GOOD NEWS!

New Store, New Goods, Lower Prices,

At Your Old Time Friend's.

ABE GOLD

In consequence of the increase of my business I have found it necessary to enlarge my store, and have rented and refitted the house familiarly known as Herlow's Hotel as a store room. I have enlarged my entire stock of goods and will carry one of the most complete stocks in the entire territory. It will be my aim, as of old, to sell as cheap as my competitors, and I will not be undersold by anybody. I shall also continue to buy and sell.

NATIVE PRODUCE

And farmers and ranchers will find it to their advantage to deal with me. A free Corral in connection with my new store, to all those coming to Santa Fe by team. Call and be convinced.

Santa Fe, N. M., January 1, 1889.

Telegraphic Tidings

WASHINGTON MATTERS.

MORE NOMINATIONS.

WASHINGTON, March 21.—The president has sent the following nominations to the senate: Frederick D. Grant, New York, minister to Austria and Hungary; John C. New, Indiana, consul general at London.

CONFIRMATIONS.

In executive session this afternoon the senate confirmed the following nominations: John W. Mason, West Virginia, commissioner of internal revenue; John H. Ward, appraiser of merchandise at Wallingford, Ore.; and Charles E. Mitchell, of Connecticut, commissioner of patents.

RICH SOLVENCIES.

Five solid gold badges, of a design identical with that adopted by the inaugural committee, have been made as souvenirs of the event. The badges have been presented to President Harrison, Vice President Morton, Chairman Britton, of the inaugural committee, ex-Chairman Wolf, of the badge committee, and Congressman Dudley Coleman, of Louisiana.

FAILED TO PASS.

The government appropriation of \$650,000 for fuel, lights and water service for public buildings, failed to pass the house today. The discovery has just been made that this item was left out by mistake.

SEWELL WILL BE THERE.

Sewell, recently consul at Samoa, will accompany the Samoan commissioners to Berlin as disbursing officer.

Chilcott's Chances.

WASHINGTON, March 21.—The omission of the commissioner of the general land office from the list of nominees sent from the state department was a great disappointment to the Colorado delegates, as well as to the Pacific coast contingent, who believed that the matter would have been settled in conjunction with the commissioner of patents, for which position there has been as much, if not more, rivalry as for the commissioner of the general land office.

The fact that Mr. Mitchell of Connecticut, a dark horse, was named for the patent office aroused the suspicion that possibly another dark horse may charge to the front for the land office, although it is believed that ex-senator Chilcott still retains the lead.

The Colorado delegation are extremely anxious that this matter shall be speedily determined so that they may proceed to concentrate upon the selections to be made for local appointments, which must remain in abeyance until Mr. Chilcott's affair shall be settled. The Colorado office, however, are very sanguine of Mr. Chilcott's appointment.

Secretary Blaine's Demand.

BALTIMORE, Conn., March 21.—Attorney J. B. Klein, of this city had an interview with Secretary of State Blaine and presented the case of Herman Kempinski, the Bridgeport citizen who has been cast into prison at Rowen, Russian, while on a visit to his native place. Kempinski, although armed with passports and credentials of citizenship, has been sentenced to banishment to Siberia, and unless liberated by the demands of Secretary Blaine, will be transported May 1.

A number of lawyers at Washington tell Klein that he has the strongest document to prove Kempinski's case, and they could not offer any further suggestions. M. Blaine at once called to the authorities at Rowen demanding the prisoner's release.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. C. M. Creamer, druggist.

Copper Still Firm.

PARIS, March 20.—A pessimist feeling prevails regarding the positions of credit houses, especially of the Banquet de Paris,

which is much discussed. It is reported the bank is deeply involved in the copper troubles, and it is not expected to pay a dividend for the past year; moreover it is stated the directors of the concern are in the hands of the copper market today. The demand for Rio Tinto is especially strong.

Will Flow to the Line.

A Kansas City paper has this on New Mexico's acting solicitor general: "Did you know," said a gentleman from New Mexico, "that this acting solicitor general who rendered that important decision in the dressed beef case was Ralph Twitchell, formerly of this city? He is a district attorney of the 1st, or Santa Fe district, and acting solicitor general of the territory of New Mexico." Judge Walcott said that he did not know the attorney in the west had brighter future. He had worked up a candidacy for the secretaryship of the territory, but the leading lawyers out there—Caton, Waldo and others—resolved that he should be kept strictly in the line of his profession, and so he received these important offices, which in no way interfere with his work for the Santa Fe road.

CONDENSED NEWS.

Natural gas discoveries have been made at Hastings, Neb.

Ex-President Cleveland and ex-Secretary Vilas have been elected members of Tammany.

Thomas Gladstone, only surviving brother of Hon. Wm. E. Gladstone, is dead, aged 85.

There are forty cases of typhoid fever in Lancaster, Pa. Physicians say a Plymouth epidemic is threatened.

Charles North, the second largest pork packer of Chicago, assigned tonight. Liabilities will probably be \$750,000.

The prominent stock brokers, Motte & Durand, have assigned. A large number of their contracts were closed out on exchange this morning.

The Cherokee Live Stock association is in session at Caldwell, Kas. The Indians want the lessees to stand with them in their fight against the sale and opening of the lands to settlement.

In the common Hon. Henry Matthews, secretary of state home affairs, announced that the Parnellites would be allowed the same freedom of access to convicts as was granted to the Times.

C. P. Huntington has reported that a negotiation is in progress with Philadelphia ship owners for the purchase of the steamships of the American line, to run from New York to Brazilian ports.

Sir William Ansell, in the house of commons, said he intended to challenge the action of the government in placing Irish officials paid by the public at the service of the Times in connection with that paper's charges against the Irish members.

The "boomers" have commenced to cut the fences of the cattle men along the Indian territory's border. It is thought that stables, corrals and other property will go next. It is thought this is done in retaliation for the driving of the "boomers" from the Creek and Seminole ceded lands.

From "Murraytown"

A joint syndicate of good samaritans has joined the hole in the bridge where Mr. Murray fell through last week and broke his ribs. It consisted of I. L. Glenn, who did the work, H. Murray, who furnished the lumber, and J. B. Block, who provided the nails and refreshments. The gratitude of the community would be at break goes out to this trio of benefactors. The work of grading the hill at "Murraytown" goes bravely on. Teams are hauling rock and gravel to the foot of the hill, and the grade is getting easier. A large force of men with Irish barouches and No. 2 shovels is kept at work leveling the grade. Mr. Murray's private bank account is getting drawn on quite heavily, but he still looks pleasant.—Jemez Guide.

Being More Pleasant

To the taste, and more acceptable to the stomach, and more beneficial in its action, the famous California fluid fruit remedy, Syrup of Figs, is rapidly superseding all others. Try it. One bottle will prove its merits.

WILL BE OPENED.

The Rich Oklahoma Country—Soldiers and Boomers.

WASHINGTON, March 21.—The president has approved the deed made by the Seminole Indians ceding all their rights, title and interest in the lands held by them in the Oklahoma tract in the Indian territory. These lands are embraced in the tract of 5,500,000 acres lying on the west of the Creek and Seminole country, and is bounded on the south by the Canadian river, on the north by the Cherokee outlet, and on the west by the lands occupied by the Kiowas and Comanches Indians, whose reservation was a portion of these same lands purchased by the government from these same Indians under the treaty of 1866.

Prior to the recent session, the United States, under provisions contained in treaties with the Creeks and Seminoles in 1866, located certain tracts of Indians on a part of said lands, reserving thereabout 3,700,000 acres of the 5,500,000 acres recently ceded. The occupancy rights of those Indians prevent the present issue, at least, of any proclamation opening to homestead entry of the lands upon which said Indians are located. There are, however, over 1,800,000 acres of said cessions upon which no Indians have been located and which are unassigned and unoccupied. This tract is known as the Oklahoma tract proper. The president will issue a proclamation in a few days declaring the land thrown open to settlement. Two land offices will be established at Muskogee with jurisdiction over this country.

CAN'T CATCH 'EM.

Wichita, March 18.—A private dispatch received here this afternoon says that during the soldiers' raid on the boomers' camp near Oklahoma City, on Saturday last, but twenty-three men were captured, the rest hiding away in the woods. The soldiers can do nothing, as the timber is thick, and the hundreds of boomers scatter through it like so many rabbits. The old soldiers' colony has appointed a committee which will leave here in wagons some time this week, and will make a thorough survey of the country and pick out the lands on which to locate their colony. Members are joining from all over the union, and their organization now numbers about 300.

MANOR IN THE SWIM.

Arkansas City, Kas., March 20.—Congressman Mansur and party, consisting of J. C. Jamison, adjutant general of Missouri, C. W. Mansur and H. H. Islama, of Coffeyville, have arrived here. They left for Purcell and return to this city Thursday, when Mansur will deliver an address in the opera house. He expresses the opinion that Mr. Harrison will issue his proclamation within a few days at the earliest, declaring the ceded lands open to settlement.

Santa Fe Earnings.

BOSTON, March 21.—The gross earnings of the Atchison, Topeka & Santa Fe railroad and auxiliary lines for January were \$1,797,800; operating expenses, \$1,514,290; net earnings, \$283,510; increase of net earnings over January, 1888, \$73,776.

To the young face Porzoni's complexion powder gives fresher charms, to the old renewed youth. Try it.

Acclimated Stock!

All varieties of fruit trees, selected especially for their adaptability to the various altitudes of New Mexico; any age desired. Ornamental trees, shrubs and vines.

PATRONIZE HOME INDUSTRY.

GRANT RIVERBRO.

Commencing Monday, October 15, 1888, the Wabash Route, in connection with the Union Pacific railway, Kansas division, will run new and elegant Buffet Pullman cars daily between Cheyenne, Denver and St. Louis, via Kansas City without change of cars. This makes the shortest route between those points from 120 to 130 miles. Only one change of cars between Cheyenne, Denver and Cincinnati, Louisville and all points south, Chicago, Detroit, Niagara Falls, Buffalo, Rochester, Albany, New York, Boston and points east, Indianapolis, Akron, Columbus, Philadelphia, Philadelphia, Baltimore, Washington and all middle and seaboard states points. This makes the shortest, fastest and most complete route in all respects between the west and the east. The Pullmans are fresh from the shop and are of the most elegant and modern design. All connections at St. Louis are made in the Union depot. The official schedule will be published later. C. M. HAMMOND, Commercial Agent, Denver, Colo.

REMOVAL

Having completed and removed to our New Store on Palace Avenue, where we have more fully met the needs of our patrons in prices as well as selections in future the enormous expense which we have put out will be deducted from our prices and thus distributed among our customers. WE WILL NOT BE UNDER SOLD.

THE MUTUAL LIFE

Insurance Company of New York.

The Largest Insurance Company in the World.

Assets, \$126,082,153.56.

The record of public service by this Company is something amazing. It now reaches the sum (chiefly for the benefit of widows and orphans) of \$15,000,000 a year, an average of \$48,000 per day, or say \$6,000 per working hour. The greatest institution of its kind on earth is the MUTUAL LIFE INSURANCE COMPANY—a blessing to humanity.

For Insurance apply to the Company's Agent,

PAUL WUNSCHMANN

SANTA FE, N. M. Office over Second National Bank.

Premium payments are to be made through this office upon delivery of the Company's receipt countersigned by Paul Wunschmann.

LABOR-CAPITAL-HEALTH

Ugly words sometimes, full of discord—that is, the first two—when not tuned to a proper key; but a regular "symphony" whenever used to prove

That labor invariably produces capital;
That capital can find a capital field of labor; } in
That "Good digestion waits on appetite";

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COM'Y

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 160 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of booms; and our "long term" payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plats and circulars. Command us for carriages or other courtesies within our power to give.

Their influence upon the characters of their children, and children's children, was shown to be decisive, in many cases; heredity and education are determinative. The illustrations of this principle were numerous and very interesting. To-night the lecturer will aim to show the fallacy of certain objections to total abstinence, and the delusions of those

MONEY AND BRAINS.

Essentials of Success in the Great West—Judge Astell's Letter.

To the Editor of the New Mexican.
Los Angeles, March 12, 1889.—From India to Colton in some four hours. Here I left the train and remained over night, taking an 8 o'clock train next morning for Los Angeles. This gave me a very charming morning ride. I understand this section is soon to be made a new county called Orange. People say division of counties will pave the way for a division of the state. Of course there must in time be a Southern California. On arriving at Los Angeles the most pleasant surprise was to find the splendid new depot of the Southern Pacific company, one of the very finest in the United States, absolutely perfect, every possible convenience, large, perfectly clean, well lighted, good bar and restaurant, with two lines of street cars running every ten minutes to the center of the city. It was also a great and pleasant surprise to find how many trains were coming and going to all parts of south California, up and down the coast, two trains a day to San Francisco and constant trains everywhere. The enterprise of this greatest of companies is beyond all former calculations. They have not only got this side of the earth but they are making it a new earth. Los Angeles is steadily growing, and there can be no mistake about the returns of all legitimate industry. I have seen trees loaded with oranges, and have been assured that \$1,000 per acre for trees 8 years old is not an uncommon yield each year. Los Angeles is a great country, and she is inhabited by a great people. Of course the man who is out of money and don't know how to do anything is a bad fix; in fact, come to think about it, he is in a bad fix most anywhere. I took the 10 o'clock train at night, in a perfectly splendid sleeper, for Stockton, from which place I will write you again. Respectfully,
S. R. AXTELL.

AMONG THE RAILWAYS.

Official Changes—Fast Train—New Construction Matters.

Mr. W. B. Biddle, of Topeka, assistant general freight agent of the Santa Fe, is in the city today on company business. Several changes are booked to occur on the A. T. & S. F. shortly. W. F. White, the general traffic manager of the A. T. & S. F. road, whose jurisdiction has been applied also over the Atlantic & Pacific and the California Central and Southern roads, will have his jurisdiction extended over the territory of the Chicago, Santa Fe and California road. His headquarters will be removed from Topeka, to Chicago. F. C. Gay, formerly stationed at Las Vegas and at present assistant general freight agent of the Santa Fe road, at Kansas City, will be made general freight agent of the Chicago, California & Santa Fe road, at Chicago, while J. J. Byrne will remain as the assistant general passenger agent in Chicago. These changes will become effective April 1. Official notice is at hand that on and after Sunday, the 24th, the Santa Fe will run a fast train to Chicago, leaving Kansas City at 6:30 p. m. and arriving in Chicago on the same time made by the other lines. The train will be vestibuled throughout. The companion train will leave Chicago at 5:30 p. m. The running time for the present will be the same fixed by competitive lines, but the Santa Fe intends to reduce the time to twelve hours as soon as practicable.

The tax suits of the territory of Arizona against the Atlantic & Pacific road have finally been decided in the supreme court in favor of the railroad. Judge Hazle-dine represented the company, and it is largely due to his unremitting energy and thorough conceptions of the merits of the case that the verdict was won by the A. T. & S. F. directors will be here next month to hold annual meetings for some twenty or more corporations in which they are interested in New Mexico. Graders are at work on the Fort Worth & Albuquerque line, which is projected to go via Cerrillos and reach the A. T. & S. F. through Tijeras canon. The first 100 miles has been contracted for.

As yet little is known of the plans of the Trinidad and Las Vegas project, but parties who claim to know say that construction work will be commenced before the 1st of May. The New Mexican has a private letter from El Paso stating that the Southern Pacific company has appointed a "general agent" at that point, a gentleman named Wilson. A year ago it was agreed by the southwest roads that none of them should have a general agent at El Paso. The S. P.'s action means more trouble.

New Mexico in the Swim.

The present month seems to be one of the gold booms. A dispatch from El Paso says: Close on the heels of the one in Lower California, which has already drawn away several of El Paso's old prospectors and miners, comes the news of a considerable new placer find in a comparatively old field. In the Bonito mining district, in Lincoln county, N. M., at the headwaters of the Bonito river and around the little village of Parsons, there have been found during the past week placer diggings that are panning out remarkably well in coarse gold. A big influx of miners from the immediate vicinity has already taken place. The heavy snows of the past winter are commencing to disappear, and as mining for silver ores presents at present no further inducement in the present depressed state of the silver market, there is every prospect of a heavy gold placer boom setting in.

Increasing Interest.

Notwithstanding the storm last night the audience at the court house was about as large as that of Tuesday. The lecture was addressed particularly to parents. Their influence upon the characters of their children, and children's children, was shown to be decisive, in many cases; heredity and education are determinative. The illustrations of this principle were numerous and very interesting. To-night the lecturer will aim to show the fallacy of certain objections to total abstinence, and the delusions of those

who indulge in drink and countenance indulgence.

It is expected that the great assembly which can not well be led by any voice, or even by the organ and choir, will keep time to the organ. At all events probably the singing will be led tonight and hereafter by brass instruments, as well as by the organ.

Time of meeting 8 o'clock. All are earnestly invited.

ROUND ABOUT TOWN.

The weather's all right.
Attend the temperance lecture at the court house to-night.

Wm. Garland has received his patent for 145 acres of land two miles south of Santa Fe.

A heavy snow storm fell in the mountains last night. It will make more water to go to waste through Santa Fe this summer.

Plans are being drawn by Architect Brigham for a handsome two story brick double store and hall to be erected on the plaza by Mr. Kahn.

The John Gray Hose company's gymnasium has been fitted up in the rear of the hose house, and the boys are to be seen engaged in athletics there any afternoon. The team now numbers thirty men.

The Creamer Chemical company today placed on sale four proprietary medicines of home manufacture, one article being Gray's New Mexican Liniment, which has been patented. A distinctive label has been copyrighted for all these goods. The trade mark represents a scene from an Aztec village.

Capt. John Dalton, who has resided in New Mexico for thirty years, and is now located a few miles out from Rowe station, today purchased a saw mill from Don Eugenio Romero. The old gentleman, who is about 67 years of age, took part in the battles of Valverde, Peralta and Gila, acting as chief gunner in the last named engagement.—Optic.

Col. McGorty has been notified that C. H. Webster, his deputy internal revenue collector stationed at Tucson, was found dead in his bed there on last Monday morning. No particulars at hand. Tucson is the most important station in the New Mexico-Arizona district, and it will take a good man to fill Capt. Webster's place.

Jesse M. Roberts, an old friend of H. V. Stevens, is in the city from Wintersville, Ohio, and has purchased an interest in the Amole preparations manufactured by Messrs. Troutfelter and Stevens. This home product is to be extensively advertised henceforth, particularly throughout the west, where the virtues of amole for the toilet are known and generally appreciated.

Last night the wind reached a velocity of thirty-six miles an hour, and blew in gusts at the rate of sixty miles an hour. This morning the maximum velocity was thirty-eight miles per hour from the northeast, while the wind blew in gusts at the rate of sixty miles per hour. From forty to sixty miles per hour is a gale, and from sixty to eighty miles per hour is a storm, as rated by the signal service scale of winds.

E. A. Fiske, esq., spent yesterday in Albuquerque, returning home last night. While there he met Judge Whiteman and was informed by that gentleman that the matter of reassigning the supreme court judges so as to bring Judge Brinker to Santa Fe had been considered in a casual way, but that nothing would come of it, as Judge Whiteman prefers to come to this city. The new judge and his family will remove to Santa Fe as soon as confirmation is had by the senate.

MINING MATTERS.

Gossip from the Various Camps in Santa Fe County.

Las Vegas people are said to be dipping in on the New Mexico Iron company's stock with a good deal of energy.

Manager Kuhn, of the Cash Entry, is on another trip east, which visit is in all probability to result beneficially for Cerrillos.

Manager Sayle, of the charcoal ovens near Lamy, is working a full force of men and reports more orders for car loads of charcoal than he can possibly fill.

A Mr. Bell, of Springer, has located at Cerrillos and has commenced the erection of a new store building. He will put in a stock of general merchandise.

Unless a more liberal policy is adopted by the "old town" realty owners there is a possibility that the center of business will be shifted south of the Galisteo river.

The Santa Fe Copper company has issued an order announcing that henceforth no man who becomes intoxicated or who is in the habit of frequenting gambling saloons will be given employment either at its mines or about its mill. San Pedro is said to be full of "tin-horns," and the have a demoralizing effect upon the workers.

Mr. Whittemore, a Chicago man, and a first class metallurgist, has spent five years trying to solve the problem of how to extract the gold from the vast gravel and cement deposits about Golden. He thinks he has finally succeeded. From Cerrillos yesterday he shipped 500 pounds of this gravel to Chicago where capitalists will apply his treatment, and if it turns out as it promises a mill is to be erected that will treat a thousand tons per day. It is estimated that \$2 ore can be treated with a good profit by this method.

RICHES WASTED.

Water Storage Reservoirs—Christ with a Kernel in It. Who will Crack It?

Some sore-headed croaker may tell "chestnut" with some show of truth, but the fact is the New Mexican would be derelict in its duty if it ceased to protest against the wonderful waste of water now going on in our midst. All sane men admit that water for irrigation is the chief factor in the prosperity of every valley in the Rocky mountains. No progress can be had without it. It is the basis for extending our mercantile interests, and it lies at the very foundation of our industrial, while immigration can not be extensively invited until we first secure the water. Realizing these things, it makes one's heart sick to see the millions upon millions of gallons of water now flowing through Santa Fe but to swell the tide of the Rio Grande, rolling on to the gulf. These surplus waters, charged with fertilizing mineral washed from the Santa Fe mountains, should be caught in reservoirs and held till midsummer, when they could be turned loose upon the valley lands, making them as productive as any lands in the world and worth a hundred times their present value. Truly some enterprising man could here find a rare opportunity for the investment of capital. The water, the climate and the soil is here, and the market for all the products that would follow is permanent. The final energy and capital is all that is needed. A stone, a clay and rock, abundant and cheap, could be used to convert a dozen natural depressions along the foot hills into reservoirs that would serve to store these waters. The rentals alone would bring a big profit to the investors even if they did not undertake the purchase of lands at a low figure and the sale of them at five times their first cost after they were under ditch. A charter was long since taken out for such an enterprise here, but through the dilatory methods of those interested, nothing has yet been accomplished. This charter is still effective, and is at the disposal of any man who will undertake to put its provisions into practical use.

PERSONAL.

Geo. S. Feakens, of Kinsley, Kas., and J. H. Snyder, of Rush Center, Kas., are stopping at the Exchange.

W. E. Gilbert, of Denver, representing the Merchant Publishing Co., paid this office a pleasant call to-day.

Messrs. W. J. Buell and Hugh Elliott, territorial agents for the New York Life, left last night on a business trip south.

Wm. Muehlstein, of St. Joe, a brother of the foreman in the New Mexican's hindery, arrived today in search of health.

Will A. Phair, of Des Moines, Iowa, Pacific coast agent for Chamberlain & Co's proprietary medicines, is visiting Santa Fe.

R. W. Bailey, Marion, Ind.; Geo. Dordinger, Golden; C. W. Jenkins, Canon City, Colo., are late arrivals at the Exchange.

A. Jouvenceau, in charge of St. Catherine's Indian school at Santa Fe, the gentleman with the almost unpronounceable name, it containing six vowels, is over today, purchasing supplies not kept by Santa Fe dealers.—Optic.

At the Palace: H. G. Ambrose, Las Vegas; G. T. Buffum, St. Louis; W. O. Parker, Denver; W. A. Plais, Des Moines; G. P. Sandmeyer and wife, Peoria, Ill.; W. B. Biddet, Topeka; W. N. Emmert, San Pedro; A. A. Carpenter, Tree Piedras; Ben. A. Frye, St. Joe; J. N. Pollard, New York.

J. G. Garland and wife, Biddeford, Me.; G. W. Barnett and wife, Chicago; J. Harsh and wife, DeKalb, Ill.; L. Curtis and wife, Sycamore, Ill.; J. W. Stickler, Dr. J. W. Stickler, Orange, N. J., and Geo. C. Benedict, of Albany, N. Y., composed a pleasant excursion party which spent yesterday in the city, putting up at the Palace. They went south this morning.

I received to-day: Turkeys, Chickens and Ducks. Will receive tomorrow: Black Bass, Croppies, Fresh Cod, Flounders, Halibut, Spanish Mackerel, Blue Mackerel, Mountain Trout, Gold Cap Oysters, Celery.

BILLY'S PRODUCE ANNEX.
A new feed and livery advertisement appears in this issue, David S. Lowitzki having gone into partnership with his father, Don Solomon, in the livery business, at the old Herlow stand on Water street. David will have personal charge of the business and will guarantee prompt and courteous attention to all patrons. Special attention will be given to hack and baggage calls for the depots, day or night. Leave orders at the livery office, or telephone from Creamer's drug store.

Disfiguring

Eruptions (bullae) impure blood and a disfiguring eruption. External treatment is of no avail. The safest and most effective remedy for these complaints is Ayer's Sarsaparilla.

"I was troubled with discoloration of the skin, which showed itself in ugly dark patches. No external treatment did more than temporarily good. Ayer's Sarsaparilla effected a complete cure."
T. W. Boddy, River St., Lowell, Mass.

"No medicine could be better adapted to cleansing the blood of such impurities as manifest themselves on the skin by pimples, blotches, and small ulcers, than Ayer's Sarsaparilla. I have used it for that purpose with the most gratifying results."
J. R. Roseberry, M. D., Wharton, Texas.

"I have prescribed Ayer's Sarsaparilla in my practice for a number of years. I find it to work admirably where an alternative is indicated."
T. Porter, M. D., Cerro Gordo, Tenn.

"For pimples, blotches, discolorations of the skin, and eruptions of every description, we consider

Pimples

And blotches give specially to Ayer's Sarsaparilla—the most potent and harmless of all blood medicines. Don't waste time and money on any other Ayer's Sarsaparilla is the best.

"I have used Ayer's Sarsaparilla and Pills, for boils, sores, and pimples, and have found them to be the best medicine in the world."
Julius Bernardin, Compton, Ill.

"I was troubled, for a long time, with a humor which appeared on my face in pimples and blotches. By taking Ayer's Sarsaparilla I was cured."
Chas. H. Smith, North End, Boston, Va.

"A young lady of Dover, N. H., writes that for a number of years her face was covered with pimples, and she was constantly annoyed by their appearance. Three bottles of Ayer's Sarsaparilla rendered her skin perfectly clear."

"I can heartily recommend Ayer's Sarsaparilla for all of those who are suffering from scrofulous humors. I was afflicted for years, and tried every available remedy, with no effect. Then your Sarsaparilla was recommended, and two bottles of this medicine afforded great relief. I am now in a healthy and vigorous condition."
E. M. Howard, Newport, N. H.

"For a long time I suffered from an eruption which covered my body. I tried a variety of medicines, without avail. Ayer's Sar-

OPEN DAY AND NIGHT

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres or more of land.

Warranty Deeds Given.

For full particulars apply to

The Maxwell Land Grant Co
