Lives Lost.

from Heart Disease.

COLORADO TOWN BURNED.

Boston, Feb. 28.—The British steamer
Legislator, Captain Tennant, bound from
Liverpool for Colon, took fire on February
18, and burned fiercely for three days.
Fireman Thomas Roberts was burned to
death. Second Officer James Bateman
and Seaman William Angell were
drowned by the capsizing of the boat.
Third Officer Martin and Chief Steward
John Gaffney were adrift in another boat,
and Chief Cook Fred M. Lee, crazed with
his fearful burns, jumped overboard. The
remainder of the crew of twenty men,
with two passengers, Dr. William E. Mor-
timer and wife, of London, were rescued
by the fruit steamer Flowergate and
brought to this port.

Explosion after explosion occurred in
the cargo of the vessel while it was burn-
ing, threatening to send it to the bottom
at any moment.

French Ship La Champagne Towed Into
New York Harbor.

Hullfax, N. S., Feb. 28.—The French
liner La Champagne, which left Hull
February 13th, with over 300 passengers,
was towed safely into this port on Sun-
day by the freighter Roman.

The Champagne's tall screw shaft broke
February 17th. The steamer anchored
and nine men put off in a lifeboat to
notify any passing vessel of the accident.
They were picked up and taken to New
York. The steamer was torn from the
anchorage by the gale of February 18th
and the steamer tossed helplessly on the
sea until the 23rd, when she was picked
up off the banks of New Foundland by
the B-man. The passengers are all well.

Capt. Jack Crawford.
As previously announced, Capt. Jack
Crawford, the famous entertainer, will
appear at Grant's opera house on Wed-
nesday night, March 2, under the aus-
pices of the Woman's Relief Corps. The
ladies have sold a great many tickets,
but they deserve a rousing patronage
and no one should miss the treat of see-
ing and hearing the gifted "Post Scout."
The Reedsburg, Wis., Free Press, says:

"The largest audience that has yet
greeted any of the numbers of the lec-
ture course assembled last night at the
opera house to hear Capt. Jack Crawford,
the 'Post Scout' of America. He is
certainly a most entertaining speaker.
For he kept his audience in one contin-
uous roar of laughter throughout the two
and a half hours he spoke to them. The
touching scenes of his eventful life were
full of moral lessons, that old and
young alike would do well to profit by.
Capt. Jack is a man with principle, and
in the strongest terms he denounced
those 'fakes' passing themselves off as
scouts and writing false stories to in-
fluence the youth of our land into deeds
of horror and crime."

HELL CANYON DISTRICT.

New Stamps and Concentrator Arriving
for the Alton Company.

VISITORS DELIGHTED WITH THE CAMP.

J. T. McLaughlin, the well-known
miner and prospector of the San Pedro
and Bland districts, accompanied by
George Oxendine, paid a visit to Hell
Canyon district yesterday, and Mr. Mc-
Laughlin, who is considered one of the
best judges on mining property in the
territory, speaks in the highest praise
of the mineral formation of the district.
Mr. Oxendine has always had faith in
Hell canyon, and is the owner of several
good claims.

Dr. Berry, the first street druggist,
accompanied by his wife, drove out to
Hell canyon yesterday, and returned in
the afternoon. It is rumored that the
doctor is going to open the latch-string
of his well-filled purse, and invest in sev-
eral good claims out in Hell canyon.

F. H. Kent, who accompanied Chas.
Norman to Hell canyon last Saturday, re-
turned to the city yesterday afternoon,
and he reports everybody at the camp as
busy as bees.

"Jack Harris, who is developing The
Nelson for Charles Umsted and Aaron
Flores," says Mr. Kent, "is down fifty
feet and is cross-cutting into a first-class
vein of good ore. Besides the work on
The Nelson, half a dozen other mines in
the immediate vicinity," continued Mr.
Kent, "are being thoroughly worked, and
the dumps at each of them have a health-
ful look of paying mineral ore."

Mr. Kent also stated that the Alton
Mining and Milling company people are
busily at work, and now have the
foundation ready for the new
stamp and concentrator. He re-
ports H. T. McKinney, the resi-
dent manager of the company, for the
first time in many months, wearing a
broad smile, and he (Mr. McKinney),
sends word to the people of Albuquerque
to continue to be patient for a few weeks
longer, when the "smoke soon coming
over the mesa toward the east, will be
from the big smoke stack of the Alton's
mill."

Mr. Kent also stated that the Milagro
people were doing some little work on
their magnificent properties, but greater
things are expected from the Milagro in
a very short time.

L. T. Castle, of the Alton Mining and
Milling company, is in the city today,
and was noticed giving a few pointers to
Jimmy McCorriston, the retired mer-
chant. Mr. Castle, although keeping quiet
on the doings of his company, stated
that he was here to receive a new stamp
mill and concentrator, which were de-
layed in transit by a dam-
aged car a few miles this side of La
Junta; this machinery, however, is ex-
pected to reach the city tomorrow morn-
ing. W. L. Trimble & Co. have the con-
tract to move the machinery to the can-
yon, and the new millwright, J. S. Smith,
who arrived last Friday from Phoenix,
Arizona, will at once put up the stamps
and concentrator.

THE CITIZEN is truly glad to publish
these paragraphs of news from the great
Hell canyon district, only a few miles
from Albuquerque, and trusts that the
camp will prove a substantial boom for
the coming spring and summer.

Money to Loan.

Parties desiring money, straight loan
on building and loan principle, will do
well to see E. L. Cox, local agent, or C.
H. Tilton, field manager of the Fidelity
Savings association, Denver. Headquarters
Commercial club, until March 5.

Three Indian Runaways.

Three little Indian children, aged 11,
12 and 13 years respectively, ran away
from the Santa Fe Indian school Friday
night. W. T. Shelton, one of the ward-
ens from school, is in the city today try-
ing to find some trace of them.

They were seen yesterday in com-
pany with some other Indians, but they
seem to have left town today, as they
have not showed up on the streets.
Their home is near Yuma, Ariz., and it
is understood that they are heading for
there. Mr. Shelton says he does not mind
so much the running away of the chil-
dren as he fears that they may starve to
death before they reach home.

Police Court News.

Officer McMillan captured a hobo in an
orange car in the yards on Saturday
night. The car had been sealed but the
seal was broken. The man said the car
was unsealed when he got in it, so a
charge of vagrancy was entered against
him, to which he pleaded guilty before
Justice Crawford and was sentenced to
thirty days in the county jail. Last
night Officer McMillan arrested three
more hobos on a similar charge. They
will have their hearing before Justice
Crawford this afternoon.

Joe Schwartzman, the butcher, was
fined \$10 Saturday afternoon for killing

committing a nuisance on the street.

common vags were given five days apiece

Mining in Sonora.

In a letter to THE CITIZEN from G. W.
Mason, who left here some time ago with
others for the Yaqui country, it is learned
that the whole party are enjoying good
health and doing well and have plenty to
eat. They are now located in Sonora
between the Sonora and Valapai rivers.
Mr. Mason states that they have found
no claims of placer gold yet that would
pay to work. He expresses the opinion,
however, that that portion of Mexico will
develop into a great quartz and lead
mine camp some day. The native peo-
ple are courteous and accommodating
and ready to give any information in
their power. Wages in that country
average from 60 cents to \$1 per day.

Returns from Mexico.

Col. J. E. Frost, superintendent of the
land department of the Santa Fe, ac-
companied by his wife and two daughters; T.
G. Frost, an attorney of Minneapolis, and
his wife passed through the city Sat-
urday night on their return from a plea-
sure trip to Old Mexico. They visited the
City of Mexico, Vera Cruz, Zacatecas,
Guadalupe, Guanajuato, as well as many
other places of interest. They had a most
enjoyable journey, as the weather was
perfect all the time. The party left for
Topeka.

Fairview Killing.

There was a killing at Fairview, N. M.,
the past week, Radford Jobe shooting J.
Oscar West through the breast with a
shotgun. The trouble seems to be to have
started over Jobe's wife, who was re-
siding with her husband. Jobe was very
jealous of West, who, it is said, was pay-
ing attentions to Mrs. Jobe. West was
playing a game of pool, when Jobe came
to the door and fired the fatal shot.
The murderer then mounted his pony and has
not since been seen.

THE COUNTY SCHOOLS.

Most of Them Are in a Flourishing
Condition.

WHAT SUPERINTENDENT PEREA SAYS.

Hon. R. F. Perea, superintendent of
schools, visited the schools of Alameda,
Bartles, Bannock, de Alamos and Rancho
de Albuquerque last week and found
them all in a flourishing condition.
The teacher of the school at Alameda
has made arrangements with Superin-
tendent Trimble for the use of Orchest-
ration hall on March 6, when the children
of his school will present a play entitled,
"Adam and Eve," which is said to be very
good and well worth seeing. He hopes
in this manner to raise funds, so that the
school at Alameda can be kept open for a
longer time. His effort merits success.

Mrs. Alice M. Lewis has resigned as
teacher of the Las Bareas school and the
school directors have chosen the Sisters
of Charity in her place. They took
charge of the school to-day.

The children in this school are well ad-
vanced and show that they have been
carefully trained. Superintendent Perea
examined them recently and found them
well up in reading, writing, arithmetic,
spelling, geography, English, Spanish
and United States history.

At Casa Salazar, Blas Montoya, one of
the school directors, died a short time
ago and Jesus C. Sanchez has been ap-
pointed in his place. Mr. Montoya only
succeeded Jose L. Sanillanes, deceased,
a couple of months ago as school di-
rector.

A few of the county schools have been
obliged to close down on account of a
lack of school funds.

A. A. Sedillo, a young Spanish gen-
tleman, now located permanently in this
city, is contemplating starting a night
school here for the teaching of Spanish
by the popular conversational method.
He intends to accept a limited number of
students and will instruct them in the
most practical manner for acquiring a
thorough speaking knowledge of the
language. Mr. Sedillo was a teacher of
English and Spanish in the Socorro
school, was deputy county clerk and re-
corder, and served also as assessor of
Socorro county for a term of years. He
comes highly recommended as a gen-
tleman and a teacher. He is now con-
nected with the office of E. V. Chavez,
the attorney.

H. B. Miller and son, C. W. Miller and
wife, prominent and popular folks from
Ogawa City, Kansas, came in on the
train today, and were met at the depot by
their old friends, Deputy Master McMil-
lan and wife. Mr. McMillan was town
marshal of Ogawa City when H. B. Miller
was the popular mayor, and of course the
former is showing the visitors courtesies
to-day. The Millers will leave for Cal-
ifornia to-morrow.

J. C. Blakemore and wife and Mrs.
Carrie Bryant and Miss Caro French
have rooms at the Grand Central, they
arriving last night from Atchison, Kan.
Mrs. Blakemore's health is bad. Special
Officer Harris was introducing Mr. Blake-
more to Albuquerque citizens this morn-
ing.

Dr. T. T. Koenig, of Conterville, Cal.,
physician and surgeon, was secured a
shave and hair cut at Sanchez's barber
shop yesterday under false pretenses
and the barbers made his pay pal the bill
this morning, left the city last night at
the hour "owls" keep awake.

Harry Darlington, a millionaire brewer,
and Lawrence Dilworth, a merchant
prince of Pittsburgh, Pa., passed through
this morning, left the city last night at
the hour "owls" keep awake.

I. R. Blackwell and S. G. Mason, of
Kansas City, who have been spending
some time at Phoenix, stopped over at
the Highland last night. They left on
the limited to-day for a flying visit to
Santa Fe.

General Superintendent Mudge and
Division Superintendent Harley, who
were south on a tour of inspection, came
in at 2:40 o'clock this afternoon, and left
for the north on a special train at 3
o'clock.

"THE OWLS" HELPED!

Entertainment Given at Phoenix,
Arizona, for the Ladies.

Ralph Chandler, Who Is Here, Says
He Is Not Manager.

Result of the First Meeting of the Driv-
ing Association Races.

OTHER GOOD LOCAL NEWS.

An entertainment will be given at
Flewell hall on Saturday night for the
benefit of the ladies of the stranded
"Night Owl" company. The admission
will be 25 cents. Two of the ladies were
sent to Los Angeles last night and will
remain in town without a penny. Sev-
eral ladies and gentlemen of Phoenix
have kindly volunteered their assistance
at the entertainment.

An effort was made yesterday to pro-
ceed with the entertainment of the "Night
Owls," left high and dry here yes-
terday. After consultation with the dis-
trict attorney, it was decided that his
office, though it merited tar and feath-
ers, was really no crime against the law.
It is supposed to be in Albuquerque
now—Phoenix Republican, Feb. 28.

It is possible that R. Chandler, who was
here last Thursday night, registered at
Sturges' European, and on Friday at-
tached his signature to the register at
the Highland, is the abdicating man-
ager. This gentleman, R. Chandler, on
being told of the disbanding of the Owls,
apparently was a very much surprised
"advance agent," and, in his talk, stated
that he had been paid up in full. He
also stated that he was a lawyer by pro-
fession, and, if left here by the collapse
of the Owls, he would likely form a part-
nership with Judge Hancock, whom he
met in San Francisco sometime ago.

In any event, at this writing, the
"Night Owls" will not be the attraction
at the opera house for three nights this
week.

SAVES HE IS NOT MANAGER.

This morning THE CITIZEN representa-
tive, being informed that the abdicating
manager of the "Night Owl" company
might be in this city, met Ralph Chan-
dler, who arrived here Thursday night
last, as the advance agent, and asked
him if he was the "abdicating manager,"
whose name is said to be Chandler Bran-
man.

The gentleman stated that his name is
Ralph Chandler, and if any person de-
sires to know anything about him he
could refer them to Judge W. C. Hea-
cock, with whom he would associate him-
self in the practice of law when he was
positively certain that the "Owls" had
been disbanded.

The gentleman who came here as ad-
vance agent, arriving just about the time
the ladies of the "Owls" at Phoenix came
to the conclusion that they had been de-
serted, is prepossessing in appearance,
clean-shaven face, light complexion,
rather chubby and with a pleasant con-
versationalist. He states that he is a
New Yorker, and, while out in California,
on finding himself "flat broke," he took
the advance agent position for the "Night
Owls." He denied the existence of
such a personage as "Chandler Braman,"
but stated that "F. Y. himself" was the man-
ager.

There is something queer about the
whole transaction.

YESTERDAY'S RACES.

Ideal Weather Attracted Large Crowd—
Some Exciting Matches.

The Driving association was favored
with ideal weather for their first meet-
ing yesterday, and a large crowd turned
out at the fair grounds in old town to
witness the races.

Commodore Medium, after giving his
exhibition half mile, gave the spectators
a free show on his own account, break-
ing away from his rubber and smashing
his cart. The plucky manner in which
George Green, his driver, stuck to his
head and finally controlled the fractious
beast, called forth the heartiest applause
of the afternoon.

The road horse trot was easily taken
by Joe Barnett's St. Elmo, and the free-
will by Johnnie Wilkes. The pony
trot ended in a fiasco, the fractious little
nags galloping furiously around the
track, and no award could be given.

The half-mile running race was easily
won by Lucero's little bay mare, Girl,
with King Pinto second. In the match
running race, Why Not, started a three-
to one favorite and won easy. There
was considerable delay in getting the
horses out, but the association wish to
state that this will be remedied at their
next meeting, when they will have a
number of outside horses here, both run-
ners and trotters, from California, Colo-
rado and Texas, and first-class races will
be presented.

Papers Signed.

This afternoon Leonard Winhofer and
Mrs. James Smith signed the papers
transferring the Sulphur Hot Springs
property over to M. S. Otero, C. W. Ken-
nedy and W. M. Weaver, the other own-
ers, having signed the purchase papers
sometime ago. THE CITIZEN was in-
formed this afternoon that the actual
figure for the property are \$8,000.

Kayser, who was buried in the Johnson house fire, on Sunday night, succumbed to the injuries this afternoon, his death occurring about 3 o'clock. On Tuesday and Wednesday, his attending physicians had some hope of saving his life, but alarming symptoms commenced to manifest themselves in the shape of mortification of the burned parts of his body and death was only a question of a few hours, and everything was done to make his last hours as comfortable as possible. Deceased was nearly 50 years old, and had been engaged in the practice of medicine for over fifty years.

Ollie Webb was examined in probate court for insanity and was committed to the asylum. It did not require much of an examination, but it required the constant service of a couple of officers to keep her from escaping while the proceedings were going on. She is now a mental and physical wreck.

HEARING BEFORE GOVERNOR OTERO.

Thos. J. Bull, of the Board of Regents of Agricultural College, filed to appear.

Governor Otero, under the provisions of chapter 1 of the Session Laws of 1903, has cited Thomas J. Bull, a member of the board of regents of the Agricultural college at Las Cruces, to appear before him on March 4 next at the executive office in Santa Fe, to answer certain charges of dereliction of duty now pending in the executive office against him. The charges are in connection with financial matters connected with Mr. Bull's duties as secretary and treasurer of the board of regents, and also after he ceased to be such secretary and treasurer, but while still a member of the board.

Improvements at Thornton. The Santa Fe railroad company is building a new freight platform at Thornton station to accommodate the increasing business of Pena Blanca, Bland and the Cochet mining district. It will be 100 feet long and situated on the north side of the track, a little west of the depot, not far from the former location of the San Pedro-Golden platform and freight house, when these districts did their business through Wallace

AT THE ALBEMARLE.

Latest News Concerning the Cochet Gold Mining Company.

FIFTY CARS OF MACHINERY COMING.

W. J. Cartan, of the Cochet Gold Mining company, was a returning passenger on Saturday's stage from a prolonged visit to Denver, coming latterly from Albuquerque, where he had been to see Superintendent Hurler, of the Santa Fe, in order to have platforms and derricks for the handling of the large amount of new machinery for the Albemarle mill and mine placed at Thornton, says the Bland Herald.

Mr. Cartan, who will soon leave on a visit to California, was a welcome visitor of the Herald, which was informed that his mission to Albuquerque was successful, and the platforms and necessary derricks to move the heavy Albemarle machinery from the cars would be immediately erected at Thornton and thence conveyed to the Cochet district and put in place.

W. L. Trimble, who has the contract to haul the machinery mentioned, has gone to Kansas City to purchase two carloads of material to be used between Thornton and Bland. Hauling will begin in the first of March and be pushed at it as desired to get all the machinery and material possible on the Bland side of the Rio Grande before the spring freshets put a stop to this traffic.

The latest news bearing on this machinery is that the Cochet Gold Mining company has placed an order with the Colorado Iron works of Denver, for an electric light plant, three pairs of Alice rolls and a 250-horse power Corliss engine, with shafting, pulleys, etc., the entire order to be filled by March 17.

On the best of authority the Herald is in a position to state that it is believed by the Cochet Gold Mining company that they can with the process they will use reduce the cost of treating Cochet ore to \$2 a ton. The Herald is also informed that the company have transferred a bank account of \$400,000 from Denver to Albuquerque, this amount to be used in carrying on their extensive operations on several groups of big mines in the Cochet gold mining district.

The work at the Albemarle mine is progressing rapidly as usual. Excavations for the tramway and new 125-ton steel mill is being pushed to the utmost, seventy men being employed on this work alone. The work in the mine is making the usual good headway. A substantial new road is being pushed to the canyon, over which to haul wood for the mill and mine timbers is finished.

The laying from Peralta canyon to the Albemarle, a distance of five and a half miles, will begin in a few days. A number of Trimble's teams are constantly on the road hauling heavy timbers and building a number from the Allerton saw mill to the Albemarle, and steel rails and much other material is coming in daily from Thornton, the nearest railroad point.

H. E. Anderson informs the Herald that he will build next to the big Anderson-Rogers boarding house at the mine a 20x20 two story house to more conveniently accommodate the immense crowd of employees now at the Albemarle. They will have this additional boarding house up and completed in ten days.

Sanchez, the general agent of the Equitable, stating that the policy of \$10,000 on the life of her late husband had been paid. This was the policy that was supposed to contain the usual small clause, but fortunately for Mrs. Dalton, the clerk who filled out the policy at the home office failed to insert it, and notwithstanding Mr. Dalton died with smallpox, Mrs. Dalton got her money.

Send the Children Here.

The city schools closed to-day for an indefinite period on account of a lack of the necessary funds to pay teachers and other running expenses. This is not only discreditable but highly injurious to Santa Fe, particularly just at a time when many people from the outside are coming to this city to see the new residence place convenient to the great Cochet and Santa Fe county gold mines, and the New Mexican earnestly hopes that efficient measures will immediately be taken to re-establish the schools under modern methods and proper management. that the most desirable class of home seekers ask is, "What kind of public schools do you maintain?" The people of Santa Fe should be able promptly to answer this important question with something more satisfactory than a dubious shake of the head.—New Mexican.

Las Vegas and Santa Fe, alleged rivals of Albuquerque, have both announced that their public schools have had to close down for lack of funds. The schools of this county and city are in excellent hands, with plenty of funds to keep them going until the summer vacation. Therefore, send your children here to be educated.

THE OMAHA EXPOSITION MEDAL.

The Vote Closed at Noon Saturday—Mrs. Lewis, of Albuquerque, Ahead.

As previously announced, the time for the closing of the voting contest on the lady's side having been fixed, the college of Mrs. Lewis, as representative of New Mexico in the matter of the Omaha exposition medal, was Saturday at noon.

That evening having been fixed, the full board of exposition commissioners will then be in session. It is learned that no change has taken place recently in the list of ladies of Albuquerque, leading to a D. D. of more than 100 votes. However, no returns have been received from Secretary Curran for over a week and he may have received a large number of votes in the meantime.

From the quietness of the contest it is surmised that the friends of some candidate may be waiting till near the expiration of the time to put in their votes.

At all events, the polls were open until Saturday noon, so that everyone still had a chance to do honor to the lady of his choice.

The above is clipped from last Friday's New Mexican. The voting contest closed on last Saturday, at noon, and our dailies correspond at Santa Fe has failed to let us know the final result. We opine, however, that Mrs. Fred Lewis, in the count, was found ahead.

What is Scott's Emulsion?

It is a strengthening food and tonic, remarkable in its flesh-forming properties. It contains Cod-Liver Oil emulsified or partially digested, combined with the well-known and highly prized Hypophosphites of Lime and Soda, so that their potency is materially increased.

What Will It Do?

It will arrest loss of flesh and restore to a normal condition the infant, the child and the adult. It will enrich the blood of the anemic; will stop the cough, heal the irritation of the throat and lungs, and cure incipient consumption. We make this statement because the experience of twenty-five years has proven it in tens of thousands of cases.

Do you get SCOTT'S Emulsion, and know it, all druggists, SCOTT & BOWNE, Chemists, New York.

To the Public.

I desire to appeal to the people of Albuquerque and Bernalillo county for contributions of money, clothing and provisions for the destitute patriots of Cuba, whose homes have been devastated during their long and heroic struggle for independence. The destitution on the island is so universal that the president of the United States has felt impelled to request the people of this country to organize for the relief of the Cubans, and the committee of which the undersigned is chairman has been organized in pursuance of the president's request. Money, clothing and provisions are greatly needed and may be sent to Mrs. Nellie B. Field, 1301 Tijera avenue.

W. L. Trimble & Co. have kindly consented to call for and deliver free of charge all parcels and packages intended for the committee. Who gives promptly, gives twice.

"Little Dot" had her revenge Saturday afternoon when Flora Minor was fined \$5 and costs by Justice Ribble, making the whole bill \$9.25. This was the second

act in the misunderstanding between some of the female inhabitants of the Aere. "Little Dot" was hauled up before Justice Crawford on the charge of assaulting Flora Minor and was fined \$10. A counter complaint was then made against Flora charging her with assault on "Little Dot" and she managed to get off for 75 cents less.

Henry Mattison, the colored hack driver who has been an inmate of the county jail for several months on the charge of lunacy, was liberated this morning, and immediately came over to new town. He looks fairly well, and states that his mind has been restored.

N. M. Wilson, wife and little girl, from Marshalltown, Iowa, are stopping at the Highland. Prof. Wilson is an oculist with a large practice at home. He is, however, making a tour of the west and southwest with his family for pleasure and recuperation.

Dr. David Stearns, a well-known optician, who has been at Gallup for some time past, came in from the west last night and will leave this evening for Cerrillos, where he will remain for a short time and then return to this city.

An old man, named R. Powell, had an attack of heart trouble this morning while standing in front of Melini & Rakin's place on First street. He fainted and it took some time to revive him, when he appeared as well as ever.

We have the goods, not the samples. You may try on before garments are finished. I live here and employ home labor. If goods are not satisfactory some one in the east is not to blame, nor have we left town.
