LEWIS AND CLARK EXPOSITION OPENED

Portland, Oregon, Does Itself Proud Today and Throws Its Hospitable Gates Open to the World--A Fine Address by Vice President Fairbanks.

Portland, Ore., June 1.—Amid scenes of festivity and splendor never equalled in the Pacific northwest, with the din and clamor of cheering thousands, accompanied by the booming of artillery, chiming of bells and blaring of bands, Portland today made her greatest bow to the world in the formal opening of the Lewis and Clark Centennial Exposition. The exposition was opened by President Roosevelt by wire from Washington and the celebration was participated in by his personal representative, Vice President Charles W. Fairbanks, representatives of the Senate and the House of the National Congress, of the army and the navy, together with the governors and staffs of the states of California, Idaho, Washington and Oregon and a multitude of people from far and near. After the parade the ceremonies on the grounds were opened by President Goode of the exposition, who was followed by a number of other speakers, among them Vice President Fairbanks who spoke as follows:

Vice President Fairbanks' Address.
Mr. President, Ladies and Gentlemen. President Roosevelt has taken a very great interest in the Lewis and Clark Exposition from its inception, and it is at his request, and on his behalf, I have the great honor of participating with you in these opening ceremonies.

We commemorate an important event in American history. We pay tribute to the intrepid explorers who made their arduous expedition up the Missouri, across the Rocky Mountains, down to the Pacific, and pointed the way to this land of incomparable opportunity. Their fame is secure where the deeds of men of heroic mold are forever recorded. They were the forerunners of a high order of civilization in a territory which, prior to their venturesome enterprise, was terra incognita. It was a wilderness, inhabited by the aborigines, into which no white man had entered; it has become the seat of empire--of vast commercial power. We look upon their work with genuine admiration and grateful appreciation.

The Lewis-Clark Exposition.
The expedition which we celebrate was in the command of Captain Meriwether Lewis, who had been the private secretary of President Jefferson and of Captain William Clark, a brother of George Rogers Clark, who rendered such signal and lasting service on the frontier during the American revolution. The small band who composed the expedition possessed the qualities essential to a successful issue. They were young and full of enthusiasm. They had great powers of endurance, they had tact, and they possessed moral and physical courage of a high order. They went about their difficult and important mission in a manner to insure the best results. They not only went to explore an unknown region, but to make such report of their discoveries as would be of the utmost practical value to the world. There was no misadventure and no failure. They proceeded with good judgment, with patience, and with firm determination. Their appointed task was fraught with far-reaching consequences and beset with unknown dangers. The expedition lay far beyond the frontier and the reach of aid should grave perils arise. We must measure the undertaking from the environment of the time in which it was laid. The courage which calmly braves unseen perils is often of a higher order than that which confronts known dangers.

This exposition has risen as an expression of the gratitude of the people for what brave men wrought for humanity and civilization in the long ago.

The Pioneers.
Thousands followed in later years the pathway of Lewis and Clark with no less danger than they encountered and no less heroism than they displayed. We gladly acknowledge our indebtedness to those who came hither and erected this state. The pioneers who crossed the Alleghenies, the Mississippi River, the great plains, the Rocky Mountains, and built their homes here were of the best quality. They were well fitted to found a commonwealth and to raise the torch of our western civilization. They were not idlers. They were not aimless wanderers. They were the soul of energy and came with high and fixed purpose. They have made their ample contribution to our national strength.

As we stand here amid the rich fruits of human effort and surrounded

by comfort unknown to any other time, we recall with unmeasured appreciation the pioneers who led the way to greatness upon this coast. We erect monuments to commemorate the services of our statesmen, the valor of our soldiers and sailors. The evidence of our gratitude should not stop there. The American pioneers are as worthy as they of some enduring tribute. Their services were not so picturesque as the services of those who won glory upon the field, but they were quite as perilous and fruitful of as lasting good to the human race. The pioneers were, indeed, soldiers--soldiers in the army of peace. They were pickets on the outpost of civilization. All honor to those who "through moving accidents of flood and field" laid the foundations of organized society upon the shore of the Pacific. This exposition is, in a very special sense, a monument to their wisdom, their virtue and their fortitude.

The Great Thomas Jefferson.
This exposition logically follows the great exposition which commemorated the Louisiana purchase. It appropriately supplements it. They both irresistibly suggest our obligation to Thomas Jefferson. We do well to recall his service in connection with the acquisition from France of the province of Louisiana, and his organization of the Lewis and Clark expedition, which opened the way to the expansion of the zone of American civilization. We may well pause to pay tribute to his lofty genius, his profound, far-seeing wisdom, and his service to the cause of human liberty and progress upon this continent. The fruit of his services will bless mankind for ages.

Time Keepers of Progress.
William McKinley, one of the greatest and most beloved of Americans, well said in his last speech that "expositions are the time keepers of progress." They denote our growth in trade and commerce, in industry and knowledge and in the arts and sciences. They assemble the fruits of the genius and endeavor of the people of the country and the world. Each succeeding exposition finds us occupying a position of advance.

We find gathered here the latest improvements in the multitudinous handicraft of the inventor and the artisan, and in contrast with them the obsolete instruments of a not remote period of a bygone civilization. New applications of old forces and old principles are continually made in the physical world. New results are rapidly wrought by those two potent, confederated forces--the brain and the hand of man. They are so subtle, so strong and untiring, that it is impossible to fix any limit to their accomplishments. We oftentimes seemed to have reached the utmost of mechanical development, but the apparently impossible has been so frequently achieved that we no longer marvel at the results of either invention or discovery. Much that has been done since the event we celebrate would have been regarded as impossible even in the days of miracles.

Modern Miracles.
The wizards of the laboratory, the geni of the shop, the captains of industry and commerce, go forward, breaking down the barriers of ignorance, unlocking the secrets of nature, enlarging the field of human effort and opportunity, and making the age in which we live the mightiest in all of the annals of the human race. Not only that, they give abundant assurance that we stand but at the morning of an era of incomparable grandeur for the American people.

American Achievements.
A beneficent providence has scattered his bounty about you with a prodigal hand. The mighty Pacific is at your very doors. It invites you to an illimitable commerce beyond. Your agriculture, your minerals and your forests, your genial seasons and the high quality of your citizenship attract hither the homebuilder. The future has much in store for you. Yonder is Hawaii, acquired for strategic purposes and demanded in the interests of expanding commerce. Lying in the waters of the Orient are the Philippines, which fell to us by the inexorable logic of a humane and righteous war. The Panama Canal to the south, so long demanded in the interests of American commerce, of the commerce of the world, is now an assured reality, through the wisdom of American diplomacy, the firm and just resolution of President Roosevelt.

SAN MIGUEL CHURCH AT SANTA FE IN UNITED STATES

A BOMB FOR KING ALFONSO IMPRISONED BY CAVE-IN

An Attempt to Assassinate Him as He Was Leaving a Theater at Paris Last Evening. Two Men in Gunnison Tunnel, Though Buried for Forty-Eight Hours, Are Still Alive.

A SUSPECT ARRESTED RESCUING RETARDED

Ten Innocent Bystanders Were Injured by the Infernal Machine--Spanish Sovereign Undismayed. Victims of Disaster Number Six. Survivors Being Fed Milk Through Long Rubber Tube.

Paris, June 1.—An attempt to assassinate King Alfonso was made at midnight. As his majesty drove with President Loubet from a gala performance at the Grand Opera House a bomb was thrown by an anarchist and exploded with deadly effect near the royal carriage. As if by a miracle, both the king and president escaped uninjured, but fragments of the missile seriously injured five persons, killed or maimed a number of cavalry horses forming the escort and knocked out one child's eye. Intense excitement followed the attempt. The king and president retained their presence of mind. His majesty sending back a member of his suite to make inquiries as to the condition of the wounded. The person who is believed to have thrown the bomb has been arrested with two others, who are thought to have been implicated in the plot.

A Suspect Arrested.
Paris, June 1.—Arsene Arnuold, is the name of a man arrested on suspicion of having attempted the assassination of King Alfonso last night as the latter was driving away from a theater. He is held on the evidence of a woman who alleges that she saw him light the supposed fuse. Shortly after the passing of the Spanish king another bomb was found in the Rue Rivoli near the spot where the explosion occurred.

Ten Were Injured.
Paris, June 1.—King Alfonso today continued to enjoy the festivities which France prepared in his honor, apparently undismayed by the attempt on his life last night. The number of injured by the bomb now reaches ten and includes several who were struck while watching the procession from the balconies.

OPENING FOR A STATESMAN.

The United States Consul at Ciudad Juarez Died of Tuberculosis at Age of Thirty-Two.

El Paso, Texas, June 1.—C. W. Kendrick, United States consul at Ciudad Juarez, Mexico, aged 32 years, died this morning of tuberculosis. He was a former New Orleans newspaper man and magazine writer.

BANK STATEMENT CALLED FOR.
Washington, June 1.—The comptroller of the currency today issued a call for the condition of the national banks at the close of business on Monday May 29th, 1905.

Montrose, Colo., June 1.—Progress towards the rescue of Fred Gross and Benjamin Taylor, who have been imprisoned for forty-eight hours in the Gunnison tunnel and are still alive has been retarded by the caving of soft ground and it is feared they cannot be removed from their perilous position for another day. The number of known victims of the disaster has been increased to six during the night and this morning. Two prisoners are being fed on milk through long rubber tubes.

DISCUSSED NEW MEXICO AFFAIRS

Delegate W. H. Andrews With Senator Boies Penrose Interview President and Departments.

Special to the New Mexican.
Washington, D. C. June 1.—Delegate to Congress W. H. Andrews and Senator Boies Penrose of Pennsylvania met by appointment today at Washington and had a long interview with President Roosevelt. After that they called upon Secretary of War Taft, Secretary of the Treasury Shaw and the heads of other departments. New Mexico matters were the subject of discussion at each interview.

PREFERS JAIL TO GIVING BOND.

A Denver Merchant Arrested on the Charge of Libeling the Memory of the Late H. B. Hyde.
Denver, Colo., June 1.—Because he refused to give bond of any kind, George J. Kindel, a well known merchant of this city arrested on the charge of having criminally libeled the memory of Henry B. Hyde, founder of the Equitable Life Assurance Society, today went to jail. The charge of libel against Kindel is brought about by the publishing of Hyde's picture between two dead outlaws and labeling it "Kindel's gallery of dead cheaters."

ALBUQUERQUE POSTOFFICE

WILL NOT BE MOVED.
First Assistant Postmaster General Hitchcock has recommended that the postoffice at Albuquerque be continued in its present quarters in the Barnett building. There has been considerable wrangling and bickering over this location, but upon the promise by Mr. Barnett to repair the present building and build a two story addition for the increasing business of the office the lease for the present quarters has been renewed for another five years.

AN INFERNAL STORM OF SHOT AND SHELL

Togo's Crushing Blow to the Russian Naval Power Described Graphically--The Most Staggering Sea Disaster in All Naval History--Rojestvensky Is Dying.

London, June 1.—The Tokio correspondent of the Telegraph sends an interesting description of the naval battle from a correspondent with the Japanese fleet who describes the scene as supremely terrible, the guns of nearly fifty warships firing. Togo's vessels maneuvered with perfect precision. For a time both belligerents gave shot for shot, but with the hostile squadron ahead of him, Rojestvensky was practically defeated in a few hours and was caught in a trap which had been waiting for him since he left Madagascar. He displayed hesitation in his tactics and this resulted in the utter confusion of the Russian fleet. The infernal concentration of fire reached its zenith at two in the afternoon. As the Russians advanced in the direction of Vladivostok, the Japanese squadron was lying between them and their destination and the doomed Russians were battered on all sides. Between 3 and 5 in the afternoon a cruiser of the Admiral Nakhimoff class and the repair ship Kamchatka foundered. The Russians broke in disorder, lost formation and went zigzag. The fight lasted until 7 o'clock. The correspondent continues: "Togo risked nothing and lost nothing. Darkness brought a glorious night with a smooth sea. The Russians were edging northward with the powerful Japanese fleet across their bows forming an effective barrier. Then, under the searchlights and covers of the big guns of the warships, the torpedo flotilla began like locusts to sting and sink the enemy, the Russians continuing to return the fire. At two in the morning the fighting was fierce and intense and no rest was allowed the Russians. With the dawn of Sunday the Japanese fleet came to still closer range. All day long the battle continued with the Russians powerless to render effective resistance."

A Victory at Small Cost.

Tokio, June 1.—The navy department today gave out the following: "Later reports from different divisions of the fleet engaged in the naval battle of May 27th show the following: The Russian battleship Oslabya was heavily damaged in the early part of the fight on Saturday going down at 3 o'clock in the afternoon. The first Russian vessel sunk was the battleship Sissoi Veliky. The armored cruisers Admiral Nakhimoff and Vladimir Monomach after being in the general engagement during the day time were still further damaged by the torpedo attacks during the night and were completely disabled. The battleship Navarin was torpedoed four times after sundown and sunk. The cruisers Nitski and Otawa discovered the Russian cruiser Svetlana at 9 o'clock on Sunday morning in the vicinity of Chappany Bay and immediately attacked and sunk her. It is supposed that the Russian cruisers, Almaz and Aurora were sunk by torpedoes on the night of May 27. Judging from these reports the enemy's main loss consisted of eight battleships destroyed or captured, three armored cruisers and three coast defense ships destroyed or captured with second class cruisers and other vessels destroyed. The enemy's fighting power was thus annihilated. Later reports show that three of our torpedo boats were sunk by the enemy's fire. Besides the above no damage is worth reporting. No warships suffered any loss of fighting or navigating power."

A Staggering Disaster.

Tokio, June 1.—Admiral Togo's supplementary report reached the navy department yesterday and makes the defeat of the Russians a staggering disaster unequalled in naval history. Practically every fighting ship of the once splendid fleet was either sunk or captured, representing a loss of tonnage exceeding one hundred and fifty thousand tons. The remaining units of the fleet, consisting largely of auxiliaries and transports have been dispersed, some going to Vladivostok, others to the Chinese coast. The total Japanese casualties are under 800.

The Russian Wails.

London, June 1.—The Daily Telegraph's Tokio correspondent says that three Russian warships have arrived at Hamada, on the west coast of Honshu, Japan, and will probably be captured.

Admiral Voelkersam Killed.

Washington, June 1.—The state department has received a dispatch from Minister Griecom at Tokio stating that it has been officially announced that Admiral Voelkersam was killed and

not captured as previously reported to the department.

Bruiused and Battered.

Tokio, June 1.—The serious wound of Admiral Rojestvensky who was taken to Sasebo is a bruise on the forehead and a slight fracture of the skull. The nature of the internal injuries is unknown. The admiral's temperature and pulse are normal and there is no sign of brain trouble. He has other wounds but they are not serious.

Rojestvensky May Not Recover.

Nagasaki, June 1.—Report reaches here to the effect that little hope is entertained of the recovery of Admiral Rojestvensky who is in the hospital at Sasebo.

Frightful Losses By Russians.

Tokio, June 1.—A rough estimate made of the Russian losses in the battle fought in the sea of Japan exclusive of nearly 4,000 prisoners, vary from seven to nine thousand. Calculating the complements of the sunken and captured ships at upward of ten thousand, seven thousand still remain unaccounted for. It is possible that some ships which escaped rescued some of these but nearly all must have perished.

Naval Prisoners Landed at Nagasaki.

Nagasaki, June 1.—Fully 3,800 Russian naval prisoners have been landed. Three damaged Russian vessels have drifted ashore off the coast of the Province of Negato.

Japanese Confess Naval Losses.

Tokio, June 1.—The necessity of secrecy no longer existing the navy department confirms the report of the loss of the Japanese battleship Yashima off Port Arthur in May, 1904, and announces other naval losses hitherto withheld.

FLOOD CAUSES \$75,000 LOSS.

New Mexico Mesilla Valley Ranch, Near El Paso, Damaged to This Amount--Crop a Total Loss.

The Rio Grande was higher in El Paso last night than it has been in several years. Many families have been forced to abandon their homes and move to the higher lands. The New Mexico-Mesilla Valley ranch near El Paso has suffered damages to crops and property to the amount of \$75,000. The town of Anthony, Dona Ana County, is partially submerged and the Santa Fe Railway Company has been forced to take its trains via the Southern Pacific to Rincon. At 6 o'clock last night the Stanton Street customs house at El Paso was ready to drop into the river. The railroad managements and the city authorities are doing all in their power to save property, and while no danger is felt for El Paso, there is no hope of saving any of the crops of the flooded lowlands in the Mesilla Valley.

TRINIDAD BANK CLOSES DOORS.

A Squabble Among the Directors is Cause of Suspension--Assets Exceeded Liabilities by \$20,000.

Trinidad, Colo., June 1.—The American Savings Bank closed its doors this morning. The liabilities are \$176,000 and the assets \$196,000. A dispute over the policy of the bank among the directors is the cause of suspension.

WILL NOT REFUND PURCHASE MONEY.

It has been the custom of the Department of the Interior to refund the \$400 purchase money to all persons whose applications for timber and stone lands had been rejected, no matter what the cause of rejection. A large bulk of entries have been made at the instigation of persons desiring to obtain titles to large tracts of valuable land and with money advanced to them for that purpose by irresponsible applicants. The law expressly forbids entries of this character, and the Secretary of the Interior has rendered a decision whereby the purchase money of all such entries will be forfeited instead of being paid back to the applicants.

Danifiro, the great Japanese tragedian is also the most skilled dancer of Japan.

ITALIAN IMMIGRATION.

J. P. Spanier of Naples, Italy, European agent of the Gould Railway Systems, is in Colorado looking up sites for Italian colonies. The Italians he desires to settle in the west are of the so-called better class and are very successful as cultivators of the soil. However, in addition to this desirable class of immigration there are landing in the United States daily thousands of undesirable new comers from southern Europe. They are coming in such numbers that it will take many years to assimilate them. This year's acquisition to the population of the United States from immigration alone will be one million persons. How to regulate this immense tide of foreigners and still maintain the open door to the country and a welcome hand outstretched to the enterprising and ambitious, though poor pioneer is a problem. Poverty is not a bar when accompanied by health and industry. Many of the forefathers of the nation's best citizens were poor and sought this land to earn their livelihood. The bulk of the present immigration is also of the poor, and they are coming for the purpose of bettering their condition; but these are not of the Anglo-Saxon or Germanic stock, or the hardy Scandinavian who make the desert bloom, they are of the city's poor from the Latin countries and they become largely the city's poor in this country. And yet, the immigration from southern Europe is not altogether undesirable, especially, if it can be deflected from the large cities to the country districts and be led to apply itself to the cultivation of the soil.

To the editorial desk of the New Mexican has come an interesting book which sheds light upon this very subject. Its title is "The Italian in America" and it is written by census, immigration and penal experts, B. F. Buck & Company of New York, being the publishers. The design of the book is to present clearly the contribution of Italy to American development and citizenship and what the book says must be a revelation to those who have been accustomed to condemn immigration from Italy as undesirable and harmful. A chapter on "The Progress of United Italy" begins with: "The poorest Italian that comes to this country is joint heir to a splendid heritage," and what it tells of the advancement of modern Italy not only in the arts and sciences but in invention, in manufacturing, in other industrial lines, is astonishing to those who firmly believe that all progress dwells on this side of the Atlantic.

Take the case of the typical Italian immigrant. He lands with but a few dollars in his pocket, he can not speak the language of the land, has no knowledge of its customs or its laws, and yet, in a few years many of them are on the road to a competency if not influence. Place the average American from the city slums under similar circumstances. Let him immigrate to Italy without knowing the Italian language, with no means at his command and totally ignorant of Italian law and customs and it is to be doubted whether he will cut a much better figure in Italy than the Italian immigrant cuts in America.

There is a larger per cent of Italian skilled labor coming to this country than is popularly supposed, but even the unskilled laborer is in demand by large contractors in the cities. The facts and figures and even the many good half tone illustrations in the book are worthy of serious study by those interested in the immigration problem and in political economy. After all it is more what America does for the Italian and what use it makes of him, rather than his wealth when he lands upon the shores of the United States that will count in the end.

There is one potentate who is greatly pleased at the racket between Mr. Loomis, of the State Department, and Minister Bowen to Venezuela, and this is "our great and good friend" President Castro. The latter is convinced that the adage "it is an ill wind that blows no one any good" is true.

MORE THAN SCENERY AND PURE AIR NEEDED.

Why does Colorado get nine-tenths of the tourist trade and New Mexico less than one-tenth? The Pueblo Chieftain explains it to a certain extent when it says that never before was Colorado so well equipped for the entertainment of its visitors as this year. "It is not only that the number of resorts is increasing but their standard of accommodation is growing better from year to year, and those upon whom the entertainment of the tourists depend are awake to the fact that, in competition with other resorts to the east and west of us, something more is needed than scenery and pure air. The state fish and game commission has done excellent work and it is a well known fact that the fishing in Colorado streams has been steadily growing better for several years and in spite of the steadily increasing number of fishermen. The commercial bodies in the larger cities have also contributed their part toward advertising their local attractions and in arousing their own people to the importance of welcoming and providing for their visitors."

In addition, the railroad companies and other agencies have been advertising Colorado resorts freely and many other things are being done in and for the Centennial State to draw tourist travel that are not being done but should be done for New Mexico.

When Henry Villard built the Northern Pacific Railroad, he was told that he was a fool because there was no body living in the country through which he was building the railroad. He merely answered: "I will make the country after the railroad is built." And he did. Thus in Colorado, those who are providing accommodations for tourists and summer visitors do not wait until the tourists and visitors have come, but they do their building and providing beforehand. It is in that spirit of enterprise that New Mexico seems to be lacking and which lack must be overcome before the Territory can expect to reap the golden harvest from the tourist and the pleasure seeker.

WHY SHOULD ALBUQUERQUE PAY TRIBUTE.

Judge A. L. Frazier of the District Court at Portland, Oregon, the Exposition City, said in an interview last week that the city of Portland acquired its water plant in 1887, and that it has proven a source of great profit to the municipality. The water commission turns into the city treasury \$33,000 a month over all expenses and the net profits to the city since taking over the plant amount to \$3,000,000 although originally it cost \$2,900,000 and has cost \$3,000,000 since in improvements. The water rates are lower even than those in the city of Denver which are considered very moderate and there has never been a suspicion of graft in the management of the plant. Yet, a little over twenty years ago, Portland was no larger than Albuquerque and had no better prospects than had the Duke City. Suppose the people of Portland had at that time extended the franchise of their water corporation so that it would be valid for forty years longer. Instead of being relieved of a tax burden of \$400,000 each year, of having made a profit for the tax payers to date of \$3,000,000; of getting their water for one-half of what it would cost from a private corporation, and receiving the water for their public schools, parks, fire and sprinkling of streets and municipal buildings free of charge, they would still be at the mercy of the franchise owners who would be paying big dividends on the value of a franchise which cost them nothing. Why should Albuquerque bind itself to pay tribute until after 1940 to a corporation that asks that an extension of a very valuable franchise be given it for nothing?

Should the city council of Albuquerque extend the franchise of the present Water Supply Company twenty-one years, as is asked by the company, well posted persons, who understand the situation, state that the amount of the stock of the company will be greatly increased and that this increased issue will be at least three times the value of the present outstanding stock. It will, therefore, be seen that an extension of the franchise would be extremely valuable to the present stockholders of the company and to those who represent them in the city of Albuquerque. Under the present franchise, which has over thirteen years yet to run and which in itself is very valuable, the interests of the municipality are not at all guarded. The franchise is very one-sided in this respect, that it is all in favor of the Water Supply Company with no adequate protection and no adequate financial benefit to the municipality. This is the situation in a nut shell.

"Evidently the fight being made by the Gazette against the joint statehood inquiry is having its effect, judging by the way the Albuquerque Journal is squealing. However, that Journal should be fair and not misquote this paper."—Arizona Gazette.

You just stop "riling" the Albuquerque Journal, else that paper will get after you with its Bombasto Furioso, and frenzied editorials and then? What then?

The New Mexican does not wonder at the report that General Lnevitch and the Russian staff officers are desirous of evacuating Manchuria. Champagne has trebled in price at Harbin and even the commanding general can not get it at a reasonable figure.

THE WATER SUPPLY SYSTEM IN BERLIN, GERMANY.

It is not only in Great Britain and in the United States where municipal ownership of public utilities is proving a success but also in France, in Germany and in other countries. The city of Berlin, the capital of Germany, according to the new International Encyclopedia, makes a profit of 2,500,000 marks annually from its water works after making allowances for depreciation, paying off a portion of the indebtedness and interest incurred in buying the water works from private parties, providing the public schools and the city with all the water needed, (and they need much, for Berlin is the cleanest city in the world) and giving private consumers a water rate that would be considered laughably low by the owners of the Albuquerque Water Works system. The water furnished the residents of Berlin is piped from a long distance and is thoroughly filtered while the pumping stations are equipped with the finest and most modern pumping machinery that can be bought. Municipal ownership has proved so successful in Germany that no new public utilities franchises are granted or extended even by the smallest and poorest communities and no city in the class in which Albuquerque is by right would consider for a moment the sale of such a franchise much less giving it away or extending it without any compensation whatever.

The preliminary report of the United States Geological Survey on the coal production of the United States during 1904 has been issued. It is rather surprising that the coal production of New Mexico fell off over 85,000 tons from the year preceding. Only nine commonwealths show a greater falling off, the greatest loss being in Tennessee where it was over 5,000,000 tons. The entire coal production of the country in 1904 was 351,196,000 tons valued at \$445,000,000. To this New Mexico contributed 1,452,000 tons valued at \$1,903,000. Compared with its coal resources, the production of New Mexico is small indeed and yet, it exceeded in value the production of all other minerals combined.

Fifteen hundred extra copies of the issue of this paper of Tuesday last, containing the finely written and handsomely illustrated special article on the Scenic Highway between this city and Las Vegas were printed. These copies are being distributed where they will do this city as well as Las Vegas much good. This advertising is the most valuable kind and the business men and property owners of this city should aid the New Mexican in its endeavor to give the Capital City wide and favorable advertisement. The more tourists, sightseers and health seekers who come to the Capital City, the more business for the merchants and the better rents for property owners.

The "don't do it—wait until tomorrow" men in the city administration, in the city board of education and in this town generally should be given a back seat and that away in the rear. They have hurt the material advance and prosperity of this city long enough. Put them out and put good, energetic and public spirited citizens into places of authority and to manage affairs. This "manana" policy must cease and it will cease if the property owners and business men of the town know their own best interests and will act accordingly. This paper will do all that can possibly be done to bring about this greatly to be desired result.

The people of Arizona, regardless of party affiliation, want New Mexico to become a state and are willing to wait for an indefinite period for single statehood for themselves rather than be joined to this Territory in the near future. They know what they want and are not afraid to speak out in public meeting, federal officials, territorial and county officials, citizens and all. Their motto is, "The way to do is to do" and they are certainly doing considerable against joint statehood for New Mexico and Arizona.

It was only a few weeks ago that New Mexico had all the rain it wanted and considerably more than that and even now the rivers are overflowing on account of the melting snow in the mountains. And yet, there is already a cry for more rain from the upland mesas and from the mining camps. Jupiter Pluvius has as difficult a task as the average newspaper to satisfy every one in New Mexico.

Some railroad engineer, name not yet given, has invented a "wreckless" train. Now if he were to follow up this invention with "non-reckless" trainmen, he would do the people a great service.

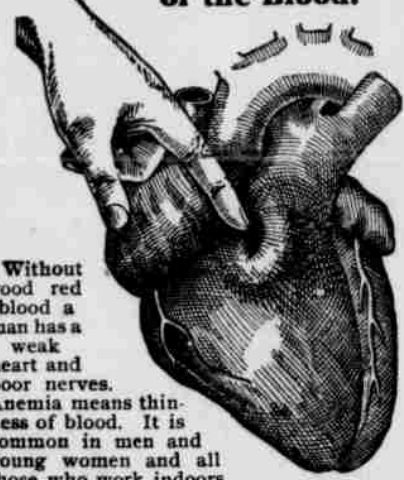

Leader Shea, of the Teamsters' Union in Chicago, is getting down to his level. He has proven himself a "one horse shay" only.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Sold by Druggists. Take Hall's Family Pills for constipation.

Courage is a Matter of the Blood.

Without good red blood a man has a weak heart and poor nerves. Anemia means thinness of blood. It is common in men and young women and all those who work indoors, who do not get enough outdoor air and good oxygen in their lungs. There are too many white blood corpuscles in such cases, and there is often a peculiar sound in the heart, called a murmur, in cases of anemia. This heart murmur is caused by thinness of the blood passing through the heart. The murmur of anemia disappears when the blood regains its natural consistency and richness. It is not heart disease. Sometimes people suffer intense pain over the heart, which is not heart disease, but caused by the stomach. It is the occasion of much anxiety, alarm and suffering, for which its victim is dependent upon reflex disturbances from the stomach caused by indigestion. In the same way many bad coughs are dependent upon these reflex disturbances of what is called the pneumogastric nerve. To enrich the blood and increase the red blood corpuscles thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery, which promotes digestion and assimilation of food so that the blood gets its proper supply of nourishment from the stomach. Get as near to nature's way as you can. A medicine made entirely of botanical extracts and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains no alcohol or narcotics. Dr. Pierce's Pleasant Pellets are the best liver pills.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by all druggists.

GIVES HEALTH, VIGOR AND TONE.

Herbine is a boon for sufferers from anemia. By its use the blood is quickly registered and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50c at Fischer Drug Co.

The laxative effect of Chamberlain's Stomach and Liver Tablets is so agreeable and so natural that you do not realize it is the effect of a medicine. For sale by all druggists.

INVALUABLE FOR RHEUMATISM.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Degnan, Kinsman, Ill. 25c, 50c and \$1.00 at Fischer Drug Co.

Found a Cure for Dyspepsia.

Mrs. S. Lindsay, of Fort William, Ontario, Canada, who has suffered quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these Tablets, get well and stay well? For sale by all druggists.

CURED CONSUMPTION.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. He was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1 at Fischer Drug Co.

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by all druggists.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

Mother's Friend

The Bradford Regulator Co., Atlanta, Ga.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, lodging and bathing \$2.50 per day; \$12 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

MINES AND MINING.

Grant County.
A staff correspondent of the Denver Mining World recently visited the Hachita Mountains in Grant County and gives the following description of mining development in that range:

In the Hachita Mountains several miles to the west of Hachita station on the line of the El Paso & Southwestern Railroad, a number of properties are under development. The Hachitas extend east-west approximately thirty-five miles at distances of from three to fifteen miles from the railroad tracks. The mineralization is pretty general throughout the entire range, but the present activity is confined to an area of about three square miles, distant from Hachita in a westerly direction about six miles. The mineralized zone is said to be of a width varying from 1,000 to 2,000 feet, following the general trend of the range. The predominating rocks are granite and lime, with intrusive porphyries, the ore making both in the lime and at contact of lime and the intrusive materials. The ores of lead, copper, silver and zinc occur. The deepest development is at the King mine, one shaft being down over 300 feet, in the sinking of which shipments of high grade lead-silver ore have been occasionally made. Considerable development is now under way by the King Mining Company, of which Harry Marmon is superintendent. In close proximity are the smelting plant and works of the old Hornet Mining Company. The smelter is not in commission at present, but it is reported that operations at both the mine and works may be resumed at any time. The ores at the Hornet are mainly sulphides of zinc and lead carrying small gold and silver values. It is stated that considerable bodies of 15 per cent and 20 per cent zinc ores are available for extraction. At the Copper Dick property, which is being opened up under the direction of J. B. Tyler, there is said to be exposed a large tonnage of zinc-lead sulphide ores. There is over 1,000 feet of underground workings in this mine. Some work is also under way by the American Mining Company, J. T. Fitzgerald, manager. Armstrong and Fitch, Hartsoog & Hill and W. N. Wright are also operating in this section. In the Apache range, about eight miles to the north of the main Hachita summit, Robert Anderson has for a number of years operated a silver-lead property to a profit. There are said to be upwards of seventy-five men mining and prospecting in the region. There is sufficient scrub timber not far distant, for fuel purposes and water is secured at depths of from 100 to 200 feet.

The Golden Cove Company, an El Paso concern operating in the Hachita District, recently purchased from J. B. Hill, a group of fourteen claims situated in the center of the mineralized zone. The property is opened by a number of shafts ranging in depth from ten feet to eighty-five feet and there is a good showing of lead-copper sulphides in all of these openings. Average samples are reported to show assay returns of 20 per cent lead and 18 per cent copper besides small values in gold and silver. On the various dumps it is estimated that there are over 6,000 tons of ore carrying values of perhaps \$20 to the ton. The ore carries considerable zinc. At this property, as is the case generally in the district, the sulphides either come to the surface or are encountered at shallow depths. The company is planning extensive development.

The narrow gauge railway from Silver City to Pinos Altos is to be completed and in full operation by August 1 of this year. The company plans to haul about 300 tons of ore daily from Pinos Altos to the smelter at Silver City. The grade of the road is about three per cent. The American Lumber Company at Albuquerque has the contract of furnishing the ties. The narrow gauge road crosses the Santa Fe tracks near Silver City and runs upon an old grade. The two Shay engines for the new road have arrived and have been given a test on a piece of temporary track which resulted satisfactorily.

Says the Silver City Independent: "The financial members of the Nevada Mining & Milling Company, accompanied by their genial superintendent, J. W. Bible are here looking over their various properties. Nothing can be gained in the way of information regarding the projects of the company through Mr. Bible, but from the work actually going on the indications are that it is a strong company. They have now under construction on their property nine new shafts, and are employing about 120 men. On the Tourmaline mine, in the vicinity of Fierro, this company has a large force of men sinking and drifting and is erecting a new gallows frame and placing a new hoist. The company has a fine photographing outfit and is making maps of the properties at their offices in Hanover. The company is putting up a new addition to their offices to be used as civil engineer sampling works."

John Kasser of the Empire Gold Mining and Milling Company has returned to Hillsboro from a business trip to Kansas and Colorado. Mr. Kasser will have a careful test made of the water supply for the Bonanza mill which has been running ten stamps steadily for the past few months and if the test is satisfactory ten more stamps will be added. The company intends to resume work on the Frelberg group and a forty stamp mill is to be erected on the Animas, three

LIVERY STABLE LAW.
Stable Law, passed by the 36th Legislative Assembly and approved by Governor Otero, every keeper of a livery stable is required to post a copy of the law in a conspicuous place in his stable. The law is for the protection of livery stable keepers against dead beats and persons who damage any vehicle or injure any animal hired from a livery stable. The New Mexican has printed the law neatly upon cardboard and is ready to fill all orders at \$1.00 for each poster in English or in Spanish.

MARRIAGE LICENSE LAW.
The new marriage license law requires probate clerks to post three copies of the new law in conspicuous places in each precinct. The New Mexican has printed the law neatly on card board and is now ready to fill orders in English or Spanish at fifty cents for each poster. Probate clerks should enter their orders immediately as the law goes into effect on April 14, 1905.

THE WABASH IN THE LEAD.
Joint Agent Norton, who represented twenty St. Louis terminal lines during the World's Fair, has made a statement of the number of tickets passing through the validating office, which shows one-fifth of the total number handled were Wabash tickets.

PERSONAL MENTION

Attorney Robert C. Gortner was a visitor in Las Vegas yesterday.

This forenoon Mrs. Paul A. F. Walter and son John, left on a visit to friends at Denver, Colorado.

H. C. Thompson, proprietor of the eating house at Kennedy, was a business visitor in Santa Fe today.

Miss Ethel Easley returned yesterday from a short visit with Captain and Mrs. W. E. Dame, at Albuquerque.

Mr. and Mrs. George A. Fleming were passengers this forenoon for Las Vegas which will be their future home.

Mr. and Mrs. Louis Baer and child, of Boston, Massachusetts, will be summer guests of Mrs. Baer's father, A. Staab.

Mrs. R. L. Baca and two daughters who have been in the east for several months, returned to the Capital City yesterday.

A. J. Bishop, cashier at the Santa Fe Railway depot in this city, has returned from a month's visit in Iowa and Illinois.

Mrs. C. F. Easley and son, Ralph, who have been visiting in Colorado Springs for several weeks, returned to Santa Fe yesterday.

J. T. Lindsley, representing a wholesale shoe house of St. Louis, transacted business with the Santa Fe merchants this morning.

F. B. Leamer, of Kansas City, today talked dry goods to the merchants of the Capital City in the interest of a wholesale dry goods house.

Dr. E. A. Staab who is taking a post graduate course at the University of Berlin, Germany, expects to spend the summer in Santa Fe.

R. A. Shearer, who relieved A. J. Bishop at the Santa Fe Railway station and served during Mr. Bishop's absence, left this morning for Las Vegas.

The Misses Packer, who spent the winter in Santa Fe, will leave for their home at Boston, Massachusetts, on June 19, owing to the illness of their father.

Mrs. R. H. Rishel and daughter, Miss Blanche Rishel, of the Baptist mission at Velarde, north of Santa Fe, were arrivals in Santa Fe on last evening's Denver & Rio Grande train.

J. V. Duff, postmaster at Farmington, San Juan County, and a dentist by profession, was in Santa Fe last night and this forenoon, on his way home from the race meet at Albuquerque.

Blair Burwell, of Durango, Colorado, is in the city on business connected with the pending injunction case of the Arizona & Colorado Railway Company vs. the Denver & Rio Grande Railroad.

Professor Hiram Hadley, superintendent of public instruction, arrived last evening, via the Santa Fe Central, from Mesilla Park, where he had been to attend the commencement of the Agricultural College.

B. W. Ritter, attorney for the Arizona & Colorado Railway, of Durango, is at the Palace. Mr. Ritter will look after the interests of that railroad in the injunction proceedings to come before Judge J. R. McFie, tomorrow.

Miss Bertha Scheffler, one of the public school teachers here during the past year, has been offered and has accepted a position in Denver where her mother resides and for which place she will leave tomorrow forenoon.

W. A. Pless, of Washington, D. C., special examiner of the United States pension bureau, returned to the city last night from a trip in the northern part of the Territory and southern Colorado where he has been on official business.

Mrs. Warren Graham and son, and Miss Jennie Kirkland, who have been the guests of Dr. and Mrs. C. O. Harrison for a few days, returned this afternoon to their home in Albuquerque. Miss Nellie Harrison accompanied them.

J. F. Thomas, of Manassas, Colorado, was in the city today making arrangements with the Santa Fe Central to handle a large shipment of sheep, which he will make from Torrance next week. Mr. Thomas left on this afternoon's train for Torrance.

E. C. McConnell, mayor of Durango, Colorado, who is interested in the proceedings of the injunction case of the Arizona & Colorado Railway Company vs. the Denver & Rio Grande Railroad, pending in the First Judicial District Court, is registered at the Palace.

Thomas W. Wegglesworth arrived in the city yesterday from Durango. He is here to attend the injunction proceedings before Judge John R. McFie, in chambers tomorrow, of the Arizona & Colorado Railway Company vs. the Denver & Rio Grande Railroad.

Joseph Floreman was in the Capital City today from Pueblo, Colorado. Mr.

Floreman thinks that from the number of improvements which are being made in Santa Fe that the hardware merchants should have more paints and oils in stock and he endeavored to cause the merchants to see it the same way.

C. D. Case, city editor of the New Mexican, had a strenuous trip in order to reach Las Cruces in time for his wedding today. He went from El Paso to Rincon via Deming and there boarded a Santa Fe work train that brought him into Las Cruces after a slow and tedious journey.

Edward L. Safford, the oldest son of Traveling Auditor and Mrs. Charles V. Safford, left this morning for Las Vegas, where he has accepted the position of stenographer to George A. Fleming, who today assumed the management of the Las Vegas Investment and Agency Corporation.

Miss Maude McFie, Miss Margaret Helmer, Miss Shirley Packer, Carl Bishop, and several others enjoyed a trip to the Scenic Highway on Tuesday. One of the horses giving out on the return trip, the party walked the greater part of the way home, arriving here at 10 o'clock in the evening.

Walter E. Goebel, of Belen, who is with the engineer corps on the Belen cut-off, is a visitor in the Capital City. Mr. Goebel says that the work is progressing rapidly and that the laying of steel is progressing as fast as the graders prepare the road bed. He will remain in the city a few days visiting friends.

W. C. Barnes, secretary of the Territorial Cattle Sanitary Board, has returned to Las Vegas from a visit to his ranch at Dorsey, Colfax County, where he found stock and range in prime condition although the winter losses of stockmen in northern New Mexico averaged 25 per cent in addition to 75 per cent of the calf crop.

J. S. Reef, cattleman from Leadville, Colorado, was in the city this morning en route to Dalhart, where he will superintend a shipment of cattle. From Dalhart Mr. Reef will go to Ancho, from which place he will ship thirty car loads of cattle, via the Rock Island and Santa Fe Central to stockmen near Wolcott, Colorado.

C. C. Sroufe, chief engineer of the Southern Pacific, and who is connected with the Arizona & Colorado Railway, is in the city from Tucson, Arizona, to attend the hearing on the injunction asked for by the Arizona & Colorado Railway Company vs. the Denver & Rio Grande Railroad, which will be heard in chambers, before Judge John R. McFie, tomorrow.

Miss Katherine Erhardt, stenographer to General Manager S. B. Grimshaw, of the Santa Fe Central, and sister, Miss Pearl Erhardt, who is a resident of Summit Tent City, will leave the city tomorrow for a month's visit with friends and relatives in Illinois. Mrs. Temple Willson will attend to the duties of Miss Erhardt's position during the absence of the latter.

H. W. Lamb, representing a wholesale paint house, of Kansas City, was in the capital this morning in an endeavor to replenish the stocks of the merchants who handle his line of goods. Mr. Lamb has been traveling through the Territory for over five years and he says that he has not, in that length of time, seen the country as pretty and looking so prosperous as it does now. Men in all kinds of business, with whom he has come in contact, are jubilant over the bright prospects for a successful season.

HOW GERMS ENTER THE SYSTEM

Have No Bad Effect Upon People With Good Digestion.

Like a thief in the night, unheralded and unsought, the disease germ steals into the system under cover of the air we breathe, or our food and drink.

If this germ finds a weak stomach and digestive system, he at once sets up housekeeping, with the result that his landlord has a serious illness.

On the other hand, if the stomach where the germ finds lodgment is strong and healthy through the use of Mi-o-na, the injurious effect of the disease germ is at once neutralized, or the germ itself is driven out of the system. Keep the digestion good by strengthening the stomach and intestines with Mi-o-na, and there need be no fear of what disease germs will do.

If you suffer with headaches, indigestion, flatulency, specks before the eyes, vertigo, heart-burn, dizziness, or have a variable appetite and a general feeling of despondency and weakness, you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful doses with this remedy. Just one small tablet out of a fifty cent box, before each meal, and your stomach will soon become so strong and healthy that you can eat anything you want without fear of distress and will be germ proof.

Ask A. C. Ireland to show you the guarantee under which he sells Mi-o-na. It costs nothing unless it cures.

MINOR CITY TOPICS

The Wallace Club will picnic in the Box Canon on Saturday.

A baby girl was born on Monday night to Mr. and Mrs. Vivian Griego, residing on the Loma in Precinct No. eighteen.

Tomorrow afternoon the Ladies' Aid Society of the Presbyterian Church will meet at the home of Mrs. Charles F. Easley on Galisteo Street.

The Guild of the Church of the Holy Faith will meet tomorrow afternoon at 2:30 o'clock as the guests of Miss Simmons on Palace Avenue.

The following marriage license has been issued by Probate Clerk Marcos Castillo: Miss Ellen Jobe of Denver, Colorado, to Eustallo Muniz, of Santa Fe.

The Madrid baseball nine will not be here for the game with the St. Michael's College team, on Sunday. They will probably play a game on the College field on Sunday, June 11.

A party of public school teachers and others enjoyed a picnic on the Arroyo Hondo yesterday. They visited the ruins of the ancient Indian Pueblo near the headwaters of that stream.

Wool shipments this season are very heavy. The Santa Fe Central has, up-to-date, handled over 500,000 pounds. A conservative estimate of the amount still to be shipped is placed at 2,600,000 pounds.

The Santa Fe Central Railway Company will put on a work train with twenty-five men Monday next. These men will widen the cuts, and do all that is necessary to place the road in the best possible condition.

A modern Gano Brothers' card cutting machine was installed in the New Mexican bindery this forenoon, thus adding another useful, though costly machine to the establishment which is the best equipped bindery in the southwest.

All trains running into Santa Fe were late today. The Denver & Rio Grande arrived about 5:30; Santa Fe Central at 6:30, and the Santa Fe with connections from No. 10 from the south and No. 2, from the west came in at 2 o'clock.

Word has been received in this city that Will H. Kelly, brother of H. W. Kelly of Las Vegas, died recently in Mexico. Mr. Kelly is well known in Santa Fe, and served as a lieutenant in the Rough Riders regiment during the Spanish war.

Indians from Santa Clara and San Ildefonso were in the city today, making preparations for the Feast of San Antonio, which will be held on the thirteenth of this month. They report that the river at those points is rapidly falling and that no more damage is anticipated.

T. W. Roberts, formerly employed in Kerr's barber shop, has purchased the fixtures in the shop of E. H. Baca, and will move them to 247 San Francisco Street, to the room recently occupied by N. Mondragon, in the Salmon Block, where he will open a first class three chair shop.

The showers predicted for yesterday by the weather bureau failed to materialize in this section. Cloudy weather is predicted for tonight and Friday. The maximum temperature yesterday was 75 degrees and the minimum was 49 degrees. The relative humidity was 50 per cent. The temperature at 6 o'clock this forenoon was 54 degrees.

On Sunday the new time table on the Santa Fe goes into effect. From that date on no mail will arrive on train No. 3 at noon and all eastern mail over the Santa Fe will arrive in the evening. Train No. 9 will also be discontinued but the mail it carried will now be carried by train No. 7, as formerly.

The railway mail clerks on consolidated trains Nos. 1 and 9 on the Santa Fe System last evening failed to put off the first class mail pouches at Lamy for this city and in consequence the first class eastern mail which should have arrived here last evening will not arrive until late this afternoon on the trains from the south.

G. L. Herrera, proprietor of the Coronado restaurant, is making improvements at his place of business. The woodwork is receiving a coat of paint, the walls will be repapered, the kitchen remodeled and everything put in shape so that the most fastidious can enjoy a good meal. The treatment of guests at this restaurant is of the best and nothing will be neglected in order to give this class of treatment at all times.

LEWIS AND CLARK EXPOSITION OPENED

(Continued From Page One.)

and the pluck and enterprise of American genius and American labor. The undertaking has for centuries baffled the efforts of other governments and successfully challenged the capital and exertion of other peoples. The United States has put its hand to the task, and, apparently, insuperable obstacles will fast disappear. No doubt, when the next world's exposition is held, one of the great achievements then to be noted will be the Panama Canal, bearing the peaceful commerce of the world, under the protection of the flag of the great republic. It will be in a very special sense a mighty contribution to the civilization and welfare of all mankind. It will bring Portland and the Pacific Coast into closer relations with the Atlantic seaboard and the markets of Europe. More than eight thousand miles will be saved in the transit and interchange of the products of our eastern and western coast. A fresh impulse will be given to commerce, which will be of widespread and wholesome influence. We shall be joint sharers in the increased development, but you will be the larger beneficiary.

At the north is Alaska, a territory possessing vast present and future commercial possibilities, secured to us by far-reaching statesmanship, and her integrity preserved by enlightened and courageous diplomacy.

A Field to Be Conquered.

We must have a vigilant care for our increasing interests in the Orient. We must cultivate relations of amity with the millions who dwell beyond the Pacific. There lies a field of vast trade which we have long desired to possess, and which we have but slowly and inadequately gained. Our foothold is steadily increasing, and if we are but true to our opportunities it will be immeasurably enlarged to the advantage of the entire country. If we would have the trade of the peoples of the far east, we must first have their confidence. Moreover, we must suit our commodities to the needs of those with whom we would traffic; we must study their tastes and their whims and minister unto them. While our goods may suit us, they may not be adapted to the requirements or satisfy the desires of people in other countries.

The tragic events which are transpiring in the Orient are deeply deplored by every lover of peace and humanity the world over. The mighty and bloody conflict had its inception in a desire for commercial conquest. The American people were not indifferent to their own interests, and early in the struggle made sure of the preservation of their commercial advantages in the very theater of war. Our trade interests are to be pushed in that far-off country, not by the instruments of battle, but through the potent agencies of peace. We are destined to play a more important part than heretofore in the commerce in and beyond the Pacific. We must not underrate the commercial opportunities which invite us to the Orient.

The Home Markets. While we seek the Oriental and other markets, we must have a care that we do not lose sight of the fact that our greatest and our surest market is at home and that to jeopardize it in a desire to possess uncertain alien markets would be the part of inexpressible folly. While we look for the expansion of our trade throughout the world we should beware that we do not yield our hold upon that home production, which from every just consideration belongs to American labor and American capital.

You have accomplished much since the first permanent settlement appeared upon this coast. Within comparatively recent years, prosperous cities and villages have been built, railways have been constructed, industries created, schools, colleges, and churches founded, and everywhere we observe the sign of thrift, progress and contentment. There is no seer with vision so penetrating that he can forecast the future possibilities of this people in all of the manifold avenues of human effort. Who would attempt to mirror the developments upon the western coast one hundred years hence? Who would dare to prophesy the transformation which will be witnessed by those who shall stand here at the close of the present half century? Yes, who will venture to foretell the measures of your upbuilding in the quarter of a century beyond the present hour?

The Future. The future, indeed, is full of golden

promise; and we have faith to believe that you and your children will possess and enjoy the rich inheritances of time and opportunity, which are of right, yours and theirs.

You have made admirable display of the trophies of our progress and our civilization. No American can look upon what is here presented without increased admiration of his countrymen, and no foreigner who is sharing our hospitality can see this exhibit of our country's development without marveling at the resourcefulness and virility of the new people who have attained a giant's strength, but who seek to use it only in promoting the price-less arts of peace.

The foundation of our highest and best development is not to be found in nature's illimitable wealth, but in the observance of the orderly processes of the law and the practice of those virtues which are the corner stone of the home, and which are the strength of the state—its sure stay in the hour of strain and stress.

We are assembled from remote neighborhoods, yet we are in close touch and sympathy. We are bound together in the everlasting bonds of national affection and national unity. Our nation's honor is our common honor. Our nation's glory is our common glory.

SHEEP PROSPECTS GOOD.

Territorial Canvass Made By R. G. Dunn & Company Predicts an Immense Yield of Wool.

The R. G. Dunn & Company agency at Carlsbad, has made a canvass of the sheep industry of the Territory and reports that at no time in the last twenty years have the prospects in New Mexico looked so bright to the sheepman, despite some losses reported in the northern counties from the severe winter and unfavorable range conditions. Throughout the lower Pecos Valley and in the Rio Grande basin conditions were never more favorable. Lambing has been satisfactory in the southern counties and a large yield has been the result in northern sections. A heavy crop of wool will be the rule in all sections of the Territory.

MURDERER CAPTURED.

Pedro Soto, Charged With the Killing of Demecio Rubio, Has Been Caught at Las Vegas.

Pedro Soto, alias Garcia, who, it is claimed killed Demecio Rubio on January 20, 1904, at a place about twenty miles from Roswell, has been arrested at Las Vegas. Rubio, it is claimed, knew of the theft, by Soto, of several horses, and for fear he would expose him Soto killed Rubio. Juan Hernandez is also wanted in connection with this same crime. Juan Rubio, father of the victim, is a stockman at Roswell and is sparing no expense in having his son's murderer brought to justice.

SUGAR BEETS DOING FINE.

Favorable Reports From Farmers Who Have Experimented With Seeds Given by Roswell Club.

Many of the Chaves County farmers who received seed free from the Roswell Commercial Club and planted it as an experimental starter for the beet sugar industry in the Pecos Valley have reported to the club secretary and in every case the beets are doing fine.

U. S. WEATHER BUREAU NOTES.

Forecast for New Mexico: Partly cloudy tonight and Friday. For Colorado: Partly cloudy tonight and Friday; cooler in west portion Friday and in northwest portion tonight. Yesterday the thermometer registered as follows: Maximum temperature, 75 degrees, at 3:20 p. m.; minimum, 49 degrees, at 4:30 a. m. The mean temperature for the 24 hours was 62 degrees. Relative humidity, 50 per cent. Temperature at 6:00 a. m. today, 54 degrees.

SPECIAL ANNOUNCEMENT.

An invitation is extended to any white merchant outside of New York City, or his representative, whose name appears in Bradstreet's or Dunn's Commercial Agency Book, to accept the hospitality of our Hotel for three days without charge. Usual rates, apartment with private bath, \$3 per day and up, without meals. Parlor, bedroom and private bath, \$35 per week and up, with meals for two. New York merchants and editors are requested to call the attention of their out of town buyers and subscribers to this advertisement.

GALLATIN HOTEL,
70 W. 46th St., New York City.

LEARN TO SAY NO.

When people ask you to eat elsewhere than the Bon Ton, always say "no," for that is the best short order house in the city. Also regular meals may be had, either in the public or private dining rooms.

Santa Fe Hardware Supply Co.

We Will

Subscribe for the New Mexican and get all the latest and best news.

THE LIVESTOCK MARKET.

Heavy Receipts at Kansas City Have Caused Prices to Drop But Brisk Demand Will Better Them.

Special Correspondence New Mexican.

Kansas City, May 31.—Extra heavy cattle receipts last Tuesday and Wednesday caused a bad break, effective at all the markets. Killing steers and stockers and feeders went down together, 25 to 35 cents, cows and heifers 15 to 25 cents, and the market was slow balance of the week. Feeders lost less than the stockers and stock calves, which in some cases sold 40 to 50 cents lower. The supply was mostly fed beef steers, and southern Texas grass cattle, and not much was received from the great range country, west and southwest. Receipts today are lighter all around, and the market strong to 10 cents higher. Buyers orders will not be urgent for a few days, as they stocked up pretty well last week, but moderate receipts this week, which are expected, should establish prices on a good strong basis. A big string of Panhandle grass cows, first of the season, from the Pecos Valley, sold at \$2.20, last week, to go to the country, as packers are not ready for these cattle yet. Panhandle stockers and feeders sold up to \$4.65. Two shipments from Las Animas make up the Colorado receipts today, outside of a big string of Denver speculators' cattle, which are selling at a loss, on account of the break in prices last week. The Las Animas stuff weighed 1,217 to 1,300 pounds, and sold at \$5 and \$5.20. Western feeders sold late last week at \$4.25 to \$4.60, medium class stockers \$3.25 to \$3.85, fat cows at \$3.80.

Texas and Arizonas make up most of the sheep receipts, as they have been doing for some time. Market lost 10 to 20 cents last week, more on account of lack of quality in the offerings than for any other reason, although receipts were liberal. The market is strong to 10 higher today. Texas muttons, 99 pounds, at \$4.70, Arizonas 88 to 93 pounds at \$4.55 to \$4.70. Common to medium Texans sold last week at \$4.15 to \$4.50, goats for killing at \$3.65, and for the country at \$3.25, stock ewes \$2.75. The lamb market is firm all the time, account of scarcity of good stuff. Several bands of lambs from Berthoud sold on successive days last week at \$7.20 each day, weighing 75 to 79 pounds, and the same stuff sold today at \$7.25. Clipped western lambs bring \$5.75 to \$6.15. Texas clipped lambs sold at \$5.90 last week. If the quality is good in most any class of sheep or lambs, sales are generally satisfactory, and will doubtless continue so.

ARIZONA BRIEFS.

Deputy Sheriff at Phoenix Had His Throat Cut By a Lunatic—Typhoid Fever at Bisbee.

The thirteenth annual meeting of the Arizona Territorial Medical Society convenes in Prescott today.

Bisbee is becoming alarmed over the sanitary conditions of the city. Twelve cases of typhoid fever were reported there on Saturday.

The population of Tucson is estimated at 16,000. This is compiled from the school census which has just been completed for the Tucson board of education.

Last week George Wilbur, of Peoria, shipped 1,400 head of fat muttons to the Kansas City market. Arizona sheep are in first class condition this year and are bringing good prices.

Deputy Sheriff Cunningham, of Phoenix, had his throat cut last week by a lunatic whom he was taking to the jail for safe keeping and who was supposed to be unarmed. The deputy will recover.

There is much cheering information for the creditors in the report of George Michelson, receiver of the Bank of Yuma, which was filed in the district clerk's office last week. It develops that the apparent assets of the defunct bank are \$60,000 and the liabilities \$75,000.

Society Man Goes Into Trade.

London society is agast because Co. A. Von Lowenhaupt, nephew of the Swedish ambassador, has set up as a professional masseur. For years he lived in a most extravagant manner, but his relatives refuse any longer to pay his debts. He frequented the best society and is now sending circulars to all his friends asking their patronage.

Ancient witchery was believed in by only a few but the true merit of De Witt's Witch Hazel Salve is known by every one who has used it for boils, sores, tetter, eczema and piles.
Sold By Ireland's Pharmacy.

An Anecdote of Whittier.

A young lady teacher, who was a great favorite with the poet Whittier, had recently married. Meeting the young husband one day, Mr. Whittier remarked: "John, thee ought to be on the school board."

The young man, somewhat surprised, said: "Why, Mr. Whittier, what makes you think so?"

"Because," was the reply, "thee is such a good judge of schoolmarm's."

It is a kind of bilious mood. You wish an aid to digest food. No other pill is half so good. As De Witt's Little Early Risers.

When e'er you feel impending ill, And need a magic little pill. No other one will fill the bill. Like De Witt's Little Early Risers. Sold By Ireland's Pharmacy.

Pleasant.

"I love to hear you talk," prattled the little daughter of the house. "Why is that, my little dear?" asked the flattered visitor.

"Cause when you do your ears wiggle just like our donkey's."

THE BEST COUGH SYRUP.

S. L. Apple, ex-Probate Judge, Ottawa Co., Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c, \$1.00, at Fischer Drug Co.

"Lost" Great Pianist.

Paderevski, the pianist, got lost in Providence the other afternoon and for a time his manager was on the ragged edge of a fit. The hirsute virtuoso's private car was sidetracked at a particularly secluded spot and the driver of his carriage, being a comparative stranger, mistook the way and drove in the wrong direction. Meanwhile a large and fashionable audience has assembled and was becoming impatient. In desperation the unhappy manager was about to send out a corps of town criers, when the auburn-haired Russian appeared on the stage.

THE WABASH IMPROVING.

In line with its policy of improvement in passenger service, the Wabash line has uniformed its Cafe Car Waiters on the "Banner Blue Limited" between St. Louis and Chicago, with white Tuxedo coats and low cut black vests. The new uniform is very striking and attractive.

THE LEGISLATIVE MANUAL.

The Legislative Manual for 1905, or Blue Book for New Mexico, historical and official compendium of value to every business man and officer and of interest to every citizen, 304 pages. Price \$1.50. Address the New Mexican Printing Company, Santa Fe.

NEW MEXICAN BARGAINS.

Herewith are some bargains offered by the New Mexican Printing Company: Code of Civil Procedure of the Territory of New Mexico, 1897, sheep bound, \$1; paper bound, 75c; Missouri Pleading forms, \$5; Missouri Code Pleadings, \$6; the two for \$10; Adapted to New Mexico Code, Laws of New Mexico, 1899, 1901, and 1903, English and Spanish pamphlet, \$2.25; full leather \$3; Sheriff's Flexible-Cover Pocket Docket single, \$1.25; two or more books \$1 each; New Mexico Supreme Court Reports, Nos. 3 to 10, inclusive, delivered at publishers price, \$3.30 each; Compilation Corporation Laws, 75c; Compilation Mining Laws, 50c; Money's Digest of New Mexico Reports, full sheep \$6.50 delivered; full list school books.

JUSTICE OF THE PEACE DOCKETS.

The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides; have a full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10-1/2x16 inches. These books are made up in civil and criminal dockets, separate, of 320 pages each or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices:

Civil or criminal \$4.00

Combination civil and criminal \$5.00

For 45 cents additional for a single docket or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted. Address, NEW MEXICAN PRINTING CO.

A "WANT AD" will bring results.

NOTICE TO THE STOCKHOLDERS OF THE SOUTHERN PACIFIC RAILROAD COMPANY—A special meeting of the stockholders of the Southern Pacific Railroad Company, will be held at the office of the company, in room 1210, in the Merchants' Exchange building, in the city and county of San Francisco, in the State of California, the same being the principal place of business of said corporation, and being the building where the board of directors of said corporation usually meet, on the 30th day of June, 1905, at the hour of 12 o'clock noon, to consider and act upon the propositions: First, to increase the capital stock of said corporation to one hundred and sixty million dollars (\$160,000,000), and for that purpose to amend article VI of the articles of incorporation and consolidation of the company to read as follows:

"The amount of the capital stock of said corporation shall be one hundred and sixty million dollars (\$160,000,000), divided into one million six hundred thousand (1,600,000) shares of the par value of one hundred dollars (\$100), each, which said amount of capital stock does not exceed the amount actually required for the purposes of the said corporation, and is the amount actually required and ascertained to be necessary for constructing, completing, equipping, operating and maintaining its road, and is so estimated by competent engineers, as will appear by the written estimate of such engineers, duly signed by them, and filed in the office and principal place of business aforesaid of said corporation."

And to amend paragraph third of article XII of the said articles to read as follows:

"The number of directors of said consolidated corporation shall be eleven (11) and the amount of the capital stock of said corporation shall be one hundred and sixty million dollars (\$160,000,000), which said amount of capital stock is the amount actually required for the purpose of said corporation, and is the amount actually required and ascertained to be necessary for constructing, completing, equipping, operating and maintaining its road, and is so estimated by competent engineers, as will appear by the aforesaid written estimate of said engineers, duly signed by them and on file as aforesaid. Said capital stock of said corporation shall be divided into one million six hundred thousand (1,600,000) shares, of the par value of one hundred dollars (\$100) each, of which said shares of said capital stock the following have been subscribed by and allotted to the stockholders of said constituent corporations, as hereinafter set forth, to wit:

"To the Southern Pacific Railroad Company, incorporated, organized and existing under the laws of the State of California, and to its stockholders, one million and fourteen thousand two hundred and forty-one and sixty one-hundredths (1,014,241 60/100) shares."

"To the Southern Pacific Railroad Company, incorporated, organized and existing under the laws of the Territory of Arizona, and to its stockholders, one hundred and ninety-nine thousand nine hundred and fifty (199,950) shares."

"To the Southern Pacific Railroad Company of New Mexico, incorporated, organized and existing under the laws of the Territory of New Mexico, and to its stockholders, sixty-eight thousand eight hundred and eighty-eight (68,888) shares."

"The several stockholders of each of said constituent corporations shall have issued to them by the said consolidated corporation paid up shares of the capital stock of the consolidated corporation out of the shares thereof subscribed by and allotted to the stockholders of their respective constituent corporations to the like amount, dollar for dollar, at their par value with the par value of the shares held by such stockholders in their respective constituent corporations."

Thereafter, and secondly, to create a bonded indebtedness of said corporation to the amount in the aggregate of one hundred and sixty million dollars (\$160,000,000) in gold coin of the United States (a portion of which is to be used in retiring existing bonded indebtedness), and to increase the bonded indebtedness of said corporation up to the amount of the aggregate of one hundred and sixty million dollars (\$160,000,000) in gold coin of the United States, and to secure the said proposed bonded indebtedness by a mortgage upon the railroads and railroad lines of said company and certain other properties belonging to the company, to be prescribed in the mortgage; and to determine the form and terms of said bonds and mortgage; and to authorize the board of directors to take all such action as they may deem necessary or expedient in the premises.

Dated the 30th day of April, 1905. By order of the Board of Directors.

J. L. WILLCUTT,
Secretary of the Southern Pacific Railroad Company.

Directors of Said Southern Pacific Railroad Company.

MADE HIS SERMON STRONG.

Colored Preacher Impressed Hearers With His "Latin."

Mose, a Florida negro, adds to his income as guide to sportsmen by ministering to the spiritual needs of a colored congregation of Baptists. He prides himself on his education and on his eloquent oratorical powers, and he never misses an opportunity of impressing his hearers into believing he is a great Latin scholar. One evening at a fisherman's camp he listened intently to some sportsmen who were discussing the proper pronunciation of certain Latin words and phrases.

"Please, suh," he finally ventured to ask, "what am de propah meaning of dat wud 'aqua'?"

"Aqua means water," he was answered.

"And what am 'fortis'?"

"Fortis means strong."

"Yes, suh. Thank yo', sur," he replied, edging away after making a polite bow to his informant and then to the camp in general.

The following Sunday Mose presided at a baptizing, and, as usual, electrified his audience with a roaring, eloquent sermon, freely interspersed with Latin (?) words. At last, with a dramatic sweep of his arms toward the river, where a few believers were soon to be immersed, he cried out in stentorian tones:

"Quo Vadis, mah bredren and sistahs? I says onto yo' unless yo' be 'margined in de aqua fortis of baptism yo' shall be lost ad infinitum fo' ehab.'"—Catholic Standard and Times.

Priest Remembers Servants.

Under the will of the late Rev. Dr. William Edmond Roope of Under Rock, Bonchurch, Isle of Wight, a priest of the Roman Catholic church, munificent bequests of £10,000 each are made to his two servants, Ruth Blaza and Cecily Guy. To the latter he also left a life interest in his freehold house, Under Rock, and he appointed both as executrixes of his will. Dr. Roope's estate is valued at £48,725 gross.—London Express.

Mrs. Fairbanks an Able Lawyer.

Mrs. Fairbanks holds three collegiate degrees. She graduated from the Ohio Wesleyan university at Delaware, Ohio, in 1872, in the same class with her husband. She at once began the study of law, also with her husband as a classmate. She received the degree of bachelor of laws and afterward took a full course of international and parliamentary law. During the infancy of her children Mrs. Fairbanks studied medicine.

Prize for Aged Woman Painter.

To Mrs. Charlotte B. Coman, the veteran woman landscape painter, now more than seventy years old, has been awarded in New York the Shaw memorial prize of \$300 for the best work of a woman at the exhibition of the Society of American Artists. Her work was "September Morning," a delicately colored, hazy landscape.

Home for Disabled Trainmen.

A movement is on foot in the Brotherhood of Trainmen to have the home for disabled railway men, now at Highland Park, Ill., moved to Alameda county, California. The matter will come up at the convention which will be held in Buffalo, N. Y., next May.

Small Boys' Questions.

Children's questions are sometimes even more embarrassing than their answers, says John Henry Burn in Children's Answers.

The following were asked by a small boy during a two minutes' conversation:

First—Do kittens take off their fur when they go to bed at night? Second—Who cooked dinner when all the big people were little boys? Third—Why don't oysters have tails? Fourth—What kind of medicine is it the chemist has in the big green bottles in the front window? Fifth—What does Santa Claus give little boys skates for when there ain't any ice? Sixth—When I drink water, why don't it run down into my legs?

Kitchener's Proper Position.

The earl of Rosebery once more has advocated the appointment of Lord Kitchener to the British war office. "We have tried philosophers enough," he said in a recent speech, "and we have tried the amateur civilian until we weary at the very look of his name. Is it not time when you have the inestimable boon, given to few nations at the present moment, of a great practical administrative general, not to disregard or neglect his services?" In reply to this a London writer suggests that in time of peril Lord Kitchener might be more valuable in the field than in the war office.

DAVID HARUM SAID:

"Interest's one o' them things that keeps right on nights and Sundays." The same may be said of the Bon Ton for it keeps open nights and Sundays the same as every day in the week and you can always get the very best the market affords, and at a very reasonable price. Try the Bon Ton for a good meal or short order.

MAXWELL GRANT

FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$25 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

GOLD MINES.

On this grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Brady, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. Government laws.

Near Raton, N. M., on this grant, are located the coal mines of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

For particulars and advertising matter apply to

PASTEURIZATION.

This is one of the main features observed in the manufacture of Meadow Gold Butter. None but the finest of milk and cream are allowed to enter the creamery. Each lot is scientifically tested for purity and cleanliness.

After this precaution, all cream is PASTEURIZED. This means that it is put through a mechanical apparatus that kills and destroys every particle of germ or bacterial life that may have existed in the cream. This end is accomplished by a series of applications of very high temperatures followed by very low ones. Therefore, just as boiled and sterilized water is pure, of equal purity is Meadow Gold Butter.

After this process, the cream goes through various treatments that finally brings forth a rich golden butter with a clean mellow and lasting flavor.

It is then packed by machinery in air tight, sealed and paraffined cartons which preserve and retain all its original flavor and purity.

FOR HEALTH.

The health boards of all our large cities endeavor to make it compulsory to pasteurize the milk supply of the children. It is just as important that their butter supply should be the best obtainable. Whatever you have done in the past, let it be your care that for the present and the future that you and your family have the SAFE butter and that is MEADOW GOLD. Per pound, only 30 cents.

You will pay almost as much for the uncertain kind.

FRESH MEATS.

Warm weather and flies are with us. How is your meat supply? We are cutting only meats killed in Denver in a government inspected plant and shipped to us by quick express several times per week. We have cut out shipments of Kansas City meat for the summer. Takes too long to get here by freight. Our market is thoroughly screened from flies and dust. That is an item of importance. We wrap every piece of meat that goes out carefully in absorbent paper which keeps out the dirt and fully protects the meat from any possible contamination. Sweet breads, brains, boiled ham, sausages, etc., always in stock if they can be had anywhere. Our prices will be found most reasonable for the quality of goods we give.

Articles of Incorporation.

The following articles of incorporation have been filed in the office of J. W. Reynolds, secretary of the Territory:

Lakewood Oil Company. The incorporators are: L. A. Brice, Alonzo Fisher, C. W. Maxson, B. A. Niemeyer, and others of Carlsbad. The objects of this corporation are to locate petroleum, oil, natural gas, coal, salt, marble, building stones, and other mining and mineral claims of all kinds; to acquire by purchase, lease, or other lawful means, property as above described; to construct and operate pipe lines and other means of transportation of the products of said property; to refine crude oil and manufacture and prepare petroleum for the market; to construct and operate all such wells, mines, plants and manufactories; to deal in lands, including water rights; to lease, purchase, or otherwise acquire, and to sell, or otherwise dispose of, real estate. The capital stock of said company is \$600,000 divided into 600,000 shares at \$1 each. The principal place of business is at Carlsbad with G. M. Cooke named as agent. The term of existence is fifty years. The number of directors shall be seven and those who will manage the business of the company for the first three months are: C. R. Brice, F. F. Doepp, C. H. McLenethan, G. M. Cooke, C. W. Maxson, L. A. Brice and William Read, all of Carlsbad.

The Carlsbad Racing Association. The incorporators are W. A. Finlay, A. E. Deegner, A. J. Holland, Sam B. Smith, and others, all of Carlsbad. The objects for which this company was incorporated are: to establish, own, maintain and control racing grounds, parks, fairs, shows and other public exhibitions; to purchase and own all personal property necessary to carry out the objects of said corporation. The capital stock is \$3,000 divided into 300 shares at \$10 each. The term of existence is 50 years and the principal place of business is Carlsbad, with W. A. Finlay named as agent. The number of directors shall be seven and those who will manage the business of the company for the first three months are: W. A. Finlay, John T. Rives, J. J. Draper, A. E. Siegner, W. H. Hull, J. D. Cantrell, and M. C. Stewart.

PROF. TWINING WILL LEAVE.

Professor R. W. Twining, principal of the Santa Fe high school has decided not to apply again for his position to the Santa Fe board of education and will locate elsewhere. Professor Twining has been an excellent teacher and Santa Fe regrets to have him go. Both he and Mrs. Twining took an active part in the social and church life of the city and made a host of friends during their stay in the city.

GAVE \$500 BOND.

Francisco Garcia y Castillo appeared before Judge John R. McFie, this morning in chambers to answer to a charge of assault with a deadly weapon with intent to kill. The assault was made upon the man's wife on May 25, 1905, at Cow Springs, Santa Fe County. Castillo waived examination and was bound over to the grand jury host of friends during their stay in Santa Fe.

DEATH OF MISS TEMPLETON.

While Visiting Her Sister at Velarde She Succumbed to an Attack of Acute Pneumonia.

Special Correspondence New Mexican. Echo Mission, Velarde, Taos County, N. M., May 31.—Again the La Joya Valley is called upon to mourn the death of a beloved resident, Miss Martha A. Templeton. She was born in Huntington County, Pennsylvania, March 31, 1844, and died at Velarde on Sunday, May 28, reaching the age of 61 years and two months. She succumbed to an attack of acute pneumonia and suffered intensely until death came to her relief. Yet she bore up with a brave spirit and Christian fortitude. Miss Templeton was the oldest daughter of Major James Curran Templeton and Susan Greene Templeton, who with others of their children preceded Miss Templeton to the grave. Her sisters, Mrs. M. T. Ralley and Miss Jennie G. Templeton and numerous other relatives survive. Miss Templeton united with the Methodist Episcopal Church at the age of fifteen. She went to Missouri from Pennsylvania while quite young and there spent the greater part of her life. The funeral services were held on May 29 at the home of her sister, Mrs. M. T. Ralley by Rev. Warren H. Rishel. Interment was made in the new Protestant Cemetery at Velarde.

COMFORTS OF TRAVEL.

The porter on the California Limited this winter will be prepared to press a gentleman's trousers while he waits. This is a new wrinkle, introduced for the benefit of fastidious dressers. It isn't absolutely necessary to carry along an extra pair of trousers, either; the porter works while you sleep.

THE YEAR 'ROUND.

The Bon Ton does business at the old stand, and people who go there once will go there again. Why? Because they get the best and more for their money than any place in Santa Fe. Go once and you will go all the time.

CHEAP RATES TO NEW YORK.

The Mexican Central has recently placed on sale tickets to New York and return going via the Mexican Central to either Vera Cruz or Tampico; thence via the famous Ward Steamship Line to New York. The return will be by rail over any line to El Paso. The entire trip covering thousands of miles, Havana, Cuba, and its famous Moro Castle, Newport and a dozen of the largest cities of the United States, can be made for \$122.50. A more delightful trip cannot be planned as stop-over privileges are allowed and the tickets are good for one year from the date of sale. The trip includes the City of Mexico, the "Paris of America." Further information can be secured by addressing A. Dulohery, Commercial Agent, El Paso, Texas, or W. D. Murdoch, Assistant General Passenger Agent, City of Mexico.

POPULAR GAMES.

Of all kinds at "The Club," where you will always be treated fairly. Best brands of cigars and refreshments served at the gaming tables.
