## GOOD NEWS!

New Store, New Goods, Lower Prices,

At Your Old Time Friend's,

## ABE GOLD

In consequence of the increase of my business I have found it necessary to enlarge my store, and have rented and refitted the house formerly known as Herlihy's Hotel as a store room. I have enlarged my entire stock of goods and will carry one of the most complete stocks in the entire territory. It will be my aim, as of old, to sell as cheap as my competitors, and I will not be undersold by anybody. I shall also continue to buy and sell.

## NATIVE PRODUCE

And farmers and ranchers will find it to their advantage to deal with me. A Free Corral in connection with my new store, to all those coming to Santa Fe by team. Call and be convinced.

ABE GOLD.

## Telegraphic Tidings

No Compromise.

Special to the New Mexican.

RATON, N. M., Feb. 13.—The Maxwell Land Grant company denies the truth of yesterday's dispatch from Trinidad, and says it never had any dealings with the so-called Inter State Land company of any kind whatever.

## WASHINGTON NEWS.

WASHINGTON, Feb. 14.—The senate has confirmed a number of army and other appointments. Among them are Col. Joseph C. Breckenridge, inspector general; Lieut. Col. William A. Rucker, assistant paymaster general with the rank of colonel; Major Charles M. Terrell, deputy paymaster general with the rank of lieutenant colonel; Thomas J. Anderson, of Iowa, associate justice of the supreme court of Utah; E. P. Johnson, of Utah, judge of probate, Box Elder county; Joseph D. Jones, of Utah, judge of probate court, Utah county.

The senate committee favorably reported the nomination of Norman J. Colman to be secretary of agriculture. An objection was made by a Republican senator to its consideration and a Democratic senator objected to a discussion of the nomination. It is understood that the nomination will be confirmed.

Senator Hawes presented a petition from 120 Indian students at Hampton, Va., against continuance of the ration system to Indians, as an encouragement to idleness, and recommended their equipment in farming implements and stock.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the great alterative and tonic. If you are troubled with any disease of kidneys, liver or stomach, or long standing you will surely find relief by use of Electric Bitters. Sold at 50c or \$1 per bottle at C. M. Creamer's.

## THE BEEF COMBINE.

Western Legislators to Meet at St. Louis March 12.

TOPEKA, Feb. 14.—Gov. Humphrey has called a meeting of delegates representing the legislative assemblies of all western states for territories to formulate a general act which has for its object the breaking up of the beef monopoly from which the west has so long suffered. The meeting is called to assemble at St. Louis on March 12.

## A Long Ride for \$15.

NEW YORK, Feb. 14.—Another war on commissions on emigrant fares to the Pacific coast has broken out. The movement is directed against the Southern Pacific, which is not represented in Castle garden, but nevertheless secures a majority of the business. The opposition probably springs from the Santa Fe, Union Pacific and Denver &amp; Rio Grande roads. The object is to force the Southern Pacific road into the pool and get it to divide profits. The opposition lines offer an open cut of \$13 on single tickets from New York to San Francisco.

## It is a Curious Fact

That the body is now more susceptible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

A handsome complexion is one of the greatest charms a woman can possess. Pozzoni's Complexion Powder gives it.

## Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

## Job Printing.

Merchants and others are hereby reminded that the New Mexican is prepared to do their printing on short notice

and at reasonable rates. Much of the job printing now going out of town could come to the New Mexican office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The New Mexican is acknowledged the leading paper of this section. The patronage of our people will enable us to keep it so.

## BRIEF WRITINGS.

Dundee, Scotland, has a trunk murder mystery.

The house takes up the senate tariff bill today.

Rear Admiral Chandler died of apoplexy at Hong Kong.

Prince Bismarck thinks there is danger of a war between England and France.

It is stated that Mr. Gladstone has changed his mind and will not visit the pope.

It is reported that Mr. Pendleton, the American minister to Germany, will preside at the coming Seneca conference.

The total amount of Dickmann's (the St. Louis defaulter) indebtedness will reach \$200,000. Minor heirs will suffer.

Thomas Sherry and James Campbell, charged with the Kearney-Hand murder, were discharged by a Colorado Springs justice.

United States Detective Sweeney and Deputy Marshal Chambers arrested a gang of thirteen counterfeiters in Butler county, Pa.

The bill authorizing the sale of lands in Fort Sedgewick reservation to actual settlers was favorably reported by the house committee.

The grand lodge of the workmen of Colorado, Arizona and New Mexico is in session at Colorado Springs.

Col. Lamont says the position he will occupy after the 4th of March is that of president of the Avenue C Street Railway company of New York city.

In the case of D. M. Hyman, of Cincinnati, and J. C. Bates, of the Durant, against the Bonny Bell mine, a verdict was rendered against the former at Denver.

The Democratic convention at St. Joe nominated Hon. R. P. C. Wilson, of Platte county, for the 51st congress, and Charles S. Booker, of Andrew, for the short term.

It is now possible to state with reasonable certainty that the senate will not confirm any more nominations which the president may make, either to important or unimportant offices.

The president will in a few days send to congress a message stating in detail what the relations between England and the United States are. There are many reasons for believing they are not happy.

In the Dakota legislature a bill to repeal the law to prevent the spread of contagious diseases among live stock, has passed the lower house by a small majority, and stockmen are excited lest the law will be killed.

The president has approved the act to enlarge the power and duties of the department of agriculture and to create an executive department to be known as the department of agriculture, and has nominated Norman J. Colman, of Missouri, to be secretary of agriculture under the new act.

Liabilities of the defunct Ohio &amp; Western Coal &amp; Iron company are \$3,300,000. Assets 7,000 acres of coal land. This is the company in which Jas. G. Blake and Steve Elkins, were interested, holding \$25,000 and \$50,000 bonds respectively and F. W. Harper of Cincinnati held a million dollars.

In the Dakota legislature there is once more strong talk of adjournment until a successor to Gov. Church shall have been appointed. This action had about been given up until the recent insult by the governor, and now the republicans in the house and council are willing to do almost anything to defeat Gov. Church.

The secretary of war has transmitted to the house statements of the chief signal officer of the army, setting forth a very unsatisfactory condition of the signal corps and inefficiency of the present lieutenants of that corps. Gen. Greeley urges the passage of a reorganization bill for the improvement of the service generally.

The senate judiciary committee has under consideration a proposition to authorize the appointment of an additional associate justice of the supreme court of Arizona, and to divide the territory into four judicial districts, a district court to be held in each at such seasonally at such time and place as the court may determine.

Representative Grosvener has offered a lengthy preamble and resolution relating to recent events in the 2d congressional district of Arizona, which culminated in the assassination of Hon. John M. Clayton. The resolution provides that a committee of five members of the house, now members of the committee of elections and elections to the 51st congress, be appointed by the speaker to proceed without delay and take testimony touching the issues joined in the contest.

St. Valentine's day is on with a rush at the postoffice. The valentines this season are unusually pretty and artistic.

C. C. Swinburne has formed a partnership with L. C. Tetard and engaged in the real estate business in Las Vegas.

Mr. Swinburne says there is a fine outlook for Las Vegas from this time on.

Twelve coach loads of New England excursionists spent the better part of the day in the historic city. Many of them visited the legislative halls and saw the solons at work.

Speaking of base ball, it is probable that the New Mexico teams this year will be made up of home material, actual professionals being barred. Joanes, Buchanan and O'Neill have been with the Waco, Texas team, and Catcher Twineham has signed with Denver's leading nine.

Yesterday being the anniversary of the death of the beloved Archbishop Lamy, a special mass was celebrated at the cathedral by Archbishop Salpointe, assisted by a number of visiting clergymen. The members of the legislature were invited to be present and most of them responded.

The progress of the work on the new works are now published weekly in the New York Mining and Engineering Journal.

The product of this company for January was 315 tons of matte at 49 per cent, equal to 308,700 pounds of fine copper. A detailed report of the opening at the mine shows large bodies of ore exposed in each of the four strata.

## PERSONAL.

Judge J. D. O'Bryant, of Las Vegas, is here on business. At the Palace.

Mr. W. A. Givens, a rustling and energetic business man from Las Vegas, is in the city.

Mr. Simon Frankenthal, a prominent stockman from La Cima, San Miguel county, is here to-day on a visit.

Col. Richard Hudson's smiling face is seen about the plaza again. He got in from Grant county this morning.

Hon. W. C. Hadley, of Lake Valley, well and favorably known in Santa Fe, came up from the south this morning.

Squire Beaumont, the sage of the Jemez mountains, and Arthur Middleton, a well known ranchman, are in the city on business.

Geo. H. Utter, water works manager, plumber and mine owner, Silver City, is visiting among Santa Fe friends. He reports Mrs. Utter and her four children well and hearty.

If the liver and kidneys are sluggish and inactive, Hood's Sarsaparilla will arouse them to prompt and regular action. Take it now.

## Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

## To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

## Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GOTT, of Terrace Street, Boston.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

**CITY SUBSCRIBERS.**  
Mr. C. H. Gray has sole charge of the city circulation of the New Mexican, and all subscriptions must be paid to him or at his office. Subscribers will confer a favor by reporting to this office all cases of non-delivery of papers.

**THURSDAY, FEBRUARY 14.**

**EX-SENATOR WINDOM** is looking up for a cabinet position.

**GET** at the district attorneys' fees bill from defendants and reduce them.

The council on yesterday passed five bills over the governor's veto. Good enough for a day's work.

**REPRESENTATIVE COONEY'S** bill to tax the net product of mines ought to be considered favorably and that speedily.

New Mexico's magnificent natural resources need to be advertised. The appropriation for the bureau of immigration should be increased.

**RUSSELL HARRISON** owns two newspapers in Montana. Russell Harrison will boom up as a United States senator one of these days from Montana.

**Gov. Ross** on yesterday vetoed Senator King's bill No. 140, to prevent the overcrowding of stock ranges. The bill is a good one and should pass nevertheless.

This Albuquerque Democrat, of black-minting propensities, is trembling in its shoes on account of the passage of the amended libel law in the council over the governor's veto.

The house should at once take up Senator Perez's bill regulating the clerks' salaries. Every day frittered away loses the territory considerable money. There is no time to be lost. Take it up and pass it.

**PRESIDENT-ELECT HARRISON** will have eight cabinet positions to fill. And still the Indianapolis newspaper correspondents have not been able to fix upon a single appointment with absolute certainty. Harrison, the silent, still keeps up a magnificent silence.

In Silas A. Bancroft's case, Asst. Comr. Anderson held that a coal dealer's statement of lands in sections 30 and 31, may be allowed without investigation into the character of the land. Investigations by the district officers on their information and belief, into the character of the land, in the case of Bancroft, should not be ordered prior to purchase or application to the court.

**LAND DECISIONS.**  
W. D. Hadden, land and mining attorney, Washington, D. C., has furnished us the following synopsis of decisions of the land department:

In Silas A. Bancroft's case, Asst. Comr. Anderson held that a coal dealer's statement of lands in sections 30 and 31, may be allowed without investigation into the character of the land. Investigations by the district officers on their information and belief, into the character of the land, in the case of Bancroft, should not be ordered prior to purchase or application to the court.

**Another wonderful discovery** has been made, and that too by a lady in this country. Disease declared its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle she was miraculously cured. Her name is Mrs. Luther Lutz. Write to W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at C. M. Creamer's drug store.

For the restoration of faded and gray hair to its original color and freshness, Ayer's Hair Vigor remains unrivaled. This is the most popular and valuable toilet preparation in the world; all who use it are perfectly satisfied that it is the best.

**The Most Agreeable**  
As well as the most effective method of dispelling headaches, colds and fevers, or cleansing the system, is by taking a few drops of the pleasant California fruit remedy, Syrup of Figs.

**THE SUN**  
for 1889  
And for the Democracy.  
The Sun believes that the campaign for the election of a Democratic congress in 1890 and a Democratic president in 1892 should begin on or about the 4th of next March. The sun will be on hand at the beginning and will be the most interesting and important political conflict since the war, doing its honest utmost, ever, to secure the triumph of the Democratic party and the permanent supremacy of the principles held by Jefferson, Jackson and Tilden.  
The great feat of the year is the return to absolute control of the country by the Democracy. The Democratic political organization for whose overthrow the Sun fought at the front for fifteen years, the Democratic cause of Grant and the Grand Army, and the cause of the Union, is the cause of the Democracy. The sun will be on hand at the beginning and will be the most interesting and important political conflict since the war, doing its honest utmost, ever, to secure the triumph of the Democratic party and the permanent supremacy of the principles held by Jefferson, Jackson and Tilden.

**THE CHIEFMAN** remarks are right sensible. No decent and respectable paper would be harmed by the law. All that talk about muzzling the liberty of the press, etc., is pure rot. Of course a professional bla-ming all day, like the Albuquerque Democrat, may be harmed by the law; but no respectable or well-meaning citizen of New Mexico will grieve at that. Let the measure go through.

**HOOP AND HIS**, a stock paper published at Tucson, approves of the stock inspection bills already introduced in the council, and introduced by Senators King and Dolan, and comments thereon as follows:

The legislature of New Mexico is considering a bill introduced for the purpose of prohibiting the entry of Armour's dressed beef into the territory. The effect of the bill will be to give local butchers the benefit of the trade now monopolized by the ice-box shippers, and stock-

men will sell a few more of this at a better price than can be realized away from home.

The bill will, in all probability, become a law. In that event the fattening of beef steers by alfalfa feeding will receive two great interests—farming and stock growing—will be certainly benefited by the measure.

The 15th legislature of Arizona might take a hint from this. Our stock men and farmers need protective and fostering legislation as much as those of New Mexico. Will our law makers drop sectional jealousies long enough to enact a measure or two calculated to benefit the territory at large?

**OUR COMING OFFICIALS.**  
The Citizen records the motion that Major Carey, of White Oaks be appointed territorial secretary—Albuquerque Citizen.

**B. F. Nugent**, of Nogal, who is a prominent candidate for United States marshal with the backing of intimate friends of President-elect Harrison, was in town this week. Mr. Nugent would fill the office of marshal with honor to himself and credit to his party—Independent.

We understand the friends of Mr. Nugent have already circulated a petition in this place. Most of the citizens however have signified their intention to support Hon. Frank Lenoir, for U. S. marshal.

Lenoir is a good man, and has been in the field for some time, and we hope to see him receive a hearty support from our people.—Roswell Register.

Col. J. W. Dwyer, of Raton, is spoken of as the most probable person to receive the appointment of governor of New Mexico under the Harrison administration—Trinidad Advertiser.

It looks like it, surely.—New Mexican.

Col. Dwyer is supported and recommended by the staunch Republicans throughout the territory—Chloride Black Range.

From the Lincoln Independent we learn that George L. Ulrich is a candidate for agent of the Mesquero Indians. We were not aware that Mr. Ulrich was an applicant for that position. If he is he will receive our hearty support, as he is well fitted for the position.—Lincoln Inter-tribe.

The Santa Fe Herald says: From present indications the next governor of New Mexico will be either Hon. J. W. Dwyer or Col. A. L. Morrison, either of whom would be acceptable to the people.—Deming Headlight.

Report says that Col. J. W. Dwyer has gone east to look up his chances for appointment as governor of New Mexico. Col. Dwyer possesses in a very large degree all the qualifications necessary to an efficient execution of the duties of the office of the territory, had had good official experience, is an energetic, systematic business man and Republican of established repute. No better man for the position, or more worthy, could be selected.—Deming.

There appears to be a bill in the event for governor of this territory under the Harrison administration. The two principal contestants for the position are Col. A. L. Morrison and Col. Joseph W. Dwyer. The first named will probably be appointed. His friends at Denver and the country are making a determined fight in his favor. Col. Dwyer has the strong backing of Senator Sherman and other influential persons, and if he is beaten he will not be without a life-long enemy in his leader by his friends—Albuquerque Citizen.

**LAND DECISIONS.**  
W. D. Hadden, land and mining attorney, Washington, D. C., has furnished us the following synopsis of decisions of the land department:

In Silas A. Bancroft's case, Asst. Comr. Anderson held that a coal dealer's statement of lands in sections 30 and 31, may be allowed without investigation into the character of the land. Investigations by the district officers on their information and belief, into the character of the land, in the case of Bancroft, should not be ordered prior to purchase or application to the court.

**Another wonderful discovery** has been made, and that too by a lady in this country. Disease declared its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle she was miraculously cured. Her name is Mrs. Luther Lutz. Write to W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at C. M. Creamer's drug store.

For the restoration of faded and gray hair to its original color and freshness, Ayer's Hair Vigor remains unrivaled. This is the most popular and valuable toilet preparation in the world; all who use it are perfectly satisfied that it is the best.

**The Most Agreeable**  
As well as the most effective method of dispelling headaches, colds and fevers, or cleansing the system, is by taking a few drops of the pleasant California fruit remedy, Syrup of Figs.

**THE SUN**  
for 1889  
And for the Democracy.  
The Sun believes that the campaign for the election of a Democratic congress in 1890 and a Democratic president in 1892 should begin on or about the 4th of next March. The sun will be on hand at the beginning and will be the most interesting and important political conflict since the war, doing its honest utmost, ever, to secure the triumph of the Democratic party and the permanent supremacy of the principles held by Jefferson, Jackson and Tilden.  
The great feat of the year is the return to absolute control of the country by the Democracy. The Democratic political organization for whose overthrow the Sun fought at the front for fifteen years, the Democratic cause of Grant and the Grand Army, and the cause of the Union, is the cause of the Democracy. The sun will be on hand at the beginning and will be the most interesting and important political conflict since the war, doing its honest utmost, ever, to secure the triumph of the Democratic party and the permanent supremacy of the principles held by Jefferson, Jackson and Tilden.

**THE CHIEFMAN** remarks are right sensible. No decent and respectable paper would be harmed by the law. All that talk about muzzling the liberty of the press, etc., is pure rot. Of course a professional bla-ming all day, like the Albuquerque Democrat, may be harmed by the law; but no respectable or well-meaning citizen of New Mexico will grieve at that. Let the measure go through.

**HOOP AND HIS**, a stock paper published at Tucson, approves of the stock inspection bills already introduced in the council, and introduced by Senators King and Dolan, and comments thereon as follows:

The legislature of New Mexico is considering a bill introduced for the purpose of prohibiting the entry of Armour's dressed beef into the territory. The effect of the bill will be to give local butchers the benefit of the trade now monopolized by the ice-box shippers, and stock-

men will sell a few more of this at a better price than can be realized away from home.

The bill will, in all probability, become a law. In that event the fattening of beef steers by alfalfa feeding will receive two great interests—farming and stock growing—will be certainly benefited by the measure.

The 15th legislature of Arizona might take a hint from this. Our stock men and farmers need protective and fostering legislation as much as those of New Mexico. Will our law makers drop sectional jealousies long enough to enact a measure or two calculated to benefit the territory at large?

**OUR COMING OFFICIALS.**

By Mr. Prichard moved to take up C. B. No. 14, to amend the act in relation to the finances of New Mexico, approved February 8, 1889. This bill corrects a clerical error in enrolling one word. Read the first, second and third time and passed.

On motion the council adjourned to 2 p. m. to-morrow.

HOUSE.

WEDNESDAY'S AFTERNOON SESSION.

House memorial No. 13, praying congress to repeal the alien act in so far as it prohibits foreign capital from mining investments, was passed.

H. B. No. 125, relating to the filing of town site plats, was reported with a minor amendment and the bill passed.

C. B. No. 63, prohibiting the preference of creditors to the exclusion of others was considered at length and referred to the committee of the whole to be considered in connection with C. B. No. 102, an act authorizing and regulating voluntary assignments. Both acts were subsequently passed.

H. B. No. 126, an act fixing the fees of certain officers, paying river commission \$3 per day, was taken up and passed.

Mr. Kistler reported favorably H. B. No. 104, to pay the enumerators of the last census.

C. B. No. 67, fixing the fees of clerks of the district courts, was considered at length by committee of the whole, favorably reported and finally passed by the house.

COUNTIES OF EDDY AND BOSWELL.

Mr. Foster introduced H. B. No. 140, an act to create the counties of Eddy and Boswell, dividing the eastern half of Lincoln county for this purpose. The bill was referred to a special committee composed of the southern county members.

SENATE.

THIS MORNING'S SESSION.

The council was called to order with a full attendance except Mr. Dolan, excused.

Mr. Franks reported from the judiciary committee C. B. No. 152, in relation to divorce, with amendments.

On motion of Mr. Franks the report was adopted.

Mr. Catron reported from the judiciary committee C. B. No. 147, with reference to certain fees in the courts of justices of the peace, and for other purposes, with substitute. On motion of Mr. Catron the substitute was read the first, second and third time and passed.

Mr. Jaramillo reported C. B. No. 44, to repeal Sec. 363, Compiled Laws, relating to slander by ministers of the gospel and assault and battery by words, with amendments. The report was adopted.

Mr. King reported back H. B. No. 42, for the protection of the stock growing interests from wild animals. Report adopted.

Mr. Prichard moved to take up C. B. No. 87, in relation to change of venue. The amendment of the house was concurred in.

Mr. Rodey moved to lay the bill on the table indefinitely. Ayes 2 (Rodey and Franks), nays 8; and the bill was passed.

Mr. Prichard moved to reconsider the vote by which the bill passed, and that that motion be laid on the table indefinitely. Carried. So the bill passed the council over the governor's veto.

Mr. Prichard moved to reconsider the vote by which the bill passed, and that that motion be laid on the table indefinitely. Carried. So the bill passed the council over the governor's veto.

Miss Eddie Ross, private secretary to the governor, presented two veto messages from the governor.

A message announced that the house had passed H. B. No. 125, in relation to filling of plats of towns, and H. B. No. 131, in relation to express and telegraph companies, and house joint memorial No. 13.

Mr. King reported correctly enrolled, and the president signed, C. B. No. 77, for the protection and propagation of fish.

Mr. Baca reported back C. B. No. 162, to amend section 1600, Compiled Laws, and on motion of Mr. Fort it was read the third time and passed.

By Mr. Pera, C. B. No. 174, to amend an act relating to the finances of New Mexico, approved February 8, 1889. It appropriates \$15,000 for pay of assessors, and \$5,000 for pay for transportation of prisoners to the penitentiary in New Mexico and for the execution of persons. Read the first and second time and referred to judiciary committee.

By Mr. Jaramillo, C. B. No. 175, prescribing certain qualifications for office. The bill prohibits the prosecuting officers from being employed by railroads. Read the first and second time and referred to the judiciary committee.

By Mr. Pera, C. B. No. 176, filing the times of holding district courts. Read the first and second time, to lie on table to be called up.

Mr. Prichard moved to take up C. B. No. 114, to create the office of solicitor general and two additional district attorneys; that the raising of the governor's veto be dispensed with as he shows the very gravest disrespect and discourtesy to the council and house by publishing his veto messages in the press even before they are read in this body. Motion carried and the bill passed over the governor's veto, ayes 10, nays 1.

A message announced that the house had passed C. B. No. 102, to regulate voluntary assignments; C. B. No. 63, preventing debtors from preferring certain creditors.

On motion of Mr. Prichard C. B. No. 140, to prevent the overstocking of cattle ranges, passed over the governor's veto—ayes 10, nays 6, being unanimous.

Mr. Prichard moved to take up C. B. No. 142, to authorize mortgaging of property of minors, and that the reading of the legal disquisition of the carrier (the veto) be dispensed with. Carried. The bill passed over the governor's veto, ayes 10, nays 0.

On motion of Mr. Prichard C. B. No. 108, to prevent women from entering saloons for the purpose of drinking, and other purposes, was passed over the veto—ayes 9, nays 1.

By Mr. King, to prevent persons from taking acknowledgements of legal papers when persons are non compos mentis or intoxicated. Read the first and second time and referred to the judiciary committee.

H. B. No. 44, relating to slanders by ministers and assault by words. Laid on table indefinitely.

H. B. No. 32, to crimes in certain cases. Read the third time and passed.

On motion of Mr. King H. B. No. 42, for protection of the stock growing interests from wild animals, was read the third time and passed.

H. B. No. 66, to restrict powers of county commissioners. Read the first and second time and referred to the judiciary committee.

By Mr. Pera, C. B. No. 176, fixing pay for river commissioners. Read the first, second and third time and passed.

H. B. No. 131, in relation to express and telegraph companies. Read the first and second time and referred to judiciary committee.

By Mr. Pera, C. B. No. 178, to amend the act in relation to the finances of New Mexico, approved February 8, 1889. This bill corrects a clerical error in enrolling one word. Read the first, second and third time and passed.

H. B. No. 125, relating to filing of plats of towns. Read first, second and third time and passed.

House joint resolution relating to investment of foreign capital in property, especially in mines. Read first, second and third time and passed.

On motion the council adjourned to 2 p. m. to-morrow.

HOUSE.

WEDNESDAY'S AFTERNOON SESSION.

House memorial No. 13, praying congress to repeal the alien act in so far as it prohibits foreign capital from mining investments, was passed.

H. B. No. 125, relating to the filing of town site plats, was reported with a minor amendment and the bill passed.

C. B. No. 63, prohibiting the preference of creditors to the exclusion of others was considered at length and referred to the committee of the whole to be considered in connection with C. B. No. 102, an act authorizing and regulating voluntary assignments. Both acts were subsequently passed.

H. B. No. 126, an act fixing the fees of certain officers, paying river commission \$3 per day, was taken up and passed.

Mr. Kistler reported favorably H. B. No. 104, to pay the enumerators of the last census.

C. B. No. 67, fixing the fees of clerks of the district courts, was considered at length by committee of the whole, favorably reported and finally passed by the house.

COUNTIES OF EDDY AND BOSWELL.

Mr. Foster introduced H. B. No. 140, an act to create the counties of Eddy and Boswell, dividing the eastern half of Lincoln county for this purpose. The bill was referred to a special committee composed of the southern county members.

H. B. No. 66, an act to restrict the powers of county commissioners in certain cases, was amended on motion of Mr. Sniffen and passed.

The house went into committee of the whole on H. B. No. 31, an act to provide for the better government of public districts. The committee considered the bill at length and upon its recommendation H. B. Nos. 31 and 87, relating to the same subject, were referred to special committee with orders to report a substitute as soon as possible. The chair appointed as such special committee Messrs. Romero, Salazar, Sandoval, Masarunas and Talavera, and on motion of Mr. Baldwin, Mr. Speaker Fountain was added to the committee.

H. B. No. 141, to compel the territorial treasurer to publish a semi-annual report of the financial condition of the territory, was twice read and referred to the finance committee. Adjourned to 10 a. m. to-day.

TO-DAY'S SESSION.

A council bill to fix the fees of clerks of the district court having passed both houses, H. B. No. 112, on the same subject, was laid on the table.

A message from the council announced that body had passed H. B. Nos. 126, 32, 42 and 125, and house joint memorial No. 13, and the same were ordered enrolled. The house then went into committee of the whole and reported favorably on H. B. No. 13, creating the office of county surveyor, which was passed as amended.

On motion of Mr. Foster the rules were suspended for the consideration of C. B. No. 39, the general funding act. After two readings the house resolved itself into committee of the whole. Mr. Foster in the chair.

Mr. Baldwin offered an amendment excepting from the action of this bill all county lands or warrants the legality of which is now disputed in the courts of the territory.

Messrs. Baldwin, Sniffen and Silva spoke in favor of the amendment. Mr. Cooney, Mr. Salazar, Mr. Garcia and Mr. Fountain favored the passage of the measure without amendment. Mr. Fountain said a close examination of the bill would convince any fair minded man that it does not contain "the wolf" Mr. Baldwin referred to. In drawing the bill he said no thought had been considered as to the effect of the bill directly or indirectly on Santa Fe county; that it had been framed with a view to the urgent need of affording the greatest good to the greatest number.

Mr. Baldwin's amendment was lost by a vote of 15 to 8, and the measure was favorably reported. The bill was then read a third time by title and passed by a vote of 15 to 8.

By Mr. Foster, H. B. No. 142, an act to define the crime of bigamy and to provide the punishment therefor. Referred. The solicitor general bill and the governor's veto of the same were called up by Mr. Foster.

Mr. Baldwin moved to adjourn to 2 p. m. Carried by a vote of 14 to 9.

JOINT RESOLUTIONS.

In response to certain joint resolutions of the senate and house of representatives of the state of Colorado with relation to the territory of New Mexico.

Whereas, upward of forty years ago the United States acquired from the republic of Mexico a vast domain now included within the states of Colorado, California and Nevada and the territories of New Mexico, Arizona and Utah, and by the terms of the treaty of cession pledged the national faith to accord to the citizens of Mexico who, renouncing their allegiance to their former government, should elect to remain in the ceded country, all the rights and privileges of citizens of the United States; and

Whereas, New Mexico, at the time of the said cession, was the most populous and enlightened part of the country so ceded, and had for a period of twenty-five years and upward been under a constitutional government modeled on the constitution of the United States, and her people had grown attached to Republican principles and zealous to defend them; and

Whereas, the present territory of New Mexico contains as large a proportion of citizens born and bred under the American flag as any other territory or any northern state of the union; and

Whereas, in devotion to constitutional liberty and in self-sacrificing fidelity to the obligations of American citizenship imposed upon them by the said treaty, her people during the late civil war stood as a bulwark against the inroads of forces hostile to the American union, and heroically spent their blood and freely gave their treasure in upholding the national flag—in this devotion sacrificing more men and more money than the territories combined then existing; and

Whereas, before and after the civil war, as well as during its progress, her citizens, left to their own resources, coped successfully against the lawless and savage Indians who assailed and desolated their homes, and whom the general government appeared powerless to restrain; and

Whereas, New Mexico of right ought to be immediately granted the rights and privileges of a state; and

Whereas, notwithstanding the expressed purpose of a large majority of the congress of the United States, manifested on several occasions, and especially in 1876, to enforce the said treaty, and to show grateful appreciation of the patriotic efforts of New Mexico in the cause of liberty and civilization by admitting her as a state into the union, yet of late divers ignorant or evil disposed persons have endeavored, by vituperation and falsehood, to cast obliquity upon our people and thereby induce the congress of the United States to view with disfavor the bill now pending for the admission of New Mexico into the union; and

Whereas, our neighbor, the state of Colorado, a large part of whose territory was carved out of New Mexico and acquired by the same treaty, has by joint resolutions of her legislature, lately come to the aid of New Mexico in vindicating her from the aspersions of her enemies and in urging with congress argument and eloquent persuasion her claims to statehood; therefore be it

Resolved, By the legislative assembly of the territory of New Mexico, that this body, in its own behalf and that of its constituents, tenders to the senate and house of representatives of the state of Colorado, jointly and severally, and to the people of that state, so well represented, the most profound and sincere gratitude for the earnest, emphatic, able and impressive joint resolutions recently passed by the legislature of Colorado in the admission of New Mexico into the union.

Resolved, That in the judgment of this assembly, the state of Colorado, in and of herself, presents to the candid mind the most convincing proof of the propriety of immediately elevating New Mexico to the dignity of statehood. The grand natural resources of New Mexico are the same in kind and degree as those which that territory, since her admission into the union, has developed until she has become the marvel of the world, the favorite goal of intelligent and enterprising emigration from other states, and the strongest inducement to investing and seeking capital. The native people of New Mexico, who became incorporated first into the territory and then into the state of Colorado, and their descendants, have proved, by intelligent and energetic co-operation with the citizens derived by Colorado from other states that the development and protection of American institutions and American interests can never suffer at their hands, and that they are, in fact, in law, the American citizens.

The Hon. Casimiro Barera, himself one of the Spanish speaking citizens who, in reliance upon the national faith, have

held and claimed the rights and dignity of American citizenship by virtue of the said treaty, illustrates in his own career as a private citizen and as a legislator of the state of Colorado, and in the respect accorded to him by his fellow citizens, and in the ability and fervor with which he has discussed and promoted the recent joint resolutions of the legislature of his state in our behalf, the truth, so well known here and in Colorado, that the public interests may be safely entrusted to our Spanish speaking people, and that the opportunities granted to a state, but denied to a territory, are all that are needed to stimulate into beneficent activity those energies and improving forces which are largely kept dormant by the condition of tutelage and dependence incident to a territory.

Resolved, That a copy of these resolutions be duly transmitted to the senate, as well as to the house of representatives, of the state of Colorado, and also to Hon. Casimiro Barera.

EXECUTIVE OFFICE.

Territory of New Mexico.

Santa Fe, Feb. 13, 1889.

To the Council of the 28th Legislative Assembly:

Gentlemen: I have the honor to transmit herewith in house in which, it originated, council bill No. 140, "An act to prevent the overstocking of cattle ranges," without executive approval.

Section 1 of this bill prescribes the method whereby possession of the public domain can be acquired—simply by appropriating and stocking a range thereon. Section 2 provides for the protection in such possession of persons who have so appropriated and stocked a range on the public domain.

These two sections, taken together, combine to establish a possessory right, the infringement of which, in certain forms, is made punishable by fine and imprisonment.

To make a law which prescribes a method of taking possession of any portion of the lands of the United States, and then to provide for the punishment of trespass thereon, is to legalize that possession, and thus create a possessory right, so far as it is in the power of the territory to do so.

A possessory right in the soil is thus guaranteed by the territory, in contravention of the organic laws of 1850, Revised Statutes, which declares that "no law shall be passed interfering with the primary disposal of the soil."

To further illustrate this point, we will suppose that the legislature were to pass a law giving to persons of any other class of the public industries—agriculture, for instance—the similar right to take possession of any desired area of "the public domain of the United States," by "appropriating and stocking" it with farming implements and work cattle, and horses and cows, instead of range cattle, without the consent of the United States, and then provide for the protection of such possession against trespass by private parties. Would it be contended for a moment that such a law would be valid? Yet it would establish a precisely similar condition to that contemplated by this bill.

If the legislature can give possession and use of the public lands in the one case, it can with equal legality and propriety do so in the other.

This bill is therefore so much in the nature of an attempt at the "primary disposal of the soil" as to make it exceedingly doubtful, if not dangerous legislation.

This alone would seem to be sufficient to establish the invalidity of this bill, but there is a still more serious economic objection. The passage of this bill into the form of law would tend to discourage the immigration of farmers to New Mexico. It would be public notice to that class that practically all our available public lands have been set aside to be occupied as cattle ranges, and that the claims of such ranges are authorized by law to occupy and possess unlimited and undefined areas of the public domain and call them their "ranges," with power to eject trespassers by force and imprisonment.

The effect would be to exclude from vast regions of New Mexico, so long as the law should remain in force and effect, the school house, the church and organized society, as they are known in the higher conditions of American life and American civilization.

I fully appreciate the need of protection of the territory against the roving, predatory and irresponsible cattle men and horse men from other states and territories, who are here to-day and there to-morrow—anywhere to obtain temporary subsistence for their stock without cost to themselves and to escape taxation—but that protection can be obtained through violation of the fundamental law of the territory, and ought not to be through the discouragement of agricultural development.

The hope of New Mexico is in the encouragement, not discouragement, of her agricultural industries.

EDMUND G. ROSS.

CAPITOL CRUMBS.

The beef inspection measures are in good hands.

The senate committee is wrestling with the new public school bill.

The bill to tax telegraph and express companies went through the house with a whoop yesterday.

Messrs. Dolan and Lesnet telegraph that they will probably return to the capital on Saturday next.

It looks very much as if the county surveyor bill will become law. It was sent to the senate this afternoon.

It is whispered that one of the leaders in the house will take home with him a fair bride from Santa Fe. Guess it?

The action of the house yesterday greatly increases the chances for the passage of a highly satisfactory irrigation law at this session.

The clerk of court salary bill has passed both houses. It allows clerks a salary of \$3,200 a year. The New Mexican will to-morrow publish the full text of the measure.

Judge J. D. O'Bryan is touching elbows with the law makers to-day. He is a mighty clever man, and a good deal of a philanthropist, "but unfortunately," says Judge Sulzacher, "he is a Democrat."

Everybody is talking about Col. Fountain's speech in favor of reducing the clerks' fees. He cited a case where a former Lincoln county sheriff received mileage credit for traveling 5,000 miles in ten days on horse back.

ARMY ORDERS.

A furlough for four months is granted to Commissary Sergt. Thomas Keeshan. The commanding officer, Fort Grant, will grant to Corp. W. H. Barkley, company K, 24th infantry, a furlough for six months.

1st Lieut. Leighton Finley, 10th cavalry, is appointed recruiting officer at Fort Apache, A. T., and will take charge of all property and papers pertaining to the recruiting service at that post, relieving 2d Lieut. F. H. Mills, 24th infantry.

2d Lieut. W. G. Elliott, 9th infantry, is appointed recruiting officer at Fort Mojave, A. T., and will take charge of all property and papers pertaining to the recruiting service at that post, relieving 2d Lieut. C. B. Duncan, 9th infantry.

NEW MEXICANS ABROAD.

Mr. Spradling Calls on President Harrison—Col. Dwyer in Washington.

Mr. J. A. Spradling, manager of the New Mexican, was a caller at President-elect Harrison's home on Monday. The dispatches say:

Mr. Spradling called to advocate his old friend, Gen. Powell Clayton, for a place in the cabinet. Mr. Spradling is an earnest advocate of statehood for New Mexico and vigorously repels the charge that the people of that territory are not prepared and able to successfully assume independent government. He says the objections at this time come from a few politicians and bankers in the territory who perceive if the territory is admitted they will lose their grip on the control of affairs. The statement is widely published that official records of the legislature and courts are kept in the Spanish language only. He declared that a falsehood. He is public printer of the territory.

Mr. Spradling also says there are three prominent names mentioned for governorship of New Mexico, Joseph W. Dwyer, of Raton, formerly private secretary to Chief Justice Chase; A. L. Morrison, of Santa Fe, ex-United States marshal under President Arthur, who took a prominent part in the late campaign in New York as organizer of the Irish-American Republican leagues, and L. Bradford Prince, ex-chief justice of the territory under President Hayes.

PLAIN TALK.

Col. J. W. Dwyer is in Washington, and the press correspondents there have interviewed him on New Mexico affairs, with this result:

The New Mexicans are disappointed about their land court bill. It is, as Mr. Dwyer says, of vastly more importance to the territory just now than the question of statehood. The difficulty is with Senator Edmunds, who wants the land grant controversies to go through the regular courts. Mr. Dwyer and others have tried to convince him that that course isn't feasible, and that New Mexico will have to struggle along under the incubus of these disquieting grant claims indefinitely unless the whole collection of grant titles, good and bad, is turned over to a commission or court especially appointed by the general government to investigate them, and pass upon them finally and forever. The New Mexicans first asked for a commission some years ago, but Senator Edmunds opposed that idea so vigorously it was given up. Now congress is asked to provide a land court, which will require all these claims to be submitted within a given period for final adjustment, after which all other claims under these old Mexican and Spanish grants are to be forever barred. The bill has passed the house, and it would go through the senate in short order if Senator Edmunds could be made to see the demand for it.

"But for these vexatious grants," said Mr. Dwyer, "New Mexico would have 300,000 people to-day, and we would be asking, as Dakota is, to be admitted as two states. What can a country do where half of it is covered by alleged grants the legality of which nobody can tell anything about? People can't buy under clouded titles either for homes or for developing mines or for any permanent investment. We are held back year after year by the uncertainties in which our titles are involved. It will not do to leave these questions to the territorial courts, for there isn't a lawyer of standing in the territory who isn't disqualified for the bench by reason of being attorney for or against one or more grants. What we want is a land court that will be appointed by the president and confirmed by the senate to go to Mexico, take testimony, investigate all these grants, and render its decision here in Washington. This court can do what territorial or state courts couldn't. It could, though the state department here, obtain access to the records at the City of Mexico and at Madrid, and thus gather all the documentary evidence there is to be had about these grants. New Mexico, Arizona and Southern Colorado are deeply interested in this matter. To New Mexicans it is a question of far greater importance than statehood."

GRAND CONCERT.

Program for the Musical Treat at the Court House.

Mesdames Clancy, Frost, Koch, Misses Franz, Crosby, Nichols and Messrs. Wedeles, Tipton and Hughes, assisted by the Philharmonic orchestra, will give a grand concert at the court house to-morrow under the direction of Mrs. S. L. Bartlett. The proceeds will go into the treasury of that worthy organization, the Ladies Guild, and those whose names are connected with the undertaking are so well known in musical circles as to require no further guarantee that the entertainment will be of a high order. Reserved seats and tickets may be secured at Welmer's news stand. Appended is the program:

Overture—Selection, T. G. K. Ruff

Piano Solo—Vivace, Chopin, Miss Kunkel

Thou art Like unto a Flower, Rubenstein

Violin Solo—Barcarole, Spohr

Thine Eyes so Blue, Max Koch

Duet—The Happy Past, Jakobowski
