SENATE COMMITTEE POSTPONE ACTION!

Resolution to Make Investigation by Congress Deferred by Committee.

THE POPE TRYING TO PREVENT WAR.

Washington, March 15.—The senate committee on naval affairs had under consideration today a resolution instructing it to make investigation of the Maine disaster and decided by a vote of 6 to 5 to postpone action. There was a sharp exchange of words between the advocates of immediate action and those who think an active investigation should be deferred in order to permit the administration full opportunity to press its own investigation through the naval board of inquiry.

A suggestion that steps be taken by the committee to secure from the navy department all information in its possession was adopted. It is understood that a report will be made by Secretary McEury joining with the republicans, and that Chandler voted with the opposition for immediate investigation.

CABLE TO THE MINE.

How the War Ship Maine Was Blown Up.
New York, March 15.—A dispatch from Key West says: "The shattered section of the submarine cable, containing seven conductors for setting off mines, in possession of the board of inquiry. The cable led to a mine under the Maine. The discovery was made by divers at the Maine wreck. This proved that the mine which blew up the Maine was connected with a switch board ashore, which was in charge of a trusted and responsible agent."

THE POPE WANTS PEACE.

Head of the Catholic Church Mixing in the Trouble With Spain.
London, March 15.—The Pall Mall Gazette publishes a dispatch from Rome which says there have been a recent exchange of communications between the Vatican and Spain in regard to Cuba and its relations with the United States. The pope, it is added, is ready to do all in his power to prevent hostilities "which might be fatal to the Spanish dynasty." The dispatch says: "The Vatican has specially exerted its influence at Washington, and has tried directly and indirectly to dissuade the United States from plunging into a war with Spain. According to the information, if the office of the pontiff are accepted, he will propose that Cuba remain under the domination of Spain, but be ruled on the lines of an English colony."

CUBA REPRESENTED.

Representative of the Insurgent Attacks a Washington Reception.
New York, March 15.—Thomas Estrada Palma, of the Cuban junta, said today: "I consider Mr. Roosevelt's presence at Vice President Harrison's reception to the Belgian prince in Washington yesterday a matter of great importance. He is invited as the accredited representative of the Cuban republic, together with the Spanish minister and other members of the diplomatic corps."

Death of a Veteran.

Springfield, Ill., March 15.—General John McConnell, father of Judge S. P. McConnell, of Chicago, died here today. General McConnell served through the civil war and was breveted brigadier for gallant conduct on the field.

Destination of a War Ship.

Washington, March 15.—It is stated at the navy department that the San Francisco is not going to take a southwesterly course, but has been ordered to Great Britain, where she will make up a crew for the Amazonas, the Brazilian cruiser, which is to be sent to the United States. It is the present intention to have the San Francisco convey the Amazonas across the Atlantic.

Submarine Mines.

New York, March 15.—According to the World, submarine mines are being placed in the channel at Sandy Hook, by a corps of engineers under direction of Colonel M. M. Robert. The greatest secrecy is maintained by the officers in charge of the work.

Spanish Torpedo Flotilla.

Madrid, March 15.—The Spanish torpedo flotilla, which sailed from Cadiz on Sunday, enroute for Porto Rico, will only call there for provisions, etc., and will afterwards leave for Havana.

Belief of Maine Victims.

Washington, March 14.—In the house the speaker recognized Boutelle (rep. Maine), chairman of the naval committee to call up the bill for the relief of the victims and survivors of the Maine disaster. It was agreed to take up this bill after the postoffice appropriation bill was disposed of.

Sale Confirmed.

St. Paul, Minn., March 15.—Judge Sanborn, sitting as circuit judge, confirmed the sale of the Kansas division of the Union Pacific road, which extends from Kansas City to Denver. The road goes to the Union Pacific.

Manila Insurgents Killed.

Madrid, March 15.—An official dispatch from Manila says: Five hundred insurgents have been killed at Balan. Troops have been sent to the relief of the garrison.

THAT REPORT.

Naval Board of Inquiry Almost Ready to Close Investigation.
New York, March 15.—The World's correspondent at Havana telegraphs to day that the report of the naval board of inquiry will be ready to forward to Washington in two or three days. Drawings and plans based on the divers' investigation

from present indications there will be more high-class horses here than have ever been attracted to New Mexico before. First races on Sunday, March 27th, at the fair grounds, old town.

RALPH CHANDLER ARRESTED.

Advance Agent of Pye's "Night Owl" Wanted in California for Forgery.
Sheriff Hubbell arrested Ralph Chandler at about 6 o'clock last night in response to the following telegram from Los Angeles.
Los Angeles, March 14, 1898.
"Sheriff of Bernillo County:
"Arrest J. Chandler Brennan, aged 25, height 5 feet 7 or 8 inches, weight 150 pounds, long brown hair, dressed in black Prince Albert—sometimes silk hat. Wanted for forgery."
J. M. Graham,
"Chief of Police, Los Angeles."
Chandler will be recognized as the advance agent of Pye's "Night Owl," who were to appear in this city, but became stranded at Phoenix through the alleged absconding of J. Chandler Brennan, the business manager for the company. THE CITIZEN at that time published an article giving the facts in the case and explained the position that Ralph Chandler and J. Chandler Brennan were the same individual. Chandler stoutly denied this at the time.

The telegram received yesterday afternoon stated that Brennan was wanted in Los Angeles for forgery and is evidently a separate offense from his misdoings in connection with Pye's "Night Owl." The sheriff telegraphed to Los Angeles that Brennan was under arrest and received answer that an officer would come for him as soon as the necessary requisition papers were obtained. Brennan, however, offered to go without any requisition papers, and the sheriff wired the Los Angeles officials that he would send the prisoner there if they wished.

At the time of going to press no further word has been received from the officers at Los Angeles but building up the hold here awaiting further instructions.

ST. PATRICK'S DAY.

March 17 a Holiday for Parochial School Children—The Services.
Father Mandulani is in receipt of a magnificent oil painting of St. Patrick, 63x30 inches. The picture represents the patron saint of Ireland in the attire of a bishop, delivering his curse on the snakes and pointing triumphantly to the shamrock, which he used in explaining the holy trinity to the Druids.

The price of the picture was \$170 and was bought with contributions from the congregation, which were collected by John Powers.
The painting will be placed on the altar at the church of the Immaculate Conception, on Thursday, March 17, which is the feast of St. Patrick.
On that day there will be solemn high mass at 9 o'clock in the morning. Father C. Persons, of old town, will be the celebrant; Father M. J. Hughes, deacon, and Father A. M. Mandulani, sub-deacon. The sanctuary boys will all be in attendance and St. Mary's choir directed by Mrs. Shilcock will furnish the music.

In the evening at 7:30 o'clock there will be a lecture on the feast of St. Patrick, which has been celebrated in this city, and a large attendance is expected. The day has been made a holiday for the children attending the parochial schools.

Smallpox at Isleta.
Marshal Robert spent yesterday in Isleta and entered into a treaty with the governor of the pueblo by which the Indians are to keep away from Albuquerque as long as there is smallpox in the village. The marshal says that five Indian children have died from the disease and there are several others down with it.

The marshal advised also governor to have his people vaccinated, but he did not take to the idea. "When the man in the sky calls us it is time that we should go," was the line of reasoning. There are no cases of smallpox in Albuquerque, and the physicians feel confident that they will be able to keep it out of the city, and nearly everyone is taking the precaution to be vaccinated.

The attention of the city officials and the board of health is called to a couple of camps of wandering families of people from old Mexico, who are located near Third, Fourth and Fifth streets, just north of New York avenue. Their personal appearance and the condition of their surroundings are well fitted to be a menace to the health of the people of the neighborhood. The people of the neighborhood are anxious that they should be moved away, or at least disinfect. At present they are a menace to the health of the community.

"I predict a good season for the Jemez hot springs," said J. B. Block, the well-known hotel keeper at the springs, "and before fall sets in and the balance sheets are made out it will be seen that the season of 1898 will prove a financial benefit to the merchants and people of the Jemez springs." Mr. Block has his name on the register at the Grand Hotel, and is here on business before the district court.

The case of Murray vs. Block from Jemez is being heard before Judge Lee today. The controversy is over a piece of land which Murray claims is a street and which Block says is his own private property, which he purchased from one Arculeta and placed improvements on.

Ten officers of the survey will be assigned to the work.

All occurrences of valuable minerals will be noted and special attention given to the presence or absence of gold, whether in placers or veins.

A Big Reduction.
The former rate from Flagstaff and Canyon Diablo, both in Arizona, to Kanab City, was \$25 a car, but a week ago G. Santa Fe road announced that this rate would be reduced from \$25 a car to \$20 a car, and a difference of \$5 a car in freight rate will be enough to attract the cattlemen.

Billy Mason Indicted.
Billy Mason was indicted by the grand jury on the charge of assaulting William Dwyer and intent to kill, in default of \$1,000 bail required, was committed to the county jail last night, pending his trial before the petit jury.

On last evening, Al. Coleman, proprietor of the Metropolitan, gave a dinner in honor of Major J. W. Green, J. H. Kunz and Dr. Stearns, a dinner, which was perhaps the most elegant dinner, considering the viands and service, ever seen in Albuquerque. A few Albuquerque friends were invited to a dinner at the Metropolitan restaurant. It is unnecessary to say that with humor and a good many other things flowed freely.

A half dozen unfortunate vagabonds appeared before Justice Crawford this morning. They were sentenced to ten days apiece on the chain gang, but the sentence was afterwards suspended with the proviso that they leave town. While the grand jury is in session the officers are wanted here so much of the time that Dr. Correll is unable to give his undivided attention to street work. For this reason all vagrants are now given an opportunity to leave the city without first doing service on the streets.

Hon. W. E. Dams, who is one of Cerrillos' most progressive citizens, came in from the north last night and has his name on the register at Sturges' European. He reports the greatest activity in mining circles at Cerrillos, and says that some of the great ore producers, which have been closed down for years, owing to a lack of funds and interest, are now being worked, and the dumps show that good paying ore is being mined.

The ministers from abroad, who were here attending the district conference of the Methodist Episcopal church, south, are leaving today, and will be in respective homes. They enjoyed good meetings while here, and listened to some of the fine revival sermons from Dr. Carradine. It is also noted that Dr. Correll will finish up his good work here this evening, and will go south to-morrow morning to San Marcel.

A couple of boys stole a hay fork and a carrying comb from E. H. Punbar yesterday and sold them to O. Oxendine, where the rightful owner secured them today. Marshal Corbett is looking after the thieves.
