NATIONAL CONGRESS!

Senate Wants Information on Sale of Kansas Pacific.

Bill Passed Regulating Loans to Officers of Banks.

House to Consider Loan Bill on Second Class Mail Matter.

COTTON MILL STRIKE.

Washington, Feb. 15.—Petition (Ala.) secured the passage of a resolution requesting the president if not incompatible with the public interest to inform the senate what action had been taken in reference to the murder of Segundo N. Lopez, a citizen of the United States, April 11th, 1896, in Cuba, by the armed soldiers of Spain commanded by Col. Ketrush. The resolution introduced yesterday by Harris (Kans) directed the attorney general to furnish the senate with information as to the agreement reached by the government with the reorganization committee of the United Pacific railroad concerning the Kansas Pacific branch was held before the senate. Harris said the United Pacific for a long time attempted to influence congress and officials of the administration to scale down the debt, that the company might give 50 per cent. A year ago last January the company made arrangement with Cleveland's administration, by which the road was to be disposed of with a loss to the government of about \$28,000,000. Public sentiment was aroused from Maine to California, the demand of the people, he said, being that they should not be swindled out of the enormous sum mentioned.

The resolution of Senator Harris relating to the Kansas Pacific railroad passed the senate as follows: "Resolved, That the attorney general is directed to inform the senate if he authorized the abandonment of his expressed intention to redeem the first mortgage bonds issued by the United Pacific Railroad company, eastern division, now the Kansas Pacific division of the United Pacific railway, and ask the post-ponement of the sale thereof and for the appointment of a receiver thereof in the interest of the government of the United States; and also if he authorized the agreement by which said property is to be sold for the face value of the subsidy bonds, resulting in a loss to the government of \$6,624,107, and if the government has agreed not to be a bidder at said sale."

IN THE HOUSE.
By a vote of 10 to 3 the house committee on military affairs, refused to favorably report the Odell bill authorizing any denomination, sect or religion to erect a building for religious worship on any military reservation.

In the house Payne (rep. N. Y.) chairman of the committee on merchant marine, called up a bill to amend the navigation laws of the United States. Payne explained that the bill had been prepared by the treasury department and was designed to protect our seacoast trade along the Pacific coast with Alaska. The bill passed without division.

Cox (dem., Tenn.), from the committee on banking and currency, called up a bill to "better control and promote the safety of national banks." The bill provided that no national bank shall make a loan to the president or any other officer or employee of the bank until such officer or employee has submitted a proposition for the loan in writing to the directors and it had been approved by a majority of them and in no case shall the loan with the amount permitted by law. The bill was passed. The house agreed to consider the Lend bill relating to second-class mail matter March 1, 2 and 3.

COTTON MILLS STRIKE.

Indications that it will fall flat in several towns.
Lowell, Mass., Feb. 15.—From present indications the recommendation of the conference committee advocating a general strike in the cotton mills will fall flat in this city. President Kinneola, of the Weavers' union, says: "There will be no strike here as long as the professional agitators keep away and allow us to manage our own affairs."
The union of drawing in girls, warpers and spotters decided it inadvisable to consider the recommendation and all efforts should be concentrated upon the strike at New Bedford for the present.

Emile Zola's Prospects of Acquittal in Paris are Brightening.

MISS WILLARD SERIOUSLY ILL.

London, Feb. 15.—A special from Madrid says that the populace is greatly enraged owing to a belief that the Spanish cabinet has apologized to the United States. The populace is bitterly opposed to such a course.

The people prefer war to apology, thinking that Spain will suffer least thereby, as a war would be exceedingly disastrous to the large commerce of the United States.

Emile Zola's Trial.
Paris, Feb. 15.—The crowd present at the Zola trial today was not so large as yesterday. While some people are already discussing the extent of the sentences, others regard the acquittal of the defendants as certain, as it is evident that the court is becoming more favorably disposed toward Zola.

Death of Charles Zeiger, Jr.
Mrs. D. Rudolph, today received a letter from Mrs. Charles Zeiger, at Congress, telling her of the death of her oldest son, Charles Zeiger, Jr., at the residence of his grand-parents in Los Angeles. Mrs. Zeiger has been sick herself at Congress for some time, so that she has been unable to be at the bedside of her sick boy. Mr. Zeiger has had the body embalmed and laid away in a receiving vault, until Mrs. Zeiger is able to go to Los Angeles.

Charles Zeiger was the oldest son of Mr. and Mrs. Zeiger, and was nearly nineteen years of age at the time of his death. He will be remembered by a number of Albuquerqueans as a handsome and healthy looking boy, who will be surprised and pained to learn of his early death.

That de Baca Tax Suit.
A local in this morning's Democrat attempts to convey the impression that in bringing suit against Jose C. de Baca for taxes, District Attorney Fincin not only began suit for taxes that have been paid, but also was induced by improper motives in beginning the suit. Tax Commissioner examined the declaration on file in the clerk's office, and found that the suit was begun for taxes for the years 1893-'94 and '95, which have long been delinquent, and which are still unpaid—or, at least, the records so show. It is made by law the duty of the district attorneys to bring suits for the collection of delinquent taxes. The board of county commissioners in August last passed a resolution instructing Mr. Fincin to begin suit against all delinquents, and this, after giving every one six months to pay in, he is doing without prejudice or showing partiality in a single case. And one nice thing about it is that he has begun a suit against no man who could not have paid at the time his taxes were due if he had desired to do so. Every man sued to date has been simply able to pay his taxes as they became due, and if they are sued they have no one but themselves to blame.

A Valentine Luncheon.
Mrs. J. R. Haynes, wife of the county and city physician, entertained the wives of Albuquerque's physicians at a "Valentine Luncheon," at her residence at 234 North Walter street, yesterday afternoon. Those present were Mesdames Hope, Wall,

Charged With Larceny of Cattle.
On Thursday, Burt Lilly was brought before Judge Bayne charged with the larceny of four head of steers, two belonging to Fred Roth and two the owners of which are unknown.
The hearing occupied the entire day, and a large number of witnesses were examined. The testimony on the part of the territory was to the effect that on January 20 Burt Lilly and James Williams went to the Sugarite country, about eight miles from town, and brought in four steers. The steers were taken to the slaughter house of Robert Vogt at 10 o'clock at night, and there killed. The heads of the steers were seen there by Inspector Patrick McKroy. He testified that they could not have been killed over ten days.
Lilly denies going out on this day to the Sugarite, but a large number of witnesses testified to having seen him at points along the road.
Justice Bayne fixed the amount of his bail at \$500 for his appearance at the next term of the district court to await the action of the grand jury.
Considerable interest has been manifested in the case from the fact brought out in the hearing—Raton Reporter.
