## PRECAUTIONS WERE TAKEN

To Prevent the Kidnapping of Governor Otero's Son Miguel.

## PLOT IS DISCLOSED

By An Ex-Convict—Claude Doane, Who Was Captured Saturday in Taos County, the Moving Spirit.

For some time past Governor Otero has had members of the mounted police and secret service of the Territory on the lookout for a band of ex-convicts who were planning to abduct the Governor's son, Miguel. These precautions were taken as a result of the story told to the Governor by an ex-convict, who asked for an audience with him about a month ago. The story is in substance as follows:

Claude Doane, an ex-convict who is suspected of having been the murderer of Walter Lyons, the McKinley County school teacher, whose lifeless body was found near Ramah several weeks ago, organized a band of eight ex-convicts who thought that they had a grievance against Governor Otero, with the ultimate purpose of abducting Miguel and carrying him into the wilds of the Malpais country in southwestern Lincoln County, where he would be held as hostage. The gang, after reaching the Malpais, intended to inform the Governor that if within thirty days he would deposit at a certain place an enormous sum of money as ransom, and accede to other demands that his son would be returned to him in the best of health and spirits. On the other hand, if the ransom was not forthcoming and the demands not acceded to, the cost to the Governor would be the life of his son. The informer told the Governor that the gang would stop at nothing, in order to accomplish its purpose. They wanted money, freedom, and the freedom of several convicts now serving terms in the penitentiary. He said that the plans of the men were well laid and that if the Governor did not take steps immediately to frustrate the designs, that Miguel would undoubtedly be captured and taken in captivity to a place where discovery would be impossible. He further stated that he knew the members of this gang meant business and that if the abduction was successful the only thing that could save the life of the boy would be the payment of the enormous ransom, which the band had decided to make too high for the Governor to meet, and the granting of demands which would no doubt end in disaster to many.

The capture of Claude Doane on last Saturday by Deputy United States Marshal Fred Fornoff and Officer Ben Williams, in the Taos Canon near Embudo, will no doubt bring to an end the plans for abduction. The Governor, however, is not satisfied with this one capture and will leave no stone unturned until the entire party is captured, convicted and placed behind the bars. The information given by the ex-convict was in a great measure responsible for the capture of Doane as he outlined their plan of procedure and where they would be in the interim between the day he gave information and the time set for the abduction. Enough evidence is in the hands of the officers to convict the majority of the band, but it is hoped that with more investigation the entire party can be landed.

## LOCO WEED A MYSTERY.

Government Experts Unable to Determine How the Plant Affects Cattle and Horses.

Denver, Colo., July 11.—The government experts who came to Colorado a few months ago to investigate concerning the loco weed are considerably mystified over their experiences. The principal experiment is being conducted in the vicinity of Hugo. Dr. Marsh representing the government, is being assisted by Dr. Glover, of the state experiment station at Fort Collins.

Thus far the experts report that the results have all been negative. About the only thing that has been developed to a certainty is that the loco weed contains no nourishment, as one horse was fed exclusively on a loco diet and died of starvation. Dr. Glover says he is convinced that there is a condition known as "locoed" and that it occurs in cattle and horses which eat this weed. As to how the condition is brought about the experts are unable to determine. Large quantities of the weed in various stages of growth are being sent to Washington for analysis.

## NINETEENTH ANNUAL REUNION OF ELKS.

Buffalo, N. Y., July 11.—The nineteenth annual reunion of the Elks opened in this city today. The band contest for the rich prizes is one of the features for today.

## INVESTING SAKHALIN

Japanese Have No Desire to Conclude Peace Until They Gain Island.

## TROOPS ARE LANDED

And Occupation Is Begun—Said to Be a Second Alaska and Worth Ten Billions of Dollars.

Tokio, July 11.—The navy department has received the following cable from Admiral Kataoka: "Two cruisers and four torpedo boats left Korassakorski on July 10 with soldiers on board for the purpose of landing and occupying Cape Notoro. After a bombardment that place was taken. The light house and buildings were left undestroyed."

Cape Notoro is the most southern point of Sakhalin Island on the Laperouse Straits, directly facing Cape Soya on the Japanese coast. It commands the Straits.

Two Thousand Troops Landed. Nicolalevsk, Asiatic Russia, July 11.—The Japanese have already landed over 2,000 troops at Korsakovsk, Island of Sakhalin.

Japs Have Their Eye on Island. St. Petersburg, July 11.—The impression here is that now that the Japanese have made a descent on the island of Sakhalin, they are determined to get the island firmly in their grasp before peace negotiations begin. This is an easy task, as the small Russian force on the island is in no position to contest its occupation. In addition to marines and infantry the Japanese landed artillery and cavalry. The latter are moving rapidly north. The presumption here is that the Russian troops will clear out without fighting, crossing to Alexandrovsk, on the main land. The Novosti says it considers Sakhalin a second Alaska, worth ten billions of dollars. It is possible, however, that Japan might agree to suspend hostilities in Manchuria although the latest reports from there create a strong impression that Field Marshal Oyama is at last advancing for a decisive blow.

Sentenced as a Russian Spy. Tokio, July 11.—The judgment in the case of Captain A. E. Bougouin, the French resident who was sentenced yesterday to ten years' imprisonment at hard labor on the charge of being a Russian spy, declares that the accused was engaged in searching for and reporting artillery secrets.

## THIRD PRISONER CAPTURED.

John Medlock, Who Escaped From the Raton Jail, is Caught at Pueblo, Colo.

Pueblo, Colo., July 11.—John Medlock, a colored man, and one of the eight prisoners who escaped from the jail at Raton, New Mexico, about three weeks ago, has been captured in this city. Medlock was one of the most important of the eight prisoners who got away. He is charged with the murder of a woman at Springer, New Mexico, some four years ago. Medlock had only been in jail a week before the escape, having been brought to New Mexico from Fort Leavenworth, Kansas. Only two other prisoners besides Medlock have been captured.

## OFFERS A THRONE.

The Norwegian Kingship Has Been Tendered to Prince Charles of Denmark.

London, July 11.—The Associated Press is in a position to confirm the report that the offer of the Norwegian throne has been made to King Edward's son-in-law, Prince Charles of Denmark. The matter is still under consideration. Prince Charles' mother was the daughter of the late king of Sweden.

## F. J. M'KIE HAS BEEN APPOINTED CHIEF CLERK.

Topeka, Kansas, July 11.—F. J. McKie has been appointed chief clerk to General Superintendent F. C. Fox of the Santa Fe, at Topeka, to succeed W. K. Etter, who has been appointed trainmaster at this point. Mr. McKie has heretofore been chief clerk in the office of the superintendent of the Illinois division of the Santa Fe. He resumed his new office here yesterday.

## CODY DISMISSES APPEAL IN DIVORCE SUIT.

Omaha, Neb., July 11.—Dr. D. Frank Powell has received a cablegram from Colonel W. F. Cody directing him to dismiss the appeal in his divorce suit. "Colonel Cody dismisses the appeal," said Mr. Powell, "at the earnest request of his only living child, Irma, wife of Lieutenant Clarence Armstrong Scott, of Fort Thomas, Georgia."

## SHOUVALOFF ASSASSINATED

Prefect of Police Shot Down by Petitioner at Moscow Today.

## FIRE FIVE TIMES

At Close Range, the Bullets Passing Through Victims Body—Bloody Scenes in Russian Poland.

Moscow, July 11.—Count Shouvaloff, prefect of police here and formerly attached to the ministry of the interior, was assassinated this morning while receiving petitions. One of the petitioners drew a revolver and fired five times at the prefect, who fell dead. The assassin was arrested.

The assassin waited in an anteroom until the other petitioners had been received and then, entering the audience room, he advanced towards Count Shouvaloff, firing five shots at close range. The bullets passed through the body of the prefect.

The assassin, who was dressed as a peasant, has not been identified. He was recently arrested as a political suspect but escaped from the police station before his examination.

## Bloody Encounters in Warsaw.

Warsaw, Russian Poland, July 11.—Three bloody encounters between the troops and the striking shoemakers, in which about twenty persons were killed and wounded, occurred today. The strikers were marching through the city from house to house demanding a lowering of rents by twenty per cent. Many proprietors, out of fear, complied with the demands of the strikers.

## Martial Law in Tiflis.

Tiflis, Caucasus, July 11.—The streets and squares are occupied by troops but the city has been quiet since the proclamation of martial law.

## Business Suspended at Batouma.

Batouma, Caucasus, July 11.—Business here is at a standstill. The shops and banks, with the exception of the Imperial Bank, are closed.

## TERMS OF AGREEMENT.

Finally Announced in the Franco-German Controversy Over Morocco.

Paris, July 11.—Premier Rouvier's announcement in the Chamber of Deputies today of the terms of agreement between France and Germany concerning Morocco brings a deep sense of relief to the entire country after many weeks of tension which many persons believed involved the possibilities of war.

The text of the three notes fully confirms the general impression relative to the lines of the negotiations. Germany's contention for a conference receives the final adherence of France, but President Rouvier has secured the safeguards which he insisted at the preliminary conference with Prince Von Radolin were indispensable.

The most important of the safeguards is that the conference shall not convey any prejudice to the Anglo-French or Franco-Spanish entente. While Germany does not specifically assent to these agreements she formally withholds dissent. This is considered an important gain for France and as both the ententes referred to recognize France's privileged position in Morocco, France emerges from the negotiations with this privileged position intact.

## ROB TICKET OFFICE.

Burglars Secure About \$300 From Money Drawer at Phoenix Station.

Phoenix, Ariz., July 11.—When the Santa Fe, Prescott & Phoenix Railroad's local passenger depot was opened, it was found that the cash drawer was missing, and with it nearly \$300.

The local officers are working on the case and one man has been arrested on suspicion. He is believed to be a man who was seen to leave the toilet room of the depot about 4 a. m., and later the cash drawer was found in that apartment.

The burglar made his entrance to the office through the ticket window which he pried open with an iron bar.

## MINISTER RUSSELL.

Formal Announcement Made of His Appointment to Succeed Mr. Bowen.

Washington, D. C., July 11.—Formal announcement has been made at the state department of the appointment of William W. Russell, of Maryland, as minister to Venezuela, where he succeeds Mr. Bowen.

Mr. Russell was formerly secretary of the legation at Caracas and was sent from there to Bogota as minister to Colombia, where he has been relieved by Mr. Barrett.

## BAD MIX-UP IN KENTUCKY

Mayor and Policemen of Newport Charged With Resisting an Officer.

## FREE FOR ALL FIGHT

Occurs Because Caleb Powers' Friends Want Him to Have More Comforts Than Usually Go to Prisoners.

Cincinnati, Ohio, July 11.—Jailer Plueger and three other men are out on bail after their arrest by order of Mayor Helmbold, of Newport, Kentucky. Policemen Flynn and Ratigan are also out on bond, having been arrested charged with resisting United States officers in the discharge of their duty and a warrant has been issued against Mayor Helmbold on that charge. These were among the results of an attempt of some of the friends of Caleb Powers, the former secretary of state for Kentucky under indictment for complicity in the murder of William Goebel, to furnish the cell of the prisoner with more comforts than usually fall to the lot of the inmates. Mayor Helmbold had given orders to have Power's cell made more comfortable and the jailer resisted these attempts. During the fight which followed when the jailer refused to obey the mayor's orders to place Powers in a cell other than that prepared for him, the mayor's front teeth were knocked out, revolvers were drawn and almost the entire police force of Newport was called into action. The jailer asserts that the order of United States Judge Cochran, when that official assumed jurisdiction in the Power's case and committed him to the Newport jail, gave direct charge of the prisoner to the jailer and the mayor had no right or authority in the matter. The charge against the jailer and the three men arrested with him is assault and battery and resisting an officer. Mayor Helmbold was today bound over until Thursday, having surrendered himself on learning that a warrant was out against him.

## RAILWAY LABORERS DESERT.

Trackmen on Santa Fe Leave Work in Kansas in Order to Get Employment in Harvest Fields.

Kingsley, Kansas, July 11.—The work in rebuilding the Santa Fe Railway line between here and Dodge City is at a standstill owing to the men having deserted to go to the harvest fields. The hills are being cut down between Wright and Dodge City. The railroad yards here are to be enlarged and a new gravity coal chute is to be built at the east end. A new freight depot is to be built here as the freight receipts for the past June were \$6,000 in excess of he receipts of the same month a year ago.

## COLLIERY EXPLOSION BURIES MANY MEN.

Cardiff, Wales, July 11.—An explosion occurred today at the Watertown colliery, Rhonda Hill, while 180 men were in the pit. Communication with them is cut off.

A loud explosion was heard at noon, followed by the belching of clouds of smoke and dust from the colliery. The manager descended but has not yet returned. It is feared that 180 entombed men were killed.

All hope of rescuing the entombed men is abandoned. One hundred and forty-four lives were lost, including the manager of the colliery. Eight bodies have been recovered.

## EL PASOAN COMMITS SUICIDE AT CLOUDCROFT.

El Paso, Texas, July 11.—Martin J. Kinneman, for a number of years a resident of El Paso, committed suicide at Cloudcroft Sunday evening. The news of his death was brought to El Paso in a brief dispatch from Dave Fenchler, who is at Cloudcroft, to Will Fenchler. The means which he employed in killing himself is not given.

## PROSECUTIONS ARE EXPECTED TO FOLLOW.

Washington, D. C., July 11.—Secretary Wilson today turned over to Attorney General Moody all the papers in connection with the cotton leak investigation. It is intimated that this is done with the expectation that the prosecution of the several persons mentioned in the report of the secret service officers will follow.

## EL RENO & WESTERN NOT ROCK ISLAND PROPERTY.

Guthrie, Okla., July 11.—General Manager Wolf, of the El Reno & Western, denies the report from El Reno that the road has been acquired by the Rock Island. He says the report was started in connection with the discharge of one of the employees of the road at El Reno.

## CROSS NORTH NEW MEXICO

New Railroad From Des Moines, Union Co., to Elizabethtown Incorporated.

## 120 MILES IN LENGTH

Primary Object the Coal Fields on Maxwell Land Grant—The Rock Island Probably Behind It.

The largest incorporation fee ever paid into the territorial treasury, was that received last Saturday by J. W. Reynolds, secretary of the Territory, when the St. Louis, Rocky Mountain & Pacific Company paid \$1,100, as required by law, for the filing of the following articles of incorporation:

St. Louis, Rocky Mountain and Pacific Company. The incorporators are Henry Koehler, Hugo Koehler, of St. Louis, and Charles Springer, of Cimarron, New Mexico. The principal place of business is Raton, New Mexico, and Jeremiah Leahy is named as agent. The objects of this company are to mine, quarry, excavate, bore, and otherwise produce iron, coal, stone and other minerals; to acquire by purchase, lease, or otherwise, coal mines, iron mines, mineral lands and other lands and property, and mineral and mining rights; to develop, mine and operate such mines and property; to buy and sell coal and other minerals; to manufacture, purchase, and sell coke, iron, and all by products; to produce and deal in gas and oil; to purchase, sell, lease, and build houses, store buildings, and other buildings; to do a general merchandise business; to do a general real estate business; to acquire water rights and privileges; to construct pipe lines and mains and establish water works, with all the necessary equipment to manufacture and produce electricity. The capital stock is \$11,000,000 divided into 110,000 shares at \$100 each, of which 10,000 shares are preferred stock and 100,000 shares are common stock. The number of directors shall be fixed from time to time by the by-laws, but if fixed at more than three shall be some multiple of three. Those who will manage the affairs of the company for the first three months are the incorporators.

## Railway Company Also Incorporated.

The same incorporators also paid a fee of \$350 to secretary of the Territory J. W. Reynolds for the filing of the incorporation papers of the St. Louis, Rocky Mountain & Pacific Railway Company, as follows:

The St. Louis, Rocky Mountain & Pacific Railway Company. The incorporators are Henry Koehler, Hugo Koehler, Max Koehler, Orville H. B. Turner and Thomas B. Harlan, of St. Louis; Jeremiah Leahy, Christopher N. Blackwell, Raton; Charles K. Beckman, New York City; Charles Springer, Cimarron. The purposes for which this corporation was formed are to construct, maintain and operate a railroad for the conveyance of persons and property for hire. The capital stock is \$3,500,000 divided into 35,000 shares at \$100 each. The term of existence is 50 years and the principal place of business is Raton, New Mexico, with Jeremiah Leahy named as agent. The directors are the incorporators.

## The Route of the New Railroad.

The eastern terminus of said road is at a point 45 miles northwest of Clayton, on the Colorado & Southern Railway near Des Moines, in township 29 north, range 29 east, in Union County, New Mexico. From this point the road takes a northwesterly direction to Raton, in township 31 north, range 23 east, in Colfax County, a distance of about 45 miles. From Raton the road turns to the southwest, passing near Dawson, in township 28 north, range 20 east, to a point near Cimarron, in township 27 north, range 19 east, a distance of about 55 miles. At this point the road turns to a northwesterly direction, through the Cimarron canon to the western terminus at a point near Elizabethtown in township 28 north, range 16 east, a distance of about 20 miles. This gives an entire length of road of about 120 miles and opens up the large coal fields in Union and Colfax Counties, conceded to be the largest body of coal under one ownership in the world. This field comprises about 525,000 acres and includes an area of about 800 square miles. Beside opening up these coal fields it will furnish an eastern outlet to the fertile Taos Valley for the shipment of the large productions of agricultural products and fruits.

## The Rock Island May Be Behind the Enterprise.

It is believed that the moving spirit behind the enterprise is the great Chicago, Rock Island & Pacific Railway System, and that it is more than likely that within the next few months articles of incorporation for a railroad company to build from Elizabethtown south through the Taos Pass and on west through the Territory and on to the Pacific Coast will be filed in the office of the secretary of the Territory.

## IS AHEAD OF THE SCHEDULE

Scott Special on the Santa Fe Breaks All Records Into Chicago.

## BEATS ALL ESTIMATES

Three Hours and Six Minutes Faster Than the Contract Called for—A Marvelous Run.

Kansas City, Mo., July 11.—The Scott special on the Santa Fe, racing for a record between Los Angeles and Chicago, reached Argentine, Kansas, at 3:37 this morning and departed for the north at 3:40. The train was due here at 5:30 and was thus one hour and 53 minutes ahead of its schedule. After leaving Argentine one of the liveliest clips on the trip was maintained, the special covering 221 miles between Kansas City and Fort Madison, Iowa, in four hours and nine minutes. This, according to Santa Fe officials, beats all records for that distance and makes it possible to reach Chicago on a forty-five hour schedule from Los Angeles.

## Into Chicago 6 Minutes Ahead of Fastest Estimate.

Chicago, July 11.—The Scott special on the Santa Fe reached Chicago today from Los Angeles at 11:54, six minutes ahead of the fastest estimate. The train left Los Angeles at 1 p. m., on Sunday and made a run of 2,265 miles in 44 hours and 54 minutes. This is a trifle over twenty-three hours and five minutes faster than the time of the regular Santa Fe limited. It is 3 hours and 6 minutes faster than the original contract calls for (which was 48 hours) and beats even a later schedule of 45 hours by six minutes.

## CALHOUN HONORED.

Chicago Attorney Appointed Special Commissioner to Visit Venezuela.

Chicago, July 11.—William J. Calhoun, of Chicago, has been selected by President Roosevelt to act as the special commissioner to visit Venezuela and determine the equity of the Asphalt Company's claims and other vexed questions. Mr. Calhoun, aside from being a lawyer of distinction, is not without experience in tasks of diplomatic delicacy, for he went to Cuba, for President McKinley on a mission of somewhat similar import before the Spanish American war.

## JAPANESE LOAN.

The Rush of Applicants Greater Than on the Occasion of the Former Offering to Subscribers.

London, July 11.—Since the hour they opened today the banks with the issue of the new Japanese loan of \$150,000,000 have been rushed with applicants. Indications are that the loan will be heavily oversubscribed. The rush is even greater than on the occasion of the last loan.

## PRISONERS FROM SOCORRO.

Sheriff Baca Arrives With Four, Sentenced at the Recent Term of Third District Court.

Leandro Baca, sheriff of Socorro County, arrived in the city this afternoon with four prisoners for the penitentiary, sentenced by Associate Justice Frank W. Parker at the recent term of the Third Judicial District Court for Socorro County. Escalastico Tals, sentenced to hang July 28th, for murder in the first degree, was brought to the penitentiary for safe keeping. His case having been appealed, sentence will not be executed but will await the action of the supreme court. The names, ages, terms and crimes of the others are, David Cuellar, 26 years old, sentenced to 99 years for murder in the second degree; Canuto Carrillo, 45 years of age, 25 years for murder in the second degree, Henry Bell, age 15, one year for larceny of an animal. Sheriff Baca returned to Socorro this afternoon.

## WOOL MARKET SHOWS MUCH STRONGER TONE.

Boston, Mass., July 11.—A stronger tone is shown in the wool market, any tendency to weakness having disappeared. The advance in low and quarter blood fleeces at London sales has helped the values here.

While there is nothing sure about this, the belief that it will come to pass is more or less well grounded. Having quite a number of surveys made from Taos through Taos, Rio Arriba and San Juan Counties to the western side of the Territory, which one of these will be selected is, of course, problematic, but railroad men who are well posted on the situation and on the plans of the Rock Island road are of the opinion that the connection will be an assured fact by December 31, 1907.

### HER FIGURE HER FORTUNE.

Womanly Vanity That Makes Fine Arms a Valuable Asset.

It was at a semi-Bohemian reception, where the writers and artists were wondering who had money and the other half were wondering what this or that long-haired man or queerly dressed woman did. The stranger guest sat in a corner and asked questions about everybody, wondering at the queer assortment of ex-husbands and ex-wives and all the would-be super figures entered.

"Well, who is she?" he asked. "I don't believe she does anything." "Oh, doesn't she? She makes a lot of money. Don't you notice what a stunning figure she has?"

The man admitted that he had observed it.

"Surely not an artists' model?" he exclaimed.

"Not exactly, but she poses for the figure at a fashionable photographer's."

"But not in the—"

"Of course not. But you know lots of would-be beauties who get their pictures in the magazines are sadly lacking in fine figures and especially smooth necks and statuesque arms. Hers are simply perfect and she poses for the figure and the clever photographer fastens on the other woman's head, and everybody is delighted. Don't you ever tell, though, for nobody is supposed to know."—New York Sun.

### TOO MUCH TEA HARMFUL.

English Physician Classes Beverage With Alcohol.

As England is a nation of tea drinkers, some vigorous words on the tea habit lately spoken by Dr. John H. Clarke, a London physician, have attracted much attention. "It would almost seem," says Dr. Clarke, "that the human animal is determined to assert his superiority over all the rest of creation by the ingenuity he displays in discovering or manufacturing pleasant poisons for himself. The great majority of mankind are the slaves of one or more poison habits. Of these habits the tea habit is one of the most subtle, insinuating and injurious."

"It is a mooted point whether tea does not do more harm in this country than alcohol. It does not make its victims 'drunk and incapable,' but it certainly does make them drunk. To be saturated with tea, to be constantly under its influence, to be dependent on it, is to be tea drunk."

### Missed Her Favorite Song.

Last summer a little girl living at Mt. Auburn, Cambridge, wanted to go to Sunday school with her sisters and brother. As she was not much over three years old, her mother was afraid she would not keep quiet; but the eldest sister promised to bring her home immediately. In case there should be any trouble, but Annie, the little one, behaved very well, and when she came home with the others she could not tell her mother quickly enough what a fine time she had.

"What did the children do, Annie?" the mother asked.

"Oh, they sang hymns, and teacher told them stories."

"And what did you do, Annie?"

"I folded my hands nicely and kept very quiet, and when they sang I did, too; but, mamma, isn't it queer, they never sang 'Yankee Doodle.'"

### What's in a Name?

Champ Clark, representative from Missouri, dearly loves a good story at the expense of the state of Arkansas.

"One day," says Mr. Clark, "as a train from the east pulled up at the dinky little station of a most depressing town in the fever-and-ague district of Arkansas, a passenger thrusting his head out of a car window demanded in bitter tones of a dejected-looking citizen who was leaning against the station door:

"Tell me, what do you call this dried-up, dreary, God-forsaken place?" "That's near enough, stranger," replied the native in a melancholy voice, "let it go at that!"—Collier's Weekly.

### Bit of Real Life.

The woman was actually hungry. Despondent she sat in her cheerless garret while two little children clung to her skirts and clamored for food.

Suddenly there came a knock upon the door. Succor had perhaps arrived.

A sweet-faced lady stood upon the threshold.

"My poor woman," compassionately cried she, "do you want work?"

"Yes, mum."

"Well, I can give you nice easy work at good wages. I need a housemaid. Do you wish the place?"

"Well, I don't know, mum. How many evenin's off a week do you give?"—Houston Chronicle.

### A PROBLEM.

It is a problem which a great many people cannot solve—how the Bon Ton can put up a meal like they do for 25 cents. Mr. Conway finds it very easy to solve because he understands the business, has good cooks, accommodating waiters, and gets the best the market affords, hence, he has a great many customers. The best at a "living" price, is Mr. Conway's motto.

### SUNFLOWER PHILOSOPHY.

We suppose that biliousness may be classed as a yellow peril.

The average explanation is an introduction to an argument.

Everyone has to take his medicine some day, but Rojestvensky has to take two kinds.

We heard a man confess to-day that, as a boy, he was never a good skater or ball player.

Some people take so much thought for to-morrow that they accumulate to-morrow's wrinkles to-day.

"They are getting old," people say of their parents, with a sigh, implying a hope that they won't get too old.

There are little Rojestvenskies, just as well as little Togos, but the papers don't seem to find out how smart they are.

The trouble with some who take their troubles to the Lord is that they stop too often on the road to tell about them.

Every man argues that the shirt waist his wife makes looks as good as that made by the dressmaker, but he will not stand for a home-made shirt.

In the story books, all the little girls' fathers are kings or keep candy stores; there is nothing vulgar about the occupation of girls' fathers in the stories.

When there is no woman around the house, all the curtains are up to top all day, and the sun had a good time fading things with no woman to interfere.

This is the school vacation period when the boy spends all his time riding on a grocer's delivery wagon, and discovers that his first ambition is to be a delivery boy for a grocer.—Achtison (Kan.) Globe.

It is ten times easier to cure coughs, croup, whooping-cough and all lung and bronchial affections when the bowels are open. Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. Gently moves the bowels and expels all cold from the system. Cuts the phlegm, cures all coughs and strengthens weak lungs. Sold By Ireland's Pharmacy.

### Irrigation in India.

A great irrigation project involving an expenditure of about \$25,000,000 has been authorized by the secretary of state for India. The area commanded by the canals is about 6,250 square miles, although only a small part of it will be reached for a number of years to come. In this area it is estimated that about 3,000 square miles will be irrigated.

### Opportunity.

"So you got the worst of the transaction, as usual?" "Yes," said the financially ambitious youth.

"The trouble is that you don't take advantage of your opportunities."

"I can't manage it. The other fellow invariably gets the advantage. I always seem to be the opportunity."

If in a kind of bilious mood, You wish an aid to digest food, No other pill is half so good As DeWitt's Little Early Risers.

When ever you feel impending ill, And need a magic little pill, No other one will fill the bill Like DeWitt's Little Early Risers. Sold By Ireland's Pharmacy.

THE SANTA FE IS RAISING ITS TRACK AT SOCORRO.

Since the building of the dam at the point of Socorro Mountain to divert the flood waters of the Rio Grande from the town of Socorro, these waters have been causing more or less damage to the tracks of the Santa Fe Railway below the town. The company has now decided to raise the track for some distance and put in a flume and bridge near the old slaughter houses to give the water free passage to the Rio Grande. This work will necessitate the employment of about a hundred men for a month or six weeks. A temporary track is already being laid to the old gravel pits about a mile below the town, and the work of improvement will soon be in full progress.

CONTRACTS AWARDED AT SHIPROCK SCHOOL.

George E. Hopper, of Arkansas City, Kansas, has been awarded contracts for the construction of school buildings at the Shiprock U. S. Indian Training school. The contract price is \$65,250. The work with the price is as follows: stone mess hall \$24,557; two stone cornitories \$22,254; stone barn \$10,200; stone wash house \$1,900; pump house, reservoir, water and sewer system \$6,639; addition to laundry \$1,900; gas machine house \$250; addition to superintendent's cottage \$400. The work is to be completed by March 1, 1906. Contractor has option to use brick or stone.

## MINOR CITY TOPICS

There will be held this evening the regular meeting of Santa Fe Lodge No. 2 Knights of Pythias. All knights are requested to attend.

The guests at Sunmount will entertain friends tonight at a dance at that popular resort.

The Harvey eating house on the Santa Fe at Gallup, McKinley County, was badly damaged by fire yesterday afternoon. The greatest damage was in the dining room where the blaze originated.

Small boys still persist in breaking off the limbs of the shade trees in the Plaza and along the streets. This practice should be stopped. The shade trees are too valuable to be injured in this manner.

Henry Chavez, a ten year old Albuquerque boy, had his right leg crushed off just below the knee yesterday. He was riding on the side ladder of a box car in the Santa Fe yards, missed his hold and fell beneath the wheels.

Owners of dogs within the city limits would do well to pay the license up on the same and secure a tag, as the council has ordered the city marshal to shoot on sight all canines found on the streets without the proper tag.

The public should keep in mind the fact that the Woman's Board of Trade placed the garbage cans which are to be found on all sides of the Plaza there to be used. All trash, paper and refuse should be thrown into these cans and not tossed into the street.

The messenger boy for the Western Union Telegraph Company in this city has donned his new uniform and makes a very neat appearance. The uniform is of an olive green color somewhat after the style of the new khaki uniforms of the U. S. army.

The building committee of St. John's Methodist Episcopal Church has let to the American Church and School Furniture Company, through its agent at Denver, the contract for the pews for the St. John's Methodist Church in this city. These will be installed as soon as possible and it is hoped that the work will be finished in September.

The sale of the furniture and pictures which were used in the New Mexico building at the St. Louis World's Fair, was finished this morning. The pieces brought good prices and the entire lot was disposed of with the exception of several of the large books of views. The committee in charge of the sale stated that the total amount of the sales would be in the neighborhood of \$1,000.

At a meeting of the executive committee of the Territorial Fair Association recently held at Albuquerque, the following appointments were made: Superintendent of parade, P. F. McCanna; superintendent of music, Geo. P. Leonard; superintendent of base ball, E. D. Pickard; superintendent of sheep and wool exhibit, George Arnot; superintendent of fruit and vegetable exhibit, M. P. Stamm; superintendent of Montezuma ball, J. H. O'Reilly. Over thirty car loads of graded and thoroughbred stock have already been promised by Texas, Kansas, Nebraska, and Iowa breeders for exhibition at the big stock show.

The temperature in Santa Fe yesterday afternoon at 2:30 o'clock was 74 degrees. At 4:40 in the afternoon the maximum for the day was reached, when 79 degrees were recorded at the local weather bureau. The minimum was 53 at 5 o'clock in the morning and the mean for the day was 66, quite a contrast to the cities of the north and east, where prostrations from the excessive heat were occurring with alarming frequency during the day. The relative humidity was 44 per cent and there was a trace of precipitation. The temperature at 6 o'clock this morning was 52 degrees. The forecast for New Mexico for tonight and Wednesday is generally fair and warmer tonight. The eastern and western

## BABY'S FACE MASS OF SORES

Ears Looked as if They Would Drop Off—Body Entirely Covered with Humor—Three Doctors Could Not Cure—Child Grew Worse.

CURED BY CUTICURA IN TWO WEEKS

Mrs. George J. Steese, of 701 Coburn St., Akron, Ohio, tells in the following letter of another of those remarkable cures of torturing, disfiguring skin humors daily made by Cuticura Soap, assisted by Cuticura Ointment, after physicians, and all else had failed: "I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was eaten away, her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of soap and box of ointment the sores had all healed, and my little one's face and body was as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents, which is all it cost us to cure our baby, after spending many dollars on doctors and medicines without any benefit whatever."

## SIDEWALKS TO BE BUILT.

City Council Will Push the Matter—Bills Allowed and Other Business Transacted Last Night.

The city council met last night at the office of the mayor in postponed session. Mayor Gibson was in the chair. City Clerk Montenie at the desk and Councilmen Anton, Baca, Castillo, Garcia, and Kaune, and City Attorney Victory, present. Councilmen Lopez and Walker absent.

The minutes of the two previous meetings were read and approved after which the following business was transacted:

The petition presented by I. Sparks, manager of the Santa Fe Electric Telephone Company, for an extension of franchise of said company was read and referred to the committee on ordinances. Mr. Sparks in his petition agreed to increase the number of automatic fire alarm boxes in the city and in addition to this would install 10 recording fire alarm gongs in the residences of as many firemen.

A petition signed by 100 residents of the city in the fourth ward, asking the council to open a street from the east side of Bernard Seligman's property on Palace Avenue due north to an intersection with the Hill-side Avenue extension, the right of way being guaranteed free of cost to the city by the property owners, was read and referred to the committee on streets and bridges.

The monthly reports of the treasurer, clerk, police magistrate and mar-

shal were read and referred to the finance committee.

Councilman Garcia was appointed by the mayor as chairman of the committee on ordinances to fill the vacancy caused by the death of Councilman A. P. Hogle.

The marshal was instructed to shoot on sight all dogs not covered by license. This ordinance is to be rigidly enforced and owners of canines will do well to pay their license and protect their dogs by tags, otherwise the number of the animals in the Capital City will be rapidly reduced.

The committee on streets and bridges was given full power to act in the matter of delinquent sidewalks. As soon as brick can be obtained walks in every part of the city, covered by the ordinance, will be laid and a lien filed against the owners of property along said walks.

The city attorney was authorized to act in regard to the sewer connection made by A. B. Renahan as agent of the Wheelock property on upper Palace Avenue, with the Palace Avenue sewer, wherein the fee of \$25 established by ordinance was not paid.

The city attorney was also instructed to act in the matter of J. C. Conklin's account with the city.

The following bills for the quarter ending June 30, were allowed, after which the council adjourned to meet again on the first Monday in August: Salaries of city officials \$615; Sheriff Ortiz, for feeding prisoners \$50; Santa Fe Water and Light Company, \$500; Woman's Board of Trade \$62.50; J. O. Carlson for street crossings, \$114.84; Santa Fe Hardware Company, \$7.43; fire department appropriation, \$25; C. W. Dudrow, \$20; breakwater appropriation \$200. Total amount of bills allowed \$1,604.77.

In the matter of the breakwater, there is still \$350 remaining unpaid. Several members of the council and also uninterested citizens stated that the work on the structure was thorough and in accordance with contract and that the money should be raised. The balance will undoubtedly have to be secured by popular subscription and owing to the protection to property and the efficient manner in which the breakwater was built, every citizen, loyal to the city, should help in defraying the expense for a public benefaction.

## WHY THREE AND A HALF MILL LEVY FOR INTEREST ON CITY BONDS.

In the tax levy made by the board of county commissioners during the past week it is noticed that three mills have been levied for payment of interest on city bonds. It is calculated that the taxable property within the city limits of Santa Fe this year will amount to about \$800,000. No one exactly knows, as the city administration does not care to publish any statement or let the people know, what the exact debt of this city is but it is supposed to be in the neighborhood of \$20,000. Part of this it is said bears 5 per cent and part 6 per cent interest annually. Taking the whole at 6 per cent the interest charged for one year on a \$20,000 debt would amount of \$1,200. The levy asked for by the city council of the board of county commissioners was three and a half mills upon the dollar, but the county commissioners levied only 3 mills. This is nearly double what should have been levied. A levy of two mills would have been ample. This in the nature of things should have produced, less commissions and a deficiency of \$1,200 or \$1,400 and, therefore, would have been ample for the payment of \$1,200 interest on \$20,000 in bonds. An explanation from the city administration is in order. Why was it requested of the county commissioners that a levy of 3 1/2 mills on the dollar should be made when a levy of two mills would have been sufficient? Where is this surplus that will surely be collected from the three mills levy made, to go? What is to be done with it? To what funds is it to be diverted? There seems to be something wrong in this official transaction. Let the people know something about it. The columns of the New Mexican are open to any explanation Mayor Gibson and the city council may have to make in this instance.

## BENEFICIAL RESULTS ARE SURE.

"When the irrigation works are constructed, there will no longer exist the anomalous condition of dry acequia madre while a great volume of water flows in the river. "As soon as the requisite acreage of our lands is pledged to the main project, the engineers of the reclamation service propose to commence work upon the diverting dam near Ft. Selden, which when constructed will furnish us a permanent ditch head and effectually protect us against such a condition as exists today."—Rio Grande Republican.

Therefore the owners of lands in the Mesilla Valley ought to lose no time in signing the agreements conveying their landed property to the United States under the Engle or Elephant Butte dam project now in contemplation by the U. S. reclamation service. The opinion of the Republican, as above expressed, is correct and based upon facts. Every land owner in the Mesilla Valley should heed this, act accordingly and that promptly. The construction of the "Elephant Butte" or "Engle dam" and the irrigation systems under it will make the Mesilla Valley one of the most prosperous and most populous sections in the entire southwest. Tens of thousands of people will make a good and comfortable living, where now there are not hundreds in the valley, as soon as the reservoir is completed and the system put into active operation.

The county commissioners of Santa Fe County are entitled to the thanks of all decent and patriotic citizens and the execration and condemnation of all backbiters and knickers in this county for their action in making a levy of three mills for the purpose of constructing a new, modern and safe county jail for this county. Such a structure is greatly needed and this is well known to every citizen who is not blinded by personal prejudice or venomous envy, or who is not a tax dodger. The members of the board did well and did their duty by the people, by the tax payers and by themselves in ordering the levy.

## RESULTS OF SUMMER TERM OF COURT IN SOCORRO COUNTY.

The term of court for the County of Socorro which closed Saturday, Judge Frank W. Parker presiding, was strenuous and of benefit to the public interests. Four murder cases were tried during the term. In three, convictions were obtained. One for murder in the first degree, in which the defendant was sentenced to be hanged July 28th next. An appeal, however, was taken to the Supreme Court and Judge Parker directed the defendant to be confined in the jail attached to the penitentiary in this county for safe keeping. In another case a verdict in the second degree was obtained and the culprit sentenced to life imprisonment in the penitentiary. In the third case, a verdict of guilty was also had, but on account of recommendation to mercy by the jury the court sentenced the guilty man to twenty-five years imprisonment. In one case in which murder was charged there was an acquittal, the court finding that the evidence was insufficient and hence took the case from the jury. Another murder case had been set for trial but the district attorney was unable to procure evidence to convict and therefore nolledd it. A large number of indictments charging larceny of stock, assaults and lesser offenses were tried or otherwise disposed of. The criminal docket was pretty well cleared and a great deal of progress was made on the civil docket. In fact, there remained but very few cases for trial on either docket, although the civil docket was reduced to a lesser degree than the criminal docket. Judge Parker dispatched business with his usual alacrity and energy. District Attorney Elfrigo Baca, who was appointed to the position last March, made a good record as the convictions obtained clearly demonstrated. The people of Socorro County are very well pleased with the results. Law and order have been raised to a higher plane in that county and it is believed that the convictions for murder at the last term of court, will have a very beneficial result in many directions. The petit juries consisted of about three-fourths of natives and their three convictions for murder are strong indications that New Mexico citizens of native descent can be trusted to do what is just and right, even in capital cases and when men of their own race are charged with murder and similar crimes. The charge that juries consisting, either entirely or partly, of native born citizens of Spanish or Mexican descent will not convict offenders of their own blood, especially in capital cases, in the light especially of recent events, must fall to the ground. This is clearly demonstrated by the recent term of court held by Judge McPhe in Rio Arriba County and by the term in Socorro County by Judge Parker.

## CREDITABLE TO THE PRESS OF NEW MEXICO.

"Governor Otero has undertaken to purge Bernalillo County of its political impurities, which 'smell to heaven.' The Governor's action in this matter will mark the beginning of a glorious day for New Mexico if he will persevere in bringing all grafters to judgment with absolute disregard of factional or party considerations. He should let no guilty man escape."—Socorro Chieftain.

In the opinion of the bombastic Albuquerque Journal the above from the Socorro Chieftain is high treason and should be punished with life long imprisonment. In addition, it is "lese majeste." The bombastic Albuquerque Journal claims that it "downed" Frank A. Hubbell et al.; that it has purified the politics of Bernalillo County; that it has punished the malefactors and criminals in Albuquerque and that, indeed, "it is the prosperity and the material progress of the Duke City. The fact that in the county convention of Bernalillo last year Frank A. Hubbell et al., had themselves re-nominated and thereafter were re-elected by a large majority of the very desirable and fat offices which they hold despite the puny fight made on them by the Journal then and there, is never taken into consideration by the bombastes. The fact that the Republican party of the Territory and the Republican administration of New Mexico brought about the political downfall of the Hubbell faction in territorial affairs and that the bombastes had precious little to do with it cuts no figure in the swellheadedism of the sheet. It is gratifying to know that the Albuquerque bombastes, except the Journal, is almost alone in its fight on Governor Otero and the territorial administration. It is aided by a few weekly yellow sheets but that is all. No respectable nor self-respecting newspaper in the Territory gives the bombastes aid and comfort in its nefarious and dirty work. This is very creditable to the press of New Mexico and it is well to make a strong point of it right here and now.

China looks with apprehension at both Russia and Japan and would like to be represented at the meeting of the peace plenipotentiaries of the two countries at Washington. You cannot blame her. China's experience with Russia and Japan has been of a very bitter sort and even the Chinese burnt dog dreads the fire.

King Alfonso of Spain is not as "big a chump" as his escapades indicate. His recent appointment of General Valeriano Weyler as minister of war shows that he can select the right man for the right place. No one, who is at all acquainted with General Weyler's history, doubts that he will make a good war minister in time of peace.

## HORTICULTURAL FAIR SHOULD BE HELD.

The Horticultural Society of New Mexico should hold its annual fair in this city this fall and in time to send a fruit exhibit to the Territorial Fair at Albuquerque. This is a suggestion made by a prominent citizen of the Capital. In the opinion of this paper it is a good one and should be carried out. The fruit crop, as well as crops of vegetables and cereals in the valleys of the Rio Santa Fe, of the Tesuque, of the Nambe, of the Pojoaque, of the Santa Cruz, of the Truchas, of the Chama as well as in the Rio Grande Valley proper and throughout Santa Fe, Taos and Rio Arriba Counties, promise large yields of superior quality this season. A very large and creditable exhibit could and should be made by the Horticultural Society here, and thereafter should be sent to the Territorial Fair in the Duke City, to be part of the exposition there. If not, why not?

## SHOULD REMAIN IN SANTA FE.

"Henry Bradshar, recently appointed internal revenue collector in place of A. L. Morrison, for New Mexico and Arizona, has moved his headquarters from Santa Fe to Phoenix. Headquarters for the deputy has also been moved to Phoenix from Albuquerque. Bradshar was an Arizona Rough Rider."—Tucson Daily Times.

The New Mexican's Quay County contemporary is mistaken. Collector Bradshar has not moved his headquarters from Santa Fe to Phoenix nor has he any intention of doing so. Quite the reverse. He is contentedly situated in Santa Fe and has given it out cold that the internal revenue office will not be moved to Phoenix, although it may not remain in Santa Fe. Right here, it is well to remark that as yet no indications have appeared that the office will be removed from this city. There are many good reasons why it should remain here. These are patent and easily discerned.

The Rio Grande Republican rejoices at the good prospects of the speedy completion of the Albuquerque Eastern Railroad, commenting thereon editorially as follows:

"We note with pleasure that the new Albuquerque Eastern Railroad has been completely financed and that the construction thereof will be completed in the near future. Also, that said road has been consolidated with the Santa Fe Central. Delegate Andrews, Mr. Hopewell and their associates are entitled to great credit for the work which they have accomplished thus far. It is apparent that the attention of eastern capitalists is attracted by the magnificent resources of our territory."

One cause of the ill tempered and jaundiced editorials in the bombastic Albuquerque Journal is simply and easily noticed. The Albuquerque Citizen is getting away with the corporation sheet daily, especially in business that brings financial returns. That's where the shoe pinches. The money sharks who control the Journal are hurt in their pockets, their most tender spot.

Lo, the poor Indian is not as gulleless as he once was. Many and many members of the tribes in Oklahoma and Indian Territory have been endeavoring to defraud Uncle Sam for years past, and quite a number have succeeded. Whether this is argument for or against statehood for the two territories the reader may judge for himself.

The Las Vegas Optic is advocating a fair for northern New Mexico. It is a good idea and, if properly carried out with the right men at the head of the project, it will not only be a success and benefit to Las Vegas and northern New Mexico but to the entire Territory. Start the ball rolling. The New Mexican will aid whenever and wherever possible.

"And freedom shrieked when Kosciuszko fell" and the bombastic Albuquerque Journal shrieked because Governor Otero investigated the charges against Frank A. Hubbell et al.

There is more Catarrh in this section of country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: P. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

## CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by all druggists.

## VISITORS AND STRANGERS

If you are a visitor or stranger in the city and desire some place to spend your leisure hours where you will not get lonesome and where you will receive the most cordial welcome, drop into "The Club." All the popular games and best brands of liquors and cigars.

## SPECIAL ANNOUNCEMENT.

An invitation is extended to any white merchant outside of New York City, or his representative, whose name appears in Bradstreet's or Dunn's Commercial Agency Book, to accept the hospitality of our Hotel for three days without charge. Usual rates, apartment with private bath, \$1 per day and up, without meals. Parlor, bedroom and private bath, \$35 per week and up, with meals for two. New York merchants and editors are requested to call the attention of their out of town buyers and subscribers to this advertisement.

GALLATIN HOTEL, 70 W. 46th St., New York City.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

## VISITING CARDS.

Engraved cards de visite and wedding invitations a specialty at the New Mexican printing office. Any one standing in need of such will do well to call at this office and examine samples, style of work and prices.

Good for Stomach Trouble and Constipation.

"Chamberlain's Stomach and Liver Tablets have done me a great deal of good," says C. Towns, of Rat Portage, Ontario, Canada. "Being a mild physician the after effects are not unpleasant, and I can recommend them to all who suffer from stomach disorder." For sale by all druggists.

## LEARN TO SAY NO.

When people ask you to eat elsewhere than the Bon Ton, always say "no," for that is the best short order house in the city. Also regular meals may be had, either in the public or private dining rooms.

When you want a pleasant laxative that is easy to take and certain to act, use Chamberlain's Stomach and Liver tablets. For sale by all druggists.

## "DO YOU KNOW?"

The supposition is that no one wants poor whiskey more than they do poor coffee or tea, yet they purchase it not knowing the difference. The best costs no more. We handle bonded goods exclusively. "THE CLUB."

### NEW MEXICO WEEKLY CROP BULLETIN.

Issued By the Local Office of the U. S. Weather Bureau, C. E. Linney, Section Director.

Santa Fe, N. M., July 10th, 1905.

Day temperatures were again high during the last week but cool nights gave an average of about 3 degrees daily below the normal condition. Only light local showers occurred, many parts remaining dry and a good general rain is much needed. The week closes with conditions favorable for a continuation of showers over the Territory. Streams are low but as a rule water for irrigation is still plentiful.

The dryness is affecting range grass and many report it browning rapidly and maturing seed. Stock continues to do well, however. The late calf crop is light in northeast counties.

Wheat harvest has made rapid progress and some are thrashing; good yields are general. Oats are also being cut and results are satisfactory. Corn seems to withstand the dryness well and is growing finely, even upland fields and temporals doing well. In southern districts it is tasseling and silking.

Insects and worms continue burdensome and damaging, second crop alfalfa, gardens, field peas and beans receiving the greatest injury. Further reports of the disappearance of the army worm are received.

Fruit prospects continue excellent and early fruits abundant in local markets; shipments of peaches, apricots and plums are being made from southern valleys.

The following notes are taken from reports of correspondents:

Albert—H. M. Hanson—Still dry, but slightly relieved by local showers; grass drying considerably; insects unusually troublesome to planted crops; stock doing well; shearing in full progress; highest temperature 94 degrees, lowest 54 degrees; rainfall 0.54 inch; calf crop everywhere reported lighter than for a great many years, some ranchmen report but a third of usual crop.

Alto—W. H. Walker—Hot and dry, no rainfall, a little cooler than previous week; crops look well; grass drying up; water getting low in all creeks.

Arabela—A. M. Richardson—Hot, dry weather continues.

Artesia—Will Benson—Hot southwest winds have damaged crops somewhat; nights continue cool; stock of all kinds looking well; first plums on market; highest temperature 102 degrees, lowest 59 degrees.

Aurora—J. C. Lucero—Dry yet and stock and sheep finding feed principally in timber; rain needed, crops looking dry and in much need of rain.

Bloomfield—W. A. Ballinger—Dry, windy week; insects and worms doing much damage to crops; some second growth alfalfa practically ruined by worms; wheat harvested and well filled; stock keeping in flesh well, but milch cows failing; can Juan nearly fordable, but no danger of any shortage of water for irrigation; honey crops liable to be short; highest temperature 95 degrees, lowest 43 degrees, no rainfall.

Bonito—Geo. L. Bradford—Vegetation beginning to dry up; but irrigated crops doing well; first crop of alfalfa harvested.

Capitan—John Ritter—Good rain the close of June of great benefit to growing crops; stock doing well.

Capitan—Clement Hightower—Rains of previous week were local but did much good where they occurred; last week dry and hot; cultivated crops making wonderful growth, corn in tassel and some in silk; range grass needs rain; fall wheat threshed with large average yield; gramma grass nearly succumbed to drought of last year and is slow to recover, largely supplanted by blue stem in places and is now maturing seed.

Chacon—E. M. Lucero—Range drying very rapidly and rain needed; streams low; very hot days with considerable wind; highest temperature 84 degrees, lowest 46 degrees.

Chico—H. B. Masten—Dry and windy; second round-up just completed, loss of cattle not as heavy as expected, but calf crop light; shearing about completed.

Colmor—W. H. Fulweiler—Still warm and dry, only a trace of rainfall; not much wind during week; crops show the need of rain; bugs damaging beans pretty badly and even going after corn in some places; range grasses at standstill; cattle looking well; wool is being marketed rapidly.

Elizabethtown—Geo. E. Beebe—Windy and very dry, but crops not suffering yet; range, however, needs rain badly; highest temperature 80 degrees, lowest 32 degrees.

Espanola—Frank D. McBride—Cooler week, without rain and not much wind; highest temperature 91 degrees, lowest 41 degrees, mostly clear.

Estancia—P. A. Speckman—Warm and dry week, closing with local showers, which are needed; crops will suffer unless more rain soon comes; wheat and oats headed nicely and some have been cut; corn and beans growing finely.

El Rito—P. Lopez—Very hot with considerable wind; cutting of alfalfa finished and yield was good.

Flora Vista—G. H. Tonkinson—Good growing week, crops and fruit doing well; nights cool, but days warm; river falling; bugs doing some damage to gardens.

Folsom—Jackson Tabor—Favorable week for securing first cutting of alfalfa; rain needed badly as grass on range is drying up. The reports of the storm south and west of Folsom, June

29, prove it to be the worst in the history of this section of the country; sheep were killed by thousands with hail and floods, and much hay was washed away. Highest temperature 81, lowest 42, rainfall 0.14.

Gallinas Springs—J. E. Whitmore—Everything getting dry; first crop of alfalfa harvested but yield light.

Garcia—Lino Garcia—Good rain close of June; orchards doing well; grass and grain looking fine and fruit outlook very favorable; prospects good.

Hobart—W. H. Hough—Cutting and threshing wheat under way; corn looks fairly well; army worms drying; water getting low; range very dry.

Laguna—Gus Weiss—Wheat cutting begins this week; corn looks fine, but rain is needed as high winds are drying land pretty fast; will be lots of fruit of all kinds; stock in good fat condition; days hot but nights cool; highest temperature 96 degrees, lowest 52 degrees, clear skies.

Los Alamos—Wm. Frank, Sr.—Dryness continues but noticeable advance made in growing crops; river nearly dry and flow cannot be measured; shower today (8th) measured 0.15 inch; shearing about finished and wool selling at good price.

Luna—J. J. Hale—Wheat and oats looking very good, but corn is a failure; grass drying up for want of rain; potatoes and beans injured by frost morning of 3rd.

Mora—Z. S. Longuevan—No rain the last week and vegetation drying up; all kinds of stock look well.

Mountainair—John W. Corbett—Past week very hot and dry, some damage done to garden products and a little damage to corn and other field crops; grass good, but would be greatly benefited by rain; stock in good condition. Highest temperature 94 degrees, lowest 46 degrees, clear skies.

Ocate—N. Well—Very hot and dry; range and crops suffering and moisture much needed; not sure of grain crops yet.

Ojo Caliente—A. Joseph—A copious shower at close of previous week ended long period of dryness and farmers and stockmen jubilant; water in streams abundant for irrigation; grasshoppers and army worm continue to do damage to growing crops.

Pecos—A. Bustamante—Hot, sultry weather; first cutting of alfalfa in progress, yield not large; some complaint of worms doing damage to peas; corn, oats and wheat looking fine; grass drying for want of rain and rain generally needed; stock in good condition.

Pinos Wells—B. Salas—Dry weather continues, and corn is suffering; insects damaging gardens; stock doing well; days very warm but nights cool; grass drying up.

Questa—A. J. Gomez—Weather very hot and dry; plenty of water for irrigation; crops look well.

San Rafael—Chas. M. Grover—Watermelons, squash and cucumbers blooming; late cabbage set out and early string beans ready for table; sand burs getting ripe. Country needs rains; temporal corn standing dryness well and looks better and bigger than the irrigated crop; highest temperature 99 degrees, lowest 43 degrees.

Santa Cruz—J. M. Amand—Very warm and dry, but nights cool; river running low, but still plenty for irrigation; crops not doing very well, because of insects and worms of all kinds; wheat and corn good so far; first crops alfalfa good, but worms and insects damaging second; fruit also damaged somewhat.

Santa Fe—U. S. Weather Bureau—Temperature of the week averaged about 2 degrees daily below normal; highest 84 degrees, lowest 48 degrees; rainfall 0.11 inch. Valley continues beautifully green apparently not affected by the dryness, but rain would aid greatly; field crops, gardens and orchards continue in good condition.

Tularosa—Edward Tietze—All kinds of fruit doing well; second crop of alfalfa coming on nicely; hot weather, water scarce and rain needed; highest temperature 100 degrees, lowest 61 degrees.

Valley—John M. Archie—Last week hot and dry; crops doing well, growing finely; harvest of oats will begin soon and fine yield promised; plenty of range grass and stock doing well; soil seems to have considerable moisture in it yet, and dew appears every morning. CHARLES E. LINNEY, Section Director.

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,656.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board lodging and bathing \$2.50 per day; \$1.00 per week; \$5.00 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

**WELL PLEASED WITH SANTA FE.**

J. S. Lanning of Asbury Park, New Jersey, Gives His Opinion of the Capital City.

J. S. Lanning, of Asbury Park, New Jersey, receiver of the Monmouth Trust and Safe Deposit Company, who is in the city in the interests of his company, which is a creditor of the Fraser Mountain Copper Company, of Amizett, Taos County, said to a representative of the New Mexican that he was delighted with the "Sunshine Territory." Mr. Lanning was in the Capital City in December, 1903, and thought then that he could not find a finer climate in the world. His visit here at this time of the year has not changed that opinion, formed a year and a half ago, and he says if it was not for business interests in the east that he would be very well satisfied to live in the Capital. And not only is the climate unexcelled but also the scenery. Mountain grandness and canyon wonder are strewn over the Territory at random and in nature's own way. None of the beautiful sights of nature are marred by the hand of man in attempting to improve. Historical places are of great educational interest and wonder. The feasts and celebrations indulged in by the native element appeal to an easterner in a way unthought of by the citizen of the west who sees these things without so much as a heart throb. The cordiality and hospitality of the western folk is another feather in their cap. Strangers are given a welcome and entertained as in no other part of the Union. Mr. Lanning hopes, at some future time to make an extended stay in New Mexico, during which time he will visit all portions. San Juan County, although Mr. Lanning says that now it is out of the world because of the lack of railroad facilities, is destined to become one of the leading agricultural and stock districts of the west. Taking everything into consideration Mr. Lanning is of the opinion that the Territory more than deserves its name of "Sunshine." After the business which has called him to the Capital City is finished Mr. Lanning will return to his far eastern home and says he is filled to the brim with tales of climate, scenery and people which will not only

Increase the Total Tax Levy From 5.65 to \$5.70 Per Hundred Dollar Valuation.

A special meeting of the board of county commissioners was held this afternoon at the court house. There were present: Chairman Arthur Seligman, first district, Santa Fe; Commissioner A. L. Kendall, second district, Cerrillos; Commissioner Jose Ynez Roybal, third district, Nambé, and Clerk Marcos Castillo. The levy for the support and maintenance of the cattle sanitary board was increased from two mills to two and a half mills on the dollar, this levy to apply only to cattle. At the request of Hon. John R. McFie, presiding judge of the First Judicial District Court, and representation that the levy of four and a half mills on the dollar of taxable property made by the board at its session Saturday last for court purposes was insufficient, the board increased this levy to five mills, an increase of half a mill. This action of the board will increase the total levy from \$5.65 per hundred dollar valuation to \$5.70 per hundred dollar valuation of taxable property.

Routine business was then transacted and the board adjourned.

**JUDGE EMMETT BETTER.**

Late last evening Judge Lafayette Emmett, the venerable father of Mrs. Otero, became quite ill at the executive residence, where he has apartments, and a physician had to be summoned. Judge Emmett, who is eighty-three years of age, was dozing in a chair on the veranda and became drowsy. It was a rocking chair and somehow it tipped, the Judge falling to the ground and injuring the back of his head. A few minutes later when he was called to retire, he was discovered, being then in a faint. He was carried to his room and medical assistance was immediately procured. He began to improve, after midnight was resting well and no danger is now apprehended.

**IF BURNS PAYS UP HE MAY ESCAPE JAIL.**

Trinidad, Colo., July 11.—Sheriff Richard Davis arrived here last night having in custody S. J. Burns, who was arrested in Denver Sunday on a warrant sworn out by Lincoln Hall, a ticket broker, who charges him with having embezzled \$250. Burns was in charge of Hall's ticket office for two months during the latter's absence in El Paso. Relatives of the young man accompanied him from Denver, and it is thought that the matter will be straightened out by tomorrow. Hall says he has no desire to prosecute Burns if he will repay the amount he is alleged to have taken.
