NUMBER 142.

WAR MESSAGE FROM McKINLEY!

Declaration of War Will Probably be Made on Monday.

TREASURY TO BE PUT ON WAR FOOTING.

Washington, April 2.—At 11 o'clock this morning a cabinet officer said that there was no change in the situation and that expected evening message was as at present until the president's message was sent to congress early in the coming week.

Preparation of the message was begun by President McKinley this morning, after conferences with cabinet officers and public men on the lines it should take. The president listened to all views, but has not expressed his own freely.

Secretary Gage and Representative Dingley, chairman of the house ways and means committee, were summoned by the president during the forenoon. The conference related to measures to be put on the treasury on a war footing. It is believed that a war revenue measure has been under consideration.

Legislation for an additional tax on beer is almost certain, in the event of hostilities, to be recommended to congress. There is no reasonable doubt that a long list of luxuries will be considered by the ways and means committee as objects of revenue legislation. In case any large amount of funds is needed to carry on the war, which nearly all visitors to the white house said now seems inevitable.

SPANISH FLOTTILLA.

Navy Department Doubts Its Arrival at Porto Rico.

Washington, April 2.—The navy department up to 10 o'clock had no confirmation of the Madrid dispatch, saying that the Spanish torpedo flotilla had arrived at Porto Rico. Some doubt is expressed that it could make such fast time. It is said, however, that it will arrive soon without interference, if it has not already done so, as no move has been made to intercept it, as advocated by many naval officers.

THE MESSAGE.

McKinley Says that His Message will be Satisfactory.

Washington, April 2.—A prominent member of the house who saw the president to-day, says that the message will be satisfactory to the republicans, and which with possibly a few exceptions will rally them and the country to his support. He says the diplomatic correspondence will be such that the republican party and the country will be proud of it, and further legal facts in the case are very ably handled by Attorney General Griggs. The message, probably, will not be sent in before Tuesday.

POOR OLD SPAIN.

The Carlists are Threatening to Rebel Against the King.

Berlin, April 2.—The German ambassador at Madrid, Herr von Kadowitz, reports to the foreign office here that the Spanish royal family fears an outbreak, unless the difference between the United States and Spain is soon settled. The Carlist movement is assuming a more active form and the royal family fears especially a general rising from General Weyler and the military party.

Everything is prepared in the royal castles for flight. The king Alfonso will be taken to San Lúcar de Barrameda, where a yacht is kept ready for sailing. Replies to the queen's letter asking for the intervention of European powers, have been wholly satisfactory.

REPORT DISCREDITED.

Washington, April 2.—A report was circulated this morning that Minister Woodford had been recalled. No cabinet officer knew anything of the recall and the report is discredited.

MARYLAND WAR FUND.

The State Will Appropriates \$200,000 to Arm the Militia.

Annapolis, April 2.—The naval cadets of the first class this morning received preliminary orders to join their ships at once. Their diplomas were given them to day without the customary final examination.

PRELIMINARY RIVALRY.

President Randal of the state senate introduced a bill appropriating \$200,000 to enable the governor to arm and equip the militia and naval reserve of Maryland.

FLOTTILLA ON AFRICAN COAST.

Madrid, April 2.—The statement cable last night that the torpedo flotilla of Spain had arrived at Porto Rico was taken from a newspaper here. Investigation shows that the announcement is erroneous. The Spanish flotilla has arrived at Cape Verde islands, and it is said will proceed after sailing.

SPANISH WAR SHIPS.

Two of the Largest Spanish War Ships Leave Havana for Porto Rico.

New York, April 2.—The Evening World prints a copyrighted dispatch dated April 1, on board the World's dispatch boat Triton via Key West, which says that the Spanish war ships Vizcaya and Oquendo no longer lie like big watch dogs across Havana harbor. They are on their way to Porto Rico. The World's dispatch boat followed them until this was made certain. They left their moorings at 3 o'clock this afternoon and started eastward along the north coast of Cuba. The Evening World correspondent boarded the Vizcaya at 10 o'clock. He was received most courteously by Capt. Eola.

"All I know about it," said he, "is that we are going away, but where I have not the faintest idea. Our orders are sealed, and I shall not open them till I am several miles out at sea."

ZOLA FREE.

His Jail Sentence and Fine Quashed by the Court of Cassation.

Paris, April 2.—The court of cassation has quashed the sentence of a year's imprisonment and 5,000 francs fine imposed on Zola, the result of the charges made by him in the Aurora against the conduct of the Esterhazy court martial, but the court has not ordered a trial be.

Waco, Texas, April 2.—W. C. Brain, the lighting editor, died at 1:45 a. m. to-day. Brain's death is the result of the shooting in this case and the sensational attack by Brain in his paper, the Iconoclast, on the chastity of the students at Baylor university, Waco, Texas. Among the students were two daughters of Captain Davis. When the two met on the street last night, they had some words, drew their revolvers and firing by both followed almost instantly.

Each combatant received three bullets. Three non-combatants were slightly wounded. Brain died from internal bleeding of the lungs. Captain Davis is suffering precisely in the same way and his death is expected at any moment.

The particular motive for the shooting in this case was the sensational attack by Brain in his paper, the Iconoclast, on the chastity of the students at Baylor university, Waco, Texas. Among the students were two daughters of Captain Davis. When the two met on the street last night, they had some words, drew their revolvers and firing by both followed almost instantly.

WANTS A BIG ARMY.

Gen. Groverman Favors Calling Out Two Million Men.

Washington, April 2.—Few members of congress to-day believe there is much hope of averting war, and those who do have their belief solely based on the fact that Spain at the last minute will yield. General Groverman says if war is declared, he is in favor of authorizing the president to call out 2,000,000 men and use as many as necessary to make the war short, sharp and decisive.

WILL NOT DELAY.

House Will Wait No Longer than Tuesday on the President.

Washington, April 2.—Representative Adams, of Pennsylvania, who is acting as chairman of the house committee on foreign affairs, saw the president and state officials to-day and afterwards consulted with the members of the senate committee on foreign legislation. It is understood that he told the executive that it would be impossible to prevent the foreign affairs committee of the house from taking immediate action, and delay beyond Tuesday was impossible.

SPANISH FLOTTILLA.

Think Spain Will Sack Down.

London, April 2.—A consensus of the views of the members of parliament is that Spain as a last resort will find some means of escaping war, for which she has no resources and which must end in not only Cuban independence, but an enormous wear and tear of Spain's already ruined burden of debt.

GENERAL SHERMAN said: "War is hell."
This is what the United States is going to give to Spain.

The election next Tuesday will show that Albuquerque is the balmy republic city of New Mexico.

The Spanish torpedo flotilla has arrived at Porto Rico, and it is safe to say that it will never return to Spain.

This people of New Mexico and northern Arizona get the war news in The CITIZEN a day in advance of any other newspaper.

There is the best of ground for believing that not later than next Monday the question of war or peace will have been settled.

At Las Vegas the democrats have fused with a lot of republican seceders, and will try in every way to defeat the republican ticket.

There is the best of reasons for believing that every American port is secure against any force that Spain can bring to bear against it.

The people of Deming complain justly of the coal monopoly in that town. Oil is selling for 15 cents a gallon at El Paso and 30 cents a gallon at Deming.

It is to be hoped there is something in the superstition that the number thirteen is unlucky. The Spanish torpedo flotilla is said to consist of thirteen vessels.

The war excitement overshadows the city election, and little attention is paid to the turbulent statesmen who claim to carry the vote of the city in their vest pockets.

The editor of the News, a boiler-plate weekly sheet of this city, gratuitously insults the colored republican voters of ward four. The editor of the News was once elected clerk of this city by these colored voters.

Another step is being taken for the establishment of the gold standard in India. After nearly five years of experiment the Indian government is not willing to go back to the old system of free-silver coinage.

A SAN FRANCISCO MAIL, Jesse Roberts by name, has been arrested for tearing the tongue from one of his horses. A fitting punishment for a wretch like that would be to have him kicked to death by a vicious horse.

There are 1,000,000 blind people in the world, or one to every 1,500 inhabitants. In England there are 23,000 blind persons, or 870 for each 1,000,000 inhabitants. In Russia and Egypt the blind constitute the largest proportionate number of the population.

As showing how exports to the United States from Cuba have fallen off since the war in that island, an official statement published in the latest consular report, shows that the total exports from the island to the United States, for the quarter ended December 30, 1935, were valued at less than \$140,000.

SPANISH SITUATION.
The Spanish cabinet is now face to face with the naked issue of surrender or fight, stripped of all confusing circumstances and diplomatic indirections.

President McKinley has sent to Spain what is virtually the ultimatum of the United States.

He has informed the Spanish government that nothing less than the inde-

pendence of Cuba will relieve the situation.
He has suggested—not formally proposed—that the best way out of the difficulty seems to be a surrender of Cuba to the insurgents for an indemnity.
He has asked for an answer during this week.
He has informed Spain that this is the last offer he can make for a peaceful settlement, and unless a favorable reply shall soon be received it will be his duty to stop all diplomatic negotiations and submit the question to congress. Spain knows what that means.
Congress will declare war next week if Spain does not weaken.

The Democrat is making a vigorous campaign against W. J. Dixon, the defendant clerk of this city, who a year ago shipped to Mexico. That paper ought to know all about Dixon's embezzlement, having printed the bogus license book by which Dixon was enabled to successfully accomplish his rascality.

The democratic boss lives in luxurious apartments in San Francisco and dictates to his henchmen the policy of the democratic party in this city. He is a republican, and a democratic boss only for the revenue he can squeeze out of the people of this city.

The republicans of ward three can win a complete victory this year. Last year the district judge and his clerk was in charge of the Atlantic & Pacific road, and, by threats and intimidation of the shop employees District Clerk Marron was elected alderman.

ONE of the most earnest persons in New Mexico in favor of a war with Spain is Mrs. Regina Salazar, of the old plaza of Albuquerque. An army of such patriotic ladies as she would clean up the peninsular kingdom in short order.

TYPHOID fever in Italy seems to be of a milder form than it used to be. In 1904 Milan had 408 cases of the disease and 260 deaths, while in 1907 she had 1,525 cases and only 242 deaths.

THE CITIZEN is informed that there is still a prospect of a good peach crop in this locality, though a portion of the apricot blossom have been blasted by the frost.

CONGRESS has adjourned till Monday, when the president will send in a special message on the Spanish question, which will most probably be followed by a declaration of war by congress.

VOTERS are urged not to lose sight of the main issue in the election next Tuesday—the election of a city council that cannot be controlled by the franchised corporations.

PAY no attention to the campaign liar, who whispers into your ears slanders against any of the candidates on either the republican or democratic tickets.

The old bachelor on the Winslow Mail says: "Very few girls who look coyly out of the corner of their eyes at the men are good housekeepers."

THE CITIZEN on Monday will probably contain dispatches announcing the declaration of war between the United States and Spain.

More Gold Mines.
Stories of big "buds" of gold reach us, not only from the Klondike, but from many parts of the country, not hitherto suspected of being rich by the precious metal.

A tremendous impetus to mining industry and the development by syndicates of capitalists of natural wealth in many directions has resulted. The exposure and hardships of frontier miners have ever been productive of rheumatism, one of the most obstinate and agonizing of complaints. As a means of ameliorating and preventing this malady, Hostetter's Stomach Bitter is unequalled. The action of this medicine is also speedily felt in cases of malaria, dyspepsia and kidney and bladder complaints. Lumbago and other infirmities incident to advancing years are also counteracted by it.

Reason.
If you are a republican and believe in the policy of protection, then why not your policy for protection against fire in that kind of old, true and tried American institution, the Insurance Company of North America, which has protected Americans to the extent of over \$20,000,000 of losses from fire. Or, if you desire to be doubly protected, take a policy of the Philadelphia Underwriters, guaranteed by two of America's foremost computing, backed by over \$15,000,000 of good American assets.

Robbed the Grave.
A startling incident, of which Mr. John Oliver of Philadelphia is the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and side, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised me to take Hostetter's Stomach Bitter, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at J. H. O'Reilly & Co.'s drug store.

Don't Tobacco Spit and Smoke Your Life Away.
To quit tobacco easily and forever, be manly, full of fire and vigor, and take 30-day Cures, the wonder worker, that makes weak men strong. All druggists, or Dr. Cures guaranteed. Booklet and sample form. Address: Sterling Remedy Co., Chicago or New York.

The cycling season is now opening and the prevailing question is, "Where can I get the best wheel for the money I care to invest?" Let us know your price. We are certain to have a wheel that will fit it. We have good wheels only, but have many styles at many prices. Hahn & Co.

The Optic says: Rev. P. A. Hubbard, presiding elder of the A. M. E. church, left for Santa Fe and Albuquerque, where he goes to Arizona. When he returns from there he will go Washington, D. C.

Very Bad.
An article in the Santa Fe New Mexican points out the great damage done that city by lack of school. It is not only no visitors refuse to reside there for any length of time because of the short school terms, but many residents send their children to the schools of other cities. Cerrillos is more fortunate in this particular. We have here an eight-months school term—Register.

Really Important.
Jose Dolores Duran, of the old town, committed suicide at an early hour this morning. Four years ago, by reason of illness, he lost his mind, since which

time he has made frequent efforts at self-destruction. Remarking from his home some time last night, he went to the street, and with a rope made by himself from an old dress, he hung himself to the branch of a small tree. When found, about 7 a. m., he was suspended by this primitive cord, his feet but a few inches from the ground. The deceased was about twenty years old and leaves a wife and a large family of children.—Las Vegas Optic.

As one of the results of the recent stockholders' and directors' meetings of the Mary Mining and Smelting company at Cerrillos, F. O. Buel, book keeper, and W. E. Technie, assayer, have severed their connection with the company. These gentlemen are recognized as finished experts in their respective professions, and the services they rendered the company were of a high character. Purely personal matters among the stockholders led to these and other changes.—Register.

Mrs. A. Laven, residing at 730 Henry street, Alton, Ill., suffered with sciatic rheumatism for over eight months. She tried to use one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. Words!

In advertising, like everywhere else, create a certain impression.

Actions!

Either verify and strengthen them or grind them to dust.

Our Intentions!

Like those of all other merchants, are to create the best possible impression with our words—our advertisements. Our highest aim is, has always been and will always be, to make the impression we have created a lasting and a growing one—by our actions, our prices and our goods, and by always having the combination of right prices and right qualities. If we say we are giving better values now in all lines, than have ever been offered before in the city, it may impress some that we are selling pretty cheap. This is an impression we can lighten for you, by showing you our goods and quoting again our prices. It may impress some (those who have never traded with us) that this is merely "talk," an impression which we can destroy in a minute, if you give us a chance to show you what we are doing. Here are a few items which must be seen to be appreciated:
