GOOD NEWS!  
New Store, New Goods, Lower Prices,  
At Your Old Time Friend's.

ABE GOLD

In consequence of the increase of my business I have found it necessary to  
enlarge my store, and have rented and refitted the house formerly known as  
Hawley's Hotel as a store room. I have enlarged my entire stock of goods  
and will carry one of the most complete stocks in the entire territory. It will  
be my aim, as of old, to sell as cheap as my competitors, and I will not be  
undersold by anybody. I shall also continue to buy and sell

NATIVE PRODUCE

And farmers and ranchers will find it to their advantage to deal with me. A  
free corral in connection with my new store, to all those coming to Santa Fe  
by team. Call and be convinced.

Santa Fe, N. M., January 1, 1889.

Telegraphic Tidings

LAND GRANTS.

Decision Affecting Vast Tracts in New Mexico.

WASHINGTON, March 8.—Commissioner Stockholder, general land officer, has rendered an important decision in the Tunneco and Calabasas private land claim in Arizona.

He holds that there is no authority for the reservation of 32,000 acres included under the preliminary survey of said claim for two reasons:

First, That the land being within the "Gadsden purchase" of 1853, is not operated upon by the act of July 22, 1853, and of the treaty of Guadalupe Hidalgo of 1848.

Second, That the "preliminary survey" of a private claim does not itself operate as a withdrawal of surveyed lands from settlement and entry, even in a case covered by the act of 1854. The legal withdrawal being of lands actually claimed, or which shall be legally claimed.

Under this holding nearly 3,000,000 acres of land in New Mexico and Arizona appears to be in a state of unlawful reservation from settlement by reason of excessive surveys made for the benefit of grant claimants, irrespective of any question as to the validity of the claims themselves. Nearly all the private claims in Arizona are within the "Gadsden purchase."

Educational.

WASHINGTON, March 8.—A meeting of the department of superintendence of the National Educational association, began yesterday at the national museum and will continue until Friday evening. The attendance is quite large and the proceedings are of more than ordinary interest to the profession. A very interesting paper on "The Canadian School System" was read by the Hon. G. W. Ross, the Canadian minister of education. Others papers to be read are "County Institutes," by A. G. Lane and the "Psychology of Manual Training," by Col. Francis W. Parker. At the opening of the meeting a brief address was delivered by Senator Lehard Stanford who spoke in an enthusiastic manner of the public school system of America and paid a compliment to the delegates and the teachers generally.

Fast Train.

CINCINNATI, March 8.—Officials of the Washburn railway yesterday entered an earnest protest against the proposed restoration of fast train service between Chicago and Kansas City. Receiver McNulty, who is New York, notified the general manager of the Chicago & Alton by wire, that the Washburn would consider this action ended the agreement in regard to maintaining the passenger rates if the trains were returned. Notwithstanding this the Alton and Burlington will commence running fast trains, beginning next week, and the Rock Island will follow suit on the 15th of the present month.

A Big Irrigation Scheme.

DENVER, March 8.—One of the latest irrigation schemes is that of running a large canal from the Arkansas, between Canon City and Florence. Its course is to be along the foothills, and its waters returned to the Arkansas below Pueblo. If this scheme be carried out, it is estimated that it will reclaim 150,000 acres of land. Senator Teller, ex-Senator Tabor, Senator Fiske, Wright and others are said to have large interests in lands along the proposed ditch. Capt. Hobson, now in the city, will soon begin the survey.

Big Failures.

NEW YORK, March 8.—The suspension of the Willets Manufacturing company, who carried on a large excelsior pottery at Trenton, N. J., is reported to-night. The present condition of the company's affairs is unknown. It was in good shape when the last statement was made.

COLUMBUS, Ohio.—The Mahoning National Life Insurance company, doing insurance business on the mutual plan, failed to-day, and asked for an order of the court for dissolution. Inventory shows \$31,000 cash and \$21,000 in notes and accounts. Risks amount to \$10,000,000.

Reception.

WASHINGTON, March 7.—The afternoon reception lasted two hours. Among the callers were a delegation from Alabama, Contestant Smalls, of South Carolina, with a number of colored friends; the governor of Iowa and his staff; Col. Fred Grant and ladies, and the Cyclone Flambeau club, of Atchison, Kas. At 3 o'clock the doors closed and the president entered his carriage to seek much needed rest in a drive around the town.

Canadian Scheme.

OTTAWA, March 8.—The incandescent electric lighting patent, held by the Edison Electric company, has been declared null and void in Canada on the ground of failure to comply with a patent regulation, which provides that any article thus patented must be manufactured in Canada.

CHILCOTT'S CANDIDACY.

Urged for Commissioner of the General Land Office.

WASHINGTON, March 8.—The movement on behalf of ex-Senator Chilcott's appointment as commissioner of the general land office is being directed and engineered with considerable address and force, and the opinion is widely expressed that his name stands at the head of the list of probabilities in this behalf.

This position, however, is being sought by a legion of applicants from the west, and is more strongly backed and it is possible that the president may have some one in view who, if not already promised the place, has received direct or indirect encouragement. The statement is openly made that one of the objects of Senator Plumb's visit to Indianapolis was to press the selection of Mr. Chilcott as one eminently fit to be made, and naturally will have the support of the Colorado delegation, with all other influences the delegation may be able to command. Little doubt exists of the president's intention to appoint an incumbent thoroughly familiar and in sympathy with the needs of the western section, and Senator Chilcott is vouchsafed for as filling the bill in these essentials. Nevertheless, other aspirants are being recommended and there will be a large array of influential and competent applicants to select from.

Wholesale Poisoning.

LOUISVILLE, March 8.—On Spruce creek, near Mount Sterling, Frank Conkright, Jim Holden and Sue Holden have been arrested for poisoning Conkright's family of nine children, aged 3 to 19 years. Conkright is a widower and has been living in unlawful intimacy with the Holden woman. One of the children is dead and the others are quite ill.

RUSH OF RABIES.

General Alarm in Virginia—Bingular State of Affairs.

NEW MORTONVILLE, W. Va., March 8.—Notwithstanding that two or three hundred dogs, suspected of being mad with rabies, have been killed in this county during the past thirty days, the interior of the county still seems to be overrun with canines in dangerous condition, and the people are in a panic. There has been considerable loss of live stock, cattle, swine and sheep, which died from the effects of bites inflicted by the dogs, and in two instances horses have died. Several people have also been bitten, but in no instance yet has any serious result followed. The farmers consider it dangerous to go along the roads unarmed, and dog killing squads are out daily. One man has seven dogs, all believed to be mad, which took to the woods and are running wild with a dozen of other dogs in a like condition. These dogs spread the disease by biting other dogs, live stock, etc., and the ultimate end will be hard to foretell.

French Comment.

PARIS, March 7.—The Temps, commenting on the international address of President Harrison, calls attention to the traditional and systematic abstention of America from a foreign policy, while proclaiming loudly the duty of the country to protect her citizens wherever established.

Liberte does not see how the Monroe doctrine applies in the case of the Panama canal, as no power ever thought of establishing authority over the canal.

The Figaro sees in Mr. Harrison a resolute partisan of the Monroe doctrine.

Mothers, Read.

The proprietors of Santa Able have authorized C. M. Creamer to refund your money if, after giving this California King of Cough Cures a fair trial, as directed, it fails to give satisfaction for the cure of cough, croup, whooping cough and all throat and lung troubles. When the disease affects the head and assumes the form of catarrh, nothing is so effective as California Cat-Cure. These preparations are without equal as household remedies. Sold at \$1 a package. Three for \$2.50.

Fighting for It.

CHARLESTON, W. Va., March 8.—R. S. Carr, president pro tem. of the senate, today moved on Gov. Wilson with a writ of quo warranto to compel him to show by what right he continued to hold the gubernatorial chair. The case will not come up in court till the legal fight between Wilson and Goff has been acted upon. The case of Wilson and Goff will, in all probability, be brought up in the supreme court to-morrow morning.

Montana.

HELENA, March 8.—The governor, chief justice and secretary yesterday appointed Montana into districts for the delegates constitutional convention.

Failed for \$200,000.

MONTREAL, March 8.—The wholesale saddlery firm of Henry & Leroux has assigned. It is said their liabilities are about \$200,000.

Remember that Ayer's Cherry Pectoral

has no equal as a specific for colds, coughs, and all affections of the throat and lungs. For nearly half a century it has been in greater demand than any other remedy for pulmonary complaints. All druggists have it for sale.

CHILCOTT'S CANDIDACY.

Urged for Commissioner of the General Land Office.

WASHINGTON, March 8.—The movement on behalf of ex-Senator Chilcott's appointment as commissioner of the general land office is being directed and engineered with considerable address and force, and the opinion is widely expressed that his name stands at the head of the list of probabilities in this behalf.

This position, however, is being sought by a legion of applicants from the west, and is more strongly backed and it is possible that the president may have some one in view who, if not already promised the place, has received direct or indirect encouragement. The statement is openly made that one of the objects of Senator Plumb's visit to Indianapolis was to press the selection of Mr. Chilcott as one eminently fit to be made, and naturally will have the support of the Colorado delegation, with all other influences the delegation may be able to command. Little doubt exists of the president's intention to appoint an incumbent thoroughly familiar and in sympathy with the needs of the western section, and Senator Chilcott is vouchsafed for as filling the bill in these essentials. Nevertheless, other aspirants are being recommended and there will be a large array of influential and competent applicants to select from.

Foreign.

BERLIN, March 7.—The Boersen Zeitung says: "The United States has proposed to refer that part of the Samoan question concerning Germany and the United States alone to arbitration. Germany is not averse to this, but adheres to the opinion that the conference to be convened in Berlin should settle the questions involving Germany, Great Britain and the United States."

Wild-eyed Dismay.

LONDON, March 8.—The Vienna correspondent of the Times says: "The Austrian cabinet has been thrown into a state of consternation by Milan's abdication, fearing it will result in Russian ascendancy. Milan goes to the frontier. His private debts amount to 2,000,000 florins."

Scorched Mules.

KANSAS CITY, March 7.—The Metropolitan street car stables burned last night. Sixty-eight mules and 120 tons of hay were destroyed. Loss \$50,000. This makes 200 horses and mules that have been burned in this city the past week.

PUEBLO POINTS.

PUEBLO, March 8.—About two dozen men-of-war were in town to-day, en route from Samoa, by transfer, to the east. Two are going to Washington, two to Boston and the balance to New York. They left Samoa on the 10th of December and came to Pueblo from San Francisco via the Isthmian, and went east over the Rock Island.

The Metropolitan Trust company of New York has filed a large mortgage on the property of the Pueblo Union Depot company, this company having taken the depot company's bonds for the construction of that building.

M. D. Thatcher to-day sold to the Central Park Land company eighty acres of land directly west of and adjoining Dundee place for the sum of \$100,000. The land is to be platted and put on the market at once.

St. Peter's Episcopal church congregation in this city is now considering the matter of building a \$100,000 church. A big meeting was held last night in aid of the Pueblo advertising fund and \$10,000 raised for continuing the good work.

THE RAILROADS.

It is thought a fight between the Gould system and the Rock Island for the mastery in the large undeveloped region between the Texas Panhandle and portions of New Mexico and Indian territory will come on shortly. An understanding has existed between the Santa Fe and Gould system and the Southern Pacific not to invade the territory for a special time, hence its non-development. The Rock Island is not bound by this understanding, and has prepared to build through. Gould will endeavor to checkmate it for self preservation. The Santa Fe is disabled, and the Southern Pacific has a line of policy which makes it indifferent. The big guns all concede that this region will be the scene of much action this and next year.—Panhandle News.

This from the Fort Worth Gazette is encouraging for Cerrillos: It may or it may not be news, but the Fort Worth & Abilene road will build 100 miles of railroad from Fort Worth in a northeasterly direction before work ceases. The company has the money, knows where it wishes to build and will do so regardless of any road preservation. The Santa Fe is disabled, and the Southern Pacific has a line of policy which makes it indifferent. The big guns all concede that this region will be the scene of much action this and next year.—Panhandle News.

Speaking of the Trinidad-Las Vegas extension of the Ft. Worth & Denver, a

Trinidad paper says: "That such a road will immensely develop and render valuable that princely property does not admit of a doubt. It will also be of great value to Las Vegas. Trinidad, however, will reap the richest part of the reward. It will make tributary to this city a large section of country from which we derive at present but little if any benefit. This section is one of the wealthiest in the Rocky mountain region, both in the value and variety of its natural products. This road will develop that wealth and lay it at our feet."

Copper Market.

Mathews & Co's circular of the 6th inst says the copper situation becomes daily more strained and the syndicate blows its trumpet more loudly in proportion to the violence of the attacks of the bears. At London the latter have shown great boldness, and have offered three months futures, G. M. P's, as low as £67, while spots were quoted at £80, a very pretty difference, and sellers option over the year was hawked about nearly £10 lower at £55. On the other hand reports come from Paris that the "Auxiliary" Co. to manage the finances has been formed with \$8,000,000 paid in. Managers have been elected for six years, and they are authorized to issue \$5,000,000 in bonds and later another \$8,000,000, making a total of \$24,000,000, and in addition to that they can issue what are called "warrant bonds" for \$20,000,000 more. In fact millions are blown off like soap bubbles, and the names of Baron Hirsch, Rothschild and half a dozen other money kings are toyed with in this connection very lightly.

WESTERN WAIFS.

The Folsom Idea thinks twenty-five new houses will be erected in Folsom during the next ninety days.

The Durango Herald reports that about 1,000 valuable relics collected among the ruins of the cliff dwellers in the Mancos canon have been brought to Durango.

The Folsom Idea is doing good by advertising the systematic planting of trees along the streets of the town. In no other way can the value of town lots in Folsom be so rapidly enhanced in value.

Word has just reached this city that Jas. Lail and his sister, Mrs. Arnold, have died in Missouri of small pox. Mr. Lail had been to the cattle show in St. Louis, where he contracted the dread disease, which he took home with him and communicated to several members of the family. He died on Thursday of last week and Mrs. Arnold died on Tuesday of this week. Other members of the family are reported to be very low. The deceased were brother and sister to Mrs. Wm. Kilmore, of this city, and to Mr. Lail, of Albuquerque, N. M.—Trinidad Advertiser.

Colorado Killing.

Chas. Dodson, a type well known in Santa Fe and, in fact, throughout the territory, is in trouble in Colorado. A Trinidad paper gives the following:

Charles E. Dodson, editor and proprietor of the Colorado City Eagle, on Monday morning about 2 o'clock, shot and killed Theodore Easton, a printer who worked for him. The two, together with Lon Ferris, another printer, were confessedly drinking. Dodson and Easton were intimate friends and bed-fellows, and no reason can be given for the killing. Dodson claims that it was accidental, but the sudden disappearance of Lon Ferris, the third member of the party, who has not since been seen, throws an air of mystery around the whole unfortunate affair.

A Sound Legal Opinion.

E. Bainbridge, Munday Esq., county atty., Clay Co., Texas, says: "Have used Electric Bitters with most happy results. My brother also was very low with malarial fever and jaundice, but was cured by timely use of this medicine. An afflicted Electric Bitters saved his life."

Mr. D. L. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters."

This great remedy will ward off as well as cure all malarial diseases, and for all kidney, liver and stomach disorders stands unequalled. Price 50c. and \$1 at C. M. Creamer's.

WAGNER & HAFNER,

Have in stock the finest assortment of

Parlor, Bedroom and Kitchen

FURNITURE

Parlor, Bedroom and Kitchen Furniture, Queensware and Glassware. Buy and sell everything from a Child's Chair to a Monument. Can fit you out in anything from Kitchen to Parlor. We would invite a careful inspection of our Elegant Assortment of Gold Watches, Diamonds, Silverware, etc., etc.

GEO. W. HICKOX & CO. On the Plaza

LABOR-CAPITAL-HEALTH

Ugly words sometimes, full of discords—that is, the first two—when not tuned to a proper key; but a regular "symphony" whenever used to prove

That labor invariably produces capital;  
That capital can find a capital field of labor; } in  
That "Good digestion waits on appetite";

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPANY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 100 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of booms; and our "long term payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plats and circulars. Command us for carriage or other courtesies within our power to give.

IN ITS 27th YEAR, AND STILL ALIVE AND THRIVING

## SOME NEW LAWS.

Comprehensive Record Touching Many of the Acts of the 28th Assembly.

Titles of Laws and What They Treat of—Condensed for Easy Perusal.

In the senate of the 28th legislative assembly there were introduced 213 bills and the number introduced in the house, was even 200. Of these something like 150 became laws. Appended will be found the titles of many of the more important acts passed at the session just closed, together with some brief mention of the matters they refer to:

An act to amend an act entitled an act to provide the means to enable the penitentiary authorities to employ the convicts in mining coal.

An act to provide for the changing of names of persons—by application to the district court, etc.

An act to provide for the printing of the journals and laws in Spanish and printing the official reports for the years 1898-99—appropriating the sum of \$4,000 therefor.

An act to amend chapter 4, entitled public printer, title XXX, of the Compiled Laws, 1884—appointing James A. Spradling, of the New Mexican Printing Co., public printer.

An act to provide for certain contingent expenses of the 28th legislative assembly—providing for the running expenses of the session.

An act in relation to the imprisonment of persons charged with crime—such persons awaiting indictment or trial shall be incarcerated within the county wherein the crime is alleged to have been committed.

An act relating to criminal cases—persons imprisoned for non-payment of fine or costs to be credited with \$1 per day.

An act relating to proceedings in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

An act to define the offense of libel and fix the punishment therefor.

An act providing for the qualifications of justices of the peace and other officers and for other purposes—to be filled by appointment by the county commissioners.

An act relating to judgments in criminal cases—husband or wife to testify in certain cases.

and wires must be so constructed as not to interfere with the free passage of fish; prohibiting the catch of fish for market purposes; persons allowed to catch for their own use outside of the months of November to May inclusive; the governor to appoint county fish wardens.

Serving of writs of attachment, replevin or execution on live stock—when roundup is impracticable possession to be taken of such stock only as the officer can get without interfering with the stock of other owners; as to the balance, a copy of the writ shall be filed with the probate clerk and the lien shall stand until the next roundup, when the stock may be secured; all persons to treat such officer as the owner of said stock.

An act to create a board of health for the territory of New Mexico—establishes a territorial advisory board of health with power to issue regulations in cases of epidemic diseases, and authority to buy and distribute vaccine virus at the expense of the territory.

An act to incorporate unincorporated towns and villages—no animals allowed roaming streets in towns of 1,500 population.

An act to define and prevent nuisances in towns—unlawful to establish slaughter houses within three miles of any town of more than 1,000 inhabitants without the written consent of the town council or local health officers.

Relative to the offices of solicitor general and district attorneys—creating the office of solicitor general; increasing the district attorneys to six, and providing for their appointment in the beginning of the legislative session; and creating the office of attorney general, etc.

To amend section 2225, Compiled Laws of 1884—all claims against estates not presented within one year after the appointment of the executor or administrator; barred; all suits to enforce such claims to be brought within eighteen months after such appointment; affecting no suits now pending.

To prevent women from entering saloons for the purpose of drinking therein and for other purposes—prohibiting women from singing, playing musical instruments or dealing cards, or running other games in saloons; act to take effect after ninety days.

To amend an act providing for the repair of public roads and highways—persons refusing to work or pay their road tax liable to fine and in case of failure to pay fine and costs shall be imprisoned in the county jail ten days; justices of the peace to prosecute to judgment.

An act to prevent the overstocking of ranges—land owners or permanent living water sufficient for their stock to be deemed to be in possession of their "range;" other persons must acquire permanent living water before they can turn loose their stock upon such range.

To prevent the taking up of cattle not the property of the person or persons confining them—prohibiting the theft of milk from range cows; the taking up and detaining of any bull for purposes of improving stock.

To prevent debtors in contemplation of insolvency from preferring one or more creditors to the exclusion in whole or in part of others.

An act to authorize the funding of county indebtedness and for other purposes.

An act authorizing and regulating the voluntary assignments for the benefit of creditors.

Establishing and limiting the compensation of the clerks of the district court—salary of \$3,200 per annum; fees reduced one-half and all fees to go into the territorial treasury, etc.

An act to provide for the maintenance, government and police of the penitentiary, and also the mode of employing the officers and other employees and fixing the pay of the same and the board of penitentiary commissioners, etc.

An act to provide for the maintenance, government and police of the penitentiary, and also the mode of employing the officers and other employees and fixing the pay of the same and the board of penitentiary commissioners, etc.

An act to provide for the maintenance, government and police of the penitentiary, and also the mode of employing the officers and other employees and fixing the pay of the same and the board of penitentiary commissioners, etc.

## FAIR PLAY A JEWEL.

The Rock Island's Official Paper Speaks of New Mexico and Her Wondrous Riches.

The most complete descriptive article on New Mexico that has ever appeared in any outside publication is printed in the February number of the Western Trail, the immigration organ of the great Rock Island route. In a private letter to the New Mexican Mr. Geo. H. Smith, who is assistant general ticket agent and editor of the Trail, writes:

"I trust that you will be convinced, on reading this article, that we are not neglecting your section of the country."

A perusal of the article in question makes one glad that he lives in New Mexico. The Trail presents its thousands of readers with a column and a half of which is full of pit and fact. Every interest is touched upon; every section of the territory given fair and candid treatment. Its truthfulness and candor will not be questioned at home, and let us hope that it will not be abroad, but it probably will be, and it will be regarded as a fair and candid statement.

It will be regarded as a fair and candid statement. It has been one of New Mexico's drawbacks; her riches are so great that if one tells the truth half the people will count it simply exaggeration. And so many of the people are so prejudiced against the view of our territory's affairs, hence it will behoove the Trail to repeat these articles from time to time if it desires to establish a record for complete honesty of statement.

Santa Fe county's coal, iron, copper, lead, lumber and precious metal interests are given special mention in this article, also our superior agricultural and horticultural advantages for which the passenger department of the Rock Island will please accept the thanks of this people. Fair play is a jewel, but New Mexico gets so little of it usually that when it does come here, people are especially grateful.

But here's a paragraph from the Trail which the New Mexican takes particular pleasure in reproducing.

"The construction of the Chicago, Kansas & Nebraska extension of the Rock Island land route to Colorado Springs, Denver and Pueblo, and its intimate connection at those terminals with other railway systems extending south and southwest, as well as the building of its main line from Liberal to El Paso, gives and will give to New Mexico new outlets east for travel and traffic, and afford those facilities for transportation which can not fail to very greatly stimulate the agricultural and mining development and commercial growth."

The following extract also from this article in the western trail, will serve to convey some idea of the material in which New Mexico's resources are so richly dealt with at the hands of the Rock Island people:

"In this connection we take occasion to refer to an enterprise in Lincoln county, which is of more than local importance for the reason that this section may be traversed by the extension of the Great Rock Island Route from Liberal, on the northern line of the Panhandle over its recently surveyed line to southeast to El Paso, viz: the construction of two canals which will utilize the waters of the Rio Pecos river (the largest but one in New Mexico) for the irrigation eventually of over 40,000 acres of choice valley land.

The company organized for irrigating purposes has secured the control of all the water in the Rio Pecos and its tributaries, which represent the drainage from the eastern slopes of the Sierrita Blanca, Sacramento and Guadalupe mountains. The canals are called respectively "Northern" and "Southern."

The Northern will be thirty feet wide on the bottom, with a depth of one foot, and will supply more than 100,000 acres on the east side of the river, and 40,000 on the west side when desirable. The capital invested in this scheme is \$500,000, and several prominent Chicago business men are identified with it, the president being James R. McCay, of Chicago. The canal headquarters and manager's office is located in El Paso, Lincoln county, N. M. Thus the rapid settlement of this beautiful valley is fully assured, and its great fertility and genial climate will make it a desirable locality for the farmer and fruit raiser, and for all industries incident to agriculture and horticulture."

Syrup of Figs. Is nature's own true laxative. It is the most easily taken, and the most effective remedy known to cleanse the system when bilious or constipated, to dispel headache, colds and fevers; to cure habitual constipation, indigestion, piles, etc. Manufactured only by the California Fig Syrup company, San Francisco, Cal.

Annual Meeting Of the Mutual Building & Loan Association. Notice is hereby given that the annual meeting of the stockholders of the Mutual Building & Loan Association of Santa Fe, N. M., will be held at the office of the secretary of said association on Wednesday, March 13, 1889, at 7 o'clock p.m., for the purpose of the election of nine directors, and the transaction of such other business as may properly come before such meeting.

CHAS. F. EASLEY, Secretary. Santa Fe, N. M., March 6, 1889.

THE PEN. COMMISSION. Commissions Issued to Messrs. Burnett and Montoya.

The penitentiary commissioners met at the auditor's office in the capitol at 10 o'clock this morning, and proceeded to carry out the provisions of the new law by appointing a superintendent and assistant superintendent. Henry C. Burnett, who has acted as warden for nearly two years, was commissioned superintendent for the ensuing two years, and J. M. Montoya, of Bernalillo, laid chief clerk of the senate, was commissioned assistant superintendent, to take the place of the deputy warden heretofore held by Capt. John Gray. Also Dr. R. H. Long will be appointed penitentiary physician to succeed Dr. John Symington.

No other changes in the penitentiary were contemplated at this time, all the subordinate officers, guards, etc., being old employees, selected with a view to their adaptability to perform their respective duties. The commissioners examined the superintendent's estimates for supplies and decided to advertise for proposals for supplies to cover the coming six months.

The superintendent reported to the board that there were 108 convicts in the institution at the present time, all of whom would be much better off in mind and body if furnished outdoor employment, and it was also represented that there was on hand the penitentiary yards considerable quantity of macadam, which could be used in improving the streets and grounds adjacent or leading to the various state buildings. The commissioners thereupon ordered that the law au-

thorizing the working of convicts on the public streets of the capital be put into effect as soon as practicable.

The soft glow of the tea rose is acquired by ladies who use Pozzoni's Complexion Powder. Try it.

The New Discovery. You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, the New Discovery never ever holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottles free at C. M. Creamer's drug store.

An Open Sewer. To the Editor of the New Mexican. A letter signed "Santa Fe" in your issue of the 9th inst., calling attention to the "spring" on the west end of Palace avenue is, I think, rather vague. Might I ask you to give the facts, so far as they can be ascertained by those living in that locality? The "spring" in question has, since about October last, been "irrigating" the sewage from a restaurant on the Francisco street, and the stench arising therefrom proclaims it to be—what "Santa Fe" should have called in plain English—an open sewer! Yours truly, WEST PALACE AVENUE.

ROUND ABOUT TOWN. Plant shade trees this month and beautify the city.

The ownership of that log cabin quilt will be settled at Rice cabin to-night.

The capitol commission met again last night and audited a number of those long standing claims.

The fire boys have ordered new uniforms and propose to have a street parade and a ball on the Monday following Easter.

Assessor Yrisarri has given notice that he will be ready to receive tax returns this month and next, at his office in the court house.

The professional gardeners are taking advantage of the fine weather to do extensive planting. The soil is very mellow and warm considering the early season.

Jake Gole is getting in a heavy shipment of goods from New York. He is extending his shelves and proposes to keep a greater variety of articles than ever.

Mr. P. B. Barnhart, of West Newton, Pa., is in the city on a visit to Mr. and Mrs. Harvey. He has been to see the Mesilla valley and is now en route home, where he will sell out his interests and return to engage in the cultivation of flowers, specially roses, and small fruits. He will settle near Las Cruces.

Postal Inspector Geo. W. Waterbury received a telegram yesterday from the postmaster at the junction of the Fort Bascom and Fort Sumner rail routes, that the postmaster at Chaperito had left his office and disappeared without warning to any one, and asking Agent Waterbury for instructions. Agent Waterbury informs the New Mexican that he is ready to confer an office at once upon some person who may be anxiously seeking an appointment.

David L. Miller, coal and coke man, and as clever a soul as ever drew breath, is up from Waldo station to-day on business. He came to look after the comfort of one of his miners who is laid up at the hospital with serious injuries caused by falling rock in the mine. Al Thompson is the man's name, and he is in a very critical condition; in fact his recovery is hardly looked for. Mr. Miller says it is simply another case of "that last car of coal," that nearly all such accidents occur because the miner doesn't take time to put in his prop. He knows he ought to do it, but concludes to take out just one more car full first, and hence the trouble. Thompson is well known throughout New Mexico and his friends will regret to learn that his life hangs on a very slender cord.

PERSONAL. At the Exchange: D. W. Sidly, Kansas; Mrs. S. Lester, Wagon Mound; C. W. Davis, F. A. McCredy, D. L. Miller, Cerrillos; V. Boido, Los Angeles; A. D. McNair, W. M. Greene, M. Beckman, Denver; Geo. K. Baldwin, San Pedro; Harry Montgomery, city.
