PREPARING FOR WAR!

President McKinley Expresses His Views to a Senator.

"Would be Lax in My Duty Did I
Not Prepare for the Future."

Does Not Think War Inevitable and Will
Not Accelerate It.

DIVERS DOING GOOD WORK.

Chicago, Feb. 24.—The Tribune prints the following special from Washington: "I do not propose to do anything at all to accelerate war with Spain. I do not think war is necessary or inevitable. I would be lax in my duty, however, if I did not prepare for the future."

To a senator who called upon him, President McKinley, with the utmost frankness, uttered the above words. There is no doubt but that the government is preparing for war with Spain.

The president and cabinet suite in the belief still, in spite of all the evidence to the contrary, that the explosion of the Maine was the result of an unfortunate accident, but recognize the fact that the country may prove true almost any hour and that if it is shown even inferentially that Spain had a hand in the catastrophe the only thing to do is to seize Cuba by force of arms.

DUE TO OUTSIDE FORCE.

As the investigation progresses this becomes more apparent.

Washington, Feb. 24.—The Evening Star has received the following cable gram from Charles Pepper, its staff correspondent in Cuba:

At this writing divers are developing important results. From an examination of the interior wreckage they secured evidence which seems conclusive that the explosion came from underneath the ship. Some smaller magazines may have exploded. The Maine 10-inch magazine did not explode. The condition of the interior of the ship shows a further probability of the wreck having been due to outside force.

The further the investigation progresses the more untenable becomes the theory which the Spanish government adduced to show an accidental cause. It is evident that the Spanish case will be based on the claim that a fire preceded the explosion. Captain Sampson and his colleagues of the naval board may have outside evidence offered regarding the torpedo diver engaged in the work of getting the bodies out from under the hatch: "God be merciful to the men who blew those poor fellows to eternity, the United States should not."

This was a fore long order prohibiting officers from taking. This was evidently thought the explosion was not an accident. He had an expert's capacity and opportunity for judging.

The Havana public is not permitted to know the intensity of public sentiment in the United States. Only meagre details are permitted to be known of what happens at Washington Congress is watched with excessive anxiety by palace officials, but the populace knows nothing what is liable to happen. Evidence of ill feeling toward the American public and anxiety over the Maine disaster do not lessen.

The Maine inquiry dwells the interest in Cuban politics. But recent developments carry an official confession of the failure of autonomy.

SITUATION IN CUBA.

Public Opinion Should Be Suspended Until
Official Statement Is Received.

Washington, Feb. 24.—The mystery surrounding the blowing up of the Maine remains as dense as on the day following the explosion. That is the opinion of the administration, at least. If there was a development of value at Havana yesterday, or if anything was discovered tending to throw light upon the nature and cause of the explosion, none of these facts have as yet been reported either to the navy or state department.

Naval officials have given no thought to the relief of Admiral Sigsbee as commander in chief of the naval forces on the north Atlantic station. They do not believe the admiral's health is seriously impaired, and no movement will be made towards his relief, unless the suggestion comes first from himself. No orders have been issued yet for any vessel to go to Havana to replace the Maine. The Montgomery has been ordered from Tampa to Key West, but her orders do not direct her to proceed further.

Secretary Long to-day, in answer to inquiries whether the department was suppressing information concerning the disaster of the Maine, wrote the following note: "No telegram has been received from either Admiral Sigsbee or Captain Sampson or Sigsbee since yesterday afternoon. I have received no information with regard to the disaster that has not already been made public. The department is awaiting the result of the inquiry and public opinion should be suspended until some official information is received."

Reports from Havana have not changed in any degree the view of the high

officials as to the probable cause of the disaster to the Maine. It can be stated on the highest authority that absolutely nothing of a disquieting nature has been received at the White House nor is important news of any character expected until the court of inquiry has completed the investigation and submitted a report. Nothing has been withheld of the least public interest and this policy will be continued until the whole truth is brought to light.

TELEGRAM FROM SIGSBEE.

Latest News From Havana—Bodies of Jenkins and Merritt Not Found.

Washington, Feb. 24.—Capt. Sigsbee telegraphed from Havana to-day as follows: "The wrecking tug, Right Arm, arrived yesterday, and begins work to-day. Much encumbering metal must be blasted away in detail. The navy divers down after seven days, forward four days. The bodies of Jenkins and Merritt are not found. Two unidentified bodies of the crew were found yesterday. After compartment filled with detached, broken and buoyant furniture and fittings. The Spanish authorities continue offers of assistance and care for the wounded and dead. Everything that goes from the wreck to the United States should be disinfected. The wrecking company should provide for this. The surgeon of the Maine after consulting with others recommended that all bedding and clothing should be abandoned. They might go to the acclimated poor. Unless fittings and equipments might be towed to sea and thrown overboard. Will take all immediate responsibility, but invite department's wishes. Shall old metal of superstructure and like be saved? Friends of the dead should understand that we are in the tropics. Chaplain Chadwick is charged with all matters relative to the dead. His conduct is beyond praise. Don't know what reports are being printed, but the intensely active representatives of the press here have been very considerate to me and my position."

Word reaches this office, this afternoon, that Capt. Chalk, residing in north Albuquerque, was revealing in the smiles of twins—a boy and girl. They arrived the other evening, and all parties concerned in the happy event are reported doing well.

A nine-pound daughter arrived at the home of Mr. and Mrs. Ed. Freeman yesterday afternoon. The attending physician reports mother and child doing nicely, but states that it will be several days before "Cow-Puncher Daddy" can report for duty.

Christian Endeavor Social.
To-morrow evening the Christian Endeavor society of the Congregational church will give a social in the church parlors. A unique program will be rendered, and every one is assured a pleasant time. Everything free. Come and bring a friend. Strangers especially invited.

Robt. L. Douthitt, manager of the Washington mine, in the Cochiti district, came in from Bland last night, registered at Sturges' European, and this morning made a pleasant call at this office. Mr. Douthitt is full of good news about the Cochiti district, but, owing to certain circumstances, he did not care to submit himself to an interview. He did state that the McPherson-McFarlan mill, near Bland, has started up, and that the Albemarle people are getting ready for big things the coming spring and summer. Mr. Douthitt is here to consult with the local owners of the Washington mine. He expects to return to Bland this evening.

We want all the good things we can get. We have a well equipped shop, a full force of the very best workmen, a fine tonorial and bath trade, but we want more customers. Give us a trial, and you will find us more than worthy of your patronage. Hahn & Co., N. T. Armijo building.

Paul Kempenich, a University student, is minus his riding pony. The animal broke his leg last Monday, and a shot from a pistol put the pony out of his misery.

Mrs. Oaks has gone to Chicago and New York, and when she returns her beautiful parlors will be filled with all the lovely millinery novelties for the spring of 1898.

We heat our water with Cerrillos coal. It gets red hot and we are always ready to give you the most comfortable bath in the city. Hahn & Co., 207 Railroad avenue.

We offer \$25 reward to any house that will touch our samples for custom suits or our custom suits for finish, fit and quality. B. L. Washburn & Co.

You are always sure of finding some rare bargains at F. F. Trotter's grocery store and it will pay you to trade there.

Mrs. J. W. Anderson entertained the Ladies' Aid Society of the Lead Avenue Methodist church this afternoon.

California and native fruits can be found in abundance at F. F. Trotter's emporium on Second street.

Mr. and Mrs. C. O. Cushman are moving into a cozy cottage on South Arno street, near Railroad avenue.

Deviated cheese at the SAN JOSE MARKET.

MARKET DEMORALIZED!

Increasing Gravity of the Reports From Havana the Cause.

Tendency was Violently Downward
and Bulls are in Despair.

Sharp Break in New York Stocks Re-
flected in Chicago.

PRICE OF WHEAT DROPPED.

New York, Feb. 24.—Offerings of every stock on the opening on the "Change" were of several thousand shares and quotations were almost lost sight of. Running sales in Manhattan were made all the way from 1.05% down to par. Burlington dropped nearly five points. Declines over two points in opening sales were the rule. The tendency continued downward violently in the first ten minutes, the average fall increasing to over 3 points. The Metropolitan street railway dropped 12 points. In half an hour prices were steady. The market was exceedingly feverish at the rise, and before another hour prices were declining again.

IN CHICAGO TOO.
Chicago, Feb. 24.—Both grain and provision and stock markets were very weak to-day, reflecting the sharp break of stocks in New York, which had a decidedly demoralizing effect on the bulls. The increasing gravity of the reports from Havana, which caused the Wall street decline, was responsible in the main for quite a few liquidations of long wheat. The market closed at declines of 2½c. for May and 1½c. for July wheat.

Bank Receiver Appointed.
Baltimore, Feb. 24.—Judge Sharp to-day appointed Simon P. Schott receiver for the Bank of South Baltimore.

The assets are estimated at \$120,000; liabilities, \$170,000. There is a cash shortage of \$4,700, and an obvious deficit of \$9,700, produced by the shrinkage in values. A larger portion of the deposits, amounting to \$130,000, are by poor persons.

Mrs. Whitney Very Low.
Albany, N. Y., Feb. 24.—Mrs. Wm. C. Whitney is in a critical condition as the result of an accident on Monday. The blow on her head paralyzed the body and motion has not yet been entirely recovered.

Chicago Stock Market.
Chicago, Feb. 25.—Cattle—Receipts, 10,000. Market steady, others weak. Beef, \$3.80@3.85; cows and heifers, \$2.10@4.35; stockers and feeders, \$3.40@4.40; Texas steers, \$3.50@4.30. Sheep—Receipts, 15,000. Market steady. Native sheep, \$3.10@4.50; westerns, \$3.60@4.60; lambs, \$4.25@5.55.

Embarked \$100,000.
Chicago, Feb. 24.—William O. Moody, formerly bookkeeper and cashier for the banking firm of Dunlop Bros., pleaded guilty to-day to the embezzlement of \$25,000 of the funds of the Oak Park Building and Loan association, and \$2,747 from the Dunlop Bros. He was sentenced to an indeterminate term in the penitentiary. Moody was prominent in church and social circles.

Adjutant-General Retires.
Washington, Feb. 24.—General Samuel Brick, adjutant-general of the army, will be retired to-morrow on account of age. It is probable that his successor will be Col. Henry T. Corwin, who is in direct line for promotion.

Sheriff Martin's Defense.
Wilkesbarre, Pa., Feb. 24.—The defense in Sheriff Martin's case introduced a lot of witnesses to-day to prove the riotous conduct of the strikers in the region prior to the shooting.

The Liberty Party.
Columbus, Ohio, Feb. 24.—The national conference of the leaders of the liberty party to-day decided to make the Pittsburgh platform their annunciation of political principles.

Committed Suicide.
Washington, Feb. 24.—Passed Assistant Surgeon T. B. Bailey, U. S. N., was found dead this morning in the Albany hotel. He committed suicide by taking cocaine.

The Monitor Terror.
Norfolk, Va., Feb. 24.—The monitor Terror left Norfolk at 10:15 a. m. under sealed orders, but will remain at Hampton Roads a short time.

Chicago Grain Market.
Chicago, Feb. 24.—Wheat—February, \$1.03½; May, \$1.09½. Corn—February, 28½c; May, 29½c. Oats—February, 25½c; May, 26½c.

French Financier Dead.
Paris, Feb. 24.—Simon Lazard, the founder of the banking firm of Lazard-Freres, is dead.

Money Market.
New York, Feb. 24.—Money on call nominally, 1½c per cent. Prime mortgage, 3c.

Silver and Lead.
New York, Feb. 24.—Silver, 55½c; Lead, \$3.60.

Copper.
New York, Feb. 24.—Copper, 10½c.

HE WAS DOWN IN CUBA.

Ben. Bothe Was at Barracoa Twelve Years Ago—His Story.

"About twelve years ago," said Ben. Bothe, the junior member of the firm of Quickel & Bothe, "I was in Cuban waters off the coast of Barracoa, and know considerable about that country, and considering the oppression so prevalent in the island on account of the cruel rule of Spain, the insurgents, who are fighting for liberty and freedom from the despotic rule, should have the aid and sympathy of all civilized countries."

Mr. Bothe was a particular friend of

Captain Anderson, of the two-masted fruit schooner, George B. Douglass, and once upon a time, about twelve years ago, he took a trip with the captain on one of his voyages between New York and Barracoa, Cuba.

"Six months afterward," said Mr. Bothe, "the George B. Douglass was employed in the trade between Mobile, Alabama, and Honduras, and the schooner, with the captain and all on board, sunk in the Gulf of Mexico."

If any one of our readers wish to hear true narratives about the hardships and trials of the poor Cubans, at the hands of a cruel, relentless foe, they are at liberty to call on Mr. Bothe for facts.

WITCH DEATHS INDICTED.

Bills Returned Against Five Zuni Indians by Grand Jury at Los Lunas.

The grand jury for Valencia county completed their labors yesterday and returned four true bills. Among these was the case of the territory vs. Nyuche, Hatotai, Natchai, Naurmasi and Koesai, the five Zuni Indians charged with beating and maiming an old woman of the Zuni pueblo by the name of Maucorita during the great witch excitement which prevailed in the pueblo last spring. Maucorita was suspected of witchery and the five prisoners took it upon themselves to chastise her. They will have their trial at the next term of court. In the meantime they will be confined in the jail at Los Lunas.

The other bills were for cattle and sheep stealing but as the parties have not been apprehended yet, their names will not be published.

NEW INDUSTRY IN SHOES.

Robert Working the Shoe Market Very Successfully.

One of our citizens, a professional man, tells THE CITIZEN that he ought to advertise gratuitously what appears to be a new business in town, conducted with some system. He says that a very good looking, bright and attractive boy, apparently about 30 years of age, came into his office and asked if he could not get an old pair of shoes, and said that a gentleman had kindly given him a pair, which was too small and caused him most dreadful pain. Inspection of his feet seemed to corroborate this story, and our informant, amused and led away by the manner and appearance of the boy, told him to come to his (the informant's) house a little before 6 o'clock, and he would try to find some shoes for him. Moreover, he gave him a car ticket, so that he would not be compelled to walk on his suffering and crippled feet.

The boy turned up on time at the house, but encountered another member of the family, who recognized him, as the person to whom she had the day before given a pair of shoes belonging to the easily-imposed-upon philanthropist, which had evidently been disposed of in some way. It was thought that the unfortunate boy was not entitled to more than one pair of shoes from one house, and he realized more that the world was cold and cruel. But there are other houses and other "suckers" and other shoes in town, and by this time the young man is probably prepared to start a second-hand shoe store.

Card of Thanks.

The members of the Non-Sectarian Benevolent association are very grateful to Mr. Harris for his donation of \$10, published in THE CITIZEN.

The association has had many demands upon it this winter, and sincerely appreciates his kindly act.

Mrs. W. W. McLELLAN, President.

W. C. T. U.

The Woman's Christian Temperance union will meet at the Kindergarten rooms, Friday, Feb. 25, at 3 p. m. It is earnestly desired that all members be present, as arrangements are to be perfected for a memorial service for Frances E. Willard.

RUTH J. STAMM, Secretary.

The Woman's Relief Corps dispenses much charity in the course of a year, and are seldom before the position. Therefore, let our citizens liberally patronize the Capt. Jack Crawford entertainment at the opera house, on March 2, under the auspices of the Woman's Relief Corps. Tickets are now on sale.

There will be prize bowling Friday evening, Feb. 25, at the Albuquerque Bowling parlors, North First street and Copper avenue.

C. T. Springer left yesterday morning for Tularosa, one of the thriving towns on the El Paso & Northeastern railroad.

NATIONAL CONGRESS!

Senator Allen Withdraws His Cuban Inquiry Resolution.

Supreme Court Begins Hearing in
the Joint Traffic Case.

United States Asks to Nullify Agree-
ment of Traffic Association.

MISS WILLARD HONORED.

Washington, Feb. 24.—In the senate the chaplain prayed that the honor and dignity and right of our country might be upheld.

The president laid before the senate a resolution by Allen, of Nebraska, providing for the appointment of five senators to make inquiry into the condition of affairs in Cuba with the view to bringing the war to a peaceful end. Allen said that being satisfied that from the vote on his amendment yesterday that the fate of this resolution was quite well sealed he would withdraw it from further consideration.

IN THE HOUSE.
Washington, Feb. 24.—The sundry civil appropriation bill was taken up by the house again to-day. Sayers offered an amendment to increase the epidemic fund by \$200,000, but it was lost.

Increase the Artillery.

Washington, Feb. 24.—The increase of the artillery force of the country by two regiments, as provided in the senate bill, was agreed on by a subcommittee of the house military affairs committee, to-day.

The Last Rites Performed.

Kansas City, Mo., Feb. 24.—The last rites over the body of Frances E. Willard, president of the Woman's Christian Temperance Union, were performed here to-day. The city was in mourning, schools and business houses being closed and flags put at half mast.

Kansas City Market.

Kansas City, Feb. 24.—Cattle—Receipts, 4,000; market, active, steady. Texas steers, \$3.35@4.50; Texas cows, \$2.00@3.75; native steers, \$3.25@4.25; native cows and heifers, \$2.25@4.25; stockers and feeders, \$3.00@5.00; bulls, \$2.70@4.70.

Sheep—Receipts, 4,000; market firm. Lambs, \$4.50@5.50; muttons, \$3.00@4.75.

Joint Traffic Case.

Washington, Feb. 24.—The supreme court to-day began a hearing in the joint traffic case in which the United States seeks to have an agreement on the part of the thirty-one leading railroads of the country constituting the traffic association, as formed in 1895, declared null and void and to have the association enjoined from operating under this agreement. Solicitor General Richards opened the case.

He depended largely upon a decision of the supreme court in the trans-Missouri freight association case as a precedent for this case, arguing that there was practically no difference between the agreement in that case and the agreement of roads which were parties to the joint traffic association.

Capt. James Smith and Leonard Winhofer, two of the principal owners of the Sulphur hot springs, are in the city. They were seen this morning and asked in regard to the sale of the resort to M. S. Otero. They stated that they had heard that C. W. Kennedy and W. M. Weaver, who are also interested in the springs, had sold their interests and were expected to attach their signatures as soon as possible to the transfer papers. Messrs. Kennedy and Weaver are expected to arrive from the west to-night. In any event Smith and Winhofer are here to see them, and it is most likely that they will join in the sale of the property. It is learned, indirectly, that the purchase price will not be more than \$100,000.

On Feb. 25, 1897, one year ago to-morrow, Mrs. Ma. Antonia Lobato de Barcia, aged 80 years, was burned to death at the home of her son-in-law, W. H. H. Metzgar, at Pajarito, a few miles south of this city. Mr. Metzgar sends word to THE CITIZEN that the mass anniversary of her death will be held at the Pajarito Catholic church on Saturday morning, at 9 o'clock, and all relatives and friends of the deceased are invited to attend the services.

President Ives, of the Baltimore, Cedar Rapids & Northern railroad, was in the city yesterday, leaving last night for the Pacific coast.

John Becker and wife, who were here yesterday, returned to their Belen home this morning.

THE increasing dependence of Great Britain upon America is shown in imports of wheat from the United States, which in 1917 amounted to 43 per cent of the total, against 40 per cent in 1916 and 35 per cent in 1915. Exports of corn to the United Kingdom amounted to 74 per cent, against 53 per cent in 1916 and 40 per cent in 1915.

THE New Mexican positively announces that Thos. A. Edison and an English syndicate have closed the deal for the Ortiz grant, in south Santa Fe county, the price agreed upon being \$1,500,000.

Edison intends building a plant that will handle 25,000 tons of gold placer dirt per day. He will make headquarters at Santa Fe as soon as the plant is completed.

THE newspapers of this country are full of comparisons of the naval strength of the United States and Spain, and it is interesting to observe the vast differences in the reports. One paper shows conclusively that Spain is not "in it" with us, and that we can blow her out of existence with a broadside, and yet another will say that the destruction of our entire seaboard is the least we can expect in the event of war. Which is right? Look at the relative strength of the two countries published elsewhere.

THE Phoenix Herald of Monday, February 21, says: "A large number of kids of the local lodge will leave this evening for Silver City, N. M., to install a lodge of kids at that place. The following are among the number who will attend: S. J. Nicholson, Charles T. McCall, E. Walden, A. L. Long, William Mayers, E. Fender, W. A. Watts, Jacob Miller, Edward Ruppert, Victor Brown, Edward Finley and E. W. Sheridan."

The lodge was undoubtedly installed last night, and several New Mexico kids, from outside towns, were in attendance.

GREAT interest is manifested throughout the country on the second National Congress of Mothers, which is to assemble in Washington, May 2 to 7 inclusive, this year. The growing appreciation of the gravity of the responsibility and of the problems presented in the relation of parent to child make certain a large attendance and discussions that should

have a great power for good. The session is to last for six days, and though the gathering is known as a congress of mothers the parental problem is to be considered from the standpoint of the father as well as of the mother. Women's clubs throughout the land are taking a keen concern in the congress.

Doing Good Work.
A recent issue of the Chicago Times Herald makes the following complimentary mention of Judge David W. McBurney, assistant United States attorney, who has been taking testimony at Silver City in Indian depredations claims for the past two weeks.

"David W. McBurney has been appointed United States special attorney of the court of claims bureau of Indian depredations. He left for his new post of duty at Silver City, N. M., last evening."

"Mr. McBurney has been an attorney in Chicago for years and always a staunch republican. In the senatorial campaign of Springfield, last year, he was one of Senator Mason's most faithful lieutenants. Mr. Mason did not forget the good services which Mr. McBurney rendered."

"The appointment is one of many friends. Twelve years ago he was prominent in the Illinois National Guard as an officer of Company A, First regiment. He is universally esteemed by bench and bar."

Judge McBurney has won many friends in Silver City during his short stay, by his fairness and ability, as well as by his excellent social qualities.

A GOOD LETTER
From the Clerk of the Circuit Court, Fernandina, Fla., Feb. 28, 1918.

Mr. George—Please send a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable remedy in the house. I have given it a fair test, and consider it one of the very best remedies for cough that I have ever found. One dose has always been sufficient, although I use it freely. Any mother with children should have a ready supply of this medicine. I can conscientiously recommend it for cough and colds in children. Yours respectfully,
Geo. E. Wolfe.

Sold by all druggists.

The Coming Woman.
Who goes to the club while her husband tends the baby, as well as the good old-fashioned woman who looks after her home, will both be delighted to get down in health. They will be troubled with loss of appetite, headaches, sleeplessness, fainting or dizzy spells. The most wonderful remedy for these women is Kie-rie Bitters. Thousands of sufferers from lame back and weak kidneys rise up and call it blessed. It is the medicine for women. Female complaints and nervous troubles of all kinds are soon relieved by the use of Kie-rie Bitters. Delicate women should keep this remedy on hand to build up the system. Only 25 cents per bottle. For sale by J. H. O'Reilly & Co.

Kie-rie Bitters.

The Kie-rie Club gave a Martha Washington Entertainment at the residence of Mrs. Alba Butler, on north Fifth street, last evening, which was a social success in every sense of the term. Seventy guests surrounded the well filled tables during the evening, while the parlors were filled with a genial throng indulging in songs, recitations and readings. The stars of the evening were Miss Mattie Tway and Miss Lella Buchanan, whose recitations would have done credit to professionals. Many of the ladies were dressed in continental costume, Mrs. A. Harsch as Mary Washington being especially notable as a correct representation of the colonial dame.

Mrs. Butler is one of the best entertainers in the city, whose guests can never fail to enjoy themselves.

Mr. Ward L. Smith, of Fredericksburg, was troubled with chronic diarrhea for over thirty years. He had become fully satisfied that it was only a question of a short time when he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and its continued use cured him. For sale by all druggists.

The General Body party of Salvationists passed through the city last night on their way to Los Angeles. The party was composed of General William Booth, commander-in-chief; Counsel Booth, Tucker and wife; Brigadier General Nicholas Lawley, Brigadier General Lewis, Adjutant General, Eastern Post No. 1, secretary, staff and field officers of the commodore. After stopping in Los Angeles they will go on to San Francisco, where they will attend the council of officers to be held there next week.

Mrs. C. McDermott left last night for Wichita, Kan., after a visit of six weeks with Albuquerque friends. Miss Anna, her pretty daughter, will remain here for a few weeks, she having made many warm friends, who prevailed upon her remaining a short time longer.

Frank Bowden has been given a contract to fit up several vacant rooms at the Santa Fe Pacific offices, to be used as a reading room and gymnasium in connection with the Railroad Men's Y. M. C. A. to be organized here.

Harry Reed, of La Porte, Ind., who accompanied Joseph Crumacher and family to the city the other evening, has taken a chair at the Oak barber shop of W. H. Hahn & Co. Mr. Reed is a very pleasant gentleman.

UNITED STATES AND SPAIN!

List of the Battleships, Ironclads and Cruisers of the Two Countries.

WHAT MIGHT BE EXPECTED IN CASE OF WAR.

The United States has nine battleships of the first class. Spain has one. On her nine ships this country has 136 heavy guns and 297 second battery guns. These nine first class battleships have an average tonnage of something over 11,000. The destruction of the Maine in Havana harbor leaves this country with only one second class fighting ship. That is the Texas. In coast defense possessing vessels the United States is in the matter of torpedo boats, but taking it all in all, the American navy is very much stronger than that of Spain. Here is a table which shows precisely the comparative strength of the two countries:

The second class ships of the Spanish navy were built thirty-five years ago, and have been refitted and rearmored, but are very much inferior to the Texas, the only second class ship now remaining to the United States.

In the list given above Spain is credited with her full strength. It should be borne in mind that the first class battleships of the United States are admittedly among the finest in the world, and that the Polaris is some thousands of tons lighter, is older in style of construction and much lighter in her armament. The Spanish armored cruisers are good ships from every point of view, having two guns that are heavier than any carried by the New York or Brooklyn, but either of these two Yankee boats would be more than a match for one of the Vizcaya class because of the preponderance of its guns. The Texas and the new defense Maine have been compared with the Numancia and the Victoria, but neither of the latter could stand five minutes before either of the former. Indeed, the Texas or the Maine, if it were still above water, singly could capture or sink both of the Spaniards of the second class.

Spain has more men in her navy than the United States. She has a total of 10,000 officers, and the United States has 982, including those of the marine corps. Spain has 16,300 seamen, the United States 12,000. The total active list in the Spanish navy is 24,302, and that in the United States navy 13,982. Spain has 25,000 naval reserves, or as many men in that department as there are in the army of the United States. The total number of reserves for the United States navy is 2,800.

Firearms are not Toys.
Two more deaths have lately resulted from "didn't know it was loaded" accidents—a mother killing her babe and a boy almost having his head blown off. Firearms are not toys. It is also unsafe to trifle with what are termed minor armaments. Insufficient though they seem they are likely to develop into malices of dangerous and complex magnitude. The best way is to arrest them at the start with Hottel's stomach Bitters, which checks constipation, liver complaint and rheumatism, malaria, kidney trouble and nervousness. A decline in health is something we cannot afford to disregard. Independently of its sterling efficacy as a specific for chronic maladies, the Bitters is a superb tonic and promoter of appetite and sleep.

Over Fifty Million Dollars of Surplus.
In any financial contract into which a man may enter, the first consideration should be security. This is especially true if it is likely that the contract will run a number of years before the benefit to be derived from it can be realized. It is doubly true when the investment is for the protection of wife and children or for his own support in after years. And a life insurance contract is just such an investment. This being so, the fact that the financial statement of the Equitable Life Assurance Society published to day shows that the company now has a surplus of over fifty millions should be of special interest to its policy holders, particularly as surplus is the measure not only of strength and protection, but of dividend-paying ability.

The surplus is ascertained by the New York Insurance department on the standard which assumes that the company will earn 4 per cent on its assets throughout the future, but the advantage of the Equitable is that on the more exacting assumption that the prevailing rate of interest may be as low as 3 per cent, it still has a surplus of nearly \$30,000,000. In this particular of strength the Equitable seems to be unique.

From the statement of the Equitable, the following important items are selected:
Outstanding assurance.....\$651,165,837.00
New assurance written in 1917.....106,955,979.00
Premiums received.....24,401,973.00
Assets.....20,748,308.00
Surplus.....21,106,919.14
Paid policyholders.....21,106,919.14
