IT IS WAR WITH SPAIN!

Congress Unanimously in Favor of
Armed Intervention in Cuba.

SPAIN RESOLVES TO FIGHT TO THE LAST.

Madrid, April 13.—As the result of an important cabinet council last night, the Spanish war office is actively engaged in fortifying and manning the Mediterranean islands of Spain and placing other portions of the kingdom in a state of defense. Instructions have been issued to Captain General Blanco to carry out the policy of immediate intervention in Cuba, according to circumstances in each district.

When the ministers adjourned an official note was issued setting forth the views of the government.

In brief, the note sets forth that the cabinet has granted extraordinary credit for war purposes and incidentally increased the grant on account of artillery at Porto Rico.

After disposing of current affairs, Premier Sagasta designated two ministers to draw up an address to the crown. The cabinet refused to acknowledge the right of the United States to interfere in Cuba, adding: "The doctrine contained in the message are incompatible with the sovereignty and rights of the nation and are an interference in the international affairs of this country."

The official note also says: "A firm consciousness of its rights, united with a resolution to maintain them, will inspire the nation, as they inspire the government, with the severity necessary in these difficult moments to direct successfully and defend energetically the sacred interests which are the patrimony of the Spanish race."

Hoping to Agree.

Washington, April 13.—At 11:15 the house committee on foreign affairs took a recess until 3 o'clock to allow the democrats to consult the leaders with the hope that unanimous action might be had.

Minority Report.

Democratic Senators Favor the Immediate Recognition of Republic of Cuba.

Washington, April 13.—Senator Turpie presented the report of the minority as follows: The undersigned members of the committee on foreign relations concur in the report made upon Cuban resolutions, but we favor the immediate recognition of the republic of Cuba, as organized in that island, as a free, independent and sovereign power among the nations of the world.

He demanded that the resolution lie over until the next morning. The chair decided that the resolution was well taken. Conservative senators are urging delay.

Capitulation Sighs.

Washington, April 13.—It is understood that Captain Sigsbee will be assigned to command either the St. Louis or St. Paul.

Lee Sustains McKinley.

He is Not in Favor of Recognizing the Cuban Insurgents.

Washington, April 13.—The republicans of the foreign affairs committee of the house agree to the insistence of the steering committee of the house republicans that the word "insurgent" be placed in the resolutions.

It is likely that there will be a unanimous report from the senate committee on foreign relations and peace and war to the house committee. The democratic members of the senate committee, after hearing General Lee upon the existing Cuban government, have abandoned the demand for recognition of that government.

They have been consulting with the democratic members of the house committee, who, it is thought, will follow their lead.

Want to Mediate.

Berne, Switzerland, April 13.—The national council has suggested that the bursar consider whether it could not offer to mediate between the United States and Spain. The proposition will be considered to-morrow, but doubtfully will be rejected.

Americans Left in Peril.

Council Brice Compelled to Leave American Citizens in Matanzas.

New York, April 13.—United States Consul Brice, who arrived here on the steamer Hermann from Matanzas, said that there had been an inkling that he was going to leave he would have been killed. Brice said that there were 350 Americans left behind in Matanzas and their lives were in the greatest peril. "I asked for a ship to come and take them away," he said, "but none was sent, and I know what will become of them now."

Republicans United.

Washington, April 13.—The republicans of the house committee on foreign affairs this afternoon will report a house resolution for immediate intervention and establishment by the Cuban people of a free and independent government. All the house republicans will support it.

Will be Unanimous.

Washington, April 13.—Efforts are making with some show of success to pass the Cuban resolutions through congress with practical unanimity.

Serious Situation.

Madrid, April 13 (3 p. m.).—The situation is regarded to-day on all sides as most serious.

Bought Ships.

Washington, April 13.—The navy department has decided to buy the transatlantic liners St. Paul and St. Louis.

Studying the Situation.

Washington, April 13.—General Lee was with the strategic board until 1:15 o'clock. At the conclusion of the meeting it was stated by those present that

GRIM VISAGED WAR!

Active Hostilities Soon to Begin
with Spain.

The Flying Squadron Ordered South
from Hampton Roads.

Spanish War Ships Viscaya and Almirante Oquendo Leave Porto Rico.

THE POPE WANTS PEACE.

New York, April 13.—Advice at the navy department indicates that Spain is organizing as rapidly as possible two powerful fleets, which will, it is supposed, be opposed to the two fleets of this country assembled at Key West and Hampton Roads, says a Washington correspondent of the Times. One fleet is forming at Cape de Verde islands, and the other at Cadiz. Naval experts think the fleet at Cadiz is intended for the defense of the Spanish coast from attack by the flying squadron, while the fleet assembling at Cape de Verde is intended for retaliatory attacks upon the coast.

SPANISH SHIPS SAIL.

Two Spanish Battle Ships Sail from Porto Rico.

Washington, April 13.—Spain's cruises, the Viscaya and Almirante Oquendo, which recently arrived at Porto Rico from Havana, have sailed from Porto Rico. It is understood that their destination is the Cape Verde islands.

It is admitted by the authorities that Spain has a force which will prevent the American navy from gaining an easy victory, and it was should break out into naval fighting may be expected.

THE POPE WANTS PEACE.

Rome, April 13.—The pope has again telegraphed Kaiser Wilhelm, and President Austria, begging him to use his influence with other sovereigns in behalf of peace between the United States and Spain.

PAPER GOVERNMENT.

Reason Given by Gen. Lee Why Cuban Insurgents Should Not be Recognized.

Washington, April 13.—The statement in General Lee's testimony which has had influence with the more radical Cuban members of the senate was to the effect that the present Cuban government was a government on paper only. He said, however, that he had no real facts on the subject and this was merely an opinion.

Lee also said that it was not true that the light in Havana went out on the night of the explosion.

Flying Squadron Sails.

Old Point Comfort, Va., April 13.—The flying squadron sails at 2 o'clock under sealed orders for the south.

It is the impression that the squadron will go on to the Cape and await further orders which may be sent it by a dispatch boat.

CABLE CONNECTION.

Line to Havana Out of Working Order This Morning.

New York, April 13.—Cable connection to Havana via Key West has been interrupted since early this morning. Cable officials are at loss to account for the happening. Messages are being sent via Kingston, Jamaica.

Later this afternoon cable via Key West became all right.

Heading Straight to War.

London, April 13.—The London newspapers express the opinion that both the United States and Spain are heading straight to war. There is also a disposition to blame McKinley for alleged indecision.

HONORING LEE.

A Reception Tendered to Him by Veterans of the Civil War.

Washington, April 13.—This morning a joint committee of the United Veterans and Confederate Veterans association of the District of Columbia, called on Consul General Lee and invited him to attend a reception in his honor at an early day.

The general said he would rather not have a reception. To an appeal from an old comrade that he could afford to surrender once in his life, especially to his friends and admirers, the general finally consented to hold the matter in abeyance until to-morrow. It is probable that the reception will not be held.

Chicago Stock Market.

Chicago, April 13.—Cattle—Receipts 10,500; market steady, to ten cents lower. Horses \$4.00 to \$4.50; cows and heifers, \$2.25 to \$4.00; Texas steers, \$3.75 to \$4.50; stock and feeders, \$3.75 to \$4.50.

Sheep—Receipts, 15,000; market steady. Natives, \$3.00 to \$4.00; lambs, \$4.50 to \$5.75.

Refuse to Concede.

Washington, April 13.—The house democrats refuse to concede the republicans and will insist on a Cuban independence report.

Party Under Arrest Who Admits Having Sold the Jewelry.

Officer Boesl this morning arrested a man suspected of having had a hand in the burglary of Gargoura Bros. jewelry store Monday night. No jewelry was found on his person, but he admitted that he helped a man to sell the stolen jewelry.

There are thought to be two other participants in the crime. One of them worked for Col. Albright for a few days.

District Court.

The case of J. B. Bushnell vs. E. W. Coggeshall is on trial in the district court to-day. Bushnell is suing for \$500 commission for the sale of some property for the defendant.

In the case of Lowenthal & Meyers vs. Santiago Baca, et al., trespass, the demurrer to defendant's special plea of prior adjudication was overruled, and leave was given to reply in twenty days.

In the case of James M. Latier et al. vs. Elias S. Stover et al., the former reference was set aside and the matter referred to W. D. Lee.

J. R. McCowan was granted an absolute divorce from his wife, Mrs. Hattie McCowan.

ALBUQUERQUE, — APRIL 13, 1936

There is a hot time in the old town of Washington.

The Silver City Independent issued a war extra on Monday.

If war must come it is a good thing the party of protection is in power.

In 1898 France had about 400,000 state officials, costing the sum of \$16,000,000 a year.

The United States will soon give Europe an object lesson in scientific naval warfare.

GENERAL LEE is emphatic in his statement that the Maine was blown up by Spanish officials.

Of the 31,000,000 population of the Kingdom of Italy, 62,000 are Protestants and 38,000 are Jews.

The property of the Presbyterian church in the state of California is estimated at \$2,000,000.

GERMAN medical experts believe that coal miners are almost entirely proof against consumption.

CONSULAR reports show that four hundred thousand Cuban reconcentrados have died since January 1, 1937.

SINCE January 24 more than 100 solid trains of steel rails have been shipped from the Illinois Steel Works to Japan.

THE bombardment of Havana by the American fleet will give great satisfaction all over this great and glorious country.

PROBES composed by the Seattle Post Intelligence show that since January 1, 14,565 persons have left for Alaska. Of these 2,983 went to Copper River.

AMERICAN bicycles are preferred in Mexico to those of any other country. Last year's exports to the republic were \$69,391 as against \$51,887 the year before.

It takes two to make a bargain, two for an armistice as much as for anything else. Spain is willing, but Gomez says the insurgents will never suspend hostilities until victory is theirs.

LAST year the Evangelical churches (Lutheran and Reformed) of Germany contributed \$1,000,000 for foreign missions, \$2,000,000 for domestic work and \$6,000,000 for inner missions.

RECENTLY published statistics show that more than a million women over the age of 15 are employed in factories and workshops in Great Britain. Eleven per cent of them belong to trades unions.

SPAIN has been fighting for centuries and since 1796 there has been scarcely a time when she was not at war at home or abroad. When she closes with the United States she will put an end to a long and turbulent career.

GEORGE GOULD shows that the rich men of the country are not devoid of patriotism when he stated the other day that not only his yacht but all his worldly possessions were at the service of the government in case of need.

HERE is a graphic picture of Spanish indifference to disaster. They gave Blanco a big ball at the Spanish Casino with 6,000 starving creatures right in sight or within sound of the revelry. It should recall the Nero story—while Rome burns.

TRAFFIC in March on western railroads was the heaviest the officials have ever known for the same time. The Burlington handled 97,000 cars, or 13,000 more than the same time last year. The Santa Fe averaged 2,300 cars a day, maintaining its increase of 10 per cent over last year.

In the event of war it is believed that Spain will abandon Cuba to its fate, as it knows the island cannot be held, and that her warships will devote themselves to the destruction of American commerce. Spain does not expect to win in a war with the United States, but believes she will inflict great pecuniary loss on this country.

A SOLDIER in the United States army is said to have invented a noiseless and flashless gun in which by means of a shutter which flies up and closes the bore immediately after the passage of the ball, there is neither detonation or flash; in fact, nothing to indicate that the gun had been discharged, except the effect of the shot upon the object at which it was fired.

THE naval supplement of the April number of the Locomotive Fireman's Magazine has been received at this office, and it contains many pages of useful information in regard to the naval strength of the United States and Spain. It is handsomely illustrated, and gives a complete account of the number of fighting vessels belonging to the two countries named.

NUMEROUS WARS. The United States has fought five wars in the 122 years since the Declaration of Independence. In each one we have triumphed. In that period England has fought six wars—not including conflicts with savages in India and in Africa. And she has lost two—both to America.

France has engaged in six, and has lost two—one with the allied powers and one with Germany. Prussia in the same period has lost two out of five wars. Austria has lost two and has gained two. Spain has lost every war she has undertaken in that period—unless her ten years' guerrilla warfare with Cuba may be called victorious.

THE DAY IT HAPPENS.

The great majority of Americans who can afford to do so take both an evening and a morning paper. There is a manifest convenience in such an arrangement, just as it is an advantage to possess more than one suit of clothes, says the Los Angeles Express. But a very large proportion of the people can afford to take only one daily, and a still larger proportion find that their leisure for reading is confined to certain hours of the day, most often the evenings.

With the busy man and woman, and with those who can afford to buy one daily newspaper, therefore, the chief consideration is not when it is read, but what it is.

This fact is emphasized in times like the present, when any minute may bring the news of occurrences fraught with the fate of nations. If congress should declare war against Spain, for instance, he is a dull patriot indeed who would be content to wait until tomorrow for the news. At a conservative estimate fully seventy-five per cent of the news of the world originates and is given to the public in the evening newspaper hours.

With respect to the news of the coming controversy with Spain, in all its phases, the percentage in favor of the afternoon paper is even greater, as any careful observer may satisfy himself.

It is very doubtful if the bill pending in congress providing for an increase of the army from 25,000 enlisted men to 100,000, and a corresponding increase in the number of officers, will be adopted.

In the first place the sentiment of the American people is overwhelmingly against a large standing army. In the second place it is believed that the expansion of the regular army would react unfavorably upon the National Guard.

The fact that this country has less than 30,000 men to use as an army of invasion in event of war with any foreign country may lead to the re-enactment of the law of 1891, which provided for the organization of the volunteer forces as a part of the general army to be used for any purpose for which the regular troops are used.

NEITHER Spain nor the United States prohibits privateering. They are the only two great powers that sanction the issuance of letters of marque to authorize private armed vessels to attack the merchant ships of an enemy.

CONSUL BRICE was forced to leave Mantanzas to save his life, and the aid sent by the west to the starving Cubans will be appropriated by the Spanish soldiery.

GEN. LEE sustains President McKinley in regard to the insurgents in Cuba. He does not favor their recognition at this time.

WAR is virtually declared against Spain, and the conflict will be a lively one from start to finish.

Every one in a while some adventurous aeronaut makes a balloon ascension, gets entangled with a cyclone and has an aerial descent. The building of aeroplanes which are intended to travel through the "blue empyrean" comfortably and at long distances has long been the dream not only of irrational and chimerical people, but of really scientific minds.

Experience, however, teaches us one fact, namely, that it needs no left hand to grasp the fact that Hottel's Stomach Bitters will relieve, surely and speedily, biliousness, whether chronic or temporary. No less efficacious is this standard medicine in cases of malarial fever, nervousness, dyspepsia, rheumatism and sick headache or dizziness.

Freight Cars Wrecked. Phoenix, Ariz., April 13.—Traffic with the Southern Pacific is temporarily suspended. Three freight cars are in the ditch a couple of miles east of Phoenix and seventy yards of track wiped out.

The accident was to the incoming train of the Maricopa & Phoenix road. A beer car left the track from a loose truck and was fairly torn to pieces by the rails it thus loosened. Two cars of Gallup coal followed. A passenger coach followed the others but was not materially damaged. No one was materially injured.

For sale by all druggists.

Raising the Tax on Beer. Judge A. L. Morrison, collector of internal revenue for the district comprising New Mexico and Arizona, has received official notice from the commissioner of internal revenue in Washington, stating that the treasury department expects that the tax on beer will be raised within a few months, and to determine the seriousness of an expected emergency has issued an order which was received by the Denver office on last Sunday. The order declares that current beer stamps will be void the moment an increase of tax is ordered, and warns brewers against buying large quantities.

The railroad depot at Hackberry was destroyed by fire the other night, together with its contents. Norman Lawler, the agent, lost all his clothing and valuables. The fire is thought to have been caused by a spark from a passing locomotive.

The Las Vegas Optic says: Eugenio Romero is in receipt of a letter from his son Ray, who is employed on one of the railroads in the state of Tennessee, in which he informs his father of his intention to become an engineer. Ray's many friends here will be glad to hear of his deserved success.

The Phoenix Herald says the appointment of B. F. Porter to be general superintendent of the Maricopa & Phoenix road is hailed with delight by the merchants of the city. Mr. Porter has been acting-superintendent of the road since the resignation of C. C. McNeil went into effect. He has shown that he is in every way qualified for the position, and the appointment was made permanent.

The Silver City Independent says: The family of Attorney W. A. Hawkins expect to leave Silver City the latter part of this week, to make their home temporarily in El Paso, where Mr. Hawkins holds a responsible position as general attorney of the White Oaks railroad corporation. The people of Silver City will greatly miss Mr. Hawkins and his estimable family and hope for their speedy return.

Something to Know. It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys, and aids these organs in throwing off the impurities of the blood. Electric Bitters improves the appetite, aids digestion and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. AN INSANE MAN. A Desert's Death in Store for Him.

Last Saturday, as passenger train No. 10 stopped at Volcano Springs, near Yuma, for water, a man stepped upon the platform and handed the following note to Conductor Sippy:

"God has told me that Edith Pashaw, the Chief Conductor, is the devil & his time began 12 o'clock & 25 minutes after the 20th of December 1897 & Air is God & Water is the Holy Spirit & Sun is the Son of God written by Thos. R. Parker, Cal. April the 2, 1898."

The Sentinel says, while Mr. Sippy was reading the note the strange messenger got off the platform from the opposite side from which he approached the train, started on a run across the desert. The wind was blowing a perfect gale and he was soon lost from view. Before Conductor Sippy realized what had happened the train pulled out and it was too late to capture the unfortunate man who was evidently insane.

CHANGE OF VENUE GRANTED. Thomas Tucker, charged With the Murder of Hippolyte Vigil, Before Judge Mills.

Upon motion of defendant's attorney Monday afternoon, Judge Mills, of Santa Fe, granted a change of venue in the matter of Thomas S. Tucker, charged with the murder of Hippolyte Vigil, to the Fourth judicial district and the preliminary hearing will be had before Judge Mills, sitting as committing magistrate.

At the hearing of the arguments for a change of venue, District Attorney Spees appeared for the territory, and E. A. Fiske for the defendant. The attorneys connected with the case are Solicitor General, Bartlett and District Attorney Spees for the prosecution, and E. A. Fiske and Charles F. Kasey for the defense.

A PICTURESQUE PERSONALITY. Such is Charles Louis Fowler, of this City—The Train Robber Terror.

In a letter to the Los Angeles Express, a writer from Santa Ana, Cal., says:

Charles Louis Fowler, who put the train robbers to flight at Grant, New Mexico, last night, is a grandson of Santa Ana's most famous, Noah Smithwick. Fowler was born in Texas in 1860, but came with his parents and grandparents to California in the following year, returning to Texas some years later. He was for a time a deputy United States marshal in New Mexico, and has been less than a year in the employ of the express company. As he is about 6 feet 3 inches in height, I don't wonder that his advent among the robbers created dismay. His home is in Albuquerque, where a wife and three children no doubt grow pale when they hear of a train robbery.

WILL NOT BE ABANDONED. The Soldiers Are Not to be Withdrawn from Fort Huachuca.

The order removing the headquarters staff, band and one regiment of the Fifteenth infantry from Fort Bayard to Fort Huachuca, Arizona, to replace the soldiers concentrated at Jefferson barracks, near St. Louis, has given rise to repeated reports of the early abandonment of Fort Bayard.

The Silver City Independent has taken particular care to carefully investigate the matter, and while, of course, army plans and movements are known only to those in authority, there is no reason to believe that these stories have the slightest foundation in fact.

Instead of being abandoned, it is believed that Fort Bayard will be made a mere station in the future than it has been in the past. Contracts have been let for the immediate building of two additional companies of cavalry. Their work will be completed during the summer, and those who are in a position to know, say that early next fall the fort will be the headquarters of the "Fighting" Seventh Cavalry and made a strictly military station.

Arrangements are already being made for numerous improvements which is sufficient evidence to refute any rumors of abandonment. During the summer months or at least until the present war is over and will not be any soldiers ordered to Fort Bayard to replace those who have gone to Huachuca.

CIVIL SERVICE.

Postoffice Clerk and Carrier, Albuquerque, May 7, 1898.

The United States civil service commission announces that an examination will be held by its postoffice board of examiners in the city above named on May 7, 1898, commencing at 9 o'clock a. m., for the positions of clerk and carrier in the postoffice in that city. Only citizens of the United States can be examined.

The age limitations for this examination are as follows: Clerk, not less than 18 years; carrier, between 21 and 40 years. Applicants for carrier must weigh at least 125 pounds, and must be not less than five feet four inches in height, and must file with their applications a medical certificate, on form 119, showing them to be not under the required weight and height, etc.

No applications will be accepted for this examination unless filed in complete form with the board at the postoffice in the city above named before the hour of closing business on April 29, 1898. Applications should be filed promptly in order that time may remain for correction if necessary.

The examination is open to all reputable citizens of the United States who may desire to enter the service, and who comply with the requirements, without regard to race or to political or religious affiliations. All such citizens are invited to apply. They shall be examined, graded and certified, with entire impartiality and wholly without regard to any consideration save their ability as shown by the grade they attain in the examination.

For application blanks (forms 101 and 119), full instructions, specimen examination questions and information relative to the duties and salaries of the different positions, apply to the secretary of the local board of examiners at the postoffice in the city above named.

When Out of Sorts

He Takes Hood's Sarsaparilla and It Sets Him Right—Whole System Strengthened by This Medicine.

"I was in such a condition that whenever I took a little cold it would settle on my chest and lungs. I was troubled in this way for several years. I tried many kinds of medicines but did not get any relief, and seeing Hood's Sarsaparilla advertised I thought I would try it. I took about four bottles of this medicine, and I began to improve after the first bottle. When I had finished the fourth, I was entirely relieved. I have kept Hood's Sarsaparilla on hand since that time as a family medicine, and whenever I feel out of sorts I resort to it and in a short time it sets me right." W. B. Woods, 528 S. The cycling season is now opening and the prevailing question is, "Where can I get the best wheel for the money I can invest?" Let us know your price. We

are certain to have a wheel that will fit it. We have good wheels only, but many styles at many prices. Hahn & Co. Casey Henry Carpenter, the warrior of Tijeras canyon, drove in to-day from the mountains to consult with Commodore Kent, in regard to having the bottom of one of the commodore's naval vessels thoroughly scraped before it leaves the canyon for the Rio Grande. The captain stated that he would return to the canyon to-morrow morning with sealed orders from the commodore, and hoped to be within shooting distance of a Spanish warship within the next forty-eight hours.

Two carloads of troops will pass through here this evening, arriving from the south at 7:05 and leaving for the west at 8:05 p. m. They are enroute from Fort Huachuca to Fort Apache. The troops located at Fort Apache and the Whipple barracks, in Arizona, who are to be transferred to eastern coast towns, will probably pass through here to-morrow night on their way east.

Word reached this city last night of a fatal shooting affray at Nogoton on Sunday night. Frank Smith, a local smith at the Confidence mine, and a Mexican miner got into a quarrel, and the latter shot and killed Kelly. The man killed is the son of the assessor of Sierra county.

Rev. Hubbard, the presiding elder of the A. M. E. church for New Mexico and Arizona, is in the city, returning from Phoenix night before last. He will leave this evening for Philadelphia, Penn., to attend a meeting of the financial board of the church, which convenes there next week.

Have you been to Madam Adelaide, the scientific palmist, at 208 south Broadway. If not, then go at once, as her time is limited. Many of the leading business men, as well as the society ladies of Albuquerque have had readings and will testify as to her marvelous power and art.

Words!

In advertising, like everywhere else, create a certain impression.

Actions!

Either verify and strengthen them or grind them to dust.

Our Intentions!

Like those of all other merchants, are to create the best possible impression with our words—our advertisements. Our highest aim is, has always been and will always be, to make the impression we have created a lasting and a growing one—by our actions, our prices and our goods, and by always having the combination of right prices and right qualities. If we say we are giving better values now in all lines, than have ever been offered before in the city, it may impress some that we are selling pretty cheap. This is an impression we can lighten for you, by showing you our goods and quoting again our prices. It may impress some (those who have never traded with us) that this is merely "talk," an impression which we can destroy in a minute, if you give us a chance to show you what we are doing. Here are a few items which must be seen to be appreciated:

ROSENWALD BROS.

THE CITY IN BRIEF.
Personal and General Paragraphs Picked Up Here and There.

Deerfoot Farm manager, Excelsior Farm manager. SAN JOSE MARKET.
Tickets for the Star Minstrels are now on sale at the drug stores of J. H. O'RIELLY & Co. and W. T. Walton.

The daughter of Mr. and Mrs. M. McCreary was taken quite ill this morning but is reported considerably better this afternoon.

W. L. Hathaway, of the Mutual Life Insurance company, left this afternoon for New York, and will be absent about ten days.

Here are being made among the sports of the city on the war situation between the United States and Spain, for war being the favorite.

The Presbyterian church was well filled last night with a crowd of our citizens, who took in the illustrated magic lantern lecture.

Hon. Eliezer Baca and Col. W. S. Williams, who were at Santa Fe on business with Gov. Otero, passed through the city last night on their way home to Socorro.

The Donahoe Hardware company plans an attractive advertisement in to-day's CITIZEN, fully realizing the importance of feeling the pulse of the people through the columns of this popular afternoon paper.

The prayer meeting at the Congregational church to-night will be a business meeting, at which matters of great importance will come up, and every member of the church is specially urged to be present. F. H. Allen, pastor.

The gentleman who borrowed the copy of the specifications of the new building to be built at the government Indian school at Santa Fe, is requested to return same to this office at once. Others are anxious to examine the specifications.

A. D. Johnson left this afternoon for the Sitton sheep ranch, in Valencia county, where he will put up a windmill for the Berggren Bros., who have just leased the ranch. Mr. Johnson is pretty well equipped for his journey overland, and expects to be absent a week or ten days.

To correct a blunder, which crept into the columns of the city paper, THE CITIZEN states that the Non-Sectarian Benevolent association met at the law office of Hon. F. W. Clancy yesterday afternoon, and not at the residence of that popular gentleman, where the members were "charmingly entertained" by Mrs. Clancy.

Mike Mandell is a warrior in every sense of the word, and is keeping himself posted on the "peace and war" doing now going on between the United States and Spain. He is now in possession of the very latest details as to the outcome

of the present difficulty, but, being sworn to secrecy by his New York friends, he is only giving out his information to those who have his confidence.

Five cents apiece for mackerel is rather cheap, isn't it? To be sure the mackerel are small, but then five cents isn't a very large amount. But if you are looking for the largest, finest, fattest mackerel that ever came to Albuquerque, you will buy one of our thirty-five cent kind; if this doesn't suit you we have another at ten cents, still another at fifteen cents, and yet another at twenty-five cents; in fact we guarantee to suit you in price and quality, on salt, smoked, or fresh fish of any kind. SAN JOSE MARKET.

Mrs. F. B. Dunlap, the main stay of the choir at the Lead Avenue Methodist church and a most estimable lady, will soon leave the city for Topeka, Kansas, where, it is understood, she will reside permanently in the future. In advance, her many friends will join THE CITIZEN in wishing Mrs. Dunlap health and success in her new field of labor.

Father R. Di Palma, S. J., returned from El Paso last night, where he had been doing some mission work. Father Gentile, who has been giving a course of missions in the diocese of Chihuahua for the past six weeks, is expected back from Mexico to night.

Mrs. John Wickstrom and son, who enjoyed the winter months at San Diego, California, have returned to the city. Mrs. Wickstrom's health is somewhat improved, but not as much as her local physician had anticipated.

Owing to the fact that Judge H. L. Warren is detained in Las Cruces, his lecture, advertised to be given at the university to-morrow forenoon, has been postponed until some future time, the date to be announced later.

Ed. L. Medler and "Tally" McKinnay, who took a ride out to Hell canyon yesterday, returned to the city at noon today, the former, who is a member of the Albuquerque Guards, expecting to be "called to arms" at once.

B. B. Jordan and son, Fulton, left last night for Gallup.

NOTICE TO THE PUBLIC.
We desire to inform the public that this firm was among the first to endorse the early closing movement among the dry goods stores and is still willing to close its store at 6 p. m. excepting Saturdays and pay days, if a general agreement can be reached. We earnestly recognize the right of our employees to have time for recreation and self-improvement. The Weinman who refuse to sign the agreement to close is not J. A. Weinman, the proprietor of the Golden Rule Dry Goods company. This statement is made to correct an erroneous impression that has been created in the minds of some of our customers.

At Eastertide.

the family man or the festive bachelor finds the necessity of providing themselves with a suit of spring clothing. They will find a handsome and stylish stock of men's and boys' clothing in the latest and most fashionable cut, in cheviots and fine woolen mixtures, in make and finish unsurpassed, at rock bottom prices.
