## BENNINGTON IS BLOWN UP

Boiler on U. S. Gunboat Explodes in Harbor at San Diego, Cal.

## FIFTY PERSONS KILLED

Over Two Hundred Are Injured—Crew of 278 on Vessel—Tugboats Working Hard at Rescue.

San Diego, July 21.—An explosion, probably of the boiler, occurred on the U. S. gunboat Bennington in this harbor. A number of men are said to be killed and many are picking up bodies in the water. A wagon load of the wounded has already been taken to the hospital.

**Rescue Work Going on Rapidly.**  
San Diego, July 21.—The boiler of the U. S. gunboat Bennington, which is lying in this harbor, exploded today and nearly every man on board was either killed or injured. It is believed that fifty are killed. There were 278 men aboard. The work of taking out the dead and wounded is proceeding as rapidly as possible. The ship is listing to starboard and probably will sink in a short time.

## Was One of the Most Frightful Disasters in Peace History of Navy.

San Diego, July 21.—One of the most frightful disasters in the peace history of the American navy, excepting the sinking of the Maine at Havana, occurred in San Diego bay shortly after 10:30 o'clock this morning on board the U. S. gunboat Bennington. At a moment when the warship was lying quietly at anchor and was an object of interest to hundreds of observers, a cloud of steam suddenly burst out from a point just forward of the smoke stack, out of which the spectators were horrified to see bodies and human fragments hurled high in the air. The next moment the bleeding sailors were fighting, crippled in the water, against death in only a less sudden form than that from which they had just escaped. All kinds of boats immediately hurried to the rescue. Smaller boats turned their attention to those in the water, taking them ashore as fast as a few could be taken on board. Within half an hour from the time of the explosion, carriages, buggies, automobiles and street cars were bearing victims to the hospitals. The sight will never be forgotten. Wagons with dozens of wounded men were not rare. One had eight sitting or reeling against the sides, holding in their laps the heads of comrades near to death, all with faces black with grime and smoke. Every effort was made to assist the stricken men.

The Bennington has been beached and the work of taking out the bodies is being prosecuted as fast as possible. At 12 o'clock fifty bodies had been recovered and more remain to be taken out. A barge just brought ashore five more bodies and reports three others waiting to be removed.

## THE KATY HAS BIG LAWSUIT.

Land Case Involving 2,000,000 Acres of Land at Value of \$50,000,000 Now Before Court.

Shawnee, Okla., July 21.—The Missouri, Kansas and Texas land cases in the Indian Territory have been taken up, the first test case being argued on demurrer at Muskogee before Judge Raymond. This case is that of the Katy vs. James Bullet.

The Katy claims every alternate section of land along its line in the Indian Territory on a grant which the United States government promised to the first railroad constructing a line. The cases involve the ownership of something like 2,000,000 acres of land, the estimated value of which is \$50,000,000. Decision on the demurrer was reserved, but regardless of the way it goes the case will be appealed to the Supreme Court of the United States.

## THE RIO GRANDE TO SPEND IMMENSE SUM.

Denver, July 21.—It has been announced that the Denver and Rio Grande Railroad Company will spend \$400,000 on improvements at its shops in Burnham, a suburb of Denver. Among other additions to the present plant will be a roundhouse to cost \$200,000, which, it is claimed, will be the finest structure of its kind in the west. Many more hands will be employed when the improvements are completed.

## CHICAGO TEAMSTERS IN MAD RUSH FOR JOBS.

Chicago, Ill., July 21.—The teamster strikers who last night gave up their long struggle against the employers broke ranks today in a stampede for work. Of more than 4,000 men who quit not more than 1,400 or 1,500 will be reinstated during the next few days.

## BY WIRELESS TELEGRAPHY

News is Received of Fleet Bringing Body of Paul Jones to This Country.

## WILL ARRIVE SATURDAY

North Atlantic Squadron is Reported Near the Escort and Will Act as Additional Guard of Honor.

Newport, R. I., July 21.—The squadron of warships under Rear Admiral Sigsbee, which is bringing to this country from France the body of John Paul Jones, was spoken by wireless telegraphy early today. The following telegram was received at the government torpedo station here from the squadron: "Will arrive at Chesapeake Cape Saturday morning if the weather continues favorable; no incidents on the passage."

## North Atlantic Squadron Joins the Escort.

Norfolk, July 21.—The commandant's office at the Norfolk navy yard reported at 11:15 o'clock this morning that Admiral Sigsbee and his fleet, bearing the body of Admiral John Paul Jones, was in communication with the Cape Henry wireless telegraph station. The report stated that the North Atlantic battleship squadron, in two divisions, under Admiral Evans and Admiral Davis, which went to sea to meet the fleet bearing the body of Admiral Jones, was close to Admiral Sigsbee's fleet.

## Hero's Body Arrives Tomorrow.

Washington, D. C., July 21.—The Navy Department expects that the squadron escorting the remains of Admiral Paul Jones will arrive tomorrow unless there is a mischance. The squadron under Admiral Sigsbee will be met at the Capes by a battleship squadron under Admiral Evans, a cruiser squadron under Admiral Brownson, and the French cruiser Juren de la Graviere. These vessels will form the escort to the bay to Annapolis, where the remains of Admiral Jones will tomorrow be deposited in the temporary vault, with full military honors. They will be placed in the new chapel, their final resting place, as soon as it is completed.

The new chapel, a central feature of the reconstructed naval academy group of buildings recently ordered by congress at a cost of many millions, rises on the water-front with a massive dome for its inspiration, the architecture of the whole being not unlike the Hotel d'Invalides of Paris, in which rest the remains of the great Napoleon. The crypt of the chapel is intended for a last resting place of the bones of the nation's naval heroes.

## ENGLISH GOVERNMENT WAS DEFEATED

In the Irish Land Commission Affair in House of Commons and Cabinet Has Been Summoned.

London, July 21.—The House of Commons sat barely half an hour today and then adjourned until Monday to await the government's decision regarding its future course of action in view of the defeat of the ministry last night on John Redmond's motion to reduce the vote of the Irish land commission. The House was packed and much excitement was visible on all sides. There was a disposition to view the defeat of the government as more serious than it was generally regarded in the early hours of this morning. When the house adjourned the members rose and excitedly swarmed into the lobbies, eagerly discussing the probable decision of the cabinet which had been summoned to meet this afternoon. The view that the government will resign, however, is not held in circles generally well informed.

## BIG LIST OF FATALITIES.

Official Railroad Accident Figures Give Nearly Thousand Deaths in First Three Months.

Washington, July 21.—Accident bulletin No. 15, just issued by the Interstate Commerce Commission, giving an account of railroad accidents during the months of January, February and March, 1905, shows that there were twenty-eight passengers and 204 employees killed, and 1,651 passengers and 2,062 employees injured in train accidents. Other accidents to passengers and employees, not the result of collisions or derailments, bring the total number of casualties to 999 killed and 14,297 injured.

## ATTEMPT WAS MADE TO ASSASSINATE SULTAN.

Sofia, Bulgaria, July 21.—It is reported officially from Constantinople that during the day an attempt was made to assassinate the Sultan.

## ENCOURAGING INFORMATION

United States Weather Bureau Announces Grateful Trend of Record

## FROM HOT TO COOL

Atmospheric Conditions Point That Way All Over the Country—General Rains Prevail Today.

Washington, D. C., July 21.—The United States weather bureau today gives most encouraging information as to the general weather conditions. From abnormally hot to abnormally cool, seems to be the trend of the atmosphere record. The report says: "The temperature continues to fall slowly in the New England and middle Atlantic states. For tonight and tomorrow fair weather is indicated, except in the Ohio Valley and the southern portion of the middle Atlantic states and North Carolina, where showers will probably occur. It will be slightly cooler tonight in the east portions of the middle Atlantic states."

**Weather Conditions and General Forecast.**  
Heavy rains are reported in the lower Ohio Valley and central and western Nebraska, and light rains in western South Dakota, Colorado and southern New Mexico. Moderate temperatures will prevail in all portions of that country. The indications for the next thirty-six hours are for occasional rains in the lower Ohio, middle Mississippi and lower Missouri valleys, and for a continuation of moderate temperatures east of the Rocky Mountains.

## BALLASTING THE TRACKS.

Rock Island-El Paso Construction Gangs Are at Work Near McPherson, Kansas.

McPherson, July 21.—The Rock Island-El Paso construction gang from the south has arrived and are quartered near the stock yards southeast of town. The men are now working this side of Groveland and will soon reach this place. Another construction gang is working this way from the east and is now at Galva. The two gangs will meet at this place and then the track will be ready for the ballasting, which is following right behind the construction gangs.

All defective ties and rails are being replaced and the old wooden culverts are being taken out and replaced with iron tiling or concrete. The bridges are also being repaired and extensive grading is being done. The gang which is quartered here now has fifty teams at work between here and Groveland. Everything is being put in the best of shape. The ballast is of burnt gumbo, which is said to be the best ballast used. It is very hard and porous and much resembles broken brick. The Rock Island through here has a great many heavy trains aside from the passenger trains and local freights. Their track on this line will be equal to any on the whole system.

## EXPLOSION ACCORDING TO PROGRAM

Fifty Tons of Dynamite to be Used To Morrow at New Navy Yard at Portsmouth, New Hampshire.

Portsmouth, N. H., July 21.—The last section of Henderson's Point, containing about 70,000 tons of rock, will be blown up with fifty tons of dynamite at high tide to-morrow. It will mark the conclusion of one of the most difficult engineering feats ever accomplished, and will open the way for large warships to the Portsmouth navy yard. The work was begun three years ago and 500,000 tons of rock have already been taken away. There is just one big section left. This the contractors have arranged to remove by the aid of dynamite, and it will be one of the biggest explosions ever attempted.

There have been drilled in this last remaining section of rock about 300 holes, ranging from fifty to eighty feet in depth. These have been filled with dynamite and will be exploded by three circuits with a powerful electric battery. All of the buildings in the immediate vicinity have been removed in anticipation of the explosion, the nearest one left standing being the big naval hospital, from which the patients and inmates were removed today.

## NO CONVICTION IN OREGON LAND CASES.

Portland, Ore., July 21.—After being closeted together for forty-six hours and taking forty-two ballots, in which the vote was ten for conviction and two for acquittal, the jury in the case of Congressman John N. Williamson, Dr. Van Gesmer and United States Commissioner Briggs, reported to Judge Dehaven in the United States Circuit Court yesterday afternoon that it could not agree and was discharged.

## AUTOMOBILIST MEETS DEATH

Millionaire Plow Inventor of San Francisco the Victim of a Collision.

## WAS RECKLESS DRIVER

M. T. Hancock's Machine Crashes Into Telephone Pole While Going at Rate of Forty Miles an Hour.

Los Angeles, Calif., July 21.—M. T. Hancock, the well known millionaire plow inventor, is dead as the result of an automobile accident in this city late last night in which also his wife, his son and his daughter were severely injured. Mr. Hancock himself received two fractures of the skull and died later in the hospital without recovering consciousness. The party, in a large machine, was traveling forty miles an hour on South Main Street near Forty-eighth Street when the machine collided with a buggy driven by J. Saul, a dairyman. The car swerved to the curbstone, crashed into a telephone pole, demolishing it and hurling the occupants of the car to the street. Mr. Saul received a bad scalp wound and internal injuries.

Mr. Hancock was known here as the most reckless automobile driver in the city and on several occasions had been fined in police court for fast driving.

## JAILER JUSTIFIED IN RESISTANCE.

Kentucky Court Holds That He Did His Duty Against the Mayor in the Powers Incident.

Cincinnati, July 1.—Jailer Ploeger, his two deputies and a man arrested with them on charges of disorderly conduct and assault in connection with the commitment of Caleb Powers to the Newport, Ky., jail, have been dismissed from custody, the court holding that the attempt of Mayor Helmbold to designate where Powers, a federal prisoner, should be incarcerated, was illegal and that Ploeger and his assistants were justified in resisting the mayor and the policemen whom he called to his assistance.

Mayor Helmbold and two policemen are now under bond to the federal grand jury for interfering with federal officers and a federal prisoner, and a contempt charge in the same connection must be answered.

## CASES DISMISSED AT PORTALES.

Four Remaining Charges Against B. H. Tallmadge Were Withdrawn Yesterday.

Portales, N. M., July 21.—The four charges remaining in the case against Benjamin H. Tallmadge, in which he was charged with subornation of perjury in connection with alleged fraudulent land entries in New Mexico, were withdrawn yesterday and the cases dismissed upon motion of Assistant United States District Attorney E. L. Medler.

Mr. Tallmadge left here in the afternoon for Chicago.

## DECREASE OF PENSIONERS.

Topeka Agency Reports Net Loss of 252 for the Year—Civil War Veterans Dying Rapidly.

Topeka, Kans., July 21.—The Topeka pension agency, which handles the business of Missouri, Colorado, New Mexico, Indian Territory and Oklahoma, has 115,368 pensioners on its rolls, a net loss of 252 for the year. The total gross loss was 5,031, of which 4,506 were due to deaths. The number of Spanish war veterans and civil war widows increases, but the rate of death of the civil war veterans is very high.

## NO STATEMENT OBTAINABLE.

Of the Affairs of Defunct Kansas City National Bank—Condition of Other Institutions.

Kansas City, July 21.—The statement of the affairs of the City National Bank of Kansas City, which closed its doors yesterday, was still unobtainable today. The conditions of other banks apparently were normal, and there was no appearance of a run on any of them. Only a few persons stood about the doors of the failed bank.

## W. J. BRYAN TO ADDRESS MONONA LAKE ASSEMBLY.

Madison, Wis., July 21.—The annual session of the Monona Lake Assembly opened today and will continue until August 5th. The program this year is one of the best ever offered by the directors. It provides for many addresses by speakers of note, William Jennings Bryan heading the list.

## SPRING RIVER ON RAMPAGE

Stream Rising at Rate of a Foot an Hour North of Galena, Kansas.

## LOSS OF LIFE FEARED

Residents in Indian Territory Have Been Warned—Mines Are Flooded and Fields Under Water.

Galena, Kans., July 21.—Flood conditions along Spring River north of this city are more serious than ever. During most of last night Spring River came up at the rate of a foot an hour and today it is still rising. Much mining land has been flooded and mining operations are suspended. The St. Louis and San Francisco Railroad bridge west of this city is six inches out of line and has been abandoned. At noon today a message from Peacock Valley, a little mining camp situated east of Badger and on higher ground, stated that the water had just commenced to run into the mines there. People all along the river valley through Indian Territory have been warned of the impending danger. It is feared there will be great loss of life. The flood district is close to the Indian Territory line.

## Half a Million Dollars Damage to Crops.

Joplin, Mo., July 21.—The flood waters of Spring River reached the big dam at Lowell, Kansas, early today and with all the flood gates open the water raised within two feet of the top of the dam. The gauge showed 22 feet of water. Half a mile above the dam the water broke out of the banks and flooded Vark, a little village, with three feet of water. The people were warned in time to escape and no deaths are reported. It is estimated that the damage to crops will amount to half a million dollars.

## TREASURER REFUSES TO GIVE BOND

L. L. Kelley Claims That Governor Hoch's Demand is Excessive in Kansas Finance Affairs.

Topeka, Kansas, July 21.—L. L. Kelley, the state treasurer, at noon today refused formally to give the \$750,000 bond required by Governor Hoch. He made a lengthy statement before the executive council in defense of his position, holding that the requirement was excessive. Governor Hoch replied to this statement that Kelley's statement showed that he was unable to get the required bond.

## ELECTRICITY SUPPLANTS MULES IN PENNSYLVANIA MINES.

Wilkesbarre, Pa., July 21.—The Delaware and Hudson Coal Company has completed a mammoth electric power plant and next week will begin the operation and illumination of all its collieries in the northern part of this city by electricity. The small locomotives shall give way to the motor cars and the mine mules will be a thing of the past. The company has given the electrical devices a systematic trial and the result was entirely satisfactory.

## SOUTH DAKOTA MERCHANTS TO FIGHT MAIL-ORDER HOUSES.

Sioux Falls, S. D., July 21.—Representative wholesale and retail merchants of South Dakota met in convention here today to organize for the purpose of fighting the encroachments of the large eastern mail-order houses. Those behind the movement hope to devise some plan by which the mail-order houses will be forced to abandon the South Dakota field.

## SANDOVAL COUNTY NORMAL INSTITUTE.

Special to the New Mexican. Bernalillo, July 19.—On Monday morning, the 17th instant, the Normal Institute of Sandoval County was opened with an attendance of twenty-five teachers. The conductor is Professor B. S. Raftery, a distinguished educator of St. Louis, Missouri. In declaring the institute formally opened, Superintendent of Schools Jose Felipe Silva delivered an eloquent address to the teachers and to the people who were present, expressing his gratification at so auspicious a beginning of the first institute ever held in Sandoval County, urging the importance of the institute work and declaring that the greatness of the result was due, in a great degree, to the general education among the masses of the people. He expressed the sentiment that a man who was not proud of the public schools is not a good citizen.

Hon. Amado Chavez, assistant superintendent of public instruction, was present and addressed the teachers.

## IS CAUSING MUCH TALK

Associated Press Interview With M. Witte Chief Topic in Official Circles.

## PARIS PAPERS' VIEWS

The Temps States That Japan Would Do Well to Take Account of Russia's Chief Plenipotentiary.

St. Petersburg, July 21.—The Novoe Vremya today devotes the leading article to the alleged Japanese peace conditions as published by the Vienna Tageblatt and the Frankfort Zeitung, dwelling especially on the specification against the double-tracking of the Siberian Railroad, which the paper declares, is utterly unacceptable in every way, being equivalent to the political and economical suicide of Russia.

## Russia Is Far From Being Crushed.

Paris, July 21.—M. Witte, accompanied by his wife, several members of his family and a number of officials, making up the party which is on its way to the United States, arrived at the Northern Railroad station at 4:30 o'clock this afternoon.

The interview of the Associated Press on Monday with M. Witte continues to be the chief subject of discussion among officials and diplomats and in the newspapers.

The Temps (semi-official) devotes a column leading article to it tonight, pointing out the importance of the Russian statesman's declarations. The Temps says M. Witte's statement was most happy, recalling that he was a partisan of peace even before war began, not a mere retrospective partisan, but because he is now in a better position to restore peace than one who assisted in the rupture.

"Moreover," continues the Temps, "M. Witte's statement shows that war was not inevitable and that the observance of the wise counsels of M. Witte might have averted the war."

"This, however, does not mean that M. Witte is resigned to make more cruel sacrifices than any other negotiator, as he is unable to make concessions beyond a point which the emperor himself has fixed."

## The Temps adds:

"It is no 'bluff' that M. Witte so fully develops in his declarations to the Associated Press. The Japanese should take good account of M. Witte's state of mind. Russia, despite her losses, is far from being crushed. It would therefore be absurd for Japan to attempt to impose extreme conditions, and if the exigencies force her to demand humiliating terms then the success of the peace negotiations is irredeemably compromised."

## Japanese Warship Near Mouth of Amur River.

Copenhagen, July 21.—A dispatch from St. Petersburg to the Godsdan says that private advices received at the Russian capital say that the Japanese warships have been sighted near Nikolaijevsk, at the mouth of the Amur River. Many of the inhabitants of Nikolaijevsk and Vladivostok, it is added, have fled to Khabarovsk for safety.

## DISTRICT COURT NOTES.

In the case of the Territory of New Mexico versus Anastacio Gonzales, as assessor of Santa Fe County, which is being heard before Associate Justice John R. McPhe, sitting in Chambers in the First Judicial District Court for Santa Fe County, motions presented by the attorneys for the defendant were overruled. The defendant's attorneys presented motions which, in the opinion of Judge McPhe, were without bearing directly upon the case in question, and only served to delay the hearing of the evidence. After the disposition of these motions yesterday afternoon the court adjourned until 10 o'clock this morning, at which time the hearing was begun. The contention brought by Attorneys Catron, Gortner and Renahan, for the defendant, claiming that District Attorney E. C. Abbott had no legal right to prosecute a county officer, was settled by Attorney Abbott withdrawing from the case, Judge A. J. Abbott taking his place in the prosecution.

The case was adjourned, at the request of attorneys on both sides, until Monday, for the purpose of allowing an examination of a large number of tax schedules with a view to classifying them for the introduction in evidence.

## DROPPING ROCK BRINGS DEATH TO A MINER.

Trinidad, Colo., July 21.—Antone Maroni, an Italian miner employed by the Victor Fuel Company at Hastings, was instantly killed last evening just a few minutes before he was coming off from work. Maroni was in a stooping position when a rock dropped from the roof of the drift, striking him at the base of the brain, fracturing his skull.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## THE NEW JAIL PROJECT IN SANTA FE AND IN PORTALES.

For the past two years the New Mexican has urged the Board of Commissioners of Santa Fe County to provide for the construction of a new and modern jail here. The fact that the present structure is unsafe, unsanitary, unhealthy, a hovel of old adobe, an eye-sore and disgrace to this city and county, is too patent to need iteration. The Board of County Commissioners at its recent session, satisfied that the facts were as stated by the New Mexican, and that the necessity for a new county jail here was of the greatest, has levied a tax for the purpose of creating a fund for the construction of the building. The New Mexican, in connection with all good and patriotic citizens, taxpayers and property owners, is glad that the board did so. To be sure the knockers, tax-dodgers and the per cent per cent fellows are opposed and are criticizing and condemning the action of the board severely. They hold back and retard everything that looks like progress and advancement, no matter how needed, either because they can have no part in the manipulation of the funds or because they are constitutionally opposed to paying taxes or because they still live in the mediaeval ages. This class of Santa Fe's population should heed the following from the Portales Herald, which shows what the county seat of the new county of Roosevelt, a county but little over two years old, and the town of Portales, a town of but little over three years old, and containing but one-tenth of the population of Santa Fe, are doing in the matter of obtaining a new, modern and safe jail. No argument is necessary to point the moral. The Herald says:

"J. W. Gregg is drawing the plans and specifications for the county jail, which will be 32x38. Four rooms and hall on first floor, and three rooms and hall on second floor. All the second story will be lined with sheet iron, for fire protection, and will have a two-cell steel cage for criminals. It will be built of artificial stone or brick. So our county continues to improve and our home architects and builders are doing the work."

## THE PROJECTED EXTENSION OF THE EL PASO AND NORTH-EASTERN RAILWAY.

Should the El Paso and Northeastern Railway carry out the project recently telegraphed from El Paso, that the management proposes to build a direct line of railway from Santa Rosa, the county seat of Guadalupe County and the junction of the El Paso and Northeastern with the Chicago, Rock Island and New Mexico roads through the counties of Guadalupe, San Miguel and Mora to the Dawson Coal Fields in Colfax County, it will open to great development and a considerable increase in population, a great stretch of grazing country much of which by proper irrigation systems can and will be made agricultural. According to report, the proposed line is to be located via Las Vegas, and if this should be done the Meadow City will prosper and become one of the most important trade centers in the Southwest. The prospects for the new line seem to be good, and the New Mexican sincerely hopes they will end in fruition. The line will also incidentally benefit this city and central and northern New Mexico generally. The work can not be begun too soon.

The Journal published at Safford, Arizona, gets off a rather bright hit at ex-Delegate Bernard S. Rodey, the eloquent and persistent joint-statehood advocate. The Journal says:

"Bernard S. Rodey, New Mexico's ex-delegate to congress, made a speech before the joint-statehood league at Albuquerque the other day, in which he referred to the new state that is to be added to the union as 'The youngest of the union and the fairest—Arizona the Great.' Right you are Bernard, dear, but we fail to see why you should get so eloquent over the fact. Certainly, that portion of the country in which the joint-statehood league is doing business will not be included in the new state."

## THE WHYS AND WHEREFORES OF THE ALBUQUERQUE JOINT STATEHOOD BOOMERS.

The bombastic Albuquerque Journal and the few weekly yellow sheets in its wake have commenced to advocate the holding of a convention, which is to place the people of the territories of New Mexico and Arizona on record in favor of joint statehood. The New Mexican freely admits that the bombastic Albuquerque Journal has a right to advocate any and all silly and foolish notions floating about; this paper also admits that the two or three weekly papers that are of the same opinion as the Journal may perform any and all antics and escapades they see fit. As far as the people are concerned, this paper is pretty well convinced that they want no convention of the kind and no agitation on the subject at present. The people of Arizona in a rousing delegate convention a few weeks ago in Phoenix placed themselves strongly on record against joint statehood, and the anti-joint-statehood league then and there formed is actively at work for the purposes for which it was created. In New Mexico the good citizens are very busy this summer and will be so this fall. The merchants are doing a very good trade; the sheepmen have the largest herds and best clips of wool ever had in the Sunshine Territory to look after; cattlemen are getting better prices and are busy with their increasing herds of as fine range cattle as ever roamed on the plains of what is called the arid section; mining is looking up and capitalists, mine operators and miners are busy; the manufacturing interests, although comparatively small, are flourishing, and the owners and employers are engaged in increasing manufacturing and branching out; the decent and respectable newspapers are strenuously at work building up the industries and bringing immigration and capital here; and so on and up and down the line until the Albuquerque joint statehood boomers and the bombastic Journal are reached. These fellows have already parceled out the offices, and should New Mexico and Arizona be admitted as a joint state under the name of Arizona, they will ask for but a few things at first, and when they have the officials they want, thereafter they will endeavor to grab everything in sight. They will demand one United States Senator, one member of the House of Representatives, the Chief Justice, the Governor, the Treasurer and the Attorney General nominations for themselves. They would take the whole slate, were they not afraid there would be too much kicking at first. Should it become necessary to appoint a new set of officials before joint statehood comes, they have already made up a slate and say they will have the appointment of Governor and Secretary of the Territory, and thereafter about every important territorial appointment in sight. The slate for state offices shows why they are so ardent and hot to have a joint statehood convention now. They want to bring themselves before the people, and should joint statehood come they will smite themselves upon their chests, swell out like pouter pigeons and blow like porpoises, swearing "we did it and you must give us the offices." Here is the case set in a few sticks of type, and that fairly and precisely. The people know the situation, and this paper will take mighty good care that they shall be kept fully advised of what is going on and of the selfish plans of the Albuquerque joint statehood boomers.

It is reported that as soon as General Leonard Wood of the Regular Army recovers from the effects of the operation recently performed upon him, he will be ordered to Panama for the purpose of putting the canal strip into good sanitary condition. Should this report prove true, the country may rest assured that the job will be well done.

## ALL RIGHT, EXCEPT THE CLIMATOLOGICAL POINT.

The northern New Mexico fair should incorporate as an association and every business man in Las Vegas should become a stockholder. This should be done as soon as possible, and the efforts of all citizens be united in making the initial fair a success. With the best park, the best race track and the best fall climatic conditions in the Territory, the northern New Mexico fair should become an annual and increasingly important institution."

The New Mexican says amen to the above, with the exception that in justice, in equity, in actual fact and in universal public opinion, it is bound to assert that the Santa Fe climate is ahead of that of Las Vegas owing to the peculiarly well chosen position of this city from a climatic and health standpoint. The New Mexican, however, is glad to acknowledge that the Meadow City is a close second.

## THE NEW MEXICO SETTLERS' GUIDE.

The brochure recently published by the Bureau of Immigration and containing information for the homeseeker and settler upon public lands of the United States in this Territory, is meeting with commendation by the territorial press. Quite a number of complimentary notices have been published lately and in a recent issue of the Deming Graphic the following appears:

"There has just been issued by the Territorial Bureau of Immigration, Colonel Max Frost, Secretary, a very valuable little hand book, entitled 'Ho! To the Land of Sunshine. A Guide to New Mexico for the Settler and Immigrant.'"

"In this little pamphlet, which is of a size to be slipped easily into an ordinary envelope, is a large amount of valuable information, not only for those who contemplate settling in our Territory, but for actual residents as well."

"The booklet opens with a concise digest of requirements under the home-

stead law. There is information in regard to expired entries, contests, final proof, land office fees, desert land entries, coal lands and coal land entries, script entries, mineral bearing land, placer claims, oil lands, forest reserves, railroad lands, location and jurisdiction of United States land offices.

"In addition to this is given a complete statement of the number of acres and the character of the land open to settlement in each of the twenty-four counties of the Territory."

"The subjects of stock raising, agriculture, irrigation, and character of population are also touched in a brief incisive manner."

"The little brochure of 55 pages is like all matter issued from the office of the secretary of the bureau, perfectly printed and made up, and fresh and unhackneyed in tone."

## THE MOUNTAIN REGION IN THIS SECTION FOR THE SUMMER.

Prostrations by heat and deaths from this cause have been the order of the day for some time past in the large and populous cities throughout the country, both in the interior and on the sea coasts. The number of casualties from heat have constantly increased for days past, and the suffering in the great centers of population has been fearful. Right here in sunny New Mexico, although the sunshine is warm at times, and probably hot in some sections of the southern part, upon the whole the summer so far has been very pleasant, healthy and cool, and especially so in this city, where overcoats of evenings and blankets at night have been quite comfortable. The subject of the very fine summer climate of the mountainous sections of New Mexico cannot be kept too prominently before the people of the United States, and the New Mexican newspapers that do so are doing the people of the Territory, as well as suffering humanity throughout the length and breadth of this land, great service. The hot summer months of July and August should be spent by all who can afford it in the mountainous regions of New Mexico, especially in the counties of Santa Fe, San Miguel, Taos, Rio Arriba, Mora and Colfax.

The investigations made by United States Commissioner W. E. Lindsey at Portales into charges of alleged land frauds against members of the Tallmadge Immigration Company of Chicago, which company has for some months been engaged in bringing settlers to the Pecos Valley for the purpose of taking up public lands under the homestead and desert land laws, have as yet not developed anything very startling. That they may do so is only probable. There does not seem to be much chance for committing frauds upon the government in connection with public lands these days in New Mexico, and less in the Pecos Valley than elsewhere. While the country is sparsely settled, comparatively speaking, the good lands in the Territory are well known, and honest and bona fide settlers make homestead or desert land entries upon them just as soon as possible. There are a few isolated sections in the Territory where fraudulent land entries would be a success these days, and even in these cases the gain would not be worth the candle, as the dangers and risks attending fraudulent land operations are too great.

It is reported that as soon as General Leonard Wood of the Regular Army recovers from the effects of the operation recently performed upon him, he will be ordered to Panama for the purpose of putting the canal strip into good sanitary condition. Should this report prove true, the country may rest assured that the job will be well done.

Statisticians all over the country are busy figuring up the increase in the cost of living in recent years. Love's labor lost. Let them ask any married man, and he will tell them all about it without figuring.

There is more Catarrh in this section of country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists.

## MARRIAGE LICENSE LAW.

The new marriage license law requires probate clerks to post three copies of the new law in conspicuous places in each precinct. The New Mexican has printed the law neatly on card board and is now ready to fill orders in English or Spanish at fifty cents for each poster. Probate clerks should enter their orders immediately as the law goes into effect on April 14, 1905.

## THE WABASH IN THE LEAD.

Joint Agent Norton, who represented twenty St. Louis terminal lines during the World's Fair, has made a statement of the number of tickets passing through the validating office, which shows one-fifth the total number handled were Wabash tickets.

## "THE CLUB."

Up-to-date resort for gentlemen. The best goods money can buy—purely guaranteed by your "Uncle Sam." Fine Cigars and Tobacco.

## CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by all druggists.

## VISITORS AND STRANGERS

If you are a visitor or stranger in the city and desire some place to spend your leisure hours where you will not get lonesome and where you will receive the most cordial welcome, drop into "The Club." All the popular games and best brands of liquors and cigars.

## One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is he same in buying Chamberlain's Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

## SPECIAL ANNOUNCEMENT.

An invitation is extended to any white merchant outside of New York City, or his representative, whose name appears in Bradstreet's or Dunn's Commercial Agency Book, to accept the hospitality of our Hotel for three days without charge. Usual rates, apartment with private bath, \$1 per day and up, without meals. Parlor, bedroom and private bath, \$35 per week and up, with meals for two. New York merchants and editors are requested to call the attention of their out of town buyers and subscribers to this advertisement.

GALLATIN HOTEL,  
70 W. 46th St., New York City.

Good for Stomach Trouble and Constipation.

"Chamberlain's Stomach and Liver Tablets have done me a great deal of good," says C. Towns, of Rat Portage, Ontario, Canada. "Being a mild physician the after effects are not unpleasant, and I can recommend them to all who suffer from stomach disorder." For sale by all druggists.

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, Female Complaints, etc., etc. Boarding and bathing \$2.50 per day; \$11 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

## PROVES TO BE GOLD SAVER

New Placer Mining Machine is Tested in the San Lazarus Gulch.

## NEAR SAN PEDRO CAMP

Present One Built for Experiment and is Too Light--Will Immediately Construct Another for Heavy Work.

Special to New Mexican.  
San Pedro, N. M., July 19.—Representatives of the Racine Mining, Milling and Concentrating Company, a Wisconsin corporation, came here about eleven months ago, and after looking over the field carefully, leased from the Sunny Slope Mining Company a considerable area of placer ground in the San Lazarus gulch. The main object of the company was to thoroughly test a new placer mining machine that is designed to operate with very little water. It does require some water, however, and it was necessary to drill for it, so that about six months of the intervening time has been spent in putting down a well. Water is not a plentiful commodity in the San Lazarus gulch, but enough was secured to supply this plant.

Without going into technical details, the machine in operation is somewhat as follows: For the taking up of the material from its original bed there are diggers, a series of buckets on an endless chain, that deliver to a heavy grizzly which throws off all boulders larger than ten inches. Thence to a revolving screen, where the material is washed and all the adobe worked up; this screen is working in a current of water and has a mesh of three-quarter inches. From the revolving screen the boulders and heavy stuff fall onto a conveyor and away. The small material passes through the screen to a centrifugal sluice box, where the gold is caught on riffles. A centrifugal pump lifts the gravel and earth from the sluice box to a settling tank and revolving shovels take it from there to the same conveyor that has already carried off the large stuff. The machine in motion forms a large tank with various compartments; the centrifugal pump is designed to form a current, the same as a natural stream of water.

This particular machine, while nearly as large as a small threshing machine and something the same shape, was built for experimental purposes only. It is too light to do the work in the tough, cemented ground, mixed with boulders, found in this locality. Some parts are strong enough, but others are not; as a consequence there have been innumerable break-downs, sometimes causing a delay of weeks, as repairs in several instances had to come from Chicago. These conditions were to be expected in the first building of a new machine, but can be mostly obviated in a second and larger one. Experience is a great teacher. It has been pretty well demonstrated that it does save the gold. In a clean-up after a twelve-hour run, the run consuming three or four days on account of delays, twenty dollars was taken out of the pockets. The gold was in pieces of from one dollar down to flour. Several pannings were made of the tailings, but no colors were found. The ground where the present work is being done carries from 40 cents to 50 cents per cubic yard; bed-rock is shallow, only about five feet. Approximately 45 yards were run. The water wasted was very little, being only that taken up by the saturation of the material.

The inventor of the machine and manager of the company is Mr. Gust Seberg, and to his perseverance can be attributed, for the most part, the demonstrations of the value of the invention. This experimental plant can hardly be made to pay here, but in lighter ground it might do so. The principle is generally conceded to be right, however, and that is of most importance. Mr. Seberg will return to the east next week, where it is the present intention to construct a much larger and stronger machine, one that will do the work. Mr. Mathias Nagle of Santa Fe, who has stock interests in the company, will be in charge of the plant here during Mr. Seberg's absence.

## BAD BLOOD INVITES DISEASE

The blood supplies nourishment and strength to every part of the body when it is rich, pure and healthy. When from any cause it becomes diseased or weak it cannot supply the nutriment the system needs, and the body is unable to resist the diseases and troubles that are constantly assailing it to break down the health.

I have used S. S. S. and found it to be an excellent blood purifier and tonic. My blood was weak and impure, and as a result my system became very much run down and debilitated. I lost twenty or more pounds in weight, had no appetite and was in bad shape. Seeing S. S. S. advertised I began its use, and an wonderful pleased with the results after using it for some little while. My system and general health have been wonderfully built up, and I no longer hesitate to give S. S. S. the credit for it. H. MARTIN.  
Warren, O., 60 Second St.

Rheumatism, Skin Diseases, Scrofula, Catarrh, Old Sores, Malaria, Contagious Blood Poison, etc., are the results of bad or diseased blood, and until this vital fluid is cleansed and made pure, strong and healthy, these diseases will continue. The greatest of all blood purifiers and tonics is S. S. S. It has been curing all diseases of the blood for more than forty years by going down to the very root of the trouble, forcing out all poisons and impurities and building up every part of the system by its fine tonic effect. S. S. S. cures Rheumatism, Skin Diseases, Scrofula, Catarrh, Old Sores, Malaria, Contagious Blood Poison, and all other blood troubles, and cures them permanently. S. S. S. is the acknowledged king of blood purifiers and the greatest of all tonics. Books on the different diseases, and any medical advice you may wish will be given without charge.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

**His Tongue a Trifle Thick.**  
Mr. Jonsmith—How did you catch that awful cold?  
Mr. Tombrown—It is the result, sir, of my inability readily to pronounce barbarous combinations of consonants.  
Mr. Jonsmith—Why, how's that?  
Mr. Tombrown—I forgot my latch-key last night and was obliged to ring the bell when I got home. And because I was unable to repeat with instant fluency the ridiculous expression, "Six slim, slick saplings," my wife refused to unlock the door.

**His Short.**  
"Now, if this latest wholesale marryin' scoundrel should happen to get loose," snarled the Pollock philosopher: "I'll bet he'd have an offer of matrimony inside o' thirty minutes. An' yet we wonder at our divorce statistics!"  
So saying, he launched a kick at the postoffice cat that had it reached its mark would have seriously discommodated that feline.—Louisville Courier Journal.

**Mystery Explained.**  
Jacob had just kissed Rachel. Then he lifted up his voice and wept.  
"Why do you do that?" asked Rachel.  
"Because," he sobbed, "it didn't seem to surprise you! I am not the first young man you have kissed!"  
But he forgave her to such an extent that he served her father fourteen years for her.—Chicago Tribune.

**Vain Regret.**  
"There is only one thing I am sorry for," said the man who had been beaten in a lawsuit.  
"What's that?" asked the sympathetic friend.  
"My lawyer, in addressing the jury called them gentlemen instead of horse thieves. It would be such a satisfaction now if he had told the truth."—Illinois State Journal.

**Where the Damage Was.**  
"I heard you were run into by a trolley car, Sam. Is that true?"  
"Oh, yes, sah, dat's de gospel truf, sah. De car struck me on de head, sah."  
"Couldn't have been much damage done, Sam. You don't look as if you'd been hurt."  
"Oh, well, boss yer jist oughter see de car!"—Yonkers Statesman.

**How He Extricated Himself.**  
She—Would you have me believe I am the first girl you ever proposed to?  
He—Goodness, no! I suppose I've asked a dozen.  
She—And they all refused you?  
He—Of course. Every one of them knew I was head over heels in love with you.  
She—You dear boy!—Boston Transcript.

**It Might Be Arranged.**  
"As far as I am concerned," she said, "I'd rather be an old man's darling than a young man's slave."  
"Is there no hope for me, then?" the trembling boy asked.  
"Well, of course, if you really care for me—and wish to have me. I suppose I could persuade papa to give you a job."

A "WANT AD" will bring results.

### PERSONAL MENTION

Mrs. Claude Temple, of Albuquerque, passed through Santa Fe today on her way to Denver, via the Denver and Rio Grande.

Ernest Meyers, of Albuquerque, interviewed Santa Fe merchants today in the interests of a wholesale cigar and tobacco firm.

Hon. Pedro Perea, superintendent of insurance, has gone to Bernalillo on private business. He will return to the Capital Monday.

E. y. Gonzales, of Abiquiu, was in Santa Fe this morning, on his way to the San Luis Valley in Colorado, where he intends to locate.

Colonel Venceslao Jaramillo, of El Rito, treasurer and ex-officio collector of Rio Arriba County, was in the city today on business.

Mercedina Baca, Jose Ygnacio Dimas and Pablo Padilla, of Pena Blanca, spent the day in this city on business and visiting with relatives.

Mrs. Pedro Perea, wife of the superintendent of insurance, returned this afternoon from Bernalillo, where she has been visiting for several days.

H. Essinger, of Las Vegas, was a business visitor in the Capital City today. Mr. Essinger is western representative for a wholesale liquor house.

George E. Brewer, insurance adjuster, of Albuquerque, arrived in the city yesterday afternoon on business connected with the recent fire in the Salmon block.

Louis Trauer, sheep buyer and wool dealer of the Duke City, who has been in the Capital for several days on business, returned to Albuquerque last evening.

Judge Henry L. Waldo, solicitor for the Santa Fe Railway in New Mexico, after spending yesterday here on legal business, returned to the Meadow City this morning.

Mrs. A. V. Skinner and children, of Albuquerque, were in the city this morning, en route from the Duke City to Colorado Springs, Colorado, where they will visit for some time.

J. B. Manby, stockman from Trinidad, Colorado, was in the city this morning, en route to his home from the Estancia Valley, where he has been looking into stock conditions.

W. A. Snyder, of the firm of Snyder & Roediger, stock buyers, of Fort Morgan, Colorado, returned to the Colorado town this morning, after attending to business matters in the Capital yesterday.

Melton Stern, of New York City, representing a wholesale silk and dress goods house, called today on the dry goods merchants of the Capital with his samples, in an endeavor to drum up business for his firm.

Associate Justice John R. McFie left the city this afternoon for Albuquerque, where he will examine into the sanity of George Perea, son of Reverend Jose y Perea, of Pajarito, who on Wednesday burglarized a store in the Duke City.

George E. Bradley, engineer of the United States Geological Survey, who is taking a vacation, was in the city this morning. Mr. Bradley is making an overland tour of New Mexico, and came in from the west last night. He left this morning for Las Vegas, via the Scenic Highway.

W. Lindgren and L. C. Gratton, of the United States Geological Survey, who are making investigations and gathering data for a report to be issued by the Geological Survey on the mining districts of New Mexico, returned to the Capital City yesterday from the Pecos country, and are registered at the Palace.

W. M. Goodson and wife arrived in Tres Piedras on Saturday last, and on Monday he was checked in as agent at the depot. Mr. Goodson used to be operator at the Santa Fe depot in Santa Fe. Both Mr. and Mrs. Goodson are pleasant people and Tres Piedras welcomes them, even though their stay may not be long.—Mining Reporter.

Richard Huber, of the New Mexico Mounted Police, arrived last evening from southern Taos County. Mr. Huber has been rounding up the stock stolen by the Claude Doane gang and brought three horses to the Capital this trip. He says that the police are kept pretty busy now looking after cattle thieves, sheep thieves and other breakers of the law.

C. E. Butts, agent of the Denver and Rio Grande at Tres Piedras, arrived in this city last evening, and was busily engaged in explained his project for the construction of a telephone line from Antonito to Santa Fe. Mr. Butts has secured franchises for this purpose from the board of county commissioners of Rio Arriba, Taos and Santa Fe counties.

Legal blanks—both English and Spanish—for sale by the New Mexican Printing Company.

### JUDGE MILLS' SON NOT SERIOUSLY HURT.

Mrs. W. J. Mills, wife of Associate Justice William J. Mills, of Las Vegas, has received a telegram from her son, Wilson, who was shot while at target practice in Maine on Wednesday, assuring her that he was not seriously hurt, and that he was "feeling fine." Judge Mills also wired from New York that he had started for Stoneham, where Wilson is staying.

### FORGERY CHARGE AGAINST HOWARD MINGO DISMISSED.

At Roswell the case against Howard Mingo, in which he was charged with forging checks to the amount of \$60, was dismissed from the docket and the young man discharged from custody. There was absolutely no evidence on which to base the charge.

### SANTA FE CITY AND COUNTY INSTITUTE.

The Santa Fe City and County Institute will convene in the Santa Fe High School room on Monday morning, August 14th, at 8 o'clock. It will continue six days the first week and four days the second week, closing August 24th.

Examinations. The city and county examinations will be held on Friday and Saturday, August 25th and 26th.

According to the change made in the law by the legislature last winter, there will be only two examinations held during each year, one at the close of the institute and the other on the last Saturday in January. It is evident, therefore, to all who expect to teach that it will be necessary for them to attend the institute and the examination in August.

The Law. The law is plain and easy to follow, and I shall expect every one who thinks of teaching this coming year to attend the institute and take the examination. Then there will be no question about drawing the salary.

### Institute Fee.

The institute fee will be \$2, payable upon enrolling. All persons who expect to teach in Santa Fe or in Santa Fe County, must show a certificate of attendance at this institute, or some other institute or summer school held during the year.

### Instructors.

Superintendent J. A. Wood of Santa Fe; Professor J. R. Williams, of Columbia, Mo., and Miss Elizabeth Du Val, recently from San Antonio, Texas, have been engaged to instruct in the institute. These are all able teachers, and will make the work very interesting and beneficial to all who attend.

It is hoped that this will be the best institute ever held in Santa Fe. Will you please use your influence to make it so? Respectfully,

MARCELINO GARCIA,  
County Superintendent of Schools.

### NOTICE.

Notice is hereby given that every person trespassing on the La Bajada Land Grant, located partly in the county of Sandoval and partly in the county of Santa Fe, without the authority of the commissioners, is hereby ordered to stop trespassing immediately. Any person, who, after this date, trespasses on or crosses with animals, or in any other way, upon the lands of the said La Bajada Land Grant or any part of them, shall be held responsible for damages or rights of pasturage in favor of said commissioners for the benefit of the owners of the said grant. This is not only applicable to uninterested persons, but to those who have interests in the said grant.

In witness whereof, we have hereunto set our hands at Pena Blanca, County of Sandoval, this 20th day of July, 1905.

MARCELINO BACA, President,  
JOSE YGNACIO DIMAS, Secretary,  
JOSE BACA Y PADILLA,  
FELIPE MARES,  
JOSE INOCENCIO MONTOYA,  
Commissioners.

### Notices Concerning the La Bajada Land Grant.

Public notice is hereby given to any and all corporations or persons wishing to construct railroad tracks, telephone lines, or telegraph wires through and across the La Bajada Land Grant, located partly in the county of Santa Fe and partly in the Territory of New Mexico, that before being allowed to do so, in any way, they will be required to obtain authority and make the necessary arrangements with the owners, of the said grant, represented by commissioners, appointed by the said owners for that purpose, else they will be deemed trespassers and will be dealt with according to law.

In witness whereof, we have hereunto set our hands, at Pena Blanca, County of Sandoval, this 20th day of July, 1905.

MARCELINO BACA, Pres.  
JOSE YGNACIO DIMAS, Sec.  
JOSE BACA Y PADILLA,  
FELIPE MARES,  
JOSE INOCENCIO MONTOYA,  
Commissioners.

Established 1856. Incorporated 1903.

## MINOR CITY TOPICS

Watch for the change of advertisement of the Cartwright-Davis Grocery company which will appear in the New Mexican tomorrow.

Painters have been at work today repainting the fronts of the two business rooms on the west side of the Plaza, occupied by "Our Place" saloon and Kerr's barber shop. The work adds much to the appearance of the building.

Ernestina, the five months old baby girl of Mr. and Mrs. Camilo Padilla, died this morning at the home of her parents, No. 9 Garfield Avenue. The funeral will be held tomorrow afternoon from the home at 3 o'clock, interment made in Rosario Cemetery.

Santa Fe Lodge, No. 259, Fraternal Union of America, will give an invitation dance in Adams Hall, 106 Palace avenue, to-morrow night. Only members and invited guests will be admitted, and a fine time is promised. Refreshments will be served and the admittance is free. All members are urged to attend the affair.

The Santa Fe Water and Light Company has placed a night lamp in the Oxford Club for the convenience of the watchman. The rear of the building occupied by the Club fell in during the fire of Sunday night and light fingered persons could easily get in and make away with what they wanted. The light will enable the watchman to see the entire room and prevent such thieving.

Superintendent Clinton J. Crandall, of the United States Indian Training School, has informed the New Mexican that there are half a dozen young women pupils at the training school of good character and competent to do housework and cooking, who desire situations with families in this city. These girls make very good servants and people desiring domestic help should inquire of Superintendent Crandall, who will furnish them all necessary information.

The Board of County Commissioners has appointed the following delegates to represent Santa Fe County at the Thirtieth Annual Irrigation Congress to be held in Portland, Oregon, August 16 to 19: A. L. Kendall, Cerrillos; James Lucas, Golden; Jay Turley, Frank Owen and G. A. Collins, Santa Fe. Benjamin M. Read was also appointed by the board to represent the county at the Trans-Mississippi Commercial Congress to be held in Portland August 18.

New Mexico is to have partly cloudy weather to-night and Saturday, with local thunder showers; warmer weather on Saturday. Colorado will have local thunder showers tonight and to-morrow, with warmer weather in the south and east portions on Saturday. The maximum temperature in Santa Fe yesterday was 74 degrees at 11:30 o'clock in the morning, the minimum was 58 at 2:10 o'clock in the morning, and the mean for the day was 66. The relative humidity was 70 per cent, and there was .04 of an inch of precipitation. At 6 o'clock this morning the temperature was 56 degrees.

Plans for the construction of the new girls' home at the United States Indian Training School and a lavatory and natorium for the male pupils, have been received by Superintendent Clinton J. Crandall, of the United States Indian Training School and by the New Mexican Printing Company. Contractors who desire information for putting in bids for the erection of these buildings can examine the plans either at the office of the superintendent at the school or at this office. The sums appropriated by the government for the construction of the girls' home are \$25,000, and for the building of the lavatory and natorium \$3,000, making a total of \$28,000. The cost of construction must be kept within these limits.

A general invitation is extended to the people of the Territory to be present at the town of Manzano in Torrance County, on Monday, July 24, on the occasion of the meeting of the Estancia Valley Development Association. At Manzano are thirty apple trees which are known to be at least one hundred years old, and from which the Manzano Mountains received their name. These trees are on a hillside and the rains and weather have gradually exposed the roots, so that the trees are in danger of dying. The Estancia Valley Development Association has undertaken the task of caring for and preserving these trees, and on Tuesday, July 25, the work will be started. The first day of the meeting

## HEAD SOLID SORE

Awful Suffering of Baby and Sleepless Nights of Mother.

### CURED BY CUTICURA

Skin Fair as a Lily with no Scar to Recall Awful Sore Writes Mother.

"I herewith write out in full the beginning and end of that terrible disease eczema," says Mrs. Wm. Ryer, Elk River, Minn., "which caused my babe untold suffering and myself many sleepless nights. My babe was born seemingly a fair, healthy child, but when she was three weeks old a swelling appeared on the back of her head, and in course of time broke. It did not heal but grew worse, and the sore spread from the size of a dime to that of a dollar. I used all kinds of remedies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the baby he told me to get Cuticura Soap and Ointment right away.

"To please him I did so, and to my surprise by their use the sore began to heal over, the hair grew over it, and to-day she has a nice head of hair, her skin is as fair as a lily, and she has no scar left to recall that awful sore, and it is over eight months and no sign of its returning."

### CURE PERMANENT

"Your letter of the 19th inst. received, asking in regard to the cure of my baby some six years ago. Well, the disease has never returned to her head which at that time was a solid sore on top and down the back."

Mrs. Wm. RYER, Elk River, Minn. Feb. 25, 1903.

Sold throughout the world. Cuticura Remedies, 25c. (Infant of Chocolate Coated Pills, 25c. per box of 40). Ointment, 50c. Soap, 25c. Depot: London, 27 Charterhouse St.; Paris, 2 Rue de la Paix; Boston, 127 Columbus Ave.; Potter Drug & Chem. Corp., Sole Proprietors, 299 N. 2nd St., St. Louis, Mo.

will be devoted to the carrying out of a good program of addresses, and at night there will be a great camp-fire in the shadow of these historic trees.

At last the "local thunder shower" predicted for Santa Fe by the weather bureau has made its appearance. This morning's rain was a good one and will make up in some measure for the lateness in coming. The prediction for the past week has been local thunder showers for northern New Mexico, but until today the prophet's surmises proved to be untrue. However, now that the promised shower has been given, the weather man can rest a short while in peace. The effects of this rain are already apparent. The grass looks greener, the trees have taken new life and in many ways turned over new leaves. The sprinkling wagon may rest for a few hours and the farmers shake hands with themselves. And yet, with all these good things to come from this shower, there are kickers. Such inconsistency is absolutely absurd. There is one kick registered, however, which has foundation. This is on the lack of sidewalks in Santa Fe. Many places, much used by pedestrians, are without walks. These rains make such spots almost impassable and the sidewalks should be built. Possibly the authorities are like the Arkansaw Farmer in the matter of putting a new roof on his house. When it rained he "couldn't" and when the sun shone "it was not needed."

### COPPER COMPANY DONATES SITE FOR SCHOOL HOUSE.

The Burro Mountain Copper Company has signified its intention to donate a splendid school-house site to the newly created district of Leopold, in Grant County, comprising one acre of ground, conveniently situated. The directors will go right ahead with the erection of a public school building, that school may be opened in the new district the coming fall. L. J. Carter, George Sublett and Lynn D. Allen comprise the board, and their selection is proving highly satisfactory to the district. The district starts in with a school census of 166, a live board of directors, and a donated site for their public school building. The success of the district is already assured.

A "WANT AD" will bring results.

### INTERESTING FEATURES FOR IRRIGATION CONGRESS.

The thirteenth annual session of the National Irrigation Congress has been called to meet in Portland, Oregon, August 21, 22, 23 and 24, 1905. This meeting will be of great interest, especially to the states of the semi-arid section, inasmuch as the Government has at great expense placed on exhibit on the Lewis and Clark Exposition grounds a complete demonstration of the operation of the reclamation act. The officials of the Department of the Interior have been instructed to furnish the delegates with daily lectures and to hold themselves at all times ready to give information that will thoroughly explain the workings of the board of engineers having in charge the vast public work, which has been established under the reclamation law. Accompanying the call is a letter from Chief Engineer Newell, covering the main points, and which gives information of interest to the people of all the states.

### LAS VEGAS WOMAN IS BRUTALLY BEATEN.

During the absence of her husband, Mrs. Donaciano Trujillo, of Las Vegas, was brutally beaten by Querino Montoya, receiving serious bruises and gashes at his hands. The affair was the result of bad blood between the two families. Montoya has left for parts unknown, and the husband of the injured woman is looking for him with "blood in his eye."

### NINETY-ONE INDICTMENTS DURING PAST YEAR.

During the year ended June 30, 1905, the grand jurors of San Miguel County returned ninety-one indictments and thirty-six persons were convicted and sentenced to long and short terms in the penitentiary by the court. Within the year 168 civil cases were docketed for trial and judgments were rendered in ninety-three cases.

### U. S. WEATHER BUREAU NOTES

Forecast for New Mexico: Partly cloudy tonight and Saturday with local thunder showers; warmer Saturday.

For Colorado: Partly cloudy tonight and Saturday with local thunder showers warmer in east and south portions Saturday.

Yesterday the thermometer registered as follows: Maximum temperature, 74 degrees, at 11:30 a. m.; minimum, 55 degrees, at 2:15 a. m. The mean temperature for the 24 hours was 66 degrees. Relative humidity, 70 per cent. Precipitation, 0.04 of an inch. Temperature at 6:00 a. m. today, 55 degrees.

### POPULAR GAMES

## NEW MEXICO HAPPENINGS

Andrew Crozier and Miss Agnes Marie Harris were married at Lincoln this week. They live at Nogal.

Mrs. E. Fisher was thrown from a broncho at Capitan this week and sustained serious injuries to her back.

W. A. Buddecke has been elected as secretary of the Northern New Mexico Fair, to be held in Las Vegas this fall.

The African Methodist Episcopal Church will give an old-fashioned barbecue in Las Vegas on Friday, August 4th.

The Silver City lodge of Elks will send a big delegation to the annual reunion of the order at Denver next year.

Tracklaying is going forward rapidly on the Silver City and Pinos Altos Railroad, the steel having at last arrived.

A marriage license has been issued in San Miguel County to Victoriano Garcia and Miss Adela Madrid, of El Aguila.

The San Miguel National Bank of Las Vegas has sold to Kansas City buyers 3,500 sheep at the uniform price of 4 1/4 cents.

The new pump at the asylum for the insane at Las Vegas is developing a flow of 2,400 gallons per hour from the new well there.

G. M. Hughes, of Bonito, is this week cutting his crop of hullless and beardless barley. It is three feet high and is carrying heavy heads.

Grant County stockmen are holding their cattle until fall, believing that they can get a better price then. The stock is in good condition and the range is excellent.

A plague of flying ants has struck Silver City and the pestiferous little insects have made themselves very conspicuous and very annoying by their presence.

Doc Pitts, who has been in the Lincoln County jail for over a week, has been adjudged to be of unsound mind and was this week taken to the asylum for the insane at Las Vegas. He was examined at Carrizozo by Judge Edward A. Mann.

Work on the deep well which is being drilled by the Eastern Railway of New Mexico is progressing satisfactorily. This well will be sunk to a depth of 1,500 feet unless a strong flow of water is struck at a less distance. This well is situated at Willard, in the Estancia Valley.

C. Hightower this week threshed a small patch of winter wheat on his place in the Tisons, in Lincoln County, which yielded about thirty bushels to the acre. He also has a field of fine corn, which is now in tassel and which gives promise of a good crop. Both the wheat and the corn have been grown without irrigation.

Grant County has twenty-three school districts, twenty-three schools and thirty teachers. The total enrollment for the year just passed was 1,560, and the average daily attendance was \$37. The total census of school children was 3,564. The receipts for school purposes for the year were approximately \$17,000, and the expenditure about \$14,000. County Superintendent A. N. White is now preparing his annual report, to be used by the governor in his annual report to the secretary of the interior.

## HOTEL ARRIVALS.

Palace: J. P. McNulty, Cerrillos; W. Lindgren, L. V. Gratton, Pecos; Melton Stern, New York City; Ernest Meyers, George E. Brewer, Albuquerque.

Claire: H. Essinger, Las Vegas; Mrs. A. V. Skinner and children, Mrs. Claude Temple, Louis Trauer, Louis Barth, Albuquerque; Venceslao Jaramillo, El Rito; J. B. Manby, Trinidad; George E. Bradley, St. Louis.

### THE SLEEPING NAIAD

By CHARLES S. REID  
(Copyright, 1905, by Daily Story Pub. Co.)

The conception was perfect, but where throughout all Europe was to be found the model? In his thoughts, Margolius carefully went over the list of models that he knew. One or two came nearly to the standard he had set for this piece, but not quite. He traveled, visiting the principal cities of France, Italy and Germany; then returned to London. Still the model of his conception had not been found. Once more he sought throughout London, but without success. From those who might have been hired for money, Margolius turned to those in the higher walks of life. There was a subtle power he had always held in reserve for some situation in which every other expedient had failed. Should that power now be resorted to?

Margolius sat one night in a box at Her Majesty's Theater and surveyed the audience with his eyes, from pit to roof and back again. Several times his gaze had lingered on some especially beautiful woman to study minutely the nature of her charm, only to be withdrawn at last unsatisfied. The boxes had been left unoccupied for there sat the nobility. But when the vast audience from the pit to the roof had been passed in review and found to yield not the thing sought for, the vision of the artist began boldly to sweep the boxes. One after another these glided under his gaze, until an occupant of one of them arrested the attention of Margolius with an electric-like suddenness. The Countess Alfretti who, with her husband was residing in London for the season, sat in a box opposite that which was occupied by the artist; and hers were the face and form that had made such a sudden appeal to his sense of perfection. The model he had sought was before him—but she was the Countess Alfretti. However, a smile of triumph stole over the features of Margolius and he determined that the Countess should serve him.

The fame of Margolius gave him entrance to the best society of London, and it was not long before he met the Countess Alfretti and made the trial of his subtle power. She yielded quickly—none had ever withstood it. He found that he swayed her as the breeze might sway some tender flower. In his presence she moved as in a dream, but there was an ecstasy in it that was like the stimulus of old wine to her.

One day, as the Countess was driving past the studio of Margolius, she chanced to glance upward at an open window. The artist was sitting there—and their eyes met. Instantly the lady yielded to the hypnotic influence that the man had gained over her. Margolius had invited her to visit his studio; but, though she had promised him to do so, when out of his presence she shuddered at the thought of fulfilling this promise. Out of his presence, she feared the artist; in his

Margolius spoke her name and she turned quickly toward him. presence, a strange, unaccountable, dreamy kind of happiness possessed her.

On this occasion, when their eyes met, she descended immediately from her carriage and entered the building. Margolius met her below and conducted her through each department of his rooms with all the affability of manner of which he was capable, and finally escorted her out again, with a profusion of thanks and appreciation expressed in his parting words. He followed her a moment with his eyes, then turned back into the house, with an expression of deep satisfaction expressed in his face.

Margolius waited patiently a few days. But at last, one afternoon, late, he passed the house which was occupied by Alfretti and his wife. The Countess was standing over some pot flowers near the street. Margolius spoke her name, and she turned quickly toward him. The strange power of his eyes at once compelled her, and she became the automaton of his will. But he had hardly stayed his footsteps and continued his way almost immediately.

### POPULAR GAMES

Of all kinds at "The Club," where you will always be treated fairly. Best brands of cigars and refreshments served at the gaming tables.

Countess Alfretti was left dreaming; in an hour, when it became quite dark, some mysterious voice commanded her to steal from the house and go to the studio of Margolius. She crept away, and so stealthily had she been in all her movements, that none saw her.

When it was discovered that the Countess Alfretti had disappeared, a great cry was raised and all London was aroused. Alfretti, who had just gone to Florence on some business, was summoned home again, but he did not reach London until the afternoon following the Countess' disappearance. Every department of the police regulations was notified, and a careful search throughout the city was instituted. But all to no avail. Friends came to offer condolence to Alfretti; among them, Margolius.

Put after this, for long days and nights, Margolius was not seen among

An intense whiteness settled upon the count's face.

his friends. Servants of the house in which he resided gave it out that the artist was engaged upon a great picture and was not to be disturbed under any circumstances.

The search for the missing Countess was continued assiduously, and was extended to other cities. Every plausible suggestion was acted upon, but all resulted fruitlessly—not a clew had been found by which to trace her first step beyond the house.

In the meantime Margolius was painting the Sleeping Naiad. With nerves strung to the highest pitch, and almost without eating or sleeping, he worked like some demon that was striving against Time for the possession of the World.

At last it was finished; and a long, deep-drawn sigh escaped the throat of the artist, as his practiced eye followed the detail in search of some slight imperfection and found none. How long had it been? How many hours? How many days? He had kept no record of time. Nothing had come up to him from the streets of London since the first news of the disappearance of the Countess. In reality almost a week had passed. The Countess had been given up as dead, and Alfretti was plunged into the depths of grief, while his friends and the friends of the Countess were wrapped in gloom out of sympathy and sorrow.

But on the evening of the fifth day, just after nightfall, a figure crept into the house of Alfretti and threw itself into the Count's arms. The Countess had returned, and new life surged through Alfretti's veins. The beautiful woman had wrapped a large shawl round her head and shoulders, and she was still dazed for some moments after her return to her husband's arms.

"Oh, tell me what has happened?" she exclaimed. "I found myself in the street, alone, and in the darkness—the street lights were so dim. And you—you started for Florence this afternoon. But you did not go?"

Alfretti knew by these last words that her mind was a blank since the time of her disappearance. She had been the victim of some mental aberration and had been wandering—God knew where. Quickly he fabricated some story explaining everything, and set her mind at rest. Then he secretly instructed the servants and requested all her friends to refrain from mentioning the strange disappearance in her presence.

When the Sleeping Naiad of Margolius was hung, critical London paused in wonder-struck admiration.

One day, at an early hour, before the salon had received its daily crush of visitors, Margolius paused before his own picture. Hearing a footstep behind him he turned and saw Alfretti approaching.

"It is my first view," said the latter, turning his eyes toward the painting.

The next instant an intense whiteness settled upon the Count's face, his lips quivered and a labored breath surged up from his breast. His eyes sought those of Margolius, and the hypnotic fire that leaped to meet his gaze told the story of the Countess' trance.

## MAXWELL GRANT

FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$25 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

### GOLD MINES.

On this grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabeth town and Bandy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. Government laws.

Near Raton, N. M., on this grant, are located the coal mines of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

For particulars and advertising matter apply to

**New Mexico's Medals.**

New Mexico and its exhibitors at the Louisiana Purchase Exposition were awarded one grand prize, nineteen gold medals, twenty-five silver medals and forty-three bronze medals. These medals are distributed well over the Territory, showing the general superiority of New Mexico products.

The Grand Prize was awarded to the Territory on its exhibit of archaeology, consisting of aboriginal blankets, basketry and pottery.

Among the gold medals awarded the Territory secured one on the collective exhibit of fruit and one on the mineral resources of the Territory. The New Mexico World's Fair Commission received a gold medal for its exhibit of coal and ores. The John Becker Company of Belen, one for its exhibit of wheat. The New Mexico College of Agriculture and Mechanic Arts, "Students' Work."

Among the silver medals the following were awarded: H. Martin, Rodey, wool; New Mexico State Commission, collective educational exhibit; O. C. Snow, Mesilla Park, alfalfa; Alelian Growers' Association, Roswell, cantaloupes.

Besides a number of others, the following bronze medals were awarded: A. B. Renahan, Santa Fe, mineral paint; New Mexico Fuel and Iron Company, Santa Fe, bituminous coal, and Santa Fe Board of Education.

**Articles of Incorporation.**

The following articles of incorporation have been filed in the office of J. W. Reynolds, secretary of the Territory:

Union Gas and Traction Company. The incorporators are C. H. Pattison, N. D. Pattison, C. T. Luthy, Kansas City, Missouri; W. L. Pattison, Gardner, Kansas; J. F. Luthy, Albuquerque. The objects for which the company was incorporated are: To buy, sell, own, construct, and operate, gas, oil, electric, and water works; to buy, sell, construct, own and operate systems of pipe lines, wires and other available means for transporting, distributing and delivering such gas, oil, electricity, and water; to buy, own, sell, lease, develop and operate gas, oil, coal, clay, sand, cement, ore-bearing, timber, grazing and agricultural leases, grants, rights, lands and properties; to rent, buy, sell, own, run and operate tools, machinery and other appliances for the operation of said properties; to buy, sell, lease, construct, own and operate gas, steam, water, electric, and other smelting, refining, metal extracting, cement, brick, glass, salt and other mineral exploiting plants; to buy, sell, lease, construct and operate steam, cable, electric and other urban, inter-urban, and rural street cars and traction lines; to do a general bonding business. The capital stock of the company is \$500,000 divided into 5,000 shares at \$100 each. Two thousand of said shares at the par value of \$100 are preferred stock and 3,000 shares at par value are common stock. The term of existence of said company is 50 years, and the principal place of business is at Albuquerque with J. F. Luthy named as agent. The number of directors shall be five and those who will manage the business of the company for the first three months are the incorporators.

**WILL FIGHT TONIGHT.**

Jimmy Britt and Kid Sullivan to Meet in San Francisco—Both Men Reported in Prime Condition.

San Francisco, Cal., July 21.—The date of the fight between "Jimmy" Britt and "Kid" Sullivan has arrived, but there appears to be little or no increase of interest in the affair. Nevertheless, the Hays Valley Club, under whose auspices the mill is to take place, expects a fair-sized crowd on hand tonight, basing their expectations on the fact that Britt has the best of followers among the sporting fraternity, who never fail to turn out to see him fight. The lack of interest in the bout is due chiefly to the belief that the lad from the national capital is no match for Britt, and that the fight will consequently be a one-sided affair. The fight followers were desirous of seeing Britt and "Battling" Nelson in the ring again, and are disappointed that Britt should side-step a match with the Dane and take on Sullivan, who is regarded as an easy mark.

Sullivan is an unknown quantity here, but some of the critics, who have watched him at work, think well of him and the prediction is made in some quarters that he will give the San Francisco idol a tussle when they come together tonight. Sullivan is a slam-bang fighter of the rough-and-ready type. His chief defect is his lack of experience. His brief record, however, is a creditable one. Although he has been in the fighting game only a few years, he has held his own with three of the best men of his division and disposed of several lesser ones. His fifteen-round draw with Eddie Hanlon was unquestionably a good performance, especially as it is held that Hanlon was fortunate to get the decision of a draw. Sullivan followed this with a ten-round draw with "Young Corbett." In this battle Sullivan's manager insisted on a draw if the men were on their feet at the fin-
