PRESIDENT'S MESSAGE MAINE EXPLOSION!

Consul General Lee Preparing for Hostilities at Havana.

ELECTIONS IN SPAIN AND CUBA.

Washington, March 28.—The president to-day sent the following message to congress:

To the Congress of the United States:

For some time prior to the visit of the Maine to Havana harbor our consular representatives pointed out the advantages to follow the visit of our national ships to Cuban waters, in ascending the people to the presence of our flag as a symbol of good will and our ships in fulfillment of a mission of protection to American interests, even though no immediate need thereof might exist.

Accordingly on the 25th of January last, after conference with the Spanish minister, in which renewal of visits of our war vessels to Spanish waters was discussed and accepted, the particular authorities at Madrid and Havana were advised of the purpose of this government to resume friendly naval visits to Cuban ports, and in that view the Maine would forthwith call at the port of Havana.

This announcement was received by the Spanish government with appreciation of the friendly character of the visit of the Maine and with a notification of an intention to return the courtesy by sending Spanish ships to the principal ports of the United States.

Meanwhile the Maine entered the port of Havana on the 25th of January, the arrival being marked with no special incident besides the exchange of customary salutes and ceremonial visits. The Maine continued in the harbor of Havana during three weeks following her arrival. No appreciable excitement attended her stay; on the contrary a feeling of relief and confidence followed the resumption of long interrupted friendly intercourse. So noticeable was this immediate effect of her visit that Consul General Lee strongly urged that the presence of our ships in Cuban waters should be kept up by retaining the Maine in the event of her recall, by sending another vessel there to take her place.

At forty minutes past nine on the evening of the 15th of February, the Maine was destroyed by an explosion, by which the entire forward part of the ship was utterly wrecked. In this catastrophe two officers and two hundred and sixty of her crew perished; those who were not killed outright by the explosion being pelted between decks by the angle of wreckage and drowned by the immediate sinking of the hull. Prompt assistance was rendered by neighboring vessels anchored in the harbor, and being especially aided by the boats of the Spanish cruiser Alphonso XIII and the Ward line steamer City of Washington, which lay not far distant.

The wounded were generously cared for by the authorities of Havana, the hospitals being freely opened to them, while the earliest recovered bodies of the dead were interred by the authorities in the public cemetery in the city. Tributes of grief and sympathy were offered from all official quarters of the island.

The appalling calamity fell upon the people of our country with crushing force, and for a brief time an intense excitement prevailed, which, in a community less just and self-controlled than ours, must have led to hasty acts of blind resentment. This spirit, however, soon gave way to the calmer processes of reason and to resolve to investigate the facts and await material proof before forming judgment as to the cause and the responsibility, and if the facts warranted, the remedy to be used.

The usual procedure was followed as in all cases of casualties or destruction to national vessels of any maritime state. A national court of inquiry was at once organized, composed of officers well qualified by rank and practical experience to discharge the onerous duty imposed upon them. And by a strong force of wreckers and divers the court proceeded to make a thorough investigation on the spot, playing every available means for the impartial and exact determination of the causes of the explosion. Its operations have been conducted with the utmost deliberation and judgment, and while independently pursued, no course of information was neglected, and the fullest opportunity was allowed for simultaneous investigation by Spanish authorities. The finding of the court of inquiry was reached after twenty-three days of continuous labor, on the 21st of March, and having been approved by the 223 by the commander-in-chief of the United States naval force on the North Atlantic station, was transmitted to the executive. It is herewith laid before congress, together with the voluminous evidence taken before the court. Its purpose is in brief as follows:

When the Maine arrived at Havana she was conducted by a regular government pilot to buoy No. 5, to which she was moored in five and a half to six fathoms of water. The state discipline on board and the condition of her magazines, boilers, coal bunkers and storage compartments are passed in review with the conclusion that excellent order prevailed, and that no indication of any cause for internal explosion existed in any quarter. At 8 o'clock on the evening of February 15th everything had been reported secure and all was quiet. At forty minutes past nine o'clock the vessel was suddenly destroyed by two distinct explosions, with a brief interval between them. The first lifted the forward part of the ship very perceptibly; the second, which was more prolonged, attributed by the court to a partial explosion of two or more of the forward magazines. The evidence of the divers established that the after part of the ship was practically intact and sank in that condition in a very few minutes after the explosion. The forward part was completely demolished. Upon the evidence

THE MAINE EXPLOSION!

Report of the Court of Inquiry Submitted to Congress.

The Ship was Blown up by a Submarine Mine.

Several minor changes were made in the wording of the message, and after it had been dispatched to the capital some time was spent in reading of late messages from Minister Woodford, although the details of these dispatches are not made public, it is thought they are reassuring in character, and give a basis for belief that the present strained relations may yet be satisfactorily relieved. A member of the cabinet said to-day that the contents were much more hopeful than three days ago.

TRANSFER OF TROOPS.

Fort Whipple, Arizona, and Fort Bayard, N. M., to be Abandoned.

Washington, March 28.—Major General Miles issued an order to-day transferring headquarters and six companies of the Eleventh Infantry, in the department of the Colorado, to Jefferson Barracks, Mo., and has also directed the commanding general of the department of Colorado to order the headquarters staff and band of the Fifteenth Infantry from Fort Bayard, N. M., to Fort Huachuca, Ariz., and one company of the Fifteenth Infantry from Fort Bayard to Fort Apache, Arizona.

Orders were also issued discontinuing the post of Whipple Barracks. Although they do not seem to do so, these orders may have a bearing on the proposed repositioning of troops for use in a possible emergency.

ELECTION IN SPAIN.

The Spanish Ministry sustained by a Large Majority.

Madrid, March 28.—In Madrid there have been elected five ministerial candidates, one conservative, one republican and three liberals. The principal returns slowly coming in indicate the election of a large majority of ministerialists, a respectable conservative majority and a very few republicans and Carlists.

The governor general has cabled that it was impossible to foresee the result of the election in Cuba.

The date for assembling the cortes was fixed originally for April 25th, but may be summoned directly after senatorial election, April 14.

In the election at Barcelona to fill vacancies there, three monarchists and three republicans were returned. The monarchist candidates were ignominiously defeated. The liberals obtained all the other seats to the province except one, for which a Catalan home ruler was returned.

PATRIOTIC SAILORS.

The Navy is Ready for Business All Along the Line.

Fortress Monroe, March 28.—Commodore Schley left Washington last night and arrived at Fortress Monroe early this morning. At 9:30, after breakfast, Commodore Schley went aboard the Brooklyn to begin active service. Within a half-hour after boarding the ship Commodore Schley, in full uniform, stepped to the bridge of the Brooklyn, and, reading his commission as commander, assumed possession. At the same instant his flag was broken from the Brooklyn's mast head and one of the big guns belched forth a salute, which was answered from the Massachusetts lying near. Then enthusiasm broke loose and there was a roar of applause from the deck and the yards.

Commodore Schley said this morning to an Associated Press representative: "I have no orders to move nor do I know when any will come. We are ready to move at the shortest kind of notice upon completion of the fleet."

Illness of Miss Davenport.

Chicago, March 28.—The condition of Miss Fannie Davenport, the actress, which was reported as extremely critical last night, is said to be slightly improved today. The patient was at death's door and slender hopes of her recovery are entertained.

No Note From Spain.

Madrid, March 28.—Some Spanish premier, declares that the Spanish government has not sent a note to the government of the United States on the subject of relief of the Cubans.

Looks Well.

Washington, March 28.—Commander Horace Kimball has been detached from the Cramp's navy yard and ordered to command the "Albatross" fleet, to be formed of all craft that can carry a gun.

No Armistice.

Washington, March 28.—It can be stated positively that there will be no agreement on the basis of an armistice for eight months or any other period.

DISTRICT COURT NEWS.

Case Against F. W. Hamm for Embezzlement on Trial—Other Matters.

The case of the territory vs. F. W. Hamm, indicted for embezzlement, is now on trial in the district court. It took the greater part of the morning session of the court to empanel the jury and the prosecution is putting in the evidence this afternoon.

The embezzlement is alleged to have occurred while the firm of Hamm & Kile were associated with L. B. Putney in the sheep business.

Mr. Hamm was first arrested last summer on the complaint of Mr. Putney, who charged him with embezzling about \$4000. Mr. Hamm was bound over to the October grand jury, which, however, returned an indictment against Mr. Hamm for embezzlement. The outcome in the criminal action will have an important bearing on the suit for damages, and will be stubbornly fought by both sides. Neil B. Field, an attorney for Mr. Putney, will assist District Attorney Finch in the prosecution. Warren, Ferguson & Gillett represent Mr. Hamm.

Saturday Judge Crumpacker granted a divorce to Miss V. von Berger Howard from her husband, W. L. Howard.

Burnham, Hanna, Munger & Co. have commenced suit against B. L. Shaw on a claim of \$129.25.

The Dunn Seed and Flower Co. have started a suit against J. S. Hinnell for a claim of \$130.

The Southern Pacific railroad company has commenced suit against Feliciano and Roberto Archibque et al for condemnation of land near Algodones.

In the case of the First National Bank vs. John A. Lee, Summers Burkhardt was appointed guardian ad litem for Frederick and Wm. E. Talbot, minors.

In the case of Wallace Douglas vs. Charles W. Lewis et al, the demurrer to the replication to the sixth and seventh pleas, was overruled.

REPUBLICAN CITY CONVENTION.

A delegate convention of the Republicans of the city of Albuquerque will be held at the city hall on Thursday evening, March 28, 1908, for the purpose of electing delegates to the state convention to be held at Santa Fe, N. M., on April 10, 1908.

Ward 1.—At the city hall, and will be called to order by J. J. Rourke.
Ward 2.—At No. 1000 N. 1st St., and will be called to order by J. J. Rourke.
Ward 3.—At the city hall, and will be called to order by J. J. Rourke.
Ward 4.—At the city hall, and will be called to order by J. J. Rourke.
Ward 5.—At the city hall, and will be called to order by J. J. Rourke.

Chairman City Republican Committee, S. J. CLANCY, SECRETARY, S. J. CLANCY.

According to the Trades Journal the present production of pig iron, 235,000 tons per week, is the largest ever known.

This city democratic convention will be held to-morrow evening, providing that the boys have secured a candidate for mayor.

The "curse of gold" is afflicting this country in a way that is pleasing to the people. Millions of the stuff is coming to this country from Europe.

Russia has the most rapidly increasing population of any country in the world. The growth during the last 100 years has been a fraction less than 1,000,000 annually.

It is said that the patterns on the finger tips are not only unchangeable through life, but the chance of the finger tips of two persons being alike is less than one in 64,000,000,000.

COLORADO SPRINGS, Colo., is filled up with one-lungers from London, and they are circulating a peace petition to President McKinley, urging him not to irritate Spain and bring on a war.

The Wesleyan Methodist church of England is trying to raise \$1,000,000 to commemorate the commencement of the twentieth century. Their plan is to have 1,000,000 Methodists guarantee \$1 each.

The St. Louis Globe-Democrat says that an issue of ten million patriotic postage stamps, to be purchased by Spanish subjects in popular aid of a war fund, will not prevent that country being lied.

THERE appears to be no doubt of the president's power to call out the militia in case of war, and if the militia all should be called out in the event of trouble with Spain 114,000 men would be added to the army.

In the Crimean war 63.5 per cent of the amputations proved fatal. Antiseptic surgery has reduced the fatality so that in our civil war only 48.1 per cent proved fatal, and in the year 1899 the mortality had been reduced to 6.9 per cent.

OTHER occasions in the nation's history when war seemed likely or imminent were: With England in 1793 as an ally of France, with France in 1797 as a result of the capture of American merchantmen by French privateers, with England in the 40's over the Oregon boundary line, with France over the St. Mexico in 1847, with England over the Alabama claims and again over the Venezuela boundary in Cleveland's last administration.

AMERICAN NAVY.
The American navy has practically all been built since 1883.
At present the total enlisted force of the naval militia is 3,570 officers and men.

A big battle ship has on board an electric plant capable of lighting a town of 5,000 inhabitants.
The guns of a battle ship can carry from six to twelve miles, hurling a shot weighing half a ton.

Only 60 per cent of the enlisted men are Americans, and a smaller percentage yet are native-born.
Those artists who show smoke in their pictures of naval battles are wholly wrong. Smokeless powder is used.

All of the cruisers are named in honor of the cities, and the battle ships, except the Kearsarge, in honor of states.
Battle ships cost from \$2,000,000 to \$3,750,000, and cruisers from \$600,000 to \$1,000,000. A good torpedo boat costs over \$100,000.

The amount expended by the navy department in 1897 was \$34,561,544. This is a larger sum than has been expended in any year since 1893.

Some of the guns in the navy can fire

a shot twelve miles, farther than a man can see, for the guns are aimed and sighted by machinery.

The biggest guns in the navy are forty-nine feet long, big enough for a man to crawl into four feet in diameter at their largest part and weigh 135,000 pounds or 13 tons.

The powder used is brown and in chunks the size of a caramel. A charge for the biggest guns weighs 500 pounds, and is hoisted to the breech by a derrick, the powder being sewed up in burlap bags.

The United States is the fifth naval power in the world. The navies of Great Britain, France, Russia and Italy rank ahead in the order named, Germany and the United States are about tied.

SLAIN IN BATTLE.

Since the birth of Christ 4,000,000,000 men have been slain in battle. Before the beginning of the Christian era the losses cannot be estimated, owing to the very indistinct inaccurate accounts that have been handed down.

The civil war cost 333,000 lives. Of this number 98,099 were slain in battle. The vast army which succumbed to disease was no less than 184,811 while the remaining 20,000 or so died of wounds received.

At the battle of Waterloo 51,000 men were killed or disabled. There were 145,000 soldiers in that great struggle, and it is estimated that one man was either killed or wounded for every 400 shots fired, counting both the artillery and rifle shots.

In the Crimean war 95,615 lives were sacrificed, and at Balaclava, when the French and Russians fought, 78,000 men were left dead on the battlefield. There were 250,000 troops in combat in that engagement.

In the Franco-Prussian war 77,000 Frenchmen were killed. The Germans fired 30,000,000 rifle shots to attain this result. During the same war the Germans fired 363,000 artillery charges.

Of the 95,615 men who perished in the Crimea, 50,000 were Turks and Russians. In 1851 a great upsurge was caused because Englishmen took up all the skeletons they could find, brought them to England and converted the bones into fertilizer. It is said that nearly the entire 80,000 skeletons of the Turks and Russians were thus made into money.

At Cana, however, where the Romans suffered the worst defeat in their history, it is said that 52,000 of their soldiers were slain. The Roman army in this battle consisted of 145,000 men—the picked brawn and sinew of the empire.

In none of the battles mentioned was dynamite used. In the wars of the future this terrible agent of destruction must be reckoned on. Also, who have studied the mortality statistics of the past should at the thought of what may be in store in the wars that are to come.

SPAIN IN AMERICA.

Spain has never conducted a more honorable transaction with this country. Its dealings have been marked invariably by treachery, arrogance, massacre and murder. Its series of national crimes in American waters and lands began in 1513, and the people are waiting calmly for the decision of the board of inquiry to decide whether the royal course of bloodshed, deceit, misrule and cruelty in the western world shall not stop in the wrecking of the Maine. It may be that this act will be the final scene in the dark tragedy which has been on the boards for nearly 400 years.

You will get the war news fresh from the wires by subscribing for THE CITIZEN.

PORT WINGATE.

Special Correspondence.
Port Wingate, N. M., March 26. — Mrs. Parkins is a new arrival at the post. She is visiting her sister, Mrs. Mary Kimball.

The quartermaster received twelve cavalry horses from Lathrop, Mo., a few days ago for distribution to troops at Fort Huachuca. An exceedingly good concert was rendered by the Second Cavalry orchestra on Friday evening. A very large and appreciative audience was present.

Private Downey, hospital corps, United States army, arrived here on the 20th inst., being sent to this post from Fort Logan, Colo.

Veterinary Surgeon William V. Lusk, Second Cavalry, left this post a few days ago for Fort Huachuca, Kansas, to duty as medical treatment.

Quartermaster Sergeant Christian Briand has returned from Junction City, Mo., where he has been visiting for the past month.

Commissary Sergeant John Grobe is still confined to his quarters with rheumatism.

Private William Mulligan, troop E, Second Cavalry, returned to the post today from Mountain View, California, where he has been spending his furlough with his family.

Fred. Riley, manager for W. F. McLaughlin & Co., has been absent for several days visiting the different ranges in this vicinity. The store looks quite deserted without his genial countenance.

Charles Cox, wife and children, are new arrivals at the post. Mr. Cox transferred from the Eighth Infantry band to the Second Cavalry band. Mr. and Mrs. Cox are quite an acquisition to the post.

JEMEE HOT SPRINGS.

Special Correspondence.
Jemee Hot Springs, March 26. — The latest arrival at the springs is Andrew Schaub, from Old Alamogordo, who came in Thursday night, nearly frozen, with Gabriel Armijo, and intends to stay several weeks, seeking relief of a bad case of kidney trouble. He is comfortably quartered at the Palace and under the special care of Miss Hot Zollihofer.

Captain John Petard and wife are enjoying their stay here at the water cure. They claim to be in the best of health, and seem to be rejuvenated. The captain is ready to declare he is ready to fight as soon as war is declared.

Col. A. B. Balch, from El Paso, who could not walk a step without pain when he came here two weeks ago, is now challenging everybody to run him a foot race.

Kumbudo, N. M., March 25. — Waiting to take the train for Santa Fe, where I expect to spend the approaching week, I have just returned to this place from Dulce and Durango, thought I would pen you a few lines.

I have just returned to this place from Dulce and Durango, thought I would pen you a few lines.

Mr. Jacobs died in Santa Fe at 3:30 a. m. on the morning of the 21st inst. He had been gradually failing in health for several months, but not rapidly until about a week before his death. I felt sure to leave him last Saturday at 3 p. m., but felt almost compelled to attend my quarterly meetings at Valverde and San Antonio, hoping I might see him again, but Monday morning when I felt his body be embalmed for shipment to Dulce, where much of his work in the Methodist ministry had been done.

Mr. Jacobs was born in Maine in 1841. He was a member of the Methodist church, and was a good worker in the service of the church. He was a good worker in the service of the church.

RABBI GREENBURG.

He delivered a Very Interesting, Sensible Lecture Yesterday.

Our Jewish fellow citizens are to be congratulated on having secured the services of the Rabbi Greenburg, who will give the lecture on "The Jewish People and the Jewish Religion" at the synagogue on Sunday evening.

The lecture on Sunday, was both edifying and instructive. The Rabbi explained in a masterly manner, the Jewish people, what he considered to be the true mission of the Jewish people, and the Jewish religion.

Active in the sense of an increasing effort to live, as a Jewish people, what he considered to be the true mission of the Jewish people, and the Jewish religion.

THE REWARD PAID.

Wells-Fargo Pays Its Reward For Black Jack's Death.

Notwithstanding the report that Black Jack is still alive it appears from the following in the Solomonsville Bulletin that he has been proven dead to the satisfaction of Wells-Fargo & Co. The Bulletin says:

The Wells-Fargo Express company has paid the reward it offered for Black Jack's scalp. The money, amounting to three hundred dollars, was paid last week to those men who were in the posse last week when Black Jack was killed near Harper's saw mill, eighteen miles from Clifton. The money was divided equally between the posse and the posse leader, Sheriff Ben Clark, Billy Hart and Chad Paxton, of Clifton, Deputy Sheriff W. T. Johnson of Morenci and Fred Higgins of Socorro, New Mexico, who was a deputy United States marshal at the time. Each one received sixty dollars, not a very large sum for risking one's life in facing the desperado. District Attorney represented the claimants in the collection of the reward and he had many obstacles to overcome in securing its payment.

THAT STOCK TRAIN WRECK.

Two Trains Heavily Injured and a Number of Cattle Killed.

THE CITIZEN attempted last Saturday afternoon to secure some facts in regard to the costly stock train wreck on the Santa Fe, near San Antonio, in order to confirm or deny the startling rumors that several trainmen had been killed, but failed, as our local railroad officials were unable to give out for publication correct information.

The wreck occurred Friday night last, and, from all accounts, it seems that the wreckers had laid their plans to catch the south-bound passenger train, which should have reached the bridge selected between 4 and 5 o'clock Saturday morning. The stock train, however, came along on through time, and thus saved the passenger train.

The San Marcial train of last Saturday says:

Extra stock train No. 480 left San Marcial last evening in charge of Conductor Fred Griffith, with brakemen John W. Miller and John McClure. The engine was managed by Engineer E. Comstock and Fireman James E. Clark.

About five miles east of San Antonio, at grade 921, while the train was going at an average rate of speed, the engine struck and six cars left the track, resulting in injuries to Fireman Clark and Head Brakeman McClure that at this writing are considered very serious, and the killing and wounding of a large number of cattle.

The injured men were brought to San Marcial, and the company's surgeon, Dr. A. C. Cruikshank, was in waiting to render prompt medical assistance. Clark's right arm is badly severed, there is a large opening in the back of his head, his back is injured and he is otherwise badly bruised, but no bones are broken. His condition is considered very critical. McClure's injuries are of an internal character. Their extent is not fully known, but they are thought to be very serious.

A wrecking train left San Marcial before midnight for the scene of the wreck, and Trainmaster Ayer was shortly on the ground, being a passenger on No. 21, now tied up at the wreck.

Just what occasioned the wrecking of the train is not fully known at present, but one of the trainmen is credited with saying that a tie had been placed across the rails some little distance from the bridge; it was carried forward by the engine and when the bridge was reached it assumed an upright position between the bridge timbers. The engine was completely stripped and three cars of stock were piled upon it. The injured cars were returned to San Antonio.

Until the arrival of 21, some time this forenoon, the full particulars will not be known. However, the information at hand is sufficient to establish a large loss to the company and the probable death of one, if not two, of its employees.

Emery-Glover Fight.
While Joseph Glover and Capt. C. M. Tyler were discussing politics at Bache's and a place Sunday night, C. Emery joined in the discussion. Emery has been non persona grata in the estimation of Glover for some time, so the two were soon engaged in a controversy of words which terminated in blows. Emery pulled his billy, which he carried as deputy sheriff and merchant's police, and battered Glover over the head. Emery until he knocked him down. Emery will have his hearing at 7 o'clock to-day.

To Cure Constipation Forever.
Take Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is the only medicine that cures all these troubles. Do not forget the "Green Frog" brand. Store, No. 113 Railroad Avenue, William Chaplin; cheapest and best place to get shoes and repairing done on the shortest notice.

Our prices again touch that responsive, economical chord in every buyer when such a tiny tax is put on sterling values. Simon Stern, the Railroad Avenue clothier.

HE WANTED ROLL TOP DESKS.

David Collins Seager Prevented From Introducing His Taste for Furniture.

David Collins Seager, of Boston, Mass., and later of Miami, New Mexico, is either a modern Munchausen or a man very much down on his luck. He is in just charged with introducing goods under false pretenses. When arrested he had not five cents on him.

Last Tuesday Detective Knrich was called to investigate a customer of the Casey Furniture company. Seager was the customer, although he was then traveling under the name of Porter. He had ordered ten roller top desks, and other furniture for a suite of offices in the Boston building, which he had leased and would occupy May 1st, as secretary of the Miami Mining company. Seager refused to give a satisfactory account of himself and was taken to the police headquarters. As no definite crime could be charged against him he was not detained.

Yesterday the police were informed that a young man of clerical appearance was giving order for a customer of the Casey Furniture company. Seager was the customer, although he was then traveling under the name of Porter. He had ordered ten roller top desks, and other furniture for a suite of offices in the Boston building, which he had leased and would occupy May 1st, as secretary of the Miami Mining company. Seager refused to give a satisfactory account of himself and was taken to the police headquarters. As no definite crime could be charged against him he was not detained.

Yesterday the police were informed that a young man of clerical appearance was giving order for a customer of the Casey Furniture company. Seager was the customer, although he was then traveling under the name of Porter. He had ordered ten roller top desks, and other furniture for a suite of offices in the Boston building, which he had leased and would occupy May 1st, as secretary of the Miami Mining company. Seager refused to give a satisfactory account of himself and was taken to the police headquarters. As no definite crime could be charged against him he was not detained.

Wasting in Children

can be overcome in almost all cases by the use of Scott's Emulsion of Cod-Liver Oil and the Hypophosphites of Lime and Soda. While it is a scientific fact that cod-liver oil is the most digestible oil in existence, it

SCOTT'S EMULSION

It is not only palatable, but it is already digested and made ready for immediate absorption by the system. It is also combined with the hypophosphites, which supply a food not only for the tissues of the body, but for the bones and nerves, and will build up the child when its ordinary food does not supply proper nourishment.

Be sure you get SCOTT'S Emulsion. See that the name is on the wrapper.

RUSH OF STOCK.

Sends Several Extra Engines and Crews to New Mexico Division.

The stock shipments on the New Mexico division are at present the largest of any individual class of shipments on the Santa Fe road. The transfer of stock from Arizona to other points has been called for by the large number of engines and crews that the division could furnish. While other divisions on the road have had from one to a dozen more crews than they needed, this division has been swamped. In fact, it has been called upon to handle so much extra traffic that six engines and four crews from Arizona and four crews from Arkansas City have been sent there to help while the rush lasts. When it is over they will return to Topeka.

When the New Mexico rush is over it will be about time for the increase of business on the other divisions, and the crews will be recalled for service on the eastern division. At present Arkansas City has about ten extra crews, so that the calling out of ten crews makes the extra number much smaller.

Notice of Assessment.

The owners of the land at Culley & Armitage's office in the N. T. Armitage building, March 28, 29 and 30 for receiving property returns from all persons subject to the same in said precincts. All persons are required to come to said places mentioned to make the return, otherwise they will have to come to the county seat.

I desire to attest to the merits of Chamberlain's Cough Remedy as one of the most valuable and efficient preparations on the market. It broke an exceedingly dangerous cough for me in 24 hours, and in gratitude therefor, I desire to inform you that I will never be without it, and you should feel proud of the high esteem in which your remedies are held by people in general. It is the one remedy among ten thousand. Success to Chamberlain's Cough Remedy, Albion, Ind. For sale by all druggists.

Words!

In advertising, like everywhere else, create a certain impression.

Actions!

Either verify and strengthen them or grind them to dust.

Our Intentions!

Like those of all other merchants, are to create the best possible impression with our words—our advertisements. Our highest aim is, has always been and will always be, to make the impression we have created a lasting and a growing one—by our actions, our prices and our goods, and by always having the combination of right prices and right qualities. If we say we are giving better values now in all lines, than have ever been offered before in the city, it may impress some that we are selling pretty cheap. This is an impression we can lighten for you, by showing you our goods and quoting again our prices. It may impress some (those who have never traded with us) that this is merely "talk," an impression which we can destroy in a minute, if you give us a chance to show you what we are doing. Here are a few items which must be seen to be appreciated:

Ladies' Wrappers!

Indigo Blue Print Wrappers.....85c

Percale Wrappers in light, dark and medium colors, trimmed with

braids, each \$2.00, \$1.40, \$1.25 and.....\$1.00
