TERRIBLE FIRE!

Pittsburg, Pa., Swept by a Terrible Conflagration.

Many People Killed and Injured by the Furious Flames.

Property Loss Over a Million and a Half Dollars.

LIST OF KILLED AND WOUNDED.

Pittsburg, Pa., Feb. 10.—The loss of life and destruction by fire at Thirteenth and Pike streets last night were the greatest in the history of Pittsburg. At least fifteen people were killed, over a score injured and property valued at one and a half million dollars was destroyed. The list of dead so far as now known is as follows:

Dead: Lieutenant of Police John A. Berry, aged 30 years; William Scott, Jr., 27 years old, a son of President Wm. Scott, of the Chattanooga Lake Ice company; John Dwyer, 35 years old, single; Stanley S. Ritz, aged 15; George Loveless, 40 years old, married; unknown white man, aged about 25 years; Mrs. Mary Sipe, aged 50; Mrs. Sipe, aged 74 years, mother of Mrs. Mary Sipe; Stanley Sipe, aged 10 years; Lieutenant Joseph Johnston, of No. 7 engine company; Fireman White, name unknown, aged about 40; William L. Wallenstein, an employe of Rudek's men's milk depot; two unknown men, eighteen were seriously injured and three are missing.

The estimated losses are: Union Storage company, \$775,000; Kneveler's storage warehouse and contents, \$50,000; Chattanooga Lake Ice company, \$150,000; small Pennsylvania avenue houses, \$25,000; total, \$1,500,000.

Badly injured—Robert Rosamond, single, aged 40 years, lieutenant engine company 2; Owen N. Felder, aged 18; George Douglas, 55 years old; Owen Muligan, married, 30 years; William Fleming, 32 years, single; Joseph Headley, aged 55 years; Kit Wilson, 30 years old, Paducah, Ky.; Robert Dobson, 35 years, Captain A. J. Brown, superintendent of bureau building inspection; Peter Malone, aged 20 years; David Stewart, 52; William Desmuke, 33 years; Charles Simon, 60 years; George King, engine No. 7; John Hunter, engine No. 7.

The missing, supposed to be in the ruins: Nathaniel Green, accountant of the Daily Mercury building; Thomas Linch, Howard Barry.

It is believed that at least ten more bodies are in the ruins, which are still too hot to be moved.

The property loss will reach \$1,500,000 and may exceed that amount.

It was just 7:55 o'clock last evening when smoke was seen issuing from the fourth floor of the Union Storage company's building on Pike street near Thirteenth.

The building was six stories in height and occupied almost the entire block between Twelfth and Thirteenth streets and Pike street and Mulberry alley. The first floor front was occupied as offices of the Union Storage company and the Chattanooga Lake Ice company. The second floor front contained the stables of the Chattanooga company and in Twelfth street, and they had there the ice-making plant which occupied the three first floors. This was filled with valuable ice-making machinery and other property of the Chattanooga company. The balance of the building was occupied by the storage company.

Immediately upon the discovery of the fire an alarm was sent in and responded to promptly, but owing to the construction of the building it was practically impossible to fight the fire without while the volume of smoke inside the particular building occupied made it impossible to fight it from within.

The only openings in the three fire walls dividing the building were closed by heavy iron doors and these were locked. For three hours the firemen worked scarcely knowing what they were doing. The iron shutters were impregnable to their attacks. The smoke that found its way out of the building filled Mulberry alley and Pike street, stifling the firemen and rendering them practically sightless.

It would clear for a moment or two and they would again endeavor to make some headway, but to no avail. Finally at 11 o'clock the flames burst out through the roof and shot upward a hundred feet in the air and making that part of the city as light as day.

This was the first note of alarm that started the flight of the residents from their homes on Pike, Thirteenth and Twelfth streets. Women and children started forth bareheaded and in their night clothes followed by husbands, leaving what little they could carry on their arms of their household effects. The police were watchful and crowds were kept back by the fire lines and the fearful heat of the flames. Suddenly above the roar of the flames and the puffing of fire engines which were everywhere, came the powerful noise of the first explosion, and the falling walls foretold death and destruction in thunderous tones. Those within the fire lines were seen to fall in all directions. Those outside the lines were not without reach of danger.

This evening, at 6 o'clock, Felix H. Lester and Miss Marian Swin, Meritt will be united in marriage at the residence of Mr. and Mrs. W. P. Metcalf, the

A BLOODLESS DUEL!

Two Duellists of Belen Shoot at Each Other.

They Fired Simultaneously but Neither Received a Bullet.

Eggs Placed in Shoes the Cause of the "Deadly" Meeting.

WILLED EVERYTHING TO WIFE.

Last night THE CITIZEN was informed by a railroad worker who had been off on a hunting expedition in the vicinity of Belen and Los Lunas the past ten days, that he witnessed a "bloodless duel" at Belen on the moonlight night of Jan. 30th, at 10 o'clock.

"On January 29," said our informant, "the streets of Belen were very muddy from the melting snow, and a certain gentleman, pulling off his shoes, pulled on his rubber boots and walked through the mud to his home for dinner. During his absence several eggs were placed in the shoes, and, of course, when the shoes were pulled on at night the eggs broke and made a terrible mess, enough to make the most even-tempered man mad as a blaze."

"The outraged gentleman, after venting his wrath and during his madman's penning the following challenge: 'Any fool who thinks himself so smart that he can put eggs in my shoes, or hide my shoes, is hereby challenged to fight with pistols, five feet apart.'"

"After writing the above challenge, the gentleman, not at all satisfied with his ability as a successful duellist, wrote the following pathetic words to his wife: 'Am ready to die for my honor. Everything shall belong to you.'"

"When it became known who operated the egg racket, the aggrieved gentleman, who was ready to 'die' for his honor, wrote out the following address, which was witnessed and signed by half a dozen gentlemen friends: 'Belen, N. M., Jan. 29.—This is to say that if I—kills me in this duel on Jan. 30, my wish is that he shall not be prosecuted.'"

"The next morning," continued our railroad informant, "those who were on the inside moved quietly, got the principals together and they selected seconds. At 10 o'clock, that night, the two principals—the man who used the eggs being on the inside of faces—with their seconds and half a dozen intimate friends marched to an open lot near John Becker's flour mill. Pistols were handed the principals, and they were thoroughly examined, and the men stood with their backs to each other. They then stepped off ten paces, and after wheeling fired simultaneously. The aggrieved gentleman saw his antagonist fall, clapping his hand to his left side. The seconds of the latter picked him up from the ground and carried him gently to his room. The hero of the field of honor, although regretting that he had to spill blood to avenge a wrong, stated that he heard a bullet whistle past his ears and, to show his gratitude, took the party to a resort for liquid refreshments."

"As he and the invited guests were imbibing over the former's excellent marksmanship, the supposed injured duellist stepped in unharmed."

"Explanations then followed, both principals shook hands, and everything is now serene at Belen."

The seconds in arranging the pistols, extracted the bullets, but the gentleman whose feet smashed the eggs in his shoes did not know otherwise, and was in dead earnest, for when his opponent fell he exclaimed: 'My God! have I killed him? I only wanted to shoot him in the legs.'"

INVALID PENSIONS.

House Committee Favors the Veteran Pensioners of the Late War.

Washington, Feb. 10.—The contest which has been waged in the house committee on invalid pensions ever since the assembling of congress on the question of barring from the pension rolls the widows and children of soldiers who marry hereafter, came to an end today in the defeat of the proposition. The measure was introduced by Representative Samuel Smith, of New York, and it had the endorsement of Commissioner of Pensions Evans. The question has been agitating the committee at all of its meetings and today after a very spirited discussion Representative Norton (Dem., Ohio), brought it to a sudden close by demanding a vote on the question favorably reporting it to the house. The vote disclosed five members of the committee in favor of it and seven against it, the decision was as follows: Yes—Ray, New York; Warner, Illinois; Henry, Connecticut; Smith, Michigan; Republicans, Driggs, Democrat, New York; Nye-Sullivan, New York; Kerr, Ohio; Gibson, Tennessee; Sturtevant, Pa. Republicans; Norton, Ohio, Democrat, and Botkin, Kansas, and Castle, California, populists.

Heavy Rain.

Kansas City, Feb. 10.—An exceptionally heavy rain and wind storm prevailed in western and southern Kansas and southern Missouri and the territories last night. The telegraph wire protested in many instances, but up to 1 o'clock to-day no reports indicating what other damage, if any, was wrought, have been received.

A Valuable Gift.

There is on exhibition at the Bank of Commerce a fancy German bed blanket, woven by Navajo squaws, and valued at about \$75. Pinned to the blanket is a photo showing the squaw at work, and the following words: "Donated to Commercial Travelers' Fair. Alfred

MINISTER DE LOME!

Spanish Minister Criticizes Acts of President McKinley.

He Will Be Given His Passports to His Own Country.

The Attack on the Pension Laws Defeated in the House.

JAIL DELIVERY IN KANSAS.

Washington, Feb. 10.—The state department this morning gave out for publication the substance of a cablegram sent yesterday to Minister Woodford, our minister to Madrid, in reference to the De Lome letter.

This statement follows: "There appeared in the public prints a letter addressed by the Spanish minister to the United States. It contained expressions concerning the president of the United States of such a character as to end the minister's usefulness as the representative of his government in this country. General Woodford therefore was instructed to at once say to the minister of state that the immediate recall of Minister De Lome is expected by the president." It is stated that up to this time no response has been received from the Spanish government. Up to 10 o'clock Minister De Lome had not received from the Spanish government an acceptance of his resignation, but it is believed that this soon will be given and that the minister's official connection with the government as the Spanish representative to the United States will come to a prompt termination without the necessity of action by this government in giving to the minister his passports. Senator De Lome regards himself as now a private citizen although technically still the Spanish representative.

DE LOME RESIGNS.

Madrid, Feb. 10.—At a meeting of the Spanish cabinet held to-day under the presidency of the queen regent, the minister for foreign affairs, Senor Gallon, read a dispatch from Senor Dupuy de Lome saying that the published letter to Senor Canalejas was written by him and tendering his resignation. The cabinet decided to accept the resignation and he was so notified, the legation to be entrusted to the first secretary.

Others of the L. A. W.

St. Louis, Feb. 10.—The following ticket was elected by the L. A. W. convention: President, Isaac B. Potter; first vice president, Thomas J. Keenan, Penn.; second vice president, E. M. Hines, Michigan; treasurer, James C. Tattersall, New Jersey.

Providence, R. I., was selected as the place to hold the next annual meeting of the national assembly.

Jail Delivery.

Emporia, Kan., Feb. 10.—A daring jail delivery occurred at the county jail here to-day. Twelve prisoners made a dash for liberty, the leader throwing red pepper into Sheriff O'Connor's eyes. Fred Jobs (colored), a burglar sentenced to the penitentiary for ten years, and Harry Freeman, thief, escaped. Before the others could get past the outer gate, Mr. O'Connor came to the blinded sheriff's assistance and drove the men back to the cells at the point of a revolver.

Proceedings of the Senate.

Washington, Feb. 10.—General William Booth, of London, founder of the Salvation Army, acted as chaplain at the opening of the senate to-day.

Frye, of Maine, reported favorably from the committee on commerce a bill to amend the laws relating to navigation. The proposed bill relates only to Alaskan waters, he said, and demanded prompt action. The bill passed without discussion. The Indian appropriation bill was then taken up.

Kansas City Market.

Kansas City, Feb. 10.—Cattle—Receipts, 3,500; market steady to strong. Texas steers, \$2.00@4.40; Texas cows, \$2.00@3.50; native steers, \$3.50@5.25; native cows and heifers, \$1.50@4.30; stockers and feeders, \$3.50@5.00; bulls, \$2.40@4.50.

Sheep—Receipts, 2,000; market firm. Lambs, \$3.75@5.50; muttons, \$3.50@4.25.

Japan Takes a Slice of China.

Paris, Feb. 10.—Official advice received by the foreign office from Peking says that Japan has notified China that she intends to keep Wei-Hai Wei permanently.

Copper.

New York, Feb. 10.—Copper, 10 3/4.

Leave orders for electric bell work at the office of the Colorado Telegraph and Telephone company, room 2, First National bank building.

THE BIG STORE!

SEE THE NEW SPRING GOODS

That are being shown exclusively by the Big Store. The latest modes in both Foreign and Domestic Dress Goods and Silks. The newest things in Notions. The nobbiest things in Summer Dress Goods. The Prettiest Muslin Underwear and the largest and most complete assortment of White Goods ever shown in this city.

New Goods Arriving Daily.

Dress Goods.

They are prettier than ever this Season. Beautiful plaids, handsome covert and other cloths for tailor-made suits. Black goods in endless variety. Plain brocades and fancy weaves. New bicycle suiting, etc.

Muslin Underwear.

We shall continue the sale of white goods and muslin underwear for one more week. New lines have been added so that you can still get an elegant assortment. This is positively the last week of the sale.

Notions.

Everything new in this line will be found here. Full line of the new military and jewel belts, hair pads in wire and human hair, invisible hair nets, invisible hooks and eyes, the Elite Bustle and full line of the new carved pearl buttons.

Outing Flannel.

Something new, looks equal to the finest French Flannel, new and beautiful designs in plaids, checks, dots and all-over patterns at 11c per yard.

Sweaters.

We have them for men, youths and boys. Big assortment, all prices, up from 25c.

Boys' Clothing.

This will interest mothers, and when you see the quality and small price it will be doubly interesting. Boys' suits, age 4 to 15 years, at \$5c, \$1.50, \$2.50 and \$3.00, worth 1/2 more. See window.

Whitney Company.

Shelf and Heavy Hardware, Furniture, Carpets, Crockery, Glassware, Lamps.

 ALBUQUERQUE, FEBRUARY 10, 1908

Of the \$250,000 postal money orders issued under the new system, only \$200 in fraudulent orders have been reported.

The longest trial came to an end in Chicago yesterday, and the defendant was found guilty by the jury and sentenced to the penitentiary for life.

The consolidation of the two daily newspapers at Las Vegas is a sensible move. The town could not maintain two good papers, but will give one a liberal support.

MAYOR VAN WYCK has found official places for thirty of the thirty-five Tammany district leaders in New York, with an average salary for each \$7,300, a total of \$219,000 a year.

ONE man at least has gone crazy and is locked up in a New Jersey asylum for allowing his brain to become puzzled over the problem whether the twentieth century begins in 1900 or 1901.

THE home mission board of the Presbyterian church has issued an earnest appeal for increased donations. It is stated that since October the receipts have fallen off very much, especially in the eastern synods.

HARPER'S WEEKLY has recently become one of the dirtiest union soldiers hating papers in the country, and its slanderous articles are gleefully copied by nearly all the democratic press—particularly in New Mexico.

MEXICO has been manufacturing cotton goods for centuries, the first cotton mill on a considerable scale having been established in Puebla by an enterprising Spaniard in the sixteenth century, not long after the founding of that city.

NEW MEXICO furnished the Union army 6,501 soldiers during the late war, and has 1,457 pensioners, men, women and children, and yet all the old soldiers in New Mexico if we are to believe the democratic (copperhead) press are "pension frauds."

THE county officials, boards of trade, school boards, and leading citizens of the territory should petition congress to grant public lands in aid of the public schools of New Mexico. This is an important matter, and Delegate Ferguson should be assisted by the people of the territory.

CANADIAN regard for the United States finds characteristic expression in an ordinance which has just been adopted by the municipal council of Toronto providing that no alien, and particularly no American citizen, shall be employed in the public works of that city.

ONE of the uses for which balloons may be employed is the investigation of the sea bottom. It has been found by aerostats that frequently the bottom is clearly visible from a balloon through the water. This fact has recently been made use of to recover a torpedo boat which had been lost off Toulon. Not only was this found but also two others which had vanished at an earlier date.

THE Sisters of Notre Dame de Namur were founded in 1804 at Amiens, France, by the venerable Mother Julie Billiart, and Rev. Mother St. Joseph (Viscountess de Geslaincourt) under the direction of the fathers of the Society of Jesus. The first community in the United States was established at Cincinnati in 1840, and this continues to be the mother house in this country, though there are two other novitiates of the institute in America, one at San Jose, Cal., and the other at Waltham, Mass.

THE NEW SOUTH. One of our citizens is in receipt of a letter from a mining town, a short distance from Birmingham, that tells in part what is being done there in the way of property since the passage of the Dingley law. From the letter we are permitted to make the following extracts: "There is no change in the condition of business here since I last wrote. Everything is in a very prosperous state, the coal and iron trade especially so, despite a very mild winter. Our new cotton mill, the Indian Head, at Cordova, commenced operations a week ago. It is a magnificent structure, four stories high, and filled with the latest improved spinning and weaving machinery. It has a capacity of 100,000 bales of cotton per annum. I feel it will be very successful because of the natural advantages it enjoys. It is located in one of the finest cotton growing valleys—the Warrior—in Alabama, and gets its fuel within a stone's throw from the boiler room. The state also exempts such industrial enterprises from taxation for ten years. With such conditions existing here one need not wonder at the trouble the New England cotton workers are encountering to protect and refit their trade."

PASSENGER VS. FREIGHT TRAFFIC. In a recent issue of the Railway Age is published the following, based upon the last report of the Interstate Commerce commission: "Last year the railways of the United States carried over 13,000,000 passengers one mile. They also carried 95,000,000,000 tons of freight one mile. The total amount paid in dividends on stock was \$76,937,371—call it \$76,000,000. Of the total earnings of the railways about 70 per cent. came from freight service and 30 per cent. from passenger service. Let us assume, then, that

of the \$88,000,000 paid in dividends, 70 per cent, or \$61,600,000, was profit on freight service, and \$26,400,000 was profit on passenger service. Let us drop freight and call it \$26,400,000 from freight and \$26,400,000 from passengers. By dividing the passenger profit into the number of passengers carried (13,000,000,000) we find that the railways had to carry a passenger 500 miles in order to earn 1 cent of profit—or five miles to earn 1 cent. Their average profit, therefore, was less than two-tenths of 1 cent for carrying a passenger (and his baggage) one mile. By dividing the freight profit into the freight mileage (95,000,000,000) we find that the railways had to carry one ton of freight 1,530 miles in order to earn \$1, or over fifteen miles to earn 1 cent. The average profit, therefore, was less than one-fiftieth of a cent for carrying a ton of freight (besides loading and unloading) one mile."

OFFICIAL RETURNS recently issued show the imports of France for 1897 to have been 4,000,000,000 francs, as compared with 3,795,570,000 francs in 1896. The exports for 1897 were 3,675,614,000 francs, compared with 3,490,920,000 francs during the previous year.

The discovery of the Day. Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures coughs, and it is the best I have."

J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it cures colds, coughs, and all the troubles of the chest. I cannot say enough for its merits." Dr. King's New Discovery for consumption, coughs and colds is not an experiment. It has been tried for a quarter of a century, and to-day stands at the head. It never disappoints. Free trial bottles at J. H. O'Reilly & Co.'s drug store.

Private Land Claims. In commenting on the court of private land claims, the Phoenix Republican says: "It is not known when the next session of the court will be held. There are seventy-five New Mexico cases and seven in Arizona to be tried, after which the court will pass out of existence and be as the things that were. All the cases so far tried and still in dispute are now in the supreme court of the United States and will be heard at its next session. These cases embrace in one form or another all questions that can arise in the cases still remaining for trial, so that the supreme court decisions in the cases before it will apply to the cases tried, greatly simplifying the business of the land court. The date of its convening will be announced soon after the supreme court decisions have been rendered."

RECORD BULLETINS. Division Superintendent Hurley Ephraim, the Brown System. Bulletin 104—Recently an engineer on this division derailed switch engine in a terminal yard, did not observe that the switch was against him, although he should have done so. He has been suspended ten days.

Bulletin 105—Recently a conductor on this division delayed a freight train unnecessarily for lunch. Upon investigation it was found that more time was consumed for lunch and the delay was incorrectly reported. For this the conductor has been suspended ten days.

Bulletin 106—Recently a conductor on this division delayed a freight train ten minutes visiting around telegraph office. He has been suspended ten days.

A GOOD LETTER. From the Clerk of the Circuit Court, Fernandez, Fla., Feb. 28, 1896. Mr. George Shuler, Druggist, City: Dear George—Please send a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable remedy in the house. I have given it a fair test, and consider it one of the very best remedies for cough that I have ever found. One dose has always been sufficient, although I use it freely. Any child or children contract very readily to this medicine, and I can conscientiously recommend it for cough and colds in children. Yours respectfully, GEO. E. WOLFF.

Hotel Arrivals. GRAND CENTRAL. Miss Fannie Shrank, Wardville, Pa.; James Ferrell, Chicago; A. S. Grant, Los Angeles; L. N. Cook, Denver. STURGES' EUROPEAN. C. A. Dallas, Charles Reinken, W. Spechtman, Henry Kestinger, Las Vegas; D. L. Goodhart, Los Angeles; W. Mills, Needles; W. K. Grogan, San Francisco; H. M. Keller and wife, South Dakota; John Kitch, Thomas F. Jones, Carroll; J. T. Jones, Kinsley, Kan.; Montague Stevens and wife and Miss Reed, Magnolia, Kan.; William K. Kitch, Carroll; Otto Kaiser, C. W. Smith, Los Angeles; J. C. Anderson, Chicago; C. M. Fairchild, J. Sullivan, St. Louis; Mrs. A. M. Berger, Los Angeles; J. F. Kier, Baton; C. O. Wiggins, Philadelphia; F. E. Beatty, Fort Wayne, Ind.; L. L. Romero, Las Vegas.

THE NEW SOUTH. One of our citizens is in receipt of a letter from a mining town, a short distance from Birmingham, that tells in part what is being done there in the way of property since the passage of the Dingley law. From the letter we are permitted to make the following extracts: "There is no change in the condition of business here since I last wrote. Everything is in a very prosperous state, the coal and iron trade especially so, despite a very mild winter. Our new cotton mill, the Indian Head, at Cordova, commenced operations a week ago. It is a magnificent structure, four stories high, and filled with the latest improved spinning and weaving machinery. It has a capacity of 100,000 bales of cotton per annum. I feel it will be very successful because of the natural advantages it enjoys. It is located in one of the finest cotton growing valleys—the Warrior—in Alabama, and gets its fuel within a stone's throw from the boiler room. The state also exempts such industrial enterprises from taxation for ten years. With such conditions existing here one need not wonder at the trouble the New England cotton workers are encountering to protect and refit their trade."

PASSENGER VS. FREIGHT TRAFFIC. In a recent issue of the Railway Age is published the following, based upon the last report of the Interstate Commerce commission: "Last year the railways of the United States carried over 13,000,000 passengers one mile. They also carried 95,000,000,000 tons of freight one mile. The total amount paid in dividends on stock was \$76,937,371—call it \$76,000,000. Of the total earnings of the railways about 70 per cent. came from freight service and 30 per cent. from passenger service. Let us assume, then, that

CONSUMPTION CAN BE CURED!

Dr. Shepard, Famous Lung Specialist, Opens an Office Here.

TESTIMONIALS FROM CURED PEOPLE.

It will be cheering and encouraging news to the people of this city and surrounding country to learn that Dr. W. A. Shepard, of Kigin, Ill., who has devoted a lifetime to the treatment and cure of consumption, has established a permanent office in Albuquerque, and it is located on the first floor of the Commercial Club building. Dr. Shepard's main office is now in Denver, and he has selected Dr. H. W. Stettin, whom he regards as the most capable of his corps of physicians, to have charge of the office in this city. That Dr. Stettin is eminently qualified for the position will be seen from the fact that Dr. Shepard gave him entire charge of the Denver office while they were treating 100 patients. Dr. Stettin is a graduate of the Rush Medical College, of Chicago, the College of Physicians and Surgeons, of the same city, and the Chicago Homeopathic college. After graduation he was instructor in Rush on the diseases of the nose, throat and lungs.

Dr. Shepard selected him above all others for this post for the reason that he expects the office in Albuquerque will become in time the most important of any in the United States. Dr. Shepard knows from personal experience the highly beneficial qualities of New Mexico climate and that the dread disease of consumption can be treated here better than in Colorado or in fact any other place in the whole country. He is already making preparations to send a number of patients from the north to this city for treatment.

Owing to the deep and widespread interest manifested by our readers in the Shepard treatment, whose almost miraculous cures of consumption have been heralded abroad by the Associated Press, a reporter of THE CITIZEN called on Dr. H. W. Stettin and Dr. R. L. Lovelace, who is Dr. Shepard's business manager for the southwest, at their commodious offices in the Commercial Club building, and asked them for the history and the nature of Dr. Shepard's method of curing consumption.

The gentlemen very accommodatingly complied and the following facts were learned: Consumption was hereditary in Dr. Shepard's family, and he himself was affected with the disease. He thus commenced early to study it in the hope of discovering some cure for it and has practically made it a life study. The treatment he now uses was not developed until when, in New Mexico, he was trying to get rid of the disease in his own system. In studying the effect of a high altitude on the disease, he concluded that it could only at best be temporarily cured by the effect of altitude, for the reason that, while patients seemed to get well, the disease remained in their lungs and would break out as soon as they were exposed to low altitudes again. He then began experimenting with a view of healing diseased lungs perfectly and permanently. He succeeded in doing this by the use of an instrument, which he invented at the time, together with certain combinations of remedies used with the instrument, which is called a spirometer.

The principle on which it operates sets the lungs into activity in all the cells, so that the action of each cell may be normal and healthful and the vitalizing air reach every diseased part, no matter how small. This air is medicated by means of the spirometer, and the medicines, which are varied so as to adapt them to each case and the different stages of the disease, come in actual contact with the diseased tissues. These two principles of the treatment must command themselves to every one who has a knowledge of the structure and function of the lung. First, the introduction of air into every diseased cell in all the affected parts. Second, the touch of the medicines to the very parts to be healed. The properties of the medicines themselves are adapted to removing the diseased tissue, to assist in bringing it off and then to healing the part relieved, leaving the lung in a sound and healthy condition.

This being the theory and history of the treatment, the reporter inquired how it had resulted in practice for the reason that many beautiful theories fail to pieces when practically tested. If anything were wanting to give one faith in the efficacy of the treatment as a cure for consumption in its first and second stages, and sometimes in the last stage, it would be removed with the personal knowledge of many written testimonials which can be seen at the office in this city.

As a sample of hundreds of others, the following are from answers received to inquiries sent out by the Denver Republican and published in that paper: KIGIN, ILL., Nov. 19, 1897. The Denver Republican. Gentlemen—Yours of the 17th inst. at hand. Yes I have had actual experience with it. I was in consumption four years ago and Dr. Shepard cured me. I had a brother and sister die with the dread disease. I am perfectly well now and think I have gained forty pounds. I cannot speak too highly of the Shepard cure. Respectfully, Mrs. HAYNES.

Fort Madison, Iowa, Feb. 10, 1897. Office of County Recorder, Lehigh County, Pa.: Fort Madison and Keokuk, Iowa. Dear Sir—In reply to yours of the 17th inst., I will say that I have used Dr. Shepard's treatment for consumption in the case of my wife and am happy to say it cured her of that dread disease. The doctors here considered her case hopeless before I tried Shepard's method. She is now doing her own housework and is as well as she was before she contracted consumption. I can recommend it most heartily to anyone who has weak lungs. Very respectfully, J. W. PAGE.

No. 142 South Street, La Fayette, Ind., Nov. 19, 1897. The Denver Republican. Gentlemen—I have been under Dr. W.

Princeton football team. They will soon join in Silver City for a few weeks, when they will leave for California, where a position as instructor of athletics awaits Mr. Cochran at Berkeley university. The normal is progressing nicely in all its departments. The attendance is a steadily increasing. Arrangements are being made to hold a summer school, announcements of which will be made later. Visitors are always welcome and it is the duty of citizens to inspect the workings of the institution. J. L. Vaughn was in from his Mimbres ranch last week, attending to matters in connection with the estate of his son, Estelle, deceased. Mr. Vaughn is one of the old timers of Grant county, and one of her very best citizens. Silver City will soon have a local orchestra. Mrs. L. B. Morrill, R. P. Barnes, John Kosky, Robert Golden and Prof. Koch have organized for such purpose and are rehearsing regularly.

TO USE STRONGER TRUCKS. Santa Fe Will Equip Their Dining Cars similar to the Pullman. The dining cars of the Santa Fe will be equipped with the six-wheel standard trucks, such as the new railway postal cars were fitted with, and which have given excellent satisfaction. The dining cars at present are all fitted with six-wheel trucks with 4x7 journals. The new standard six-wheel trucks have 4 1/2 x 7 journals. The dining cars are the heaviest in service excepting the postal cars, and some of the private cars, and it is thought wise to use stronger trucks. The new standard trucks have a larger platform than the ones now in use.

Highwaymen on Wheels. A wheelman of west 44th street, New York, was attacked, robbed and left senseless by two highwaymen mounted on bicycles in Central Park. Repeated accounts of robberies by men mounted upon wheels have appeared in the papers in various parts of the country. The persistence of the health, diseases of the kidneys and bladder, will likewise escape arrest, and pursue their atrocious career unchecked, unless they are arrested by the potent intervention of Hostetter's Stomach Bitters, the finest diuretic, as well as tonic, known to modern times. It is at the start of disease is more easily overcome. The use of the Bitters is followed by the happiest results in dyspepsia, liver complaint and nervousness.

Our City's Lady Aid. In the voting count, so far as known at the Santa Fe office, the votes stand: Mrs. Lewis, 10; Mrs. Renahan, 7; Mrs. Berta Hart, 7; Miss Belle Hild, 5; Mrs. Prince, 5; Mrs. Styles and Mrs. Otero 3 each; Mrs. King, Mrs. J. W. Reynolds and Miss Albright 2 each and a considerable number scattered. The time has been extended for a week and it is believed that the heavy voting is now about to begin, says the New Mexican.

THE MODERN WAY. Comments itself to the well-informed, to do pleasantly and effectively what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Made by California Fig Syrup Co.

Getting Along Nicely. News comes from Las Vegas that, after making careful examination of the gunshot wound in the leg of Colonel R. K. Twitcheil, the physicians in charge of the railroad hospital at Las Vegas, Doctors Shaw and Smith, said that the injured member was getting along very well and that an operation to remove the bullet was not necessary at present. Mr. Twitcheil was then moved back to his residence from the hospital. He expects to leave for Topeka in a few days, where the ball will be exactly located by means of the X-ray and quickly removed. Mr. Twitcheil, who was recently seriously ill with pneumonia, is reported much better.

From every where come words of praise for Chamberlain's Cough Remedy. "All I have to say is that I have been cured of my chronic bronchitis when the doctor could do nothing for me," Charles F. Hemel, Toledo, Ohio. For sale by all druggists.

FLUISHING. For a good job go to K. J. Post & Co.; they employ competent mechanics from the east.

Poor Digestion. Leads to nervousness, fretfulness, peevishness, chronic dyspepsia and great misery. Hood's Sarsaparilla is the remedy. It tones the stomach, creates an appetite, and gives a healthy action to all the organs of the body. Take Hood's for Hood's Sarsaparilla. Hood's Pills become the favorite cathartic with every one who tries them. 25c.

Root on the Other Leg. United States Attorney W. B. Childers, who represented the government in the Klepshalt case, is now representing a canal company in a suit at Albuquerque, in which distinguished counsel is arguing from premises directly opposite from which he argued the government case. Childers argues that his clients have made surveys for an irrigation canal and exercise the right of eminent domain as a public corporation.—El Paso Herald.

Buckley's Arnica Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, ringworm, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay. It is guaranteed to give perfect satisfaction or money refunded. Price, 25 cents per box. For sale by all druggists. J. O. O'Reilly & Co.

Mrs. A. M. Berger, who was at Santa Fe, came in from the north last night and has her name on the Sturges' European register. According to all reports, although not officially announced, Mr. Berger will be the district clerk under Judge McElie at Santa Fe.

Awarded Highest Honors—World's Fair, Gold Medal, Midwinter Fair. DR. PRICE'S CREAM BAKING POWDER. A Pure Grape Cream of Tartar Powder. 40 YEARS THE STANDARD.

Don't delay buying too long, as the supply is limited.

Our Special Clothing Sale is Still On.

Simon Stern,

THE RAILROAD AVENUE CLOTHIER.

n-w foreman of the car department of the Santa Fe Pacific shops, who succeeded John L. Andrews, recently transferred to San Bernardino.

John P. Irby, a brakeman on the Santa Fe, has retained A. H. Wyoff to bring a suit against the Atchison, Topeka & Santa Fe railroad for \$25,000 for injuries to his spinal column which he received July 17, 1905, by a train going through a defective bridge in southern Colorado and from a fall which he incurred at Socorro August 26, 1907, on account of a rotten hand hold, which aggravated the former injury of the spinal column.

Charles E. Cain, who was quite badly injured February 4 by an electric light pole, which he was climbing, breaking and falling down, is able to be around on crutches to-day. He has retained Attorney Wyoff and negotiations are now pending with the Electric Light company for a settlement.

Attorney A. H. Wyoff and A. J. Mitchell have rented the front rooms in the Cromwell block, formerly occupied by Max Becker, and will convert them into law offices. No co-partnership has been formed between them as yet, and they will simply occupy common offices.

Miss Helen Herzog, of New York, who has been spending a few days in this city, left last night for San Bernardino, Cal. She will spend a few months visiting on the coast, when she expects to return to Albuquerque.

A man by the name of Timmitis was brought in from the tunnel last night and taken to the hospital. He is only slightly injured.
