WAR WITH SPAIN IS ALMOST CERTAIN!

The Destruction of the Maine was by
Foul Means.

EVIDENCE CONCLUSIVE OF THE FACT.

Havana, March 7.—Not many days will be needed for Captain Sampson and his associates to conclude the investigation. The wrecking companies are making progress in clearing their way through the superstructure of the Maine. During the absence of the board the naval department divers have been able to extend their examination of the plates of the hull. They found these plates twisted as from an outside explosion. Everything previously learned regarding the explosion was being confirmed and strengthened.

Without going into minute details, it may be said that the navy department divers have secured much technical evidence from the condition of the hull and keel and the interior of the wreck to show that the Maine explosion was due to foul play.

The starboard turret of the Maine is found to have been blown clear off the ship. The turret now lies upturned on the side and sunk deep in the mud. Its present position is such as to afford proof of the tremendous force of the explosion exerted in the direction from the port to starboard.

George Helm, the ship's carpenter, has made a careful inspection of the wreck. He was detailed to this duty because of his perfect familiarity with all portions of the vessel. It is understood that he has privately confirmed the statements of Ensign Powelson in reference to the present position of the Maine's bottom plates and the shattered condition of the ship's keel.

The services of the wrecking tug Right Arm have been dispensed with, owing to a disagreement between Capt. Mages of that craft and Capt. Sigbee of the Maine. Capt. Mages, it is said, refused to let his men convey the bodies as recovered from the wreck to the dead ship, a few hundred yards away, asserting that the contract did not call for such duty.

The Spanish divers have been working slowly. They have made nothing more than a superficial examination of the hull. It seems understood that the Spanish admiralty board in the offer of investigation is finding little evidence to give plausible support to the theory of accident.

The Alfonso XIII of the Spanish line, arrived Sunday with fifteen hundred soldiers from Spain.

POSITION OF THE GOVERNMENT.

Congress will sustain the President in the Spanish Complication.

Washington, March 7.—The sentiment at the capital to-day, especially on the house floor, was unanimous in support of the action of the president in declining to recall General Lee. The immense gravity of the situation seemed profoundly to impress the members. Without regard to party all united in commending the president's firm stand and the unanimous support of the house in support of any measures that he may deem necessary.

It can be stated on the highest authority that the attitude of the president and some other republican leaders, who have sought to keep down the "jingo" spirit in the house, has been misunderstood by the public. They purpose in this regard on the bill creating two additional regiments of artillery was to prevent, as far as possible, any undue alarm. day introduced a bill entitled: "Making appropriations for national defense. It is as follows: 'That there is hereby appropriated out of any money in the treasury, not otherwise appropriated, for national defense, and for such and every purpose connected therewith, to be expended at the discretion of the president, fifty million dollars.'"

The bill was referred to the committee on appropriations.

Cuban Independence.

Washington, March 7.—Representative Norton, of Ohio, to-day introduced in the house a resolution, which was referred to the committee on rules, setting aside next Tuesday and Friday for consideration of a joint resolution to recognize the independence of the republic of Cuba.

Panic on Stock Exchange.

London, March 7.—A state of semi-panic prevailed on the stock exchange throughout the morning owing to the Cuban crisis, the fear of war with Russia in the far east, dear money and the near approach of a settlement. The Spanish securities were almost flat.

Relief for Cubans.

Washington, March 7.—The navy department announced this afternoon that the cruiser Montgomery would relieve the dispatch boat Fern at Havana and the Fern would carry provisions and relief supplies to Matanzas and Sagua. This is understood to be satisfactory to the Spanish government.

MARCH TERM OPENED.

Federal and Territorial Courts Organized—Matters Disposed Of.

THE PROCEEDINGS THIS MORNING.

The federal and territorial courts were organized at the court house to-day. The grand jury for the day, the United States district attorney, and the United States marshal were in attendance.

CORRESPONDENTS IMPRISONED.

Several Sent to Jail and Others Deported to This Country.

Havana, March 7.—In addition to Henri Laine, the American correspondent, Vicente Pardo Suarez, editor of La Republica, and eleven others have been arrested on the charge of espionage.

Henri Laine will be sent north on Wednesday. It is officially stated from an American source that two or more American correspondents will be required to return to the United States at the same time.

The prisoners are charged with conspiracy. In all eighteen are implicated. Eleven, it is said, will be sent out of the country and seven to the Isle of Pines.

WAR IN THE ORIENT.

Russia and Japan Getting Ready for a Big War.

Philadelphia, March 7.—The North American says: The Cramp ship yard is on the eve of securing a foreign contract of sensational proportions.

Plans and estimates, it is said, are being drawn up for the consideration of a foreign power, and a first-class ship yard, such as that operated by Cramp, besides several battleships and cruisers.

Although the name of the foreign power is kept a secret, it is generally understood that the plans and estimates will eventually find their way to Russia.

This is stated in apparent view of the fact that all signs on the European horizon point conclusively to war between Japan and Russia in the near future.

MERELY A SUGGESTION.

Spain Withdraws Demand for Recall of Gen. Lee.

Washington, March 7.—Spain has withdrawn the request for the recall of General Lee. It is believed that the incident is practically closed. The withdrawal came to-day in the shape of an official communication from Minister Woodford.

It is stated that the request was never put in the shape of a demand, but was merely a suggestion on the part of Spain, and when she found it would not be pleasantly received by this country, she promptly receded.

TWO ARTILLERY REGIMENTS.

Regular Army to Be at Once Increased by Additional Artillery.

Washington, March 7.—Chairman Hall, of the military committee of the house, moved the passage, under suspension of the rules, of the Hawley bill creating two additional regiments of artillery.

The debate on the artillery bill developed nothing exciting, but there was a great outburst of enthusiasm when Mr. Hay (dem. Va.) declared that he most ready to vote for the measure in view of the emergency which confronted the country.

Spain Buying War Material.

London, March 7.—Two separate commissions of Spanish officers arrived here last week to purchase ammunition.

Crews for Spanish Ships.

Glasgow, March 7.—The crews to man the Spanish torpedo boats Osado and Andez, which are being completed by the Thompsons, have arrived. It is expected that the boats will be completed on Friday or Saturday, when they will go to Ferrol, Spain, where they will be boarded their armaments. From Ferrol the Osado and Andez are going to Cuba.

Talks Like a Lee Should.

Havana, March 7.—General Fitzhugh Lee, consul general of the United States, was questioned to-day regarding Spain's demand for his recall and said: "I shall continue to do my duty, which is to guard American interests."

Ammunition for the Fleet.

Key West, Fla., March 7.—The Mallory line steamer Alamo arrived here this morning from New York with a cargo of ammunition for the United States fleet, a greater part of which is intended for the cruiser Cincinnati.

FIFTY MILLIONS.

This Immense Sum Will Be Voted for War Purposes.

Washington, March 7.—Chairman Cannon, of the appropriations committee, to-day introduced a bill entitled: "Making appropriations for national defense. It is as follows: 'That there is hereby appropriated out of any money in the treasury, not otherwise appropriated, for national defense, and for such and every purpose connected therewith, to be expended at the discretion of the president, fifty million dollars.'"

SUPREME COURT!

Nebraska Circuit Court Freight Rate Opinion Upheld.

War in Progress Between Nicaragua and Costa Rica.

Prominent Italian Poet and Politician Killed in a Duel.

LEASE OF CHINESE PORTS.

Washington, March 7.—Justice Harlan delivered an opinion to-day in the Nebraska case, and held that the rate case authorized the taking of property without due process of law, and therefore was invalid. Harlan's opinion affirmed the opinion of the circuit court of appeals for the eighth circuit, which was against the maximum freight rates law and favorable to the railroads.

A LITTLE WAR.

Two of the Central American Republics in Battle Array.

New York, March 7.—Advice from San Jose, Costa Rica, via Punta Arenas, to the Herald, says that a report reached the capital that an encounter has taken place on the frontier in the neighborhood of Liberia, between the Nicaraguan and Costa Rican troops.

The letter states that President Iglesias, of Costa Rica, has gone to the field in person, and General Aurelio Estrada will probably be commander of the Nicaraguan army.

Postal Treaties.

Rome, March 7.—Signor Felice Mannelli Cavallotti, poet, dramatist, publicist, and well-known radical member of the chamber of deputies for Cortina d'Isola, was killed in a duel with counts with Signor Macola, member of the chamber of deputies and editor of the Gazzetta di Venezia.

The encounter was the outcome of a press polemic in the columns of the Milan Secolo and the Gazzetta di Venezia.

Lease of Chinese Ports.

Berlin, March 7.—The Tagblatt publishes a dispatch from Peking, saying that China has agreed to lease Port Arthur and Ta Lien Wah to Russia for ninety-nine years.

Bought by Treasurer Wilder.

The sale of railway lands in New Mexico, known as the Atlantic & Pacific lands and which had been advertised for the past thirty days, took place in front of the court house this morning, and the list, over 70,000 acres, was knocked off to Edward Wilder, treasurer of the new Atchison, Topeka & Santa Fe railway company, for \$7,100. The old Atchison company held an equal interest in these lands; hence the sale.

E. D. Kenna, first vice-president and general counsel of the Santa Fe railway, Edward Wilder, treasurer, with E. M. Kenna, brother of E. D. Kenna, and Dr. Kier, of St. Louis, and Judge C. N. Stier, general counsel of the Santa Fe Pacific and Southern California railways, arrived in the city last night in the interest of the sale. These gentlemen will go to Prescott this evening, where on Wednesday the railway lands in Arizona of the same company will be sold for the same purposes.

YESTERDAY'S FIRE ALARMS.

Fire Broke Out Twice in the Votaw House on the Highlands.

The people of the city were startled two times yesterday morning by the mocking bird whistle giving the alarm of fire. The first alarm was at 5:30 a. m., a small fire having been discovered in the Votaw house on the Highlands occupied by Isaac Lane and family. Both No. 1 and No. 2 hose companies turned out before they reached it and they turned back.

At 10:20 the second alarm was turned from the same place. This time the fire department reached the scene of the fire, but its services were not required in extinguishing the flames, which were put out with one bucket of water.

The fire was caused by a defective line. Some of the wall paper caught fire and started the little blaze.

The mocking bird was worked under difficulties yesterday owing to a broken lever. The ice plant will probably close down for repairs in a short time when it is intended to substitute a two-inch pipe and valve for the inch and a half pipe now used with the mocking bird. This will undoubtedly have the desired effect in making it heard for miles around in case of fire.

The Probate Court.

The probate court was in session at the court house this morning. Jose L. Miller, administrator of the estate of John Miller, submitted his final report, which was approved and the administrator discharged.

The bond of Aurelia G. Gonzalez, guardian for minor children, was reduced from \$1,000 to \$2,500. She then submitted the bond, which was approved.

The court overruled the objection to the third report on account of the administrator of the estate of Guadalupe Gutierrez and approved the same.

Second Library Meeting.

At the meeting of the Library association on Saturday, Mrs. Louis Baer, the president, again presided, after a long absence in Europe. She made a number of suggestions for the improvement of the library, which were derived from an investigation of public libraries elsewhere.

The Ladies decided to give a second library ball on Monday night following Easter. This will be gratifying news to the patrons of the library as it will furnish them a means of enjoyment as well as an opportunity to assist the up-building of the library.

The Low Line Canal.

At the directors meeting of the Albuquerque Land and Irrigation Saturday afternoon, Engineers Harroon made a report on the work of his corps of surveyors. He expressed himself as well pleased with the line that had been found and had no doubt that the canal will be successfully built and at a smaller expense than was at first contemplated.

Mr. Harroon also stated that the opposition to the construction of the ditch was dying out and that the surveyors had been uniformly treated with the greatest consideration by the farmers along the line of the route.

"ADAM AND EVE."

The school children of Alameda, from up the river, rendered the biblical play for little folks, "Adam and Eve," at the Orchestra hall yesterday afternoon, and there was present quite a large crowd. The play, as rendered under the direction of Jose de J. Lopez, had nine scenes, the singing and speaking of the little ones, with the representation of the apple tree in the garden of Eden and the Devil, showed hard and painstaking work on the part of the teacher, and he should feel proud of his scholars for the excellent manner in which they presented the play. School Superintendent L. F. Ferra and other county officials were present and heartily applauded the little actors and actresses.

MISS FRANCES E. WILLARD.

The Union Memorial Services at the Opera House.

OUTGOING OF THE PEOPLE.

The churches of Albuquerque did honor to Miss Frances E. Willard, who was the guest of the World Woman's Christian Temperance Union, at the opera house last night, every seat in the orchestra and balcony being occupied, and many, who could not secure seats, made their presence known by standing up.

At 8 o'clock the following persons took seats on the platform: Rev. Mary J. Borden, president of the New Mexico Woman's Christian Temperance Union; Mrs. E. J. Borden, Allen and Beattie; Dr. Marion S. Bishop, Mesdames Stamm, Jones, Holt, Vaughan and Snyder, and Prof. Hodgins and Perigo, and E. L. W. Johnson and H. Jay Stone, the male quartet.

After this, Rev. Borden, officiating as pastor or moderator, stepped forward and announced that the evening services in honor of Miss Willard, would begin by singing the hymn, No. 797, "Blest Be the Tie That Binds."

The words were followed by a scripture reading by Dr. Marion Bishop, and then a prayer by Rev. Beattie.

The male quartet then sang in lovely tones, "God Is Love," which was followed by Mrs. Holt reading a brief history of the life of Miss Willard.

Dr. Divine Redeemer, by Miss Clante Albright, with Miss Gilman, a Christian Temperance Union, sang in a sweet voice, "Home Sweet Home," and with this the memorial services ended, and the memory of Miss Willard will long remain green with those who honored her name and her grand deeds at the opera house last night.

The platform was appropriately ornamented with stands of palms and a large portrait of Miss Willard, which was draped with evergreens entwined with the emblem of the Union. She advocated "Abolition."

The Albuquerque Guards, under Capt. Rogers, acted as a "guard of honor," and filed into the house, double order, to seats reserved for them on the west side of the hall.

Mrs. Vincent di Biasi died in the old town this morning from heart disease, after an illness of several weeks. The deceased was a sister of Prof. Di Mauro and leaves quite a large family of children. The funeral of Mrs. V. di Biasi will occur at 10 o'clock Wednesday morning from the old town Catholic church.

The boiler makers and machinists of Santa Fe Pacific shops yesterday morning played an exciting game of base ball on the grounds in the southern part of the city. The boiler makers won the game.

Deputy Collector Perea and Probate Clerk Haldrup conducted the tax sale on the court house steps this morning. There were several good buyers and the sales were quite brisk.

Rufus Goodrich, Rob. Kuhne and Rola Stevens spent yesterday at Camp Whitcomb.

Last year more than three thousand new books were published in this country.

Gov. OTERO has begun the good work of decimating democratic territorial officials.

It is believed in Washington that the present congress will recognize the belligerency of the Cuban insurgents.

C. A. SPRUE has made a most excellent mayor of Santa Fe, and the capital city would do well to keep him in the office.

This week's developments will probably settle the question whether this country is to have war or peace with Spain.

Last year the Western Union Telegraph company strung ten thousand miles of new wire in the country west of the Mississippi river.

The republicans have several excellent men for city clerk, and it is going to take a good man to beat John S. Trimble, who is making a splendid record in the office.

The American hospital in the City of Mexico is supported at a monthly expense of about \$2,000. The hospital treasury has a cash balance on hand of about \$10,000.

The navies of the world are now rated as follows: Great Britain, 1; France, 2; Russia, 3; Italy, 4; United States, 5; Germany, 6; Spain, 7; Japan, 8; Austria, 9; and Netherlands, 10.

CARTRIDGES and other of United States manufacture are being shipped to Mexico in increased quantities every year. Last year, the sales amounted to \$216,732, and the year before, \$551,000.

CANTANING schemes and schemers who require a deposit to be paid by people who seek employment from them should be avoided. As a rule the main purpose is to get the deposits, and the people who put up the money find themselves swindled.

It is said that the inventor of "mirex," one of the most powerful explosives known, has been invited to demonstrate its effectiveness before the secretary of the navy. It is said to be fifty times more powerful than gun cotton, and will only explode when saturated with water. When dry it is as harmless as sand.

The city paid a remarkable tribute last evening to the memory of Frances E. Willard, late president of the World's Woman's Christian Temperance Union. The demonstration shows that the people of Albuquerque are in favor of temperance, religion and social purity. The opera house was packed to the doors, and the program was listened to with deep interest.

ACRA FOR THE KLONDIKE.
The American Monthly Review for March has an estimate of the extent of the exodus to the Klondike the present season, and calculates that 100,000 people will invade the Alaskan gold fields in 1938. It then adds an estimate as to the expenses and profits of the great rush after the yellow metal.

That each man should spend, on the average \$600 does not seem to be an over-estimation, but it reaches the grand total of \$600,000,000. Of this sum it is estimated that the railways will receive \$50,000,000, the traders and hotelkeepers, where outfits are procured, \$30,000,000, the ship companies for transportation \$10,000,000 and for the transportation of freight over the passes in Alaska \$15,000,000. These figures are declared to be low and for necessities only, so that they might be increased by 20 or 30 per cent so as to be made to include all the money that will be paid out in the attempt of gold seekers to reach the mines.

PRINCE OF IMPOSTORS.
In the last two numbers of "The Land of Sunshine," published at Los Angeles, Cal., Will M. Tipton, of Santa Fe, gives the only correct history ever published of the remarkable fraud attempted to be perpetrated by "Baron" Beavis, who is now serving a term in the New Mexico penitentiary for the crime. The sketch

is carefully written and profusely illustrated. The account reads like fiction, but is the unadorned description of the most gigantic fraud ever attempted in this country. But for the United States private land court, and a few such men as Reynolds and Tipton, Beavis would have secured title to lands in New Mexico and Arizona worth one hundred million dollars. The land grant claimed reached from west of Phoenix, Arizona, to the suburbs of Silver City, this territory, and in extent was almost five times the size of the state of Connecticut.

SINCE November 1, 1933, the United States has coined \$7,730,572 standard silver dollars. It is worth while in this connection to recall the fact that only \$31,238 silver dollars were coined in this country from the creation of the mint in 1792 down to 1873.

The statement of the United States treasury for January shows the remarkable coincidence that the receipts and expenditures were exactly the same to the cent as in the preceding January.

DELEGATE FERGUSON has introduced a bill in congress to create another judicial district in New Mexico.

The Coast Defenses.
One-half the number of improved cannon, mortars and emplacements will be located and placed in suitable position ere the expiration of 1938. The Artillery Board is constantly making practical surveys, so far as these relate to the army, and the establishment of adequate military protection of our seaboard is receiving strong endorsement. Meanwhile there is a means of defense from greater physical danger, and that is the use of Fletcher's Stomach Bitters, which by restoring the tone of the nerves and stomach, invigorates the entire system. It also prevents malaria, kidney and rheumatic ailments, and cures biliousness and constipation. Those who have been cured by it speak in no uncertain terms as to its efficacy.

The Santistevan Divorce Case.
In the divorce case of Santistevan vs. Santistevan, from Taos county, wherein the testimony was taken before S. E. Black, of Santa Fe, as referee, the referee's report has been submitted to the court, but has not yet been taken up by the latter. The referee's report finds that neither party is entitled to a divorce.

The Greatest Discovery Yet.
W. M. Reple, editor of the "New York Times," says: "We won't keep house without Dr. King's New Discovery for consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our homes, as it is so easy to use, and so sure to cure. It is a certain and sure cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails. Trial bottles free at J. H. O'Reilly & Co.'s drug store.

SOCORRO.

From the Chiefman.

J. D. Brooks departed for Spring for the first of the week, where he will locate permanently and open a law office.

Judge Hamilton decided the other day that city warrants that have run more than six years are uncollectible.

Julian J. Trujillo has, with his family, returned to Socorro after teaching a very successful term of school at San Aceto.

Mrs. Griswold, a business lady of Albuquerque, was in the city the other day looking after her property interests in Socorro.

Capt. Wattleat is still suffering from the effects of an old wound in his leg received when he was a young man, and it is feared that he will have to have a surgical operation performed.

The farmers around Socorro are very busy these times.

There will be a much larger acreage of wheat than there was before. There will also be an increased acreage of other crops.

F. M. Keeler was quite badly hurt the other day by a horse that he was riding at full speed falling on him. He had two ribs pretty badly crushed in, but not broken, and is able to tend to business though feeling somewhat used up.

Frank Camp, a young business man of Des Moines, Iowa, arrived in the city the last part of the week. He will next Tuesday be married to Miss Louise Meek, of Indianapolis, Iowa, who has been visiting her sister, Mrs. Robertson, of this city, some weeks past. They will after the marriage return to their home at Des Moines.

J. S. Quisenberry has now five acres of watermelons, muskmelons and cantaloupes vines in cultivation. The majority of his vines are cantaloupes as they are most in demand.

Dr. Hartley shipped from his orchard last week 15,000 pounds of apples to Casas Grandes at the end of the Corralito road and shipped 15,000 pounds more this week.

Numa Grandjean has gone to visit his friend, Henry Bucher, whose sad affliction in the loss of his estimable and beautiful wife occasions great sympathy for him, not only among his friends in El Paso, but also among his friends in Santa Fe.

His wife, Mrs. Bucher, was named in his honor.

Sheriff Garrett, in attempting to arrest a tramp, the fellow resisted and pulled a knife on him. He was promptly knocked down by Garrett, with a pistol, and taken into custody and charges were preferred against him for being drunk and disorderly. He gave his name as Walter Clifford and was sentenced to twenty days in the county jail.

Mrs. Lew Keiser, who at one time was proprietress of the Baggas ranch at Chamberlain, near Las Cruces, is now running a bank at Dawson City, Alaska. Mrs. Keiser has for her cashier Miss Georgia Osborn, who resided with her in Chamberlain. Her principal business consists in cashing drafts and buying gold. Mrs. Keiser was at one time cashier of the bank at Jacksonville, Illinois. She sold her Chamberlain place to Mrs. Morley, who as a business woman was no less versed.

James H. Ryerson died of complicated pneumonia, kidney and heart disease, after an illness of five days. The deceased was in the sixty-fifth year of his age and a native of Iowa. Mrs. Ryerson, of Kentucky, in the year 1939. He was the son of a Baptist minister, being the second in point of age, the oldest being the late Col. W. L. Ryerson.

It is or should be the highest aim of every merchant to please his customers; and that the wide-awake drug firm of Meyers & Kohlman, Sterling, Ill., is doing so, is proven by the following from Dr. Schlimmer: "In my sixteen years experience in the drug business, I have never seen or sold or tried a medicine that gave as good satisfaction as Chamberlain's Cough, Cholera and Diarrhoea Remedy." Sold by all druggists.

HER LAST REQUEST.

Pauline Did Not Want to Be Buried in a Pauper's Grave.

The funeral of Mrs. J. W. Fayman took place yesterday afternoon from the room of the Phoenix Undertaking company. Her friends gave her a decent and even an expensive burial, and many of them followed her remains to the grave.

Further evidence, if any were wanting, that she was in earnest when she said she was going to die, was found among her effects after the conclusion of the inquest. Upon the back of a panel photograph, which had been broken in four parts, she had written: "Don't bury me in a pauper's grave. Don't telegraph my brother at Silver City."

From the amount of morphine she was seen to take, together with what was found in her pocket afterward, it was surmised that some druggist was selling the poison in wholesale quantities. It has been discovered, though, that she did not get it at a drug store, but in a barber shop, where she picked up a bottle almost filled with the drug. It is not considered good professional taste to make sedatives or anesthetics a part of the stock of a barber shop, where the operation of shaving is supposed to be performed painlessly.—Republican, March 2.

GRAND ARMY NOTES.

Meeting of Carleton Post—Next Annual Meeting at Albuquerque.

At the last regular meeting of Carleton post G. A. R., held this week, Commander Francis Dwyer very pleasantly surprised the members by reporting for duty, his first appearance after several months' illness, says the New Mexican.

Among the prominent visitors present were: Judge William B. Whitman and Captain Henry M. Davis, past department commander of New Mexico; W. W. Batwick, of Nat. Lyon post No. 5, Dennison, Texas, past department commander of Texas; Colonel A. R. Green, of post No. 431, LeCompton, Kan., past department commander of that state; Major S. S. Mather, of J. M. Wells post No. 481, Columbus, Ohio; S. O. Fletcher, of Pfeiffer post No. 64, department of Colorado. The meeting was a very enjoyable one, as some of those old comrades have not met for over thirty years.

Phil H. Sheridan post No. 14, of Las Cruces, originally organized by the late department commander, Colonel Albert J. Fountain, will be reorganized in a few days, the installing ceremonies to be performed, either by Governor E. S. Stover or by Judge J. R. McElfish.

Application has been made at the war department for a headstone to be placed over the remains of William A. Graham, at Magellan, who was formerly a sergeant in the second Kansas cavalry and died March 10, 1897, and also for Robert McCutcheon, of company B, First California Infantry, who died at Lake Valley January 20, 1908.

The fifteenth annual encampment of New Mexico will be held in Albuquerque, probably in the latter part of April.

A Clever Trick.

It certainly looks like it, but there is no trick about it. Anybody can try it who has lame back and weak kidneys, neuritis or nervous trouble. We mean we can cure himself right away by taking electric Bitters. This medicine tones up the whole system, acts as a stimulant to the liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholia. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only fifty cents at bottle, at J. H. O'Reilly & Co.'s drug store.

ORGANIZED IN A RAIN STORM.

Interesting Account of the Miners' Meeting Held in Blind Four Years Ago.

According to the Blind Herald Saturday last was the fourth anniversary of the organization of the Cochiti mining district. In speaking of that event the Herald of the 4th says:

"Day after tomorrow will mark just exactly four years ago that the Cochiti mining district was instituted and named. On Sunday, March 4, 1894, a congregation of prospectors and miners met under the pine trees which then sheltered the site upon which the present district office stands and the ground next to it, where there still remains in fact an old log cabin, the first built in Pico canon. The object of this gathering was to organize the district that now embraces the greatest mineral region in the great west. Chester Greenwood, the present superintendent of the Lone Star mine and one third owner thereof, was elected chairman of this first miners' meeting held in the new district, and Chester Austin was elected secretary. The names of sixty prospectors and miners were enrolled.

"The day was sultry and a steady down-pour of rain kept the assemblage drenched to the skin. All who could clustered around the trunks of the somewhat protecting pines, while the secretary sat just inside the doorway of the cabin in order to keep the minutes of the meeting from a similar wetting.

"Some two hours were consumed in the business of the meeting, but when it adjourned a mining district had been organized and named that is destined to become the greatest in the Rocky mountains, and make the name of the Cochiti more famous than the world-wide fame it already possesses."

HOW COCHITI WAS NAMED.

The Honor Belongs to F. W. Shuckhart and The Citizen.

Editors Citizen:

Thermon, N. M., March 6.—I noticed in the Blind Herald that the naming of the district was made in camp in 1894. I wish to straighten this out by giving the facts in the case. In the early part of January, 1903, F. W. Shuckhart, who was then station agent at this place, with J. A. Carlisle, Lorenzo Garcia and others, drove the dirt wagon into Pico canon and camped where the Blind mine now stands. In prospecting up the canyon they found J. D. May, who was doing assessment work on the Crown Point. They next found Charles Philip doing assessment or first ten feet on the Washington. They then went down into Colla canyon, where they found Greenwood, Blecher and Lowthian locating the Albarque mine. Then they went to the head of Colla canyon and located the Victor group. On Mr. Shuckhart's return to Wallace—now Thornton—he wrote an article to THE ALBUQUERQUE CITIZEN, the first and only article that was ever written about the camp and called it Cochiti. The article was headed, as near as I can now remember, "For Cochiti: The Greatest Gold Camp on Earth, Via Wallace." This was the first notice the public had of the district. Mr. Shuckhart also was instrumental in getting Andy Horn to come to Wallace and start a stage line. To THE ALBUQUERQUE CITIZEN and F. W. Shuckhart, now the popular agent for the Santa Fe at Fulton, is due the success and the bringing of the Cochiti district out. So let the honor fall to the one that it is due.

HEARING IN T. J. BULL MATTER.

Before Governor Otero Saturday—Closed and Under Adversity.

The hearing in the matter of the charges filed against Thomas J. Bull, regent of the Agricultural college at Las Cruces, was taken up by Governor Otero at the executive office Saturday forenoon at 10 o'clock. The territory was represented by ex-Solicitor General Bartlett, and A. A. Jones, Esq., of Las Vegas, appeared for Mr. Bull, the latter not appearing in person.

The hearing closed Saturday afternoon, and the governor has the matter under advisement. It is expected that a decision will be rendered to-day.
