WASHINGTON MATTERS.

THE PRESIDENT'S PLANS.

WASHINGTON, July 23.—The president's plans are subject to change, but the present expectation is that he will remain in Deer Park for two weeks, then return to Washington and after spending a few days here will join Gen. Blaine at Fort Harbord, remaining with him another fortnight.

THE PRESIDENT'S PLANS.

At the conclusion of his visit to Mr. Blaine the president will again come to Washington and prepare for a longer stay at Deer Park. It is his intention to be there during the whole month of September.

THE PRESIDENT'S PLANS.

In the Colorado mineral case, pending before him on appeal from the local land office at Leadville, Colo., Secretary Solte has directed that the briefs filed by the counsel be stricken from the records and returned to them because of their scurrilous and vituperative language directed against each other contained therein. The secretary remands the case for further hearing, then sends an attorney to the respect due the officers of the law, and the duty he owes the department, as to print in his brief insulting epithets and vulgar vituperation, as has been done, especially in the last two briefs referred to, the respect due the officers of the law, and the duty he owes the department, as to print in his brief insulting epithets and vulgar vituperation, as has been done, especially in the last two briefs referred to.

THE PRESIDENT'S PLANS.

The attorney general today appointed James I. Caldwell, of Nebraska, special assistant attorney to aid in the prosecution of the government suit brought against the Union Pacific Railroad company and Western Union Telegraph company, under the act of August 7, 1888, with special reference to the operation of the telegraph line owned by the railroad company.

THE PRESIDENT'S PLANS.

The latest reports from the isthmus of Panama received at the state department, show it is very quiet there. Chile is so desirous of adding to her laboring population that she has furnished the 2,000 canal workmen thrown out of employment transportation to her ports.

THE PRESIDENT'S PLANS.

Court Martial Ordered.
OMAHA, July 22.—The officers appointed to hold a court martial at Fort Omaha met yesterday. It is surmised from the personnel of the detail that some investigation will be had of the recent scandals at the fort. The detail is composed of Col. August V. Kautsky, 18th infantry; Col. M. W. Clout, 16th infantry; Col. H. R. Mizer, 17th infantry; Col. J. G. Tiltord, 9th cavalry; Lieut. Col. R. H. Olley, 17th infantry; Lieut. Col. J. S. Roland, 21st infantry; Lieut. Col. Alfred Smith, 8th infantry; Lieut. Col. C. M. Ferrell, pay department; Major J. W. Bache, medical department; Major J. W. Rarner, subsistence department; Major A. Hartsell, medical department; Major James A. Randlett, 9th cavalry; Major A. R. Chatter, Capt. Charles Potter, 8th infantry; judge advocate.

THE PRESIDENT'S PLANS.

A Missing Will Found.
SAN FRANCISCO, July 23.—An Oakland evening paper asserts that the missing will made by Thomas H. Blythe, the deceased millionaire, a contest over the vision of whose estate is now going on in the superior court here, has been found. The paper gives as authority for the statement Attorney W. H. Hart, one of the counsel for the plaintiff, Florence Blythe, the millionaire's illegitimate daughter. Hart has left for Los Angeles, where it is said the will was found. It is reported that the estate, which is estimated to be worth about \$4,000,000, is left to Florence Blythe with the exception of about \$100,000 in legacies.

THE PRESIDENT'S PLANS.

Oh, Dear, Dear This.
LONDON, July 23.—Lambouche, in debate in the house of commons yesterday on the grant to the Princess Louise, on the occasion of her marriage to the earl of Elin, moved the rejection of the report of the committee, and the substituting thereof an address to the queen, reciting among other things that the sums already voted by parliament to the royal family should be amply sufficient for all their purposes, and that if further supplies are needed they ought to be provided through the relinquishment of expenses on the part of the royal family, and not by fresh demands on the tax payers.

THE PRESIDENT'S PLANS.

Plumb Exonerated.
TOPEKA, July 23.—At a meeting of Lincoln post, G. A. R., a call was issued for a general meeting, to be held next Saturday night, of all old soldiers. The object of the meeting is to protest against the appointment of the new examining board, all three of them being young men. Gen. Harrison Kelley, the congressman-elect from the 4th district, and Senator P. B. Plumb were blamed for the removal of the old soldiers had been examining physicians. Corporal Tanner has the blame all on Kelley.

THE PRESIDENT'S PLANS.

Punishing the Railroad.
NEW ORLEANS, July 23.—A Times Democrat special, from Jackson, Miss., says: Attorney General Miller has prepared and forwarded to be filed in the Landersdale county circuit court an information in the name of district attorney against the Northeastern Railroad company, setting forth in an informal manner, the grievance of the state against said corporation in its active participation in the Sullivan-Kilrain mill, and prays for judgment of forfeiture and ouster.

THE PRESIDENT'S PLANS.

Money for "Wales."
LONDON, July 23.—In the house of commons W. B. Smith, the government leader, laid on the table the report of the committee on royal grants. The report recommends that £9,000 be added to the quarterly allowance of the Prince of Wales. It also maintains the right of the queen to ask parliament to make further provision for her grandchildren. Debate on the report was postponed until Thursday.

THE PRESIDENT'S PLANS.

A Big Storm in Kansas.
KANSAS CITY, July 22.—A heavy rain storm, accompanied by high winds, prevailed in northwestern Kansas on Saturday. At Stockton, the wind blew down several light frame buildings and blew in the glass panes of several stores. No lives were lost, but several washouts occurred on the central branch of the A. T. & S. F., near Atchison. The storm damaged small grain crops considerably.

THE PRESIDENT'S PLANS.

Haiti's War.
NEW YORK, July 23.—Capt. Atlas, line steamship Alene, brings the news that on July 11 Hippolyte attempted to take Port au Prince. On the 12th he also made several assaults, but was repulsed each time with loss. Subsequently he retreated to Craix des Banquet, a point about nine

BENEATH THE RAPIDS.

Another Explorer Gives up Life in Colorado River.

DENVER, July 23.—A party of surveyors, headed by Frank M. Brown, left here May 23d for the purpose of exploring Colorado River, with a view to building a railroad by that route to the Pacific coast. Yesterday the following telegram was received from the expedition: Kansas—President Frank M. Brown was drowned in the Colorado river, in Marble canon, July 10, by accident being engaged while running the rapids. He was thrown into a whirlpool, and was unable to get out of it, while the boat was thrown into the current and carried down about six hundred feet and landed. All the other boats in the expedition went through the rapids safely, and my boat reached a point where from a waist high one-half minute after the accident happened and less than five seconds after he sank for the last time. Five days after, while working our way down, another boat was driven against the cliff, and in passing it was carried over and two boatmen, Peter M. Henshroble, and Henry C. Richards, were both drowned before assistance reached them. It was impossible to recover any of the bodies.

Mr. H. O. Ladd has sole charge of the city circulation of the NEW MEXICAN, and all subscriptions must be paid to him at this office. City subscribers will confer a favor by reporting to this office all cases of non-delivery of papers.

TUESDAY, JULY 23.

The good die young. This is specially true of chickens and turkeys.

And now the Mormons are in favor of Grover Cleveland's renomination. Of course; very natural.

The Grand Duke Constantine, cousin of the emperor of Russia, has written a book. He ought to be sent to Siberia.

Gov. Prince's letter to the county commissioners of Lincoln county has the right ring to it. The law must be obeyed.

Our esteemed contemporary, the Albuquerque Citizen, crows on its own dunghill. Correct you are. Keep it up. Wind in this rarefied atmosphere is cheap.

There is a vacancy for representative to congress in the 3d Louisiana district. With a good candidate and a fair vote and an honest count the Republicans can carry the district.

The governor of this territory is sworn to see the laws fully executed, and he means to do his duty. Good for Gov. Prince. That sort of a governor has been needed here for several years.

The question now agitating the good and honest citizens of New Mexico is: When will President Harrison appoint a new chief justice, another surveyor general and another U. S. attorney and U. S. marshal?

There is just one thing that is certain, all rumors in Democratic papers to the contrary notwithstanding, and that is: "Mr. Blaine has come to stay." Our Democratic contemporaries all over this country might just as well give in on that point.

The Democratic central committee is trying to cheat the people of this territory out of statehood. The motive of the members of the committee is an extremely selfish one. There are a few would-be senators amongst them. They are afraid of Republican success and hence oppose statehood.

All the good citizens of New Mexico having the advancement and future prosperity of this territory at heart should vote on August 6th next for delegates to the constitutional convention. Most excellent tickets have been placed in the field by the Republicans. Those tickets should be elected by a creditable vote.

New York, Chicago and Washington all three want the world's exposition in 1892, and are making a vigorous fight over the matter. If they can not agree we suggest that Santa Fe be selected. It is healthier, possesses purer air and a better climate than either one of the three, or for that matter all of them taken together.

DR. DAVID L. DEY, of the geological survey, has been selected by Census Supt. Porter as chief of the division of the census office relating to mines and mining. The appointment is a most excellent one. The subject is a very important one to New Mexico, and in fact to the entire west. Dr. Dey is peculiarly well fitted to discharge the duties of the office in every way.

The bosses and ringsters of the Democratic territorial central committee have not yet denied that the committee is the author and distributor of the infamous secret circular distributed some time ago and calculated to injure the statehood movement. The committee endeavored to use as a cloak the name of the Catholic church, but the pretense was too flimsy and would not work.

The NEW MEXICAN has a libel suit on its hands. This morning papers were served on the company in the case of H. P. McKevitt vs. the New Mexican Printing company, claiming \$20,000 damages for defamation of character. The fellow will get very little money, very little satisfaction and very little advertising out of the case. He is not of sufficiently large caliber. The subject is dismissed.

The Republican factions in Virginia have united. This means that the Republicans will in all likelihood carry the state. It must be remembered that Cleveland's majority in 1888 was only about 1,000. Gen. Mahone, as governor, would be worse than gall and wormwood to the Virginia bourgeois. And still, it is more than likely that such will be the case. There are dreary times ahead for the F. P.'s.

The grading and improvement of Ortiz street is to commence on August 1 next. The board of penitentiary commissioners has instructed the superintendent to commence work there and then. This is well. It is to be hoped, for the credit of the capital city, that the much needed bridge will be built across the river and Ortiz street will be placed in decent condition by the time of the meeting of the constitutional convention.

EQUAL JUSTICE FOR ALL.

About a month ago the NEW MEXICAN published a letter written by Judge A. L. Morrison, concerning the policy Sec. Noble has adopted in the management of Indian affairs. A copy of the paper was sent to the secretary. A few days ago the following was received here by Mr. Morrison:

A. L. Morrison, Esq., Santa Fe, N. M.
Washington, July 6, 1889.—Dear Sir: Yours of the 27th ultimo, with its inclosed article written by you for the NEW MEXICAN, has been received. I thank you very much for your kind interest in my action. My purpose is to hold the balance even between the white man and the Indian, and to secure justice for both. I think the Indian has been greatly wronged beyond any necessity for the white man's entire prosperity. I think upon the other hand, that the Indians have been played upon beyond what is necessary, and if I can secure the great boon of justice to all, I shall have discharged my duty to the satisfaction of myself and I hope to the great good of my country. Very respectfully,
JOHN W. NOBLE, Secretary.

The above forebushes clearly the position Sec. Noble has occupied and the policy he will pursue in connection with the administration of Indian affairs. Exact justice to all is his motto, and the secretary is evidently the man who will carry it out to the letter without fear or favor. Gen. Noble's selection for a cabinet position is proving to be one of the very best made by President Harrison.

AN EMBARRASSING SITUATION.

From Judge Whiteman's opinion in the Coler case, published in this issue of the NEW MEXICAN, it appears that he regards the late funding act as permissive only, and not mandatory. There are lawyers who take a contrary view of the statute; but the county commissioners are justified in assuming the law to be what the court declares. Under these circumstances, the county commissioners have to face a great responsibility. The wisdom of the funding principle is recognized by the court in its opinion, as well as by all persons conversant with the complicated problem of municipal finance. The policy of the act is to relieve the people from the immediate pressure of outstanding indebtedness.

A city or a county overburdened with debt and unable to pay in cash, is in the same predicament as a merchant suffering under present embarrassments, although hopeful of the future. In either case, indulgence from the creditor is necessary to avoid loss or possible ruin. The funding act substitutes ten to twenty years' credit for a defaulted debt, and prevents litigation and ruinous judgments.

If, as estimated by Judge Whiteman, the claims set up against the county are legal, the necessary result must be a judgment which will necessitate an additional tax levy this year of perhaps 4 or 5 per cent, under which our wealthy taxpayers may be each called upon to pay from \$1,000 to \$5,000 additional tax this year. Surely it would be better to make the funding bill available as a protection against impending disaster.

MEXICAN LEAD ORES.

The matter of the free importation of Mexican lead ores, mined by miners who receive from 25 to 75 cents per day, is one of the most vital importance to New Mexico and her mine owners and miners. Under the free trade Cleveland administration, which favored every foreign interest at the expense of American labor, the fraudulent importation of Mexican lead ores did great harm to the leading interests of the western states and territories. However, a change of administration is bringing about a change, and that greatly for the better; we quote from the New York Press, one of the oldest and most influential Republican papers in the country.

More than two weeks ago The Press informed its readers that the treasury department had in preparation a circular to custom house officials in relation to the fraudulent importation of Mexican lead ores which would at any rate make it more difficult to defraud the government out of its revenue and the western lead miner out of the protection accorded him in the metal schedule. The circular has been promulgated, and will inaugurate most stringent regulations in relation to the entry, sampling, inspection, unloading and handling of these mixed ores. The object of all this will be to ascertain as far as possible if the mixing of lead and silver ore was done for the purpose of avoiding duty.

This is a step in the right direction, and if the circular is vigorously put into force the ores in which it appears that the value of the component parts of lead clearly predominates will be assessed for duty as such, whereas the ore which would seem to honestly constitute silver ore will be admitted as such free of duty. No doubt the mining interests of the west will be glad of a stricter enforcement of the law, but it is not all they had hoped from Secretary Windom.

Lead is dutiable or lead is free. If it is dutiable one-third of the entire consumption should not be coming in free of duty. That is a foregone conclusion. There may be, as suggested in some quarters, certain decisions of former secretaries of the treasury which take a different ground. What of that? Is Sec. Windom bound by any such decisions? The Press thinks not. The same, in a measure, was true in the worsted case. Sec. Fairchild had given it as his opinion that nothing could be done. And yet something has been done. A step has been taken to save the American worsted industry from total destruction. Do the same with the lead mining industries of the far western states, and a great Republican victory will follow next fall.

First a Pigmy—Then a Giant.

We are too apt to regard a small ailment much as we would some pigmy, unpleasant of aspect and unattractive in deed, but incapable of serious mischief. We ignore the fact that it grows prodigiously, strengthens in proportion, and begets evil progeny. A fit of indigestion, a slight bilious attack, sensations of unrest and languor when the system should have been braced by recent sleep, unaccountable nervousness, irritability of the kidneys or bladder—what are these but the precursors of obstinate and serious bodily disturbance? In either of the above cases, common sense and experience unite in indicating that the remedy should be used promptly when the languor, yawning, chilliness down the back, and nervousness that precede a morbid attack, manifest themselves. Incontinent rumination grows apace. Don't neglect it, so with constipation and debility.

THIS PAPER is kept on file at E. C. Dake's advertising agency, 64 and 65 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

SSS SSS
I am satisfied that Cancer is hereditary in my family. My father died of it, and my mother died of it, and my own sister died of it. My feelings may be imagined, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be cut out. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the poison, and continued its use until I had taken several bottles, when I found myself well. I know that S. S. S. cured me.
Winston, N. C., Nov. 28, '88. Mrs. S. M. Doet.

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.
Choice Mountain Valley and Lands near the Foot Hills
FOR SALE.

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands.

The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

The A., T. & S. P. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres or more of land.

Warranty Deeds Given.

BILLY'S RESTAURANT & WINE PARLORS
S. E. Corner of Plaza. Open Day and Night.
Oysters, Game, Fish and Poultry
A SPECIALTY.
The best cooks in the Southwest to prepare the most palatable and delicious dishes in the most elegant and comfortable surroundings.
WINE, LIQUORS AND CIGARS
Imported and Domestic, always on hand. In our new and improved restaurant, we have a full and complete stock of the finest wines, liquors and cigars.
Regular Daily Dinner, 5 to 7 p.m. Sunday Dinner, 5 to 8 p.m.
Private Parties and Banquets attended to in First Class Style. Particular attention given to the wants of the trade.
WILL C. BURTON, Practical Chef and Proprietor.

AT CAMP PEDRO.

A Readable Letter Descriptive of the Stage Route Hither from Santa Fe.

The Lucky and the Lincoln—Plenty of Ore and Some Complications—A New Strike.

A new stage route from a business center and a long established town like Santa Fe to a thriving community like San Pedro is in modern times the precursor of a railroad. This day's ride of forty-eight miles in Reaser's stage has therefore excited no interest in the remarkable scenery through which Patterson drives at a rattling gait over the mountain roads. Santa Feans all know pretty well what lies between the capital and the now ancient town of Bonanza City or Durango. If not they can see it all from old Fort Marcy. The plain, the mountains, and the ever changing sky. Except within three miles of Santa Fe there has been no change since I first rode over this road, nine years ago. There are perhaps fewer prairie dogs and empty beer bottles, Bonanza City is a desolation. The two stores and a saloon and the silent Gonzales reduction works show the ravages of time, where the hillsides were a short time ago populous with miners and lively with the sounds of their picks. The numerous prospect holes are overgrown with grass. But Landmesser has adobe walls made for a new store to supply the dwellers at San Pedro. On toward Carbonateville over a road winding at the foot of the Ortiz peaks, we have a glimpse of scenery toward the plains below that is worth more than the hundred holes around us where men have sunk curses and disappointments. But here we are at the Cash. Entry works, and change our reflections on the possibilities of mining. Somebody has just bought these works and 200 or 300 acres around them for \$2,000,000, in cash and promises. And we have just passed a "new discovery," the Eureka, near by, where rich carbonates, like the San Pedro novelties, promise a revision of old workings and a reviving of hopes to faithful assessment workers. Carbonateville may yet replace its shanties on their foundations and become the scene of revelry and crime for which it was once famous. It had two solitary inhabitants and a store to-day as we passed. Its population may increase 500 per cent in a week without the aid of a census taker. Through a narrow rocky defile quarter of a mile long we ride down hill toward Cerrillos, two miles and a half to Cerrillos.

A railroad track is the base line from which all the calculations and outlays of this thriving town have been made. Two or three streets north of the track the growth is limited by the cliffs that put out from the Carbonateville hills. South toward the river the ground broadens. Here two business streets are well begun, and a fine plateau ascends from there toward the Cerrillos mountains, which we climb in our route toward San Pedro.

Santa Fe has many representatives among the Cerrillos merchants and miners. The portly host of the Cerrillos house welcomes the passengers of the new line with a heartiness truly refreshing. Mr. Harkness has his hands full to take care of the people that throng his tables, and they all seemed to be a hungry crowd, as if they had something to eat. W. C. Hurt, with his more spacious store than the others, greets one with the confidence that he is well planted in a town that will become the largest industrial center of New Mexico. Why should it not? With two railroads, as it surely will have, and a backing of the richest coal mines, and copper, silver, galena, iron and limestone deposits in the whole territory, tributary to the traffic of the greatest railway in this country. McKenzie is ready with his supply store to help the builder. Bolander has put C. E. Buchart there to give the lines to the teamsters. Nesbit's and Oakland's saloons are always open for the thirsty, and Editor Anderson stands at the gates of the mining region to catch the latest news of carbonate strikes for the Rustler.

Our ride to San Pedro is through shows which covered the grand conical peaks of the hills with white clouds and freshened the beautiful peaks and mesas from which we saw valley scenes of wondrous beauty.

We reached Leadville at dusk, and here we shall find enough to write about in our next letter.

H. O. LADD.

THE LUCKY AND LINCOLN.
Concerning these new famous properties at San Pedro it is simply impossible to get accurate news, though a man may be actually on the ground. For some time past it appears that internal complications have been on between the manager, H. T. Wright, and the owners of the Lucky, and when Wright, for himself and others not of the Lucky company, secured control of the adjoining claim, the Lincoln matters became still more complicated. In the mean time, big offer had been made for the Lucky, and the Lincoln people, so it is said, some eight or ten in number, thought to pool their claim in the sale and come off with a cool \$10,000 each. However, the owners of the two properties failed to reach an understanding after a number of conferences, and for the present no sale may be expected.

Now the situation, so far as diligent inquiry will reveal, is such that the Lucky and the Lincoln owners will go it alone, each watching the other, with none too friendly relations, because of a rather peculiar turn which affairs have taken. This peculiarity lies in the fact that Wright, who has been superseded as manager of the Lucky by John King, has signed the Lincoln to Jeff. Reynolds, of Las Vegas. W. S. Strickler and Mr. Folsom, of Albuquerque, and Col. Johnson, of San Pedro. Wright will probably be made manager of the mine, and it is said a big force of men will be put on. The transfer of the Lincoln involved merely a quit-claim deed. But now comes a new complication, as it is announced that the Lucky company hold warrants deeds for both the Lucky and the Lincoln, given them by the grant company. This state of affairs may lead to litigation, but at the same time the circumstances are such that there is no possibility that work on either of the properties will be checked, and this is what the camp wants to know.

All negotiations for a sale having been declared off by the Lucky people, it is said to be their present intention to put on a large force of men and teams and resume shipments daily instead of tri-weekly shipments as has been the case for two weeks past. With John King as manager it is likely that the mine will be more carefully and economically worked than heretofore. The ore will be assayed closer and after to-morrow it is said twenty tons of high grade ore will be shipped daily. It was stated in these columns yesterday that Mr. Larsen had leased the Lucky. This is incorrect. He has for some weeks had a lease on fifty feet of the Lucky property, at the original price, in the mine, and is working it for iron, which is sold to the copper works for fluxing; but within a few days he has also struck a fine body of galena and carbonate which he is shipping to Socorro. This lease does not at all interfere with the working of the main

body of Lucky ore, which is 300 to 1,000 feet distant from the first opening. The Lucky people say they have now in sight a larger and better body of ore than ever, which will be extracted with care and economy, having proper regard for the condition of the mine, and not ruthlessly getting it, as was done under the former management.

ROUND ABOUT TOWN.

A delightful rain storm last night. Both of the express companies are doing a lively business in the line of shipping out home grown fruit.

Conductor Gardener is holding down the branch run during Conductor Hill's sorrowful trip to Las Vegas.

The Harvey eating houses have passed into the hands of the A. T. & S. F. company, with Fred Harvey as manager.

Sol. Lowitzki is still improving his lively service. He has now en route from Chicago three new carriages and a man-moth picnic wagon.

The Fulton market is getting more light in today in the shape of a big show window, where Dobbins' inviting edibles can have a better chance to display themselves.

The Santo Domingo Indians have commenced preparations for their big dance on August 4. A number of Santa Feans are booked to visit Wallace on that festive occasion.

Tax payers of Santa Fe county will find Judge Whiteman's decision in the Coler case worthy of their perusal. It appears in full on the inside of today's New Mexican.

The funeral of the late Samuel Ellison took place at 9 o'clock this morning from the cathedral. The ceremonies were very impressive and a large assemblage of people was in attendance. The body was interred at Rosario cemetery.

The San Pedro Town Site company had a meeting at Gov. Prince's office last evening and transacted considerable business. Orders were given for the printing of a lot of blank warranty deeds and other contracts, and the sale of lots was ordered to begin at once.

C. M. Creamer today filed in the clerk's office the location notice of the Phil. Sheridan placer claim in south Santa Fe county for Judge John Oaks and John T. Parraclough, two well known citizens of Albuquerque—and still they come pouring in from the self-styled "metropolis."

Hon. David Martinez, ex-representative from Rio Arriba, came in last night and is to-day setting up a threshing machine which four horses will haul up to his home at Velarde. After threshing out the extensive wheat crops of his own and those of his neighbors he will go through the valley threshing on shares. This is the sort of agricultural progress that means prosperity for New Mexico.

Mr. Abraham Loewen, the representative of some Mennonites in Kansas, is again in the territory. He is at present exploring the headwaters of the Pecos, to which locality his attention was called by Mr. Probst and by some parties at Las Vegas. When he returns from that trip he expects to make a further exploration of the country south of Glorieta, and the plains near Stinking Springs, with which section he was rather favorably impressed when he was here before.

PERSONAL.

Sam Baldwin and Col. Blake left last night for San Pedro.

James Seligman is home from Salt Lake to spend two months.

Mrs. J. S. Barnum is here from Lamy on a shopping tour.

Mrs. Hild and children are visiting at Las Vegas hot springs.

Mr. and Mrs. Luis E. Alarid rejoice over the arrival of a ten pound boy.

Stenographer Baker, of the 3d district court, leaves for Las Cruces to-night.

J. A. Allison, of Farmington, San Juan county, is registered at the Exchange.

Mr. Chas. R. Hudson, general agent for the Santa Fe road at El Paso, is in the city.

W. G. Ashdown came in last night from Dolores. He reports great activity in that camp.

Messrs. Julius H. Gerdes and Wm. Mainland returned yesterday from their visit to Jemez hot springs.

Thos. P. Gable got in from Trinidad at noon. He takes control of the Harkness house at Cerrillos on Thursday.

Juan P. Romero, ex-councilman from Taos county, is visiting the city. He reports splendid crops in the Taos valley.

Dr. Metcalf got home from the Pecos last night. He caught 451 trout on the trip. His biggest day's catch numbered 115.

W. E. Broad, esq., a prominent and well known citizen of Rio Arriba county, arrived last night from Chama. He will remain a day or two.

Major W. H. H. Llewellyn, live stock agent of the Santa Fe, came in from the south this morning. He is en route to Denver and Salt Lake.

Charlie Hatfield, the gentlemanly and "civil" engineer of the Santa Fe Copper company, and Maurice Raunheim, of the company's store, leave to-night for San Pedro.

S. C. White, of the San Pedro Town company, who has been here several days, leaves for home to-night. He states everything is in readiness for beginning the sale of lots.

E. A. Grunstedt is here from Albuquerque on a round east on a five weeks trip. Intensely hot down there, and in Santa Fe last evening he found an overcoat quite comfortable.

O. L. Woughter, ex-conductor on the branch, is here to-day, and after settling some business matters he will proceed to California. Mrs. Woughter is on a visit to friends in Illinois.

H. G. Ambrose, traveling auditor for the A. T. & S. F. company, is here hobnobbing with Messrs. Hudson and Llewellyn. It's good to see these broad gauge gentlemen around.

At the Palace hotel: A. R. W. Robertson, Las Vegas; W. E. Broad, Chama, N. M.; Mrs. J. W. Robinson, El Dorado, Kas.; E. D. Robinson, La Jara, Colo.; Ernest A. Grunstedt, Albuquerque; J. H. Lanagan, Kansas City; J. Jones, Jr., San Francisco; John B. Sawyer, Aurora, N. M.; N. Sawyer, Aurora, N. M.; F. E. Scott, Trinidad; Geo. M. Hill, Las Vegas; Chas. R. Hudson, El Paso; J. P. Haven, Kansas City; H. G. Ambrose, Las Vegas.

IMPROVEMENT NOTES.

A Few Items Concerning the Substantial Building up of the Capital City.

An agreeable surprise is in perspective for the people of Santa Fe ere long in the line of new buildings.

Col. McGroarty's recent advertisement in another column offers a chance for some steady man to get a good contract. Brick masons are still in demand here. Donohue and Dignoe Bros. want half a dozen more of this class of mechanics at \$5 a day.

Several enterprises are in hand that will add much to the taxable wealth and slightly architecture of the capital before snow flies. Facts and figures in a few days.

The new Presbyterian parsonage is rapidly nearing completion. Three handsome brick structures on the Presbyterian corner gives that locality a very substantial appearance.

The public streets surrounding the federal building should no longer be allowed to remain in the present unsightly and unkempt condition. Here is a job for some of Warden Burnett's men, and its prompt attention would elicit the plaudits of the people.

The last of the stone and brick work on the Kahn block will be completed to-day and the structure turned over to Tony Windsor, who will push the wood work as fast as possible. This splendid new improvement will be ready for occupancy September 1.

It is probable that work on the new bridge near the capitol will be commenced just as soon as the legal requirements necessary for opening the city street can be complied with. The matter seems to be in the hands of men who are determined to push it to success.

The present summer has thus far been a most prosperous one for the contractors and mechanics of Santa Fe, and the outlook for a still busier fall could scarcely be better. The capitol city is steadily improving. The buildings, too, are substantial, ornate and most of brick. It is this steady progress that counts in building a beautiful city.

Messrs. Houghton, Gildersleeve and others who own adjoining lands at Buena Vista place and on the flat just beyond the capitol are arranging to plat a superb addition to the city this fall. Surveyor White has been engaged to do the work of surveying, and the several streets will be opened under the new law authorizing the district court to condemn property for this purpose.

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar head line "100 Doses One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proved by the fact that it takes two to make a dollar, and for real economy, buy only Hood's Sarsaparilla. Sold by all druggists.

Those Kentucky Visitors.

H. M. Adams, Leitchfield, Ky.; E. H. Suelman, Brandenburg, Ky.; R. C. Craycraft, Mead, Ky.; J. S. Moreman, II, Nevitt, W. T. McDonough, A. Moreman, Geo. H. Casperke, J. F. Woodfolk, A. W. Moreman, of Brandenburg, Ky.; Joseph Mulhatten, of Louisville, came in from the Chama river placer fields and registered last night at the Exchange. John Johnson, one of the locators of these gold bearing gravel lands, and Hank Easton, who has been at work in Cook's copper camp, came down with them. These Kentucky gentlemen spent a week prospecting the gravel along the Chama river bed, and each of them seems to be elated over what he saw and found. They brought down black sand in vials carrying between \$30 and \$40 worth of placer gold. Mr. Adams said three and possibly four companies representing New York and Kentucky capital would probably be working these placers before another year. He thought one company would construct a water wheel and put in heavy pumping machinery this fall for the purpose of raising the water of the Chama river upon the gold bearing benches adjoining, and this would enable the washing of gold by the sluice system. The party will leave for the east in a day or two, taking back with them a very favorable report on the Chama country and its placer gold deposits.

Found Dead.

The body of a white man about 60 years old was found two miles north of the oil fields between Wallace and Golden, the body having been torn to pieces by coyotes. It was unable to ascertain the identity of the man. The supposition is that he was making for the railroad and was carried down by the flood of the Tonka river, which was raging last week. The remains were interred by the San Felipe Indians.

Thousands have been relieved of indigestion and loss of appetite by a single bottle of Ayer's Sarsaparilla. The use of this medicine, by giving tone and strength to the assimilative organs, has made innumerable cures of chronic dyspepsia. Price \$1. Worth \$5 a bottle.

W. S. Wrigley, esq., district attorney for the Colfax district, came in last night from a ten days trip to Ojo Caliente. He stops at the Exchange a day or two before going on to Raton.

Syrup of Figs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently, on the kidneys, liver and bowels, effectually clearing the system, dispelling colds and headaches, and curing habitual constipation.

THIS PAPER is kept on file at E. C. Dake's advertising agency, 64 and 65 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

Everywhere

Ayer's Pills take the lead. Physicians prescribe them as the best remedy for Indigestion, Torpid Liver, Sick Headache, Rheumatism, and Constipation. They contain no alcohol and being sugar-coated, are pleasant to take.

"One of my customers has been cured by Ayer's Pills he had been afflicted with indigestion for several months. Since he began using Ayer's Pills he has wonderfully improved, gaining rapidly in flesh and strength."—W. S. McCollough, Bangs, Wheeling, W. Va.

"Ayer's Pills are in general demand among our customers. Our sales of them exceed those of all other pills combined. We have never known them fail to give entire satisfaction."—Wright & Harnely, San Diego, Texas.
