WASHINGTON NEWS.

THE PENSION OFFICE.

WASHINGTON, July 24.—It is said the civil service commission is not satisfied with the present administration of the civil service law in the pension office. Commissioner Roosevelt, it is understood, will make a tour of inspection against the course that has been pursued.

CHINESE IN TRANSIT.

The attorney general has given the secretary of the treasury an opinion to the effect that there is no legal objection to the transit through the United States of the Chinese recently arrived at New Orleans from Cuba en route to China via San Francisco. The Chinese minister has asked that these men be permitted to cross the United States on their way home and it is probable in view of the attorney general's opinion that his request will be granted. The opinion is in accord with the decision given by Solicitor Heyburn on the same question some weeks ago which was, however, not accepted by the treasury department.

Seattle Route Survey.

DENVER, July 25.—Engineer Robert B. Stanton, surveyor in charge of the Colorado river expedition, telegraphs that he will arrive in Denver Saturday, via the Denver & Rio Grande road. The telegram states that it is Mr. Stanton's desire to continue the expedition, though his return to Denver is necessary in order to obtain a renewal of supplies and equipments. New boats, he thinks, should also be obtained.

He expresses himself as firm in the conviction that the building of a railroad down the Colorado river is a perfectly feasible project, and can be accomplished with much less labor and capital than the most sanguine enthusiasts supposed. While the distressing news of President Brown's death will be deeply felt by all concerned in the project, and his energy and influence sadly missed, the original project will not by any means be abandoned, but will be carried to successful completion by the remainder of the party.

"God Reigns" in Idaho.

BOISE CITY, July 25.—A session was adopted by the convention to-day appropriating lands for public use for such purposes as irrigating ditches, reservoirs, dumps, drains of mines, after the confiscation is determined by law. A law bureau with a commission on labor and statistics was recommended; also the prohibition of convict labor outside the prison walls; also the prohibition of children on underground work. The proposition for a secret ballot was defeated. It was decided that no civil or military power shall interfere with the free exercise of suffrage. The question of making educational qualifications for voting was defeated.

Pretley wanted to prevent the payment of funds for religious institutions or for chaplains of the legislature, classing religious services as coming down from barbarous times. He was roughly criticised by several speakers, whose words were endorsed by the convention. He then wanted to strike out of the preamble the words, "grateful to Almighty God." The motion was lost.

The Rio Grande Western Election.

SALT LAKE, July 25.—The annual meeting of stockholders of the Rio Grande Western railway was held in the company's office in this city yesterday. Nearly all the stock was represented. The following directors were elected: W. J. Palmer, George Foster Peabody, New York; D. C. Dodge, Denver; Joseph D. Potts, New York; H. C. Brown, Boston; Charles J. Conley, New York; Joseph C. Parish, New York; J. Kennedy, Todd, New York; Fred Olcott, New York. With the exception of Gen. Palmer, Col. Dodge and Mr. Peabody, the directors are all new men. The board will meet in New York in a few days and elect new officers.

A Lynching in New Mexico.

KANSAS CITY, July 25.—A special from Serrito, N. M., says: Last Saturday three cattle and horse thieves, members of a notorious band of Mexicans who have committed many depredations about this city, were captured by Deputy Sheriff Lowens and posse and imprisoned in a vacant house near Kelly, N. M. Before the capture the thieves, three in number, engaged the posse in battle, during which their leader and Deputy Lowens were shot dead.

Last night a party of cow boys proceeded to the house where the remaining two thieves were imprisoned, overpowered the guard and hanged the prisoners, after riding the bodies with bullets.

EDISON'S LATEST.

A Patent Iron Ore Separator that will Accomplish Wonders.

READING, Pa., July 24.—Thomas A. Edison, "the Wizard of Menlo Park," has been at Bechtelsville, Pa., for nearly a week looking after the experiments of his patent iron ore separator, which is expected to work a revolution in ore mining. Mr. Edison is accompanied by a number of New York capitalists. He is the head of a company which has purchased and leased extensive ore lands near Bechtelsville, on which large buildings have been erected. The experiments have now been carried on about four months. Work was continued almost night and day, and the entire success of Mr. Edison's invention is now assured. The working of the invention is explained in this way: The rock containing the ore, after passing through the crusher and being broken to about the size of an egg, is conveyed in small buckets and dumped into a large hopper. From here it drops out in a small stream down an incline and passes within a few inches of a powerful magnet. This is so heavily charged as to draw the iron ore from its course into one channel and the rock and other foreign elements contained in the ore are permitted to pass through another channel to the refuse pile. The invention being patented there is no secret about its workings.

Blaine on an Engine.

BAR HARBOR, Me., July 23.—Secretary Blaine, M. Koonan, the French minister, and party spent to-day at Ellsworth as guests of Senator Hale, returning in the evening. The fireman on the train bringing the party was James G. Blaine, Jr., who has now made four trips in the capacity of a fireman on the Maine Central road.

Boulanger Blows.

LONDON, July 22.—Gen. Boulanger has issued a manifesto in which he declares that the law against multiple candidacies in France is a blow against universal suffrage. The measure, however, he says, will not prevent the nation making known its sovereign will. He continues: "As a protest against this odious violation

of law the national committee has decided that I shall present myself as a candidate for the councils general in eighty cantons. The verdict of the people of those cantons will be the prelude to the grander triumph that is near at hand. Before long the 'gang' that now dishonors the country will be pitilessly put away and internal peace restored."

Boulanger Excommunicated.

PARIS, July 24.—The Republic Française says: A committee of the senate has issued an order depriving Gen. Boulanger, Count Dillon and Henry Rochefort of all civil and political rights. This action is taken on the ground that they refused to comply with a summons to appear for trial. The decision will render them ineligible to election to any office in France, and makes any property of their own in France liable to seizure.

The trial of Boulanger, Dillon and Rochefort before a senate court has been fixed for August 8. Gen. Boulanger and his colleagues have been given additional ten days in which to answer the summons of the court before being outlawed.

Gould's Chat.

NEW YORK, July 25.—Jay Gould in an interview in regard to the rumor that he was negotiating for the purchase of the Chicago & Alton, said: "I have all the railroad stock that I need at present. I have made no offer for the Alton." Concerning the withdrawal of the Alton from the interstate association he said he thought the association would continue to exist in spite of the Alton, as a dividend paying road it must maintain rates. Crops in the southwest, except cotton, are in a dangerous and there would be business enough for all for the rest of the year.

A Kansas Mystery.

WICHITA, July 23.—Drown, a well known business man of this city, disappeared last January. His hat was covered with blood, and a bloodstained coupling pin found near his house led to the suspicion that he had been murdered. Yesterday he returned home insane and having all the appearance of a tramp. A large scar on his head leads to the belief that his murder was attempted but failed, and that since then he has been kept concealed by his would-be murderers until to-day, when he escaped and found his way home. He can give no account of himself.

THE RATE WAR ON.

Fort Worth & Denver Makes a Slash on New York, Colorado Business.

CHICAGO, July 25.—The Fort Worth & Denver road, which recently withdrew from the Inter-State Commerce Railway association, has already begun to cut rates. It announces a reduction of from 2 to 10 cents per 100 on differential classes of freight between the Atlantic seaboard and Colorado via Galveston, where it connects with a steamship line. The trans-Missouri roads have applied for permission to meet the case of the Fort Worth & Denver road causes considerable surprise, as it was understood to have no such object in view when it withdrew from the presidents' agreement, and President Adams, of the Union Pacific, vouched for its good behavior. At the meeting of the Trans-Continental association James Smith was elected permanent chairman. The Southern Pacific's notice of withdrawal was considered, and Traffic Manager Smith stated that the notice would be recalled only on condition that Canadian Pacific differentials of Pacific business be considerably modified. The matter was referred to the executive committee.

Loss by Floods.

PARKERSBURG, W. Va., July 25.—In the flooded districts the water has subsided and the farmers are now seeing where they stand. Many have lost all and will be compelled to ask charity. It is now known that eighteen persons lost their lives. There may have been other drownings in Jackson county. The commissioners returned from a tour of inspection to-day and found the loss in bridges to be about \$25,000. Many farmers will be unable to pay their taxes this year. The loss in this county will reach \$50,000.

A Sad Accident.

PITTSBURG, July 25.—Miss Oppenheimer, a Hebrew society belle of Allegheny, and a daughter of one of the most prominent merchants of that city, was killed at Harmony this morning. Miss Oppenheimer and four other ladies were riding in a wagon, a train came along and the horse becoming frightened, backed them over an embankment. Miss Oppenheimer was thrown out of the wagon between two cars and instantly killed. Two of her companions were seriously injured, the others escaping safely.

The Pope and France.

LONDON, July 24.—The Standard's correspondent at Rome says: "I am authorized to state that the principal reason for conveying the recent secret consistory was the fact that the French government had advised the pope to quit Rome and had offered him an asylum in France. The pope told the cardinals he had refused the offer because he would not cause France to declare war against Italy for his sake, he being personally well disposed toward Italy."

That Air Ship.

DETROIT, Mich., July 25.—The Journal prints a dispatch from Jackson regarding Hogan, the missing aeronaut. Harvey Flower, of Jackson, one who has known Hogan from boyhood, states that on last Thursday he saw Hogan in Jackson and talked with him. Hogan requested him to keep quiet for a time. The foregoing information is considered reliable. Two other men who have had positive knowledge that Hogan is in hiding till he recovers from the accident.

A Great Fire in China.

SAN FRANCISCO, July 25.—The steamer Belgic arrived from Hong Kong and Yokohama yesterday. A recent fire at Fungchow burned 87,000 dwellings. Over 1,200 persons perished in the flames and 400 were killed. Nearly 17,000 people were obliged to camp out without shelter, and were dying at the rate of 100 a day from want and exposure. The authorities are providing for their necessities.

Foreigners in Switzerland.

BERNE, July 25.—Germany has notified Switzerland that the treaty between the two governments regulating the settlement of foreigners in Switzerland will not be renewed. The treaty will expire at the end of the month.

Contract Labor.

NEW YORK, July 25.—Four tinsmiths who arrived here last week from Germany under contract to work for a Milwaukee tinmer were yesterday sent back.

The evils resulting from habitual drunkenness are many and serious; but the use of harsh, drastic purgatives is quite as dangerous. In Ayer's pills, however, the patient has a mild but effective aperient superior to all others, especially for family use.

CREAM OF THEM ALL.

A Complete Constitution Presented to the Bismarck Convention. Careful Work of Able Lawyers.

BISMARCK, Dak., July 21.—The constitutional convention has been given a surprise by the presentation of a complete constitution which is being considered this week. The constitution is said to have been prepared with great care and after consultation with some of the ablest constitutional lawyers in the Union. In many respects it is identical with the articles already introduced. It is a compilation of the best provisions of the constitutions of the different states and the United States, fitted to North Dakota.

With regard to taxation it has no specific provisions, embodying the Wisconsin constitutional provision on this subject, which provides that the rate of taxation shall be uniform upon property owned subject to taxation by the legislature, leaving the power of regulating the mode of taxation with the legislature.

It also provides that the property of non-residents shall not be taxed at a higher rate than that of residents; gives the legislature power to fix passenger and freight rates on railroads and transportation companies, the rates to be reasonable, and the courts to decide what are reasonable rates; prohibits the leasing of the credit of the state to any association or corporation; vests judicial power in a court of impeachment, consisting of the senate, supreme court, district court, county courts and justices of the peace thus providing for the establishment of county courts; limits the number of judges of the supreme court to three, which may be increased after five years.

It provides against female suffrage.

The house of representatives shall consist of not less than seventy-five or more than 120 members, and the senate not less than one-third or more than one-half of the size of the house. Each organized county shall be entitled to at least one member of the house. Senators are divided into two classes—one to be selected for two years and the other for four.

It provides for biennial sessions of the legislature, not exceeding ninety days. Two-thirds of the members-elect may override the veto power.

It is against inferior representation, providing for elections by plurality vote. It gives the legislature full power to regulate the liquor license.

Any coal lands which the state may acquire in a congressional grant shall never be sold, but may be leased.

The school fund shall be invested in United States bonds, bonds of the state, first mortgage securities of the state, at not more than half the value of the land. The school bond shall be considered a trust fund, the interest to be used for schools, and in case of the loss of any part of the principal the state must make it good.

It prohibits the passage of special laws. The property of a wife before marriage, and what she may acquire during marriage, shall be exempt from execution on claims against the husband.

It directs the legislature to pass liberal homestead laws; prohibits the incorporation from transacting business in the state until they appoint an agent in the state who shall be subject to process by law; provides that no foreigner shall vote until two years after he has declared his intention to become a citizen, and that the right of the declaration of independence with facility shall be provided the test of the qualification of a voter.

No act of the legislature shall take effect within sixty days after adjournment, unless specially provided for in the preamble or body of the act.

This constitution will furnish abundant material for discussion, and those who have read it predict that it will be adopted with very few changes.

Indorses the Boycott.

TOPEKA, Kas., July 25.—Department Commander Booth, of the G. A. R. of Kansas, has issued a circular letter to members of the department advising them not to attend the national encampment at Milwaukee unless the railroads grant a rate of 1 cent a mile.

No Steel Monopoly Yet.

PITTSBURG, July 25.—The idea that English capitalists will buy any control of the steel industry of the United States, as published, has created considerable good natured fun among some of the manufacturers, who ridicule the idea.

Job Printing.

Merchants and others are hereby reminded that the New Mexican is prepared to do their printing on short notice and at reasonable rates. Much of the job printing now going out of town could come to the New Mexican office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The New Mexican is acknowledged the lending paper of this section. The patronage of the people will enable us to keep it so.

WHERE TO EAT!

MENU

BILLY'S PLAZA RESTAURANT

Friday, July 26, 3 to 7 p. m.

PALACE AVE., Opp. Gov. Prince's

SANTA FE, New Mexico

ARE YOU LOOKING

For a place you can call home? You are tired, perhaps, of "quarter-section farming," even though broad acres of the finest portions of Uncle Sam's domain yet tempt you to change your base of operations further west. Ten, twenty, thirty or forty acres of Rio Grande valley land will furnish you an ample and varied arena for the display of muscular ability, while common sense, taste and a modest capital will in three or four years produce results eminently satisfactory to a man who, to a landable desire for a reasonable pecuniary return for his labor, carries with it a purpose that the balance of his days shall, with his family, be spent amid pleasant and beautiful surroundings. With these remarks, point we to

The Mesilla Valley!

He must be blind indeed who can not see that it is a most favored section. Seekers after health, profit and pleasure, after a thorough search from the lakes to the Pacific coast are finding their El Dorado in New Mexico; and to these new comers, as well as to everybody else, the

RIO GRANDE LAND COMPY

extends a cordial greeting, and invites a careful and thorough inspection of its FINE COLONY LANDS. Some 2,000 acres of which are subdivided and platted into ten and twenty acre blocks (from which incomes can be produced equally as great, if not greater, than the average farms of eighty and 160 acres in the western and northwestern states), and all within a radius of one and one-half miles of the railroad depots at

LAS CRUCES AND MESILLA PARK

Some of these blocks are cultivated, or have bearing orchards and vineyards; others not. Some have tasteful and modern cottages upon them; in others Nature has undisputed dominion. It's merely a question of choice—and money—although the latter does not cut such a figure as one might suppose in these days of boom; and our "long term payment and low interest" plan often adds a little spice to a transaction to one who has an eye to the future. Warranted deeds given. Write or call for plans and circulars. Command us for carriage or other courtesies within our power to give.

W. C. T. U.

The "Broadaxe" of Minister, Mich.

discovers the following suggestive

instance of "automatic reform."

Iuring the progress of a law suit in that city

the fact came out that Albin college, of

the same state, an institution for "making

preachers," almost wholly supported by

leading Christian temperance men, had

loaned a large sum of money to Andrew

Johnson, a Ministerial school keeper, to be

used in the business of making drunkards,

the interest to return, of course, to the

college. As the editor tersely puts it:

"Preachers, by collecting funds for the

college, make drunkards by loaning money

to saloon keepers, and drunkards make

preachers by paying dividends to the

college." The editor concludes that on

second thought this is not so strange

that it quite accords with our social con-

sciousness of the government, for instance,

by carrying on the liquor business, makes

drunkards and then appoints officers to

arrest them; that it makes paupers by

looting them; that it makes thieves by

teaching them to steal; that it makes

murderers by teaching them to kill; and

then tries to suppress them." Has not

the Broadaxe struck near the truth?

Bishop Hurst, in the current Cen-

tral, shows that under the "out still"

system in India the revenue has increased

nearly 20 per cent during the last five

years, a financial triumph more than

counterbalanced by the amazing increase

in the output and consumption of the

same, amounting in Bengal to 135, and in

some districts to 180 per cent. He says:

"The profit is overwhelming that the tem-

perate Hindoos are gradually becoming a

nation of drunkards. Road side grog

shops are multiplying. In one district in

Bengal the government distillery used to

turn out 500 gallons a day. Now, under

the new out still system, the average is

1,500 gallons a day, or three times the

former amount. * * * The object of the

government of India has been to grind

money out of a victim in order to pulverize

the vice." * * *

The San Francisco Examiner offered as

a prize to the best pupil of the grammar

school of that city the price of a visit

to the Paris exposition. There were

several hundred competitors; the prize

was won by May Ayers, a girl of 14 years.

She passed through Chicago last week on

her way to Paris, accompanied by her

mother and sister. All expenses of the

trip are paid by the Examiner.

Twenty-five years hence people will be

astonished that the Christians and re-

formers of this day allowed the tobacco

cure to grow to \$500,000,000 magnitude,

and to grow to the extent of 135, and in

some districts to 180 per cent. He says:

"The profit is overwhelming that the tem-

perate Hindoos are gradually becoming a

nation of drunkards. Road side grog

shops are multiplying. In one district in

Bengal the government distillery used to

turn out 500 gallons a day. Now, under

9. Do not fail to thoroughly cleanse

the floors, walls and ceilings of the living

and sleeping rooms of persons suffering

from consumption at least once in two

years.

By order of the board.

EMMONS CLARK, Secretary.

A Water Mention.

The mayor and city engineer and coun-

ty officials at Las Vegas have nerve. They

have ventured to examine into that city's

water service, and upon the strength of

their ascertained the Optic says:

"The dam of the Agua Pura company

is in a filthy condition, being filled up

within eighteen inches of the surface of

the water with the trash that comes from

the upper part of the stream, and this

"wash" consists of mud, sawdust, rotten

timber and the drainage from barn-yards,

the principal one of which now belongs

to the Agua Pura company. The washings

and drainage from this particular barn-

yard find their way into the company's

dams, and from there into the city, and

that conglomeration of water, mud, dirt

saw dust, rotten wood and dead animals

is what the people of both towns are

paying for under the euphonious name of

pure water.

We feel that the citizens have borne

with this impure water long enough,

and that if the Agua Pura company does

not, at once, promptly forward and

remedy this wrong and outrage, meas-

ures should be taken to seek redress in

the courts and compel the said company to

supply pure and wholesome water to

the people of both towns."

MULTUM IN PARVO.

Insulation Versus Induction.

SALT LAKE, July 24.—There is a singu-

lar suit before Judge Lane. The Rocky

Mountain Bell Telephone company is

suing for an order restraining the Salt

Lake Electric street railroad company

from establishing the electric system on

streets as the telephone company have

their poles in the middle thereof, al-

leging that induction will occur to such

an extent as to seriously interfere with

the work of the telephone wires.

The telephone company claims that

induction does not stop induction, and

that the proximity of the feed wire to

the telephone wires will render the in-

struments valueless and burn out the

annunciation drop.

How He Became Famous.

The Walker, Iowa, News, says: "Our

old farmer, Robert Baird, of Muscatine,

Iowa, has been secretary of the state

senate and an active politician for years,

but was never generally known until he

had the colic and used Chamberlain's

Colic, Cholera and Diarrhoea Remedy,

and got into their advertisements. Now

he is famous. Here is what Mr. Baird

said: "While in Des Moines, I was

with a severe attack of bowel complaint.

For two days I suffered intensely, trying

several drug stores and paying them for

relief, but in vain. I finally bought a

Pile! Pile! Itching Pile!

Symptoms—Moisture; intense itching

and stinging; most at night; worse by

scratching. If allowed to continue tumors

form, which often bleed and ulcerate, be-

coming very sore. Swayne's Ointment

stops the itching and bleeding, heals

ulceration, and in most cases removes

the tumors. At druggists, or by mail, 50

cents. Dr. Swayne & Son, Philadelphia.

Sensible Suggestion.

In looking around the country at the

time of the harvest we have been satisfied

that more than half of the alfalfa fields

have not been sufficiently seeded. Two

pounds more seed than has been put to

the acre would have given better yields

and made better hay.—Exchange.

A Duty to Yourself.

It is surprising that people will use a

common, ordinary pill when they can

secure a valuable English one for the same

money. Dr. Acker's English pills are a

positive cure for sick headache and all

other troubles. They are small, sweet,

easily taken and do not gripe. Sold by

A. C. Ireland, Jr., druggist.

Curing Alfalfa.

The better way to harvest and cure alf-

alfa is to cut it down to-day, let it lay
