ALBUQUERQUE, — APRIL 18, 1908

THE CITIZEN gets the war news first.

The new city council will organize this evening.

The town of Bland is agitating the question of incorporation.

The United States and England could whip all the rest of the world.

Now is the time to take THE CITIZEN, the best daily paper in New Mexico.

The San Marcial Bee favors Kifego Bane for district attorney for Socorro county.

The president will probably this week issue a call for one hundred thousand volunteers.

The Spanish minister at Washington is packing his grip and getting ready to return to Spain.

The Raton Reporter is nine years old, and during all that time it has been a live local paper.

The senate is decidedly in favor of independence for Cuba, and so is the whole American nation.

The governor has appointed Louis Hostetter, of Las Cruces, to represent New Mexico at the Omaha exposition.

The city of Albuquerque is now connected by telegraph with Bland, the metropolis of the Cochiti mining district.

The Old Fellows of New Mexico are arranging to appropriately observe the 79th anniversary of the order on April 25.

Gov. Otero has designated April 29 as Arbor day in New Mexico. Thousands of trees should be planted in New Mexico on that day.

In an interview in a New York paper Richard Croker offers the government thirty-six Tammany regiments of a thousand men each.

More than one million men, it is announced from Washington, have offered their services to the government in case of war with Spain.

It now looks as though Hanna was mistaken when he said there would be no war. Perhaps there was something the matter with Hanna.

That Colorado governor who a few years ago wanted to wade in gore to his bride's side, has not been heard from in this Spanish trouble.

The advantage of the afternoon paper over the morning paper in the way of telegraphic news was never so strikingly apparent as at this time.

Contracts have been let for the building of an extension of the Pecos Valley railway from Roswell, N. M., to Amarillo, Texas, a distance of 236 miles.

The governor has appointed Major W. H. H. Llewellyn as one of the members of the bureau of immigration, in place of H. L. Miles, who recently resigned.

One company of the Fifteenth Infantry has been ordered to Fort Wingate, to take the place of the Second regiment, which has been ordered to the Atlantic coast.

There are annually killed in Africa a minimum of 65,000 elephants, yielding the production of a quantity of raw ivory the selling price of which is \$350,000.

The sum of \$45,000,000 has been spent out of the \$50,000,000 war fund. The navy department has received \$20,000,000 and the war department the remainder.

This government has had enough of the views of the foreign powers on what concerns this country alone, and any further "collective notes" should be assigned to the waste basket.

The war department has received word from a circus company that in the event of war twenty-five elephants would be put at its disposal for active service in Cuba. Some of these animals have served in India.

The democratic papers of the territory are trying to make it appear that Delegate Ferguson is getting the pensions for the old soldiers of New Mexico. At the same time they are denouncing the republican party for its liberal pension policy.

The expansion of the cotton mill business in the south is one of the marked industrial movements of the time. It is not worthy that very few negroes are employed as operatives, the main labor being performed by white men, women and children.

The president has given the most positive assurances to several senators who have called upon him that under no circumstances will he reopen negotiations for peace or make any communication to the Spanish government. If he should receive a communication he promises to submit it to congress at once.

POSITION OF THE PRESIDENT.

The president is said to have given assurances to the European powers through Sir Julian Pauncefote that the insurgent government would not be recognized, as the powers which have colonies in the West Indies have objected to it as giving encouragement to malcontents to revolt and rely upon securing recognition from

the United States, no matter how weak a government they might set up. None of the European powers believe the United States would encourage a revolt, or would recognize the independence of insurgents until a government had been attained that would warrant it. Their object is, however, to prevent, if possible, a precedent by the recognition of the independence of Cuba in advance of intervention, which might furnish sufficient encouragement to inspire revolts.

### SPANISH-AMERICAN SENTIMENT.

The Las Vegas Optic has learned from conference with several of the leading Spanish-American citizens of that section, that the number of those who sympathize with Spain in the impending conflict can be counted upon less than the fingers of one hand.

The large majority of native citizens deplore the prospects of war; they desire the pacification of Cuba and the return of good feeling between this country and Spain, but hope to see the same accomplished by diplomacy rather than by bloodshed. However, if war must come, their inclinations will all be where they recognize their allegiance to belong—with the United States, the land of birth to most of them and the land of love to all.

Such sentiments do honor alike to the head and heart of the Spanish-American citizens of this territory.

### FIRST AND BEST.

The San Marcial Bee says: "Our citizens were on the move quite early last Tuesday morning, bent upon securing information concerning President McKinley's message to congress. Of all the newspapers arriving on that day THE ALBUQUERQUE CITIZEN contained the fullest and most complete summary of Monday's news bearing on the trouble between the United States and Spain."

There are very few men in this country who want war for war's sake. The term "jingo" is a badge of distinction when it applies to one only who desires to see his country do its duty to humanity and to its own best interests, for the future as well as for the present.

The secretary of agriculture estimates that at a cost of \$100,000,000 there could be produced on 1,000,000 acres of land planted to beets, all the sugar now imported into this country, and as he has there are 1,000,000 acres of land devoted to any other crop that yields so much.

It was about thirty-five years between the revolutionary war and the war of 1812, about thirty-five years between the war of 1812 and the Mexican war, and it has been about thirty-five years since 1863.

It is predicted that the war with Spain will cause the overthrow of the present government and the establishment of a republic in that country. If so, it will be a republic only in name.

### THE ARCTIC EXPEDITION.

It is rumored in official circles that government contingents are en route to the Arctic Circle during the ensuing year. This is said to include expeditionary navigators, geographers, naturalists and zoologists. "There can be little doubt that discoveries will be made of the utmost importance to science. However useful these may be they can never exceed the value of the discovery so fraught with benefit to the human race—Hostetter's Stomach Bitters. This truly estimable medicine has achieved a reputation for curative and preventive efficiency in cases of indigestion, dyspepsia, which has never had a parallel in the history of medicine. It cures and prevents malaria, chronic dyspepsia, biliousness, rheumatism, kidney and bladder complaints and nervous ailments."

### Wait! Wait! Wait!

I have just received word that my order for 1,000 ladies' low-cut shoes, ordered last winter for the spring trade, cannot be countermanded as many of the shoes have already been made. I can offer some rare bargains in this line of shoes as soon as they arrive, which will be within ten days or two weeks. The stock will contain all the latest styles and pay intending purchasers to wait until they arrive.

A. SIMPHER.

Americans are the most inventive people on earth. To them have been issued nearly 900,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Cough, Cholera and Diarrhoea Remedy, or has done more to relieve suffering and pain. J. W. Vaughn of Oakland, Ky., says: "I have used Chamberlain's Cough, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels." For sale by all druggists.

### A New Mexico Incorporation.

Articles of incorporation of the New Mexican Development company were filed in the secretary's office at Santa Fe Saturday afternoon. The articles of this company permit the building of railroads, operating mines, laying out towns and a general developing business in the territory. The concern is organized under the laws of West Virginia, and is capitalized at \$500,000, and W. A. Hawkins is named as agent for New Mexico with headquarters at Alamogordo.

### WHAT THE EMPLOYEES ARE DOING.

Engineer Steadman, of Raton, has received his first assignment as engineer at this place.

A new night clerk with the cooling name of Lagerwall is on duty at the San Marcial depot.

A base ball nine is being organized among the employees of the San Marcial railroad shop.

The Pueblo Improvement company commenced work to-day on the San Rita extension of the Santa Fe.

Engines 111 and 129 are expected from Topeka. Their former numbers were respectively 197 and 391. They have been remodeled.

Frank Hockett, now living in Mexico, will soon return to San Marcial and assume himself in the railroad machine shop there.

The railroad company has put in a large are light over its tracks in the yard at Bites, which will prove of great advantage to all.

Contractor Corrigan will soon have a gang at work raising four miles of track from a point opposite Tiffany's ranch near San Marcial.

Harry Gubler and J. L. McGuire, machinists, have severed their connection with the San Marcial shops and will probably join the navy.

The Postal Telegraph company is stringing another wire along this route making the fourth. They will reach Raton in about ten days.

Fireman George Anderson, who has recently recovered from malarial fever, left Las Vegas hospital on Saturday for his home in San Marcial.

Hugh Shields, who runs the engine at Gardner, was severely scalded about the face and hands, caused by the escaping steam from a hole in the boiler where a plug was blown out.

The Southern Pacific company has sent out circulars asking for information as to the whereabouts of J. Goodsell, for many years in the employ of the railroad on the Tucson division.

Engineer Wm. Bigham, of San Marcial, has been transferred to Albuquerque, and Engineer Chas. Haines to El Paso. Engineers Gus. Lowman, Lon Neal and Harry Koehler will run out of San Marcial.

F. C. Rasmussen and Harry Beebe, two machinists of the Raton shops, have resigned their positions to enter the service of the government. They have been assigned to the battleship Iowa and left for dry Tortugas, where they will join their ship.

The Southern Pacific company is taking steps to lessen the friction between its claim agent and the stockmen by fencing the track. The road west of Willcox is now fenced to within a short distance of town and the fence crew is to continue work east of Willcox.

General Agent Gillist of the Santa Fe, Prescott & Phoenix, announces that hereafter all freight less than carloads will be shipped to and from Phoenix in a special car attached to trains 1 and 2, passengers, which insure quick service to and from the city.

Engineer Pat Boyle has returned to Raton from Topeka where he went to receive treatment for his eye which was pierced by a piece of glass. No injury resulted to his sight. Mr. Boyle says the war feeling in Topeka is bubbling over and that there are enough Kansans ready to enlist to thrash Spain without looking for any more soldiers.

A steam shovel and two crews commenced operations at the Socorro gravel pit the other day. The track between Socorro and Alamogordo is to be raised and greatly improved. Engineer Arthur Kelton and Conductors Joseph Harrison and Lot Morris are members of the party. Mrs. Kellam accompanied her husband and will do housekeeping in an improved car.

The Southern Pacific company has arranged in connection with the Maricopa & Phoenix line, for a fast freight service between San Francisco, Los Angeles and other coast points, and Phoenix. A thirty-six hour service has been arranged for from Los Angeles, and four to five day service from San Francisco on less than carload shipments. This will enable markets to place green fruit on the market in fine condition, and will put the valley in close touch with California markets.

### IMPORTANT ORDERS.

Las Vegas, N. M., April 13, 1908.  
To All Engineers Running South:  
Serious complaint comes from the superintendent of machinery at Alamogordo that our engineers blow out all our axles and blow out dirty waste all over the yard.

You should throw your dirty waste in the fire box and not blow out your axles except on cinder pit. Please be governed accordingly.

A suspension of twenty days has been assessed against the record of an engineer on this division for allowing blade pin and bushing on eccentric strap to get hot and out for want of oil.

C. M. TAYLOR,  
Division Master Mechanic.

### Delegate Ferguson's Reply.

Colonel Geo. W. Knaebel has received the following reply to his recent telegraphic suggestion to Delegate Ferguson, who the New Mexican:

Dear Sir:—I received your telegram yesterday that I introduce a bill offering \$100,000 reward for the discovery of the wrecker who blew up the Maine. That is a patriotic suggestion, but the only fault in it is that here everybody knows who blew up the Maine. There is not a doubt entertained but that it was blown up deliberately by the Spanish officers in Havana.

### Narrowly Escaped Death.

Fred Rubichand, who is one of the pioneers in the Cochiti district and has lived in Bland with his pleasant wife and family for the past number of years, on Tuesday met with an accident in the main shaft of the Albemarle mine that barely delivered him from a horrible death. He was working in the shaft and had just set

to the fuses of two of his own shots and had started to ascend the ladder, but before he could get out of harm's way the shot of another miner exploded, the flying pieces of rock struck him in the left arm, which was on the ladder, and immediately following his own two shots exploded, without causing further injury to Mr. Rubichand, who had the presence of mind to cling to the ladder and not drop back into the deadly shaft when the first shot struck him. How he escaped death or more serious injury is a miracle. He was immediately cared for by Dr. Grace, the Cochiti Gold Mining company's physician.—Bland Herald.

### New Mexico Women Honored.

Mrs. Catharine Wallace, wife of the territorial secretary, and Mrs. W. H. H. Llewellyn have received from the executive committee of the woman's department of the Trans-Mississippi exposition notification of their appointment as members of the advisory council for New Mexico.

### The Greatest Discovery Yet.

W. M. Repine, editor Tishitree, Ill., Chief, says: "I won't keep home without Dr. King's New Discovery for consumption, coughs and colds. Experienced with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for coughs, colds, whooping cough, etc." It is the only experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails. Trial bottles free at J. H. O'Reilly & Co.'s drug store.

### McNEW BOUND OVER.

Carr Placed Under Bonds—The Fountain Murder Case.

Las Cruces, N. M., April 17.—The preliminary hearing of William Carr and William McNew, charged with the murder of Col. A. J. Fountain, ended Saturday evening. W. B. Childers made the closing argument for the prosecution.

After reviewing the evidence, he asked that McNew be held without bail to await the action of the grand jury at the September term of court, and that Carr be placed under bonds as an accessory to the fact.

Judge Warren made an able argument for the defense. He declared the evidence to be weak, conflicting and valueless. He maintained the corpus delicti had not been proven, and reviewed the old rumors of Fountain's domestic and financial troubles and the story that he had gone to Cuba to join the insurgents. He said everyone acquainted with Fountain knew it would be a characteristic of him to make a sudden and sensational matter of his departure.

At the conclusion of his argument Judge Parker said he would hold McNew without bail and discharge Carr. The defense was evidently surprised, as they had fully expected both to be released.

Judge Fall then announced that they would reopen the case later on, an application for a writ of habeas corpus and introduce testimony on behalf of McNew. The application will probably be made at the coming session of court in Hillsboro.

### COCCHITI MINES.

Latest Information Regarding Mining and Milling in the Cochitis.

From the Bland Herald.  
The lone mine in Bland and mill are steadily working night and day, the mine producing ore for the mill, which is running smoothly and successfully, clean-ups showing that not less than fifty-five per cent of the values is being saved.

Messrs. Wilson and Bruce have finished their two hundred foot contract in the Crown Point and it is understood that a force of men will soon be put to work by the company to whom the property is under lease and bond and big work is done.

Work on the Albemarle continues on the usual large scale. As the excavation for the mill site is not yet completed, the steel frame of the big structure will not begin for a week at least. The large force was paid off Saturday, some \$12,000 being distributed among employees, merchants and many others connected with the Albemarle operations.

With characteristic enterprise and due faith in their valuable properties, the miners of Peralta canyon began work last week on a new wagon road up Peralta canyon from the old townsite of Kent to the new townsite of Peralta.

For the mill site is not yet completed, the steel frame of the big structure will not begin for a week at least. The large force was paid off Saturday, some \$12,000 being distributed among employees, merchants and many others connected with the Albemarle operations.

### CONTRACT LET.

Work on the Extension from Roswell to Amarillo Commences May 1.

Chicago, April 15, 1908.—Contract for the building of the Pecos Valley & Northwestern railroad in New Mexico and the Pecos Valley & Northwestern railroads in Texas, known as the extension of the Pecos Valley railway from Roswell to Amarillo, Tex., a distance of 200 miles, were awarded to Mallery & Co., Chicago. Work to commence on May 1, next.

The above telegram is indeed cheering news for New Mexico, and especially for the Pecos country of the territory. The El Paso Herald, in its comments, says: "People in the Panhandle of Texas, much elated over the progress being made by the Pecos Valley railroad company, General Manager R. O. Fankner in the city, and gives some interesting facts relative to the extension from Roswell, N. M., to Amarillo, Texas. Over 164 miles of road are being operated from Amarillo to Roswell, Texas. The road turns northeast, and keeps its course to Amarillo, 200 miles. At the latter point, which is on the Fort Worth & Denver road, a connection is made with the Santa Fe, which has acquired track rights over the Denver road from Amarillo to Roswell, Texas. The road is now being operated from Roswell to Amarillo in ten hours; now it takes twenty days, for, rather than go through the quarantined part of the state of Texas, cattle are driven across the country. That is expensive, and lengthens greatly the time of getting to market. In going from Roswell to St. Louis or Kansas City passengers will be saved from 350 to 400 miles of travel. Another good feature is the rapidly growing attention to sheep husbandry in that part of Texas and New Mexico, and the cheapening of the rate to market will give an impetus to this industry."

The people of Amarillo gave a bonus of \$30,000 to secure the road, and for five years the Pecos Valley and Northwestern railroads and the Santa Fe agree to maintain train divisions at Amarillo. Manager Fankner is authorized to let the contracts at once, and this will be done to day, and the actual work of construction will begin by May 1. It is expected to have the road completed in seven months.

## NEW MEXICO NEWS.

LAS VEGAS.

From the Optic.  
Homogon Garcia, who was arrested and placed under bonds at El Paso a few days ago, is expected to arrive in the city in a few days.

William B. Stapp was appointed by the county board as expert examiner of the accounts of C. Galabon, to fill the vacancy made by H. D. Higgins, who was unable to give to the work the necessary time.

Jesus Dominguez, a lunatic from Teo-teco, was placed in jail by order of the county commissioners, to await a vacancy to occur at the asylum. Also an insane woman was placed in charge of Mrs. Maria L. Romero, of the west side, to await a vacancy.

A large band of Gypsies are in town with horses, dogs and children. The women have been over the places all day demanding to tell fortunes. They are encamped near Hill & Brown's brick mill. Look out for your chickens and everything loose about your place.

SAN MARCIAL.

From the Bee.  
Frank Farnsworth, the old-time Santa Fe conductor, has been appointed chief deputy of the United States Marshal district, comprising the counties of Dona Ana, Grant and Sierra.

John E. Holmes, representing THE ALBUQUERQUE CITIZEN, called upon a few of our citizens on Wednesday. He bore himself like a man who was being well received everywhere.

Mrs. Lulu Knaus was in a few weeks be 21 years of age, and will then receive \$2,000 from the A. O. U. W. After a visit to Pennsylvania, Mrs. Knaus will invest her capital in San Marcial property.

The family of engineer Jeff Roberts are now residents of San Marcial, the transfer from Deming having taken place a few days since. Mr. and Mrs. Roberts received a hearty welcome from their many friends hereabouts.

Mrs. H. J. Johnson arrived from Denver on Thursday, and with her husband has gone to housekeeping. Mr. Johnson is employed in the railroad shops, is a good fellow, and will not sing "On the Bowery" any more at present.

Engineer J. B. Simmons returned from Emporia a few days ago and reported for duty. A friend, Lee Schellenberger, claims to possess knowledge that Jake was married while in Kansas. This imputation Jake will neither affirm nor deny, yet his smile is as cheerful as ever, which is almost convincing proof of his freedom from the joys of matrimonial entanglement.

LAS CRUCES.

From Dona Ana County Republican.  
The college boys are now practicing for field day which will occur on or about the 20th of May.

The nuptials of Mr. Charles Cowan and Miss Alice Lapoint will be solemnized next Monday, the Rev. Pedro Lassagne officiating.

A. A. Anderson will leave for Nebraska by May 1st to accept a lucrative position as traveling salesman for a firm in that state.

On last Thursday evening the Misses Maude Miller and Mary Decker entertained twenty-five young ladies and gentlemen at the residence of Judge McFie. The parlor and reception rooms were given up to music and conversation, while the dining rooms and rooms adjoining were cleared for dancing. At 11 o'clock refreshments were served, and it was midnight ere the guests bade their fair hostesses "good night."

Last Sunday night two attempts at burglary were made in our city, evidently by the same party. The first was at the residence of Mrs. W. L. Christy, the man being frightened off by shots from a revolver in the hands of Mrs. Christy's brother, Sam French. The second attempt was at the residence of Miss Clara Mench, the lady being awakened by a man raising the window of her bed room. The fellow finding himself discovered fled.

The most elaborate, elegant and recherche affair ever given at Las Cruces was the reception given by Mrs. S. B. Newcomb, at her elegant suburban home, to her many lady and gentleman friends, on last Saturday afternoon. The house was elaborately decorated with palms, smilax and pot plants, making it appear like a veritable summer palace. Upon arriving, the guests were welcomed by the hostess, assisted by her charming sister, Mrs. Cameron, and Mrs. Henry Bowman. Mrs. F. C. Barker, Miss Center and Judge S. B. Newcomb.

From the New Mexican.  
A shaft is erecting a handsome family monument on his lot in Fairview cemetery, which will cost \$1,500 when completed.

Paradise and Aztec lodges, I. O. O. F., assisted by the Leokaske, are preparing to celebrate the seventy-ninth anniversary of the founding of the order, on April 26, in an appropriate manner.

S. R. Hinkley is building a corrugated iron warehouse, 70x30 feet in size and costing \$1,000, back of the store building occupied by A. Walker & Co. The new building will be used for the storage of hay and grain. Mr. Creighton has the building contract.

At the meeting of the school board held the other night, the treasurer held instructed to pay off outstanding warrants in the order they fell due, after the warrants provided for in the mandamus proceedings against the board were paid.

An honest man in this world is a rare sight. He is a man who has little to fear from the world, and who is not afraid to stand up for his principles.

There is one thing that is more important than health, and that is a good character. A man with a good character will be respected by all, and will be able to do anything he sets his mind to.

It is a good idea to have a good character, and to be able to stand up for your principles. A man with a good character will be respected by all, and will be able to do anything he sets his mind to.

## Hand in Hand!

Warm weather and the demand for cool wearing apparel. The former is fast approaching; the latter we are now better than ever prepared to fill, in all lines, with goods that are cool and breezy, neat and nobby, and above all, high grade and low priced.

**Ladies' Shirt Waists.**  
In Cotton and Silk, from 50 cents to \$10 each. You may be able to get them cheaper in price, but then cheaper in quality also. Our waists are made on the customer making plan. They are sewed, not neck together. They are made to fit, and all of a nice quality of cloth, even the cheapest. We guarantee them to be this year's latest product, among which the Rose-In-Bloom waist is the prevailing style.

**White Goods.**  
Indian and Persian Lawns, Striped Dimities, Cheeked Nainsooks, Fine, Plain and Dotel Swisses, from the cheapest—if you want to consider your pocketbook—to as fine a quality as you may desire; also lower than you can find the same goods elsewhere.

**Laces and Embroideries.**  
An immense stock at a saving to you of 25 per cent. See for yourself.

**JAMES HALLOWELL DYING.**  
Famous "Prince Hal," of Kansas, Whom Jerry Simpson Defeated.  
A special dispatch to the St. Louis Globe-Democrat, from Kansas City, Mo., in regard to a gentleman who recently visited this city with his wife, will be read with sorrow as it tells of the serious illness of the gentleman:  
Kansas City, Mo., April 13.—James Hallowell, known from end to end of Kansas as "Prince Hal," is dying at the home of his brother-in-law, Judge T. P. Anderson, in Kansas City, Kan. Hallowell is one of the best-known of the Kansas republican politicians, though what perhaps is his greatest fame came from his defeat for congress by Jerry Simpson. It was in that campaign that Simpson leaped to fame as "Sockless Jerry Simpson." Hallowell was elected to the legislature in 1874, to the state senate in 1876 and was appointed United States district attorney in 1880. Reserved as district attorney five years. In 1880 he entered the campaign against Simpson, which ended in his defeat. Then Hallowell abandoned politics and resumed the practice of law. His defeat proved on his mind and ill health soon followed. Now his case is hopeless. He suffers acute indigestion and the attending physicians say he cannot long survive.
