WASHINGTON MATTERS.

WHERE THE GOLD IS GOING.

WASHINGTON, June 25.—Director of the Mint Knibb was questioned with regard to the recent heavy exportations of gold from New York. He said they were caused by demands from France. "About the 1st of June," said the director, "the bank of England raised by half a penny the price at which it would sell French gold coins, and recourse has been taken to the United States, where under the law of May 23, 1882, gold coins can be changed at the coinage mints and assay office at New York in sums of \$50,000 and upward free of charge and without loss on account of wear of the coin which is suffered where coin in place of bars is dealt with."

The director thinks the law should be repealed or else amended so as to allow of a bar charge, and says the present stock of bars at the assay office in New York is the most available supply in the world, for the world's benefit rather than that of the United States. As an ordinary exchange operation, the rates of exchange have been against the exportation of gold to France both from London and New York.

SAMOA TREATY.

William Walter Phelps, one of the American commissioners to the Samoan conference in Berlin, arrived in Washington yesterday and called upon Secretary Blaine.

Mr. Phelps delivered to Secretary Blaine a triplicate copy of the treaty negotiated by the commissioners. It was placed in safe keeping in the department, where it will be jealously guarded until congress meets and its terms are formally communicated by the president to the senate for action.

APPOINTMENTS.

The president has appointed Henry H. Lawrence to be assayer of the mint at San Francisco, and Michael E. Smith assayer of the mint at Denver.

Moses M. Kane, of Utah, has been appointed chief of accounts of the division in the general land office.

The secretary of the treasury appointed the following gaugers to-day: William S. Ficken and William M. Davis at Cincinnati, and Gilbert Carns at Philadelphia; also H. G. Heuguenbourg, storekeeper at St. Louis.

Telluride Bank Robbery.

TELLURIDE, Colo., June 25.—Yesterday morning about 10 o'clock, while C. J. Painter, cashier of San Miguel valley bank, was out making his rounds, the men entered the bank and demanded the funds of the bookkeeper at the point of a revolver. After securing the bank funds they joined a fourth robber who was holding their horses just outside of the bank. They left town on the run, firing shots in the air to frighten the citizens. They are heading for the Arizona line, with several sheriff's parties in pursuit.

Ouray.—The latest heard of the Telluride bank robbers is that they are between Rio and Telluride. They evidently were intending to convey the impression that they were heading for Arizona, but as they are believed to be familiar with the country in and around the Sierra Lasal mountains, it is believed by all that they will endeavor to reach Utah. Strong posses are in hot pursuit from Telluride, and the authorities at Durango, Rico and Grand River have been notified to organize and head them off, if possible. The amount stolen is about \$20,750. The depositors will suffer no loss, as the officers and stockholders are wealthy.

The Church and the Clan.

NEW YORK, June 25.—The Clan-na-Gael men are excited over a dispatch published here from Rome to the St. Louis Standard, saying that the Pope has given Archbishop Pohan, of Chicago, authority to declare that the Clan-na-Gael is in opposition to the church. They scout the idea that there is any truth in the report. In the first place, they say that it is a method of procedure not that of the church under such circumstances. There has not been time to gather and present sufficient facts to warrant action. Then the Standard is a rabid anti-Irish paper. Finally, they assert there is nothing in the Clan-na-Gael to warrant such action. These are expressions of leading Irish editors and of other prominent Irishmen.

Suicide at Hazon.

RATON, N. M., June 24.—John Wright, a miner who has been in the employ of A. H. Carey here for several years, disappeared over two weeks ago. Yesterday two boys rambling in the foot hills north of town found his body badly decomposed.

He had been on a spree previous to his disappearance, and had been heard to talk of suicide. A revolver under his left hand and a bullet hole in his head told the tale.

Wright was about 35 years of age and was raised near Kansas City. He was a member of the Knights of Pythias lodge of this place and was well liked. The knights brought in his body for interment.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at G. M. Creamer's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Sure Death Method.

DENVER, June 25.—A Cheyenne special says Solon T. Wells, a prominent lumber merchant and an old settler of Louder, Wyo., committed suicide one day last week under peculiar circumstances. He arranged a scaffold in his barn in the form of an incline. Climbing to the top of this he fastened a rope to his neck and the other end to an overhead beam. He then drank a bottle of laudanum, and rolled off when in an unconscious state, breaking his neck and causing instantaneous death.

Down on Italy.

ST. PETERSBURG, June 25.—The government proposes to raise a new loan of money to be used in building strategic railways and fortresses. The semi-official press here daily attacks Italy, while the czar snubs Baron De Marochetti, the Italian ambassador. At the last state ball the czar purposely ignored the presence of the ambassador. Baron Marochetti placed himself in his majesty's way and then the baron was accorded an extremely cold greeting.

Nominated for Bishop.

Boston, June 25.—A special correspond-

ent at Rome cables as follows: The Very Rev. A. Van Devel, administrator of the Diocese of Richmond, Va., has been nominated bishop of the see, in succession to Bishop Keane, now rector of the American Catholic university.

Rescued From Office.

TOWSON, June 25.—John M. Galloway, United States land commissioner (Carter, Oklahoma), was removed from his position to-day by United States Judge Foster. Mr. Galloway was one of those officials at Guthrie who were charged with having used their office to enable them to jump choice tracts of land before the territory was open to settlement. Mr. W. M. Allison, of Winfield, was appointed by the judge to succeed the deposed commissioner.

The Union Pacific Engineers.

OMAHA, June 25.—The work of forming a board of arbitration to adjudicate matters between the Union Pacific and the Brotherhood of Locomotive Engineers was resumed yesterday. Manager Baldwin will represent the company, Chairman Vrooman the engineers, and they will decide upon the third man. It is reported that C. Covin is the favorite among the engineers for third place.

For Sullivan and Kilrain.

CINCINNATI, June 25.—Mike Donovan, Frank Stevenson and W. H. Harding, of the Police Gazette, left yesterday for New Orleans. Their mission is to select the grounds for the coming Sullivan-Kilrain fight. From a conversation had here it is believed the ground will be Honey Island, on Pearl River, thirty-six miles east of New Orleans.

Mora's Court House.

TAMPA, Fla., June 25.—Contractor Damasco, of the firm of Damasco, Pile & McCall, left yesterday for Mora, N. M., with fifteen men to begin work on the new court house and jail, which the firm contracted for at \$45,000. Five teams were sent overland yesterday and Mr. Damasco says he will send to Trinidad for twenty-five men to work on the building.

They Took It All Back.

DENVER, June 25.—The city aldermen met yesterday, and after considerable discussion agreed to reconsider the resolution passed Thursday regarding the purchase of the plant of the Denver Water company by the city. The resolution was finally laid upon the table.

Forests and Bridges Burning.

HELENA, Mont., June 25.—Advises received state that disastrous timber fires are raging west of here on the Northern Pacific. The Clark's Fork bridge, on the Northern Pacific, 600 feet long, burned this morning. Much delay and damage is occasioned by the fire.

Will Use Repeating Rifles.

BREWER, June 25.—The council has decided to borrow the sum of 16,000,000 francs with which to purchase repeating rifles for the army.

CONDENSED NEWS.

Turners of the U. S. is in session at Cincinnati.

Another dam, at Lake Hopewell, N. J., is in considerable anxiety to those living below it.

Fire in Carthage, Ohio, in the factory of the Carthage wagon works totally destroyed them. Loss \$25,000.

At Three Rivers, Quebec, a row boat, containing eight persons was driven over the fall, and all were drowned.

Fire in Vancouver, W. T., in less than two hours swept over nearly four blocks in the business portion of the town. Loss, \$70,000.

At Lowell, Mass., Dr. Nathaniel Cutler and Thomas Hill, Jr., were arrested on a charge of having performed a criminal operation on Lizzie Brown.

The New York Press has been a crusade for the revival of the custom of hoisting the national colors on the federal buildings throughout the country every day.

The Illinois state board of agriculture estimates that the wheat crop will not average more than thirteen bushels per acre, making the total yield of the Illinois crop 25,000,000 bushels.

The Boston Herald will print a four column letter from Gen. Butler, in which he produces facts and official records to prove his charges of cowardice against Admiral Porter during the siege of New Orleans.

A farmer named Collins, living near Oswego, Ill., while talking with two men counted out \$12,000, with which he intended to buy a farm. The two men grappled with him and robbed him of the money and fled.

At Finlay, Ohio, W. T. Heck, a local butcher, dispensed a large amount of corned beef to families here. The meat was part of a consignment received from Phil. Armour & Co., of Chicago. Soon after eating it thirty-one persons were taken violently ill with symptoms of poisoning.

Wool's Future Strong.

Louis S. Fiske & Co., Philadelphia, say in their circular at hand to-day:

The wool market throughout is strong and tending upward. Prices of most descriptions are advanced in this week's table of quotations fully 1 cent per pound, although the figures in many cases are to a great extent nominal, in the absence of supplies.

Demand locally is not active, but it is improving and trade is probably as good as could be expected, in view of the small receipts and limited stocks. Manufacturers pay the advanced prices grudgingly and only for such amounts as are imperatively required for near wants, but the market is steadily strengthening, and buyers are compelled to submit to the rising views of holders, or go without supplies.

Dealers themselves are in the market for such lots of desirable wools as can be picked up to any better advantage than similar wools can be bought in the west.

The buoyancy and strength of interior markets continues, and, while many local operators are distrustful of the advance, which as yet has been unsupported by any decided improvement in the goods trade, others are showing more confidence, and are buying to some extent in expectation of a gradual rise in values here.

C. C. Swinbourne, this city, G. R. Peck, general solicitor for the Santa Fe road, Mr. Hamilton, state treasurer of Kansas, and Capt. Grierson went to the Pecos for the purpose of hauling in the speckled beauties to-day, and no doubt will have a good time of it.—Optic.

Saved.—A fine family of children were all afflicted with scrofula. Two died early; the rest would have followed, but for the timely and persevering use of Ayer's Sarsaparilla, which built them up into a healthy and vigorous manhood.

MRS. HAYES DEAD.

The Wife of the Ex-President Passes Away at Her Ohio Home.

FARMOST, Ohio, June 25.—Mrs. Ruth-erford B. Hayes, wife of the ex-president, died early yesterday morning. She had passed a quiet night, sinking gradually until the hour of her death. At her bedside were the members of her family, together with Mrs. Mitchell, a cousin of Gen. Hayes; Mrs. Huntington, a cousin of Mrs. Hayes; Lucy Keller, Mrs. A. H. Miller and the physicians.

All night long the sorrowing family watched around the bedside. Mrs. Hayes was motionless, and but for her faint breathing and the weak fluttering of her pulse, there were no signs of life. The anxious watchers, waiting only for the inevitable, were bowed with grief. The physicians kept in the background, and the family were alone with their loved one.

As morning dawned her hold on life grew weaker, and finally the spirit took its flight. In a voice choked with grief the physicians announced the end had come, and the family's long vigil was closed in prostration and grief. Gen. Hayes and his four grown sons, Bur-chard, Webb, Reed and Scott, were deeply affected while Fannie was nearly prostrated with grief and her long sleep-less watch at her mother's bedside. The entire city is in mourning. Flags are at half mast. Telegrams of condolence have been received from many friends, among them being President and Mrs. Harrison.

Mrs. Hayes, whose maiden name was Lucy Ware Webb, was born August 25, 1831, at Chillicothe, Ohio. She was the youngest child and only daughter of Dr. James Webb and Maria Cook. Her grandfather, Judge Isaac Cook, came from Connecticut in 1781, and all four of her great-grandfathers served in the revolutionary war. Her father served in the war of 1812. Mrs. Hayes was married December 30, 1852. At the breaking out of the rebellion her husband entered the army, and from that time until the close of the war her home was a refuge for the wounded, sick and furloughed soldiers going to or returning from the front.

She spent two winters in camp with her husband, in Virginia, and after the battle of South Mountain, where he was badly wounded, she hastened to join him at Middleton, Md., and later spent much time in the hospital near Frederick City. During the four years of her life at the White house she was distinguished by the graceful cordiality with which she received all who called. Since the retirement of her husband from public life she has been an ardently interested member of the Woman's Relief corps, and has served during several successive years as president of the Woman's Home Missionary society of the Methodist Episcopal church.

The funeral will take place on Friday.

FOR STATEHOOD.

Dates and Delegates for the Santa Fe County Primaries.

The following call was handed in for purchase of territory:

HQs. SANTA FE COUNTY REP. CON., Santa Fe, N. M., June 25, 1889.

In accordance with the recommendation of the Republican central committee of the territory of New Mexico, a convention of the Republicans of the county of Santa Fe, on the 30th day of July, 1889, to nominate candidates for delegates to the constitutional convention, which is to meet on the 3d of September, 1889.

The Republicans in each precinct will meet on the 30th day of July, 1889, and in the usual manner elect delegates to said county convention, the appointment of delegates in the various precincts being as follows:

Poloque	1	Tenague	2
Upper Santa Fe	6	Lower Santa Fe	6
San Pita	2	La Grange	2
Cerrillos	2	Galisteo	2
San Ildefonso	2	Poboros	1
Glennville	2	Cannonsville	1
Glennville	2	Santa Cruz	2
Esplanada	2	Chilili	2

CHARLES W. CONKLIN, Chairman Santa Fe County Rep. Con. C. W. FISHER, Secretary.

Any information concerning the whereabouts of Richard Jones, who worked in one of the Gallup mines this year, will be much appreciated by his sister, Miss Mary Jones, of 428 11th street, S. E., Washington, D. C.

A Reliable Remedy.

Alcock's Pectoral Plasters never fail to give speedy proof of their efficacy as the best external remedy for weak back, rheumatism, lumbago, sciatica, colds, coughs, sore throat, pulmonary and kidney difficulties, malaria, dyspepsia, heart, spleen, liver and stomach affections, sprains and all local pains. They have been in use for over thirty years, and their value has been attested by the highest medical authorities as well as by voluntary and unimpeachable testimonials from thousands who have used them.

Ask for Alcock's, and let no explanation or solicitation induce you to accept a substitute.

Take Hood's Sarsaparilla

100 Doses One Dollar

The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins.

Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes That Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System. Hood's Sarsaparilla is sold by all druggists. \$1; six for \$5. Prepared by C. I. Hood & Co., Apollecetia, Lowell, Mass.

GEORGE W. HICKOX & CO

Filigree Jewelers

OF NEW MEXICO.

Carry the largest and richest assortment of goods to be found at any point in the southwest. Native Opals, Navajo Garnets and Turquoise in great variety. We employ only native workmen, and invite strangers in-

to our workshops. Diamonds, American Watches, Silverware, Clocks and Optical Goods also a specialty. The only place in Santa Fe where a fine watch can be repaired properly.

PALACE AVE., Opp. Gov. Prince's

SANTA FE, New Mexico

ARE YOU LOOKING

For a place you can call home? You are tired, perhaps, of "quarter-section farming," even though broad acres of the fairest portions of Uncle Sam's domain yet tempt you to change your base of operations further west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and varied arena for the display of muscular ability, while common sense, tact and a modest capital will in three or four years produce results eminently satisfactory to a man who, to a laudable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and healthful surroundings. With these remarks, point us to

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which income can be produced equally as great, if not greater, than the average farms of eighty and 100 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of one might suppose in these days of booms; and our "long term payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranty deeds given. Write or call for plats and circulars. Command us for carriages or other courtesies within our power to give.

The Daily New Mexican

By NEW MEXICAN PRINTING CO.

Subscription Rates: Daily per year, \$10.00; Weekly per year, \$5.00; Six months, \$6.00; Three months, \$3.00; One month, \$1.00. Daily delivered by carrier 15 cents per week. Rates for advertising, 25 cents per line per week. All communications intended for publication must be accompanied by the writer's name and address—not for publication—but as an evidence of good faith, and should be addressed to the editor. Letters pertaining to business should be addressed to the New Mexican Printing Co., Santa Fe, New Mexico.

Entered as second class matter at the Santa Fe Post Office. The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

CITY SUBSCRIBERS. Mr. H. O. Ladd has been charged of the city circulation of the New Mexican, and all subscriptions must be paid to him at this office. City subscribers will confer a favor by reporting to this office all cases of non-delivery of papers.

WEDNESDAY, JUNE 26.

When are we to have lights in the streets?

As now the weather growlers are abusing the hot weather.

Civil Service Commissioner Theodore Roosevelt is talking well and performing well.

The provisions of the public health law are to be enforced strictly after July 1. We hope so. The action is needed.

In Circassia the plan of buying wives on the installment plan has been introduced and is working successfully. The scheme would hardly work in this country.

The streets leading to the capital grounds ought to be placed in good and creditable condition by the board of penitentiary commissioners by September next.

There is no good reason why illegally issued and fraudulently conceived county warrants of this county should be paid in full. None whatever, except to enable a few favorites to coin money.

With Price, a millionaire railroad magnate, as chairman the Democratic national committee can again start in on a campaign of reform and under the banner of "down on the great corporations and monopolies."

The election for delegates to the constitutional convention is near at hand. There is not much time ahead for the campaign. The election takes place on August 6 next. All necessary preparations should be made betimes.

The Northwest New Mexican does not want any lawyers in the constitutional convention.

The less lawyers the constitutional convention has in it the better it will be for New Mexico. Good, sound, practical business men is what is needed.

The New Orleans Pelican says: Senator-elect Chandler is the man most hated by all southern bulldozers and ballot box stuffers.

Senator Chandler may well be proud of the hatred of that gentry.

And now it is beginning to look as if his honor, the chief justice, would have to go sooner than he expected. We are informed that the appointment of his successor may be made at any time. The new chief justice will be a resident of New Mexico.

PATRONIZE your home papers and help build them up. Don't ask the newspapers to boom your business and private interests and then as soon as you want a dollar's worth of printing done send east for it.—Albuquerque Citizen.

Good, sound common sense that. People will help themselves and the town they live in by following the above.

Some months ago Rose Coghlan, the actress, expressed as her opinion that "marriage was not a failure." Now she has separated from the last partner of her joys and sorrows. The fair Rose is evidently of the opinion that marriage to one man is a failure, but that upon the whole the institution serves very well.

The American colony in Canada is doomed to destruction. The hoodlums and defaulting bankers must seek pastures new. The Canadian department of justice has just decided that the extradition bill recently passed by the Canadian parliament is retroactive, and that the law applies to offenses committed before the passage of the act.

As a great many New Mexico people are now traveling, we want to remind them that at this season of the year the first thing to do is to raise the window and enjoy the breeze. It won't make a particle of difference about the cinders which will fill the eyes of the occupants of the seat behind. This is a free country and every man must look out for himself.

PRESIDENT HARRISON, it is to be hoped, will at an early day again aid the cause of good and clean government, and will purify the public service by appointing a Republican surveyor general, a Republican chief justice, a Republican U. S. attorney, and a Republican U. S. marshal at an early date. Let the good work go bravely on.

The New Mexican wool growers are getting excellent prices for the wool they have raised during the past year. That is what Republican success has done for New Mexico. The Republican victory of last November has brought at least a half million dollars more into the pockets of our wool growers and sheep raisers than they would have realized had the Democratic pro-British-free-trade Cleveland and a Democratic house of representatives been elected. This is practical politics, and every man in New Mexico interested in the raising of sheep understands it fully.

THE SOUTHWEST.

In recent years the northwest has received more attention than the southwest. Montana and Washington will soon be admitted into the union as states. New Mexico and Arizona will probably continue to be territories for several years to come.

But the future will probably show that the southwest is a region capable of supporting a large population. It is generally thought to be more arid than the northwest, and doubtless this is a correct distinction between the two sections. Particularly is this true of the Puget Sound country, but included—as it certainly should be—in the calculation. The rainfall in that part of Washington which lies west of the Cascade range is probably greater than any other part of the nation. But, generally, the northwest belongs to the so-called arid region.

The utilization of the streams of the southwest in irrigation is far from complete. There is abundant room for the investment of capital in the construction of irrigating canals, and much may be hoped from the survey which the federal government is now making for the selection of sites for irrigation reservoirs. In Arizona and part of New Mexico there is a summer rainy season, which is suggestive of agricultural possibilities. It resembles the rainy season of Colorado, which comes in April and May.

The fact that the southwest is a rich mineral region is, of course, well known. Gold, silver, copper, lead and coal abound, with iron in possibly a proportionately less quantity. Through the development of their mineral resources Arizona and New Mexico are destined to take high rank in wealth.

All of which goes to show that the Rocky mountain region is abundantly blessed with means which, if properly utilized, will make it a populous and wealthy part of the union. The northwest and the central region are better known than the southwest, but all are bountifully provided for by nature.—Denver Republican.

The above from the Denver Republican is right and showing the proper spirit, except where the matter of statehood for this territory is alluded to. From all indications New Mexico will be admitted to statehood during the sessions of the 51st congress. New Mexico at a very fair estimate contains to-day about 160,000 inhabitants, it has about \$50,000,000 of taxable property; its territory compared with the eastern and middle states is simply immense; its climate is magnificent and far superior to any in the southwest; its resources in the precious minerals, copper, lead, iron ores, coal, timber, cattle, sheep and agriculture, are great, and in some instances can not be over estimated. It furnished more soldiers to the U. S. armies during the war of the rebellion than any other territory, and in comparison to population, than many a state did. Upon its statute book are found a great many progressive and good laws, and it proposes to adopt a constitution that will prove a credit in every way and will fully demonstrate the intelligence, patriotism and self reliance of its citizens. New Mexico is one of the richest portions of the entire southwest, and more than fully fitted for statehood.

It seems that Mr. Chief Justice Connelley, who has been in the territory for some time, has been proved a right (lucrative one) of chief justice another year is about to fall through and go a glimmering. He resigned, it is understood, to take effect January 1, 1899. The resignation has been accepted, but no attention is being paid to the request that it take effect in the distant future. The appointment of a new chief justice may be expected any day. It ought to be made. The people of New Mexico have suffered enough. Pure and competent judges are wanted. The ermine has been besmirched under Democratic judges, the courts have not been respected, during the past four years. It behooves the new appointees to change this state of affairs.

When the Gallup News-Register takes the Las Vegas Optic to task for speaking "sneeringly of the old soldiers" it is like "the pot calling the kettle black"—in fact it is worse. We have never noticed in the Optic any sneers directed toward the old soldiers; but the first half of the News-Register, during its existence in Las Vegas, and while the soldier-hating Cleveland was in the presidential chair, had little else but sneers for the old soldiers and even took umbrage when a Decoration day orator declared that the men who fought for and saved the union were right. The charge against the Optic comes with bad grace from the News-Register.

NINETEENTH century civilization is advancing rapidly. The high caste Hindus have lately been addressing protests to the viceroy of India against the sale of intoxicating liquors to the natives, among whom the vice of drunkenness is rapidly spreading. To this a British official made answer: "Drunkenness," he says, "is only prevalent among powerful and progressive races. Therefore if the Hindus are taking to drink they are struggling toward civilization." That man must have an excellent opinion of the powerful and great people who are drunk all the time.

The closing exercises of the deaf and dumb school at Santa Fe were of an interesting character. This school has been established under many difficulties, and deserves the support of the liberal people of the territory.—Albuquerque Citizen.

The school is established here. Great good has been done in it during the past four years. It is a very necessary institution and, as the Citizen remarks, deserves the support of all liberal and humane people in New Mexico.

A Multitude of Ailments. The ailments which afflict the kidneys and bladder are so numerous, that merely to name them would fill a space far outrunning the limits of this article. Suffice it to say, that they are both obstinate and dangerous. To their prevention Hostetter's Stomach Bitters is well adapted. The stimulus which it lends to the action of the kidneys when they are lethargic, serve to count, not a tendency in them to lapse into a state of pernicious inactivity, and after and into one of positive organic disease, which soon destroys their delicate integuments, poisons the blood and causes death. A double purpose is served by this preparation. It promotes activity of the kidneys, and expels impurities from the blood which have no natural channel of outlet, except these organs. Constipation, biliousness, fever and acute rheumatism and dyspepsia are also cured by the medicine of thorough action and wide scope.

Colorado Senators. La Jara people have a double sensation—the starting of a Spanish class and the strike of sixty Mexican sheep shearers for better relations.

FULL WEIGHT PURE DR. PRICE'S CREAM BAKING POWDER MOST PERFECT MADE

Its superior excellence proven in millions of homes for more than a quarter of a century. It is used by the United States Government. It is the standard of the world. SSS SSS

I am satisfied that Cancer is hereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be cut out. Numerous remedies were used for it, but the Cancer grew steadily worse, until it first, I took Swett's Specific, which, from the first day, forced out the poison, and continued its use until I had taken several bottles when I found myself well. I know that S. S. S. cured me. Winston, N. C., Nov. 20, '98. Mrs. S. M. Inou. Send for Book on Cancer and Blood Diseases. This Swett's Specific is sold by all druggists.

THE MAXWELL LAND GRANT

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroad, and will have a rebate also on the same if they should buy 160 acres or more of land.

Warranty Deeds Given.

MULTUM IN PARVO.

Advertising Experiment.

An exchange says: Some men try advertising as the Indian tried feathers.

He took one feather, laid it on a board and slept on it all night.

In the morning he remarked: "White man say feather heap soft; white man a—n fool."

Some men invest a quarter or fifty cents in advertising and then because they don't realize great increase to business they declare that advertising doesn't pay.

A man should expect a return so disproportionate to his investment. Even little advertising is worth all it costs, but a twenty-five cent local ad can not be expected to revolutionize business and turn trade out of its accustomed channels.

Discover More Valuable than Gold

Are Santa Abie, the California discovery for consumption and diseases of the throat, chest and lungs, and California Cat-R-Cure, the only guaranteed cure for catarrh, cold in the head and kindred complaints. They are sold at \$1 per bottle or three for \$2.50, and are recommended and used by the leading physicians of the Pacific coast. Not secret compounds. Guaranteed by C. M. Creamer.

"Red River."

People suggested changing the name of the Rio Grande to Red river yesterday.

This was on account of the color of the water, which had received an influx of muddy water from the headwaters of the Gadsden river owing to a heavy rain in the Arizona mountain country. The soil is of a deep Venetian red color, and a rain there always causes the Rio Grande to become a diaphanous red color. Albuquerque exchange.

Bucklen's Arnica Salve.

The best Salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by C. M. Creamer.

Ditch Work.

Mr. C. B. Eddy, founder of the town by that name in New Mexico, is in the city.

He is at the head of the Pecos valley irrigating canal, and states that he has a full corps of engineers in the field and 1,000 men employed. The arid lands will be reclaimed and sold in small tracts to actual settlers. He employed here a large number of carpenters, stone masons and painters. El Paso correspondence to Ft. Worth Gazette.

Guard Against the Strike.

And always have a bottle of Acker's English Remedy in the house. You can not tell how soon crop may strike your little one, or a cold or cough may fasten itself upon you. One dose is preventive and a few doses a positive cure. All throat and lung troubles yield to its treatment. A sample bottle is given you free and the remedy guaranteed by A. C. Ireland, Jr., druggist.

Gold as she is Found.

Gold never bred upon the surface of the ground, but lies so hidden and so deep that the miner of it is seldom found; but the force of water cuts it out from the bowels of the mountain and exposes it among the sands of the river, giving us by its bounty what we could not hope for by our search.—Dryden.

Gordon Jobbers for Sale.

The New Mexican Printing company will sell at a bargain one or two new style 14 medium Gordon job presses, to make room for another cylinder work press. These presses are in good order and good as new. Full particulars and prices will be furnished on application.

Socorro's Solace.

The business men of Socorro have no reason to complain on account of dull times. You may go to any town between El Paso and Trinidad, include both of these, and you will find everything dull. According to her reputation Socorro is doing as much business as any town we know of within the limits mentioned.—Advertiser.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the inflamed gum, kills all pain, regulates the bowels, and gives the child a pleasant taste. Put in a bottle of it in your medicine chest. It is the best home remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.

A Clear Cut Truth.

When properly developed the resources of New Mexico are almost incalculable. There are single counties in New Mexico with almost as much natural resources as all of the New England States taken together, and with the same amount of people and same amount of capital employed, the population of the territory would be many times the present number.—Ex.

Mr. F. J. Smith, editor of the Ft. Abie, Iowa, Herald, says: "The most wonderful medicine I have ever met with is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It gives speedy relief. On hunting trips I have found it indispensable. Put in a bottle of it in your medicine chest. It is the best home remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle."

A Novel Way of Putting it.

According to the Kansas City Star, the people of Atchison have found a very cheap plan for building. When a property owner wants to erect a business house he does not hire a superintendent. He lets a peanut vender set up a stand in front of the place where the structure is being erected, and the people who come to patronize him tell the workman what to do.

How He Became Famous.

The Walker, Iowa, News, says: "Our old friend, Robert Baird, of Muscatine, Iowa, has been secretary of the state senate and an active politician for years, but was never generally known until he had the colic and used Chamberlain's Colic, Cholera and Diarrhoea Remedy, and got into one of their advertisements. Now he is famous." Here is what Mr. Baird said: "While in Des Moines, I was taken with a severe attack of bowel complaint. For two days I suffered intensely, trying several drug stores and paying them for relief, but in vain. I finally bought a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after two doses of that brought me out all right. It costs less than the drug store preparations and I have the balance for future use. I consider it a grand remedy." 25 and 50 cent bottles for sale by C. M. Creamer.

Kick Against Time.

Vanity doesn't count for much among the German Baptists of Harrisonburg, Va. They have decided that any one of their number who wears a gold watch shall be expelled from the church.

WHAT WAILS YOU?

Do you feel dull, languid, listless, nervous, and indigestible, and have you been fully demonstrated to the people of this country that it is superior to all other preparations for blood diseases. It is a positive cure for syphilis, poisoning, ulcers, eruptions and pimples. It purifies the whole system and thoroughly builds up the constitution. Sold by A. C. Ireland, Jr., druggist.

Grant County's Case.

The Meredith & Allman case has taken a new turn which leaves the creditors a little wiser in the soup than they were before. S. T. Harkey was appointed receiver and Goldman, the assignee, was instructed to hand over to the receiver all property in his possession belonging to Meredith & Allman. He agreed to do so the next day. The next day he came into court and said he had been robbed the previous night of a number of notes and valuable papers. An examination showed that about \$100,000 worth of collaterals were gone. The fact of the matter is that assignee Goldman has been playing poker and he was the person who applied for a receiver.—Lansburg Liberal.

Grand Army boys, as well as many others, will be interested in the following from Alex. B. Pope, Stewart, Tenn., who is A. D. C., Commander Dept. Tenn. and Ga. He says: "We have had an epidemic of whooping cough here, and Chamberlain's Cough Remedy has been the only thing that has done any good." There is no danger from whooping cough when this remedy is used. 50 cent bottles for sale by C. M. Creamer.

Tired of Prohibition.

PROVIDENCE, R. I., June 21.—The repeal of the prohibitory amendment was effected yesterday by a vote of 23,449 to 9,833. Three years ago the amendment was carried by about 6,000 majority.

Kezema, Italy, Scaly, Skin Tortures.

The simple application of "SWAYNE'S OINTMENT," without any internal medicine, will cure any case of Tetter, Salt Rheum, Ringworm, Piles, Itch, Sores, Pimples, Eczema, all Scaly, Itchy Skin Eruptions, no matter how obstinate or longstanding. It is potent, effective, and costs but a trifle.

A Sale Spoiled.

The sale of the Golden Giant for \$50,000 fell through, owing, it is said, to a telegram sent by H. J. Longmire, of Carlsbad, stating that the mine was worth but \$20,000. The property was examined by an expert who reported favorably on it, and the money was raised, and the sale would not doubt have been made but for Mr. Longmire's telegram.—Silver City Enterprise.

Great H. O. G. Route.

The Chicago Tribune facetiously observes: "A new railway in Kansas bears the name of the Hutchinson, Oklahoma & Gulf, and will doubtless become known to fame as the Route H. O. G. or Die."

A Duty to Ourselves.

It is surprising that people will use a common, ordinary pill when they can secure a valuable English one for the same money. Dr. Acker's English pills are a positive cure for sick headache and all liver troubles. They are small, sweet, easily taken and do not gripe. Sold by A. C. Ireland, Jr., druggist.

A Child Killed.

Another child killed by the use of opiates given in the form of soothing syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Acker's Baby Soother. It contains no opium or morphine. Sold by A. C. Ireland, Jr., druggist.

Notice.

A meeting of the stockholders of the Water & Improvement company is hereby called for the purpose of electing a board of directors and considering such other business as may properly come before it. Said meeting to be held at the office of the company, in Santa Fe, at noon on the 31 day of July, 1889.

ROBT. E. CARL, EDWIN B. SEWARD, RUFUS J. PALLEN, WM. W. GRIFFIN, Directors.

Dated Santa Fe, N. M., June 1, 1889.

The Chief Boomer's Memory.

A beautiful plot of ground comprising ten acres, adjacent to the river, will be dedicated to the city for a park to be known as Payne's park, in honor of the late David L. Payne, the leader of the Oklahoma movement. Several old time boomers, among whom are Capt. Couch, Col. Crocker, and William Golding, are the fathers of the plan.—Oklahoma Chief.

Notice.

Whereas, The Santa Fe Copper company is now the owner and entitled to possession of the tract of land situated in Santa Fe county, and known as the Canon del Agua grant, and also all that portion of a certain tract of land known as the San Pedro grant that is situated, lying and being in the county of Santa Fe, N. M.; and

Whereas, All that portion of said several tracts of land lying west of a line drawn north and south through the place known as the Canon del Agua spring is held under and by virtue of a patent of the United States, and has in no manner been affected or questioned by the decision of the supreme court of the territory of New Mexico, rendered in the cause lately therein pending, in which the United States was complainant and the San Pedro & Canon del Agua company was defendant.

Now, therefore, notice is hereby given that all persons settling upon said several tracts of land, within the boundaries thus designated, and erecting buildings or making other improvements thereon, or laying out, marking off town sites or lots thereon, without the permission of this company, obtained through its duly authorized officers, are, and shall be considered as trespassers thereon, and legal proceedings will be instituted against any and all persons thus trespassing thereon.

The said company, being desirous of encouraging the building of towns or towns in this vicinity, will, under proper and equitable rules to be made by said company, upon proper application to the superintendent or agent in charge of said property, grant permission, or at reasonable rates sell lots, within the boundaries named, to any person who bona fide desires to settle thereon, or to erect dwelling houses or stores or shops thereon.

The said Santa Fe Copper company, being also further desirous of having the lodes, ledges, veins and deposits of gold, silver and other precious metals situated upon the said several tracts of land herebefore mentioned developed, will open said several tracts of land to prospectors under certain rules and regulations, which will in a short time be determined upon by this company and duly published for the information of prospectors and settlers. This company hereby expressly reserving to itself from location all those veins, lodes, ledges and deposits which have heretofore been worked by said company, its agents, or assigns.

THE SANTA FE COPPER COMPANY.

By JAY A. HENNING, President.

Dated Santa Fe, May 31, 1889.

Beware of Imitations, there is Only One

BILLY'S RESTAURANT & WINE PARLORS
S. E. Corner of Plaza. Open Day and Night.
Oysters, Game, Fish and Poultry
A SPECIALTY.
The best cooks in the Southwest to prepare the most delicious and palatable dishes in the most comfortable and elegant surroundings.
WINE, LIQUORS AND CIGARS
Imported and Domestic, always on hand. Special attention given to the service of the table.
Regular Daily Dinner, 3 to 7 p.m. Sunday Dinner, 5 to 8 p.m.
Attention to the service of the table.
WILL C. BURTON, Practical Chef and Proprietor.

RAIL RUMORS.
The P. W. & D. Talks Extension—The White Oaks Project—Albuquerque's Hope.
TWO FOR WHITE OAKS.
The Fort Worth & Denver wants to pierce the center of New Mexico, at least as far as White Oaks. Morris K. Locke is again at work in El Paso on the El Paso-White Oaks problem, and he gives out a bit of cheerful news in this language:
"I met Gen. Dodge, of the Denver, Texas & Fort Worth railway, and he is especially anxious to see the White Oaks road built. He makes no secret of the fact that his road intends coming to El Paso some day, but in the course of our conversation he said: 'Our road will not do any building this year unless you push the White Oaks through, and if you do we will start from Washington and meet you at White Oaks. The distance is only 200 miles from Washington to White Oaks, and we can build there almost as soon as you could, and I will be ready to click with you a traffic arrangement by which we could run our trains straight through to El Paso.' So you see Gen. Dodge has his eye on both El Paso and White Oaks."

GENE AND FACTS ON THE FRISCO.
Gen. J. A. Williamson has gone to New York to hurry up building operations on the Atlantic & Pacific road—Albuquerque Citizen.
The fact is that Gen. Williamson has left Albuquerque and gone back east to locate as president of the A. & P. Everybody wants to see the Frisco link completed through to Albuquerque, particularly Santa Fe people, for that road will prove quite as advantageous to this city and county as it will to Albuquerque. But facts are facts. You can't build 60 miles of railroad in thirty days or so, nor can you raise \$17,000,000 to foot the bill at the present stage of the game, and the condition of western railroads. The Railway Age is fairly well posted on these matters and it says this extension "will probably be built sometime." Albuquerque has been banking on this road for very many years and ought to have it, but in the absence of it let's don't try and "make a pig of an old mule in a minute."

REDUCED FREIGHT RATES.
In order to meet a reduction of the Texas Pacific the Santa Fe route has issued a new tariff of considerable import to shippers. The rate, which took effect June 13, is on first class from St. Louis, \$1.05, as against the old rate of \$2.20, and from Chicago \$2.15, as against the old rate of \$2.30. The long haul clause in the inter state law reduces rates to intermediate points, and as the reduction is to common points in New Mexico, Trinidad and a few minor stations in Colorado, intermediate points get the benefit of the reduction.

Epoch.
The transaction from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the great alternative and tonic. If you are troubled with any disease of kidneys, liver or stomach, or long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50c. and \$1 per bottle at C. M. Creamer's drug store.

INDEPENDENCE DAY.
Naming Sub-Committees on Program—Must Report by Thursday Night.
The executive committee in charge of the Independence Day festivities had a spirited meeting at the office of Mr. Berger last evening.
It was resolved to extend invitations to Hon. Wm. B. Childers, of Albuquerque, to deliver the oration in English, and Hon. Miguel Salazar, of Las Vegas, the oration in Spanish on the 4th; to Geo. W. Knebel, esq., and E. H. Salazar for reading the Declaration of Independence in English and Spanish respectively.
Nestor Montoya and E. H. Salazar were appointed a committee on invitation to invite the civic societies, Indian societies and other organizations in the city to participate in the street parade.
John Gray, Jas. Van Arsdell, Frank Harrison, Tony Neis and Grant Riverburg were appointed a committee on fire works and fire department parade and racing.
John Olinger, chairman, Harry Clancy, John D. Allan were named a committee on horse races and speed.
Committee on foot races, Indian races, burro races, etc.—Wm. A. Sloan, chairman; G. W. Knebel, M. C. Williams, Col. Clark, Jack Conway and Jack Olinger.
Hoy Sol, Spiegelberg was made chairman of the finance committee, with Messrs. C. F. Easley, Geo. C. Preston, N. B. Laughlin and W. M. Berger to assist.
It was decided to have an evening entertainment in the plaza last prior to the hour for the pyrotechnic display, and a committee on instrumental music for this occasion was named, consisting of Wm. Tipton, Geo. W. Knebel, Prof. Grentzberg, W. T. Guyer, Mrs. M. J. Warner and Miss Grentzberg.
Messrs. Widmeyer, Griswold and Stiley were appointed to look after the bicycle racing features of the day, and Messrs. E. L. Bartlett, W. E. Clancy, P. L. Vanderveer, Levi Hughes, W. E. Griffin and Frank Chavez were named to have charge of the horseman's division in the procession.
The several committees were requested to present reports on Thursday evening, as to the progress of their labors, to the executive committee.
Adjourned to meet Thursday evening at 8 o'clock.

What Water will Do.
The Chicago company that is building the irrigating canals in Chaves and Eddy counties, the two new counties that were carved out of Lincoln county by the last legislature, are moving with an energy that is almost surprising in the prosecution of their canals. W. C. Bradberry is the contractor for the whole work, but he has subcontracted the northern canal. This canal is to be thirty feet wide on the bottom and sixty-two feet wide on top, carrying five feet of water. The larger or southern canal is to be forty-five feet wide on the bottom and sixty-two feet wide on top and will carry water six feet deep. They will have a current of two miles an hour, and are calculated to carry the full capacity of the river. The two together will be nearly 100 miles long, as included in the present contract. Ultimately they will be extended very much further. As contracted, they cover about 200,000 acres of land, and there is double that amount available. The company will spend about \$400,000 in the valley this year, and it is making lively times, giving employment to all the men and teams in the country. Hundreds of both men and teams have to be brought from the outside; and the

roads from Pecos station north are having heavy use by freight teams. The new town of Roswell and Eddy are growing.
Are you weak and weary, overworked and tired? Hood's Sarsaparilla is just the medicine to purify your blood and give you strength.
Territorial Secretary's Office.
Notaries Public: Benjamin Tins, of Grant county; Max Nordhouse, of Las Vegas.
The Scottish Mortgage, Loan & Improvement company, of Las Vegas, has designated Hugh London, of Las Vegas, as agent.
The American Cattle company, of Denver, has designated J. G. Kello, of Aztec, as agent.
The Rio Grande Valley Water company has filed articles of incorporation. Incorporators: Jefferson Haystack, Wm. A. Vincent, Andrews A. Jones. The company will operate in Colfax and Hernaldo counties. Thirty thousand dollars is the capital stock and the principal office is at Las Vegas.
James Minium, of Las Vegas, has been appointed city warden at that point.
For the 4th.
A full line of fireworks is on sale at Dr. Andrews' new stand. Call early and make an inspection of his stock.
ROUND ABOUT TOWN.
U. S. Marshal Martinez has returned from Albuquerque.
Regular meeting of Paradise lodge I. O. O. F. at 8 to-night. Special work.
A. C. de la Cruz is up from Pena Blanca. He says the crops there are looking fine, but could stand more rain.
Col. Leigh O. Knapp arrived last night from Colorado, where he and Mrs. Knapp have been in search of health. Mrs. Knapp is at present in Pueblo.
Messrs. Brigham and Burnett brought home nearly 100 pounds of trout from the Pecos yesterday. They say that fly fishing over there is simply great. Young Will Sloan has also been to the valley and came home last night with 320 fish.
Dr. Andrews is again compelled to enlarge his quarters, and to-day is transferring his stock to the store room adjoining Gerdes' lately occupied by H. B. Cartwright. The doctor says business in the line of fruits and confectionery is excellent.
Major Llewellyn came in from the famous Mesilla valley last night and brought a quantity of superb fruit for distribution among his capital city friends. This fruit is all produced on the major's fine farm near Las Cruces and consists of apples, pears, peaches, plums and green grapes; also some crooked neck squash in which the major seems to take a special pride because of its size and early maturing qualities.
Mr. Blain, who left here more than a year ago for the Pacific slope has finally settled down at San Bernardino. The Times-Index of that city says: "Mr. George E. Blain, of Santa Fe, N. M., has purchased the stock of the Semi-Tropic jewelry store on D. street, and will hereafter conduct the same. He is an old and experienced jeweler, and we have no doubt but what he will do a large share of the business in his line in this city."

To Dissip Colds.
Headaches and fevers, to cleanse the system effectively, yet gently, when costive or bilious, or when the liquid is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

Furnished Rooms Wanted.
Wanted—Three furnished for light housekeeping, or two rooms with board in private family. Leave responses at the New Mexican office. Mrs. C. F. Lummis.

PERSONAL.
Judge Waldo returned from Las Vegas to-day.
Clerk A. E. Walker and family returned from Albuquerque last night.
Thos. Holland, of Mineral Hill, Las Vegas, is in the city visiting friends.
Mr. W. E. Baker, official stenographer for the 3d district, is visiting the city.
Major W. H. H. Llewellyn, live stock agent for the A. T. & S. F., is at the Palace.
A. L. Morrison, United States timber agent, came in from San Miguel county last night.
Capt. Hiram Crampton returned last night from a business trip to Espanola and Santa Cruz.
Capt. Fletcher D. Wood, of Wagon Mound, is in the town on business with land office officials.
Dr. Kittredge and brother, who lately arrived from California, left this morning, presumably for Eubudo.
Hon. T. R. Catron is at Las Vegas engaged as attorney for Chas. H. H. in the case against J. W. Lynch.
Mr. and Mrs. C. F. Lummis arrived from A. & P. Junction last night, and are quartered at St. Vincent's sanitarium.
Mr. Weltner didn't go to the Pecos. He and Arthur Goebel and W. F. Doherty have gone up on the Chama to seek the speckled beauties.
P. E. Harroun came in yesterday from the Pecos valley. He has been connected with the engineering corps on the big canals, and reports everything moving along at a good rate.—El Paso Tribune.
Palace hotel arrivals: L. C. Moise, Kansas City; Jas. Kincaiden, Mississippi; M. J. Jada, San Francisco; F. E. Forrest, Topeka, Kas.; W. Forwood, Las Cruces; W. H. H. Llewellyn, Las Cruces; Robt. C. Dole, Meadville, Pa.
Sheriff Robinson, of Socorro, is in the capital to-day setting with Auditor Alarid. He states that the trial of the murderers of Richards will not come up before October. It took place and energy to capture these fellows, which qualifications Sheriff Robinson certainly possesses.
At the Exchange: T. P. Gable, Trinidad; J. T. Hagan, Abiquiu; M. Wolf, O. O. Ranch; F. Lewis, Espanola; Thos. Holland, Las Vegas; J. Placido Romero, Peralta; F. Frank, Albuquerque; J. D. Woodard, Socorro; C. A. Robinson, Socorro; F. D. Wood, Wagon Mound.
You can never know till you try how quickly a dose of Ayer's Pills will cure your sick headache. Your stomach and bowels need cleansing, and these pills will accomplish it more effectually and comfortably than any other medicine you can find.

THE MINES.
Development Goes Forward with Great Activity.
It is said to be barely possible that the Lucky company may accept the offer by the Colorado Reduction works, Pueblo, to purchase the mine for a quarter of a million dollars.
Manager Wright, of the Lucky, and Sam Baldwin returned from El Paso and Socorro yesterday.
The Cash Entry deal is keeping the wires hot today again, and the cash involved will be paid this afternoon or tomorrow. It's all settled, and this and everybody is pleased with their bargain, which is a good feature.
The Chama Southwest property remarks:
"San Pedro is coming right to the front as an ore producing camp and many a man will make a fortune out of it, in both mines and town lots."
Col. M. A. Johnson has purchased a third interest in the "bullion," a mere prospect at Socorro, and is looking for it. It will be developed in due time.
Judge Llewellyn's party telegraph that business outside Socorro and they do not expect to reach home before tomorrow night.
The Chester strike at Cerrillos is attracting a great deal of attention, and much interest is felt in the returns from the first shipment of ore which goes forward to Socorro tomorrow.
Las Vegas boasts a man, titled Josephman, who "does a bank and much of San Pedro." That is not strange. San Pedro is probably too big for this Las Vegas to get away with.
AN UGLY SHOWING.
Some pointers on the Socorro Bank failure—The President a Heavy Borrower.
Major J. D. Woodard came up from Socorro last night on business connected with the Socorro county bank. Upon his showing as special examiner made to Secretary Thomas, the latter requested the acting solicitor general to apply for the appointment of a receiver for the bank, and such receiver was named by Judge Whitman last week in the person of Major Woodard.
The Socorro county bank was not organized under the New Mexico savings bank law, but in that law it was clause which authorizes the territorial secretary to examine, when deemed necessary, in the condition of all savings banks "for any other corporation organized under the laws of this territory." It was by this latter clause that Dr. Thomas was governed in appointing Mr. Woodard to examine into the condition of this bank's affairs. This examination included the business done up to the 11th inst. The examiner found very few of the loans were secured. Thos. Dorsey, president of the institution and other of \$25,000 of the stock, was a borrower and holder of overdrafts amounting to \$28,461.85. Under the head of "Resources" he found \$2,010 had been credited on a note to a local furniture store, which had been turned over to the bank by Henry Lockhart, and which is now in the Grand Central hotel, the property of the bank. While this amount is credited on the note it has not been credited on the books of the bank. He found a deed for \$24,000 was deposited to secure a note for \$200 but failed to find the note. According to the books the bank should have warrants on hand for \$50,000, but only one Socorro city warrant for \$24,000 was found, the market value of which is \$18. He found in going over the figures a cash shortage of \$43.81. Mr. Dorsey said he had live stock worth \$120 which belong to the bank, but no record of this appears on the books. Real estate, taxes, etc., are counted in by the examiner just as they appear on the bank books, but these are rated fully 40 per cent higher than their real value. The examiner found that \$7,959.52 in loans are overdue; that overdrafts are not secured, and that \$12,107.75 of the bank's bills receivable are hypothecated with the 1st National bank at Albuquerque to secure an overdraft of \$9,200.91.
At the time the bank's doors closed there were individual deposits on hand amounting to \$24,588.19; demand certificates for \$9,000 and time certificates in deposit for \$190. There was due national banks the sum of \$14,098.77. The bank's real estate was carried on the books at \$12,000 and furniture and fixtures at \$2,855.82, but these figures, the examiner states, are to be set down 40 per cent at the real value. Altogether the showing is an extremely bad one.

A Notable Murder Trial.
CHARLESTON, S. C., June 26.—The trial of Dr. T. B. McDuff is in progress at the court house here. Wm. Dawson, proprietor of the News and Courier, the court room was crowded. The jury consisted of five white and seven colored men.
PIMPLES TO SCROFULA.
A Positive Cure for every Skin, Scalp and Blood Disease except Ichthyosis.
Purifies the blood, cures pimples, acne, eczema, itching, and all skin diseases. Sold by all druggists and medicine men. Cured by Cuticura Remed
