## "FREE CUBA!" THE WAR CRY.

Resolutions Introduced In Congress  
for the Independence of Cuba.

SPANISH AUTHORITIES TRYING TO AVOID WAR.

Washington, March 29.—Senator Foraker offered a resolution for Cuban independence. Foraker spoke of the delays caused by the DeLoe incident and the Maine incident, but declared that the Cuban question would come up, whatever was done with the Maine. Fry introduced a resolution relating to the condition of Cuba, and directing the president in his discretion to take steps to drive the naval and military forces of Spain from the island. The three resolutions went to the foreign relations committee.

### PROSPECTS OF PEACE.

Minister Woodford confident that peace will soon prevail.  
New York, March 29.—A dispatch to the Herald from Madrid says: Although the American minister, General Woodford, stoutly refuses to be interviewed, he stated to a prominent gentleman of Madrid that he was entirely confident that early and effective peace would be secured between Spain and the United States, a peace consistent with the honor of the Spanish people and that it would secure justice to Cuba and effective protection of the great American interests in that island.

### PEACE PROPOSALS.

Spain Wants Peace, if Her Honor and Dignity is not Disturbed.  
Madrid, March 29.—Public opinion is greatly affected by a belief that the difficulties between Spain and the United States will be arranged in a friendly manner. The newspapers place great stress upon a conference between General Woodford, United States minister, and Senor Sagasta, premier, to take place at 4 o'clock this afternoon, expressing a belief that it will have important pacific results. Spanish newspapers say that the government of Spain has decided to do everything possible to avoid war, if the honor and dignity of Spain are not affected.

### WHAT BLANCO BELIEVES.

He Thinks the American in Havana Will Precipitate Trouble.  
Washington, March 29.—Captain General Blanco sent a communication to Washington saying that he believes that a demonstration may be precipitated by any movement by certain American of strong anti-Spanish tendency now in Havana. The suggestion that the Weyler element is threatening riots is emphatically repudiated by Blanco, who expresses complete confidence in his ability to preserve quiet among the native people.

### IN DANGER OF RIOTS.

Bitter Feeling in Havana Against Americans May Result in Bloodshed.  
Chicago, March 29.—A dispatch to the Chronicle from Washington says: General Lee has cabled to the state department that the situation at Havana is critical. There is danger, he says, of riots growing out of the intense feeling among the Weylerites against Americans.

Captain Sigbee at Home.  
Washington, March 29.—Captain Sigbee arrived at Washington from Havana to-day. The captain's neighbors decorated their residences with flags. Many of his friends sent large bouquets as expressions of friendship and esteem. At 10:30 o'clock the captain went to the navy department to report. He would be ready, he said, as soon as he could get his wardrobe replenished, to go anywhere or perform any duty that might be given him.

Cabinet Meeting.  
Washington, March 29.—After the cabinet meeting to-day, Secretary Alger made the following statement: The members of the cabinet are all in hearty accord with the president. The country can well afford to await the result of negotiations which will be promptly made known.

Chicago Stock Market.  
Chicago, March 29.—Cattle—Receipts, 1,600; steady.  
Hogs, \$5.85@5.40; cows and heifers, \$2.25@4.50; Texas steers, \$3.00@4.75; stockers and feeders, \$3.70@4.75.  
Sheep—Receipts, 15,000. Market steady to strong.  
Native sheep; \$3.00@4.80; westerns, \$3.80@4.75; lambs, \$4.60@5.50.

President's Peace Proposals.  
London, March 29.—The Pall Mall Gazette voices the general tone of the newspapers in this city in saying that President McKinley's message to congress

those willing to resume work. Agent Bean and several police officers were struck with stones but no one seriously hurt. After the machinery started the strikers disappeared.

Spain Wants Delay.  
Washington, March 29.—Senators who talked with the president to-day say that the proposition for an armistice came from Spain. He insisted that an armistice must be coupled with other conditions which Spain has not shown a disposition to accept. It is stated by one senator that matters would be brought to a head within a short time.

No Message To-Day.  
Washington, March 29.—There will be no president's message regarding Cuban affairs to-day, unless a sudden change should occur in the situation such as is not foreseen at this writing.

For Cuban Independence.  
Washington, March 29.—Senator Hawley, of Utah, introduced a joint resolution recognizing the independence of Cuba and declaring war against Spain.

FAVORABLE TO NEW MEXICO.  
Colorado Railroad Makes Settlement with Union Pacific.

New York, March 29.—It is announced that the Union Pacific, Denver & Gulf committee has secured control of the Colorado 7 per cent bonds, and likewise made a complete settlement with the Union Pacific re-organization committee of all the matters in controversy. Speedy re-organization is now looked for.

President's Nominations.  
Washington, March 29.—The president has sent the following nominations to the senate: Campbell L. Maxwell, Ohio, consul general at Santo Domingo; Louis Kaiser, Illinois, consul at Mazatlan, Mexico.

COLORED TROOPS.  
Colored Regiment Ordered from Montana to Dry Tortugas.

Washington, March 29.—By direction of General Miles orders were issued to-day for the transfer of the 25th regiment of infantry to Dry Tortugas. The fact that this regiment is made up of colored troops, is regarded as showing the purpose of the war department to concentrate colored troops in the vicinity of Cuba, negroes being better able to withstand the Cuban climate than the white man. The 25th regiment has been located at Fort Missoula, Assiniboine and Fort Harris, Mont., for eighteen years.

Massacre of Derivies.  
Cairo, March 29.—It is officially announced that the gendarmes and Anglo-Egyptian troops attacked Shendi on Saturday and destroyed the forts, captured quantities of grain, cattle and ammunition and liberated over six hundred slaves, mostly Jeddites. The Derivies lost 160 men. There were no casualties on the Anglo-Egyptian side.

Murder of a Family.  
San Antonio, Texas, March 29.—The whole Lee family, consisting of father, mother and two small children, were murdered on a ranch near Paint Rock. It is believed that the murderers were two men to whom lodging was refused. An axe was the weapon used.

Plot to Assassinate the Sultan.  
London, March 29.—According to a dispatch from Bucharest, the outbreak among the Albanians and Kurdish troops in the barracks at Yildiz palace, Constantinople, on the evening of March 15, was, in reality, a slight which followed the discovery of a plot to assassinate the Sultan. One hundred men were killed.

Under the Stars and Stripes.  
Berlin, March 29.—Lieut. John J. Knapp detached from the United States cruiser San Francisco, to-day hoisted the stars and stripes over the torpedo boat purchased for the United States at the Schichau yards. She was renamed the Somers.

HOMER GILMORE SHOT.  
Acting as Deputy Sheriff, in Mississippi, is Shot by a Desperado.

The following dispatch appeared in the Dallas News of the 23d:  
Senatobia, Miss., March 21.—In a shooting affray here to-day, Sheriff W. H. Bray was killed and Deputy Sheriff Homer Gilmore dangerously wounded. The row began between Ashley Cooke and Homer Gilmore. Cooke emptied his pistol at Gilmore, three shots taking effect, while Gilmore missed his assailant. Cooke then walked across the street, meantime re-loading his pistol. Sheriff Bray, hearing the shooting, hastened to the scene, and getting within a few paces of Cooke, drew his pistol and ordered him to throw up his hands. Cooke at the same time calling out to the sheriff not to come any further. Bray fired, but missed, and then Cooke, taking aim, shot his antagonist through the heart.

Senatobia is the home of Mr. Gilmore, where he went immediately after leaving Eddy. He was a resident here for many years and is well known throughout the valley. It is hoped that his injuries will not result seriously.—Eddy Argus.

The stock train wreck.  
J. R. Hurley, division superintendent, came from the north last night, and is to-day at the cattle train wreck near San Antonio. The railroad company, so it is stated, has ordered all cattle killed in the accident skinned at once, and the "fresh meat" are given to the people of the neighborhood.

The latest report of the injured is that McClure, the head brakeman, will not survive his internal injuries, but that Clark, the fireman, stands a fair chance of recovering, although he is badly hurt.

The engine of the ill-fated train was Emory Constock, one of the oldest engineers on the New Mexico division of the Santa Fe railway, and for a few months occupied with his family, one of the company's cottages on south First street.

Special officers are working on the case. It being absolutely positive that the accident was caused by wreckers, and some are of the opinion that the funds reside in the vicinity of the wreck.

### FAMILY MURDERED IN TEXAS.

Washington, March 29.—In the senate to-day Senator Mason made a vigorous war speech. He said that if ninety of the Maine victims had been senators or some of senators would not have been forty days in declaring war. Yet the lives of all Americans were sacred alike under our laws and equally entitled to consideration. Senator Mason said that the catastrophe should be repelled vigorously. He was for war, and this declaration brought out a vigorous outburst of applause from the crowded galleries.

### ATTEMPTED TRAIN ROBBERY.

The Robbers Selected Gracie Station on the Santa Fe Pacific.

A little past midnight, last night, the west-bound passenger train, No. 1, under Conductor Charles Berry, was in the hands of robbers at Gracie, on the Santa Fe Pacific, but they failed to secure any booty, although a bullet struck Fireman Judson Lathrop in the right leg.

When No. 1 pulled out of the local depot at 8:50 o'clock last night, with B. A. Workman, engineer, and Judson Lathrop, on No. 110 engine, it was fifteen minutes late, and was due at Gracie, on its time, at 12:30 a. m.

Just as the train came to a stop at Gracie station, one of the robbers opened fire, and it is stated, that Conductor Berry, who was on the platform, ran around the depot in order to escape the flying bullets.

Express Messenger C. C. Lord, who was in the recent train robbery at the same station, and Special Guard Chas. H. Fowler, realizing that the train was in the hands of robbers, opened the door of the express car and commenced shooting back at the robbers, several of the latter having by this time put in an appearance.

One of the robbers, who had taken his position in front, shot out the headlight of the engine, and ordered Engineer Workman to pull up the train, to a point where, no doubt, they intended to blow open the express car. The engineer complied with the robber's positive request, leaving the conductor at the depot, but after running the train a few hundred yards the engineer backed back to the depot. The robbers in the meantime had realized their failure and had decamped in the direction of the lava beds, and it is almost positive that they carried away with them one of their number who was evidently hit by a bullet from either Fowler or Lord.

After the failure of shots, Conductor Berry wired the facts to Trainmaster Allen, at Gallup, who transmitted the information forthwith to Superintendent Wells and Division Superintendent Hibbard, who had arrived here on No. 2, last night, to meet C. M. Higginson, assistant to President Hiley.

Acting on advice, Trainmaster Allen collected together a posse of men, well armed, at Gallup, and at daylight this morning they were in the saddle and in pursuit of the robbers.

In a special train, from here this morning, was Fred. Fornoff, who joined the posse organized at Gracie at 1 o'clock yesterday morning, and with two possees in the field it is hoped that the robbers will be captured.

A short time ago the saloon of Kitchen & Kennedy, at Gallup, was held up and robbed in broad daylight, and it is thought by Marshal Green, of that town, that the perpetrators of last night's attempted train robbery were the same persons.

How Lathrop received his wound is not known here.

Judson Lathrop, the fireman on the train, who was shot in the right leg below the knee, was brought to this city on Conductor Nohl's freight train this forenoon and was taken to the railroad hospital, where the wounded member was operated upon by Doctors Cornish and Kilder. The bullet remained in the leg and the X ray was applied in the hope of showing where it was situated. No trace of it, however, could be found as the ball was evidently located between the bones, through which the X ray does not penetrate.

Mr. Lathrop is still under the influence of antiseptic administered prior to the operation, so his story of the hold up could not be secured.

## ARIZONA LAND GRANTS.

Cases Affecting Cochise County Before the U. S. Court.

The supreme court of the United States is in session at Washington, and considering land grant cases now before that body. The hearing of the cases will occupy much of their time and attention, and most of them will affect Arizona, there now being six cases before that body.

The Canon grant of 20,000 acres, and San Bernardino grant of 13,000 located in this county will be heard. The Perrin or Barbacon grant question in Cochise county will also be decided. The Barbacon grant originally claimed 130,000 acres, but now only 30,000 acres are asked for. The United States holds in nearly all of the cases and particularly in the Barbacon grant that the claim was not located as per Gadsden treaty of 1853, and it was also condemned by Santa Ana. The lower court decided this grant in favor of the United States, but was appealed by John Perrin, who claims the title, and is represented by Senator Morgan and Byron Waters, of San Francisco.—Tumbleton Prospector.

## A Lively Runaway.

While the delivery team of the Whitney Company were standing unattended in the alley back of the First street store this morning and some sewer pipe were being unloaded, they became frightened at something and started off on a wild gallop. They turned to go west on Railroad avenue and as they did so the wagon swung around in grand style and covered the plate glass windows of the new Boardwalk building with bushes of dirt, which was lying loose in the street. When they nearest Phelan's drug store the running team decided to try the concrete sidewalk. In doing so the wagon tipped over, and the horses were thus checked in their wild course. No considerable damage was done either to the horses or the wagon, although the glass front in Phelan's drug store had a very narrow escape.

Lost—A buckskin mare pony, black mane and tail; white face. Liberal reward will be paid for return to Staerkel Schaff, No. 323 North Broadway.

# Words!

In advertising, like everywhere else, create a certain impression.

# Actions!

Either verify and strengthen them or grind them to dust.

# Our Intentions!

Like those of all other merchants, are to create the best possible impression with our words—our advertisements. Our highest aim is, has always been and will always be, to make the impression we have created a lasting and a growing one—by our actions, our prices and our goods, and by always having the combination of right prices and right qualities. If we say we are giving better values now in all lines, than have ever been offered before in the city, it may impress some that we are selling pretty cheap. This is an impression we can lighten for you, by showing you our goods and quoting again our prices. It may impress some (those who have never traded with us) that this is merely "talk," an impression which we can destroy in a minute, if you give us a chance to show you what we are doing. Here are a few items which must be seen to be appreciated:

Two first-class thoroughbred horses, "Oleander" and "Lady Grace" arrived in the city last night from Los Angeles, in the care of a trainer. The former has a record of 2:08 and the latter 2:12. They belonged to W. A. Wrisberg, but were recently sold to a Philadelphia horse-man. The horses are at the Red Barn, on west Copper avenue, and will rest up here for a few days.

The Highland house, one block east of the depot, will change hands on the 1st of April, and D. M. Wright, a popular young gentleman, has been chosen by the house as manager. Big improvements have been going on at the Highland the past few weeks under the personal eye of Mr. Wright, and guests can now be accommodated in the most improved city fashion. THE CITIZEN speaks for the Highland a big run of business in the future.

Small bands of democrats are noticed scattered here and there, at the various street corners, discussing the advisability of running this and that candidate for mayor, but all have concluded to withdraw their names except J. H. O'Reilly. At this hour—4 o'clock p. m.—he is still on the track.

Have you gotten a spring wrap? If not see the lovely ones at Lee Big Store. Price is all right too.

J. W. Cooper, the ranchman on the Pecos up in the Huertillas, is in the city today.

Attend the republican primaries this evening.

## SHOES SOLD AT COST.

A Simpler, the Large Shoe Merchant, Going Out of Business.

Having concluded to go out of the retail shoe business in this city, A. Simpler, commencing to-day, will sell his entire stock of shoes at cost. He carries an \$8,000 stock of shoes and of the very best makes. The stock is at present very complete, and it will pay persons to lay in a good supply of footwear now, for a similar opportunity to get such bargains will probably not be given for years in this city.

Those who come first will have a pick of the entire stock, and cannot fail to find something that suits their tastes. The sale will be continued until every pair of shoes in the store is sold, as well as the fixtures. Call early, so as to be sure of finding just what you want.

Mrs. Harry Hunter and children, having abandoned house-keeping, are now domiciled at Sturge's European. They will leave to-morrow night for Williams, Arizona, where Mr. Hunter is now holding a position for the Santa Fe Pacific railway.

William Frazer, the Chitili sheep raiser, drove in from his ranch late yesterday afternoon, and he reports the country in his immediate neighborhood, in bad condition at present for sheep raising, the cold winds having dried up the water holes and thinned out the grass.
