THE MAGAZINES BELIEVED INTACT!

A Prominent Officer States that the
Magazines Did Not Explode.

DIVERS RESCUING VICTIMS AND VALUABLES.

Havana, Feb. 21.—Lieutenant-Commander Barnett, of the survey boat *Bache*, said to a correspondent of the Associated Press to-day: "There are ninety-five chances out of a hundred that the investigation will show that the forward magazine of the *Maine* did not blow up first, if it exploded at all, and was not the cause of the terrific consequences that followed."

The naval court of inquiry arrived this morning and will begin investigations immediately.

INVESTIGATION POSTPONED.

Divers Will Recover Dead Bodies and Lost Valuables First.

Washington, Feb. 21.—Several reports came by telegraph to the state and navy departments to-day from Havana. These messages do not throw any light on the cause of the disaster, and in fact the officers of the navy department have about resigned themselves to the belief that nothing definite or certain can be known for several days to come, as the operation of the divers upon the wreck are being confined to the recovery of the bodies of the dead and the recovery of valuables, neither of which can be neglected while the other branch work, namely, the investigation of the cause of the disaster, may be more properly left to the conduct of the court of inquiry.

Lee's dispatch said: "There is great need of divers to get the effects and the bodies from the wreck. Two are now employed but twelve or fifteen could be used. A hundred and forty three bodies have been buried. Over a hundred are supposed to be confined in the ship."

Acting Secretary Day made the following answer: "I have called on the navy department with your request for divers. Same will be complied with."

Contracts are now being drawn with wrecking companies. The navy department has not yet determined definitely which of our warships shall replace the *Maine* in Havana harbor although it has been determined that another ship must be sent there.

THE MAGAZINE INTACT.

After Partial Examination, Divers Conclude Explosion Was Elsewhere.

New York, Feb. 21.—A dispatch to the *Herald* from Key West, says: "Incredible as it may seem, it is said that after a partial examination of the magazines of the *Maine*, divers report that the one in which the explosion is supposed to have occurred, is intact. According to the correspondent's information, the contents of this magazine are unharmed."

This report reaching Key West, it is said, caused the court of inquiry to decide to proceed to Havana, and begin the investigation at once, instead of organizing a court here. The lightship *Tenacious* Mangrove, with the court of inquiry aboard, left for Havana yesterday.

SPANISH AMERICAN HONOR.

Spanish Captain Requests Withdrawal of Police and Marines.

New York, Feb. 21.—The three boats having on board the police patrol and the United States marines, acting as a guard over the Spanish warship *Vizcaya*, at anchor off Tomlinville, have been withdrawn at the request of Captain Ruiz, commander of the *Vizcaya*, who said he would trust his ship to American honor.

READY FOR THE PRESIDENT.

Senate Passed Resolution Appropriating \$200,000 for Recovery of *Maine*.

Washington, Feb. 21.—The senate passed the house joint resolution with appropriation of \$200,000 for the recovery of the *Maine*. It will now go to the president for approval.

Allen (Neb) introduced the following resolution: "Resolved, that the committee on naval affairs be and is hereby directed to make a thorough inquiry into the destruction of the battleship *Maine* in Havana harbor the 15th inst., and report to the senate." The resolution was passed without debate.

BOMB EXPLODED.

At Masquerade in Havana—Four Persons Badly Wounded.

Havana, Feb. 21.—About midnight, while a masquerade ball was in progress at Lirion theatre, a bomb exploded on the second floor, wounding a lawyer named Fox, his father and two other persons.

dance at Orchestra hall, last Saturday night, was a glorious success; everybody had a splendid time, and the treasury was enlarged to the amount of about \$40, over and above all expenses.

Colored Fighting Boats.

There was a free-for-all colored fighting boat at the Cochiti saloon Saturday night, in which a considerable per cent of the male colored population of the city took part. Officer Query appeared on the scene when the fight was in progress, and at the sight of the blue coat the lighters hurriedly dispersed. Query nabbed Thomas Johnson and took him to the city jail. Officers Glover and Rossi afterward captured Ed. Lane, Charles Jones and St. Minnie, who had also been in the fight.

This morning they were brought before Justice Crawford. It was found that Ed. Lane and Charles Jones had been the aggressors in the fight and they were fined \$5 and \$10 respectively. Jones did not have the money to pay his fine, so he was given ten days on the street gang.

Song Service at the Hospital.

Yesterday afternoon a song service was held at the railroad hospital, under the auspices of the City Union of Christian Young People's Societies, there being two delegates from each society. This was the first meeting, and was very successful, the patients all expressing themselves as delighted with the service, and hoped to see the young folks again at the meeting to be held each Sunday afternoon, and delegates will be appointed from each society to attend.

The Commercial club held a meeting Saturday night which was attended by about thirty members. Much important business was disposed of. The committee having in charge reported the distribution of tobacco seed which had been donated by Industrial Commissioner Davis. The committee on a beet sugar factory reported progress and was given further time.

A resolution was adopted urging Delegate Ferguson to work for postal reform now up before congress.

The meeting of the club was called particularly for the purpose of deciding whether the club should establish a side board at the rooms. After some discussion a vote was taken by ballot which resulted in the defeat of the side-board, the vote standing eleven to nine.

A motion was then made to prohibit the drinking of any kind of spirituous drinks at the public rooms of the club. This motion was tabled.

Washington, Feb. 21.—In the case of William Grice and others, under an indictment in Texas for violating the anti-trust law of that state, the United States supreme court to-day held that the federal circuit court had interfered in granting a writ of habeas corpus when no proper exigency arose for such interference. GOVERNOR OTERO will be in attendance as a specially invited guest, at the installation of the lodge of Elks in Silver City, on Wednesday.

The contract for carrying the mail from Magdalena, via Fresno, to Cooney, has been awarded to F. K. Meers, of Windsor, Mo., for \$1,557.

It is now estimated by men who keep track of such things that 50,000 more cattle and 100,000 more sheep will be mated in Colorado this year than last.

REPUBLICAN clubs should be organized in every precinct, in every county in the territory. With thorough organization the republicans can carry the territory by a big majority.

THERE has not been a new discovery of gold in the Klondike for many months and out of some 20 claims already found only about one-fourth are good enough to pay a good day's wages.

The progress of decay in the Spanish government seems to have kept pace with that in the family of Christopher Columbus, whose last two descendants are now inmates of the poorhouse in Cadiz.

The largest cotton mill in Alabama has just been opened at Birmingham, containing 50,000 spindles and 10,000 looms, consuming 10,000 bales of cotton annually. The mill was built and is owned by Boston capitalists.

THE census says: "A carefully taken census shows that El Paso city now has a population of 18,517, and when the government takes the census in 1900 the results will show El Paso to be a city of from 25,000 to 30,000 population."

The smallest fruit tree in proportion to the load it bears is the plum or prune. This tree requires but little water because it is small, and the cherry tree requires but little because it is naturally an inhabitant of drier soils. These trees are easily grown and no other is better adapted to this vicinity.

HON. MARTIN LOHMAN, a prominent and popular republican of Las Cruces, is being urged to make the race for the territorial council from his district.

The republicans of Dona Ana and Grant counties would find in Mr. Lohman a winning candidate, and THE CITIZEN would be pleased to see him in the next legislative council.

THE Phoenix Herald says: "The Hon. W. H. H. Llewellyn, of Las Cruces, New Mexico, well-known in this city as a former active traveling agent for the Santa Fe people, and who is a prominent politician in New Mexico, is announced as about to take a trip into the Klondike country. Mr. Llewellyn is a rustler and if there is anything in Klondike he is likely to catch on if anybody can."

THE Prescott Journal-Miner, in commenting on Editor Fitch, of El Paso, says: "John R. Fitch, a newspaper man, formerly of various towns in Arizona and California, but more recently of El Paso, moved over into Mexico last week to escape trial on a charge of bigamy. It is alleged that Fitch has about four wives in different places from none of whom he has been divorced."

FRANCE IN GREAT PERIL. The condition of affairs in France is serious in the extreme. In spite of the effort of the court where Zola is being tried, to suppress important evidence, it is seen that the case is growing in strength.

But it is also manifest that influential military authorities will never consent to a revision of the Dreyfus case, and revolution may come with an attempt to compel a rehearing.

The legitimate seem to be preparing for possible contingencies, and find in the army apparently a surprising number of supporters. President Faure seems to have lost his nerve and is unable to decide in which direction his interests lie. This complicates the situation and adds to its dangers.

Not since the breaking out of the war with Prussia in 1870 has France been in such danger as she is at the present time, for the opinion is growing that a cruel wrong was done Captain Dreyfus, and as it has been done in high circles that justice will not be done him, it is feared that a revolution may occur at any moment.

NATIONAL HOLIDAY A MISNOMER. The suggestion of the New York Journal to make Lincoln's birthday a national holiday is inaccurate in its terms and wholly lacking in originality. There is no such thing as a national holiday, and there is no power to create one.

There are certain legal holidays designated by federal and state statutes, but the Fourth of July even cannot be called a national holiday.

Eight states, including Illinois, have already made Lincoln's birthday a legal holiday, and any effort to secure like recognition by other states and a more general observance of the day should meet with approval. As a matter of fact, the custom of celebrating the 12th of Febru-

ary is becoming almost as general as the celebration of the 22nd, which is now a legal holiday in all the states except Iowa and Mississippi. That this custom will grow as the years pass there can be no question, for the highest inspiration for the attainment of ideals in politics and free government is found in the life and achievements of Abraham Lincoln. By recognition of the day as a legal holiday the states can do much to promote the custom of the people in gathering to honor that great name and memory.

WHEN one stops to consider the service afforded by the Associated Press in matter of news, its perfect system of such great magnitude, its challenge to admiration, the full and satisfactory report of the Maine disaster, at the time of its occurrence, 10 p. m., of Tuesday night, until 3 o'clock Wednesday morning, was only possible from the fact that Associated Press reporters were there in the midst of it—on the vessel, on the water, on the land, everywhere, collecting and hurrying the news to the world.

THE public printer at Santa Fe, in accordance with instructions from the territorial auditor, has supplied the several counties in the territory with the necessary number of tax schedules for the present year. SUPERINTENDENT BERGMANN, of the territorial penitentiary, who is at Winslow, A. T., is interested with S. M. Folsom and others in the construction of a ditch system near the water works at that town.

FIREARMS ARE NOT TOYS.

Two more deaths have lately resulted from "didn't know it was loaded" accidents—a mother killing her babe and a boy almost having his head blown off. Firearms are not toys. It is also unsafe to trifle with what are termed minor ailments. Inadvertent though they seem at first, they are likely to develop into maladies of dangerous and complex magnitude. The best way to arrest them at the start with Hostetter's stomach pills, which check constipation, liver complaint and rheumatism, malaria, kidney trouble and nervousness. A decline in health in something we cannot afford to disregard. Independently of its sterling efficacy as a specific for chronic maladies, the pills are a superb tonic and promoter of appetite and sleep.

THE White Oaks Road.

Two locomotives for the White Oaks road have left the Baldwin works and will be in El Paso in about ten days. Shipments of locomotives are necessarily slow, for their bearings often get heated up in transit and have to be constantly looked after, and being placed on local freights gives the needed opportunity to keep watch.

The road is ten miles over the line in New Mexico, and will reach La Luz by April 1, if not before. The station at the first well has been named Hueco by Superintendent Hollister.

C. B. Kidy has returned from the Jarilla mountains trip well pleased with the local mining outlook, especially in the way of copper ores.

Track is going down at the rate of one and one-half miles per day.

A GOOD LETTER.

From the Clerk of the Circuit Court, Bernalillo, N. M., Feb. 28, 1908.

Mr. George Suter, Douglas, City:

Dear George—Please send a bottle of Chamberlain's Cough Remedy. I would not have known of it if I knew the value of this valuable remedy in the house. I have given it a fair test, and consider it one of the very best remedies for cough that I have ever found. But don't say I have been sufficient, although I use it freely. Any cold my children contract very readily to this medicine. I can conscientiously recommend it for croup and colds in children. Yours respectfully,

The Coming Woman.

Who goes to the club while her husband tends the baby, as well as the good old-fashioned woman who looks after her household, will both at times get run down in health. They will be troubled with loss of appetite, headaches, dizziness, fainting or dizzy spells. The most wonderful remedy for these women is Electric Bitters. Thousands of sufferers from lame back and weak kidneys rise up and call it blessed. It is the medicine for women. Female complaints and nervous troubles of all kinds are never relieved by the use of Electric Bitters. Delicate women should keep this remedy on hand to build up the system. Only 50 cents per bottle. R. Higgins, optical representative, will be in Albuquerque Monday and Tuesday in connection with the Dreyfus case, and revolution may come with an attempt to compel a rehearing.

On the 18th of March a great series of revival meetings will be inaugurated in the Methodist church. In addition to neighboring clergymen, who will attend, there will be present the Rev. H. About 30 per cent of the taxes of Lincoln county have, up to date, been collected on the assessment for the year 1907, or, in other words, 75 per cent of the first half has been paid.

Hart Crouch was in the city last week. He intends starting for La Luz, where he has a contract for grading on the El Paso & Northern. Mr. Crouch will put about fourteen teams of his own on the grade.

There are only four prisoners in the Lincoln jail at present, and if a term of court is held soon they will either be turned loose or transferred to the penitentiary at Santa Fe; for the practice has been to give those confined in jail, and unable to give bond, the first whiff at justice.

At a meeting of the citizens of Lincoln it was decided to construct a wagon road to the hill—the divide between Buelito and Kildoo—in order to secure the use of a large belt of timber on the divide.

If the Kildoo people would build a road from their side of the mountain, it would make a vast difference in travel. As it is now wagons from the Kildoo country either go to the Junction and come up or go round by Stanton and come down to reach Lincoln, either way more than doubling the distance over the mountains.

NEW CAPITOL BUILDING.

Work on the Structure Progressing Rapidly.

Work was resumed on the capitol this morning, after an illness of several weeks on account of cold weather. During the past two weeks a steam stone cutting machine was installed, to take the place of the hand machines, which were slow and unsatisfactory, and the work of preparing the stone is progressing at a rapid rate, says the New Mexican. A force of men is engaged in unloading brick and other building material, while a number of stone cutters are busily engaged in facing and fitting the blocks for the face of the building. The brick walls are fast rising skyward under the efforts of the masons.

The building, although not yet up to the second floor, begins to take the outlines which the completed structure will carry. The stone facing is carefully dressed and fitted, presenting a smooth and pleasing effect, well set off by the undressed stone of the foundation. The carpenters are following the masons as closely as possible, and to state a fact, work is being crowded as fast as careful work will permit.

On the outside of the stockade a number of men are preparing for the opening of Matherfield street, along the north end of the grounds, by re-setting the stone wall and iron fence. At the present rate of progress the work on the wall and fence will be finished by the last of the week, and grading will begin.

It is the intention of Mr. Rapp, the architect, to diligently prosecute the construction of the building from this time on, and to have the entire building a most finished before inclement weather comes next fall.

THE WALL STREET LEASED.

Mary Mining and Smelting Company interested in the Organs.

R. Y. Anderson, representing the Mary Mining & Smelting company, of Cerrillos, has leased the Wall Street and Pacific Republic mills, and the Wall Street and Pacific Republic mill sites, from James Rynerson, and will begin work on these properties at once. The period covered by the lease is for two years.

These mines both run well in lead and silver, and also a little gold.

The Mary Mining & Smelting company own a large smelter at Cerrillos, and will use all the ore they can ship out of this mine for reduction purposes.

Mr. Anderson states that he will at once run a tunnel from the west side of the mountains into the bottom of these two mines, and expects in that way to get the ore to the surface at very little expense.—Rio Grande Republican.

He Did There was a young man who lived in Albuquerque who is not using a pet expression of his to-day. He used it last night. He is always telling somebody, "Get a gait on you" - or he is telling how he "got a gait on himself," instead of using plain English and saying he "had to hustle" or "he got a move on him." He was trying to get started home about 11 o'clock last night, and he had got as far as the gate. About 11 minutes past 11 one of those warning voices that pass in the night came floating out of the door - "Mamie, Mamie, Mamie! Come right in the house, you've been out there long enough," and the hinges broke and the young man "got a gait on him." Sometimes it doesn't pay to "get a gait on you." It will to-day, though, because in a few days more they will all be gone and you will be left. Look at these prices:
