WASHINGTON MATTERS.

SEVERAL FOR NEW MEXICO.

WASHINGTON, May 21.—The president has made the following appointments: Receivers of public money—Henry C. Pickles, of Delaware, at Folsom, N. M.; Frank L. Loomis, of New Mexico, at Los Alamos, N. M.; Registers of land offices—William P. Alexander, of Colorado, at Del Norte, Colo.; John H. Mills, of New Mexico, at Roswell, N. M.; Indian agent—John Fisher, of Wyoming, at the Shoshone agency in Wyoming.

CAPITAL NOTES.
Richard L. Walker, of Kansas, who has been appointed United States marshal for the district of Kansas, succeeds Marshal Jones, against whom charges of misconduct in office during the time of the opening of the Oklahoma settlement had been made. The president and the attorney general decided not to allow Jones to resign.

Capt. Douglas M. Scott, commissary of subsistence, will relieve Capt. Spurgin, 21st infantry, as treasurer, quartermaster and commissary of cadets at West Point. Upon being relieved Capt. Spurgin will join his company.

Mr. J. Lewis Bell, general superintendent of the railway mail service, has issued an official notice of the formation of thirteen new counties in Colorado, with the list of postoffices now located therein, formerly situated in Las Animas, Bent, Elbert, La Plata, Weld, Logan, Garfield and Washington counties.

The Color Line Drawn.

LEXINGTON, Va., May 21.—The state council of the Protestant Episcopal church, which is in session here, determined two important questions that have been agitating the members of that body for a very long time. One was whether or not the word "white," as pertaining to representation by delegates in the council should find a place in their constitution; the other as to the advisability of changing the name of the church, this latter question being mooted in various states. Upon the first question there was a great deal of discussion. The convention contained many members who were in favor of obliterating the color line in the Christian church, and so expressed themselves. The vote was taken and resulted 124 in favor of having the word "white" in the constitution and 63 against. This effectively disposed of a vexed question, and debarred the negro from a place in the church. In the proposed change of name it was unanimously voted that this council was opposed to any change whatsoever.

A Scrap of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could only live a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a larger bottle, it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, druggist, Fort Smith. Trial bottles of this wonderful discovery free at C. M. Creamer's drug store.

A Victim of Christian Science.

BUFFALO, May 21.—Frank D. Hamilton, a wholesale cigar agent, died in his apartment, through neglect. He suffered from liver complaint, but allowed a Christian science doctress to make him believe that prayer would cure him. He refused to consult doctors, and spent his spare time away from the doctress in reading the Bible. He summoned aid from other men in the block, and after drinking three glasses of wine, fell over dead. He had a brother, a physician in Brooklyn, and two wives, one of whom had lived separately from him at Fort Wayne, Ind.

A Mormon Church Broken Up.

BIRMINGHAM, Ala., May 20.—A flourishing Mormon church in Clay county, has been broken up by indignant citizens of the neighborhood, and the preacher in charge of it has been warned to leave the county without delay. The Mormon elders have been proselyting that county five years and made many converts. They established the church about a year ago and have been holding regular services since. Most of the elders have left, the others will follow. They carry most of their converts with them.

Preparations for Receiving Lincoln.

LONDON, May 21.—Preparations are making to receive Robert T. Lincoln, the new American minister to England. Consul Russell of Liverpool will meet Mr. Lincoln in a special tug in the Mersey river. A number of prominent Americans will accompany him, and many converts will be taken on here by his friends and a reception and banquet will follow.

The Queen to Visit Ireland.

LONDON, May 21.—It is again rumored that the queen will visit Ireland and remain there a week, with the hope of creating a reaction in favor of the government by her royal presence. The same report says that she will hold a drawing room at Dublin castle and review the Irish troops at the Curragh of Kildare.

Is It Genuine?

SAVANNAH, Ga., May 20.—It is reported from Lawrence county a well has been found there from which pure spirits of turpentine is said to be drawn. Fifteen barrels of turpentine were drawn from it at one time. The question is whether there is a natural reservoir, or whether the well has been "salted" with the manufactured product.

An Indian Hanged.

TUCSON, A. T., May 18.—Firmen, an Apache Indian, was hanged yesterday for the murder of Patrick Ford, a prospector. This is the first execution of an Indian in Arizona under the recent decision of the United States supreme court, which gives the territorial courts jurisdiction of all Indian criminals.

The Asylum Investigation.

CHICAGO, May 20.—In the insane asylum investigation Dr. Alexander, of the asylum medical staff, said he would advise the friends of any insane woman to keep her at home, no matter how violent. It would be better for her to commit suicide rather than be sent to the asylum in its present condition.

A New Route to the Ocean.

PUEBLO, Dak., May 20.—A surveying party crossed over into the Sioux reservation this morning to begin locating the line of the Pierre & Black Hills railroad to Puget sound. The Illinois Central railroad is understood to be backing the scheme.

It Is Warm East.

CHICAGO, May 21.—The temperature at New York, 68; Chicago, 54; St. Paul, 49; Winnipeg, 40; New Orleans, 73.

Much Married Famine.

NEW YORK, May 21.—Fannie Davenport, the actress, and Melbourne McDonnell, her leading man, were married privately yesterday afternoon.

Looking Into It.

OTTAWA, May 21.—A report is current in official circles that a British naval war ship will shortly leave Victoria, B. C., for Behring's sea, to inquire into the seizures of British vessels by American revenue cutters.

Quit Business.

NEW YORK, May 21.—The New York Equitable Fire Insurance company, having placed its risks with other concerns and paid a dividend yesterday of 100 per cent, retired from business. The company was organized in 1829.

Mrs. Folsom Married.

NEW YORK, May 21.—A Buffalo special says: Mrs. Oscar Folsom, mother-in-law of Mrs. Grover Cleveland, was married last night at Jackson, Mich., to Henry E. Perine, secretary of the Buffalo City Cemetery association.

The Copper Men Failed to Corner.

LONDON, May 21.—The copper syndicate is to have rather a dismal finale. Mr. Secretary, who was at its head, besides losing heavily, now announces the sale of his town and country houses with all their furniture and pictures.

London Budget.

LONDON, May 21.—The house of lords has rejected a proposal to allow women to sit in county councils.

In the commons, to-night the bill providing for additional naval defenses passed its third reading by 183 to 101.

Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Elix is the one perfect laxative and most gentle diuretic known.

From Samon.

SAN FRANCISCO, May 21.—The steamer Rockton, bearing eight officers and 130 men of the Vandalla, and twelve officers and 300 men of the Trenton, arrived yesterday from Samon, in command of Capt. N. H. Languelet. Admiral Kimberly, ten officers and seventy-five men remain at Apia.

More French Turmoil.

PARIS, May 21.—A keen struggle between the republicans and conservatives is expected over the new military bill to render young priests liable to military service. It is alleged that thousands of young men enter the seminaries every year solely in order to shirk military service.

Earthquake.

LACK OBSERVATORY, Cal., May 20.—An earthquake was felt here at 9 minutes past 3 yesterday morning. The shock was heavy, but not dangerous. It was registered on the instruments as 2.1 and 12 seconds. The vibrations were from north to south.

Got \$10,000.

BOSTON, May 20.—William B. Derby, cashier of the Mutual District Messenger company, is under arrest, charged with embezzling \$10,000 from the Western Union telegraph company. He did this by raising the amount of monthly bills against the telegraph company and pocketing the difference.

Missionaries in Hard Luck.

NEW YORK, May 21.—Advises from Raton island off the Honduras coast state that Rev. Hubbs, a Baptist minister, his wife and child were horribly butchered with knives by unknown persons while asleep in their home. Money was the object of the robbery. A sailor named Burcell was arrested with some of the money on his person.

San Patch's Rival.

NEW YORK, May 21.—Steve Brodie, the bridge jumper, jumped at Passaic Falls yesterday and came out without damage. For the past three months Brodie has entertained the idea that it was necessary in order to perfect his record as a jumper, to rival the late Sam Patch by jumping from some place from which the latter had leaped. About March 1, Brodie went to Rochester to jump from the Genesee falls, where Patch lost his life, but was dissuaded as the water was only five feet deep. The scene of yesterday's jump is one of the places from which Patch jumped.

Mr. Moore, the postmaster at Bradshaw, Va., is awaiting an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, concluded to try a small bottle of it. He says: "I used it in two cases for colic and three for diarrhoea with perfect satisfaction. One dose gave relief in every case, and that we had had a case of colic and required the second dose. I have handled a great deal of patent medicine as agent and for my own use, but never tried any that gave as good results as 'Chamberlain's Colic, Cholera and Diarrhoea Remedy.' For sale at 25 and 50 cents per bottle by C. M. Creamer.

The Colored Man.

NEW YORK, May 21.—In the general assembly of the Presbyterian church yesterday the committee on Christian union reported that negotiations were in progress for a conference with the Congregationalists. The report of work among the colored race in the south was submitted. It was shown that of 1,600,000 children of school age only 800,000 attend school. It was stated that illiteracy among the blacks was increasing, and with it the increase in the litanies of crime, which was being used by politicians. The suggestion that the negro be sent to Africa was impracticable, as there are 8,000,000 of them in the United States, and as they are born at a rate of 600 daily it would be impossible to build ships enough.

The prevalence of scrofulous taint in the blood is much more universal than many are aware. Indeed, but few persons are free from it. Fortunately, however, we have in Ayer's Sarsaparilla, or most potent remedy ever discovered for this terrible affliction.

By giving you the current information necessary to intelligently utilize your means. For \$1.00. The Kansas City Weekly Journal sixty-four column paper, complete in every feature necessary to make it first-class, can be had for \$1.00 per year. Those who have received this valuable paper during the campaign need no introduction. To all others we say, try it. Hand your subscriptions to the publishers of this paper and he will forward same to us. Journal Co., Kansas City, Mo.

WATER FOR THE PLAINS.

Preparations to Enter Upon a Survey of the Designated Lands—A Grand Thing for the West.

WASHINGTON, May 20.—One of the most important committees appointed by the senate to make investigation during the summer is the committee on irrigation. That committee, in connection with the geological survey, is now preparing to enter actively upon its work, and it will start from St. Paul, its headquarters, in July.

There is no object of greater importance to the American people, now that the lands available for agriculture are being rapidly taken up, than to decide the problem whether or not the immense arid tract in the western territories can be made available for the purpose of cultivation.

The scientists of the geological survey are very efficient aid in this inquiry, and the information which they furnish will illustrate in a general way the purposes at which the committee aims. The purpose of this inquiry is no less than to ascertain whether it will be practical to reclaim an area equal to 150,000 square miles, or about 100,000,000 acres, which is half of the entire cultivated land in the United States at present and worth in money many millions of dollars.

Eminent scientists are of the opinion that this can be done, and it is the chief purpose of this committee to ascertain and report whether or not such a scheme is practicable.

MAJOR POWELL'S PLANS.

The project is based upon the idea which was first given to the public some ten years ago by Major Powell, the present director of the geological survey, in his report upon the arid lands west of the 100th meridian. That report is still the basis upon which the project is based.

Major Powell has been continuing his investigation since that time and has induced congress to adopt his theory, namely, that it is possible to reclaim a very large proportion of this arid region and to make it available for agricultural purposes. But it is not to be understood that it is the purpose of the geological survey, or the senate committee, or of the government, to do the actual work of irrigation itself and to improve this land in order that private persons may have the benefit of the expenditures which the government would make in that direction. Nothing of the sort is contemplated.

The theory of the entire work is that the actual irrigation of the land is the proper province either of private capital or of the states or territories, and that the only function that the government can properly perform in this connection is to determine whether or not the theories which have been laid down as to the possibilities of reclaiming this land are practicable.

THE GOVERNMENT AS AGENT.

The government proposes not to irrigate land for people, but to determine whether or not private capital can be profitably employed in the enterprise necessary to do this. In other words, the government steps in as the agent of all the other it is possible to do what they, Major Powell, and those who have become interested with him, believe is practicable.

The western states and territories, within whose jurisdiction the arid belt is located, are convinced that this work is practicable. The best proof of this is that the state of Nevada has already appropriated a large sum of money to be used in connection with the inquiry which the government is about to make, and an engineer has been appointed—Col. Bridges, of Chicago, a gentleman of large experience in Nevada—to co-operate with the geological survey and with the senate committee on this general inquiry.

Col. Bridges is now in Washington and has been for some weeks examining the reports which Major Powell's preliminary survey has already prepared, and generally assisting in blocking out the work which is to be done this summer. Col. Bridges has already received his instructions, which place him in charge of a considerable part of the inquiry in the arid belt. He will start in a few days for the field of investigation.

SOME NEW LAWS.

An act relative to the board of county commissioners allowing a certain sum of money for the benefit of sheriffs or deputy sheriffs wounded or injured in the prosecution of their duty.

Section 1.—Whenever any sheriff or deputy sheriff has been or may be hereafter wounded or injured while in pursuit of or attempting to arrest any person accused of any crime in this territory, and shall make affidavit fully setting forth the facts of his wounding or injury, and that he is unable to pay for proper medical or surgical attention, or that his family is unable to do so for him or furnish support for himself or family and said affidavit shall be supported by the affidavit of two disinterested freeholders of the county, and more than one of whom shall be from the same precinct, then upon the presenting of said affidavits to the board of county commissioners of the county wherein said sheriff or deputy sheriff was an officer at the time of his injury or wounding, they may allow from the county treasury a sum of money which to them shall seem reasonable, to be used for the benefit of said wounded or injured officer for medical or surgical attention or for the removal of said officer to some hospital or for the immediate relief of his family; provided, that no such sum or sums of money shall altogether exceed \$500.

Sec. 2.—This act shall be in force and effect from and after its passage.

Law by limitation Feb. 28.

An act to amend section 192 of the Compiled Laws of New Mexico.

Section 1.—That the laws and statutes relating to the incorporation of companies for general purposes, as compiled in section 192 of the Compiled Laws of New Mexico, 1884, be and the same are hereby amended so as to read as follows, to wit: Corporations for mining, manufacturing or other industrial pursuits, or for making and furnishing abstracts of titles of real estate, or for insuring the titles thereto, or the construction or operation of railroads, wagon roads, irrigating ditches, and the colonization and improvement of lands in connection therewith, or for colleges, seminaries, churches, libraries, or any benevolent, charitable or scientific associations, may be formed according to the provisions of this act, such corporation and the members thereof, being subject to all the conditions and liabilities herein imposed, and no others.

Sec. 2.—That all laws or parts of laws in conflict with this act are hereby repealed, and this act shall be in force and effect from and after its approval.

Law by limitation Feb. 23, 1889.

THIS PAPER is kept on file at E. C. Drake's advertising agency, 64 and 65 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

Premium payments are to be made through this office upon delivery of the Company's receipt countersigned by Paul Wunschmann.

LABOR-CAPITAL-HEALTH

Ugly words sometimes, full of discord—that is, the first two—when not tuned to a proper key; but a regular "symphony" whenever used to prove

That labor invariably produces capital;
That capital can find a capital field of labor; } in
That "Good digestion waits on appetite";

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COM'Y

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 100 acres in the western and northwestern states, and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of booms, and our "long term payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plans and circulars. Command us for carriage or other courtesies within our power to give.
