## WAR FEVER RUNNING HIGH!

**Court of Inquiry Will Report Results  
Maine Disaster This Week.**

**ARBITRATION MAY AVERT WAR.**

St. Paul, Minn., March 14.—The Globe's Washington correspondent says: The president and cabinet know, unofficially, the result of the Maine inquiry. A forecast of events as viewed by the president and cabinet can be outlined thus:

First. The board of inquiry will report this week that the explosion was external.

Second. The president will immediately, through Minister Woodford, demand from Spain an indemnification of \$10,000,000.

Third. Spain is expected to reply expressing a willingness to pay, if responsible, but maintaining that her own investigation shows that the explosion was internal and purely accidental. She will therefore suggest a reference to an international board of arbitration.

Fourth. In such event, the administration would be disposed to comply with the suggestion, unless there is an estimate in Havana, or an irretrievable demand for war sweeps through congress.

Fifth. If congress acquiesces in the suggestion, an attempt will be made to adjourn the body and leave the whole matter in the president's hands.

Sixth. It is expected that a large majority of congressmen will claim that in such a matter honor cannot be arbitrated. It is further expected that the leaders of both houses will favor arbitration.

### WAR IMMINENT.

Sen. of Consul General Lee is of that opinion.

Tampa, Fla., March 14.—Fitzhugh Lee, Jr., sen. of Consul General Lee, arrived on the steamer Olivette from Havana. He said: "I am of the opinion that war between the two countries is imminent, notwithstanding the fact that diplomacy will be taxed to the furthest limit to prevent it. The Maine disaster and the attitude of the United States government upon the belligerence question will be the chief incentive."

### WAR SHIPS.

Brazil and Chile United on the United States and Spain.

London, March 14.—The Brazilian minister confirms the report that the warships Amazona and Admiral Albrecht have been sold to the United States. The contract is to be signed today.

A press association says that Spain has purchased the battleship O'Higgins, built by the Armstrongs for Chile. The Chilean charge d'affaires does not confirm the report. He says that a Chilean crew is expected next week to take the O'Higgins to Chile.

### Spanish Squadron Sails.

Cádiz, March 14.—The Spanish squadron has sailed. It is understood that the warships are going to Porto Rico, where they will await the orders of Captain General Blanco.

Rumor says that the United States warships Helena and Bancroft, from Lisbon, may follow the Spanish ships across the Atlantic.

Shot and Killed.

Cape Town, March 14.—Wolf Joel, trustee of the estate of the late Barney Barnato, the South African millionaire, was shot and killed in his office this morning at Johannesburg by a former soldier.

The murderer of Wolf Joel, a man named Feldstein, has been arrested.

Nucleus of Flying Squadron.

Washington, March 14.—The big armored cruiser Brooklyn arrived at Fort Monroe this morning direct from Lagunayra, Venezuela. It is expected that she will await at Hampton Roads for the arrival of the Minneapolis and Columbia, which are fitting out at Philadelphia. This force will form an excellent nucleus for the projected "flying squadron."

Insurgent Leaders Killed.

Havana, March 14.—A force of guerrillas found the naked bodies of Alvarez, Nunez and Major Espinosa, insurgent leaders, who evidently had been killed by the insurgents, who discovered their intention of surrendering to the Spaniards.

Chicago Stock Market.

Chicago, March 14.—Cattle—Receipts, 19,000. Best steady, others weak to 10c lower.

Beef, \$3.50@5.00; cows, and heifers, \$2.10@4.45; steers, \$3.60@4.50.

Sheep—Receipts, 25,000. Market steady to a shade lower.

Native sheep, \$3.20@4.05; westerns, \$3.50@4.45; lambs, \$4.00@5.20.

All Ships Called Home.

Washington, March 14.—Cablegrams received at the navy department today announce that the Bancroft sailed yesterday from Lisbon for Norfolk and the Helena for Key West, to join the squadron. This leaves Admiral Howell at Lisbon with the flagship San Francisco as the sole representative of the United States navy in European waters.

Arizona Warriors.

Tucson, Ariz., March 14.—The Arizona Press association unanimously adopted a resolution in favor of the recognition of the belligerence of Cuba by the United States government.

District of Columbia.

Washington, March 14.—Under the rules of the house the day was given up to the consideration of business relating to the district of Columbia.

Senator Proctor.

Washington, March 14.—Senator Proctor called at the White House and narrated to the president his observations in Cuba.

Sailed Away.

Lisbon, March 14.—The United States war vessels Helena and Bancroft sailed today in a southerly direction.

LOOKS WARLIKE.

Fortifications in New York Harbor to be made impregnable.

New York, March 14.—Three hundred artillery men ordered from Fort Hamilton and Fort Wadsworth to Sandy Hook were transferred today. Under direction of army engineers, hundreds of soldiers and workmen are busy mounting guns, building ramparts and laying other defenses at the Hook. Twenty-one camps, each loaded with 12 inch steel mortars, are lying on the siding near the fortifications.

When the engineers are through the fortifications will be among the strongest in the world. All the women and children under sixteen years of age have been ordered from Sandy Hook.

Hundreds of masons, carpenters and other mechanics are working on additional quarters needed for the artillery men.

### AMERICAN FLEET.

Board of the Navy Appointed to Organize Merchant Marine.

New York, March 14.—The board of auxiliary cruisers of the United States navy appointed to acquire ships of the merchant marine for use in the event of war, met for organization today.

A member of the board said it had the power to prevent any vessel constructed under a subsidy of congress and engaged in carrying the mails.

"We can easily secure a fine fleet for both coasts," said this gentleman, "from ocean going tug boats, like vessels of the American line."

### SENATE PROCEEDINGS.

Bill Passed Permanently Locating Territorial Capital at Santa Fe.

Washington, March 14.—Senate agreed to a conference report on the army appropriation bill.

The bill passed permanently locating the capital of New Mexico at Santa Fe.

Lodge, of Massachusetts, of the foreign relations committee, called up the joint resolution for the relief of August Bolton and Gustave Richelieu. The resolution is as follows: "That the president of the United States be and hereby is empowered to take such measures as in his judgment may be necessary to obtain indemnity from the Spanish government for the wrong and injury suffered by August Bolton and Gustave Richelieu by wrongful imprisonment by the Spanish in Santiago de Cuba in 1895, and to secure this end he is authorized and requested to employ such means or exercise such power as is necessary."

Taking Possession of a Ship.

Washington, March 14.—Orders have been sent to Commodore Howell, commanding the European station, to send men from the San Francisco to hoist the United States flag on the Brazilian ship now ready to go into commission at New Caledonia. This will prevent difficulty in case that hostilities should break out.

Resolution Adopted.

Washington, March 14.—The resolution offered Thursday by Chandler, of New Hampshire, authorizing the committee on naval affairs to send for persons and papers in the course of investigation of the Maine disaster, was adopted by the senate.

Judge for Oklahoma.

Washington, March 14.—The president today nominated R. E. Burwell to be associate justice of the supreme court of Oklahoma.

RELATIONS WITH ENGLAND.

Great Britain Has Not Offered to Lend its Fleet to Anybody.

London, March 14.—In the house of commons today the parliamentary secretary of the foreign office, Curzon, replying to Michael Davitt, anti-Parnellite,

who asked the government whether Great Britain had offered to lend its fleet of war to the United States in the event of a conflict between the United States and a European power, said that the government had not made such offer. Answering a series of questions, which Davitt put with a view of eliciting whether there had been any negotiations for alliance between Great Britain and United States, or whether Great Britain had offered to mediate the Cuban crisis, Curzon said these questions were of such a nature that it was inexpedient to reply.

**Democratic Convention.**

Providence, R. I., March 14.—The democratic state convention today nominated Daniel Church for governor, Fayette K. Bartlett, lieutenant governor; Miles McNamee, secretary of state, and George T. Brown, attorney general.

**Bought Two Ships.**

Washington, March 14.—The reported sale to the United States of two Brazilian cruisers was confirmed this afternoon. It is learned also that Spain has not received the O'Higgins, and Chile will not sell her to Spain.

**Seriously Ill.**

Washington, March 14.—Blanche K. Bruce, register of the treasury, is very low.

**GOVERNMENT INDIAN SCHOOL.**

Visited by a Citizen Representative and Found in Excellent Condition.

A representative of THE CITIZEN visited the government Indian school yesterday, and through the courtesy of Professor Allen was shown through that large and interesting institution. It was Sunday and a day of rest with the scholars, who were playing in groups on the expansive campus. The boys had organized several baseball games according to the size of the players, and were doing some good practice work at the national game. The girls were occupied with needle games, and all seemed to be enjoying themselves immensely.

The recreation rooms and the dormitories were all empty, but there were many signs of their work visible on the blackboards and walls, which gave ample proof of the artistic skill of the Indian children. The dormitories, which are kept in order by the children themselves, are models of their neatness.

There are now about 300 children at the school and their teachers are authority for the statement that they are making very satisfactory progress in all the departments of mental effort. They appear to be especially adept in the finer arts of their drawings and paintings. The boys are charmed beyond imagination. There were over one hundred and fifty people sleeping in the place, many of whom had narrow escapes.

**Final Fire.**

New York, March 14.—Eleven persons perished in a fire which swept through the Bowery mission on Sunday morning. The bodies are charred beyond identification. There were over one hundred and fifty people sleeping in the place, many of whom had narrow escapes.

**Kansas City Market.**

Kansas City, March 14.—Cattle—Receipts, 4,500. Best grades steady, others slow.

**Texas Steers.** \$3.75@4.75; Texas cows, \$3.50@4.30; native cows, \$3.50@4.45; native steers, \$3.50@4.45; stockers and feeders, \$3.00@3.95; bulls, \$2.50@3.40.

**Sheep—Receipts, 4,000; market, steady.** Lambs, \$3.55@5.25; muttons, \$3.00@4.05.

**Money Market.**

New York, March 14.—Money on call, 2 per cent. Prime mercantile paper, 3@4 per cent.

**Silver and Lead.**

New York, March 14.—Silver, 54 1/2¢; lead, \$3.95.

**Copper.**

New York, March 14.—Copper, 10 1/2¢.

**DISEASE AT ISLETA.**

Smallpox said to be among the Indians at Isleta.

Sheriff Hubbell and his brother, Hon. F. A. Hubbell, drove down to Pajarito yesterday, to spend the Sabbath with their venerable mother. While at Pajarito they took a spin over to Isleta, and Sheriff Hubbell is authority for the statement that there is quite a number of Isleta Indians down with the smallpox and the measles, several deaths having occurred the past twenty-four hours.

The mayor, Abner Wright, sent Marshal Cobert to Isleta, to investigate thoroughly and report to him the conditions at the village as he found them. In any event the mayor has quarantined the city against Isleta, and a close watch will be kept on the Indians from that village approaching the city. They will be ordered back to their village of Isleta.

The mayor has also sent a letter to Division Superintendent Hurley, at Las Vegas, requesting him to prohibit all trainmen from bringing those Indians into the city.

While this smallpox scare is on, in the small river towns north and south of this city, the ordinance in regard to compulsory vaccination is being promptly complied with by our citizens, and in consequence the physicians and drug stores are reaping quite a harvest these days. One of the city's prominent physicians stated last Saturday night that he had already vaccinated several hundred people since the publication of the ordinance in the columns of THE CITIZEN.

**He Tied the "Knott."**

At 1:30 p. m. today John C. Andrews, of Phoenix, Ariz., knott, of Boston, Mass., called at the Lead Avenue Methodist Episcopal parsonage and were married by Dr. A. C. Welch.

**Death of Miss Pole.**

Miss Janie Pole died at 2 o'clock Saturday afternoon at the residence of her mother, on East Coal avenue. She arrived in this city a year ago last Thanksgiving from Shillsbury, Wis., accompanied by her mother and two sisters, Misses Fannie and Ella. She came here after suffering with lung trouble, from which she died.

This month, one year ago, Julius Olson was out on the Santa Fe Pacific in the interest of THE CITIZEN, and a letter, with instructions, was mailed to him at Ash Fork. While at that town Mr. Olson called at the Ash Fork postoffice, but there was no mail for him, although reckoning railroad time, the aforementioned letter should have been at Ash Fork a week or ten days before the arrival there of Mr. Olson. To cap the climax, the letter was returned to this office from Ash Fork this morning, and the question now naturally arises: "What did the Ash Fork postmaster do with the letter the past twelve months?"

**SATURDAY NIGHT'S RECEPTION.**

Chief Justice Mills and Governor Otero met for a few hours.

Governor Otero arrived on the first train from the north Saturday night and was met at the train by the reception committee of the Commercial club, consisting of O. S. Mason, E. W. Macey, and Sheriff Hubbell, and escorted to the club rooms.

Chief Justice Mills arrived on the second train, which was late and did not get in until 9:30 o'clock, so he had only a short time to spend in the city before the train left for the north.

Judge J. H. McCall came down with the governor, attended the reception and went on south to his Las Cruces home, where he is attending the official opening of the new college buildings today.

Judge H. B. Hamilton, of Socorro, and Col. A. M. Blackwell, the big member of the firm of Gross, Blackwell & Co., also attended the reception.

Governor Otero and Chief Justice Mills left Saturday night for Clayton, where Chief Justice Mills will open the spring term of court.

**GRAND JURY REPORTS.**

Twenty-five True Bills and Four Ignored.

Mrs. Tavin Sentenced.

Mrs. Trinidad Tavin, who was found guilty of adultery by the United States petit jury last week, was sentenced by Judge Crumpacker this morning to pay a fine of \$5 and to serve 90 days in the county jail. While the defendant was clearly guilty under the law, of the crime charged, it was not an aggravated case and the court passed as light a sentence as possible.

W. B. Childers made a motion to be discharged as guardian ad litem for the minors who are litigants in the case of the First National bank, John A. Lee et al, and the motion was granted.

The territorial grand jury made a report returning twenty-five true bills and four ignored bills.

The ignored bills were: One against Senobia Sapping, Placido Sals and Julian Lueros, charged with assault to kill; Dolores Sapping, charged with assault to kill; receiving stolen goods; William Brown, charged with shooting in a settlement on Tijeras road; Marcus Melchior, charged with assault to kill.

In the true bills returned, indictments were returned against the following persons already under:

Miles Allen for uttering a forged check; Charles E. Elbert, two indictments, uttering a forged check and forgery; Robert Lee, larceny and receiving stolen goods; Joseph Mares, larceny from the person; Glenn W. Cullen, assault with deadly weapon.

**He Was in the Navy.**

Jim Sing, proprietor of the Wallace restaurant, has a local advertisement in THE CITIZEN, and he wants the patronage of the traveling public. In a letter to this paper, Sing says, "the public will know my home by its white front, and they will see the 'Stars and Stripes' under which I cooked in the navy and under which I lived in this and Santa Fe county for nearly twelve years." Sing is all right, and he would like to help the United States whip the life out of the brute Spaniards, who are putting to death so many thousands of Cubans every year.

## TEXAS FEVER!

**Supreme Court Prohibits Cattle  
Exportation Into Kansas.**

**Destructive Flood in the Rivers of  
Ontario, Canada.**

**The Merchant Ship New York Wrecked  
Near San Francisco.**

**FATAL FIRE IN NEW YORK.**

**Washington, March 14.—In the United States supreme court today an opinion was handed down by Justice Harlan in the case of the Missouri, Kansas & Texas railway company v. Charles labor, affirming the constitutionality and validity of the state laws of Kansas, prohibiting the transportation into the state of cattle affected with Texas fever and providing for civil action for damages in case of infraction of the law.**

**FLOOD IN CANADA.**

Great Damage Done by Overflow of Rivers in Ontario Province.

Toronto, Ont., March 14.—Dispatches from western Ontario tell of the overflow of the Grand and Thames rivers, causing serious damage along the valleys. Sections of London, Bradford and Galt are submerged to a depth of five to seven feet, and in London 11,000 people have been driven from their homes. Bridges and buildings were swept away by the rushing torrents, and the flood following tore away the bridges and trees and wrecked factories and private residences.

**SHIP AMOKE.**

Merchant Ship Wrecked on the Coast of California.

San Francisco, March 14.—The three masted ship New York from Hong Kong for San Francisco, ran ashore last night near Halfmoon Bay, a small town about 25 miles south of San Francisco. Captain Peabody landed the crew in safety and not a life was lost.

The New York carried a cargo of silks and general merchandise. Even if the ship cannot be saved, the cargo will probably be taken out.

**Final Fire.**

New York, March 14.—Eleven persons perished in a fire which swept through the Bowery mission on Sunday morning. The bodies are charred beyond identification. There were over one hundred and fifty people sleeping in the place, many of whom had narrow escapes.
