation has been filed in the office of Territorial Secretary J. W. Reynolds: The Singer Sewing Machine Company. The incorporators are Douglas Alexander, and Thomas E. Hardenburg, of New York City, and Charles P. Coleman, of Englewood, New Jersey. The objects of the corporation are to acquire and take over, from the Singer Manufacturing Company of New Jersey, the business of selling and disposing of the sewing machines and other articles manufactured by said company. The capital stock is \$1,000,000 divided into 10,000 shares at \$100 each. The term of existence is perpetual and the principal place of business in New Mexico is Albuquerque, with Harry P. Owen as agent. The number of directors is three and those who will manage the business of the company for the first year are Douglas Alexander, Thomas E. Hardenburg, and Charles P. Coleman.

## TWO PRISONERS BROUGHT TO THE PENITENTIARY.

Silviano Lucero, sheriff of Taos County, brought two prisoners to the penitentiary yesterday, sentenced by Associate Justice John R. McFie at the recent term of the First judicial district court for Taos County, held at Taos last week. The names, ages, terms and crimes of the two men are: Vidal Sandoval, 35 years old, one year for assault with deadly weapon; Juan Sandoval, 26 years old, eighteen months for assault with deadly weapon. Sheriff Lucero returned to Taos this morning.

## SOUTHERN PRESBYTERIANS NOT FOR FEDERATION.

Fort Worth, May 26.—The general assembly of the Southern Presbyterian church today voted against the federation, but continued its committee for a conference with other branches of the church.

On the Japanese stage male actors play the female roles.

## TWELVE GRADUATES.

From the New Mexico Military Institute—Commencement Exercises Concluded Last Night.

Special to the New Mexican.

Roswell, May 26.—The commencement exercises at the New Mexico Military Institute for the present year were concluded last night in the presence of a large and well pleased audience. The valedictorian was Cadet R. H. Crews, of Hillsboro. Judge W. H. Pope delivered an eloquent address on "Opportunities," which was received with great applause and marked favor. Adjutant General Tarkington presented Cadets R. H. Crews and C. E. Kunz with commissions as second lieutenants in the New Mexico National Guard. Cadet O. E. Brownell, of Ely, Minnesota, won the gold medal in the Collegiate Department. The gold medal in the Preparatory Department was won by Cadet John C. Arrington, of Canadian, Texas. The debate medals were won by W. E. Talbot, of Albuquerque, H. M. Shaw, of Las Vegas, D. W. Kennard and G. H. Hart of Cleburne, Texas.

The graduation ball was a magnificent affair and lasted until the wee sma' hours of the morning. "Auld Lang Syne" was sung at the close.

The following are the graduates this year: W. M. Bell, Raton, N. M.; O. E. Brownell, Ely, Minn.; R. H. Crews, Hillsboro, N. M.; H. W. Dow, Lakewood, N. M.; C. R. Dwire, Taos, N. M.; C. E. Kunz, Albuquerque, N. M.; E. A. Lohman, Las Cruces, N. M.; L. C. Morse, Santa Rosa, N. M.; M. G. Paden, White Oaks, N. M.; H. M. Shaw, Las Vegas, N. M.; S. R. Smith, Roswell, N. M., and J. A. Young, Gallup, N. M.

In the base ball game yesterday the El Paso team defeated the New Mexico Military Institute by a score of 7 to 1.

## COULD NOT PROCURE SEED.

Delegate Andrews Endeavored to Do So For Destitute Farmers in the Mora Valley.

Some weeks ago, at the request of citizens of Colfax and Mora Counties, the Secretary of the Bureau of Immigration addressed Delegate W. H. Andrews, suggesting that the delegate endeavor to procure seed corn, seed oats and seed wheat for some of the farmers, especially in the valley of the Mora River and its affluents, which farmers, being in destitute circumstances, found it difficult to obtain seed for planting purposes. The delegate immediately addressed the Secretary of Agriculture, but found that he was unable to procure the seed, per letter from Secretary published herewith: Department of Agriculture, Office of the Secretary, Washington, D. C., May 9, 1905.

Hon. W. H. Andrews, 1405 Arrott Building, Pittsburg, Pa.

Sir: I have your esteemed favor of April 15th and regret to say that there is no authority under which this department could purchase supplies of wheat, oats and corn for sending to portions of the country where there is a shortage of seed on account of drought. Whenever we have seed of this sort, we are quite willing to distribute it to deserving farmers in such cases, but inquiry in the Department develops the fact that all the seed we had for distribution this spring has been sent out and it would therefore be impossible for us to do anything along the line you suggest.

Since answer to your letter has been unfortunately delayed, I am sending a copy of this to Albuquerque also. Very respectfully, W. M. HAYS, Acting Secretary.

## WILL GO 2,000 FEET FOR ARTESIAN WATER.

It is believed that there is artesian water in the valley at Albuquerque and the Water Supply Company of that city intends to sink at least five wells to test for it. If necessary these wells will be put down to a depth of 2,000 feet, in the hope of striking a strong flow of good artesian water. The cost will be large but an artesian flow would diminish the cost of pumping and thus the wells will be an economy.

## 2,200 CATTLE SWIM RIVER WITHOUT LOSS.

Twenty two hundred head of cattle were successfully taken across the swollen Rio Grande at Engle this week. The steers were being transferred from the Armendaris grant to the pastures of the Victoria Land and Cattle Company in southern California, and in order to get them to the railroad the river had to be crossed by swimming. This was accomplished without the loss of a single head.

## SOLDIERS GOT LEFT.

Four enlisted men of the 16th U. S. Infantry, enroute to San Francisco, were left behind at Albuquerque Wednesday. They had been out viewing the town and the special trains pulled out without them. They followed later but were afraid that they would miss their transport at San Francisco.

## POLICE FIRE FOR EFFECT

In Trying to Disperse Mob of Strikers in The Windy City Today.

## MOB MAKES AN ATTACK

On Officers of the Law and Several of Latter Are Hurt By Missiles—Riots Are More Frequent.

Chicago, May 26.—Strike riots have begun in the neighborhood of the lumber district. At Thirty-fifth and Morgan Streets, twenty lumber and shav-ing wagons, guarded by upward of forty police, were attacked by a crowd of more than four hundred strike sympathizers with bricks, stones and slung shots. The police finally drove off the mob by charging with drawn revolvers. At Thirty-fourth Street, nearby, the police were later forced indoors by strike sympathizers firing on them with air-guns. A number of policemen were struck but were not seriously injured.

## Police Forced to Shoot.

Chicago, May 26.—Shots were fired today by the police in the lumber district. At Twenty-second Street and Ashland Avenue a crowd jeered the passing lumber wagons driven by non-union men. The police ordered the crowd to disperse but the order was unheeded. The police then drew their revolvers and fired several shots to frighten the crowd. Two arrests were made and the wagons proceeded without further disturbances. Elsewhere in the district the police were kept busy clearing out the saloons and dispersing the crowds of idle men.

## LEGAL RESIDENCE UNNECESSARY

Length of Time in Territory Has No Bearing on Eligibility to Practice Optometry.

Attorney General G. W. Prichard, in response to a request for an opinion on Section 6 of the Optometry Law, rules as follows: Mr. O. C. Myhre,

Secretary of New Mexico Board of Examiners in Optometry, Silver City, New Mexico.

Sir: Your letter of the 22d ult. in which you ask my construction in a certain particular of Section 6 of the Optometry Act, passed by the recent Legislature, was received by me a few days ago, upon my return to Santa Fe, after a month's absence.

The section of the law referred to, reads as follows: "Every person who is actually engaged in the practice of Optometry in the Territory of New Mexico at the time of the passage of this Act, shall within six months thereafter file an affidavit in proof thereof with said Board who shall make and keep a record of such person, and shall in consideration of the sum of \$5.00 issue to him a certificate."

Regarding the section above quoted, you make the following inquiry: "Does it mean that any one who might have been in practice for ten days or two weeks, was eligible to registration as one that had gained a legal residence in the Territory?"

Under the section quoted, any one who was actually engaged in the practice of Optometry in this Territory when the Optometry Act was passed, is entitled to a certificate of registration upon his filing with your Board within six months from the date of the act, an affidavit in proof of the fact that he was practicing his profession in this Territory at the time of the passage of the Act. The length of time he had resided in the Territory is unimportant. One may be actively engaged in the practice of his profession, and yet not have acquired a residence in the full acceptance of that term.

Very respectfully, G. W. PRICHARD, Attorney General.

## REPORT ON FORMS AND SERVICE MADE.

Winona Lake, Ind., May 26.—The principal question which has come before the general assembly of Presbyterians was the report of the committee on forms and service, which was read today.

## NO RECORD OF DIVORCE WAS FOUND.

The Las Vegas Optic of Thursday that Probate Judge Candelario Martinez of Santa Fe, also a pension agent in the Capital city, has been in Las Vegas looking over the records, in conjunction with W. A. Pless of the pension bureau in Washington, D. C. Their search of the books had to do with granting of a government pension to a woman who was supposed to have been divorced from her husband in 1880. However, the records failed to disclose the fact that the husband and wife had been legally separated, or had even lived separate and apart during the time in question.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## MUNICIPAL CO-OPERATION VS INDIVIDUALISM.

Of about two hundred exchanges that come to the editorial table of the New Mexican, almost ninety per cent. are devoting considerable of their editorial space to the discussion of municipal ownership. Only one of these, the New York Commercial, is decidedly opposed to municipal ownership, a small number do not endorse it but the greater number are in favor of its principles, although differing as to the extent to which they should be carried. But even the New York Commercial admits that in New York, where lies the strength of corporate power and individualism, municipal ownership and Socialism have made and are making great progress. It says: "It is remarkable how many things can be had for nothing in this city. That the municipality provides free streets, free police protection, free public lighting, everybody knows. It also provides free water. It maintains an elaborate system of free schools at an expense of millions of dollars. It operates a free college. There is a great system of parks which are open to everybody to enjoy. It has established free baths and free recreation piers. There are free hospitals and dispensaries where surgical and medical treatment may be obtained without cost. If you are destitute, you can obtain a free lodging. If you are blind, the city gives you a certain sum of money each year, and there are asylums where you may be taken care of."

"There are great museums and galleries of art where the finest pictures and art objects may be enjoyed by everybody without cost. The city engages the best bands in the country to give free concerts in the parks. It pays for free lectures, providing an entertainment to all who care to hear them. In the churches and the public meetings, which, however, are not under municipal control, there is opportunity for everybody to hear the finest oratory in the country without cost. There are many philanthropic agencies, some working with the city and some independently of it, which undertake without price to provide employment, to extend legal aid and give many other things free."

Thus it will be seen that every city and town is socialistic in its government more or less for even Santa Fe provides free schooling, free police service, free fire protection and free parks, but many municipalities go further and engage in activities that yield a profit and relieve tax payers of a large share of the direct tax burden. The city of Leeds, England, last year made a net profit of \$260,000 out of its street railways although it reduced the minimum fare to one cent. Under similar circumstances the City of Hull last year profited \$122,000. Near home, the City of Silverton, Colorado, levies no municipal taxes, the revenue from its water and light works and from licenses being sufficient to carry on a progressive city government. On every side the sentiment is growing that if corporations make vast profits out of franchises granted by the people, that it is right in principle and right in practice for the people to make the profits for themselves.

Justice Harlan of the United States Supreme Court is among the leading minds of the great assembly of the Presbyterian church in session at Winoona Lake, Indiana, and it is significant therefore that this assembly, one of the most conservative legislative bodies in the world, is paying much attention to the labor question. Subcommittees are to be appointed to make a systematic study of the entire industrial problem and Presbyterian churches in every city are to establish close relations with organized labor. Said one of the speakers: "The labor union has come to stay and that fact had better be recognized. Socialism is becoming substitute for the church for thousands of workmen." And not only church organizations but party leaders and the industrial world dare not shut their eyes to the new conditions which this trend of the working-man toward socialism implies.

## ARIZONA AROUSED.

The Albuquerque "Non-Partisan Joint Statehood League" in their endeavors to push themselves again into the limelight of publicity have "put their foot into it." In New Mexico, where they are well known, people generally care very little about them or their doings and pay precious little heed to the Albuquerque Journal and the few other papers supporting the scheme. In Arizona their efforts were taken as amounting to something, evidently upon the old adage that "a prophet is not without honor save in his own country." The Arizona people are in earnest and the anti-joint statehood meeting to be held in Phoenix on Saturday will so prove. Out of the fifty daily and weekly papers published in Arizona there are but two who favor joint statehood. That the papers opposed to the joint statehood movement represent the vast majority of the people of this Territory cannot be doubted by well informed men. It is difficult to see how the anti-joint statehood sentiment which is now being aroused in Arizona can be quieted or put down. The newspapers are handling the question without gloves, and articles like the following from the Morenci Leader are the order of the day. Says that paper in its last issue:

"A meeting of the Territorial Republican and Democratic Central Committees and the business men of the Territory has been called to meet in Phoenix on the 27th of May for the purpose of discussing the policy of making a systematic fight against the joint statehood movement by calling a Territorial election and obtaining the voice of the people at large on this, the most important question that has ever confronted the citizens of this Territory."

"The proposed plan is a most commendable one, and we persistently urge all citizens of Graham County who can possibly attend this meeting in Phoenix on the 27th to go in order that Graham County may be among the strongest in her appeal for single statehood. The railroad companies have all reduced the fare for the round trip to one fare and one-fifth which makes the trip a most inexpensive one and within the reach of everyone."

"Without regard to party leaning, this meeting will be one in which the welfare of the Territory alone will be considered and should be well attended from every part of the Territory. Speakers from all political parties will address the meeting and resolutions will be passed which should receive the unanimous support of the entire population of the Territory."

The Atchison, Topeka & Santa Fe Railway Company has made low rates for homeseekers' excursions over its lines and into this Territory for the present summer. These excursions will be run two or three times a month from Chicago to California and intermediate points. This is all right as far as it goes, but it should be supplemented with low rates for tourists and health seekers, and tickets for these classes should be allowed the limit of at least ninety days so that they may spend months in the Territory. Were the passenger department of the Santa Fe to adopt such a plan the tourist travel to New Mexico would be greatly increased and would be profitable to all concerned, those who desire to come to New Mexico for rest, recreation, sight seeing and to improve the state of their health, the people of the Territory and the railroad company. If not, why not?

The political game is played with much greater finesse in Pennsylvania than it is in New Mexico. President Dolan of the gas corporation at Philadelphia, which is seeking to steal the city gas works, is also one of the political bosses of the Quaker City. A ballet reformer was explaining to him the workings of the newly devised voting machine and exclaiming on its great value. "Why," said the enthusiastic reformer, "this machine registers every vote cast for every candidate, adds up the figures and displays them, so that the exact result may be known within fifteen minutes after the closing of the polls." "Shucks," answered the Boss, "here in Philadelphia we know the exact result two months before the polls open!"

The position of the Albuquerque Journal in the matter of the extension of the franchise of the Water Supply Company of that town is very plain. This franchise is valuable and is becoming more so daily. It has fourteen years to run. The Journal wants it extended for twenty-one years more. The interests of the municipality are not considered by that paper. The interests of the corporation are. The position of the Journal is plain to all observing citizens. It consists in a few words of the following: "Blessed be the Water Supply Company; give it all it asks; damn the people!"

President Roosevelt has not yet removed any Federal officials in New Mexico and Arizona because they do not approve of the selfish and nefarious schemes of the Albuquerque "Non-Partisan Joint Statehood League," and what is more he will not at any time. This is the principal reason why the bombastic Albuquerque Journal is furious and frenzied and rails at the New Mexican.

The Japanese soldiers may not make a very handsome appearance on dress parade, but they do very well on the firing line. After all, the latter is what counts in war.

Members of the Albuquerque "Non-Partisan Joint Statehood League" after going out of town for a day come back to the Duke City and tell wonderful stories of the great strength and continuous growth of the joint statehood sentiment in the Territory. They are talking through their hats! And what is more they know they are. They found no joint statehood sentiment of any consequence, but, as they have vivid imaginations, they imagine they have.

Chicago is gaining prestige as a turbulent strike city and is losing prestige as a peaceable business and money center. The people of the Windy City have no one to blame but themselves for this. Were they to elect strong, competent and nifty men as city officials, the strike business would not be as profitable to the agitators, the walking delegates and the labor bosses as it is, and there would not be so much of it.

The town of Farmington, in the prosperous County of San Juan, is getting ambitious and wants to form a Ten Thousand Club, which organization is to have for its object to work steadily for the increase of the population of the town to ten thousand, and that as speedily as possible. The idea is not a bad one. The greater the ambition, the more will be attained with proper work.

The New Mexican is gratified to notice that a more patriotic and energetic civic spirit is being aroused in the Capital of the Territory. This paper will do its level best to increase it. The more civic spirit and the more local pride exist, the better for the town and every one of its vital interests, moral, business, political and social. Let the good work go on!

A clerk in the Russian ministry of war has discovered that out of the money appropriated for the building of the fortifications at Port Arthur the neat little sum of ten millions of dollars was abstracted and used for the personal benefit of high officials. Only ten million! That isn't very much to make a fuss about in Russia.

The state of New York will this year receive a revenue of \$18,000,000 from liquor licenses or a little above \$600 from each license granted by the state department of excise. On the same basis the Territory of New Mexico might collect \$125,000 annually from its saloons, in addition to the license fees they pay at present.

The government of Chile has decided to issue bonds to the amount of 100,000,000 pesos to bear interest at six per cent, and will use the proceeds to begin the building of a national system of railroads. It is evident that a rate and rebate question will never bother Chile.

Commissioner James R. Garfield states that the investigation of the Beef Trust made by him some time ago was thorough and searching. That may be, but the results were very disappointing. It is hoped that he will do better with the investigation of the Standard Oil Trust.

From Missouri comes the report that Governor Folk is casting longing eyes at the seat in the United States Senate occupied by Senator Joel V. Stone. Governor Folk may not be a politician but he seems to like the "flesh pots" of office pretty well.

Some of Mr. Bryan's admirers have made up a purse to pay him a fee to aid in the prosecution of some bootleggers in the city of Syracuse, in the State of New York. These misguided people believe Mr. Bryan is a great lawyer.

The county commissioners should bear in mind that this city and county stand greatly in need of a new and well built jail. They should take this fact into consideration in making the tax levy for the present year.

A blacksmith in Reading, Pennsylvania, has become a minister and accepted a call to the pulpit. He can be depended upon to hammer his particular brand of theology into his congregation. He is used to the hammer.

The foreign minister of Russia is wrathful because, as he asserts, Japan is about to kidnap the Emperor of Korea and establish an absolute protectorate over the latter country. Sour grapes!

The gum shoe statesmen of the Albuquerque "Non-Partisan Joint Statehood League," through their organ, the Albuquerque Journal, are whistling a brand of theology into his congregation. But that is all it amounts to.

St. Petersburg papers declare that Russia would not object to a war with England. This view is very likely based upon the idea that Russia had as well be licked by two as by one.

Secretary of the Treasury Leslie M. Shaw has commenced his campaign for the presidential nomination in 1908. He is addressing Sunday school picnics in various sections of the west.

Every man makes mistakes, but the difference between a successful man and the man who is a failure is that the successful man does not make the same mistake twice.

The knockers and obstructionists in Santa Fe must be put to the rear.

M. U. McClelland, Esq., Merchant, Gravel-ridge, Ark., writes: "My wife (Mrs. L. L. McClelland), was confined to room and bed for some time with indigestion and female trouble. Was unable at times to walk across the room. We tried two or three good doctors as I thought could be found in our part of the country. Neither of them did her any good. Afterward she decided to write to Dr. Pierce for advice. I thought it not wise as I was sure she would be buried before she could receive an answer, but she commenced on your remedies and I could see that she was some better by the time she had taken the third bottle. We continued the use of the medicine quite a while and now she does all the housework, and stood the examination for life insurance all O. K. Any one who so wishes may write to me at my place of abode."

Doctor Pierce's Favorite Prescription restores weak and sick women to sound health, by curing the local womanly diseases which are generally responsible for the failure of the general health. A woman's entire being is centered in her womanly nature. When the delicate womanly organism is attacked by disease; when there is irregularity or a disagreeable drain; when inflammation burns and ulcers gnaw the general health will reflect the progress of disease, in increasing weakness, nervousness, backache, headache, loss of appetite and sleeplessness.

So sure it is the World's Dispensary Medical Association, of Buffalo, N. Y., proprietors of Dr. Pierce's Favorite Prescription, that they offer \$500 reward for women who cannot be cured of Leucorrhea, Female weakness, Prolapsus, or Falling of Womb. All they ask is a fair and reasonable trial of their means of cure.

Dr. Pierce's Pleasant Pellets regulate the stomach, liver and bowels.

## WHY SUFFER FROM RHEUMATISM?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists.

While a bilious attack is decidedly unpleasant it is quickly over when Chamberlain's Stomach and Liver Tablets are used. For sale by all druggists.

**CURED CONSUMPTION.**  
Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. There was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1 at Fischer Drug Co.

**THE BEST COUGH SYRUP.**  
S. L. Apple, ex-Probate Judge, Ottawa Co., Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c, \$1.00, at Fischer Drug Co. pany.

**HOW TO WARD OFF OLD AGE.**  
The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these tablets to be just what you need. For sale by all druggists.

**GIVES HEALTH, VIGOR AND TONE.**  
Herbina is a boon for sufferers from anemia. By its use the blood is quickly registered and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbina. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50c at Fischer Drug Co.

## CHAMBERLAIN'S COUGH REMEDY THE VERY BEST.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harian, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by all druggists.

**INVALUABLE FOR RHEUMATISM.**  
I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Dogan, Kinsman, Ill. 25c, 50c and \$1.00 at Fischer Drug Co.

**The Oxford Club**

We keep the best brands of wines, liquors and cigars that can be obtained and sell at a reasonable prices.

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of

these waters has been thoroughly tested by the miraculous cures attested in the following diseases: Paralysis Rheumatism, Neuralgia, Consumption Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. Board, lodging and bathing \$2.50 per day; \$1.00 per week; \$5.00 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

### DISEASES OF POULTRY.

Press Bulletin No. 104 Issued by New Mexico Agricultural Experiment Station at Mesilla Park.

The poultry industry of New Mexico is practically undeveloped. We fall far short of supplying the consumption, and yet the conditions are favorable for a much greater production. No doubt, with the development of the industry, difficulties will be met. Diseases and insect pests are chief among the difficulties met in other sections of the country, and, therefore, one would naturally expect such to be the case in New Mexico. It is singularly true, however, that poultry diseases and insect pests have not assumed serious proportions in New Mexico in the past. There is probably no section of the country where, to the excellent climatic conditions, so much of success in an industry may be attributed. Much sunshine and a dry atmosphere act much as an antiseptic would, and assist materially in preventing the spread of disease.

With a large increase in the number of fowls the difficulties may naturally be expected to multiply, and, therefore, the poultryman must be prepared to successfully meet them, ever keeping in mind the old adage that an ounce of prevention is worth a pound of cure.

In order to assist poultry growers, the cause, symptoms, and treatment of some of the most common poultry troubles are given briefly below.

Roup.—This is one of the most common diseases in poultry. It is caused by a bacillus. The disease germs are most likely to attack fowls that are housed in quarters where there is filth, foul air, and cold drafts. It manifests itself by hoarse breathing, swelling about the eyes, and discharge at the nostrils which dries and clogs the air passages so that the fowl must open the beak in order to breathe. Slaughter and burying deeply is the best treatment, to be followed by thoroughly disinfecting the quarters and the feeding and drinking troughs so as to destroy any germs that may remain.

If the fowls are worth the trouble, the following treatment, when adopted in the earlier stages, will usually prove effectual: Dissolve two ounces of permanganate of potash in six and one-half pints of water. Completely submerge the fowl's head in this solution, and hold it there as long as the bird can endure it without choking to death. This will cause it to sneeze, thus forcing the solution through the nostrils when it comes in contact with the diseased parts. Repeat two or three times morning and evening. Next dilute the same solution with four times as much water and give the fowls to drink. Do not mistake a cold for roup.

Cholera.—Caused by a bacteria germ. The disease is taken into the system through the mouth. The symptoms are drooping of the wings, stupor, lessened appetite and excessive thirst. There is no positive cure for this disease.

The treatment consists of killing and burying deeply all sick fowls. The rest of the fowls should be transferred to new quarters, while the old quarters are being disinfected so as to prevent the spread of the germs. Preventive measures consist in keeping the quarters and the drinking fountains clean. Disinfect occasionally.

Gapes.—Caused by trematode worms in the windpipe. Occurring usually in young chickens. These worms are from 1-5 to 1-2 inch long, reddish color, and found attached to the windpipe. The number of worms may be increased until the fowl is completely choked. These worms are frequently removed by means of a wire or horse hair doubled so as to form a loop which is inserted into the windpipe and turned until the worms are all removed. A simple method is to dip a feather in turpentine or kerosene, thrust it into the windpipe and turn until the worms are removed. May be expected in the northern half of New Mexico, or where there is considerable moisture. Preventative measures better than after treatment.

Mites.—The adult insect is of light gray color, but red when filled with blood. Seldom to be found on the chickens during the day time. They hide in the cracks and crevices of the buildings. The treatment consists of spraying with two or three per cent. solution of carbolic acid or other equally destructive agent. If possible remove the chickens to new quarters for a time. Spray three times every third day until the mites are all destroyed.

Scaly-legs.—This trouble is caused by a mite which burrows underneath the scales of the feet and legs causing an irritation which results in a multiplication of the cells of the epidermis, and, therefore, a much thickened scale. To successfully treat this disease the scales must first be removed so that the medicine can come in contact with the mites. The legs must be soaked with soapy water until the scales are soft when they may be removed. Dry thoroughly and treat with the following: Balsam of Peru, two drachms to one ounce of vaseline. Mix thoroughly. The disease readily yields to treatment if the first step, that of removing the scales, has been properly done.

Lice.—The most serious among the poultry lice is the gray louse which attacks young chicks. The lice confine themselves to the head and under the wings and if these parts are greased with clean lard or better, carbolated vaseline, as soon as dry after hatching, the lives of many may be saved.

## MALARIA IN THE SYSTEM

Holly Springs, Miss., March 24, 1903. While building railroads in Tennessee some twelve years ago a number of hands contracted fever and various forms of blood and skin diseases. I carried S. S. S. in my commissary and gave it to my hands with most gratifying results. I can recommend S. S. S. as the finest preparation for Malaria, chills and fever, as well as all blood and skin diseases. W. I. McGOWAN

I suffered greatly from Boils, which would break out on different parts of my body. I saw S. S. S. advertised and after using about three bottles I was cured, and for the last three years have had no trouble whatever. A. W. ZEBER.  
217 Read St., Evansville, Ind.

I began using your S. S. S. probably ten years ago for Malaria and blood troubles, and it proved so good that I have continued ever since using it as a family remedy. It is a pleasure for me to recommend S. S. S. for the benefit of others who are needing a first rate blood purifier, tonic and cure for Malaria.  
Arkansas City, Ark. C. C. HEMINGWAY.

Boils, abscesses, sores, dark or yellow blotches and debility are some of the symptoms of this miserable disease. S. S. S. counteracts and removes from the blood all impurities and poisons and builds up the entire system. It is guaranteed a purely vegetable remedy. Write for medical advice or any special information about case.  
The Swift Specific Company, Atlanta, Ga.

If left until the lice have made the attack it is usually too late.

Coruco.—The coruco is related to and looks very much like the bed bug, but it has not the disagreeable odor of that insect. It infests chicken houses in southern New Mexico, and may invade dwellings which are located near infested places. It sometimes goes by the name of "adobe-bug." This name is probably applied for the reason that these bugs are very likely to infest hen houses made of adobe. Such houses afford in the cracks and crevices most excellent hiding and breeding places and it is very hard to rid such a structure of the pest. In fact, it is practically impossible to rid ordinary adobe chicken houses of coruco if the chickens remain in them. If an adobe house is used it should be plastered within and without, above and below, giving it a hard, smooth surface that will afford no hiding places for the insects. The insects may be killed by fumigating with sulphur if the house is sufficiently tight or they may be killed by an application of oil, or any sufficiently caustic substance, to their bodies. Perfectly smooth walls, cleanliness, and plenty of carbolated whitewash will keep the coruco in check. This is equally true of most insect pests. J. J. VERNON.  
May 23, 1905.

### SPRING RACE MEET.

Albuquerque and Las Vegas. For these meetings the Santa Fe will sell tickets to Albuquerque and Las Vegas at one fare for the round trip. Dates of sale to Albuquerque, May 26th to 31st inclusive, return limit, June 1st. Dates of sale to Las Vegas, June 4th to 7th inclusive, return limit June 8th.

## Chamberlain's Cough Remedy

A Safe Medicine for Children.

In buying a cough medicine for children never be afraid to buy CHAMBERLAIN'S COUGH REMEDY. There is no danger from it, and relief is always sure to follow. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine in the world for these diseases. It is not only a certain cure for croup, but, when given as soon as the croupy cough appears, will prevent the attack. Whooping cough is not dangerous when this remedy is given as directed. It contains no opium or other harmful drugs, and may be given as confidently to a baby as to an adult.

## PERSONAL MENTION

Mrs. A. L. Smith, representing a ladies' tailoring house of Denver, was in Santa Fe this morning on business.

Mrs. R. Hust, of Albuquerque, wife of Dr. Hust of that town, left today for Peoria, Illinois, on a visit to relatives.

Charles Closson left the city this morning, via the overland route for Albuquerque, where he will attend the races.

Filadelfo Baca, of Las Vegas, representing a wholesale grocery house, was today quoting prices to the grocers of Santa Fe.

E. L. Wildy, representing a Los Angeles wholesale grocery house, called this morning on his trade in the Capital City.

C. F. Graff, traveling salesman for a Denver stationery house, called this morning on his customers in the Capital City.

G. P. Hankins, of New York, called today on the merchants of Santa Fe. Mr. Hankins carries a line of gents' furnishing goods.

C. P. Frankenburg, representing the C. L. Pollard Mercantile Company of Espanola, was a business visitor in the Capital City today.

B. B. Page, of Pueblo, talked "sweets" to the merchants of Santa Fe this morning in the interests of a wholesale candy house.

W. A. Williams, manager of the Valley Ranch Mountain Resort on the Upper Pecos, was a business visitor in the Capital City today.

W. A. Pless, special examiner of the United States Pension office returned last night from Las Vegas, where he has been on official business.

J. R. Edgehill passed through Santa Fe today en route from Salt Lake City to the Estancia Valley, where he will investigate climatic and agricultural conditions.

Frank Dibert, assistant treasurer of the Santa Fe Central Railway, returned yesterday from a trip over the line. He made the employees happy by giving them their pay checks for April.

Al Royce, manager for the W. A. McKenzie Hardware store, has accepted a position with the Titch Wholesale Hardware Company at Denver, and will leave for that city tomorrow.

George Saxon, extra engineer on the Denver & Rio Grande, arrived in the city yesterday from Chama and will be in charge of the engine on the stock train which left here this afternoon.

W. L. Chamberlain returned yesterday afternoon from points along the Denver & Rio Grande Railway, where he had been on business as special examiner for the United States pension office.

R. I. Meeker, engineer of the United States Geological survey, who was here several weeks ago, arrived from Denver last night. Mr. Meeker is investigating the artesian belts and looking for suitable locations for storage reservoirs.

L. M. Williams, roadmaster of the Santa Fe Central Railway, was in the city this morning on railroad business. Mr. Williams says that everything along the road is in good condition and that all the places damaged by the water are repaired.

Albert Abbott returned yesterday from Mesilla Park, where he has been attending college. Mr. Abbott has finished a two years' course in stenography and will take a position in the office of his father, Judge A. J. Abbott.

J. F. Reinhardt, who was formerly a clerk in the dry goods store of J. H. Gerdes, in this city, has returned to resume his old position. Mr. Reinhardt, after leaving the Capital City, was employed with the Dunlavy Mercantile Company at Kennedy. His wife is with him.

I. Keller Kirn, of Lancaster, Ohio, who is touring the southwest, is in the city and will remain several days sight-seeing and taking a rest. He was here two years ago and was so well pleased with his stay then that he is back for another sojourn in the Capital City of New Mexico.

Cristoval Sanchez, of Ocate, arrived in the city last evening en route to his Mora County home from Taos, where he has been in attendance at the funeral of his late uncle, Major Pedro Sanchez, which took place there Monday. He will remain here for a day or two visiting relatives and friends.

W. H. Wise, ranchman from Tesuque, and wife, were in the city today purchasing supplies. Mr. Wise says that he has never seen prospects for a prosperous year so bright as they are this year. Plenty of water and good growing weather are the immediate causes for this change from last year.

District Court Clerk A. M. Bergere left yesterday via the Santa Fe Central for Roswell. This morning at 8

o'clock he left for Torrance in an automobile and reached Roswell at 1 o'clock this afternoon. Pretty good time for one hundred and seventeen miles overland. While in the capital of Chaves County he will attend to private business.

W. C. McDonald, of Carrizozo, manager of the Carrizozo Cattle Company and a member of the Territorial Cattle Sanitary Board, was in the city this morning, en route to his home from Las Vegas, where he has been partly on private business and partly on business connected with the board of which he is a member. Mr. McDonald thinks that this year will go far toward making up to the stock growers of the Territory the losses they have sustained during the past two years. One bad year, however, has its effect for a long time and it usually takes at least three years before the stock interests fully recover. Mr. McDonald left this afternoon over the Santa Fe Central and the Rock Island for his home.

Attorney A. B. Renahan has returned from Taos, where he spent ten days in attendance on the district court and also looked after testimony in the partition suit of the Ranchos del Rio Grande land grant in that county. This grant is located about ten miles southeast of Taos and contains ninety-one thousand acres. It was made in 1752 while New Mexico was under Spanish dominion, and is valuable for spruce and pine timber. There are numerous heirs and before the partition suit will be finished their number will amount to five or six hundred. The grant was made originally to ten grantees whose heirs and assigns have increased in great numbers. Among the present claimants are the estate of Aaron Gold, Alexander Gustoff, of Taos; T. B. Catron, of this city, and N. B. Laughlin, of this city. Judge Laughlin is still in Taos taking testimony before Francisco Delgado, of this city, who is the referee.

## FRUIT CROP TO BE GRAND.

In the Santa Fe Valley—Blossoms and Buds Must be Thinned—Spraying for Codlin Moth.

J. F. Wielandy, the noted horticulturist and orchardist, who has one of the finest orchards in the Territory which is located on the South side and within the limits of the City of Santa Fe, writes the New Mexican concerning the present state of the fruit crop of this valley, as follows: "Some of the trees this year are loaded beyond anything I ever saw in Europe or the United States. If three-fourths of the fruit or more was not pulled off while small, the entire crop would remain small and inferior. Every kind and sort of fruit, peaches, apples, pears, cherries, plums and even the quinces will require thinning. Another work which requires attention just now is the control of the "Codlin Moth", which infests the apples and must be sprayed at this very time, otherwise most of the fruit will be wormy. This labor is rendered difficult by the constant winds which in our climate remind a reader of Shakespeare of his "Still vexed Bermuthas". But an experiment in which I am now engaged, which if not actually invented is greatly promoted by the Agricultural Department at Washington, is the "Soil Germ Fertilizing Theory", through the agency of artificially bred bacteria associated with leguminous crops. This, in my opinion, if it proves successful, which it seems likely to do will be the greatest agricultural discovery made since the world exists. By its aid our worn out lands around Santa Fe can be made as productive as the richest virgin soil at a nominal cost, not exceeding a dollar or two per acre. I have procured some of the "inoculating bacteria" and am now experimenting with them.

## How's This?

We Offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by this firm.

P. O. BOX 146

## IRELAND'S ICE CREAM SODA

Has Never Been Equalled in New Mexico---and Never Excelled in America.

COME TRY IT!

## IRELAND'S PHARMACY

## MINOR CITY TOPICS

A. C. Ireland has received the new mirror for his tobacco cabinet, to take the place of the first one which was not perfect.

Train No. 10 from the south and No. 2 from the west, on the Santa Fe arrived on time today. The Santa Fe Central was an hour late.

Santa Fe Lodge No. 2, I. O. O. F., will hold its regular weekly meeting this evening at Odd Fellows' Hall on San Francisco Street.

Ireland's new soda fountain is now open for business and his ice cream soda is unexcelled. See the new sanitary fountain and then try the product thereof.

The commencement exercises of the Santa Fe high school will be held this evening at the opera house, at which time the class of 1905, comprising four members, will receive diplomas.

Santa Fe was visited by a hail storm this morning, which, while it did not last long enough to do any material damage to fruit, brought down hail stones as large as the apples at this time on the trees in this section.

There will be a special communication of Montezuma Lodge No. 1, A. F. & A. Masons, tomorrow (Saturday) evening, at 7:30 o'clock. There will be work in the E. A. degree. Thereafter a lodge of instruction in the Third degree will be held.

Guadalupe Church is receiving needed repairs. The steeple was beginning to fall away and workmen are repairing and covering it with shingles. The interior will also be brightened and many improvements will be made in the grounds surrounding the edifice.

The pupils of the high school this afternoon at 2 o'clock presented Professor Twining with a handsome wicker divan as a token of their appreciation of his efforts and kindnesses to them during the past school year. The presentation speech was nicely delivered by Gordon Goebel.

The First National Bank of Albuquerque has an advertisement in this issue of the New Mexican. This institution is one of the strongest of the banking concerns in the Territory and one of the few which pays interest on deposits. It invites correspondence from prospective customers.

The authorities at the penitentiary are now getting out considerable brick and it is being hauled to the new High School building. Work will be resumed on the building as soon as a sufficient number of bricks are delivered so that the work can proceed without a further stop for want of material.

New sidewalks around the property of the city board of education on the Fort Marcy addition are imperative. The old board walks on Palace Avenue are in the worst possible condition and are extremely dangerous to pedestrians, especially at night. There are numerous holes more than large enough for a person to fall into.

On Tuesday next several Masons of this city will leave for Albuquerque, where on Wednesday they will join the Ballut Abayad Temple of the Nobles of the Mystic Shrine. Among those who will have the degree conferred upon them will be A. F. Spiegelberg, S. Spitz, W. E. Griffin, G. B. Haggett, all of this city, and C. L. Pollard of Espanola.

All those little odds and ends which naturally accumulate around the house and which are of practically no value to the housewife will be just the articles to help make the Woman's Board of Trade rummage sale at the festival a success. Gather them together and leave them with the librarian at the library rooms. They will be much appreciated by the ladies of the board.

This morning, about 10 o'clock, the horse which is used by H. S. Kaune on his delivery wagon, while coming up Dun Gaspar Avenue, became frightened at a push cart and made out as if to run away. A quick turn was sufficient to unseat the driver and the animal ran to the store where he stopped as quietly as if driven there. No damage resulted from the little spurt, and Mr. Kaune said that it was the first time he had known the horse to "get a move on."

Seventeen car loads of cattle came in this morning from Torrance over the Santa Fe Central. They left Torrance at 10:30 o'clock last night and arrived here at 5:40 this morning, making the run of 116 miles in the remarkably good time of seven hours.

## SCRATCHED DAY AND NIGHT

**Lady Suffered Tortures with Itching Scalp Humor—One Box of Cuticura Ointment and One Cake of Cuticura Soap Cured Her.**

### WILL NEVER BE WITHOUT CUTICURA

"My scalp was covered with little pimples and I suffered tortures from the itching. I was scratching all day and night, and I could get no rest. I washed my head with hot water and Cuticura Soap and then applied the Cuticura Ointment as a dressing. One box of Cuticura Ointment and one cake of Cuticura Soap cured me. Now my head is entirely clear and my hair is growing splendidly. I have used Cuticura Soap ever since, and shall never be without it. (signed) Ada C. Smith, 309 Grand St., Jersey City, N. J."

### CUTICURA GROWS HAIR

**Crusted Scalps Cleansed and Purified by Cuticura Soap**

Assisted by light dressings of Cuticura, the great skin cure. This treatment at once stops falling hair, removes crusts, scales, and dandruff, destroys hair parasites, soothes irritated, itching surfaces, stimulates the hair follicles, loosens the scalp skin, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Complete external and internal treatment for every humor, from pimples to scrofula, from infancy to age, consisting of Cuticura Soap, Ointment, and Pills, may now be had of all druggists for one dollar. A single set is often sufficient to cure the most distressing cases.

Cuticura Resolvent, liquid and in the form of Chocolate Coated Pills, Cuticura Ointment, and Cuticura Soap are sold throughout the world. Foster Drug & Chem. Corp., 137 Columbus Ave., Boston, Sole Proprietors.

Send for "How to Cure Every Humor," and "How to Have Beautiful Hair."

and ten minutes. The cattle came through in fine condition and the stockmen who accompanied the train are very profuse in their praise of the trainmen and officials for the excellent way in which the train was handled and the care taken to see that there was no delay. The cattle were shipped by the Torrance Cattle Company from Columbus, Luna County, thirteen cars consigned to Rifle and four cars to Buena Vista, Colorado. Today the cattle were branded and fed and in the morning will be transferred to the Denver & Rio Grande Railroad and taken north.

The forecast for both New Mexico and Colorado for tonight and tomorrow is the same. Partly cloudy weather with local thunder storms and cooler weather is promised. The maximum temperature at Santa Fe yesterday was 70 degrees at 5 o'clock in the afternoon and the minimum was 41 at 5 o'clock in the morning. The mean for the day was 56 and the relative humidity was 28 per cent. There was a trace of precipitation. The temperature at 6 o'clock this morning was 56 degrees.

The base ball team of St. Michael's College defeated the team from the United States Indian Training school, on the latter's field yesterday by the close score of 8 to 7. The game was hotly contested and would have been a defeat for the College boys had it not been for a batting rally in the ninth inning when they succeeded in putting four runs across the rubber. Another game between these two teams will be played on the College field tomorrow and on Sunday the College boys will meet the strong Mechanics team.

There are a great number of beautiful drives in the vicinity of Santa Fe giving magnificent scenic views, and were the roads improved these would prove of incalculable aid in attracting tourists and summer visitors to the Capital City. The Good Roads Club has been organized with this purpose in view and it is entitled to hearty cooperation from every citizen in the city. A meeting will be held at the Water Company's office on Sunday morning and it ought to be largely attended. All those who have the best interest of the city at heart will be there.

Japan has very few millionaires and practically no multi-millionaires.

## OFFICIAL MATTERS.

### LAND OFFICE BUSINESS.

#### Homestead Entries.

The following homestead entries have been made in the local United States land office:

No. 8316, May 19. Jose Mariano Muniz, Puerto de Luna; lots 1, 2, and 3, section 1, T. 5 N., R. 24 E., 119.53 acres in Guadalupe County.

No. 8317, May 19. Conrado B. Sandoval, Puerto de Luna; SE 1-4 NW 1-4, S 1-2 NE 1-4, section 1, T. 5 N., R. 24 E., 120 acres in Guadalupe County.

No. 8318, May 19. Luis Martinez, Manzano; SE 1-4, section 24, T. 5 N., R. 7 E., 160 acres in Torrance County.

No. 8319, May 19. Mateo Martinez, Manzano; SE 1-4 SW 1-4, section 24; NE 1-4 NW 1-4, N 1-2 NE 1-4, section 25, T. 5 N., R. 7 E., 160 acres in Torrance County.

No. 8320, May 19. Jacobo Baca y Torres, Punta; SW 1-4 NW 1-4, NW 1-4 SW 1-4, section 26; SE 1-4 NE 1-4, NE 1-4 SE 1-4, section 27, T. 5 N., R. 7 E., 160 acres in Torrance County.

#### WARM WEATHER HELPS.

Get Rid of Your Catarrh By Using Hyomel Now.

Everyone who has catarrh should take advantage of the warm weather to get rid of this annoying and distressing disease. The right treatment, faithfully followed, in May or June, will benefit much more quickly than in the winter and early spring.

Do not try to cure catarrh of the head and throat by taking drugs into the stomach. It cannot be cured in that manner. The only way in which this too common disease can be cured is through a direct application that will kill the germs of catarrh and prevent their growth.

Hyomel is the only known method of treatment that accomplishes this. It is the simplest, most pleasant, and the only absolute cure for catarrh that has ever been discovered.

When using Hyomel every particle of air that enters the air passage of the throat and head goes into the lungs, is charged with healing balsams that kill the catarrhal germs and soothes and allays all irritation.

The first day's use of Hyomel will show a decided improvement, and in a short time, especially if used at this season of the year, there will be no further trouble from catarrh.

You take no risk in buying Hyomel. The complete outfit costs but one dollar, and if after using you can say that the treatment has not helped you, A. C. Ireland will return your money.

#### POPULAR GAMES

Of all kinds at "The Club," where you will always be treated fairly. Best brands of cigars and refreshments served at the gaming tables.

## We Will

Have on display next week a car load of Furniture at our ware room, on the second floor, a new line of goods from Eastern manufacturers that will interest you, both as to quality and

price. Our stock of Chairs will be unusually attractive. Come early and select something new and serviceable for your home. We will be pleased to show you our line of goods.

Take a look at our line of REFRIGERATORS. We have both the enamel and zinc lined boxes, and our prices are right.

We are well stocked in all departments and we have prices that

will move the goods. Don't miss this opportunity.

In our next change of ad we will advertise our new Rotary Washer. Child's play to do washing with this machine.

### SILVER CITY NORMAL SCHOOL.

Commencement Exercises Will Be Held During the First Week in June—A Good Program.

The first week of the coming month will mark the close of another successful year for the Silver City Normal School. The students who will take part in the commencement exercises have been practicing and rehearsing for several weeks. The program for the week is as follows:

June 2, Friday, Normal Hall. Annual Society Contest.  
June 4, Sunday, Normal Hall. Baccalaureate address by Rev. H. W. Ruffner, of Silver City.  
June 5, Monday, Morrill Opera House. Senior Play, "She Stoops to Conquer."  
June 6, Tuesday, Normal Hall. Graduating Exercises of the Commercial Class.  
June 7, Wednesday, Normal Buildings. Public Reception.  
June 8 Thursday Morning, Normal Hall. Graduating Exercises of the Academic and Professional Classes.  
June 8, Thursday Afternoon. Alumni Anniversaries.  
The exercises will undoubtedly prove very interesting and will be largely attended. The school is steadily increasing in efficiency and importance each year.

Gallup Public School Commencement. The commencement exercises of the public school of Gallup will be held in that city on June 2d. The following six pupils will complete the course this year and receive their diplomas: Elsie Pinney, Antonia Kraker, Alexander McVicker, Steven Canavan, Frank Canavan and Dominick Rolle.

Agricultural College Exercises. Commencing Monday, May 29th, the New Mexico College of Agriculture and Mechanic Arts will hold its annual commencement. A good program has been arranged for the three days, the Commencement ball on Wednesday night closing the exercises. The graduating class this year numbers six, as follows: Benjamin Nabours, Rafael Ramirez, Reginald H. Hart, May Harney, Harry Shutz and Thomas Greene.

The program is as follows: On Sunday morning at 11 o'clock the baccalaureate sermon will be delivered by Rev. G. W. Dunlap, of Las Cruces; on Monday evening at 8 o'clock there will be a presentation of "Pinafore" by the musical departments and the Dramatic Club of the College; on Tuesday morning at 9 o'clock the Board of Regents will hold its regular meeting to elect the teachers for the coming year; from 10 to 12 o'clock will be the inspection of the buildings and grounds by guests; at 8 o'clock in the evening the senior class will hold its class day exercises; at 10:30 on Wednesday morning will occur the Commencement exercises and the presentation of diplomas; at 2 o'clock the alumni banquet and meeting will be held, and at 9 o'clock in the evening the Commencement ball will be given.

### CAVE OF PREHISTORIC TIMES.

Flint and Stone Implements and Bones Found in Natal.

A cave 120 feet long by 20 feet wide, which has been discovered in Alfred county, Natal, has been carefully excavated and a report made by William Bazley, in Man for January. After digging through several layers of soft soil a stratum of hard material was struck, in which were found many flint cores, flakes and other stone implements, with grinding stones and hammers. Below this, large slabs of stone were found, one of them being 16 feet long and 9 feet wide. On removing these slabs three skeletons were discovered lying side by side, all crushed flat. The height of the skeletons was 4 feet 7 inches, 4 feet 3 inches and 2 feet 11 inches respectively. The shorter one lay between the other two and is presumably that of a child. The bones crumbled to dust on being touched. The level on which these were found was 16 feet below the floor of the cave, and here were found "thousands of scrapers of all sizes, some not larger than a finger nail, also cores, chips and flakes by the carload, and a few arrowheads and knives, mostly broken."

**NOTICE TO THE STOCKHOLDERS OF THE SOUTHERN PACIFIC RAILROAD COMPANY**—A special meeting of the stockholders of the Southern Pacific Railroad Company, will be held at the office of the company, in room 1210, in the Merchants' Exchange building, in the city and county of San Francisco, in the State of California, the same being the principal place of business of said corporation, and being the building where the board of directors of said corporation usually meet, on the 30th day of June, 1905, at the hour of 12 o'clock noon, to consider and act upon the propositions:

First, to increase the capital stock of said corporation to one hundred and sixty million dollars (\$160,000,000), and for that purpose to amend article VI of the articles of incorporation and consolidation of the company to read as follows:

"The amount of the capital stock of said corporation shall be one hundred and sixty million dollars (\$160,000,000), divided into one million six hundred thousand (1,600,000) shares of the par value of one hundred dollars (\$100), each, which said amount of capital stock does not exceed the amount actually required for the purposes of the said corporation, and is the amount actually required and ascertained to be necessary for constructing, completing, equipping, operating and maintaining its road, and is so estimated by competent engineers, duly signed by them, and filed in the office and principal place of business aforesaid of said corporation."

And to amend paragraph third of article XII of the said articles to read as follows:

"The number of directors of said consolidated corporation shall be eleven (11) and the amount of the capital stock of said corporation shall be one hundred and sixty million dollars (\$160,000,000), which said amount of capital stock is the amount actually required for the purpose of said corporation, and is the amount actually required and ascertained to be necessary for constructing, completing, equipping, operating and maintaining its road, and is so estimated by competent engineers, duly signed by them and on file as aforesaid. Said capital stock of said corporation shall be divided into one million six hundred thousand (1,600,000) shares, of the par value of one hundred dollars (\$100) each, of which said shares of said capital stock the following have been subscribed by and allotted to the stockholders of said constituent corporations, as hereinafter set forth, to wit:

"To the Southern Pacific Railroad Company, incorporated, organized and existing under the laws of the State of California, and to its stockholders, one million and fourteen thousand two hundred and forty-one and sixty one-hundredths (1,014,241.60-100) shares."

"To the Southern Pacific Railroad Company, incorporated, organized and existing under the laws of the Territory of Arizona, and to its stockholders, one hundred and ninety-nine thousand nine hundred and fifty (199,950) shares."

"To the Southern Pacific Railroad Company of New Mexico, incorporated, organized and existing under the laws of the Territory of New Mexico, and to its stockholders, sixty-eight thousand eight hundred and eighty-eight (68,888) shares."

"The several stockholders of each of said constituent corporations shall have issued to them by the said consolidated corporation paid up shares of the capital stock of the consolidated corporation out of the shares thereof subscribed by and allotted to the stockholders of their respective constituent corporations to the like amount, dollar for dollar, at their par value with the par value of the shares held by such stockholders in their respective constituent corporations."

Thereafter, and secondly, to create a bonded indebtedness of said corporation to the amount in the aggregate of one hundred and sixty million dollars (\$160,000,000) in gold coin of the United States (a portion of which is to be used in retiring existing bonded indebtedness), and to increase the bonded indebtedness of said corporation up to the amount of the aggregate of one hundred and sixty million dollars (\$160,000,000) in gold coin of the United States, and to secure the said proposed bonded indebtedness by a mortgage upon the railroads and railroad lines of said company and certain other properties belonging to the company, to be prescribed in the mortgage; and to determine the form and terms of said bonds and mortgage; and to authorize the board of directors to

take all such action as they may deem necessary or expedient in the premises.

Dated the 30th day of April, 1905.  
By order of the Board of Directors,  
J. L. WILLCUTT,  
Secretary of the Southern Pacific Railroad Company.

### GIVE DOGS AN AIRING.

**New Way of Making Livelihood in New York.**

The "professional" dog walker, with a badge, is very much in evidence on the fashionable thoroughfares these fine spring days. If anybody stops him and asks him about the animal he is temporarily associated with he answers civilly. The other day a man crossing Madison Square saw another man in tow of his fine collie.

"See here," he exclaimed, "where did you get that dog?"

The man showed his badge and said he was taking the dog out for an airing from a certain house and was getting 30 cents an hour for doing it. An additional 10 cents each hour that the woman who sent him out with the dog would have to pay went to the agency that employed him.

The various women's exchanges report a good demand for these dog walkers. Women who own little too-woolies that have been more or less cooped up all winter send them out for a daily airing as soon as the fine weather comes. Of course, they wouldn't trust their doggies to any man who came along looking for a job, but the dog walkers they can get by going to the telephone and notifying an agency are reliable. So far as is known women have not yet invaded this "profession."—New York Press.

### AMBITION OF A PRINCESS.

**Woman High in Station Acknowledges Fondness for Reporting.**

Princess Charles of Denmark was recently seen at a railway terminus bidding adieu to a distinguished guest. Looking around with a bored expression, she saw a newspaper reporter scribbling away for dear life in his notebook. She, too, drew a tiny notebook from her pocket, wrote a message upon a leaf and folded it into a tiny pellet. The reporter watched every motion with glistering eyes. Some important bit of news, he was sure, was about to be given him. Sure enough, the princess threw the pellet of paper directly at him, with an unusually good aim for a woman, and immediately turned the other way, absorbed in her hospitable task. The reporter straightened out the crumpled leaf. On it were these words: "I wish I were a reporter."

### A PLEASANT EVENING

Can be spent at "The Club" with gentlemen associates. Courteous treatment is accorded to all whether you spend a cent or not. The best brands of cigars and refreshments always on hand.

### DID YOU EVER WONDER—

Why firemen are classed as hose supporters?

Why a home for old people isn't called an orphan asylum?

Why it is that you seldom see an old maid with auburn hair?

Why it is consoling to a widow to know that history repeats itself?

Why so many people question your answers when you answer their questions?

Why it is that all of the political rogues are to be found in the other party?

Why good-natured criticism is the only kind a man ever dishes out to himself?

Why a man loses interest in a subject the minute his argument is exhausted?

Why the man who runs the corner grocery declines to credit your good intentions?

Why it is impossible for any barber to work on any man's face without working his own?

Why the average man thinks it necessary to show his wife more courtesies abroad than at home?

Why it is impossible for a girl to write an affectionate love letter and chew gum at the same time?

Why love is said to be blind when a girl in love can see ten times more in the object of her affections than others can?

Why a woman should have two ears and but one tongue when everybody knows that she would rather talk five hours than listen five minutes?

Justice of the Peace Dockets for sale by the New Mexican Printing Company.

# WANTS

For sale, cheap, a second-hand bicycle; inquire at the New Mexican office.

**FOR SALE CHEAP**—Several pairs of chases, 6, 7 and 8 columns, with metal side and end sticks, complete, at New Mexican office, Santa Fe, N. M.

Keep your business ever before the public by advertising in your home paper.

### LEARN TO SAY NO.

When people ask you to eat elsewhere than the Bon Ton, always say "no," for that is the best short order house in the city. Also regular meals may be had, either in the public or private dining rooms.

### JUSTICE OF THE PEACE DOCKETS.

The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides; have a full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10-1x16 inches. These books are made up in civil and criminal dockets, separate, of 320 pages each or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices:  
Civil or criminal... \$4.00  
Combination civil and criminal \$5.00  
For 45 cents additional for a single docket or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted. Address, NEW MEXICAN PRINTING CO.

**DAVID HARUM SAID:**  
"Interest's one o' them things that keeps right on nights and Sundays." The same may be said of the Bon Ton for it keeps open nights and Sundays the same as every day in the week and you can always get the very best of the market affords, and at a very reasonable price. Try the Bon Ton for a good meal or short order.

**BREAKWATER IS INSPECTED.**

And Found to Be Thoroughly Constructed—Recommendations for Its Acceptance Will Be Made.

Yesterday afternoon Mayor A. R. Gibson, accompanied by Councilmen Kaune, Lopez and Walker, inspected the breakwater recently constructed on the north side of the Santa Fe River from Delgado Street to Don Gaspar Avenue, giving it a thorough examination as regards details of construction and its solidity. The result of the committee's inspection will be a recommendation to the council to accept the structure, with a few slight alterations. In two or three places the dike is not quite five feet high and this will be remedied by the contractor. At the Don Gaspar Avenue bridge, where a slight turn is made in the breakwater, the committee thought that there was not enough large rock on the top. This will be attended to and the construction as it will then stand will be accepted. The contractor has spared no expense or labor in giving to the city a structure which

will protect the lowland from damage by high water. At no place in the entire length of 2,680 feet could the committee find any weak spot. The last fifty feet are as well and carefully constructed as the first fifty, and likewise all that between. The posts are firmly set, cotton wood trees are regularly planted, the branches are evenly laid and the stones and rocks are properly placed. When this sort of structure was thought of, an engineer of the city made as a conservative estimate of the cost to the contractor the sum of \$1,200. The contract was awarded for \$850 and when the work was finished the builder found that it had cost him close to the amount estimated by the engineer. Too much credit can not be given the contractor because before the work was three-fourths finished he saw that he would lose money. This did not cause him to slight any part of the construction, but he went ahead and did the work in the best way possible. The upper part of the breakwater, which has had some time to settle, will give an idea of what the structure is like. The first 500 feet are as solid as a stone

wall. The branches and rocks have settled until they are on a firm foundation and will withstand any pressure which the water in the river is likely to bring to bear upon the formation. The lower part of the construction is somewhat springy, but will, in a short time, be as solid as that part which was first built. The upper portion was just as springy when it was built, and although some may say that the work in the last 300 or 400 feet was slighted because it is springy now, while the other part is solid, this part will soon prove itself to be properly constructed. The city council is to be congratulated upon the good it has accomplished for the Capital City in the construction of this protection to property, and should have liberal help in paying for it. Mayor Gibson has succeeded in collecting \$500. It would not be hard on any one, if everybody who has not already given something towards this project, would donate a few dollars, and add another \$500 to that already subscribed. Sparks Avenue, which runs parallel to the river, can now be made one of the prettiest streets in the Capital City. Bordered on both sides by large cottonwood trees, and with the river rippling along on the one side, it will indeed be a boulevard. This street will be opened through to Delgado Street, making a pretty drive along the river and back to the city via Palace Avenue. There will be needed considerable filling to grade the new street, but by the aid of the penitentiary teams and the destruction of old adobe buildings and walls in various parts of the city, it will not be an expensive undertaking. It's a good thing; let every one in the city push it along.

**GENERAL ORDER NO. 1.**

Issued by Jacob Weltmer, Department Commander of the Grand Army of the Republic.

The following order, designated General Order, No. 1, has just been issued by Department Commander Jacob Weltmer, of the New Mexico Grand Army of the Republic:

Elmer A. Chaffee—Chief Muster Officer, Phil Sheridan Post No. 15, Las Cruces, N. M.

C. H. McHenry—Inspector General, Lincoln Post No. 13, Farmington, N. M.

They will be obeyed and respected accordingly.

Other appointments will be announced in future orders.

By command of

JACOB WELTMER,

Department Commander.

Official:

J. P. VICTORY,

Assistant Adjutant General.

**BRIEF BITS OF****NEW MEXICO NEWS**

The first number of the Journal of the New Mexico Medical Society will make its appearance about the 15th of June.

Ralph Buell, of Cerrillos, will this year receive his degree of bachelor of science at the Boston Institute of Technology. He has made a very creditable record there.

A queer looking bug has been discovered in the artesian water near Spring River at Roswell which has not yet been identified. The find is remarkable because artesian waters seldom carry any living matter.

The Albuquerque Browns have been circulating a petition among the business men of that town to raise sufficient money to carry the team through the base ball season, and have met with

**PASTEURIZATION.**

This is one of the main features observed in the manufacture of Meadow Gold Butter. None but the finest of milk and cream are allowed to enter the creamery. Each lot is scientifically tested for purity and cleanliness.

After this precaution, all cream is PASTEURIZED. This means that it is put through a mechanical apparatus that kills and destroys every particle of germ or bacterial life that may have existed in the cream. This end is accomplished by a series of applications of very high temperatures followed by very low ones. Therefore, just as boiled and sterilized water is pure, of equal purity is Meadow Gold Butter.

After this process, the cream goes through various treatments that finally brings forth a rich golden butter with a clean mellow and lasting flavor.

It is then packed by machinery in air tight, sealed and paraffined cartons which preserve and retain all its original flavor and purity.

**FOR HEALTH.**

The health boards of all our large cities endeavor to make it compulsory to pasteurize the milk supply of the children. It is just as important that their butter supply should be the best obtainable. Whatever you have done in the past, let it be your care that for the present and the future that you and your family have the SAFE butter and that is MEADOW GOLD. Per pound, only 30 cents.

You will pay almost as much for the uncertain kind.

**FRESH MEATS.**

Warm weather and flies are with us. How is your meat supply? We are cutting only meats killed in Denver in a government inspected plant and shipped to us by quick express several times per week. We have cut out shipments of Kansas City meat for the summer. Takes to long to get here by freight. Our market is thoroughly screened from flies and dust. That is an item of importance. We wrap every piece of meat that goes out carefully in absorbent paper which keeps out the dirt and fully protects the meat from any possible contamination. Sweet breads, brains, boiled ham, sausages, etc., always in stock if they can be had anywhere. Our prices will be found most reasonable for the quality of goods we give.

**S. SPITZ, Jeweler****No Mystery**

There's no mystery in good paint making. It's only "cheap" and inferior paint that surrounds itself with secrecy and mystery.

**THE SHERWIN-WILLIAMS PAINT**

is not a "patent" or "chemical" paint. There's no secret or mystery about it. It's a pure lead, pure zinc, and pure linseed oil paint. It's better than other paints made from the same materials, because the methods and manufacturing facilities of its makers are better—not because they have any patent or secret scheme.

S. W. P. always gives satisfaction and saves money.
