ELIHU ROOT SECRETARY

Head of State Department Offered to Him by President Roosevelt.

AND ACCEPTED TODAY

New Cabinet Officer Refuses to Make Any Statement—Many Names Mentioned for Place.

NEW YORK, July 6.—It can be stated definitely that President Roosevelt has offered the position of secretary of state to Elihu Root and that Mr. Root has accepted.

Mr. Root Declines to Discuss Appointment.

New York, July 6.—President Roosevelt will make the announcement today regarding Elihu Root's decision on the proffered offer to him of the office of secretary of state. Mr. Root declined to discuss the matter or to make any statement at present for publication.

President Goes to Long Island City.

New York, July 6.—President Roosevelt arrived at Jersey City at 9 o'clock this morning. He boarded a Pennsylvania Railroad tug and was taken to Long Island City.

Four Possible Choices.

Washington, July 6.—Secretary Taft's chances to become secretary of state seem for the moment to have vanished. He was Sunday's candidate. The entire trend of public opinion yesterday seemed to be toward Elihu Root. Every day will have its candidate until the President announces his choice. In the meantime there are four men as probable—Choate, Root, Taft and Lodge.

UNKNOWN MAN IS KILLED.

While Stealing a Ride on Denver & Rio Grande Train Which is Wrecked in Colorado.

Pueblo, July 6.—While an extra east bound train on the Denver & Rio Grande hauling coke from the ovens to the steel works was rounding a curve one mile east of Salt Creek at 9:50 o'clock last night eight coke cars were derailed and three overturned.

An unknown man who was stealing a ride, was pinned under one of the overturned cars and died before he could be released.

The body was brought to town by McMahon & Collier's ambulance and the clothing was carefully searched for anything that would lead to his identification, but nothing of the kind was found.

The railroad officials are unable to account for the accident as both track and rolling stock are reported to have been in good condition.

Many Passengers Hurt in Great Northern Wreck.

St. Paul, July 6.—A special from Minot, N. D., says that in the wreck of the west bound Great Northern flyer no lives were lost, though three score were injured and many of the passengers are in a critical condition. The wreck was caused by spreading tracks. Four coaches left the rails and eight passenger cars were destroyed by fire.

JOHNSON LOSES ALL HOPE.

Murderer of John Fox Resigns Himself to Sentence of Death—Remains Calm and Stoic.

Trinidad, Colo., July 6.—Joe Johnson, who is to be hanged during the week of September 10 for the murder of John Fox, has apparently lost all hope, according to reports which come from the state penitentiary at Canon City. He does nothing but smoke cigarettes all day, having no desire to either read or talk and he has thoroughly reconciled himself to his fate. The guards are inclined to believe that Johnson will maintain his nerve on the scaffold.

Johnson will probably be the first murderer hung in many years without having had at least one reprieve. The circumstances of his crime were such as to leave no room for the advancement of any extenuating arguments in his favor and he will probably step on the fatal death trap without any clemency in the way of delay, having been extended him. The only companion he now has in the condemned row is Pat Brennan, the Leadville man who dies this month for the murder of his sweetheart in Leadville.

AMATEUR AUTOMOBILIST PLUNGES TO DEATH.

Trinidad, Colo., July 6.—As the result of plunging over a twelve foot embankment in an automobile, Franklin D. Strong received injuries which caused his death a few hours later. Strong was 77 years old and very wealthy. He was taking his first ride in an auto which he had just purchased.

FOR BODY OF PAUL JONES

Detachment of U. S. Sailors and Marines Arrives in City of Paris.

INTEREST DISPLAYED

By the Vast Crowds Along the Line of March—Americans Presented a Fine Appearance.

Paris, July 6.—The unusual sight of a detachment of United States sailors and marines swinging through the central thoroughfares of Paris today aroused great interest and enthusiasm from great crowds along the line of march. The American contingent numbered 500, with 25 officers. They presented a fine appearance, being uniformed as a landing party, wearing the regulation gaiters and carrying their rifles with fixed bayonets. A company of the French infantry acted as an escort.

Men of the Two Nations Soon on a Friendly Basis.

Paris, July 6.—The line of march was thronged by vast crowds who were anxious to see the Americans. Women waved their handkerchiefs and miniature United States flags and there was a continuous shout of "Vive Les Americains." The Americans were taken to the military school which will serve as their barracks during their stay here. The Americans and the French soldiers were soon on a most friendly basis, fraternizing and chatting together while awaiting the ceremony of the delivery of the body of John Paul Jones at the American Church on the avenue at 3:30 o'clock this afternoon.

Body Delivered to Escort at 3:30 O'clock.

Paris, July 6.—The ceremony of delivering the body of Admiral Paul Jones to the representatives of the United States was held at 3:30 o'clock this afternoon in the American Church on the Avenue de l'Alma in the presence of a distinguished gathering of the highest officials, military and naval dignitaries of France, the diplomatic representatives of many countries and the special ambassadors and naval authorities sent from the United States to receive the body.

"Whereas, We feel that such a law is necessary for the protection of the producers and consumers of this country; be it, therefore,

"Resolved, By the Northeastern New Mexico Stock Growers' Association in meeting assembled, that we approve of the action of the President of the United States in his message to Congress asking for the enlargement of the powers of the interstate commerce commission whereby such is found unreasonable or excessive.

"Resolved, That a copy of this resolution be sent to the territorial representative in Congress asking that he use all possible means to see that this bill is passed.

"Resolved, That a copy of this resolution be sent to the President of the United States and to Senators Foraker and Elkins."

INHABITANTS LEAVE TOWN

Authorities at Theodosia Fear a Bombardment From the Kniaz Potemkine.

MUTINEERS THREATEN

To Open Fire This Evening—Only the Troops and the Officials Remain in Crimea Port.

St. Petersburg, July 6.—Inquiry at the admiralty this morning failed to confirm the report that the Kniaz Potemkine had already left Theodosia. It was stated at the admiralty that it was not known there what steps would be taken in regard to the battleship although Admiral Wrenius, chief of the navy station, said he advocated the sending of a torpedo boat to sink the Potemkine. M. Wrenius said there was no truth in the report from Klenina that four hundred sailors had destroyed any cruiser and sought refuge on a British steamer bound for Constantinople. No Russian cruiser has been destroyed, according to the admiral.

Theodosia Experiences a Reign of Terror.

CIVIL SERVICE ESTABLISHED.

H. U. Mudge Begins His Administration of Rock Island on "Square Deal" Basis.

Topeka, Kans., July 6.—Civil service has been thoroughly established among the employees of the Rock Island Railroad since H. U. Mudge, who was formerly general manager of the Santa Fe at Topeka, has taken charge of the operating department as second vice president of that system.

Although Mr. Mudge has been with the Rock Island but two months, and his plans for the reorganization of the operating department have not yet fully matured, they have progressed far enough to get a line on the policy of the new head of the operating department of this road.

Positions of responsibility will be filled by promoting men of worth whenever opportunity presents itself under Mr. Mudge's regime. "Merit" will be given recognition, and Mr. Mudge has begun his administration by an application of the Rooseveltian idea of "a square deal."

THOUSANDS IN DENVER

Seventh International Convention of Epworth League Now in Session.

BISHOP JOYCE SICK

Venerable Methodist Unable to Be Present—Colorado Peak to Be Dedicated to Society on Saturday.

Denver, Colo., July 6.—The seventh international convention of the Epworth League, opened today with three simultaneous meetings which taxed to the utmost the capacity of the Coliseum Hall, the Trinity Methodist Episcopal Church and the Central Presbyterian Church, the largest auditoriums in this city. Fully 20,000 delegates and visitors have been attracted to Denver by the convention. With but a single change the program was carried out to the letter today. Bishop Isaac Joyce, of Minneapolis, was slated to preside over one of the meetings but owing to sickness he was unable to be present. The morning sessions were taken up with the addresses of welcome and the responses.

Bishop Joyce's Condition Almost Hopeless.

Denver, July 6.—There is general regret expressed by all Epworth Leaguers over the sudden illness of Bishop Isaac W. Joyce of Minneapolis. He is a man very generally loved and admired by young people. One of his characteristic traits has always been shown in helping struggling and small churches. Where many men of equal prominence would have sought to be heard from the pulpits of the big places, Bishop Joyce has sought out and given his time to the little ones.

In this way he has become acquainted with a vast number of individual and obscure workers in the church, and endeared himself to them.

Bishop Henry W. Warren wired to Minneapolis yesterday to find out what the actual condition of Bishop Joyce was, and last evening had in reply: "No change for the better. Condition critical."

Mount Epworth to Be Dedicated Saturday.

Denver, July 6.—The policy of giving the name Epworth freely led the Methodists of Denver to decide that one of the giant peaks of the state should bear the name of the little town where the founder of Methodism was born. So a peak was selected on the Moffat road to be called Mount Epworth. It will receive formal dedication Saturday when the Moffat road excursion reaches that point. Thousands of Epworth Leaguers will go to Rollins pass early this week to avoid the rush of Saturday, but on that day the big convention will adjourn for the purpose of going there and dedicating the lofty monument to Methodism.

Yesterday hundreds of delegates went to Arrow Head and to Rollins pass, viewing Mount Epworth. It was urged by many that the committee should bury in the base of the natural monument of John Wesley's birthplace a history of his life and an account of the church he established.

Trinidad, Colo., July 6.—Count Von Buelow, scion of an ancient German family and once possessor of ancestral castles on the Rhine, has donned overalls and a jumper and is engaged as a day laborer on the bridge being constructed across the river on Commercial Street.

The count came to Trinidad a few days ago on a box car from Elhart, Texas. He earns \$1.80 a day, and apparently enjoys the work.

The count gained considerable notoriety in Pueblo a few years ago by marrying a rich widow, who later became disgusted with his actions and secured a divorce.

STORMS DO MUCH DAMAGE

Farm Land in Maryland Inundated by Heavy Rain Fall.

LIVES LOST IN TEXAS

Lone Star State Suffers Greatly From the Elements and Many People Are Killed.

Baltimore, July 6.—As the result of a cloudburst at Timonium, \$50,000 worth of damage was done in this city. In the country north of Baltimore the storm was terrific and the fall of rain was most extraordinary. Farm land was inundated, fences everywhere were swept away and scores of farmers were compelled to abandon their homes and flee to places of safety. So far there is no report of any loss of lives. No accurate estimate of the damage in the country can be made now, but the aggregate will be very large.

Texas and Indian Territory Visited.

Dennison, Texas, July 6.—A tornado yesterday afternoon swept across Red River and entered Indian Territory near Colbert tearing up telegraph poles and wires. Rumors are current of extensive loss of life north of Colbert. The latest reports from Nocona are that 21 persons were killed at that place and in that vicinity. News from Montague, Texas, indicates that twelve dead have been found there and in the vicinity. Two persons were killed at Jackson. A telegram from Dallas stated that altogether sixty-three are reported injured, several of whom will die. The estimated damage will total half a million dollars.

Montague County, Texas, Also Suffers.

Ft. Worth, Texas, July 6.—Late reports from Montague County, which was partially swept by a tornado yesterday afternoon, give the number of dead at 35.

Missed Most of the Small Towns.

Fort Worth, Texas, July 6.—A tornado which struck yesterday in the upper edge of Montague County, coming from the northeast and swinging far to the southeast, this afternoon caused the loss, it is believed, of forty lives, injured a large number of people and did untold damage to growing crops and cattle.

Fortunately the tornado missed the small towns in the section through which it swept, but it zigzagged in such a way as to take in the homes of many farmers and stock raisers in the section.

At Jacksboro the force of the wind was terrific. The Baptist Church and twenty other buildings were blown off their foundations and a number of buildings totally destroyed.

Mrs. Travis Calhoun was seriously injured. Travis Calhoun, Mrs. Thos. Horton and Henry Wesser and family were also injured.

STRIKERS SADLY IN NEED OF MONEY.

Chicago, July 6.—The joint council of the teamsters' union last night refused to take action looking toward calling off the strike and appointed a committee to procure funds to support the striking teamsters in their struggle. The committee appointed is to be known as the "Flying Squadron" and it will call on every union teamster in the city to donate a stipulated amount each week to the support of the strikers.

MORMONS FOUND A NEW COLORADO TOWN.

Cheyenne, Wyo., July 6.—Penrose is the name of a new town which has been founded by Mormons in Big Horn County, four miles south of the Mormon settlement of Garland. A 200-acre townsite has been laid out and all of the lots taken with the exception of ten, which have been reserved for business purposes. The town takes its name from Elder Charles Penrose of the council of apostles.

The issue price will be 90, the interest 4-1/2 per cent, and the loan, which is equally divided between New York, London and Germany, will run for twenty years.

STREET DUEL RESULTS IN THE DEATH OF ONE.

Douglas, Wyo., July 6.—John Kelly of Grand Island, and Edward L. Evans of Pennsylvania, both strangers here, engaged in a shooting affray last evening. Evans was shot just above the heart and taken to the hospital, where his death is expected soon. Kelly is in jail. No cause is given for the trouble.

LAS CRUCES IMPROVING

City of Crosses Entertains Republican Prosperity in Its Midst.

MANY BUSINESS BLOCKS

Being Erected—Substantial Brick Structures Replacing Adobe—Town to Be Incorporated.

Special to the New Mexican. Las Cruces, July 6.—The days are delightfully warm and the nights quite cool. The thermometer registers an even 100 each day in the shade and at night drops to about 74 degrees. The nights are a dream and the heat is only from about 9 a. m. to 5 p. m.

The second crop of alfalfa has been cut and taken care of and there is plenty of water in the river so that one might say there will be a pretty sure thing for four crops. In addition there will be fine pasturage for the winter.

The brick building on Main Street opposite Martin Lohman's is fast nearing completion. George D. Bowman & Son, bankers, will occupy quarters in this building. J. H. May will move his grocery store to this building and about August 1st will also open a dry goods department. The building consists of three fine store rooms and has a frontage of 70 feet on Main Street. The First National Bank building will be erected on the old Ochoa property on Main Street. It will have a frontage of 80 feet and be two stories high. It will be a modern and up-to-date building; in fact, all the new buildings going up are up-to-date and as fine as you will find in any place. The \$20,000 public school building will be completed about August 1st.

The electric light plant, ice factory and water works are being pushed as fast as men and money can move things. Las Cruces has at last awakened from her long slumber and things are moving. There will be no opposition to incorporation and the town will be incorporated this fall.

Martin Lohman's family is at Orange, New Jersey, and he will join it in a short time for trips to various points on the Atlantic seaboard. He has about settled upon plans for one of the finest business blocks in the Territory; it will occupy the site of his present store. This location is an historical one in many respects; it was occupied for many years by Henry Lesinsky, now of New York City, who was the original owner and who sold to the Scotch people the celebrated Clifton copper mines. Mr. Lesinsky then went to New York and has since that time made his home there. From this location goods running up into the millions have been sold, handled and distributed. Lesinsky was succeeded by the firm of N. Raymond & Company. Martin Lohman finally bought out Raymond and has since carried on the business. The store covers half a block and has always carried a very large stock of goods.

MEANS MANY MORE HOMES.

Order Issued for Throwing Open to Settlement Indian Pasture Reserve Near El Reno.

El Reno, Okla., July 6.—The half-million-acre Indian pasture reserve lying southwest of El Reno has been ordered by Secretary of the Interior Hitchcock opened to settlement. The opening means the furnishing of 3,125 more homes to settlers and another tide of emigration to southwestern Oklahoma.

Indian Agent Randlett today was notified by telephone from Anadarko to prepare leases and advertise at once for bids, to be opened on December 4 next. All the lands will be leased in 160-acre tracts for a period of five years from January 1, 1906, at the minimum price of 25 cents per acre per year. No one person will be allowed to lease to exceed two sections of land, and all bids must be made separately for each quarter section. The rules require each lessee to cultivate all tillable land up to 75 per cent of the land leased. The lessee is given the privilege of re-leasing at an appraised valuation at the end of five years. No sub-leasing will be allowed without the consent of the secretary of the Interior.

FIRE INSURANCE RATES IN SANTA FE.

O. C. Watson & Company, insurance agents, have addressed the following letter to the New Mexican in the matter of the fire insurance rates existing in this city and which, in the opinion of business men and of this paper, are in certain cases excessive, unfair and in fact generally too high.

The New Mexican desires to give both sides of every question publicity whenever possible. The letter reads:

Editor New Mexican—From items which appeared recently in the New Mexican with reference to fire insurance rates on Santa Fe property, it would seem that the blame for the high rates which certain risks command, rests with the companies; this, however, is not the case, inasmuch as the fire insurance companies are handicapped by a rider to the act creating the ten thousand dollar deposit law some years ago, which rider disables the companies to advance rates. Naturally, in view of such a law, the companies (being prohibited from advancing rates) cannot be expected to reduce rates where they are too high. In justice to the companies we will state the fact that the Rocky Mountain Fire Underwriters Association just before that law took effect, had arranged for an equalization of Santa Fe rates; this, however, was abandoned, due to that rider above mentioned. Should the same ever be repealed, the public will find the companies doing the fair thing.

Very truly,
O. C. WATSON & CO.

The New Mexican is compelled to disagree with Messrs. Watson & Company. The fact that the fire insurance companies were prohibited by law in 1897 from raising rates should not prevent them from being fair and just. The rates in Santa Fe, to the personal knowledge of the New Mexican, are not well equalized, in some cases are entirely too high and in others too low. This paper demands and will insist upon a readjustment on a fairer and more equal basis than is now in existence. According to the letter above, the underwriters were about to make a reduction and readjustment in 1897 when a law was enacted requiring the fire insurance companies to make a ten thousand dollar deposit with the Territory and prohibiting them from raising insurance rates. That was eight years ago and since then the companies have been doing business at the same old stand and, although time has moved rapidly and everything in Santa Fe has improved, fire protection and all, no attempt has been made to bring about a better state of affairs or to fix more just and fair rates on fire insurance. This is not as it should be and the time has come to put a stop to this very unsatisfactory state of affairs. The fire protection in this city, while not of the best, is fair and will in a short time improve greatly. The business here is good and the losses have been, comparatively speaking, few. The fire insurance underwriters ought to get a move on and give the business community a chance.

"Governor Otero during the past week has been engaged in the investigation of charges preferred against Frank Hubbell, Treasurer Thomas Hubbell, sheriff, and Eslavio Vigil, superintendent of public schools, of Bernalillo County. We have no doubt if the charges are proven that the Governor will fearlessly discharge his duty."—Rio Grande Republican.

The Republican and the New Mexican will have no contention on the above proposition.

The city council of Albuquerque failed to have a quorum Monday evening when it should have been in regular session and should have acted upon the childlike and bland petition of that innocent corporation, the Albuquerque Water Supply Company for an extension of its franchise for twenty-one years and to the year 1940. The members of the council evidently found that it was too hot to handle this heated subject.

FOUR PER CENT COMMISSIONS ON LIQUOR AND GAMING LICENSES TO COLLECTOR ILLEGAL.

In the case of Bernalillo County vs. Frank A. Hubbell, treasurer and ex-officio collector, which involves the right of the collector to retain 4 per cent on the liquor and gaming licenses paid over to him by the sheriff of the county, as his fees, which has been pending in the District Court of the Second Judicial District for Bernalillo County for some time, Judge Ira A. Abbott has decided that the collector was not entitled to this 4 per cent commission and that only the sheriff, who is charged by law with the collection of the liquor and gaming licenses, was entitled to 4 per cent commission on such collections. The case is important as the collectors generally have claimed 4 per cent commission on such licenses as their own, the law being somewhat ambiguous in the matter. An appeal to the Territorial Supreme Court will likely be taken, but, in the meantime Judge Abbott's decision will stand. The judge's opinion is clear and to the point and seems to be good law. If upheld by the Territorial Supreme Court, it will save the taxpayers considerable money and will augment the school funds in the several counties.

Treasurers and ex-officio collectors are well paid officials for the work they are doing and for the responsibility resting upon them. Indeed, the policy should be to cut their fees and commissions rather than to increase them. The decision of Judge Abbott is therefore in the right direction and pleasing to the people.

THE VIEW OF AN ALBUQUERQUE PAPER.

Sunshine, a bright weekly newspaper published in Albuquerque, and non-partisan in politics, in its last issue makes the following pertinent and well considered editorial remarks in the matter of the hearing of the charges against the treasurer, the sheriff and the school superintendent of Bernalillo County:

"On Wednesday morning in Governor Otero's private rooms at the Alvarado, began the hearing of the Bernalillo County officials for misfeasance in office and misappropriation of public funds. Some of the charges are rather startling and the only question is: Will the guilty officials be punished?"

"Judging from the demeanor of the Governor at the hearing, he seems determined to root out the evil. Whether this will be done or not, is another matter. In the meantime, honest citizens are anxiously awaiting the result. The Governor now has it in his power to perform a good service to the Territory, and if he will do his full duty in the matter, he will win the approval of the public, notwithstanding the strenuous opposition of his political enemies. And this, in spite of alleged motives. This strenuous life is disclosing sensational deals all over the country, but there is no room for corrupt officials in New Mexico. This frenzied finance needs to be summarily checked."

THE CALCIUM LIGHT OF PUBLICITY NECESSARY.

In looking over the financial records of this county it is found that those potentates, the justices of the peace of Santa Fe County, are not paying over to the county treasurer fines in criminal cases collected by them. If they were in the habit of doing so they have gotten bravely out of it. Here is a pointer for the September grand jury and for District Attorney Abbott. Tax payers would like to know what becomes of these fines and, if any are collected, why they are not paid into the school fund of the county, as required by the statute. The expenses of the justices of the peace courts in Santa Fe County are constantly on the increase and the tax payers have to foot the bills. It is said that there is considerable graft going on in the matter of subpoenaing witnesses, making arrests, service of summons, etc. A little of the calcium light of publicity should be made to shine upon these matters.

COME TO SANTA FE FOR THE SUMMER.

"The citizens of Phoenix are hunting the cool places in Arizona and the coast during these summer months. The citizens of Santa Fe, the capital of New Mexico, are inviting the people from throughout the Territory to go there and get cooled off and spend the summer in the delightful mountain climate. There is a difference in the climate of state and territorial capitals as well as between other places. Santa Fe is said to be one of the most delightful summer climates in the Rocky Mountain region."—Tucson Star.

Right you are. Send the people of Arizona to this city and especially those of Tucson. The "glad hand" of welcome will be extended to them by Santa Fe' citizens and they may be assured that their sojourn in the Capital, be it for a week or longer, will be agreeable, healthful, enjoyable, pleasant and pleasing to them.

Good and safe wagon roads from this city to the towns and settlements in the northern part of the county and to those in the southern part will aid the business and the business men of the Capital materially. There is good and profitable trade in these sections about all of which can be secured for Santa Fe merchants by means of good roads. The County Commissioners have already constructed a very good public road to the village of Tesuque and this should be extended to the northern boundary of the county.

The mutiny on the Russian battleship Kniak Potemkin was started because an officer shot dead a sailor who presented a petition to him signed by the crew complaining of the poor rations served them, and asking a betterment of conditions. The mutineers killed this officer and a number of others and captured the ship. If there was ever justification for mutiny this seems to be a case in point. Certainly American citizens will not blame the mutineers to any great extent. The awful sins and fearful crimes committed by the house of Romanoff and Russian officials for centuries are now being visited upon the Russian nation and the clay feet of the Russian colossus may be knocked from under him in the near future. If so, this will be considered but just, although long delayed retribution.

United States Senator W. H. Mitchell, of Oregon, has been convicted of official misconduct in the United States district court in that state. The senator, according to the verdict, rendered services in certain Oregon land claims to those who owned the lands located under the United States land laws and received fees for doing so. Such doings are made a crime by the federal statutes. The senator has attained the age of three score years and ten. The verdict is sufficient punishment. Its rendition will also have a salutary effect on other men in high positions in the national capital and elsewhere.

After the naval battle in the Straits of Korea and the defeat of the Russian fleet it was thought that Russia hadn't enough ships left to make trouble. Considering the recent occurrences on the Black Sea fleet it looks as if this opinion was erroneous and that Russia had enough ships left to make considerable trouble, if not for its enemies then for itself.

The Washington Post gets off the following delightful bit of composition on Charles F. Lummis the author, more or less favorably known in New Mexico: "Charles F. Lummis has been appointed librarian of the public library at Los Angeles. The building is a very large one, and will contain a number of volumes in addition to those written by Mr. Lummis."

The facts in the management or mismanagement of insurance companies, life and fire, recently discussed in eastern financial centers seem to demand the enactment of laws providing for national supervision of these corporations. There seems to be no other way for the protection of the people.

Gotham now claims a population of over four millions according to its census just taken, and that its population is steadily increasing. Very likely this is correct. The lambs that go to New York and are shorn are many and must remain there, not having money enough to get back home.

News comes from Rome that the Pope has issued an encyclical advising Catholics to take part in politics. The Holy Father is evidently not well advised upon the political situation in the United States. No such admonition is needed here.

Ohio Democrats are always ready to stand up and be knocked down. They have just gone through the formality of nominating a full state ticket for this year's election in the Buckeye State.

There is hope for Bulgaria. Within the past eighteen months five thousand American plows have been imported into that country.

There is more Catarrh in this section of country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea-spoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is he same in buying Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

STORK TIME

to most women is a term of anxiety, serious thought and sweet anticipation.

With the cessation of pain necessary to childbirth, there comes calm nerves, sleep and recuperation.

MOTHER'S FRIEND

does diminish the pain accompanying maternity. With its aid mothers can and do bring healthy, sweet dispositioned and ideal babies into the world.

Morning sickness, sore breasts and excruciating pains caused by the gradually expanding organs, are relieved by this penetrating and relaxing liniment.

Among the manifold aids to childbirth Mother's Friend has grown in popularity and gained a prestige among rich women as well as poor; it is found and welcomed in the mansion as well as in the cabin.

By lessening the mother's agony of mind and diminishing pain a beautiful influence is wrought upon the child, and instead of peevish, ill-tempered and sickly forms you have healthy, laughing humanity, remaining a blessing ever to you and its country.

When Butler Was Beated.
During his boyhood Benjamin F. Butler was a frequent visitor in the town of Nottingham, N. H., where an uncle resided, and among the many stories related of him is one concerning his examination of Pat Murphy, a local character.

Tim Dolan had been accused of selling liquor, and the prosecution summoned Pat to testify in the case. Now, Pat was a job teamster, and Butler endeavored to make him admit that he had delivered liquor to the defendant.

Butler asked: "Did you ever take any freight from the railroad office and deliver to Tim Dolan?"

"Yis, sor."

"Part of this freight was a barrel, wasn't it?"

"Yis, sor."

"Phat, what was in that barrel?"

"I don't know sor."

"Don't know! Wasn't the barrel marked?"

"Yis, sor."

"Then how dare you tell the court that you don't know what was in it?"

"Because, sor, the barrel was marked Tim Dolan on one end and bourbon whisky on the other. How the devil did I know which was in it?"

Not a Time to Theorize.
Senator Pettus, the veteran statesman from Alabama, is an inimitable teller of darky stories, and among his collection perhaps the following is of the best:

"One day a farmer in my state while in his barn observed his dog rush out and begin to bark furiously at a darky from a neighboring farm. The colored man at once took to his heels, although he had come to the barn on a matter of more or less importance. Some time later he returned, and, making sure that no dog was about, entered the barn.

"Why were you so frightened Sam?" asked the farmer. "Dan would not have harmed you. Remember the old saying, 'Barking dogs never bite.'"

"Dat's all right, sah," responded the darky with much gravity. "You know dat an I don't; but when do either of us know when dat confounded dog is goin' to stop barkin'?"—New York Times.

Corby, the Silent.
"Corby is certainly a very brainy chap. He sits and thinks and thinks and you can only tell that his thoughts are deep by watching his eyes."

"Oh, tommyrot! There is one thing you must learn, Billy."

"What's that?"

"When a man with a long nose, thick lips and a short neck and says nothing he either has nothing to say or is too wise to try and express himself."

"Well, you are off so far as Corby is concerned. He's deaf and dumb."—Commercial Tribune.

MINOR CITY TOPICS

Mrs. A. B. Renahan will entertain this afternoon in honor of Mrs. Francis E. Bade, of Goshen, Indiana.

The Lamy branch of the Santa Fe sports a brand new combination coach and baggage car, which arrived at Lamy yesterday.

Mrs. J. C. McConvery, wife of the foreman of the press rooms of the New Mexican, is seriously ill at her home on Delgado Street.

The porch and roof of the library building are being repaired and painted. Several places were sadly in need of this treatment and it was decided to give the entire building attention.

The Capital City Band will hold its regular rehearsal this evening at 7:30 in the Elks' Hall. All members are requested to be present as important matters will be brought before the organization.

On Tuesday night a daughter was born to Mr. and Mrs. James G. McNary at Las Vegas. Mr. McNary is the editor of the Las Vegas Optic and his many friends all over the Territory extend congratulations.

The city sprinkling wagon makes sporadic trips around the Plaza but pays no attention to other streets and avenues. This kind of service is practically no better than none at all. Mayor Gibson will do well to give this matter immediate attention.

At the meeting of the city board of education Tuesday, Contractor Antonio Windsor, who was present, was instructed that the work on the new high school building must be pushed more rapidly. He was notified that a double force of workmen should be immediately put to work.

Fishing parties and picnics are the order of the day. People who go to the canon say that the fishing is fine and that the scenery at this time of the year is beautiful. It is but a short ride to the trout pools and a day is well spent in this fascinating pastime. Visitors to the Capital should not leave here until they have spent at least one day in the canon.

Owing to an unfortunate misunderstanding as to the place of the meeting last evening of the New Mexican Horticultural Society, relative to the horticultural fair, part of those interested in the subject went to the court house and part to the Capitol. On this account it was thought best to postpone action on the fair until later and another meeting will be held in the near future at which the subject will be fully considered.

The Santa Fe Tennis Club has completed its court in the Fort Marcy Addition and members are enjoying the exhilarating sport. This is good tennis weather and it is hoped that many will become interested so that tournaments can be arranged. Las Vegas has a club and a number of good players, but it is thought that the Capital City can hold its own if a tournament could be arranged.

Socorro reports temperatures of 100 and 102 degrees during the past few days. Santa Fe has not yet exceeded 85 and only reached that on two days. Yesterday the maximum was 83 at 2:50 o'clock in the afternoon, the minimum was 51 at 5:10 in the morning and the mean was 77. The relative humidity was but 18 per cent. At 6 o'clock this morning the temperature was 59 degrees. The forecast for New Mexico for tonight and tomorrow is generally fair weather. Eastern Colorado will have warmer weather tonight.

The Territorial Fair Association has contracted with an eastern manufacturer for one ton of red fire, and by an arrangement now planned, proposes to keep the streets of Albuquerque aglow every evening during fair week from 8 to 11 o'clock. It is also its intention to set off 500 pounds, at one time, on the top of the Sandias Mountains and at other distances from Albuquerque on some night during the

fair, the reflection of which will probably be seen from Rincon to Las Vegas, north and south, and from Gallup to Santa Rosa, east and west.

A number of large pieces of paper were flying about in and around the Plaza today and a number of horses were frightened. Cans are placed on each side of the park for the reception of such refuse and the people should make use of them, even though it is a slight inconvenience. Papers thrown in the Plaza, instead of being picked up and destroyed or placed in these cans, are thrown outside the Plaza wall and into the street. This is really worse than having the scraps in the Plaza. The official in charge of this park should exercise more care and see to it that these bits are picked up and put where they will cause no damage.

At the meeting of the New Mexican Horticultural Society last evening Governor L. Bradford Prince, the president, exhibited specimens of the Shense apricot, one of the new Russian varieties introduced by Dr. Bull and the only one which seems to be a decided addition to the fruits of this Territory. It is a beautiful fruit, being of a uniform orange and red color and oval in form. The tree is a very strong and upright grower. But the important point about the new fruit is the fact that it is fully two weeks earlier than any other variety, thus bringing earlier relief to the people of this country who have heretofore been obliged to eat the tasteless California fruit until late in the season. The specimens exhibited were greatly admired.

What can be the trouble with the city sprinkling wagon? These dry days and the wind make the streets very disagreeable and the stores are often filled with fine particles of dust. The sprinkling wagon, when it does get out, usually has the streets wet down after the wind has subsided. The wagon should be out early in the morning and then often enough through the day to keep the dust in the streets settled. The reasons given for the lack of this convenience are that the city has not enough horses to handle both the sprinkling wagon and the garbage wagon. This scarcity of power can be and should be remedied. Get two good horses and use them for nothing but the sprinkling wagon and thus make the business part of the city comfortable and free from the annoying dust.

TWO FINE AUTOMOBILES.

The Machines Received By Governor Otero and Secretary Raynolds Are of Latest Pattern.

The two automobiles which were purchased by Governor Otero and Secretary Raynolds have arrived and are receiving a good trial at the hands of the owners. The machines are of the best make and so far have fulfilled all the claims of the manufacturers. Both are of the same pattern, size and horse power. They were manufactured by the Ford Manufacturing Company of Detroit, Michigan, and are of the latest design and patents. With a capacity of five persons and a horse power of 20, they will prove an excellent investment and source of pleasure. The motive power is furnished by a Ford gasoline engine, of the recent improved model placed on the market by the manufacturers. The exhaust is muffled and the cylinders are air cooled. Both machines are equipped with a detachable tonneau, which when removed makes each a run-about for two persons with space in the rear for a trunk or other useful appendages to a trip. The upholstery is of dark green leather and the color of the body of the automobile is of dark olive green trimmed in gold and red. The tonneau has two side entrances and comfortably seats three persons. The wheels are 30 inches in diameter fitted with 3-1/2 inch Dunlop detachable tires, painted a light yellow with black and red stripings. The gears are of the best steel and covered with metal casings, also trimmed in yellow, black and red. Heavy brown canvas tops enhance the value of the cars for touring purposes and add greatly to the

comfort of the occupants. A speed of from 35 to 40 miles per hour can be obtained and held with but slight variations. Governor Otero and Secretary Raynolds are fast becoming excellent chauffeurs and only one slight accident has befallen them in their trial trips.

A PROBLEM.

It is a problem which a great many people cannot solve—how the Bon Ton can put up a meal like they do for 25 cents. Mr. Conway finds it very easy to solve because he understands the business, has good cooks, accommodating waiters, and gets the best the market affords, hence, he has a great many customers. The best at a "living" price, is Mr. Conway's motto.

MOUNTAIN LION AND ELK.

uel to the Death, the Huge Cat Proving the Victor.

The lion quickly moved to the side of the fleeing quarry, and taking him on the shoulder and breast with his forepaws, embedded his terrible teeth in the throat of the elk. The elk gave a stifled cry of pain and rage as he attempted to trample the enemy down. They were now coming uncomfortably close. The elk had swayed in his course and staggered from the path. With one mighty effort he tried to dislodge the lion by swinging his head up and down and striking with his fore feet, but his fate was sealed. As well might a rabbit expect to escape the eagle when once in its talons as this monster elk to defeat his terrible foe.

The great beast staggered laterally and fell, his shoulders bearing down the lion's haunches and hind legs, causing it to relax its death grip to pull itself from under the elk, which made a rallying effort and regained its feet. Once more the lion succeeded in fastening its teeth in the flesh of the elk, this time on the top of the neck, and the elk made a last feeble lurch forward and fell within ten feet of me.

The elk seemed to fall forward more from pain than from weight of the foe; whereupon the lion doubled itself up, resting both fore and hind feet on the elk's neck on either side of the lion's mouth, then the hind feet were pressed against the neck, embedding the claws deep into the elk's flesh, and with a mighty effort the great cat not only broke the neck, but literally cut it half in two. The large, white sinew of the neck was severed by the lion's teeth and pulled loose from the head.

The elk then rolled over on its side and the lion began to lap the blood as it spurted from the great gap at the top of the throat.

Briggs Was Posted on the Law.

The late Hon. James F. Briggs, civil war veteran, several times representative from his own district to the New Hampshire Legislature, and at one time speaker of the house, had just returned from a closing session of the Legislature, at which the law pertaining to the right of way to pedestrians had been enforced.

He was crossing Elm street from his office when an electric car came bounding along. The motorman, aware of the danger of the major, made frantic efforts to attract his attention, but without avail. Finally the motorman shouted:

"If you don't get off the track, I'll run over you."

The major, with his characteristic firmness and defiance, stood in the middle of the track and said: "If you do, you'll hang for it."—Boston Herald.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by all druggists.

HIGH GRADE COFFEES.

One of the most important adjuncts of the breakfast table is a good cup of coffee. To make good coffee one must have a good bean and it should be fresh roasted. We have handled as our leading brand of coffee for many years the famous Boston Coffees of Chase & Sanborn. They give almost universal satisfaction and as we sell them in large quantities, buy them often, and as all coffees shipped by this firm are guaranteed to be freshly roasted the day of shipment, we can assure our customers of fresh goods.

1 pound cans SEAL BRAND COFFEE 40c
2 pound cans SEAL BRAND COFFEE 80c
1 pound parchment lined bags YELLOW PACKAGE COFFEE 25c
5 pound cans SPECIAL MARK G. G. JAVA \$2.00
5 pound towel bags High Grade Coffee \$1.15

All the above grades of coffee are of exceptional value. Our 25-cent blend packed in the yellow parchment, lined bags is the best coffee we have ever seen retailed at the price. Many blends retailed at five and ten cents more the pound have a distinctly less desirable flavor and aroma. For those who like a very mild and pleasing flavor we recommend the Special Mark G. G. Java in five pound tins. This coffee is especially mild in flavor being a pure Java.

FRESH FRUITS AND VEGETABLES.

It is our aim at all times to have everything possible to be obtained in this line. At present we are receiving regular shipments of Peaches, Apricots, Cherries, Strawberries, Dewberries, Cantaloupes, Tomatoes, Cucumbers, Wax Beans, Beets, Turnips, Cauliflower, Peas, etc. Naval Oranges are now almost out of market and we discontinued handling them. We have, however, the Late Valencia, and Mediterranean Sweet which are now approaching their best.

UNFERMENTED WINE.

A very pleasing drink for the summer is a line of non-alcoholic wines which we have lately put in stock. There are a number of flavors, including Port, Tokay, Strawberry, Cherry, etc. Port seems to be favorite. Per quart bottle, 30 cents. Per dozen, \$3.25.

JUNKET TABLETS.

Are used for making ice cream and desserts. Directions in each package. Per package, 10 cents.

JELLO AND JELLO ICE CREAM POWDER.

Are much used, the former being a gelatine dessert in a variety of flavors, including chocolate. The ice cream powder is designed to make the manufacture of this luxury the very least possible trouble and to even render the use of canned evaporated cream satisfactory where the fresh article cannot be obtained. Jello, 10 cents. Jello Ice Cream Powder, 2 for 25c.

SANDWICHES.

RAILROAD WORK PROGRESSING.

Aztec and Farmington Will Soon Be Reached By the Extension of the Denver & Rio Grande.

Frank Staplin, editor of the Enterprise at Farmington, San Juan County, arrived in the city last evening via the Denver & Rio Grande and left at a later hour for Albuquerque where he will remain two days on legal business connected with his duties as receiver of the Fraser Mountain Mining Company in Taos County. Mr. Staplin is gratified at the success which has so far been attained by his new weekly paper, the Enterprise, the publication of which commenced May the 19th, last. The merchants and the people generally are giving the paper a cordial support; its advertising patronage is very good for a beginner and its subscription list is on the increase. The paper is Republican in politics and is destined to do well.

Mr. Staplin stated that the construction forces of the Denver & Rio Grande Railroad on its line from Durango to Farmington are strung all the way along the location of the line and that there are grading camps every few miles. A large force of men and many teams are employed and work is pushing very rapidly. The track is completed for twelve miles out of Durango and construction trains are running on the completed line. Grading is rapidly going on and is almost completed to Aztec; part of the grade between Aztec and Farmington is nearing completion. The indications point that the road will be completed to Aztec on or before September 1st and to Farmington on or before October 1st and will then be in working order.

San Juan County is not booming but a good many settlers and people, who desire to invest in lands or to go into business, are arriving. The population is steadily increasing and a very good class of people is coming in. Many homesteads are being taken up by the new comers. There is an abundance of water, and crops will be great. The fruit crop, especially apples, will be immense and the alfalfa will yield heavily. The crops of cereals and vegetables in quality and quantity will be above the average. Prosperity is noticeable on all sides and people are generally busy in improving and extending the area of irrigated and cultivated lands. Mr. Staplin moved to San Juan County in May last from Taos and believes that he has made no mistake. The Denver & Rio Grande Railroad Company is building its line through the county and the Arizona & Colorado Railway is getting ready to do so. As soon as there is a southern railroad connection by either of these two roads the immense coal fields west of the La Plata River will be developed and give work to hundreds and hundreds of men and will sustain several towns in their vicinity. Mr. Staplin expects to return to the Capital Saturday.

FIRE IN STOCK YARDS**AT ALBUQUERQUE.**

A few minutes after noon yesterday the large hay storage barn in the Santa Fe stock yards at Albuquerque was totally destroyed by fire. The blaze was caused by sparks from a passing engine and owing to the dryness of the roof and the large amount of stored hay it took but a short time to demolish the building and its contents. The loss was close to \$1,500 and but for the strenuous efforts of the fire department other buildings would have been consumed.

COUNTY COMMISSIONERS**HEARING COMPLAINTS.**

The board of county commissioners for Santa Fe County met in adjourned session today and heard complaints against the raises in the assessed valuation of property made by a large number of tax payers. The board has as yet reduced the assessment in but a few cases, and then only when it has been positively shown that the valuation had been placed too high or in case of a double assessment.

If you stop to figure out where the true economy in paint buying comes, you'll soon see that the best paint is cheapest.

Two-thirds the cost of painting is the labor. It costs just as much to put on poor paint as it does good paint—more in fact because the poor paint doesn't work so easily. But the poor paint won't last as long, it makes you repaint sooner.

Even the apparent saving in cost per gallon is eaten up by the fact that it takes more gallons of the low priced paint.

The truest economy is good prepared paint.
