GOOD NEWS!

New Store, New Goods, Lower Prices,

At Your Old Time Friend's,

ABE GOLD

In consequence of the increase of my business I have found it necessary to enlarge my store, and have rented and refitted the house formerly known as Herlow's Hotel as a store room. I have enlarged my entire stock of goods and will carry one of the most complete stocks in the entire territory. It will be my aim, as of old, to sell as cheap as my competitors, and I will not be undersold by anybody. I shall also continue to buy and sell.

NATIVE PRODUCE

And farmers and ranchers will find it to their advantage to deal with me. A Free Corral in connection with my new store, to all those coming to Santa Fe by team. Call and be convinced.

ABE GOLD.

Telegraphic Tidings

WASHINGTON MATTERS.

WASHINGTON, March 11.—The interior department seems pleased with its new secretary. Its chiefs of divisions and its hundreds of hold-over officers, welded into their places by years of service under various heads of the department, have met him and given him their judgment. He is the one official in whom the whole northwest is interested. He has control of the land, Indian and railroad matters which must more or less affect the progress of the west for many years to come.

What the west wants is a progressive man, who, in deference to the sentimental ideas of the east, must be tempered with conservatism. Mr. Noble comes from the west, and so far as progressive ideas are concerned, he may be said to have them. He understands thoroughly the struggles of western settlers and the difficulties which beset them. He has no rigid iron clad ideas regarding the administration of statute law without reference to equity, but believes in fairness to all men.

Without incurring the charge of being partial to "land thieves and rogues," as Mr. Sparks put it, he can deal justly with men who have been endeavoring for years to settle the great unoccupied lands of the west. In all other matters, Mr. Noble shows strong leanings toward liberality and equity. It may be promised that the west will not suffer at his hands.

NOTES.
An effort is being made to retain J. H. Oberly in the office of Indian commissioner. Ex-Gov. T. C. Fletcher, of Missouri, and ex-Indian Inspector Pollock, of Arkansas City, are aspirants for the place. Every Republican member of congress, senator and member-elect, is suffering from a visitation of a good portion of the male population of his district. They get scarcely time enough to eat their meals; are hustled out of their beds at an unconscionably early hour, and it is late at night, usually, before they retire.

It is now regarded as practically settled that Mr. Charles E. Coon, of New York, will be appointed assistant secretary of the treasury to succeed Gov. Thompson, and that Mr. George C. Tichenor, of Illinois, now a special agent of the treasury, will be appointed second assistant secretary, to succeed Judge Maynard. It is expected that these names will be included in a number of nominations sent to the senate today.

Freight Matters.
St. Louis, March 11.—The general managers of lines in the inter-state railway association completed their labors to-night. The general committee unanimously agreed to a plan of organization, which comprises three freight associations to be called respectively the northwestern, southwestern and trans-Missouri divisions, and one additional passenger association, the latter to cover the territory west of the Missouri river, not now included in the western states passenger association. Each sub-division association will make its rates through over the entire lines of business it originates. A meeting has been called to be held at Chicago next Wednesday of the general managers of all parties to the inter-state agreement, to consider and take final action on the committee report.

A Pittsburgh Candidate.
PITTSBURGH, March 11.—A strong movement is on foot to induce President Harrison to appoint Wm. Martin, secretary of the Amalgamation association of iron workers, to the office of national commissioner of labor. Martin has been endorsed by all the trades unions of the country, also by the Knights of Labor of Pennsylvania, the legislators of Pennsylvania and Illinois and hundreds of personal letters of endorsement from prominent men in different parts of the country.

Wants Him Retained.
WASHINGTON, March 11.—Gen. Sherman has made an urgent appeal and personal request that Gen. Joseph E. Johnson be retained on the railroad commission. If this was granted he would ask nothing more from the administration.

Excitement Very High.
LOS ANGELES, March 10.—Local excitement over the reported gold discoveries in Lower California continues unabated. It is admitted that there is plenty of gold in that country, as placers were worked probably hundreds of years ago, but the

absence of other water than accumulation of winter rains or snow is the drawback. At the Santa Fe depot this afternoon, when the San Diego train was about to leave, the rush for places was great and never has been equaled in this city.

Trouble Ahead for LeCaron.
WASHINGTON, Pa., March 11.—Powderly, in an interview with the LeCaron, denied authenticity of the letter offering to blow up the bridges on the Missouri Pacific, said that since the letter was published he had received communications from men on the Missouri Pacific who say they can furnish evidence that will bring LeCaron back to America in handcuffs.

A Blizzard.
PITTSBURGH, Mass., March 9.—The worst storm of the season has been ranging the past ten hours and promises to be as bad as that of a year ago. The snow is a foot deep and drifting badly.

Rob Sigel.
NEW YORK, March 11.—Robert Sigel, the son of Gen. Sigel, who is charged with pension forgeries, waived further examination for trial in default of \$15,000 bail.

The Samoan Conference.
BERLIN, March 8.—Several papers announce that the Samoan conference will open about the 13th instant.

OKLAHOMA BOOMERS.
They are Pouring into the Promised Land in Large Numbers.

OKLAHOMA, March 11.—The situation here is growing critical. Between two and three hundred men have taken claims in the immediate vicinity of this place. Nearly all the valuable land on the river bottom from the neighborhood of Fort Reno west of Pottawatomie reservation on the east has been taken up and held by squatters. Scores of them are slipping in on all sides, and the influx of boomers by the railroad has begun. Last night's train south-bound was filled with passengers for Purcell, and it reported that Harry Hill has started with 400 men. They will be met here by Col. Cole and several hundred boomers from the western border of the territory. Throngs of anxious boomers, who have been waiting at Purcell for weeks, can scarcely be held back, and altogether the indications are there will be fully 2,000 men here inside of a week, unless the military moves from Reno at once.

THEY CRY FOR LAND.
Wichita, Kan., March 11.—T. Blake, a merchant of Purcell, I. T., arrived here last night, and said that trains are daily bringing there from 100 to 150 passengers; 100 families reached the place from Michigan, and many are in destitute circumstances. They are willing to wait thirty days longer, and if there is then no proclamation they will enter, for they might as well risk losing rights as lives, and think that no one will attempt to remove them in their destination.

A train of 100 wagons loaded with provisions left Kiowa yesterday. They go to the western part of the country. The greatest fear felt at present by the people on the line is that the boomers will become impatient and in a body move upon the claims they have staked out, and a conflict with the soldiers result.

Mrs. Bessie H. Bedloe, of Burlington, Vt., had a disease of the scalp which caused her hair to become very harsh and dry and to fall so freely she scarcely dared comb it. Ayer's Hair Vigor gave her a healthy scalp, and made the hair beautifully thick and glossy.

How to Overcome the Dangers of Exposure.

Francis O'Reilly, a well known livery man of No. 18 Prince street, New York, says of Alcock's Porous Plasters: "For the last forty-two years I have been engaged in the livery and hacking business. I am greatly aided by my four boys. We are much exposed to the weather, and we found Alcock's Porous Plasters of very great service. We use them as chest protectors, placing one on the chest and one on the pit of the stomach. They not only ward off the cold, but act as a tonic. We are frequently affected with rheumatism, kinks in the back, and pains in the side; but one or two of Alcock's Plasters quickly cure us. My wife and daughter have been using Alcock's Plasters for weak back, and think the world of them. I have now been using them for twenty years and always have a box in the house."

RUMORS OF WAR.

The Samoan Affair Again—Must Have a Great Navy.

WASHINGTON, March 11.—The story published here that the United States man-of-war Nipsic was sunk in Samoan waters during a fight with the German corvette Oiga does not seem to be believed. Interest over the alleged encounter, however, is tremendous. Even the ravenous horde of patriots in search of office, pause and inquire to what would such a battle lead. Mr. Blaine stated last night that he did not believe the report. Representatives Hitt and Morrow are disinclined to accept the German dispatch as true.

Secretary Blaine was seen to-night and said he had received no information whatever in regard to the reported sinking of the U. S. steamer Nipsic.

NAVAL NEEDS.

New York, March 11.—To a World reporter Secretary Tracy said "Yes, we need a navy, a better navy, and the people are bound to have one composed of the best ships that art and money can construct. We need more, and we shall build and have more. Within sixty days we shall advertise for proposals for contracts for several new vessels."

The New Discovery.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any throat, lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial bottles free at C. M. Creamer's drug store.

No Fines on Americans.

PITTSBURGH, March 9.—The Samoan row played a conspicuous part in the performance at the Academy of Music last night. At one part in the performance was sung songs of all nations, the singer waving appropriate flags. The national airs of Ireland, England, France and Italy were sung amid applause, but when the German flag was brought out and the singing of "Die Wacht Am Rhein" began, there was loud hissing and great tumult, which resulted in a fight and the arrest of two persons in the audience.

Beef Inspection.

St. Louis, March 11.—A convention of delegates from the various states is called to meet at St. Louis Tuesday for the purpose of considering joint action of the legislatures affecting the beef combine or trust. Delegates from all the western states and territories will be present.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors," which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can SCROFULA BE CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula; a sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLISLE, Naughton, N. J. N. B. Be sure to get only Hood's Sarsaparilla Sold by all druggists. 50 cents per bottle. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

REMOVAL

After March 1 we shall be located in our New Store on Palace Avenue. From now on until removal we shall offer our immense Stock at a trifling margin above actual cost. We have a full line of everything kept in a first class Jewelry Store, in addition to our "Native Specialty." We would invite a careful inspection of our Elegant Assortment of Gold Watches, Diamonds, Silverware, etc., etc.

LABOR-CAPITAL-HEALTH

Ugly words sometimes, full of discord—that is, the first two—when not tuned to a proper key; but a regular "symphony" whenever used to prove

That labor invariably produces capital; That capital can find a capital field of labor; in That "Good digestion waits on appetite";

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 160 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of boom; and our "long term" payment and low interest plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plats and circulars. Command us for carriages or other necessities within our power to give.

RELATING TO LOTTERIES.

Copy of the Law Forbidding them in New Mexico.

"An Act in Relation to Lotteries" is the title of another important law enacted by the last legislative assembly. The first section provides that whoever shall set up, draw, manage or otherwise promote any lottery for money or any other thing of value, or dispose of or attempt to dispose of any money or thing of value by way of lottery, or aid in committing any of said offenses, shall be fined \$500 to \$10,000.

Sec. 2.—Whoever shall write, print, compose or have in possession with intent, for himself or another, to sell or offer to sell, negotiate, exchange or dispose of any ticket, share of a ticket, or any writing, certificate, token or device purporting or intending to entitle the holder, bearer or any other person to any prize or any share of or interest in any prize, to be drawn in any lottery, in or out of this territory, shall be fined for every such offense not less than \$100 nor more than \$1,000.

Sec. 3.—Whoever shall knowingly permit in any house, shop or other building, occupied or controlled by him the setting up, managing or drawing of any lottery, or the sale or exchange of any lottery ticket or thing mentioned in the preceding section, shall incur a like penalty as therein named.

Sec. 4.—Whoever shall advertise or give public notice of any lottery, ticket or other thing mentioned in the last two sections, being for sale or exchange, or set up, or exhibit any sign, symbol or other representation of a lottery or the drawing of a lottery, indicating where the same may be bought or obtained in this territory, shall incur the like penalty as in those sections named.

Sec. 5.—The penalties of this act shall apply as well where the lottery is pretended or fictitious, as to cases where the lottery is real, and upon the trial of any person accused under the provisions of this act, it shall be unnecessary to prove that the lottery in fact exists or will be drawn; provided, it shall be made to appear that the person offending against the provisions of section 1 or 2 of this act received any money or other thing of value, or in tends to demand or receive money or any other thing of value, as the price of any lottery ticket mentioned in this act.

Sec. 6.—The provisions of this act shall be construed to apply to every device or device as are commonly called or known as "lotteries," although designated, or called by any other name, but shall not be construed to apply to any sale or drawing of any prize at any fair held in this territory for the benefit of any church, public library, or religious society, or for charitable purposes, when all the proceeds of such fair shall be expended in this territory for the benefit of such church, public library, religious society, or charitable purposes.

Sec. 7.—This act shall be in force and effect from and after its approval.

Filed by the governor February 12, 1889.

WULF HOOKS.

A Change of Name—Easter Ball—New Uniforms Coming.

Charlie Bacon has been elected assistant foreman of the hook and ladder team. At a special meeting it was decided by unanimous consent to change the name of the organization to Henry Wulf Hook & Ladder Co. No. 1. Mr. Wulf is one of the most enthusiastic members of the company and has worked hard for its success. The boys will have new uniforms shortly and will give a ball on Monday night following Easter.

Annual Meeting

Of the Mutual Building & Loan association. Notice is hereby given that the annual meeting of the stockholders of the Mutual Building & Loan association of Santa Fe, N. M., will be held at the office of the secretary of said association on Wednesday, March 13, 1889, at 7 o'clock p. m., for the purpose of the election of nine directors and the transaction of such other business as may properly come before such meeting.

CHAS. F. EAWLEY, Secretary.

Santa Fe, N. M., March 6, 1889.

ALONG THE LINES.

Business Good—A. & P. Reduction—Bi-Monthly Excursions—News Notes.

The Santa Fe Southern—catch on to the new name—is doing a highly satisfactory business this spring. Its rolling stock has been added to of late and still it is pushed nearly to its limit. Saturday night a big mixed train came in, and yesterday Supt. Johnson ran an extra freight, making the time between Escondido and Santa Fe in the remarkably good time of one hour and fifty minutes. The track and road bed are in first class condition. Much of this new business does not come via Denver, as many people think, but is pushed rapidly through from the Missouri river via Pueblo over the popular Missouri Pacific route. Mr. C. A. Tripp, the affable and bustling commercial agent for the Missouri Pacific, is in the city to-day looking after business. He is cordially recommended to the kind consideration of shippers hereabouts.

The A. & P. road made a slashing reduction among its employees at Albuquerque on Saturday. It laid off fourteen men and quenched the fire in four engines, besides summarily discharging forty of the mechanics in its shops. The move was prompted by a desire to reduce expenses. It is said that further reductions will be made, the company's intention being to cut the force fully one-fourth.

A news correspondent at Wheel, in Lincoln county, writes that a party of Rock Island surveyors are running trial lines through that region. Going to Deming, they are.

On Saturday night, six A. T. & S. F. special trains passed up the mountain road with less silk and bullion from China and the Pacific slope.

Mr. Winslow Johnson, president of the St. Louis, St. Joe & Santa Fe road, passed

STREET IMPROVEMENTS.

A Force of Forty Men Put on To-day A Good Beginning.

To the six members of the board of penitentiary commissioners, Acting Solicitor General Twitchell, has been delegated authority to direct the employment of convicts on the public grounds and streets as provided by the new law. Several conferences have taken place between the chairman of the county board, Dr. Sloan, and Mr. Twitchell respecting the plan and nature of these improvements, and as a result a force of forty convicts was turned loose on upper Broadway to-day, and plows and shovels and wheelbarrows are rounding up that thoroughfare in a real business-like manner. The street is to be graded lighter in the center, sloping away to either side, with a cobble stone gutter between the street and the sidewalk.

It is the plan to keep some of the convicts engaged in this class of work daily, and among the streets to receive early attention are Don Gaspar avenue, leading to the capitol, the thoroughfare between the penitentiary and the capitol and also the street about the federal building grounds. The first named street has long been in a sad plight. There isn't a citizen of the territory who has business at the capitol, but who will not hear his feet from bridge with Don Gaspar avenue as to be improved. The law makers and visitors tramped through soft mud, snow and icy water to take this short cut to the capitol. Let this street have early attention, and while these improvements are in progress it might be well for the county authorities to figure on getting in a bridge at that crossing of the river. At present three meagrely made bridges span the Rio Santa Fe, but they are not adequate to supply the wants of the people. What is needed on Don Gaspar avenue is a sturdy foot bridge with foot walks separated from the wagon-way.

A gentleman up from Socorro to-day states that Capt. C. T. Russell, late sheriff of Socorro county, has gone to locate in Washington territory.

An elegant line of embroideries, consisting of Hamburg, cambric and Swiss edgings, bouncings and All overs etc.; also full line of new white goods, are now on exhibition at our establishment, Grunsfeld, Lindheim & Co.

There will be a social on Tuesday, to-morrow evening, at the south side home of Mr. and Mrs. E. B. Seward, given under the auspices of the Young Folks society of Christian endeavor. All friends of this organization are invited to be present.

At Masonic hall this evening there will be a special communication of Montezuma lodge No. 1, A. F. and A. M., and of Santa Fe Chapter No. 1, R. A. M. Important business is to come up. Visiting brethren are cordially invited to attend.

Kirk's Uncle Tom's Cabin troupe appeared at the court house on Saturday night. The performance was of the regular state, flat order, but the house anything but unprofitable—it was chock full. Singular it is what a sympathetic grip the old time play has upon the hearts of the people.

New Mexico's representative citizens continue to pull their freight toward the "government at Washington." A southern delegation went up the road last night en route to the national capital. Col. Dick Hudson, Maj. W. H. H. Lewellyn, Capt. J. H. Riley and Hon. John R. McFie were among the junketers.

Judge J. B. Axtell, one of New Mexico's historic characters and a gentleman noted and respected for his ability and courage of his opinions both by friends and foe, passed through the city yesterday morning en route to Arizona and California. He expects to be absent from the territory about thirty days.—San Marcial Reporter.

The penitentiary gang at work on the public streets to-day actually wears a smile of contentment. In affording employment for these poor fellows the legislature did a wise and humane thing. Had not some provision of this kind been made, half the inmates of the penitentiary would probably have been on the verge of insanity before another two years came around.

Col. Geo. Woodford, whose temperance addresses have been highly approved by newspapers of the best literary character in the east and on the Pacific slope, is expected to visit Santa Fe this week. As his work has reference to the reformation of the individual man, and his confirmation in the principles and practice of temperance, and not to party politics, it is hoped that everybody will attend his lectures.

J. W. Olinger has been commissioned road supervisor for the 4th precinct and tied his bonds to-day and entered upon his duties. As soon as the necessary banks can be printed Mr. Olinger will call upon every able bodied man in this district and the road tax "will have to be paid," or work done in lieu thereof. This law is very strict for refusal to pay this tax. Mr. Olinger is just the man for this work. He has always as a private citizen taken much interest in the repairing of streets and bridges, and he now has his team at work daily on the public thoroughfares, for which he does not receive a cent compensation.

The entertainment given by the trustees of the A. M. E. church on Friday evening was a very successful affair and the receipts, including subscriptions to the log cabin quilt, netted the handsome sum of \$125, which has been used to cancel a portion of the debt due on the church property. Great credit is due to Pastor Willet and his wife for the interest they took in the matter, and also to the trustees and members of the church and congregation for their donations and work. The trustees desire to thank the citizens of Santa Fe for their patronage. The quilt was given to Geo. Davis for collecting the largest amount in subscriptions. The church is now in a flourishing condition and is doing good work among the colored population.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 5 cent and \$1 bottles by all leading druggists.

Metals Market.

New York, March 11.—Dun's report says: The copper syndicate is supposed to have been much relieved by the consent of the American mines to reduce the output from 15 to 20 per cent. In February, however, the syndicate had to sell 10,000 tons, while the sales were only 1,397 tons, and an outlay of \$20,000 per month must ultimately prove trying. The price of copper has declined to 10 1/2 cents for March, but fluctuations at Boston were severe. In tin there was not much change. Lead was inactive at 37 cents.

Tourists.
