NUMBER 104.

WAS IT THE WORK OF A DEADLY TORPEDO?

Dispatches at Variance but Old Tars
Claim that it was Treachery.

SPLENDID COURAGE OF CAPTAIN SIGSBEE.

Key West, Fla., Feb. 17.—The correspondent here of the Associated Press has just returned on the Olivette from the scene of the wreck of the United States battleship Maine, in Havana harbor. Divers, who have been working about her bottom, discovered an eight inch percussion hole in the plate. Admiral Mantero summoned Captain Sigsbee to make the necessary depositions. All proofs of the work of a torpedo will be removed. Another man-of-war is expected here tonight.

CAME FROM RELIABLE SOURCES.
New York, Feb. 17.—The bulletin from Key West, indicating that evidence of the use of a torpedo had been discovered in the case of the man of war Maine, was written and sent by Mr. Weatherford, the regular Associated Press correspondent at Key West, who went to Havana recently, and who left the latter city yesterday (Wednesday) at 1 o'clock p. m. on the steamer Olivette.

SECRETARY LONG.

Discredited Torpedo Story—No Suppressed Telegram from Sigsbee.

Washington, Feb. 17.—The navy department absolutely discredits the story that divers found an eight inch percussion hole in the bottom of the Maine. Secretary Long says that there is no such thing as a percussion hole; that there is no eight inch torpedo and that there is no other way in which such a hole could be accounted for. It is, of course, possible that a shell exploding inside the ship pierced a hole of that kind in the outer skin, but that would be readily revealed by the character of the angle and whether or not the skin was bulged in or out around the puncture.

Secretary Long positively denies that Captain Sigsbee has in any way in a suppressed telegram expressed the opinion that a torpedo caused the disaster or that it came from an external cause. The captain said on the contrary that he could not venture to express an opinion.

The navy department received a dispatch this morning from Admiral Sigsbee, in command of the North Atlantic squadron, giving the details of a court of inquiry to investigate the Maine disaster. As follows: Captain Sampson, president of the court; Captain Chadwick, Lieutenant Commander Schroeder and Lieutenant Commander Marix. Sampson is the commander of the battleship Iowa, Chadwick is commander of the New York, Schroeder is the executive officer of the Massachusetts, and Marix is the executive officer of the Vermont.

FIRST HE HEARD OF IT.

President McKinley's Comment When Shows the Key West Bulletin.
Washington, Feb. 17.—The Key West bulletin regarding the finding of a hole in the bottom of the plate of the Maine and referred to as a torpedo was sent to the White House by the Associated Press and shown to President McKinley. His only comment was that it was the first he had heard of it.

CONGRESS TAKES NOTICE.

Resolution Appropriating \$150,000 for Families of Victims Introduced.
Washington, Feb. 17.—Allen introduced a resolution to-day instructing the senate committee on naval affairs to investigate the Maine explosion. The resolution went over under objection until tomorrow. It is probable that the families of the victims of the Maine disaster will be cared for by the government as were the survivors of those lost in the Samsom hurricane several years ago. Representative McCallan, of New York, introduced a joint resolution appropriating \$150,000 for this purpose in the house to-day.

PUBLIC FUNERAL.

Dead Marines Buried at Havana this Afternoon.

Washington, Feb. 17.—The following message was received at the navy department from Captain Sigsbee at Havana:

Secretary Long, Washington, D. C.:—

"General Blanco and the mayor of the city requested me to permit a public burial to the dead already found in order that public sympathy may be expressed thereby and due honor shown to the dead. It would be impracticable to transport the remains to the United States. I accepted the offer of the authorities and there will be a public funeral at 3 o'clock to-day. Fifteen bodies were recovered during the operations. Operations were prevented by rough weather."

General Blanco's Message.

Washington, Feb. 17.—Captain General Blanco to-day cabled Senor Du Roie in charge of the Spanish legation, giving

the formal action of the insular government of Cuba, expressing to the president of the United States profound sorrow over the catastrophe to the Maine and the resulting loss of life to Americans.

SPANISH CRUISER VIZCAYA.

Premier Sagasta Considers of Advantages of Sending It Here.

Madrid, Feb. 17.—Premier Sagasta held an important conference with the minister of marine and Rear Admiral Bermejo on the subject of a voyage of the first class armored cruiser, Vizcaya, to the United States. It is said at the ministry of marine that a long telegram in cipher has been sent to the Spanish charge d'affaires at Washington, Signor Du Boies, directing him to give instructions to the commander of Vizcaya as soon as that vessel reaches the American coast "so he may be prepared to avoid all eventualities."

LONDON PRESS OPINIONS.

Captain Sigsbee Praised for His Splendid Contempt of Danger.

London, Feb. 17.—The Pall Mall Gazette says: "Captain Sigsbee behaved with a splendid contempt of danger, worthy the best traditions of the army or navy."

A dispatch to the Chronicle from Washington said that Roosevelt and other bureau chiefs, as well as congressmen, are absolutely certain that treachery was the cause of the disaster, while a dispatch to the Morning Post from New York says President McKinley has long been suspicious of some atrocious foul play and is reported to have confidential reports, which, if published, would cause immediate war.

SAILED FROM GALVESTON.

Battleship Texas and Cruiser Nashville Receive Orders—Destination Unknown.

Dallas, Texas, Feb. 17.—A private telegram from Galveston says the battleship Texas and the cruiser Nashville received orders from the navy department to sail from Galveston at once. The exact destination has not been learned, but it is accepted by the public that they go either to Admiral Sigsbee's fleet off Dry Tortugas or direct to Havana.

LAURENCE IN SPAIN.

Officials Fear the Maine Accident May Affect American Hostility.

Madrid, Feb. 17.—The disaster to the United States battleship Maine is sincerely lamented here, especially by the Spanish officials whose regret is mingled with apprehension lest the accident may augment American hostility. The government is confident that the able policy of President McKinley and the good sense of a majority of Americans will maintain peace.

HAD A PREMONITION.

Gunner on the Maine Wrote a Remarkable Letter February 11.

Bay City, Mich., Feb. 17.—A letter was received to-day from Elmer Mellstrup, a gunner on the Maine, dated February 11, in which he wrote that he would not be surprised if they should be blown up any day; that the ship was surrounded by torpedoes, and could not leave the harbor without the consent and direction of the Spanish authorities.

OPINIONS OF OFFICERS.

Think the Explosion Was Due to Some Interior Cause.

Key West, Fla., Feb. 17.—The Associated Press correspondent here questioned a number of officers and men who were aboard the warship Maine at the time of the explosion. It is the universal opinion of all that the explosion was due to some interior cause and not to the result of an explosion of a torpedo outside.

REPORT NOT VERIFIED.

Of a Hole in the Hull of the Maine Caused by a Torpedo.

New York, Feb. 17.—The report of the finding of a hole in the hull of the Maine, evidently caused by a torpedo, was sent from Havana by the Olivette from a source regarded as reliable, but cannot be verified owing to the strict censorship at Havana. The report is not verified by the officers of the Maine who arrived at Key West.

WHAT SAILORS THINK.

Explosion Caused by Torpedoes Planted Before Maine Arrived.

Key West, Fla., Feb. 17.—Jose G. Mann, a passenger on the City of Washington of the Ward Line, which was moored near the Maine Tuesday night at the time of the disaster, describing the catastrophe to-day said: "While we were conversing in the cabin a loud report

started the company. They rushed to the port holes and saw an immense flash shoot up in the air. Debris of all kinds and a large number of bodies were thrown upwards. It was at first believed that the Maine was being fired upon. Boats of the City of Washington and the Spanish cruiser Alfonso were hurriedly launched and went to the rescue. In two or three minutes the City of Washington was converted into a hospital."

The explosion occurred in the forward of the amidship section of the Maine. Reports to-day from the wounded show them doing well, except Patrick Foley, apprentice, whose skull was fractured. Regarding the explosion, the officers of the Maine are evidently under orders to keep quiet. The men talk more freely and are almost unanimous in insisting that the explosion was caused by a large torpedo planted before the Maine arrived in Havana.

THE HAVANA JOURNALS.

Print Sentimental Declarations of Sympathy with Maine's Survivors.

Havana, Feb. 17.—There are twenty-nine injured of the Maine quartered at the military hospital at San Ambrosio. Many physicians and assistants are in attendance upon them. Charles A. Smith, suffering from a broken leg and burns about the jaw, is very sick and it is feared will die.

The evening papers Wednesday, except La Discusion, printed leading editorial and sentimental declarations of sympathy with the Maine's survivors.

BOARD OF INVESTIGATION.

Has Ample Authority to Investigate Cause of the Disaster.

Washington, Feb. 17.—Admiral Sigsbee's board has ample authority to make a searching investigation into the cause of the Maine disaster. Fern and Mangrove arrived in Havana last evening. They are provided with diving apparatus and as every warship's company includes at least several expert divers there will be no lack of men to make the necessary search. It is believed under the most favorable circumstances that the investigation cannot be made for several days.

Lieut. Commander Marix left Washington to-day by train for Key West. He is supposed to be assigned to duty as judge advocate of the court.

WAS IT A BOMB?

Visitors on Maine Might Have Deposited Bomb Near Magazine.

New York, Feb. 17.—The Evening World received from Sylvester Behal, its correspondent at Havana, the following reply whether strangers were allowed on the Maine the day of the disaster: "Yes, visitors were on the Maine all afternoon. A boom might then have been deposited near the magazine, as I have already cabled. Cables are much delayed here."

TURPIN'S RESOLUTION ADOPTED.

Washington, Feb. 17.—Turpin's Kansas Pacific railroad resolution, offered Feb. 15, passed the senate to-day 41 to 29. The resolution declares the sale of the Kansas Pacific division of the Union Pacific railroad ought not to be confirmed, except upon the terms that the original claims and interest thereon due to the United States be paid in full by the bidder.

COPPER.

New York, Feb. 17.—Copper, 10 1/2.

MAINE COMPLETELY COLLAPSED.

Washington, Feb. 17.—Admiral Sigsbee telegraphed Secretary Long from Key West this afternoon, as follows: "In the opinion of Lieutenant John Hood, of the Maine, who just arrived from Havana, the Maine can never again be utilized as a ship. He describes the whole forward body of the ship as completely collapsed where the shock of the explosion was the heaviest."

GOV. TANNER'S CALL.

Desires to Tender President the Support of Illinois.

To Prevent or Punish any Attempt at Hostile Invasion.

Eastern Division of Kansas Pacific Sold for \$4,000,000.

EXCITEMENT OVER WHEAT.

Springfield, Ill., Feb. 17.—Gov. Tanner to-day called on the legislature by message to authorize him to tender the president the moral and material support of Illinois to prevent or punish any attempt at a hostile invasion of our country.

HOMESTEAD LAWS FOR ALASKA.

Washington, Feb. 17.—Senator Carter, from the senate committee on public lands, reported favorably the house bill granting the right of way to railroads and extending the homestead laws to Alaska with the amendments made by the senate committee. The amendments limit to forty acres the amount taken unless the land be distinctly agricultural, the object being to prevent the monopoly by any individual of valuable sites.

WHEAT \$1.05.

Chicago, Feb. 17.—There was a wild opening in wheat to-day. May, which closed yesterday at \$1.03 1/2, ranged all the way from \$1 to \$1.08 at start, with one or two excited bids a moment after as high as \$1.09 1/2. The shorts were apparently in panic. Their surprise wheat came on the market in large quantities and three minutes after opening May declined to \$1.05 1/2. Up it bounced again half a cent at a time, to \$1.05 1/2. Trading became smaller and May prices receded to \$1.04 1/2. The ranky condition was altogether due to the growing fear of Lett's control of the market.

FIFTY PERSONS PERISHED.

Bercham, Prussia, Feb. 17.—A terrible explosion of a fire lamp occurred at the Vereinigte Carolingensueck colliery at Hammerdy this morning. Thirty seven bodies have been recovered. In addition many miners were seriously injured. It is believed that fifty persons perished.

THE EASTERN DIVISION SOLD.

Topoka, Kan., Feb. 17.—The eastern division of the Kansas Pacific road, 140 miles in length, was sold under first mortgage to-day and was bought in by Alvin W. Kroch on the part of the reorganization committee for \$4,500,000.

VICTORY FOR FUSION.

Minneapolis, Minn., Feb. 17.—The populist convention has come to an end with a victory for the fusion forces. The state convention was set for June 15. The middle-of-the-road faction, which desired an April convention, found itself so much in the minority that it made no struggle.

JEFFERSON'S BIRTHDAY.

Washington, Feb. 17.—Jefferson's birthday anniversary will be celebrated April 13 by the national association of democratic clubs with a subscription dinner. Bryan will be the principal speaker.

MURDERER GETS A RESPIRE.

Springfield, Ill., Feb. 17.—Christopher Merry, the peddler, who was to have been hanged in Chicago to-morrow for wife murder, was to-day granted a respite for sixty days by Governor Tanner. The lawyers asked time to perfect an appeal to the supreme court or to take the case before the state board of pardons.

WHOLE CROWD LOST.

Nonima, B. C., Feb. 17.—A special from Juanon, Alaska, February 12, confirms the news of the loss of the Clara Nevada, and says: "The cause of the disaster was doubtless an explosion of her boiler. Of the fifty people on board none are believed to have been saved. Frank Whitely, of Cripple Creek, Colo., is one of the unfortunates."

sent, and the card will include trotting, pacing and pony races. Most of the horses entered will be owned and regularly driven in Albuquerque, which will undoubtedly make the sport the more interesting for the local public. At least two match races between running horses owned in the city will come off, and as there will be music and such diversions for the crowd the fair grounds in old town will present quite a lively appearance next Sunday week.

The Driving association wishes to announce through our columns that on Sunday next they will formally throw open the track in old town for buggies, so that those persons having fancy horse-drawn carriages can avail themselves of the track that afternoon.

TO THE GRAND JURY.

Gonzales and Son and Jaramillo Bound Over Without Bail.

When the hour arrived this morning for Justice Dwyer to pass upon the motion of District Attorney Finckel to dismiss the case against Manuel D. Gonzales, Vidal J. Gonzales and Pedro Jaramillo, charged with the murder of Frank Gutierrez, the attorneys for the prosecution and the defense had reached a mutual agreement.

District Attorney Finckel withdrew his motion to dismiss, whereupon the three defendants waived examination and were bound over to the grand jury without bail.

As the grand jury will meet on the first Monday in March, the defendants will have the benefit of a speedy trial and will only be confined in the county jail for a little over two weeks.

The large crowd, which assembled at the court house this morning, was visibly disappointed over the fact that the hearing should be so summarily disposed of without the taking of any evidence.

THE NEW RAILWAY.

What President Eddy Has to Say About Special to The Citizen.

El Paso, Texas, Feb. 17.—C. B. Eddy, president of the El Paso & Northeastern railway, has returned to El Paso, and to the Times said:

"I found the Jarillas full of prospectors and all satisfied with their claims. They predict that the Jarillas is going to be one of the most prosperous mining camps in the southwest. Of course, I cannot now pretend to say positively what is there. But the mountain is full of good low grade copper ore and I consider it a splendid prospecting proposition. The contractors are laying track rapidly in New Mexico, and the construction of the road in every way, moving along satisfactorily. My brother did not return with me, but went on up the line toward Salado."

RECORD BULLETINS.

A Few Bulletins on the Brown System of Marks.

Record bulletin No. 114.—Recently a night operator on this division failed to answer his call, causing a delay to trains.

He gave an excuse that he had been looking after switch lights. He did not have permission, however, being the dispatcher, to leave the office. Current instructions require that this should be secured. The operator has been suspended thirty days.

Record bulletin No. 115.—Recently a conductor of a second class freight on this division was slow at terminal and did not follow the section ahead of him, as he should have done. This caused considerable delay to the train at a blind siding. He did not currently report his delay. For this he has been suspended ten days.

Bulletin No. 28, Feb. 14.—A re-appointment of watch inspectors for the New Mexico & Rio Grande division places the following gentlemen as authorized inspectors. Certificates from other inspectors will not be accepted: F. C. Felt, Trinidad; C. A. Whitely, Santa Fe; T. H. Doll, Las Vegas; S. Spitz, Santa Fe; P. Y. Maynard, Albuquerque; W. D. Finney, San Antonio; W. T. Hixon, El Paso; N. P. Trussell, Deming; J. R. Hicks, Silver City. The above expires effective Feb. 17, 1917. There will hereafter be only one authorized inspector in each of the cities named.

A meeting of the local directors of the New Mexico & Southern Pacific from Trinidad to Albuquerque, was held at the office of Judge H. L. Waldo in Las Vegas on Tuesday, there being in attendance Solicitor Waldo, R. J. Palen, of Santa Fe; M. S. Otero, of Albuquerque; Jefferson Reynolds and F. A. Manzanera, of this city. The purpose of its meeting was to suggest the change of its line in Bernalillo county so as to avoid washouts and to provide for new stockyards at Watrous.

The action of the board of supervisors in reducing physicians' fees for the examination of insane persons from \$12.50 to \$7.50 is a move which meets with general approval.

Karl A. Snyder, of the law department of the Santa Fe Pacific Railroad company, arrived in Prescott on Tuesday evening for a brief professional visit, leaving on Wednesday morning's train.

Under the conditions on which proposals for the construction of the Big Bug railroad are asked for work must be commenced by March 10. Competition for the work promises to be quite lively, as representatives of no less than six or seven firms of contractors are now on the ground.

Stanley McCormick, of the great firm of reaper and mow manufacturers, of Chicago, has been in this section a number of days and is negotiating for the purchase of a ranch near Juniper. It is the intention to make it headquarters for hunting parties from the east who propose to visit it annually.

J. Jones was in from the Little Jesse mine and informs us that the new cyanide plant recently put in operation at that place is working perfectly and that there are enough tailings about the mill to operate the works for a year. The actual results of the cyanide will be fully known in a few days when the first clean-up is made.

PHOENIX.

The probability is that twenty or thirty persons representing the Phoenix parish will attend the Washington's birthday celebration to be given by the Catholic people of Tempe.

Miss Mamie Kennedy, a talented young lady of Phoenix, who has been spending the past eight months in Denver, in cultivating her voice and studying music, has arrived home.

S. H. Newman, executive special agent of the New York Mutual Life is here from El Paso. Mr. Newman has been identified with early journalism in New Mexico. He is one of the best life insurance men in the field to day.

George Dorfinger, of Stanton, and Miss Melissa Ball of Chicago, were married in Phoenix last week. Neither had ever seen the other till the morning of the day when they were married, their courtship having been done by correspondence. The bride is described as a very handsome young woman.

H. A. T. Hanson, of this place, complaining that he has been wrongfully accused of an intention to commit suicide.

On the contrary, Mr. Hanson says he shudders at the thought of death in any form. He is not prepared to go, and he knows it. These stories, he says, have been put in circulation by a man with whom he has had disagreeable financial relations.

A dispatch from the Little Jesse mine in Yavapai county announces the fact that they have made one run of the cyanide plant and it has proved a great success. All the tailings will be treated Feb. 17, 1917. There will hereafter be only one authorized inspector in each of the cities named.

ARIZONA AT LARGE.

George B. Heath, who several years ago was Indian trader at Fort Apache, and who is also a newspaper man of experience, has taken charge of Norton & Co.'s books at Wilcox.

At Calabazas George W. Atkinson is erecting a brick making plant, to meet the requirements of the coming building season in Nogales.

Ben Dunkle, formerly of Jerome, Prescott and Phoenix, has located at the Legal Tender, Tucson.

On Avery avenue Joseph Thompson is erecting a handsome seven-room cottage for a family residence, one of the largest in Nogales.

Rev. J. T. Whittemore, of Florence, is in Washington, where he will render valuable assistance to Hon. M. A. Smith in having a bill passed by congress, for the construction of the Buttes reservoir for the benefit of the Indians.

P. Walsh, a cattleman of Williams, will remain in the Salt valley a few days longer. It would not be surprising to learn that Mr. Walsh will be paying taxes in Maricopa county next year, his admission as to the valley being an index

to this belief. He has 4,000 head of cattle on the range in Coconino county.

Frank Nordie, who was in Wilcox recently, reported that he had reached a depth of 400 feet in the Higgins well, near the lake, and had instructions to continue sinking for another hundred feet. Indications are said to be rather better.

Mr. Ward L. Smith, of Fredericktown, Mo., was troubled with chronic diarrhoea for over thirty years. He had become fully satisfied that it was only a question of a short time when he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and his continued use cured him. For sale by all druggists.

FORGOT HIS WIFE.

The War Correspondent of the Minneapolis Tribune—our Old Joker.

James R. Thorpe, who had been at the Montezuma for the past few days, left to day under amusing circumstances. Mr. Thorpe is one of those jolly good fellows of Princeton college who takes life easy and does not worry about "missing the train." He was to take the 3:15 train south and accordingly left the springs at 2:10. Leaving the train at Bridge street, he sent his wife on down to the depot while he should get his mail, a few cigars and a Minneapolis Tribune, without all of which he swears he cannot be happy even with his charming wife. He reached the depot with these provisions just before the conductor shouted "all aboard." The ticket for his wife was yet to be bought. While Mr. Thorpe was signing the ticket, Mr. Thorpe, accompanied by another gentleman from the springs, boarded the Pullman with the baggage of the governor of the territory, including the governor of the territory, got between them and the door. The train started while Mr. Thorpe was still on the platform. Thorpe and his friend formed a foot ball rush in good old Princeton style and made a pass through the crowd, the governor not resisting the greatest onslaught. "What has he forgotten?" shouted the governor, pulling himself together. "His wife," shouted back Thorpe's friend. The train was finally stopped and a young couple stepped on the rear platform. Thus they departed, Mr. Thorpe smiling and bowing to his friends left behind.

COURT OF PRIVATE LAND CLAIMS

No Testate Grant Rejected—Jose Jacinto Jaramillo Grant Confirmed.

OTHER GRANTS DISCUSSED.

The court of private land claims met Tuesday forenoon at 10 o'clock, all the justices and court officials present, the chief justice presiding.

In case No. 228, Jose Pablo Jaramillo et al. vs. the United States, Jose Jacinto Jaramillo grant in Rio Arriba county, Catron & Gortner attorneys for plaintiff, the grant was confirmed with the natural objects for boundaries, but as the claimants have so far failed to establish these, the court gave them permission to introduce further evidence. This grant lies wholly within the limits of the Jose Juan Lobato land grant, No. 140, but as the claimants of that mentioned grant were not made parties to the case, the court held that they had not had their day in court, and therefore held that they could not be barred by the decree in the Lobato case. The opinion was written by Justice Sims, Justice Murray dissenting, holding that inasmuch as the grant in the Lobato case was imperfect, it could not be confirmed for eleven square leagues, and the evidence embraced within the decree of confirmation of the Lobato grant amounted to over 500,000 acres, therefore the excess in the said decree over eleven leagues was void.

In case No. 123, Manuel Romero y Dominguez vs. the United States, Rio Testate grant in Santa Fe county, J. H. Purdy, attorney for claimants, the claim was rejected, because the evidence failed to show that there was ever any grant made by the Spanish government to the alleged grantee, and for the further reason that the parties to the claim had died claims before the attorney general under the small holdings act, that there was no description of the lots so claimed.

This grant had been confirmed at a former term of the court and Justice Murray then and there dissented. Since then the other members of the court have adopted his dissenting views as the opinion of the court, hence the rejection of the claim to day.

Case No. 105, Eduardo Otero et al. vs. the United States, the Nuestra Señora de Guadalupe Mine grant in Valencia county, and 206, Rios de Berge et al. vs. the United States, the Abo grant, also in Valencia county, are in progress of argument before the court, the evidence having been taken by Catron & G

He Did

There was a young man who lived in Albuquerque who is not using a pet expression of his to-day. He used it last night. He is always telling somebody, "Get a gait on you"—or he is telling how he "got a gait on himself," instead of using plain English and saying he "had to hustle" or "he got a move on him." He was trying to get started home about 11 o'clock last night, and he had got as far as the gate. About 11 minutes past 11 one of those warning voices that pass in the night came floating out of the door—"Mamie, Mamie, Mamie! Come right in the house, you've been out there long enough," and the hinges broke and the young man "got a gait on him." Sometimes it doesn't pay to "get a gait on you." It will to-day, though, because in a few days more they will all be gone and you will be left. Look at these prices:

C. E. Boyce, the general merchant at Williams, personally mentioned in this paper yesterday, returned to Williams last night.

Simon Stern, the Railroad Avenue clothier, will leave to-morrow night for Chicago, and will be in the markets of that city bright and early Monday morning.

A. A. Grant, publisher of the Democrat and owner of several important corporations, came in from the west last night. He was at Prescott, and will try to secure a contract for the grading of the Big Bug railroad.

Dr. John A. Hamilton, of Boston, secretary of the National Educational association, of the Congregational church, came in from the west with Missionary E. H. Ashmun Tuesday night, and continued on to Las Vegas last night.

Bernard Reinken, brother of Charles Reinken at Belen, has been transferred to another division, and in consequence C. Kireher will represent the Ely-Walker dry goods house of St. Louis in the southwest. Mr. Kireher is here to-day.

Donatiano Chavez, the well-known attorney of this city, went up to Santa Fe on the flyer this afternoon, where he will present a petition to the governor for the pardon of Gregorio Barila, who was sentenced to thirty years in the penitentiary for killing Porcario Martinez two years ago.

Charles Riggs, the well-known manager of the Columbia Opera company and Rose Stillman Stock company, and L. H. F. Ross, of the same company, made us a pleasant call this morning. Manager Riggs promises us that the Stillman company will be equally as good as any attraction he has ever brought to Albuquerque.
