GOOD NEWS!

New Store, New Goods, Lower Prices,
At Your Old Time Friend's.

ABE GOLD

In consequence of the increase of my business I have found it necessary to enlarge my store, and have rented and refitted the house formerly known as Harlow's Hotel as a store room. I have enlarged my entire stock of goods and will carry one of the most complete stocks in the entire territory. It will be my aim, as of old, to sell as cheap as my competitors, and I will not be undersold by anybody. I shall also continue to buy and sell.

NATIVE PRODUCE

And farmers and ranchers will find it to their advantage to deal with me. A Free Corral in connection with my new store, to all those coming to Santa Fe by team. Call and be convinced.

Santa Fe, N. M., January 1, 1889.

Telegraphic Tidings

WASHINGTON AFFAIRS.

THE NEW STATES.
WASHINGTON, Feb. 21.—After many hours' consultation the conferees on the omnibus bill reached a conclusion, and Platt and Springer are preparing a report to accompany the return of the bill to the two houses. The bill, as agreed to by the conferees, fixes the names of the two Dakotas as North Dakota and South Dakota, the people of South Dakota to vote on an adoption of the Sioux Falls constitution, May 14, and the location of the capital to be settled by election on the same date. The residents of North Dakota, Washington and Montana may vote for the election of delegates to a constitutional convention and for full list of state officers. On the first Tuesday in October the people may vote on the constitutions proposed by the conferees, and if adopted after the president's proclamation to that effect the governor of each territory may order an election of members of the legislature and representatives in congress. Legislatures may meet and elect two senators each in time to take seats at the beginning of the first regular session of the 51st congress in December next, at which time the representatives shall be admitted to seats. Those provisions apply also to senators and representatives of South Dakota.

AMID APPLAUSE.
The house adopted the conference report in the territory bill without division, and amid applause.

SUNDAY CIVIL APPROPRIATIONS.
The senate proceeded to the consideration of the sundry civil appropriation bill. A number of amendments reported by the committee were agreed to, among them the following:

Columbia river, Ore., \$60,000. San Pedro, Cal., \$5,000. Fish hatcheries in Lake county, Colo., \$15,000. Two thousand dollars for the repair of the ruin of Casa Grande, Ariz., and directing the site to be reserved from sale or settlement. Two thousand dollars for expenses of a board of three engineers of the army to examine the northwest coast for a deep water harbor.

The amendment to pay Mrs. Waite \$870 balance of one year's salary of the late Chief Justice Waite encountered considerable opposition, but was finally agreed to, ayed 28, nays 16. An amendment appropriating \$40,000 each for statues of Gen. Phil. Sheridan and Gen. John A. Logan in Washington was agreed to, and Daniel gave notice that after all committee amendments were disposed of he would offer a similar amendment for a statue of Gen. Winfield Scott Hancock.

Catholic Centennial.
WASHINGTON, Feb. 20.—The celebration of the Georgetown college, for which elaborate preparations have been made, began yesterday with the singing of a high mass in the chapel. There are nearly 500 Catholic bishops and priests present, many of whom came here specially from Europe to participate in the celebration. During the exercises, which will continue three days, President Cleveland and Cardinal Gibbons are expected to visit the college.

Electric Promoters.
Chicago, Feb. 20.—The annual convention of the National Electric Light association began yesterday. The address of the president states among other things that during the past year there has been an increase of 750,000 in the number of incandescent lights in use in this city, and they now number over 2,500,000. About 300 miles of track for the electric railroads have been laid.

ESTEE'S BOOM.
Pacific Coast's Chances for a Place in the Cabinet.

INDIANAPOLIS, Feb. 21.—The most interesting phase of cabinet speculation now is the prevailing impression that the Pacific slope is going to be left out. Until within the past few days it has been generally believed that California would certainly be represented, but the recent publication of complete cabinet slates, with California omitted, has given rise to many conjectures as to the cause. The generally accepted theory is that it is due to actual strife and too many ambitious aspirants whose friends are entirely too ready to privately make detrimental charges. Judge M. C. Estee was regarded as bearing the best chance of being called, and it is by no means regarded as settled either that his name or some other Californian's may not actually appear upon the cabinet slate. Gen. Harrison preserves his accustomed reticence about this, as all other cabinet matters. Congressman Morrow, of San Francisco, arrived from Washington last Sunday and proceeded immediately to Mr. Harrison's home. He came to urge

that the Pacific slope be recognized. He had blood in his eye, so to speak, when he left for Mr. Harrison's residence, and the suggestion that California will be left out brought from him a quiet protest. He expects to return to Washington Saturday next.

Aid for Parnell.
WASHINGTON, Feb. 20.—A mass meeting of Irish-American residents of this city was held for the purpose of raising money to aid Parnell in his fight against the London Times.

Senator Stewart of Nevada presided and speeches were made by him and Representatives Foran and McAdoo, ex-Governor Price of New Jersey and ex-Representative Hichelieu Robinson of New York. Resolutions were adopted declaring in favor of home rule and denouncing the testimony given against Parnell and that of perjurers and felons. About \$800 was raised.

Their Business Booming.
Probably no one thing has caused such a general revival of trade at C. M. Creamer's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

THE SITUATION IN FRANCE.

None Willing to Undertake the Formation of a New Cabinet.

PARIS, Feb. 21.—In spite of continued negotiation, a settlement of the cabinet crisis appears as distant as ever. The failure of Meline indicates an absolute impossibility of forming a cabinet on Ferryist or Opportunist lines. President Carnot to-day offered the premier-ship to Tirard, only to meet with another refusal. He then summoned Meline, whom he urged to make another effort, but he again declined to undertake the task. President Carnot summoned Senator Maguin, a former minister, and a well accredited report says the president strongly inclines toward a cabinet formed mainly of senators, conceiving that such a ministry would have a better prospect of securing general support than a government composed of more pronounced members of the chamber, but late this evening nothing has been settled. Ex-President Grevy has been taken suddenly ill. It is feared his constitution will break down.

Ready for War.
VIENNA, Feb. 21.—A political correspondent says: "According to semi-official advices from St. Petersburg, the object of Gen. Kamarski's visit to Yarkand is to occupy all important strategic points on the Afghan frontier, to enable the Russians to strike a prompt and crushing blow in the event of the opening of hostilities by the army of Afghanistan."

German Affairs.
BERLIN, Feb. 21.—In well informed circles it is reported that Gen. Von Wittich will succeed Count Von Schellendorf as minister of war. Devan Lamer, surgeon of the army and for many years physician to Emperor William, has been retired. The report has been confirmed that Herr Brandeis, advisor to King Tamasas, has been recalled to Germany.

Law and Order League.
BOSTON, Feb. 21.—The national convention concluded its sittings. There are now about 1,000 leagues in the United States, and one or two in Canada. Toronto was fixed as the next place of meeting. President Bonney, of Chicago, was re-elected. Among the long list of vice presidents is J. M. Wallace, of Colorado.

Window's Chances.
NEW YORK, Feb. 21.—Ex-Secretary Windom returned from Indianapolis yesterday, but he was as reticent in reference to the cabinet as when he was seen before his departure for that city. There is no doubt among his intimate friends here that he has been offered and has accepted the position of secretary of the treasury.

Rudolf's Chum Gets a Hint.
VIENNA, Feb. 21.—The late Crown Prince Rudolf's chum, Count Hayau, has been ordered by the emperor to take a foreign trip. He will go to Africa and join the anti-slavery expedition. The crown prince's debts amount to 8,750,000 florins.

Prohibition Convention.
HARRISBURG, Feb. 21.—The convention adopted resolutions endorsing Master Workman Powderly's stand on the prohibition question, and pledged the organization to the support of the proposed constitutional amendment.

The Most Agreeable.
As well as the most effective method of dispelling headaches, colds and fevers, and cleansing the system, is by taking a few doses of the pleasant California liquid fruit remedy, Syrup of Figs.

HARBOR AND WATERWAYS

The Time Has Come to Provide a Definite Policy.

WASHINGTON, Feb. 21.—Representative Lafor, from the committee on expenditures in the war department, has reported to the house a substitute for the bill introduced early last session by Breckinridge, providing for the creation in the war department of a bureau of harbors and waterways, to undertake all river and harbor improvements. The substitute provides for the creation of such a department, to be officered by a corps of United States engineers, composed of an equal number of military officers and civilians. In the report accompanying the bill the committee explains at length its provisions, and says the time has come to inaugurate a definite policy with regard to national public works and to provide a specific agency for its execution. The sense of the people and of congress, it says, has shown a steady growth for twenty years in favor of the development of harbors and waterways. During this time great evils have been charged against the legislative and administrative methods, and these charges have gathered force with each passing year. The more charges in the methods of making appropriations or in the administrative system, or both, will not be sufficient. The evil is fundamental and requires a radical change. The theory of the present bill is to provide an advisory as well as an administrative agency. The theory is to divide into districts, each embracing certain related works or groups of works, and in charge of a division engineer. Several divisions are to be embraced in the proposed department, which is to be under an advisory board, and this board is to make final recommendations to congress through the secretary of war. The bill reported to-day is supposed to meet the objections urged against the original bill.

"I have used Ayer's Pills for the past thirty years, and I am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed."—T. P. Bonner, Chester, Pa. Ayer's Pills are sold by all druggists.

Clayton's Shavers Known.

LITTLE ROCK, Feb. 21.—There is but little doubt from the facts that have come to light within the past few days that the assassins of Col. John M. Clayton are known, and that before long they will be in the clutches of the law.

The Gazette claims that after the arrest of certain citizens in Conway county for unlawful interference with federal elections, overtures were made to the Republican central committee for a compromise, by which prosecution would be stopped.

The committee agreed to compromise, but refused to withdraw the reward offered for the arrest of the masked men who stole the ballot box. A representative of the parties of Morrill returned to that point feeling that the agreement would be satisfactory and stating to a friend of Col. Clayton's in Little Rock that he believed the agreement would save Clayton's life. The parties for whom he had been treating, however, refused to comply with his terms because the reward of \$1,000 had not been withdrawn. Beyond this nothing is known of the conclusion reached by the Morrill parties, but it is certain that on that night two men went from Morrill to Plumerville.

SANTA FE'S STATEMENT.

Some Facts on the Finances of the Great Line.

BOSTON, Feb. 18.—A complete A., T. & S. F. railroad statement has been presented to the directors, and by them unanimously approved for publication. The forty pages prove to be fifty-eight, and the bulk of the report has already been practically covered in statements already printed. The portion which is of greatest interest is contained in a summary of fixed charges for the year 1888. These are shown to be as follows: Total interest, \$8,750,365; total sinking funds, \$558,836; taxes, \$1,220,834; total net rentals, \$501,683. Total of all, \$10,531,838. Add direct interest on equipment lease warrants, \$1,445,660, at 6 per cent, \$86,739, making a grand total of \$10,918,598. The direct charges above are exclusive of \$101,800 in interest on land grants, which is payable from land receipts, and includes full interest on \$7,000,000 guaranteed fund notes at 6 per cent, although only \$2,500,000 had been issued in January 1889. The total charges include the interest on the Gulf division, and Atlantic & Pacific bonds and one-half the bonds of joint mileage, including one-half the rental of the Mojave division of the Atlantic & Pacific.

The Sarnoon Affair.

SAN FRANCISCO, Feb. 21.—Discussion of the Sarnoon question in New Zealand and Australia has shown that the press uniformly supports the action of the United States government in appropriating money to protect its interests, and the declaration is made that in case of serious trouble between America and Germany over the island the sympathy of the colonies would

After March 1 we shall be located in our New Store on Palace Avenue. From now on until removal we shall offer our Immense Stock at a trifling margin above actual cost. We have a full line of everything kept in a first class Jewelry Store, in addition to our "Native Specialty." We would invite a careful inspection of our Elegant Assortment of Gold Watches, Diamonds, Silverware, etc., etc.

THURSDAY, FEBRUARY 21.

THE FOUNTAIN JURY LAW.

The New Mexican is again extremely gratified to be able to congratulate the people of New Mexico and the 28th legislative assembly upon the speedy passage on yesterday of the new jury law. Col. Fountain, the speaker of the house, prepared the bill, and his influence and energy pushed it through the Republican caucus and the legislative assembly. The saving in its provisions will amount to about \$40,000 per year. At the same time the machinery of the courts is not interfered with; quite the reverse, it is increased in efficiency. The saving is effected by decrease in the number of jurors and one of holding the sessions of the grand jurors; by having but one set of grand petit jurors, all to be paid by the government of the United States to act for both the district courts at Santa Fe, Las Alamos, Albuquerque and Las Cruces, and of course by a corresponding saving in the compensation and mileage of sheriffs, bailiffs and interpreters. A synopsis of the act was given in yesterday's New Mexican. Col. Fountain is entitled to credit and full credit in this matter, and the New Mexican will see that he receives it. We have done all we have been able to in the matter and by calling it to the attention of the assembly, Speaker Fountain worked hard and successfully, and his work will save the territory in the neighborhood of \$40,000 per year. Let the 28th legislative assembly proceed in the even tenor of its way despite the howls of the Albuquerque professional blackmailers, ycleped Albuquerque Democrat, and other Democratic sheets.

Such work as the passage of the Perea finance bill, the enactment of the law turning clerks' fees into the treasury and allowing them a salary, the saving of \$5,000 in extra compensation to the territorial judges and the passage of the Fountain jury law, all of which measures will save the territory about \$150,000 per year, as we have said before, is a good enough record for any legislative body, Republican or Democratic, in New Mexico or elsewhere.

The 28th legislative assembly, upon the whole, has made a most excellent record and the people of New Mexico are to be congratulated on the result of its labors and its beneficial work.

The governor has vetoed the bill providing for a different management of the penitentiary, on constitutional grounds. Very well. We do not think the constitutional grounds are well taken. The bill should be speedily passed over the governor's veto. It contains many wholesome and beneficial provisions. It should become a law. It is modeled after the Colorado statute for the government of the penitentiary, which has been found to work extremely well for the past twelve years. Hence the bill in question is not an experiment. The conditions existing in New Mexico are similar to those existing in Colorado. A good deal of money will be saved by the enactment of the bill. Pass it, and pass it speedily, gentlemen of the 28th legislative assembly, the governor's objections to the contrary notwithstanding.

A change should be made in the time of the election of the justices of the peace. Their terms should run for one year only, and the elections should take place in January of each year. A better class of justices could be obtained at these special elections, as politics would not cut much of a figure. Now at the general elections it is often the case that bad, incompetent and corrupt men are nominated and elected. A change would put a stop to this and enable the people to select better men for these very important positions. There is a bill to that effect now pending in the council, introduced by Senator Jaramilla. It should be speedily taken up and passed.

SENATOR KING, hurry up the investigation of your committee and let us have your report. The people demand to know what has been going on in the courts and why over \$300,000 have been expended under the direction of Democratic judges during the past two years for their maintenance, and why Democratic clerks and Democratic district attorneys have made neat little fortunes out of their offices during that time.

Five thousand dollars per year spent in judicious advertising of New Mexico and her capabilities will bring a couple of million dollars worth of taxable property and a good many immigrants into New Mexico during the coming two years. That sum could not be better or more profitably expended. Appropriate the necessary amount, gentlemen. The people will stand by you and approve your action.

New Mexico's magnificent resources should be fully and judiciously advertised. Capital and gold immigration are needed to develop New Mexico. The legislative assembly should make a liberal appropriation for the support of the bureau of immigration.

OTERO COUNTY.

The New Mexican is in receipt of a communication from a prominent Colfax Republican, stating that if the people of that county were consulted it would be found that a new county would be created out of part of Colfax and Mora. Of course, for the present, it would be a Democratic county. Why a Republican legislative assembly should increase the number of counties solely to be Democratic, when the people thereof at the very least do not want them, is more than can be readily understood. Eastern Colfax so far is not at all well settled; Clayton is the proposed county seat. It is eleven miles from Folsom, where the new land office is to be located. These are the only two places of any consequence in the proposed new county, and they are not fifteen months old. Neither the Folsom Idea nor the Clayton Enterprise, the two papers published there, contain anything in the direction of expressing a wish for a new county. Were the people of that section in favor of the scheme these papers would surely advocate it. There surely is no political sense in creating a new county with a brand new set of Democratic county officials. This of course would increase power and prestige, and we doubt if within the next two years the new county could be redeemed and made Republican. The New Mexican thinks the creation of the new county of Otero at this time would be a political blunder of the first class; besides, the people of that section do not want it, neither do the people of Colfax county.

Messrs. Baca, Dolan and Prichard are the council committee on counties and county lines. They should carefully investigate the matter before acting. The creation of the new county is not demanded by any necessity whatsoever. We are in favor of the creation of new counties, whenever the people demand it and any possible benefit could arise therefrom. But in this case we can not see where such benefit lies. The county of Otero can wait and wait to wait.

The Folsom Idea, published at Folsom, in the proposed new county of Otero, says that within the limits of the proposed new county there is not sufficient taxable property to sustain a new county. There is evidently something to the statement. The matter should be carefully looked into before action on the bill creating the new county should be taken in the council.

SENATOR KING, go right ahead with your investigation. The eyes of the people are on you. The people wish to know how it comes that the courts of the territory cost over \$300,000 in the past two years. This information will be of great interest to the people, and they desire to see it in cold type, black on white.

New Mexico will hardly be received into statehood this year. We hope a better fate will await her from the hands of the next congress—Herald.

A Republican administration and a Republican congress will admit New Mexico after the census of 1890.

As far as the New Mexican is concerned, it will do its very best to see that territorial officials of all kinds go straight Republicans. No Mugwumps, no time servers or Democrats need apply.

The laws enacted by the present legislative assembly should be published in several papers for the territory for the benefit of the people. See to this, gentlemen.

The sooner Surveyor General Julian is incontinentally kicked out the better for all concerned, especially for the advancement and prosperity of the territory.

The King committee should go right ahead investigating the court accounts. The people expect it.

GENTLEMEN, only seven more working days remain. Put them in to the best advantage possible.

This university of New Mexico will be located at Santa Fe, if anywhere.

The world-wide reputation of Ayer's Sarsaparilla is the natural result of its surpassing value as a blood medicine. Nothing in the whole pharmacopoeia effects more astonishing results in scrofula, rheumatism, general debility and all forms of blood disease, than this remedy.

Idleness is a Dangerous Fault. In the kidneys. When inactive they speedily fall into disrepair. These obstinate and fatal maladies, Bright's disease and diabetes, connected with terrible certainty upon the inaction of the organs affected. Catarrh of the bladder, gonorrhea, stricture and strangury are also to be apprehended from a partial paralysis of the bladder, of which weakness and sluggishness are the causes. Ayer's Sarsaparilla is a fine tonic and promoter of activity for the renal organs, and one which can be relied upon to drive them the requisite stimulus without exciting them to a feverish and inflamed condition. A further beneficial effect of the Sarsaparilla, by removing the impurities from the blood, is to drive them from the blood in its passage through the kidneys, and thus prevent the formation of uric acid, and the consequent deposition of uric acid in the joints and elsewhere.

Advice to Mothers. Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pains, cures wind colic, and is the best remedy for diarrhea. Twenty-five cents a bottle.

Acclimated Stock! All varieties of fruit trees, selected especially for their adaptability to the various climates of New Mexico; any age desired. Ornamental trees, shrubs and vines.

Take your old magazines or music to the New Mexican's bindery and have them handsomely rebound.

Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Pills. So many feel they owe their restoration to health, to the use of the great alterative and tonic. If you are troubled with any disease of kidneys, liver or stomach, of long standing you will surely find relief by use of Electric Pills. Sold at 50c or \$1 per bottle at C. M. Creamer's.

Pilest Piles! itching Piles! Symptoms—moisture; intense itching and stinging; most at night; worse by scratching. Atlantic & Pacific R. R. Co.
Law and Land Department.

J. A. WILLIAMSON, General Solicitor, Land Commissioner.

ALBUQUERQUE, N. M., January 1, 1889.

When the Atlantic and Pacific Railroad Company established its land department at Albuquerque, New Mexico, in June, 1881, but little of the land was completed and the country adjacent to its proposed line was uninhabited except by Indians, and comparatively unknown.

The company was desirous of securing agricultural settlers and stock raisers along its line, and with this end in view it had been continuous and voluminous, and, when required, the prices and terms of payment for the several classes of land have been given, and consequently there are great numbers of letters in the hands of correspondents, written between July, 1881, and the present time, in which prices were quoted which were to be in force for a certain period.

State surveys have been made and the land explored and its quality and capability for producing various crops have been ascertained. The prices have, in some localities, been advanced, and letters recently written in answer to inquiries as to prices have named the present prices—higher than those formerly given. The company has been in the habit of giving equal prices on its lands when sold to actual occupants. As soon as the land department was organized and established the company advertised its lands for sale, and letters were received from all parts of the country, and from many of the several classes of Europe making inquiries as to the location, character and price of its lands. In answering these letters the company has named the present prices—higher than those formerly given. The company has been in the habit of giving equal prices on its lands when sold to actual occupants. As soon as the land department was organized and established the company advertised its lands for sale, and letters were received from all parts of the country, and from many of the several classes of Europe making inquiries as to the location, character and price of its lands. In answering these letters the company has named the present prices—higher than those formerly given. ELEVATIONS. The base of the monument in the grand plaza is, according to latest corroborated measurements, 7,019.5 feet above the sea level of the sea; Bald mountain, however, the northernmost and at the extreme northern end of the Santa Fe mountains, is 12,261 feet above sea level; Peak Lake, to the right (where the Santa Fe creek is at its source), is 12,045 feet high; the divide between the Santa Fe and the Frías, 6,484; Conejón (west), 6,625; La Bajada, 5,514; mouth of Santa Fe creek (north of Peña Blanca), 5,225; Sandia mountain, the highest point, 9,008; the divide between the Santa Fe and Conejón mountains (south of the divide), 5,684 feet in height.

POINTS OF INTEREST.

There are some forty various points of more or less historic interest in and about the mesa. The most important are:

The Adolfe Plaza, north side of the plaza, has been occupied as an executive mansion since 1680, the first governor and

Mortgage Sale.

Pursuant to the conditions of a certain mortgage made and executed on the 24th day of November, 1887, by James H. Purdy and his wife, Louise E. Purdy, of Santa Fe, N. M., to E. D. Thomas, of the same place, for the sum of \$1,000, in full of a note "E," of the record of mortgages of Santa Fe county, at pages 62, 63 and 64, of the undersigned, the assignee of said mortgage, under date of assignment of said mortgage, and under date of sale, is also recorded in said book "E," at pages 132 and 133, on January 29, 1888, will sell the property described in said mortgage at the door of the court house in Santa Fe, N. M., on the 13th day of March, 1888, at 10 o'clock in the forenoon of that day, for cash to the highest bidder. The said property to be sold is described in the mortgage as follows: "A certain lot in the north part of the town of Santa Fe, N. M., containing 1/4 of an acre, more or less, and bounded by the south line of the lot of E. D. Thomas, 1887, recorded in book "E," page 289, of probate office, Santa Fe county, was conveyed by E. L. Kanevader and his wife, Louise E. Kanevader, to J. H. Purdy, bounded west by the

maneuvering ever of interest to the tourist.

Other points of interest to the tourist are: The Historical Society's rooms; the "Garita," the military quarter; chapel and convent of the Holy Rosary; the church-museum at the new cathedral, the archbishop's gardens; church of Our Lady of Guadalupe with its rare folk work of art; the soldiers' monument; the University of San Carlos; the San Francisco Xavier, erected by the G. A. R. of New Mexico; St. Vincent hospital, conducted by Sisters of Charity, and the Orphan Industrial school; the Transfiguration Academy and the chapel of Our Lady of Light.

The sight-seer here may also take a vehicle and enjoy a day's outing with the following pleasure resorts:

San Juan, the most popular resort, is a small town, taking in the divide en route to Monument rock, up in picturesque San Juan cañon; the Aztec mineral springs of the same name; the San Juan de los Rios mines; place of the assassination of Governor Perez; San Ildefonso pueblo, or the ancient cliff dwellers, beyond the Rio Grande.

San Juan, San Francisco, and Santa Fe are four miles distant from Santa Fe over a beautiful and picturesque mountain road is the latest point of interest opened to the sight seer. Prof. Clarke, of the University of New Mexico, has just returned the following analysis of the

out.

CONSUMPTION.
Which is *Scrophulous of the Lungs*, is arrested
and cured by this remedy, if taken in its
early stages of the disease. From its mar-
velous power over the disease, it has been
often called the "World-Famous Remedy"
for the purpose of curing Consumption, and
calling it the "Consumption Cure," but
it is not a cure, but a restorative for
the medicine which, from its wonderful
action of tonic, or strengthening, alternative,
and blood-cleansing, and bilious, peccant,
and irritative properties, is unequalled, not only
for the cure of Consumption, but for **all**
Internal Diseases of the

Liver, Blood, and Lungs.

For Work Lungs, Spitting of Blood, Short-
ness of Breath, Cough, Catarrh of the
Throat, Asthma, Soreness Glands, and kindred
diseases of the Lungs, and all diseases
caused by Druggists, at \$1.00, or Six Bottles
\$5.00.

With enough carbonic acid to retain the carbonates of calcium and magnesium in solution as bicarbonates.

Dr. David L. Huntington, curator of the United States National Museum, Washington, D. C., adds his voluntary testimony in behalf of the spring, and says: "The water contains eighteen grains of solid material to the gallon. Soda, lime and magnesium exist in bicarbonates, also chlorides of sulphates with traces of iron. It resembles many of the German springs and would be useful in troubles of the bladder, the gall, and will be found useful in some forms of indigestion, and is a gentle tonic."

Eureka.

The motto of California men, I have found it. Only in that land of sunshine where the orange, lemon, olive, fig and grape bloom and ripen, and attain their highest perfection in mid-winter, will the health and gum found that are used in this pleasant remedy for all throat and lung troubles.

Santa Abie, the ruler of coughs, asthma,

**Largest Daily Circulation of any
Republican Paper in America.**

THE PRESS is the organ of no faction;
is no wires; has no animosities to
engage.

**It is the most remarkable Newspaper
Success in New York.**

The **New York Press** is now a **National
Newspaper**, rapidly growing in favor with
publicans of every state in the union.

It has the best news, vulgar sensations and lowest price
of any paper published in the United States. It is an
cheap paper, published at the lowest price
American currency permits.

The **daily Press** has the brightest editorial
talent in New York. It sparkles with points.

The **Sunday Press** is a splendid twelve-page
evening, covering every current topic of interest.

The **Weeky Press** contains all the good things
of the **Daily** and **Sunday** editions, with a serial
tales suited to a weekly publication.

For who can not afford the **Daily Press**, or are
convinced by distance from early receiving it,
the **Weeky Press** is a splendid substitute.

[illegible]

will cure any ordinary cold, influenza, whooping cough, diphtheria, catarrh, chronic bronchitis or other respiratory complaint may follow, and they are seldom if ever cured by any medicine or treatment. Only 50 cents per bottle. For sale by C. M. Creamer.

Eczema, Itchy, Scaly, Skin Tortures.
The simple application of "SWAYNE'S OINTMENT," without any internal medicine, will cure any case of Tetter, Scald, Rheum, Ringworm, Piles, Itch, Soreness, Eruptions, Eczema, Itchy, Scaly Skin. Eruptions, no matter how obstinate or longstanding. It is potent, effective, and costs but a trifle.

It is of the utmost importance that every cold be cured as quickly as possible after the first symptoms appear, and the experience of many years has shown that there is no medicine that will cure severe cold in less time than Chamberlain's Cough Remedy. Sold at 50 cents per bottle by C. M. Creamer.

When you desire a pleasant physic to St. Paul, Grille. They can always be depended upon to not nauseate the stomach nor grip the bowels. For sale by C. M. Creamer.
