THE STOCKGROWERS!

Convention Closed With Grand Buffalo Barbecue.

Secretary Wallace Read a Paper on the Sheep Industry.

Snow Tractor Locomotive Invented to Bring Supplies to Klondike.

CITY OF DULUTH STRANDED.

Denver, Jan. 27.—The National Stockgrowers' convention closed to-day with a grand barbecue at the Union Stock Yards. Thousands attended. It was probably the last barbecue that ever will be given at which buffalo will be a feature of the menu. The bill of fare contained buffalo, elk, antelope, quail, 'omum and other game as well as beef, pork and mutton in large quantities. Hundreds of waiters were kept busy for hours attending to the wants of the guests. Secretary Wallace, of New Mexico, read before the convention an exhaustive history of the sheep industry in the United States.

Several papers on the program for the morning session were postponed to give time for the election of officers. An executive committee was selected with permission that the governors of states not represented be empowered to appoint members for their states. The Arizona member is Colonel Alfred S. Duran; New Mexico, W. C. McDonald.

Denver was chosen unanimously as the place of meeting of the National Live Stock association next year.

A resolution was adopted instructing the executive committee to endeavor to devise ways and means to erect a stockgrowers' building at the Omaha exposition.

The committee on resolutions made a report which was adopted. It touched upon governmental duty to stockgrowers and upon anti-rustification bill.

The resolution favoring the cession of arid lands to the states was defeated.

The paper by Henry Wallace, Des Moines, Iowa, on "dairy interests," was presented. Adjourned sine die.

A STEAMER STRANDED.

City of Duluth on Sand Bar in Lake Michigan—Heavy Loss.

Chicago, Jan. 27.—A telegram received by the Lake Michigan and Lake Superior Transportation company, owners of the steamer, City of Duluth, which went ashore in a gale off St. Joseph, Mich., last night, says the passengers and crew, numbering forty altogether, were safely landed to-day. The City of Duluth lies on a sand bar about 150 feet from shore. The steamer burst owing to the swelling of her cargo of oats. The steamer and cargo were valued at \$100,000 with insurance of \$70,000 on steamer and \$10,000 on cargo.

Mrs. William Tryon, one of the ladies rescued, is dying from the effects of exposure.

SNOW TRACTION LOCOMOTIVE.

Invented by Chicago Man to Bring Supplies to Klondike.

Chicago, Jan. 27.—George T. Glover, a Chicago inventor, has solved the problem of getting supplies into the Klondike region this winter by means of his snow traction locomotive. Seven locomotives are building in Chicago and New York, and thirty-two freight and passenger cars will be made at Portland, Oregon, for this work. They will be at Dyes by February 1 and will start for Dawson City over the Dalton trail.

MRS. L. L. WYATTE!

Her Creditors Here Anxiously Waiting Remittances.

An English Gypsy's Experience in the Act on Third Street.

Another Reduction Plant for the Golden District of Cochiti.

OTHER LOCAL HAPPENINGS.

"Where is Mrs. L. L. Wyatt?" is a question asked by several of the lady's creditors in this city, for the reason when she closed her "beauty parlors" on West Gold avenue, some time in December last, and left for the north, she faithfully promised to send remittances within ten days to be applied to her accounts left unpaid; but as she has been absent twice ten days and more, and no remittances have been received, it is beginning to dawn upon the creditors of the lady in this city that she has flown out of their reach and has completely managed to forget her "promises to remit."

A prominent grocery merchant, upon whom Mrs. Wyatt called at 5 o'clock in the afternoon of her departure and promised to send him the amount of her bill, became tired waiting and wrote to Las Vegas to ascertain if Mrs. Wyatt was there, and here is the substance of a letter received this morning:

"Your Mrs. L. L. Wyatt did not stop in East Las Vegas more than one week. She left several small bills unpaid. I had heard from her she was in Santa Fe and going south. I am sorry I can't help you."

AN ENGLISH GYPSY.

Sells Jewelry and Has a Gay Time in the Act.

A few days ago a woman, giving her name as Mrs. Henry Goldberg, secured a license from City Clerk Trimble to peddle jewelry. She is an English gypsy who is living with her husband in a tent about three miles east of the city. After disposing of some of her wares day before yesterday she drifted into the Act, where she found congenial companions. She looked freely upon the wine when it was hot, spent the night in revelry and had a red time generally. Yesterday her fornicous wife sent a messenger to Marshal Covert asking him if he had seen anything of his wife and the latter sent word to him that he had. Mr. Goldberg, who is an uncouth swain, dressed in a corduroy suit, a small cap and a pair of moccasins, hastened to the city and accompanied by the marshal he went out to search for his wayward companion, who was found in one of the houses on the Act. The marshal notified her that if she did not leave the city within five minutes he would lock her up. This threat had the desired effect and the peculiar couple made hasty steps in the direction of their camp.

They came into this country on foot a short time ago, accompanied by a burro and a dog, and pitched their tent on the other side of the slaughter house. The husband says he is wandering over the country in this manner for his wife's health, who, he says, is suffering from heart trouble, and the wife appears equally solicitous about the health of her husband.

ANOTHER REDUCTION PLANT.

Will be Erected at Crown Point Group of Mines.

O. P. Posey, of Los Angeles; J. A. Coram, of Boston, and William Bagby, of Denver, are at Bland. The first two gentlemen were the principal promoters of the deal in which the Albemarle group of mines was transferred into the hands of the Cochiti Gold Mining company, and also the sale of the No. Name, Crown Point and Victor group to wealthy Boston capitalists. Mr. Bagby has been associated with Mr. Posey for a number of years in the Tom Boy mine in Colorado up to the time that it was sold to a syndicate of English capitalists for \$2,000,000, and he is still a director in the Tom Boy company. It is rumored that he is interested with Mr. Posey in his Cochiti deals.

It is understood that these gentlemen are in Bland for the purpose of making some contracts for development and construction work, the handling of the machinery for the mines and mills from Thornton to Bland, the erection of boarding houses, etc. It is also reported that a second steel reduction plant will be erected at the Crown Point group in addition to the one at the Albemarle.

The Summer School for 1898.

The summer school has come to be a recognized factor in higher and professional education and affords to teachers and busy professional men their only opportunity for change with rest and the renewal and quickening of the intellectual life. The authorities of the university have been for some months busy with plans for a summer school of science and pedagogy on a scale heretofore never projected in the territory or the southwest. Though the faculty is overworked, it has unanimously decided to give a month of the vacation to this purpose and a fine array of talent from the outside will co-operate. There will be courses of popular scientific lectures, illustrated by projections, specimens and charts, covering interesting fields of modern scientific investigation, and also there will be laboratory courses in science under the guidance of experts in biology, geology, mineralogy, chemistry and bacteriology. Field work and excursions will diversify these courses, and out-door lectures at points of interest will illustrate modern methods of object teaching. These lectures are designed for clergymen, doctors, lawyers and other professional men who desire to combine rest and intellectual

PERMANENT CAPITAL!

House Passes Bill Making Santa Fe Permanent Capital.

Senate Working on the Anti-Scalping Railroad Bill.

Vote to Be Taken To-Morrow on the Teller Resolution.

PRESIDENTIAL NOMINATIONS.

Washington, Jan. 27.—The house passed a bill making Santa Fe the permanent capital of New Mexico. The foreign affairs committee reported, with a recommendation that it lie on the table, the Lewis resolution calling upon the president for authority under the constitution under which he negotiated the treaty that will bind the treasury to pay \$4,000,000 to Hawaiian bondholders. The democrats manifested a desire to discuss the report, but were not permitted to do so.

Daniels made a legal argument in support of the Teller resolution, holding that the law never contemplated giving the government's creditors an option as to the kind of money to be paid. The creditor would naturally pick that dollar which was most valuable to him, but if he did not know which he would receive he would do his utmost to maintain the parity of all dollars.

The report was adopted and the resolution laid on the table 143 to 101. Quigg, republican of New York, as a question of privilege, replied to Lord's charges, made yesterday during the controversy over the appropriation for letter carriers, that he (Quigg) stated what was untrue when he said a prospective deficiency was the exact sum which the appropriation in the current law was below the estimate of the department.

Lord declared that he stood by his statement.

THE INDIAN APPROPRIATION PROVISION BILL.

For the allotment of the lands of the Uncompraghe Indian reservation of Utah and the lease of the Gilaonite lands was ruled out of the bill on a point of order made by King, democrat, of Utah.

PRESIDENTIAL NOMINATIONS.

Washington, Jan. 27.—The president to-day sent the following nominations to the senate: Julius Jacobs, assistant treasurer, San Francisco; Hart H. North, commissioner of immigration, San Francisco; Hamilton Glover Ewart, district judge, western district of North Carolina.

WHY VOTE TO-MORROW.

Washington, Jan. 27.—The Teller resolution was laid before the senate and after considerable discussion it was agreed that a vote be taken to-morrow at six o'clock, the last four hours debate to be under the fifteen minute rule.

WHAT \$1.00.

Chicago, Jan. 27.—Shorts in wheat were given another surprise to-day. Shortly after noon the brokers for the Letter crowd, credited with selling May wheat earlier in the day, commenced crowding the January price, and that delivery touched \$1.05 amid considerable excitement.

Want Him to Resign.

Frankfort, Ky., Jan. 27.—After a hot debate in the lower house the Kentucky legislature adopted a resolution calling on United States Senator Lindsay to resign if he cannot support the democratic platform. During the debate such words as "party traitor," "recrunt to his trust" and "gold bug" were freely used.

Returns to Work.

Boston, Jan. 27.—The frame splitters of the Fall River Iron Works mills have returned to work.

At about 11 a. m. to-day the office of the burial of the dead was called by the Rev. Mr. Bennett over the body of Charles H. Matthews—the first part at the parlors of O. W. Strong, the committee at the cemetery. The pall bearers were A. Broad, H. D. McCarthy, Ed. Reeder, S. L. Griggs, S. E. Goelie and J. S. Smith. A large number of friends attended to pay the last sad tribute of respect to departed merit, and to show their sympathy with the bereaved widow and relatives.

On January 15 a change in clerkships occurred at the retail dry goods store of James Grunfeld. Fred Lewis, who had faithfully filled the chief clerk's position at this store for several years, resigned, and Charles Neustadt, formerly a merchant of Santa Fe, appointed in his stead. Mr. Neustadt is a brother of Sam. Neustadt, the chief clerk at the wholesale dry goods store of Grunfeld Brothers.

Candied eggs, twenty cents per dozen, at the Fish Market.

SHOOTING AT CERRILLOS.

An Italian Shot Through the Breast by the Town Marshal.

A shooting affray took place at Cerrillos last evening at about 6:30 o'clock. The facts as nearly as can be learned are that Town Marshal Carr was attempting to arrest an Italian miner, who had been making himself troublesome all afternoon, when the latter drew his knife. The marshal intending to intimidate him, pulled his revolver. In so doing the trigger caught and the gun went off, shooting three fingers from Carr's hand, and the bullet entering the breast of the Italian. When the train left Cerrillos last night he was still alive, but there were doubts of his ultimate recovery.

A bounding baby Lamb—a pretty boy at that—came early this morning to gladden the household of Mr. and Mrs. A. J. Lamb, and the proprietor of the fish market is the happiest father in the city. Congratulations.

THE TUNNEL REPEATED.

Train No. 1, which will leave for the west this evening, will pass through the tunnel and No. 2, which will arrive here from Los Angeles to-morrow night will also pass through the tunnel.

The tunnel was practically in readiness yesterday, but some extra work was done to make it absolutely certain that the tunnel is as it should be, and this delayed matters somewhat.

ROMAN MEN MEET.

A Party of Gentlemen Get Together and Organize a "Driving Association."

The "Driving Association" of this city was re-organized last night by a number of the lovers of horse flesh who gathered in the parlors over the Ziegler Cafe.

Those present were W. W. Olmsted, E. E. Abel, R. H. Greenleaf, George Green, J. J. Phelan, W. A. Rankin, B. Boyle, J. Kinnaman, G. C. B. Colley and William Cook.

There were also present by proxy Dr. F. L. Pearce, W. L. Trimble, Dr. A. G. Wall and Frank E. Sturges. These gentlemen are the charter members of the association.

Mr. Olmsted moved that they organize under the name of the "Gentlemen's Driving Association," which motion was carried.

The election of officers was next proceeded with and the following were elected: R. H. Greenleaf, president; G. C. B. Colley, secretary; J. J. Phelan, treasurer. The last named was instructed to furnish a bond in the sum of \$1,000.

The president appointed a committee, consisting of Messrs. Phelan, Abel and Green, to agree on plans for perfecting the organization and to report at the next meeting; also a committee of five, consisting of W. A. Rankin, Dr. Pearce, W. L. Trimble, W. W. Olmsted and E. E. Abel, to draw up a charter and by-laws for the association; and a track committee, consisting of J. J. Phelan, W. Cook and E. E. Abel.

George Green was authorized to commence work on the race track subject to the approval of the track committee.

It was decided persons desiring to join the association should make personal or written application together with the entrance fee when the association would vote upon their election as members at a regular meeting.

The association intends to give matinees and to have a regular spring meeting. This is a consummation much to be wished, and it is to be hoped that the association will receive the hearty co-operation and support of all citizens.

The next meeting will be held Thursday, February 3, at 8 p. m., over Ziegler Cafe.

Every ditch has two sides, and the proposed new one in this county has several.
If jumping on Pedro Peres will build that ditch, everybody is invited to jump with both feet.

Money begets friends, while friends—well, there are few on your list if you have not money.

The Citizen has always tried to harm none the interests of the people of the city and county.

In this land of liberty even a Pueblo Indian has rights which a corporation is bound to respect.

There has been an increase of about twenty-five million dollars since January 1 in the value of the hogs in the United States.

The Associated Press is entertaining. It discovered that Grover Cleveland is alive and has secured an interview from him. He is still kicking.

The Citizen claims that a man has the right to defend his property in the courts without being personally abused by a newspaper for doing so.

The Fair association has published a statement showing that all the bills of last fall's exhibition have been paid in full. The expenses were \$8,565.63.

An ocean liner thirteen feet longer than the Great Eastern is on the way to Belfast. The modern Leviathan of the deep is nearly a seventh of a mile in length.

An official of the pension office estimates that simply to print the names of all the pensioners would require 700 pages of a seven-column newspaper, or 5,000 columns in all.

It got so cold at Fort Whipple, near Prescott, the other night that the official self-registering thermometer froze and broke, and "the temperature report is now taken from an ordinary instrument."

Pedro PERES holds no office in this county nor in the territory. He has never asked for a county office, and the abuse of his name by the Democrat to prejudice the people on a case pending in the courts, is not just.

Would it not have been better to have conferred with the people of the valley regarding the proposed irrigation ditch, as this citizen suggested several weeks ago, instead of adopting the present plan of ignoring their existence and trying to take their land and water rights without their consent?

When you hear an Albuquerque business man complain of hard times you can make up your mind that his name and business do not appear in the columns of THE CITIZEN—a paper that is extensively circulated in every town and mining camp in the territory, and which reaches all points a day ahead of any other paper published in central New Mexico.

The bill granting right-of-way across the San Carlos reservation to the Gila valley, Globe and Northern Railway company passed the senate the other day, and has received the approval of the president. William Garland, well-known in this city and who is president of the company, states that work will begin at Geronimo and Globe simultaneously on the new railroad.

The Democrat this morning says that the article of yesterday morning was not intended to influence the action of the court. Then why was it written? Why did the writer single out, among the hundreds of valley farmers, Hon. Pedro Peres and make a personal attack on him, when it is known that Judge T. C. Gutierrez, a life-long democrat and whose name was not mentioned, led the first party of farmers who stopped the surveyors trespassing on their lands?

Among the many educational institutions of Washington is a normal college for the education of Sunday school teachers, which recently commenced its ninth year with an enrollment of 19,186 students, who are distributed in all parts of the United States. In the same connection there is a school for the instruction of Bible readers which has an enrollment of 1,491 pupils. Both of these institutions are under the care of the American Society of Religious Education, and their object is to improve the efficiency of Sunday school teachers by giving them what have assumed or may assume such responsibilities a special preparation. The college offers a two years' course, the work of which is divided into weekly sessions, forty weeks in the year, and may be easily undertaken by busy people.

THE YUKON RIVER.
The "Mississippi of Alaska" has a history and a topography peculiarly its own. Although its course has been explored for years, and while men have been traveling over its broad surface ever since 1866, it is still full of surprises for the unwary navigator. The stream is full of shoals throughout its entire length, and its rapids are numerous. It has important tributaries, and when a flood strikes one of these the Yukon, if frozen, is broken up for many miles. One curiosity in its large stream is that it is shallow to its

very mouth. Ocean steamers cannot go within sixty miles of the enormous delta which opens out upon Bering sea. River travel must be accomplished by light vessels in summer and by sledges in winter. The scenery is indescribably dreary, and at the mouth of the river most of the land is submerged so as to prevent the prospect of an inland sea. The explorer must travel for days through a desolate territory. If he manages to steer clear of the shoals he still has to keep an eye open for the ice formations which may stop his progress late or early in the season. In the summer forest fires may suffocate him and mosquitoes make his life a burden.

NOTHING is more conclusive as to the business condition of the country than the comparative bank failures of 1897 and previous years. Bradstreet's statistics show that the failure of national banks, state banks, savings banks, private banks and loan and trust companies for 1897 were only 106, as against 107 in the preceding year, and against 608 for 1894, the year of panic. The statement of comparative liabilities is even more favorable for 1897, being in that year sixty per cent less than in 1895 and ninety per cent less than in 1893.

MANY years ago Abraham S. Hewitt of New York made the prediction that by the end of the century the consumption of iron in this country would be 15,000,000 tons annually, and that ten years later it would reach 25,000,000 tons. Little the prediction was given to this prophecy at that time, but as the close of 1897 the consumption of iron ore had already reached the figure which he predicted for 1907. The United States leads the world in the iron and steel trade.

DELEGATE FERGUSON helped kill statehood by asserting that if admitted the new state would send two silver senators to the capital. This is merely his opinion. He might have asserted that the new state would send two senators with equal accuracy.

If Judge Collier, who is said to be the editorial writer of the Democrat, could control the water supply of the people of Bernalillo county, could any man get water to irrigate his lands if he would not vote as Judge Collier wished?

The mills of Kansas City ground 3,105,901 bushels of wheat last year, the product being 704,978 barrels of flour. In 1896 the mills ground 2,367,323 bushels of wheat in 526,783 barrels of flour.

An official medical statement at London asserts that there is no cause of alarm as to Mr. Gladstone's health. His physical powers have not suffered and his appetite is excellent.

THE attorneys of the low line ditch are trying their case in the Democrat.

AMERICAN SECURITIES ABROAD.
The sales of American securities have been, according to London advice, very large abroad of late. If this state of things holds there will be an increasing influx of British gold into this market. This demonstrates the faith abroad in the stability of our credit. There is another point of faith for the people not only of this but foreign countries have good grounds for confidence, and that is in the efficacy of Hostetter's Stomach Bitters for inorganic maladies, which affect the stomach, liver, bowels, kidneys and nerves. Dyspepsia, biliousness, constipation and rheumatism are conquered by it. It hastens convalescence, and diffuses a generous warmth and vitality, and restores physical comfort through the system.

NEWS OF INTEREST TO ALL KINDS OF READERS

ATZTEC.

From the Index.

The following persons have made locations and filings under the big ditch: John Henshaw, Elmer J. Richardson, Hernandez Haynes and Fred H. Malet. It is understood that Flora Vista has more pretty girls and smart boys than any other town in San Juan county.

The town of Atzac is the county seat of San Juan county now and it depends upon the people of this burg whether it is to remain simply the county seat or make a city.
Juan Augustine Jaquez, who has been under the care of Dr. Condit for a couple of weeks, suffering with a broken collar bone, returned to his home Monday morning.

Mrs. Noble has resigned her position as teacher of the Atzac school and Prince Walters has been engaged to finish the term.
Dave Germand, the young man who sought to stir up the usual quiet of Atzac with a six-shooter about two weeks ago, has served out his jail sentence and paid part of his fine of \$25, leaving his horse and saddle as security for the balance. He left Atzac Wednesday afoot to hustle together enough money to pay the balance of his fine.

LAS VEGAS.

From the Optic.

The last will and testament of Florentino Galis, deceased, has been filed for probate.

L. H. Manco & Co. will remove to their new quarters, next door to the west side postoffice, about the first of April.

The coming grand event of the season, the Jewish fair, will take place on February 14, and not in January, as many people seem to think.

Miss Hattie Kame, a popular Las Vegas young lady, who has been spending some months with relatives in Wisconsin, expects to return to her much loved home in a few days.

John Mayer, of Golden, and twelve others accused of the murder of Juan Manuel Ayley, at Bernal, eight years ago, have been released on \$3,000 bail, this sum freeing all of them till the next term of court.

F. H. Bainbridge, the patentee, has left at this office blue prints of a metal dam which is being erected at Johnson canyon near Ash Fork, Arizona, on the Santa Fe Pacific railway for the storage of waste waters. Mr. Bainbridge has his eyes on the vast Las Vegas grant and upon a settlement of title, he will perhaps have something to say or communicate to our people about some of his dams on the tract.

FROM THE EXAMINER.

Professor J. T. Hand has, with the help of competent musicians from Chicago, organized a conservatory of music here, which will be called the Las Vegas Conservatory of Music.

The George Hartman stock of goods in the Givens building has been sold out by W. G. Kogler and B. T. Mills, and the building is now to be overhauled for occupancy by Mr. Poole, of Galveston.

William McDougall, a health seeker here from Kewanee, Ill., died at the Woodworth house, on north Railroad avenue. His wife is here and will carry the remains back to Illinois for burial.

Charles Kasky, not long ago in business on Bridge street, was a passenger to Denver. He and his sister, Mrs. Grant, expect to go east before long for a month's stay, and may, on their return, conclude to locate at Las Vegas.

ROSWELL.

From the Register.

Mrs. C. W. Haynes has been quite ill for the past ten days or two weeks, but is now convalescent.

J. M. Miller has just received word that the 10,500 head he sold last summer at \$2.25 per head, have been resold at \$3 each, a gain of seventy-five cents each in six weeks.

Harry Jaffa's family arrived last Friday evening and they are snugly domiciled in the Urton house, south of the Methodist church.

The "beautiful snow" was much in evidence Tuesday evening and Wednesday, about four inches falling on the level. Reports from the Cedar Canyon range say about four inches fell there last week.

Lee Clinkscale is sinking an artesian well for James Farrell on his Richardson avenue lot just north of Mr. G. P. Johnson's and where Frank LeRoy is building Mr. Farrell one of the finest residences in town.

The six boys, under their new chief, Jack Goodwin, are preparing to reorganize the company entirely and otherwise improve the organization. This is the most worthy and necessary volunteer organization in the town, and should receive the hearty support and encouragement of all in the community.

SANTA FE.

From the New Mexican.

Tabbeo and Amada Sals and Juan Lucero and Matilda Bais were united in marriage at the cathedral yesterday morning.

The records in the cathedral show that fewer grown people have died in Santa Fe during the past month than during any corresponding month for five or six years.
A. F. Stephens, of Detroit, Mich., vice president of the Mary Mining and Smelting company, is in the city looking after the interests of that corporation, and registers at the Clarendon.
Snow fell at intervals all day yesterday, a total of an inch and a half being recorded. The highest temperature reached was twenty-two and the minimum this morning was six below zero. The mean relative humidity was sixty-four per cent.

UNITED STATES LAND COURT.

An Adjourned Session Opened in Santa Fe—Supreme Court Mandates.

The United States court of private land claims met in adjourned session in the federal building at 10 o'clock this morning, with chief justice Joseph H. Reed presiding and Associate Justices Thomas C. Fuller, William W. Murray and William F. Stone present. Associate Justice Henry C. Stone was absent, says the New Mexican.

Hon. Matt. G. Reynolds, United States attorney; W. H. Pope, assistant United States attorney; James H. Reeder, clerk; W. M. Tipton, Page B. Otero, H. O. Flipper and Sherrard Coleman, special agents; W. S. McPherson and Francisco Delgado, stenographers, and Eusebio Chacon, interpreter, besides a number of local and outside attorneys, were also in attendance.

United States Attorney Reynolds presented mandates of the United States supreme court, dismissing the appeals and sustaining the decrees of the United States land court in the following cases: San Antonio grant claim, San Mateo Springs claim, Felipe Tafaya claim, Ojo del Spirito Santa valley claim, Luis Jaramillo or Agua Salada claim, Nueva Senora de la Luz de Los Lagunitas claim, Elena Gallegos or Rancho de Albuquerque, all of Bernalillo county; Sebastian de Vargas claim, of Santa Fe county; Gervacio Nolan claim, of Mora county.

Mandates of the court of last resort were also submitted reversing and remanding the following cases: Bartolome Baca Grant claim, of Valencia county; Canon de Chama claim, of Rio Arriba county; San Miguel del Bado claim, of San Miguel county.

Chief Justice Reed announced that in the matter of the petition for the confirmation of Las Chupaderos de la Lagunitas grant, previously argued and submitted, the court had decided to dismiss the petition and reject the claim. The claimants lost a square league of land in San Miguel county.

The objections of the government to the survey of the A. Sedillo or Canada de los Apaches grant in Valencia county, confirmed in December, 1892, were then taken up. Mr. Pope representing the government and Mr. F. W. Clancy appearing for the claimants.

Prescott's Climate.

The Journal-Miner, in its editorial page, says: Arizona has the finest all the year round climate in the world, and that in the vicinity of Prescott is the finest all the year round climate to be found in Arizona.

The office boy got his work in on the local page of the same paper in the following item:
The thermometer ranged all the way from 14 to 20 degrees below zero this morning. There is no disputing the fact that last night was the coldest night of the season.

A NEW INDUSTRY.

Canada de Los Alamos Grant In Santa Fe County to be Used for Goats.

C. S. Onderdonk, of Philadelphia, representing a company of Philadelphia capitalists, interested in the tanning of hides, has leased the Canada de Los Alamos grant in Santa Fe county for the purpose of using it as a goat pasture, says the New Mexican. The headquarters of the business will be at Laury Junction. It is proposed to fence the grant and also herd the goats. Arrangements are now being made to purchase the first installment of 5,000 goats and to construct the wire fencing, of which it will take about thirty miles. The grant is owned by Hon. Frank A. Manzanarez et al. If the venture proves a success the grant will be stocked to its fullest capacity. It contains about 15,000 acres and other pastures will be leased in various sections of the territory and stocked. The skins of the animals are to be shipped to Philadelphia, where one house alone uses millions of sheep and goat skins and of other animals annually.

Mr. Onderdonk has moved his family from Philadelphia to Las Vegas, where they have taken up their residence.

THAT DITCH.

Who is the Instigator of the Proposed Low Line Ditch?
Editors Citizens:
The scurrilous attacks of the Democrat upon Pedro Peres, primarily, and incidentally upon the republican party of Bernalillo county, calls for more than a casual notice.

The truth of the business is that the leading man, now playing the role of "savior of Albuquerque," is Mr. A. A. Grant, the original agitator and proposed constructor of the low line irrigation canal. That he and one or two others, who will have a controlling interest in the stock, will ultimately own and control the canal, admits of no doubt to those conversant with the management of corporations, by men grasping as Mr. Grant has shown himself to be. This Mr. Grant is the same Mr. Grant who from the organization of Albuquerque as a town has owned and controlled every valuable franchise which the town or present city has had to give away. He has owned the water works, and charged the people of Albuquerque twice as much for worse water than is furnished to any other city in the country. He has owned the electric light works and charged the city and its inhabitants twice as much for an inferior quantity and quality of light, as is found anywhere else in a city of like population. He has owned the gas works and charged the city and its inhabitants like exorbitant rates. After thus robbing the people of this city, he is not satisfied, and now proposes to extend his nefarious operations into the surrounding country, and rob the people of their water rights, and charge them one dollar and fifty cents per acre, annually, for what they have been hitherto getting for a day or two of manual labor on the present acquiescence, which have been used for irrigating the lands along the river bottom. The people living along the valley are very willing to work a day or two on some acquiescence for the privilege of getting water to irrigate their lands, but when it comes to surrendering that privilege, and in addition paying one dollar and fifty cents per acre for the water which has in the past cost them practically nothing, they enter a protest and appeal to the courts to protect their rights, and became the Hon. Pedro Peres sustains them and assists them in thus presenting the matter for adjudication, the Democrat attacks him as the arch fiend, against whom all the elements of progress and the influence of the citizens of Albuquerque should be arrayed.

But the Democrat will fail in its undertaking. The people of this city and this community know Pedro Peres too well to be prejudiced by any slurs that a monopolist, grasping rival may hurl against him. He has always been a friend of the people, true to their interests and willing to give his time and money for their protection. In this instance, he is not fighting the city or the people of Albuquerque, but he is asking that the rights of his friends and neighbors be protected from the hands of a man who has shown himself to be for Grant first, for his California home next, and for Albuquerque, when it is to his interest to be so, last. Between the two men the people will gladly choose the man born here, rather than the man who comes here only when he wants to bleed us, and takes our money away from here to spend in luxury on the slopes of the Pacific.

Proposals for Leasing the Surplus Grazing Lands in the Kiowa and Comanche and Wichita Reservations.

United States Indian Service,
Albuquerque, Oklahoma, July 10, 1914.
(Telephone Address: Albuquerque, Oklahoma, 113 West B-I road Avenue, Albuquerque, N. M.)

Sealed proposals for grazing horses or cattle (but not sheep or goats) on the surplus lands of the Kiowa and Comanche and Wichita Reservations, Oklahoma Territory, are invited to be submitted to the United States Indian Service, at Albuquerque, Oklahoma, on or before the 10th day of August, 1914, at 10 o'clock p. m., on the 10th day of August, 1914.

The pastures on the Kiowa and Comanche reservations will be leased for the period of three years from April 1st, 1915, to March 31st, 1918, and the pastures on the Wichita reservation will be leased for one year from April 1st, 1915, to March 31st, 1916.

For the information of bidders I will state that the description of the pastures, the location of the pastures, and the terms and conditions of the lease, will be furnished to the bidders on request.

The bidders must clearly designate the pasture on which they desire to lease, and the price per acre per annum which they will pay, and the maximum number of horses or cattle which they will keep on the pasture.

The rent must be paid in two equal semi-annual payments in advance, namely, on April 1st and October 1st of each year.

Each bid must be accompanied by a certified check or draft upon some United States depository or solvent national bank in the amount of the bid, which shall be held as security for the faithful performance of the conditions of the lease.

The Chinese of Williams ignored the proclamation of the emperor of the flowery kingdom and welcomed the dawn of their New Year Thursday midnight by a brief fusillade of giant crackers and pop-em-quicks.

The surprise of all.
Mr. James Jones, of the drug firm of Jones & Jones, in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into lung consumption. Having Dr. King's New Discovery in store, and seeing lots of it, he took a bottle home, and to the surprise of all she began to get better from the first dose, and a half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this every time. Try it. Free trial bottles at J. H. O'Reilly & Co's drug store.

DIVISION SUPERINTENDENT HURLEY.

He is Strictly Enforcing the Brown System of Merits and Demerits.

Bulletin No. 93: Recently a train on this division ran too fast descending a long grade. The conductor gave an excuse that the train was being handled smoothly and, while he knew the time table and bulletin instructions were being violated, he considered it safe, as he was prepared to control the train. The engineer gave an excuse that he had a high wheel engine and had been accustomed to running a low wheeled engine, and did not imagine that he was making such fast time. It is very important that the instructions in regard to speed of trains be strictly complied with. The engineer and conductor have both been given fifteen days each suspension.

Bulletin No. 94: Recently on this division a train broke in two, and the rear end collided with the head end of train. The train parted behind the working air leaving but the way car and one other car in the rear end. The train was being handled by two engines, coupled. The head brakeman, who was sitting on the second engine, discovered that the way car was broken off and gave his engineer a signal to stop at once. The engineer, not knowing what the trouble was, whistled for brakes, and the forward engineer applied the air. After the train was stopped and the engineers had found the train had parted, the train could not be started before the two ends came together. The rear brakeman was sitting in cupola between stations, and failed to discover that the train had parted. The head and rear brakemen have been held responsible and have been discharged from the service.

Postmaster at Mora.
Palmerton Mori has been appointed post master at Mora, vice Mrs. Kahn. There was quite a fight over the appointment, strong influence having been brought to bear to keep Mrs. Kahn in office, but Mr. Ortiz secured the office. The board of referees recommended Mr. Ortiz and he was appointed.

MARY A. LIVERMORE'S NEW BOOK.
"The Story of My Life or the Sunshine and Shadow of Serenity Years."

This new and superbly illustrated book is the crowning life work of the famous Mary A. Livermore, and as she herself states, it is the last that will ever come from her pen. It is a thrilling narrative of her life from infancy to old age, portraying the sunshine and shadow of seventy years of a most marvelous career told in her own words.

It seems most incredible that a woman now so famous made "mud pies" in her childhood, and was often sent supper to bed, and was frequently taken down into a kitchen chair with an emphasis that caused her to see stars. When a young girl, struggling to support her mother, she took in "shop work," made shirts, and subsequently learned the trade of a dressmaker, at which she worked for 35 cents a day. At 15 she "ran away from home like a boy," and spent three years on a southern slave plantation—years full of comedy and tragedy and packed with thrilling experience.

She tells of the eventful Christmas night when she wandered into the church of a strange young preacher, who afterwards became her husband. Their common appearance in their first attempt at housekeeping; the ignominious fate that her husband and she met with at their first house; the story of her first husband's death; the story of her second husband's death; THE CITY IN BRIEF.

Personal and General Paragraphs Picked Up Here and There.

Police Justice A. J. Crawford is on the sick list and unable to attend to his duties in the police court.

C. O. Cushman, for many years a resident of this city, later residing at Needles, Cal., is in the city, and is looking up a residence, having determined to make this city his future home.

Henry Goetz, the day man at Sturges' European restaurant, is off duty on account of a severe cold, but Joe Girard is admirably filling the place, while Harry Hunt is doing extra duty at night.

The funeral of L. C. B. Woodford, the colored man who died in this city a couple of days ago, will take place from O. W. Strong's undertaking parlors at 2 o'clock to-morrow afternoon. Rev. J. H. Buchanan and Rev. M. Jones will conduct the funeral exercises.

The "new dining parlors" of Mrs. Rummel, on west Gold avenue, were formally thrown open to the public at noon to-day, and the lady served a royal dinner of all the substantial eatables to be found in the local market. Mrs. Rummel understands the business thoroughly, and she will undoubtedly succeed.

The school board is requested to look after the warmth of the various school buildings. A complaint reached this office this morning that the school rooms have been entirely too cold for comfort sake, and that one of the teachers adjourned school on Tuesday on account of the cold condition of her room.

Frank J. Garrett died at Kirksville, Mo., Medical Institute, and his remains, accompanied by his wife, will reach here this evening and will be in charge of Undertaker Monfort. The funeral will be from his undertaking parlors to-morrow afternoon at 2 o'clock. E. W. Manning is here from San Marcial to arrange the funeral ceremonies, representing Division 204 of the Locomotive Engineers. All friends are invited to attend.

Otto Diekmann, the Third street real estate and insurance agent, who was at Show Low, Arizona, on business the past ten days, returned from the west last night. He encountered cold and very disagreeable weather, but says that the

Mormons of Snowflake, through whose village he passed en route to Show Low, demonstrate their enterprise and thrift in the construction of pretty homes, substantial stone buildings and in tilling the soil.

The ladies of the Library association have done their utmost to make the ball to-morrow evening the most successful of any yet given. This constant effort on the part of the ladies for the upbuilding and maintaining of the public library is one of the most philanthropic enterprises of our people. THE CITIZEN takes much interest in calling the attention of all citizens to this noble work, and urges everyone to attend the ball at the Armory.

A mother's meeting will be held at the Kindergarten rooms on Friday, at 3 p. m. Dr. Marion S. Bishop will give a talk on "Food" and a short time will be given for discussion. A cordial invitation is extended to all mothers interested in this subject to attend.

A dispatch from Prescott states that John Demar, who was injured at the Johnson canyon tunnel, is now improving. It appears that he was not as badly injured as at first reported. No bones were broken, although he was badly bruised.

The stockholders of the Co-operative Building and Loan association will hold an annual meeting this evening at the office of the secretary, Calvin Whitting. A new board of directors will be elected. James Smith, the well-known electrician, expects to leave to-morrow evening for the Klondike country. Rita Granger, it is understood, also expects to get away for Alaska in a very short time.

PERSONAL PARAGRAPHS.

Chas. R. Hiff, returning from Chicago, is at the Grand Central.

L. W. Baldwin and George W. Oakley, are here from Las Vegas.

G. W. Johnston, the attorney, is suffering from a bad cold and a sore throat.

B. A. Sleyter, the insurance man, has gone to Santa Fe on insurance business.

T. W. Seery, of Holbrook, A. T., and W. Casey, of Gallup, are at Sturges' European.

Sheriff Hubbell returned last night from Gallup, where he had been to serve papers in some tax suits.

D. R. Flatherty, who was at Las Vegas the past few days, came in from the north last night, and will remain a short time.

Thomas F. Conway, lawyer, of Silver City, passed up the road last night on his way to New York on important legal matters.

Capt. A. Vanderwort, the Boston wool buyer, who was here the past few days, left last night for Phoenix, and from there he will continue to the Pacific coast.

Dr. Kester, who visits our city for the second time, is located in Denver, Colo. She and her daughter are on their way to City of Mexico. She is stopping at the Grand Central hotel.

Dr. W. D. Radcliffe, of Boise, was one of his regular visits to the city last night, returning about this morning. It is learned that the doctor contemplates removing here in the near future.

General Manager Frey and Superintendent Hurley came in on their special cars from the north last night and Trainmaster Ayer arrived from the south. The gentlemen are spending the day in this city.

This afternoon T. K. Culley, the hunting brother of G. C. B. Culley, made a pleasant call at this office. He states that for the past few months he has enjoyed life hunting in southern Colorado and northern New Mexico, and was successful in bagging some big game. He also reports the climate of Albuquerque summer, to some he has experienced up north.
